New and Changed Help Topics - IATS Version 8.7.1

- **Creating Evacuation Travel Orders:** This Help topic was updated, and the screen image was replaced to show the new check box for **Member Authorized Evacuation Allowance**. In addition, text was added to address this new check box and entitlement.
- **Evacuation Travel Overview:** This Help topic was updated, and text was added to address the new evacuation allowance that was created for Service Members and their dependents when a localized emergency situation arises.
- **Processing Evacuation Travel Requests:** This Help topic was updated, and text was added to address the new evacuation allowance that was created for Service Members and their dependents when a localized emergency situation arises. In addition, the screen image for the What's Authorized tab was replaced, since the warning text has been removed that stated that members and dependents could not be on the same itinerary. That restriction no longer applies for Evacuation orders created on or after 10 October 2024.
- **MILPCS to Training and Return with BAH:** This Help topic was updated, and the screen image was replaced to show that BAH During Training is listed as an entitlement that may be processed (even though the PCS to Training entitlement has not been processed yet) when the user clicks on the Add Entitlements button. In addition, the text was removed that stated the PCS to Training entitlement had to be processed before you were allowed to process the BAH During Training entitlement.

Introduction

Overview

The Integrated Automated Travel System (**IATS**) is a Windows ® based application developed by **Professional Software Consortium, Inc.** to serve as travel claims processing system for use by the Department of Defense (DOD) and various other government agencies. IATS fully automates the entire claim processing cycle - from tracking in-coming claims to reporting expenditures.

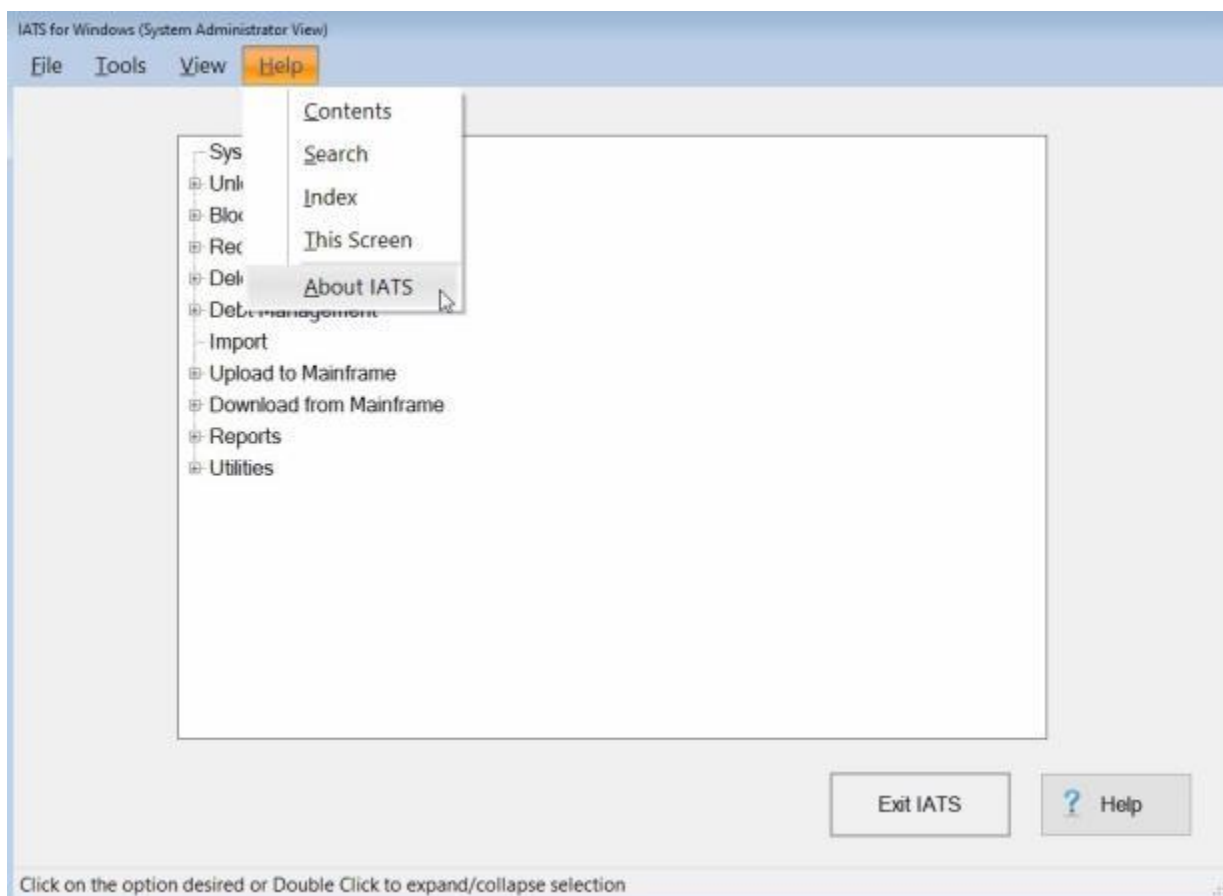

Following, is a list of the major processes automated by IATS:

- Tracking in-coming requests
- Issuance of travel advances
- Computation of settlement requests
- Disbursement capability to produce US Treasury checks
- Disbursement capability via Electronic Funds Transfer (EFT)
- History of all travel transactions
- Debt management
- Interfaces to Accounting, Budget, Disbursing, and Personnel systems
- Interfaces with electronic mail systems.

About IATS

The Integrated Automated Travel System (**IATS**) is a Windows ® based application developed by **Professional Software Consortium, Inc.** to serve as travel claims processing system for use by the Department of Defense (DOD) and various other government agencies. IATS fully automates the entire claim processing cycle - from tracking in-coming claims to reporting expenditures.

After Logging into IATS, the **IATS for Windows** screen **appears** for the [View](#) associated with the users account.

At the IATS for Windows screen, you can **click** on the **Help** option on the tool bar and then select **About IATS** to access information on the following items:

- [System Info](#)
- [IATS Debug Log File](#)
- [License Info](#)
- [Load License](#)
- [CAC Info](#)

After clicking on the **About IATS** option, the following **About IATS** screen will appear:

About IATS.Net

IATS 7.0 - Copyright (C) 2019

Professional Software Consortium, Inc (PSC)

Sybase DB Version 7.2.0.180 Configuration: Army
Workstation Resolution: 1600 X 900 [System Info...](#) [Log File...](#)

The Integrated Automated Travel System is a tool used by the Department of Defense DFAS agencies and the US Coast Guard to reimburse travelers for their authorized expenses incurred during approved Government travel.

Warning: ... The Integrated Automated Travel System (IATS) is the sole property of Professional Software Consortium, Inc. (PSC) of New Jersey. It is licensed to agencies of the United States Government according to licensing agreements arranged with each agency. IATS is licensed for production use only. It is not to be installed in a non-production environment without the express written consent of Professional Software Consortium, Inc. It cannot be distributed to US government facilities not licensed for its use, to any non-governmental agency, installed in training schools, or installed in test/evaluation facilities without the express written consent of PSC.

[OK](#) [? Help](#)

Click on the **See Also** button [below](#) and **select** the **topic** that provides detailed **instructions** for any of the information options listed above.

Login

In order to use IATS, all users must login using a unique **Username** and **Password** combination. This **ensures** only persons with proper **authorization** use IATS to process travel claims.

Start IATS by **clicking** on the associated **icon** on the PC desktop. The following **User-Login** screen appears:

The screenshot shows the 'User Login' window for the IATS Travel Suite Office Interface. At the top, a blue banner displays 'IATS TRAVEL SUITE' and 'Office Interface'. Below this is a photograph of a military helicopter in flight. Underneath the photo, the text reads: 'Copyright (C) 2020 - Professional Software' and 'Application Version Sybase: 7.3.1.142'. The main area contains a form with the label 'Select the IATS database'. A dropdown menu is open, showing 'IATS-Army-8.0' as the selected option. To the right of the dropdown is a 'Next >' button. At the bottom left is a 'Help' button with a question mark icon, and at the bottom right is a 'Cancel' button with a red prohibition sign icon. The footer of the window shows 'IATS Travel Suite' on the left and 'Build Date: June 1, 2021' on the right.

 Complete the following steps to "login" to IATS:

1. **Database:** - If **ODBC connections** have been set-up for more than one IATS database, you will see the **Database** field on the **Log In** screen.
2. At the **Database** field, you can **click** on the *down arrow* button to see a **list** of other available **databases** and then **click** on the desired database if applicable.
3. Once you have **selected** the desired database to log into, if applicable, **click** on the **Next** button.
4. IATS will now display the **User ID** and **Password** fields.
5. **User Name:** - At this field, **type** the assigned **user name** and **press** the *Enter* or *Tab* key to continue.
6. **Password:** - At this field, **type** the assigned **password** and **press** the *Enter* or *Tab* key to continue.
7. **Click** on the **Log In** button.

Note: Passwords should only be known by the individual user. After logging into IATS for the first time, you are required to **change** the System Administrator created **password** to a new password known only to the **user**. In addition, **users** should frequently change their passwords - every 60 days is required. If the user is logging into IATS for the **first time**, the **Change Passwords** screen appears and the user is required to change the **Login** password created by the System Administrator.

8. The next screen to appear is the **Privacy Act**.

User Login

PERSONAL DATA - PRIVACY ACT OF 1974 - HANDLE WITH CARE!

THIS SYSTEM CONTAINS INFORMATION WHICH IS REGULATED BY THE PRIVACY ACT OF 1974. (PUBLIC LAW 93.579). ADEQUATE SAFEGUARDS MUST BE USED WHEN HANDLING AND USING THIS SYSTEM.

PRIVACY ACT STATEMENT AND DOD NOTICE AND CONCENT BANNER ^

AUTHORITY: 5 U.S.C. SECTION 301; DEPARTMENTAL REGULATIONS; 3 SECTION 404, TRAVEL And TRANSPORTATION ALLOWANCES: GENERAL DIRECTIVE 5154.29. DOD PAY And ALLOWANCES POLICY And PROCEDU DEPARTMENT OF DEFENSE FINANCIAL MANAGEMENT REGULATION (Do 7000.14-R, VOLUME 9; And E.O. 9397 (SSN) As AMENDED.

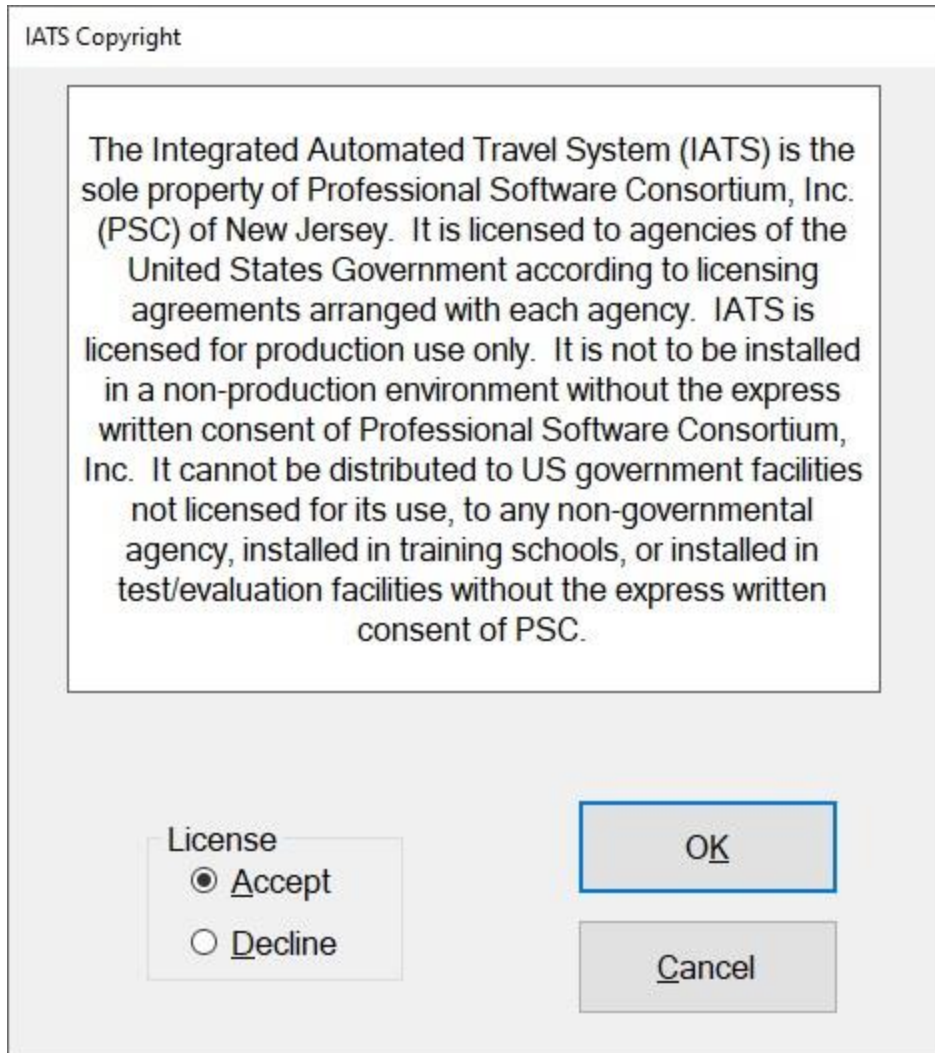

PURPOSE OF USE (S): TO PROVIDE AN AUTOMATED MEANS FOR COMP REIMBURSEMENTS FOR INDIVIDUALS FOR EXPENSES INCURRED INCIC TRAVEL FOR OFFICIAL GOVERNEMENT BUSINESS PURPOSES And TO A FOR SUCH PAYMENTS.

ROUTINE USES: IN ADDITION TO THOSE DISCLOSURES GENERALLY PERMITTED UNDER 5 U.S.C. 552a(b) OF THE PRIVACY ACT OF 1974 AS REQUIRED, THESE RECORDS CONTAINED THEREIN MAY SPECIFICALLY DISCLOSED OUTSIDE THE DOD AS A ROUTINE USE PURSANT TO 5 U.S 552a(b)(3) AS FOLLOWS: TO THE INTERNAL REVENUE SERVICE TO PRC INFORMATION CONCERNING THE PAYMENT OF TRAVEL ALLOWANCES ARE SUBJECT TO FEDERAL INCOME TAX TO THE FEDERAL RESERVE I

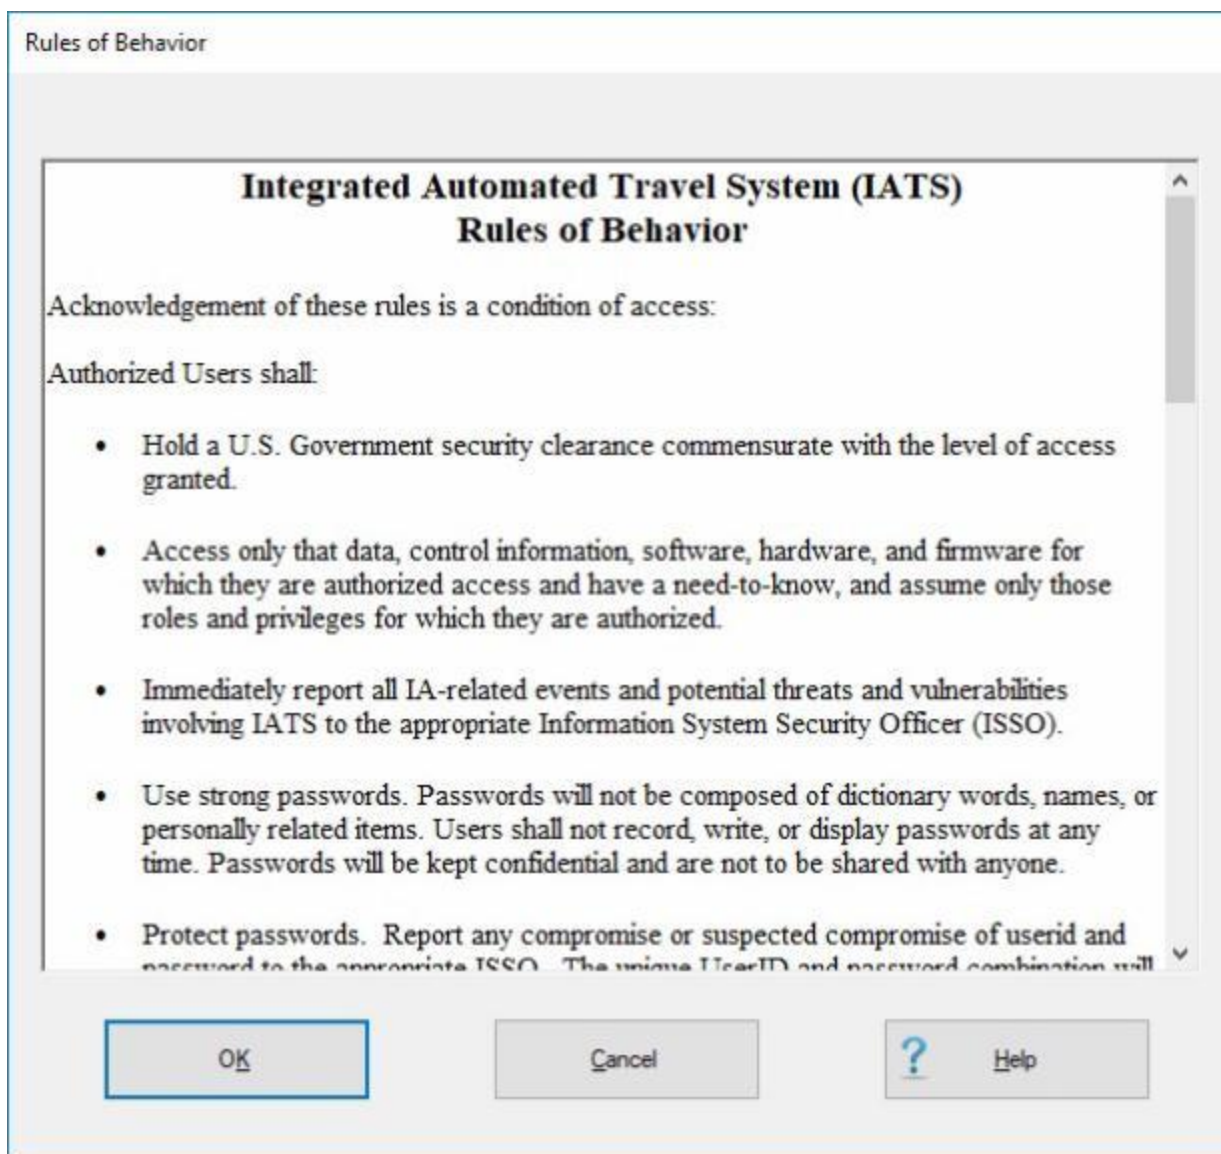

< >

Do you understand and accept these terms and acknowledge responsibility to protect this data?

9. The **Privacy Act** statement appears to remind users that private information is **protected** by public law. **Click** on the **Yes, Proceed** button to indicate understanding of the need to keep this information **confidential** and continue logging into IATS.
10. The next screen to appear is the **IATS Copyright** screen. This screen appears to let the user know that this software is the sole property of **Professional Software Consortium, Inc.** and may not be **installed** or **used** by any organization not possessing a **license** for it's use.

11. At the **IATS Copyright** screen, **click** in the **circle next** to the option **Accept** or **Decline** as applicable and then **click** on the **OK** button.
12. After clicking on the **OK** button, the **Rules of Behavior** screen appears

13. You must **read** through the rules and if you comply, **click** on the **OK** button to continue.
14. **After** clicking on the **OK** button at the **Rules of Behavior** screen, you will see a *pop-up message* displaying your **Login Statistics**.

15. **Click** on **OK** to continue.

16. After clicking on the **OK** button, the **IATS for Windows** screen **appears** for the [View](#) associated with the users account.

Note: A feature was added to IATS "**Prevent Old Version Login**" that **prevents** IATS users without access to the Maintenance module to be able to **login** to IATS if the software is not current. This feature is **activated** by a **switch** that can be turned on or off in the Maintenance module. When this feature is **activated**, a user without access to maintenance privileges will see a **message**, when they attempt to login, stating **Login is disabled because the IATS version is out of date and to contact their System Administrator**. A user with access to maintenance privileges will see a **message**, when they attempt to login, stating **the IATS version is out of date and to contact their System Administrator**. They are, however, **allowed** to continue to **login** and use the **obsolete version**.

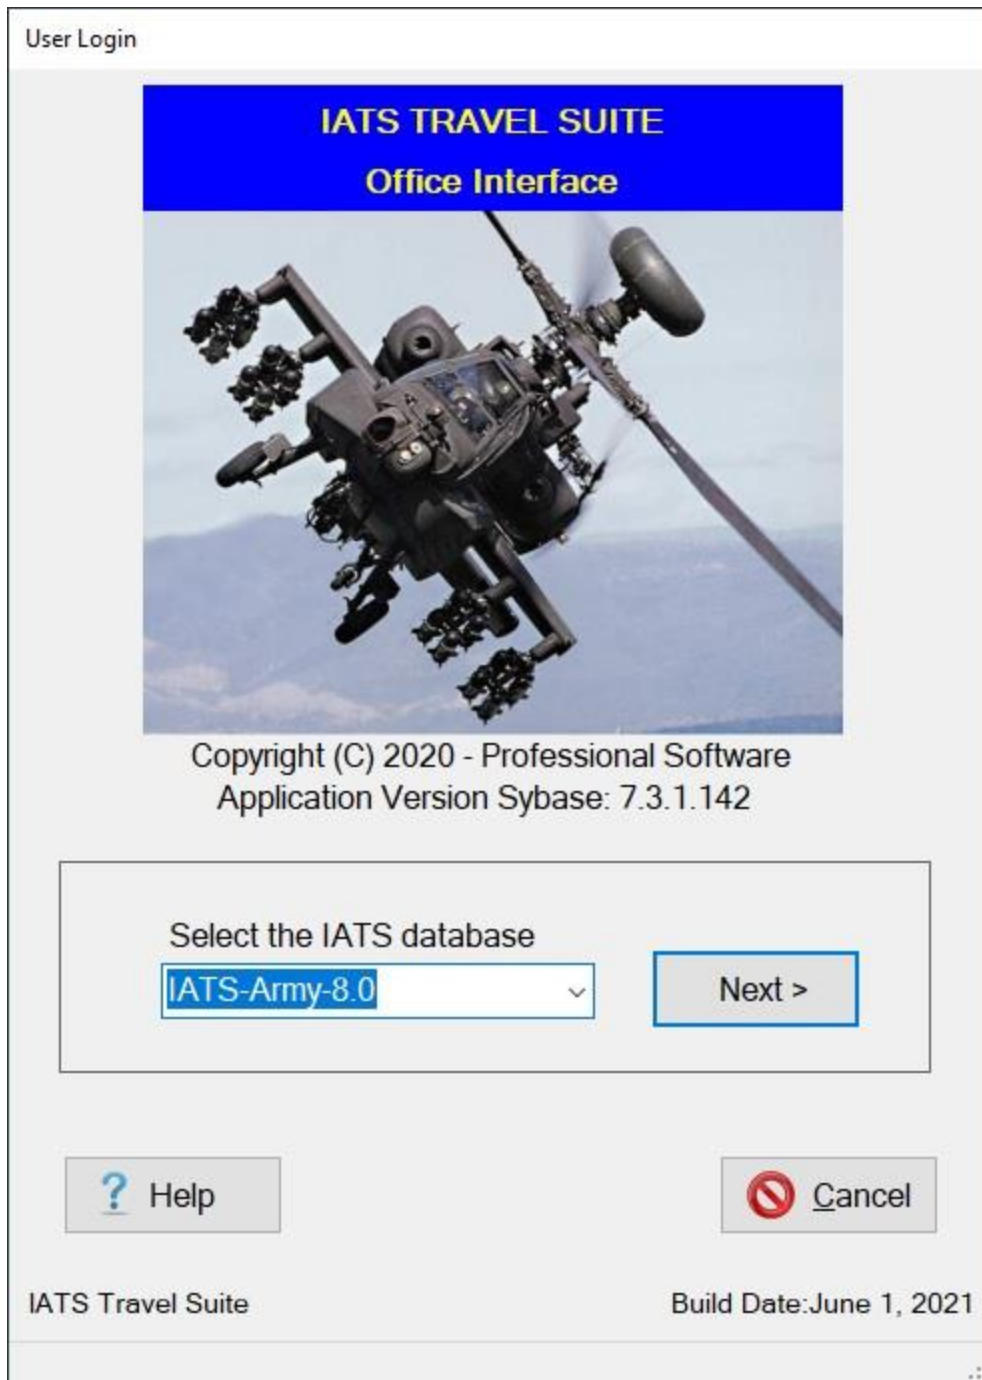

Login using Active Directory and CAC Authentication

In order to use IATS, all users must login using a unique **Username**. This **ensures only** persons with proper authorization use IATS to process travel claims.

Start IATS by **clicking** on the associated **icon** on the PC desktop.

Note: When IATS starts it now automatically checks the user's **Windows Identity** to determine if they are **part** of the **IATS Active Directory Windows Network group**. If the Windows User is determined to not be in the IATS group, IATS will immediately **display a message** to **inform** the user that they are not in that group and will then **exit**.

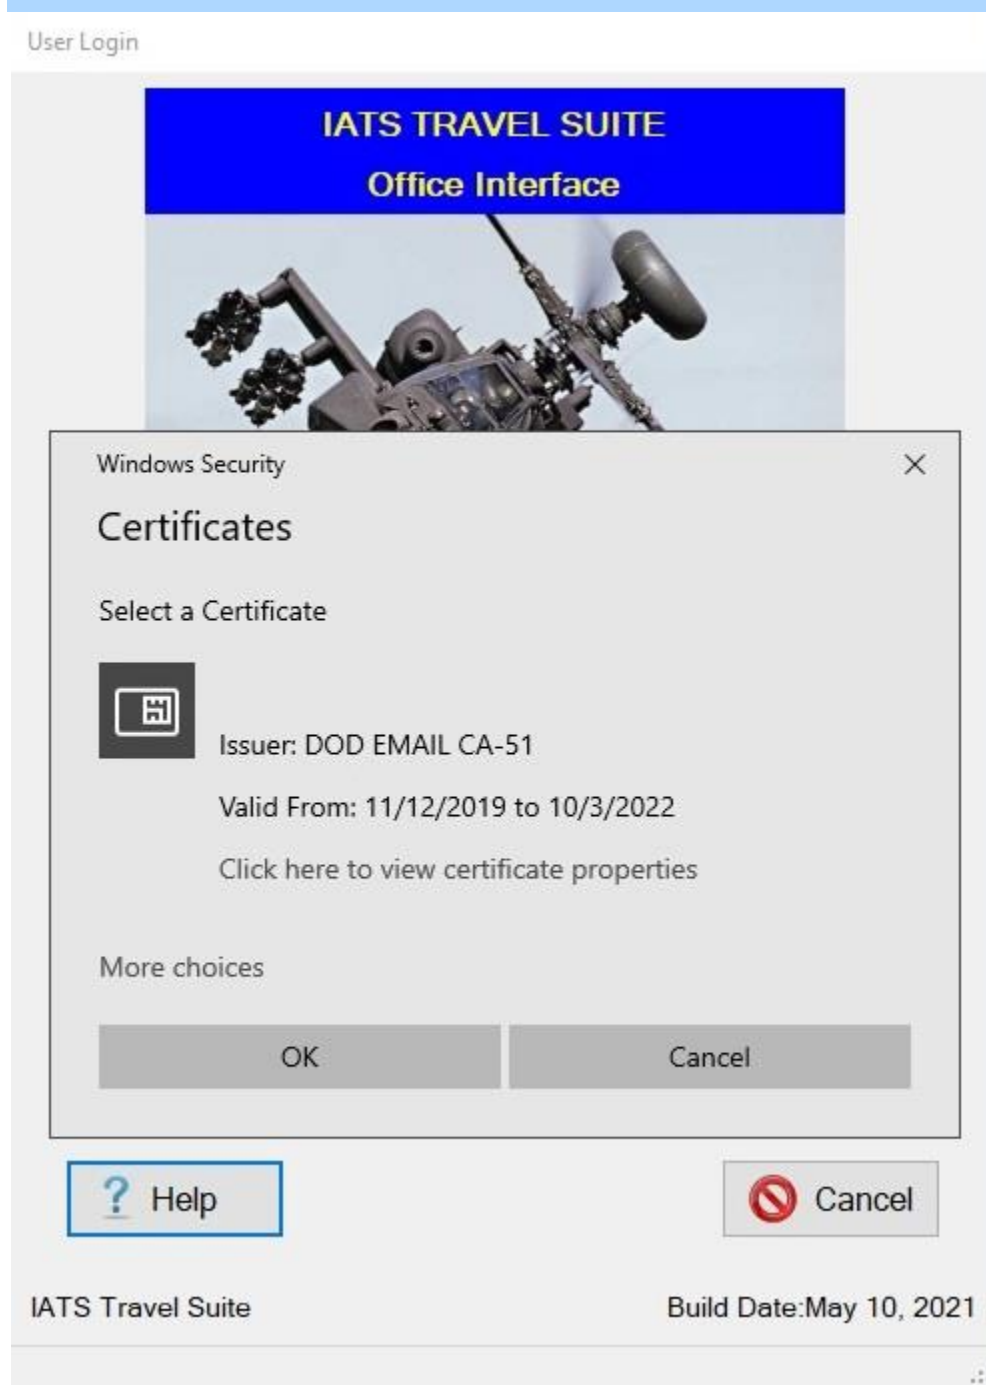

If the user **passes** the first test of "**group membership**" then IATS will display the following **User Login** screen.

 Complete the following steps to "login" to IATS:

1. **Database:** - If **ODBC connections** have been set-up for more than one IATS database, you will see the **Select the IATS Database** field on the **User Login** screen.
2. At the **Database** field, you can **click** on the **down arrow** button to see a **list** of other available **databases** and then **click** on the desired **database** if applicable.
3. Once you have **selected** the desired **database** to log into, if applicable, **click** on the **Next** button.

Note: If IATS detects only one ODBC it will **pre-select** that ODBC and auto-click the **Next** button so that the first screen a user with such a configuration would see is **CAC Certificate** selection and authentication screen as shown below.

4. If the **Certificate** shown by default is not the **correct** one the user must **click** the **“More choices”** link in the lower-left to **display** a full list of certificates found on the CAC as shown below:

5. The user must **select** the **certificate** they've been **instructed by DFAS to use** and **click OK** to proceed.
6. After selecting the appropriate certificate, the **ActivClient Login** screen appears.

7. Here the user must **enter** and **validate** their **CAC PIN**. If the PIN is **correct** IATS will allow them to **proceed**.

Note: If this is the first time the user has logged into IATS, then IATS will display the Username selection screen where they will see the usual **Username** and **Password** fields. The **password** field will be **disabled** and they will need to **enter** an IATS **Username** as instructed by the **IATS administrator**. If the Username they enter is **invalid** or has been **claimed** and **associated** with another user/CAC IATS will **display a message** to let them know.

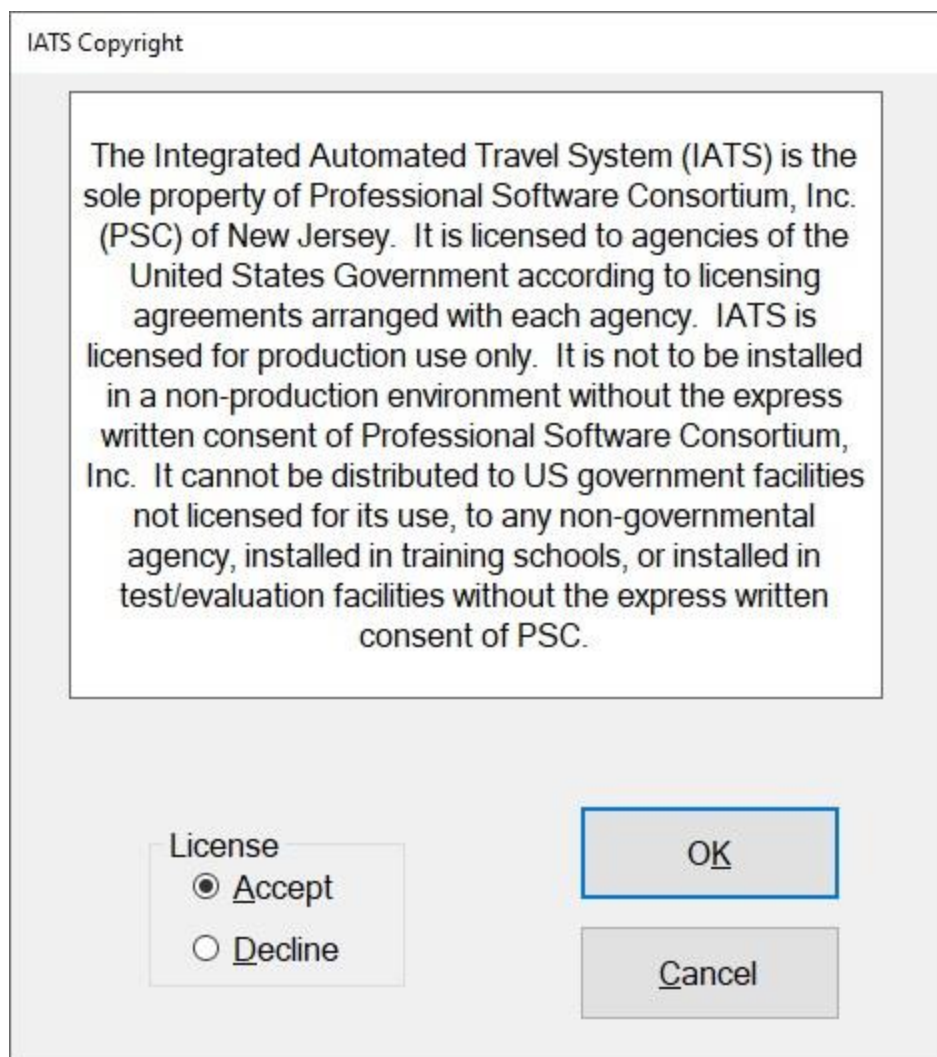

8. The user will not enter a **Password** but will simply **click** the **Log In** button to continue.

Note: Once the user has **logged in** once and **associated** their CAC with an IATS **Username** they will no longer be **prompted** for a Username unless the IATS **system administrator** associates their **CAC** with one or more additional **IATS user IDs**. In that case the user would see the Username and Password view of the login screen again. As before, the **Password** field would be **disabled**. In this case, however, the Username would be displayed as a *drop down list* of IATS Usernames found to be associated with their CAC. They can then **select** the **Username** they want to use and **click** the **Log In** button to **finish** the IATS login process.

9. When the user **clicks** the **Log In** button, or when IATS finds that their CAC certificate is already associated with just one IATS **user account**, IATS automatically **displays** the **Privacy Act** screen

The screenshot shows a 'User Login' window. At the top, it says 'PERSONAL DATA - PRIVACY ACT OF 1974 - HANDLE WITH CARE!'. Below that, a bolded statement reads: 'THIS SYSTEM CONTAINS INFORMATION WHICH IS REGULATED BY THE PRIVACY ACT OF 1974. (PUBLIC LAW 93.579). ADEQUATE SAFEGUARDS MUST BE USED WHEN HANDLING AND USING THIS SYSTEM.' A scrollable text box contains the following text: 'PRIVACY ACT STATEMENT AND DOD NOTICE AND CONCENT BANNER', 'AUTHORITY: 5 U.S.C. SECTION 301; DEPARTMENTAL REGULATIONS; 3 SECTION 404, TRAVEL And TRANSPORTATION ALLOWANCES: GENERAL DIRECTIVE 5154.29. DOD PAY And ALLOWANCES POLICY And PROCEDU DEPARTMENT OF DEFENSE FINANCIAL MANAGEMENT REGULATION (Do 7000.14-R, VOLUME 9; And E.O. 9397 (SSN) As AMENDED.', 'PURPOSE OF USE (S): TO PROVIDE AN AUTOMATED MEANS FOR COMP REIMBURSEMENTS FOR INDIVIDUALS FOR EXPENSES INCURRED INCIC TRAVEL FOR OFFICIAL GOVERNEMENT BUSINESS PURPOSES And TO A FOR SUCH PAYMENTS.', and 'ROUTINE USES: IN ADDITION TO THOSE DISCLOSURES GENERALLY PERMITTED UNDER 5 U.S.C. 552a(b) OF THE PRIVACY ACT OF 1974 AS REQUIRED, THESE RECORDS CONTAINED THEREIN MAY SPECIFICALLY DISCLOSED OUTSIDE THE DOD AS A ROUTINE USE PURSANT TO 5 U.S 552a(b)(3) AS FOLLOWS: TO THE INTERNAL REVENUE SERVICE TO PRC INFORMATION CONCERNING THE PAYMENT OF TRAVEL ALLOWANCES ARE SUBJECT TO FEDERAL INCOME TAX TO THE FEDERAL RESERVE I'. Below the scroll box is the question 'Do you understand and accept these terms and acknowledge responsibility to protect this data?' and two buttons: 'Yes - Proceed' and 'No - Cancel'.

10. The **Privacy Act** statement appears to remind users that private information is **protected** by public law. **Click** on the **Yes - Proceed** button to indicate understanding of the need to keep this information **confidential** and continue logging into IATS.
11. The next screen to appear is the **IATS Copyright** screen. This screen appears to let the user know that this software is the sole property of **Professional Software Consortium, Inc.** and may not be **installed** or **used** by any organization not possessing a **license** for it's use.

12. At the **IATS Copyright** screen, **click** in the **circle next** to the option **Accept** or **Decline** as applicable and then **click** on the **OK** button.
13. After clicking on the **OK** button, the **Rules of Behavior** screen appears

14. You must **read** through the rules and if you comply, **click** on the **OK** button to continue.

15. **After** clicking on the **OK** button at the **Rules of Behavior** screen, you will see a *pop-up message* displaying your **Login Statistics**.

16. **Click** on **OK** to continue.
17. After clicking on the **OK** button, the **IATS for Windows** screen **appears** for the [View](#) associated with the users account.

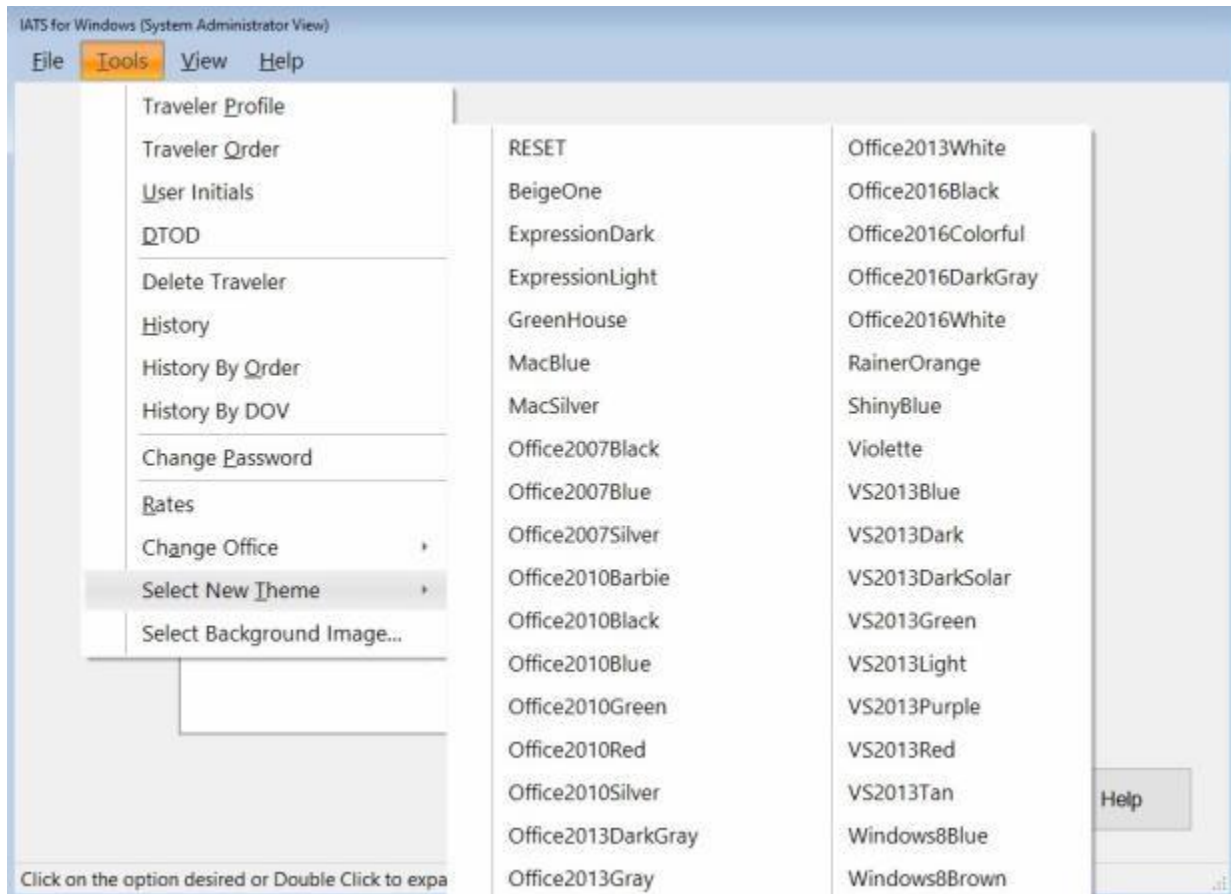

Note: A feature was added to IATS "**Prevent Old Version Login**" that **prevents** IATS users without access to the Maintenance module to be able to **login** to IATS if the software is not current. This feature is **activated** by a **switch** that can be turned on or off in the Maintenance module. When this feature is **activated**, a user without access to maintenance privileges will see a **message**, when they attempt to login, stating **Login is disabled because the IATS version is out of date and to contact their System Administrator**. A user with access to maintenance privileges will see a **message**, when they attempt to login, stating **the IATS version is out of date and to contact their System Administrator**. They are, however, **allowed** to continue to **login** and use the **obsolete version**.

Selecting a new Theme

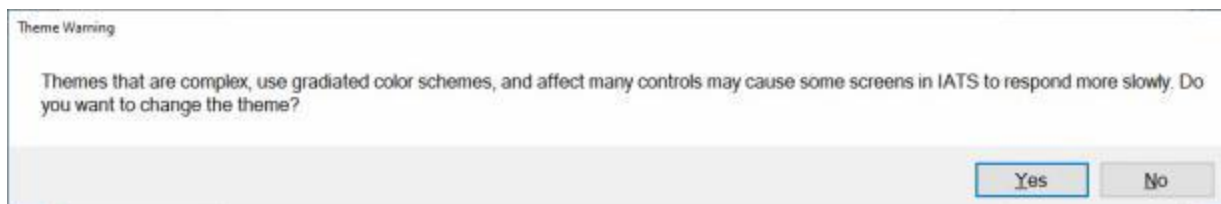

In computing, a **theme** is a preset package containing **graphical appearance** details. A **theme** usually comprises a set of **shapes** and **colors** for the graphical control elements, the window **decoration** and the window. **Themes** are used to **customize** the **look** and **feel** of a piece of **computer software** or of an operating system.

The IATS program was designed using a **specific** theme. A **feature** was added, however, to allow an IATS user to **change** the default **theme** to another one if desired.

 Complete the following steps to "change" the default IATS theme:

1. At the **IATS for Windows** screen, regardless of your view, **click** the **Tools** menu and then **click** on the **Select New Theme** option.
2. You will see a **variety of theme names** appear.
3. **Click** on the new theme you wish to select. IATS will **change** the appearance to the selected theme.
4. IATS may display the following **warning message** depending on the theme you select.

5. If this warning message appears, **click** on Yes or No as desired.

6. If you wish to **change** the theme **back** to the **default** theme, **click** on the **RESET** option as shown above.

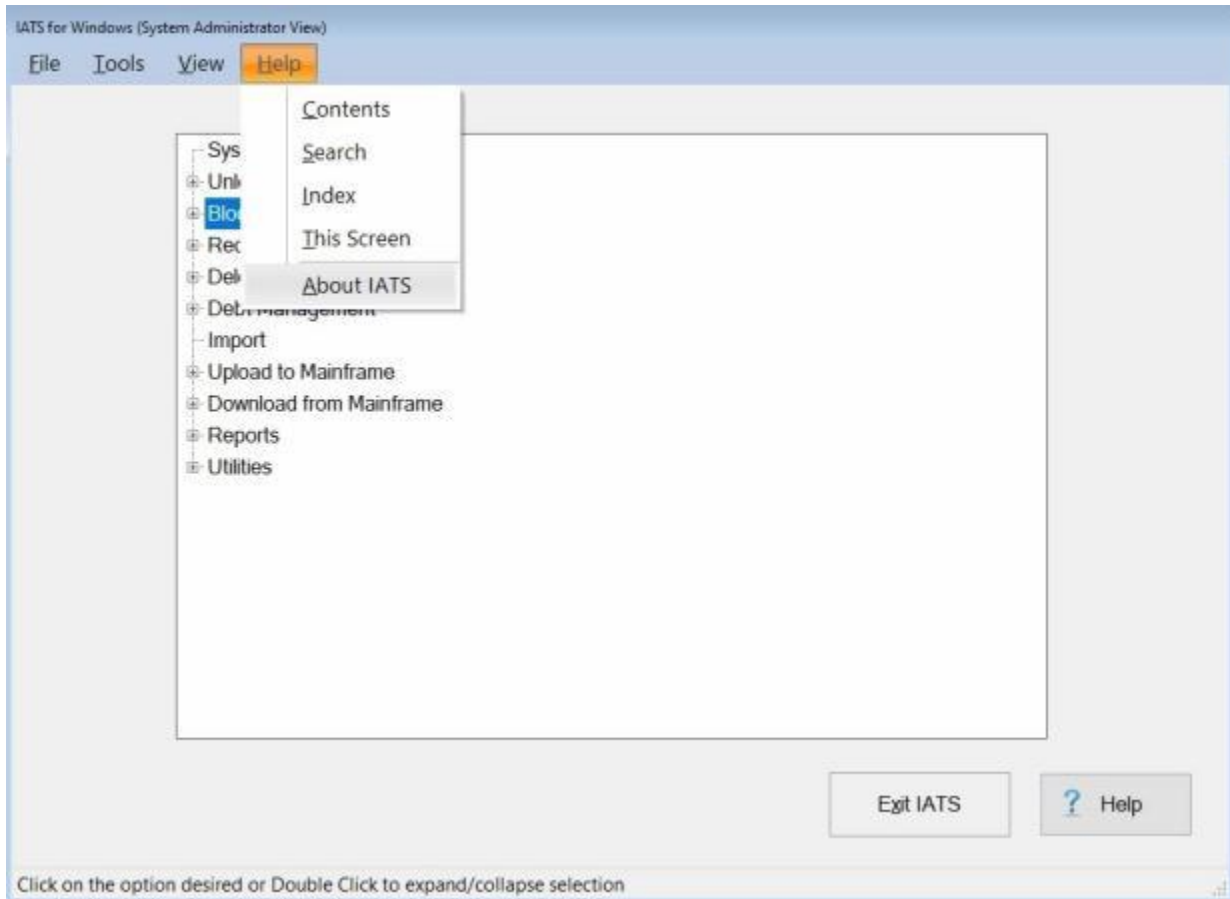

Note: It is **recommended** that you **log out** of IATS and **log back in** after **resetting** the theme since the **fonts** do not always **reset** as expected..

Displaying your System Info

On occasion, a **representative** from Professional Software Consortium (**PSC**) or **DFAS** may **assist** an IATS user with a particular **error** with the IATS software. Often times, the representative may need to **review** the **System Information** for the user's PC.

A **feature** was added to IATS that **enables** you to easily **display** the **System Information** for your computer.

 Complete the following steps to "display" the System Information for your computer:

1. At the **Menu bar** at the **top** of the IATS **System Administrator, Examiner, Auditor, or Disbursing** View screen, **click** on the **Help** option. A **drop down list** of additional options will appear.
2. **Click** on the **About IATS** option. The **About IATS** screen appears.

4. **Click** on the **(X)** in the top right **corner** when you are **finished** reviewing the **System** screen.

Locating the IATS Debug Log File

On occasion, a **representative** from Professional Software Consortium (**PSC**), may **assist** an IATS user with a particular **error** with the IATS software. Often times, the representative may need to **review** the IATS **debug log file** that resides on the users computer.

A **new feature** was added to IATS that **enables** you to easily **find** the **location** where the IATS debug log file **resides** on your computer.

 Complete the following steps to "find" the location where the IATS debug log file resides:

1. At the **Menu bar** at the top of the IATS **System Administrator, Examiner, Auditor, or Disbursing** View screen, **click** on the **Help** option. A *drop down list* of additional options will appear.
2. **Click** on the **About IATS** option. The **About IATS** screen appears.

3. At the About IATS screen, **click** on the **Log File** link. The **File Explorer** screen will appear showing the exact drive/directory where the IATS debug log file is residing..

The screenshot shows a Windows File Explorer window with the address bar set to 'This PC > Windows (C:) > Users > Dave > AppData > Local > Temp'. The left sidebar shows the navigation pane with 'Windows (C:)' selected. The main pane displays a list of files and folders with columns for Name, Date modified, Type, and Size. The file 'NetIATS' is highlighted in blue.

Checking the Status of your IATS License

A valid and current **license** is required in order to use the IATS program. This license is **included** with the IATS software but will **expire** after **60 days** if the monthly **per diem rates update** provided by Professional Software Consortium (**PSC**) is not installed.

A new **feature** was added to IATS that enables you to **check** the **status** of your IATS **license** to determine if the **expiration** date is near.

 **Complete the following steps to "check" the status of your IATS license:**

1. At the **Menu bar** at the top of the IATS **System Administrator, Examiner, Auditor, or Disbursing** View screen, **click** on the **Help** option. A *drop down list* of additional options will appear.
2. **Click** on the **About IATS** option. The **About IATS** screen appears.

The Integrated Automated Travel System is a tool used by the Department of Defense DFAS agencies and the US Coast Guard to reimburse travelers for their authorized expenses incurred during approved Government travel.

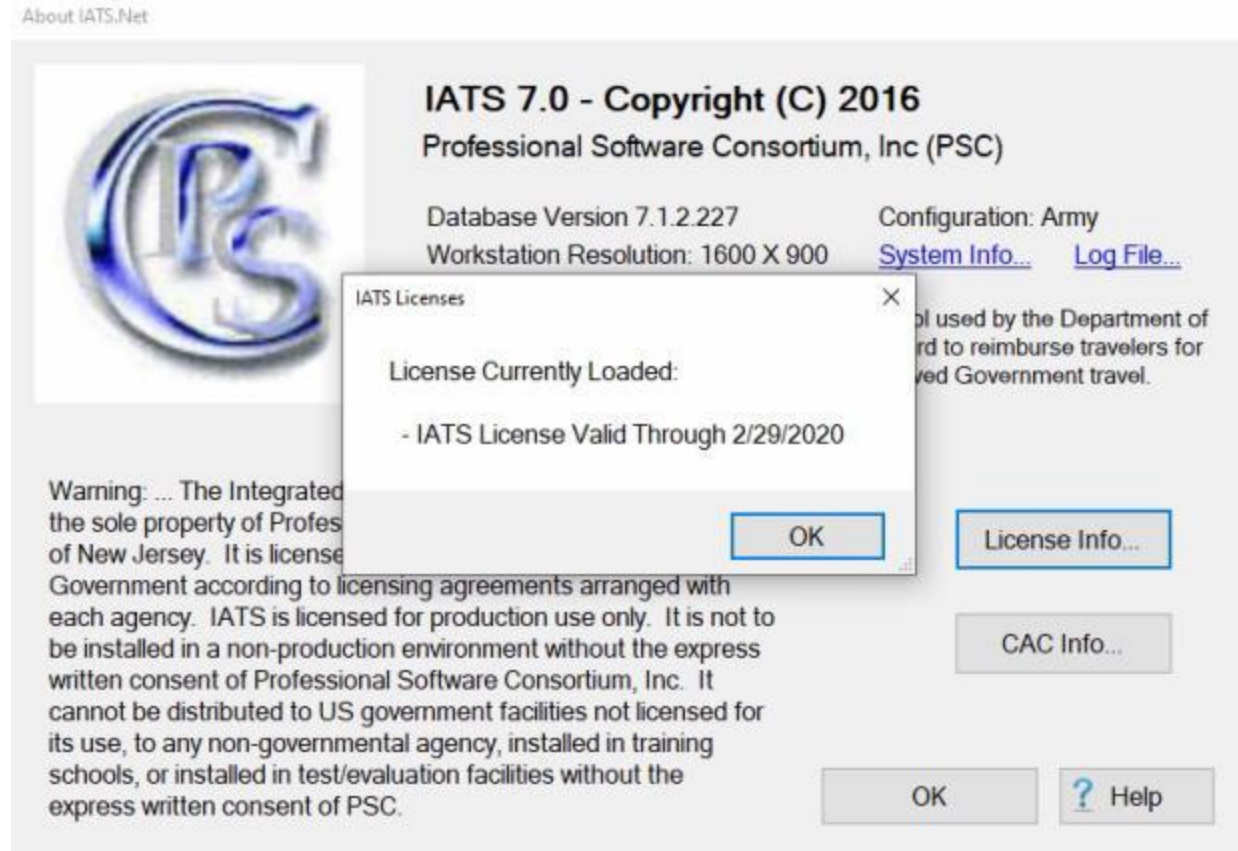

Warning: ... The Integrated Automated Travel System (IATS) is the sole property of Professional Software Consortium, Inc. (PSC) of New Jersey. It is licensed to agencies of the United States Government according to licensing agreements arranged with each agency. IATS is licensed for production use only. It is not to be installed in a non-production environment without the express written consent of Professional Software Consortium, Inc. It cannot be distributed to US government facilities not licensed for its use, to any non-governmental agency, installed in training schools, or installed in test/evaluation facilities without the express written consent of PSC.

[OK](#) [? Help](#)

3. At the About IATS screen, **click** on the **License Info** button. The **IATS Licenses** display will appear.

4. **Click** on the **OK** button after you have **finished** reviewing your IATS license information.

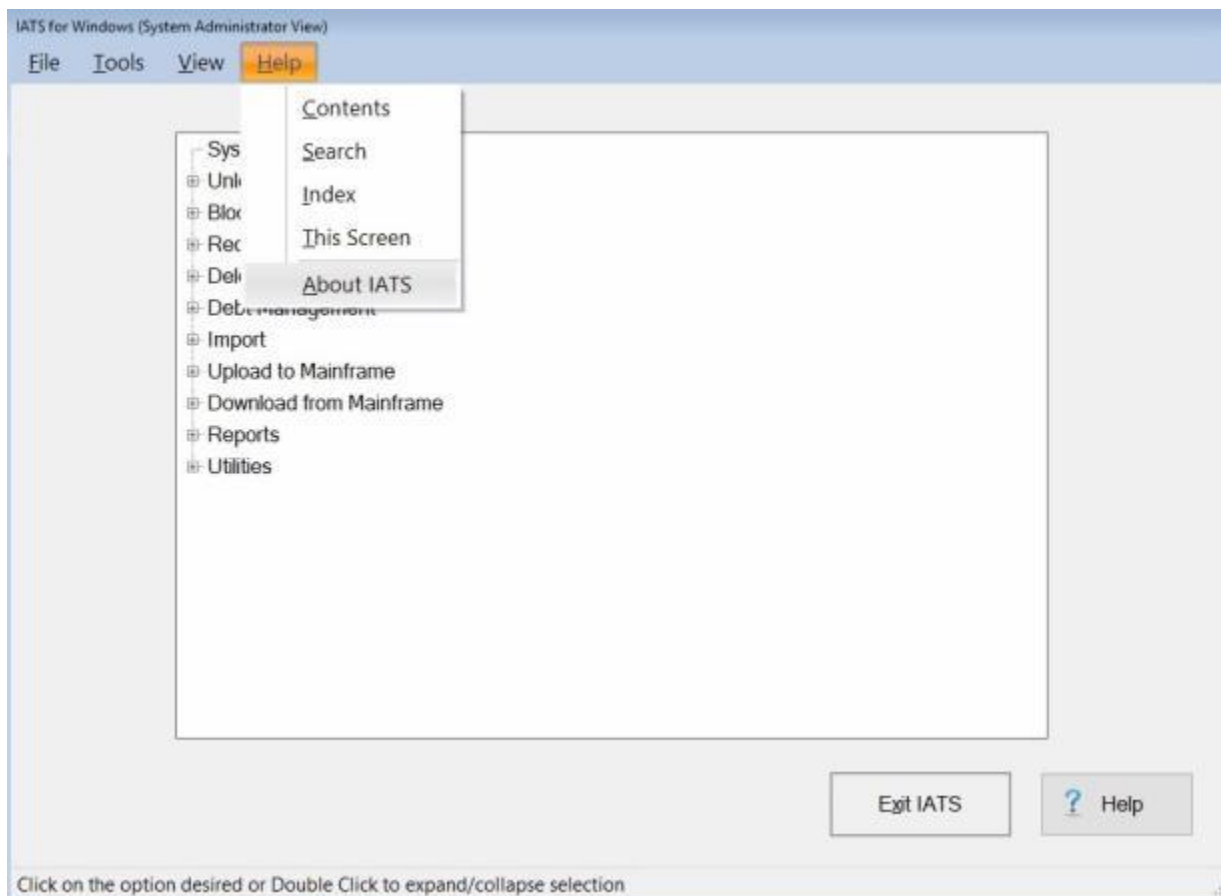

Load License

A valid and current **license** is required in order to use the IATS program. This license is **included** with the IATS software but will **expire** after **60 days** if the monthly **per diem rates update** provided by Professional Software Consortium (**PSC**) is not installed.

In addition, a **special license** is **needed** to use some of the **IATS features**. These features are typically specific to a particular **IATS customer**.

A new **feature** was **added** to allow users to easily **load** a required **license**.

 **Complete the following steps to "load" an IATS license:**

1. At the **Menu bar** at the top of the IATS **System Administrator, Examiner, Auditor,** or **Disbursing** View screen, **click** on the **Help** option. A *drop down list* of additional options will appear.
2. **Click** on the **About IATS** option. The **About IATS** screen appears.

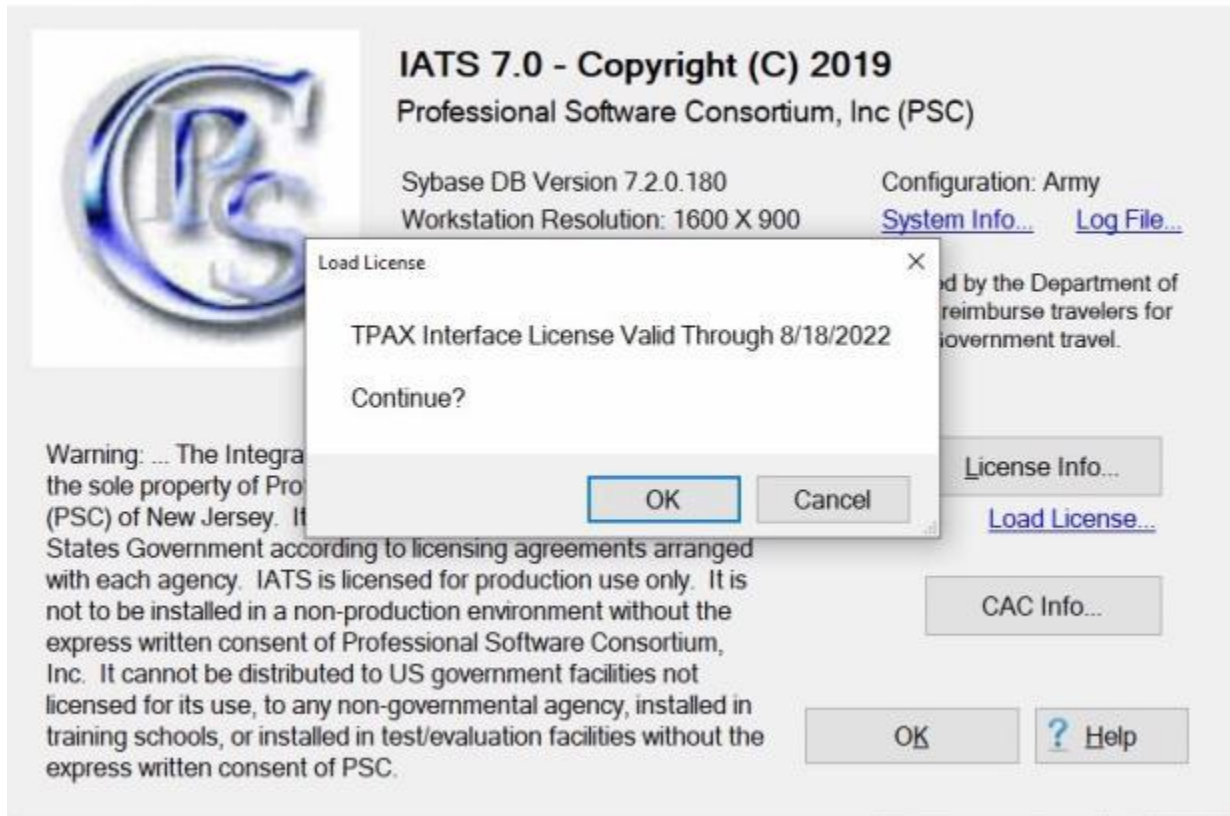

3. At the About IATS screen, **click** on the **Load License** link. The **Open** screen will appear.

4. At the **Open** screen, **navigate** to the **drive/directory/folder** where the **license file** is **located**.
5. **Click** on the **license file** you wish to load.
6. When the desired file is **highlighted** as shown above, **click** on the **Open** button.

About IATS.Net

7. IATS **displays a message** pertaining to the **status** of the license as shown above.
8. **Click** on **OK** to continue. IATS **loads** the selected license.

Displaying your CAC Info

On occasion, a **representative** from Professional Software Consortium (**PSC**), may **assist** an IATS user with determining what their **CAC identification number** is that is associated to their IATS **user account**. This information is entered into IATS when their user account is created and is stored in the IATS database.

A **feature** was added to IATS that allows a user to quickly and easily **display** their **CAC information**.

 Complete the following steps to "display" the System Information for your computer:

1. At the **Menu bar** at the top of the IATS **System Administrator, Examiner, Auditor, or Disbursing** View screen, **click** on the **Help** option. A *drop down list* of additional options will appear.
2. **Click** on the **About IATS** option. The **About IATS** screen appears.

4. When you are **finished** reviewing the CAC info, **click** on the **OK** button to continue.

Checking Inactivity for an IATS User

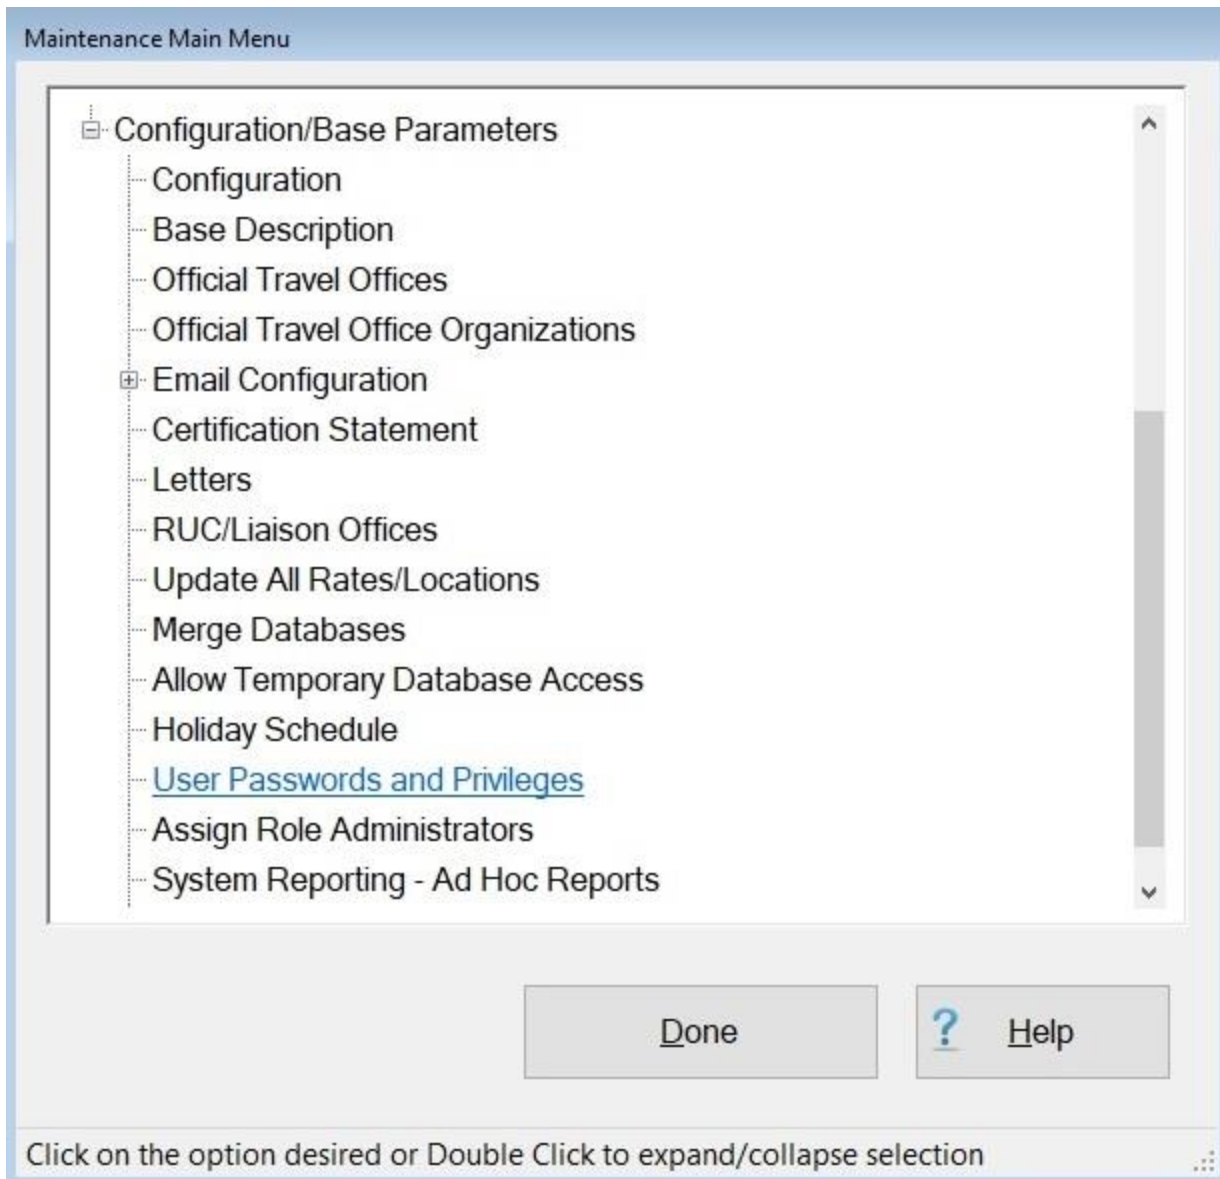

An IATS **user account** will automatically be **suspended** after a particular number of days of **inactivity**, which is determined by the organization.

A feature was added to IATS to allow the System Administrator to **check** the **inactivity status** of an IATS user.

 Complete the following steps to "check" the inactivity status of an IATS user:

1. At the **System Administrator View** screen, **click** on the **View** option. A *drop down menu* appears listing the various views the user has the **privilege** for.
2. **Click** on the **Maintenance** option. The **Maintenance Main Menu** screen will appear.

3. **At the Maintenance Main Menu, click on the plus sign to the left of the item Configuration/Base Parameters.** An expandable menu appears listing the various options.
4. **Click on the User Passwords and Privileges option.** The **Maintain User Passwords and Privileges** screen appears.

Enter the user's last name

5. **Click** on the desired **user name** from the list of IATS user accounts in the **grid** on the left side of the screen.

6. If you position your **mouse pointer** over the words **User ID** at the top of the screen, a *pop-up* message will appear showing **how many days** the selected user has been **inactive**.
7. **Notice** at the bottom of the screen there is a **statement** indicating the **number of days of inactivity** that will cause the user account to become **suspended**.

Accessing the Maintenance Screen

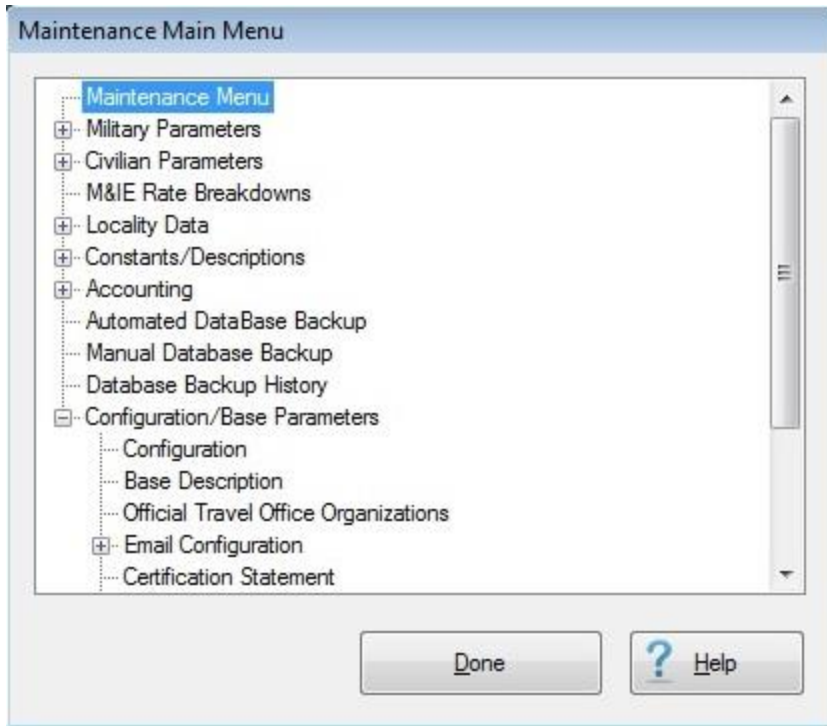

The IATS **Maintenance Module** is where IATS users must **establish** all of the **configuration parameters** for their particular customer type or branch of service.

Access to the IATS Maintenance Module is **only** available from the **System Administrator** screen if the user has been granted the **privilege** to access Maintenance.

 Complete the following steps to "access" the IATS Maintenance Module:

1. At the **System Administrator View** screen, **click** on the **View** option. A *drop down menu* appears listing the various views the user has the **privilege** for.
2. **Click** on the **Maintenance** option. The **Maintenance Main Menu** screen will appear.

Changing Passwords

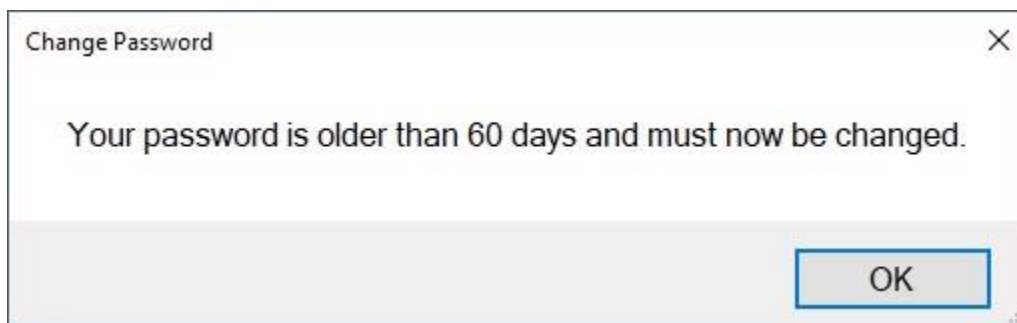

Passwords should only be known by the individual user. After logging into IATS for the first time, you are required to **change** the System Administrator created **password** to a new password known only to the user.

Password Requirements:

- Passwords must be **case sensitive**
- At least **8** characters must be **changed** to be valid
- You cannot change your password to a password that was previously used during the last **12** months or the last 10 passwords used
- Passwords must be a minimum of a **15-character** mix of **upper case letters, lower case letters, numbers, and special characters** (i. e. @, #,\$,%,&,!).
- A **15-character** password consists of the following:
 - At least two lower case letters.
 - At least two upper case letters.
 - At least two numbers.
 - At least two special characters.

In addition, the DoD **requires** you to **change** your **logon** password every 60 days.

If you have logged into IATS and your **logon** password is **expired**, the following *pop-up message* appears:

When this pop-up message is displayed, **click** on the **OK** button. The **Change Passwords** screen appears and you will then need to **complete** steps **3 - 7** below to change your passwords.

Note: When changing your **logon** password, you must enter a **new** password that was different than the **old** one.

 **Complete the following steps to "change" your passwords:**

Note: An IATS user may only change their passwords **once** during a **24 hour period**.

1. **Login** to IATS.
2. At the **IATS for Windows** screen, regardless of your view, **click** the **Tools** menu and then **click** on the **Change Password** option. The following screen appears:

Change Passwords

Logon Password

Old Password

New Password

Re-enter New Password

Confirmation Password

Old Password

New Password

Re-enter New password

OK Cancel ? Help

Enter old logon password

At this screen, type the requested information and press the *Enter* or *Tab* key to continue.

3. **Old Password:** Enter your current password.
4. **New Password:** Enter your new password.
5. **Re-enter New Password:** Re-enter the password you just entered at the **New Password** field to ensure accuracy.
6. **Repeat** steps 3-6 above to change the **Confirmation Password** also, if desired.
7. After entering the new password information, **click** the **OK** button to continue.

Change Offices

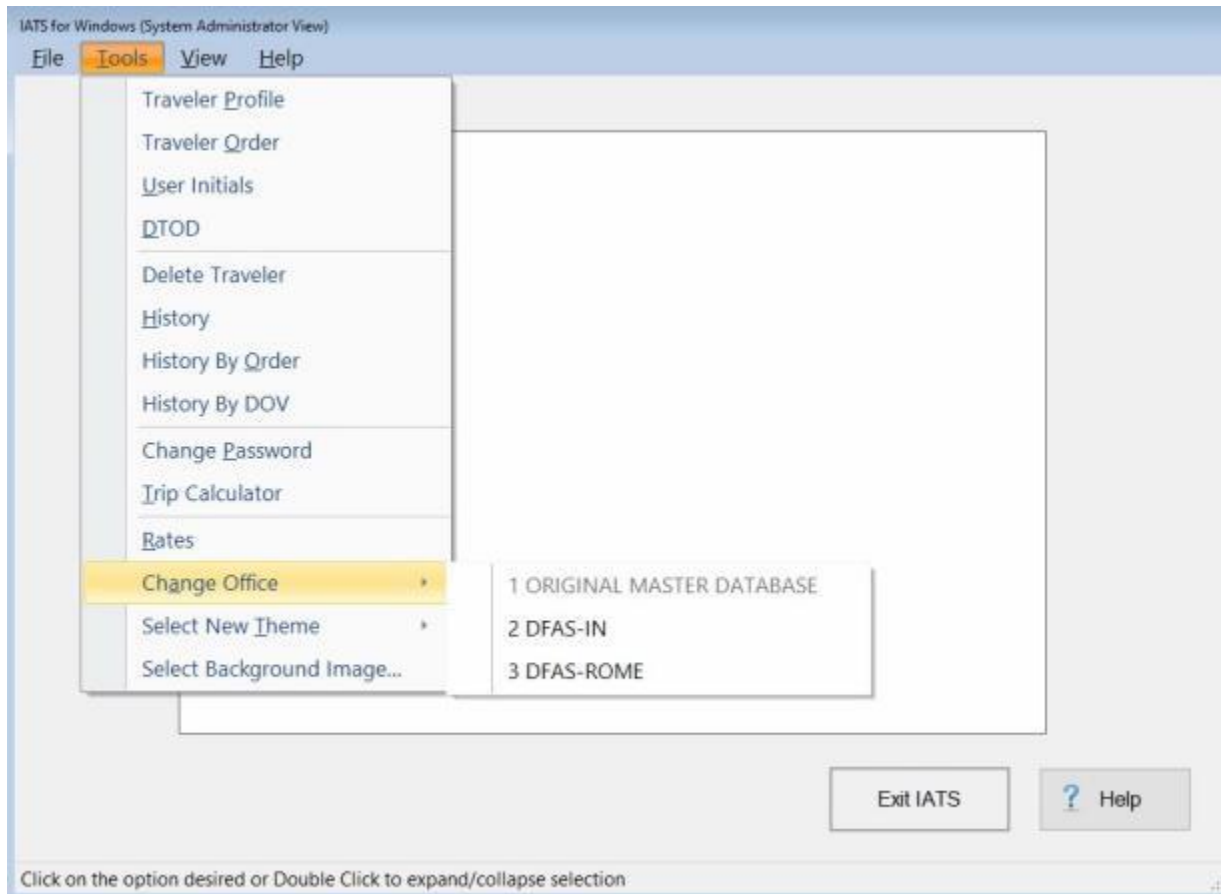

IATS allows travel offices to **combine** multiple **databases** into one **centralized** database. This applies even if the configuration/customer type is different. For example, the original master database was Army, but DLA, Marines, and Navy, databases were merged into the original master database.

If this situation occurs, users must have a way to **switch** between the different offices/configurations after logging into IATS.

Note: In order to be able to perform this task, a user with the **privilege** to [create/modify user passwords and privileges](#) must **access** the **maintenance** module and **specify** which offices are **active** for a particular user.

 **Complete the following steps to "change" your office:**

1. **Login** to IATS.
2. At the **IATS for Windows** screen, regardless of your view, **click** the **Tools** menu and then **click** on the **Change Office** option. A *sub-menu* will appear **listing** the **offices** that are **active** for the particular user.

3. **Click** on the desired **office** you wish to switch to.
4. The **Confirmation Password** screen appears and you must **enter** your **confirmation password** and then click on **OK**.
5. After you have switched offices, the office **name** you have switched to will now **appear** in the **label** at the top of the screen as shown below.

IATS 8.7.1 User Guide

Navigation

After a user logs-in to IATS, **navigation** through IATS is accomplished in a variety of **ways**:

- **Using a mouse:** - Since IATS is a **Windows®** based program, a **mouse** is a common and frequently used **device** for navigating through IATS. Users may **click** on menu options, button options, selection **lists**, and input **fields** to make selections or access fields.
- **Using a Keyboard:** - Every **effort** was made during the development of IATS to allow the user to **press** keys on the **keyboard** to **navigate** through IATS.
- **Arrow Keys:** - When using the **keyboard**, the *Up/Dn* **arrow** keys may be used to **navigate** through **menu** options, *drop down lists*, and **tables**.
- **Hot Keys:** - When using the **keyboard**, users will often see a **letter** underlined on a **button** or **menu option**. If you don't see any underlined letters, press the **Alt** key to make them appear. When you see underlined letters, **press** and **holds** down the **Alt** key on the keyboard and then **presses** the **letter** that is underlined IATS **performs** the associated function.
- **Tab Key:** - When using the **keyboard**, it is best to **use** the **Tab** key to navigate through the various input fields. **Pressing** the **Tab** key will usually **take** the user to the next input **field**. Depending on the **screen**, however, this may not always **work**.
- **Enter Key:** - When using the **keyboard**, users may also **press** the *Enter* key to navigate through the various input fields. **Pressing** the **Enter** key will usually **take** the user to the next input **field**. Depending on the **screen**, however, this may not always **work**.
- **Space Bar:** - When using the **keyboard**, certain input **screens** require the user to make selections to activate **features** or **entitlements** as depicted in the screen displayed below.

System Description			
Standalone	<input type="checkbox"/>	Allow Claims by Self	<input type="checkbox"/>
DoD ID Required	<input type="checkbox"/>	Audit/Enter Same Claim	<input checked="" type="checkbox"/>
Liaison Reports	<input type="checkbox"/>	Use OCR Font	<input type="checkbox"/>
Reservist Travel	<input checked="" type="checkbox"/>	Payroll Office	<input checked="" type="checkbox"/>
Reason for Delete	<input checked="" type="checkbox"/>	Enable CAC	<input type="checkbox"/>
RITA Office Aware	<input type="checkbox"/>	Allow Duplicate Login	<input checked="" type="checkbox"/>
Prevalidate Accounting	<input type="checkbox"/>	Massive Multiple Travel	<input checked="" type="checkbox"/>
Forced Audit	<input type="checkbox"/>	HHG Calculator	<input type="checkbox"/>
Prepayment Audit	<input type="checkbox"/>	Use ISO 3166 Codes	<input type="checkbox"/>
EFT Rejects	<input checked="" type="checkbox"/>	ID Reason for Suppl	<input checked="" type="checkbox"/>
Auto Delete Blocks	<input type="checkbox"/>	Change DBs	<input type="checkbox"/>
Email Completed Claims	<input type="checkbox"/>	Cash Payment Allowed	<input type="checkbox"/>
HHG DPS Interface Active	<input checked="" type="checkbox"/>	Create Voucher Print File	<input type="checkbox"/>
# Days User Suspended till Deleted:	<input type="text" value="15"/>	Use Roles	<input type="checkbox"/>
ReAssign Claims w/o Block List	<input checked="" type="checkbox"/>	ODS Secure Upload Active	<input checked="" type="checkbox"/>
Return Reason Is Mandatory	<input checked="" type="checkbox"/>	Allow DTOD Override	<input checked="" type="checkbox"/>
Prevent Old Version Login	<input type="checkbox"/>	Activate DTOD Web Service	<input type="checkbox"/>
Force Selection of Liaison Office	<input type="checkbox"/>	Enable Safeguards	<input type="checkbox"/>
		Scrub Disbursing Uploads	<input type="checkbox"/>
		Allow Auditor Remarks	<input checked="" type="checkbox"/>
		Use DMDC Web API	<input type="checkbox"/>

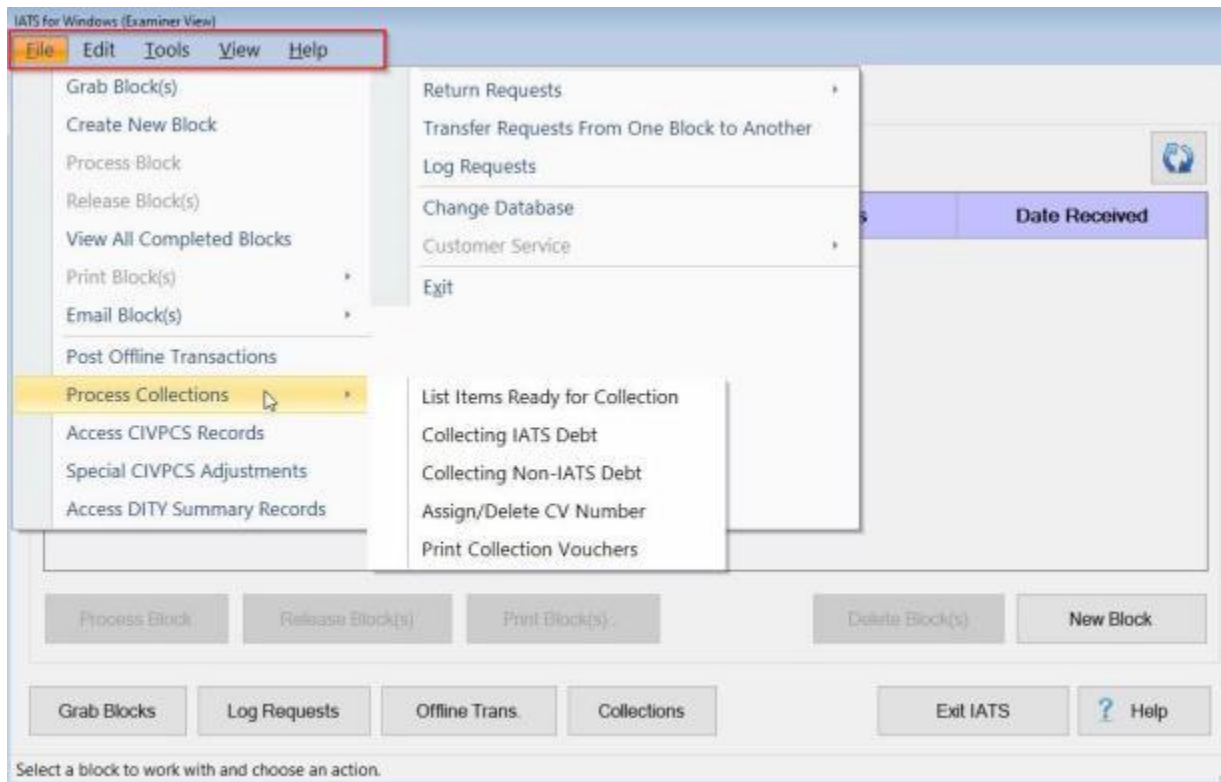

Rather than using the **mouse** to **click** in these **boxes** to activate the features, the user may simply **press** the **space bar** when the desired option is in **focus**. Being in focus means that a dotted line appears around the option as shown for the **Liaison Reports** option above.

When making **selections** from listed items, the user may also use **keyboard** commands as follows:

- **Shift:** - By using the **Shift** key on the keyboard, a user can select items listed **consecutively** by **clicking** on the first item, **pressing** and **holding** down the **Shift** key and then **clicking** on the last item.
- **Ctrl:** - By using the **Ctrl** key on the keyboard, a user can select items randomly by **clicking** on the first item, **pressing** and **holding** down the **Ctrl** key and then **clicking** on the other desired items.

Menu Bar

At the top of the **Examiner, Auditor, Disbursing, or System Administrator** screen, users will see a **menu bar**. The **options** available on the menu bar will **vary** depending on the users **View** and the **privileges** associated with their user **account**.

If the user **clicks** on an item from the menu bar, a **drop down menu** appears displaying the available **options**. If there is a **right arrow** next to an option, an **additional menu** appears when the user **points** on the option and displays **more** options.

Options are **selected** from the menu(s) **two ways**:

- **Click** on an **option** using a **mouse**
- **Press** the **Up/Dn arrow** keys on the **keyboard** to scroll through the menu. When the desired option is **highlighted** **press** the **Enter key**.

Button Options

On every IATS **screen**, user will see a variety of **buttons** depending on the particular screen and the **processes** the user is performing, or has the **privilege** to perform.

Notice that on every **button**, there is a **letter** that is underlined.

This is a **hot key** that may be **activated** by using the **keyboard**.

Button Options are selected two ways:

- **Click** on a **button** using a **mouse**.
- **Press** and **hold** down the **Alt** key on the keyboard and then **press** the **letter** that is underlined on the button. For example; pressing (**Alt + G**) will select the **Grab Blocks** option.

DTOD Mileage Look-up

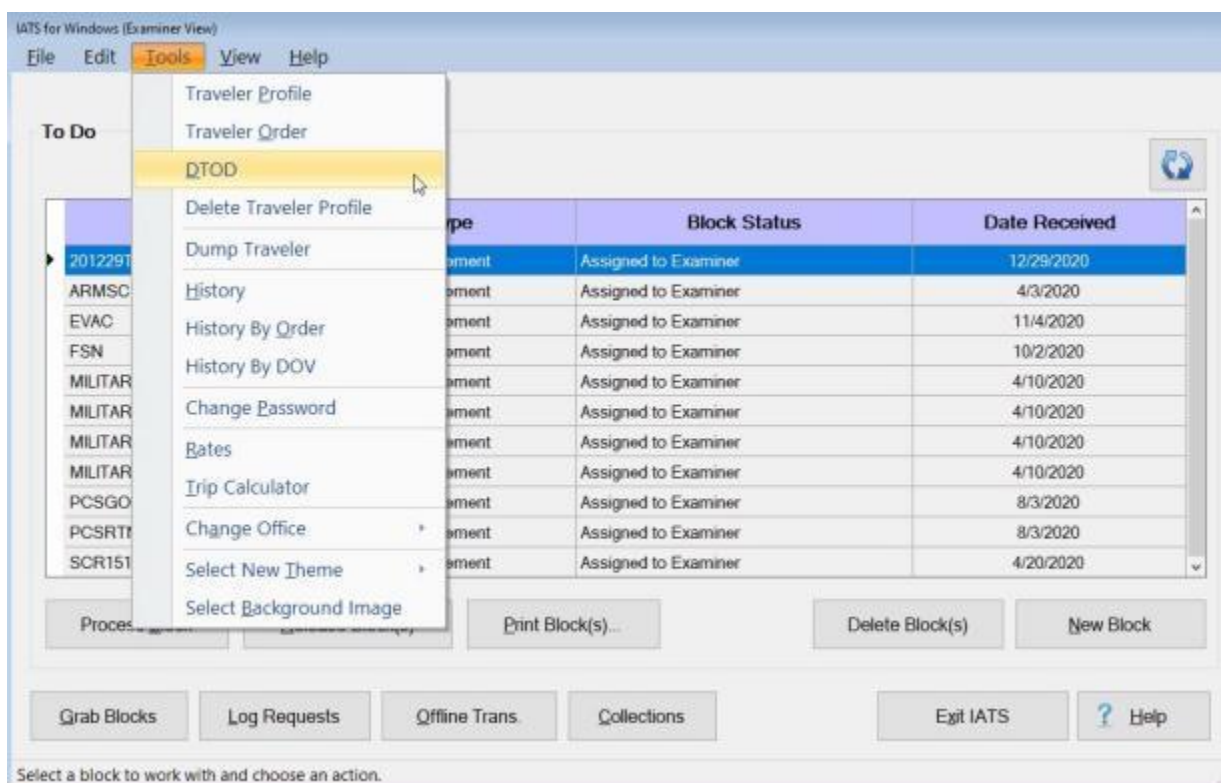

Note: When the **DTOD Lookup** screen is displayed, you will **notice** in the **title bar** the **version** of the DTOD table IATS is using to pull the distance if the **DTOD Web Service** is being used. Refer to **Help** topic "[Maintaining DTOD Web Service Versions](#)" if you wish to **change** the **version/effective** date.

When processing a request for settlement, it may be necessary to **look-up** the authorized **mileage** for the **official distance** in the **DTOD mileage table**.

This can be accomplished two (2) ways.

Method 1:

1. By clicking the **Tools** menu at the top of the **Examiner, Auditor, Disbursing, or System Administrator View** screen. A **drop-down menu** appears displaying the available **options**.

2. From the **drop-down** menu, **click** on the **DTOD** option. IATS will then display the **DTOD Lookup** screen.

Method 2:

1. When **processing** a request for settlement, **click** on the **Other** button if it appears on the screen. A *sub-menu* appears displaying the available **options**.

Trips/Type	Dates Encompassed	Status
Temporary Duty Trip	9/15/2020 - 9/19/2020	Validated Data

2. From the *sub-menu*, **click** on the **DTOD** option. IATS will then display the **DTOD Lookup** screen.

2. **Click** on the **History** option. The **Travel Order History** screen appears.
3. From this point, **follow** the **instructions** provided in the first section above to **continue** viewing the Travel Order History screen.
4. When **finished** viewing the Travel Order History screen, **click** on the **Exit** button. The **Select Traveler** screen appears allowing you to make a selection and view the history for a different person, if desired.
5. If you do not want to view the history for another individual, **click** on the **Cancel** button to return to the **Advance** or **Settlement Request** screen.

View Travel History by Order

The **Travel Order History** screen is used to **provide** users with an easy to read **inquiry** screen, and includes all necessary travel **data** elements stored in the travel account database.

A **new feature** was added to IATS that allows the user to look-up a traveler's History record by just entering a **travel order number**.

 Complete the following steps to "view" a traveler's historical record:

1. At the **Examiner, Auditor, Disbursing, or System Administrator View** screen, **click** on the **Tools** menu. A **drop down menu** appears **listing** various **options**.
2. **Click** on the **History By Order** option. The **Select Order By Travel Order Number** screen appears.

Select Order By Travel Order Number

Travel Order Number:

Traveler: ▼

Begin:

Type:

3. At the **Select Order By Travel Order Number** screen, **enter** the **order number** at the **Travel Order Number** field and then **press** the **Tab** key.
4. If the order number exists, the traveler's name and traveler order information will appear.
5. **Traveler:** At the **Traveler** field, you can **click** on the **down arrow** button. IATS will **list** the **names** of **any other travelers** with the **same** Travel Order Number. **Click** on the **correct traveler name** to make your **selection** if applicable.
6. If this is the **correct order number** and **traveler**, click on the **OK** button. The **Travel Order History** screen will appear.

Display Rates

While using IATS, the user may find it necessary to look-up a rate on occasion. The **Display Rates** screen provides the user with an easy way to look up various **rates** that will **assist** in **processing** the various travel **transactions** or answering inquiries.

 Complete the following steps to "display" rates:

1. **Access** the **Display Rates** screen through one of the following **methods**:
 - **Method 1:** - **Click** on the **Tools** menu and then **select** the **Rates** option.
 - **Method 2:** - **Click** on the **Other** button and **select** the **Rates** option.
 - **Method 3:** - **Click** on the **Lookup** button and **select** the **Rates** option.

After **using** one of the (3) methods listed above, the **Display Rates** screen **appears**.

2. At this screen, the various rates **tables** in the IATS **Maintenance** module are **listed**.
3. Double click on one of the listed tables or **click** on a item and then **click** the **Display** button. IATS **displays** the **screen** for the selected rates **table**.

4. After reviewing the selected rates **screen**, **click** the **Cancel** button to **close** the screen.

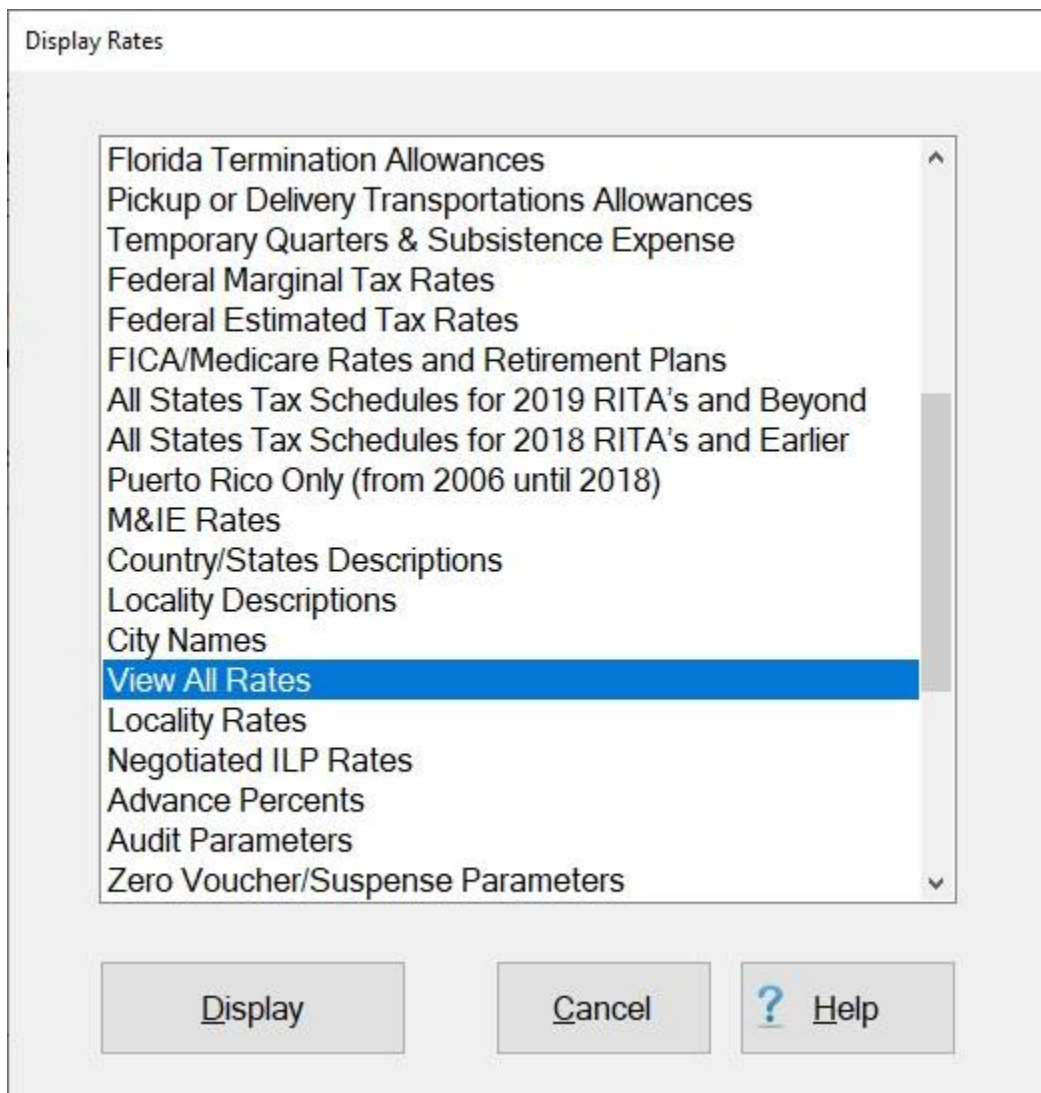

Using the View Locality Rates - Screen

The **View Locality Rates** screen provides the user with an alternative way to **look up** various **rates** that **assists** in **processing** the various travel **transactions** or answering inquiries.

 Complete the following steps to "display and use" the View Locality Rates screen:

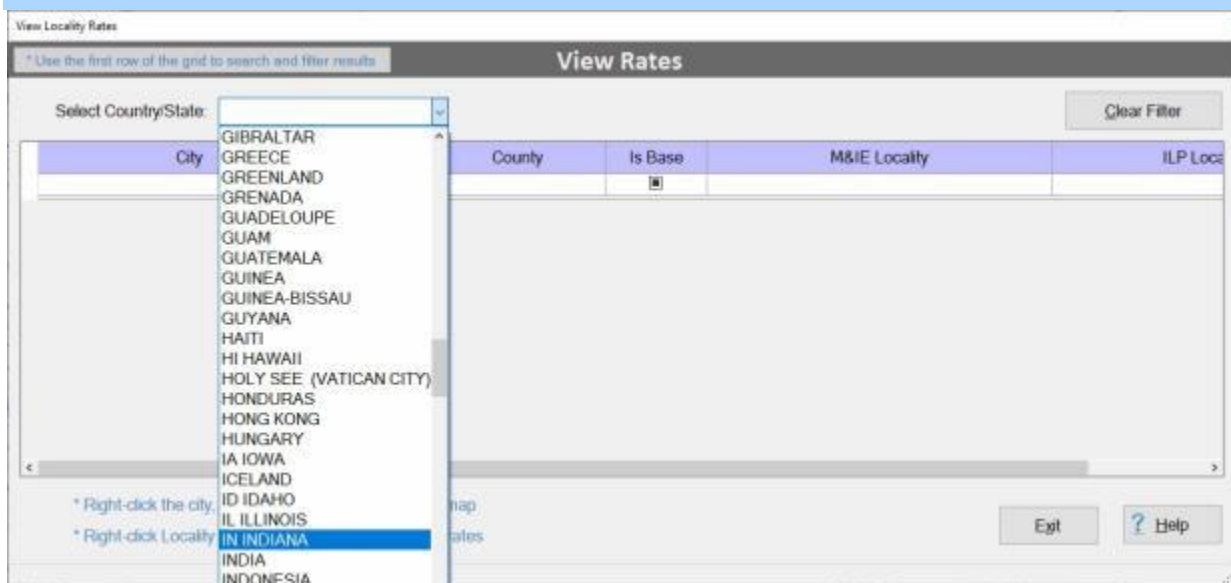

1. **Access** the **Display Rates** screen through one of the following **methods**:
 - **Method 1:** - **Click** on the **Tools** menu and then **select** the **Rates** option.
 - **Method 2:** - **Click** on the **Other** button and **select** the **Rates** option.
 - **Method 3:** - **Click** on the **Lookup** button and **select** the **Rates** option.

After **using** one of the (3) methods listed above, the **Display Rates** screen **appears**.

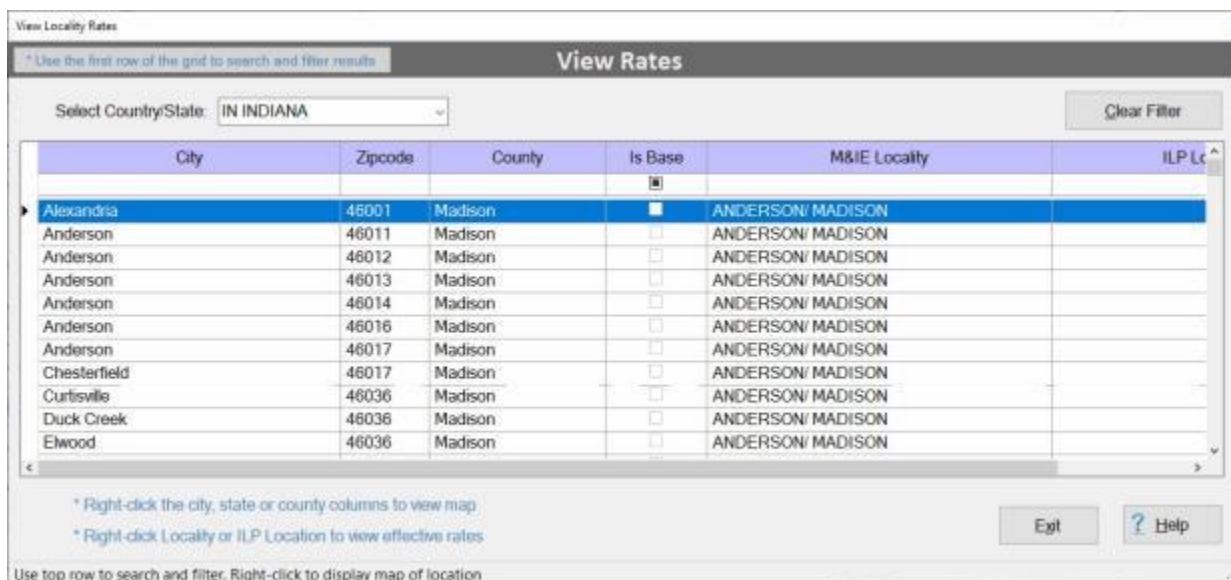

2. At this screen, the various rates **tables** in the IATS **Maintenance** module are **listed**.
3. Double click on **View All Rates** option or **click** on the **View All Rates** option and then **click** the **Display** button. IATS will **display** the **View Locality Rates** screen.

Note: You can also access the **View Locality Rates** screen from the **Maintenance Main Menu** by using the following steps: At the **Maintenance Main Menu**, click on the **plus** sign next to the word **Locality Data** and then click on the **View All Rates** option.

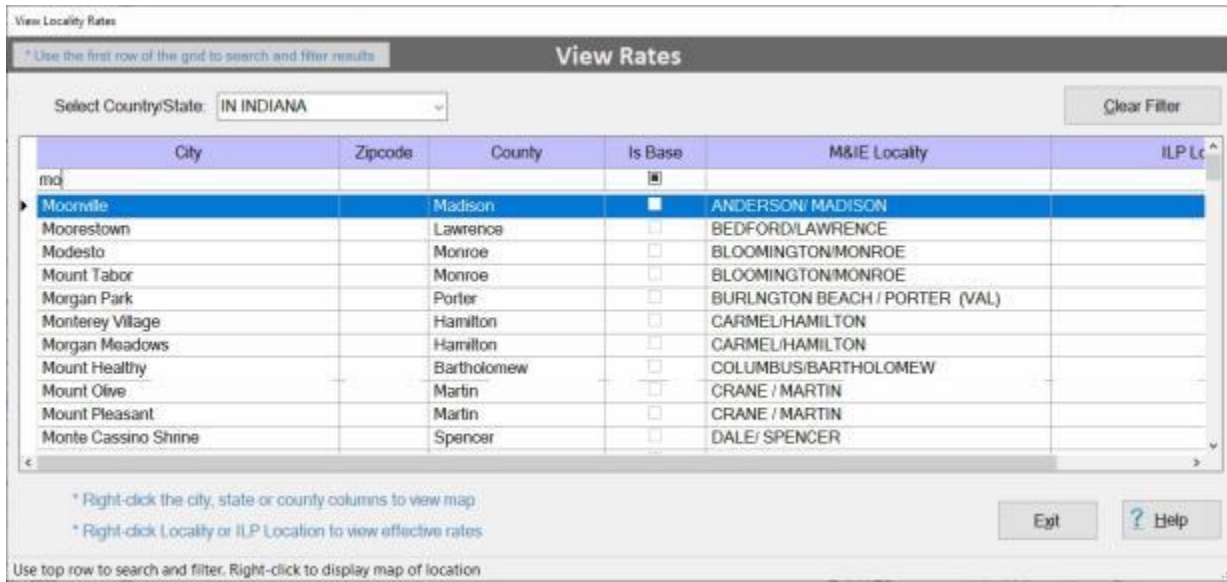

4. **Select Country/State:** - At the View Locality Rates screen you must first **select** a **country** or **state** you wish to display the rates for.
5. **Click** on the **down arrow** button at the **Select Country/State** field. IATS will display an **alphabetical listing** of countries and states.
6. **Press** the **Up/Dn arrow** keys on your keyboard or **click** on the **Up/Dn arrow** buttons on the **slider bar** on the **right side** of the listing to **scroll** through the list.
7. **Click** on the desired country or state **name** and then **press Tab** to display the associated rates. IATS will display a **list of cities** for the selected country or state.

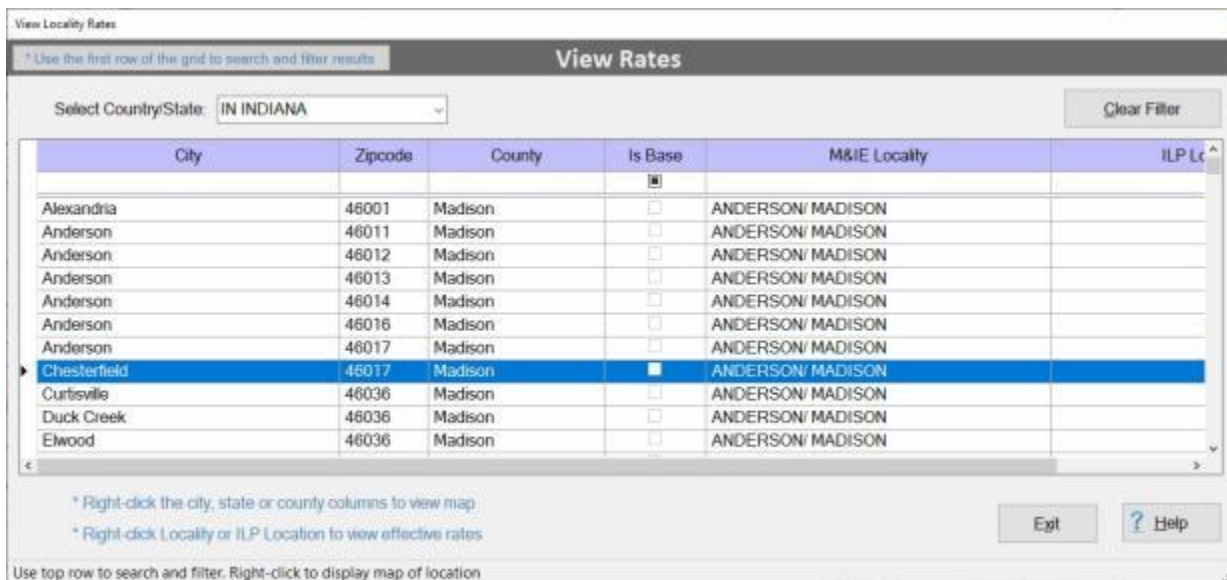

Using the Filter Row:

1. You will **notice** a **blank line** just under the **column headings** on the grid. This is a **Filter Row** as shown above.
2. In the example below, **(mo)** was entered into the Filter Row in the **City** column. **Notice** that every name displayed in the **City** column begins the letters **(mo)**.
3. You may filter every column using this same technic except for the **Zipcode** column where you must enter **numbers** instead of **alpha** characters.
4. When you are **finished** filtering the display, **click** on the **Clear Filter** button to **return** to the **original/default** display.

Display the location on a Google map:

1. **Click** on a **city name** you wish to view on the Google map.
2. When the desired city name is highlighted, **right click** on the highlighted name with your mouse. The **Google Map** screen will appear showing the selected location.

3. When you are **finished** reviewing the map **close** the **page** to **return** to the **View Locality Rates** screen.

Topics in the IATS Help system are categorized into **Books**. Help Contents **Books** are [displayed two ways](#):

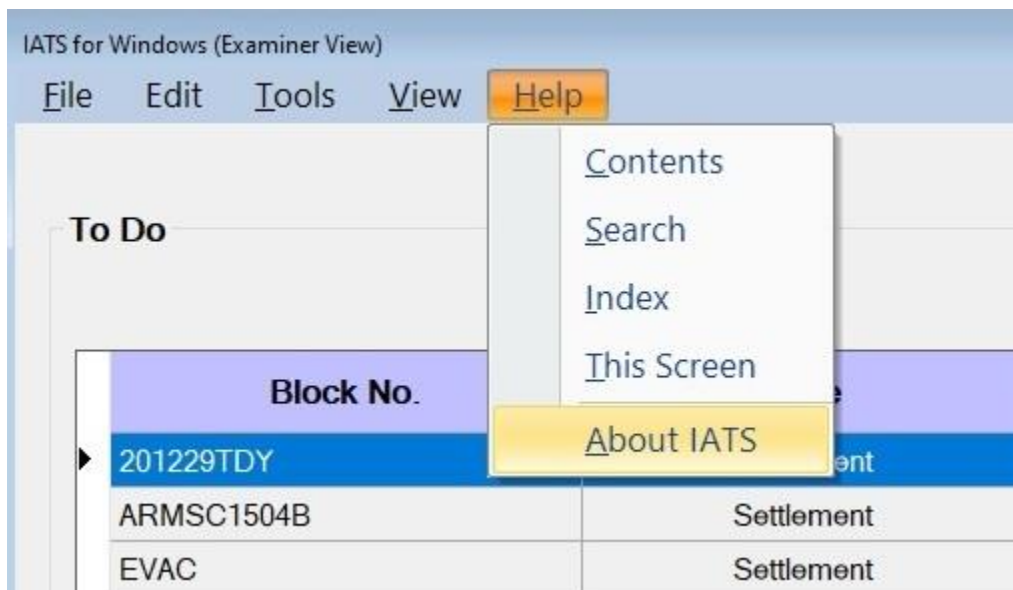

1. **Click** the **Help menu** at the top of any screen and then **click** on the **Contents** option.
2. **Click** on the **Contents** tab at the **IATS Help Topics** screen.

Click on the **See Also** button [below](#) and **select** the **topic** that provides detailed **instructions** for using the IATS on-line **Help** program.

Displaying Help Topics

Topics in the IATS Help system are categorized into **Books**.

 **Complete the following steps to "display" a Help topic:**

1. **Double click** on a **Book**. The Help system will then **display** Help **topics** contained within the selected Book as shown above.
2. **Click** on any of the listed Help **topics** displayed after opening the book. IATS **displays** the **contents** of the topic as shown above.

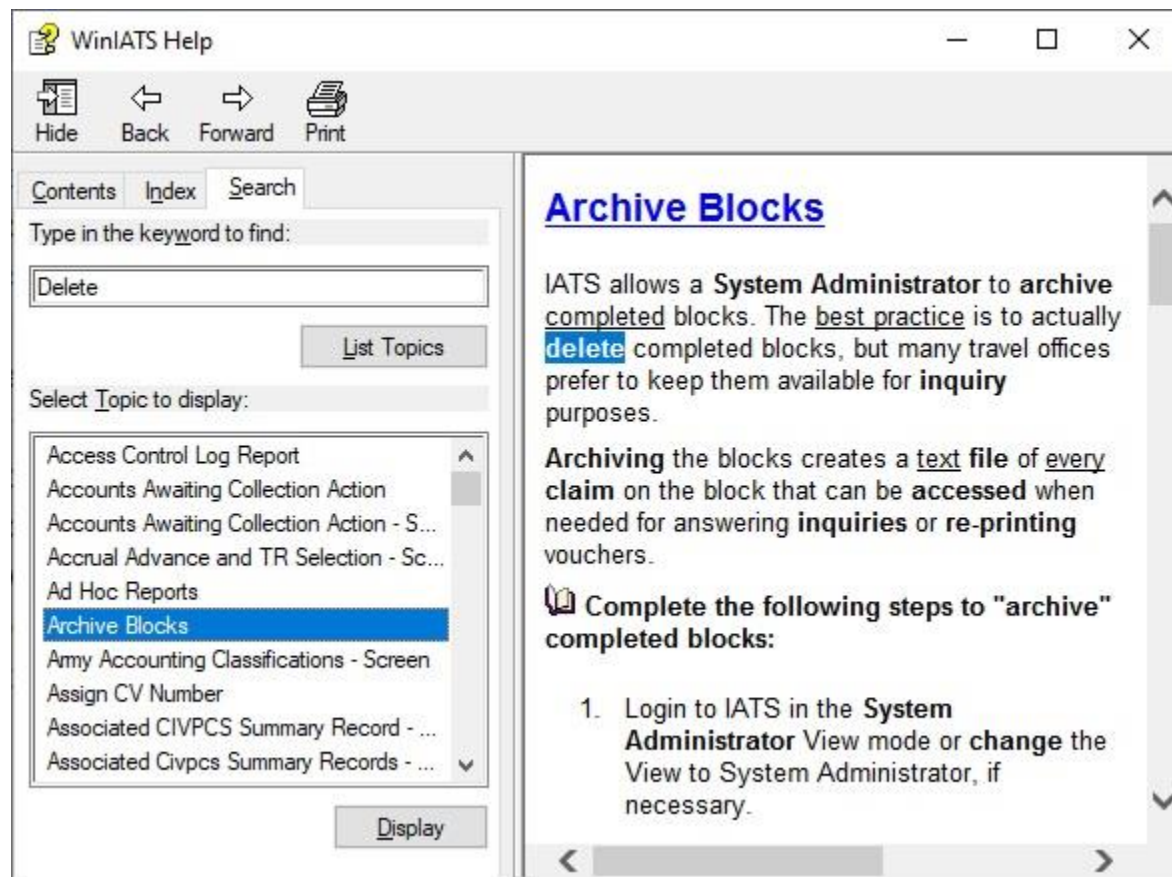

Click on the **See Also** button below and **select** the **topic** that provides detailed **instructions** for using the IATS on-line **Help** program.

Searching for Help Topics

The IATS on-line Help program includes a feature that allows the user to type a keyword to search for topics containing the keyword entered.

 Complete the following steps to "search" for Help topics:

1. At the IATS Help screen, click on the Search tab. A dialog box opens.
2. At the dialog box, type the desired keyword and then click on the List Topics button. A list of every topic containing the keyword is displayed.

Note: In the example screen above, the word delete was entered at the dialog box. After clicking on the List Topics button, every Help topic containing the word delete was displayed.

3. When the topics list is displayed, double click on any topic to display the contents of that topic. The keyword will be highlighted when the contents of the topic is displayed.

Click on the See Also button below and select the topic that provides detailed instructions for using the IATS on-line Help program.

Changing Views

An IATS user with **Super User** capabilities has the **option to change** their **View** mode. After logging into IATS, the **View** menu is displayed at the **menu bar** at the **top** of the **System Administrator View** screen. **Click** on the **View** menu and a drop down list of **View Modes** is displayed.

Click on one of the listed **options** or **press** the *Up/Down* arrows to highlight an **option** and **press** *Enter* to make a selection.

After making a selection, the **Title** bar of the screen changes to indicate the selected **View** mode.

Note: Click on any of the **links** listed below for additional **information**.

[Examiner Functions](#)

[Auditor Functions](#)

[Disbursing Functions](#)

[System Administrator Functions](#)

[Super User Functions](#)

Examiner Functions

An **Examiner** is the individual primarily responsible for the overall processing of travel payments. When logged into IATS in the Examiner View mode, a user may **log incoming claims**, **process advances** and **settlements**, **post accrued per diem payments**, and **process collections**.

In addition, examiners may have the capability to **create traveler accounts** and **create travel order records**.

These **functions**, however, are dependent upon the privileges that have been **established** for the user by the **System Administrator**.

Auditor Functions

An **Auditor** is an IATS **user**, who has been **assigned** this **function** and associated [privileges](#) by the **System Administrator** when the user account was **created**.

IATS **flags** certain **claims** for audit based on several **criteria** that may be **established** by the System Administrator in accordance with office or regulatory requirements.

An audit is **mandatory** for any travel claim that has been **flagged** by IATS for an audit.

An **Auditor** is the individual responsible for **reviewing** travel claims that have been processed by an Examiner and are **flagged** for audit.

When a claim has been **flagged** by IATS for audit, an individual with **Auditor** Function **capabilities** must **access** the flagged block and either review the flagged claim on-screen, or review a printed audit report.

The way an audit is performed is dependent upon how IATS is **configured** for the particular travel office. If IATS is configured for **mandatory audit**, the Auditor must review every input screen for a claim flagged for audit.

Note: When a claim is **flagged** for audit, the entire **block** of claims is **flagged** and can only be **released** for further processing by an individual with **Auditor** Function **capabilities**.

Once the auditor has **reviewed** the flagged claims, it may be **necessary** for the Auditor to **return** the **block** to the **Examiner** to make **corrections**.

When the auditor is **satisfied** that all flagged claims on a block are **correct** and **ready** for payment, the Auditor must **release** the block for further processing.

Disbursing Functions

A **Disbursing** clerk is an IATS **user**, who has been **assigned** this **function** and associated [privileges](#) by the **System Administrator** when the user **account** was **created**.

An individual with Disbursing **capabilities** is **responsible** for **preparing** a **block** of processed claims for **payment**.

In addition, this individual must **release** the processed **blocks** to the Disbursing module and **perform** the following **functions** depending on the way IATS is **configured** for the particular travel office:

- [Assign Disbursing Office Voucher \(DOV\) numbers](#)
- [Generate Disbursing Reports](#)

System Administrator Functions

A System Administrator is an IATS **user**, who has been **assigned** this **function** and associated [privileges](#) when the user account was **created**.

The **System Administrator** is the individual **responsible** for the overall operation of IATS and controlling the work flow throughout the system. System Administrators are **responsible** for the **set-up** and **configuration** of IATS for the particular travel office. In addition, System Administrators **perform** the following additional functions:

- Performing system maintenance
- Establishing user accounts
- Unlocking locked accounts and records
- Assigning/re-assigning blocks and claims
- Deleting completed blocks
- Deleting unneeded traveler or travel order details
- Debt management
- Importing and updating system rates files
- Processing interfaces between accounting, disbursing, and personnel systems
- Generating management reports
- Running utility programs

Super User Functions

When user **accounts** are **created** by the **System Administrator**, a **View** mode must be established. The **functions** a user may **perform** are **dependent** upon the **View** mode associated with their **user ID**.

Because some travel offices are small and may be operated by only one individual, however, IATS includes a **Super User** View mode.

The Super User View allows the user to **switch** between various View **modes** without logging out and logging back in with a different user ID.

When the Super User **logs-in** initially, their View mode defaults to **System Administrator**. A Super User may access the **View** menu, however, and **change** the View to **Examiner, Auditor, Disbursing, or Maintenance** functions as desired.

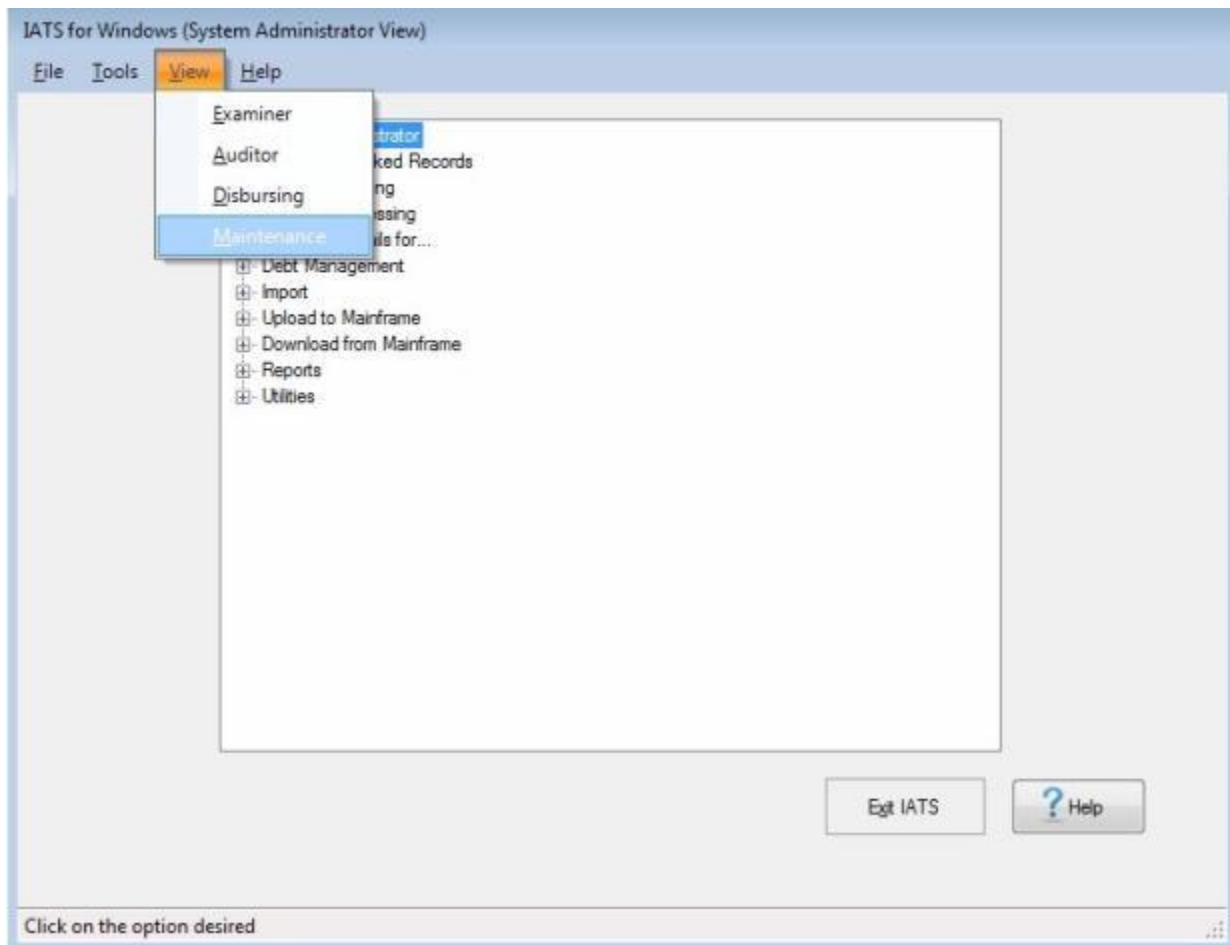

Note: Although, the **title** of this particular **View** is **Super User**, this does not mean that a user under this View has the ability to perform any desired **function**. All privileges for every View are **established** in the Maintenance module by the System Administrator and may be **restricted** as needed. The **Super User** View is **unique**, however, because a Super User has the **ability** to change View **modes**, without having to **log out** and then log back in with a different password in order to perform a different function.

Accessing the Maintenance Screen

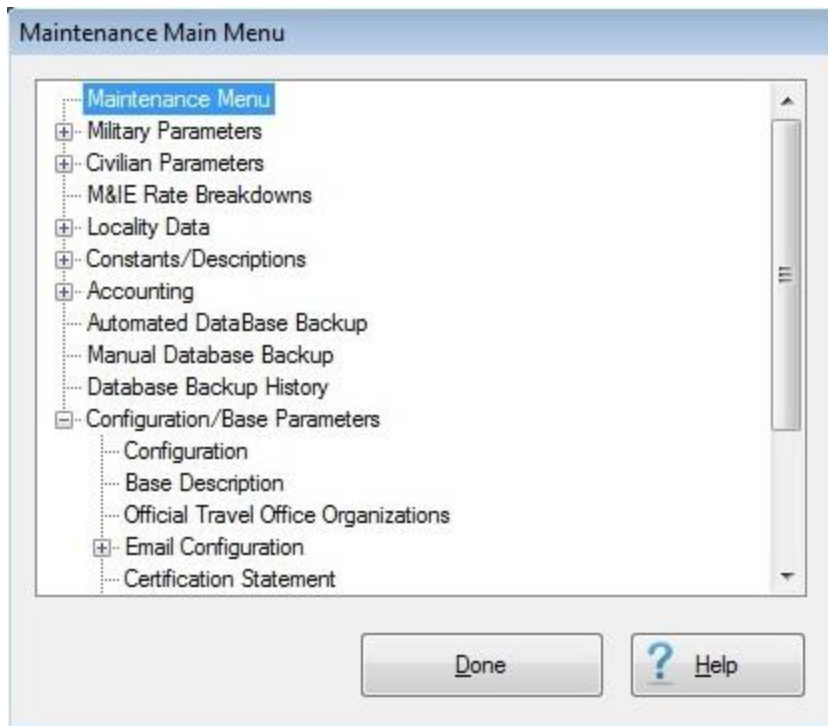

The IATS **Maintenance Module** is where IATS users must **establish** all of the **configuration parameters** for their particular customer type or branch of service.

Access to the IATS Maintenance Module is **only** available from the **System Administrator** screen if the user has been granted the **privilege** to access Maintenance.

 Complete the following steps to "access" the IATS Maintenance Module:

1. At the **System Administrator View** screen, **click** on the **View** option. A *drop down menu* appears listing the various views the user has the **privilege** for.
2. **Click** on the **Maintenance** option. The **Maintenance Main Menu** screen will appear.

Travel Accounts

About Traveler Profile

A **Traveler Profile** is an **account** that must be created for every individual who's travel advance or settlement is processed through IATS. This profile is used to store **personal information** about the traveler and is automatically transferred to transactions processed for the traveler.

Creating Traveler Profile

Note: A traveler profile may be **created** by an IATS user in the **Examiner** or **System Administrator** view if the **privilege** was established when the IATS user account was created.

 **Complete the following steps to "create" a Traveler Profile:**

1. Login to IATS as an **Examiner** or **System Administrator**, and **click** on the **Tools** menu at the top of the **IATS for Windows** screen. A **drop down list** of options appears.

2. **Click** on the **Traveler Profile** option and the **Select Traveler** screen appears.

3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**.
4. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**.
5. The following **message** appears indicating that the account does not exist:

6. **Click** the **OK** button to continue. The **Verify New Traveler SSN** screen appears.

7. Re-enter the traveler's **SSN** at the **Verify SSN** field and then **click** on **OK**.
8. After clicking on OK, the **Traveler Profile** screen appears.

The following **links** provide detailed instructions for completing the **Traveler Profile** screen.

[Enter Personal Information](#)

Back Next Print OK Cancel ? Help

DoD ID: - When this **feature** is activated in Maintenance, you **must** enter a **10 digit** DoD ID **number**.

Name: - There are **two methods** for entering the traveler's name:

- **Method 1:** - Enter the last name in the **Last Name** field, and press **Tab**. The cursor moves to the next field and prompts for entry of the traveler's **First Name**. Type the first name, and press **Tab**. The cursor advances, and prompts for the **Middle Initial**. Type the traveler's middle initial (if applicable) and press **Tab**.
- **Method 2:** - For **example**; if **John S. Doe** is the name you wish to enter, type: **Doe, John, S** at the **Last Name** field. Press **Tab** and the name **automatically separates** into the three input fields. When entering a **suffix**, such as, Jr., Sr., III, etc., enter the suffix following the last name. For example; input John E. Brown Jr.: [BROWN JR., JOHN E].

Employee Status: - Press the **Down** arrow button on your keyboard to scroll through the options or **click** on the **Down arrow** button. A listing appears offering several employee categories. **Click** on the desired choice or press the **Up/Down** arrow keys. When the correct choice is **highlighted**, press **Tab**.

Grade/Rank: - When **Employee** (Civilian), or **Member** (Uniform Services) is selected for the **Employee Status**, a list appears displaying the legal field entries. **Press** the **Down** arrow key on your keyboard to

scroll through the options or **click** on the *Up/Down arrow* buttons. When the correct choice is highlighted, **press Tab**.

Salutation: - This is an **optional** field, but does provide the **salutation** for the **letters** generated by IATS, which are mailed to the traveler. Examples are: Mr., Mrs., SGT, LtCdr, etc. To bypass, press *Tab*.

Position/Title: - This is an optional field. Type the desired information or press *Tab* to bypass this field.

Security Clearance: - Press the *Down arrow* on your keyboard to scroll through the options or **click** on the *Down arrow* button. A listing appears offering several choices. **Click** on the desired choice or press the *Up/Down arrow* keys. When the correct choice is highlighted, press *Tab*.

DSSN: - The default number displayed is from the **DSSN** field at the **Base Description** screen in the **Maintenance** module. This number is used to identify the office disbursing the payment. No input should be needed.

Credit Card Status: - Press the *Down arrow* on your keyboard to scroll through the options or **click** on the *Down arrow* button. A listing appears offering several choices. **Click** on the desired choice or press the *Up/Down arrow* keys. When the correct choice is highlighted, press *Tab*.

Govt Credit Card Nbr: - If the Credit Card Status is **Holder of Govt. Credit Card**, enter the government issued credit card number and then **press Tab** to continue.

Service: - The default value at this field will match the **Customer** IATS was configured for when the initial maintenance was performed. No input should be needed.

Organization: - This is a required input field. Type the name or abbreviation for the organization the traveler is assigned to. For example, [DFAS-IN] or [B CO., 1/9 INF] and press *Tab*.

Automatic Audit: - When this **feature** is activated, IATS will flag every settlement, processed for this traveler, for audit. To activate this option, **click** in the check box next to the phrase "**Automatically audit all claims for individual**".

VIP Traveler: - When this **feature** is activated, the **traveler** and **trip information** will appear in **red** when a claim is **logged** to a block indicating that the traveler has VIP status. To activate this option, **click** in the check box next to the phrase "**This traveler has VIP status**".

Freeze Traveler: - When this **feature** is activated, the traveler account cannot be used. This feature was added for situations where the traveler account was created incorrectly and claims have been processed. By using this feature you may keep the historical data for the claim, (unless the account was deleted), but **prevent** users from **accessing** the incorrectly created account again. **Note** that this feature is only **visible** when you **access** the traveler's profile from the **System Administrator** View screen.

Traveler is non-taxable (Foreign National): - **Click** in the **check box** to **activate** this option if the traveler is a **foreign national** and **taxes** should not be withheld from payments.

Profile Flagged: - **Click** in the **check box** to **activate** this option if you wish to **flag** the traveler's account for **review**.

Traveler is a Legal (Bona Fide) Resident of Puerto Rico: - **Click** in the **check box** to **activate** this option if applicable.

Turn Off Hardcopy Tax Statements: - By default, this option is set to **On**. This option can only be set to **Off** by the traveler via their **myPay** account. IATS will **import** files from the **myPay** system that will **reset** the flag to **Off** if the traveler makes that change to their **myPay** account. See the **Note** below.

Note: IATS Users with **Role** designation of **Tax Accountant** or the **System Administrator** or **Super User View** can **reset** the **Turn Off Hardcopy Tax Statements** flag to **On** if it has been set to **Off** via a myPay import file. The IATS users can only make this change if the privilege "**Turn On Hardcopy Tax Statements**" granted to their user account.

Remarks: - When **Profile Flagged** is **checked**, a **Remarks** text box appears. Use this text box to **enter** a **reason** for flagging the traveler's profile for **review**.

Click on the **Financial** or **Address/Contact Information** tab or click the **Next** button to continue.

Entering Traveler's Financial Information

The travel account **financial** information is used to **identify** the traveler's **EFT status** and establish the bank **routing** and **account numbers** that are used for **direct deposit** payments.

 Complete the following input fields, in the screen shown below, to "enter" a traveler's financial information:

Traveler Profile User ID: SYSTEM Friday, February 25, 2022

2. **EFT Status:** - Press the *Down* arrow on your keyboard to scroll through the options or **click** on the *Down arrow* button. A listing appears offering **three** choices. **Click** on the desired choice or press the *Up/Down* arrow keys. When the correct choice is highlighted, press *Tab*.

Note: After clicking on the *Down arrow*, if you are **unable to make a selection** from the drop-down listing at the EFT Status field, you do not have the privilege to create or modify the traveler's financial information. A supervisor or IATS user with access to the **Maintenance** Module would have to **grant** the privilege "**Create/Modify Financial Information**".

3. **EFT to be Updated by:** - Press the *Down* arrow on your keyboard to scroll through the options or **click** on the *Down arrow* button. A listing appears offering **two** choices. **Click** on the desired choice or press the *Up/Down* arrow keys. When the correct choice is highlighted, press *Tab*.

Note: The two types are either **IATS**, (when the EFT account data was manually entered), or **Payroll**, (when the EFT account data was entered though the payroll interface process).

Tip: The **EFT to be Updated by** option must be set to **IATS** for travelers, who desire a different EFT account for their travel pay instead of the account for their salary deposit. Otherwise, their EFT account **information will be overlaid** with the **information** on the **Payroll** file the next time this **file** is **processed**.

4. **Account Type:** - Press the *Down* arrow on your keyboard to scroll through the options or **click** on the *Down arrow* button. A listing appears offering several choices. **Click** on the desired choice or press the *Up/Down* arrow keys. When the correct choice is highlighted, press *Tab*.
5. **Routing Number:** - The selection of **Active** in the **EFT Status** field requires entry of the (9) digit Bank Routing Code (which includes a one character check digit). IATS will calculate this check digit for accuracy. If the wrong check digit is entered, IATS will not accept the Bank Routing Code. After typing the routing number press *Tab* to continue.

6. If the routing number entered does not match a number in the routing number table in the IATS database, the following pop-up message appears:

7. **Click** on Yes or No as applicable.
8. After clicking on Yes, the **Verify Bank Routing Number** screen appears.

9. **Re-enter** the bank routing number at the **Verify** field and then **click** on **OK**.
10. **Account Number:** - If **Active** was selected at the EFT Status field, type the account number for the deposit of the EFT payment. After typing the account number press *Tab* to continue. The **Verify Bank Account Number** screen appears.

11. **Re-enter** the previously entered **account number** at the **Verify** field and then **click** on **OK**.
12. **Date Last Checked:** - This field is **optional**. If required to be entered by your travel office policy, however, **click** in this field and **enter** the **date** that the traveler's **EFT account information** was **last verified** in **MMDDYY** format. You can also **click** on the *down arrow* button and use the **calendar** to select the date.

Note: After the traveler's EFT account information has been **entered** and **saved**, the fields "**Date Last Changed**", "**Date Last Checked**", and "**Changed by**" will **reflect** the **date** the EFT information was created/changed and show the **initials** of the person that created/changed the EFT information. The "**Date Last Downloaded**" field will reflect that **date** that the information was **changed** by a **payroll download** file.

13. **Foreign Bank:** - **Click** in the **check box** to **activate** this option if the traveler wishes to have their EFT payment sent to a foreign bank account. If this option is **checked** and the traveler already had **domestic** bank account information established for their EFT payments, IATS will **display** the following *pop-up message*.

Traveler Profile [3/4/2024 2:29 PM]

You have checked the Foreign Customer box. Do you wish to delete the Domestic Banking information?

Yes No

14. **Click** on *Yes* or *No* as desired. If you **click** on *No*, IATS will **display** the following *pop-up message*.

15. **Click** on **OK** to continue.

Foreign Bank Information:

When the Foreign Bank option is **checked**, IATS will **display** the following input fields as shown below:

A screenshot of a web form titled "Foreign Bank Information". At the top, there are four tabs: "Personal", "Financial", "Address", and "Misc. Info". On the right side, there is a checked checkbox labeled "Foreign Bank". Below this, the form contains several fields:

- Foreign EFT Status: Active (dropdown menu)
- Account Type: Checking (dropdown menu)
- Currency for Payment: US Dollar (USD) (dropdown menu)
- SWIFT Code: (text input field)
- IBAN Account Number: (text input field)
- Date Last Checked: (dropdown menu)
- Date Last Changed: (dropdown menu)
- Changed By: (text input field)

Refer to the **Help** topic, "[Entering Foreign Bank Information](#)", for additional instructions.

Entering Foreign Bank Information

The travel account **financial** information is used to **identify** the traveler's **EFT status** and establish the bank **routing** and **account numbers** that are used for **direct deposit** payments.

 **Complete the following input fields, in the screen shown below, to "enter" a traveler's foreign bank information:**

When the **Foreign Bank** option is **checked** on the **Financial** tab, IATS will **display** the following input fields as shown below:

The screenshot shows a tabbed interface with 'Personal', 'Financial', 'Address', and 'Misc. Info' tabs. The 'Financial' tab is active, and a checkbox labeled 'Foreign Bank' is checked. Below this, the following fields are visible:

- Foreign EFT Status: Active (dropdown)
- Account Type: Checking (dropdown)
- Currency for Payment: US Dollar (USD) (dropdown)
- SWIFT Code: Sort Code (dropdown)
- IBAN Account Number: (text input)
- Date Last Checked: (dropdown)
- Date Last Changed: (dropdown)
- Changed By: (text input)

1. **Foreign EFT Status:** - **Click** on the *down arrow* button. A listing appears offering **three** choices. **Click** on the desired choice to make your selection.
2. **Account Type:** - **Click** on the *down arrow* button. A listing appears offering several choices. **Click** on the desired choice to make your selection.
3. **Currency for Payment:** The default value will be Us Dollar (USD). If another type is desired, **click** on the *down arrow* button to **display** a list of currency types and then **click** on your desired type.
4. **SWIFT Code / Sort Code:** - The default value at this field is **SWIFT Code**. **Click** on the *down arrow* button to **display** the *drop-down list* and **click** on **Sort Code** if you wish to **change** the Foreign EFT Type. After entering either a SWIFT Code or a Sort Code, a *pop-up message* will appear **requiring** you to **re-enter** and **verify** the code you entered.

5. **Re-enter** the code and **click** on **OK** to continue.
6. **IBAN Account Number:** - **Click** in this field and **enter** the foreign bank account number. After entering the IBAN, a *pop-up message* will appear **requiring** you to **re-enter** and **verify** the IBAN you entered.

Note: The following information is applicable to IBAN Account Numbers:

- IBANs have a unique length depending on the country and they must begin with the **country code**.
- There are **tables** in the IATS **Maintenance module**, (maintained by the System Administrator), that **specify** what the **length** of the **IBAN codes** are by country.
- The characters must be **alphanumeric**, (letters and numbers) only.
- Must start with a valid 2-character ISO country code.
- There are some countries that do not use IBAN codes, but there is a customer **requirement** to **store** EFT information for these countries. These are referred to as **non-IBAN participating** countries.
- **Non-IBAN participating** countries will have an **IBAN length** of **99**.
- For IBAN length of **99**, the IBAN can be anywhere from **2** to **35** letters/digits long.
- The **EFT information** for countries that have an IBAN length of **99** cannot be **used** for **disbursing** and the **EFT profile** will be saved as **Inactive**.

Verify IBAN Account Number

Verify:

Re-enter value to verify

7. **Date Last Checked:** - This field is **optional**. If required to be entered by your travel office policy, however, **click** in this field and **enter** the **date** that the traveler's **EFT account information** was **last verified** in **MMDDYY** format. You can also **click** on the **down arrow** button and use the **calendar** to select the date.

Entering Mailing Address Information

The traveler's **mailing address** information is used to **populate** printed **vouchers**, **letters**, and **upload records**, generated by IATS, with the **address** where the traveler receives **mail**.

 **Complete the following input fields, in the screen shown below, to "enter" a traveler's Address/Contact information:**

Email address to be used for correspondence

Tip: After making the required entries on at **Personal** tab, **click** on the **Address/Contact Information** tab to display the **Mailing Address**, **Office Address**, and **E-mail Address** sections.

Address-1: - This is a **required** field. **Type** the first line of the traveler's mailing address and **press Tab**.

Address-2: - This field is **optional**, and is used to add an Apt. #, P.O. Box, etc. **Type** the desired entry, if applicable, and **press Tab**.

City: - A **required** field. **Type** the name of the city where the traveler receives mail. Type **APO** or **FPO** on this line if the traveler has an overseas military mailing address.

State/Country: - A **required** field. For **CONUS** locations, **type** the two letter state code. If unknown, enter the letter the state begins with, then **click** on the *Up/Down* arrow keys until the desired state is **highlighted**. Press *Tab* or **click** on the highlighted item. For an **OCONUS** location, **type** the first letter of the country code. If the desired country is not highlighted, **click** on the *Up/Down* arrows to highlight the desired locality code. **Press Tab** or **click** on the highlighted item. **Press Tab**, to move to the **Zip Code** field if necessary.

Tip: To enter an **overseas** military mailing code, such as **AA**, **AE**, or **AP**, the user must select the correct APO/FPO code from the *drop-down list*.

Zip Code: - A **required** field. **Type** the traveler's zip code as either the standard five (5) digit zip code or add a dash and the four (4) digit extension if desired. **For example;** 78233 or 78233-4594.

Phone: - This field is **optional**. If used however, the phone number may be entered in any desired **format**. Special characters such as **dashes, parenthesis, and commas** are **allowed**. This will accommodate **OCONUS** phone numbers. **Press Tab**, when finished, to continue.

Ext: - This field is **optional**. Type the (4) digit extension, if applicable, and **press Tab**.

Entering Office Address Information

The traveler's **office address** information is used to **store** the **address** and **phone number** for the traveler. This is historical information in case the **travel office** elects to send **correspondence** or **contact** the traveler at his/her place of business.

 Complete the following input fields, in the screen shown below, to "enter" a traveler's Office Address/Contact information:

Tip: To enter an overseas military mailing code, such as AA, AE, or AP, the user must select the correct APO/FPO code from the drop-down list.

Zip Code: - A **required** field. **Type** the traveler's zip code as either the standard five (5) digit zip code or add a dash and the four (4) digit extension if desired. **For example;** 78233 or 78233-4594.

Phone: - This field is **optional**. If used however, the phone number may be entered in any desired **format**. Special characters such as **dashes, parenthesis, and commas** are **allowed**. This will accommodate **OCONUS** phone numbers. **Press Tab**, when finished, to continue.

Ext: - This field is **optional**. Type the (4) digit extension, if applicable, and **press Tab**.

Entering E-mail Address Information

The traveler's **e-mail address** information is used to **store** the **e-mail address** for the traveler. This is used to send **correspondence** or **contact** the traveler via an **e-mail message**.

An e-mail address entered into this section is used by the **E-mail for IATS** feature to automatically attach the traveler's printed **voucher** to the e-mail address and be sent to the traveler.

 **Complete the following input fields, in the screen shown below, to "enter" a traveler's E-Mail Address/Contact information:**

Traveler's Last Name

Tip: After making the required entries at the **Address/Contact Information** tab, **click** on the **Miscellaneous** Tab to display the **Work Week** section.

1. At the **Hours worked per day** field, the default value is **eight** hours. If necessary, **delete** the existing number and **type** the number that represents the correct **hours** for the employee's **normal work day**. Press *Tab* to continue.
2. At the **Select Days of Week Employee Works** field, the default value is **Mon - Fri**. If correct, **click** the **OK** button. To select different days, **click** the **box** to the **left** of each regular work day for the employee. To **un-select** any of the default days, **click** in the **box** to the **left** of the particular day to **remove** the **check mark**.
3. **Click** the **OK** button to **save** the entries.

Selecting Travel Accounts

Before a Request for Advance or Settlement may be processed, the IATS user must **select** the travel **account** that is associated with the transaction being processed. In addition, there are numerous other situations when the IATS user must first **select** a travel account before performing a particular function. Some of these **situations** are listed below:

- Viewing the Traveler's Profile
- Viewing the Traveler's History Record
- Selecting Travel Orders
- Processing Collections

 Complete the following steps to "select" a travel account:

1. At the **Select Traveler** screen, there are (2) methods for selecting a traveler account:
 - **Method 1:** - At the **Search By** field, **click** in the appropriate **radio button** to **select** your search **by** either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**.
 - **Method 2:** - **Type** the first (2) letters of the traveler's **last name**. A listing appears displaying all travel accounts in the IATS database beginning with these (2) letters. **Click** on the *Up/Down arrows* next to this listing or **press** the *Up/Down arrow keys* on the keyboard to scroll through the list. When the desired traveler is highlighted, **click** on the highlighted listing.

Note: A new **feature** was added to IATS referred to as the **DMDC Webcall**. This feature will only be used by select travel offices that have **enabled a connection** between the **travel office** and **DMDC**. When a DoDID is entered into IATS and the DoD ID is not in the database, IATS will **initiate** an RBS (webcall) to DMDC to **obtain** the **SSN** for that traveler. DMDC will do a real time web call lookup

using the **DoDID** and **return** in the results the **SSN** and traveler's **last name** along with providing a **DoDID match code**. The logic values/match codes returned should be evaluated by the **user/examiner** to determine if the value should be **accepted** or **rejected** based on the match code received. If the user **accepts** the response, IATS will input this DoDID into the **DoDID field** into IATS. If the user **rejects** the response from DMDC, IATS will not import the DoDID provided on the RBS and the user will need to **correct** the traveler name, or whatever mismatched information was provided on the response, then a new RBS can be **initiated** to **obtain** the **SSN** based on the new DoDID information.

Below are **examples** of the **messages** a user may see when **entering** a **DoDID** into IATS and the **DMDC Webcall** feature is **in use**:

Modifying Travel Accounts

On occasion, **modification** of an existing travel **account** is necessary. Additional **information** about the traveler may be needed, or existing data may need to be **changed**.

 **Complete the following steps to "modify" a travel account:**

1. Login to IATS as an **Examiner** or **System Administrator**, and **click** on the **Tools** menu at the top of the **IATS for Windows** screen. A *drop down list* of options appears.

2. **Click** on the **Traveler Profile** option. The **Select Traveler** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**.
4. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. The **Traveler Profile** screen appears.

5. When the **Traveler Account** screen appears, **click** in the desired **field** and **type** the required **change**.
6. When **finished** modifying the travel account, **click** on the **OK** button to **save** the changes.

Viewing Travel Accounts

On occasion, it may be necessary to **view** the traveler's **account** information.

 **Complete the following steps to "view" a travel account:**

1. At the **Examiner, Auditor** or **System Administrator View** screen, **click** on the **Tools** menu. A **drop down list** of options appears.

2. **Click** on the **Traveler Profile** option and the **Traveler Selection** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**.
4. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. The **Traveler Profile** screen appears.

4. When **finished** viewing the travel account, **click** on the **OK** or **Cancel** button.

View or Modify the Traveler's Account from Input Screens

When processing travel pay transactions, the **Traveler Profile** screen can be **viewed** or **modified** from an input **screen**.

 Complete the following steps to "view or modify" a traveler profile from an input screen

The screenshot shows a software interface for a "Settlement Request". At the top, it displays "DOE, JOHN S. E7" and "TONO: 02-001". Below this, the "Request Type - Settlement" section has a dropdown menu for "Type of Settlement" set to "Final - First Submission". A tabbed interface is visible with tabs for "Remit To", "Adv/Account", "Entitlements", "Calculations", "Financial", and "Remarks". The "Remit To" tab is active, showing an "Address" section with input fields for "Line 1" (containing "111 W EAST ST."), "Line 2", "City" (containing "INDIANAPOLIS"), "Country/State" (a dropdown menu set to "IN INDIANA"), and "Zip Code" (containing "46226"). An "Update Traveler" button is located to the right of these fields. At the bottom of the "Remit To" section are "<Back" and "Next>" buttons. Below the "Remit To" section are buttons for "Receipts...", "Other...", "SAVE", "Cancel", and "? Help". A status bar at the bottom of the window reads "Enter the first line of the traveler's address."

1. Click on the **button** at the top of the **screen** displaying the traveler's **name**. IATS displays the **Traveler Profile** screen for this traveler.

2. When the **Traveler Profile** screen appears, the user may **view** the traveler's account information or **modify** the information as needed.
3. When **finished** viewing or modifying the Traveler Profile screen, **click** on the **OK** button to **save** any changes and **return** to the previous input **screen**.

Deleting Traveler Profile

As a travel voucher **examiner**, it may be necessary to **delete** traveler **profiles** on occasion. This commonly occurs when the traveler has **relocated** to a new duty **station** and the **account** is no longer serviced by your office.

Tip: A traveler profile cannot be **deleted** until all of the **details** (including travel orders) have been deleted first. **Refer** to the **Help** topic, "[Deleting Travel Orders](#)" for additional **instructions**.

There are two **methods** for **deleting** an existing traveler **profile**. One method is performed from the **Examiner View** screen. Using this method however, will only **delete** profiles that have no **Open Items**, **Details**, or **Open Suspense Items**.

Note: Voucher examiners must have the [privileges](#) assigned to their user account that allow them to delete a traveler's profile. There are two specific **privileges** that apply to this process:

- Delete Traveler Accounts Without Open Items.
- Delete Travelers With No Details.

Definitions:

Details: - A detail is a travel order or a transaction such as an **advance** or a **settlement** that has been **logged** or **processed** and **posted** to the traveler's **history** record.

Open Items: - An open item is a transaction such as an **advance** or a **settlement** that has been **processed** and **posted** to the traveler's history record, and no **DOV#** has been posted to the transaction.

Open Suspense Items: - An open suspense item is an amount **due the US** associated with a particular travel order. This can be the result of an unsettled **advance** or a **settlement** that was **processed** resulting in an amount **due the US**.

The second **method** is performed from the **System Administrator** menu, which **requires** a special **privilege**. Using this method, the user can **delete** any **profile** regardless of the condition. **Refer** to the **Help** topic, "[Delete Travel Account Details](#)", for **instructions** on using this method.

 **Complete the following steps to "delete" a Traveler Profile using the Examiner View:**

1. At the **Examiner View** screen, **click** on the **Tools** menu and select the **Delete Traveler** option. The **Select Traveler to Delete** screen appears.

Enter a reason for deletion.

7. **Reason(s) for Deletion:** - Notice that there are four Reason fields. You must **select** at least one reason by **clicking** on the *down arrow* button in one of the Reason fields and then **click** on a reason from *drop down list* of reasons.
8. **Reasons for Deletion of Traveler:** - In the **text box** at this field, you must enter a **remark**. **Click** in the text box and **type** a remark.
9. When you have **finished** selecting reasons and entering remarks, **click** on **OK**.
10. If the travel account has any open transactions, **suspense** items, or **Tax Records**, a **message** appears indicating the situation and asking if you are **sure** you wish to delete the account. If sure, **click** the Yes button.
11. IATS **deletes** the account and displays a *pop-up message* appears stating that the account was successfully deleted.
12. **Click** on **OK** to **return** to the **Examiner View** screen.

Freeze Traveler Account

This feature was added for situations where the traveler account was created incorrectly and claims have been processed. By using this feature you may keep the historical data for the claim, (unless the account was deleted), but **prevent** users from **accessing** the incorrectly created account again.

 Complete the following steps to "freeze" a travel account:

1. Login to IATS as a **System Administrator**, and **click** on the **Tools** menu at the top of the **IATS for Windows** screen. A *drop down list* of options appears.

2. **Click** on the **Traveler Profile** option and the **Select Traveler** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**.
4. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**.
5. When the traveler's account information appears, **click** on the **OK** button.
6. The **Traveler Profile** screen appears.

[Travel Orders](#)

Type of Orders

Before a travel **advance** or **settlement** can be processed using IATS, a **Travel Order** must be created. Travel Order information **determines** the specific **entitlements**, **trip dates** and establishes the **limitations** necessary for correct computation of the travel advance, or settlement.

When creating **travel orders**, IATS **requires** the user to **specify** what **type** of order is being created. The type of travel order specified has a direct **impact** on the way IATS functions and the **computation** of the **entitlement**. Following, is a listing of the various **types** of travel orders that may be created:

- [Normal](#)
- [Blanket](#)
- [Repetitive](#)
- [Invitational](#)
- [MILPCS](#)
- [CIVPCS](#)
- [Local \(1164\)](#)
- [Evacuation](#)
- [Student](#)

Click on any of the **types** listed above for a **link** to the **Help** topic explaining the **requirements** for creating the selected type of travel order.

Creating Travel Orders

Note: A traveler order may be created by an IATS user in the **Examiner** or **System Administrator** view if the **privilege** was established when the IATS user account was created.

1. Login to IATS as an **Examiner** or **System Administrator**, click on the **Tools** menu at the top of the **IATS for Windows** screen. A *drop down list* of options appears.

2. **Click** on the **Traveler Order** option and the **Select Traveler** screen appears.

3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab** or **click** on the **OK** button.
4. If the traveler's account does not exist in the database, a message appears asking if you wish to create a new traveler profile. Selecting **OK** causes the **Verify SSN** field to appear.

Verify New Traveler SSN

New Travel Order

This travel order number doesn't exist. Do you want to create it?

Yes No

8. **Type** the travel order number at the **TONO** field and **click** on the **OK** button. A *pop-up message* appears indicating that the order does not exist and asking if you want to **create** it. **Click** on the **Yes** button to continue.
9. The **Travel Order** screen appears next.

Refer to the **Help** topic, "[Completing the Travel Order Screen](#)", for additional instructions.

Completing the Travel Order Screen

After **entering** a new travel order **number** at the **Travel Order Selection** screen, the **Travel Order** screen appears.

This screen is used to capture the specific details for the trip and to approve the various entitlements necessary for the accomplishment of the mission. In addition, it captures the funding information necessary for reporting the obligation and expenditures to the associated accounting systems.

The screenshot shows the 'Travel Order' screen with the following fields and values:

- Traveler's Name:** SMITH, MARK T: E7
- Grade/Rank:** E7
- Order Number/TONO:** 03-001
- Order Type:** Normal
- Purpose of Trip:** Site Visit
- Issuing Organization:** DFAS
- Paying Organization:** DFAS
- DSSN/ITR:** 6416
- Funds:** Army
- Group Travel:**
- Issue Date:** 3/12/2018
- Begin Date:** 3/19/2018
- Number of Days:** 5
- End Date:** 3/23/2018
- State Tax Designation:** IN INDIANA

Buttons at the bottom include Back, Next, OK, Cancel, and Help. A footer note reads: 'Enter the expected end date of travel for this travel authorization'.

Complete this screen by entering the required information in each field as described below:

TIP: After entering the required information at an input field, **press Tab** or **click** in the next field to continue.

- **Order Number:** - If not previously entered at the **Travel Order Selection** screen, **type** the **travel order number** as shown on the hard-copy travel order attached to the request for **settlement** or **advance**.
- **Order Type:** - The default order **type** at this field is **normal**. If normal is the desired type, press **Tab** to continue. If another type of order is desired, **click** on the **down arrow** to **display** a **listing** of various types and then **click** on the desired type to make a selection. **Refer** to the topic "[Type of Orders](#)" for more specific details about the various **types** of travel **orders**.
- **Purpose of Trip:** - The **data** input to this field is **posted** to the **travel order detail record**. This information is useful when conducting research or answering inquires. At this field, **click** on the

down arrow to display a **listing** of various choices and then **click** on the desired choice to make a selection.

- **Max Trips Allowed:** - Users can only access this field when the **type** of travel order is **Repetitive**.
- **Issuing Organization:** - The default value previously entered into the **Organization** field, when the travel account was created, is **displayed** in this field. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. Press *Tab* to continue or **type** a different organization if desired.
- **Paying Organization:** - The default organization **displayed** is the information **entered** into the **Organization** field when the travel **account** was **created**. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. Press *Tab* to continue or **type** a different organization if desired.
- **DSSN ITR:** - The default number displayed is from the **DSSN ITR** field at the **Maintain Base Description** screen in the **Maintenance** module. This number is used to **identify** the **source** of the payment when the payment is **disbursed** at a **DSSN** located other than where the voucher was computed.
- **UIC:** - This field pertains to **Navy** customers only. The **default** value at this field is **zeros**. You may leave the field as is or you may **enter** the **UIC** for the traveler. The **purpose** of this field is to be able to generate the **suspense reports** for a specific UIC.
- **Funds:** - The type of customer IATS is configured for defaults to this field. No input is **necessary**.
- **Group Travel:** - **Click** in the **check box** next to the **Group Travel** field if you must **activate** Group Travel **rules** for this travel order.
- **State Tax Designation:** - The **State Tax Designation** field appears on the Travel Order screen if the option to **withhold state taxes** is **activated** in **Maintenance**. This field is used to **specify** which state withholding taxes should be withheld for. **Enter** the two character abbreviation for the desired state or **click** on the *down arrow* button and then **click** on the correct **state name** from the *drop down list*.
- **Issue Date:** - Type the **date** the order was issued, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for **advance** or **settlement**. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.
- **Begin Date:** - Type the **date** the **travel** is expected to **begin**, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for **advance** or **settlement**. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.
- **Number of Days:** - If desired, **type** the **number** of days for the trip at this field. That will cause IATS to automatically **calculate** the **End Date** for the trip. Press *Tab* to bypass this field if you would prefer to enter the End Date rather than have it calculated by IATS.
- **End Date:** - If the number of days for the trip was previously entered at the **Number of Days** field, no action is necessary. If not, type the **date** the travel is expected to **end**, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for **advance** or **settlement**. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.
- **Remarks:** - If you wish to add remarks for the travel order you are creating, **click** on the **Remarks** tab and enter your desired remarks.

After completing all of the required input fields, **click** the **OK** button to save the entries.

Entering Remarks on the Travel Order Screen

There are times when travel office personnel may need to enter **remarks** associated with the travel order. IATS includes a feature that will allow you to perform this action.

The **Travel Order** screen has a **tab** that you may click on to enter any necessary remarks.

The screenshot displays the 'Travel Order' application window. At the top, it shows 'User ID: SYSTEM' and the date 'Friday, October 15, 2021'. Below this, there are four input fields: 'Traveler's Name' (containing 'TRAVELER, NEW: E5'), 'Grade/Rank' (a dropdown menu with 'E5' selected), 'Order Number/TONO' (containing '10-001'), and 'Order Type' (a dropdown menu with 'Normal' selected). Below these fields are two tabs: 'Description' and 'Remarks'. The 'Remarks' tab is currently selected and active. Inside the 'Remarks' tab, there is a large text area with the heading 'Order Remarks' and the instruction 'THIS IS WHERE YOU CAN ENTER ANY DESIRED REMARKS.' Below the text area, there are four buttons: 'Back', 'Next', 'OK', and 'Cancel'. A 'Help' button with a question mark icon is also present. At the bottom of the window, there is a footer text: 'Enter remarks to be associated with this travel order'.

If you wish to enter remarks, **click** on the **Remarks** tab. When the Remarks tab is displayed, **click** in the **text box** and **type** your desired remarks.

When you are finished entering the remarks, **click** on **OK** to save your entries.

Creating MILPCS Travel Orders

Note: For Navy users of IATS, if you are creating a travel order for a **MILPCS Settlement** or an **Advance** for a (DITY/PPM) transaction, refer to the **Help topics** "[Transactional Accounting](#)" for **Settlements**, or "[DITY-PPM-Advances](#)" if the transaction will involve **Transactional Accounting**.

Creating an IATS **Travel Order** record for **MILPCS** travel, requires the user to **specify** what entitlements were **authorized** in accordance with the published orders.

The screenshot shows the IATS Travel Order form for a user named DAVE on Monday, July 30, 2018. The form is titled "Travel Order" and contains the following fields and sections:

- Header:** Travel Order, User ID: DAVE, Monday, July 30, 2018.
- Traveler Information:**
 - Traveler's Name: BOY, SOLDIER, E7
 - Grade/Rank: E7
 - Order Number/TONO: 06-PCS
 - Order Type: PCS
- Description:** What's Authorized (Military PCS), Dependents, Remarks.
- Purpose of Trip:** Station to Station
- Issuing Organization:** DFAS
- Paying Organization:** DFAS
- DSSN/ITR:** 6416
- Funds:** Army
- Group Travel:**
- Origin:** FORT HOOD, TX, BELL
- Destination:** IND, IN, MARION
- Default State:** IN INDIANA
- State Tax Designation:** IN INDIANA
- Dates:**
 - Issue Date: 6/1/2018
 - Begin Date: 6/25/2018
 - End Date: 7/1/2018
- Buttons:** Back, Next, OK, Cancel, Help.
- Footer:** Enter the report date for this Permanent Change of Station Authorization

Complete this screen by entering the required information in each field as described below:

TIP: After entering the required information at an input field, **press Tab** or **click** in the next field to continue.

- **Order Number:** - If not previously entered at the **Travel Order Selection** screen, **type** the **travel order number** as shown on the hard-copy travel order attached to the request for **settlement** or **advance**.
- **Order Type:** - The default order **type** at this field is **normal**. Click on the *down* arrow button to display a **listing** of various types and then **click** on **PCS**. A selection can also be made by **pressing** the *Up/Dn* arrow **keys** on the keyboard to **scroll** through the **listing** of various types. When **PCS** is highlighted, it is automatically selected by IATS.

- **Purpose of Trip:** - The **type** of PCS selected affects the traveler's **entitlements**. At this field, **click** on the *down* arrow to display a **listing** of various choices and then **click** on the desired choice to make a selection. A selection can also be made by **pressing** the *Up/Dn* arrow **keys** on the keyboard to **scroll** through the **listing** of various types. When the desired type is highlighted, **press Tab** to make a selection.
- **Issuing Organization:** - The default value, previously entered into the **Organization** field when the travel **account** was **created**, is **displayed** in this field. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **Paying Organization:** - The default organization **displayed** is the information **entered** into the **Organization** field when the travel **account** was **created**. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **DSSN ITR:** - The default number displayed is from the **DSSN ITR** field at the **Maintain Base Description** screen in the **Maintenance** module. This number is used to **identify** the **source** of the **payment** when the payment is disbursed at a DSSN located other than where the voucher was computed.
- **Funds:** - The type of customer IATS is **configured** for defaults to this field. No input is **necessary**.
- **Group Travel:** - **Click** in this **box** or **press** the **space bar** to **activate** this option if group travel rules apply to the MILPCS trip the order is being created for. IATS places a **check mark** in this box when group travel rules are **activated**.
- **Origin:** - This is the location of the traveler's old Permanent Duty Station (**PDS**). At this field, the **Location Selection** screen automatically appears. At the **State/Country** field, **type** the first two letters of the state or country name. If necessary, **click** the *Up/Dn* **arrows** until the desired name is displayed. **Click** on the highlighted name or **press Tab** to make the selection. At the **City** or **Locality** field, **type** the first two letters of the city/locality name. This displays a **listing** of city/locality names, for the previously selected state, beginning with those letters. **Use** the procedures previously **described** to **make** the **selection**. **Click** on **OK** to continue.
- **Destination:** - This is the location of the traveler's new Permanent Duty Station (**PDS**). Use the **same method** explained at the **Origin** field to complete the Destination field.
- **Default State:** - The **name** of the **state** for the member's new **PDS** destination will **default** to this field. This is a **view only** field and cannot be changed.
- **State Tax Designation:** - The **state name** entered into this field **specifies** which **state** the member has a tax **obligation** too. IATS will use the **tax rate** for the state entered for **calculating** the state tax **withholdings**. Enter the **two character state code** or click on the *down arrow* button and then **click** on the desired **state name** from the displayed list.
- **Issue Date:** - At this field, **type** the **date** the order was issued, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for **settlement** or **advance**. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.
- **Begin Date:** - At this field, **type** the **date** the travel is expected to **begin**, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for **settlement** or **advance**. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.
- **End Date:** - At this field, **type** the **date** the travel is expected to **end**, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for **settlement** or **advance**. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.

After completing all of the required input fields, **click** on the **Next** button, the **What's Authorized** tab, or press the (Alt + N) keys to advance to the [What's Authorized \(Military PCS\) tab](#).

What's Authorized - Military PCS Tab

Creating an IATS **Travel Order** record for **MILPCS** travel, requires the user to **specify** what **entitlements** were **authorized** in accordance with the published orders.

Description	What's Authorized (Military PCS)	Dependents	Remarks
<div style="border: 1px solid gray; padding: 10px;"> <p>What's Authorized</p> <div style="display: flex; justify-content: space-between;"> <div style="width: 45%;"> <input type="checkbox"/> Ship POV </div> <div style="width: 45%;"> <input checked="" type="checkbox"/> TLE </div> </div> <div style="display: flex; justify-content: space-between; margin-top: 10px;"> <div style="width: 45%;"> <input type="checkbox"/> Proceed Time </div> <div style="width: 45%;"> <input checked="" type="checkbox"/> Emergency TLE </div> </div> <div style="display: flex; justify-content: space-between; margin-top: 10px;"> <div style="width: 45%;"> DLA <input type="text" value="With Dependents"/> </div> <div style="width: 45%;"> <input type="checkbox"/> Paid BAH </div> </div> <div style="display: flex; justify-content: space-between; margin-top: 10px;"> <div style="width: 45%;"> <input type="checkbox"/> Separate COT Travel </div> <div style="width: 45%;"> <input type="checkbox"/> Has BAH Waiver </div> </div> <div style="display: flex; justify-content: space-between; margin-top: 10px;"> <div style="width: 45%;"> Household Goods </div> <div style="width: 45%;"> <input type="text" value="DITY"/> </div> </div> </div>			

 **Complete this tab by entering the required information in each field as described below:**

TIP: After entering the required information at an input field, **press Tab** or **click** in the next field to continue.

- **TLA:** - Click in this **box** or **press the space bar** to **activate** this option if the entitlement for **Temporary Lodging Allowance** is authorized. IATS places a **check mark** in this box when the TLA entitlement is activated.
- **Ship POV:** - Click in this **box** or **press the space bar** to **activate** this option if the traveler is authorized to **ship** a **POV** to or from an **OCONUS** location. IATS places a **check mark** in this box when this option **activated**.
- **DLA:** - The **type** of **DLA** selected affects the traveler's **entitlements**. Click on the *down* arrow **button** to display a **listing** of various types and then **click** on the desired choice. A selection can also be made by **pressing** the *Up/Dn* arrow **keys** on the keyboard to **scroll** through the **listing** of various types. When the desired type is highlighted, **press Tab** to make a selection.
- **TLE:** - Click in this **box** or **press the space bar** to **activate** this option if the entitlement for **Temporary Lodging Expense** is authorized. IATS places a **check mark** in this box when the TLE entitlement is activated.
- **Emergency TLE:** - Click in this **box** or **press the space bar** to **activate** this option if the entitlement for **Temporary Lodging Expense** is authorized in a declared disaster area. IATS places a **check mark** in this box when the Emergency TLE entitlement is activated. Checking this box allows for the payment of TLE up to a maximum of **60 days**.
- **Increase Standard TLE:** - This check box will only **appear** if the **Begin Date** on the Travel Order is prior to **10/01/22**. You should **click** in this **box** or **press the space bar** to **activate** this option if an **extension** to the entitlement for **Temporary Lodging Expense** has been **approved** and the TLE period **started** in **September 2022** but crossed over into **October 2022**. Checking this option will **increase** the **allowable number of TLE days** to up to **14**.

- **Paid BAH:** - Click in this **box** or **press** the **space bar** to **activate** this option **if** the member **received** a payment for Basic Allowance for Housing (**BAH**) during the TLE period. When this option is activated, IATS will **reduce** the **lodging** amount for **days** (15-60) of the **TLE** period by the daily **BAH** rate.
- **Has BAH Waiver:** - Click in this **box** or **press** the **space bar** to **activate** this option **if** the service member **provides** an approved **waiver**. When this option is activated, IATS will not **reduce** the lodging amount of **TLE** by the **BAH** daily rate.
- **Proceed Time:** - Click in this **box** or **press** the **space bar** to **activate** this option **if** Proceed Time was **authorized** on the hard-copy travel order attached to the request for settlement or advance.
- **Separate COT Travel:** - Click in this **box** or **press** the **space bar** to **activate** this option **if** Separate Consecutive Overseas Travel (**COT**) was authorized.
- **Household Goods:** - At this field, **click** on the *down* arrow **button** to display a **listing** of various types and then **click** on the desired choice. A selection can also be made by **pressing** the *Up/Dn* arrow **keys** on the keyboard to **scroll** through the **listing** of various types. When the desired type is highlighted, **press** *Tab* to make a selection.
- **CBA Authorized:** - Click in this **box** or **press** the **space bar** to **activate** this option. **Note** that this option **applies** to only **Coast Guard** and **TPAX** customers. This option **activates** the **requirement** to **flag** claims for prepayment **review** or **audit**.

After completing all of the required input fields, **click** on the **Next** button, the **Dependents tab**, or **press** the **(Alt + N)** keys to **advance** to the [Dependents tab](#).

After completing the Dependents tab, if applicable, **click** on the **Next** button, the **Remarks tab**, or **press** the **(Alt + N)** keys to **advance** to the [Remarks tab](#) if you wish to **add** some **remarks** to the travel order.

Click on the **OK** button to **save** the travel order record once you have entered all of the applicable information.

Dependents - Tab

Creating an IATS **Travel Order** record for **PCS** travel, requires the user to **specify** whether **dependent** travel was **authorized**, in accordance with the published orders, and **who** the dependents are.

Travel Order User ID: SYSTEM Thursday, March 19, 2020

Traveler's Name: SMITH, MARKY M. E9 Grade/Rank: E9 Order Number/TONO: 1217B87PCS900000 Order Type: PCS

Description What's Authorized (Military PCS) Dependents Remarks

Select the status for the spouse (Active Military or not)

Note: Clicking on the **Get Dependents** button will automatically copy the dependent(s) **information** from another PCS travel order already in the database for this traveler. If there is not another PCS travel order in the database for this traveler, **follow the steps below to add** the dependent information.

Complete this tab by entering the required information in each field as described below:

Tip: After entering the required information at an input field, **press Tab** or **click** in the next field to continue.

- **Dependent Name:** - At this field, **type** the dependent's first name.
- **Relationship to Traveler:** - At this field, a *drop down list* appears displaying various choices. **Click** on the desired **choice** or **press** the *Up/Dn arrow keys* until the desired choice is highlighted and then **press Tab**.
- **Date of Birth:** - **If Dependent** was selected at the **Relationship** field, **type** the dependent's **date of birth** in **MMDDYY** format.

- **Active Status:** - If the **dependent** is a **spouse**, you must **click** on the *down arrow* button and then **select** either **Active Military** or **Not Active Military**.

After completing the Dependents tab, if applicable, **click** on the **Next** button, the **Remarks tab**, or **press** the **(Alt + N)** keys to **advance** to the [Remarks tab](#) if you wish to **add** some **remarks** to the travel order.

Click on the **OK** button to **save** the travel order record once you have entered all of the applicable information.

Creating CIVPCS Travel Orders

Creating an IATS **Travel Order** record for **CIVPCS** travel, requires the user to **specify** what **entitlements** were **authorized** in accordance with the published orders.

Complete this screen by entering the required information in each field as described below:

TIP: After entering the required information at an input field, **press Tab** or **click** in the next field to continue.

- **Order Number:** - If not previously entered at the **Travel Order Selection** screen, **type** the **travel order number** as shown on the hard-copy travel order attached to the request for settlement or advance.
- **Order Type:** - The default order **type** at this field is **normal**. Click on the *down* arrow button to display a **listing** of various types and then **click** on **PCS**. A selection can also be made by **pressing** the *Up/Dn* arrow **keys** on the keyboard to **scroll** through the **listing** of various types. When **PCS** is highlighted, it is automatically selected by IATS.
- **Purpose of Trip:** - The **type** of PCS selected affects the traveler's **entitlements**. At this field, **click** on the *down* arrow to display a **listing** of various choices and then **click** on the desired choice to make a selection. A selection can also be made by **pressing** the *Up/Dn* arrow **keys** on

the keyboard to **scroll** through the **listing** of various types. When the desired type is highlighted, **press Tab** to make a selection.

- **Issuing Organization:** - The default value, previously entered into the **Organization** field when the travel **account** was **created**, is **displayed** in this field. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **Paying Organization:** - The default organization **displayed** is the information entered into the **Organization** field when the travel **account** was **created**. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **DSSN ITR:** - The default number displayed is from the **DSSN ITR** field at the **Maintain Base Description** screen in the **Maintenance** module. This number is used to **identify the source** of the **payment** when the payment is disbursed at a DSSN located other than where the voucher was computed.
- **Funds:** - The type of customer IATS is **configured** for defaults to this field. No input is **necessary**.
- **Origin:** - This is the location of the traveler's old Permanent Duty Station (**PDS**). At this field, the **Location Selection** screen automatically appears. At the **State/Country** field, **type** the first two letters of the state or country name. If necessary, **click** the **Up/Dn arrows** until the desired name is displayed. **Click** on the highlighted name or **press Tab** to make the selection. At the **City** or **Locality** field, **type** the first two letters of the city/locality name. This displays a **listing** of city/locality names, for the previously selected state, beginning with those letters. **Use** the procedures previously described to **make the selection**.
- **Destination:** - This is the location of the traveler's new Permanent Duty Station (**PDS**). Use the **same method** explained at the **Origin** field to complete the Destination field.
- **Default State:** - The **name** of the **state** for the employees new **PDS** destination will **default** to this field. This is a **view only** field and cannot be changed.
- **State Tax Designation:** - The **state name** entered into this field **specifies** which **state** the employee has a tax **obligation** too. IATS will use the **tax rate** for the state entered for **calculating** the state tax **withholdings**. Enter the **two character state code** or click on the **down arrow** button and then **click** on the desired **state name** from the displayed list.
- **Payroll Office:** - If the Payroll Office field is displayed, **type** the traveler's **payroll office code**. This field will only be visible when this **option** has been **activated** at the **System Configuration** screen in the Maintenance module.
- **Issue Date:** - At this field, **type** the **date** the order was issued, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for settlement or advance. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.
- **Begin Date:** - At this field, **type** the **date** the travel is expected to **begin**, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for settlement or advance. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.
- **End Date:** - At this field, **type** the **date** the travel is expected to **end**, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for settlement or advance. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.
- **Job Offered:** - At this field, **type** the **date** the traveler was **offered** the new assignment or the **date** the **transportation agreement** was **signed**. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.
- **Retirement Code:** - At this field, **select** the current retirement **program** in effect for the employee. The **code** selected will **affect** the amount of employment taxes withheld. **Click** on the **down arrow** button to display a **listing** of various programs and then **click** on the desired choice. A selection can also be made by **pressing** the **Up/Dn arrow keys** on the keyboard to **scroll** through the **listing** of various programs. When the desired choice is highlighted, **press Tab** to make a selection.

- **WTA to be paid:** - Determine if the traveler has **elected** to receive a **WTA** payment and **activate** this **option** if applicable. **Click** in the **box** or **press** the **space bar**. IATS places **check mark** in this box when the option is **activated**.

After completing all of the required input fields, click on the Next button, the What's Authorized tab, or press the (Alt + N) keys to advance to the [What's Authorized \(Civilian PCS\) tab](#).

What's Authorized - CIVPCS Order

Creating an IATS **Travel Order** record for **CIVPCS** travel, requires the user to **specify** what **entitlements** were **authorized** in accordance with the published orders.

 Complete this tab by entering the required information in each field as described below:

TIP: After entering the required information at an input field, **press Tab** or **click** in the next field to continue.

Mileages

- **Miles Old Residence to Old Station:** - At this field, **type** the number of **miles** the traveler **commuted** daily from the **residence** to the old duty **station**.
- **Miles Old Residence to New Station:** - At this field, **type** the number of **miles** from the traveler's old **residence** to the new duty **station**.
- **Miles Old Station to New Station:** - At this field, IATS will automatically **populate** the number of miles. If the mileage does not automatically populate, however, **type** the number of **miles** from the traveler's old duty **station** to the new duty **station**.

What's Authorized

- **Miscellaneous:** - Click in this **box** or **press** the **space bar** to **activate** this option if Miscellaneous Expense Allowance was **authorized** on the hard-copy travel order attached to the request for settlement. IATS places a **check mark** in this box when this option **activated**.
- **House Purchase:** - Click in this **box** or **press** the **space bar** to **activate** this option if Real Estate Expenses were **authorized** on the hard-copy travel order attached to the request for settlement. IATS places a **check mark** in this box when this option **activated**.
- **Alt. Fuel Authorized:** - Click in this **box** or **press** the **space bar** to **activate** this option if the Authorizing Official has **approved** the **shipment** or the **use** of an alternative fueled vehicle (**AFV**) in connection with the PCS move. Such approval **authorizes** circuitous travel routes to accommodate vehicle **ranges** and **fueling availability limitations**.
- **Trailer:** - Click in this **box** or **press** the **space bar** to **activate** this option if the traveler was **authorized** reimbursement for the movement of a house trailer on the hard-copy travel order attached to the request for settlement. IATS places a **check mark** in this box when this option **activated**.
- **Student Travel:** - Click in this **box** or **press** the **space bar** to **activate** this option if **Student Travel** was authorized for this travel order.
- **Renewal Travel:** - Click in this **box** or **press** the **space bar** to **activate** this option if Overseas Renewal Travel was **authorized** on the hard-copy travel order attached to the request for settlement. IATS places a **check mark** in this box when this option **activated**.
- **Ship POV:** - Click in this **box** or **press** the **space bar** to **activate** this option if the traveler was authorized to **ship** a **POV** to or from an **OCONUS** location on the hard-copy travel order attached to the request for settlement. IATS places a **check mark** in this box when this option **activated**.
- **Num POV:** - Click in this **field** and **enter** the **number** of **POVs** being shipped if Ship POV was **authorized**.
- **Property Management:** - Click in this **box** or **press** the **space bar** to **activate** this option if PM services were **authorized** on the hard-copy travel order attached to the request for settlement. IATS places a **check mark** in this box when this option **activated**.
- **House Sale:** - If **Real Estate Expenses** were **authorized** on the hard-copy travel order attached to the request for settlement, **click** on the *down* arrow **button** to display a **listing** of various types and then **click** on the desired choice. A selection can also be made by **pressing** the *Up/Dn* arrow **keys** on the keyboard to **scroll** through the **listing** of various types. When the desired type is highlighted, **press** *Tab* to make a selection.
- **Household Goods:** - At this field, **click** on the *down* arrow **button** to display a **listing** of various types and then **click** on the desired choice. A selection can also be made by **pressing** the *Up/Dn* arrow **keys** on the keyboard to **scroll** through the **listing** of various types. When the desired type is highlighted, **press** *Tab* to make a selection.
- **HHG Taxable Temp Storage:** - Click in this **box** or **press** the **space bar** to **activate** this option if Non-temporary Storage of HHGs was **authorized** on the hard-copy travel order attached to the request for settlement. IATS places a **check mark** in this box when this option **activated**.
- **Total # Taxable Storage Days Authorized:** - At this field, **type** the **number** of days **authorized** on the hard-copy travel order attached to the request for settlement for Non-temporary Storage of HHGs.

House Hunting

- **Employee:** - Click in this **box** or **press** the **space bar** to **activate** this option if the employee was authorized to perform a round trip for the purpose of **finding** a new **residence** at the new **PDS**.
- **Spouse:** - Click in this **box** or **press** the **space bar** to **activate** this option if the employee's spouse was authorized to perform a round trip for the purpose of **finding** a new **residence** at the new **PDS**.
- **Lump Sum:** - Click in this **box** or **press** the **space bar** to **activate** this option if the employee was authorized to be reimbursed under the **Lump Sum** method for computing a **Househunting** trip.
- **Max. Days:** - At this field, **type** the **number** of days **authorized**, on the hard-copy travel order attached to the request for settlement, for performing a **Househunting** trip.

TQSE

- **Type of TQSE:** - If Temporary Quarters Subsistence Expense (TQSE) was **authorized**, on the hard-copy travel order attached to the request for settlement, **click** on the *down* arrow **button** to display a **listing** of various types and then **click** on the desired choice. A selection can also be made by **pressing** the *Up/Dn* arrow **keys** on the keyboard to **scroll** through the **listing** of various types. When the desired type is highlighted, **press** *Tab* to make a selection.
- **Number of days at higher rate:** - If **Actual** was **selected** as the **type** of TQSE reimbursement, **enter** the **number** of days the traveler should be reimbursed for **TQSE** at the higher rate for the settlement being processed. **Note** that this **option** does not apply to travel orders **issued** on or after **1 July, 2024**.
- **Maximum days on Lump Sum TQSE:** - If **Fixed** was **selected** as the **type** of TQSE reimbursement, **enter** the maximum number of days, **authorized**, on the hard-copy travel order attached to the request for settlement, for the reimbursement of **TQSE** at the **Fixed Rate**.
- **TQSE Lump Sum Accepted Date:** - At this field, **type** the **date** the employee **accepted** to receive a Lump Sum payment for TQSE, in **MMDDYY** format. You can also **click** on the *down* **arrow** button and use the **Calendar** to select the date.
- **Total # TQSE Days Authorized:** If **Actual** was **selected** as the **type** of TQSE reimbursement, **enter** the maximum number of days, **authorized**, on the hard-copy travel order attached to the request for settlement. The default value is **60**, but the user may enter any number between **1** and **120**.

After completing all of the required input fields, **click** on the **Next** button, the **Dependents tab**, or **press** the **(Alt + N)** keys to **advance** to the [Dependents tab](#).

After completing the Dependents tab, if applicable, **click** on the **Next** button, the **Remarks tab**, or **press** the **(Alt + N)** keys to **advance** to the [Remarks tab](#) if you wish to **add** some **remarks** to the travel order.

Click on the **OK** button to **save** the travel order record once you have entered all of the applicable information.

Creating Blanket Travel Orders

Creating an IATS **Travel Order** record, requires the user to **specify** what **entitlements** were **authorized** in accordance with the published orders.

A **Blanket Travel Order** is used when the traveler will **perform** an unlimited number of trips against the same travel order number during a specified period.

Select the category that best describes type of travel authorized for this order

Complete this screen by entering the required information in each field as described below:

TIP: After entering the required information at an input field, **press Tab** or **click** in the next field to continue.

- **Order Number:** - If not previously entered at the **Travel Order Selection** screen, **type** the **travel order number** as shown on the hard-copy travel order attached to the request for settlement or advance.
- **Order Type:** - The default order **type** at this field is **normal**. Click on the *down* arrow to display a **listing** of various types and then **click** on **Blanket** to make a selection.
- **Purpose of Trip:** - The **data** input to this field is **posted** to the **travel order detail record**. This information is useful when conducting research or answering inquires. At this field, **click** on the **down arrow** to display a **listing** of various choices and then **click** on the desired choice to make a selection.

- **Issuing Organization:** - The default value, previously entered into the **Organization** field when the travel **account** was **created**, is **displayed** in this field. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **Paying Organization:** - The default organization **displayed** is the information entered into the **Organization** field when the travel **account** was **created**. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **DSSN ITR:** - The default number displayed is from the **DSSN ITR** field at the **Maintain Base Description** screen in the **Maintenance** module. This number is used to **identify** the **source** of the **payment** when the payment is disbursed at a DSSN located other than where the voucher was computed.
- **Funds:** - The type of customer IATS is **configured** for defaults to this field. No input is necessary.
- **State Tax Designation:** - The **State Tax Designation** field appears on the Travel Order screen if the option to **withhold state taxes** is **activated** in **Maintenance**. This field is used to **specify** which state withholding taxes should be withheld for. **Enter** the two character abbreviation for the desired state or **click** on the *down arrow* button and then **click** on the correct **state name** from the *drop down list*.
- **Issue Date:** - Type the **date** the order was **issued**, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for settlement or advance. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.
- **Begin Date:** - Type the **date** for the beginning of the repetitive period, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for settlement or advance. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.
- **Number of Days:** - If desired, **type** the **number** of days for the trip at this field. That will cause IATS to automatically calculate the **End Date** for the trip. **Press Tab** to bypass this field if you would prefer to enter the End Date rather than have it calculated by IATS.
- **End Date:** - If the number of days for the trip was previously entered at the **Number of Days** field, no action is necessary. If not, type the **date** the travel is expected to end, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for **advance** or **settlement**. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.

After completing all of the required input fields, click the OK button to save the entries.

Creating Repetitive Travel Orders

Creating an IATS **Travel Order** record, requires the user to **specify** what **entitlements** were **authorized** in accordance with the published orders.

A **Repetitive Travel Order** is used when the traveler will **perform** a specified number of **trips** against the same travel order number during a specified period.

The screenshot shows the IATS Travel Order form with the following fields and values:

- Traveler's Name: TRAVELER, NEW. E5
- Grade/Rank: E5
- Order Number/TONO: 10-001
- Order Type: Repetitive (dropdown menu is open showing options: Normal, Blanket, Repetitive, Invitational, PCS, Local (SF1164), Local DITY, Evacuation, TDY with DITY)
- Purpose of Trip: Site Visit
- Max Trips Allowed: 1
- Taken or Advanced: 0
- Issuing Organization: ARMY
- Paying Organization: ARMY
- DSSN/ITR: 5150
- Funds: Army
- Issue Date: (empty)
- Begin Date: 10/4/2021
- Number of Days: 225
- End Date: 5/16/2022
- Default State: (empty)
- State Tax Designation: (empty)

Buttons at the bottom: Back, Next, OK, Cancel, ? Help

Footer text: Select the category that best describes type of travel authorized for this order

Complete this screen by entering the required information in each field as described below:

TIP: After entering the required information at an input field, **press Tab** or **click** in the next field to continue.

- **Order Number:** - If not previously entered at the **Travel Order Selection** screen, **type** the **travel order number** as shown on the hard-copy travel order attached to the request for settlement or advance.
- **Order Type:** - The default order **type** at this field is **normal**. Click on the *down* arrow to display a **listing** of various types and then **click** on **Repetitive** to make a selection.
- **Purpose of Trip:** - The **data** input to this field is **posted** to the **travel order detail record**. This information is useful when conducting research or answering inquires. At this field, **click** on the *down* arrow to display a **listing** of various choices and then **click** on the desired choice to make a selection.

- **Max Trips Allowed:** - At this field, **type** the **number** of **trips** the traveler is **authorized** to perform against this order.
- **Taken or Advanced:** - This field is a **display** to show how many trips were **taken** or **advanced** were **issued** against this order.
- **Issuing Organization:** - The default value, previously entered into the **Organization** field when the travel **account** was **created**, is **displayed** in this field. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **Paying Organization:** - The default organization **displayed** is the information entered into the **Organization** field when the travel **account** was **created**. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **DSSN ITR:** - The default number displayed is from the **DSSN ITR** field at the **Maintain Base Description** screen in the **Maintenance** module. This number is used to **identify** the **source** of the **payment** when the payment is disbursed at a DSSN located other than where the voucher was computed.
- **Funds:** - The type of customer IATS is **configured** for defaults to this field. No input is **necessary**.
- **State Tax Designation:** - The **State Tax Designation** field appears on the Travel Order screen if the option to **withhold state taxes** is **activated** in **Maintenance**. This field is used to **specify** which state withholding taxes should be withheld for. **Enter** the two character abbreviation for the desired state or **click** on the down arrow button and then **click** on the correct **state name** from the drop down list.
- **Issue Date:** - Type the **date** the order was **issued**, in **MMDDYY** format, as shown on the hard-copy travel order attached to the request for settlement or advance. You can also **click** on the down arrow button and use the **Calendar** to select the date.
- **Begin Date:** - Type the **date** for the beginning of the repetitive period, in **MMDDYY** format, as shown on the hard-copy travel order attached to the request for settlement or advance. You can also **click** on the down arrow button and use the **Calendar** to select the date.
- **Number of Days:** - If desired, **type** the **number** of days for the trip at this field. That will cause IATS to automatically calculate the **End Date** for the trip. **Press Tab** to bypass this field if you would prefer to enter the End Date rather than have it calculated by IATS.
- **End Date:** - If the number of days for the trip was previously entered at the **Number of Days** field, no action is necessary. If not, type the **date** the travel is expected to **end**, in **MMDDYY** format, as shown on the hard-copy travel order attached to the request for **advance** or **settlement**. You can also **click** on the down arrow button and use the **Calendar** to select the date.

After completing all of the required input fields, **click** the **OK** button to save the entries.

Creating Invitational Travel Orders

Creating an IATS **Travel Order** record, requires the user to **specify** what **entitlements** were **authorized** in accordance with the published orders.

An **Invitational Travel Order** is used when the traveler is not a **member** or **employee**, but has been **invited** to perform travel on **behalf** of the **US Government**.

Travel and transportation **allowances** authorized for these individuals are the same as **those** ordinarily authorized for **employees** performing TDY.

Creating Evacuation Travel Orders

Creating an IATS **Travel Order** record, requires the user to **specify** what **entitlements** were **authorized** in accordance with the published orders.

An **Evacuation** order is created when the travel must be performed due to the authorized/ordered movement of **dependents** from a specific area, when authorized/ ordered by the appropriate authority.

Evacuation refers to **movement** or **departure** from one area to another (both areas may be in the same city or country, or each may be in a different city or country).

In addition, a new evacuation allowance was created for Service Members and their dependents when a **localized emergency situation** arises and the member must evacuate his/her home, (whether on base, off base, or privatized), **obtain lodging** in the **local area**, and may or may not continue to report to his/her duty station.

Enter the Sponsoring Organization for this Evacuation Order

 Complete this screen by entering the required information in each field as described below:

TIP: After entering the required information at an input field, **press Tab** or **click** in the next field to continue.

- **Order Number:** - If not previously entered at the **Travel Order Selection** screen, **type** the **travel order number** as shown on the hard-copy travel **order attached** to the request for **settlement** or **advance**.
- **Order Type:** - The default order **type** at this field is **normal**. Click on the *down* arrow to display a **listing** of various types and then **click** on **Evacuation** to make a selection.
- **Purpose of Trip:** - The **data** input to this field is **posted** to the **travel order detail record**. This information is useful when conducting research or answering inquires. At this field, **click** on the *down* arrow to display a **listing** of various choices and then **click** on the desired choice to make a selection.
- **Member Authorized Evacuation Allowance:** - **Click** in the **check box** to **select** this option if the member has been **authorized** to receive **evacuation allowances** for a **local emergency displacement**. **Note that if this check box is un-checked, the order cannot be saved unless there are dependents listed on the Dependents tab.**
- **Issuing Organization:** - The default **value** previously entered into the **Organization** field, when the travel account was created, is **displayed** in this field. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **Paying Organization:** - The default organization **displayed** is the information **entered** into the **Organization** field when the travel **account** was **created**. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **DSSN ITR:** - The default **number** displayed is from the **DSSN ITR** field at the **Maintain Base Description** screen in the **Maintenance** module. This number is used to **identify** the **source** of the payment when the payment is **disbursed** at a **DSSN** located other than where the voucher was computed.
- **Funds:** - The type of customer IATS is configured for defaults to this field. No input is **necessary**.
- **Disaster:** - The **default** value at the **Disaster** field is **None**. **Clicking** on the *down* arrow will display a **list** of named disasters from the **Disaster Rates Table** in the IATS Maintenance module. If the evacuation order is being created for a named disaster, **click** on the *down* arrow and then **click** on the applicable disaster **name** from the drop down list.
- **Evacuated From:** - This is the **location** the **traveler/dependent(s)** are being evacuated from. At this field, the **Location Selection** screen automatically appears. At the **State/Country** field, **type** the first two letters of the **state** or **country** name. If necessary, **click** the *Up/Dn* arrows until the desired name is displayed. **Click** on the highlighted name or **press Tab** to make the selection. At the **City** or **Locality** field, **type** the first two letters of the city/locality name. This displays a **listing** of city/locality names, for the previously selected state, beginning with those letters. **Use** the procedures previously described to make the selection. **Click** on **OK** to continue
- **Designated Location:** - This is the **location** of the **traveler's/dependent(s)** designated location (**DL**) to be used as a safe haven (**SH**). **Use** the same method explained at the **Evacuated from** field to **complete** the Designated Location field.
- **Issue Date:** - Type the **date** the order was issued, in **MMDDYY** format, as shown on the hard-copy travel order attached to the request for **advance** or **settlement**. You can also **click** on the *down* arrow button and use the **Calendar** to select the date.
- **Begin Date:** - Type the **date** the **travel** is expected to **begin**, in **MMDDYY** format, as shown on the hard-copy travel order attached to the request for **advance** or **settlement**. You can also **click** on the *down* arrow button and use the **Calendar** to select the date.
- **End Date:** - If the number of days for the trip was previously entered at the **Number of Days** field, no action is necessary. If not, type the **date** the travel is expected to **end**, in **MMDDYY** format, as shown on the hard-copy travel order attached to the request for **advance** or **settlement**. You can also **click** on the *down* arrow button and use the **Calendar** to select the date.
- **Override Disaster Table:** - If the evacuation travel order is being created for a **named** disaster that was **selected** from the listed disasters at the **Disaster** field, the **Disaster Rates** table in the

Maintenance module **determines** how many days the per diem is payable for at the **higher rate**. In some cases, however, the **command** may have the discretion to **determine** how many days are payable at the higher rate. If the **command** has the authority to **extend** the number of days payable at the higher rate, **click** in the **check box** at the Override Disaster Table field.

- **# of Days at High Rate:** - If the **check box** was **checked** at the **Override Disaster Table** field, enter the **number** of days determined by the command for the payment of per diem at the higher rate.
- **Sponsoring Org:** - The default value at the Sponsoring Org field is the traveler's **paying organization**. If the evacuation travel, however, is being **sponsored** by an organization **other** than the traveler's paying organization, **enter** the **name** or **unit number** of the **sponsoring organization** at this field.

After completing all of the required input fields on the **Description** tab, **click** on the [Dependents](#) and or [Remarks](#) tabs to complete the travel order.

Creating Student Travel Orders

Creating an IATS **Travel Order** record, requires the user to **specify** what **entitlements** were **authorized** in accordance with the published orders.

The **purpose** of **Student Travel** is to send an employee's dependent on one round trip each year from the employee's **OCONUS** duty station to a **school** in the **United States**. This type of travel **requires** the creation of a Student Travel order.

Complete the Travel Order screen by entering the required information in each field as described below:

TIP: After entering the required information at an input field, **press Tab** or **click** in the next field to continue.

- **Order Number:** - If not previously entered at the **Travel Order Selection** screen, **type** the **travel order number** as shown on the hard-copy travel **order attached** to the request for **settlement** or **advance**.
- **Order Type:** - The default order **type** at this field is **normal**. Click on the *down* arrow to display a **listing** of various types and then **click** on **Student Travel** to make a selection.
- **Purpose of Trip:** - For Student Travel, the **purpose** of the trip will always default to **Other**. No action is necessary at this field.

- **Issuing Organization:** - The default value previously entered into the **Organization** field, when the travel account was created, is **displayed** in this field. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **Paying Organization:** - The default organization **displayed** is the information **entered** into the **Organization** field when the travel **account** was **created**. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **DSSN ITR:** - The default number displayed is from the **DSSN ITR** field at the **Maintain Base Description** screen in the **Maintenance** module. This number is used to **identify** the **source** of the payment when the payment is **disbursed** at a **DSSN** located other than where the voucher was computed.
- **Funds:** - The type of customer IATS is configured for defaults to this field. No input is **necessary**.
- **School Destination:** - When you advance to the School Destination field, the **Location Selection** screen will appear and you must specify the **exact** location of the school the student will attend. At the **State/Country** field, **type** the first two letters of the state or country name. If necessary, **click** the *Up/Dn* **arrows** until the desired name is displayed. **Click** on the highlighted name or **press Tab** to make the selection. At the **City** or **Locality** field, **type** the first two letters of the city/locality name. This displays a **listing** of city/locality names, for the previously selected state, beginning with those letters. **Use** the procedures previously described to **make** the selection. **Click** on **OK** to continue.
- **State Tax Designation:** - The **State Tax Designation** field appears on the Travel Order screen if the option to **withhold state taxes** is **activated** in **Maintenance**. This field is used to **specify** which state withholding taxes should be withheld for. **Enter** the two character **abbreviation** for the desired state or **click** on the *down* **arrow** button and then **click** on the correct **state name** from the *drop down* list.
- **Issue Date:** - Type the **date** the order was issued, in **MMDDYY** format, as shown on the hard-copy travel **order** attached to the request for **advance** or **settlement**. You can also **click** on the *down* **arrow** button and use the **Calendar** to select the date.
- **Begin Date:** - Type the **date** the **travel** is expected to **begin**, in **MMDDYY** format, as shown on the hard-copy travel **order** attached to the request for **advance** or **settlement**. You can also **click** on the *down* **arrow** button and use the **Calendar** to select the date.
- **End Date:** - Type the **date** the travel is expected to **end**, in **MMDDYY** format, as shown on the hard-copy travel **order** attached to the request for **advance** or **settlement**. You can also **click** on the *down* **arrow** button and use the **Calendar** to select the date.

After completing all of the required input fields on the **Description** tab, **click** on the **Dependents** and or **Remarks** tabs to complete the travel order.

Creating TDY with DITY Travel Orders

Creating an IATS **Travel Order** record, requires the user to **specify** what **entitlements** were **authorized** in accordance with the published orders.

A **TDY with DITY Travel Order** is used when a traveler is authorized **reimbursement** for the **movement** of **household goods** in conjunction with a **TDY** trip.

The screenshot shows the 'Travel Order' form with the following fields and values:

- Traveler's Name:** TRAVELER, NEW. E5
- Grade/Rank:** E5
- Order Number/TONO:** TDY-DITY
- Order Type:** TDY with DITY (dropdown menu is open showing options: Normal, Blanket, Repetitive, Invitational, PCS, Local (SF1164), Local DITY, Evacuation, TDY with DITY)
- Purpose of Trip:** Training
- TDY DITY Authorized:**
- Issuing Organization:** ARMY
- Paying Organization:** ARMY
- DSSN/ITR:** 5150
- Funds:** Army
- Group Travel:**
- Dates:**
 - Issue Date:** (dropdown menu is open)
 - Begin Date:** 3/5/2021
 - Number of Days:** 185
 - End Date:** 9/5/2021
- Default State:** (empty field)
- State Tax Designation:** IN INDIANA

Buttons at the bottom: Back, Next, OK, Cancel, ? Help.

Footer text: Select the category that best describes type of travel authorized for this order

Complete this screen by entering the required information in each field as described below:

TIP: After entering the required information at an input field, **press Tab** or **click** in the next field to continue.

- **Order Number:** - If not previously entered at the **Travel Order Selection** screen, **type** the **travel order number** as shown on the hard-copy travel **order attached** to the request for **settlement** or **advance**.
- **Order Type:** - The default order **type** at this field is **normal**. Click on the *Down* arrow to display a **listing** of various types and then **click** on **TDY with DITY** to make a selection.
- **Purpose of Trip:** - The **data** input to this field is **posted** to the **travel order detail record**. This information is useful when conducting research or answering inquires. At this field, **click** on the *down* arrow to display a **listing** of various choices and then **click** on the desired choice to make a selection.

- **TDY DITY Authorized:** - A **check mark** appears in the **check box** next to this item when **TDY with DITY** is selected as the order type. **Click** in the box to **un-check** it if a DITY move is not authorized in conjunction with the TDY trip.
- **Issuing Organization:** - The default value previously entered into the **Organization** field, when the travel account was created, is **displayed** in this field. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquiries. **Press Tab** to continue or **type** a different organization if desired.
- **Paying Organization:** - The default organization **displayed** is the information **entered** into the **Organization** field when the travel **account** was **created**. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquiries. **Press Tab** to continue or **type** a different organization if desired.
- **DSSN ITR:** - The default number displayed is from the **DSSN ITR** field at the **Maintain Base Description** screen in the **Maintenance** module. This number is used to **identify** the **source** of the payment when the payment is **disbursed** at a **DSSN** located other than where the voucher was computed.
- **Funds:** - The type of customer IATS is configured for defaults to this field. No input is **necessary**.
- **Group Travel:** - **Click** in this **box** or **press** the **space bar** to **activate** this option if group travel rules apply to the trip the order is being created for. IATS places a **check mark** in this box when group travel rules are **activated**.
- **State Tax Designation:** - The **State Tax Designation** field appears on the Travel Order screen if the option to **withhold state taxes** is **activated** in **Maintenance**. This field is used to **specify** which state withholding taxes should be withheld for. **Enter** the two character abbreviation for the desired state or **click** on the **down arrow** button and then **click** on the correct **state name** from the **drop down list**.
- **Issue Date:** Type the **date** the order was **issued**, in **MMDDYY** format, as shown on the hard-copy travel order attached to the request for settlement or advance. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.
- **Begin Date:** - Type the **date** for the beginning of the repetitive period, in **MMDDYY** format, as shown on the hard-copy travel order attached to the request for settlement or advance. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.
- **Number of Days:** - If desired, **type** the **number** of days for the trip at this field. That will cause IATS to automatically calculate the **End Date** for the trip. **Press Tab** to bypass this field if you would prefer to enter the End Date rather than have it calculated by IATS.
- **End Date:** - If the number of days for the trip was previously entered at the **Number of Days** field, no action is necessary. If not, type the **date** the travel is expected to **end**, in **MMDDYY** format, as shown on the hard-copy travel order attached to the request for **advance** or **settlement**. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.

After completing all of the required input fields on the **Description** tab, **click** on the **Remarks** tab if you wish to add remarks to the order or **click** on **OK** if you are done.

Creating Taxable TDY Orders

After **entering** a new travel order **number** at the **Travel Order Selection** screen, the **Travel Order** screen appears.

This screen is used to capture the specific details for the trip and to approve the various entitlements necessary for the accomplishment of the mission. In addition, it captures the funding information necessary for reporting the obligation and expenditures to the associated accounting systems.

The screenshot shows the 'Travel Order' form with the following fields and values:

- Traveler's Name:** CIVILIAN, JOE E. C
- Grade/Rank:** C
- Order Number/TONO:** TDY
- Order Type:** Normal
- Purpose of Trip:** Site Visit
- Issuing Organization:** DFAS
- Paying Organization:** DFAS
- DSSN/ITR:** 6416
- Funds:** Army
- Dates:**
 - Issue Date: 6/1/2017
 - Begin Date: 6/5/2017
 - Number of Days: 391 (Taxable TDY checked)
 - End Date: 6/30/2018
- Financial:**
 - Retirement Code: FERS
 - Pay WTA: checked
- State Tax Designation:** IN INDIANA

Buttons at the bottom: Back, Next, OK, Cancel, ? Help.

Footnote: Select the designated State (or blank if none) for State Tax computation.

Complete this screen by entering the required information in each field as described below:

TIP: After entering the required information at an input field, **press Tab** or **click** in the next field to continue.

- **Order Number:** - If not previously entered at the **Travel Order Selection** screen, **type** the **travel order number** as shown on the hard-copy travel **order attached** to the request for **settlement**.
- **Order Type:** - The default order **type** at this field is **normal**. If normal is the desired type, press **Tab** to continue. If another type of order is desired, **click** on the **down arrow** to **display** a **listing** of various types and then **click** on the desired type to make a selection. **Refer** to the topic "[Type of Orders](#)" for more specific details about the various **types** of travel **orders**.
- **Purpose of Trip:** - The **data** input to this field is **posted** to the **travel order detail record**. This information is useful when conducting research or answering inquires. At this field, **click** on the

down arrow to display a **listing** of various choices and then **click** on the desired choice to make a selection.

- **Issuing Organization:** - The default value previously entered into the **Organization** field, when the travel account was created, is **displayed** in this field. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **Paying Organization:** - The default organization **displayed** is the information **entered** into the **Organization** field when the travel **account** was **created**. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **DSSN ITR:** - The default number displayed is from the **DSSN ITR** field at the **Maintain Base Description** screen in the **Maintenance** module. This number is used to **identify** the **source** of the payment when the payment is **disbursed** at a **DSSN** located other than where the voucher was computed.
- **UIC:** - This field pertains to **Navy** customers only. The **default** value at this field is **zeros**. You may leave the field as is or you may **enter** the **UIC** for the traveler. The **purpose** of this field is to be able to generate the **suspense reports** for a specific UIC.
- **Funds:** - The type of customer IATS is configured for defaults to this field. No input is **necessary**.
- **Group Travel:** - **Click** in the **check box** next to the **Group Travel** field if you must **activate** Group Travel **rules** for this travel order.
- **Default State:** - The **Default State** field is not used for this type of travel.
- **State Tax Designation:** - The **State Tax Designation** field appears on the Travel Order screen if the option to **withhold state taxes** is **activated** in **Maintenance**. This field is used to **specify** which state withholding taxes should be withheld for. **Enter** the two character abbreviation for the desired state or **click** on the **down arrow** button and then **click** on the correct **state name** from the *drop down list*.

Note: At the **State Tax Designation** field if the long-term taxable TDY trip is from an **OCONUS** location that is a US territory to another **OCONUS** location the **State Tax Designation** of the **departing location** must be **selected** for the claim to **withhold taxes** at the proper rate.

- **Issue Date:** - Type the **date** the order was issued, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for **advance** or **settlement**. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.
- **Begin Date:** - Type the **date** the **travel** is expected to **begin**, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for **advance** or **settlement**. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.
- **Number of Days:** - If desired, **type** the **number** of days for the trip at this field. That will cause IATS to automatically **calculate** the **End Date** for the trip. **Press Tab** to bypass this field if you would prefer to enter the End Date rather than have it calculated by IATS.
- **Taxable TDY:** - IATS automatically **checks** this field to **apply** tax withholdings for TDY trips in excess of 365 days. **Click** in the **check box** to **remove** the **check mark** if taxes should not be withheld.
- **End Date:** - If the number of days for the trip was previously entered at the **Number of Days** field, no action is necessary. If not, type the **date** the travel is expected to **end**, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for **advance** or **settlement**. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.
- **Remarks:** - If you wish to add remarks for the travel order you are creating, **click** on the **Remarks** tab and enter your desired remarks.

After completing all of the required input fields, **click** the **OK** button to save the entries.

Creating Alaska Leave Travel Orders

Creating an IATS **Travel Order** record, requires the user to **specify** what **entitlements** were **authorized** in accordance with the published orders.

Alaska Leave Travel Orders are **created** when a **member**, assigned to a Permanent Duty Station (**PDS**) in **Alaska**, is **authorized** the **special leave transportation allowance** reimbursement for one round trip airfare between the member's **PDS** and Home of Record (**HOR**).

Note: This entitlement is **effective** December 23, 2022 to December 31, 2023.

Travel Order User ID: SYSTEM Monday, May 15, 2023

If not, type the **date** the travel is expected to **end**, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for **advance** or **settlement**. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.

After completing all of the required input fields, click the OK button to save the entries.

Creating Mobilization Travel Orders

Creating an IATS **Travel Order** record, requires the user to **specify** what **entitlements** were **authorized** in accordance with the published orders.

Mobilization Travel Orders must be **created** when a **member** or **employee** assigned to a Permanent Duty Station (**PDS**), is ordered to participate in a **contingency operation** that requires mobilization.

Due to a new requirement to **show** Mobilization/Demobilization and TDY expenses on separate accounting lines and separated by **fiscal year** some new features were added to IATS to handle these requirements.

One of the key new features is the ability to **turn on** the Mobilization Travel feature when **creating** the **Travel Order**.

The screenshot shows the IATS Travel Order creation interface. At the top, it displays 'Travel Order', 'User ID: SYSTEM', and 'Tuesday, September 26, 2023'. Below this are four input fields: 'Traveler's Name' (TEST, MOBONE L: E5), 'Grade/Rank' (E5), 'Order Number/TONO' (111111), and 'Order Type' (Normal). The main section is divided into 'Description' and 'Remarks' tabs. Under 'Description', there are several fields: 'Purpose of Trip' (Site Visit), 'Issuing Organization' (D), 'Paying Organization' (D), 'DSSN/ITR' (6416), 'Funds' (Army), and 'Group Travel' (checkbox). A 'Dates' section contains 'Issue Date' (5/5/2022), 'Begin Date' (5/5/2022), 'Number of Days' (293), and 'End Date' (2/21/2023). A 'Mobilization' checkbox is checked and highlighted with a red box. At the bottom, there are 'Back', 'Next', 'OK', 'Cancel', and 'Help' buttons. A footer note says 'Enter the expected end date of travel for this travel authorization'.

Complete this screen by entering the required information in each field as described below:

Tip: After entering the required information at an input field, **press Tab** or **click** in the next field to continue.

- **Order Number:** - If not previously entered at the **Travel Order Selection** screen, **type** the **travel order number** as shown on the hard-copy travel **order attached** to the request for **settlement** or **advance**.

- **Order Type:** - The default order **type** at this field is **normal**. Click on the *down* arrow to display a **listing** of various types and then **click** on **Alaska Leave** to make a selection.
- **Purpose of Trip:** - The **data** input to this field is **posted** to the **travel order detail record**. This information is useful when conducting research or answering inquires. At this field, IATS will automatically default to **Alaska Leave Allowance** as the purpose.
- **Issuing Organization:** - The default value previously entered into the **Organization** field, when the travel account was created, is **displayed** in this field. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **Paying Organization:** - The default organization **displayed** is the information **entered** into the **Organization** field when the travel **account** was **created**. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **DSSN ITR:** - The default number displayed is from the **DSSN ITR** field at the **Maintain Base Description** screen in the **Maintenance** module. This number is used to **identify** the **source** of the payment when the payment is **disbursed** at a **DSSN** located other than where the voucher was computed.
- **Funds:** - The type of customer IATS is configured for defaults to this field. No input is **necessary**.
- **Mobilization:** - **Click** in the **check box** to **activate** this option if the issued travel orders indicate that the **purpose** is in support of a **contingency** operation. Activating this option will **turn on** new features added to IATS that will enable the ability to **show** Mobilization/Demobilization and TDY expenses on separate accounting lines separated by **fiscal year**.
- **Issue Date:** - Type the **date** the order was **issued**, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for settlement or advance. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.
- **Begin Date:** - Type the **date** for the beginning of the repetitive period, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for settlement or advance. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.
- **Number of Days:** - If desired, **type** the **number** of days for the trip at this field. That will cause IATS to automatically calculate the **End Date** for the trip. **Press Tab** to bypass this field if you would prefer to enter the End Date rather than have it calculated by IATS.
- **End Date:** - If the number of days for the trip was previously entered at the **Number of Days** field, no action is necessary. If not, type the **date** the travel is expected to **end**, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for **advance** or **settlement**. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.

After completing all of the required input fields, **click** the **OK** button to save the entries.

Selecting Travel Orders

Essentially, all travel pay transactions **require** the use of a **travel order**. Before a Request for Advance or Settlement may be **processed**, the IATS user must **select** the travel order that is **associated** with the **transaction** being processed.

 Complete the following steps to "select" a travel order:

1. At the **Travel Order Selection** screen, any orders for the selected traveler are **listed** in the **Order** grid.

Travel Order Selection

Select an existing order or enter a new order number with which you wish to work

2. **Select** an order through one of the following methods:
 - **Method 1:** - **Double click** on the desired order **number**.
 - **Method 2:** - **Click** on the order number **once** and then **click** the **OK** button.

- **Method 3:** - Enter a **new** travel order number at the **TONO** field. If a non-existing order number is entered, a *pop-up message* appears asking if you want to create the order. If you **click** on **Yes**, the **Travel Order** screen appears and you must [create a new travel order](#).

Viewing Travel Orders

On occasion, an IATS user may need to **view** an existing **travel order** to answer an **inquiry** or **verify** authorizations.

Note: Travel Orders may be **viewed** by IATS users in either the **Examiner** or **System Administrator view** if the **privileges** were granted when the user account was created.

 **Complete the following steps to View a Travel Order:**

1. Login to IATS and change the view to **Examiner** or **System Administrator**, if applicable.
2. At the **Examiner View** or **System Administrator View** screen, **click** on the **Tools** menu and select the **Travel Order** option. The **Select Traveler** screen appears.

View or Modify the Travel Order from Input Screens

When processing travel pay transactions, the **Travel Order** screen can be **viewed** or **modified** from an **input screen**.

 Complete the following steps to "view or modify" a travel order from an input screen:

The screenshot displays the 'Settlement Request' interface. At the top, it shows 'Block No: SCR1496' and 'Request No: 1'. A 'View Only' button is in the top right. Below this, there are two buttons: 'SMITH, MARKY M. E9' on the left and 'TONO: SCR1496' on the right. The 'Request Type - Settlement' section has a dropdown menu for 'Type of Settlement' set to 'Final - First Submission'. A tabbed interface is visible with tabs for 'Remit To', 'Adv/Acct', 'Entitlements', 'Calculations', 'Financial', and 'Remarks'. The 'Remit To' tab is active, showing an 'Address' form with fields for 'Line 1' (11122 E. WEST ST), 'Line 2', 'City' (INDIANAPOLIS), 'Country/State' (IN INDIANA), and 'Zip Code' (46226). An 'Update Traveler' button is located to the right of the address fields. At the bottom of the form are '<Back' and 'Next>' buttons. Below the form are buttons for 'Receipts...', 'Other...', 'Print Request', 'Auditor Remarks', 'OK', 'Cancel', and '? Help'.

1. Click on the **TONO** button at the top of the **screen** displaying the **travel order number**. IATS displays the **Travel Order** screen for this travel order number.

- At the **Travel Order Selection** screen, any existing travel orders in the database for the selected traveler are **listed** in the **table** in the **Order** grid.
- Click** on the desired order and IATS highlights the order in dark blue. After selecting an order click the **OK** button. The **Travel Order** screen appears.

Tip: An order may also be selected by double clicking on the desired order.

The screenshot shows the 'Travel Order' window with the following details:

- Traveler's Name:** SMITH, MARKY M. E9
- Grade/Rank:** E9
- Order Number/TONO:** SCR1496
- Order Type:** Normal
- Purpose of Trip:** Site Visit
- Issuing Organization:** DFAS
- Paying Organization:** DFAS
- DSSN/ITR:** 5150
- Funds:** Army
- Group Travel:**
- Dates:**
 - Issue Date: 2/24/2020
 - Begin Date: 3/2/2020
 - Number of Days: 4
 - End Date: 3/5/2020

Buttons at the bottom include Back, Next, OK, Cancel, and Help. A footer note reads: 'Enter the expected end date of travel for this travel authorization.'

7. At the **Travel Order** screen, **press Tab** to advance through the input fields or **point** to the desired field and **click** the left mouse button.
8. **Type** the desired changes or **select** a new **option** as needed.

Note: A **feature** was added to IATS to allow the user to **change** the traveler's **Grade/Rank** at the Travel Order screen and have this change **update** the **traveler's profile** if desired.

1. **If changing** the traveler's Grade/Rank, **click** on the *down arrow* button at the **Grade/Rank** field to display a **list** of ranks or grades.
2. **Click** on the desired **grade** or **rank** you wish to **change** the current grade or rank to.
3. IATS will **display** the new grade or rank with a **red background** as shown below.

This screenshot shows the 'Travel Order' window with the Grade/Rank dropdown menu open. The selected option, 'E8', is highlighted with a red background. The other fields remain the same as in the previous screenshot.

4. **Click** on the **OK** button, to **save** your changes.
5. **If a change** has been made to the traveler's **grade** or **rank**, IATS will **display** the following *pop-up message* asking if you want **update** the **traveler's profile** with this change.

UPDATE PROFILE

Do you want to update the Rank on the Traveler's Profile to match the Rank on this Order?

6. **Click** on Yes or No as desired.

Note: Another **feature** was added to IATS to allow the user to **change** the traveler's **Retirement Code** after an order has been created and saved.

Description	What's Authorized (Civilian PCS)	Dependents	Remarks

1. At the **Description** tab on the **Travel Order** screen, **click** on the **down arrow** button at the **Retirement Code** field as shown above to display a **list** of Retirement Codes.
2. **Click** on the desired code. IATS will **display** the following **pop-up message**.

IATS Notification [1/26/2024 11:47 AM]

You are changing the retirement code. Would you like to continue?

Click YES to change the retirement code, NO to keep the original code.

3. **Click** on *Yes* or *No* as desired.

When **finished** viewing or modifying the Travel Order screen, **click** on the **OK** button to **save** any changes and **return** to the previous input **screen**.

Note: A **travel order number** cannot be **modified**. If the order was originally created with the wrong order number, it must be deleted and re-created.

Deleting Travel Orders

As a travel voucher **examiner**, it may be necessary to **delete** travel orders on occasion. This commonly occurs when the same travel **order** is entered into the data base **differently** by more than one person.

There are two **methods** for **deleting** an existing **travel order**. One method is performed from the **Examiner View** screen. Using this method however, will only **delete** orders that have no **Open Items, Details, or Open Suspense Items**.

Note: Voucher examiners must have the [privileges](#) assigned to their user account that allow them to delete a travel order. There are two specific **privileges** that apply to this process:

- Delete Travel Orders Without Open Items.
- Delete Orders With No Details.

Definitions:

Details: - A detail is a travel order or a transaction such as an **advance** or a **settlement** that has been **logged** or **processed** and **posted** to the traveler's **history** record.

Open Items: - An open item is a transaction such as an **advance** or a **settlement** that has been **processed** and **posted** to the traveler's history record, and no **DOV#** has been posted to the transaction.

Open Suspense Items: - An open suspense item is an amount **due the US** associated with a particular travel order. This can be the result of an unsettled **advance** or a **settlement** that was **processed** resulting in an amount **due the US**.

The second **method** is performed from the **System Administrator** menu, which **requires** a special **privilege**. Using this method, the user can **delete** any **order** regardless of the condition.

Refer to the **Help** topic, "[Delete Travel Order Details](#)", for **instructions** on using this method.

 **Complete the following steps to "delete" a Travel Order using the Examiner View:**

1. At the **Examiner View** screen, **click** on the **Tools** menu and select the **Travel Order** option. The **Select Traveler** screen appears.

Log Requests

The **first step** in the request **processing cycle** is to **log** the **incoming requests** into IATS. This step is completed through the logging module, and consists of **creating the traveler's account** and **travel order**, (if they don't already exist) and **entering the dates** of the trip.

Note: Logging in-coming requests is **optional**, but a **good idea** for records keeping. By logging the in-coming requests, users can **easily determine** if a request has been **received**, when answering an **inquiry**.

 **Complete the following steps to "log" in-coming requests:**

1. Login to IATS in the **Examiner View** mode or **change** the View to Examiner, if necessary.
2. At the **Examiner View** screen, **click** on the **Log Requests** button. The **Block Selection** screen appears.

Date Signed Date Signed by AO Date Forwarded Date Received Expected Pay Date

Flagged for Delete	Flagged for Return	SSN/ID	Name	TONO/SDN	From	To	Date R

Enter the DoD ID number

9. **Click** in the appropriate **radio button** to use either the traveler's **SSN** or **DoD ID** to log the request.
10. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**.
11. If the traveler's account exists, the name appears in the **Name** field, and the cursor moves to the **TONO/SDN** field. If the travel account does not exist, a message appears asking if you wish to [create a new traveler profile](#). After creating a new traveler profile, the cursor returns to the **TONO/SDN** field.
12. At the **TONO/SDN** field, **click** on the *down arrow* button to **display** a **drop down list** of **all orders existing** in the **database** for the traveler. If wishing to log an in-coming request for one of these orders, **click** on the desired order number. To log a request for a new travel order, **type** the order **number** in this field and **press Tab**. If a new traveler order number is entered, a message appears asking if you wish to [create a new order](#). After creating a new traveler order, the cursor returns to the **Date Start** field.
13. **Date Issued:** - The date shown at the **Date Issued** field will **default** from the issue date entered when the travel order was created. If this **date** is correct, **press Tab** to continue, or **type** a new date if necessary. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.
14. At the **Date Start** field, the beginning date of the trip defaults to this field. If this **date** is correct, **press Tab** to continue, or **type** a new date if necessary. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.
15. At the **Date End** field, the ending date of the trip defaults to this field. If this **date** is correct, **press Tab** to continue, or **type** a new date if necessary. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.
16. The **Date Signed** field will only appear if the option **Activate Liaison** was checked when the block was created. At the Date Signed field, **type** the **date**, in **MMDDYY** format, the **claim** was **signed** by the traveler and **press Tab**. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.

17. The **Date Signed by AO** field will only appear if the option **Activate Liaison** was checked when the block was created. At the Date Signed by AO field, **type** the **date**, in **MMDDYY** format, the **claim** was **signed** by the AO and **press Tab**. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.
18. The **Date Forwarded** field will only appear if the option **Activate Liaison** was checked when the block was created. At the Date Forwarded field, **type** the **date**, in **MMDDYY** format, the **claim** was forwarded by the RUC/Liaison office and **press Tab**. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.
19. At the **Date Received** field, the date the request was logged appears. If this **date** is correct, **press Tab** to continue, or **type** a new date if necessary and **press Tab**. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.
20. The **Expected Pay Date** field will only appear if the option **Activate Liaison** was checked when the block was created. The **default** value at this field is **4 days** from the **current** date. If this **date** is correct, **press Tab** to continue, or **type** a new date if necessary and **press Tab**. The **Expected Pay Date** is used for **tracking** the **processing time** for the **Voucher Turnaround Report**.
21. After **completing** all of the input fields, **click** on the **Log It** button. The request will now appear in the **grid** below the **purple** heading.

Logging Of Requests - (ORIGINAL MASTER DATABASE)

Block Number Type of Transaction Number of Items Max Items

Add or Modify Logged Claim

SSN DoD ID Name: TONO / SDN: Date Issued: Date Start: Date End:

Date Signed: Date Signed by AO: Date Forwarded: Date Received: Expected Pay Date:

Flagged for Delete	Flagged for Return	SSN/ID	Name	TONO/SDN	From	To	Date R
<input type="checkbox"/>	<input checked="" type="checkbox"/>	111881111	SMITH, MARKY M	TDY1	3/9/2020	3/12/2020	3/7/20

Enter the SSN number

22. The **cursor** returns to the **SSN** field. **Follow** the steps above to continue logging additional requests to the block if desired.
23. When **finished** logging requests to the block, **click** the **OK** button to save the entries. A *pop-up message* appears asking if you wish to **notify** the traveler that their claim has been received.

IATS Notification

Do you wish to notify each traveler via email that their claim has been received?

24. **Click** on *Yes* or *No* as desired.
25. If the **automatic block numbering** feature is used, a message appears at this time **indicating** the system generated **block number**.

Note: Only **50** requests may be **logged** to a block. Once 50 requests have been logged, IATS will **write over** requests that have already been **logged**. A **warning** message **appears** when 50 requests have been logged to **advise** the user that the **limit** has been met.

Tip: If you wish to **return** or **delete** a request that has been **logged** in, **click** in the **check box** at the **Flagged for Return** or **Flagged for Delete** column to the left of the **SSN/ID** field for the claim you wish to return or delete. When you click on **OK**, the **Return Voucher** or **Reason for Delete** screen will appear. If you wish to simply **clear/remove** a request from the logging screen you would **click** on the **Discard**

link. A request may be discarded/removed as long as the **block** has not been **saved** and a **claim** has not been **saved** to the block

Note: This feature to initiate the process to **return** or **delete** a claim from the Logging of Requests screen cannot **occur** unless the **block** has actually been **saved** and a **claim** has been **saved** to the block.

Click on the **See Also** button below for instructions on **clearing, deleting**, and **returning** logged requests.

Clearing Logged Requests

On occasion you may wish to **clear/remove** a request from the Logging of Requests screen. This is **allowed** if the request has **not** been **saved** to a block.

 Complete the following steps to "clear" a logged request:

1. At the **Logging Of Requests** screen, **click** on the **request** you wish to remove.

Logging Of Requests - (ORIGINAL MASTER DATABASE)

Enter the SSN number

2. After selecting the desired request, **click** on the **Clear** button. A *pop-up message* appears asking if you are **sure**.

IATS Notification

Are you sure you want to Clear this item?

3. If you are sure, **click** on **Yes**. The selected request is then deleted.

Delete Logged Requests

On occasion a **request must be deleted** from a **block** ticket. For example, a claim may have been **logged** to the **wrong** block.

 Complete the following steps to "delete" a logged request:

1. At the **Examiner View** screen, **click** on the **Log Requests** button. The **Block Selection** screen appears.
2. At the **Block Selection** screen, **click** on the **block containing** the **request** you wish to delete and then **click** the **OK** button. The **Logging Of Requests** screen appears.

Logging Of Requests - (ORIGINAL MASTER DATABASE)

Enter the SSN number

3. At the **Logging Of Requests** screen, **click** in the **Flagged for Delete** box for the **request** you wish to delete.
4. **Click** the **OK** button, If you have the **Reason For Deletion** option turned on in Maintenance the **Reason For Deletion of Claim** screen appears.

Reason For Deletion Of Claim

The screenshot shows a dialog box titled "Reason For Deletion Of Claim". It contains three main sections: "Reason 1", "Reason 4", and "Remarks". The "Reason 1" dropdown menu is open, displaying a list of reasons: "Invalid Claim", "Traveler Deceased", "Trip Cancelled", and "Duplicate Claim". The "Duplicate Claim" option is currently selected. The "Reason 4" dropdown is closed. The "Remarks" section is a large empty text box. At the bottom of the dialog, there are three buttons: "OK", "Cancel", and "Help".

5. At the **Reason 1 - 4** fields, **click** on the *down arrow* button to display a **list of reasons** and then **click** on the desired **reason**.
6. You may also **click** in the **Remarks** text box and manually **enter** a **remark**.
7. **Click** on **OK** after you have **finished** adding the reason.
8. A *pop-up message* appears asking if you wish to **print** the **Block Tickets** for the blocks released.
9. **Click** on the *Yes* or *No* button as desired. IATS **deletes** the selected request and **returns** to the **Block Selection** screen.
10. If **finished** deleting logged requests, **click** on the **Cancel** button to **return** to the **Examiner View** screen.

Grab Blocks

Before a **block** of requests can be processed, the block must be **assigned** to an IATS user. The most common method of assigning a block, is for the user to "**grab**" the desired block from those available. After in-coming claims are **logged** to a block or when a block is **released** for further processing, the block resides in a **pool** awaiting assignment.

 **Complete the following steps to "grab" a block:**

1. At the **Examiner**, **Auditor**, or **Disbursing View** screen, **click** on the **Grab Blocks** button and the **Block Selection** screen appears.

Block No.	Office	Type	Block Status	Status Date	Who Has It
MILITARY04	OFFICEONE	Settlement	Awaiting Audit	1/7/2021	

2. Select a block by **double clicking** on the desired block or by **clicking** on the block **once** and then **clicking** the **OK** button.

Tip: Users may select all of the blocks listed by **clicking** on the **Select All** button. To **void** a selection, **click** the **Unselect All** button.

3. After selecting a block, the **Confirmation Password** screen appears. **Complete** the **process** by **typing** your assigned **Confirmation Password** at the **Enter Password** field and then **click** on the **OK** button.

Create Blocks

Most travel offices **control** settlement and advance requests by using **block ticket numbers**. As requests are received, they are **grouped** together in small **batches** of **10-15** claims, and assigned a **number** for **control** purposes. Throughout the workflow process, the requests will normally remain in the batch. Because the blocking process is common in most travel offices, IATS **simulates** this process.

 **Complete the following steps to create a Block:**

1. Login to IATS in the **Examiner** View mode or **change** the View to Examiner, if necessary.
2. At the **Examiner View** screen, **click** on the **New Block** button and the **Create New Block** screen appears.

Create New Block (ORIGINAL MASTER DATABASE)

Block Type Settlement

OK Cancel ? Help

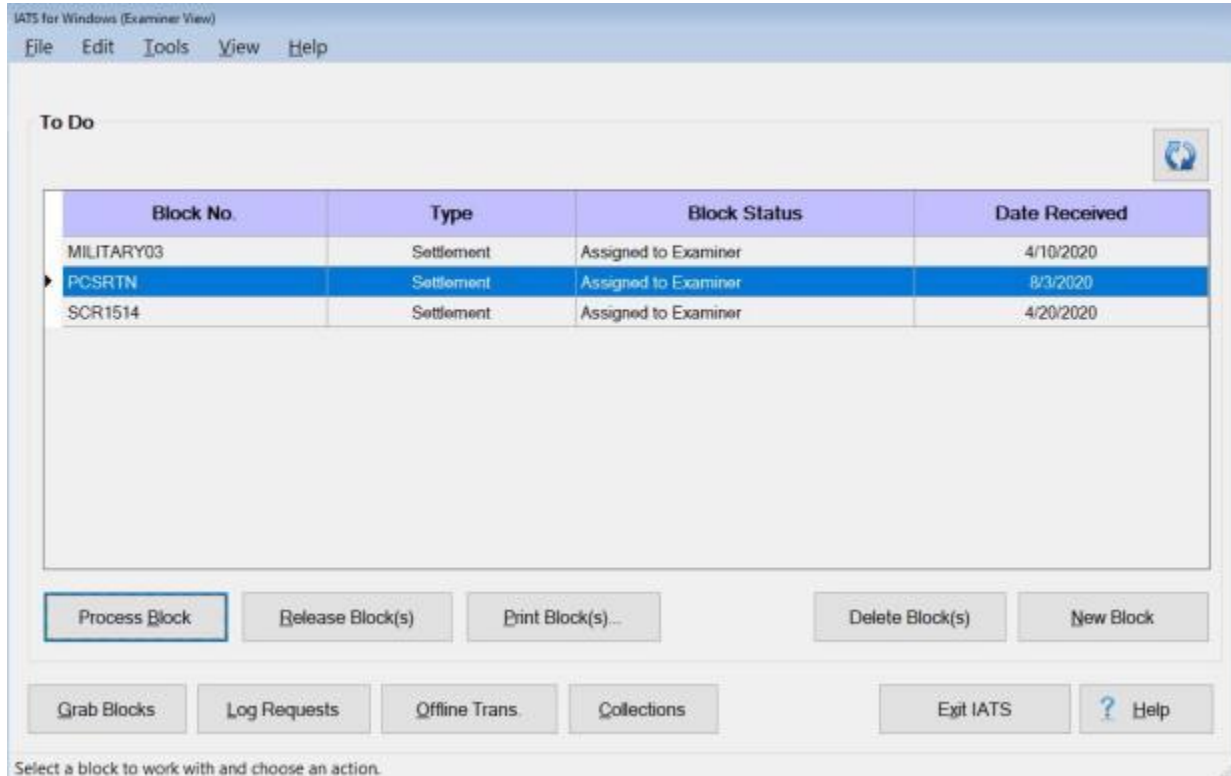

Select the type of block to be processed

3. At the **Block Number** field, **type** the desired block ticket number **unless** the **Automatic Block Numbering** feature is turned on. If so, the word **New** will already be displayed in this field, and **no** action is necessary.

Tip: Block numbers can be from (1) to (10) characters in length. In addition, the numbers may be **alpha**, **numeric**, or a **combination** of both.

4. At the **Block Type** field, the default value is **Settlement**. If wishing to create a block for **Advance Requests**, press the **down arrow key** or **click** on the **down arrow button**. When **Advance** is displayed, press **Tab** to continue.
5. At the **Tax Collections** field, **click** in the **check box** if the block you are creating is for tax collection transactions.
6. **Click** the **OK** button to complete the process.

Selecting Blocks

At the **Examiner View** screen, **double click** on the desired **block number** listed under the **To Do** section or by **clicking** on the block **once** and then **clicking** the **Process Block** button.

Refreshing the Blocks Display

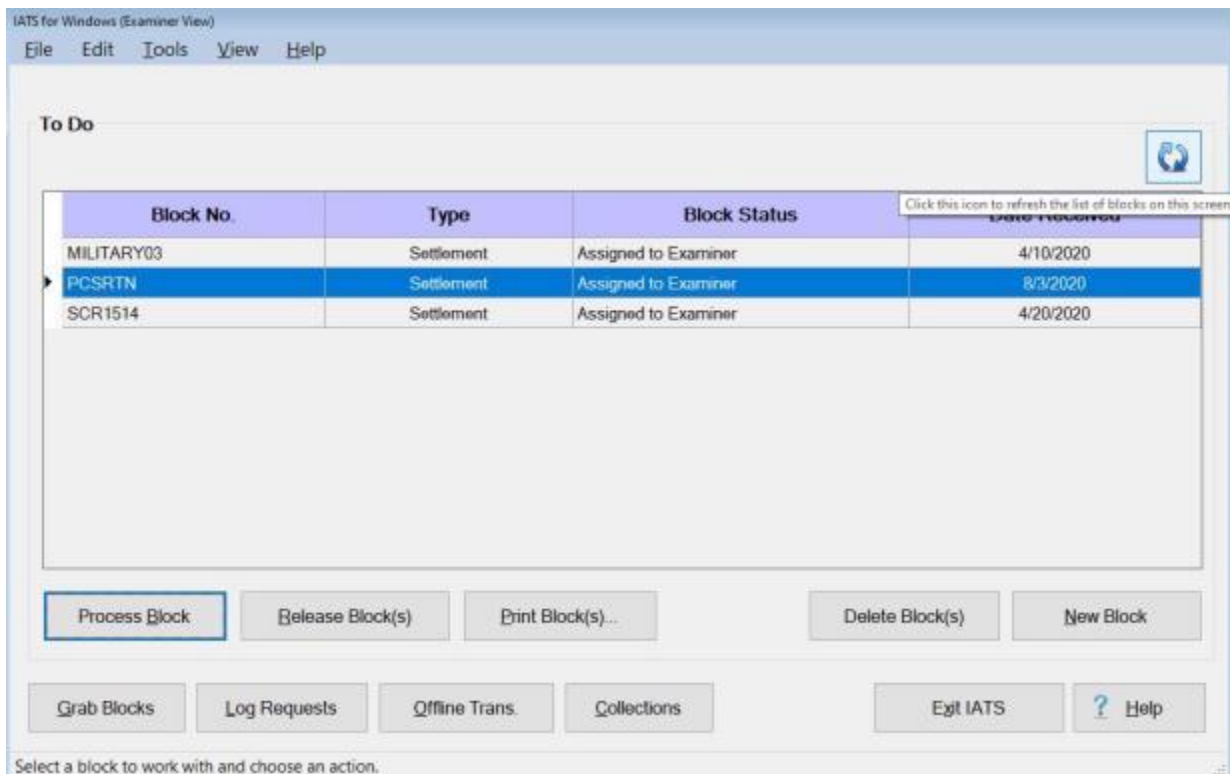

The Travel Pay System (TPS)/IATS **interface** is a one-way web interface with **TPS** being the primary system **pushing** and **pulling** information to/from IATS.

TPS will **push** info to **auto create** a **block** in IATS and **assign** it to the correlating IATS **user ID**. The IATS **block number** and **Travel Order #** will be pushed from TPS to the IATS **Block Number** field and **TONO** field in the **Create New Block** and **Travel Order Selection** screens respectively.

The **Refresh** button on the **Examiner's** screen is used by users to **update** the **Blocks display** IATS once the interface has been completed to show the block being **created** and **assigned** to the appropriate user.

The **Refresh** button is located just above and to the right of the Date Received field as shown below.

Click on this **button** when you wish to **refresh** the **list** of **blocks** that are assigned to the user.

Using the IATS Note Pad

An IATS customer requested a new feature referred to as the “**IATS Note Pad**”. The customer wants the ability to enter **notes** on a **Block** or **Settlement Request** which would be similar to a **Post-It Note** that one might **stick** on a printed document before pushing it aside or placing it into a **communal folder** for another day.

Note: Any Comments/Remarks that are **added** will not be written to the **History Record** or **printed** out on the voucher. These Comments/Remarks are for internal office use only.

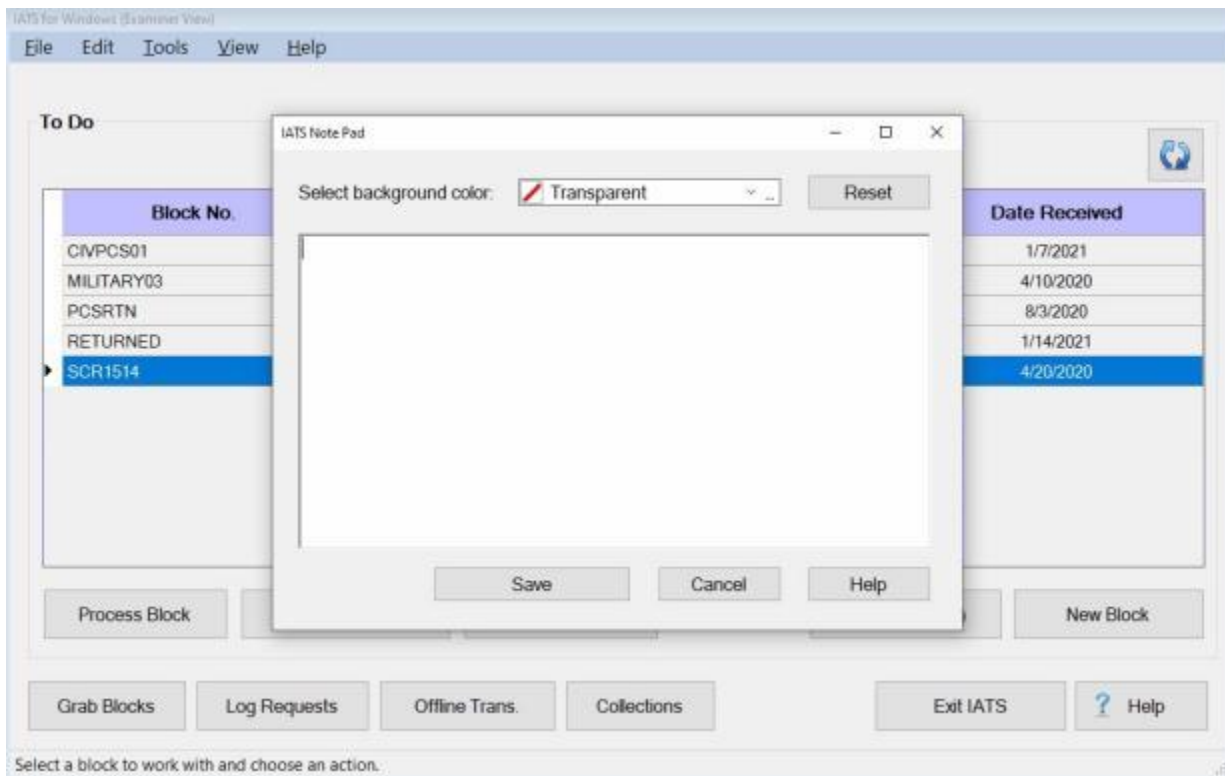

This feature will allow the user to create:

- Comments/Remarks
- Custom Background Colors

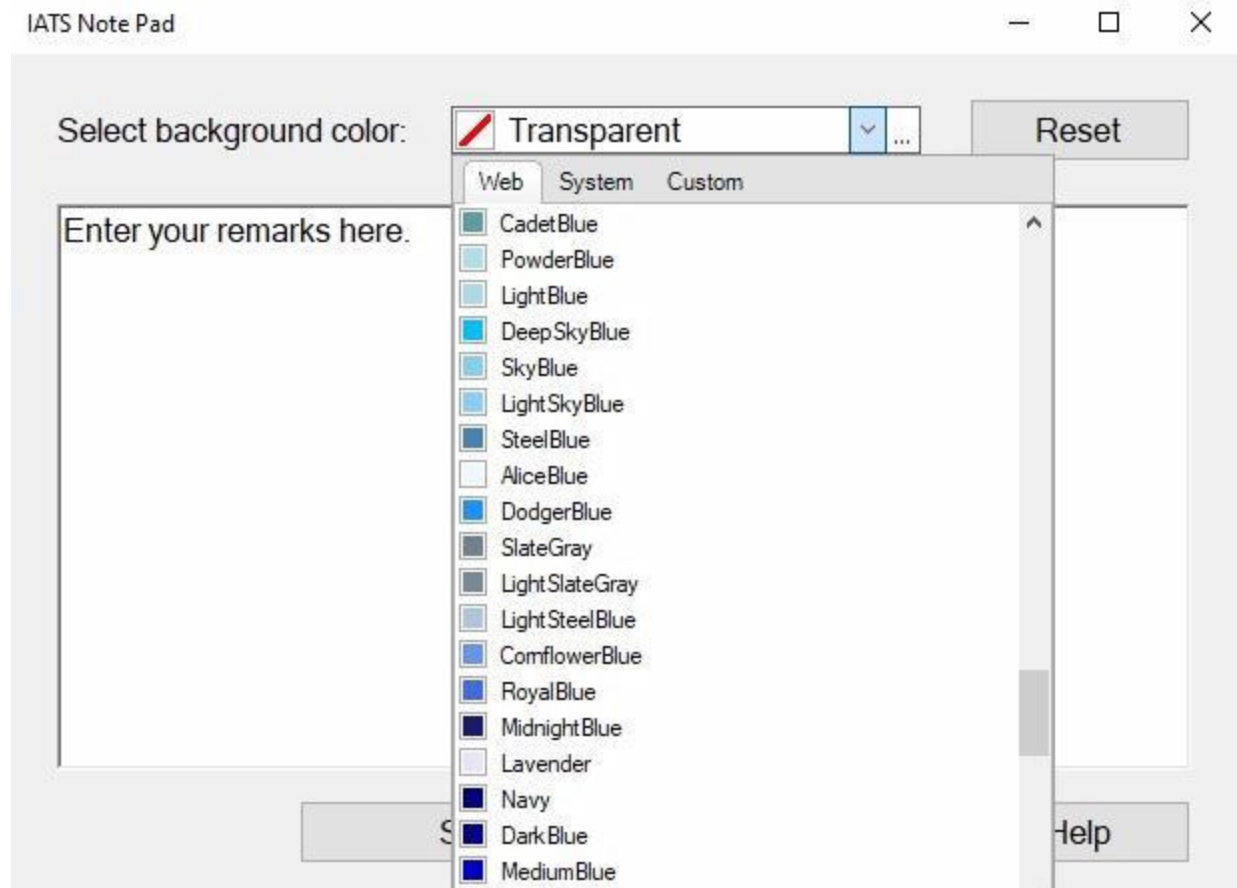

This feature allows the customer to use **custom colors** along with the **text**. If a Travel Office **agrees** on certain colors to **mean** certain things it gives them a way to **specify** what **action** or **in-action** needs to be taken.

Note: The **IATS Note Pad** screen is only available from the **Examiner View** screen, the **Auditor View** screen, and the **Request Selection** screen.

 Complete the following steps to "use" the IATS Note Pad:

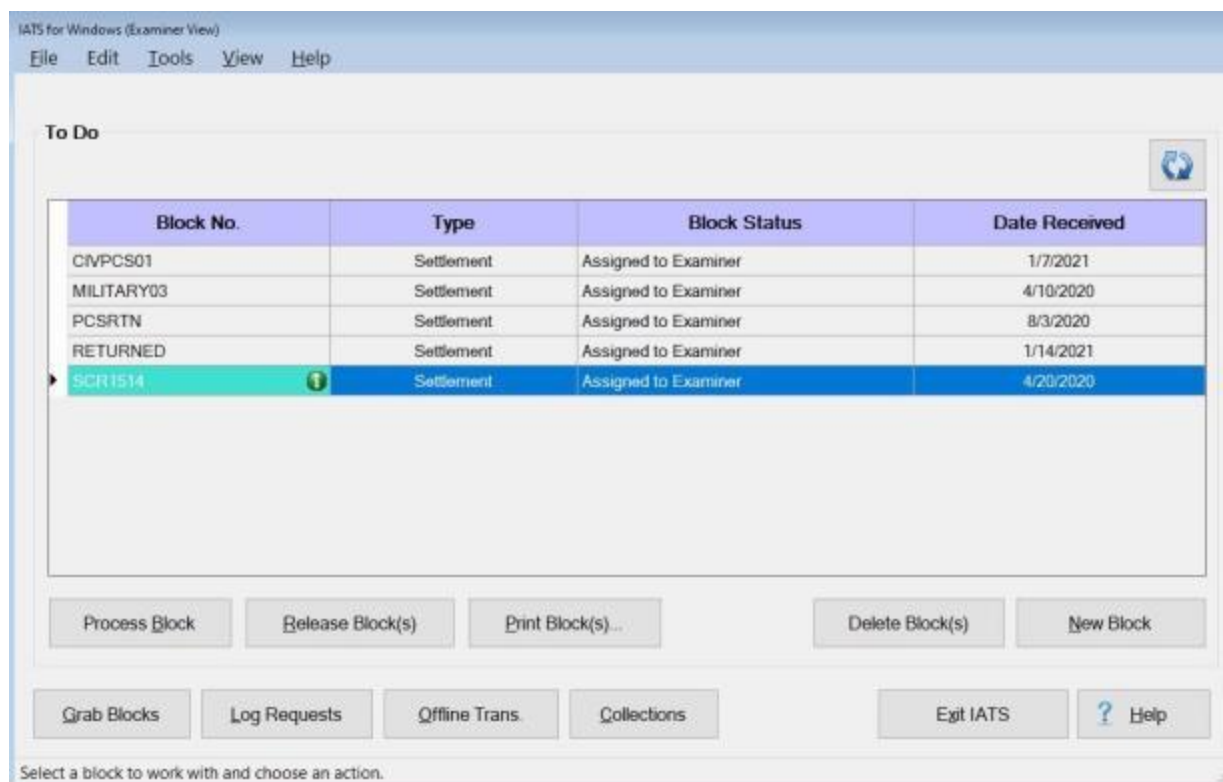

1. At either the **Examiner View** screen, the **Auditor View** screen or the **Request Selection** screen, **right click** on the **Block** or **Settlement Request** you wish to use.
2. The **IATS Note Pad** screen is displayed.

3. **Select background color:** - You will **notice** that **Transparent** is the default color when the **IATS Note Pad** screen is displayed.
4. If you wish to **add a background color** to a Block or Settlement Request, **click** on the **down arrow** button at the **Select background color** field where **Transparent** is shown above.
5. IATS will display a *drop down list* of colors at the **Web** tab. **Note** that you can **click** on the **System** tab for another list of colors or **click** on the **Custom** tab if you wish to create a custom color.
6. **Click** on the *Up/Dn arrow* buttons or **drag** the **slider bar** on the right side of the list to **scroll up or down** the list of colors.
7. **Click** on the desired **color** to make a **selection**.

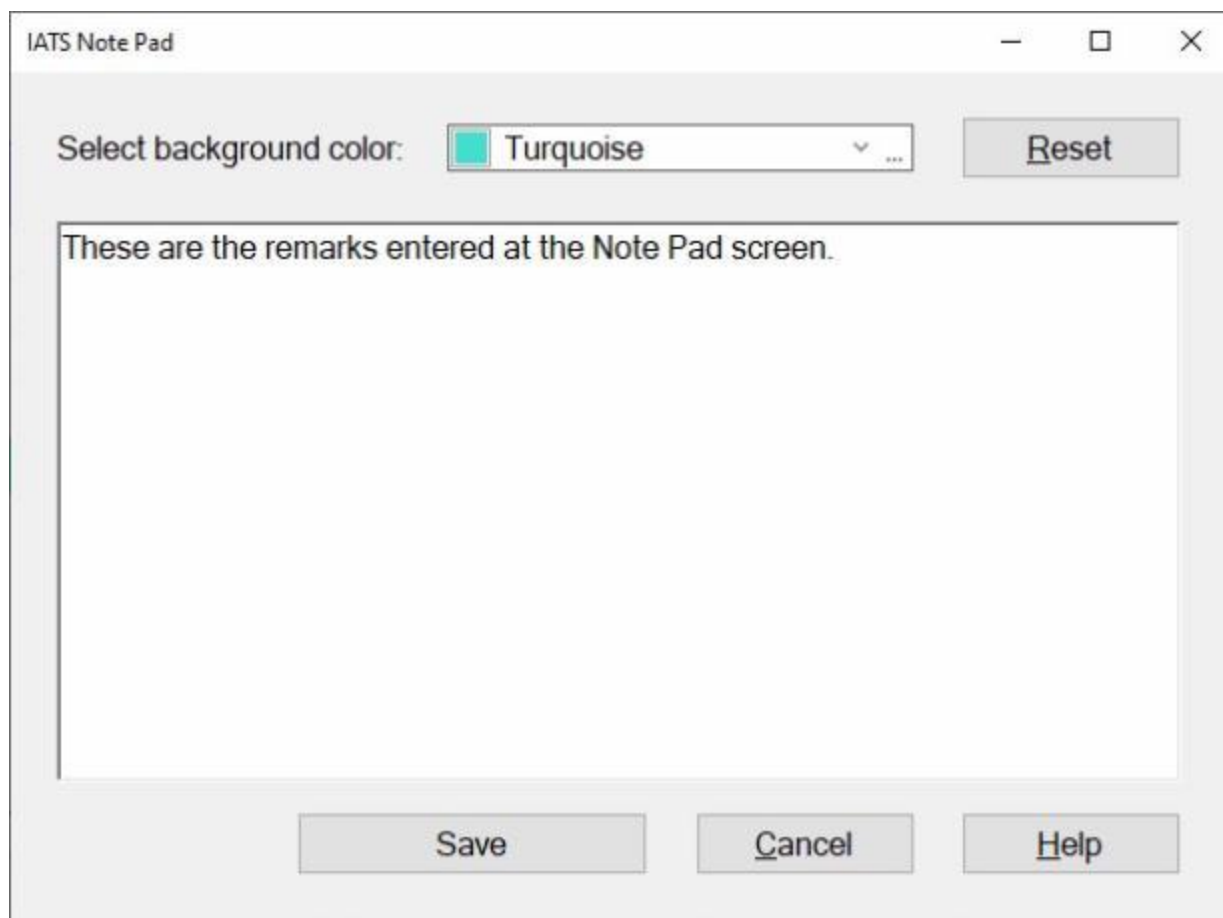

Note: It is highly recommended that you do not use the colors **Red** or **Yellow** since IATS already uses these colors to emphasize **Returned** items and **Auditor Remarks**.

8. **Click** in the **Text Box** and **enter** any desired **Comments/Remarks**.
9. When you have **finished** adding a color and/or text, **click** on the **Save** button.

Note: After you have finished adding a color and/or text, IATS will return to the **Examiner View** screen, the **Auditor View** screen, or the **Request Selection** screen. You will now see the **color** that was selected as a background for the **Block number** or the **Traveler's Name**. In addition, you will see a green information icon in the **Block No.** or **Name** field if **Comments/Remarks** were added at the IATS Note Pad screen.

- If you see a green information icon in the **Block No.** or **Name** field you can **right click** on the **Block Number** or **Settlement Request** to display the IATS Note Pad screen so you can **read** the **Comments/Remarks** as shown below.

11. If you wish to **remove** the **background color** and/or **text** from the Block or Settlement Request. **Click** on the **Reset** button at the IATS Note Pad screen.
12. If you **click** on the **Reset** button and then **click** on the **Save** button, IATS **removes** the **color** and **text** and **returns** to **Examiner View** screen, the **Auditor View** screen, or the **Request Selection** screen as shown below.

Select a block to work with and choose an action.

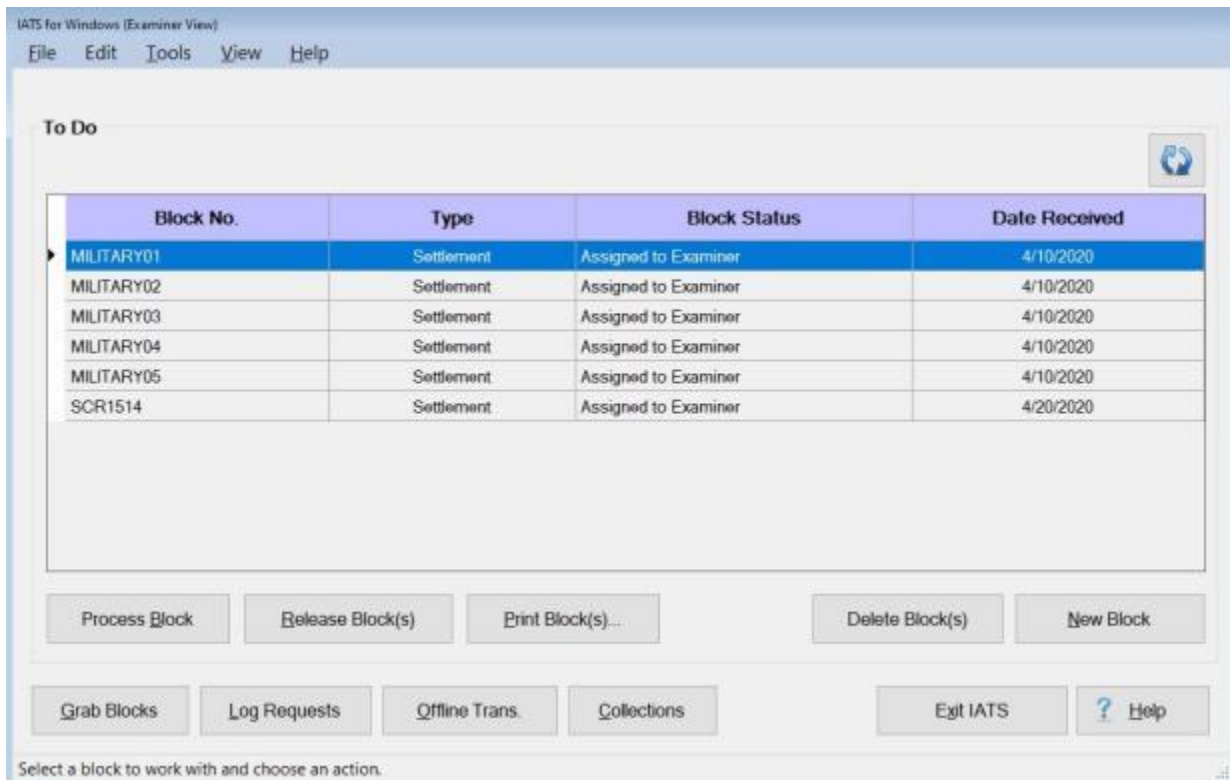

Process Blocks

After an **Examiner** has "**grabbed**" a logged **block**, the next step in the request processing cycle is to **process** the block.

Note: Although **recommended**, requests are not required to be **logged** before a block may be processed. A user may simply **create** a new block and **add** requests to the block at the time of processing.

 **Complete the following steps to "process" a block:**

1. Login to IATS in the **Examiner View** mode or **change** the View to Examiner, if necessary.

Tip: At the **Examiner View** screen, all blocks that were previously "**grabbed**" by the Examiner or **assigned** to the Examiner by the System Administrator are listed in the **To Do** section. Notice that the block status is "**Assigned to Examiner**".

2. Select a block by **double clicking** on the desired block or by **clicking** on the block **once** and then **clicking** the **OK** button.

Note: If wishing to **create** a new block, **click** the **New Block** button. Refer to the topic "[Create Blocks](#)" if **additional information** about creating blocks is **needed**.

3. After selecting a block or creating a new block, the **Request Selection** screen appears.

Note: When the **Request Selection** screen appears, any request previously logged to the block, is listed in the **Selected Requests** section. In the screen display above, there are **(3)** requests logged to the block.

- Process a request by **double clicking** on the desired request or by **clicking** on the request **once** and then **clicking** the **View/Modify** button. The **Settlement Request** or **Advance Request** screen appears next.

Tip: Additional requests may be added to a block by **clicking** the **New** button. If the **New** button is clicked, the **Select Traveler** screen appears. A user must then **enter** the traveler's **SSN** and [create a traveler profile](#) if the travel's account does not exist in the database. After creating or accessing the traveler profile, the user may also need to [create a travel order](#) for the associated request.

Refer to the **Help** topic, "[Process Requests](#)", for additional instructions.

Hot Save

Note: This feature is not to be used by **Coast Guard** customers.

When processing a **Request for Settlement** or **Advance**, it may be necessary for a voucher examiner to **stop** before the claim is **completed** and **saved**. This required the voucher examiner to **cancel** out of the entire claim and then **restart** the entire claim at a later time.

To resolve this problem, a feature was added to IATS that allows the voucher examiner to perform a **Hot Save** and save the data that was entered prior to cancelling out of the claim.

Note: This function is allowed from only the **Settlement** or **Advance Request** screen.

 **Complete the following steps to "perform" a Hot Save:**

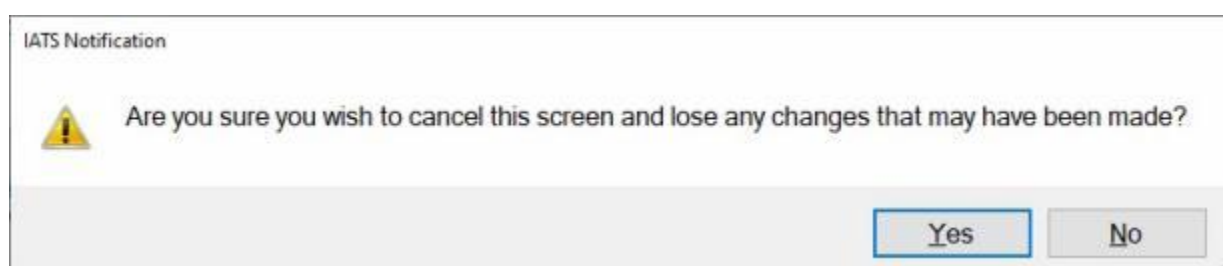

1. Completely finish the input screen for an entitlement. If you are processing claim that requires an itinerary, you must complete the itinerary and enter **MC** - Mission Complete.
2. **Click** on the **Completed** button.
3. Return to the **Settlement** or **Advance Request** screen.

4. At the **Settlement** or **Advance Request** screen, **click** on the **Other** button and then **click** on the **Hot Save** option. The following **message** appears indicating the claim was successfully hot saved.

5. **Click** on **OK** to continue.
6. **Click** on **Cancel** to **quit** working on the claim. The following *pop-up message* appears asking if you are **sure** cancel.

7. **Click** on *Yes* or *No* as desired. IATS returns to the **Request Selection** screen.
8. When you **continue** processing the claim at a later time, you will see the words "**Hot Saved**" (in red) at the top of the **Settlement** or **Advance Request** screen.

Note: If you **recall** a claim, make changes, and then perform another **Hot Save**, you will **overwrite** the original claim with new Hot Saved data.

Activating the Multiple Travelers Function

When the **Multiple Travelers** function is **activated**, IATS will **repeat** the previously entered itinerary for each subsequent settlement. This is a useful feature that can be used when **processing a block** of settlements involving different travelers with identical or similar itineraries.

 Complete the following steps to "activate" the Multiple Travelers function:

1. At the **Request Selection** screen, **click** on the **Other** button. A **menu** appears **listing several options**.

The screenshot shows the 'Request Selection' interface. At the top, it displays 'Controlled Unclassified Information'. Below this, there are input fields for 'Block No.' (MULTITRAV), 'Block Type' (Settlement), and 'Block Status' (Assigned to Examiner). A 'Selected Request(s)' section contains a table with one row of data. To the right of the table, it says 'Number of requests: 1'. Below the table, there is a dropdown menu with 'Multiple Travelers' selected and highlighted in blue. Other options in the menu include Rates, History, DTOD, PCS Summary, and Save/Retrieve Scanned Document for ARNOLD, TOMMY (MULTI). At the bottom of the screen, there are several buttons: Delete, View/Modify, New, Skeleton Request, Print Request(s)..., Done, and Help.

SSN	Name	TONO	Type of Request	Start Date	End Date	Date Created	Category	Status
111771111	ARNOLD, TOMMY	MULTI	Settlement Log	7/12/2021	7/18/2021	7/28/2021	Normal	Logged

2. **Click** on the **Multiple Travelers** option. After selecting this option, the words Multiple Travelers appears in **red** at the top of the **Request Selection** screen as shown below.

Select to add an entitlement to this claim

Note: Since the **Multiple Travelers** function is **activated**, IATS **duplicated** the previous **itinerary** and **applied** it to the next **settlement** processed.

5. **Process** this subsequent settlement, by **clicking** on the **View/Modify** button, **make** any necessary changes to the **itinerary**, and **add** any reimbursable expenses.
6. **Finish** processing this subsequent settlement as usual.
7. **Continue** processing the remaining settlements on the block using the **steps** described above for the **Multiple Travelers** function.

Tip: If you wish to **de-activate** the **Multiple Travelers** function, **click** on the **Other** button at the **Request Selection** screen and then **click** on the **Multiple Travelers** option. IATS **de-activates** the feature if it was previously activated.

Displaying Daily Calculations

After entering the **details** for an **advance** or **settlement** request, a break-down of the **per diem** calculations can be **displayed** at the **Daily Calculations** screen.

 Complete the following steps to "display" the daily calculations:

1. Click on the **Entitlements** tab at the **Advance** or **Settlement Request** screen.
2. At the **Entitlements** tab, click on the **entitlement** or **expense** you wish to display the daily calculations for. **Note** that if there is only one entitlement or expense listed, you do not have to **click** on it since it will already be **highlighted**.
3. When the **entitlement** or **expense** is highlighted, click on the **Show Calcs** button. The **Daily Calculations** screen appears.

Other Auditor Remarks OK ? Help

4. When **finished** reviewing this screen, click on the **OK** button to continue.

Display Daily Summary of Days

After you have finished entering an entitlement, you may **generate** a **daily summary** of the **days** of the trip. The information displayed will include the following information based on the type of trip:

- Number of Days for Trip
- Number of Days TDY
- Number of Days TDY Reimbursed
- Number of Days PCS Reimbursed
- Number of Days Enroute Travel
- Number of Days Leave

 Complete the following steps to "display" the Daily Summary of Days

1. **Enter an Entitlement.**
2. When IATS returns you to the **Settlement Request** screen, **click** on the **Daily Summary** button. The following display will appear.

The screenshot shows the IATS Settlement Request interface. At the top, the user name is "ARNOLD, TOMMY G. C." and the TONO is "MULTI". The Request Type is "Settlement" and the Type of Settlement is "Final - First Submission". A dialog box titled "IATS Notification" is open, displaying the following summary:

Daily Summary of Days	
Number of Days for Trip =	5
Number of TDY Days Reimbursed =	5
Number of PCS Days Reimbursed =	0
Number of Days TDY =	5

The dialog box has an "OK" button. In the background, the "Trips/Type" table shows one entry: "Temporary Duty Trip". The "Daily Summary" button is highlighted in the interface.

3. After you have finished reviewing the Daily Summary of Days, **click** on the **OK** button.

Displaying Constructive Comparisons

The **Constructive Comparisons for Legs of Travel** screen is provided for **informational** purposes. The transportation **circumstances** for certain settlements **require** IATS to **perform** a constructive **comparison** by **legs** of travel. The IATS computation **compares** the traveler's **actual** travel leg to what could have been **allowed** depending on what was **authorized** in the travel **order**.

At this screen, **amounts** are **shown** representing the computation for the **actual** travel **performed**, and what was **authorized**. The **amounts** highlighted in **red** indicate the **amounts** that will be **used** by IATS for the **reimbursement**.

 Complete the following steps to "display" constructive comparisons:

1. At the **Settlement Request** screen, **click** on the **Entitlements** tab, if not already in **focus**.

Settlement Request - Block No: MULTITRAV - Request No: NEW

SMITH, MARKY M. E9 TONO: MULTI

Request Type - Settlement

Select to view the comparison between the constructed and actual expenses

2. At the **Entitlements** tab, **click** on the **trip** listed in the **Type of Entitlements Claimed** section.
3. When the entitlement is highlighted, **click** on the **Cons. Comp.** button. The **Constructive Comparisons for Legs of Travel** screen appears.

Constructive Comparisons for Legs of Travel

From Date	To Date	Actual	POV	GTR
7/12/2021	7/12/2021	\$328.16	\$0.00	\$150.00
7/16/2021	7/16/2021	\$333.20	\$0.00	\$150.00

Note: Amounts in red indicate the method of payment used to pay the leg.

Done ? Help

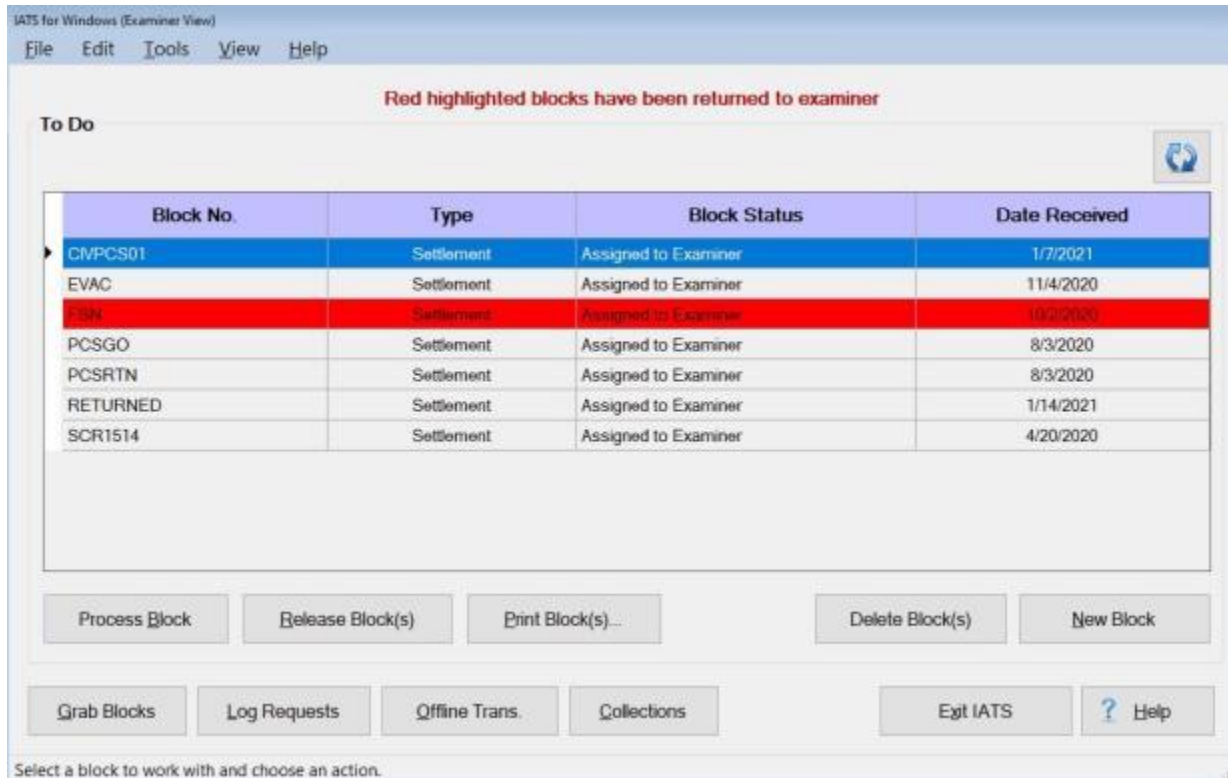

Note: At this screen, **notice** that the traveler's actual costs for the constructed comparison legs of travel exceeded what the **cost to the government** would have been **if the traveler had used the authorized mode of travel**. The amounts highlighted in red indicate the amounts used in the **computation** of the settlement since it was the **lower** of the two amounts.

- When **finished** reviewing this screen, **click** the **Done** button to **return** to the **previous** screen.

Displaying Auditor Remarks

If a claim requires audit, sometimes it is necessary to make detailed **comments** that the examiner will need to see so that all of the required changes are made.

When a Block is **returned** to an Examiner the Block will be highlighted in **red** on the Examiner View screen as shown below:

If the Examiner **selects** the highlighted Block and then positions the mouse **pointer** over the Block, a **tool tip** will appear **displaying** the Auditor's **remarks** explaining why the Block was returned:

IATS 8.7.1 User Guide

IATS for Windows (Examiner View)

File Edit Tools View Help

Red highlighted blocks have been returned to examiner

To Do

Retrieve Scanned Documents from Database

IATS contains a **feature** that allows you to **save** scanned **images** of documents such as **hotel** or **rental car** receipts into the IATS database.

There are **two entry points** in IATS that will allow you to **retrieve** a saved scanned image. **One** is on the **Travel Order Detail** screen. When this screen is displayed, you will see a **Document** button at the **bottom** of the screen.

If you **click** on the **Document** button you will see a **menu** offering the options to either **Scan In A Document** a document, or to **Save/Retrieve Document**.

Other... Request **Document** Exit Help

- Scan In A Document
- Save/Retrieve Document

The **other entry point** will be found when you **click** on the **Receipts** button when you are **processing a claim** as shown below:

 Complete the following steps to "retrieve" a scanned image from the IATS database:

1. Using one of the two entry points discussed above, **click** on the option **Save/Retrieve Scanned Document**.

Note: If you are using the entry point from the **Travel Order Detail** screen, you must first select the **travel order number** that the document is associated to.

2. After clicking on the option **Save/Retrieve Scanned Document**, the **Manage Images** screen appears.

3. When the Manage Images screen appears, any saved scanned **image** associated to the specified travel order will be **displayed**.
4. **Select** an image by **double clicking** on the desired image. If there are multiple images you can select all of them by **clicking** on the **View All** button.
5. Once you have selected the desired image(s), you may **view** the image(s) by **double clicking** on an image or **clicking** on the **View All** button.
6. The selected image will be displayed.
7. If you wish to **delete** the an image **click** on the image to select and then **click** on the **Delete** button.
8. When you are **finished** using the **Manage Images** screen, **click** on the **Done** button.

Importing Images

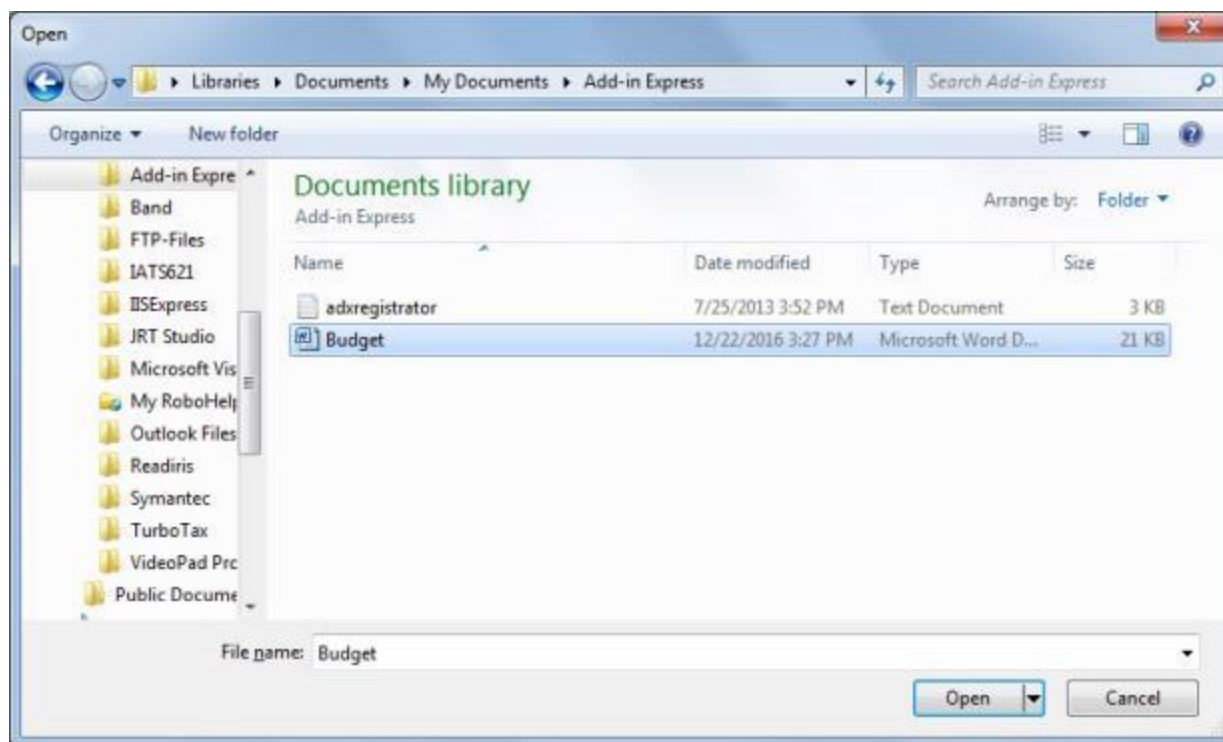

IATS contains a **feature** that allows you to **save** scanned **images** of documents such as **hotel** or **rental car** receipts into the IATS database.

The **Manage Images** screen is used to **view** scanned images that are already existing in the database or to **import** an image into the database.

 Complete the following steps to "import" a scanned image into the IATS database:

1. At the **Import Image From File** field, **click** on the **Browse** button. The **Open** screen appears.

2. **Click** on the **file** you wish to import and then **click** on the **Open** button.

3. At the **Image Description** field, **enter a description** for the image.
4. **Click** on the **Import** button.

5. The imported image file will now be **displayed** in the **Existing Images** section at the top of the screen.
6. You may **view** any file displayed in the Existing Images section by **double clicking** on the file.
7. **View All:** **Click** on the **View All** button if you wish to view **all** of the files displayed in the Existing Images section.
8. **Delete:** If you wish to **delete** an image, **click** on the **file** to select it and then **click** on the **Delete** button.
9. If you click on the **Delete** button, a **message** will appear asking if you are **sure** you wish to delete the selected file. **Click** on **Yes** or **No** as desired.
10. If you are **finished** using the **Manage Images** screen, **click** on the **Done** button.

Returning Requests

Travel Offices frequently **receive** settlement **requests** that **cannot** be processed, and must be **returned** to the traveler. These claims **must** be **logged** into the IATS system in order to **create** an **audit trail**, and to **generate** a **return letter**. If the **initial** system **maintenance** was performed, a **table** with reason for return **codes** was setup for managing this process.

Refer to the **Help** topic, "[Maintaining Reasons for Return](#)", for more information on **reason for return codes**.

There are **(3) methods** you can chose for returning a request to the traveler:

Method 1: - **Return** a request from the **Logging of Requests** screen.

Logging Of Requests - (ORIGINAL MASTER DATABASE)

Block Number Type of Transaction Number of Items Max Items

Add or Modify Logged Claim

Block	Order Number	SSN	Name	Status

- Click on the **Printer Icon** button if you wish to **print** the **Email Log Report**.
- The **Print** screen will appear.

11. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
12. **Select** the number of **copies** you wish to print and **click** the **Print** button.
13. IATS prints the letter and returns to the **Adobe Acrobat Reader** screen.
14. If you are **finished** using the **Adobe Acrobat Reader** screen, **click** on the red X button in the top right corner to **close** the screen.
15. IATS returns to the **Email Log** screen. If you are finished, **click** on the **OK** button.
16. IATS returns to the **Return Voucher Selection** screen. If you are finished, **click** on the **Cancel** button.

Print All Returned Requests

On occasion, user may need to **print** all of the **letters** for the settlement requests that have been **returned**.

 **Complete the following steps to "print" all return letters:**

1. Login to IATS in the **Examiner** View mode or **change** the View to Examiner, if necessary.

2. At the **Examiner View** screen, **click** on the **File** menu and then **click** on the **Return Requests** option. Another menu appears offering additional selections.
3. **Click** on the **Print All Return Letters** option. The **Select Return Letters Date** screen appears.

Select Return Voucher Date

Enter desired date

4. **Type** the desired date in **MMDDYY** format or **click** on the *down arrow* button to use the **Calendar** to select the date.
5. When the desired date is displayed, **click** on the **Print** button. The **IATS Report Viewer** screen will appear **displaying** the **return letter(s)**.

6. **Click** on the **Printer Icon** button if you wish to **print** the return letter(s).
7. The **Print** screen will appear.

8. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
9. **Select** the number of copies you wish to print and **click** the **Print** button.
10. IATS **prints all** of the return **letters** created on or after the specified date and returns to the **Adobe Acrobat Reader** screen.
11. If you are **finished** using the **Adobe Acrobat Reader** screen, **click** on the red X button in the top right corner to **close** the screen.

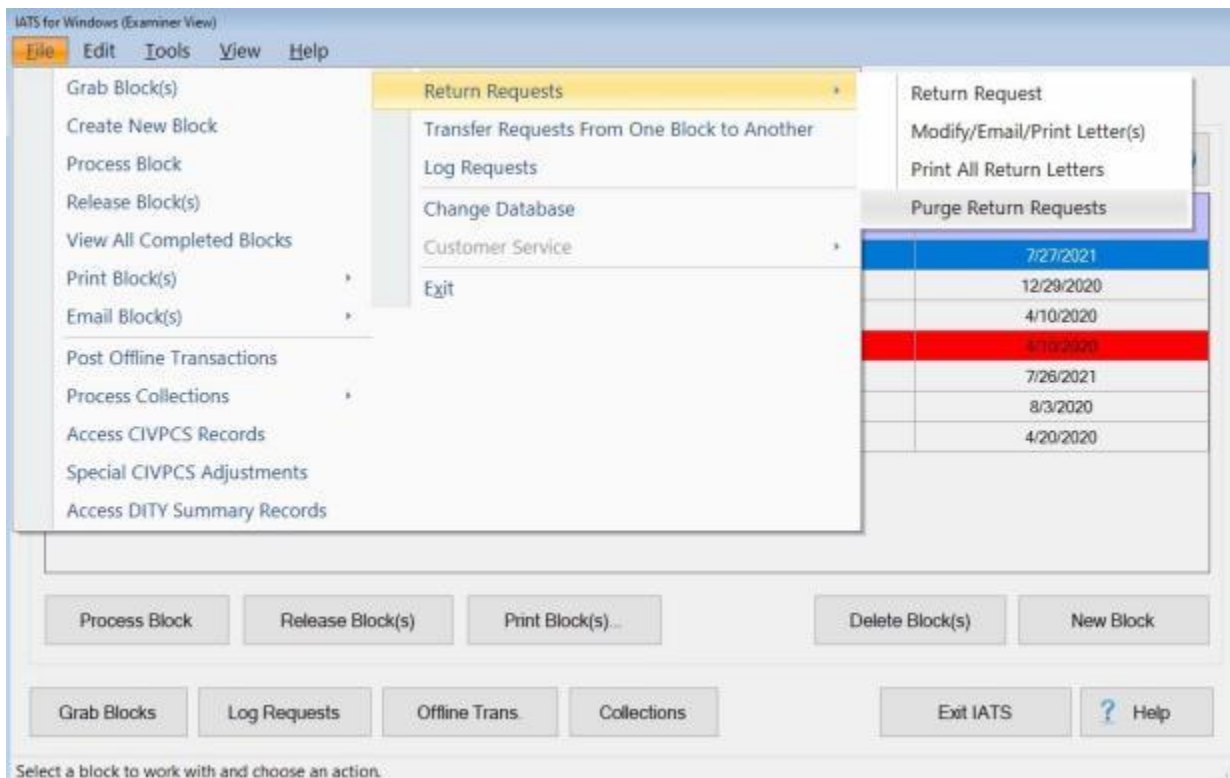

Purge All Returned Requests Records

On occasion, user may need to **purge** all of the **letters** for the settlement requests that have been **returned**.

Note: In order to **purge** the **Returned Requests** table, the user must have the privilege "**Purge Return Request for a Traveler**" assigned to their user account by the System Administrator.

 **Complete the following steps to "purge" all return letters:**

1. Login to IATS in the **Examiner** View mode or **change** the View to Examiner, if necessary.

2. At the **Examiner View** screen, **click** on the **File** menu and then **click** on the **Return Requests** option. Another menu appears offering additional selections.
3. **Click** on the **Purge Return Requests** option. The **Select Purge Return Requests Date** screen appears.

Select Purge Return Request Date

Enter desired date

4. **Type** the desired date in **MMDDYY** format or **click** on the *down arrow* button to use the **Calendar** to select the date.
5. When the desired date is displayed, **click** on the **OK** button. IATS **purges all** of the return **letters** created before the specified date.

Deleting a Request for Settlement

On occasion, a request for settlement must be **deleted** from a block. For example; a claim may have been logged to the wrong block, or was **computed**, but cannot be disbursed because of a missing receipt.

 Complete the following steps to "delete" a Request for Settlement:

- At the **Examiner View** screen, select a block through one of the following methods:
 - Method 1:** - **Double click** on the desired block listed under the **To Do** section or by **clicking** on the block **once** and then **clicking** the **Process Block** button.
 - Method 2:** - **Click** on the desired block listed under the **To Do** section and then **click** on the **File** menu at the top left corner of the screen. A drop down **menu** appears listing several options. **Click** on the **Process Block** option.

Note: After selecting a block using one of the (2) methods listed above, the **Request Selection** screen appears. At this screen, all requests **assigned** to the block are listed under the **Select Request(s)** section.

- At the **Request Selection** screen, **click** on the **request** to be deleted.
- When the correct request is highlighted, **click** the **Delete** button. The **Delete this Settlement Request** screen appears.

Enter the effective date for this order

- At this screen, **click** the **Delete** button at the bottom of the screen. A message will appear asking if you are sure you wish to delete the request. **Click** the **Yes** button.
- If the **option** in the IATS Maintenance module has been activated to generate the "**Deleted Details Report**", the **Reason For Deletion of Claim** screen appears.

Reason For Deletion Of Claim

Reason 1
Duplicate Claim

Reason 2

Reason 3

Reason 4

Remarks
This claim was already submitted for processing.

OK Cancel ? Help

Enter a reason for deletion.

Note: The **Reason for Deletion of Claim** screen only appears when the option "**Reason for Delete**" has been **enabled** in the **Maintenance** module. If this screen does not appear, **proceed** to step 10.

- At the **Reason for Deletion of Claim** screen, you have the option of placing up to **four** reasons for deleting the request by **clicking** on the *down arrow* button at the **Reason** fields.

Tip: At the **Reason for Deletion of Claim** screen, you have the option of either selecting a **reason**, or simply entering a **remark** into the **Remarks** text box. One or the other is **required**. You may also do **both** - select a reason from the drop-down list and add a remark if desired.

- If you **click** on the *down arrow* button, a **list** of all of the **reasons** that were previously entered into the "**Reasons for Claim Deletion**" table in the **Maintenance** module, will be displayed.

8. **Click** on the desired **reason** from the *drop-down* list of reasons that will appear after you click on the *down* arrow button. Or, **click** in the **Remarks** text box and **type** the **reason** the request is being deleted.
9. After selecting a reason, entering a remark, or both, **click** on **OK**.
10. The **Confirmation Password** screen appears next. **Type** your confirmation **password** at the **Enter Password** field and **press Tab** or **click** the **OK** button. IATS **deletes** the request and **returns** to the **Request Selection** screen.

Deleting an Entitlement

On occasion an **entitlement** must be **deleted** from a previously entered request for settlement.

 Complete the following steps to "delete" an entitlement from a TDY Request for Settlement:

- At the **Examiner View** screen, select a block through one of the following methods:
 - Method 1:** - **Double click** on the desired block listed under the **To Do** section or by **clicking** on the block **once** and then **clicking** the **Process Block** button.
 - Method 2:** - **Click** on the desired block listed under the **To Do** section and then **click** on the **File** menu at the top left corner of the screen. A *drop down menu* appears listing several options. **Click** on the **Process Block** option.

Note: After selecting a block using one of the (2) methods listed above, the **Request Selection** screen appears. At this screen, all requests **assigned** to the block are listed under the **Select Request(s)** section.

- At the **Request Selection** screen, **select** a request through one of the following methods:
 - Method 1:** - **Double click** on the desired request.
 - Method 2:** - **Click** on the request **once** and then **click** the **View/Modify** button.
- At the **Request for Settlement Against an Order** screen, **click** on the **Entitlements** tab. When the Entitlements tab is displayed, any **entitlement** already processed against the selected request **appears** in the **Types of Entitlements Claimed** section.

Trips/Type	Dates Encompassed	Status
Temporary Duty Trip	7/12/2021 - 7/16/2021	Validated Data

- At the **Entitlements** tab, **click** on the **entitlement** to be deleted.
- When the desired entitlement is highlighted, **click** the **Delete** button. A message appears asking if you are **sure** you wish to **delete** this entitlement. **Click** the **Yes** button. The entitlement **disappears** from the **Types of Entitlements Claimed** section.
- If there was more than one entitlement for the claim, **click** on the **Financial** tab and then **click** on the **Modify Accounting** button to **adjust** the **accounting** lines for the entitlement deleted.
- Finish** processing the request as usual after **modifying** the **accounting** or **click** on the **Cancel** button if no further action is needed.

View or Modify an Entitlement

On occasion, it may be necessary to re-open a previously computed **settlement** request, to **review** or **modify** the entries. This function may be performed if the **Examiner** still has **control** of the **block** the request is assigned to.

 Complete the following steps to "view or modify" an entitlement:

- At the **Examiner View** screen, **select** a **block** through one of the following methods:
 - Method 1:** - **Double click** on the desired block listed under the **To Do** section or by **clicking** on the block **once** and then **clicking** the **Process Block** button.
 - Method 2:** - **Click** on the desired block listed under the **To Do** section and then **click** on the **File** menu at the top left corner of the screen. A drop down **menu** appears listing several options. **Click** on the **Process Block** option.

Note: After selecting a block, using one of the (2) methods listed above, the **Request Selection** screen appears. At this screen, all requests **assigned** to the block are listed under the **Select Request(s)** section.

- At the **Request Selection** screen, **select** a request through one of the following methods:
 - Method 1:** - **Double click** on the desired request.
 - Method 2:** - **Click** on the request **once** and then **click** the **View/Modify** button.
- At the **Settlement Request** screen, **click** on the **Entitlements** tab. When the Entitlements tab is displayed, any **entitlement** already processed against the selected request **appears** in the **Types of Entitlements Claimed** section.

<Back Next> Daily Summary Elapsed Time Cons. Comp. Show Calcs

- At the **Entitlements** tab, if more than one entitlement is listed, **click** on the **entitlement** to be viewed or modified.
- When the desired entitlement is highlighted, **click** the **View/Modify** button.
- At the **Trip** screen, **click** on the various **tabs** to view or modify the entries previously made.
- When **finished** viewing or modifying the entries, **click** the **OK** button. A message appears asking if you wish to **view/modify** the **Daily Exceptions**. **Click** Yes or No as desired.

Note: If **Yes** is clicked to **view/modify** the **Daily Exceptions**, another **message** appears asking if you wish to **recalculate** daily **meals** and/or **lodging**. If **Yes** is answered, IATS will **recalculate** the meals and lodging based upon the **entries** made at the **itinerary**. If **changes** were previously **made** at the Daily Exceptions screen, those changes will be **lost**.

8. If the request was modified, **click** on the **Financial** tab and then **click** on the **Modify Accounting** button to **adjust** the **accounting** lines for the entitlement modified.
9. **Finish** processing the request as usual after **modifying** the **accounting**.
10. If the request was **viewed only** and no modifications were made, **click** on the **Cancel** button. A *pop-up* **appears** asking if you wish to **cancel** the screen. **Click** the Yes button. IATS **returns** to the **Request Selection** screen.

Print Requests

After an advance or settlement request is processed, IATS will **produce** an approved computer facsimile of the **DD Form 1351** and **1351-2**. In addition, IATS also produces a facsimile of **Optional Form 1164** for local vicinity travel.

The IATS generated forms are referred to as the **Advance Voucher Summary** and the **Travel Voucher Summary**.

IATS also produces the **Advance Audit Voucher**, the **Travel Voucher Audit**, and the **Prepayment Audit Checklist** documents. **Audit vouchers** provide a printed **display** of the **input** made by the voucher examiner.

Note: Requests may be printed by an IATS user in **any** of the **View** modes.

 **Complete the following steps to "print" a request:**

1. At the **Examiner, Auditor, or Disbursing** View screen, [select](#) a block.
2. At the **Request Selection** screen, **click** on the **request** you wish to print and then **click** the **Print Requests** button. A *pop-up* appears listing several printing **options**.

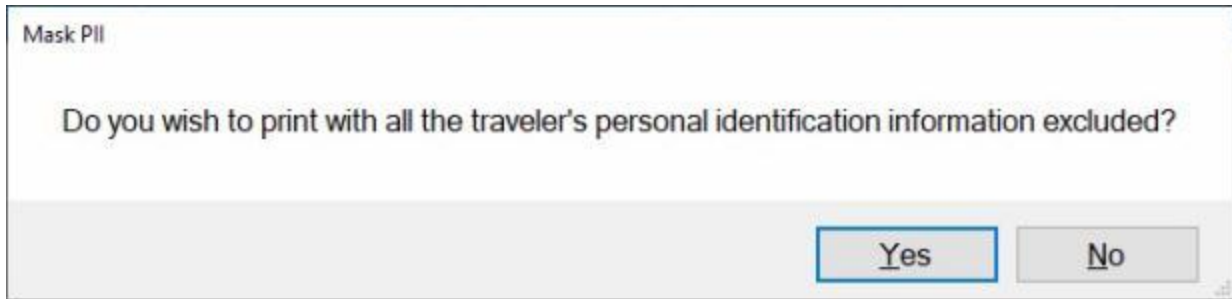

Note: If you click on the option, **Print PDF Voucher to DB**, this process will happen **transparently**. You will find the saved request(s) when you run the [Retrieve Scanned Documents from Database](#) process.

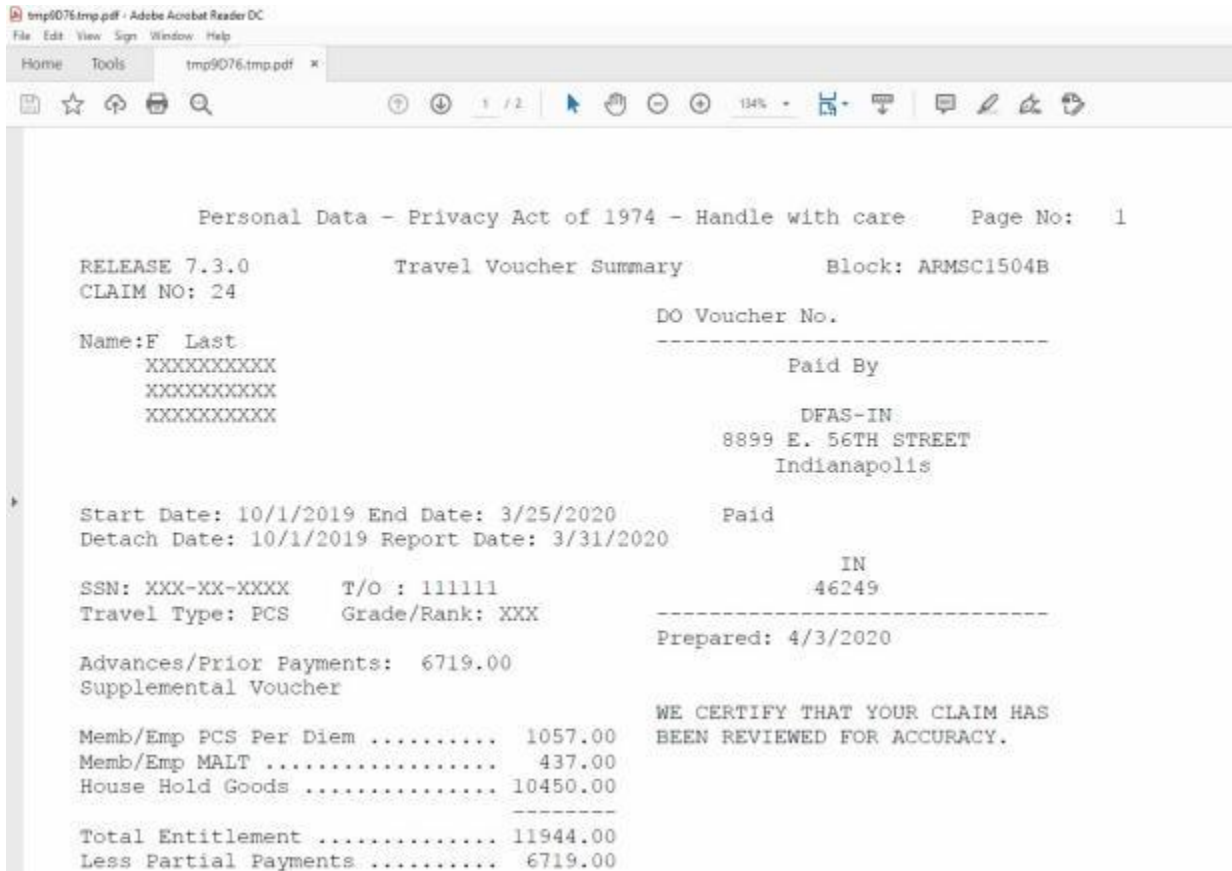

3. At the *pop-up*, **click** on the desired **option**. The following *pop-up* **message** will appear asking if you would like to print the **cover sheet** only.

4. **Click** on *Yes* or *No* as desired. The following *pop-up* **message** will appear asking if you would like to print with the traveler's personal identification **excluded**.

5. **Click** on Yes or No as desired. The **Adobe Acrobat Reader** screen will appear next displaying the selected print option.

6. **Click** on the **Printer Icon** button if you wish to **print** the selected print option.
7. The **Print** screen will appear.

8. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
9. **Select** the number of **copies** you wish to print and **click** the **Print** button.
10. IATS prints the letter and returns to the **Adobe Acrobat Reader** screen.
11. If you are **finished** using the **Adobe Acrobat Reader** screen, **click** on the X **button** in the top right corner to **close** the screen.

Tip: The **selected print option** may also be **printed to** a **PDF file** by clicking on the **File** menu option at the **Adobe Acrobat Reader** screen and then **clicking** on the **Save As** option. After activating this option, you will have to **specify** what **directory** to **save** the file in and the **file name**.

Print Blocks

After an advance or settlement request is processed, IATS will produce an approved computer facsimile of the **DD Form 1351** and **1351-2**. In addition, IATS also produces a facsimile of **Optional Form 1164** for local vicinity travel.

The IATS generated forms are referred to as the **Advance Voucher Summary** and the **Travel Voucher Summary**.

IATS also produces the **Advance Audit Voucher** and the **Travel Voucher Audit** documents. Audit vouchers provide a printed display of the input made by the voucher examiner.

Note: Blocks may be printed by a user in the **Examiner, Auditor, Disbursing** or **System Administrator** view mode.

 **Complete the following steps to "print" a block:**

1. At either the **Examiner, Auditor, or Disbursing View** screen, **select the block(s)** to be printed by **clicking** on the desired block(s) listed in the grid.

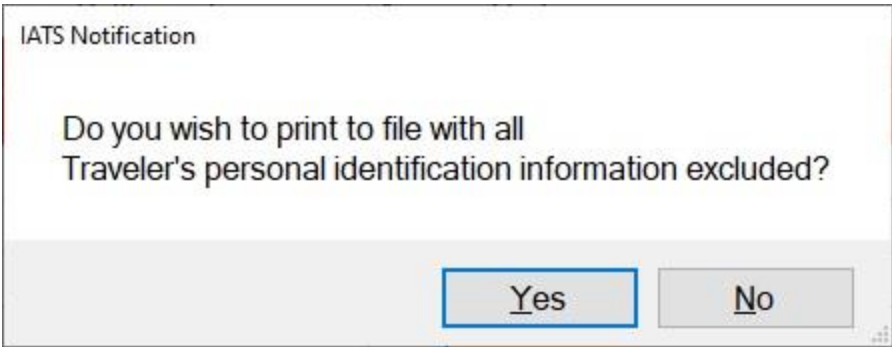

Tip: More than one block may be selected. To select consecutively listed blocks, **click** on the first block you wish to print. **Press** and **hold** down the **Shift** key and then **click** on the last block you wish to print. IATS will **highlight** all of the blocks between the first and last selections. To select **multiple** blocks that are not listed consecutively, **press** and **hold** down the **Ctrl** key and then **click** on the **blocks** you wish to print. IATS will **highlight** all of the selected blocks.

2. After selecting the block(s) to be printed, **click** the **Print Block(s)** button or **click** on the **File** menu and select the **Print Block(s)** option. The following *drop down Print* menu appears:

- Print Vouchers with Collection Letters
- Print Audits with Collection Letters
- Print Vouchers without Collection Letters
- Print Audits without Collection Letters
- Print PDF Voucher to DB
- Print PDF Voucher to File
- Email Voucher
- Email Audit

3. At the *drop down* Print menu, **click** on the desired option. The following *pop-up message* will appear asking if you would like to print with the traveler's personal identification **excluded**.

4. **Click** on *Yes* or *No* as desired. The following *pop-up message* will appear asking if you would like to print the **cover sheet** only.

5. **Click** on *Yes* or *No* as desired.
6. If you answer *Yes*, will generate a **PDF** file as usual and the **Adobe Acrobat Reader** screen will appear next displaying the selected print option.

WE CERTIFY THAT YOUR CLAIM HAS
BEEN REVIEWED FOR ACCURACY.

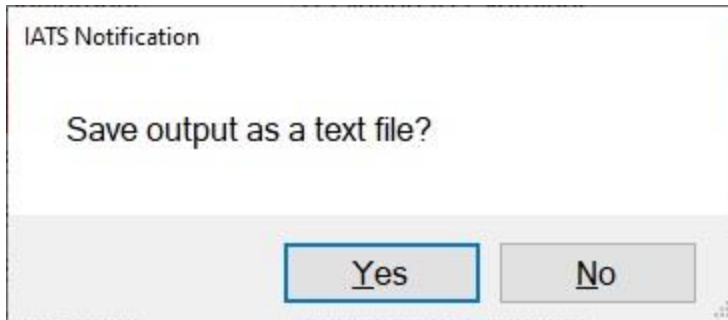

6. **Click** on the Printer icon. The **Print** screen appears.

7. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
8. **Select** the **number of copies** you wish to print and then **click** on the **Print** button.
9. IATS prints the block(s) and returns to the **Adobe Reader** screen.
10. If you are finished using the **Adobe Reader**, **click** on the **red X** button in the top right corner to close the screen.

11. If you answer *No*, The following *pop-up message* will appear asking if you wish to **save** the output to a **text file**.

12. **Click** on Yes or No as desired.
13. If you click on No, IATS will generate a **PDF** file as usual and the **Adobe Acrobat Reader** screen will appear next displaying the selected print option.
14. If you click on Yes, the following **Saved Output** screen will appear.

15. At the Saved Output screen **select** the **directory/folder** to store the saved text file.
16. **Enter** a **name** for the text file you are saving at the **File name** field.
17. **Click** on the **Save** button.

Note: If you click on *Cancel*, IATS will generate a **PDF** file as usual and the **Adobe Acrobat Reader** screen will appear next displaying the selected print option.

Deleting Blocks in the Examiner View

On occasion it may be necessary to **delete** a **block** that's been **assigned** to an **examiner** for processing. The block may have been created erroneously or may have been created with the wrong block **number**.

Note: A Block may only be deleted if it is **empty**. If there are any **claims** associated to the block it cannot be deleted.

 **Complete the following steps to "delete" a block in the Examiner View mode:**

1. At the **Examiner View** screen, **click** on the **block** you wish to delete and then **click** the **Delete Block(s)** button.
2. The following *pop-up message* appears asking if you are **sure** you wish to delete the block(s).

3. **Click** on *Yes* or *No* as desired.
4. The **Confirmation Password** screen appears.
5. **Type** your confirmation **password** at the **Enter Password** field and then **click** the **OK** button.
6. IATS **deletes** the block.

Release Blocks

Voucher examiners have **completed** a block when all logged requests are in one of the following **conditions**:

- Computed
- Audited
- Transferred to another block
- Returned to the traveler
- Deleted

Once the IATS user is **certain** that there are no outstanding **logged** requests on the block, the next step is to **release** it for further processing.

 **Complete the following steps to "release" a block:**

1. At the **Examiner, Auditor, or Disbursing View** screen, **click** on the listed block that you wish to release.
2. IATS will **highlight** the selected block in **blue** as shown below.

Block No.	Type	Block Status	Date Received
CMPCS01	Settlement	Assigned to Examiner	1/7/2021
EVAC	Settlement	Assigned to Examiner	11/4/2020
FSN	Settlement	Assigned to Examiner	10/2/2020
MILITARY04	Settlement	Assigned to Examiner	4/19/2020
PCSGD	Settlement	Assigned to Examiner	8/3/2020
PCSRTN	Settlement	Assigned to Examiner	8/3/2020
RETURNED	Settlement	Assigned to Examiner	1/14/2021
SCR1514	Settlement	Assigned to Examiner	4/20/2020

Note: Before attempting to release a block, it's good idea to **determine** that **all requests** on the block have been processed. This is accomplished by **double clicking** on the desired block. The **Request Selection** screen appears. **Look** at the **Status** field to **ensure** the status of each request is **Entered**. If there are any requests in the status "**Logged**", the request must be **processed** or **deleted** from the block before the block may be released.

3. When the desired block(s) selection is complete, **click** on the **Release Block(s)** button. The **Confirmation Password** screen will appear.

Enter Confirmation Password

Enter Password:

OK Cancel ? Help

4. At the **Confirmation Password** screen, **type** your confirmation password at the **Enter Password** field and then **click** the **OK** button or **press Tab**.
5. After entering the confirmation password, a **message** appears asking if you wish to **print** the **block tickets** for the blocks being released. **Click** on **Yes** or **No** as desired.

Note: It's a good idea to always **print** the **block ticket** to use as a **cover sheet**. Settlement requests are sometimes **added** to the block or **deleted** during the **processing phase** and may not **reflect** the cover sheet originally printed, if the block was initially logged into IATS through the **logging process**. Disbursing clerks can also **use** the latest block ticket **cover sheet** to **verify** that a valid request exists for the **transactions** that **appear** in the **upload file**.

Posting Offline Transactions

On occasion, a payment for an **Advance** of travel and transportation allowances or **Accrued Per Diem** may be made at a **location other** than where the Request for Settlement is processed. If this type of payment occurs, and is received by the office that will ultimately process the Request for Settlement.

It's a good idea to **post** these **transactions** to the IATS **database**. Once **posted**, IATS automatically creates a suspense record for these items pending final **settlement** or **collection**.

 **Complete the following steps to "post" an off-line Advance or Accrued Per Diem payment:**

1. Login to IATS in the **Examiner** View mode or change the View to Examiner, if necessary.
2. At the **Examiner View** screen, **click** on the **Offline Trans.** button or **click** on the **File** menu and **select** the **Post Offline Transactions** option. The Select Traveler screen will appear.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter either** the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**
4. If the traveler's account exists in the IATS database, the traveler's account information appears. If the account does not exist, a message appears asking if you wish to create a new traveler profile. **Click** on **OK** to [create a new profile](#). The **Verify New Traveler SSN** screen will appear.
5. **Enter** the traveler's **SSN** at the **Verify SSN** field and **click** on **OK**. The **Traveler Profile** screen will appear.
6. After accessing the traveler's account or creating a new profile, a **travel order** must be **selected** or **created** if necessary.
7. At the **Travel Order Selection** screen, any orders existing in the IATS database for the selected traveler appear in the **Order** section in the lower portion of the screen. If the desired travel order number is listed, **click** on the **travel order number** and then **click** on **OK**.
8. If the desired order is not listed, **enter** the order number at the **TONO** field and then **click** on **OK**. A *pop-up message* will appear stating that the order does not exist and asking if you wish to create it.
9. **Click** on the Yes button to [create a new travel order](#). The Travel Order screen appears.
10. After selecting the travel order or creating a new order, the **Accrual, Advance & Transportation Request Selection** screen appears.

 - **Accrual** - Use this option to post an offline transaction for a payment of **accrued per diem**
 - **Advance** - Use this option to post an offline transaction for a payment of an **advance of travel and transportation allowances**
 - **Transportation Request** - Use this option to post the issuance of a **government procured transportation ticket** to the traveler's history record.
- Detail Date:** At this field, **type** the **date** the transaction was **paid** or **issued** to the traveler. You can also **click** on the **down arrow** button and use the **calendar** to select the date.

3. **Start Date:** This date **defaults** from the **Begin Date** entered when the travel order was created. **Type** a new date, if applicable, or **press Tab** to accept the default date. You can also **click** on the *down arrow* button and use the **calendar** to select the date.
4. **End Date:** This date **defaults** from the **End Date** entered when the travel order was created. **Type** a new date, if applicable, or **press Tab** to accept the default date. You can also **click** on the *down arrow* button and use the **calendar** to select the date.
5. **Amount:** At this field, **type** the **amount** paid to the traveler for the offline transaction.
6. **DOV#:** At this field, **type** the Disbursing Office Voucher (**DOV**) number assigned to the offline transaction.
7. **How Paid:** At this field, **click** on the *down arrow* button or **press** the *Up/Dn* arrow keys on the keyboard to scroll through the options. When the desired option is highlighted, **press Tab** to continue.
8. **Check/Sched #:** **Click** in this field and then **type** the **check** or **schedule number** the transaction was issued against, if applicable.
9. **Remarks:** At this field, **type** any desired **remarks** that are pertinent to the transaction. These remarks are posted to the traveler's history record.
10. When finished, **click** the **OK** button to **save** the entries and **return** to the **Examiner** screen.

View Travel History

The **Travel Order History** screen is used to **provide** users with an easy to read **inquiry** screen, and includes all necessary travel **data** elements stored in the travel account database.

Tip: The **Travel Order History** screen can be accessed from the **Examiner, Auditor, Disbursing, or System Administrator View** screen, or by clicking on the **Other** button when processing a **Request for Advance**, or **Settlement**. Please **refer** to the **instructions below** to access the **Travel Order History** through either method.

 **Complete the following steps to "view" a traveler's historical record:**

1. At the **Examiner, Auditor, Disbursing, or System Administrator View** screen, **click** on the **Tools** menu. A **drop down menu** appears **listing** various **options**.
2. **Click** on the **History** option. The **Select Traveler** screen appears.
3. At either the **Select Traveler** screen, there are **(2)** methods for selecting a traveler account:
 - **Method 1:** - At the **Search By** field, **click** in the appropriate **radio button** to **select** your search **by** either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**.
 - **Method 2:** - **Type** the first **(2)** letters of the traveler's **last name**. A listing appears displaying **all** travel accounts in the IATS database beginning with these **(2)** letters. **Click** on the **Up/Down arrows** next to this listing or **press** the **Up/Down arrow keys** on the keyboard to scroll through the list. When the desired traveler is **highlighted**, **click** on the highlighted name.
4. After selecting a travel account, the **Travel Order History** screen appears.

If the desired country is not highlighted, **click** on the *Up/Dn* arrow **buttons** or **press** the *Up/Dn* arrow **keys** on the keyboard until the desired location is highlighted. Once the desired locality is highlighted, **press Tab**.
- You can also **click** on the *down arrow* button to **display** the **listing** of **localities** within the selected country. When the list is displayed **click** on the *up* or *down arrow* button to **scroll**

through the list. When the desired location is displayed, **click** on the **location** to make your selection.

8. IATS **displays** the associated per diem **rates**, by effective date, in the **Maintain Rates** section.

Tip: Generate a **print-out** of the selected locality **rates**, if desired, by **clicking** on the **Print** button.

Dump Traveler Data

The **Dump Traveler Data** feature was developed for the purpose of being able to **generate** an output file containing all of the **details** for a particular travel account.

This program is useful when **attempting** to **research** problems. When the user **runs** this process, IATS **creates** a zipped output file that the user can then **transmit** to **DFAS-IN** or **Professional Software Consortium** for analysis. Using this data, the **programmers** can **determine** what is causing a particular **problem** or where an **error** exists in the program.

 Complete the following steps to "run" the Dump Traveler process:

1. At the **Examiner View** screen, **click** on the **Tools** menu and **select** the **Dump Traveler** option. The **Select Traveler** screen will appear.

Select Traveler
Controlled Unclassified Information (CUI)

Search By:
 SSN
 DoD ID

SSN: 111-88-1111

Name: SMITH, MARKY M

Address-1: 11122 E. WEST ST

Address-2:

City: INDIANAPOLIS

State/Country: INDIANA

Zip Code: 46226

Grade/Rank: E9

Organization: DFAS

DSSN: 5150

Obfuscate Sensitive Data

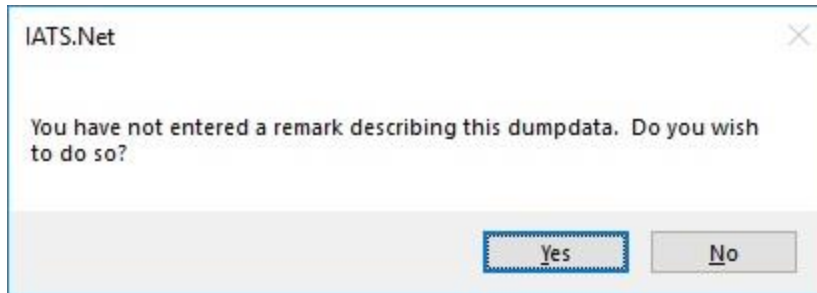

You can add a remark here to explain why you are creating a dump of the traveler's data.

OK Cancel ? Help

Enter the ID of the employee/member that you wish to find

2. At the Select Traveler screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**.
3. When the traveler's account information appears, ensure that a **check mark** appears in the **check box** next to the words **Obfuscate Sensitive Data**.

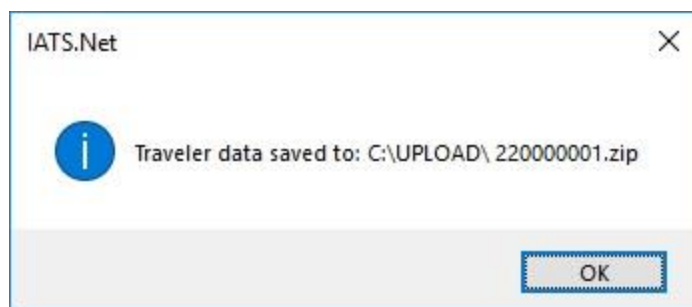

4. At the bottom of the **Select Traveler** screen you will see a **text box** where you can enter some **remarks** explaining why you are creating a dump of the traveler's data.
5. If you do not enter any **remarks**, you will see the following *pop-up message* appear when you **click** on the **OK** button to continue.

6. **Click** on the Yes button if you would like to enter some remarks. If not, **click** on the No button to continue.
7. **click** on the **OK** button. The **Browse For Folder** screen appears.

8. At the **Browse For Folder** screen, **navigate** to the **directory/folder** where you want the dump traveler file to **reside**.
9. When you have selected the desired directory/folder, **click** on the **OK** button. IATS **creates** the output file and displays the following message.

10. **Click** on **OK** to continue.
11. You will **find** the Dump Traveler output file in the directory/folder selected at the Browse For Folder screen.

Note: IATS will **obfuscate** the traveler's real SSN and **change** it to **22000000** the first time a dump traveler is created in your database. That will **also** be the filename for the **zip** file. The next time a dump traveler is created the traveler's real SSN and the zip file name will be changed to **220000001**. It will **increment** by **one** number each time a dump traveler is created in your database. Once the incremental number reaches **980000000**, the numbering will **restart** at **220000000**.

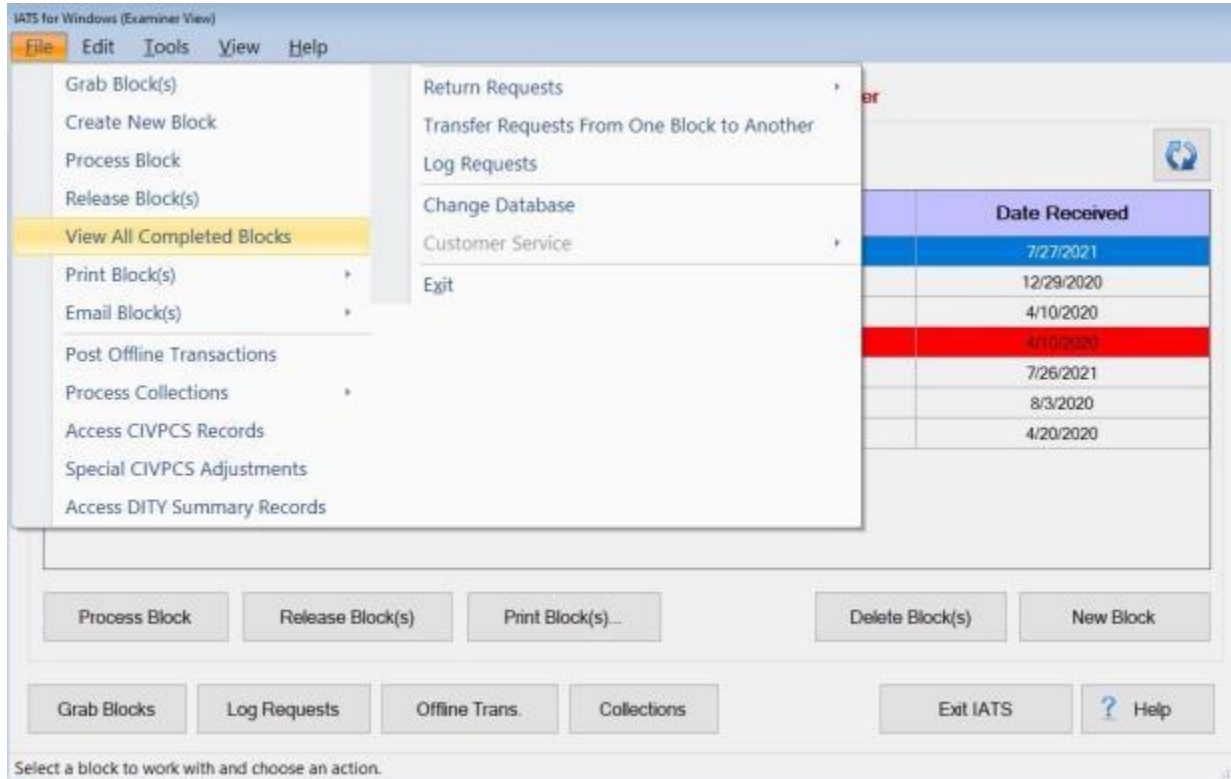

12. **Copy** the **file** to a **disk** or **attach** it to an **e-mail** message and **forward** the file to the desired organization for analysis.

View Completed Blocks

After a block is in the status "**Completed**" examiners may view the details of these blocks if desired.

 **Complete the following steps to "view" completed blocks:**

1. Login to IATS in the **Examiner View** mode or **change** the View to Examiner, if necessary.

2. At the **Examiner View** screen, **click** on the **File** menu and then **click** on the **View All Completed Blocks** option. The **View All Completed Blocks** screen appears next.

3. At the View All Completed Blocks screen, **select** the **block(s)** you wish to view.

Note: At this screen, the Examiner may **Print, Display, or Archive** the listed blocks as desired. **Select** the block(s) and **click** on the **Print** button. **If there are more blocks in the database than can be displayed all at once** on the View All Completed Blocks screen, users can **type** the block **number** at the **Find Block** field for a **quick search**.

4. After selecting a block and clicking on the **Print** button, a *drop down menu* of printing options appears.

- Print Block Selection Screen
- Print Block Ticket
- Print Audits With Collection Letter
- Print Audits Without Collection Letter
- Print Vouchers With Collection Letter
- Print Vouchers Without Collection Letter
- Print Vouchers As PDF to DB

- Email Log Notice
- Email Vouchers
- Email Audit

Archive Block(s)

5. At the drop down menu, **click** on the **Archive Block(s)** option. The following *pop-up message* appears asking if you wish to **mask** the **personal information**.

6. **Click** on *Yes* or *No* as desired.
7. After clicking on *Yes* or *No*, IATS **creates** a **folder** for the selected block and places it in the **folder** established in the **Maintenance** module for **Download** files.
8. When **finished** archiving blocks, **click** the **Done** button to **return** to the previous screen.

View Archived Blocks

Once a completed block has been **archived**, you may **view** the archived blocks.

 **Complete the following steps to "view" archived blocks:**

1. Using Windows Explorer, **navigate** to the **folder** established in the Maintenance module for **Download** files.

2. **Open** the **folder** for the Download files and then double click on the **folder** for the desired archived block.
3. Once the folder for the archived block is opened, you will notice a **file** in this folder named **"Index"**.
4. Double click on the **Index** file. The following screen is displayed:

Requests In Block 1099

SSN / Name	TONO	Date	Detail ID	Documents	Images
111881111 / SMITH, MARKY	SCR1509	01/13/2020 - 01/17/2020	14	Voucher	

Note: All claims contained in the archived block will be listed.

5. **Click** on the **Voucher link** in the **Documents** column. This will cause the following screen to appear showing the selected claim.

Tip: Click on the **Back** button to return to the previous screen if you wish to display another claim.

6. When finished viewing archived blocks, **click** on the **(X)** in the top right corner of the **Explorer** screens until all windows are closed.

Changing Database Login

This feature allows an IATS user to **login** to a different database without having to **log out** of IATS, **select** a different database and then **login** to the new database.

 Complete the following steps to "login" to a different database.

1. At the **Examiner View** screen, **click** on the **File** menu and **select** the option **Change Database**. The **Change Database Login** screen will appear.

2. At the Change Database Login screen, **click** on the **down arrow** button at the **Database** field. A **list** of available database(s) is displayed.
3. **Click** on the **database** you would like to login to.
4. If the login was **successful**, you will see the following message.

5. **Click** on **OK**.
6. If your **User Name** and **Password** is **different** in the database you are currently logged into and the one you are trying to switch to, you will see the following message.

7. **Click** on **OK**.
8. You will now see the **User Name** and **Password** field displayed at the Change Database Login screen.

The screenshot shows a dialog box titled "Change Database Login". It contains three input fields: "User Name:" with the text "SYSTEM", "Password:" with seven dots, and "Database:" with a dropdown menu showing "WinIATS-Amy". At the bottom, there are three buttons: "OK", "Cancel", and "? Help".

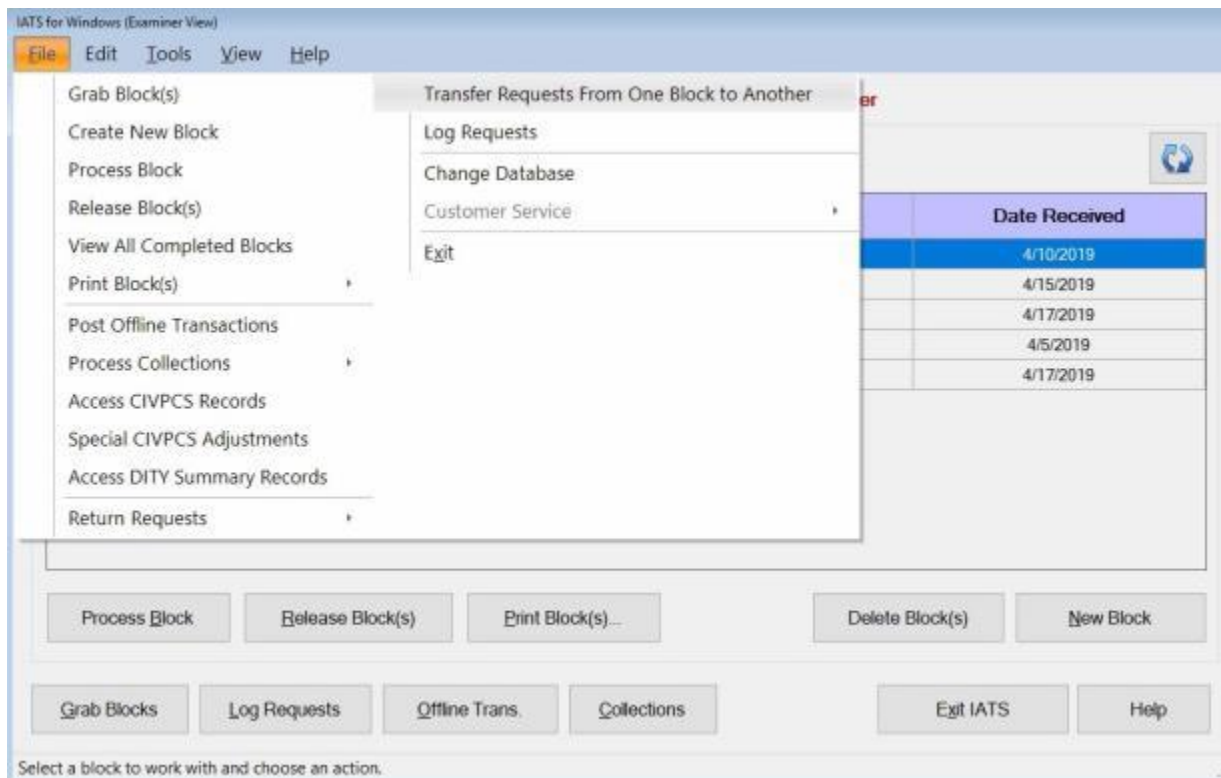

9. Enter the correct **User Name** and **Password** and then **click** on **OK**.

Transfer Requests from Examiner View

On occasion, it may be necessary for the Examiner to **transfer** the **requests** from one block to another block. This normally occurs when most of the requests on a block are **processed**, but there are some claims that cannot be completed for some reason. The **un-processed** requests must be **re-assigned** to another block to allow the processed claims to be disbursed.

Note: An **Examiner** may only transfer requests from one block to another that he/she has **control** of.

 Complete the following steps to "transfer" requests from one block to another:

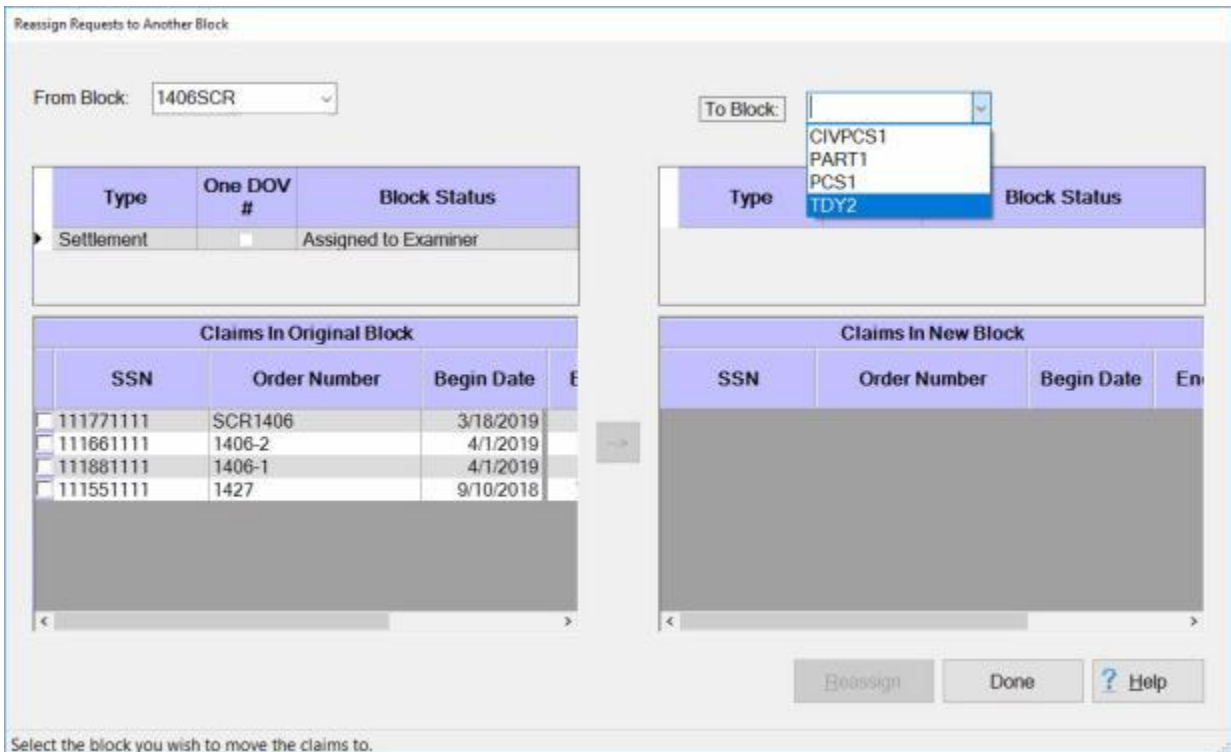

1. At the **Examiner View** screen, **click** on the **File** menu option. IATS displays a **list** of functions that may be performed using the **File** menu option.
2. **Click** on the **Transfer Requests From One Block to Another** option. The **Reassign Requests to Another Block** screen appears.

3. **From Block:** At the **From Block** field, you can simply enter the number of the block you wish to transfer a claim from and then press *Tab*. Or, you can also **click** on the *down arrow* button. A **drop down listing** will appear **displaying** all of the **blocks** in the database that are currently under your control. **Click** on the desired **block number** to make a selection. After selecting a block, all of the **requests** assigned to the block are **displayed** below in the **Claims In Original Block** section.

4. **To Block:** At the **To Block** field, you can simply enter the number of the block you wish to transfer a claim to and then press *Tab*. Or, you can also **click** on the *down arrow* button. A **drop down listing** will appear **displaying** all of the **blocks** in the database that are currently under your control.

5. **Click** on the desired **block number** to make a selection.

Reassign Done ? Help

Select the block you wish to move the claims to.

6. **Claims In Original Block:** In this section, **click** the **check box** in the **column** to the **left** of the **SSN** column to select the claim you wish to transfer.
7. After you have selected the desired claim, **click** on the **arrow** button in the **middle** of the screen to **move** the claim from the **From Block** side to the **To Block** side.

8. When you have **moved** the claim you wish to transfer to the To Block side of the screen, **click** on the **Reassign** button. The **Confirmation Password** screen will appear.
9. **Type** the confirmation **password** at the **Enter Password** field and then **click** on the **OK** button. IATS transfers the claim and displays the following message.

10. **Click** on **OK**.
11. If you are **finished** transferring claims, **click** on the **Done** button.

Access PCS Summary Records

Periodically, an IATS user may want to **view** the PCS Summary Records for a particular employee or member. Users may need to **answer questions** regarding the computation of an entitlement or to **verify the posting of payment information**.

Tip: PCS Summary Records can be accessed from the **Examiner View** screen, or by clicking on the **Other** button when viewing or processing a **Request for Advance**, or **Settlement**. Please refer to the **instructions below** to access PCS Summary Records by either method.

Note: The privilege "**View Civilian PCS Summary Records**" must be **granted** for the user's account in order for an IATS user **access** to CIVPCS Summary Records.

Complete the following steps to "view" a PCS Summary Record:

1. Login to IATS in the **Examiner View** mode or **change** the View to Examiner, if necessary.
2. At the **Examiner View** screen, **click** on the **File** menu and then **click** on the **Access PCS Summary Records** option. The **Select Traveler** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. At the Traveler Order Selection screen, any travel orders existing in the database for the selected traveler appear in the **Order** section.
5. **Click** on the **order number** associated with the PCS record you wish to access and then **click** on the **OK** button. The **selection screen** for the PCS summary record associated with the selected travel order appears. The following example represents the selection screen for a **CIVPCS** travel order.

TDY Advance Requests

Processing TDY Advance Requests

Payments are sometimes made for a **portion** of the **travel** and **transportation entitlements** prior to the submission of a final **settlement request**. These payments are considered to be either **advances** or **accrued per diem payments**. The traveler uses these payments to **cover** the **expenses** incurred when performing **TDY** travel.

Note: Advance payments should not be processed for travelers **eligible** for the **Government Charge Card Program**. Since not all travelers are eligible for the program, however, travel offices continue to process a significant number of advance payments.

 **Complete the following steps to "process" a TDY Advance Request :**

1. Login to IATS in the **Examiner** View mode or **change** the View to Examiner, if necessary.
2. **Select** a **block** through one of the following methods:
 - **Method 1:** - Click the [Grab Blocks](#) button and **select** a block from the **Logged** Pool.
 - **Method 2:** - **Double click** on the desired block listed under the **To Do** section or by **clicking** on the block **once** and then **clicking** the **Process Block** button.
 - **Method 3:** - Click on the **New Block** button and [create a new block](#).

Note: After selecting a block using one of the (3) methods listed above, the **Request Selection** screen appears. At this screen, any **request for advance** already **logged** to the block is listed under the **Select Request(s)** section.

3. At the **Request Selection** screen, **select** a request through one of the following methods:
 - **Method 1:** - **Double click** on the desired request.
 - **Method 2:** - Click on the request **once** and then **click** the **View/Modify** button.
 - **Method 3:** - Click on the **New** button.

Note: If the **New** button is clicked, the **Travel Order Selection** screen appears. At this screen the Examiner must [select](#) or [create](#) the traveler's **account** and [select](#) or [create](#) a new **travel order**. After selecting or creating the travel order, the **Request for Settlement Against an Order** screen appears.

4. After selecting a request using one of the methods listed above, the **Advance Request** screen appears.

Completing the TDY Advance Request for Settlement Screen

After selecting an advance request, the **Advance Request** screen appears. This screen is used to capture the details from the **advance request** submitted by the customer.

The screenshot shows the 'Advance Request' screen for Block No: ADVCMPCS and Request No: NEW. The user is RHOADES, DUSTY O. C. and the request is TONO: ADV-1. The 'Request Type - Advance' section shows 'Type of Advance' set to 'Full Advance'. The 'Remit To' tab is active, displaying the following address information:

Field	Value
Line 1	101 S NORTH ST
Line 2	
City	INDIANAPOLIS
Country/State	IN INDIANA
Zip Code	46226

Buttons at the bottom include '<Back', 'Next>', 'Receipts...', 'Other...', 'SAVE', 'Cancel', and '? Help'.

Use the following steps to "complete" the Advance Request screen:

1. **Type of Advance:** - The default value is **Full Advance**. If you wish to **change** the type, **click** on the *down arrow* button to **display** the list of types and then **click** on the desired type.
2. **Address:** - When the **Advance Request** screen appears, the **Remit To** tab is displayed. At this tab, the traveler's address defaults from the address entered at the **Traveler Profile** screen when the traveler's profile was created. Compare this address to the address appearing on the Request for Advance submitted by the traveler and make any necessary changes. If the IATS user **changes** the **Remit To** address at this tab, the **change** will appear with a **red** background.

Note: Any changes made to the address at the **Remit To** tab will only affect the advance being processed. A **permanent** address **change** must be made at the **Traveler Profile** screen.

3. After verifying the address at the **Remit To** tab, **click** on the **Entitlements** tab or the **Next** button to proceed.

Refer to the **Help** topic, [TDY Advance Entitlements tab](#), for additional instructions.

TDY Advance Entitlements - tab

The **Entitlements** tab is the beginning point for **capturing** the specific **details** pertaining to what is authorized on the travel order in regards to the **transportation** allowances, the **itinerary** for the trip, and any **reimbursable expenses**.

The screenshot displays the 'Entitlements' tab interface. At the top, there are tabs for 'Remit To', 'Entitlements', 'Calculations', 'Financial', and 'Remarks'. Below these is a section titled 'Types of Entitlements Claimed' which includes a checkbox for 'Precomputed' and a dropdown menu currently set to 'Not a Reservist'. A table with three columns: 'Trips/Type', 'Dates Encompassed', and 'Status' is shown, currently empty. To the right of the table are three buttons: 'Add Itinerary' (highlighted in blue), 'View/Modify', and 'Delete'. At the bottom of the interface are several navigation buttons: '<Back', 'Next>', 'Daily Summary', 'Elapsed Time', and 'Show Calcs'.

 Use the following steps to "complete" the TDY Advance Entitlements tab:

1. **Precomputed:** Under the heading "Types of Entitlements Claimed", **click** in this box if a **pre-determined amount** for the settlement is desired. IATS will **by-pass** the **itinerary** and **reimbursable expenses** screens. A payment is generated for the amount entered at the **Pre-Computed Amount** field that appears when this box is **checked**. No computation is made by IATS.
2. **Add Itinerary button:** **Click** on this button to enter an **itinerary** for the trip submitted by the traveler on the Request for Advance.
3. After clicking on the **Add Itinerary** button, the **What's Authorized** tab appears.

Refer to the **Help** topic, "[TDY Advance What's Authorized - tab](#)", for additional instructions.

TDY Advance What's Authorized - tab

After clicking on the **Add Itinerary** button at the **Entitlements** tab, the **What's Authorized** tab appears. At the **What's Authorized** tab, user must specify the **transportation authorizations**.

The screenshot shows the 'What's Authorized' tab selected in a navigation bar. Below the navigation bar, there is a checkbox labeled 'Owner/Operator of POV' which is checked. To the right of this checkbox is a dropdown menu labeled 'Transp. Mode' with the text 'Remarks Directed Travel by Air' visible. Below the form fields, there are two buttons: 'Back' and 'Next'.

 Use the following steps to "complete" the TDY Advance What's Authorized tab:

1. **Owner/Operator of POV:** A **check mark** defaults to this field **indicating** that the **traveler** was the **owner** and **operator** of the **POV** used in the performance of the trip. If the traveler was not the owner/operator, **click** in this **box** or **press** the **space bar** to **remove** the **check mark**.
2. **Transportation Mode:** **Click** on the *down arrow* to the right of this field. A *drop down* listing of various transportation modes appears. Use the *Up/Dn arrows* or press the *Up/Dn arrows* on the **keyboard** to scroll through the list of available modes.
3. **Refer** to the **travel order** submitted by the traveler for the authorized mode of transportation and then **click** on the authorized mode.
4. After completing this tab, the user must then **click** on the **Expected Itinerary** tab or **click** on the **Next** button to continue.

Refer to the **Help** topic, "[Expected Itinerary tab](#)", for additional instructions.

Expected Itinerary - tab

The **Expected Itinerary** tab is used to **capture** the anticipated details for the trip itinerary. While completing this screen, refer to the **prompt line** at the bottom of the screen. The prompt line will **explain** what **information** is requested at each input field.

What's Authorized Expected Itinerary Reimbursables

Expected Duration Greater than or equal to 24 hours

Date		Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	AE %	Who Else

Back Next Duplicate Previous Insert Leg Delete Leg Clear Completed

 Use the following steps to "complete" the Expected Itinerary tab:

- Expected Duration:** - At this field, **click** on the *down arrow*. A drop down **listing** of trip **durations** appears. **Refer** to the **DD Form 1351-2** submitted by the traveler to determine the duration and then **click** the correct choice.
- Depart Date:** - The departure date on the first line of the itinerary automatically **defaults** from the **Begin Date** entered when the travel order was created. **Press Tab** to continue or **type** a different date, in **MMDDYY** format, if necessary. You may also **click** on the *down arrow* button and use the **calendar** to select the date.
- Depart Location:** - At this field, the **Location Selection** screen automatically appears. At the **State/Country** field, **type** the first two letters of the state or country name. If necessary, **click** the *Up/Dn arrows* until the desired name is displayed. **Click** on the highlighted name or **press Tab** to make the selection.
- At the **City / Zip Code** field, type the zip code or the first two letters of the city name. This displays a **listing** of city/locality names, for the previously selected state or country, beginning with those letters or zip code. **Use** the **procedures** described in step (3) above to make the selection.

Tip: If the traveler is departing from an **OCONUS** location, **click** in the **Locality** field and **use** the **procedures** described in step (3) above to make the **Locality** selection.

- When the correct **State/Country** and **City/Locality** is selected, **click** on the **DTOD** button if you wish to have IATS **look-up** and automatically **populate** the **Miles** field in the **itinerary** with the official **distance** from the Defense Official Table of Distances.
- If you wish to **by-pass** the **DTOD Location** screen **click** the **OK** button or **press Tab** to continue.
- Transportation:** - If the correct code for the mode of transportation is not displayed, **click** on the *down arrow* button to display a list of transportation modes. **Click** on the correct mode to make a selection.

8. **Local?:** - When the mode **PA** is selected for the transportation, a **prompt** asking if travel was to/from a **local** transportation terminal appears. If so, **click** in this box. If not, **press Tab** to continue.
9. **Arrival Date:** - The date at the previous **Departure Date** field **defaults** to the Arrival Date field. Press **Tab** to accept this date or **type** a new date, in **MMDDYY** format, if necessary. You may also **click** on the **down arrow** button and use the **calendar** to select the date.
10. **Arrive Location:** - This is the **location** where the traveler stops to perform official duty, change modes of transportation, or to rest overnight. Use the **same method** explained at the **Depart Location** field to **select** the **arrival** and **DTOD** locations.
11. **Reason for Stop:** - The **default** value for this field is **TD - Temporary Duty**. Press **Tab** if this is correct. If not, **click** on the **down arrow** button to display a list of reasons for stop. **Click** on the correct reason to make a selection.

Click on the **definitions** button below for an **explanation** of the various reason for stop codes.

12. **Duty Day:** - A **check mark** automatically **defaults** to this field. If this day is an official day of duty, **press Tab** to continue. If this day is not an official day of duty, however, **click** this box to **remove** the check mark.
13. **OMN:** - This option is for **Navy** users. **Click** in the **check box** to **activate** this option if **OMN funding should be used** for the trip.
14. **Method:** - The **default** value for this field is **LDP - Lodgings Plus**. Press **Tab** if this is correct. If not, **click** the **down arrow** button to display a list of methods of reimbursement. **Click** on the correct method to make a selection.
15. **Lodging:** - At the **Lodging** field, when completing the Expected Itinerary tab, a **drop down listing** of various lodging types appears. **Click** on the correct type to make a selection.
16. **Meals:** - At the **Meals** field, when completing the Expected Itinerary tab, a **drop down listing** of various meal types appears. **Click** on the correct type to make a selection.
17. **AE %:** - At this field, **type** the **percentage rate** to be used if **Actual Expenses** was **approved** in the travel orders.
18. **Lodging Cost:** - **Enter** the **dollar amount** for the daily lodging cost.
19. **Taxes:** If the TDY location is within CONUS, Alaska, Hawaii, or a US territory, the user is prompted to **enter** the daily lodging **taxes** amount. IATS will automatically reduce the taxes by the appropriate percentage when the claimed amount for **lodging** exceeds the authorized amount. If these taxes are entered into the **itinerary**, do not enter them again at the **Reimbursables** tab. The amount calculated for the taxes will appear on the **Calculations** tab after the trip has been completely entered.
20. **Miles:** - If not automatically populated by the **DTOD** look-up feature, **type** the number of **miles** claimed by the traveler if a privately owned vehicle was used.

Note: Use the procedures previously explained to complete the **return** travel leg or **additional** travel legs for the itinerary. When **finished** with the itinerary, **click** on the **Completed** button. The **Reimbursables** tab appears next.

Refer to the **Help** topics, "[TDY Advance Reimbursables - tab](#)" or "[PCS Advance Reimbursables - tab](#)", for additional instructions.

TDY Advance Reimbursables - tab

This screen is where IATS users enter the traveler's **reimbursable expenses** associated with the TDY Advance Request.

Nature of Expense	Amount
AIRFARE	250.00
TAXI/LIMO TO AIRPORT	45.00
TAXI/LIMO FROM AIRPORT	0.00
TAXI/LIMO FROM LODGING TO DUTY	
TAXI/LIMO OTHER	
TAXI/LIMO TO AIRPORT	
TAXI/LIMO TO LODGING FROM DUTY	
TELEPHONE CALLS LOCAL	
TELEPHONE CALLS LONG DISTANCE	
TIP TO DRIVER OF COURTESY-FREE SHUTTLE	

Use the following steps to "complete" the TDY Advance Reimbursables tab:

1. **Nature of Expense:** At this field, click on the down arrow button or begin typing the name for the expense. A drop down **listing** appears displaying the common expenses that have been entered into the **Reimbursable Descriptions** table in the IATS **Maintenance** module. **Click** the *Up/Dn* **arrows** until the desired expense item is displayed. Once the correct item is displayed, **click** on this item to make a selection. If the expense claimed by the traveler is not listed, simply **type** the description in this field and **press Tab**.
2. **Amount :** At this field, **type** the **dollar amount** anticipated by the traveler.
3. When finished entering the anticipated expenses, **click** the **OK** button. IATS returns to the **Advance Request** screen.
4. At the Advance Request screen, **click** on the **Calculations** tab to **review** the calculated **amount** and to **specify** the **amount** to be **paid** to the traveler.

Refer to the **Help** topic, "[TDY Advance Calculations - tab](#)", for additional instructions.

Advance Calculations - tab

After completing the **Reimbursables** tab, IATS returns to the **Advance Request** screen. To **view a summary** of the calculations for the advance request, **click** on the **Calculations** tab.

Remit To	Entitlements	Calculations	Financial	Remarks

<Back Next>

CLICK OR TAB TO THE ADVANCE BOX TO APPLY ADVANCES

Note: At this tab, a **summary** of the **calculations** is displayed by expense category. In the **%Adv** column, a **percentage** is shown that **corresponds** to the percentage **established** at the **TDY, MILPCS, or CIVPCS Parameters** tabs on the **Maintain Advance Percents** screen in the **IATS Maintenance** module. This **establishes** a **limit** that may be advanced to the traveler for a particular **expense category**. The **Total** column reflects the **amount** that may be advanced after the **limitation** is applied.

 Use the following steps to "complete" the Advance Calculations tab:

1. **Computed Advance:** - This field shows the total amount computed based on the entries made in the Itinerary and at the Reimbursables tab.
2. **Authorized Advance:** - **Click** in this field, and **type** the **amount** to be paid to the traveler. The amount entered cannot exceed the amount shown at the **Computed Advance** field.
3. After completing the **Calculations** tab, **click** on **Next** button or the **Financial** tab to proceed with the accounting lines.

Refer to the **Help** topic, "[Financial - tab](#)", for additional instructions.

Financial - tab

The **Financial tab** is used to specify the **method of payment**, a **split payment** amount, and to add the **accounting** information.

Remit To	Adv/Acctl	Entitlements	Calculations	Financial	Remarks
Method of Payment: <input type="text" value="EFT"/>		Computed Split: <input type="text" value="\$396.00"/>		<input type="checkbox"/> Release Obligation	
Due Traveler: <input type="text" value="\$381.82"/>		Split Payment: <input type="text" value="\$500.00"/>		<input type="checkbox"/> Apply 100% to Split	
Db/Cr	Classification				Amount
Db	111111 21 9 2020 0000 76 2016 P810000000 21T2 000000 SMI1111TJSPLIT S12345				\$881.82
<input style="margin-right: 10px;" type="button" value=" <Back "/> <input style="margin-right: 10px;" type="button" value=" Next > "/> <input style="float: right;" type="button" value=" Modify Accounting "/>					

 Use the following steps to "complete" the Financial tab:

- Method of Payment:** - The default value is **EFT** if the traveler's account is active for EFT payments. If you wish to choose a different method of payment, **click** on the down arrow button to display a list of payment options and then **click** on the desired method.
- Computed Split:** - The amount displayed at the Computed Split field is a **combination** of the **Lodging** expense entered into the itinerary and the **reimbursable expense items** entered at the Reimbursables tab that were **selected** for a **split** payment. If you **double click** in the Computed Split field, the **Split Payment** field will be **populated** with the computed amount.
- Split Payment:** - If not already **populated** by double clicking in the **Computed Split** field, **click** in this field and **type** the dollar **amount** specified by the traveler to be **sent directly** to the **company** providing the **Government Credit Card**. This option is only available if the **method** of payment is **EFT**.

Note: When the **EFT information** is **blank** or only the **IBAN information** is populated on the traveler profile, and the **GTCC number** is **populated**, IATS users can select **Check** or **EFT** as the "**Method of Payment**". If **Check** is selected no split payment is **allowed**. If **EFT** is selected however, IATS automatically sends the entire amount to the **GTCC** and you cannot **change** the split amount in this case.

- Release Obligation:** - If a **Transportation Request** was issued for the performed travel, a charge may still be pending for payment of the transportation, and the funds should not be de-obligated. If the travel was not performed by **government procured transportation**, however, **click** in this **box** to send a code to the accounting system that will allow the obligation to be **released**.
- Apply 100% to Split:** - When this check box is **checked**, IATS will **apply** the whole amount due the traveler to the **company** providing the **Government Credit Card**. **Note** that this **check box** is only **visible** and **applicable** to **TPAX** users.
- Modify Accounting:** - **Click** this button to access the **Accounting** screen and enter the accounting information.
- After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **Save** button.

Remarks - tab

After adding the accounting lines to a **Request for Settlement** or **Advance**, the user may want to add some optional **Remarks** to the printed **travel voucher**, the **traveler's historical record**, or **both**.

 Use the following steps to "complete" the Remarks tab:

1. **Click** on the **Remarks** tab. The following screen appears:

2. **Remarks in History:** If wishing to add remarks to the traveler's historical record, **click** in this **box** and **type** the desired remarks.
3. **Remarks on Voucher:** If wishing to add remarks to the traveler's printed voucher, **click** in this **box** and **type** the desired remarks.
4. **Copy:** Clicking on the **Copy** button will **copy** the remarks from the **Remarks in History** text box to the **Remarks on Voucher** text box.
5. If you wish to add a standard remark from the Standard Voucher Remarks table, **click** on the **Get Std. Voucher Remarks** button. The **Standard Voucher Remarks** screen appears.

Standard Voucher Remarks

Standard Voucher Remarks

TVS Advance

Please sign claim and return to this office.

Please attach travel orders and return claim to this office.

Select the Standard Voucher Remark to Modify or Delete

6. At the Standard Voucher Remarks screen, **click** on the *down arrow* to display a **list** of remarks and then **click** on the desired **remark**. The selected remark will be displayed in the **Remarks in History** text box. If you are satisfied with the remark, **click** on OK.
7. **Repeat** steps 5 and 6 if you wish to add additional standard **remarks**.
8. When **finished** adding remarks, **click** on the **Save** button to **save** the entries.

MILPCS Advance Requests

Processing MILPCS Advance Requests

 Complete the following steps to "process" a MILPCS Advance Request :

1. Login to IATS in the **Examiner** View mode or **change** the View to Examiner, if necessary.
2. **Select** a block through one of the following methods:
 - **Method 1:** - Click the [Grab Blocks](#) button and select a block from the **Logged** Pool.
 - **Method 2:** - **Double click** on the desired block listed under the **To Do** section or by **clicking** on the block **once** and then **clicking** the **Process Block** button.
 - **Method 3:** - Click on the **New Block** button and [create a new block](#).

Note: After selecting a block using one of the (3) methods listed above, the **Request Selection** screen appears. At this screen, any **request for advance** already **logged** to the block is listed under the **Select Request(s)** section.

3. At the **Request Selection** screen, **select** a request through one of the following methods:
 - **Method 1:** - **Double click** on the desired request.
 - **Method 2:** - Click on the request **once** and then **click** the **View/Modify** button.
 - **Method 3:** - Click on the **New** button.

Note: If the **New** button is clicked, the **Select Traveler** screen appears. At this screen the Examiner must [select](#) or [create](#) the traveler's **account** and [select](#) or [create](#) a new **travel order**. After selecting or creating the travel order, the **Advance Request** screen appears.

4. After selecting a request using one of the methods listed above, the **Advance Request** screen appears.

5. **Refer** to the **Help** topic, "[Completing the MILPCS Advance Request for Settlement Screen](#)", for additional instructions.

Completing the MILPCS Advance Request for Settlement Screen

After selecting an advance request, the **Advance Request** screen appears. This screen is used to capture the details from the **advance request** submitted by the customer.

Use the following steps to "complete" the MILPCS Advance Request screen:

1. **Address:** When the **Advance Request** screen appears, the **Remit To** tab is displayed. At this tab, the traveler's address defaults from the address entered at the **Traveler Profile** screen when the traveler's profile was created. **Compare** this address to the address appearing on the Request for Advance submitted by the traveler and make any necessary changes. If the IATS user **changes** the **Remit To** address at this tab, the **change** will appear with a **red** background.

Note: Any changes made to the address at the **Remit To** tab will only affect the advance being processed. A **permanent** address **change** must be made at the **Traveler Profile** screen.

2. After verifying the address at the **Remit To** tab, **click** on the **Entitlements** tab or the **Next** button to proceed.

Refer to the **Help** topic, "[MILPCS Advance Entitlements - tab](#)", for additional instructions.

MILPCS Advance Entitlements - tab

The **Entitlements** tab is the beginning point for **capturing** the specific **details** pertaining to what is authorized on the travel order in regards to the authorized PCS expenses, **transportation** allowances, **itinerary** for the trip, and any **reimbursable expenses**.

 Use the following steps to "complete" the MILPCS Advance Entitlements tab:

Note: In order to maintain the integrity of the suspense file, do not compute, enter, or process more than one DLA advance for the same travel order.

1. **Precomputed:** Under the heading "Types of Entitlements Claimed", click in this box if you do not want to use IATS to **compute** the amount for the advance. If this option is used, you are **required to enter** a pre-determined amount to be paid.
2. **Add Expense button:** Click on this button to **select** the types of **expenses** the advance is requested for. A **menu** appears and displays the **expenses** that were **authorized** when the travel order was created.
3. **Following**, is a list of possible **MILPCS Advance** expense **types** and a **link** to additional **instructions** for processing each particular expense type:
 - **Enroute:** If the user **clicks** on the **Enroute** option, the **What's Authorized** tab appears and the user must specify **who is traveling** and **how many cars** will be used. **Refer** to the **Help** topic, "[PCS Advance What's Authorized - tab](#)", for additional instructions.
 - **TLE:** If the user **clicks** on the **TLE** option, the **Temporary Lodging Entitlement** screen appears and the user must **complete** this screen to **specify** the anticipated **TLE** expenses. **Refer** to the **Help** topic, "[Completing the TLE Screen](#)", for additional instructions.
 - **DLA:** If the user **clicks** on the **DLA** option, IATS automatically **calculates** the advance Dislocation Allowance **payment**. Do not process more than one DLA advance for the same travel order.

- **PCS DITY:** If the user **clicks** on the **PCS DITY** option, the **DITY Advance** screen appears and the user must **enter** the **amount** to be advanced for the DITY move. Refer to the **Help** topic, "[Completing the DITY Advance screen](#)", for additional instructions.
- 4. **Click** on the desired **expense** type and **complete** the associated input **screen** to **calculate** the advance **entitlement** for the selected expense.
- 5. When **finished** adding expenses, **proceed** to the [Calculations](#), [Financial](#), and [Remarks](#) **tabs** to **finish** processing the advance.

PCS Advance What's Authorized - tab

After **clicking** on the **Add Expense** and **selecting** the **Enroute** option at the **Entitlements** tab, the **What's Authorized** tab appears. At the **What's Authorized** tab, the user **must specify** that the traveler **is** the **owner/operator** of the **POV**, the **number of cars** used, and **which travelers are** to be **included** in the advance calculation.

 Use the following steps to "complete" the PCS Advance What's Authorized tab:

1. **Owner/Operator of POV:** - At this field, **click** in the box **if** the traveler **was** the **owner** and **operator** of the **POV** used in the performance of the trip.
2. **No MALT:** **Click** in the **check box** to **activate** this option if **no MALT** should be paid.
3. **Number of Cars:** - At this field, **type** the **number** representing how many **POV's** are to be **used** in the **calculation** of the advance.
4. **Who is being paid:** - At this section, the user **must specify which** of the listed **travelers** are to be **included** in the **calculation** of the advance. **If all** of the listed **traveler's** should be included, **click** on the **Select All** button. **If not**, **click** on the **desired name**.

Tip: Multiple traveler's may be **selected** by **pressing** and **holding** the *Shift* key and then **clicking** on the desired **names**.

5. After completing this tab, the user must then **click** on the **Expected Itinerary** tab or **click** on the **Next** button to continue.

Refer to the **Help** topic, "[Expected Itinerary tab](#)", for additional instructions.

Expected Itinerary - tab

The **Expected Itinerary** tab is used to **capture** the anticipated details for the trip itinerary. While completing this screen, refer to the **prompt line** at the bottom of the screen. The prompt line will **explain** what **information** is requested at each input field.

What's Authorized Expected Itinerary Reimbursables

Back Next Duplicate Previous Insert Leg Delete Leg Clear Completed

 Use the following steps to "complete" the Expected Itinerary tab:

- Expected Duration:** - At this field, **click** on the *down arrow*. A drop down **listing** of trip **durations** appears. **Refer** to the **DD Form 1351-2** submitted by the traveler to determine the duration and then **click** the correct choice.
- Depart Date:** - The departure date on the first line of the itinerary automatically **defaults** from the **Begin Date** entered when the travel order was created. **Press Tab** to continue or **type** a different date, in **MMDDYY** format, if necessary. You may also **click** on the *down arrow* button and use the **calendar** to select the date.
- Depart Location:** - At this field, the **Location Selection** screen automatically appears. At the **State/Country** field, **type** the first two letters of the state or country name. If necessary, **click** the *Up/Dn arrows* until the desired name is displayed. **Click** on the highlighted name or **press Tab** to make the selection.
- At the **City / Zip Code** field, type the zip code or the first two letters of the **city name**. This displays a **listing** of city/locality names, for the previously selected state or country, beginning with those letters or zip code. **Use** the **procedures** described in step (3) above to make the selection.

Tip: If the traveler is departing from an **OCONUS** location, **click** in the **Locality** field and **use** the **procedures** described in step (3) above to make the **Locality** selection.

- When the correct **State/Country** and **City/Locality** is selected, **click** on the **DTOD** button **if** you wish to have IATS **look-up** and **automatically populate** the **Miles** field in the **itinerary** with the **official distance** from the Defense Official Table of Distances.
- If** you wish to **by-pass** the **DTOD Location** screen **click** the **OK** button or **press Tab** to continue.
- Transportation:** - If the correct code for the mode of transportation is not displayed, **click** on the *down arrow* button to display a list of transportation modes. **Click** on the correct mode to make a selection.

8. **Local?:** - When the mode **PA** is selected for the transportation, a **prompt** asking if travel was to/from a **local** transportation terminal appears. If so, **click** in this box. If not, **press Tab** to continue.
9. **Arrival Date:** - The date at the previous **Departure Date** field **defaults** to the Arrival Date field. Press **Tab** to accept this date or **type** a new date, in **MMDDYY** format, if necessary. You may also **click** on the **down arrow** button and use the **calendar** to select the date.
10. **Arrive Location:** - This is the **location** where the traveler stops to perform official duty, change modes of transportation, or to rest overnight. Use the **same method** explained at the **Depart Location** field to **select** the **arrival** and **DTOD** locations.
11. **Reason for Stop:** - The **default** value for this field is **TD - Temporary Duty**. Press **Tab** if this is correct. If not, **click** on the **down arrow** button to display a list of reasons for stop. **Click** on the correct reason to make a selection.

Click on the **definitions** button below for an **explanation** of the various reason for stop codes.

12. **Duty Day:** - A **check mark** automatically **defaults** to this field. If this day is an official day of duty, **press Tab** to continue. If this day is not an official day of duty, however, **click** this box to **remove** the check mark.
13. **OMN:** - This option is for **Navy** users. **Click** in the **check box** to **activate** this option if **OMN funding should be used** for the trip.
14. **Method:** - The **default** value for this field is **LDP - Lodgings Plus**. Press **Tab** if this is correct. If not, **click** the **down arrow** button to display a list of methods of reimbursement. **Click** on the correct method to make a selection.
15. **Lodging:** - At the **Lodging** field, when completing the Expected Itinerary tab, a **drop down listing** of various lodging types appears. **Click** on the correct type to make a selection.
16. **Meals:** - At the **Meals** field, when completing the Expected Itinerary tab, a **drop down listing** of various meal types appears. **Click** on the correct type to make a selection.
17. **AE %:** - At this field, **type** the **percentage rate** to be used if **Actual Expenses** was **approved** in the travel orders.
18. **Lodging Cost:** - **Enter** the **dollar amount** for the daily lodging cost.
19. **Taxes:** If the TDY location is within CONUS, Alaska, Hawaii, or a US territory, the user is prompted to **enter** the daily lodging **taxes** amount. IATS will automatically reduce the taxes by the appropriate percentage when the claimed amount for **lodging** exceeds the authorized amount. If these taxes are entered into the **itinerary**, do not enter them again at the **Reimbursables** tab. The amount calculated for the taxes will appear on the **Calculations** tab after the trip has been completely entered.
20. **Miles:** - If not automatically populated by the **DTOD** look-up feature, **type** the number of **miles** claimed by the traveler if a privately owned vehicle was used.

Note: Use the procedures previously explained to complete the **return** travel leg or **additional travel legs** for the itinerary. When **finished** with the itinerary, **click** on the **Completed** button. The **Reimbursables** tab appears next.

Refer to the **Help** topics, "[TDY Advance Reimbursables - tab](#)" or "[PCS Advance Reimbursables - tab](#)", for additional instructions.

PCS Advance Reimbursables - tab

This screen is where IATS users enter the traveler's **reimbursable expenses** associated with the PCS Advance Request.

Nature of Expense	Amount	Dependent?
ATM ADVANCE EXPENSE	10.00	<input type="checkbox"/>
TOLLS	0.00	<input type="checkbox"/>
TAXI/LIMO OTHER		<input type="checkbox"/>
TAXI/LIMO TO AIRPORT		<input type="checkbox"/>
TAXI/LIMO TO LODGING FROM DUTY		<input type="checkbox"/>
TELEPHONE CALLS LOCAL		<input type="checkbox"/>
TELEPHONE CALLS LONG DISTANCE		<input type="checkbox"/>
TIP TO DRIVER OF COURTESY-FREE SHUTTLE		<input type="checkbox"/>
TOLLS		<input type="checkbox"/>
TRAINFARE		<input type="checkbox"/>

Use the following steps to "complete" the PCS Advance Reimbursables tab:

1. **Nature of Expense:** At this field, click on the down arrow button to display a drop down **listing** of the common expenses that have been entered into the **Reimbursable Descriptions** table in the IATS **Maintenance** module. **Click** the **Up/Dn arrows** until the desired expense item is displayed. If the user **types** the **first letter** of the description, IATS **scrolls** the listing until locating the first item beginning with this letter. The user may then use the **Up/Dn arrows** to display the exact item. Once the correct item is displayed, **click** on this item to make a selection. If the expense claimed by the traveler is not listed, simply **type** the description in this field and **press Tab**.
2. **Amount :** At this field, **type** the **dollar amount** anticipated by the traveler.
3. **Dependent:** **Click** in the **box** in this field if the entered expense is associated with a **dependent**.
4. When **finished** entering the anticipated expenses, **click** the **OK** button. IATS **returns** to the **Advance Request** screen.
5. At this screen, **click** on the **Calculations** tab to **review** the calculated **amount** and to **specify** the **amount** to be **paid** to the traveler.

Refer to the **Help** topic, "[Advance Calculations - tab](#)", for additional instructions.

PCS Advance Calculations - tab

After completing the **Reimbursables** tab, IATS returns to the **Request for an Advance Against an Order** screen. To **view** a summary of the calculations for the advance request, **click** on the **Calculations** tab.

Remit To	Entitlements	Calculations	Financial	Remarks																				
<table border="1"> <thead> <tr> <th>Description</th> <th>Computed</th> <th>% Adv.</th> <th>Total</th> </tr> </thead> <tbody> <tr> <td>Flat Per Diem</td> <td>\$453.00</td> <td>100.00</td> <td>\$453.00</td> </tr> <tr> <td>Memb/Emp Reimbursables</td> <td>\$30.00</td> <td>100.00</td> <td>\$30.00</td> </tr> <tr> <td>Memb/Emp MALT</td> <td>\$167.36</td> <td>100.00</td> <td>\$167.36</td> </tr> <tr> <td>Dep Per Diem</td> <td>\$339.75</td> <td>100.00</td> <td>\$339.75</td> </tr> </tbody> </table>					Description	Computed	% Adv. <Back Next>

Note: At this tab, a **summary** of the **calculations** is displayed by expense category. In the **%Adv** column, a **percentage** is shown that **corresponds** to the percentage **established** at the **TDY, MILPCS, or CIVPCS Parameters** tabs on the **Maintain Advance Percents** screen in the **IATS Maintenance** module. This **establishes** a **limit** that may be advanced to the traveler for a particular expense **category**. The **Total** column reflects the **amount** that may be advanced after the **limitation** is **applied**.

 Use the following steps to "complete" the Advance Calculations tab:

1. **Computed Advance:** - The **amount** shown at this field represents the **total amount** calculated by IATS that is **allowed** to be paid.
2. **Date Advance Due:** - The current date defaults to this field. If this date is **correct**, no action is necessary. If not, **click** in this field and **type** the desired date in **MMDDYY** format. You can also **click** on the *down arrow* button and use the **calendar** to select the date.
3. **Advance Authorized:** - **Click** in this field, and the **Allocate PCS Advance** screen appears.

Enter amount to be applied

- At this screen, the **amount** calculated by IATS for the particular entitlement **appears** in the **Computed** field. Users **must** **click** in the **Given** field, for each entitlement being advanced, and **type the amount to be paid**.

Tip: Users can **apply all** of the **calculated amounts** simply by **clicking** on the **Default** button.

- After applying all of the desired amounts, **click** on the **OK** button.
- After completing the **Calculations** tab, **click** on **Next** button or the **Financial** tab to proceed with the accounting lines.

Refer to the **Help** topic, "[Financial - tab](#)", for additional instructions.

Financial - tab

The **Financial tab** is used to specify the **method of payment**, a **split payment** amount, and to add the **accounting** information.

Remit To	Adv/Acctl	Entitlements	Calculations	Financial	Remarks	
Method of Payment		EFT		Computed Split:	\$396.00	<input type="checkbox"/> Release Obligation
Due Traveler:		\$381.82		Split Payment:	\$500.00	<input type="checkbox"/> Apply 100% to Split
Db/Cr	Classification					Amount
Db	111111 21 9 2020 0000 76 2016 P810000000 21T2 000000 SMI1111TJSPLIT S12345					\$881.82
<input style="border: none;" type="button" value=" <Back "/> <input style="border: none;" type="button" value=" Next > "/> <input style="border: none;" type="button" value=" Modify Accounting "/>						

 Use the following steps to "complete" the Financial tab:

- Method of Payment:** - The default value is **EFT** if the traveler's account is active for EFT payments. If you wish to choose a different method of payment, **click** on the down arrow button to display a list of payment options and then **click** on the desired method.
- Computed Split:** - The amount displayed at the Computed Split field is a **combination** of the **Lodging** expense entered into the itinerary and the **reimbursable expense items** entered at the Reimbursables tab that were **selected** for a **split** payment. If you **double click** in the Computed Split field, the **Split Payment** field will be **populated** with the computed amount.
- Split Payment:** - If not already **populated** by double clicking in the **Computed Split** field, **click** in this field and **type** the dollar **amount** specified by the traveler to be **sent directly** to the **company** providing the **Government Credit Card**. This option is only available if the **method** of payment is **EFT**.

Note: When the **EFT information** is **blank** or only the **IBAN information** is populated on the traveler profile, and the **GTCC number** is **populated**, IATS users can select **Check** or **EFT** as the "**Method of Payment**". If **Check** is selected no split payment is **allowed**. If **EFT** is selected however, IATS automatically sends the entire amount to the **GTCC** and you cannot **change** the split amount in this case.

- Release Obligation:** - If a **Transportation Request** was issued for the performed travel, a charge may still be pending for payment of the transportation, and the funds should not be de-obligated. If the travel was not performed by **government procured transportation**, however, **click** in this **box** to send a code to the accounting system that will allow the obligation to be **released**.
- Apply 100% to Split:** - When this check box is **checked**, IATS will **apply** the whole amount due the traveler to the **company** providing the **Government Credit Card**. **Note** that this **check box** is only **visible** and **applicable** to **TPAX** users.
- Modify Accounting:** - **Click** this button to access the **Accounting** screen and enter the accounting information.
- After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **Save** button.

Remarks - tab

After adding the accounting lines to a **Request for Settlement** or **Advance**, the user may want to add some optional **Remarks** to the printed **travel voucher**, the **traveler's historical record**, or **both**.

 Use the following steps to "complete" the Remarks tab:

1. **Click** on the **Remarks** tab. The following screen appears:

The screenshot displays the 'Remarks' tab interface. At the top, a navigation bar contains tabs for 'Remit To', 'Entitlements', 'Calculations', 'Financial', and 'Remarks'. Below this, there are two text input areas. The first is labeled 'Remarks in History' and the second is labeled 'Remarks on Voucher'. Both input areas contain the placeholder text 'Don't spend it all in one place.'. At the bottom of the interface, there are four buttons: '<Back', 'Next>', 'Get Std. Voucher Remarks', and 'Copy'.

2. **Remarks in History:** If wishing to add remarks to the traveler's historical record, **click** in this **box** and **type** the desired remarks.
3. **Remarks on Voucher:** If wishing to add remarks to the traveler's printed voucher, **click** in this **box** and **type** the desired remarks.
4. **Copy:** Clicking on the **Copy** button will **copy** the remarks from the **Remarks in History** text box to the **Remarks on Voucher** text box.
5. If you wish to add a standard remark from the Standard Voucher Remarks table, **click** on the **Get Std. Voucher Remarks** button. The **Standard Voucher Remarks** screen appears.

Standard Voucher Remarks

OK Cancel ? Help

Select the Standard Voucher Remark to Modify or Delete

6. At the Standard Voucher Remarks screen, **click** on the *down arrow* to display a **list** of remarks and then **click** on the desired **remark**. The selected remark will be displayed in the **Remarks in History** text box. If you are satisfied with the remark, **click** on OK.
7. **Repeat** steps 5 and 6 if you wish to add additional standard **remarks**.
8. When **finished** adding remarks, **click** on the **Save** button to **save** the entries.

Completing the TLE Screen

Temporary Lodging Expense (TLE) is payable to a **member** (and the member's **dependents**) when **temporary lodging** is obtained during **PCS** travel. The purpose of these allowances is to **offset** the **additional expenses** incurred when the member must obtain temporary lodging **prior** to **departing** the **old PDS**, as well as after **arriving** at the **new PDS**.

TLE is **not payable** on **any day** the member or dependents are **receiving per diem**. In addition, both allowances are subject to the limitations prescribed in the JFTR.

Many finance offices pay TLE allowances in the pay section rather than the travel section.

To allow services to pay this expense as a travel entitlement, IATS was programmed to calculate and pay this entitlement.

Other Insert TLE Delete TLE OK Cancel ? Help

Enter date for which TLE is being claimed

Use the following steps to "complete" the TLE screen:

1. **Date:** At this field, **type** the **date** in **MMDDYY** format for the **first day** of the TLE **period**.
2. **Location:** At this field, the **Location Selection** screen automatically appears. At the **State/Country** field, **type** the first **two** letters of the state or country name. If the correct name appears, press **tab** to continue. You can also **click** on the **down arrow** button to display a **list** of State/country names that begin with the letters you entered. **Click** on the desired **state/country name** to make a selection.
3. At the **City** field, type the first **two** letters of the city name and then **click** on the **down arrow** button to display a list of city names that begin with the letters you entered. **Click** on the desired **city name** to make a selection.. You can also **enter** the **zip code** for the city **instead**.
4. When the correct state/country and city name has been selected, **click** on **OK**.
5. **Who's being paid:** At this field, a **drop down listing** appears displaying the **member** and any **dependents** entered when the travel order was created. **Click** on the desired **names** to make a selection. After selecting the travelers **press Tab** to continue.

Tip: Multiple traveler's may be selected by pressing and holding the *Shift* key and then clicking on the desired names. You can also click on the **Select All** button if you wish to select all of the listed names and then click on the **Apply** button.

- Lodging:** At this field, type the total daily lodging costs incurred and press *Tab*.
- BAH:** - If the TLE claim is for **Emergency TLE** and the **check box** for **BAH Paid** is checked on the **What's Authorized** tab on the Travel Order screen, the **BAH** field will appear on the **Temporary Lodging Entitlement** screen. At the **BAH** field, you must enter the monthly amount payable for BAH for the **TLE location**. IATS will then **divide** that amount **by 30** and **reduce the lodging** by that amount when **computing** the payment. The **reduction** will be **displayed** on the **TLE Expenses** screen if you click on the **Show Calcs** button at the **Entitlements** tab on the **Settlement Request** screen.

Other Auditor Remarks OK ? Help

- After entering the lodging or BAH amount and pressing *Tab*, IATS automatically displays the **next consecutive date**. If TLE expenses are **applicable** for that day, simply **press Tab**, or **type the correct date** if another date is desired.

Note: IATS automatically populates each field with the same information entered on the previous day. If this information is correct, **press Tab** to continue, or **make the desired changes**.

- When **finished** making the required entries at the TLE screen, **click the OK** button. IATS returns to the **Settlement or Advance Request** screen.

Completing the DITY Advance screen

Service **members** who are **authorized** to personally **move** their **household goods** are entitled to receive an **advance** payment of the entitlements to **assist** with the **rental** of a moving vehicle and the **purchase** of packing **supplies**. The **DITY Advance** screen is used for this purpose.

The screenshot shows a window titled "DITY Advance". At the top left, there is a button labeled "JONES, DEVIN G". At the top right, there is a button labeled "TONO: PCSADV1". In the center, the text "Amount to be advanced for DITY move" is followed by a text input field containing "\$1,000.00". At the bottom left, there is a button labeled "Other". At the bottom center, there is a button labeled "OK" which is highlighted with a blue border. To the right of the "OK" button are two more buttons: "Cancel" and "? Help". At the very bottom of the window, there is a footer text that says "Click this button to save information" followed by a small icon.

At this screen, **type** the pre-computed dollar **amount** for the DITY advance at the **Amount to be advanced for DITY Move field** and **press** *Tab*.

After entering the advance amount, **click** on the **OK** button to **save** the entry.

Navy MILPCS Advance Requests

Navy MILPCS Advance Requests - Overview

A feature has been added to IATS for Navy customers computing **MILPCS Advance Requests**. This feature allows the customer to process a MILPCS Advance Request as either a **Full Advance** or as a **Partial Advance**.

This new feature was added to accommodate **long term TDY** situations **in conjunction with PCS** travel. Under this circumstance, travelers are paid an advance of their TDY entitlements on **30 day increments**.

Using this feature to pay partial advances, IATS allows the user to process an advance for the **beginning** period, **middle** periods, and an **ending** period.

Click on the **See Also** button below for additional information on processing Partial Advances.

Beginning Partial Advance

Navy Travelers performing long term TDY in conjunction with PCS travel are paid an advance of their TDY entitlements on **30 day increments**.

IATS allows the user to process an advance for the **beginning** period, **middle** periods, and an **ending** period.

 Complete the following steps to "enter" a beginning partial advance:

1. **Type of Advance:** - At this field, **click** on the **down arrow** button to **display** the **list** of settlement **types** and then **click** on **Partial**.
2. **Type of Partial:** - At this field, **click** on the **down arrow** button to **display** the **list** of partial **types** and then **click** on **Beginning**.

The next key **requirement** for processing a **beginning partial advance** occurs at the **Expected Itinerary** tab. At this tab, the user must **specify** the **Pay To** period.

Date	Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	Who Else			
								AE %	Lodging	Taxes	Miles
08/09/2021	Norfolk, VA, Norfolk	CP	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>				
08/09/2021	San Diego, San Diego, CALIFORNIA	TD	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	LDP	GQ1	WDGM	0.00	\$45.00	\$0.00	0
09/08/2021	San Diego, San Diego, CALIFORNIA		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>				
09/08/2021	San Diego, San Diego, CALIFORNIA	MC	<input type="checkbox"/>	<input type="checkbox"/>				0.00	\$0.00	\$0.00	0

3. **Pay To:** - At this field, **type** the end of the beginning partial period in **MMDDYY** format. You can also **click** on the **down arrow** button and use the **calendar** to select the date.
4. Complete the **itinerary** as usual.

Note: The user will **notice** that IATS **automatically populates** the **Reason** field with **MC** to indicate the end of the payment **period**. In addition, on the last line of the itinerary the **column** that is normally populated with Arrive (**ARR**) now shows **CONT**. This **indicates** that this is the end of this **period** and an additional period is **pending**.

5. **Finish** processing the request for advance as usual.
Click on the **See Also** button below and **select** the particular **topic** for additional information on working with Partial Advances.

Middle Partial Advance

Navy Travelers performing long term TDY in conjunction with PCS travel are paid an advance of their TDY entitlements on **30 day increments**.

IATS allows the user to process an advance for the **beginning** period, **middle** periods, and an **ending** period.

 **Complete the following steps to "enter" a middle partial advance:**

1. **Type of Advance:** - At this field, **click** on the *down arrow* button to **display** the **list** of settlement **types** and then **click** on **Partial**.
2. **Type of Partial:** - At this field, **click** on the *down arrow* button to **display** the **list** of partial **types** and then **click** on **Middle**.

The next key **requirement** for processing a **middle partial advance** occurs at the **Expected Itinerary** tab. At this tab, the user must **specify** the **Pay From/To** period.

Date	Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	AE %	Who Else Lodging	Taxes	Miles
08/09/2021	San Diego, San Diego, CALIFORNIA	CS	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>				
09/09/2021	San Diego, San Diego, CALIFORNIA	TD	<input checked="" type="checkbox"/>	<input type="checkbox"/>	LDP	GQ1	WDGM	0.00	\$45.00	\$0.00	0
10/09/2021	San Diego, San Diego, CALIFORNIA		<input type="checkbox"/>	<input type="checkbox"/>							
10/09/2021	San Diego, San Diego, CALIFORNIA	MC	<input type="checkbox"/>	<input type="checkbox"/>				0.00	\$0.00	\$0.00	0

3. **Pay From:** - At this field, **type** the beginning of the middle partial period in **MMDDYY** format. You can also **click** on the *down arrow* button and use the **calendar** to select the date.
4. **Pay To:** - At this field, **type** the end of the middle partial period in **MMDDYY** format. You can also **click** on the *down arrow* button and use the **calendar** to select the date.
5. **Date:** - The **date** on the 1st line of the itinerary defaults to the **date** the traveler initially arrived at the TDY location. Ensure that this **date** is not changed.

6. On the second line of the itinerary, **type** the **date** for the beginning of the middle partial period in **MMDDYY** format. You can also **click** on the *down arrow* button and use the **calendar** to select the date.
7. Complete the **itinerary** as usual.

Note: The user will **notice** that IATS automatically populates the **Reason** field with **MC** to indicate the end of the payment **period**. In addition, on the last line of the itinerary the **column** that is normally populated with Arrive (**ARR**) now shows **CON**. This **indicates** that this is the end of this **period** and an additional period is **pending**.

8. **Finish** processing the request for advance as usual.

Click on the **See Also** button below and **select** the particular **topic** for additional information on working with Partial Advances.

Ending Partial Advance

Navy Travelers performing long term TDY in conjunction with PCS travel are paid an advance of their TDY entitlements on **30 day increments**.

IATS allows the user to process an advance for the **beginning** period, **middle** periods, and an **ending** period.

 **Complete the following steps to "enter" an ending partial advance:**

1. **Type of Advance:** - At this field, **click** on the **down arrow** button to **display** the **list** of settlement **types** and then **click** on **Partial**.
2. **Type of Partial:** - At this field, **click** on the **down arrow** button to **display** the **list** of partial **types** and then **click** on **Ending**.

The next key **requirement** for processing an **ending partial advance** occurs at the **Expected Itinerary** tab. At this tab, the user must **specify** the **Pay From** period.

Date		Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	AE %	Who Else		
										Lodging	Taxes	Miles
08/09/2021	DEP	San Diego, San Diego, CALIFORNIA	CS	<input type="checkbox"/>		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>				
10/10/2021	ARR	San Diego, San Diego, CALIFORNIA	TD	<input checked="" type="checkbox"/>	<input type="checkbox"/>	LDP	GQ1	WDGM	0.00	\$45.00	\$0.00	0

3. **Pay From:** - At this field, **type** the beginning of the ending partial period in **MMDDYY** format. You can also **click** on the **down arrow** button and use the **calendar** to select the date.
4. **Date:** - The **date** on the **1st line** of the **itinerary defaults** to the **date** the traveler initially arrived at the **TDY location**. Ensure that this **date** is not changed.
5. Complete the **itinerary** as usual.
6. **Finish** processing the request for advance as usual.

CIVPCS Advance Requests

Processing CIVPCS Advance Requests

 Complete the following steps to "process" a CIVPCS Advance Request :

1. Login to IATS in the **Examiner** View mode or **change** the View to Examiner, if necessary.
2. **Select** a block through one of the following methods:
 - **Method 1:** - Click the [Grab Blocks](#) button and select a block from the **Logged** Pool.
 - **Method 2:** - **Double click** on the desired block listed under the **To Do** section or by **clicking** on the block **once** and then **clicking** the **Process Block** button.
 - **Method 3:** - Click on the **New Block** button and [create a new block](#).

Note: After selecting a block using one of the (3) methods listed above, the **Request Selection** screen appears. At this screen, any **request for advance** already **logged** to the block is listed under the **Select Request(s)** section.

3. At the **Request Selection** screen, **select** a request through one of the following methods:
 - **Method 1:** - **Double click** on the desired request.
 - **Method 2:** - Click on the request **once** and then **click** the **View/Modify** button.
 - **Method 3:** - Click on the **New** button.

Note: If the **New** button is clicked, the **Select Traveler** screen appears. At this screen the Examiner must [select](#) or [create](#) the traveler's **account** and [select](#) or [create](#) a new **travel order**. After selecting or creating the travel order, the **Advance Request** screen appears.

4. After selecting a request using one of the methods listed above, the **Advance Request** screen appears.

5. **Refer** to the **Help** topic, "[Completing the CIVPCS Advance Request for Settlement Screen](#)", for additional instructions.

Completing the CIVPCS Advance Request for Settlement Screen

After selecting an advance request, the **Advance Request** screen appears. This screen is used to capture the details from the **advance request** submitted by the customer.

The screenshot displays the 'Advance Request' screen for 'ARNOLD, TOMMY G. C.' with a warning 'Warning - Incomplete Claim Exists'. The 'Request Type' is 'Advance' and the 'Type of Advance' is 'Partial Advance'. The 'Remit To' tab is active, showing an address form with the following fields: Line 1 (111 S NORTH ST), Line 2, City (INDIANAPOLIS), Country/State (IN INDIANA), and Zip Code (46236). There is an 'Update Traveler' button and navigation buttons '<Back' and 'Next>'. At the bottom, there are buttons for 'Receipts...', 'Other...', 'SAVE', 'Cancel', and '? Help'. A status bar at the bottom reads 'Enter the first line of the traveler's address'.

Use the following steps to "complete" the CIVPCS Advance Request screen:

1. **Address:** When the **Advance Request** screen appears, the **Remit To** tab is displayed. At this tab, the traveler's address defaults from the address entered at the **Traveler Profile** screen when the traveler's profile was created. Compare this address to the address appearing on the Request for Advance submitted by the traveler and make any necessary changes. If the IATS user **changes** the **Remit To** address at this tab, the **change** will appear with a **red** background.

Note: Any changes made to the address at the **Remit To** tab will only affect the advance being processed. A **permanent** address **change** must be made at the **Traveler Profile** screen.

2. After verifying the address at the **Remit To** tab, **click** on the **Entitlements** tab or the **Next** button to proceed.

Refer to the **Help** topic, "[CIVPCS Advance Entitlements - tab](#)", for additional instructions.

CIVPCS Advance Entitlements - tab

The **Entitlements** tab is the beginning point for **capturing** the specific **details** pertaining to what is authorized on the travel order in regards to the authorized PCS expenses, **transportation** allowances, **itinerary** for the trip, and any **reimbursable expenses**.

Use the following steps to "complete" the CIVPCS Advance Entitlements tab:

1. **Travel Not Performed:** Under the heading "**Types of Entitlements Claimed**", **click** in this box if the trip was not performed and you wish to generate a **zero dollar transaction**. This transaction is then **transmitted** to the **accounting system** to **de-obligate** the **funds** set aside for the travel order.
2. **Add Expense button:** **Click** on this button to **select** the types of **expenses** the advance is requested for. A drop down listing appears and displays the **expenses** that were **authorized** when the travel order was created.
3. **Following**, is a list of possible **CIVPCS Advance** expense **types** and a link to additional **instructions** for processing each particular expense type:
 - **Enroute:** If the user **clicks** on the **Enroute** option, the **What's Authorized** tab appears and the user must specify **who is traveling** and **how many cars** will be used. **Refer** to the **Help** topic, "[PCS Advance What's Authorized - tab](#)", for additional instructions.
 - **HouseHunting:** If the user **clicks** on the **HouseHunting** option, the **House Hunting Trip Advance** screen appears. **Refer** to the **Help** topic, "[Completing the House Hunting Trip Advance Screen](#)", for additional instructions.
 - **TQSE:** If the user **clicks** on the **TQSE** option, the **TQSE/FTA Advance** screen appears. **Refer** to the **Help** topic, "[Completing the TQSE FTA Advance Screen](#)", for additional instructions.
4. **Click** on the desired **expense** type and **complete** the associated input **screen** to **calculate** the advance **entitlement** for the selected expense.
5. When **finished** adding expenses, **proceed** to the [Calculations](#), [Financial](#), and [Remarks](#) **tabs** to **finish** processing the advance.

PCS Advance What's Authorized - tab

After **clicking** on the **Add Expense** and **selecting** the **Enroute** option at the **Entitlements** tab, the **What's Authorized** tab appears. At the **What's Authorized** tab, the user **must specify** that the traveler **is** the **owner/operator** of the **POV**, the **number of cars** used, and **which travelers are** to be **included** in the advance calculation.

 Use the following steps to "complete" the PCS Advance What's Authorized tab:

1. **Owner/Operator of POV:** - At this field, **click** in the box **if** the traveler **was** the **owner** and **operator** of the **POV** used in the performance of the trip.
2. **No MALT:** **Click** in the **check box** to **activate** this option if **no MALT** should be paid.
3. **Number of Cars:** - At this field, **type** the **number** representing how many **POV's** are to be **used** in the **calculation** of the advance.
4. **Who is being paid:** - At this section, the user **must specify which** of the listed **travelers** are to be **included** in the **calculation** of the advance. **If all** of the listed **traveler's** should be included, **click** on the **Select All** button. **If not**, **click** on the **desired name**.

Tip: Multiple traveler's may be **selected** by **pressing** and **holding** the *Shift* key and then **clicking** on the desired **names**.

5. After completing this tab, the user must then **click** on the **Expected Itinerary** tab or **click** on the **Next** button to continue.

Refer to the **Help** topic, "[Expected Itinerary tab](#)", for additional instructions.

CIVPCS Expected Itinerary - tab

The **Expected Itinerary** tab is used to **capture** the anticipated details for the trip itinerary. While completing this screen, refer to the **prompt line** at the bottom of the screen. The prompt line will **explain** what **information** is requested at each input field.

What's Authorized Expected Itinerary Reimbursables

Expected Duration Greater than 12 hours

Date		Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	AE %	Who Else Lodging	Taxes	Miles
08/16/2021	DEP	IND, IN, Marion	PA	<input type="checkbox"/>		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>				
08/20/2021	ARR	Cleveland, Cuyahoga, OHIO	MC	<input type="checkbox"/>	<input type="checkbox"/>				0.00	\$0.00	\$0.00	331

Back Next Duplicate Previous Insert Leg Delete Leg Clear Completed

 Use the following steps to "complete" the Expected Itinerary tab:

1. **Expected Duration:** - At this field, **click** on the *down arrow*. A drop down **listing** of trip **durations** appears. **Refer** to the **documentation** submitted by the traveler to determine the duration and then **click** the correct choice.
2. **Depart Date:** - The departure date on the first line of the itinerary automatically **defaults** from the **Begin Date** entered when the travel order was created. **Press Tab** to continue or **type** a different date, in **MMDDYY** format, if necessary. You may also **click** on the *down arrow* button and use the **calendar** to select the date.
3. **Depart Location:** - The depart location **defaults** from the **Origin** location entered when the **Travel Order** was created. If the default Depart Location is incorrect, **double click** in the **Location** field and then use the **Location Selection** screen to select the correct location.
4. **Transportation:** - If the default **type** at the Transportation field is incorrect, **click** on the *down arrow* button and **select** the correct mode from the list of types.
5. **Press the Tab** key until the **Arrival** date field is Highlighted. If the default date is incorrect, **type** a different date, in **MMDDYY** format and then **press Tab**. You may also **click** on the *down arrow* button and use the **calendar** to select the date.
6. **Arrive Location:** - At this field, the **Location Selection** screen automatically appears.

Location at which traveler arrived

Cleveland, Cuyahoga

County
CLEVELAND / CUYAHOGA

DTOD

If the Reason for Stop at this location is VR or MC, you may click the Cancel Button to default to the PDS location

OK Cancel ? Help

Enter County for which to search

7. At the **State/Country** field, **type** the first two letters of the state or country name. If necessary, click the *Up/Dn* arrows until the desired name is displayed. **Click** on the highlighted name or **press Tab** to make the selection.
8. At the **City / Zip Code** field, type the zip code or the first two letters of the city name. This displays a **listing** of city/locality names, for the previously selected state or country, beginning with those letters or zip code. **Click** on the highlighted name or **press Tab** to make the selection.

Tip: If the traveler is departing from an **OCONUS** location, **click** in the **Country** field and **use** the **procedures** described above to make the **Locality** selection.

9. When the correct **State/Country** and **City/Locality** is selected, **click** on the **DTOD** button if you wish to have IATS **look-up** and automatically **populate** the **Miles** field in the **itinerary** with the official **distance** from the Defense Official Table of Distances.
10. When you have **completed** the Location Selection screen, **click** on the **OK** button.
11. **Reason for Stop:** - The **default** value for this field is **AT - Awaiting Transportation**. If this reason is incorrect, **click** on the **down arrow** button to display a list of reasons for stop. **Click** on the correct reason to make a selection.
12. **Repeat** the **steps above** if additional itinerary **legs** must be entered.
13. When **finished** with the itinerary, **click** on the **Completed** button. The **Reimbursables** tab appears next.

Click on the **definitions** button below for an **explanation** of the various reason for stop codes.

Note: If the **Reason for Stop** at the **Arrival Location** is other than **MC - Mission Complete** or **LV - Leave**, the following fields of the itinerary may need to be completed.

- **Duty Day:** - A **check mark** automatically **defaults** to this field. If this day is an **official day of duty**, **press Tab** to continue. If this day is not an **official day of duty**, however, **click** this box to **remove** the check mark.
- **OMN:** - This option is for **Navy** users. **Click** in the **check box** to **activate** this option if **OMN funding should be used** for the trip.
- **Method:** - The **default** value for this field is **LDP - Lodgings Plus**. Press *Tab* if this is correct. If not, **click** the **down arrow** button to display a list of [methods of reimbursement](#). **Click** on the correct method to make a selection.

- **Lodging:** - At the **Lodging** field, when completing the Expected Itinerary tab, a *drop down listing* of various lodging types appears. **Click** on the correct type to make a selection.
- **Meals:** - At the **Meals** field, when completing the Expected Itinerary tab, a *drop down listing* of various meal types appears. **Click** on the correct type to make a selection.
- **AE %:** - At this field, **type** the **percentage rate** to be used if **Actual Expenses** was **approved** in the travel orders.
- **Lodging Cost:** - IATS will automatically use the maximum lodging rate for the area the traveler is arriving at. If it is known that the actual lodging cost will be a **different** amount, **type** the **dollar amount** for the daily lodging cost.
- **Taxes:** - If the TDY location is within CONUS, Alaska, Hawaii, or a US territory, the user is prompted to enter the daily lodging **taxes** amount. IATS will automatically reduce the taxes by the appropriate percentage when the claimed amount for **lodging** exceeds the authorized amount. If these taxes are entered into the **itinerary**, do not enter them again at the **Reimbursables** tab. The amount calculated for the taxes will appear on the **Calculations** tab after the trip has been completely entered.
- **Miles:** - If not automatically populated by the **DTOD** look-up feature, **type** the number of **miles** claimed by the traveler if a privately owned vehicle was used.

Refer to the **Help** topic "[PCS Advance Reimbursables - tab](#)", for additional instructions.

PCS Advance Reimbursables - tab

This screen is where IATS users enter the traveler's **reimbursable expenses** associated with the PCS Advance Request.

Nature of Expense	Amount	Dependent?
ATM ADVANCE EXPENSE	10.00	<input type="checkbox"/>
TOLLS	0.00	<input type="checkbox"/>
TAXI/LIMO OTHER		<input type="checkbox"/>
TAXI/LIMO TO AIRPORT		<input type="checkbox"/>
TAXI/LIMO TO LODGING FROM DUTY		<input type="checkbox"/>
TELEPHONE CALLS LOCAL		<input type="checkbox"/>
TELEPHONE CALLS LONG DISTANCE		<input type="checkbox"/>
TIP TO DRIVER OF COURTESY-FREE SHUTTLE		<input type="checkbox"/>
TOLLS		<input type="checkbox"/>
TRAINFARE		<input type="checkbox"/>

Use the following steps to "complete" the PCS Advance Reimbursables tab:

1. **Nature of Expense:** At this field, click on the down arrow button to display a drop down **listing** of the common expenses that have been entered into the **Reimbursable Descriptions** table in the IATS **Maintenance** module. **Click** the *Up/Dn* **arrows** until the desired expense item is displayed. If the user **types** the **first letter** of the description, IATS **scrolls** the listing until locating the first item beginning with this letter. The user may then use the *Up/Dn* **arrows** to display the exact item. Once the correct item is displayed, **click** on this item to make a selection. If the expense claimed by the traveler is **not listed**, simply **type** the description in this field and **press Tab**.
2. **Amount :** At this field, **type** the **dollar amount** anticipated by the traveler.
3. **Dependent:** **Click** in the **box** in this field if the entered expense **is associated** with a **dependent**.
4. When **finished** entering the anticipated expenses, **click** the **OK** button. IATS **returns** to the **Advance Request** screen.
5. At this screen, **click** on the **Calculations** tab to **review** the calculated **amount** and to **specify** the **amount** to be **paid** to the traveler.

Refer to the **Help** topic, "[Advance Calculations - tab](#)", for additional instructions.

CIVPCS Advance Calculations - tab

After completing the **Reimbursables** tab, IATS returns to the **Advance Request** screen. To **view a summary** of the calculations for the advance request, **click** on the **Calculations** tab.

Remit To	Entitlements	Calculations	Financial	Remarks																
<table border="1"> <thead> <tr> <th>Description</th> <th>Computed</th> <th>% Adv.</th> <th>Total</th> </tr> </thead> <tbody> <tr> <td>Memb/Emp PCS Per Diem</td> <td>\$151.00</td> <td>100.00</td> <td>\$151.00</td> </tr> <tr> <td>Memb/Emp MALT</td> <td>\$52.96</td> <td>100.00</td> <td>\$52.96</td> </tr> <tr> <td>Dep Per Diem</td> <td>\$185.63</td> <td>100.00</td> <td>\$185.63</td> </tr> </tbody> </table>					Description	Computed	% Adv. <Back Next>

Note: At this tab, a **summary** of the **calculations** is displayed by **expense category**. In the **%Adv** column, a **percentage** is shown that **corresponds** to the percentage **established** at the **TDY, MILPCS, or CIVPCS Parameters** tabs on the **Maintain Advance Percents** screen in the **IATS Maintenance** module. This **establishes** a **limit** that may be advanced to the traveler for a particular **expense category**. The **Total** column **reflects** the **amount** that may be advanced **after** the **limitation** is **applied**.

 Use the following steps to "complete" the **Advance Calculations** tab:

1. **Computed Advance:** - The **amount** shown at this field represents the **total amount** calculated by IATS that is **allowed** to be paid.
2. **Date Advance Due:** - The **current date** **defaults** to this field. If this date is **correct**, **no action** is necessary. **If not**, **click** in this field and **type** the **desired date** in **MMDDYY** format. You can also **click** on the **down arrow** button and use the **calendar** to select the date.
3. **Authorized Advance:** - **Click** in this field, and the **Allocate PCS Advance** screen appears.

- After completing the **Calculations** tab, **click** on **Next** button or the **Financial** tab to proceed with the accounting lines.

Refer to the **Help** topic, "[Financial - tab](#)", for additional instructions.

Financial - tab

The **Financial tab** is used to specify the **method of payment**, a **split payment** amount, and to add the **accounting** information.

Remit To	Adv/Acctl	Entitlements	Calculations	Financial	Remarks
Method of Payment: <input type="text" value="EFT"/>		Computed Split: <input type="text" value="\$396.00"/>		<input type="checkbox"/> Release Obligation	
Due Traveler: <input type="text" value="\$381.82"/>		Split Payment: <input type="text" value="\$500.00"/>		<input type="checkbox"/> Apply 100% to Split	
Db/Cr	Classification				Amount
Db	111111 21 9 2020 0000 76 2016 P810000000 21T2 000000 SMI1111TJSPLIT S12345				\$881.82
<input style="margin-right: 10px;" type="button" value=" <Back "/> <input style="margin-right: 10px;" type="button" value=" Next > "/> <input style="float: right;" type="button" value=" Modify Accounting "/>					

 Use the following steps to "complete" the Financial tab:

- Method of Payment:** - The default value is **EFT** if the traveler's account is active for EFT payments. If you wish to choose a different method of payment, **click** on the down arrow button to display a list of payment options and then **click** on the desired method.
- Computed Split:** - The amount displayed at the Computed Split field is a **combination** of the **Lodging** expense entered into the itinerary and the **reimbursable expense items** entered at the Reimbursables tab that were **selected** for a **split** payment. If you **double click** in the Computed Split field, the **Split Payment** field will be **populated** with the computed amount.
- Split Payment:** - If not already **populated** by double clicking in the **Computed Split** field, **click** in this field and **type** the dollar **amount** specified by the traveler to be **sent directly** to the **company** providing the **Government Credit Card**. This option is only available if the **method** of payment is **EFT**.

Note: When the **EFT information** is **blank** or only the **IBAN information** is populated on the traveler profile, and the **GTCC number** is **populated**, IATS users can select **Check** or **EFT** as the "**Method of Payment**". If **Check** is selected no split payment is **allowed**. If **EFT** is selected however, IATS automatically sends the entire amount to the **GTCC** and you cannot **change** the split amount in this case.

- Release Obligation:** - If a **Transportation Request** was issued for the performed travel, a charge may still be pending for payment of the transportation, and the funds should not be de-obligated. If the travel was not performed by **government procured transportation**, however, **click** in this **box** to send a code to the accounting system that will allow the obligation to be **released**.
- Apply 100% to Split:** - When this check box is **checked**, IATS will **apply** the whole amount due to the traveler to the **company** providing the **Government Credit Card**. **Note** that this **check box** is only **visible** and **applicable** to **TPAX** users.
- Modify Accounting:** - **Click** this button to access the **Accounting** screen and enter the accounting information.
- After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **Save** button.

Remarks - tab

After adding the accounting lines to a **Request for Settlement** or **Advance**, the user may want to add some optional **Remarks** to the printed **travel voucher**, the **traveler's historical record**, or **both**.

 Use the following steps to "complete" the Remarks tab:

1. **Click** on the **Remarks** tab. The following screen appears:

2. **Remarks in History:** If wishing to add remarks to the traveler's historical record, **click** in this **box** and **type** the desired remarks.
3. **Remarks on Voucher:** If wishing to add remarks to the traveler's printed voucher, **click** in this **box** and **type** the desired remarks.
4. **Copy:** Clicking on the **Copy** button will **copy** the remarks from the **Remarks in History** text box to the **Remarks on Voucher** text box.
5. If you wish to add a standard remark from the Standard Voucher Remarks table, **click** on the **Get Std. Voucher Remarks** button. The **Standard Voucher Remarks** screen appears.

Select or enter the description of this expense

 Use the following steps to "complete" the House Hunting Trip Advance screen:

1. **Mode of Transportation:** At this field, **click** on the *down arrow* button to display a *drop down listing* of various transportation modes. **Click** on the correct mode to make a selection.
2. **Cost of Commercial Transportation:** If the selected mode of transportation is commercial, **type** the dollar **amount** for the traveler's **cost** for commercial transportation procured at personal expense and **press Tab** to continue.
3. **Number of miles to new PDS:** If the selected mode of transportation is private auto, **type** the number of **miles** from the old PDS to the new PDS at this field and then **press Tab**.
4. **Who is Traveling:** At this field, **click** on the *down arrow* or **press** the *down arrow key* to **scroll** through the options. When the correct option is highlighted, **click** on that option or **press Tab** to make a selection.

5. **Number of Days Authorized:** The **number** at this field **defaults** from the number of days specified when the **travel order** was **created**. If this number is **correct**, no action is needed. If not, the **travel order** must be modified to make a change.
6. **Nature of Expense:** At this field, **click** on the **down arrow** button to display a drop down **listing** of the common House Hunting Trip expenses. **Click** on desired expense item to make a selection. If the expense claimed by the traveler is not listed, simply **type** the description in this field and **press Tab**.
7. **Advance Approved:** At this field, **type** the dollar amount for the authorized advance for this expense and **press Tab**.
8. When **finished** making the required entries at this screen, **click** the **OK** button. IATS returns to the **Advance Request** screen.
9. **Click** on the **Calculations** tab and **make** the required entries. **Refer** to the **Help** topic "[CIVPCS Advance Calculations - tab](#)" for additional instructions.
10. After completing the required entries at the Calculations tab, **click** on the [Financial tab](#) and **add** the appropriate **accounting** lines.
11. After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, [Remarks - tab](#), for additional instructions. If no remarks are needed, **click** the **Save** button. IATS will return to the **Request Selection** screen.

Completing the House Hold Goods Advance Screen

The **House Hold Goods Advance** screen is used to **capture** the specific dollar **amount** authorized to be **paid** to the traveler in advance of performing the movement of the Household Goods.

Household Goods Advance - Block No: CIVPCSADV - Request No: 63

ARNOLD, TOMMY G TONO: PCSADV

Household Goods Advance

Amount to be advanced for Household Goods Move

Other OK Cancel ? Help

Enter the advance amount requested

 Use the following steps to "complete" the House Hold Goods Advance screen:

1. **Click** in the "Amount to be advanced for House Hold Goods Move" field and **type** the dollar **amount** specified on the **travel orders**.
2. When **finished** entering the amount, **click** the **OK** button.

Completing the TQSE FTA Advance Screen

The **TQSE/FTA Advance** screen is used to **calculate** the **amount** of the TQSE or FTA advance payment.

Use the following steps to "complete" the TQSE/FTA Advance screen:

1. **From:** - At this field, **type** the **beginning date** for the TQSE **advance** in **MMDDYY** format and **press Tab**. You may also **click** on the **down arrow** button to select the date.
2. **To:** - At this field, **type** the **ending date** for the TQSE **advance** in **MMDDYY** format and **press Tab**. You may also **click** on the **down arrow** button to select the date.
3. **Which 30 day period is being advanced:** - **Click** on the **down arrow** button to display a **drop down list** of periods and then **click** on the **desired period**.
4. **Where TQSE to be Taken:** - **Click** in the radio **button** next to the correct location.
5. **Presidential Declared Disaster Areas Actual Expense Allowance:** - **Click** in the **check box** to **activate** this option if it has been **approved** in the travel orders. If selected, you **must enter** the

alternate location for the TQSE computation. Refer to the **Help** topic "[Applying the PDDA Actual Expense Allowance](#)".

6. **Persons on TQSE:** - **Click** on the listed **name(s)** to **select** the persons to be included in the calculation. If all of the listed **names** should be included **click** on the **Select All** button.
7. When **finished** making the required entry at this screen, **click** the **OK** button. IATS returns to the **Advance Request** screen.
8. **Click** on the **Calculations** tab and **make** the required entries. Refer to the **Help** topic "[CIVPCS Advance Calculations - tab](#)" for additional instructions.
9. After completing the required entries at the Calculations tab, **click** on the [Financial tab](#) and **add** the appropriate **accounting** lines.
10. After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **Save** button to **return** to the **Request Selection** screen.

Completing the TQSE Lump Sum Advance Screen

The **TQSE Lump Sum** screen is used to **select** the **traveler's** to be **included** in the **computation** of the Lump Sum TQSE entitlement. This is the screen that **appears** when the entitlement for **TQSE** is **selected** on the **Entitlements tab** and Lump Sum TQSE was **authorized** when the **travel order** was created.

 Use the following steps to "complete" the TQSE Lump Sum screen:

TQSE - Lump Sum - Request No: 63

ARNOLD, TOMMY G TONO: PCSADV

Starting Date: 8/1/2021
Ending Date: 8/15/2021

Where TQSE to be Taken
 INDIANAPOLIS / MARION, CIN
 CLEVELAND / CUYAHOGA, COH

Other OK Cancel ? Help

Select this if TQSE is being paid at old PDS

1. **Starting Date:** - At the **Starting Date** field, **enter** the beginning date for the TQSE period.
2. **Ending Date:** - At the **Ending Date** field, **enter** the ending date for the TQSE period.
3. **Where TQSE was Taken:** - At the **Where TQSE Was Taken** section, **click** in the radio **button** to **select** the correct **location**.
4. **Persons on TQSE:** At this section, the user must specify which of the listed **travelers** are to be **included** in the **calculation** of the settlement. If all of the listed **traveler's** should be included, **click** on the **Select All** button. If not, **click** on the desired name.
5. When **finished** selecting the travelers at the **TQSE Lump Sum** screen, **click** the **OK** button. IATS returns to the **Advance Request** screen.
6. **Click** on the **Calculations** tab and **make** the required entries. **Refer** to the **Help** topic "[CIVPCS Advance Calculations - tab](#)" for additional **instructions**.
7. After completing the required entries at the Calculations tab, **click** on the [Financial tab](#) and **add** the appropriate **accounting** lines.

8. After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **Save** button to **return** to the **Request Selection** screen.

Applying the PDDA Actual Expense Allowance

An Actual Expenses Allowance (**AEA**) may be authorized not to exceed **300%** of the **locality rate** for **lodging and/or meals** when either the old or the new Permanent Duty Station (**PDS**) is a Presidentially-Declared Disaster area (**PDDA**).

To **apply** this PDDA Actual Expense Allowance, the IATS user must first ensure that this allowance has been **approved** on the travel order. The next step will be to **activate** the allowance on the **TQSE/FTA** screen.

 Use the following steps to "activate" the PDDA Actual Expense Allowance:

The screenshot shows the 'TQSE/FTA Advance' window with the following details:

- Block No: TQSEADV3 - Request No: NEW
- Employee Name: WILSON, SAM E
- Agency: TONO: PCSTQSE
- Advance Period: From 9/1/2024 To 9/30/2024
- Which 30 day period is being advanced: Days 1 - 30
- Where TQSE to be Taken:
 - UTICA/ ONEIDA, NEW YORK
 - INDIANAPOLIS / MARION, INDIANA
- Presidential Declared Disaster Areas Actual Expense Allowance (highlighted with a red box)
- Alternative Location: [Empty text field]
- Enter Location button (highlighted with a red box)
- Persons on TQSE:
 - SAM (Employee)
 - JUNE (Spouse)
- Select All button
- Unselect All button
- Other button
- OK button
- Cancel button
- Help button

Check this box if PDDAE applies to this entitlement

1. At the TQSE/FTA screen **click** in the **check box** next to the words Presidential Declared Disaster Areas Actual Expense Allowance.

2. Since the Federal Travel Regulation (FTR) **exempts** PDDAs from the reasonable **proximity rule** (50 miles within the old or new PDS) you must **specify** an **alternative location** for the TQSE computation if applicable.
3. If an **alternative location** is **applicable** to the claim, **click** on the **Enter Location** button. IATS will display the Locality Selection screen and you must **enter** the **location** for the TQSE computation.

The screenshot shows the 'TQSE/FTA Advance' interface. At the top, it displays 'Block No: TQSEADV3 - Request No: NEW'. Below this, there are two buttons: 'WILSON, SAM E' and 'TONO: PCSTQSE'. The 'Advance Period' is set from '9/1/2024' to '9/30/2024', with a dropdown for 'Which 30 day period is being advanced' set to 'Days 1 - 30'. Under 'Where TQSE to be Taken', there are two radio button options: 'UTICA/ ONEIDA, NEW YORK' (selected) and 'INDIANAPOLIS / MARION, INDIANA'. A checkbox for 'Presidential Declared Disaster Areas Actual Expense Allowance' is checked. The 'Alternative Location' field contains 'ALBANY, NY, ALBANY' and is highlighted with a red box. To its right, the 'Erase Location' button is also highlighted with a red box. Below this is a 'Persons on TQSE' section with a list containing 'SAM (Employee)' and 'JUNE (Spouse)'. To the right of the list are 'Select All' and 'Unselect All' buttons. At the bottom, there are 'Other', 'OK', 'Cancel', and '? Help' buttons. A footer note says 'Click this button to enter/erase the alternate location'.

4. After completing the Locality Selection screen, the selected **location** will be **shown** in the **Alternative Location** field.
5. If the location shown at the Alternative Location field is **incorrect**, you can **remove** it by clicking on the **Erase Location** button.
6. **Click** on the **OK** button to **save** your entries and **continue** processing the claim.

TDY Settlement Requests

Processing TDY Requests

Processing a TDY Request for Settlement involves taking the information from the DD Form 1351-2, travel voucher, submitted by the customer, and entering the information into IATS. Overlooking a small detail can result in significant overpayment, or underpayment.

In other Help topics, the [creation of a travel account](#) and [travel order](#) was demonstrated. In addition, users were introduced to [creating block tickets](#), [logging incoming requests](#), and [assigning block tickets](#) to voucher examiners for processing. These topics covered the essential steps required before a TDY Request for Settlement claim can be processed. Users must be familiar with these steps before proceeding.

 Complete the following steps to "process" a TDY Request for Settlement:

1. **Login** to IATS in the **Examiner** View mode or change the View to Examiner, if necessary.
2. **Select** a **block** through one of the following methods:
 - **Method 1:** - Click the [Grab Blocks](#) button and **select** a block from the **Logged** Pool.
 - **Method 2:** - **Double click** on the desired block listed under the **To Do** section or by **clicking** on the **block** once and then **clicking** the **Process Block** button.
 - **Method 3:** - Click on the **New Block** button and [create a new block](#).

Note: After selecting a block, using one of the (3) methods listed above, the **Request Selection** screen appears. At this screen, any request already **logged** to the block is listed under the **Selected Request(s)** section.

Other... Print Block Ticket Return Request Skeleton Request Print Request(s)... Done ? Help

3. At the **Request Selection** screen, **select** a request through one of the following methods:
 - **Method 1:** - **Double click** on the desired request.
 - **Method 2:** - Click on the request **once** and then **click** the **View/Modify** button.

- **Method 3:** - Click on the **New** button.

Note: If the **New** button is **clicked**, the **Select Traveler** screen appears. At this screen the Examiner must **select** or **create** the traveler's **account** and **select** or **create** a new **travel order**. After selecting or creating the travel order, the **Settlement Request** screen appears.

4. After selecting a request using one of the methods listed above, the **Settlement Request** screen appears.

The screenshot displays the 'Settlement Request' interface. At the top, it shows 'Block No: 030315-TDY' and 'Request No: NEW'. Below this, there are two buttons: 'SMITH, MARK E: E7' and 'TONO: 2015BLNKT'. The 'Request Type' is set to 'Settlement' and the 'Type of Settlement' is 'Final'. A tabbed interface is visible with 'Remit To' selected. The 'Address' section contains the following fields: 'Line 1' (123 N SOUTH STREET), 'Line 2' (empty), 'City' (INDIANAPOLIS), 'Country/State' (IN INDIANA), and 'Zip Code' (46226). There is an 'Update Traveler' button next to the address fields. At the bottom of the form, there are '<Back' and 'Next>' buttons. Below the form, there are 'Other...', 'SAVE', 'Cancel', and '? Help' buttons. A status bar at the very bottom reads 'Enter the first line of the traveler's address'.

5. Refer to the **Help** topic, "[Completing the TDY Request for Settlement Screen](#)", for additional instructions.

Completing the TDY Request for Settlement Screen

After selecting a request, the **Settlement Request** screen appears. This screen is used to **capture** the **details** from the **DD Form 1351-2**, travel voucher, submitted by the customer.

The screenshot shows the 'Settlement Request' application window. At the top, it displays 'Settlement Request - Block No: 030315-TDY - Request No: NEW'. Below this are two buttons: 'SMITH, MARK E: E7' and 'TONO: 2015BLNKT'. The 'Request Type' is set to 'Settlement' and the 'Type of Settlement' is 'Final'. A tabbed interface is visible with the 'Remit To' tab selected. The 'Address' section contains the following fields: 'Line 1' (123 N SOUTH STREET), 'Line 2' (empty), 'City' (INDIANAPOLIS), 'Country/State' (IN INDIANA), and 'Zip Code' (46226). There is an 'Update Traveler' button to the right of the address fields. At the bottom of the window, there are buttons for '<Back', 'Next>', 'Other...', 'SAVE', 'Cancel', and '? Help'. A status bar at the very bottom reads 'Enter the first line of the traveler's address'.

Use the following steps to "complete" the TDY Settlement Request screen:

- Type of Settlement:** This field is used to **describe** the **type** of settlement being processed. If the user **clicks** on the **down arrow** button the following **list** of possible settlement **types** appears:
 - Partial** - Use this option if the settlement is for an **accrued per diem payment** and a **final** settlement is pending.
 - Final - First Submission** - Use this option if the settlement is the original **final settlement** against the travel order.
 - Supplemental - Subsequent Submission** - Use this option if the original **final settlement** was already paid and must be **recomputed**.
 - Supplemental to a Partial:** - Use this option if the original **Partial Settlement** was already paid and must be **recomputed**.
- Address:** When the **Settlement Request** screen appears, the **Remit To** tab is displayed. At this tab, the traveler's address defaults from the address entered at the **Traveler Profile** screen when the traveler's profile was created. **Compare** this address to the address appearing on the Request for Settlement submitted by the traveler and make any necessary changes. If the IATS user **changes** the **Remit To** address at this tab, the **change** will appear with a **red** background.

Note: Any changes made to the address at the **Remit To** tab will only affect the settlement being processed. A **permanent address change** must be made at the **Traveler Profile** screen.

3. After verifying the address at the **Remit To** tab, **click** on the **Adv/Accrl** tab or the **Next** button to proceed. **Refer** to the **Help** topic, "[Adv-Accrl tab](#)", for additional instructions.

Tip: **Click** on the **See Also** button below and **select** the **topic** for additional instructions on completing the various **tabs** at this screen.

Remit To - tab

When the **Settlement Request** screen appears, the **Remit To** tab is **displayed** unless the option to **Pre-validate Accounting** has been activated. In that case, the **Financial** tab is displayed first.

At this tab, the traveler's **address defaults** from the address entered at the **Traveler Profile** screen when the traveler's profile was created.

Compare this address to the address appearing on the Request for Settlement submitted by the traveler and **make** any **necessary changes**. If the IATS user changes the **Remit To** address at this tab, the **change will appear** with a **red** background.

Note: Any changes made to the address at the **Remit To** tab will only affect the settlement being processed. A **permanent address change** must be made at the **Traveler Profile** screen.

The screenshot displays the 'Remit To' tab of a software interface. At the top, a horizontal menu contains tabs for 'Remit To', 'Adv/Accr'l', 'Entitlements', 'Calculations', 'Financial', and 'Remarks'. The 'Remit To' tab is active. Below the tabs is a form titled 'Address' with the following fields: 'Line 1' containing '101 W EAST ST', 'Line 2' (empty), 'City' containing 'INDIANAPOLIS', 'Country/State' containing 'IN INDIANA' (with a dropdown arrow), and 'Zip Code' containing '98226' (highlighted in red). An 'Update Traveler' button is located to the right of the Zip Code field. At the bottom of the form area are two buttons: '<Back' and 'Next>'.

After reviewing or making changes to the address at this tab, **click** on the **Adv/Accr'l tab** or the **Next** button to continue.

Refer to the **Help** topic, "[Adv-Accr'l - tab](#)", for additional instructions.

Adv-Accr - tab

When processing a Request for Settlement, look at **Block # 10** of the **DD1351-2** (Travel Voucher). **Travelers** are **responsible** for indicating advances received. If of the DD1351-2 form **indicates** that an advance was received, **ensure** that this information **appears** at the **Adv/Accr** tab. If the information does not appear at the **Adv/Accr** tab, **type** the **details** for the advance payment in the appropriate fields.

Note: If there is a **check mark** appearing in the **Locked** box next to the **details** for an advance payment, no changes to the details may be made by the IATS user.

Remit To	Adv/Accr	Entitlements	Calculations	Financial	Remarks
----------	----------	--------------	--------------	-----------	---------

Locked	Date	Type	FY	Amount	DOV
<input checked="" type="checkbox"/>	04/17/2020	Settlement	2020	\$2,074.55	111222333
<input checked="" type="checkbox"/>	03/23/2021	Settlement	2020	\$8,087.18	222222222
<input type="checkbox"/>					

 **Complete the following steps to "enter" the advance details at the Adv/Accr tab:**

1. **Date:** At this field, **type** the **date** the advance was paid in **MMDDYY** format.
2. **Type:** At this field, a *drop down listing* appears offering the choices **Accrual**, **Advance** and **Transportation Request**. **Click** on the **option** that is **appropriate** for the **type** of advance payment received.
3. **FY:** At this field, a *drop down listing* appears offering the **choices** for several **fiscal years**. **Click** on the **choice** that is **appropriate** for the **fiscal year** in which the advance payment was received.
4. **Amount:** At this field, **type** the **dollar amount** for the advance payment received.
5. **DOV #:** At this field, **type** the Disbursing Office Voucher (**DOV**) **number** assigned to the advance payment received.
6. After completing the **Adv/Accr** tab, **click** on the **Entitlements** tab or **click** the **Next** button to continue.

Refer to the **Help** topic, "[Entitlements - tab](#)", for additional instructions.

Entitlements - tab

The **Entitlements** tab is the beginning point for **capturing** the specific **details** pertaining to what is authorized on the travel order in regards to the **transportation** allowances, the **itinerary** for the trip, and any **reimbursable expenses**.

 Use the following steps to "complete" the Entitlements tab:

1. **Precomputed:** - Under the heading "**Types of Entitlements Claimed**", **click** in this box if a **pre-determined amount** for the settlement is desired. IATS will **by-pass** the **itinerary** and **reimbursable expenses** screens. A payment is generated for the amount entered at the **Pre-Computed Amount** field that appears when this box is **checked**. No computation is made by IATS.
2. **Travel Not Performed:** - Under the heading "**Types of Entitlements Claimed**", **click** in this box if the trip was not performed and you wish to generate a **zero dollar transaction**. This transaction is then **transmitted** to the **accounting system** to **de-obligate** the **funds** set aside for the travel order.
3. Next to the **Travel Not Performed** check box you will see field displaying the default value "**Not a reservist**". If the claim you are processing is not for **reserve** travel, no action is necessary. You would continue to process the claim as usual.
4. If the claim, however, is for reserve travel, you would **click** on the *down arrow* at this field to display the reserve travel options and then **click** on the desired option.
5. **Add Itinerary button:** - **Click** on this button to enter an **itinerary** for the trip submitted by the traveler on the DD Form 1351-2.
6. After clicking on the **Add Itinerary** button, the **What's Authorized** tab appears.

Refer to the **Help** topic, "[What's Authorized - tab](#)", for additional instructions.

What's Authorized - tab

After clicking on the **Add Itinerary** button at the **Entitlements** tab, the **What's Authorized** tab appears. At the **What's Authorized** tab, user must specify the **transportation authorizations**.

What's Authorized | Actual Itinerary | Reimbursables

Owner/Operator of POV

Transp. Mode

- Remarks Directed Travel by Air
- POC More Advantageous to the Government
- POC Limited to Cost of Constructed Travel
- POC in Lieu of Gov't Veh (Avail - Not Assigned)
- POC in Lieu of Gov't Veh (Avail - Assigned to Agency)
- Commercial (Rail/Air/Bus/Ship) Authorized
- Government (Air/Vehicle/Ship) Authorized
- Remarks Directed Government Air
- Remarks Directed Government Vehicle
- Remarks Directed Travel by Air

Back | Next

Use the following steps to "complete" the What's Authorized tab:

1. **Owner/Operator of POV:** At this field, **click** in the box to remove the check mark if the traveler **was not** the **owner** and **operator** of the **POV** used in the performance of the trip.
2. **Transportation Mode:** **Click** on the *down arrow* to the right of this field. A *drop down listing* of various transportation **modes** appears. Use the *Up/Dn arrows* or **press** the *Up/Dn arrows* on the **keyboard** to **scroll** through the **list** of available modes.
3. **Refer** to the **travel order** submitted by the traveler for the authorized mode of transportation and then **click** on the authorized mode.
4. After completing this tab, the user must then **click** on the **Actual Itinerary** tab or **click** on the **Next** button to continue.

Refer to the **Help** topic, "[Actual Itinerary - tab](#)", for additional instructions.

Actual Itinerary - tab

The **Actual Itinerary** tab is used to **capture** the specific **details** for the trip itinerary. While completing this screen, refer to the **prompt line** at the bottom. The prompt line will **explain** what **information** is requested at each input field.

What's Authorized Actual Itinerary Reimbursables

Actual Trip Duration Greater than or equal to 24 hours

Date	Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	Who Else

		TD	<input checked="" type="checkbox"/>	<input type="checkbox"/>	LDP						

Back Next Duplicate Previous Insert Leg Delete Leg Clear Completed

 Use the following steps to "complete" the Actual Itinerary tab:

- Actual Trip Duration:** - At this field, **click** on the *down arrow*. A drop down **listing** of trip **durations** appears. **Refer** to the **DD Form 1351-2** submitted by the traveler to determine the duration and then **click** the correct choice. **Press Tab** to continue.
- Depart Date:** - The departure date on the first line of the itinerary automatically defaults from the **Begin Date** entered when the travel order was created. **Press Tab** to continue or **type** a different date, in **MMDDYY** format, if necessary. You may also **click** on the *down arrow* button and use the **calendar** to select the date.
- Depart Location:** - At this field, the **Location Selection** screen automatically appears. At the **State/Country** field, **type** the first two letters of the **state** or **country** name. If necessary, **click** the *Up/Dn arrows* until the desired name is displayed. **Click** on the highlighted name or **press Tab** to make the selection.
- At the **City / Zip** field, type the zip code or the first two letters of the **city name**. This displays a **listing** of city/locality names, for the previously selected state or country, beginning with those letters or zip code. **Use** the **procedures** described in step (3) above to make the selection.

Tip: If the traveler is departing from an **OCONUS** location, **click** in the **Locality** field and **use** the **procedures** described in step (3) above to make the **Locality** selection.

- When the correct **State/Country** and **City/Locality** is selected, IATS will automatically populate the **Miles** field in the **itinerary** with the official **distance** from the (DTOD) Defense Official Table of Distances.
- Transportation:** - If the correct code for the mode of transportation is not displayed, **click** on the *down arrow* button to display a list of transportation modes. **Click** on the correct mode to make a selection.
- Local?:** - When the mode **PA** is selected for the transportation, a **prompt** asking if travel was to/from a **local** transportation terminal appears. If so, **click** in this box. If not, **press Tab** to continue.

8. **Arrival Date:** - The date at the previous **Departure Date** field **defaults** to the Arrival Date field. Press *Tab* to **accept** this date or **type** a new date, in **MMDDYY** format, if necessary. You may also **click** on the *down arrow* button and use the **calendar** to select the date.
9. **Arrive Location:** - This is the **location** where the traveler stops to perform official duty, change modes of transportation, or to rest overnight. Use the **same method** explained at the **Depart Location** field to **select** the **arrival** and **DTOD** locations.
10. **Reason for Stop:** - The **default** value for this field is **TD - Temporary Duty**. Press *Tab* if this is correct. If not, **click** on the *down arrow* button to display a list of reasons for stop. **Click** on the correct reason to make a selection.

Click on the **definitions** button below for an **explanation** of the various reason for stop codes.

11. **Duty Day:** - A **check mark** automatically defaults to this field. If this day is an **official day of duty**, press *Tab* to continue. If this day is not an **official day of duty**, however, **click** this box to **remove** the check mark.
12. **OMN:** - This option is for **Navy** users. **Click** in the **check box** to **activate** this option if **OMN funding should be used** for the trip.
13. **Method:** - The **default** value for this field is **LDP - Lodgings Plus**. Press *Tab* if this is correct. If not, **click** on the *down arrow* button to display a drop down listing of various **per diem** computation methods. **Click** on the correct method to make a selection.
14. **Lodging:** - At the **Lodging** field, when completing the Actual Itinerary tab, a drop down listing of various lodging types appears. **Click** on the correct type to make a selection.
15. **Meals:** - At the **Meals** field, when completing the Actual Itinerary tab, a drop down listing of various meal types appears. **Click** on the correct type to make a selection.
16. **AE %:** - At this field, **type** the **percentage rate** to be used if **Actual Expenses** was **approved** in the travel orders.
17. **Lodging Cost:** - At this field, **type** the **dollar amount** for the daily lodging cost at the **location** where the traveler remained overnight.
18. **Taxes:** - If the TDY location is within CONUS, Alaska, Hawaii, or a US territory, the user is prompted to **enter** the daily lodging taxes amount. IATS will automatically reduce the taxes by the appropriate percentage when the claimed amount for **lodging** exceeds the authorized amount. If these taxes are entered into the **itinerary**, do not enter them again at the **Reimbursables** tab. The amount calculated for the taxes will appear on the **Calculations** tab after the trip has been completely entered.
19. **Miles:** - If not automatically populated, **type** the number of **miles** claimed by the traveler if a privately owned vehicle was used.

Note: Use the procedures previously explained to complete the return travel leg or additional travel legs for the itinerary. When finished with the itinerary, the **Constructed Itinerary** or **Reimbursables** tab appears next.

Refer to the **Help** topics, "[Constructed Itinerary - tab](#)" or "[Reimbursables - tab](#)", for additional instructions.

TDY Reasons for Stop

When completing a TDY Itinerary, a **Reason for Stop** code is required on each **arrival** line. A table appears at the **Reason for Stop** field displaying a variety of **codes** that may be used.

The **purpose** of the code is to **determine** what action must be taken by the travel computation system and what **allowances** are **applicable**. A **listing** of the various Reason for Stop **codes** and an **explanation** of their purpose is provided below:

- **AT - Awaiting Transportation:** This is used when the traveler is simply **stopping** at a location to **change** the **mode** of transportation.
- **TD - Temporary Duty:** This is the default value at this field since it is the most common reason a traveler stops. Use this code when the **point** the traveler **arrived** at is the **TDY** point.
- **LV - Leave:** Use this code when the traveler has **stopped** at a **location** for the **purpose** of taking **leave**. This code will **cause** the computation system to terminate per diem during the leave period.
- **MC - Mission Complete:** Use this code when the **trip** is **finished** and the **traveler** has **arrived** at the Permanent Duty Station (**PDS**).
- **AD - Authorized Delay:** Use this code when the traveler has **made** an official stop and remained overnight while **enroute** to an official duty point.
- **VR - Voluntary Return:** Use this code when a **traveler** has voluntarily returned to the **PDS** during a TDY trip. This commonly occurs when travelers are on lengthy TDY trips and there is a **holiday** weekend involved. Using this code **causes** the IATS to **perform** a cost comparison of what it would have **cost the government** had the traveler remained at the TDY location. This cost is then **compared** to the **expenses** the traveler **incurred** for **performing** the **VR travel**. The traveler is **reimbursed** these travel **expenses** up to what it would have cost the government to remain at the TDY location.
- **AR - Authorized Return Home:** Use this code when the **traveler** has been **authorized**, in the travel order, to make a **return** trip to his/her **home** during a TDY period.

Method of Reimbursement

A **Method of Reimbursement** code is used to determine what per diem **entitlement rule** is applicable for the trip. When completing an Itinerary, a Method of Reimbursement **code** is required on each **arrival line** where the reason for stop code is **TD**, **AD**, or **ES**. A listing appears at the **Method** field displaying a variety of **codes** that may be used. Following, is a list of the Method of Reimbursement codes listed by IATS and an explanation of their meanings:

- **LDP - Lodgings Plus:** - This is the **most common** per diem reimbursement method. Under the lodgings plus rules, the traveler is entitled to the **actual amount** spent for **lodging**, not to exceed the maximum **rate** established for the locality, plus a **flat amount** for **meals** and incidental expenses (**M&IE**), that has also been pre-determined. For example; under the Lodgings Plus rules, the maximum locality rate for Washington DC is \$115 for **lodging** and \$46 for **M&IE**. If the traveler actually pays \$110 for **lodging**, the entitlement will be \$156 for the day.
- **GS - Government Ship:** - Select this method when travelers are performing temporary duty **on-board** a **US Government Vessel**. Under this reimbursement method, civilian **employees** are entitled to a **per diem** rate of **\$2 per day** when meals are provided at no cost. If the employee is **required to pay for meals**, the **government meal rate** (currently \$8.10) applies. In addition, an additional \$2 per day is reimbursed if the employee is required to pay for lodging while on-board. This entitlement rule **begins at 0001 on the day after the traveler arrives on-board** and **terminates at 2400** on the day prior to the day the traveler departs.
- **FD - Field Duty:** - Select this method when the traveler is performing temporary duty under **field conditions**. Under this reimbursement method, **no per diem is payable**. This prohibition **begins at 0001 on the day after the field duty begins** and **terminates at 2400** on the day prior to the day the field duty ends.
- **SD - Sea Duty:** - Select this method when members perform temporary duty **on-board** a **US Government Vessel**. Under this reimbursement method, **no per diem is payable**. This prohibition **begins at 0001 on the day after the traveler arrives on-board** and **terminates at 2400** on the day prior to the day the traveler departs.
- **SP - Shore Patrol:** - Select this method when departs the vessel to perform Shore Patrol duty.
- **AE - Actual Expense:** - This is the method that should be used when it has been **determined** that the standard locality per diem rate will not adequately **cover** the **expenses**, and **reimbursement** of Actual Expenses for **both lodging** and **M&IE** is being requested or approved. Under this method, the standard locality per diem rate is **increased** by 150%.

Tip: When **AE** is selected as the Method of Reimbursement, the user **must click** on the **Exceptions** button after completing the itinerary and then **enter** the **amounts spent** for **M&IE** at the **Daily Exceptions** screen.

- **AELP - Actual Expense Lodgings Plus:** - Select this method when it has been **determined** that the standard locality per diem rate will not adequately **cover** the **expenses** for **lodging** and reimbursement of Actual Expenses for **lodging only** is being requested or approved. Under this method, the standard locality per diem rate, for **lodging only**, is **increased** by 150%. The **M&IE** is reimbursed using the **standard flat rate** established for the locality.
- **GRP - Group Travel:** - Select this method when the **orders specify** that **Group Travel** is **directed**. Members are not entitled to an allowance for **transportation**, **lodging**, or **meals**.

Group Travel is in effect when the member **departs** the **PDS**, or at **0001** on the day of departure from the **TDY** point. Group Travel **ends** at **2400** on the **day** the member **arrives** at the **TDY** point or at the time of arrival **back** at the **PDS**.

- **NOPD - No Per Diem:** - This is the method that should be used when the traveler is not entitled to per diem while performing official duty travel. Some examples of travel situations when this rule may apply are **Auxiliarist**, **Emergency Leave**, and **Medical Patient** travel.
- **UNP - UN Peace Keeping:** - Select this method when service members perform **TDY** on a **UN Peacekeeping Mission**. Under this condition, they are subject to a special rule regarding the computation of per diem. In accordance with the **JFTR, para. U4155**, these travelers are only entitled to the **difference**, if any, **between** the **UN mission subsistence allowance** and the **standard per diem allowance** for a member **TDY** to the same area on a **non-UN mission**.
- **INP - Inpatient in Hospital:** - This is the method that should be used when the traveler has been **admitted** to a **hospital** as an **inpatient**. Under this reimbursement method, no per diem is payable. This prohibition **begins** at **0001** on the day after the patient is admitted and **terminates** at **2400** on the day prior to the day the patient is discharged.
- **INPO - Inpatient Outside Hospital:** - Select this method when the member no longer requires a hospital bed, but cannot return to regular duty. Service members in a **subsisting out** status are **entitled** to **per diem** at the **standard locality rate** for the area concerned.
- **REH - Rehabilitation Center:** - This is the method that should be used when the traveler has been **admitted** to a **Rehabilitation Center** as an **inpatient**. Under this reimbursement method, no per diem is payable. This prohibition **begins** at **0001** on the day after the patient is admitted and **terminates** at **2400** on the day prior to the day the patient is discharged.
- **CEFP - Corps of Engineers Floating Plant:** - Select this method when the traveler is performing TDY on board a **floating plant** to **engage** in river and harbor **flood control activities**.
- **CMVS - Inland Commercial Vessel:** - Select this method when the traveler is performing TDY on-board a **commercial vessel**.
- **AF - Alaskan Ferry:** - This is the method that should be used when the traveler has **boarded** the **Alaska Marine Highway System**, a.k.a., the **Alaskan Ferry**. While on board this ferry, a per diem (**M&IE**) equal to the highest CONUS M&IE to cover **meal** and **incidental expenses** is **payable** for each full day. Per diem is **payable** for the day of arrival (embarkation) on board the ferry at the rate applicable to the **port of embarkation**.
- **BOOT - Boot Camp:** - This is the method that should be used by **Reservists** who are **traveling** from their **home** to their **Basic Training location** and **return**. While at the training location, no per diem is payable. This prohibition **begins** at **0001** on the day after the traveler arrives and **terminates** at **2400** on the day prior to the day the traveler departs.
- **HMPT - Home Port:** - Select this method when a member **performs PCS travel** in connection with a **change of homeport**.
- **SAE - Super Actual Expense:** - This is the method that should be used when it has been **determined** that the standard locality per diem rate will not adequately **cover** the **expenses**, and **reimbursement** of Actual Expenses for both lodging and **M&IE** is being requested or approved. Under this method, the standard locality per diem rate is **increased** by 300%. This method is typically used for relief missions associated with disasters.

Tip: When **SAE** is selected as the Method of Reimbursement, the user must **click** on the **Exceptions** button after completing the itinerary and then **enter** the **amounts** spent for **M&IE** at the **Daily Exceptions** screen.

- **SALP - Super Actual Expense Meals LDP:** - This is the method that should be used when it has been **determined** that the standard locality per diem rate will not adequately **cover** the

expenses for **lodging**, and **reimbursement** of Actual Expenses for **lodging only** is being requested or approved. Under this method, the standard locality per diem rate, for **lodging only**, is **increased** by 300%. The **M&IE** is reimbursed using the standard flat rate established for the locality. This method is typically used for relief missions associated with disasters.

- **CONF - Conference:** - Select this method when the traveler is performing TDY and is **attending** a U.S. Government sponsored conference. Under this rule, the **lodging** portion of the locality per diem rate may be exceeded by up to (25) percent.
- **GSPD - Government Ship at PDS:** - Select this method when travelers are performing temporary duty **on-board** a **US Government Vessel** at the Permanent Duty Station (**PDS**).
- **LDGO - No Per Diem/Lodging Authorized:** - Select this method when the **orders** specify that **per diem** is not authorized, but **lodging** reimbursement is **allowed**.
- **SFC: - Special Family Considerations:** This method is used with **evacuation** travel claims when the traveler **stops** at a **Safe Haven** or **Designated Location**. **Refer** to the **travel orders** or your office **policy** to see if the option is **applicable** as it will **affect** the **per diem** calculations depending on the **family configuration**.

Meal Types

At the **Meals** field, when completing the Actual Itinerary tab, a *drop down listing* of various meal types appears. **Click** on the correct type to make a selection.

What's Authorized Actual Itinerary Reimbursables

Actual Trip Duration: Greater than or equal to 24 hours

Date		Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	ILPP	Lodging	Taxes	Miles

Note: Following is a list of **meal types** that are **programmed**. IATS will **compute the reimbursement** to the traveler based on the **selection** made from the *drop down list* at the **Meals** field.

- **CM - Commercial Meals:** When this meal type is selected, travelers are reimbursed for meals based on the allowable per diem rate for the locality.
- **DED - Deductible Meals:** When this meal type is selected, travelers are not reimbursed for the cost of meals since they are being provided at no cost.
- **GM - Government Mess:** When this meal type is selected, travelers are reimbursed for the cost of a meal at a Government Dining Facility.
- **PPD - Proportional Per Diem Directed:** When this meal type is selected, travelers are reimbursed at the Proportional Meal rate for the locality.
- **WDED - Week Day Deductible:** When this meal type is selected, travelers are not reimbursed for the cost of meals for weekdays since they are being provided at no cost.
- **WDGM - Week Day Government Mess:** When this meal type is selected, travelers are reimbursed for the cost of a meal at a Government Dining Facility during weekdays.
- **WDWG - Week Day Deductible/Week End Government Mess:** When this meal type is selected, travelers are not reimbursed for the cost of meals for weekdays since they are being provided at no cost. On the weekends, however, they are reimbursed for the cost of a meal at a Government Dining Facility.
- **WDWP - Week Day Deductible/Week End Proportional:** When this meal type is selected, travelers are not reimbursed for the cost of meals for weekdays since they are being provided at no cost. On the weekends, however, they are reimbursed at the Proportional Meal rate for the locality.
- **WGWP - Weekday Government Mess/Week End Proportional:** When this meal type is selected, travelers are reimbursed for the cost of a meal at a Government Dining Facility during weekdays. On the weekends, however, they are reimbursed at the Proportional Meal rate for the locality.

These programmed meal types **prevent** you from having to **access** the **Exceptions to Daily Expenses** screen and manually **change** the **meal types** for the various circumstances.

Constructed Itinerary - tab

There are **three** situations that cause the **Constructed Itinerary** tab to **appear** after completing the traveler's actual itinerary:

- **Privately owned conveyance** was used for the travel to and from the official locations.
- The authorized mode of travel was **POC Limited to Cost of Constructed Travel**.
- The travel was performed by **mixed modes**; a combination of privately owned and commercial or government procured transportation.

At this screen the **legs** of the traveler's **actual itinerary** are displayed. The user must either **enter** the **cost of government procured travel** or the **official mileage** depending on the authorized mode of travel. IATS will then either perform a **cost comparison** or **limit** the **mileage** reimbursement to the **official distance**.

 Use the following steps to "complete" the Constructed Itinerary tab when the authorized mode of travel was "POC Limited to Cost of Constructed Travel" or was performed by "Mixed Mode":

What's Authorized Actual Itinerary **Constructed Itinerary** Reimbursables

Constructed Trip Duration:

From Date	To Date	To Location	Mem GTR	GTR From Date	GTR To Date
7/6/2021	7/6/2021	Washington, DC, Dist of	\$150.00	07/06/2021	07/06/2021
7/10/2021	7/10/2021	IND, IN, Marion	\$150.00	07/10/2021	07/10/2021

Back Next Recalc Dates

1. **Mem GTR:** - Click in this field for the first leg of travel. At this field, **type** the **dollar amount** for **government procured transportation** to include estimated **taxies** and **press Tab**.
2. **GTR From Date:** - The **date** at this field should be the **date** the traveler would have departed if the transportation was procured by the government. The **default** value at this field is the date of departure on the **actual itinerary**. If this is the **correct** date, **press Tab** to continue. If not, **type** the correct date and **press Tab**.
3. **GTR To Date:** - The **date** at this field should be the **date** the traveler would have arrived if the transportation was procured by the government. The **default** value at this field, is the date of arrival on the **actual itinerary**. If this is the **correct** date, **press Tab** to continue. If not, **type** the correct date and **press Tab**.
4. **Repeat** steps 1-3 above for any **additional** legs of travel displayed at this screen. After pressing **Tab** at the final **To Date** field, the **Reimbursables** tab appears.

Reimbursables - tab

This screen is where IATS users enter the traveler's **reimbursable expenses** associated with the trip.

What's Authorized Actual Itinerary Constructed Itinerary **Reimbursables**

Date	Nature of Expense	Type	Amount Claimed	Amount Approved	Split	IBOP	Const Leg
07/06/2021	ATM ADVANCE EXPENSE	F	10.00	10.00	<input type="checkbox"/>	US	0

2.00	7/10/2021 12:01	7/10/2021 12:01	Washington, DC, Dist of Columbia

Back Next Insert Expense Delete Expense

 Use the following steps to "complete" the Reimbursables tab:

- Date:** - The **default** value at this field is the **departure** date from the actual itinerary. If this is the **correct** date for the expense, **press Tab**. If not, **type** the **correct** date in **MMDDYY** format and **press Tab**.
- Nature of Expense:** - Clicking on the **down arrow** button at this field, displays a **drop down listing** of the common expenses that have been entered into the **Reimbursable Descriptions** table in the IATS **Maintenance** module. **Click** the **Up/Dn arrows** until the desired expense item is displayed. If the user **types** the **first letter** of the description, IATS **scrolls** the listing until locating the first item beginning with this letter. The user may then use the **Up/Dn arrows** to display the exact item. Once the correct item is displayed, **click** on this item to make a selection. If the expense claimed by the traveler is not listed, simply **type** the description in this field and **press Tab**.
- Type:** - Clicking on the **down arrow** button at this field, displays a **drop down listing of various expense categories**. Since a **code** for the expenses was previously entered into the **Reimbursable Descriptions** table in the IATS **Maintenance** module, IATS will **default** to the specified category. If the correct category is highlighted, **press Tab**. If not, **click** the **Up/Dn arrows** until the desired category is displayed and **press Tab**.
- Amount Claimed:** - At this field, **type** the **dollar amount** claimed by the traveler.
- Amount Approved:** - IATS automatically **populates** this field with the **amount** entered at the **Amount Claimed** field. If this amount is allowable, **press Tab**. If not, **type** the allowable amount and **press Tab**.
- Split:** - **Click** in the **check box** if you wish to have the expense **added** to the **computed amount** for a **split payment** to the Government credit card company. The **Computed Split** amount will appear on the **Financial** tab.
- IBOP:** - Clicking on the **down arrow** button at this field, displays a **drop down listing of State/Countries**. **Type** the first **two** letters of the state or country name. If necessary, or **click** the **Up/Dn arrows** until the desired name is displayed. **Click** on the highlighted name or **press Tab** to make the selection.
- Const Leg:** - If the settlement request involves a constructed itinerary for the purpose of a **cost comparison**, the **Const Leg** field appears next. In addition, a **table** appears **displaying** the travel **legs** for the itinerary. At this field **type** the **number** for the travel leg associated with the

expense. If the expense should not be included in the cost comparison, simply **press Tab** to **leave** the number **zero** at this field.

9. **Repeat** the steps **1-7** above to enter any **additional** expenses.
10. When **finished** entering the Reimbursable Expenses, **click** the **OK** button. A **message** appears asking if you wish to **recalculate the daily meals or lodging for the trip**. Click the **Yes** or **No** button as desired. **Refer** to the **Help** topic, "[Daily Exceptions](#)", for additional instructions.
11. After displaying the Daily Exceptions screen, users should proceed to the **Calculations** tab to **review** the calculated amounts before adding the **accounting** lines. **Refer** to the **Help** topic, "[Calculations - tab](#)", for additional instructions.

Daily Exceptions

The **Exceptions to Daily Expenses** screen displays each day of the **trip** and the **default** values for the **meals** and daily **lodging** costs based on the **entries** made in the **itinerary**.

The purpose of this screen is to allow the user to make **changes** to the **meal type** or the **lodging cost** for a particular day if necessary. In addition, this screen must be **used** for settlement requests involving **actual expenses**. For an actual expense settlement, the user must **enter** the **daily expenses** for **meals** and **incidental expenses** itemized by the traveler.

Other OK Cancel ? Help

 Use the following steps to "make changes" to the Exceptions to Daily Expenses screen:

1. Press *Enter*, *Tab*, or **click** in the desired field to **highlight** the **item** you wish to change.
2. In the **Lodg. Cost** field, simply **type** the new dollar **amount** for the lodging on that particular day, if a change is necessary.
3. In the **Lodg. Taxes** field, simply **type** the new dollar **amount** for the lodging taxes on that particular day, if a change is necessary.
4. For the **meals** fields on the middle travel days, **click** on the **down arrow** button, a *drop down listing* appears **displaying** various meal types. **Click** on the desired **type** to make the change.
5. When finished **viewing** or **making changes** at this screen, **click** the **OK** button.

Refer to the **Help** topic, "[Actual Expense](#)", for instructions on entering the itemized **expenses** at the **Exceptions to Daily Expenses** screen.

Calculations - tab

After completing the **Reimbursables** tab, IATS returns to the **Settlement Request** screen. To **view a summary** of the calculations for the settlement request, **click** on the **Calculations** tab.

Remit To	Adv/Accr	Entitlements	Calculations	Financial	Remarks								
		<table border="1"> <thead> <tr> <th>Description</th> <th>Total</th> </tr> </thead> <tbody> <tr> <td>▶ Memb/Emp TDY Per Diem</td> <td>\$782.00</td> </tr> <tr> <td>Memb/Emp Transportation</td> <td>\$300.00</td> </tr> <tr> <td>Memb/Emp Reimbursables</td> <td>\$48.00</td> </tr> </tbody> </table>	Description	Total	▶ Memb/Emp TDY Per Diem	\$782.00	Memb/Emp Transportation	\$300.00	Memb/Emp Reimbursables	\$48.00			
Description	Total												
▶ Memb/Emp TDY Per Diem	\$782.00												
Memb/Emp Transportation	\$300.00												
Memb/Emp Reimbursables	\$48.00												
			Total Entitlement		\$1,130.00								
			Deductions		\$0.00								
			Partial Payments		\$0.00								
			Amount Payable		\$1,130.00								
			Advances		\$500.00								
			Due Employee		\$630.00								

Note: At this tab, a **summary** of the **calculations** is displayed by expense category. In addition, any **deductions** for an **advance** or **partial** settlement are **displayed**. No changes may be made at this screen. If multiple fiscal years are involved, the **calculations** are **summarized** by fiscal year.

It's a good idea for the user to **review** the **Calculations** tab before adding the **accounting** lines to the settlement. This will **assist** the user in **ensuring** that the appropriate **accounting lines** are added.

After reviewing the Calculations tab, **click** on **Next** button or the **Financial** tab to proceed with the accounting lines.

Refer to the **Help** topic, "[Financial - tab](#)", for additional instructions.

Financial - tab

The **Financial tab** is used to specify the **method of payment**, a **split payment** amount, and to add the **accounting** information.

Remit To	Adv/Acctl	Entitlements	Calculations	Financial	Remarks
Method of Payment		EFT	Computed Split:	\$396.00	<input type="checkbox"/> Release Obligation

 Use the following steps to "complete" the Financial tab:

- Method of Payment:** - The default value is **EFT** if the traveler's account is active for EFT payments. If you wish to choose a different method of payment, **click** on the down arrow button to display a list of payment options and then **click** on the desired method.
- Computed Split:** - The amount displayed at the Computed Split field is a **combination** of the **Lodging** expense entered into the itinerary and the **reimbursable expense items** entered at the Reimbursables tab that were **selected** for a **split** payment. If you **double click** in the Computed Split field, the **Split Payment** field will be **populated** with the computed amount.
- Split Payment:** - If not already **populated** by double clicking in the **Computed Split** field, **click** in this field and **type** the dollar amount specified by the traveler to be sent directly to the **company** providing the **Government Credit Card**. This option is only available if the **method** of payment is **EFT**.

Note: When the **EFT information** is **blank** or only the **IBAN information** is populated on the traveler profile, and the **GTCC number** is **populated**, IATS users can select **Check** or **EFT** as the "**Method of Payment**". If **Check** is selected no split payment is **allowed**. If **EFT** is selected however, IATS automatically sends the entire amount to the **GTCC** and you cannot **change** the split amount in this case.

- Release Obligation:** - If a **Transportation Request** was issued for the performed travel, a charge may still be pending for payment of the transportation, and the funds should not be de-obligated. If the travel was not performed by **government procured transportation**, however, **click** in this **box** to send a code to the accounting system that will allow the obligation to be **released**.
- Apply 100% to Split:** - When this check box is **checked**, IATS will **apply** the whole amount due to the traveler to the **company** providing the **Government Credit Card**. **Note** that this **check box** is only **visible** and **applicable** to **TPAX** users.
- Modify Accounting:** - **Click** this button to access the **Accounting** screen and enter the accounting information.
- After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **Save** button.

Remarks - tab

After adding the accounting lines to a **Request for Settlement** or **Advance**, the user may want to add some optional **Remarks** to the printed **travel voucher**, the **traveler's historical record**, or **both**.

 Use the following steps to "complete" the Remarks tab:

1. **Click** on the **Remarks** tab. The following screen appears:

The screenshot shows the 'Remarks' tab selected in the top navigation bar. Below the navigation bar, there are two text input fields. The first field is labeled 'Remarks in History' and the second is labeled 'Remarks on Voucher'. Both fields contain the placeholder text 'Don't spend it all in one place.'. At the bottom of the interface, there are four buttons: '<Back', 'Next>', 'Get Std. Voucher Remarks', and 'Copy'.

2. **Remarks in History:** If wishing to add remarks to the traveler's historical record, **click** in this **box** and **type** the desired remarks.
3. **Remarks on Voucher:** If wishing to add remarks to the traveler's printed voucher, **click** in this **box** and **type** the desired remarks.
4. **Copy:** Clicking on the **Copy** button will **copy** the remarks from the **Remarks in History** text box to the **Remarks on Voucher** text box.
5. If you wish to add a standard remark from the Standard Voucher Remarks table, **click** on the **Get Std. Voucher Remarks** button. The **Standard Voucher Remarks** screen appears.

6. At the Standard Voucher Remarks screen, **click** on the *down arrow* to display a **list** of remarks and then **click** on the desired **remark**. The selected remark will be displayed in the **Remarks in History** text box. If you are satisfied with the remark, **click** on OK.
7. **Repeat** steps 5 and 6 if you wish to add additional standard **remarks**.
8. When **finished** adding remarks, **click** on the **Save** button to **save** the entries.

Workflow - tab

To assist managers in determining where **delays** in travel settlement requests processing occur, IATS generates the Reporting Unit Code (RUC) Report for **Marine Corps** travel offices. For **other** travel offices, this report is named the **Liaison Office Report**.

The purpose of this report is to **track** the number of days required to **move** a settlement request **through** the **processing cycle**. Because settlement requests processed by these organizations are often **routed** through **liaison offices**, IATS tracks their movement from the **date signed** until the **date disbursed**.

The **Workflow** tab is used to **capture** the **details** needed for IATS to generate the **RUC/Liaison Office Report**.

The **dates** at the Workflow Tab are also used to **determine** whether **interest** must be **paid** to the traveler for **late** payments.

 Use the following steps to "complete" the Workflow tab:

1. If not already in focus, **click** on the **Workflow** tab. The following screen appears:

Note: IATS users must select a Liaison Office from the *drop down list* at the **Ruc/Liaison Office** field if the new check box for the option in Maintenance "**Force Selection of Liaison Office**" is checked. Users may no longer type in a Liaison Office name when this option is activated.

2. **Ruc/Liaison Office:** - At this field **click** on the **down arrow** button. A *drop down list* of Ruc/Liaison Office **number(s)** appears. The Ruc/Liaison Office information must be previously established by the **System Administrator** in the IATS **Maintenance** module. When the *drop down list* appears, **click** on the **number** for the Ruc/Liaison Office that handled the **claim**. IATS users may also **type** in a Liaison Office **name** if the desired office name does not appear in the *drop down list* and the "**Force Selection of Liaison Office**" option in Maintenance has not been activated.
3. **Date Signed by: - Traveler:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **signed** by the **traveler**.
4. **Date Received by: - RUC/Liaison Office or signed by the AO:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **received** by the **Ruc/Liaison Office**.
5. **Date Forwarded by: - Liaison Office:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **forwarded** by the **Ruc/Liaison Office**.
6. **Date Received by: - Travel Office:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **received** by the **Travel Office**.

7. **Expected Pay Date:** - The **Expected Pay Date** is used for **tracking** the **processing time** for the **Voucher Turnaround Report**. The **default** value at this field is **4 days** from the **current** date. If this **date** is correct, **press Tab** to continue, or **type** a new date if necessary and **press Tab**.
8. When **finished** entering the dates at the Workflow tab, **click** on the **OK** button to **save** the entries and **return** to the **Settlement Request** screen.

Deleting an Entitlement

On occasion an **entitlement** must be **deleted** from a previously entered request for settlement.

 Complete the following steps to "delete" an entitlement from a TDY Request for Settlement:

1. At the **Examiner View** screen, select a block through one of the following methods:
 - **Method 1:** - **Double click** on the desired block listed under the **To Do** section or by **clicking** on the block **once** and then **clicking** the **Process Block** button.
 - **Method 2:** - **Click** on the desired block listed under the **To Do** section and then **click** on the **File** menu at the top left corner of the screen. A **drop down menu** appears listing several options. **Click** on the **Process Block** option.

Note: After selecting a block using one of the (2) methods listed above, the **Request Selection** screen appears. At this screen, all requests **assigned** to the block are listed under the **Select Request(s)** section.

2. At the **Request Selection** screen, **select** a request through one of the following methods:
 - **Method 1:** - **Double click** on the desired request.
 - **Method 2:** - **Click** on the request **once** and then **click** the **View/Modify** button.
3. At the **Request for Settlement Against an Order** screen, **click** on the **Entitlements** tab. When the Entitlements tab is displayed, any **entitlement** already processed against the selected request **appears** in the **Types of Entitlements Claimed** section.

Trips/Type	Dates Encompassed	Status
Temporary Duty Trip	7/12/2021 - 7/18/2021	Validated Data

4. At the **Entitlements** tab, **click** on the **entitlement** to be deleted.
5. When the desired entitlement is highlighted, **click** the **Delete** button. A message appears asking if you are **sure** you wish to **delete** this entitlement. **Click** the **Yes** button. The entitlement **disappears** from the **Types of Entitlements Claimed** section.
6. If there was more than one entitlement for the claim, **click** on the **Financial** tab and then **click** on the **Modify Accounting** button to **adjust** the **accounting** lines for the entitlement **deleted**.
7. **Finish** processing the request as usual after **modifying** the **accounting** or **click** on the **Cancel** button if no further action is needed.

View or Modify an Entitlement

On occasion, it may be necessary to re-open a previously computed **settlement** request, to **review** or **modify** the entries. This function may be performed if the **Examiner** still has **control** of the **block** the request is assigned to.

 Complete the following steps to "view or modify" an entitlement:

- At the **Examiner View** screen, **select** a **block** through one of the following methods:
 - Method 1:** - **Double click** on the desired block listed under the **To Do** section or by **clicking** on the block **once** and then **clicking** the **Process Block** button.
 - Method 2:** - **Click** on the desired block listed under the **To Do** section and then **click** on the **File** menu at the top left corner of the screen. A drop down **menu** appears listing several options. **Click** on the **Process Block** option.

Note: After selecting a block, using one of the (2) methods listed above, the **Request Selection** screen appears. At this screen, all requests **assigned** to the block are listed under the **Select Request(s)** section.

- At the **Request Selection** screen, **select** a request through one of the following methods:
 - Method 1:** - **Double click** on the desired request.
 - Method 2:** - **Click** on the request **once** and then **click** the **View/Modify** button.
- At the **Settlement Request** screen, **click** on the **Entitlements** tab. When the Entitlements tab is displayed, any **entitlement** already processed against the selected request **appears** in the **Types of Entitlements Claimed** section.

Trips/Type	Dates Encompassed	Status
Temporary Duty Trip	7/12/2021 - 7/18/2021	Validated Data

- At the **Entitlements** tab, if more than one entitlement is listed, **click** on the **entitlement** to be viewed or modified.
- When the desired entitlement is highlighted, **click** the **View/Modify** button.
- At the **Trip** screen, **click** on the various **tabs** to view or modify the entries previously made.
- When **finished** viewing or modifying the entries, **click** the **OK** button. A message appears asking if you wish to **view/modify** the **Daily Exceptions**. **Click** Yes or No as desired.

Note: If **Yes** is clicked to **view/modify** the **Daily Exceptions**, another **message** appears asking if you wish to **recalculate** daily **meals** and/or **lodging**. If **Yes** is answered, IATS will **recalculate** the meals and lodging based upon the **entries** made at the **itinerary**. If **changes** were previously **made** at the Daily Exceptions screen, those changes will be **lost**.

8. If the request was modified, **click** on the **Financial** tab and then **click** on the **Modify Accounting** button to **adjust** the **accounting** lines for the entitlement modified.
9. **Finish** processing the request as usual after **modifying** the **accounting**.
10. If the request was **viewed only** and no modifications were made, **click** on the **Cancel** button. A *pop-up* **appears** asking if you wish to **cancel** the screen. **Click** the Yes button. IATS **returns** to the **Request Selection** screen.

Deleting a Request for Settlement

On occasion, a request for settlement must be **deleted** from a block. For example; a claim may have been logged to the wrong block, or was **computed**, but cannot be disbursed because of a missing receipt.

 Complete the following steps to "delete" a Request for Settlement:

- At the **Examiner View** screen, select a block through one of the following methods:
 - Method 1:** - **Double click** on the desired block listed under the **To Do** section or by **clicking** on the block **once** and then **clicking** the **Process Block** button.
 - Method 2:** - **Click** on the desired block listed under the **To Do** section and then **click** on the **File** menu at the top left corner of the screen. A drop down **menu** appears listing several options. **Click** on the **Process Block** option.

Note: After selecting a block using one of the (2) methods listed above, the **Request Selection** screen appears. At this screen, all requests **assigned** to the block are listed under the **Select Request(s)** section.

- At the **Request Selection** screen, **click** on the **request** to be deleted.
- When the correct request is highlighted, **click** the **Delete** button. The **Delete this Settlement Request** screen appears.

Enter the effective date for this order

- At this screen, **click** the **Delete** button at the bottom of the screen. A message will appear asking if you are sure you wish to delete the request. **Click** the **Yes** button.
- If the **option** in the IATS Maintenance module has been activated to generate the "**Deleted Details Report**", the **Reason For Deletion of Claim** screen appears.

Reason For Deletion Of Claim

Reason 1
Duplicate Claim

Reason 2

Reason 3

Reason 4

Remarks
This claim was already submitted for processing.

OK Cancel ? Help

Enter a reason for deletion.

Note: The **Reason for Deletion of Claim** screen only appears when the option "**Reason for Delete**" has been **enabled** in the **Maintenance** module. If this screen does not appear, **proceed** to step 10.

- At the **Reason for Deletion of Claim** screen, you have the option of placing up to **four** reasons for deleting the request by **clicking** on the *down arrow* button at the **Reason** fields.

Tip: At the **Reason for Deletion of Claim** screen, you have the option of either selecting a **reason**, or simply entering a **remark** into the **Remarks** text box. One or the other is **required**. You may also do **both** - select a reason from the drop-down list and add a remark if desired.

- If you **click** on the *down arrow* button, a **list** of all of the **reasons** that were previously entered into the "**Reasons for Claim Deletion**" table in the **Maintenance** module, will be displayed.

8. **Click** on the desired **reason** from the *drop-down* list of reasons that will appear after you click on the *down* arrow button. Or, **click** in the **Remarks** text box and **type** the **reason** the request is being deleted.
9. After selecting a reason, entering a remark, or both, **click** on **OK**.
10. The **Confirmation Password** screen appears next. **Type** your confirmation **password** at the **Enter Password** field and **press Tab** or **click** the **OK** button. IATS **deletes** the request and **returns** to the **Request Selection** screen.

ILP Travel

An Integrated Lodging Program (**ILP**) was enacted for DoD. This program allows DoD to **require** use of either **government quarters** or **selected commercial lodging** for **both** civilian employees or Uniformed Service members at the ILP locations.

This determination is effective for **all** orders/authorizations issued on or after **15 June 2015** or the date the ILP begins at that site, whichever is later.

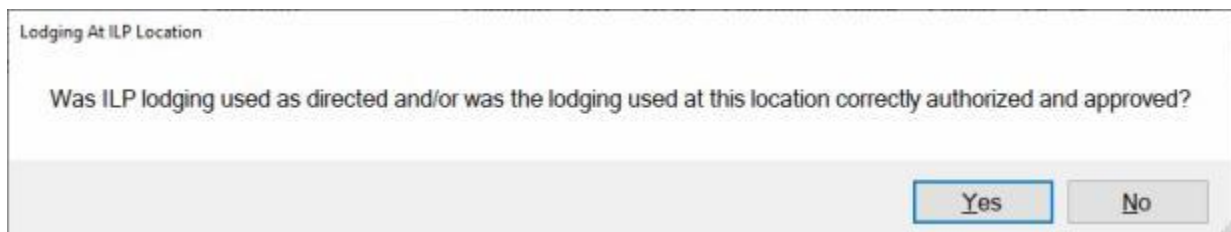

NOTE: This regulation also applies to PCS with TDY enroute entitlements as well.

Refer to the **Help** topic, "[Display ILP Negotiated Rates](#)" to see a **table** listing the ILP **sites** and associated **rates**.

When you are entering an **itinerary** using IATS, and the **location** entered for the duty location is an **ILP** site, the following **pop-up message** appears **advising** you that the location is an **ILP site**.

After you click on **OK** to continue, you will see the following **pop-up message** asking you to **confirm** whether or not the **correct** lodging was used.

Click on *Yes* or *No* as appropriate.

When you are entering an **itinerary** and the **location** entered for the duty location is an **ILP** site you must select "**ILP - LDP Lodging Plus ILP**" as the [Method of Reimbursement](#) (as shown below).

IATS 8.7.1 User Guide

What's Authorized Actual Itinerary Reimbursables

Actual Trip Duration: Greater than or equal to 24 hours

Date	Trans	Location	Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	ILP	Who Else Lodging	Taxes	Miles

07/11/2022	ARR	Fort Bliss, El Paso, TEXAS	TD	<input checked="" type="checkbox"/>	<input type="checkbox"/>	ILP	CQ		\$98.00	\$0.00	\$0.00	0

Back Next Duplicate Previous Insert Leg Delete Leg Clear Completed

Note: If you enter amount for lodging that is **higher or lower** than the ILP negotiated rate, the following **pop-up message** will appear.

Lodging Authorized

You have entered a lodging amount different than the negotiated ILP amount for this location. Please verify the type of lodging and the cost.

Was this lodging at an ILP facility and/or what was directed, authorized and approved?

Yes No

Click on Yes or No as appropriate. If you **click** on No, IATS will **limit** the lodging cost to the ILP negotiated rate.

You would then complete the claim as usual.

Field Duty

Travelers submitting TDY Requests for Settlement involving **field duty** are **not entitled to per diem** effective at **0001** on the day after arriving into the field conditions and **terminating** at **2400** on the day prior to departing the field. IATS is programmed to calculate the entitlement under field conditions when the correct input is made.

The correct input requires **arriving** the traveler into a **TDY** situation using field duty (**FD**) as the per diem reimbursement **method**.

It may be necessary, however, to **arrive** the traveler into **another** type of per diem reimbursement **method** prior to the commencement of the field training exercise. If so, it will be **necessary to depart** the traveler from this status and **arrive** them into the **field duty** status.

In this example, the traveler was in a **ILP** (Integrated Lodging Program) per diem situation for the first few days at the TDY site. On 07/16/2022, however, the traveler went into **field conditions** at **0600**. Notice that a **departure** from **ILP** - and an **arrival** into **FD** - Field Duty was entered.

Note: **CS** (Change Status) was used as the mode of **transportation**, since no travel was actually performed. This entry was made only to **change** the per diem **status**.

At the **conclusion** of the field training **exercise**, it may be necessary to **depart** the traveler out of the **FD** per diem method and **arrive** them **back** into the per diem **method** in effect **prior** to the commencement of the **field conditions**. Again, using **CS** as the **transportation** mode.

Other OK Cancel ? Help

Notice that on **07/16/2021** all three **meals** are shown as deductible (**DED**). In addition, all three **meals** on **07/18/2021** are shown as government (**GM**).

Since **Field Duty** per diem **rules** are effective at **0001** on the day after arriving into the field conditions and **terminating** at **2400** on the day prior to departing the field, this may be incorrect. An **adjustment** may be necessary depending on the **time** the field situation **started** and **ended**.

Refer to the **Help** topic, "[Daily Exceptions](#)", for additional **instructions** on making **changes** to the daily meal types.

Group Travel

A **Group Travel** situation exists when several **service members** travel from the **same point of origin** to the **same destination**. This is a frequent and normal occurrence for units participating in **maneuvers** or traveling to and from a **field training exercise**.

While performing Group Travel, members are not entitled to an **allowance** for **transportation, lodging, or meals**. Also, Group Travel must be specified in the travel orders, and is in effect when the member **departs** the **PDS**, or at **0001** on the **day of departure** from the **TDY point**. Group Travel **ends** at **2400** on the **day** the member **arrives at the TDY** point or at the **time of arrival back at the PDS**.

IATS imposes these Group Travel **limitations**, and will correctly calculate the traveler's per diem reimbursement.

 Complete the following steps to "activate" Group Travel rules:

1. When [creating the travel order](#), click in the **box** next to the field **Group Travel** at the **Travel Order** screen as shown below.

The screenshot shows the 'Travel Order' form with the following details:

- Traveler's Name: JONES, DEVIN G. E7
- Grade/Rank: E7
- Order Number/TONO: CRASH
- Order Type: Normal
- Purpose of Trip: Site Visit

Buttons at the bottom: Back, Next, OK, Cancel, Help.

Select the designated State (or blank if none) for State Tax computation.

2. When entering the traveler's itinerary, **ensure** that a **check mark** appears in the **box** under the column heading "**Group**", as shown below, for each leg of travel subject to the Group Travel rule.

What's Authorized Actual Itinerary Reimbursables

Actual Trip Duration: Greater than or equal to 24 hours

Date		Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	AE %	Who Else		
	DEP		CA							Lodging	Taxes	Miles
07/16/2021	ARR	IND, Marion, INDIANA	TD	<input checked="" type="checkbox"/>	<input type="checkbox"/>	LDP	<input checked="" type="checkbox"/>	<input type="checkbox"/>	0.00	\$0.00	\$0.00	0

Back Next Duplicate Previous Insert Leg Delete Leg Clear Completed

Note: If **Group Travel** was **activated** on the **travel order** as shown in step (1) above, IATS automatically populates the Group **box** with a **check mark** for each travel **leg**. **Click** in this box to **de-activate** the rule if Group Travel does not apply to the particular travel leg.

3. **Complete** the rest of the **itinerary** as usual and **finish** processing the **request**.

Actual Expense

Occasionally, travelers will perform **TDY** in a **high cost area** where the **standard per diem rate** is **inadequate** to cover the expenses for suitable **lodging** and **meals**.

When properly **approved**, these travelers can be granted the exception to claim reimbursement for actual expenses. The approval of Actual Expenses **increases** the **standard per diem rate** for the locality involved by **150%**. When approved for the traveler, actual expense requires the traveler to **itemize** the **daily expenses** incurred, which are then entered into IATS.

 **Complete the following steps to "activate" the Actual Expense per diem method:**

1. At the **Method** field, when entering data into the **Itinerary** screen, a drop down listing appears displaying several computation **methods**. Either **type** the letters **AE**, or **click** on the *Up/Dn* **arrows** to **highlight AE - Actual Expense Allow (Itemize)** and then **click** on this method or simply **press Tab**.

Date		Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	AE %	Who Else Lodging	Taxes	Miles
07/16/2021	DEP	IND, Marion, INDIANA	CP	<input type="checkbox"/>		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Other

OK Cancel ? Help

- At the **Exceptions to Daily Expenses** screen, the **lodging cost** defaults from the lodging amount entered in the **itinerary**. The IATS user must enter the **amounts** for the daily **meals** and **incidental expenses**, however.
- Click** in the **Break. Cost** field for the first day of travel. Refer to the **DD Form 1351-3** (Statement of Actual Expenses) submitted by the traveler and **type** the **amount** claimed for **breakfast**, if any. **Press Tab** to continue and IATS **advances** to the **Lunch Cost** field.
- Continue** entering the **daily expenses**, to include the **incidental expenses**, for each day of travel.
- Click** in the **Don't Pay Inc** check box if the claimed incidental expense is not allowed to be paid.
- When **finished** entering the actual expenses, **click** the **OK** button and finish processing the request.

Actual Expense - Lodging Only

Occasionally, travelers will perform **TDY** in a **high cost area** where the **standard per diem rate** is **inadequate** to cover the expenses for suitable **lodging**.

When properly **approved**, these travelers can be granted the exception to claim reimbursement for actual expenses for lodging. The approval of Actual Expenses **increases** the **standard per diem rate** for lodging at the locality involved by **150%**. **Meals** are computed using the standard M&IE rate for the locality under the **lodgings plus method**.

 Complete the following steps to "activate" the Actual Expense-Lodging only per diem method:

1. At the **Method** field, when entering data into the **Itinerary** screen, a drop down listing appears displaying several computation **methods**. Either **type** the letters **AELP**, or **click** on the *Up/Dn* **arrows** to highlight **AELP - Actual Expense Allow Lodging Plus** and then **click** on this method or simply **press Tab**.

Date	Trans Reason	Location	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	AE %	Who Else Lodging	Taxes	Miles
07/16/2021	DEP	IND, Marion, INDIANA	CP	<input type="checkbox"/>							
07/16/2021	ARR	Washington, Dist of Columbia, WASHIN	TD	<input checked="" type="checkbox"/>	AELP			0.00	\$0.00	\$0.00	0

2. **Complete** the rest of the **itinerary** as usual and **finish** processing the **request**.

Members - On Board Ship

Claims involving TDY on-board a **government ship** have a significant impact upon the per diem calculation. Travelers are subject to the on-board per diem **rate effective** at **0001** on the day after arriving on-board and terminating at **2400** on the day prior to departing the ship. IATS is designed to accurately calculate per diem while on-board a government ship when the correct input is made.

The correct input requires arriving the traveler into a **TDY** situation using Sea Duty (**SD**) as the per diem reimbursement **method** .

It may be necessary, however, to **arrive** the traveler into **another** type of per diem reimbursement **method** prior to the commencement of the Sea Duty. If so, it will be necessary to **depart** the traveler from this status and **arrive** them into the **Sea Duty** status.

 **Complete the following steps to "activate" the Sea Duty per diem method:**

1. At the **Method** field, when entering data into the **Itinerary** screen, a drop down listing appears displaying several computation **methods**. Either **type** the letters **SD** or **click** on the *Up/Dn* **arrows** to highlight **SD - Sea Duty** and then **click** on this method or simply **press Tab**.

Back Next Duplicate Previous Insert Leg Delete Leg Clear Completed

In this example, the traveler was in a normal **lodgings plus** per diem situation for several **days** at the TDY site. On **07/18/21**, however, the traveler went on-board a government ship. Notice that a **departure** from **LDP - Lodgings Plus** and an **arrival** into **SD - Sea Duty** was entered.

On **07/23/21** the traveler **disembarked** and **returned** to the TDY mission. Notice that a **departure** from **SD - Sea Duty** and an **arrival** into **LDP - Lodgings Plus** was entered.

Tip: CS was used as the mode of **transportation**, since no travel was actually performed. This entry was made only to **change** the per diem **status**.

2. **Complete** the rest of the **itinerary** as usual and **finish** processing the **request**.

Tip: After **completing** the **itinerary**, IATS users should **review** and perhaps **modify** the **meal types** for the days **arriving** and **departing** the **ship** at the **Exceptions to Daily Expenses** screen.

Refer to the **Help** topic, "[Daily Exceptions](#)", for additional **instructions** on making **changes** to the daily **meal types**.

Civilians - On Board Ship

Settlements involving TDY on-board a **government ship** have a significant impact upon the per diem calculation. Travelers are subject to the on-board per diem rate effective at 0001 on the day after arriving on-board and terminating at 2400 on the day prior to departing the ship. IATS is designed to accurately calculate per diem while on-board a government ship when the correct input is made.

The correct input requires **arriving** the traveler into a **TDY** situation using Government Ship (**GS**) as the **per diem reimbursement method**.

It may be necessary, however, to **arrive** the traveler into **another** type of per diem reimbursement **method** prior to the commencement of the duty on board. If so, it will be necessary to **depart** the traveler from this status and **arrive** them into the **Government Ship** status.

In addition, when the traveler is a DoD civilian, an additional allowance is added to the on-board per diem rate if the traveler **pays for lodging**. After selecting **GS** as the reimbursement method, a *drop down list* appears at the **Lodging** field and the user must select one of the following options:

- **NLC** - No Lodging Cost
- **PFL** - Pays for Lodging

 **Complete the following steps to "activate" the Government Ship per diem method:**

1. At the **Method** field, when entering data into the **Itinerary** screen, a drop down listing appears displaying several computation **methods**. Either **type** the letters **GS** or **click** on the *Up/Dn arrows* to highlight GS - Government Ship and then **click** on this method or simply **press Tab**.

The screenshot shows the 'Actual Itinerary' tab in the IATS system. At the top, there are tabs for 'What's Authorized', 'Actual Itinerary', and 'Reimbursables'. Below these is a dropdown for 'Actual Trip Duration' set to 'Greater than or equal to 24 hours'. The main part of the screen is a table with columns: Date, Location, Trans Reason, Duty Day, IDL OMN, Local Method, Group Lodge, Embark Meals, AE %, and Who Else Lodging, Taxes, Miles. The table contains four rows of data. The last row, dated 07/23/2020, shows a departure from Norfolk US Atlantic Fleet Trng, Norfolk, VA, with a 'Trans Reason' of TD and a 'Local Method' of GS. A dropdown menu is open over the 'Local Method' field, showing options: 'NLC - No Lodging Cost' (highlighted in blue) and 'PFL - Pays For Lodging'. Below the table are several buttons: 'Back', 'Next', 'Duplicate Previous', 'Insert Leg', 'Delete Leg', 'Clear', and 'Completed'.

Date	Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	AE %	Who Else Lodging	Taxes	Miles
07/20/2020	IND, Marion, INDIANA	CP	<input type="checkbox"/>	<input type="checkbox"/>		<input type="checkbox"/>	<input type="checkbox"/>				
07/20/2020	Norfolk US Atlantic Fleet Trng, Norfolk, VA	TD	<input checked="" type="checkbox"/>	<input type="checkbox"/>	ILPP	CQ	CM	96.00	\$75.00	\$10.00	0
07/23/2020	Norfolk US Atlantic Fleet Trng, Norfolk, VA	CS	<input checked="" type="checkbox"/>	<input type="checkbox"/>		<input checked="" type="checkbox"/>	<input type="checkbox"/>				
07/23/2020	Norfolk US Atlantic Fleet Trng, Norfolk, VA	TD	<input checked="" type="checkbox"/>	<input type="checkbox"/>	GS	NLC		96.00	\$0.00	\$0.00	0

In this example, the traveler was in a normal **lodgings plus** per diem situation for several days at the TDY site. On **07/23/20**, however, the traveler went on-board a government ship. Notice that a **departure** from **LDP - Lodgings Plus** and an **arrival** into **GS- Government Ship** was entered.

Tip: **CS** was used as the mode of **transportation**, since no travel was actually performed. This entry was made only to **change** the per diem **status**.

2. At the **Lodging** field. Users must determine whether the traveler was required to **pay** for **lodging** while on board and **make** the proper selection.
3. At the **Meals** field, another *drop down list* appears and the user must select one of the following options:
 - **GM** - Government Mess

• **DED - Deductible Meals**

4. After making the required selections for the **reimbursement method, lodging, and meals**, complete the **remainder** of the **itinerary** as usual and **finish** processing the settlement.

Note: If the traveler **returned** to the original per diem reimbursement method after disembarking from the government ship, **make** the proper entries to **depart** the traveler **out** of the **GS - Government Ship** method and arrive back into the applicable per diem reimbursement method.

UN Peacekeeping Missions

When service members perform TDY on a **UN Peacekeeping Mission**, they are subject to a **special rule** regarding the computation of per diem. In accordance with the **JFTR, para. U4155**, these travelers are only entitled to the difference, if any, between the UN mission subsistence allowance and the standard per diem allowance for a member TDY to the same area on a **non-UN mission**.

IATS, therefore, does not calculate any **per diem** for performing duty on a UN peacekeeping mission. Any difference due the member must be manually calculated and **entered** as a **reimbursable expense**.

 **Complete the following steps to "activate" the UN Peacekeeping Mission per diem method:**

1. At the **Method** field, when entering data into the **Itinerary** screen, a drop down listing appears at the Method field, if you **click** on the *down arrow* button, displaying several computation **methods**. Either **type** the letters **UNP**, or **click** on the *Up/Dn arrows* to highlight UNP - UN Peace Keeping and then **click** on this method or simply **press Tab**.

2. **Complete** the rest of the **itinerary** as usual and **finish** processing the **request**.

Note: Remember, IATS does not calculate any **per diem** for performing duty on a UN peacekeeping mission. Therefore, any difference due the member must be manually calculated and **entered** as a **reimbursable expense**.

Entering Occasional Expenses

For **certain** types of travel **situations**, per diem is not payable. If a traveler is required to use **personal funds** to purchase **meals** or **lodging**, however, these expenses are considered to be **Occasional Expenses**. Reimbursement for the **purchase** of **occasional expenses** typically occur under one of the following **circumstances**:

- Round Trip performed in 12 Hours or Less
- Duty on board a Government Ship
- Field Conditions
- Group Travel

If one of these situations apply, the **Occasional Expenses** screen is used to capture the expenses for lodging and meals purchased by the traveler with personal funds.

 **Complete the following steps to "enter" Occasional Expenses:**

1. After **finishing** the **itinerary**, complete the **Constructed Itinerary** screen, if applicable, and the **Reimbursables** screen.
2. After clicking the **OK** button at the **Reimbursables** screen, a **message** appears asking if you want to **view/modify** the **occasional expenses**. Click on the **Yes** button. The **Occasional Expenses** screen appears.

Tip: The IATS user can go **directly** to the **Occasional Expenses** screen by **clicking** on the **Occasionals** button at the bottom of the **Actual Itinerary** tab.

Occasional Expenses - Block No: - Request No: NEW

SMITH, MARKY M TONO: 060121TDY

Arrive Date	Location	Reason for Stop	Method	Lodging Type	Lodging Cost	Meal Types
6/15/2021	KABUL (LODGING US GOV FACILITY, AF	TD	UNP	GQ	\$0.00	GM
7/29/2021	IND, IN, Marion	MC	LDP		\$0.00	

Date	Type	Location	Amount	Taxes
6/16/2021	Government Breakfast		\$0.00	\$0.00

Select the type of expense incurred by the traveler

3. At this screen, **make the required entries** at each of the following fields:

Tip: Notice that the **travel legs** for the trip are **shown** in the **Itinerary** section for **information** purposes. This will **assist** the IATS user in **determining** which **dates** are applicable to occasional expenses.

4. **Date:** If the **correct** date is displayed at the date field, **press Tab** to continue. If not, **click** on the **down arrow** button to display a list of dates applicable for the trip. **Click** on the desired date for the occasional expense being entered.
5. **Type:** At this field, **click** on the **down arrow** button to display a **drop down list** of various **types** of occasional expenses. Use the **Up/Dn arrows** or press the **Up/Dn arrows** on the **keyboard** to scroll through the list. When the correct type is highlighted, **press Tab** or **click** on the highlighted **type** to make a **selection**.
6. **Location:** The location entered at this field should be the location where the **official duty** was **performed** or the traveler **remained overnight**. At this field, the **Location Selection** screen automatically appears. At the **State/Country** field, **type** the first two letters of the state or country name. If necessary, **click** the **Up/Dn arrows** until the desired name is displayed. **Click** on the highlighted name or **press Tab** to make the selection. At the **City / Zip Code** or **Country** fields, type the first two letters of the city name. This displays a listing of city names, for the previously selected state or country, beginning with those letters. Use the same procedures for selecting the **State** or **Country** to **select** the **City** name.
7. **Amount:** Type the **dollar amount** claimed for the occasional expense.
8. **Taxes:** If the TDY location is within CONUS, Alaska, Hawaii, or a US territory, the user is prompted to enter the daily lodging **taxes** amount. IATS will automatically reduce the taxes by the appropriate percentage when the claimed amount for **lodging** exceeds the authorized amount. If these taxes are entered at the Occasional Expenses screen, do not enter them again at the **Reimbursables** tab. The amount calculated for the taxes will appear on the **Calculations** tab after the trip has been completely entered.
9. When **finished** entering the occasional expenses, **click** on the **OK** button and complete the claim as usual.

Inpatient in Hospital

When a service **member**, performing **TDY**, becomes ill or injured, and requires **hospitalization**, the new duty status is changed to **Inpatient Station**. **No entitlement to per diem** exists under this condition. A member, however, is entitled to reimbursement for occasional expenses for **meals, lodging, and retained lodging**, if these were procured at personal expense.

A similar situation exists when **hospitalization** at a location other than the **PDS** is necessary and requires **travel at government expense**. In this case, the member is entitled to **per diem** for the **travel to and from** the hospital, but not while in an **inpatient status**.

The **prohibition** to per diem for a traveler in the **Inpatient in Hospital** situation is **effective** beginning at **0001** on the day after the day of admission in the hospital. In addition, this prohibition remains in **effect** until **2400** on the day prior to the day of discharge.

If the traveler was performing **TDY** and required hospitalization, it is **necessary** to **depart** the traveler from the original per diem reimbursement method and **arrive** them into the **Inpatient in Hospital** status. Upon **discharge** from the hospital, the IATS user must **depart** the traveler from the **Inpatient in Hospital** status and **arrive** them **back** into the original per diem reimbursement method if **returning** to the **TDY** mission.

 Complete the following steps to "activate" the Inpatient in Hospital per diem method:

1. At the **Method** field, when entering data into the **Itinerary** screen, a drop down listing appears displaying several computation **methods** (if you click on the *down arrow* button). Either **type** the letters **INP** or **click** on the *Up/Dn arrows* to highlight **INP - Inpatient in Hospital** and then **click** on this method or simply **press Tab**.

In this example, the traveler was in an **ILP** per diem situation for several days at the TDY site. On **07/16/22**, however, the traveler was admitted to the hospital. Notice that a **departure** from **ILP** and an **arrival** into **INP - Inpatient in Hospital** was entered.

On **07/18/22** the traveler was discharged and **returned** to the **TDY** mission. Notice that a **departure** from **INP - Inpatient in Hospital** and an **arrival** into **ILP** was entered.

Note: **CS** (Change Status) was used as the mode of **transportation**, since no travel was actually performed. This entry was made only to **change** the per diem **status**.

2. **Complete** the rest of the **itinerary** as usual and **finish** processing the **request**.
3. After **completing** the Reimbursables screen and **clicking** on the **OK** button, a *pop-up* appears asking if you want to **view/modify** occasional expenses. **Click** on the Yes button and **enter** any **occasional expenses** claimed by the traveler, if applicable.

Tip: After **completing** the **itinerary**, IATS users should **review** and perhaps **modify** the **meal types** for the days **arriving** and **departing** the **hospital** at the **Exceptions to Daily Expenses** screen.

Refer to the **Help** topic, "Daily Exceptions", for additional **instructions** on making **changes** to the daily **meal types**.

Inpatient Outside of Hospital

When a service member, performing TDY, becomes ill or injured, and is considered to be an inpatient, but does not require hospitalization, the new duty status is changed to **Inpatient Outside of Hospital**. No entitlement to per diem exists under this condition. A member, however, is entitled to reimbursement for occasional expenses for meals and lodging, if these were procured at personal expense.

The prohibition to per diem for a traveler in the **Inpatient Outside of Hospital** situation is effective beginning at 0001 on the day after the day of in the hospital. In addition, this prohibition remains in effect until 2400 on the day prior to the day of discharge.

If the traveler was performing TDY and went into a **Inpatient Outside of Hospital** status, it is necessary to depart the traveler from the original per diem reimbursement method and arrive them into the **Inpatient Outside of Hospital** status. Upon discharge from this status, the IATS user must depart the traveler from the **Inpatient Outside of Hospital** status and arrive them back into the original per diem reimbursement method if returning to the TDY mission.

 Complete the following steps to "activate" the Inpatient Outside of Hospital per diem method:

1. At the **Method** field, when entering data into the **Itinerary** screen, a drop down listing appears displaying several computation methods (if you click on the down arrow button). Either type the letters **INPO** or click on the Up/Dn arrows to highlight **INPO - Inpatient Outside of Hospital** and then click on this method or simply press **Tab**.

In this example, the traveler was in an **ILP** per diem situation for several days at the TDY site. On **07/16/22**, however, the traveler's status was changed to **Inpatient Outside of Hospital**. Notice that a departure from **ILP** and an arrival into **INPO - Inpatient Outside of Hospital** was entered.

On **07/18/22** the traveler was discharged and returned to the TDY mission. Notice that a departure from **INPO - Inpatient Outside of Hospital** and an arrival into **ILP** was entered.

Note: CS was used as the mode of transportation, since no travel was actually performed. This entry was made only to change the per diem status.

2. Complete the rest of the itinerary as usual and finish processing the request.

3. After **completing** the **Reimbursables** screen and **clicking** on the **OK** button, a *pop-up* appears asking if you want to **view/modify** [occasional expenses](#). **Click** on the **Yes** button and **enter** any **occasional expenses** claimed by the traveler, if applicable.

Tip: After **completing** the **itinerary**, IATS users should **review** and perhaps **modify** the **meal types** for the days **arriving** and **departing** the **Inpatient Outside of Hospital** status at the **Exceptions to Daily Expenses** screen.

Refer to the **Help** topic, "[Daily Exceptions](#)", for additional **instructions** on making **changes** to the daily **meal types**.

Voluntary Return by POC

Travelers on extended TDY trips often voluntarily return home on non-duty days when the **TDY point** is reasonably close to their **residence**. When travelers voluntarily return home and then return to the **temporary duty point**, they are **entitled** to **reimbursement** for their travel expenses. However, these expenses (usually mileage reimbursement) **may not exceed** the **cost** to the **government** had the traveler remained at the **TDY point**.

Being absent from the TDY point while on a Voluntary Return (VR), affects the per diem calculation. In order for IATS to make the proper calculation, the per diem **status** must be **changed** to a **voluntary return** status. This is accomplished by departing the traveler from the **TDY point**, arriving them at the **VR point**, and entering VR as the **Reason for Stop**.

 Complete the following steps to "enter" a Voluntary Return by POC settlement:

ETTRA Settlements

ETTRA Settlements - Overview

If an employee is on a **extended taxable TDY** assignment, then all allowances and **reimbursements** for travel expenses, plus all travel expenses that the Government pays directly on the employee's behalf in connection with the TDY assignment, are **taxable** income.

This includes all allowances, **reimbursements**, and direct **payments to vendors** from the day that the employee or the employee's agency recognized that the extended TDY assignment was expected to exceed one year.

The agency will **reimburse** the employee for substantially all of the income **taxes** that were incurred as a result of the extended Taxable TDY assignment..

This reimbursement consists of **two parts**:

- (1) The Withholding Tax Allowance (**WTA**).
- (2) The "Extended TDY Tax Reimbursement Allowance" (**ETTRA**) previously known as the (**ITRA**) "Income Tax Reimbursement Allowance".

Note: For the ETTRA reimbursement, your agency will use the **same one year or two year process** that is currently used for the relocation income tax allowance (**RITA**).

The **process** for reimbursing the employee for the tax burden associated with a taxable extended TDY assignment will always involve (at least) two ETTRA **payments**.

(1) The **first** payment is referred to as the **Initial** Extended TDY Tax Reimbursement Allowance. The initial payment is made in the **year following** the **conclusion** of the taxable extended taxable TDY **assignment**.

(2) The **second** payment is referred to as the **RITA Type** Extended TDY Tax Reimbursement Allowance. The RITA Type payment is made in the **year following** the **payment** of the Initial **ETTRA**.

Following is a typical **example** using the calendar years **2014** and **2015** as the **years** the Extended Taxable TDY Assignment **spanned**:

- If taxable reimbursements had date **paid** in **2014**, then in **2015** a (1st Year) **Initial** ETTRA would be computed on it. In **2016** the (2nd Year) **RITA Type** ETTRA would be processed against that (1st Year) **Initial** ETTRA claim.
- If additional taxable reimbursements are received in **2015**, then in **2016** the (2nd Year) **Initial** ETTRA would be processed. In **2017** the (2nd Year) **RITA Type** ETTRA would be processed against that (2nd Year) **Initial** ETTRA claim.

Note: You will generally always have **4** ETTRA's during an Extended Taxable TDY Assignment....one a year for **4** years, but they will only **span two tax years**, **unless** the travel spans three calendar years. In that case, you will have **6** total ETTRA's **spanning** those same 3 tax years.

Processing ETTRA Settlements

If an employee is on a **taxable extended TDY** assignment, then **all allowances** and **reimbursements** for travel expenses, plus **all travel expenses** that the Government pays directly on the employee's behalf in connection with the TDY assignment, are **taxable** income.

This includes **all allowances, reimbursements**, and direct **payments to vendors** from the day that the employee or the employee's agency recognized that the extended TDY assignment was expected to exceed one year.

The agency will **reimburse** the employee for substantially all of the income **taxes** that were incurred as a result of the taxable extended TDY assignment..

This reimbursement consists of two parts:

- (1) The Withholding Tax Allowance (**WTA**).
- (2) The "Extended TDY Tax Reimbursement Allowance" (ETTRA) previously known as the (**ITRA**) "Income Tax Reimbursement Allowance".

 **Complete the following steps to "enter" an (Initial) ETTRA Settlement Request:**

1. **Login** to IATS in the **Examiner** View mode or change the View to Examiner, if necessary.
2. Select or [create a block](#) for processing.
3. At the **Request Selection** screen, **select** the desired ETTRA Request if it was already **logged** to the block. If the request was not previously **logged** to the block, **click** the **New** button and the **Select Traveler** screen appears.
4. **Click** in the appropriate **radio button** to **select** your search **by** either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab** to **access** the traveler's **profile**.
5. When the traveler's information is displayed, **click** on **OK**. The **Travel Order Selection** screen appears.
6. At the **Travel Order Selection** screen, **click** on the desired **travel order number** and then **click** on **OK**.
7. Since previous **claims** for the **extended TDY** trip have been processed, the **Select Supplemental To** screen will appear.

10. IATS **returns** to the **Settlement Request** screen.
11. **Finish** processing the claim as usual by adding the **accounting** lines and entering any desired **remarks**.

Partial Settlements

Partial Settlements - Overview

Note: For **Navy** users only, you now have the capability of processing Partial Settlements for **PCS** travel as well. There are **three** important **issues** that you must be aware of, however:

1. For **Beginning** and **Middle** periods, the **effective date of orders** must be the **Pay To Date**. It cannot be a **future** date.
2. For the **Ending/Final** period, compute the **effective date of orders** in accordance with the travel **regulations**.
3. The payment of **DLA** should only be included in the **Ending/Final** period since the effective date of orders has an affect on the proper rate.

Travelers who perform **TDY/PCS** for an extended **period**, are expected to **file** a partial **settlement** every **30 days**. The partial settlement **amount** paid to the traveler is for the **per diem** accrued during the **period** listed on the claim.

When processing partial settlements, the first **claim** submitted is considered to the beginning **period**.

The subsequent **periods** are either middle **periods**, or a final **period**.

It is **possible** to not have a middle **period**.

If the beginning **partial** was for **30 days** and there were only **20 days** remaining on the trip, the next **period** is the **final**.

Click on the **See Also** button below and **select** the particular **topic** for additional **information** on working with **Partial Settlements**.

Entering the Beginning Partial Settlement

In order to process a **partial Settlement**, users must specify that the **type** of settlement is a **partial** and must also specify the **type** of partial. This is accomplished at the **Settlement Request** screen.

 Complete the following steps to "enter" a beginning partial settlement:

Settlement Request - Block No: 76071 - Request No: NEW

JONES, DEVIN G: E7 TOND: LTTDY

Request Type - Settlement

Type of Settlement: Partial Type of Partial: Beginning Partial

1. **Type of Settlement:** - At this field, **click** on the *down arrow* button to **display** the list of settlement **types** and then **click** on **Partial**.
2. **Type of Partial:** - At this field, **click** on the *down arrow* button to **display** the list of partial **types** and then **click** on **Beginning**.

The next key **requirement** for processing a **partial settlement** occurs at the **Actual Itinerary** tab. At this tab, the user must specify the **Pay To** period.

Note: For **Navy** users, the **Beginning** and **Middle** periods, the **effective date of orders** must be the **Pay To Date**. It cannot be a **future** date.

What's Authorized Actual Itinerary Reimbursables

Actual Trip Duration: Greater than or equal to 24 hours Pay To: 2/28/2021

3. **Pay To:** - At this field, **type** the end of the beginning partial period in **MMDDYY** format.
4. Complete the **itinerary** as usual.

Note: The user will **notice** that IATS automatically populates the **Reason** field with **MC** to indicate the end of the payment **period**. In addition, the **columns** that are normally populated with Depart (**DEP**) and Arrive (**ARR**) now show **STOP** and Continue (**CONT**). This **indicates** that this is the end of this **period** and an additional period is **pending**.

5. **Finish** processing the request for settlement as usual.

Click on the **See Also** button below and **select** the particular **topic** for additional information on working with Partial Settlements.

Entering the Middle Partial Settlement

In order to process a **partial TDY Settlement**, users **must specify** that the **type** of settlement is a **partial** and must **also specify** the **type** of partial. This is accomplished at the **Settlement Request** screen.

 Complete the following steps to "enter" a middle partial settlement:

Settlement Request - Block No: PART2 - Request No: NEW

JONES, DEVIN G: E7 TONO: LTTDY

Request Type - Settlement

Type of Settlement: Partial Type of Partial: Middle Partial

1. **Type of Settlement:** - At this field, **click** on the *down arrow* button to **display** the **list** of settlement **types** and then **click** on **Partial**.
2. **Type of Partial:** - At this field, **click** on the *down arrow* button to **display** the **list** of partial **types** and then **click** on **Middle**.

The next key **requirement** for processing a **partial TDY settlement** occurs at the **Actual Itinerary** tab. At this tab, the user **must specify** the **Pay From/To** period.

6. **Finish** processing the request for settlement as usual.

Click on the **See Also** button below and **select** the particular **topic** for additional information on working with Partial Settlements.

Processing a Full Claim

When working with **partial** settlements, sometimes it may be necessary to **recalculate** the **entire trip** from start to finish. The **Full Claim** feature provides this opportunity. When a Full Claim is processed, IATS recalculates the entire trip and deducts any previous partial settlements.

Note: This feature also applies to **Evacuation Travel** claims.

 **Complete the following steps to "process" a Full Claim settlement:**

1. **Select** or **create** the desired **block**.
2. **Select** the **traveler** and the correct **travel order**.
3. After selecting the traveler and the travel order, the **Select Supplemental To** screen is displayed.

Select Supplemental to:

Block No. FULLPART

JONES, DEVIN G TONO: LTTDY

Claim No.	From Date	To Date	Amount	Type
65	2/5/2021	2/28/2021	\$1,736.89	
66	3/1/2021	3/31/2021	\$1,975.00	
67	4/1/2021	4/30/2021	\$1,995.21

Review or enter advances against this claim

Note: If you **click** on the **Adv/Accr!** tab, any prior payments existing in the database that were processed against the travel order for the claim currently being processed are displayed.

- Now you would **process** the claim as you would any other TDY settlement and IATS will **deduct** the previous payments from the calculated amount.

Processing a Supplemental to Multiple Partial Payments

A feature was added to IATS to allow the IATS user to be able to process a supplemental payment to multiple previously paid TDY partial payments.

Note: This feature also applies to **Evacuation Travel** claims as well.

 **Complete the following steps to "process" a Supplemental payment for Multiple Partial Settlements:**

1. Select or [create a block](#) for processing.
2. At the **Request Selection** screen, **select** the desired request if it was already **logged** to the block. If the request was not previously **logged** to the block, **click** the **New** button. The **Select Traveler** screen appears.
3. **Click** in the appropriate **radio button** to **select** your search **by** either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. At the Traveler Order Selection screen, any travel orders existing in the database for the selected traveler appear in the **Order** section.
5. **Ensure** that the order **number** associated with the original settlement is **selected**.
6. After selecting the order, the **Select Supplemental To:** screen appears.

Review or enter new entitlements for this claim.

10. At this screen, **click** on the **Entitlements** tab.
11. At the **Entitlements** tab, the selected **partial settlements** processed against the selected travel order are **displayed** in the **Types of Entitlements Claimed** section.
12. **Click** on the **partial settlement** you wish to modify and then click on the **View/Modify** button to continue.
13. At the **Trip** screen, **determine** whether the **Actual Itinerary** or the **Reimbursables** tab requires **modification** and **click** on the **appropriate** tab.
14. After clicking on the [Actual Itinerary](#) or the [Reimbursables](#) tab, **make** the necessary changes to the original entries.

Tip: If any **changes** are made to the **Itinerary**, be sure to **click** on the [Exceptions](#) button and **click** the Yes button to have IATS **recalculate** the daily meals or lodging and then **click** the **OK** button to proceed.

15. IATS **returns** to the **Settlement Request** screen.

Note: Repeat steps 12 - 14 for any other partial settlements listed in the **Types of Entitlements Claimed** section.

16. After making the required changes to the **Itinerary** and/or the **Reimbursables** tab, **click** on the [Financial tab](#) and **modify** the **accounting** lines to reflect the **changes** to the entitlement.

Note: The accounting lines should **reflect** the amount due the traveler or due the US based upon the **changes** made with the **supplemental** settlement. It's a good idea to **review** the **Calculations** tab before proceeding to the **Financial** tab to **determine** the amount due the member or due the US.

17. After **adjusting** the accounting lines, **add** any desired [remarks](#) and **finish** processing the **request**.

Reservist Travel

Reservist Travel Overview

IATS allows you to process travel settlements for **Reservists** for a variety of reserve travel situations.

There are three primary situations pertaining to reserve travel as follows:

- Active Duty
- Inactive Duty
- Annual Training

Each one of these situations has an affect on the member's entitlements and involve unique input requirements in order for IATS to accurately calculate the payment.

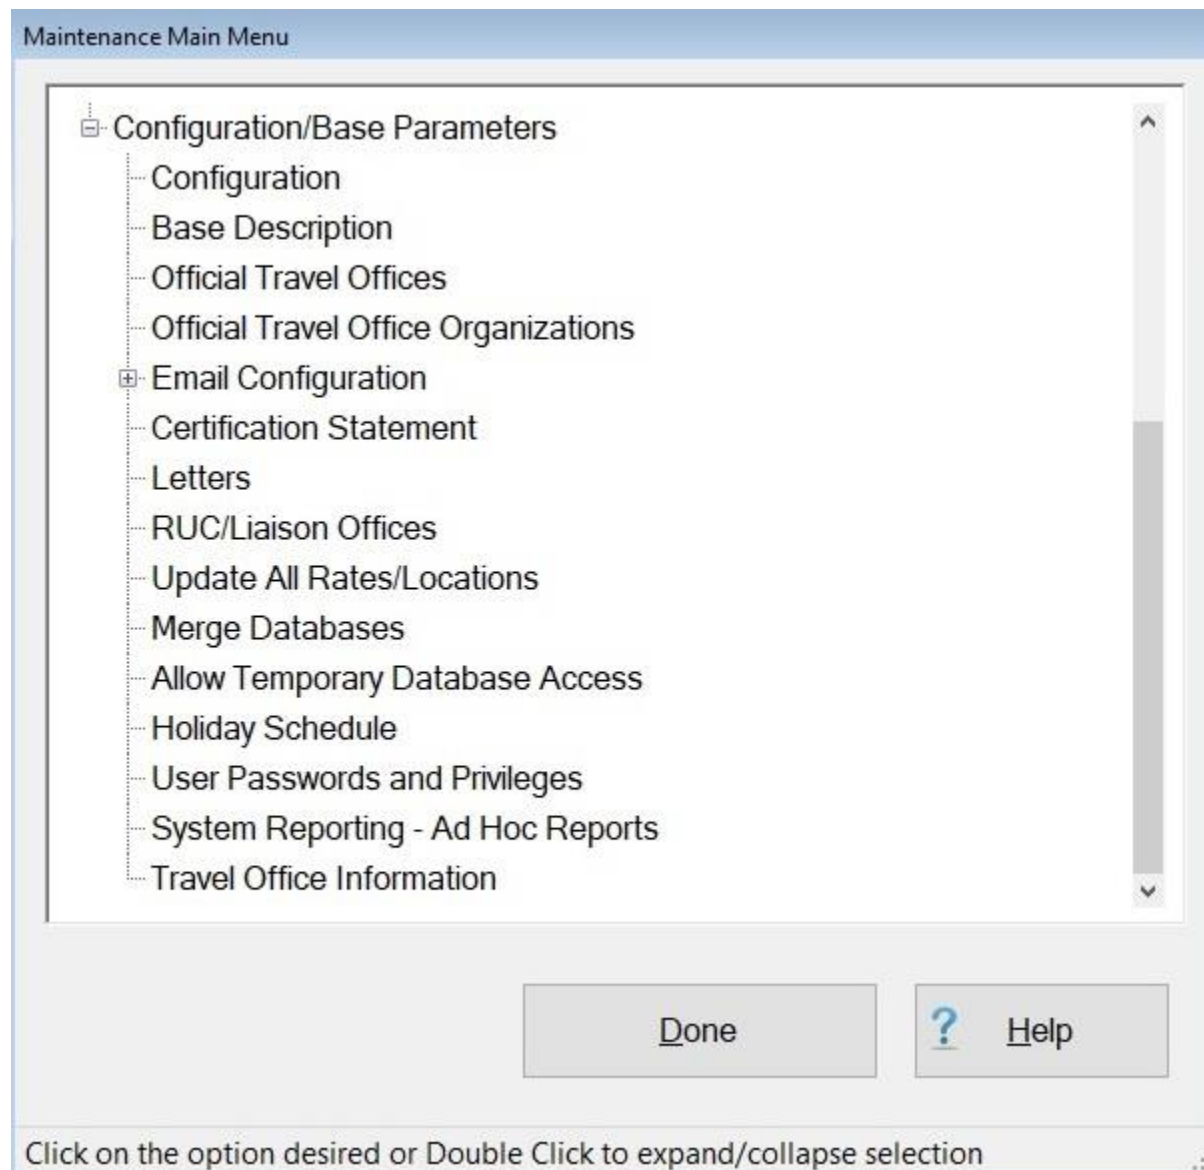

Click on the **See Also** button below and **select** the particular **topic** for additional information on processing Reservist Travel claims.

Activating the Reservist Travel Option

In order to use this feature, your **System Administrator** must access the **Maintenance** module and **activate** the Reservist Travel feature.

 Complete the following steps to "activate" Reservist Travel:

1. Log into IATS and then **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the left of the item **Configuration/Base Parameters** and then **click** on the **Configuration** option.

2. At the **Maintenance Main Menu**, **click** on the **plus sign** to the left of the item **Configuration/Base Parameters**.
3. **Click** on the **Configuration** option. IATS will display the **Maintain System Configuration** screen.

4. At the **System Description** section, **click** in the **check box** next to the words **Reservist Travel** to activate this option.
5. When you are satisfied that Reservist Travel is activated, **click** on the **OK** button and then **exit** the **Maintenance** module.

Click on the **See Also** button below and **select** the particular **topic** for additional **information** on processing Reservist Travel claims.

Selecting the Type of Reservist Travel

Once the **Reservist Travel** feature has been **activated** in the IATS Maintenance module, you will see a **new field** on the **Entitlements** Tab when the **Settlement Request** screen is displayed.

Next to the **Travel Not Performed** check box you will see field displaying the default value "**Not a reservist**". If the claim you are processing is not for **reserve** travel, no action is necessary and you would continue to process the claim as usual.

If the claim is for reserve travel, however, you would **click** on the **down arrow** at this field to display the reserve travel options and then **click** on the desired option.

Click on the **See Also** button below and **select** the particular **topic** for additional information on processing Reservist Travel claims.

Reservist - Active

Members of the reserve components are entitled to **TDY** entitlements when called (or ordered) to **active duty** for any reason with pay orders which provide for return home or to the place (from which the Reservist) entered active duty (PLEAD) in accordance with the JFTR Chapter 7, paragraph U7150.

 Complete the following steps to "process" a Reservist Travel claim for Active Duty:

1. Click on the *down arrow* at the **Not a Reservist** field at the **Entitlements** tab on the **Settlement Request** screen to display the reserve travel options.

- After you have specified the **duration** of the trip on the **Actual Itinerary** tab, **press** the **Tab** key to advance to the **Date** field.
- At the **Date** field, either enter the depart date in **MMDDYY** format or **press** the **Tab** key again. If you do not manually enter a depart date, IATS will automatically use the **begin date** for the trip that was entered at the Travel Order screen.
- When you **Tab** past the **Date** field to the **Location** field, IATS will display the **Location Selection** screen.
- When the **Location Selection** screen is displayed, **select** the traveler's **home duty station** location.

10. After selecting the home duty station location, **finish** entering the **itinerary** and then **complete** the **claim** as you would for a normal TDY claim.

Reservist - Inactive

In accordance with the JFTR Chapter 7, paragraph U7150, a reserve member's assigned unit is the designated post of duty.

General Rules

- If the Inactive duty training (IADT) is at the member's unit or headquarters no per diem or transportation expenses are payable
- If the (IADT) is at an alternate point per diem and transportation expenses are payable
- If the alternate point is within commuting distance, no per diem is payable, and mileage is limited to the additional mileage over what the member normally travels to his/her home station

 **Complete the following steps to "process" a Reservist Travel claim for Inactive Duty Training:**

1. **Click on the *down arrow* at the **Not a Reservist** field at the **Entitlements** tab on the **Settlement Request** screen to display the reserve travel options.**

Reservist - Annual Training

Each year, members of the reserve components are required to perform a period of Annual Training (AT). This training can be performed at the member's home station or at an alternate point.

In accordance with the JFTR Chapter 7, paragraph U7150, a reserve member performing AT is subject to the following general rules pertaining to travel and transportation allowances:

General Rules

- If the Annual Training (AT) is within the same city as the member's home no per diem or transportation expenses are payable
- If the AT is within commuting distance of the member's home, mileage is paid for one round trip from home to the Annual Training/Active Duty Location
- If the AT is outside of commuting distance and Government quarters and meals are provided for full days, no per diem is authorized. Per diem is authorized and payable for the travel days. The member is also entitled to mileage for one round-trip

 Complete the following steps to "process" a Reservist Travel claim for Annual Training:

1. Click on the **down arrow** at the **Reserve Travel Type** field at the **Entitlements** tab on the **Settlement Request** screen to display the reserve travel options.

The screenshot shows the 'Settlement Request' interface for 'JOHNSON, DUSTIN J E7' with 'TONO: RESVTDY'. The 'Request Type' is 'Settlement' and the 'Type of Settlement' is 'Final - First Submission'. The 'Entitlements' tab is active, showing a table with columns for 'Trips/Type' and 'Status'. A dropdown menu is open over the 'Reserve Travel Type' field, listing options: 'Reservist - Annual Training', 'Not a Reservist', 'Reservist - Active', 'Reservist - Inactive', and 'Reservist - Annual Training'. The 'Within Commute Distance' checkbox is present and unchecked. Navigation buttons like '<Back', 'Next>', 'Daily Summary', 'Elapsed Time', 'Cons. Comp.', and 'Show Calc.' are visible at the bottom of the entitlements section. At the very bottom of the screen are buttons for 'Receipts...', 'Other...', 'SAVE', 'Cancel', and '? Help'.

2. Click on **Reservist - Annual Training**.
3. After selecting **Reservist - Annual Training**., a check box and the words "**Within Commute Distance**" appears next to the Reserve Travel Type field.

- Complete** the **itinerary** as you would for a normal TDY claim.
- After completing the itinerary, IATS will display the **Constructed Itinerary** tab if **POC** was used for the travel.
- After taking the required action at the Constructed Itinerary tab, if any, **complete** the **claim** as you would for a normal TDY claim.

Reserve Split Status Travel

Reserve Split Status Travel - Overview

IATS allows you to process travel settlements for **Reservists** who are traveling under multiple **Statuses**.

Quite often multiple sets of travel **orders** are **issued** to Reservists performing travel on behalf of the Government that **fund** certain **segments** of the trip. In addition, many Reservists have a dual **status**. For a portion of the trip, they may be performing the mission as a **military** member, and a portion of the trip as a DoD **civilian**.

When this situation occurs, a status change is **required** to accurately **calculate** the entitlements and properly **account** for the expenditures.

This type of settlement with IATS is treated much like a **partial** settlement. IATS gives you the capability to process one **Beginning**, multiple **Middles**, and one **Ending** Reserve Split Status settlement(s).

While processing these **beginning**, **middle**, and **ending** settlements, you will be able to **change** the Reservist's **status** to either **Enlisted**, **Officer**, or **Civilian** as needed.

In addition, when completing the **accounting** screen, IATS will **break** the entitlements down by the individual **trips** when **Manual Accounting** is used rather than Automatic.

Click on the **See Also** button below and **select** the **topic** for detailed **instructions** on how to process a **Beginning**, **Middle**, or **Ending** Reserve Split Status Travel settlement.

Reserve Split Status Travel - Beginning

IATS allows you to process travel settlements for **Reservists** who are traveling under multiple statuses.

While processing a **beginning** Reserve Split Travel Status settlement, you will find several **options** on the **Actual Itinerary** tab. These options allow you to specify whether the settlement is the **beginning**, **middle**, or **ending** portion of the trip.

In addition, you will be able to **change** the Reservist's **status** either to **Enlisted**, **Officer**, or **Civilian** as needed.

Note: This feature works only when the **beginning**, **middle**, and **final** legs are processed on the same claim.

 Complete the following steps to "enter" a beginning Reserve Split Status Travel leg:

What's Authorized	Actual Itinerary	Reimbursables
Actual Trip Duration	<div style="border: 1px solid black; padding: 2px;"> Reserve Split Status Beginning <ul style="list-style-type: none"> No trip itinerary to be entered Greater than or equal to 24 hours Less than 24 hours with lodging Less than 24 hours no lodging Less than or equal to 12 hours <li style="background-color: #e0e0e0;">Reserve Split Status Beginning Reserve Split Status Middle Reserve Split Status Ending Greater than 12 hours Beginning Partial </div>	

Back	Next	Duplicate Previous	Insert Leg	Delete Leg	Clear	Completed
------	------	--------------------	------------	------------	-------	-----------

1. **Actual Trip Duration:** - At this field, **click** on the **down arrow** button.
2. When the **drop down listing** of duration options appears, **click** on **Reserve Split Status Beginning**.
3. **Status:** - After selecting the correct trip duration, the **Member's Status for this Trip** field is displayed. The default value at this field may need to be **changed** depending on the travel **orders** and the traveler's **status** for the beginning portion of this trip.
4. To **change** the traveler's status, **click** on the **down arrow** button. A **drop down listing** of status **options** will appear.
5. **Click** on the either **Enlisted**, **Officer**, or **Civilian** as needed.
6. **Pay To:** - At this field, **type** the **date**, in **MMYYDD** format, for the last day of the payment for the traveler's beginning status. You can also **click** on the **down arrow** button and use the **calendar** to select the date.
7. When completing the **itinerary**, the following special entries are required:

Note: For this **example**, the traveler's **status** is **Civilian** for the travel **to** the TDY site (FT. Knox, KY). On the **day** after the arrival, however, the traveler's **status** will change to **Enlisted**.

- A **departure** is required to **end** this **leg** of the trip. On the **departure** line to close out this status, select, **CS - Change Status**, at the **Transportation** field. This indicates that the trip is **continuing**.
- Since the traveler is not leaving the duty site, on the last arrival line of the itinerary, **select** the duty location where the traveler is **remaining**.

Note: Notice that the columns next to the **Date** field of the itinerary show **RVRT** and **STAT**. This indicates that the traveler's **status** is changing.

- After completing the itinerary, **finish** processing this leg of trip as usual and then **process** either the **middle** or **ending** leg as applicable.

Reserve Split Status Travel - Middle

IATS allows you to process travel settlements for **Reservists** who are traveling under multiple statuses.

While processing a **beginning** Reserve Split Travel Status settlement, you will find several **options** on the **Actual Itinerary** tab. These options allow you to specify whether the settlement is the **beginning**, **middle**, or **ending** portion of the trip.

In addition, you will be able to **change** the Reservist's **status** either to **Enlisted**, **Officer**, or **Civilian** as needed.

Note: This feature works only when the **beginning**, **middle**, and **final** legs are processed on the same claim.

 Complete the following steps to "enter" a middle Reserve Split Status Travel leg:

1. **Actual Trip Duration:** - At this field, **click** on the *down arrow* button.
2. When the *drop down listing* of duration options appears, **click** on **Reserve Split Status Middle**.
3. **Status:** - After selecting the correct trip duration, the **Member's Status for this Trip** field is displayed. The default value at this field may need to be **changed** depending on the travel **orders** and the traveler's **status** for the beginning portion of this trip.
4. To **change** the traveler's status, **click** on the *down arrow* button. A *drop down listing* of status **options** will appear.
5. **Click** on the either **Enlisted**, **Officer**, or **Civilian** as needed.
6. **Pay From:** - At this field, **type** the **date**, in MMYDD format, for the first day of the payment for the traveler's middle status. You can also **click** on the *down arrow* button and use the **calendar** to select the date.
7. **Pay To:** - At this field, **type** the **date**, in MMYDD format, for the last day of the payment for the traveler's middle status. You can also **click** on the *down arrow* button and use the **calendar** to select the date.
8. When completing the **itinerary**, the following special entries are required:

Note: For this **example**, the traveler's **status** is **Enlisted** for the **middle** portion of the trip and will **change** to **Civilian** for the **return** leg of travel back to the PDS.

Mobilization Travel

Mobilization Travel - Overview

Mobilization Travel **occurs** when a **member** or **employee** at their Home of Record (**HOR**) or Permanent Duty Station (**PDS**), is ordered to participate in a **contingency operation** that requires mobilization.

Mobilization Travel includes the following legs:

- **HOR** or **PDS** to the Mobilization Force Generation Installation (**MFGI**) for **Pre-Mobilization**
- **MFGI** to the **Contingency Location** which can also be considered to be a Temporary Change of Station (**TCS**) depending on the number of days spent there
- **Contingency/TCS Location** to the **MFGI** for **De-Mobilization**
- **MFGI** to **HOR** or **PDS**

Due to a new requirement to **show** Mobilization/Demobilization and TDY expenses on separate accounting lines and separated by **fiscal year** some new features were added to IATS to handle these requirements.

Click on the **See Also** button below for a **list of Help Topics** pertaining to **Mobilization Travel**.

Creating Mobilization Travel Orders

Creating an IATS **Travel Order** record, requires the user to **specify** what **entitlements** were **authorized** in accordance with the published orders.

Mobilization Travel Orders must be **created** when a **member** or **employee** assigned to a Permanent Duty Station (**PDS**), is ordered to participate in a **contingency operation** that requires mobilization.

Due to a new requirement to **show** Mobilization/Demobilization and TDY expenses on separate accounting lines and separated by **fiscal year** some new features were added to IATS to handle these requirements.

One of the key new features is the ability to **turn on** the Mobilization Travel feature when **creating** the **Travel Order**.

The screenshot shows the 'Travel Order' form with the following fields and values:

- Traveler's Name: TEST, MOBONE L: E5
- Grade/Rank: E5
- Order Number/TONO: 111111
- Order Type: Normal
- Purpose of Trip: Site Visit
- Issuing Organization: D
- Paying Organization: D
- DSSN/TR: 6416
- Funds: Army
- Group Travel:
- Mobilization: (highlighted with a red box)
- Issue Date: 5/5/2022
- Begin Date: 5/5/2022
- Number of Days: 293
- End Date: 2/21/2023

Buttons at the bottom: Back, Next, OK, Cancel, ? Help.

Footer text: Enter the expected end date of travel for this travel authorization

Complete this screen by entering the required information in each field as described below:

Tip: After entering the required information at an input field, **press Tab** or **click** in the next field to continue.

- **Order Number:** - If not previously entered at the **Travel Order Selection** screen, **type** the **travel order number** as shown on the hard-copy travel order attached to the request for **settlement** or **advance**.

- **Order Type:** - The default order **type** at this field is **normal**. Click on the *down* arrow to display a **listing** of various types and then **click** on **Alaska Leave** to make a selection.
- **Purpose of Trip:** - The **data** input to this field is **posted** to the **travel order detail record**. This information is useful when conducting research or answering inquires. At this field, IATS will automatically default to **Alaska Leave Allowance** as the purpose.
- **Issuing Organization:** - The default **value** previously entered into the **Organization** field, when the travel account was created, is **displayed** in this field. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **Paying Organization:** - The default organization **displayed** is the information **entered** into the **Organization** field when the travel **account** was **created**. This information is **posted** to the **travel order detail record**, and may be useful when conducting research or answering inquires. **Press Tab** to continue or **type** a different organization if desired.
- **DSSN ITR:** - The default **number** displayed is from the **DSSN ITR** field at the **Maintain Base Description** screen in the **Maintenance** module. This number is used to **identify** the **source** of the payment when the payment is **disbursed** at a **DSSN** located other than where the voucher was computed.
- **Funds:** - The type of customer IATS is configured for defaults to this field. No input is **necessary**.
- **Mobilization:** - **Click** in the **check box** to **activate** this option if the issued travel orders indicate that the **purpose** is in support of a **contingency** operation. Activating this option will **turn on** new features added to IATS that will enable the ability to **show** Mobilization/Demobilization and TDY expenses on separate accounting lines separated by **fiscal year**.
- **Issue Date:** - Type the **date** the order was **issued**, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for settlement or advance. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.
- **Begin Date:** - Type the **date** for the beginning of the repetitive period, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for settlement or advance. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.
- **Number of Days:** - If desired, **type** the **number** of days for the trip at this field. That will cause IATS to automatically **calculate** the **End Date** for the trip. **Press Tab** to bypass this field if you would prefer to enter the End Date rather than have it calculated by IATS.
- **End Date:** - If the number of days for the trip was previously entered at the **Number of Days** field, no action is necessary. If not, type the **date** the travel is expected to **end**, in **MMDDYY** format, as shown on the hard-copy travel **order attached** to the request for **advance** or **settlement**. You can also **click** on the *down arrow* button and use the **Calendar** to select the date.

After completing all of the required input fields, **click** the **OK** button to save the entries.

Processing Mobilization Travel Requests

 Complete the following steps to "process" a Mobilization Travel Settlement Request:

1. Select or [create a block](#) for processing.
2. At the **Request Selection** screen, **select** the desired Alaska Leave Settlement Request if it was already **logged** to the block. If the request was not previously **logged** to the block, **click** the **New** button and the **Select Traveler** screen appears.
3. **Click** in the appropriate **radio button** to select your search **by** either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab** to **access** the traveler's **profile** or [create a new traveler profile](#), if necessary.
4. When the traveler's information is displayed, **click** on **OK**. The **Travel Order Selection** screen appears.
5. At the **Travel Order Selection** screen, a **travel order** must be **selected** or **created** if necessary. Any orders **existing** in the IATS database for the selected traveler **appear** in the **Order** section. If the desired **Mobilization Travel** order number is listed, **click** on the **travel order number** and then **click** on **OK**. If the desired **Mobilization Travel** order number is not listed, enter the travel order number at the **TONO** field and **click** on **OK**. You will be required to create an [Mobilization Travel Order](#) before you can process the request.

Note: Before entering the itinerary for a Mobilization Travel Settlement Request, ensure that the **Mobilization** check box is **checked** on the **Travel Order**.

6. After **selecting** or **creating** the **Mobilization Travel Order** the **Settlement Request** screen appears.
7. At the Settlement Request screen, **click** on the **Add Itinerary** button. IATS will display the **Trip** screen.
8. At the Trip screen, **click** on the **Actual Itinerary** tab.

Evacuation Travel

Evacuation Travel Overview

Evacuation Travel refers to **movement** or **departure** from one area to another (both areas may be in the same city or country, or each may be in a different city or country).

An Evacuation occurs when travel must be performed due to the authorized/ordered **movement** of **dependents** from a specific area, when authorized/ ordered by the appropriate authority.

This situation is normally caused by **unusual** or **emergency circumstances** (such as war, riots, civil uprising or unrest, adverse political conditions, denial or revocation by host government of permission to remain, national or natural disasters, epidemics, or similar conditions of comparable magnitude).

Evacuation travel involves the **movement** of **dependents** from the location they are currently residing at to either a Safe Haven (**SH**), or a Designated Location (**DL**) or both.

An **employee** or **member** may also act as an **escort** for a dependent evacuated who is **incapable** of **traveling alone** between the member's PDS and the safe haven or designated place. Round-trip transportation, one-way transportation, or transportation via the point to which the dependent must be escorted, as applicable, is authorized.

In addition, a new **evacuation allowance** was created for Service Members and their dependents when a **localized emergency situation** arises and the member must **evacuate** his/her home, (whether on base, off base, or privatized), **obtain lodging** in the **local area**, and may or may not continue to report to his/her duty station.

Definitions

Designated Place: - A designated place is a location selected by the evacuated dependents as the place where they should **establish a permanent residence** when competent authority determines that their **return** to the **PDS** should not take place or is not expected to take place in the near future.

Safe Haven: - A location anywhere in the world named in the evacuation order, or subsequent modification to that order, to which dependents are directed to relocate on a **temporary** basis to **await** a decision by competent authority to either **return** to the **PDS** or **proceed** to a **designated place**.

Entitlements

Transportation: - Authorization for dependents' **transportation** in connection with Evacuation Travel is the same as that authorized for **PCS** Travel.

Travel for Escorts: - While an employee or member is performing escort duty to escort the dependent(s) between the PDS and the safe haven or designated place, **travel** and **transportation allowances** is authorized as prescribed for all other **TDY**.

Per Diem: - Dependents are authorized a per diem allowance under the Lodgings-plus per diem method for each day they are in an evacuation status. Actual Expense Allowances (**AEAs**) do not apply to an evacuation.

Per Diem While Traveling:

- A **spouse** or **dependent(s)** age **12 or older** is equal to that **payable** to **employees/members** traveling on **TDY** using the Lodgings-plus method
- The per diem for a dependent **under age 12** cannot exceed one half of the amount **payable** to **employees/members** traveling on **TDY** using the Lodgings-plus method

Per Diem at the Safe Haven - First 30 Days:

- A **member, spouse, or dependent(s)** age **12 and older** are authorized the **full** per diem amount for the area concerned

- **Dependents under age 12** are authorized **50 percent** of the per diem rate prescribed for the area concerned

Per Diem at the Safe Haven - After the First 30 Days:

- A **member, spouse, or dependent(s)** age **12 and older** are authorized **60 percent** of the per diem rate prescribed for the area concerned
- **Dependents under age 12** are authorized **30 percent** of the per diem rate prescribed for the area concerned

Per Diem at the Designated Location: - Per diem **begins** on the **day** the dependents **arrive** at the designated place or convert their safe haven to a designated place. Per diem **ends** at **2400** on the **day** the dependents first **occupy** the permanent residence or at **2400** on the 30th day, whichever is earlier.

- A **member, spouse, or dependent(s)** age **12 and older** are authorized the **full** per diem amount for the area concerned
- **Dependents under age 12** are authorized **50 percent** of the per diem rate prescribed for the area concerned

Local Travel Allowances In and Around the Safe Haven and the Designated Location: - Local travel allowances are **authorized** to be paid when dependents are receiving evacuation per diem allowances and have not taken delivery of a **POV** transported to the designated place. A transportation allowance to assist with unexpected local transportation costs may be paid at a rate of **\$25 per day**, regardless of the number of dependents. No receipts are required.

Processing Evacuation Travel Requests

Evacuation Travel refers to **movement** or **departure** from one area to another (both areas may be in the same city or country, or each may be in a different city or country).

An Evacuation occurs when travel must be performed due to the authorized/ordered movement of **dependents** from a specific area, when authorized/ ordered by the appropriate authority.

This situation is normally caused by **unusual** or **emergency circumstances** (such as war, riots, civil uprising or unrest, adverse political conditions, denial or revocation by host government of permission to remain, national or natural disasters, epidemics, or similar conditions of comparable magnitude).

Evacuation travel involves the **movement** of **dependents** from the location they are currently residing at to either a Safe Haven (**SH**), or a Designated Location (**DL**) or both.

In addition, a new evacuation allowance was created for Service Members and their dependents when a **localized emergency situation** arises and the member must evacuate his/her home, (whether on base, off base, or privatized), **obtain lodging** in the **local area**, and may or may not continue to report to his/her duty station.

 Complete the following steps to "process" an Evacuation Travel request for settlement:

1. Select or [create a block](#) for processing.
2. At the **Request Selection** screen, **select** the desired Evacuation Travel Request if it was already logged to the block. If the request was not previously **logged** to the block, **click** the **New** button and the **Select Traveler** screen appears.
3. **Click** in the appropriate **radio button** to **select** your search **by** either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab** to **access** the traveler's **profile** or [create a new traveler profile](#), if necessary.
4. When the traveler's information is displayed, **click** on **OK**. The **Travel Order Selection** screen appears.
5. At the **Travel Order Selection** screen, a **travel order** must be **selected** or **created** if necessary. Any orders **existing** in the IATS database for the selected traveler **appear** in the **Order** section. If the desired travel order number is listed, **click** on the **travel order number** and then **click** on **OK**. If the desired travel order number is not listed, enter the travel order number at the TONO field and **click** on **OK**. You will be required to [create the travel order](#) before you can process the request.

Note: When creating the travel order for an **Evacuation Travel Request for Settlement**, ensure that **Evacuation** is selected for the **Type of Order**.

6. After **selecting** or **creating** the **Evacuation** travel order the **Settlement Request** screen appears.
7. At the **Remit To** tab, **verify** that the traveler's **address** matches the **mailing address** shown on the **DD Form 1351-2** submitted by the traveler and make any necessary changes. When finished, **click** the **Next** button or the **Adv/Accrl tab** to continue.
8. At the [Adv/Accrl tab](#), **look** at **Block # 9** of the **DD1351-2** (Travel Voucher). If this block indicates that an advance was received, **ensure** that this information **appears** at the **Adv/Accrl** tab. If the information does not appear at the **Adv/Accrl** tab, **type** the **details** for the advance payment in the appropriate fields. After completing the **Adv/Accrl** tab, **click** on the **Next** button or the **Entitlements** tab to continue.
9. At the **Entitlements** tab, **click** on the **Add Itinerary** button. After clicking on the **Add Itinerary** button, the **Trip** screen appears with the **What's Authorized** tab in focus.

15. After taking the required action at the **Actual Itinerary** tab, if any, **complete** the **claim** as you would for any other claim.

Student Travel

Student Travel Overview

The **purpose** of **Student Travel** is to send an employee's dependent on one **round trip** each year from the employee's **OCONUS** duty station to a **school** in the **United States**. This type of travel **requires** the creation of a [Student Travel Order](#).

When processing this type of settlement claim, there are a couple of **key points** that are important to know:

1. When you **create** the Student Travel Order, you are **prompted** to enter the **school destination** on the **Travel Order** screen. When you subsequently process the request for **settlement**, you must ensure that you enter the **same** school destination when completing the **arrival** line of the actual **itinerary**.
2. You must process the **arrival** leg and the **return** leg as **separate** trips. Process the first trip to **arrive** the student at the school destination and then process a second trip to **return** the student to the employee's OCONUS duty station using the same **travel order**.

Note: When processing the **arrival** and **return** as **separate** trips, you do not treat the second trip as a **supplemental** to the first trip. When the **Select Supplemental To** screen is displayed, you would **click** on the **Claim is Not a Supplemental** button to process the second trip as a **separate** claim.

Processing Student Travel Requests

The **purpose** of **Student Travel** is to send an employee's dependent on one round trip each year from the employee's **OCONUS** duty station to a **school** in the **United States**. This type of travel **requires** the creation of a [Student Travel Order](#).

 Complete the following steps to "process" a Student Travel request for settlement:

1. Select or [create a block](#) for processing.
2. At the **Request Selection** screen, **select** the desired Student Travel Request if it was already logged to the block. If the request was not previously **logged** to the block, **click** the **New** button and the **Select Traveler** screen appears.
3. **Click** in the appropriate **radio button** to select your search **by** either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab** to **access** the traveler's **profile** or [create a new traveler profile](#), if necessary.
4. When the traveler's information is displayed, **click** on **OK**. The **Travel Order Selection** screen appears.
5. At the **Travel Order Selection** screen, a **travel order** must be **selected** or **created** if necessary. Any orders **existing** in the IATS database for the selected traveler **appear** in the **Order** section. If the desired travel order number is listed, **click** on the **travel order number** and then **click** on **OK**. If the desired travel order number is not listed, enter the travel order number at the TONO field and **click** on **OK**. You will be required to [create the travel order](#) before you can process the request.

Note: When creating the travel order for a **Student Travel Request for Settlement**, ensure that **Student Travel** is selected for the **Type of Order**.

6. After **selecting** or **creating** the **Student Travel** order the **Settlement Request** screen appears.
7. At the **Remit To** tab, **verify** that the employee's **address** matches the **mailing address** shown on the **DD Form 1351-2** submitted by the employee and make any necessary changes. When finished, **click** on the **Entitlements** tab to continue.
8. At the **Entitlements** tab, **click** on the **Add Itinerary** button. The **Trip** screen appears with the **What's Authorized** tab in focus.

12. After completing the **Actual Itinerary** tab, **finish** the **claim** as you would for any other claim.

Student Travel Return Trip

The **purpose** of **Student Travel** is to send an employee's dependent on one **round-trip** each year from the employee's **OCONUS** duty station to a **school** in the **United States**.

You must process the **arrival** leg and the **return** leg as **separate** trips. Process the first trip to **arrive** the student at the school destination and then process a second trip to **return** the student to the employee's OCONUS duty station using the same **travel order**.

After you have selected the travel order, the **Select Supplemental To** screen will appear.

Select Supplemental to:

Block No. RTNTRIP

WILSON, SAM E TONO: STUDENTTVL

Claim No.	From Date	To Date	Amount	Type
69	8/1/2021	8/2/2021	\$91.50	

Other Claim is Not a Supplemental Select Cancel ? Help

Indicate if the claim is not a supplemental or select a previous claim.

When processing the **arrival** and **return** as **separate** trips, you do not treat the second trip as a **supplemental** to the first trip. When the **Select Supplemental To** screen is displayed, you would **click** on the **Claim is Not a Supplemental** button to process the second trip as a **separate** claim.

Note: If you are wishing, however, to process a **supplemental** settlement for the first **leg** of the round-trip, you would **click** on the **Select** button at the **Select Supplemental To** screen and then **make** the necessary **changes**.

Local Travel Settlement Requests

Processing Local Travel Requests

Local vicinity travel occurs whenever a traveler performs duty **away** from the **permanent** or **temporary duty station**, but still **within** the boundaries of the **local travel vicinity**. The boundary for the local vicinity is defined in the **local travel policy** administered by the installation or activity commander.

Travelers performing local vicinity travel are not **entitled to per diem**, but are allowed **reimbursement** for their **transportation expenses**. This type of travel is normally processed on **Optional Form 1164**. IATS will properly compute local vicinity travel, and prints a simulated 1164 voucher.

 **Complete the following steps to "process" a Local Travel request for settlement:**

1. Select or [create a block](#) for processing.
2. At the **Request Selection** screen, **select** the desired Local Travel Request if it was already **logged** to the block.
3. If the request was not previously **logged** to the block, **click** the **New** button and the **Select Traveler** screen appears
4. **Click** in the appropriate **radio button** to **select** your search **by** either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**.
5. If the correct traveler's information appears, **click** on **OK** to continue.
6. If the travel account for the ID entered does not **exist** a pop-up message will appear advising you to **click** on **OK** to [create a new traveler profile](#).
7. After **selecting** or **creating** the travel account, the **Travel Order Selection** screen will appear.

Travel Order Selection

MANN, CIVILIAN O

Traveler ID: Traveler Name:

Address-1: Grade/Rank:

Address-2: Organization:

City: DSSN:

State/Country:

Zip Code:

TONO: Click the Local Button for Local (1164) travel

Order Number	Category	Start Date	End Date
▶ SCR1510	PCS	3/23/2020	3/27/2020

Select an existing order or enter a new order number with which you wish to work

8. At the **Travel Order Selection** screen, a **travel order** must be **selected** or **created** if necessary. Any orders **existing** in the IATS database for the selected traveler **appear** in the **grid** at the bottom of the screen.
9. If the desired travel order number is listed, **click** on the **travel order number** and then **click** on **OK**.
10. You may also enter the travel order number at the TONO field if you wish to manually create the travel order.
11. If you would like to use IATS to automatically **create** the Local Travel order, **click** on the **Local Travel** button.
12. After **selecting**, an existing order, **creating** a new order, or **clicking** on the **Local Travel** button, the **Settlement Request** screen appears.

The screenshot shows a software interface for a Settlement Request. At the top, it displays 'Settlement Request - Block No: 03731 - Request No: NEW'. Below this, there are two buttons: 'MANN, CIVILIAN O: C' and 'TONO: LOCAL'. The 'Request Type - Settlement' section has a dropdown menu for 'Type of Settlement' set to 'Final - First Submission'. The 'Remit To' section is active, showing tabs for 'Local Expenses', 'Calculations', 'Financial', and 'Remarks'. The 'Address' section contains the following fields: 'Line 1' (101 W EAST ST), 'Line 2' (empty), 'City' (INDIANAPOLIS), 'Country/State' (IN INDIANA), and 'Zip Code' (46228). There is an 'Update Traveler' button next to the Zip Code field. At the bottom left, there are '<Back' and 'Next>' buttons. At the bottom right, there are 'SAVE', 'Cancel', and '? Help' buttons. On the left side, there are 'Receipts...' and 'Other...' buttons.

13. If the **Liaison Report** option is activated in Maintenance, the [Workflow Tab](#) will be in focus and you must **complete** this Tab first.

14. After **completing** the Workflow Tab, if applicable, **click** on the **Local Expenses** Tab.

Refer to the **Help** topic, "[Local Expenses Tab](#)", for additional instructions.

Local Expenses - tab

The **Local Expenses** tab is the beginning point for **capturing** the specific **details** pertaining to the **expenses** claimed by the traveler.

Remit To	Local Expenses	Calculations	Financial	Remarks	
<input type="checkbox"/> Claim is precomputed Precomputed Amount: <input type="text" value="\$0.00"/> From: <input type="text"/> To: <input type="text"/>					
Date	Type of Expense	Location	Claimed Amount	Approved Amount	Split
08/19/2021	FARE/TOLLS		10.00	10.00	<input type="checkbox"/>
08/19/2021	LOCAL MILEAGE		15	15	<input type="checkbox"/>
08/19/2021	<div style="border: 1px solid black; padding: 2px;"> LUNCH (COMMERCIAL) LUNCH (GOVERNMENT) OTHER TELEPHONE </div>		0.00	0.00	<input type="checkbox"/>
					<input checked="" type="checkbox"/>

 Use the following steps to "complete" the Local Expenses tab:

1. **Precomputed:** - Click in this box if a **pre-determined amount** for the settlement is desired. The user is then required to **type** a dollar **amount** at the **Pre-Computed Amount** field that appears when this box is **checked**. **No computation** is made by IATS. In addition, the user **must enter** the **inclusive dates** of the expense **period** in the **From** and **To Date** fields.
2. **Date:** - **Type** the **date** for the **first expense** being entered in **MMDDYY** format and **press Tab**.
3. **Type of Expense:** - At this field, click on the down arrow button to display a drop down **listing** of the common Local Travel **expenses**. **Click** the **Up/Dn arrows** until the desired expense item is displayed. If the user **types** the **first letter** of the description, IATS **scrolls** the listing until locating the first item beginning with this letter. The user may then use the **Up/Dn arrows** to display the exact item. Once the correct item is **highlighted**, **press Tab** or **click** on this item to make a selection. If the expense claimed by the traveler is **not listed**, simply **type** the description in this field and **press Tab**.
4. **Location:** - If the **type of expense** claimed is a **meal**, the **Location Selection** screen appears and the user **must specify** the **State/Country** and **City/Locality** where the expenses was incurred. This field is **by-passed** if the **expense** is **not a meal**.
5. **Amount Claimed:** - At this field, **type** the **dollar amount** or number of miles **claimed** by the traveler.
6. **Approved Amount:** - IATS **automatically populates** this field with the **amount** or miles entered at the **Amount Claimed** field. **If** this amount is **allowable**, **press Enter**. **If not**, **type** the **allowable amount** and **press Tab**.
7. When **finished** entering the expenses, **click** on **Next** button to **display** the **calculations**, or the **Financial** tab to proceed with the **accounting** lines.

Refer to the **Help** topic "[Local Travel Financial tab](#)", for additional instructions.

Local Travel Financial - tab

The **Financial tab** is used to specify the **method of payment** and to add the **accounting** information.

The screenshot displays the 'Local Travel Financial' tab interface. At the top, there are five tabs: 'Remit To', 'Local Expenses', 'Calculations', 'Financial', and 'Remarks'. The 'Financial' tab is selected. Below the tabs, the following fields are visible:

- Method of Payment:** A dropdown menu showing 'EFT'.
- Computed Split:** A text box containing '\$0.00'.
- Due Traveler:** A text box containing '\$18.40'.
- Split Payment:** A text box containing '\$0.00'.
- Release Obligation:** An unchecked checkbox.

Below these fields is a table with the following structure:

Db/Cr	Classification	Amount

At the bottom of the interface, there are three buttons: '<Back', 'Next>', and 'Modify Accounting'.

Use the following steps to "complete" the Local Travel Financial tab:

1. **Method of Payment:** - The default value is **EFT** if the traveler's account is active for EFT payments. If you wish to choose a different method of payment, **click** on the **down arrow** button to display a list of payment options and then **click** on the desired method.
2. **Computed Split:** - The amount displayed at the Computed Split field is a **combination** of the **Lodging** expense entered into the itinerary and the **reimbursable expense items** entered at the Reimbursables tab that were **selected** for a **split** payment. If you **double click** in the Computed Split field, the **Split Payment** field will be **populated** with the computed amount.
3. **Due Traveler:** - At this field, IATS **displays** the net amount of the settlement.
4. **Split Payment:** - If not already **populated** by double clicking in the **Computed Split** field, **click** in this field and **type** the dollar amount specified by the traveler to be **sent directly** to the **company** providing the **Government Credit Card**. This option is only available if the **method** of payment is **EFT**.

Note: When the **EFT information** is **blank** or only the **IBAN information** is populated on the traveler profile, and the **GTCC number** is **populated**, IATS users can select **Check** or **EFT** as the "**Method of Payment**". If **Check** is selected no split payment is **allowed**. If **EFT** is selected however, IATS automatically sends the entire amount to the **GTCC** and you cannot **change** the split amount in this case.

5. **Release Obligation:** - If a **Transportation Request** was issued for the performed travel, a charge may still be pending for payment of the transportation, and the funds should not be de-obligated. If the travel was not performed by **government procured transportation**, however, **click** in this **box** to send a code to the accounting system that will allow the obligation to be **released**.
6. **Apply 100% to Split:** - When this check box is **checked**, IATS will **apply** the whole amount due the traveler to the **company** providing the **Government Credit Card**. **Note** that this **check box** is only visible and applicable to TPAX users.
7. **Modify Accounting:** - **Click** this button to access the **Accounting** screen and enter the accounting information.
8. After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Note: Click on the **See Also** button below and **select** the appropriate **link** for additional **instructions** on entering the information.

Remarks - tab

After adding the accounting lines to a **Request for Settlement** or **Advance**, the user may want to add some optional **Remarks** to the printed **travel voucher**, the **traveler's historical record**, or **both**.

 Use the following steps to "complete" the Remarks tab:

1. **Click** on the **Remarks** tab. The following screen appears:

The screenshot displays the 'Remarks' tab interface. At the top, a navigation bar contains tabs for 'Remit To', 'Entitlements', 'Calculations', 'Financial', and 'Remarks'. Below this, there are two text input areas. The first is labeled 'Remarks in History' and the second is labeled 'Remarks on Voucher'. Both input areas contain the placeholder text 'Don't spend it all in one place.'. At the bottom of the interface, there are four buttons: '<Back', 'Next>', 'Get Std. Voucher Remarks', and 'Copy'.

2. **Remarks in History:** If wishing to add remarks to the traveler's historical record, **click** in this **box** and **type** the desired remarks.
3. **Remarks on Voucher:** If wishing to add remarks to the traveler's printed voucher, **click** in this **box** and **type** the desired remarks.
4. **Copy:** Clicking on the **Copy** button will **copy** the remarks from the **Remarks in History** text box to the **Remarks on Voucher** text box.
5. If you wish to add a standard remark from the Standard Voucher Remarks table, **click** on the **Get Std. Voucher Remarks** button. The **Standard Voucher Remarks** screen appears.

Standard Voucher Remarks

Standard Voucher Remarks

TVS Advance

Please sign claim and return to this office.

Please attach travel orders and return claim to this office.

OK Cancel ? Help

Select the Standard Voucher Remark to Modify or Delete

6. At the Standard Voucher Remarks screen, **click** on the *down arrow* to display a **list** of remarks and then **click** on the desired **remark**. The selected remark will be displayed in the **Remarks in History** text box. If you are satisfied with the remark, **click** on OK.
7. **Repeat** steps 5 and 6 if you wish to add additional standard **remarks**.
8. When **finished** adding remarks, **click** on the **Save** button to **save** the entries.

Workflow - tab

To **assist managers** in determining where **delays** in travel settlement requests processing occur, IATS generates the Reporting Unit Code (RUC) Report for **Marine Corps** travel offices. For **other** travel offices, this report is named the **Liaison Office Report**.

The purpose of this report is to **track** the number of days required to **move** a settlement request **through** the **processing cycle**. Because settlement requests processed by these organizations are often **routed** through **liaison offices**, IATS tracks their movement from the **date signed** until the **date disbursed**.

The **Workflow** tab is used to **capture** the **details** needed for IATS to generate the **RUC/Liaison Office Report**.

The **dates** at the Workflow Tab are also used to **determine** whether **interest** must be **paid** to the traveler for **late** payments.

 Use the following steps to "complete" the Workflow tab:

1. If not already in focus, **click** on the **Workflow** tab. The following screen appears:

Remit To	Adv/Accr'l	Entitlements	Calculations	Financial	Remarks	Workflow
<div style="border: 1px solid gray; padding: 10px;"> <p>Ruc/Liaison Workflow Input</p> <p>Ruc/Liaison Office: 4-DAVE'S FINANCE</p> <p>Date Signed by Traveler: 7/15/2021</p> <p>Date received by the Ruc/Liaison Office or signed by the AO: 7/18/2021</p> <p>Date Forwarded by Liaison Office: 7/20/2021</p> <p>Date Received by Travel Office: 7/22/2021</p> <p>Expected Payment Date: 8/9/2021</p> <p><Back Next></p> </div>						

Note: IATS users must **select** a Liaison Office from the *drop down list* at the **Ruc/Liaison Office** field if the new **check box** for the option in Maintenance "**Force Selection of Liaison Office**" is checked. Users may no longer **type** in a Liaison Office name when this option is activated.

2. **Ruc/Liaison Office:** - At this field **click** on the *down arrow* button. A *drop down list* of Ruc/Liaison Office **number(s)** appears. The Ruc/Liaison Office information must be previously established by the **System Administrator** in the IATS **Maintenance** module. When the *drop down list* appears, **click** on the **number** for the Ruc/Liaison Office that handled the **claim**. IATS users may also **type** in a Liaison Office **name** if the desired office name does not appear in the *drop down list* and the "**Force Selection of Liaison Office**" option in Maintenance has not been activated.
3. **Date Signed by: - Traveler:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **signed** by the **traveler**.
4. **Date Received by: - RUC/Liaison Office or signed by the AO:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **received** by the **Ruc/Liaison Office**.
5. **Date Forwarded by: - Liaison Office:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **forwarded** by the **Ruc/Liaison Office**.
6. **Date Received by: - Travel Office:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **received** by the **Travel Office**.

7. **Expected Pay Date:** - The **Expected Pay Date** is used for **tracking** the **processing time** for the **Voucher Turnaround Report**. The **default** value at this field is **4 days** from the **current** date. If this **date** is correct, **press Tab** to continue, or **type** a new date if necessary and **press Tab**.
8. When **finished** entering the dates at the Workflow tab, **click** on the **OK** button to **save** the entries and **return** to the **Settlement Request** screen.

DITY Settlement Requests

Processing MILPCS DITY Requests

Service members are authorized to personally move their household goods and receive a reimbursement for **95** per cent of the amount it would cost the government to make the same move.

 **Complete the following steps to "process" a MILPCS DITY request for settlement:**

1. Select or [create a block](#) for processing.
2. At the **Request Selection** screen, **select** the desired MILPCS DITY Travel Request **if** it was **already logged** to the block. If the request was **not** previously **logged** to the block, **click** the **New** button and the **Select Traveler** screen appears.
3. **Click** in the appropriate **radio button** to **select** your search **by** either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab** to **access** the traveler's **profile**. When the traveler's account information appears, **click** on **OK**. You may need to [create a new traveler profile](#), if necessary.
4. After accessing the traveler's account or creating a new profile, the **Travel Order Selection** screen appears. A **travel order** must be **selected** or **created** if necessary. Any orders **existing** in the IATS database for the selected traveler **appear** in the **grid** at the **bottom** of the screen. If the desired travel order number **is** listed, **click** on the **travel order number** and then **click** on **OK**.
5. If the desired travel order number is **not** listed, enter the travel order number at the TONO field and [create a new travel order](#).

Note: When creating the travel order for a MILPCS DITY Request for Settlement, ensure that **PCS** is selected for the **Type of Order**.

6. After **selecting** or **creating** the MILPCS DITY travel order the **Settlement Request** screen appears.
7. At the **Remit To** tab, **verify** that the traveler's **address** matches the **mailing address** shown on the **DD Form 1351-2** submitted by the traveler and make any necessary changes. When finished, **click** the **Next** button or the **Adv/Accrl tab** to continue.
8. At the [Adv/Accrl tab](#), **look** at **Block # 10** of the **DD1351-2** (Travel Voucher). If this block indicates that an advance was received, **ensure** that this information **appears** at the **Adv/Accrl** tab. If the information does not appear at the **Adv/Accrl** tab, **type** the **details** for the advance payment in the appropriate fields. After completing the **Adv/Accrl** tab, **click** on the **Next** button or the **Entitlements** tab to continue.
9. At the **Entitlements** tab, enter the effective date of orders and then **click** on the **Add Expense** button. A *drop down list* of various MILPCS expenses appears. **Click** on **PCS DITY**. The **DITY Input** screen appears.

Refer to the **Help** topic, "[Completing the DITY Input Screen](#)", for additional instructions.

Round Trip MILPCS DITY Requests

A **feature** was added to IATS to **allow more than one MILPCS DITY claims** to be processed against the **same travel order**.

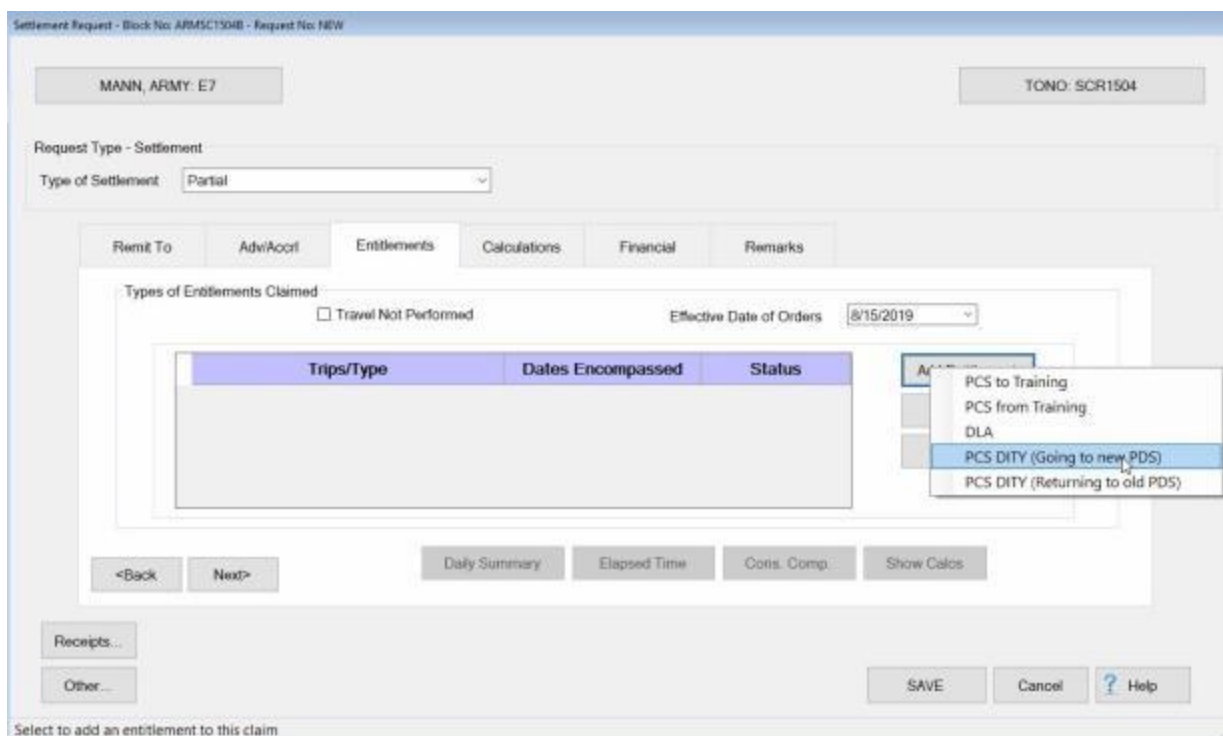

This situation **typically** applies to **Reserve Components** and occurs when a member is brought on active duty and sent to a school that lasts **longer than 140 days** making it a **PCS**. All Reserve component orders bring the person on duty from his/her **home** to where he/she is performing the duty then **back to home**. This situation can cause **two MILPCS DITY claims** for the **same order**. The **one from home to the duty** then the **one at the end** when he/she **returns home**.

 Use the following steps to "process" Round Trip MILPCS DITY claims:

The screenshot shows the IATS Travel Order interface. At the top, it displays 'Travel Order', 'User ID: SYSTEM', and 'Monday, August 3, 2020'. Below this, there are four input fields: 'Traveler's Name' (MANN, ARMY: E7), 'Grade/Rank' (E7), 'Order Number/TONO' (SCR1504), and 'Order Type' (PCS). The main section is titled 'Description' and has tabs for 'What's Authorized (Military PCS)', 'Dependents', and 'Remarks'. The 'What's Authorized (Military PCS)' tab is active, showing a 'PCS Type' dropdown menu with 'PCS and Return' selected. Other fields include 'Issuing Organization', 'Paying Organization', 'DSSN/ITR', 'Funds', 'Group Travel', 'Origin', 'Destination', 'Default State', and 'State Tax Designation'. To the right, there is a 'Dates' section with 'Issue Date', 'Begin Date', and 'End Date' all set to 8/3/2020. At the bottom, there are buttons for 'Back', 'Next', 'OK', 'Cancel', and 'Help'. A footer note reads: 'Choose option that best describes the type of PCS involved with this travel order'.

1. At the **PCS Type** field on the **Travel Order** screen, **click** on the **down arrow** button and then **click** on the PCS type **PCS and Return** from the **drop down list** of PCS Types.

2. At the **Entitlements** tab on the **Settlement Request** screen, **click** on the **Add Entitlements** button. IATS will **display** a **list** of authorized entitlements reflecting what was **authorized** by the Travel Order.
3. **Click** on either **PCS DITY (Going to new PDS)** or **PCS DITY (Returning to old PDS)** as appropriate.
4. You would then **continue processing** the claim **like** any other **MILPCS DITY claim**.

Processing Local DITY Requests

Service members are authorized to personally move their household goods and receive a reimbursement for **95** per cent of the amount it would cost the government to make the same move.

 **Complete the following steps to "process" a Local DITY request for settlement:**

1. Select or [create a block](#) for processing.
2. At the **Request Selection** screen, **select** the desired Local DITY Travel Request if it was already logged to the block. If the request was not previously **logged** to the block, **click** the **New** button and the **Select Traveler** screen appears
3. **Type** the traveler's **SSN** at the **ID** and **press Tab** to **access** the traveler's **profile**. When the traveler's account information appears, **click** on **OK**. You may need to [create a new traveler profile](#), if necessary.
4. After accessing the traveler's account or creating a new profile, the **Travel Order Selection** screen appears. A **travel order** must be **selected** or **created** if necessary. Any orders **existing** in the IATS database for the selected traveler **appear** in the **grid** at the **bottom** of the screen. If the desired travel order number is listed, **click** on the **travel order number** and then **click** on **OK**.
5. If the desired travel order number is not listed, enter the travel order number at the TONO field and [create a new travel order](#).

Note: When creating the travel order for a **Local DITY Request for Settlement**, ensure that **Local DITY** is selected for the **Type of Order**.

6. After **selecting** or **creating** the **Local DITY travel order** the **Settlement Request** screen appears.
7. At the **Remit To** tab, **verify** that the traveler's **address** matches the **mailing address** shown on the **DD Form 1351-2** submitted by the traveler and make any necessary changes. When finished, **click** the **Next** button or the **Adv/Accrl tab** to continue.
8. At the [Adv/Accrl tab](#), **look** at **Block # 10** of the **DD1351-2** (Travel Voucher). If this block indicates that an advance was received, **ensure** that this information **appears** at the **Adv/Accrl** tab. If the information does not appear at the **Adv/Accrl** tab, **type** the **details** for the advance payment in the appropriate fields. After completing the **Adv/Accrl** tab, **click** on the **Next** button or the **Entitlements** tab to continue.
9. At the **Entitlements** tab, **click** on the **Add Expense** button. The **DITY Input** screen appears.

DITY Input

SMITH, MARKY M TONO: TRANSIENT

Refer to the **Help** topic, "[Completing the DITY Input Screen](#)", for additional instructions.

Completing the DITY Input Screen

Note: For **Marine Corps** users only, state taxes are no longer withheld when processing **DITY** settlements. At the **State Tax Code** field, **select a non-taxable state**, i.e. Texas.

The **DITY Input** screen is used to **capture** the **details** from the **DD Form 1351-2** Travel Voucher, submitted by the customer.

The screenshot shows the 'DITY Input' window with the following fields and values:

- Name: SMITH, MARKY M
- TONO: TRANSIENT
- Intrastate
- Fiscal Year: 2021
- Date of DITY Move: 7/20/2020
- Combat Zone:
- Estimated GBL from DITY counseling sheet: \$4,875.00
- Actual GBL including drayage: \$5,217.00
- Less Operating Expense: \$750.00

Buttons at the bottom include 'Other...', 'OK', 'Cancel', and '? Help'. A footer note says 'Click this button to save information'.

Use the following steps to "complete" the Local DITY Worksheet screen:

1. **State Tax Code:** Current Defense Finance and Accounting Service (DFAS) policy **precludes** the **withholding** of **state taxes**. At this field, **click** on the **down arrow** button and then use the **Up/Dn arrows** to **scroll** through the **list** of states. When a state, that is non-taxable for active duty military personnel, is highlighted, **click** on this state or **press Tab** to make a selection.
2. **Intrastate:** No action necessary. This **applies** to **MILPCS DITY** travel only.
3. **Fiscal Year:** At this field, IATS **defaults** to the **current** fiscal year (FY). If the correct year is displayed, no action is necessary. If the correct FY is not displayed, **click** the **down arrow** button and then use the **Up/Dn arrows** to **scroll** through the **list** of years. When the correct year is highlighted, **click** on this year or **press Tab** to make a selection.
4. **Date of DITY Move:** At this field, IATS **defaults** to the date entered at the **Issue Date** field when the travel order was created. If the correct date is displayed, no action is necessary. If not, **type** the correct date in **MMDDYY** format. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.
5. **Estimated GBL from DITY counseling sheet:** The GBL is the estimated cost to the **government** for the member's move. **Type** the GBL amount from the **DD Form 2278**, which was completed by the servicing **transportation office**.
6. **Actual GBL including drayage:** Type the actual cost which is also found on the member's **DD Form 2278**. IATS automatically **calculates** the **DITY Allowance**.

7. **Less Operating Expenses:** At this field, **type** the **amount** of the total **expenses** incurred by the member to make the move. IATS automatically calculates the amount for the remaining input fields.
8. When **finished** making the required **entries** at this screen, **click** the **OK** button. IATS returns to the **Settlement Request** screen.
9. At the **Settlement Request** screen, **finish** processing the claim as usual by completing the **Financial, Remarks, and Workflow** tabs if applicable.

Processing Partial DLA Requests

A Service Member ordered to **occupy or vacate** Government Quarters due to **privatization, renovation, or any other reason for the Government's convenience** must be paid a **partial Dislocation Allowance (DLA)**.

The **payment** of a partial DLA is made **concurrent with or as part of** a “**Local DITY**” move

The **entitlement** for partial DLA **must be authorized** when **creating** the **travel order** that authorizes the **Local DITY** move. This **type** of travel order is referred to as a **Local Move** in IATS.

The screenshot shows the 'Travel Order' form in IATS. At the top, it displays 'User ID: SYSTEM' and 'Monday, July 18, 2022'. The form fields include:

- Traveler's Name:** MANN, ARMY: E7
- Grade/Rank:** E7
- Order Number/TONO:** LOCMOVE
- Order Type:** A dropdown menu is open, showing options: Normal, Blanket, Repetitive, Invitational, PCS, Local (SF1164), Local Move (highlighted), Evacuation, and TDY with DITY.

Below these fields are two tabs: 'Description' and 'Remarks'. The 'Description' tab is active and contains:

- Purpose of Trip:** Other
- Issuing Organization:** ARMY
- Paying Organization:** ARMY
- DSSN/ITR:** 6416
- Funds:** Army

To the right of the 'Description' tab is the 'Dates' section:

- Issue Date:** (blank)
- Begin Date:** 7/8/2022
- Number of Days:** 2
- End Date:** 7/9/2022

Below the 'Dates' section is the 'Local Move Authorizations' section, which contains a single checkbox labeled 'Partial DLA Authorized' that is checked.

At the bottom of the form are buttons for 'Back', 'Next', 'OK', 'Cancel', and 'Help'. A footer note reads: 'Select the category that best describes type of travel authorized for this order'.

At the **Local Move Authorizations** section, **ensure** that a **check mark** is placed at the **Partial DLA Authorized** check box.

Complete the following steps to "process" a partial DLA request for settlement:

1. **Effective Date of Orders:** - The effective date of the orders is used to determine the correct **Partial DLA** rate. At this field, **type** the correct effective date of orders in **MMDDYY** format and **press Tab**.
2. **Add Entitlement button:** - **Click** on this button to **select** the types of **entitlements**. A drop down listing appears and displays the **expenses** that were **authorized** when the travel order was created.
3. **Click** on the **Partial DLA** option. IATS automatically calculates the Partial Dislocation Allowance **payment**.
4. **Proceed** to the [Calculations](#), [Financial](#), and [Remarks](#) **tabs** to **finish** processing the settlement.

DITY Summary Records

DITY Summary Records - Overview

The **DITY Summary Record** is a very important element associated with processing DITY settlements for members. The **purpose** of this record is to provide a detailed account of every DITY **transaction** processed by IATS or manually computed and **entered** by the IATS user. In addition to accounting for the **entitlement** and **collection** data, the DITY Summary Record **contains all** of the **tax liability information** associated with the DITY transactions.

All **DITY** settlement **transactions** processed in IATS are automatically posted to the summary records. These records are **maintained** in the IATS data base indefinitely, unless **deleted** by the IATS user.

Periodically, an IATS user may want to **view** the DITY Summary Records for a particular member. Users may need to **answer** a member's **question** regarding the computation of an entitlement or the user may want to **verify** the **posting** of payment information.

Click on the **See Also** button below and **select** the particular **topic** for additional information on working with DITY Summary Records.

Accessing DITY Summary Records

Periodically, an IATS user may want to **view** the summary records for a particular member. Users may need to **answer** the member's **questions** regarding the computation of an entitlement or the user may want to **verify** the **posting** of payment information.

Note: The privilege "Access Summary Records" must be **granted** for the user's account in order for an IATS user **access** to DITY Summary Records.

 **Complete the following steps to "access" a DITY Summary Record:**

1. Login to IATS in the **Examiner** View mode or **change** the View to Examiner, if necessary.
2. At the **Examiner View** screen, **click** on the **File** menu and then **click** on the **Access PCS Summary Records** option. The **Select Traveler** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. At the **Travel Order Selection** screen, any travel orders existing in the database for the selected traveler appear in the grid at the **Order** section.
5. **Click** on the **order number** associated with the DITY record you wish to access. When the order number is displayed in the **TONO** field, **click** on the **OK** button. The **Select DITY Summary Record** screen appears.

Entitlement	1st Date of Expense	2nd Date of Expense	Amount Paid to Traveler	Payment Date	How Created	Supplemental
PCS DITY Move	12/11/2023	12/11/2023	\$6,767.78	12/28/2023	System Generated	<input type="checkbox"/>

Note: The **Select DITY Summary Record** screen lists every **DITY transaction** posted to the IATS database by entitlement type. In addition, this screen provides information pertaining to the **date processed**, **amount paid**, **date paid**, and **how** the record was **created**. A **System Generated** record **indicates** that the record was automatically **created** by **IATS** when a **DITY settlement** was **processed**. A **Manually Created** record **indicates** that the record was manually **created** by an **IATS user** or was **converted from** a previous **IATS database**.

6. **Click** on the DITY **transaction** you wish to display and then **click** on the **View/Modify** button. The **DITY Summary Records** screen appears.

The screenshot shows the 'DITY Summary Records' window. At the top, there are two text boxes: 'HO, DON E: E9' on the left and 'TONO: 1123PCS' on the right. Below these is the title 'System Generated Summary Record'. The main area contains several fields: 'Expense:' with a dropdown menu showing 'PCS DITY Move' and a date selector for '12/11/2023'; 'Expected Payment Year:' with a dropdown for '2024'. Financial fields include 'DITY Allowance:' (\$7,890.00), 'Taxable:' (\$5,101.00), 'FITW Percent:' (22.00), 'YTD Payroll Wages:' (\$0.00), 'Non-taxable Fringe Benefits:' (\$2,789.00), 'FITW:' (\$1,122.22), and 'Net Paid:' (\$6,767.78). At the bottom, there are fields for 'Excess Med Voucher' (555666), 'Excess Med Rate:' (0.90%), 'Excess Med Tax:' (\$0.00), 'Disbursing Date:' (12/28/2023), and 'Payment Date:' (12/28/2023). A row of buttons is at the bottom: 'Other...', 'Summary', 'Print', 'Back', 'Next', 'Delete', 'OK', 'Cancel', and '? Help'. Below the buttons is a text prompt: 'Enter the Voucher Number for this expense'.

Note: The **DITY Summary Records** screen **displays** the detailed information about the processed **transaction**. At this screen, users may **generate** a **print-out** of the displayed summary record by **clicking** on the **Print** button. Users may also **display** the **Yearly Summary** screen by **clicking** on the **Summary** button.

7. When finished viewing the **DITY Summary Records** screen, **click** on the **Cancel** button to **return** to the **Select DITY Summary Record** screen.
8. If **finished** viewing DITY Summary Records for the selected traveler, **click** on the **Close** button to **return** to the **Examiner View** screen.

Modifying DITY Summary Records

Occasionally, an IATS user may need to **modify** the DITY Summary Record for a particular member.

Modifications to the DITY Summary Record can only be made to **manually** entered summary records. If the words "**System Generated**" appear in the "**How Created**" column of the **Select DITY Summary Record** screen, for the desired transaction, the IATS user cannot modify the record.

 Complete the following steps to "modify" a DITY Summary Record:

1. Login to IATS in the **Examiner** View mode or **change** the View to Examiner, if necessary.
2. At the **Examiner View** screen, **click** on the **File** menu and then **click** on the **Access PCS Summary Records** option. The **Travel Order Selection** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. **Click** on the **order number** associated with the DITY record you wish to access and then **click** on the **OK** button. The **Select DITY Summary Record** screen appears.

Entitlement	1st Date of Expense	2nd Date of Expense	Amount Paid to Traveler	Payment Date	How Created	Supplemental
PCS DITY Move	12/11/2023	12/11/2023	\$6,767.78	12/28/2023	System Generated	<input type="checkbox"/>

Note: The **Select DITY Summary Record** screen lists every DITY transaction posted to the IATS database by entitlement type. In addition, this screen provides information pertaining to the **date processed, amount paid, date paid, and how** the record was **created**.

5. **Click** on the DITY transaction you wish to display and then **click** on the **View/Modify** button. The **DITY Summary Records** screen appears.

Enter the Voucher Number for this expense

Note: For a manually entered DITY Summary Record, there are only two fields that may be **modified**. These fields are the **Voucher Number** and the **Payment Date**. If there are **corrections** required, other than, the **voucher number** or **payment date**, the IATS user must delete the record and **enter** the information again manually. Only manually entered DITY Summary Records may be **deleted** by the IATS user.

6. **Voucher Number:** - If you wish to **modify** the **voucher number**, **click** in this field and **type** the correct voucher **number**.
7. **Payment Date:** - If you wish to **modify** the **payment date**, **click** in this field and **type** the correct **date** in **MMDDYY** format.
8. When **finished** modifying the DITY Summary Record, **click** the **OK** button to **save** the changes and **return** to the **Select DITY Summary Record** screen.
9. If **finished** modifying DITY Summary Records for the selected traveler, **click** on the **Close** button to **return** to the **Examiner View** screen.

Manually Creating DITY Summary Records

On occasion, it may be necessary for an IATS user to manually enter the **details** for a DITY settlement into the **DITY Summary Record** module. This is a **requirement** for **recording** the **tax information** for any DITY settlement **not computed** by **IATS** or that **was computed** at the **old PDS** and **must be entered** into the IATS **database** at the **new PDS**.

 Complete the following steps to "**manually create**" a DITY Summary Record:

1. Login to IATS in the **Examiner** View mode or **change** the View to Examiner, if necessary.
2. At the **Examiner View** screen, **click** on the **File** menu and then **click** on the **Access PCS Summary Records** option. The **Travel Order Selection** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. **Click** on the **order number** associated with the DITY record you wish to access and then **click** on the **OK** button. The **Select DITY Summary Record** screen appears.

Printing DITY Summary Records

On occasion, it may be necessary to **print** a DITY Summary Record.

 **Complete the following steps to "print" a DITY Summary Record:**

1. Login to IATS in the **Examiner** View mode or **change** the View to Examiner, if necessary.
2. At the **Examiner View** screen, **click** on the **File** menu and then **click** on the **Access PCS Summary Records** option. The **Travel Order Selection** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. **Click** on the **order number** associated with the DITY record you wish to access and then **click** on the **OK** button. The **Select DITY Summary Record** screen appears.

Entitlement	1st Date of Expense	2nd Date of Expense	Amount Paid to Traveler	Payment Date	How Created	Supplemental
PCS DITY Move	12/11/2023	12/11/2023	\$6,767.78	12/28/2023	System Generated	<input type="checkbox"/>

5. **Click** on the listed **record** that you wish to **print**. IATS highlights the selected **item**.
6. When the desired item is highlighted, **click** the **Print** button. A *pop-up menu* appears listing two options for printing DITY Summary Records.

Print Select Summary Record
Print All Summary Records and Yearly Summary

7. **Click** on the desired option. The **Adobe Reader** screen appears.
8. At the Adobe Reader screen, **click** on the **Printer icon**. The **Print** screen will appear.
9. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
10. **Select** the number of **copies** you wish to print and **click** the **Print** button. IATS **prints** the DITY Summary Record(s) based on the selected option.
11. If **finished** printing DITY Summary Records for this traveler, **click** on the **(X)** button in the top right corner of the Adobe Reader screen.

12. IATS returns you to the **Select DITY Summary Record** screen.
13. If no **additional** summary records need to be printed, **click** on the **Close** button to **return** to the **Examiner View** screen.

Completing the DITY Summary Records Screen

When manually creating DITY Summary Records, the user must select the DITY Expense **type**, and enter the required information to complete the **DITY Summary Records** screen.

 Complete the following steps to "populate" the DITY Summary Records screen:

1. **Expense:** - If the expense type is incorrect, **click** on the *down arrow* button at the **Expense** field to display a list of the various DITY entitlements that were authorized when the travel order was created. When the list is displayed, **click** on the desired expense type.
2. **Date:** - If the date shown, (next to the Expense field), is incorrect, **click** in the date field and **type** the correct date for the expense, in **MMDDYY** format, and **press Tab**. You can also **click** on the *down arrow* button and use the **calendar** to select the date.
3. **Expected Payment Year:** - If the incorrect year is shown at this field, **type** the **year**, in which the traveler **received**, or is expected to **receive**, the payment, in **YYYY** format and **press Tab**.
4. **DITY Allowance:** - At this field, **type** the computed **amount** of the selected entitlement and **press Tab**.
5. **Nontaxable Fringe Benefits:** - **Click** in this field and **enter** the **amount** for the traveler's **operating expenses** (if any) and then **press Tab**. IATS will then **calculate** the correct **amount** for the entitlement.
6. **Voucher Number:** - At this field, **type** the Disbursing Office Voucher Number (**DOV#**) **assigned** to the reimbursement for this expense.
7. **Payment Date:** - The current date defaults to this field. **If correct**, press **Tab** to continue. **If not**, **type** the **date**, in **MMDDYY** format, the **reimbursement** for this expenses was disbursed.
8. When **finished** entering all of the required information, **click** on the **OK** button. IATS **returns** to the **Select DITY Summary Record** screen.

9. If no **additional** summary records need to be created, **click** on the **Close** button to **return** to the **Examiner View** screen.

Deleting DITY Summary Records

In order to delete a DITY Summary Record, your **user account** must be **granted** the privilege "**Access DITY Summary Records**".

 Complete the following steps to "delete" a DITY Summary Record:

1. Login to IATS in the **Examiner** View mode or **change** the View to Examiner, if necessary.
2. At the **Examiner View** screen, **click** on the **File** menu and then **click** on the **Access PCS Summary Records** option. The **Travel Order Selection** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. **Click** on the **order number** associated with the DITY record you wish to access and then **click** on the **OK** button. The **Select DITY Summary Record** screen appears.

Entitlement	1st Date of Expense	2nd Date of Expense	Amount Paid to Traveler	Payment Date	How Created	Supplemental
PCS DITY Move	3/28/2024	3/28/2024	\$8,500.00	3/28/2024	Manually Entered	<input checked="" type="checkbox"/>

5. **Click** on the listed **record** that you wish to **delete**. IATS highlights the selected **item**.
6. When the desired item is highlighted, **click** the **Delete** button. A *pop-up* **appears** asking if you are **sure** you wish to **delete** the specified entitlement.

IATS Notification [3/28/2024 9:58 AM]

Are you sure you wish to delete this Summary Record?

7. **Click** on the Yes button. IATS **deletes** the selected record and **returns** to the **Select DITY Summary Record** screen.
8. **If** no **additional** summary records need to be deleted, **click** on the **Close** button to **return** to the **Examiner View** screen.

DITY Records - Yearly Summary

All DITY settlement **transactions** processed in IATS are automatically posted to the summary records. These records are **maintained** in the IATS data base indefinitely, unless **deleted** by the IATS user. IATS was designed to **store several years** of DITY **history** using the summary records.

 **Complete the following steps to "display" a DITY Yearly Summary Record:**

1. Login to IATS in the **Examiner** View mode or **change** the View to Examiner, if necessary.
2. At the **Examiner View** screen, **click** on the **File** menu and then **click** on the **Access PCS Summary Records** option. The **Select Traveler** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. At the **Travel Order Selection** screen, any travel orders existing in the database for the selected traveler appear in the grid at the **Order** section.
5. **Click** on the **order number** associated with the DITY record you wish to access. When the order number is displayed in the **TONO** field, **click** on the **OK** button. The **Select DITY Summary Record** screen appears.

Note: At this screen, five years worth of DITY **entitlement** and tax **withholding** data is **stored**. The information for a DITY transaction will **only appear** at this screen, however, if a DOV number and Date of Payment is posted to the **DITY Summary Record**.

7. If desired, **generate** a print-out of this screen by **clicking** on the **Print** button.
8. When **finished** viewing the Yearly Summary screen for this traveler, **click** on the **OK** button. IATS **returns** to the **Select DITY Summary Record** screen.
9. At the **Select DITY Summary Record** screen, **click** on the **Close** button. IATS **returns** to the **Examiner View** screen.

Massive Multiple Travelers

Process Settlement Requests for Massive Multiple Travelers

IATS contains a feature named **Massive Multiple Travelers**. This feature is primarily used by travel offices processing massive numbers of payments in connection with troop **deployments**.

Prior to the addition of this feature, users had to use the **Multiple Travelers** option in order to **duplicate** claims that are nearly identical.

The new Massive Multiple Traveler feature will allow you to duplicate a claim for hundreds of travelers quickly and easily.

Note: This feature may be used for both **TDY** and **PCS** settlements.

 **Complete the following steps to "use" the Massive Multiple Travelers feature:**

1. **Create a block** as usual.
2. **Process** the first settlement request you wish to use as the **basis** for the additional requests you will be adding to the block.
3. After the first settlement request has been **processed** and **saved**, IATS returns you to the **Request Selection** screen.

Request Selection

Controlled Unclassified Information

Block No. Block Type Block Status

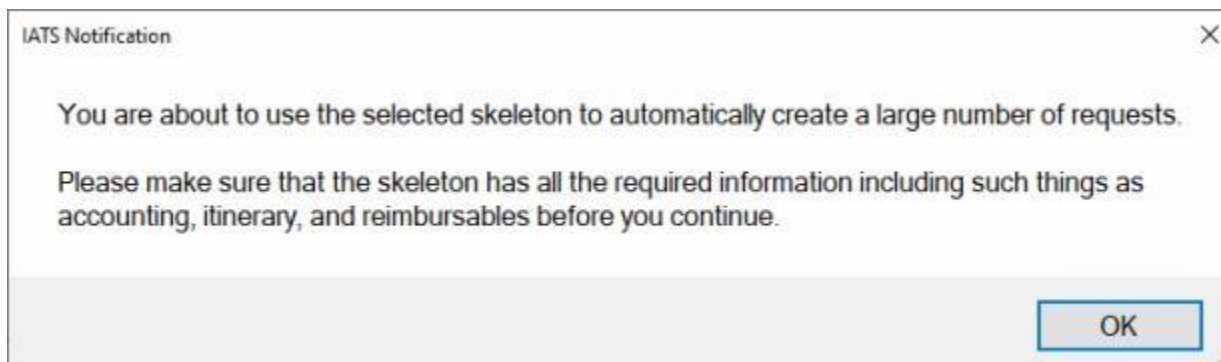

Selected Request(s) Number of requests:

SSN	Name	TONO	Type of Request	Start Date	End Date	Date Created	Category	Status

Select All Unselect All Delete View/Modify New

Other... Print Block Ticket Return Request **Skeleton Request** Print Request(s)... Done ? Help

4. At the Request Selection screen, **click** on the **Skeleton Request** button. The following *pop-up message* appears advising you to **ensure** that all of the required **details** were **included** in the first claim that was processed, which will be used as the **basis** for all of the other claims you will be adding.

- When you are satisfied that the first claim includes all of the required details, **click** on **OK**. The **Massive Multiple Travelers** screen will appear next.

- SSN/ID:** - When the Massive Multiple Travelers screen is displayed, you will notice that the SSN/ID field is highlighted. There are two ways to **populate** this field and add new travelers to the claim:
 - Type** the **SSN** for the next traveler you wish to add to the claim.
 - TONO:** - **Enter** the desired travel order number or **click** on the **Same TONO** button to use the **same** travel order that was used for the **original** claim.
 - Click** on the **Import SSNs** button.

Tip: The **Import SSNs** button will allow you to **import** a **text** file containing the **SSNs** for all of the travelers you wish to add to the claim. You must **first create** a **text file** using an application such as **Note Pad**. Simply create a text file containing nothing more than the SSNs of the travelers to be included in the

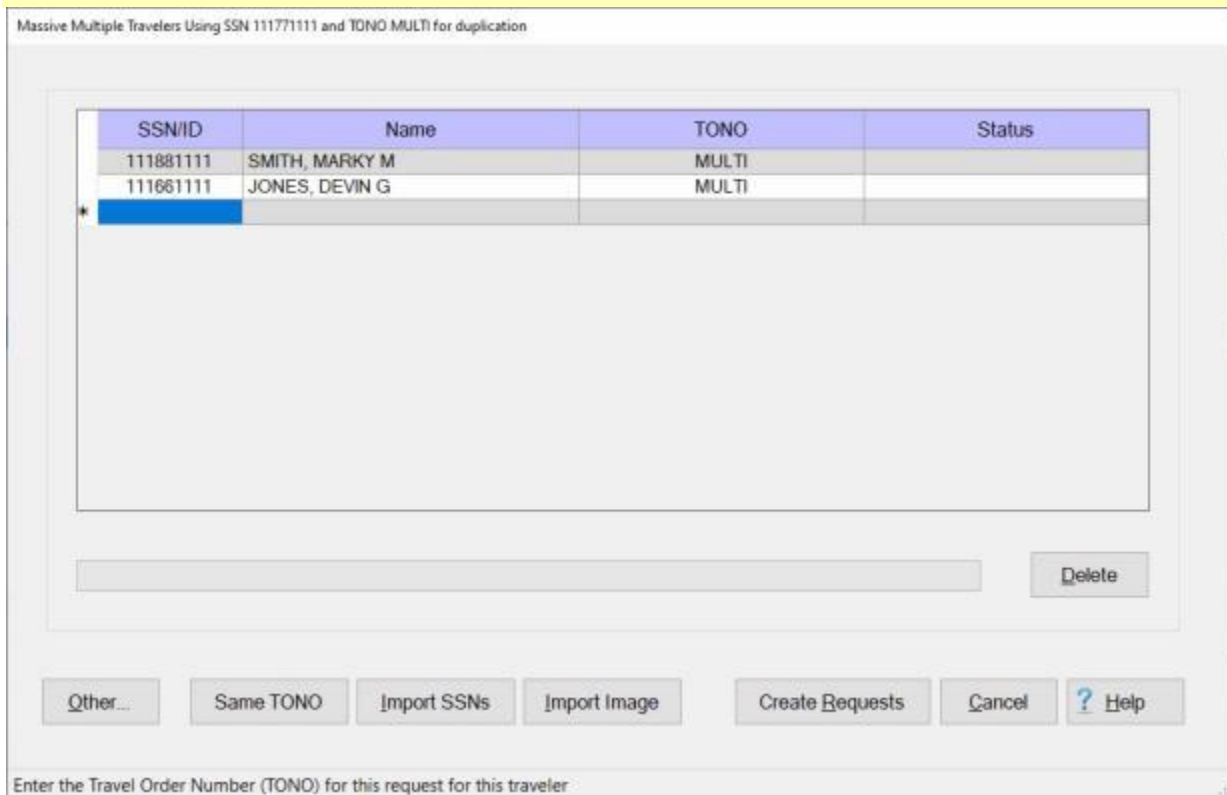

claim. Once you click on the Import SSNs button, you will see the following screen requiring you to **navigate** to the directory where the text file is residing and **select** the appropriate file:

9. After you have either manually entered an SSN or imported SSNs, the next field to be populated in the **TONO** field.
10. **TONO:** - When the **TONO** field is highlighted, you can simply **click** on the **Same TONO** button if you wish to use the **same** TONO that was associated with the **first claim**, or **manually enter** a **different** TONO if necessary. You will have to **create** the travel order record if a **different** TONO is entered that was **not** previously created.
11. After you have populated the TONO field, the next item that you **may** need to be concerned about is the Import Image button.
12. **Import Image:** - The import Image button allows you to **import** a **scanned image** of a document such as a **travel order** or a **hotel receipt**. The imported image will be **stored** in the **database** and will be **associated** to the **SSN** and **TONO** specified. Once you click on the Import Image button, you will see the following screen requiring you to **navigate** to the directory where the image file is residing and **select** the appropriate file:

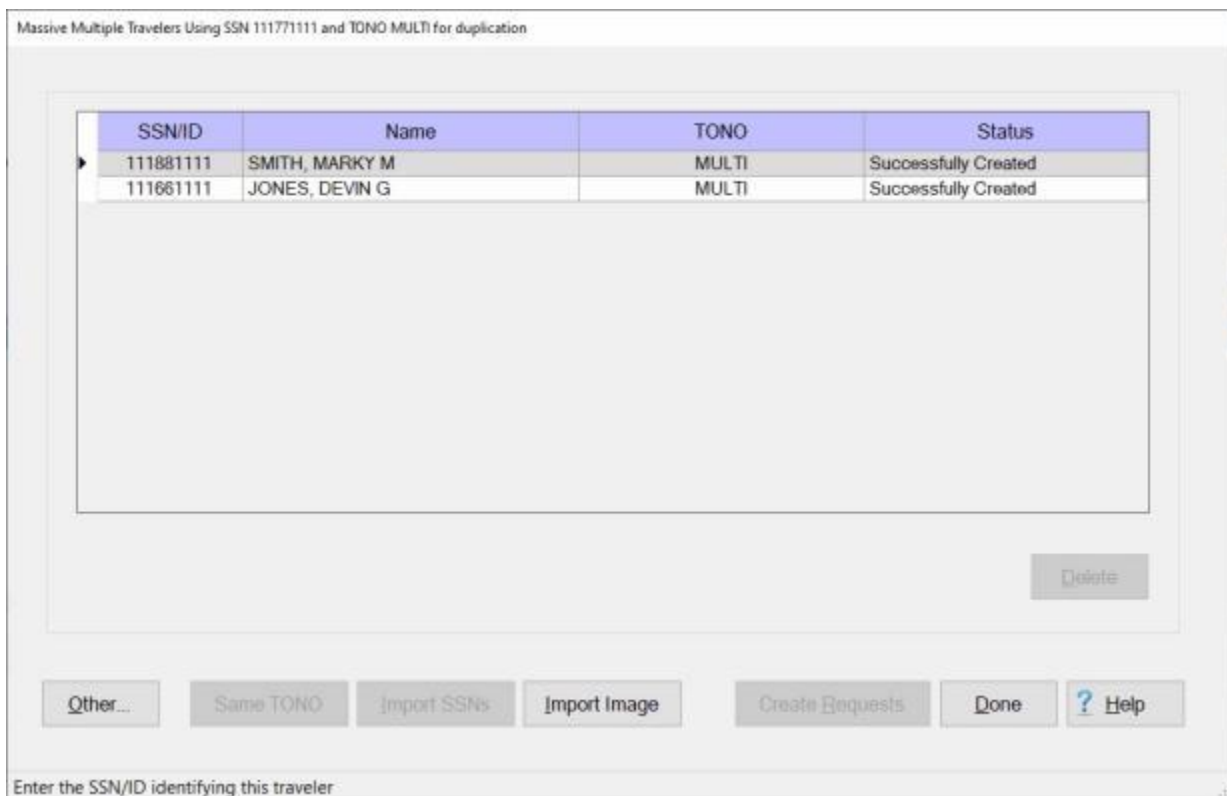

Tip: After you have imported an image, you will notice that the Import Image button is now titled **Discard Image**. If you wish to **remove** the image(s) **click** on the **Discard Image** button. If you want to remove the image for a selected traveler, first **click** on the desired **SSN** and then **click** on the **Discard Image** button.

13. **Create Requests:** - After you have imported the image(s), if applicable, you would **click** on the **Create Requests** button. Clicking on the Create Requests button automatically creates a completed request for the SSNs entered or imported that **match identically** to the first claim entered that was used as the **basis**.
14. When you click on the Create Requests button, you will see a *pop-up message* advising you to be sure that you have **imported image(s)** if applicable and that the **skeleton is complete** before you proceed.

15. If you are sure you are ready to create the requests, **click** on Yes.

16. After you have created the requests, you will notice that the **Status** field will display **Successfully Created**.

17. When you are **finished** using the Massive Multiple Travelers screen, **click** on **Done**. IATS will return to the **Request Selection** screen.

Alaska Leave Settlements

Alaska Leave Settlements - Overview

The FY23 NDAA provisioned a mandatory but temporary **special leave transportation allowance** from Alaska for **military members**. PDTATAC MAP Item 16-23(R) announces this JTR change. **Effective December 23, 2022 to December 31, 2023**, a member **assigned** to a Permanent Duty Station (**PDS**) in **Alaska** who is eligible and has been authorized the special leave transportation allowance may be **reimbursed** for **one round trip airfare**, per tour, **between** the member's (**PDS**) in Alaska and their Home of Record (**HOR**).

When processing this type of settlement request, **examiners** will only be **allowed** to **enter** the **airfare** and associated expenses at the **Reimbursables** tab. **No Itinerary** will be entered.

Processing Alaska Leave Requests

Effective December 23, 2022 to December 31, 2023, a member **assigned** to a Permanent Duty Station (**PDS**) in **Alaska** who is eligible and has been authorized the special leave transportation allowance may be **reimbursed** for **one round trip airfare**, per tour, **between** the member's (**PDS**) in Alaska and their Home of Record (**HOR**).

When processing this type of settlement request, **examiners** will only be **allowed** to **enter** the **airfare** and associated expenses at the **Reimbursables** tab. **No Itinerary** will be entered.

 **Complete the following steps to "process" an Alaska Leave Settlement Request:**

1. Select or [create a block](#) for processing.
2. At the **Request Selection** screen, **select** the desired Alaska Leave Settlement Request if it was already **logged** to the block. If the request was not previously **logged** to the block, **click** the **New** button and the **Select Traveler** screen appears.
3. **Click** in the appropriate **radio button** to select your search **by** either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab** to **access** the traveler's **profile** or [create a new traveler profile](#), if necessary.
4. When the traveler's information is displayed, **click** on **OK**. The **Travel Order Selection** screen appears.
5. At the **Travel Order Selection** screen, a **travel order** must be **selected** or **created** if necessary. Any orders **existing** in the IATS database for the selected traveler **appear** in the **Order** section. If the desired **Alaska Leave** travel order number is listed, **click** on the **travel order number** and then **click** on **OK**. If the desired **Alaska Leave** travel order number is not listed, enter the travel order number at the **TONO** field and **click** on **OK**. You will be required to create an [Alaska Leave Travel Order](#) before you can process the request.

Note: When creating the travel order for an **Alaska Leave Settlement Request**, ensure that **Alaska Leave** is selected for the **Type of Order**.

6. After **selecting** or **creating** the **Alaska Leave** travel order the **Settlement Request** screen appears.

The screenshot shows the 'Entitlements' tab of the Settlement Request screen. At the top, there are tabs for 'Remit To', 'Adv/Accr', 'Entitlements', 'Calculations', 'Financial', and 'Remarks'. Below these is a section titled 'Types of Entitlements Claimed' with a checkbox for 'Travel Not Performed'. A table with three columns: 'Trips/Type', 'Dates Encompassed', and 'Status' is visible. To the right of the table are buttons for 'Add Airfare', 'View/Modify', and 'Delete'. At the bottom of the screen, there are navigation buttons: '<Back', 'Next>', 'Daily Summary', 'Elapsed Time', 'Cons. Comp.', 'Show Calc.', 'Receipts...', 'Other...', 'SAVE', 'Cancel', and 'Help'.

7. **Click** on the **Entitlements** tab to continue.

- At the **Entitlements** tab, **click** on the **Add Airfare** button. The **Trip** screen appears with the **Reimbursables** tab in focus.

Reimbursables

Date	Nature of Expense	Type	Amount Claimed	Amount Approved	Split	IBOP
04/10/2023	AIRFARE		0.00	0.00	<input type="checkbox"/>	

- Date:** - If you **click** in the Date field, IATS will automatically default to the **date entered** at the **Begin Date** field on the Travel Order. If this is the correct date for the expense, **press Tab**. If not, **enter** the **correct date** in **MMDDYY** format and **press Tab**.
- Nature of Expense:** - **Click** in this field and then **click** on the **down arrow** button to display a **drop down listing** of the common expenses that have been entered into the **Reimbursable Descriptions** table in the IATS **Maintenance** module. **Click** on **Airfare** and then **press Tab**.
- Type:** - IATS will automatically default to **A** for the Expense Type. **Press Tab** to continue.
- Amount Claimed:** - At this field, **type** the **dollar amount** claimed by the traveler.
- Amount Approved:** - IATS automatically **populates** this field with the **amount** entered at the **Amount Claimed** field. If this amount is allowable, **press Tab**. If not, **type** the **allowable amount** and **press Tab**.
- Split:** - **No action** necessary. **Press Tab** to continue.
- IBOP:** - IATS will automatically default to **US** for the IBOP code. **Press Tab** to continue.
- Repeat** steps 1 - 8 above if you have additional expenses to enter.

Table 4-2 in JTR Chapter 4 (Reimbursable Expenses for Government-Funded Leave Travel) below lists the expenses authorized and not authorized for Alaska Leave travel:

1	Authorized (when not part of the ticket cost)	<ol style="list-style-type: none"> Travel Management Company fees. Charges for first checked bag up to carrier's standard checked baggage allowance. Arrival or departure taxes or fees. Currency conversion fees for allowable transportation costs. Ground transportation between interim airports.
2	Not Authorized	<ol style="list-style-type: none"> Per diem or meal tickets. Excess accompanied baggage. Unaccompanied baggage. Transportation from PDS, home, or destination to the airport and return, except FEML. Terminal parking fees.

17. When you have **finished** entering the reimbursable expenses, **click** on the **OK** button to **save** your entries. IATS will **return** you to the **Settlement Request** screen.
18. **Finish** processing the request as usual by entering the **accounting** lines and any desired **remarks**.

MILPCS Settlement Requests

Processing MILPCS Requests

Processing a **MILPCS** Request for Settlement claim involves taking the information from the **DD Form 1351-2**, travel voucher, submitted by the customer and entering the information to IATS. Overlooking a small detail can result in significant overpayment or underpayment.

In other Help **topics**, the [creation of a travel account](#) and [travel order](#) was demonstrated. In addition, users were introduced to [creating block tickets](#), [logging incoming requests](#), and [assigning block tickets](#) to voucher examiners for processing. These topics covered the essential steps required before a MILPCS Request for Settlement claim can be processed. Users must be familiar with these steps before proceeding.

 Complete the following steps to "process" a MILPCS Request for Settlement:

1. Login to IATS in the **Examiner** View mode or change the View to Examiner, if necessary.
2. Select a block through one of the following methods:
 - **Method 1:** - Click the [Grab Blocks](#) button and select a block from the **Logged** Pool.
 - **Method 2:** - **Double click** on the desired block listed under the **To Do** section or by **clicking** on the block **once** and then **clicking** the **Process Block** button.
 - **Method 3:** - Click on the **New Block** button and [create a new block](#).

Note: After selecting a block using one of the (3) methods listed above, the **Request Selection** screen appears. At this screen, any request already **logged** to the block is listed under the **Selected Request(s)** section.

3. At the **Request Selection** screen, **select** a request through one of the following methods:
 - **Method 1:** - **Double click** on the desired request.
 - **Method 2:** - Click on the request **once** and then **click** the **View/Modify** button.
 - **Method 3:** - Click on the **New** button.

Note: If the **New** button is clicked, the **Select Traveler** screen appears. At this screen the Examiner must **select** or **create** the traveler's **account**. After selecting or creating the travel's account, the **Travel Order Selection** screen appears. At this screen the Examiner must **select** or **create** a new **travel order**. After selecting or creating the travel order, the **Settlement Request** screen appears.

4. After selecting a request using one of the methods listed above, the **Settlement Request** screen appears.

5. Refer to the **Help** topic, "[Completing the MILPCS Request for Settlement Screen](#)", for additional instructions.

Completing the MILPCS Request for Settlement Screen

After selecting a request, the **Settlement Request** screen appears. This screen is used to capture the details from the **DD Form 1351-2**, travel voucher, submitted by the customer.

The screenshot shows the 'Settlement Request' screen for Block No. 201229MPCS and Request No. 55. The traveler's name is SMITH, MARKY M. E9 and the TONO is TRANSIENT. The Request Type is Settlement, and the Type of Settlement is Partial. The 'Remit To' tab is active, displaying the following address fields:

Field	Value
Line 1	11122 E. WEST ST
Line 2	
City	INDIANAPOLIS
Country/State	IN INDIANA
Zip Code	46226

Buttons at the bottom include '<Back', 'Next>', 'Receipts...', 'Other...', 'Auditor Remarks', 'SAVE', 'Cancel', and '? Help'.

Use the following steps to "complete" the MILPCS Settlement Request screen:

1. **Type of Settlement:** No action should be **necessary** at this field. It is quite common to process several settlements using the same travel order number. For this reason, all MILPCS travel is treated as **Partial** settlements.
2. **Address:** When the **Settlement Request** screen appears, the **Remit To** tab is displayed. At this tab, the traveler's address defaults from the address entered at the **Traveler Profile** screen when the traveler's profile was created. Compare this address to the address appearing on the Request for Settlement submitted by the traveler and make any necessary changes. If the IATS user **changes** the **Remit To** address at this tab, the **change** will appear with a **red** background.

Note: Any changes made to the address at the **Remit To** tab will only affect the settlement being processed. A **permanent** address **change** must be made at the **Traveler Profile** screen.

3. After verifying the address at the Remit To tab, **click** on the **Adv/Accr1** tab or the **Next** button to proceed.

Click on the **See Also** button below and **select** the **topic** for additional instructions on completing the various **tabs** at this screen.

MILPCS Adv-Accr - tab

When processing a Request for Settlement, **look** at **Block # 10** of the **DD1351-2** (Travel Voucher).

Travelers are **responsible** for **indicating** advances received.

If **Block # 10** of the **DD1351-2** indicates that an advance was received, **ensure** that this information **appears** at the **Adv/Accr** tab. If the information does not appear at the **Adv/Accr** tab, **type** the **details** for the advance payment in the appropriate fields.

Note: If there is a **check mark** appearing in the **Locked** box next to the **details** for an advance payment, no changes to the details may be made by the IATS user.

Remit To	Adv/Accr	Entitlements	Calculations	Financial	Remarks
----------	----------	--------------	--------------	-----------	---------

Locked	Date	Type	FY	Amount	DOV
<input checked="" type="checkbox"/>	07/10/2020	Advance	2020	\$500.00	111222333
<input type="checkbox"/>					
<input type="checkbox"/>					

 Complete the following steps to "enter" the advance details at the Adv/Accr tab:

1. **Date:** At this field, **type** the **date** the advance was paid in **MMDDYY** format.
2. **Type:** At this field, you can **click** on the **down arrow** button to display a **drop down listing** offering the choices **Accrual** or **Advance**. **Click** on the option that is appropriate for the **type** of advance payment received.
3. **FY:** At this field, you can **click** on the **down arrow** button to display a **drop down listing** offering the choices for several **fiscal years**. **Click** on the choice that is appropriate for the **fiscal year** in which the advance payment was received.
4. **Amount:** At this field, the **Advance Spread** screen appears and the user must **allocate** any previously paid **advance** to the appropriate **entitlements**.

Advance Spread

Date: Type:

Description	Amount
Memb/Emp TDY Per Diem	\$0.00
Memb/Emp Transportation	\$0.00
Memb/Emp MALT	\$0.00
Memb/Emp Reimbursable Expenses	\$0.00
Registration Fees	\$0.00
Dependent Per Diem	\$300.00
Dependent Transportation	\$0.00
Dependent MALT	\$0.00
▶ Dependent Reimbursable Expenses	\$0.00

Total Advance/Accrual:

Who being paid for Enroute Travel

MARKY	<input type="button" value="Select All"/> <input type="button" value="Unselect All"/>
JANET	
SONNY	

Enter the amount for this element of expense

- At this screen, click in the **Amount** field for the appropriate entitlements and **type** the **dollar amount** for the advance payment received. When **finished** allocating the advance **click** the **OK** button.

Note: A new section (**Who being paid**) appears at the bottom of this screen for certain entitlements. Notice in the example above, this section is appearing for the **Enroute Travel** entitlement. Users must use this section to **specify which individual(s)** the particular entitlement applies to.

- DOV #:** At this field, **type** the Disbursing Office Voucher (**DOV**) number assigned to the advance payment received.
- After completing the **Adv/Accr** tab, **click** on the **Entitlements** tab or **click** the **Next** button to continue.

Refer to the **Help** topic, "[Entitlements - tab](#)", for additional instructions.

MILPCS Settlement Entitlements - tab

The **Entitlements** tab is the beginning point for **capturing** the specific **details** pertaining to what is authorized on the travel order in regards to the authorized PCS expenses, **transportation** allowances, **itinerary** for the trip, and any **reimbursable expenses**.

Select to add an entitlement to this claim

Use the following steps to "complete" the MILPCS Settlement Entitlements tab:

1. **Travel Not Performed:** - Under the heading "**Types of Entitlements Claimed**", **click** in this box if the trip was not performed and you wish to generate a **zero dollar transaction**. This transaction is then **transmitted** to the **accounting system** to **de-obligate** the **funds** set aside for the travel order.
2. **Effective Date of Orders:** - The effective date of the orders is used to determine the correct **DLA** rate and the entitlement to **dependent** travel. At this field, **type** the correct effective date of orders in **MMDDYY** format and **press Tab**.
3. **Add Entitlement button:** - **Click** on this button to **select** the types of **expenses** the settlement is requested for. A drop down listing appears and displays the **expenses** that were **authorized** when the travel order was created.
4. **Following**, is a list of possible **MILPCS** settlement expense **types** and a **link** to additional **instructions** for processing each particular expense type:
 - **Enroute PCS Travel:** If the user **clicks** on the **Enroute PCS Travel** option, the **What's Authorized** tab appears and the user must specify **who is traveling** and **how many cars** will be used. **Refer** to the **Help** topic "PCS Settlement What's Authorized - tab" for additional instructions.
 - **TLE:** If the user **clicks** on the TLE option, the **Temporary Lodging Entitlement** screen appears and the user must **complete** this screen to **enter** the daily TLE expenses. **Refer** to the **Help** topic "[Completing the TLE Screen](#)" for additional instructions.

- **DLA:** If the user **clicks** on the **DLA** option, IATS automatically calculates the Dislocation Allowance **payment**.
 - **DITY:** If the user **clicks** on the **DITY** option, the **DITY Input** screen appears and the user must complete this screen to enter the DITY expenses. Refer to the **Help** topic, "[Processing MILPCS DITY Requests](#)", for additional instructions.
5. **Click** on the desired **expense** type and **complete** the associated input **screen** to **enter** the **details** for the selected expense.
 6. When **finished** adding expenses, **proceed** to the [Calculations](#), [Financial](#), and [Remarks](#) **tabs** to **finish** processing the settlement.

MILPCS Settlement What's Authorized - tab

After **clicking** on the **Add Expense** button and **selecting** the **Enroute** option at the **Entitlements** tab, the **What's Authorized** tab appears. At the **What's Authorized** tab, the user **must specify** that the traveler **is** the **owner/operator** of the **POV**, the **number of cars** used, and **which travelers are** to be **included** in the settlement calculation.

Use the following steps to "complete" the PCS Settlement What's Authorized tab:

1. **Owner/Operator of POV:** - At this field, **click** in the box **if** the traveler **was** the **owner** and **operator** of the **POV** used in the performance of the trip.
2. **Number of Cars:** - At this field, **type** the **number** representing the how many **POV's** are to be **used** in the **calculation** of the trip being processed.

Note: If **more than 2 POV's** are involved with the PCS travel, **ensure** that **Secretarial Process** has been **approved**. The following **pop-up message** will be **displayed** when **completing** the **Itinerary** or the **Shipping POV** screen if **more than 2 POV's** are involved with the PCS travel.

3. **Who is being paid:** - At this section, the user **must specify which** of the listed **travelers** are to be **included** in the **calculation** of the settlement. **If all** of the listed **traveler's** should be included, **click** on the **Select All** button. **If not**, **click** on the **desired name**.

Tip: Multiple traveler's may be **selected** by **pressing** and **holding** the *Shift key* and then **clicking** on the desired **names**.

4. After completing this tab, the user must then **click** on the **Actual Itinerary** tab or **click** on the **Next** button to continue.

Refer to the **Help** topic, "[Actual Itinerary - tab](#)", for additional instructions.

MILPCS Actual Itinerary - tab

The **MILPCS Actual Itinerary** tab is used to **capture** the specific **details** for the trip itinerary.

While completing this screen, refer to the **prompt line** at the bottom. The prompt line will **explain** what **information** is requested at each input field.

What's Authorized Actual Itinerary Reimbursables

Actual Trip Duration:

Date		Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	AE %	Who Else		
										Lodging	Taxes	Miles
07/06/2021	DEP		PA	<input type="checkbox"/>		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>				
	ARR		TD	<input checked="" type="checkbox"/>	<input type="checkbox"/>	LDP			0.00	\$0.00	\$0.00	0

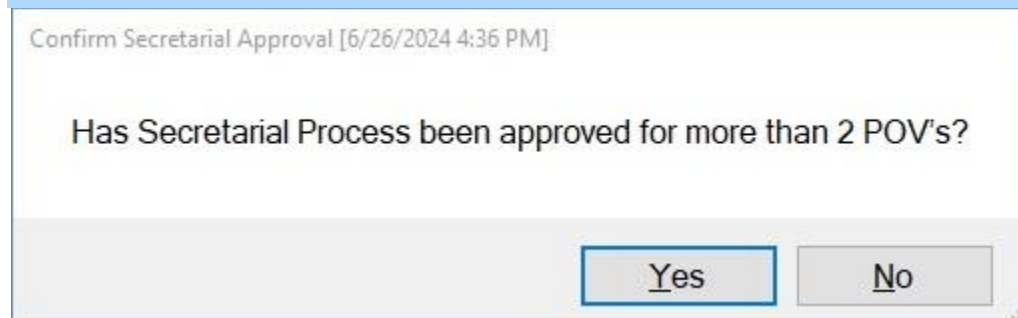

Back Next Duplicate Previous Insert Leg Delete Leg Clear Completed

 Use the following steps to "complete" the MILPCS Actual Itinerary tab:

- Actual Trip Duration:** - At this field, **click** on the *down arrow*. A drop down **listing** of trip **durations** appears. **Refer** to the **DD Form 1351-2** submitted by the traveler to determine the duration and then **click** the correct choice.
- Depart Date:** - The departure date on the first line of the itinerary automatically **defaults** from the **Begin Date** entered when the travel order was created. **Press Tab** to continue or **type** a different date, in **MMDDYY** format, if necessary.
- Depart Location:** - At this field, the **Origin** location entered (when the travel order record was created) will **automatically default**. If this location is incorrect, **double click** in the **Location** field. The **Location Selection** screen will appear and you can **select a different** depart location.
- Transportation:** - If the default method of transportation is incorrect, **click** on the *down arrow* button. A *drop down* listing of various transportation modes appears. **Click** the *Up/Dn arrows* until the desired mode is displayed and then **click** on the correct mode to make a selection.
- Local?:** - When the mode **PA** is selected for the transportation, a **prompt** asking if travel was to/from a **local** transportation terminal appears. If so, **click** in this box. If not, **press Tab** to continue.
- Arrival Date:** - The date at the previous **Departure Date** field **defaults** to the Arrival Date field. Press **Tab** to accept this date or **type** a new date, in **MMDDYY** format, if necessary.
- Arrive Location:** - This is the **location** where the traveler stops to perform official duty, change modes of transportation, or to rest overnight. The **Location Selection** screen will automatically appear at the Arrive Location field. Use this screen to select the location the traveler arrived at.
- Reason for Stop:** - At this field, the **default** value is **AT - Awaiting Transportation**. Press **Tab** if this is correct. If not, **click** on the *down arrow* button to display a *drop down* listing of various reasons for stopping and then **click** on the correct reason to make a selection. **Click** on the **definitions** button below for an **explanation** of the various reason for stop codes.

9. **Duty Day:** - A **check mark** automatically **defaults** to this field. If this day is an official day of duty, **press Tab** to continue. If this day is not an official day of duty, however, **click** this box to **remove** the check mark.
10. **Method:** - The **default** value for this field is **LDP - Lodgings Plus**. Press **Tab** if this is correct. If not, **click** on the **down arrow** button to display a **drop down** listing of various per diem computation **methods**. **Click** on the correct method to make a selection.
11. **Lodging:** - At the **Lodging** field, when completing the MILPCS Actual Itinerary tab, a **drop down listing** of various **lodging types** appears. **Click** on the **correct type** to make a selection.
12. **Meals:** - At the **Meals** field, when completing the MILPCS Actual Itinerary tab, a **drop down listing** of various **meal types** appears. **Click** on the **correct type** to make a selection.
13. **Lodging Cost:** - At this field, **type** the **dollar amount** for the **daily** lodging cost at the location where the traveler remained overnight.
14. **Taxes:** - If the overnight location is within CONUS, Alaska, Hawaii, or a US territory, the user is prompted to enter the **daily** lodging **taxes** amount. IATS will **automatically reduce** the taxes by the appropriate percentage when the **claimed** amount for **lodging** exceeds the **authorized** amount. If these taxes are entered into the **itinerary**, **do not** enter them again at the **Reimbursables** tab. The amount calculated for the taxes will appear on the **Calculations** tab after the trip has been completely entered.
15. **Miles:** - If not automatically populated by the **DTOD** look-up feature, **type** the number of **miles** claimed by the traveler if a privately owned vehicle was used.

Note: If more than 2 POV's are involved with the PCS travel, **ensure** that **Secretarial Process** has been **approved**. The following *pop-up message* will be **displayed** when **completing** the **Itinerary** or the **Shipping POV** screen if more than 2 POVs are involved with the PCS travel.

Note: When finished with the itinerary, the **Constructed Itinerary** or **Reimbursables** tab appears next.

Refer to the **Help** topics, "[Constructed Itinerary - tab](#)" or "[Reimbursables - tab](#)", for additional instructions.

MILPCS Reasons for Stop

When completing a MILPCS Itinerary, a **Reason for Stop** code is **required** on each **arrival** line. A table appears at the **Reason for Stop** field displaying a variety of **codes** that may be used.

The **purpose** of the code is to **determine** what action must be taken by the travel computation system and what **allowances** are **applicable**. A **listing** of the various Reason for Stop **codes** and an **explanation** of their purpose is provided below:

- **AT - Awaiting Transportation:** This is used when the **traveler** is simply **stopping** at a **location** to **change** the **mode** of transportation.
- **TD - Temporary Duty:** This is the default value at this field since it is the most common reason a traveler stops. Use this code when the **point** the traveler **arrived** at is the **TDY** point.
- **LV - Leave:** Use this code when the **traveler** has **stopped** at a **location** for the **purpose** of taking leave. This code will **cause** the computation **system** to terminate per diem during the leave period.
- **MC - Mission Complete:** Use this code when the **trip** is **finished** and the traveler has **arrived** at the Permanent Duty Station (**PDS**).
- **AD - Authorized Delay:** Use this code when the **traveler** has **made** an official stop and remained overnight while **enroute** to an official duty point.
- **VR - Voluntary Return:** Use this code when a **traveler** has voluntarily returned to the **PDS** during a TDY trip. This commonly occurs when travelers are on lengthy TDY **trips** and there is a **holiday** weekend involved. Using this code **causes** the computation **system** to **perform** a **cost comparison** of what it would have cost the government had the traveler remained at the TDY location. This **cost** is then **compared** to the **expenses** the traveler **incurred** for **performing** the **VR** travel. The traveler is **reimbursed** these travel **expenses** up to what it would have cost the government to remain at the TDY location.
- **DV - Drop Off Vehicle At Vehicle Port:** Use this code when the **purpose** of the **stop** is to drop off a Privately Owned Vehicle (**POV**) at a vehicle **port** facility for overseas shipment.
- **PV - Pick Up Vehicle At Vehicle Port:** Use this code when the **purpose** of the **stop** is to pick up a **POV** from a vehicle **port** facility for movement to a new PDS.
- **ES - Enroute Stopover:** Use this code when the **traveler** has **made** an official stop and remained overnight while **enroute** to an official duty point. (This code may also be used with TDY travel).
- **DP Drop Off Passengers:** Use this code when the **purpose** of the **stop** is to drop off **passengers** at a passenger facility. This ordinarily occurs when delivering a **POV** to a vehicle **port** facility for overseas shipment in conjunction with a PCS and passengers are dropped off first.
- **PP - Pick Up Passengers:** Use this code when the **purpose** of the **stop** is to pick up **passengers** at a passenger facility. This ordinarily occurs after a **POV** is picked up from a vehicle **port** facility in conjunction with a PCS and the passengers are picked up afterwards.
- **CT - COT Leave:** Use this code when the **purpose** of the **stop** is to perform leave in conjunction with a Consecutive Overseas Tour.
- **SL - Sick Leave:** Not used at this time.
- **DL - Designated Leave Point:** Use this code when the stop location is a **point** designated as a delay point for **dependents** pending orders for overseas PCS travel, or when overseas **travel** is **denied**. This is also the appropriate code to **identify** a **location** as Consecutive Overseas Tour (COT) leave point.

- **AR - Authorized Return Home:** Use this code when the **traveler** has been **authorized**, in the travel order, to make a return trip to his/her last PDS during a **PCS** travel period.
- **ND - TDY changed to New Duty Station:** Use this code when the **traveler** was performing a **MILPCS** trip with **TDY enroute** and the **TDY station** was **converted** to the **New Permanent Duty Station (PDS)**.
- **QP - Quarentine: PCS Accounting:** Use this code when the **traveler** was performing **MILPCS** travel with a **quarantine stop involved** and the **entitlements** for the delay must be **charged** to **PCS** funds.
- **QT - Quarentine: TDY Accounting:** Use this code when the **traveler** was performing **MILPCS** travel with a **quarantine stop involved** and the **entitlements** for the delay must be **charged** to **TDY** funds.

Constructed Itinerary - tab

There are **three** situations that cause the **Constructed Itinerary** tab to **appear** after completing the traveler's actual itinerary:

- **Privately owned conveyance** was used for the travel to and from the official locations.
- The authorized mode of travel was **POC Limited to Cost of Constructed Travel**.
- The travel was performed by **mixed modes**; a combination of privately owned and commercial or government procured transportation.

At this screen the **legs** of the traveler's **actual itinerary** are displayed. The user must either **enter** the **cost of government procured travel** or the **official mileage** depending on the authorized mode of travel. IATS will then either perform a **cost comparison** or **limit** the **mileage** reimbursement to the **official distance**.

 Use the following steps to "complete" the Constructed Itinerary tab when the authorized mode of travel was "POC Limited to Cost of Constructed Travel" or was performed by "Mixed Mode":

From Date	To Date	To Location	Mem GTR	GTR From Date	GTR To Date
7/6/2021	7/6/2021	Washington, DC, Dist of	\$150.00	07/06/2021	07/06/2021
7/10/2021	7/10/2021	IND, IN, Marion	\$150.00	07/10/2021	07/10/2021

1. **Mem GTR:** - Click in this field for the first leg of travel. At this field, **type** the **dollar amount** for **government procured transportation** to include estimated **taxies** and **press Tab**.
2. **GTR From Date:** - The **date** at this field should be the **date** the traveler would have departed if the transportation was procured by the government. The **default** value at this field is the date of departure on the **actual itinerary**. If this is the **correct** date, **press Tab** to continue. If not, **type** the correct date and **press Tab**.
3. **GTR To Date:** - The **date** at this field should be the **date** the traveler would have arrived if the transportation was procured by the government. The **default** value at this field, is the date of arrival on the **actual itinerary**. If this is the **correct** date, **press Tab** to continue. If not, **type** the correct date and **press Tab**.
4. **Repeat** steps 1-3 above for any **additional** legs of travel displayed at this screen. After pressing **Tab** at the final **To Date** field, the **Reimbursables** tab appears.

PCS Settlement Reimbursables - tab

This screen is where IATS users enter the traveler's **reimbursable expenses** associated with the trip.

Date	Nature of Expense	Type	Amount Claimed	Amount Approved	Split	IBOP	Dependent?	Is Taxable
03/26/2018	ATM ADVANCE EXPENSE	F	20.00	20.00	<input type="checkbox"/>	US	<input type="checkbox"/>	<input checked="" type="checkbox"/>
03/26/2018	REGISTRATION FEE		0.00	0.00	<input type="checkbox"/>		<input type="checkbox"/>	<input checked="" type="checkbox"/>
	RENTAL CAR				<input type="checkbox"/>		<input type="checkbox"/>	<input checked="" type="checkbox"/>
	SKYCAP OR REDCAP TIP - MILITARY ONLY				<input type="checkbox"/>		<input type="checkbox"/>	<input checked="" type="checkbox"/>
	TAXES ON LODGING				<input type="checkbox"/>		<input type="checkbox"/>	<input checked="" type="checkbox"/>
	TAXILIMO FROM AIRPORT				<input type="checkbox"/>		<input type="checkbox"/>	<input checked="" type="checkbox"/>

Buttons: Back, Next, Insert Expense, Delete Expense

 Use the following steps to "complete" the PCS Settlement Reimbursables tab:

- Date:** - The **default** value at this field is the **departure** date from the actual itinerary. If this is the correct date for the expense, press Tab. If not, type the correct date in MMDDYY format and press Tab.
- Nature of Expense:** - At this field, **click** on the *down arrow* button to display a *drop down listing* of the common expenses that have been entered into the **Reimbursable Descriptions** table in the IATS **Maintenance** module. **Click** the *Up/Dn arrows* until the desired expense item is displayed. If the user **types** the **first letter** of the description, IATS **scrolls** the listing until locating the first item beginning with this letter. The user may then use the *Up/Dn arrows* to display the exact item. Once the correct item is displayed, **click** on this item to make a selection. If the expense claimed by the traveler is not listed, simply **type** the description in this field and **press Tab**.
- Type:** - If the default value is incorrect, **click** on the *down arrow* button to display a *drop down listing* of various expense categories. **Click** the correct expense type code to make your selection and then press *Tab* to continue.
- Amount Claimed:** - At this field, **type** the **dollar amount** claimed by the traveler.
- Amount Approved:** - IATS automatically populates this field with the **amount** entered at the **Amount Claimed** field. If this amount is allowable, press Tab. If not, type the allowable amount and press Tab.
- IBOP:** - If the default value is incorrect, **click** on the *down arrow* button to display a *drop down listing* of various **Countries**. **Type** the first two letters of the desired country name or **click** the *Up/Dn arrows* until the desired name is displayed. **Click** on the highlighted name or **press Tab** to make the selection.
- Dependent:** - **Click** in the **box** at this field if the entered expense is associated with a **dependent**.
- Is Taxable:** - Certain types of **PCS** travel **entitlements** are subject to withholding **taxes**. IATS automatically checks the **check box** to **apply** taxes to these PCS reimbursable expenses. If it is determined that the expenses should not be taxed, click in the check box to remove the check mark.
- Const Leg:** - If the settlement request involves a constructed itinerary for the purpose of a cost comparison, the **Const Leg** field appears next. In addition, a table appears displaying the travel

legs for the itinerary. At this field **type** the **number** for the travel leg associated with the expense. If the expense should not be included in the cost comparison, simply **press Tab** to **leave** the number **zero** at this field.

10. **Repeat** the steps **1-9** above to enter any **additional** expenses.
11. When **finished** entering the Reimbursable Expenses, **click** the **OK** button. A **message** appears asking if you wish to **recalculate the daily meals or lodging**. **Click** the *Yes* or *No* button as desired.

Refer to the **Help** topic, "[Daily Exceptions](#)", for additional instructions.

MILPCS Settlement Calculations - tab

After completing the **Reimbursables** tab, IATS returns to the **Request for Settlement Against an Order** screen. To **view** a summary of the calculations for the settlement request, **click** on the **Calculations** tab.

Remit To	Adv/Accr	Entitlements	Calculations	Financial	Remarks

		<p><Back Next></p>																							

Note: At this tab, a **summary** of the **calculations** are displayed by expense category. If multiple fiscal years are involved, the calculations are summarized by fiscal year.

It's a good idea for the user to review the **Calculations** tab before adding the **accounting** lines to the settlement. This will assist the user in ensuring that the appropriate accounting lines are added.

If the traveler received an **advance** payment of MILPCS travel and transportation allowances, **click** in the **Advances** field. The **Split PCS Advance Payments** screen appears and the user must **apply** the **outstanding** advance amount to the appropriate entitlement.

Refer to the **Help** topic, "[Completing the Split PCS Advance Screen](#)", for additional instructions.

When **finished** with the Calculations tab, **click** on **Next** button or the **Financial** tab to proceed with the accounting lines.

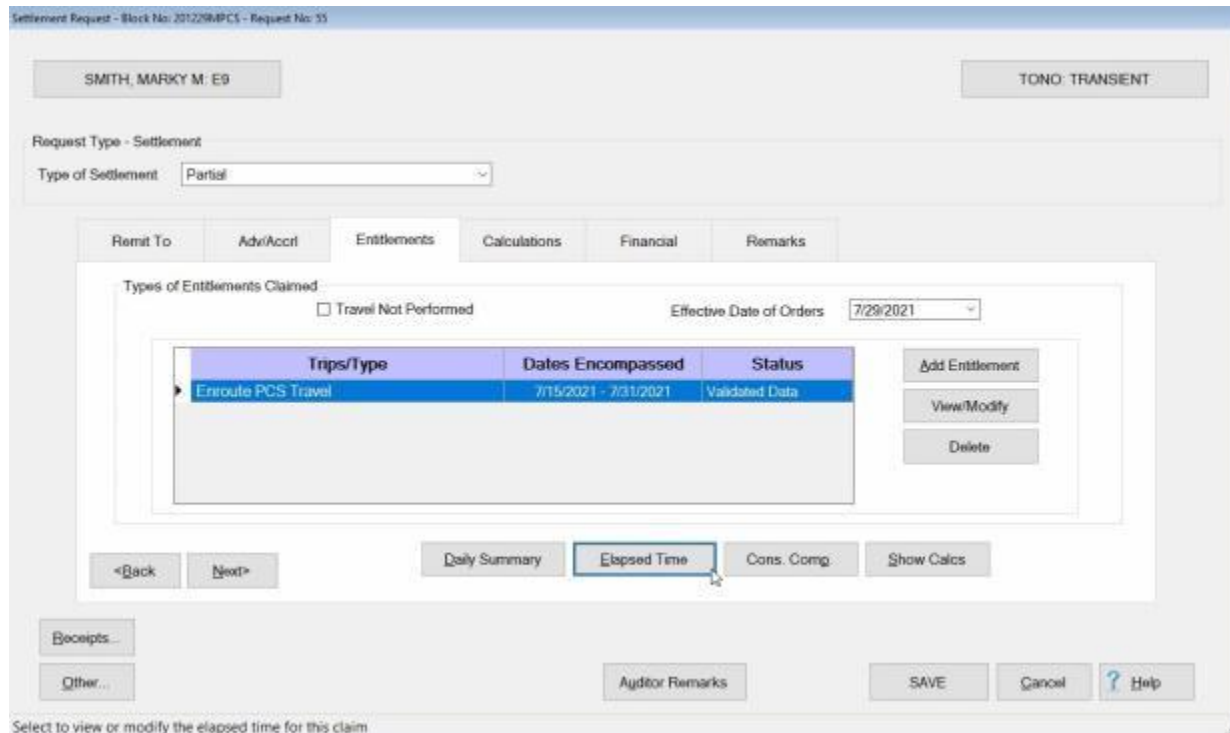

Refer to the **Help** topic, "[Financial - tab](#)", for additional instructions.

Review or Modify the Elapsed Time Screen

For **PCS** settlement of accession travel claims, the **U.S. Marine Corps** often has to report two **520** transactions. The current ET (**Elapsed Time**) reporting process only permits up to six codes. IATS has been modified (for PCS Settlement type claims only), so that the Examiner would be permitted to **click** on a Manual Elapsed Time tab, if required, that will allow them to add another 520 code and save the data along with the IATS computed 520 elapsed time.

When the **Manual Elapsed Time** tab is clicked, IATS will **display** an additional **table** to allow an Examiner to manually enter the following information:

After you have entered the **itinerary** and added any reimbursable expenses for a **MILPCS** settlement claim, IATS will return you to the **Settlement Request** screen with the **Entitlements** tab in focus.

If you wish to **review** the Elapsed Time calculations, **click** on the **Elapsed Time** button. IATS will display the **Elapsed Time** screen.

Report Elapsed Time

Select the Category Type

When the blank line is displayed, **enter** the desired **dates** in the **From Date** and **To Date** columns.

When you are at the **Category** column, an **arrow** button is visible. **Click** on the **arrow** button to display a **list of Category Codes** and then **click** on the desired **code**.

If you have made **modifications** that you would like to save, **click** on the **OK** button. If you have not made any changes you may **click** on the **Cancel** button to continue processing the claim.

Refer to the **Help** topic, "Manually Enter Elapsed Time", for instructions for using the **Manual Elapsed Time** tab.

Completing the Split PCS Advance Screen

The **Split PCS Advance Payments** screen appears when you **click** in the **Advances** field on the **Calculations** tab.

This screen is used to **apply** the **amounts** calculated for the PCS expenses to the amount **outstanding** that was received in **advance**.

Entitlement	Outstanding	Applied
Memb/Emp TDY Per Diem	\$200.00	\$200.00
Memb/Emp PCS Per Diem	\$300.00	\$300.00

Total 500.00

Use the following steps to "complete" the Split PCS Advance Payments screen:

Tip: Refer to the **Calculations** tab for a **summary** of the calculated entitlements.

1. **Click** in the **Applied** field for the **entitlement** you wish to apply an outstanding amount against.
2. **Type** the dollar **amount** you wish to **apply**.

Tip: Users can **apply all** of the outstanding **amounts** simply by **clicking** on the **Default** button. Using the **Default** button, however, will **only apply** the **outstanding amount(s)** against the **entitlement(s)** being processed. For example; if the settlement being processed is for **Enroute Travel only**, **clicking** on the **Default** button will **only apply** the **outstanding amount** associated to **Enroute Travel**.

3. **Continue** with steps 1 and 2 until the desired amounts are **applied**.
4. When **finished** applying the outstanding amounts, **click** the **OK** button. IATS returns to the **Settlement Request** screen.
5. At the **Settlement Request** screen, **click** on the [Financial tab](#) and add the appropriate **accounting** lines.

Financial - tab

The **Financial tab** is used to specify the **method of payment**, a **split payment** amount, and to add the **accounting** information.

Remit To	Adv/Acctl	Entitlements	Calculations	Financial	Remarks	
Method of Payment		EFT		Computed Split:	\$396.00	<input type="checkbox"/> Release Obligation
Due Traveler:		\$381.82		Split Payment:	\$500.00	<input type="checkbox"/> Apply 100% to Split
Db/Cr	Classification					Amount
Db	111111 21 9 2020 0000 76 2016 P810000000 21T2 000000 SMI1111TJSPLIT S12345					\$881.82
<input style="border: none;" type="button" value=" <Back "/> <input style="border: none;" type="button" value=" Next > "/>						<input style="border: none;" type="button" value=" Modify Accounting "/>

 Use the following steps to "complete" the Financial tab:

- Method of Payment:** - The default value is **EFT** if the traveler's account is active for EFT payments. If you wish to choose a different method of payment, **click** on the down arrow button to display a list of payment options and then **click** on the desired method.
- Computed Split:** - The amount displayed at the Computed Split field is a **combination** of the **Lodging** expense entered into the itinerary and the **reimbursable expense items** entered at the Reimbursables tab that were **selected** for a **split** payment. If you **double click** in the Computed Split field, the **Split Payment** field will be **populated** with the computed amount.
- Split Payment:** - If not already **populated** by double clicking in the **Computed Split** field, **click** in this field and **type** the dollar **amount** specified by the traveler to be **sent directly** to the **company** providing the **Government Credit Card**. This option is only available if the **method** of payment is **EFT**.

Note: When the **EFT information** is **blank** or only the **IBAN information** is populated on the traveler profile, and the **GTCC number** is **populated**, IATS users can select **Check** or **EFT** as the "**Method of Payment**". If **Check** is selected no split payment is **allowed**. If **EFT** is selected however, IATS automatically sends the entire amount to the **GTCC** and you cannot **change** the split amount in this case.

- Release Obligation:** - If a **Transportation Request** was issued for the performed travel, a charge may still be pending for payment of the transportation, and the funds should not be de-obligated. If the travel was not performed by **government procured transportation**, however, **click** in this **box** to send a code to the accounting system that will allow the obligation to be **released**.
- Apply 100% to Split:** - When this check box is **checked**, IATS will **apply** the whole amount due the traveler to the **company** providing the **Government Credit Card**. **Note** that this **check box** is only **visible** and **applicable** to **TPAX** users.
- Modify Accounting:** - **Click** this button to access the **Accounting** screen and enter the accounting information.
- After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **Save** button.

Remarks - tab

After adding the accounting lines to a **Request for Settlement** or **Advance**, the user may want to add some optional **Remarks** to the printed **travel voucher**, the **traveler's historical record**, or **both**.

 Use the following steps to "complete" the Remarks tab:

1. **Click** on the **Remarks** tab. The following screen appears:

The screenshot displays the 'Remarks' tab interface. At the top, a navigation bar contains tabs for 'Remit To', 'Entitlements', 'Calculations', 'Financial', and 'Remarks'. Below this, there are two text input areas. The first is labeled 'Remarks in History' and the second is labeled 'Remarks on Voucher'. Both input areas contain the placeholder text 'Don't spend it all in one place.'. At the bottom of the interface, there are four buttons: '<Back', 'Next>', 'Get Std. Voucher Remarks', and 'Copy'.

2. **Remarks in History:** If wishing to add remarks to the traveler's historical record, **click** in this **box** and **type** the desired remarks.
3. **Remarks on Voucher:** If wishing to add remarks to the traveler's printed voucher, **click** in this **box** and **type** the desired remarks.
4. **Copy:** Clicking on the **Copy** button will **copy** the remarks from the **Remarks in History** text box to the **Remarks on Voucher** text box.
5. If you wish to add a standard remark from the Standard Voucher Remarks table, **click** on the **Get Std. Voucher Remarks** button. The **Standard Voucher Remarks** screen appears.

Standard Voucher Remarks

Standard Voucher Remarks

TVS Advance

Please sign claim and return to this office.

Please attach travel orders and return claim to this office.

OK Cancel ? Help

Select the Standard Voucher Remark to Modify or Delete

6. At the Standard Voucher Remarks screen, **click** on the *down arrow* to display a **list** of remarks and then **click** on the desired **remark**. The selected remark will be displayed in the **Remarks in History** text box. If you are satisfied with the remark, **click** on OK.
7. **Repeat** steps 5 and 6 if you wish to add additional standard **remarks**.
8. When **finished** adding remarks, **click** on the **Save** button to **save** the entries.

Workflow - tab

To assist managers in determining where **delays** in travel settlement requests processing occur, IATS generates the Reporting Unit Code (RUC) Report for **Marine Corps** travel offices. For **other** travel offices, this report is named the **Liaison Office Report**.

The purpose of this report is to **track** the number of days required to **move** a settlement request **through** the **processing cycle**. Because settlement requests processed by these organizations are often **routed** through **liaison offices**, IATS tracks their movement from the **date signed** until the **date disbursed**.

The **Workflow** tab is used to **capture** the **details** needed for IATS to generate the **RUC/Liaison Office Report**.

The **dates** at the Workflow Tab are also used to **determine** whether **interest** must be **paid** to the traveler for **late** payments.

 Use the following steps to "complete" the Workflow tab:

1. If not already in focus, **click** on the **Workflow** tab. The following screen appears:

Note: IATS users must select a Liaison Office from the *drop down list* at the **Ruc/Liaison Office** field if the new check box for the option in Maintenance "**Force Selection of Liaison Office**" is checked. Users may no longer type in a Liaison Office name when this option is activated.

2. **Ruc/Liaison Office:** - At this field **click** on the **down arrow** button. A *drop down list* of Ruc/Liaison Office **number(s)** appears. The Ruc/Liaison Office information must be previously established by the **System Administrator** in the IATS **Maintenance** module. When the *drop down list* appears, **click** on the **number** for the Ruc/Liaison Office that handled the **claim**. IATS users may also **type** in a Liaison Office **name** if the desired office name does not appear in the *drop down list* and the "**Force Selection of Liaison Office**" option in Maintenance has not been activated.
3. **Date Signed by: - Traveler:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **signed** by the **traveler**.
4. **Date Received by: - RUC/Liaison Office or signed by the AO:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **received** by the **Ruc/Liaison Office**.
5. **Date Forwarded by: - Liaison Office:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **forwarded** by the **Ruc/Liaison Office**.
6. **Date Received by: - Travel Office:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **received** by the **Travel Office**.

7. **Expected Pay Date:** - The **Expected Pay Date** is used for **tracking** the **processing time** for the **Voucher Turnaround Report**. The **default** value at this field is **4 days** from the **current** date. If this **date** is correct, **press Tab** to continue, or **type** a new date if necessary and **press Tab**.
8. When **finished** entering the dates at the Workflow tab, **click** on the **OK** button to **save** the entries and **return** to the **Settlement Request** screen.

Completing the TLE Screen

Temporary Lodging Expense (TLE) is payable to a **member** (and the member's **dependents**) when **temporary lodging** is obtained during **PCS** travel. The purpose of these allowances is to **offset** the **additional expenses** incurred when the member must obtain temporary lodging **prior** to **departing** the **old PDS**, as well as after **arriving** at the **new PDS**.

TLE is **not payable** on **any day** the member or dependents are **receiving per diem**. In addition, both allowances are subject to the limitations prescribed in the JFTR.

Many finance offices pay TLE allowances in the pay section rather than the travel section.

To allow services to pay this expense as a travel entitlement, IATS was programmed to calculate and pay this entitlement.

Date	Location	Who's being Paid	Lodging	BAH
10/01/2022	VIRGINIA BEACH, VA	DOLLAR, SPOUSE	\$100.00	\$2,000.00
10/02/2022	VIRGINIA BEACH, VA	DOLLAR	\$100.00	\$2,000.00
10/03/2022	VIRGINIA BEACH, VA	DOLLAR	\$100.00	\$2,000.00
10/04/2022	VIRGINIA BEACH, VA	DOLLAR	\$100.00	\$2,000.00
10/05/2022	VIRGINIA BEACH, VA	DOLLAR	\$100.00	\$2,000.00
10/06/2022	VIRGINIA BEACH, VA	DOLLAR	\$100.00	\$2,000.00
10/07/2022	VIRGINIA BEACH, VA	DOLLAR	\$100.00	\$2,000.00
10/08/2022	VIRGINIA BEACH, VA	DOLLAR	\$100.00	\$2,000.00
10/09/2022	VIRGINIA BEACH, VA	DOLLAR	\$100.00	\$2,000.00
10/10/2022	VIRGINIA BEACH, VA	DOLLAR	\$100.00	\$2,000.00
10/11/2022	VIRGINIA BEACH, VA	DOLLAR	\$100.00	\$2,000.00
10/12/2022	VIRGINIA BEACH, VA	DOLLAR	\$100.00	\$2,000.00
10/13/2022	VIRGINIA BEACH, VA	DOLLAR	\$100.00	\$2,000.00
10/14/2022	VIRGINIA BEACH, VA	DOLLAR	\$100.00	\$2,000.00
10/15/2022	VIRGINIA BEACH, VA	DOLLAR	\$100.00	\$2,000.00
10/16/2022	VIRGINIA BEACH, VA	DOLLAR	\$100.00	\$2,000.00

Use the following steps to "complete" the TLE screen:

1. **Date:** At this field, **type** the **date** in **MMDDYY** format for the **first day** of the TLE **period**.
2. **Location:** At this field, the **Location Selection** screen automatically appears. At the **State/Country** field, **type** the first **two** letters of the state or country name. If the correct name appears, press tab to continue. You can also **click** on the **down arrow** button to display a **list** of State/country names that begin with the letters you entered. **Click** on the desired **state/country name** to make a selection.
3. At the **City** field, type the first **two** letters of the city name and then **click** on the **down arrow** button to display a list of city names that begin with the letters you entered. **Click** on the desired **city name** to make a selection.. You can also **enter** the **zip code** for the city **instead**.
4. When the correct state/country and city name has been selected, **click** on **OK**.
5. **Who's being paid:** At this field, a **drop down listing** appears displaying the **member** and any **dependents** entered when the travel order was created. **Click** on the desired **names** to make a selection. After selecting the travelers **press Tab** to continue.

Tip: Multiple traveler's may be selected by pressing and holding the *Shift* key and then clicking on the desired names. You can also click on the **Select All** button if you wish to select all of the listed names and then click on the **Apply** button.

6. **Lodging:** At this field, type the total daily lodging costs incurred and press *Tab*.
7. **BAH:** - If the TLE claim is for **Emergency TLE** and the **check box** for **BAH Paid** is checked on the **What's Authorized** tab on the Travel Order screen, the **BAH** field will appear on the **Temporary Lodging Entitlement** screen. At the **BAH** field, you must enter the monthly amount payable for BAH for the **TLE location**. IATS will then **divide** that amount **by 30** and **reduce the lodging** by that amount when **computing** the payment. The **reduction** will be **displayed** on the **TLE Expenses** screen if you click on the **Show Calcs** button at the **Entitlements** tab on the **Settlement Request** screen.

TLE Expenses

Other Auditor Remarks OK ? Help

8. After entering the lodging or BAH amount and pressing *Tab*, IATS automatically displays the **next consecutive date**. If TLE expenses are **applicable** for that day, simply **press Tab**, or **type the correct date** if another date is desired.

Note: IATS automatically populates each field with the same information entered on the previous day. If this information is correct, **press Tab** to continue, or **make the desired changes**.

9. When **finished** making the required entries at the TLE screen, **click** the **OK** button. IATS returns to the **Settlement or Advance Request** screen.

Mixed Mode Travel

It is quite **common** for **members/employees** to use one mode of transportation for part of a journey, and another mode for the rest of the journey.

Mixed Mode Travel occurs when two or more modes of **transportation** are used for one official leg.

For example, mixed mode travel commonly occurs when a member/employee **departs** the old PDS, and **drives** a **private auto** to the **leave point**. From the leave point, a **commercial plane** is used for the travel to the new PDS, or to an Aerial Port of Embarkation (**APOE**). The **official points** are between the old PDS and the **APOE** or new PDS.

The **input** into IATS for this type of travel **requires strict attention** to detail. All points where the mode of transportation **changes must be shown** in the itinerary. IATS will make the **determination** of whether a **mixed mode** travel situation applies, and will **generate** the required input **screens**.

Itinerary

The following **screen** demonstrates the correct input for a typical PCS involving **mixed mode travel**.

The screenshot shows the 'Actual Itinerary' screen with a dropdown menu for 'Actual Trip Duration' set to 'Greater than or equal to 24 hours'. Below is a table with the following data:

Date	Location	Trans Reason	Duty Day	IDL	Local Method	Group	Embark	Who Else	AE %	Lodging	Taxes	Miles
05/15/2017	FRANKFURT AM MAIN, I	TP	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Buttons at the bottom: Back, Next, Duplicate Previous, Insert Leg, Delete Leg, Clear, Completed.

In the **itinerary** screen, above, the following **locations** were **entered** to ensure correct computation of **mixed mode travel**.

First Official Leg: - The member **embarked** on transoceanic travel from the Aerial Port of Embarkation (**APOE**) and **arrived** at the Aerial Port of Debarkation (**APOD**).

Second Official Leg: - The member **terminated** the transoceanic travel at **Philadelphia**, which is the Aerial Port of Debarkation (**APOD**). The next official leg of the journey, is between the **APOD** and the new PDS.

Third Official Leg: - This **leg** was performed by **CP** and **PA** resulting in a (**Mixed Mode**). The traveler used a **commercial plane** to the **leave point** and a **private auto** from the **leave point** to the new PDS.

Constructed Itinerary

After completing the Itinerary, the **Constructed Itinerary** screen appears.

What's Authorized | Actual Itinerary | **Constructed Itinerary** | Reimbursables

Constructed Trip Duration:

From Date	To Date	To Location	Miles	Mem GTR	Dep GTR	GTR From Date	GTR To Date
5/15/2017	5/15/2017	Phila. PA, Philadelphia	0	\$0.00	\$0.00	05/15/2017	05/15/2017
5/16/2017	5/31/2017	IND, IN, Marion	655	\$0.00	\$0.00	05/30/2017	05/30/2017

Back | Next | Recalc Dates

Tip: At this screen, IATS requests the **Authorized Miles** for the **mixed mode leg**. The distance is used to **perform the first of two required computations**. Do **not** make an **entry** into the **GTR** columns when processing a settlement involving **mixed mode travel**. Only **two comparisons** are **required in accordance with** the **Federal Travel Regulations**.

Computation 1: - The **first computation** determines the **entitlement** as if a **private auto** was used for the **entire distance**.

Computation 2: - The **second computation** determines the **entitlement** based on the **actual** travel performed.

Note: The **amount** from the **first computation** establishes the **limitation** for the **total entitlement** for the **mixed mode leg**.

Reimbursables

At the **Reimbursables** tab, **special input** is **required** for **expenses** that were **incurred** during the **mixed mode leg**.

Note: For **Navy** users, **enter** the **GTR cost** at the **Reimbursables** screen using the **Type Code "G"**. For the **Nature of Expense** field, use **"Mixed Mode MILPCS GTR Cost"**. It is **recommended** that a supervisor or the designated person having access to **Maintenance** module **add** this expense description to the **Reimbursables Description** table so that item can be selected from the list of expenses appearing the **Nature of Expense** field.

Date	Nature of Expense	Type	Amount Claimed	Amount Approved	Split	IBOP	Dependent?	Const. Leg
05/15/2017	ATM ADVANCE EXPENSE	F	0.00	0.00	<input type="checkbox"/>	US	<input type="checkbox"/>	0
05/15/2017	AIRFARE	A	175.00	175.00	<input type="checkbox"/>	US	<input checked="" type="checkbox"/>	2
05/15/2017	AIRFARE	A	175.00	175.00	<input type="checkbox"/>	US	<input type="checkbox"/>	0

Const Leg	From Date	To Date	Location
2.00	5/16/2017 12	5/31/2017 12	33908 Fort Myers, FL, Lee

At the **Dependent?** column, **click** in the **box** to insert a **check mark** if the expense being claimed is for the **dependent's** portion of the travel.

At the **Const Leg** column, a **window** appears **listing** the **legs** of travel identified in the **itinerary** as mixed mode legs. If the **expense** being entered is **associated** with a mixed mode leg of travel, **type** the **number** that **represents** the correct mixed mode **leg**. If the expenses is not associated with a mixed mode leg, **type** the number **zero**.

After entering the reimbursable expenses, **finish processing the settlement** as usual.

Duplicating a Previous Itinerary

When processing **PCS** travel settlements, it is quite common for a **member/employee** and the **dependents** to perform the **enroute** travel with separate trips. Since the **points** of travel are typically the **same**, it may be helpful for IATS users to be able to **duplicate** the first itinerary entered.

Once the duplicate itinerary is **displayed**, the user can then **make** any **adjustments** to the **dates** or **mode** of travel, if applicable.

This feature will save time and **keystrokes** for the IATS user.

 Use the following steps to "duplicate" a previously entered itinerary:

1. Enter the **itinerary** for the first traveler.

What's Authorized Actual Itinerary Reimbursables

Actual Trip Duration: Greater than or equal to 24 hours

Date	Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	Who Else					
								AE %	Lodging	Taxes	Miles		
05/15/2017	DEP Fort Jackson, SC, Richlar	PA											
05/16/2017	ARR IND, IN, Marion	MC						0.00	\$0.00	\$0.00	633		

Back Next Duplicate Previous Insert Leg Delete Leg Clear Completed

In this example, the member traveled first by **POV** from the old PDS, (Ft. Jackson, SC), to the new PDS, (Indianapolis, IN).

Note: At the **What's Authorized** tab, only the **member** was **selected** for **who** was being paid.

2. After entering the first itinerary, **complete** the **Constructed Itinerary** and **Reimbursables** tabs as usual, if applicable.
3. **Return** to the **Entitlements** tab at the **Settlement Request** screen.
4. At the **Entitlements** tab, **click** on the **Add Expense** button, and select **Enroute**.
5. At the **What's Authorized** tab, **select** the **traveler** who is being paid for the second itinerary and then **click** on the **Actual Itinerary** tab.
6. At the **Actual Itinerary** tab, **select** the **Actual Duration** of the trip. The **itinerary** comes into **focus**.

8. When the duplicate itinerary is **displayed**, the user may now **make** any necessary changes.
 9. **Complete** the second itinerary and **finish** processing the settlement as usual.

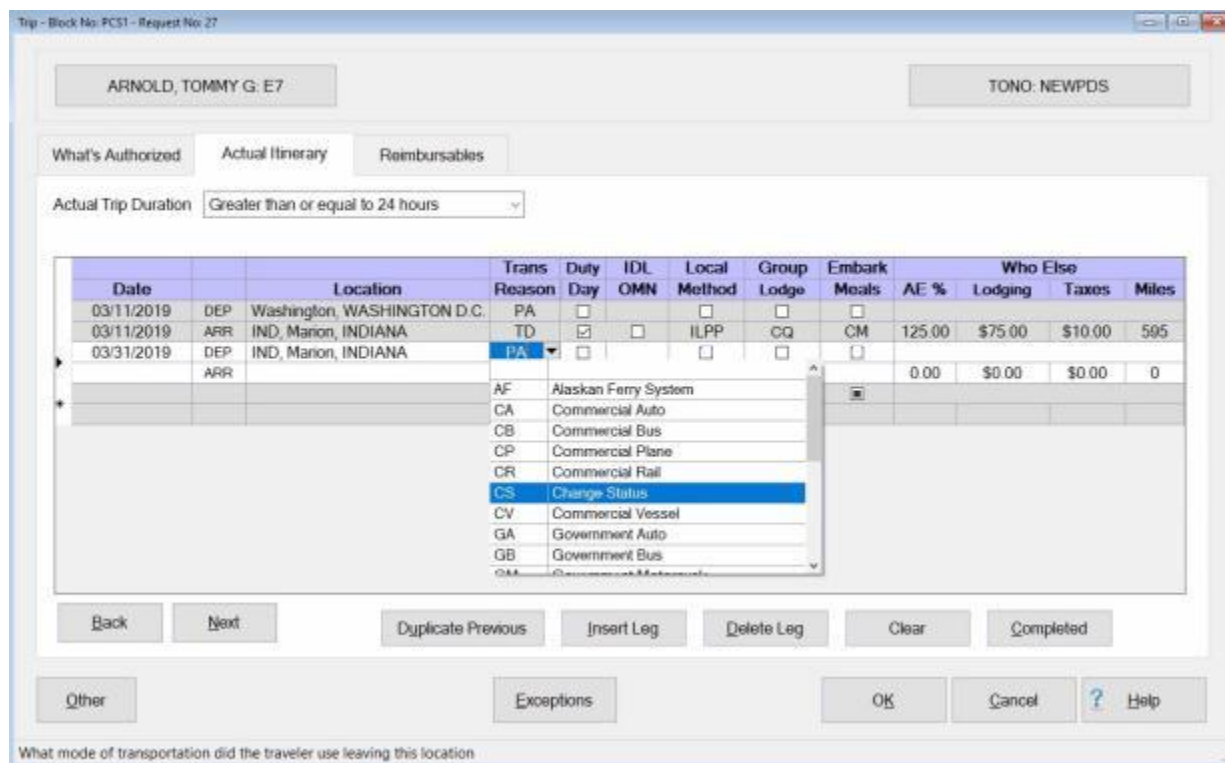

Enroute TDY Location Covered to PDS

Occasionally when a military member performs a MILPCS trip with TDY enroute, the TDY location is subsequently ordered to be the new PDS while they are still at the TDY site.

A **new feature** has been added to IATS to handle this situation so that the traveler will be paid the **proper per diem rate** for the day the location was **converted** to the PDS.

This involves **changing** the members **status** in the **itinerary** from a **TDY** status to a **Permanent Duty Station** status.

 Use the following steps to "convert" the TDY status to a PDS status:

1. On the **day** the TDY status is being **changed** to a PDS status, you **must** make a **departure** entry in the Itinerary.
2. **Click** in the **Date** field and **enter** the date for the status change in **MMDDYY** format and then **press Tab**.
3. At the **Location** field simply **press Tab** to continue since the travel is **not** actually **departing** this location.
4. At the **Transportation** field, **click** on the **down arrow** button to **display** the **drop down list** of transportation modes and then **click** on **CS - Change Status**.
5. **Press** the **Tab** key through the **remaining fields** on the departure line.
6. The **same date** that was entered at the Date field on the departure line will **default** to the Date field on the **new** arrival line. **Press Tab** to **accept** this date.
7. At the **Location** field, the **Location Selection** screen will appear. **Select** the **location** where the status was **previously TDY** and is being converted to the **PDS** and then **press Tab**.

9. **Press Tab** to continue. IATS will automatically display the **Reimbursables** Tab.
10. **Enter** any claimed **reimbursable expenses** and then **finish** processing the claim as you normally would.

Round Trip MILPCS Travel

A **feature** was added to IATS to **allow more than one MILPCS en route travel** claims to be processed against the **same travel order**.

This situation **typically** applies to **Reserve Components** and occurs when a member is brought on active duty and sent to a school that lasts **longer than 140 days** making it a **PCS**. All Reserve component orders bring the person on duty from his/her **home** to where he/she is performing the duty then **back to home**. This situation causes **two MILPCS en route travel claims** for the **same order**. The **one from home to the duty** then the **one** at the **end** when he/she **returns home**.

 Use the following steps to "process" Round Trip MILPCS en route travel:

Travel Order User ID: SYSTEM Monday, August 3, 2020

Traveler's Name: MANN, ARMY: E7 Grade/Rank: E7 Order Number/TONO: SCR1504 Order Type: PCS

Description What's Authorized (Military PCS) Dependents Remarks

PCS Type: PCS and Return

Issuing Organization: Station to Station

Paying Organization: Honorably GT 90 % Separation

DSSN/ITR: Dishonorable or LT 90 Separation%

Funds: Retirement/Fleet Reserve

Group Travel: Change of Home Port

Origin: Home to First Duty Station

Destination: In Training Travel

Default State: Boot Camp to 'A' School (Normal)

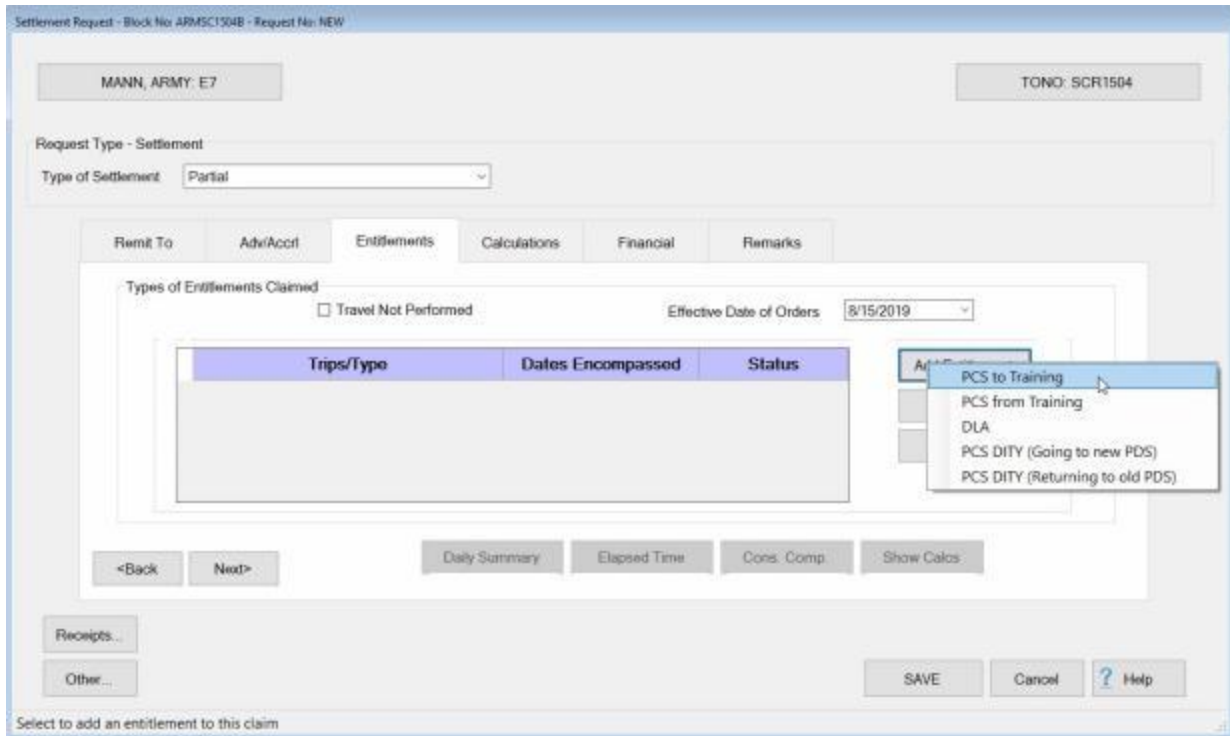

State Tax Designation: A School over 20 weeks

Dates: Issue Date: 8/3/2020 Begin Date: 8/3/2020 End Date: 8/3/2020

Back Next OK Cancel ? Help

Choose option that best describes the type of PCS involved with this travel order

1. At the **PCS Type** field on the **Travel Order** screen, **click** on the **down arrow** button and then **click** on the PCS type **PCS and Return** from the **drop down list** of PCS Types.

2. At the **Entitlements** tab on the **Settlement Request** screen, **click** on the **Add Entitlements** button. IATS will **display** a **list** of authorized entitlements reflecting what was **authorized** by the Travel Order.
3. **Click** on either **PCS to Training** or **PCS from Training** as appropriate.
4. You would then **continue processing** the claim like any other **MILPCS en route travel claim**.

MILPCS to Training and Return with BAH

A **feature** was added to IATS to **allow** more than one MILPCS **en route travel** claims to be processed against the same travel order.

This situation typically applies to **Reserve Components** and occurs when a member is brought on active duty and sent to a school that lasts longer than 140 days making it a **PCS**. All Reserve component orders bring the person on duty from his/her **home** to where he/she is performing the duty then back to home. This situation causes two MILPCS en route travel claims for the same order. The one from home to the duty then the one at the end when he/she **returns home**.

This situation also occurs when members are ordered to attend **Professional Military Education** or a **Training Class**. Under this circumstance, members are **entitled** to receive Basic Allowance for Housing (**BAH**) at the **without dependents** rate applicable to the **member's grade** and **PDS location**. This entitlement is effective December 23rd, 2022. The BAH entitlement **starts** on the **day of arrival** at the PDS location and **stops** the on the **day before the member departs**.

For this **Training with BAH** situation there are three (3) different entitlement types that you must process as follows:

- PCS to Training
- BAH During Training (**note** that you may process this entitlement multiple times to pay it in **increments**)
- PCS from Training

 Use the following steps to "process" a MILPCS to Training and Return with BAH settlement:

Travel Order User ID: DAVE Tuesday, November 7, 2023

9. **Ending Date:** - Enter the **Ending Date** for the BAH entitlement in **MMDDYY** format. You can also **click** on the *down arrow* button and use the **calendar** to select the date.
10. **BAH:** - Enter the monthly amount for BAH at the without dependents rate for the member's **grade** and PDS **locality**.
11. **Click** on the **OK** button to **save** your entries..
12. The last entitlement that you would need to process after the end of the training is the **return travel** to the original PDS **location**.

13. At the **Entitlements** tab on the **Settlement Request** screen, **click** on the **Add Entitlements** button. IATS will **display** a **list** of authorized entitlements reflecting what was **authorized** by the Travel Order.
14. **Click** on the **PCS from Training** option. IATS will display the **Trip** screen.

15. At the **Trip** screen, **click** on the **Actual Itinerary** tab and **enter** the **itinerary** to **depart** the traveler from the **PDS/Training** location and **arrive** them back at the **original PDS location** as shown above.

You would **complete** the claim **as usual** after processing one of the various entitlements.

POV Shipment

POV Shipment - Overview

When performing **PCS** travel, **transportation** of a **POV** may be **authorized** under the following circumstances:

- When **ordered to make a PCS** to/from or between **OCONUS** stations
- Upon **change of homeport** of the vessel to which assigned
- When **ordered to make a PCS** within **CONUS** and the **traveler** cannot drive the vehicle

When the **shipment** of a POV is **authorized**, the following circumstances may apply:

- **Delivery to or Pick-up from** a designated vehicle **port** performed **separately** from the **PCS travel**
- **Delivery to or Pick-up from** a designated vehicle **port** performed **in-conjunction** with **PCS travel**

Click on the **See Also** button below and **select** the particular **topic** for additional information on processing **POV Shipments**.

POV Delivery or Pick-up Separately from MILPCS Travel

In order to **ship** a **vehicle**, the **member** must deliver the **vehicle** to the **port** and then pick the vehicle up from the vehicle **port** after arriving at the new PDS. When this entitlement is **authorized** the **member** is **entitled** to **reimbursement** for round trip mileage to/from the old/new PDS and the designated vehicle **port**.

To **process** this **type** of payment, there are a **number** of input requirements that are **unique** and must be **understood** by the **examiner** in order to **process** the **entitlement** correctly.

Travel Order

Ensure that the entitlement, "**Ship POV**", is **activated** at the "**What's Authorized (Military PCS)**" tab on the **IATS Travel Order** screen. Users will only have **access** to the **Ship POV** field if either the **Origin** or **Destination** is an **OCONUS** locality.

Select Expense Type

At the **Request for Settlement Against an Order** screen, **click** on the **Add Expense** button and then **click** on either the **Drop Off Vehicle** or **Pick Up Vehicle** option.

Itinerary

Note: IATS only allows three legs in the itinerary for this type of settlement. Therefore, when completing the itinerary, do not show **legs** where the traveler made additional stops. Construct the itinerary, if necessary, to show the direct route between the official points.

The following screen demonstrates the correct input for a typical MILPCS involving a separate trip to **drop-off** a **POV** at the vehicle port and return to the old PDS:

Date	Location	Trans Reason	Duty Day	IDL	Local	Group	Embark	Who Else			
				OMN	Method	Lodge	Meals	AE %	Lodging	Taxes	Miles
05/11/2017	DEP FRANKFURT AM MAIN,	PA									
05/11/2017	ARR BREMERHAVEN, GM	DV			LDP			0.00	\$0.00	\$0.00	324
05/11/2017	DEP BREMERHAVEN, GM	AD	Authorized Delay								
05/11/2017	ARR FRANKFURT AM MAIN,	AS	Alternate Safe Haven				CM	0.00	\$0.00	\$0.00	0

When completing the itinerary, ensure that **DV - Drop Off Vehicle at Vehicle Port** or **PV - Pick Up Vehicle at Vehicle Port** is **selected** as the **reason for stop** at the place the vehicle port is located.

Finish processing the request for settlement as usual.

Click on the **See Also** button below and **select** the particular **topic** for additional information on processing **POV Shipments**.

POV Delivery or Pick-up In-conjunction with MILPCS Travel

In order to **ship** a **vehicle**, the **member** must deliver the **vehicle** to the **port** and then pick the vehicle up from the vehicle **port** after arriving at the **new PDS**. Often times, the **delivery** and/or **pick-up** is **performed in-conjunction** with the traveler's **enroute** travel. Under this circumstance, the traveler is **reimbursed** Monetary Allowance in Lieu of Transportation Plus Flat Per Diem (**MALT PLUS**) for direct travel between the **vehicle port** and the **PDS**.

The **input** for this **type** of payment is nearly identical to a normal enroute travel settlement. There are a **number** of input requirements, however, that are **unique** and must be **understood** by the **examiner** in order to **process** the **entitlement** correctly.

Travel Order

Ensure that the entitlement, "**Ship POV**", is **activated** at the "**What's Authorized (Military PCS)**" tab on the IATS **Travel Order** screen. Users will only have **access** to the **Ship POV** field if either the **Origin** or **Destination** is an **OCONUS** locality.

Select Expense Type

At the **Request for Settlement Against an Order** screen, **click** on the **Add Expense** button and then **click** on the **Enroute** option.

Itinerary

The following **screen** demonstrates the correct input for a typical MILPCS involving a **pick-up** of a **POV** at the vehicle port in-conjunction with the **enroute** travel:

The screenshot shows the 'Actual Itinerary' tab selected. Below the tabs is a dropdown for 'Actual Trip Duration' set to 'Greater than or equal to 24 hours'. The main table has columns: Date, Location, Trans Reason, Duty Day, IDL OMN, Local Method, Group Lodge, Embark Meals, AE %, Who Else Lodging, Taxes, Miles. A dropdown menu is open over the 'Trans Reason' column, showing options: DP Drop Off Passengers, DV Drop Off Vehicle at Vehicle Port, ES Enroute Stop Over, LV Leave, MC Mission Complete, PP Pick Up Passengers, PV Pick Up Vehicle at Vehicle Port (highlighted), SH Safe Haven, TD Temporary Duty. Buttons at the bottom include Back, Next, Duplicate, Clear, and Completed.

Date	Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	AE %	Who Else Lodging	Taxes	Miles

		LV	Leave								
		MC	Mission Complete								
		PP	Pick Up Passengers								
		PV	Pick Up Vehicle at Vehicle Port								
		SH	Safe Haven								
		TD	Temporary Duty								

When completing the **itinerary**, ensure that **DV - Drop Off Vehicle at Vehicle Port** or **PV - Pick Up Vehicle at Vehicle Port** is **selected** as the **reason for stop** at the place the vehicle port is located.

Finish processing the request for settlement as usual.

Click on the **See Also** button below and **select** the particular **topic** for additional information on processing **POV Shipments**.

CONUS to CONUS POV Shipment

An eligible member ordered on a PCS between CONUS PDSs may be authorized transportation of one POV from the old CONUS **PDS** to new CONUS **PDS** when:

- The member is physically unable to drive, or
- There is insufficient time (in accordance with the JFTR par. U5160) for the member to drive and report to the new PDS as ordered.

In addition, an eligible member, who has **dependents** who are also relocating incident to the PCS, ordered on a PCS between CONUS PDSs may have POV transportation authorized for one POV from the old CONUS **PDS** to the new CONUS **PDS** when it is **advantageous** and **cost-effective** to the Government and provided that the:

- a. Member and/or eligible dependent(s) own **more than one** POV to be relocated to the new PDS;
- b. Member and dependents then travel at one time in one POC;
- c. Cost of shipment and commercial transportation of the POV to be shipped does not exceed the **cost of MALT plus per diem** for driving two POCs to the new PDS; and
- d. Member is financially **responsible** for all excess costs or additional expenses associated with POV transportation.

To **process** this **type** of payment, there are a **number** of input requirements that are **unique** and must be **understood** by the **examiner** in order to **process** the **entitlement** correctly.

Travel Order

Ensure that the entitlement, "**Ship POV**", is **activated** at the "**What's Authorized (Military PCS)**" tab on the IATS **Travel Order** screen.

Travel Order User ID: SYSTEM Monday, August 30, 2021

Make sure Shipping POV is authorized for First Duty Station

Back Next OK Cancel ? Help

Check this box if the member is authorized to ship his/her POV

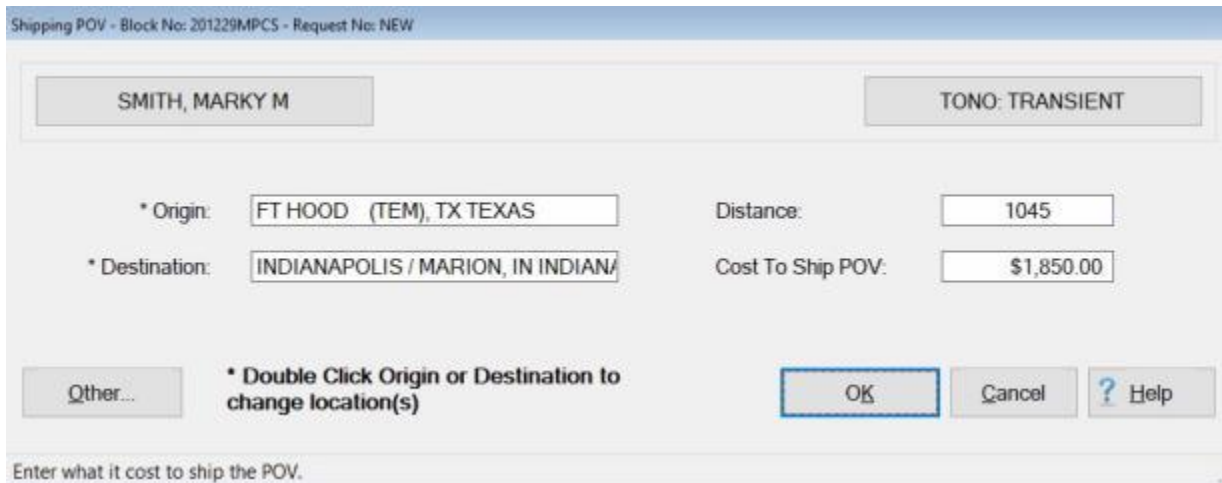

Select Expense Type

At the **Settlement Request** screen, **click** on the **Add Entitlement** button and then **click** on either the **Drop Off Vehicle at Port** or **Pick Up Vehicle at Port** options.

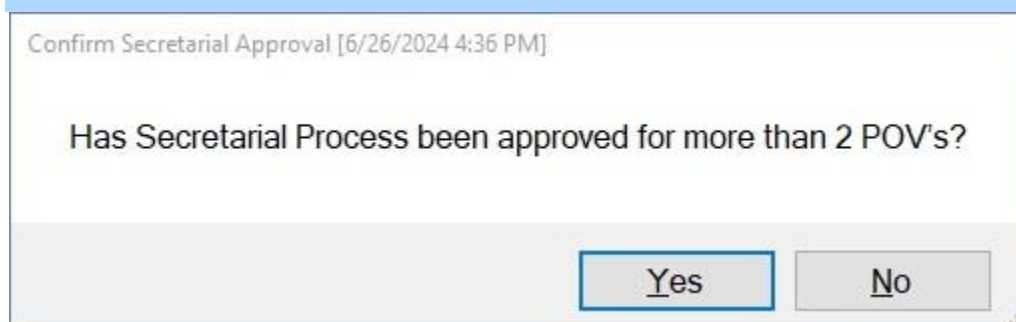

This action will result in IATS will displaying the **Shipping POV** screen.

 Complete the following steps to "complete" the Shipping POV screen:

1. **Distance:** - The mileage from the **DTOD** table will automatically default to this field based on the **Origin** and **Destination** locations entered when the travel order was created. If this mileage is **correct**, no action is necessary. If not, **click** in this field, **type** the correct mileage, and then **press Tab**.
2. **Cost to Ship POV:** - **Click** in this field and **type** the allowable amount to be reimbursed to the member for the shipment of the POV. You must determine the allowable amount by performing the three (3) cost comparison steps demonstrated in the Travel Regulations.
3. After you have entered the allowable cost at the **Cost to Ship POV** field, **click** on the **OK** button to **save** the entries.

Note: If more than 2 POV's are involved with the PCS travel, **ensure** that **Secretarial Process** has been **approved**. The following *pop-up message* will be **displayed** when **completing** the **Itinerary** or the **Shipping POV** screen if more than 2 POVs are involved with the PCS travel.

4. When you return to the **Settlement Request** screen **Finish** processing the request for settlement as usual.

Click on the **See Also** button below and **select** the particular **topic** for additional information on processing POV Shipments.

Quarantine

MILPCS Travel Involving a Stop for Quarantine

The **DoD stop movement** in response to the coronavirus disease (**COVID-19**) outbreak now creates the need for a new reason for stop within the IATS itinerary. The stop movement has caused permanent change of station move interruptions for military members, civilian employees, and their dependents for quarantine, isolation, or awaiting transportation. Some travelers were caught in the stop movement after signing out of their last PDS but before actually proceeding with travel, some had to quarantine themselves upon arriving at but before signing into the new PDS, and others were detained in alternate locations.

Note: Depending on the **circumstance**, the **funds** charged for the **delay** because of the quarantine stop will either be **PCS** or **TDY**. To address this situation, **two new Reason for Stop** codes have been added to IATS for **MIIPCS** travel. **QP - PCS Accounting** and **QT - TDY Accounting**. In addition, **QP** uses the new Authorized Delay (**AD**) rules for Military. The **QP** code also treats the stop as an authorized stop to pay per diem while there.

CIVPCS Settlement Requests

Processing CIVPCS Requests

Processing a CIVPCS Request for Settlement claim involves taking the information from the **DD Form 1351-2**, travel voucher, submitted by the customer and entering the information to IATS. Overlooking a small detail can result in significant overpayment, or underpayment.

In other Help **topics**, the [creation of a travel account](#) and [travel order](#) was demonstrated. In addition, users were introduced to [creating block tickets](#), [logging incoming requests](#), and [assigning block tickets](#) to voucher examiners for processing. These topics covered the essential steps required before a CIVPCS Request for Settlement claim can be processed. Users must be familiar with these steps before proceeding.

 **Complete the following steps to "process" a CIVPCS Request for Settlement:**

1. Login to IATS in the **Examiner** View mode or change the View to Examiner, if necessary.
2. Select a block through one of the following methods:
 - **Method 1:** - Click the [Grab Blocks](#) button and select a block from the **Logged** Pool.
 - **Method 2:** - **Double click** on the desired block listed under the **To Do** section or by **clicking** on the block **once** and then **clicking** the **Process Block** button.
 - **Method 3:** - Click on the **New Block** button and [create a new block](#).

Note: After selecting a block using one of the (3) methods listed above, the **Request Selection** screen appears. At this screen, any request already **logged** to the block is listed under the **Selected Request(s)** section.

Select All Unselect All Delete View/Modify New

Other... Print Block Ticket Return Request Skeleton Request Print Request(s) Done ? Help

3. At the **Request Selection** screen, **select** a request through one of the following methods:
 - **Method 1:** - **Double click** on the desired request.
 - **Method 2:** - Click on the request **once** and then **click** the **View/Modify** button.
 - **Method 3:** - Click on the **New** button.

Note: If the **New** button is clicked, the **Select Traveler** screen appears. At this screen the Examiner must **select** or **create** the traveler's **account**. After selecting or creating the travel's account, the **Travel Order Selection** screen appears. At this screen the Examiner must **select** or **create** a new **travel order**. After selecting or creating the travel order, the **Settlement Request** screen appears.

4. After selecting a request using one of the methods listed above, the **Settlement Request** screen appears.

The screenshot displays the 'Settlement Request' application window. At the top, it shows 'MANN, CIVLIAN D. C' and 'TONO: CIVPCS'. Below this, the 'Request Type - Settlement' is set to 'Partial'. A tabbed interface is visible with 'Remit To' selected. The 'Address' section contains the following fields: Line 1 (101 W EAST ST), Line 2 (empty), City (INDIANAPOLIS), Country/State (IN INDIANA), and Zip Code (46226). An 'Update Traveler' button is located to the right of the address fields. At the bottom of the form, there are '<Back' and 'Next>' navigation buttons. Below the form area, there are buttons for 'Receipts...', 'Other...', 'Auditor Remarks', 'SAVE', 'Cancel', and '? Help'. A status bar at the very bottom reads 'Enter the first line of the traveler's address.'

5. Refer to the **Help** topic, "[Completing the CIVPCS Request for Settlement Screen](#)", for additional instructions.

Completing the CIVPCS Request for Settlement Screen

After selecting a request, the **Settlement Request** screen appears. This screen is used to capture the details from the **DD Form 1351-2**, travel voucher, submitted by the customer.

The screenshot shows the 'Settlement Request' screen for Block No. 201229CPCS and Request No. 73. The screen is titled 'MANN, CIVILIAN O. C.' and 'TONO. CIVPCS'. The 'Request Type - Settlement' section shows 'Type of Settlement' set to 'Partial'. The 'Remit To' tab is active, displaying an 'Address' section with the following fields: Line 1 (101 W EAST ST), Line 2, City (INDIANAPOLIS), Country/State (IN INDIANA), and Zip Code (46226). There is an 'Update Traveler' button next to the Zip Code field. At the bottom of the screen, there are buttons for '<Back', 'Next>', 'Receipts...', 'Other...', 'Auditor Remarks', 'SAVE', 'Cancel', and '? Help'. A status bar at the bottom indicates 'Enter the first line of the traveler's address.'

 Use the following steps to "complete" the CIVPCS Request for Settlement screen:

1. **Type of Settlement:** No action should be **necessary** at this field. It is quite common to process several settlements using the same travel order number. For this reason, all CIVPCS travel is treated as **Partial** settlements.
2. **Address:** When the **Settlement Request** screen appears, the **Remit To** tab is displayed. At this tab, the traveler's address defaults from the address entered at the **Traveler Profile** screen when the traveler's profile was created. Compare this address to the address appearing on the Request for Settlement submitted by the traveler and make any necessary changes. If the IATS user **changes** the **Remit To** address at this tab, the **change** will appear with a **red** background.

Note: Any changes made to the address at the **Remit To** tab will only affect the settlement being processed. A **permanent** address **change** must be made at the **Traveler Profile** screen.

Click on the **See Also** button below and **select** the **topic** for additional instructions on completing the various **tabs** at this screen.

CIVPCS Adv-Accr - tab

When processing a Request for Settlement, **look** at **Block # 10** of the **DD1351-2** (Travel Voucher). Travelers are responsible for indicating advances received.

If Block # 10 of the DD1351-2 indicates that an advance was received, **ensure** that this information **appears** at the **Adv/Accr** tab.

If the information does not appear at the **Adv/Accr** tab, **type** the **details** for the advance payment in the appropriate fields.

Note: If there is a **check mark** appearing in the **Locked** box next to the **details** for an advance payment, no changes to the details may be made by the IATS user.

Remit To	Adv/Accr	Entitlements	Calculations	Financial	Remarks
----------	----------	--------------	--------------	-----------	---------

Locked	Date	Type	FY	Amount	DOV
<input type="checkbox"/>	06/25/2021	Advance	2021	\$775.00	456789
<input checked="" type="checkbox"/>					
<input checked="" type="checkbox"/>					

Complete the following steps to "enter" the advance details at the Adv/Accr tab:

1. **Date:** - At this field, **type** the **date** the advance was paid in **MMDDYY** format.
2. **Type:** - At this field, a drop down listing appears offering the choices **Accrual** or **Advance**. **Click** on the option that is appropriate for the **type** of advance payment received.
3. **FY:** - At this field, a drop down listing appears offering the choices for several **fiscal years**. **Click** on the choice that is appropriate for the **fiscal year** in which the advance payment was received.
4. **Amount:** - At this field, the **Advance Spread** screen appears and the user must allocate any previously paid advance to the appropriate **entitlements**.

Advance Spread

Date: Type:

Description	Amount
Memb/Emp PCS Per Diem	\$200.00
Memb/Emp TDY Per Diem	\$0.00
Memb/Emp Transportation	\$0.00
Memb/Emp MALT	\$375.00
Memb/Emp Reimbursable Expenses	\$0.00
Registration Fees	\$0.00
Dependent Per Diem	\$100.00
Dependent Transportation	\$0.00
Dependent MALT	\$100.00

Total Advance/Accrual:

Who being paid for Enroute Travel

CIVILIAN LADY	<input type="checkbox"/>
	<input type="checkbox"/>

Enter the amount for this element of expense

- At this screen, click in the **Amount** field for the appropriate entitlements and **type** the **dollar amount** for the advance payment received. When **finished** allocating the advance **click** the **Accept Changes** button.

Note: A new section (**Who being paid**) appears at the bottom of this screen for certain entitlements. **Notice** in the example above, this section is appearing for the **PCS Per Diem** entitlement. Users must use this section to **specify which individual(s)** the particular entitlement applies to.

- DOV #:** - At this field, **type** the Disbursing Office Voucher (**DOV**) number assigned to the advance payment received.
- After completing the **Adv/Accr** tab, **click** on the **Entitlements** tab or **click** the **Next** button to continue.

Refer to the **Help** topic, "[Entitlements - tab](#)", for additional instructions.

CIVPCS Entitlements - tab

The **Entitlements** tab is the beginning point for **capturing** the specific **details** pertaining to what is authorized on the travel order in regards to the authorized PCS expenses, **transportation** allowances, **itinerary** for the trip, and any **reimbursable expenses**.

Use the following steps to "complete" the CIVPCS Settlement Entitlements tab:

1. **Travel Not Performed:** - Under the heading "**Types of Entitlements Claimed**", **click** in this box if the trip was not performed and you wish to generate a **zero dollar transaction**. This transaction is then **transmitted** to the **accounting system** to **de-obligate** the **funds** set aside for the travel order.
2. **Effective Date of Orders:** - The effective date of the orders is used to determine the correct rate for certain entitlements. At this field, **type** the correct effective date of orders in **MMDYY** format and **press Tab**. You can also **click** on the **down arrow** button and use the **calendar** to select the date.
3. **Add Entitlement button:** - **Click** on this button to **select** the types of **expenses** the settlement is requested for. A drop down listing appears and displays the **expenses** that were **authorized** when the travel order was created.
4. **Following**, is a list of possible **CIVPCS** settlement expense **types** and a **link** to additional **instructions** for processing each particular expense type:
 - **Enroute:** - If the user **clicks** on the **Enroute** option, the **What's Authorized** tab appears and the user must specify **who is traveling** and **how many cars** will be used. **Refer** to the **Help** topic, "PCS Settlement What's Authorized tab", for additional instructions.
 - **HouseHunting:** - If the user **clicks** on the **HouseHunting** option, the **What's Authorized** tab appears and the user must specify **who is traveling** and **how many cars** will be used. **Refer** to the **Help** topic, "PCS Settlement What's Authorized tab", for additional instructions.
 - **House Hold Goods:** - If the user **clicks** on the **House Hold Goods** option, the **Commuted Rates**, **GBL Method**, or **Personally Procured** screen appears depending on what was authorized when the **travel order** was created. **Refer** to the **Help** topic, "[House Hold Goods Overview](#)", for additional instructions.
 - **Real Estate:** - If the user **clicks** on the **Sell House or Purchase House** option, the **input screen** for the selected option will appear. **Refer** to the **Help** topic, "[Real Estate Overview](#)", for additional instructions.
 - **Miscellaneous:** - If the user **clicks** on the **Miscellaneous** option, the **Miscellaneous Expenses** screen appears. **Refer** to the **Help** topics, "[Misc. Exp. - Flat Rate](#)" or "[Misc. Exp. - Itemized](#)", for additional instructions.

- **TQSE:** - If the user **clicks** on the **TQSE** option, the **TQSE Authorized Period** or the **TQSE Lump Sum** screen appears. **Refer** to the **Help** topic, "[TQSE Overview](#)", for additional instructions.
 - **RITA:** - If the user **clicks** on the **RITA** option, the RITA screen appears. **Refer** to the **Help** topic, "[RITA Overview](#)", for additional instructions.
5. **Click** on the desired **expense** type and **complete** the associated input **screen** to **enter** the **details** for the selected expense.
 6. When **finished** adding expenses, **proceed** to the [Calculations](#), [Financial](#), and [Remarks](#) **tabs** to **finish** processing the settlement.

CIVPCS Settlement What's Authorized - tab

After **clicking** on the **Add Expense** button and **selecting** the **Enroute** option at the **Entitlements** tab, the **What's Authorized** tab appears. At the **What's Authorized** tab, the user **must specify** that the traveler **is** the **owner/operator** of the **POV**, the **number** of **cars** used, and **which** **travelers** **are** to be **included** in the settlement calculation.

 Use the following steps to "complete" the PCS Settlement What's Authorized tab:

1. **Owner/Operator of POV:** - At this field, **click** in the **check box** **if** the traveler **was** the **owner** and **operator** of the **POV** used in the performance of the trip.
2. **No MALT:** - **Click** in the **check box** to **activate** this option if Mileage in lieu of Transportation (MALT) should **not** be **paid** for this trip.
3. **Number of cars authorized:** - At this field, **type** the **number** representing the how many **POV's** are to be **used** in the **calculation** of the trip being processed.
4. **Alternative Fuel POV Authorized:** - **Click** in this **check box** to **activate** this option **if** the Authorizing Official has **approved** the **shipment** or the **use** of an alternative fueled vehicle (AFV) in connection with the PCS move. Such approval **authorizes** **circuitous** travel routes to **accommodate** vehicle **ranges** and **fueling availability limitations**.

Note: The **Alternative Fuel Authorized** option **must** be **checked** on the **Travel Order** created for this travel. If the option has **not** been **activated**, the following **pop-up message** will appear. If **Yes** is answered, IATS will **automatically** **check/activate** the option on the Travel Order. If **No** is selected, IATS will **remove** the **check** from the **Alternative Fuel POV Authorized** check box on the **What's Authorized** **tab** and **not** **allow** the **AFV** rules to apply for the trip.

5. **Who is being paid for this trip:** - At this section, the user must specify which of the listed **travelers** are to be **included** in the **calculation** of the settlement. If all of the listed **traveler's** should be included, **click** on the **Select All** button. If not, **click** on the desired name.

Tip: Multiple traveler's may be **selected** by **pressing** and **holding** the *Shift* key and then **clicking** on the desired **names**.

6. After completing this tab, the user must then **click** on the **Actual Itinerary** tab or **click** on the **Next** button to continue.

Refer to the **Help** topic, "[Actual Itinerary - tab](#)", for additional instructions.

CIVPCS Actual Itinerary - tab

The **CIVPCS Actual Itinerary** tab is used to **capture** the specific **details** for the trip itinerary.

While completing this screen, refer to the **prompt line** at the bottom. The prompt line will **explain** what **information** is requested at each input field.

What's Authorized Actual Itinerary Reimbursables

Actual Trip Duration:

Date		Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	AE %	Who Else Lodging	Taxes	Miles
07/12/2021	DEP	Washington, DC, Dist of Columbia	PA	<input type="checkbox"/>		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>				
07/12/2021	ARR		AT	<input type="checkbox"/>	<input type="checkbox"/>	LDP			0.00	\$0.00	\$0.00	0

Back Next Duplicate Previous Insert Leg Delete Leg Clear Completed

 Use the following steps to "complete" the CIVPCS Actual Itinerary tab:

- Actual Trip Duration:** - At this field, **click** on the *down arrow*. A drop down **listing** of trip **durations** appears. **Refer** to the **DD Form 1351-2** submitted by the traveler to determine the duration and then **click** the correct choice.
- Depart Date:** - The departure date on the first line of the itinerary automatically **defaults** from the **Begin Date** entered when the travel order was created. **Press Tab** to continue or **type** a different date, in **MMDDYY** format, if necessary.
- Depart Location:** - At this field, the **Origin** location entered (when the travel order record was created) will automatically default. If this location is incorrect, **double click** in the **Location** field. The **Location Selection** screen will appear and you can **select** a different depart location.
- Transportation:** - If the default method of transportation is incorrect, **click** on the *down arrow* button. A *drop down* listing of various transportation modes appears. **Click** the *Up/Dn arrows* until the desired mode is displayed and then **click** on the correct mode to make a selection.
- Local?:** - When the mode **PA** is selected for the transportation, a **prompt** asking if travel was to/from a **local** transportation terminal appears. If so, **click** in this box. If not, **press Tab** to continue.
- Arrival Date:** - The date at the previous **Departure Date** field **defaults** to the Arrival Date field. Press *Tab* to accept this date or **type** a new date, in **MMDDYY** format, if necessary.
- Arrive Location:** - This is the **location** where the traveler stops to perform official duty, change modes of transportation, or to rest overnight. The Location Selection screen will automatically appear at the Arrive Location field. Use this screen to select the location the traveler arrived at.
- Reason for Stop:** - At this field, the **default** value is **AT - Awaiting Transportation**. Press *Tab* if this is correct. If not, **click** on the *down arrow* button to display a *drop down* listing of various reasons for stopping and then **click** on the correct

reason to make a selection. **Click** on the **definitions** button below for an **explanation** of the various reason for stop codes.

9. **Duty Day:** - A **check mark** automatically **defaults** to this field. If this day is an official day of duty, **press Tab** to continue. If this day is not an official day of duty, however, **click** this box to **remove** the check mark.
10. **Method:** - The **default** value for this field is **LDP - Lodgings Plus**. Press *Tab* if this is correct. If not, **click** on the **down arrow** button to display a *drop down* listing of various per diem computation [methods](#). **Click** on the correct method to make a selection.
11. **Lodging:** - At the **Lodging** field, when completing the CIVPCS Actual Itinerary tab, a *drop down listing* of various [lodging types](#) appears. **Click** on the correct type to make a selection.
12. **Meals:** - At the **Meals** field, when completing the CIVPCS Actual Itinerary tab, a *drop down listing* of various [meal types](#) appears. **Click** on the correct type to make a selection.
13. **Lodging Cost:** - At this field, **type** the **dollar amount** for the daily lodging cost at the location where the traveler remained overnight.
14. **Taxes:** - If the overnight location is within CONUS, Alaska, Hawaii, or a US territory, the user is prompted to enter the daily lodging **taxes** amount. IATS will automatically reduce the taxes by the appropriate percentage when the claimed amount for **lodging** exceeds the authorized amount. If these taxes are entered into the **itinerary**, do not enter them again at the **Reimbursables** tab. The amount calculated for the taxes will appear on the **Calculations** tab after the trip has been completely entered.
15. **Miles:** - If not automatically populated by the **DTOD** look-up feature, **type** the number of **miles** claimed by the traveler if a privately owned vehicle was used.

Note: When finished with the itinerary, the **Constructed Itinerary** or **Reimbursables** tab appears next.

Refer to the **Help** topics, "[Constructed Itinerary - tab](#)" or "[Reimbursables - tab](#)", for additional instructions.

CIVPCS Reasons for Stop

When completing a **CIVPCS** Itinerary, a **Reason for Stop** code is **required** on each arrival line. A table appears at the **Reason for Stop** field displaying a variety of **codes** that may be used.

The **purpose** of the code is to **determine** what action must be taken by the travel computation system and what **allowances** are **applicable**. A **listing** of the various Reason for Stop **codes** and an **explanation** of their purpose is provided below:

- **AT - Awaiting Transportation:** This is used when the **traveler** is simply **stopping** at a **location** to **change** the **mode** of transportation.
- **TD - Temporary Duty:** This is the default value at this field since it is the most common reason a traveler stops. Use this code when the **point** the traveler **arrived** at is the **TDY** point.
- **LV - Leave:** Use this code when the **traveler** has **stopped** at a **location** for the **purpose** of taking leave. This code will **cause** the computation **system** to terminate per diem during the leave period.
- **MC - Mission Complete:** Use this code when the **trip** is **finished** and the **traveler** has **arrived** at the Permanent Duty Station (**PDS**).
- **AD - Authorized Delay:** Use this code when the **traveler** has **made** an official stop and remained overnight while **enroute** to an official duty point.
- **VR - Voluntary Return:** Use this code when a **traveler** has voluntarily returned to the **PDS** during a TDY trip. This commonly occurs when **travelers** are on lengthy TDY trips and there is a **holiday** weekend involved. Using this code **causes** the computation **system** to **perform a cost comparison** of what it would have cost the government had the traveler remained at the TDY location. This cost is then **compared** to the **expenses** the traveler **incurred** for **performing** the **VR** travel. The traveler is **reimbursed** these travel **expenses** up to what it would have cost the government to remain at the TDY location.
- **DV - Drop Off Vehicle At Vehicle Port:** Use this code when the **purpose** of the **stop** is to drop off a Privately Owned Vehicle (**POV**) at a vehicle **port** facility for overseas shipment.
- **PV - Pick Up Vehicle At Vehicle Port:** Use this code when the **purpose** of the **stop** is to pick up a **POV** from a vehicle **port** facility for movement to a new PDS.
- **ES - Enroute Stopover:** Use this code when the **traveler** has **made** an official stop and remained overnight while **enroute** to an official duty point. (This code may also be used with TDY travel).
- **DP Drop Off Passengers:** Use this code when the **purpose** of the **stop** is to drop off passengers at a passenger facility. This ordinarily occurs when delivering a POV to a vehicle **port** facility for overseas shipment in conjunction with a **PCS** and **passengers** are dropped off first.
- **PP - Pick Up Passengers:** Use this code when the **purpose** of the **stop** is to pick up passengers at a passenger facility. This ordinarily occurs after a **POV** is picked up from a vehicle **port** facility in conjunction with a **PCS** and the **passengers** are picked up afterwards.
- **SL - Sick Leave:** Not used at this time.
- **AR - Authorized Return Home:** Use this code when the **traveler** has been **authorized**, in the travel order, to make a return trip to his/her last PDS during a **PCS** travel period.
- **QP - Quarentine: PCS Accounting:** Use this code when the **traveler** was performing **CIVPCS** travel with a **quarantine stop** involved and the **entitlements** for the delay must be **charged** to **PCS** funds.

Constructed Itinerary - tab

There are **three** situations that cause the **Constructed Itinerary** tab to **appear** after completing the traveler's actual itinerary:

- **Privately owned conveyance** was used for the travel to and from the official locations.
- The authorized mode of travel was **POC Limited to Cost of Constructed Travel**.
- The travel was performed by **mixed modes**; a combination of privately owned and commercial or government procured transportation.

At this screen the **legs** of the traveler's **actual itinerary** are displayed. The user must either **enter** the **cost of government procured travel** or the **official mileage** depending on the authorized mode of travel. IATS will then either perform a **cost comparison** or **limit** the **mileage** reimbursement to the **official distance**.

 Use the following steps to "complete" the Constructed Itinerary tab when the authorized mode of travel was "POC Limited to Cost of Constructed Travel" or was performed by "Mixed Mode":

What's Authorized Actual Itinerary **Constructed Itinerary** Reimbursables

Constructed Trip Duration Greater than or equal to 24 hours

Back Next Recalc Dates

1. **Mem GTR:** - Click in this field for the first leg of travel. At this field, **type** the **dollar amount** for **government procured transportation** to include estimated **taxies** and **press Tab**.
2. **GTR From Date:** - The **date** at this field should be the **date** the traveler would have departed if the transportation was procured by the government. The **default** value at this field is the date of departure on the **actual itinerary**. If this is the **correct** date, **press Tab** to continue. If not, **type** the correct date and **press Tab**.
3. **GTR To Date:** - The **date** at this field should be the **date** the traveler would have arrived if the transportation was procured by the government. The **default** value at this field, is the date of arrival on the **actual itinerary**. If this is the **correct** date, **press Tab** to continue. If not, **type** the correct date and **press Tab**.
4. **Repeat** steps 1-3 above for any **additional** legs of travel displayed at this screen. After pressing **Tab** at the final **To Date** field, the **Reimbursables** tab appears.

PCS Settlement Reimbursables - tab

This screen is where IATS users enter the traveler's **reimbursable expenses** associated with the trip.

What's Authorized Actual Itinerary Reimbursables

Date	Nature of Expense	Type	Amount Claimed	Amount Approved	Split	IBOP	Dependent?	Is Taxable
03/26/2018	ATM ADVANCE EXPENSE	F	20.00	20.00	<input type="checkbox"/>	US	<input type="checkbox"/>	<input checked="" type="checkbox"/>
03/26/2018	REGISTRATION FEE		0.00	0.00	<input type="checkbox"/>		<input type="checkbox"/>	<input checked="" type="checkbox"/>
	RENTAL CAR				<input type="checkbox"/>		<input type="checkbox"/>	<input checked="" type="checkbox"/>
	SKYCAP OR REDCAP TIP - MILITARY ONLY				<input type="checkbox"/>		<input type="checkbox"/>	<input checked="" type="checkbox"/>
	TAXES ON LODGING				<input type="checkbox"/>		<input type="checkbox"/>	<input checked="" type="checkbox"/>
	TAXI/LIMO FROM AIRPORT				<input type="checkbox"/>		<input type="checkbox"/>	<input checked="" type="checkbox"/>

Back Next Insert Expense Delete Expense

 Use the following steps to "complete" the PCS Settlement Reimbursables tab:

- Date:** - The **default** value at this field is the **departure** date from the actual itinerary. If this is the **correct** date for the expense, **press Tab**. If not, **type** the **correct** date in **MMDDYY** format and **press Tab**.
- Nature of Expense:** - At this field, **click** on the **down arrow** button to display a **drop down listing** of the common expenses that have been entered into the **Reimbursable Descriptions** table in the IATS **Maintenance** module. **Click** the **Up/Dn arrows** until the desired expense item is displayed. If the user **types** the **first letter** of the description, IATS **scrolls** the listing until locating the first item beginning with this letter. The user may then use the **Up/Dn arrows** to display the exact item. Once the correct item is displayed, **click** on this item to make a selection. If the expense claimed by the traveler is not listed, simply **type** the description in this field and **press Tab**.
- Type:** - If the default value is incorrect, **click** on the **down arrow** button to display a **drop down listing** of various expense categories. **Click** the correct expense type code to make your selection and then **press Tab** to continue.
- Amount Claimed:** - At this field, **type** the **dollar amount** claimed by the traveler.
- Amount Approved:** - IATS automatically populates this field with the **amount** entered at the **Amount Claimed** field. If this amount is allowable, **press Tab**. If not, **type** the allowable amount and **press Tab**.
- IBOP:** - If the default value is incorrect, **click** on the **down arrow** button to display a **drop down listing** of various **Countries**. **Type** the first two letters of the desired country name or **click** the **Up/Dn arrows** until the desired name is displayed. **Click** on the highlighted name or **press Tab** to make the selection.
- Dependent:** - **Click** in the **box** at this field if the entered expense is associated with a **dependent**.
- Is Taxable:** - Certain types of **PCS** travel **entitlements** are subject to withholding **taxes**. IATS automatically checks the **check box** to **apply** taxes to these PCS reimbursable expenses. If it is determined that the expenses should not be taxed, **click** in the **check box** to **remove** the check mark.
- Const Leg:** - If the settlement request involves a constructed itinerary for the purpose of a cost comparison, the **Const Leg** field appears next. In addition, a table appears displaying the travel

legs for the itinerary. At this field **type** the **number** for the travel leg associated with the expense. If the expense should not be included in the cost comparison, simply **press Tab** to **leave** the number **zero** at this field.

10. **Repeat** the steps **1-9** above to enter any **additional** expenses.
11. When **finished** entering the Reimbursable Expenses, **click** the **OK** button. A **message** appears asking if you wish to **recalculate the daily meals or lodging**. **Click** the *Yes* or *No* button as desired.

Refer to the **Help** topic, "[Daily Exceptions](#)", for additional instructions.

CIVPCS Settlement Calculations - tab

After completing the **Reimbursables** tab, IATS returns to the **Settlement Request** screen. To **view a summary** of the calculations for the settlement request, **click** on the **Calculations** tab.

Remit To	Adv/Acct	Entitlements	Calculations	Financial	Remarks															
		<table border="1"> <thead> <tr> <th>Description</th> <th>Total</th> </tr> </thead> <tbody> <tr> <td>▶ Selling Home</td> <td>\$10,000.00</td> </tr> <tr> <td>Agency Matching (FICA/Med)</td> <td>\$765.00</td> </tr> <tr> <td>Less FITW</td> <td>\$2,200.00</td> </tr> <tr> <td>Less FICA</td> <td>\$620.00</td> </tr> <tr> <td>Less Medicare</td> <td>\$145.00</td> </tr> <tr> <td>Less Agency Matching (FICA/Med)</td> <td>\$765.00</td> </tr> </tbody> </table>		Description	Total	▶ Selling Home	\$10,000.00	Agency Matching (FICA/Med)	\$765.00	Less FITW	\$2,200.00	Less FICA	\$620.00	Less Medicare	\$145.00	Less Agency Matching (FICA/Med)	\$765.00

				Due Employee	\$7,035.00															
		Expected Payment Year: <input type="text" value="2023"/>		YTD IATS Wages:	\$5,182.78															
				YTD Payroll Wages:	\$75,000.00															
				<input type="checkbox"/> WTA To Be Paid	FITW % <input type="text" value="22.00%"/>															
<input data-bbox="203 745 300 777" type="button" value=" <Back "/> <input data-bbox="316 745 414 777" type="button" value=" Next > "/>																				

Note: At this tab, a **summary** of the **calculations** is displayed by expense category. If multiple fiscal years are involved, the calculations are summarized by fiscal year.

It's a good idea for the user to review the **Calculations** tab before adding the **accounting** lines to the settlement. This will assist the user in ensuring that the appropriate accounting lines are added.

1. **Advances:** - If the traveler received an **advance** payment of CIVPCS travel and transportation allowances, **click** in the **Advances** field. The **Split PCS Advance Payments** screen appears and the user **must apply** the **outstanding** advance **amount** to the appropriate entitlement. **Refer** to the **Help** topic, "[Completing the Split PCS Advance Screen](#)", for additional instructions.
2. **Expected Payment Year:** - **Enter** the **year** in YYYY format for the year the payment is expected to be made.
3. **YTD IATS Wages:** - This field is automatically populated by IATS based on cumulative payments already paid by IATS for the current year.
4. **YTD Payroll Wages:** - The **amount** at this field must be **determined** and **entered** by the IATS user.
5. **WTA To Be Paid:** - **Click** in the **check box** (if necessary) to **activate** this option if **WTA** is supposed to be paid for this request.
6. **FITW %:** - The default percentage for the **FITW** withholding is displayed and cannot be changed.

When **finished** with the Calculations tab, **click** on **Next** button or the **Financial** tab to proceed with the accounting lines.

Refer to the **Help** topic, "[Financial - tab](#)", for additional instructions.

Completing the Split PCS Advance Screen

The **Split PCS Advance Payments** screen appears when you **click** in the **Advances** field on the **Calculations** tab.

This screen is used to **apply** the **amounts** calculated for the PCS expenses to the amount **outstanding** that was received in **advance**.

Entitlement	Outstanding	Applied
Memb/Emp TDY Per Diem	\$200.00	\$200.00
Memb/Emp PCS Per Diem	\$300.00	\$300.00

Total 500.00

Use the following steps to "complete" the Split PCS Advance Payments screen:

Tip: Refer to the **Calculations** tab for a **summary** of the calculated entitlements.

1. **Click** in the **Applied** field for the **entitlement** you wish to apply an outstanding amount against.
2. **Type** the dollar **amount** you wish to **apply**.

Tip: Users can **apply all** of the outstanding **amounts** simply by **clicking** on the **Default** button. Using the **Default** button, however, will **only apply** the **outstanding amount(s)** against the **entitlement(s)** being processed. For example; if the settlement being processed is for **Enroute Travel only**, **clicking** on the **Default** button will **only apply** the **outstanding amount** associated to **Enroute Travel**.

3. **Continue** with steps 1 and 2 until the desired amounts are **applied**.
4. When **finished** applying the outstanding amounts, **click** the **OK** button. IATS returns to the **Settlement Request** screen.
5. At the **Settlement Request** screen, **click** on the [Financial tab](#) and add the appropriate **accounting** lines.

Financial - tab

The **Financial tab** is used to specify the **method of payment**, a **split payment** amount, and to add the **accounting** information.

Remit To	Adv/Acctl	Entitlements	Calculations	Financial	Remarks
Method of Payment: <input type="text" value="EFT"/>		Computed Split: <input type="text" value="\$396.00"/>		<input type="checkbox"/> Release Obligation	
Due Traveler: <input type="text" value="\$381.82"/>		Split Payment: <input type="text" value="\$500.00"/>		<input type="checkbox"/> Apply 100% to Split	
Db/Cr	Classification				Amount
Db	111111 21 9 2020 0000 76 2016 P810000000 21T2 000000 SMI1111TJSPLIT S12345				\$881.82
<input style="margin-right: 50px;" type="button" value=" <Back "/> <input style="margin-right: 50px;" type="button" value=" Next > "/> <input style="margin-left: 50px;" type="button" value=" Modify Accounting "/>					

 Use the following steps to "complete" the Financial tab:

- Method of Payment:** - The default value is **EFT** if the traveler's account is active for EFT payments. If you wish to choose a different method of payment, **click** on the down arrow button to display a list of payment options and then **click** on the desired method.
- Computed Split:** - The amount displayed at the Computed Split field is a **combination** of the **Lodging** expense entered into the itinerary and the **reimbursable expense items** entered at the Reimbursables tab that were **selected** for a **split** payment. If you **double click** in the Computed Split field, the **Split Payment** field will be **populated** with the computed amount.
- Split Payment:** - If not already **populated** by double clicking in the **Computed Split** field, **click** in this field and **type** the dollar **amount** specified by the traveler to be **sent directly** to the **company** providing the **Government Credit Card**. This option is only available if the **method** of payment is **EFT**.

Note: When the **EFT information** is **blank** or only the **IBAN information** is populated on the traveler profile, and the **GTCC number** is **populated**, IATS users can select **Check** or **EFT** as the "**Method of Payment**". If **Check** is selected no split payment is **allowed**. If **EFT** is selected however, IATS automatically sends the entire amount to the **GTCC** and you cannot **change** the split amount in this case.

- Release Obligation:** - If a **Transportation Request** was issued for the performed travel, a charge may still be pending for payment of the transportation, and the funds should not be de-obligated. If the travel was not performed by **government procured transportation**, however, **click** in this **box** to send a code to the accounting system that will allow the obligation to be **released**.
- Apply 100% to Split:** - When this check box is **checked**, IATS will **apply** the whole amount due to the traveler to the **company** providing the **Government Credit Card**. **Note** that this **check box** is only **visible** and **applicable** to **TPAX** users.
- Modify Accounting:** - **Click** this button to access the **Accounting** screen and enter the accounting information.
- After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **Save** button.

Remarks - tab

After adding the accounting lines to a **Request for Settlement** or **Advance**, the user may want to add some optional **Remarks** to the printed **travel voucher**, the **traveler's historical record**, or **both**.

 Use the following steps to "complete" the Remarks tab:

1. **Click** on the **Remarks** tab. The following screen appears:

The screenshot displays the 'Remarks' tab interface. At the top, there is a navigation bar with tabs for 'Remit To', 'Entitlements', 'Calculations', 'Financial', and 'Remarks'. Below the navigation bar, there are two text input areas. The first is labeled 'Remarks in History' and contains the placeholder text 'Don't spend it all in one place.'. The second is labeled 'Remarks on Voucher' and also contains the placeholder text 'Don't spend it all in one place.'. At the bottom of the interface, there are four buttons: '<Back', 'Next>', 'Get Std. Voucher Remarks', and 'Copy'.

2. **Remarks in History:** If wishing to add remarks to the traveler's historical record, **click** in this **box** and **type** the desired remarks.
3. **Remarks on Voucher:** If wishing to add remarks to the traveler's printed voucher, **click** in this **box** and **type** the desired remarks.
4. **Copy:** Clicking on the **Copy** button will **copy** the remarks from the **Remarks in History** text box to the **Remarks on Voucher** text box.
5. If you wish to add a standard remark from the Standard Voucher Remarks table, **click** on the **Get Std. Voucher Remarks** button. The **Standard Voucher Remarks** screen appears.

6. At the Standard Voucher Remarks screen, **click** on the *down arrow* to display a **list** of remarks and then **click** on the desired **remark**. The selected remark will be displayed in the **Remarks in History** text box. If you are satisfied with the remark, **click** on OK.
7. **Repeat** steps 5 and 6 if you wish to add additional standard **remarks**.
8. When **finished** adding remarks, **click** on the **Save** button to **save** the entries.

Workflow - tab

To assist managers in determining where **delays** in travel settlement requests processing occur, IATS generates the Reporting Unit Code (RUC) Report for **Marine Corps** travel offices. For **other** travel offices, this report is named the **Liaison Office Report**.

The purpose of this report is to **track** the number of days required to **move** a settlement request **through** the **processing cycle**. Because settlement requests processed by these organizations are often **routed** through **liaison offices**, IATS tracks their movement from the **date signed** until the **date disbursed**.

The **Workflow** tab is used to **capture** the **details** needed for IATS to generate the **RUC/Liaison Office Report**.

The **dates** at the Workflow Tab are also used to **determine** whether **interest** must be **paid** to the traveler for **late** payments.

 Use the following steps to "complete" the Workflow tab:

1. If not already in focus, **click** on the **Workflow** tab. The following screen appears:

Note: IATS users must select a Liaison Office from the *drop down list* at the **Ruc/Liaison Office** field if the new check box for the option in Maintenance "**Force Selection of Liaison Office**" is checked. Users may no longer type in a Liaison Office name when this option is activated.

2. **Ruc/Liaison Office:** - At this field **click** on the **down arrow** button. A *drop down list* of Ruc/Liaison Office **number(s)** appears. The Ruc/Liaison Office information must be previously established by the **System Administrator** in the IATS **Maintenance** module. When the *drop down list* appears, **click** on the **number** for the Ruc/Liaison Office that handled the **claim**. IATS users may also **type** in a Liaison Office **name** if the desired office name does not appear in the *drop down list* and the "**Force Selection of Liaison Office**" option in Maintenance has not been activated.
3. **Date Signed by: - Traveler:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **signed** by the **traveler**.
4. **Date Received by: - RUC/Liaison Office or signed by the AO:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **received** by the **Ruc/Liaison Office**.
5. **Date Forwarded by: - Liaison Office:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **forwarded** by the **Ruc/Liaison Office**.
6. **Date Received by: - Travel Office:** - At this field, **type** the **date**, in **MMDDYY** format, the **claim** was **received** by the **Travel Office**.

7. **Expected Pay Date:** - The **Expected Pay Date** is used for **tracking** the **processing time** for the **Voucher Turnaround Report**. The **default** value at this field is **4 days** from the **current** date. If this **date** is correct, **press Tab** to continue, or **type** a new date if necessary and **press Tab**.
8. When **finished** entering the dates at the Workflow tab, **click** on the **OK** button to **save** the entries and **return** to the **Settlement Request** screen.

Mixed Mode Travel

It is quite **common** for **members/employees** to use one mode of transportation for part of a journey, and another mode for the rest of the journey.

Mixed Mode Travel occurs when two or more modes of **transportation** are used for one official leg.

For example, mixed mode travel commonly occurs when a member/employee **departs** the old PDS, and **drives** a **private auto** to the **leave point**. From the leave point, a **commercial plane** is used for the travel to the new PDS, or to an Aerial Port of Embarkation (**APOE**). The **official points** are between the old PDS and the **APOE** or new PDS.

The **input** into IATS for this type of travel **requires strict attention** to detail. All points where the mode of transportation **changes** must be shown in the itinerary. IATS will make the **determination** of whether a **mixed mode** travel situation applies, and will **generate** the required input **screens**.

Itinerary

The following **screen** demonstrates the correct input for a typical PCS involving **mixed mode travel**.

Date	Location	Trans Reason	Duty Day	IDL	Local Method	Group Lodging	Embark Meals	Who Else			
				OMN				AE %	Lodging	Taxes	Miles
05/15/2017	DEP FRANKFURT AM MAIN, I	TP	<input type="checkbox"/>				<input checked="" type="checkbox"/>				
05/15/2017	ARR Phila, PA, Philadelphia	AT	<input type="checkbox"/>	<input type="checkbox"/>	LDP			0.00	\$0.00	\$0.00	0
05/15/2017	DEP Phila, PA, Philadelphia	CP	<input type="checkbox"/>				<input type="checkbox"/>				
05/15/2017	ARR 33908 Fort Myers, FL, Lee	LV	<input type="checkbox"/>	<input type="checkbox"/>			CQ CM	0.00	\$0.00	\$0.00	0
05/28/2017	DEP 33908 Fort Myers, FL, Lee	PA	<input type="checkbox"/>				<input type="checkbox"/>				
05/31/2017	ARR IND, IN, Marion	MC	<input type="checkbox"/>	<input type="checkbox"/>				0.00	\$0.00	\$0.00	1120
			<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>				
			<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>				

In the **itinerary** screen, above, the following **locations** were **entered** to ensure correct computation of **mixed mode travel**.

First Official Leg: - The member **embarked** on transoceanic travel from the Aerial Port of Embarkation (**APOE**) and **arrived** at the Aerial Port of Debarkation (**APOD**).

Second Official Leg: - The member **terminated** the transoceanic travel at **Philadelphia**, which is the Aerial Port of Debarkation (**APOD**). The next official **leg** of the journey, is between the **APOD** and the new PDS.

Third Official Leg: - This **leg** was performed by **CP** and **PA** resulting in a (**Mixed Mode**). The traveler used a **commercial plane** to the **leave point** and a **private auto** from the **leave point** to the new PDS.

Constructed Itinerary

After completing the Itinerary, the **Constructed Itinerary** screen appears.

What's Authorized | Actual Itinerary | **Constructed Itinerary** | Reimbursables

Constructed Trip Duration:

From Date	To Date	To Location	Miles	Mem GTR	Dep GTR	GTR From Date	GTR To Date
5/15/2017	5/15/2017	Phila. PA, Philadelphia	0	\$0.00	\$0.00	05/15/2017	05/15/2017
5/16/2017	5/31/2017	IND, IN, Marion	655	\$0.00	\$0.00	05/30/2017	05/30/2017

Back Next Recalc Dates

Tip: At this screen, IATS **requests** the **Authorized Miles** for the **mixed mode leg**. The distance is used to **perform the first of two** required **computations**. Do **not** make an **entry** into the **GTR** columns when processing a settlement involving **mixed mode travel**. Only **two comparisons** are **required in accordance with** the **Federal Travel Regulations**.

Computation 1: - The **first computation** **determines** the **entitlement** **as if** a **private auto** was used for the **entire distance**.

Computation 2: - The **second computation** **determines** the **entitlement** **based on** the **actual** travel performed.

Note: The **amount** from the **first computation** **establishes** the **limitation** for the **total entitlement** for the **mixed mode leg**.

Reimbursables

At the **Reimbursables** tab, **special input** is **required** for **expenses** that were **incurred** during the **mixed mode leg**.

Note: For **Navy** users, **enter** the **GTR cost** at the Reimbursables screen using the **Type Code "G"**. For the **Nature of Expense** field, use "**Mixed Mode MILPCS GTR Cost**". It is **recommended** that a supervisor or the designated person having access to **Maintenance** module **add** this expense description to the **Reimbursables Description** table so that item can be selected from the list of expenses appearing the **Nature of Expense** field.

What's Authorized	Actual Itinerary	Constructed Itinerary	Reimbursables	
-------------------	------------------	-----------------------	---------------	--

Date	Nature of Expense	Type	Amount Claimed	Amount Approved	Split	IBOP	Dependent?	Const. Leg
05/15/2017	ATM ADVANCE EXPENSE	F	0.00	0.00	<input type="checkbox"/>	US	<input type="checkbox"/>	0
05/15/2017	AIRFARE	A	175.00	175.00	<input type="checkbox"/>	US	<input checked="" type="checkbox"/>	2
05/15/2017	AIRFARE	A	175.00	175.00	<input type="checkbox"/>	US	<input type="checkbox"/>	0

Const Leg	From Date	To Date	Location
2.00	5/16/2017 12	5/31/2017 12	33908 Fort Myers, FL, Lee

* []

Buttons: Back, Next, Insert Expense, Delete Expense

At the **Dependent?** column, **click** in the **box** to insert a **check mark** if the expense being claimed is for the **dependent's** portion of the travel.

At the **Const Leg** column, a **window** appears **listing** the **legs** of travel identified in the **itinerary** as mixed mode legs. If the **expense** being entered is **associated** with a mixed mode leg of travel, **type** the **number** that **represents** the correct mixed mode **leg**. If the expenses is not associated with a mixed mode leg, **type** the number **zero**.

After entering the reimbursable expenses, **finish processing the settlement** as usual.

Duplicating a Previous Itinerary

When processing **PCS** travel settlements, it is quite common for a **member/employee** and the **dependents** to perform the **enroute** travel with separate trips. Since the **points** of travel are typically the same, it may be helpful for IATS users to be able to **duplicate** the first itinerary entered.

Once the duplicate itinerary is **displayed**, the user can then **make** any **adjustments** to the **dates** or **mode** of travel, if applicable.

This feature will save time and **keystrokes** for the IATS user.

 Use the following steps to "duplicate" a previously entered itinerary:

1. Enter the **itinerary** for the first traveler.

What's Authorized Actual Itinerary Reimbursables

Actual Trip Duration: Greater than or equal to 24 hours

Date	Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	Who Else					
								AE %	Lodging	Taxes	Miles		
05/15/2017	DEP Fort Jackson, SC, Richlar	PA											
05/16/2017	ARR IND, IN, Marion	MC						0.00	\$0.00	\$0.00	633		

Back Next Duplicate Previous Insert Leg Delete Leg Clear Completed

In this example, the member traveled first by **POV** from the old PDS, (Ft. Jackson, SC), to the new PDS, (Indianapolis, IN).

Note: At the **What's Authorized** tab, only the **member** was **selected** for **who** was being paid.

2. After entering the first itinerary, **complete** the **Constructed Itinerary** and **Reimbursables** tabs as usual, if applicable.
3. **Return** to the **Entitlements** tab at the **Settlement Request** screen.
4. At the **Entitlements** tab, **click** on the **Add Expense** button, and select **Enroute**.
5. At the **What's Authorized** tab, **select** the **traveler** who is being paid for the second itinerary and then **click** on the **Actual Itinerary** tab.
6. At the **Actual Itinerary** tab, **select** the **Actual Duration** of the trip. The **itinerary** comes into **focus**.

What's Authorized Actual Itinerary Reimbursables

Actual Trip Duration: Greater than or equal to 24 hours

Date	Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	Who Else			
								AE %	Lodging	Taxes	Miles
*			<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>				

Back Next Duplicate Previous Insert Leg Delete Leg Clear Completed

7. When the **Itinerary** comes into focus, **click** on the **Duplicate Previous** button. IATS **duplicates** the first itinerary that was entered, as shown below:

What's Authorized Actual Itinerary Reimbursables

Actual Trip Duration: Greater than or equal to 24 hours

Date	Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	Who Else			
								AE %	Lodging	Taxes	Miles

- 8. When the duplicate itinerary is **displayed**, the user may now **make** any necessary changes.
- 9. **Complete** the second Itinerary and **finish** processing the settlement as usual.

Using an Alternative Fueled Vehicle

The Per Diem, Travel, and Transportation Allowance Committee issued CAP Item 61-24(I) on August 28, 2024 that removed the limitation of calculating the authorized travel time for reimbursement using the lesser of the actual distance traveled or the actual travel time used. The clarifying item allows Approving Officials to authorize/approve the actual travel time executed when an Alternative Fueled Vehicle (AFV) is used without any limitations or comparisons. The actual travel time performed is what will be paid.

 Use the following steps to "process" an Enroute CIVPCS Request for Settlement using an Alternative Fueled Vehicle (AFV):

Travel Order

Ensure that the entitlement, "Alt. Fuel Authorized", is **activated** at the "What's Authorized (Civilian PCS)" tab on the IATS Travel Order screen. See the following example:

What's Authorized		
<input type="checkbox"/> Miscellaneous	<input type="checkbox"/> House Purchase	<input checked="" type="checkbox"/> Alt. Fuel Authorized
<input type="checkbox"/> Trailer	<input type="checkbox"/> Renewal Travel	<input type="checkbox"/> Ship POV
<input type="checkbox"/> Student Travel	<input type="checkbox"/> Property Mgmt.	Num. POV <input type="text" value="0"/>

What's Authorized - tab

Ensure that the entitlement, "Alternative Fuel POV Authorized", is **activated** at the "What's Authorized" tab on the IATS Trip screen. See the following example:

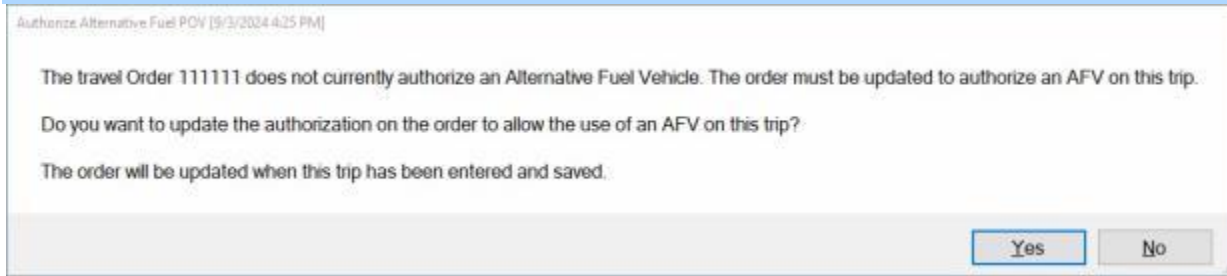

What's Authorized	Actual Itinerary	Reimbursables
<input checked="" type="checkbox"/> Owner/Operator of POV		
<input checked="" type="checkbox"/> Alternative Fuel POV Authorized		
<input type="checkbox"/> No MALT		Number of cars authorized <input type="text" value="1"/>
Who is being paid for this trip		
<input checked="" type="checkbox"/> AFVONE (Employee)		
<input type="checkbox"/> SPOUSE (Spouse)		

Back Next Select All Unselect All

Note: The **Alternative Fuel Authorized** option must be **checked** on the **Travel Order** created for this travel. If the option has not been **activated**, the following *pop-up message* will appear. If Yes is answered, IATS will automatically check/activate the option on the Travel Order. If No is selected, IATS

will **remove** the **check** from the **Alternative Fuel POV Authorized** check box on the **What's Authorized** tab and **not allow** the **AFV rules** to apply for the trip.

Actual Itinerary

Examiners will have to **enter all** the **circuitous travel** in the itinerary for IATS to **calculate** the **official DTOD distances** for the **authorized alternate locations**, as well as calculate the per diem. This is **necessary** as **each circuitous travel route** will be **different** and the **normal** DTOD mileage from old and new PDS will **not apply**.

The **actual** travel **performed** and **entered** in IATS **will be paid**. **Per diem** for **each calendar day of circuitous travel** and **MALT** for each alternate location **is payable**.

When completing the Itinerary, use the Enroute Stopover “**ES**” code for the **reason for stop** when the traveler stops to **refuel** the vehicle, This allows mileage to be paid beyond the official DTOD distance from old and new PDS. The “**ES**” entries are considered **official alternate locations** that should be paid per diem and MALT based on the official DTOD distance calculated between each departure and arrival location

House Hunting

House Hunting Overview

Civilian **employees** performing a **PCS** within **CONUS** are generally authorized to make a **trip** to their new duty station for the purpose of **locating** a new residence. This entitlement consists of round trip travel for the **employee** and **spouse** between the old and new permanent duty stations. In addition, **per diem** is **payable** for both, by one of two methods. These are the **Lodgings Plus** or **Lump Sum** methods.

Under the **Lodgings Plus** method, the **per diem** is **calculated** based upon the **itinerary** entered into IATS and the **location** of the new permanent duty station. Separate trips may be authorized for the **employee** and the **spouse**, but the total reimbursement is **limited** as if both parties traveled together for a 10 day trip.

Under the **Lump Sum** method, the locality per diem rate for the new duty station is **multiplied** by **(6.25)**, when the **employee** and **spouse** travel together, or by **(5)**, when separate trips are **performed**.

Under the **Lump Sum** method, no itinerary is **entered** into IATS.

Click on the **See Also** button below and **select** the **topic** that provides detailed **instructions** for processing House Hunting settlements.

House Hunting Lump Sum Method

Under the **Lump Sum** method, the locality per diem rate for the new duty station is **multiplied** by **(6.25)**, when the employee and spouse travel together, or by **(5)**, when separate trips are performed.

Note: Under the **Lump Sum** method, no itinerary is entered into IATS.

To **process** this **type** of payment, there are a **number** of input requirements that are **unique** and must be understood by the **examiner** in order to **process** the **entitlement** correctly.

Travel Order

Ensure that the entitlement, "**House Hunting**", is **activated** at the "**What's Authorized (Civilian PCS)**" tab on the IATS **Travel Order** screen. See the following example:

The screenshot shows a form titled "House Hunting". It contains four options, each with a checked checkbox: "Employee", "Spouse", and "Lump Sum". To the right of these options is a "Max. Days" field with a text input box containing the number "10".

In the **House Hunting** section, **click** in each box that **applies** to the request for settlement. In addition, **ensure** that the authorized number of **days** appears in the **Max Days** field. The default value is **(10)** days.

Select Expense Type

At the **Entitlements** tab, on the **Settlement Request** screen, **click** on the **Add Entitlement** button and then **click** on **House Hunting Trip**. IATS **displays** the **Trip** screen with the **What's Authorized** tab in focus.

What's Authorized tab

At the **What's Authorized** tab, users must **specify** whether the traveler is the **owner/operator** of the **POV**, if applicable, the **number of miles** involved, and **who** is being paid.

No MALT: - **Click** in the **No MALT** check box to **authorize** this option if Mileage in Lieu of Transportation is not authorized.

HHT POV Miles: Since no itinerary will be entered, **enter** the **number** of authorized miles for the House Hunting Trip.

After completing the What's Authorized tab, **click** on the **Next** button or the **Actual Itinerary** tab.

Actual Itinerary tab

As stated previous, no itinerary is entered using the **Lump Sum** method. The **dates** for the payment period, however, must be **entered**.

At the **Pay From/To** fields, **type** the beginning and ending dates for the House Hunting **Trip**. You can also **click** on the *down arrow* button and use the **calendar** to select the dates.

IATS 8.7.1 User Guide

After entering the correct dates, **click** on the **Next** button or **press** *Tab*. IATS **displays** the **Reimbursables** tab.

Finish processing the request for settlement to **add** the **expenses, accounting** lines, **remarks, etc.**, as usual.

Click on the **See Also** button below and **select** the **topic** that provides detailed **instructions** for processing House Hunting settlements.

House Hunting Lodgings Plus Method

Under the **Lodgings Plus** method, the **per diem** is **calculated based upon** the **itinerary** entered into IATS and the **location** of the **new permanent duty station**. **Separate trips may be authorized** for the **employee** and the **spouse**, but the **total reimbursement** is **limited as if both parties traveled together** for a **10 day trip**.

To **process** this **type** of payment, there are a **number** of **input requirements** that are **unique** and **must** be **understood** by the **examiner** in order to **process** the **entitlement correctly**.

Travel Order

Ensure that the **entitlement**, "**House Hunting**", is **activated** at the "**What's Authorized (Civilian PCS)**" **tab** on the IATS **Travel Order** screen. See the following example:

House Hunting

Employee Spouse

Lump Sum Max. Days

In the **House Hunting** section, **click** in **each box** that **applies** to the request for settlement. **In addition**, **ensure** that the **authorized** number of **days** appears in the **Max Days** field. The **default** value is **(10)** days. **If this is incorrect**, **click** in this field and **type** the **correct number**.

Select Expense Type

At the **Entitlements** tab, on the **Settlement Request** screen, **click** on the **Add Entitlement** button and then **click** on **House hunting**.

What's Authorized tab

At the **What's Authorized** tab, users **must specify** whether the traveler is the **owner/operator** of the **POV**, if applicable, the **number** of **cars** authorized, and **who** is **being paid**.

After completing the What's Authorized tab, **click** on the **Next** button or the **Actual Itinerary** tab.

Itinerary

The **following screen** demonstrates the **correct input** for a **typical House Hunting** trip:

What's Authorized Actual Itinerary **Reimbursables**

Actual Trip Duration: Greater than 12 hours

Date		Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	AE %	Who Else Lodging	Taxes	Miles

IATS will not reimburse this amount to the traveler. Instead, IATS will **include** this amount when **calculating** the Federal Withholding taxes (**FITW**) and the Withholding Tax Allowance (**WTA**).

Ensure that "**GOVT PROCURED COMM TRANS (CIVPCS)**" is **selected** as the expense description from the drop down listing of expenses as demonstrated above.

After entering the reimbursable expenses, if any, **finish** processing the request for settlement to **add** the **accounting** lines, **remarks**, **etc.**, as usual.

Click on the **See Also** button below and **select** the **topic** that provides detailed **instructions** for processing House Hunting settlements.

House Hunting Trips Involving Separate Itineraries

Civilian **employees** performing a **PCS** within **CONUS** are generally authorized to make a **trip** to their new duty station for the purpose of **locating** a new residence. This entitlement consists of round trip travel for the **employee** and **spouse** between the old and new permanent duty stations.

Separate trips may be **authorized** for the **employee** and the **spouse**, but the total reimbursement is **limited** as if both parties traveled together for a 10 day trip.

On occasion, the **employee** or **spouse** may **travel** to the House Hunting **location** first and then meet-up with the other person who has performed a separate trip. Under this circumstance a separate itinerary is **required** if the employee submits a request for **settlement** that includes these individual trips.

To **process** this **type** of payment, there are a **number** of input requirements that are **unique** and must be understood by the **examiner** in order to **process** the **entitlement** correctly.

Travel Order

Ensure that the entitlement, "**House Hunting**", is **activated** at the "**What's Authorized (Civilian PCS)**" tab on the IATS **Travel Order** screen.

House Hunting

In this completed itinerary, **notice** the following important details:

- The **spouse's travel dates** are **different** than the employee's.
- The **spouse** used a different mode of **travel** to get to the House Hunting location.

- No amount was entered for **lodging** since the employee and spouse **shared** the hotel **room** and the **lodging** was already entered into the employee's itinerary.

After entering the itineraries, **finish** processing the request for settlement to **add** the **expenses**, **accounting** lines, **remarks**, **etc.**, as usual.

Click on the **See Also** button below and **select** the **topic** that provides detailed **instructions** for processing House Hunting settlements.

House Hunting Trips Involving 10 - Day Limit Waivers

Under the **Lodgings Plus** method, the **per diem** is **calculated based upon** the **itinerary** entered into IATS and the **location** of the **new permanent duty station**. **Separate trips may be authorized** for the **employee** and the **spouse**, but the **total reimbursement** is **ordinarily limited as if both parties traveled together** for a **10 day trip**.

Due to the **Corona Virus Pandemic**, however, the **Federal Travel Regulation Bulletin 20-06, dated April 17, 2020**, permits agencies to **temporarily waive** the current **10-day limit** for house hunting trips for individuals relocating during the national emergency issued by the President on **March 13, 2020** concerning the Corona Virus disease 2019 (COVID-19). Agencies **may allow additional travel days** beyond the 10-day limit in FTR §302-5.11 if airline flights are **delayed, cancelled, or changed** for reasons beyond the employee's control.

The **input requirements** for House Hunting Trips that involve **10 day limit waivers** are the **same** as those for House Hunting Lodgings Plus Method and House Hunting Trips Involving Separate Itineraries. The **only difference** will be the requirement to **specify** that a **waiver** was **granted** if the travel period **exceeds** the **normal 10 day limit**.

The screenshot shows the IATS software interface for a House Hunting Trip. The user is logged in as MARK, MARKY M C. The interface includes tabs for 'What's Authorized', 'Actual Itinerary', and 'Reimbursables'. The 'Actual Itinerary' tab is active, showing a table of trip legs. A pop-up notification is displayed over the table, asking: 'This House Hunting Trip is subject to a waiver to the house hunting limitation if a quarantine was involved. Has a waiver been granted for THIS trip?' with 'Yes' and 'No' buttons.

Date	Trans	Location	Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	AE %	Who Else Lodging	Taxes	Miles

IATS Notification

This House Hunting Trip is subject to a waiver to the house hunting limitation if a quarantine was involved. Has a waiver been granted for THIS trip?

Yes No

Buttons: Back, Next, Duplicate Previous, Insert Leg, Delete Leg, Clear, Completed, Other, Exceptions, Occasionals, OK, Cancel, ? Help

Select the reason the traveler stopped at this location.

After you complete the itinerary, you will see a **pop-up message** asking if a **waiver** to the 10 day limitation **has been granted**.

Click on **Yes** or **No** as appropriate.

You would then **finish** completing the claim **as usual**.

Click on the **See Also** button **below** and **select** the **topic** that provides detailed **instructions** for processing House Hunting settlements.

Miscellaneous Expense

Miscellaneous Expense - Flat Rate

An employee making a PCS move is entitled to a miscellaneous expense allowance to help defray the cost associated with **relocating a household**. This allowance is intended to cover **expenses** related to living **quarters, furniture, appliances, and utilities**.

Flat Rate Method: Using the flat rate method, no receipts are required. The employee simply receives a flat dollar amount based on the employee's dependency status.

- An employee without dependents or an employee with dependents, that do not relocate, is entitled to the lessor of \$650.00, or one week's pay.
- An employee with dependents, that do relocate, is entitled to the lessor of \$1,350.00, or two week's pay.

 Use the following steps to "complete" the Miscellaneous Expenses screen for the Flat Rate method:

Miscellaneous Expenses - Block No: 201229CPCS - Request No: 73

2. **Itemize Expenses:** - **Click** in the box to **remove** the **check mark** if processing a Miscellaneous Expense settlement using the **Flat Rate** method.
3. **Gross Pay:** - **Click** in this field and **type** the dollar **amount** for the employees one or two weeks **gross pay** depending on whether **dependents** are relocating or not.
4. **Effective Date:** - At this field, **type** the **date** for the effective date of the **travel orders** in **MMDDYY** format. You can also **click** on the *down arrow* button and use the **calendar** to select the date.
5. **Limit:** - IATS automatically **populates** this field with the Miscellaneous Expense entitlement **limit** based on whether the employee is traveling alone or not.
6. **Total:** - This field is not used when processing a Miscellaneous Expense settlement using the **Flat Rate** method.
7. When **finished** entering the required information at the **Miscellaneous Expenses** screen, **click** the **OK** button. IATS returns to the **Settlement Request** screen.
8. If no additional expenses are being added, **click** on the [Financial tab](#) and **add** the appropriate **accounting** lines.
9. After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.
10. **Click** on the **Save** button to save the claim after entering any remarks.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **OK** button to **return** to the **Request Selection** screen.

Miscellaneous Expense - Itemized

An employee making a PCS move is entitled to a miscellaneous expense allowance to help defray the cost associated with **relocating a household**. This allowance is intended to cover **expenses** related to living **quarters, furniture, appliances, and utilities**.

Using this method, the employee is required to itemize each expense in which reimbursement is claimed for. In addition, **receipts must be furnished**.

An employee without dependents or an employee with dependents that do not relocate, is entitled to the following:

- The lessor of the **total** of the authorized expenses claimed. Or, the equivalent of one week's pay not to exceed the pay for a **GS-13**.

An employee with dependents, that do relocate, is entitled to the following:

- The lessor of the **total** of the authorized expenses claimed. Or the equivalent of two week's pay not to exceed the pay for a **GS-13**.

Tip: For a **list** of the authorized **expenses** that may be reimbursed under the itemization method, refer to **Chapter 9 of the JTR**.

 Use the following steps to "complete" the Miscellaneous Expenses screen for the Itemized method:

Miscellaneous Expenses - Block No: 201229CPCS - Request No: 73

MANN, CIVILIAN O TONO: CIVPCS

Traveling Alone Effective Date 7/1/2021

- Traveling Alone:** - A **check mark should appear** in this box if the employee is **single** or **not relocating dependents**. **Click** in the box to **remove the check mark** if dependents **do relocate** to the new PDS with the employee.
- Itemize Expenses:** - A **check mark should appear** in this box if processing a Miscellaneous Expense settlement using the **Itemized** method. **Click** in this box to **add the check mark if necessary**.
- Gross Pay:** - **Click** in this field and **type** the dollar **amount** for the employees **one** or **two** weeks **gross pay** depending on whether **dependents are relocating or not**.
- Max Gross Pay:** - **Click** in this field and **type** the dollar **amount** for the employees **one** or **two** weeks **maximum gross pay** which would include **locality pay** (if applicable).
- Effective Date:** - At this field, **type** the **date** for the **effective date** of the **travel orders** in **MMDDYY** format. You can also **click** on the **down arrow** button and use the **calendar** to select the date.
- Limit:** - IATS **automatically populates** this field with the Miscellaneous Expense entitlement **limit** based on whether the employee is **traveling alone or not**.
- Total:** - IATS **automatically populates** this field with the **accumulated amounts** entered in the **Amount** field in the **Expense Description** section.
- Expense Description:** - **Click** in this field and **type** a **description** for the expense being claimed and **press Tab**.

9. **Amount:** - At this field, **type** the dollar **amount** for the **expense** entered in the Expense Description field and **press Tab**.
10. **Repeat** steps **8** and **9** to add any additional expenses.
11. When **finished** entering the required information at the **Miscellaneous Expenses** screen, **click** the **OK** button. IATS returns to the **Settlement Request** screen.
12. If **no additional expenses** are being added, **click** on the [Financial tab](#) and **add** the appropriate **accounting** lines.
13. After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If **desired**, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.
14. **Click** on the **Save** button to save the claim when you are **finished** with your entries.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If **no** remarks are needed, **click** the **OK** button to **return** to the **Request Selection** screen.

Real Estate

Real Estate Overview

When an employee **terminates** a **lease** prematurely, **sells** or **purchases** a primary **residence** in connection with a **PCS**, reimbursement for the associated **expenses** may be allowed.

In order for the residence to qualify for possible reimbursement, it must be the employee's **actual residence**.

The employee must commute between the **residence** and the **work** location on a regular basis.

The reimbursement for real estate transaction expenses are only allowed when the new PDS is within CONUS, territories of the US and the Panama Canal Zone.

Employees claiming reimbursement for real estate transaction expenses have **two years** from the **date reporting** in at the new duty station to **complete** the **transaction**. This entitlement can be extended for an additional year when **approved** by the servicing agency.

Click on the **See Also** button below and **select** the **topic** that provides detailed **instructions** for processing Real Estate settlements.

Real Estate - Sell Old Home

When an employee **sells** a primary **residence** in connection with a **PCS**, reimbursement for the associated **expenses** may be allowed. In order for the residence to qualify for possible reimbursement, it must be the employee's **actual residence**. The employee must commute between the **residence** and the **work** location on a regular basis.

 Use the following steps to "complete" the Real Estate Expenses screen for the sale of the old home:

Real Estate Expenses - Sell Old Home - Block No: 201229CPCS - Request No: 73

1. **Closing/Settlement Date:** - At this field, **type** the **date** the **contract** for the house sale was **closed** or **settled**.
2. **Selling Price:** - At this field, **type** the dollar **amount** for the sale **price** of the home and **press Tab**.
3. **Expense Description:** - At this field, the IATS user can manually type in a description of the expense or **select** one of the items **displayed** in the *drop down listing*. To select an expense from the listing, **type** the **first letter** of any item listed. IATS will **highlight** the **first item** beginning with that letter. If the correct item is **highlighted**, **press Tab**. If the desired item was not the one highlighted, **click** the *Up/Dn arrows* until the desired item is **displayed** and then **click** on the **item** to make a selection.
4. **Amount:** - At this field, **type** the dollar **amount** for the **expense** being claimed.

5. **Repeat** steps **3** and **4** to add any additional expenses.
6. When **finished** entering the required information at the **Real Estate Expenses** screen, **click** the **OK** button. IATS returns to the **Settlement Request** screen.
7. If no additional expenses are being added, **click** on the [Financial tab](#) and **add** the appropriate **accounting** lines.
8. After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **OK** button to **return** to the **Request Selection** screen.

Real Estate - HMIP

A new incentive program was recently authorized for DoD civilian travelers. This program awards the employee with an **incentive payment** for aggressively **seeking a buyer** for their old permanent **residence** when the residence is **sold** in connection with a PCS.

A new feature was added to IATS that processes the Home Marketing Incentive Program (**HMIP**) entitlement. Using this feature, the user can either enter a **pre-determined** amount, or can use IATS to actually **calculate** the amount due the employee.

 Use the following steps to "complete" the Real Estate Expenses screen for an HMIP settlement:

1. **Date House Sold:** - At this field, **type** the **date** the house was **sold** in **MMDDYY** format and **press Tab**.
2. **Pre-Computed:** - **Click** in this field if processing an HMIP settlement using the pre-determined amount method. The **Pre-Computed Amount** field will appear.
3. **Pre-Computed Amount:** - If processing an HMIP settlement using the pre-determined amount method **click** in this field and **type** the dollar **amount** pre-determined for this entitlement.
4. **Details:** - **Click** in this field if processing an HMIP settlement and IATS will calculate the amount due the employee.
5. **Price Paid for Home by Relocation Company:** - If the **Details** field was **activated**, **click** in this field and **type** the dollar **amount** for the selling **price** of the home and **press Tab**.
6. **1/2 Savings Realized by Homeowner:** - At this field, **type** the **amount** equaling $\frac{1}{2}$ of the **savings realized** from the reduced fee paid to the **Relocation Services Company**.
7. When **finished** entering the required information at the **Real Estate Expenses** screen, **click** the **OK** button. IATS returns to the **Request for an Advance Against an Order** screen.
8. If no additional expenses are being added, **click** on the [Financial tab](#) and **add** the appropriate **accounting** lines.

9. After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **OK** button to **return** to the **Request Selection** screen.

Real Estate - Purchase New Home

When an employee **purchases** a primary **residence** in connection with a **PCS**, reimbursement for the associated **expenses** may be allowed.

In order for the residence to qualify for possible reimbursement, it must be the employee's **actual residence**.

The employee must commute between the **residence** and the **work** location on a regular basis.

 Use the following steps to "complete" the Real Estate Expenses screen for the purchase of a new home:

Real Estate Expenses - Purchase New Home - Block No: 201229CPCS - Request No: 73

MANN, CIVILIAN O TONO: CIVPCS

Closing/Settlement Date: 8/16/2021 Purchase Price: \$225,000.00

Real Estate - Property Management

A DoD component may grant the use of property management services (**PM**) when it is determined that the PCS is in the Government's interest.

The payment for PM services assists an employee in offsetting the costs associated with retaining a residence at the old PDS.

Payment for PM services may be authorized when an employee:

- transfers in the Government's interest to a PDS in a foreign area; or
- is assigned to a foreign PDS, is transferred back to a US or non-foreign area PDS different than the one from which the employee left when transferred to a foreign area, and is eligible to sell a residence at Government expense;
- transfers within the United States (including to/from/between non-foreign areas), and is eligible to sell a residence at Government expense;
- is authorized a temporary change of station (TCS), or
- signs a tour renewal agreement with an effective date on/after 24 October 1997.

 Use the following steps to "complete" the Real Estate Expenses - Property Management screen for the reimbursement of PM services:

Real Estate Expenses - Property Management - Block No: 201229CPCS - Request No: 73

TQSE

TQSE Overview

When an employee and/or the employee's dependents **occupy temporary quarters** in connection with a **PCS** to a **new CONUS duty station**, Temporary Quarters Subsistence Expense (**TQSE**) may be payable.

When approved in the travel orders, TQSE offsets the increased cost of lodging and subsistence expenses.

It is not payable, however, for **First Duty Travel** or **Separation Travel**.

TQSE is payable when temporary quarters are occupied at the old PDS or new PDS and **includes** the following primary expenses:

- Lodging
- Meals and/or Groceries
- Tips
- Laundry/Dry Cleaning

TQSE is **payable** in connection with a civilian PCS by one of three methods. These are the **Actual Expense**, **Lump Sum**, or **Lodgings Plus** methods.

Under the **Actual Expense** method, TQSE is **payable** for an initial period of **60 days**, but can be extended to **120 days**. The TQSE period will be **reduced**, however, by the number of days reimbursed for **house hunting** travel, if applicable.

The TQSE **period must begin not later than 30 days after vacating permanent quarters** at the old PDS or not later than 30 days from the date the employee **reported** to the new PDS.

Once the TQSE period **begins**, it runs consecutively, but may be **interrupted** for periods of **TDY** or Relocation **Enroute** Travel.

Under the **Lump Sum** method, TQSE is **payable** at the **locality** rate for the new PDS for a period specified in the travel orders. The **maximum** number of **days** using this method, however is **(30)**.

In addition, under the **Lump Sum** method, the traveler is not required to **submit any claim** for **expenses** or turn in any **receipts**. IATS is programmed to generate an automatic entitlement for the **number of days specified**.

Under the **Lodgings Plus** method, the locality rate of the old or new PDS is used. This method uses the locality M&IE rate and does not require daily itemization of each meal and incidental amount.

If either the **old or the new PDS** has been **designated** as a Presidential Declared Disaster Areas (**PDDA**), an **Actual Expense Allowance** of up to **300%** may be approved.

Click on the **See Also** button below and **select** the **topic** that provides detailed **instructions** for processing TQSE settlements.

Completing the TQSE Authorized Period Screen

The **TQSE Authorized Period** screen is used to **capture** the specific **details** regarding the TQSE **period, location, daily lodging cost, and the travelers.**

 Use the following steps to "complete" the TQSE Authorized Period screen:

1. **Starting Date:** - Type the starting date of the TQSE **period** in **MMDDYY** format and **press Tab**.
2. **Ending Date:** - Type the ending date of the TQSE **period** in **MMDDYY** format and **press Tab**.
3. **Daily Lodging:** - If the travelers have a **claim** for **daily lodging**, click in the **Daily Lodging** radio button and **press Tab**.
4. **Amount:** - Type the dollar **amount** for the Daily Lodging cost or the daily Non-Lodging Allowance as applicable.
5. **Tax:** - Type the dollar **amount** for the Daily Lodging Tax.

6. **Where TQSE to be Taken:** - The **locations** of the old PDS and new PDS are **displayed** in this section. A black dot must appear in the field next to the location the TQSE was taken at. **Click** in the appropriate radio button to **display** the black dot, if necessary.
7. **Presidential Declared Disaster Areas Actual Expense Allowance:** - **Click** in the **check box** to **activate** this option if it has been **approved** in the travel orders. If selected, you must enter the **alternate location** for the TQSE computation. **Refer** to the **Help** topic "[Applying the PDDA Actual Expense Allowance](#)".
8. **Persons on TQSE:** - At this section, the user must specify which of the listed **travelers** are to be **included** in the **calculation** of the settlement. If all of the listed **traveler's** should be included, **click** on the **Select All** button. If not, **click** on the desired name.

Tip: Multiple traveler's may be **selected** by **pressing** and **holding** the *Shift* key and then **clicking** on the desired **names**.

9. **ATM Advance Fee:** - If the traveler **incurred** an **expense** for an **ATM advance fee** for the use of a Government credit card, **enter** the **amount** of the expense at the **ATM Advance Fee** field. IATS will then treat this entitlement as a **non-taxable fringe benefit**.
10. When **finished** entering the required information at the TQSE Authorized Period screen, **click** the **OK** button. The **TQSE Daily Expenses** screen appears.

Refer to the **Help** topic, "[Completing the TQSE Daily Expenses Screen](#)", for additional **instructions**.

Applying the PDDA Actual Expense Allowance

An Actual Expenses Allowance (AEA) may be authorized not to exceed 300% of the **locality rate** for **lodging and/or meals** when either the old or the new Permanent Duty Station (PDS) is a Presidentially-Declared Disaster area (PDDA).

To **apply** this PDDA Actual Expense Allowance, the IATS user must **first ensure** that this allowance has been **approved** on the travel order. The next step will be to **activate** the allowance on the **TQSE/FTA** screen.

 Use the following steps to "activate" the PDDA Actual Expense Allowance:

TQSE/FTA Advance - Block No: TQSEADV3 - Request No: NEW

WILSON, SAM E TONO: PCSTQSE

Advance Period From: 9/1/2024 To: 9/30/2024

Which 30 day period is being advanced Days 1 - 30

Where TQSE to be Taken

UTICA/ ONEIDA, NEW YORK

INDIANAPOLIS / MARION, INDIANA

Presidential Declared Disaster Areas Actual Expense Allowance

Alternative Location

Persons on TQSE

SAM (Employee)

JUNE (Spouse)

Check this box if PDDAE applies to this entitlement

1. At the TQSE/FTA screen **click** in the **check box** next to the words Presidential Declared Disaster Areas Actual Expense Allowance.

2. Since the Federal Travel Regulation (FTR) **exempts** PDDAs from the reasonable **proximity rule** (50 miles within the old or new PDS) you must **specify** an **alternative location** for the TQSE computation if applicable.
3. If an **alternative location** is **applicable** to the claim, **click** on the **Enter Location** button. IATS will display the Locality Selection screen and you must **enter** the **location** for the TQSE computation.

4. After completing the Locality Selection screen, the selected **location** will be **shown** in the **Alternative Location** field.
5. If the location shown at the Alternative Location field is **incorrect**, you can **remove** it by clicking on the **Erase Location** button.
6. **Click** on the **OK** button to **save** your entries and **continue** processing the claim.

Completing the TQSE Daily Expenses Screen

The **TQSE Daily Expenses** screen is used to **capture** the specific **details** regarding the TQSE **period**, **location**, daily **lodging** cost, **meals**, and **miscellaneous expenses**.

 Use the following steps to "complete" the TQSE Daily Expenses screen:

Date	Dep	TQSE Clock Running	Employee	Spouse	Dep 12 & over	Dep under 12	Lodging	Breakfast	Lunch	Dinner	Laundry/Dry Cleaning	Lodging Taxes
07/05/2024					0	0	\$110.00	\$10.00	\$20.00	\$30.00	\$0.00	\$12.00
07/06/2024			Who is being reimbursed for TQSE						\$20.00	\$30.00	\$0.00	\$12.00
07/07/2024			SAM (Employee)						\$0.00	\$0.00	\$0.00	\$12.00
07/08/2024			JUNE (Spouse)						\$0.00	\$0.00	\$0.00	\$12.00
07/09/2024									\$0.00	\$0.00	\$0.00	\$12.00
07/10/2024									\$0.00	\$0.00	\$0.00	\$12.00
07/11/2024									\$0.00	\$0.00	\$0.00	\$12.00
07/12/2024									\$0.00	\$0.00	\$0.00	\$12.00
07/13/2024									\$0.00	\$0.00	\$0.00	\$12.00
07/14/2024									\$0.00	\$0.00	\$0.00	\$12.00
07/15/2024									\$0.00	\$0.00	\$0.00	\$12.00
07/16/2024									\$0.00	\$0.00	\$0.00	\$12.00
07/17/2024									\$0.00	\$0.00	\$0.00	\$12.00
07/18/2024									\$0.00	\$0.00	\$0.00	\$12.00
07/19/2024									\$0.00	\$0.00	\$0.00	\$12.00
07/20/2024									\$0.00	\$0.00	\$0.00	\$12.00
07/21/2024									\$0.00	\$0.00	\$0.00	\$12.00
07/22/2024					0	0	\$110.00	\$0.00	\$0.00	\$0.00	\$0.00	\$12.00

Note: For a **Lodgings Plus** TQSE settlement, the **Breakfast**, **Lunch**, and **Dinner** columns will not be shown unless the **PDDA Actual Expense Allowance** has been **applied** to the TQSE location.

1. When this screen appears, the **Who is being reimbursed for TQSE** table **appears** listing the travelers that were **selected** at the **TQSE Authorized Period** screen. If the correct travelers are highlighted, click the **Accept** button. If not, click on the names to be included. You may also click on the **Select All** button if all of the listed names should be included. When the correct names are selected, **click the **Accept** button.**
2. **Lodging:** - The **amount** that was **entered** at the **TQSE Authorized Period** screen **defaults** to the **Lodging** field. If correct, **press Enter.** If not, **type the correct amount** and **press Tab.**
3. **Breakfast:** - Type the **amount** claimed by the traveler and **press Tab.**
4. **Lunch:** - Type the **amount** claimed by the traveler and **press Tab.**
5. **Dinner:** - Type the **amount** claimed by the traveler and **press Tab.**
6. **Laundry/Dry Cleaning:** - Type the **amount** claimed by the traveler and **press Tab.**
7. **Lodging Taxes:** - The **amount** that was **entered** at the **TQSE Authorized Period** screen **defaults** to the **Lodging Taxes** field. If correct, **press Tab.** If not, **type the correct amount** and **press Tab.**
8. **Continue** entering the **daily expenses**, to include the **incidental expenses**, for each day of the TQSE period.
9. When **finished** entering the required information at the **TQSE Daily Expenses** screen, **click the **OK** button.** IATS returns to the **Settlement Request** screen.
10. If no additional expenses are being added, **click** on the [Financial tab](#) and **add** the appropriate **accounting** lines.

11. After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **OK** button to **return** to the **Request Selection** screen.

Adjusting the Dates on the Daily TQSE Expenses Screen

The **TQSE Daily Expenses** screen is used to **capture** the specific **details** regarding the TQSE **period**, **location**, daily **lodging** cost, **meals**, and **miscellaneous expenses**.

An **edit** has been added to IATS to **ensure** that each person selected for a particular day does **not** **appear** on **another** TQSE claim for that day.

 Use the following steps to "adjust the dates" on the TQSE Daily Expenses screen:

1. Enter the **data** for the **lodging**, **meals**, and **miscellaneous expenses** as you usually would and then **click** on **OK**.

7. After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **OK** button to **return** to the **Request Selection** screen.

House Hold Goods

House Hold Goods Overview

Civilian employees **relocating** to a new PDS are generally authorized to **ship** their **house hold goods** to the new PDS at government expense. Three methods exist for processing the expenses involved with moving the employee's belongings.

Government Bill of Lading

With this method, the local **transportation officer** servicing the employees old duty station **makes** all of the required **arrangements** and **awards** a **contract** with a third party moving **vendor**. This contract (generally) calls for the vendor to **pick-up**, temporarily **store** and **deliver** the house hold goods to the employee's new duty station. No computation is required for this method. IATS is designed however, to **process** the information concerning the shipment and **generate** a **payment** for the third party vendor.

Commuted Rates

With this method, the employee is **authorized** to personally make the **arrangements** with a moving company to move the house hold goods. Under the **Commuted Rates** method, the **employee** pays for the expense of the move out-of-pocket, then **files** a **claim** for **reimbursement** once the movement is completed. The reimbursement to the traveler is computed in accordance with schedules of commuted rates, which are distributed by the General Services Administration, (**GSA**).

Personally Procured

With this method, the employee is **authorized** to personally make the **arrangements** with a moving company to move the house hold goods. The **employee** pays for the expense of the move out-of-pocket, then **files** a **claim** for **reimbursement** once the movement is completed. The reimbursement limit is based on the cost of a Government arranged move for the same HHG weight.

Click on the **See Also** button below and **select** the **topic** that provides detailed **instructions** for processing TQSE settlements.

Completing the GBL Method Screen

Civilian employees **relocating** to a **new PDS** are generally **authorized to ship their house hold goods** to the **new PDS** at **government expense**. **Two methods** exist for processing the expenses involved with moving the employee's belongings.

With the Government Bill of Lading (**GBL**) method, the local transportation officer servicing the employees old duty station **makes** all of the required **arrangements** and **awards a contract** with a third party moving **vendor**. This contract (generally) calls for the vendor to **pick-up**, temporarily **store**, and **deliver** the house hold goods to the employee's new duty station.

Click this button to save information

 Use the following steps to "complete" the GBL Method screen:

Note: Do not enter an amount in the Total paid field. IATS will populate that field with the calculated amount after you entered all of the appropriate information in the input fields and saved the entries.

1. Refer to the **shipping documentation** and **transfer the information** to the appropriate input fields.
2. After completing the **Details** tab, **click** on the **Payee** tab and **enter the name** and mailing **address** for the **third party payee**.
3. When **finished** with the Payee tab, **click** the **OK** button. IATS returns to the **Request for a Settlement Against an Order** screen.
4. **If no additional expenses** are being added, **click** on the [Financial tab](#) and **add** the appropriate **accounting** lines.

5. After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab.
6. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **OK** button to **return** to the **Request Selection** screen.

Completing the Commuted Rates Screen

As mentioned in the **overview**, when the **Commuted Rate Method** is used, the **employee makes all arrangements** and **pays the expenses out-of-pocket**. The employee **then files a claim** for **reimbursement** of these expenses **upon completion** of the **delivery**.

To **process** this **type** of payment, there are a **number** of **input requirements** that are **unique** and **must** be **understood** by the **examiner** in order to **process** the **entitlement** **correctly**.

Travel Order

Ensure that the **entitlement**, "**Commuted Rates**", is **activated** at the "**What's Authorized (Civilian PCS)**" **tab** on the **IATS Travel Order** screen. See the following example:

The screenshot shows a form titled "Household Goods". It contains a "Type" dropdown menu with "Commuted Rates" selected. Below the dropdown is a checked checkbox for "HHG Storage". To the right of the dropdown is a "Total # Taxable S" field with the value "60". The dropdown menu options are: "None", "Commuted Rates", "GBL", and "Personally Procured".

Select Expense Type

At the **Entitlements** tab, on the **Settlement Request** screen, **click** on the **Add Entitlement** button and then **click** on **Ship House Hold Goods**. IATS **displays** the **Commuted Rates Ship Date** screen.

8. **Finish** processing the request for settlement to **apply** any outstanding **advance**, add the **accounting** lines, and **remarks**, as usual.

Personally Procured Household Goods Move

Civilian employees **relocating** to a new PDS are generally authorized to **ship** their **house hold goods** to the new PDS at government expense. **Personally Procured** is one of the **methods** for processing the entitlement expenses involved with moving the employee's belongings.

Use the following steps to "complete" the Personally Procured Household Goods Move screen:

1. Refer to the **shipping documentation** and **transfer** the **information** to the appropriate input **fields**.
2. **Date of Move:** - If the displayed date is incorrect, **click** in this field and **type** the correct date in **MMDDYY** format. You may also **click** on the *down arrow* button and use the **calendar** to select the date.
3. **Actual Cost to Employee:** - **Click** in this field and **type** the **amount** the employee actually paid for the movement of the household goods.
4. **Cost Limitation for a Government Arranged Move:** - **Click** in this field and **type** the **amount** the Government would have paid to have the household goods moved.
5. When **finished** entering all of the required information, **click** the **OK** button. IATS returns to the **Request for a Settlement Against an Order** screen.
6. If no additional expenses are being added, **click** on the [Financial tab](#) and **add** the appropriate **accounting** lines.
7. After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab.
8. If desired, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **OK** button to save the entitlement and **return** to the **Request Selection** screen.

House Hold Goods - Temporary Storage

Temporary storage is short-term storage that is part of HHG transportation. Temporary storage may be at any combination of the **origin, destination, and en route locations**. Also referred to as storage in transit (**SIT**). SIT is not authorized for HHG moves between local quarters when no PCS exists.

SIT (in connection with authorized HHG transportation) should not exceed 90 days unless the employee requests (in writing) an additional period, NTE 90 days, that is authorized/approved by an official designated by the Service/Defense Agency. If no additional storage is authorized/approved, the employee is financially responsible for the additional storage expense.

Note: Effective **25 August, 2005**, PDTATAC is authorized to approve **extensions** to the **180-day limit** on SIT for employees performing a PCS with TDY en-route assignments to locations such as Iraq and Afghanistan.

To **process** this **type** of payment, there are a **number** of input requirements that are **unique** and must be **understood** by the **examiner** in order to **process** the **entitlement** correctly.

Travel Order

Ensure that the entitlement, "**HHG Taxable Temp Storage**", is **activated** at the "**What's Authorized (Civilian PCS)**" tab on the IATS **Travel Order** screen.

The screenshot shows the IATS Travel Order interface. At the top, it displays 'Travel Order', 'User ID: SYSTEM', and 'Wednesday, September 15, 2021'. Below this is a form with the following fields:

- Traveler's Name: MANN, CIVILIAN O: C
- Grade/Rank: C
- Order Number/TONO: CIVPCS
- Order Type: PCS

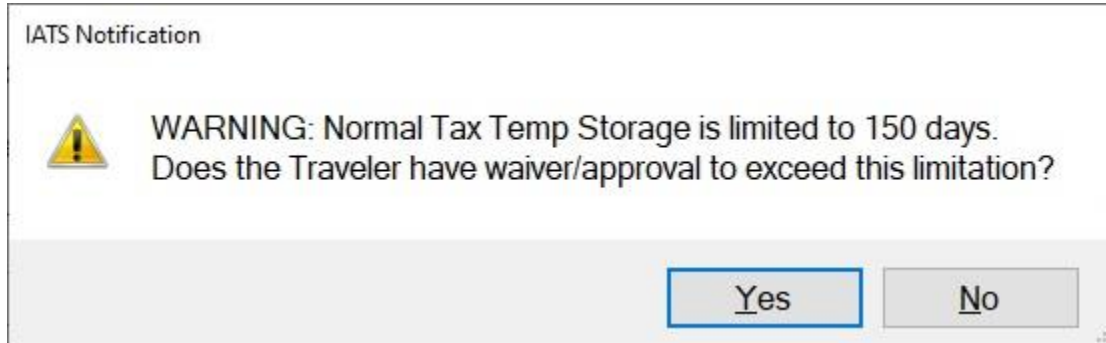

The main section is titled 'What's Authorized (Civilian PCS)' and contains several sub-sections:

- Mileages:** Miles Old Residence to Old Station (20), Miles Old Residence to New Station (650), Miles Old Station to New Station (595).
- What's Authorized:**
 - Miscellaneous, House Purchase, Ship POV
 - Trailer, Renewal Travel, Num. POV (0)
 - Student Travel, Property Mgmt.
 - House Sale: Sell Home
 - House Hunting:** Employee, Spouse, Lump Sum, Max. Days (10)
- Household Goods:**
 - Type: Personally Procured
 - HHG Taxable Temp Storage, Not Temp Storage
 - Total # Taxable Storage Days Authorized: 60
- TQSE:**
 - Type of TQSE: Lump Sum
 - Maximum days on Lump Sum TQSE: 30
 - TQSE Lump Sum Accepted Date: 7/1/2021
- Third Party Payments:**
 - Third Party DPS Payment, HHG Non-temporary Storage, Ship POV CONUS, Ship Mobile Home

At the bottom, there are buttons for 'Back', 'Next', 'OK', 'Cancel', and 'Help'. A footer note says 'Enter the number of miles from Old Residence to Old Duty Station'.

In addition, ensure that the correct number of authorized **days** is entered at the **Total # Taxable Storage Days Authorized** field. If a number is entered at this field that is

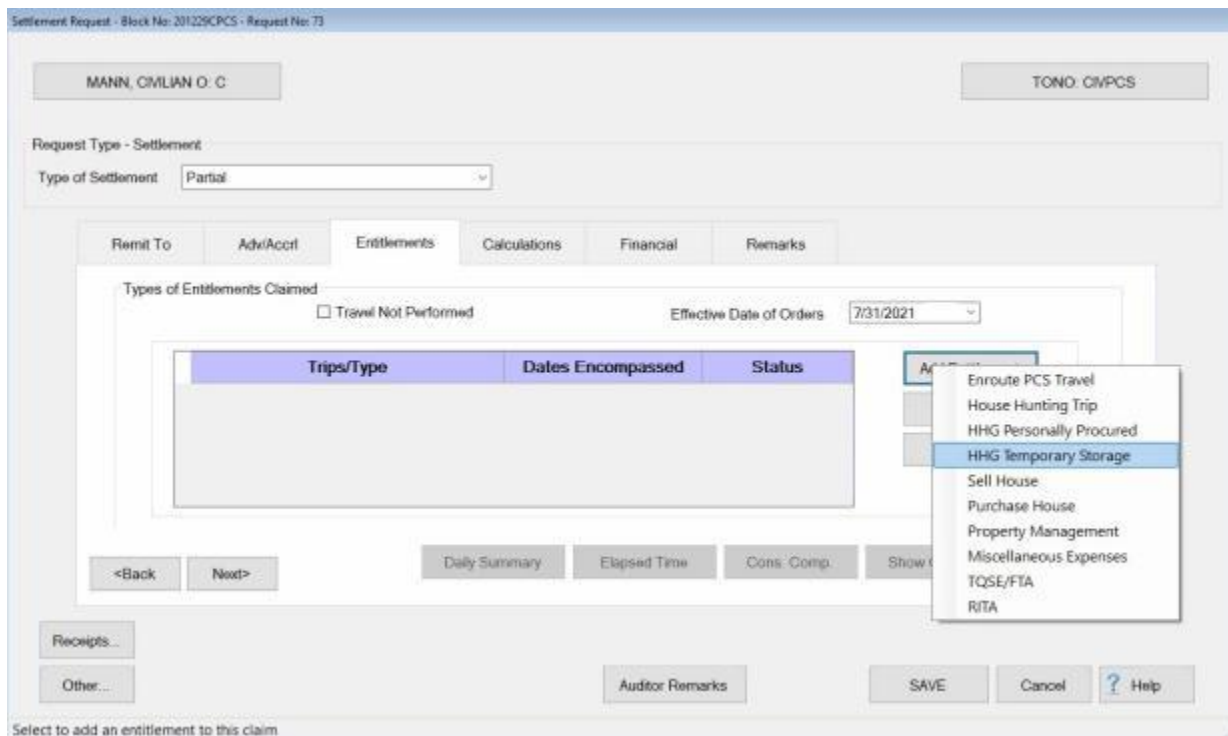

greater than 150 days, the following *pop-up message* appears when you attempt to **save** the travel order:

If this message appears, you must review the travel order attached to the claim and **determine** whether the traveler has an approved extension to the 180 day limit. If so, you would **click** on Yes. If not, you would **click** on No and then **enter a number** at the **Total # Taxable Storage Days Authorized** field that is between the range of **60** and **150** days.

Select Expense Type

At the **Settlement Request** screen, **click** on the **Add Expense** button and then **click** on the **HHG Temp Storage** option.

This action will result in IATS will displaying the **HHG Taxable Temporary Storage** screen.

HHG Taxable Temporary Storage - Block No: 201229CPCS - Request No: 73

MANN, CIVILIAN O TONO, CIVPCS

Begin date of storage period: 8/1/2021

Ending date of storage period: 9/15/2021

Total Charge: \$4,500.00

Other... OK Cancel ? Help

Click this button to save information

Begin date of storage period: - At this field, **type** the **date** that the temporary storage of the HHGs **began** in **MMDDYY** format and then **press Tab**. You can also **click** on the **down arrow** button and use the **calendar** to select the date.

Ending date of storage period: - At this field, **type** the **date** that the temporary storage of the HHGs **ended** in **MMDDYY** format and then **press Tab**. You can also **click** on the **down arrow** button and use the **calendar** to select the date.

Total Charge: - At this field, **type** the **amount** the employee is claiming for reimbursement of the temporary storage of the HHGs or the allowable amount, if the storage **exceeded** the authorized number of days.

After you have entered the beginning date, ending date, and the total charge, **click** on the **OK** button to **save** the entries . IATS will **return** to the **Settlement Request** screen.

When you return to the **Settlement Request** screen **Finish** processing the request for settlement as usual.

Using the HHG Storage Calculator

Temporary storage is short-term storage that is part of HHG transportation. Also referred to as storage in transit (**SIT**). SIT is not authorized for HHG moves between local quarters when no PCS exists.

Temporary storage may be at any combination of the **origin, destination, and en route locations**.

SIT (in connection with authorized HHG transportation) should not exceed **90** days unless the employee requests (in writing) an additional period, NTE 90 days, that is authorized/approved by an official designated by the Service/Defense Agency. If no additional storage is authorized/approved, the employee is financially responsible for the additional storage expense.

Note: Effective **25 August, 2005**, PDTATAC is authorized to approve **extensions** to the **180-day limit** on SIT for employees performing a PCS with TDY en-route assignments to locations such as Iraq and Afghanistan.

To **process** this **type** of payment, there are a **number** of input requirements that are **unique** and must be understood by the **examiner** in order to **process** the **entitlement** correctly.

Travel Order

Ensure that the entitlement, "**HHG Storage**", is **activated** at the "**What's Authorized (Civilian PCS)**" tab on the IATS **Travel Order** screen. This option will automatically be **checked** if the **travel order** was **created** after the **HHG Calculator** option in Maintenance was **activated**.

Note: Before completing the Household Goods Storage Allowance Calculator screen Examiners must carefully **review** the **receipts** and **documents** provided by the storage facility. The information obtained from these documents must be used to complete this screen.

Storage Location

State: - Click on the *down arrow* button to display a list of state names and then **click** on the desired **state**.

County: - Click on the *down arrow* button to display a list of county names and then **click** on the desired **county**.

Data Input This Period

First Storage Date: - Enter the **first** day of storage for the period in MMDDYY format.

Last Storage Date: - Enter the **last** day of storage for the period in MMDDYY format.

Add Warehousing: - Click in the **check box** to activate this option if warehousing was involved.

Add SIT Transport: - Click in the **check box** to activate this option if **transportation** charges were included.

Amount Claimed: - Enter the **amount** claimed by the traveler.

Occ% Weight Calculator

In the **Occ% Weight Calculator** section, you must **decide** which **format** to use to determine the correct payment amount. With this process, there are **(3) methods** to choose from.

1. **Constructed Weight:** - Using this method, you must enter the **Length, Width, Height** and **Occupied Percentage** of the storage **container**.
2. **Full/Empty Weight:** - Using this method, you must enter the **Full** weight of the container and the **Empty** weight.
3. **Precalculated Weight:** - Using this method, you would simply **enter** the **precalculated weight**.

Once you have determined which format to use, **enter** the required **information** into the appropriate fields.

Additional Costs

If the storage **documentation** lists any additional **charges** that were not already addressed use the **Additional Costs** section to **enter** the **charges**.

Expense Date: - Enter the **date** the expense was incurred in **MMDDYY** format.

Item: - Enter a **description** of the expense.

Cost: - Enter the **amount** of the expense.

After you have entered all of the required information at this screen, **click** on **OK**.

Personally Procured Non-Temporary Storage

Non-Temporary Storage (NTS) of Household Goods (HHG) may be authorized in lieu of HHG shipment when the employee is assigned to an isolated Permanent Duty Station (PDS) in the CONUS, a PDS OCONUS that limits HHG transportation, and a PDS OCONUS and NTS is in the Government's best interest or more cost-effective.

To process this type of payment, there are a number of input requirements that are unique and must be understood by the examiner in order to process the entitlement correctly.

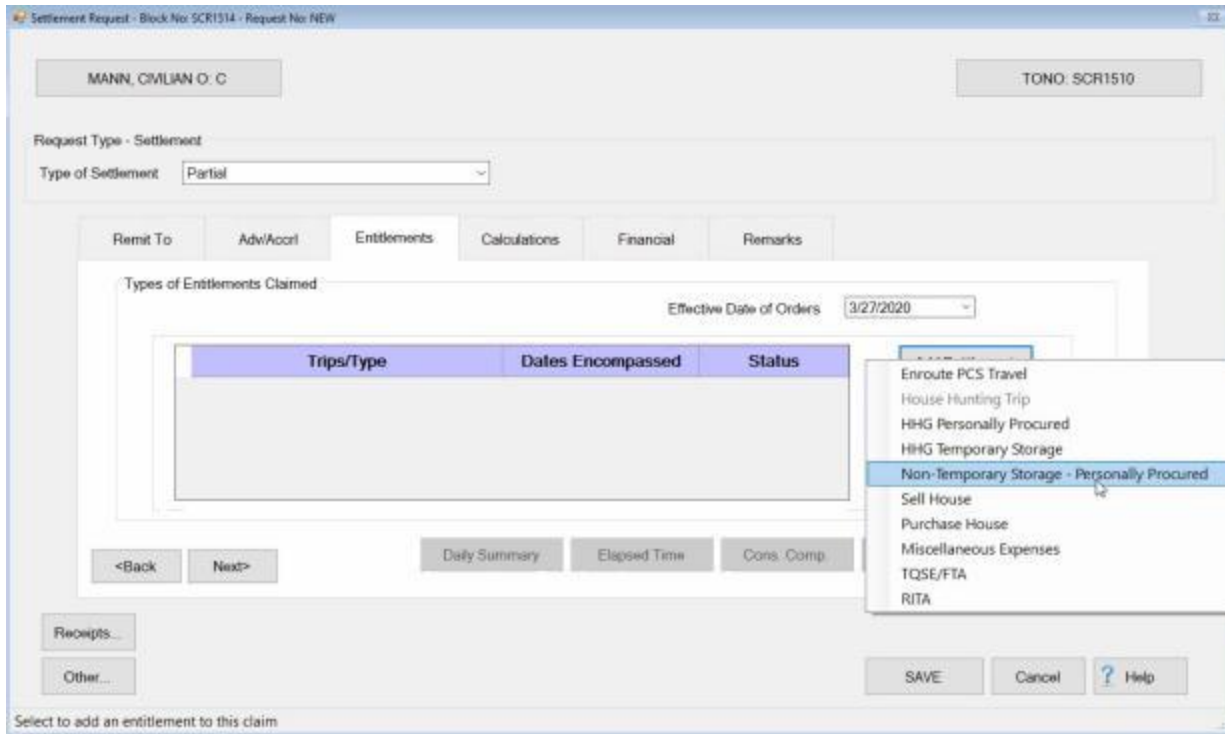

Travel Order

Ensure that the entitlement, "Not Temp Storage", is activated at the "What's Authorized (Civilian PCS)" tab on the IATS Travel Order screen.

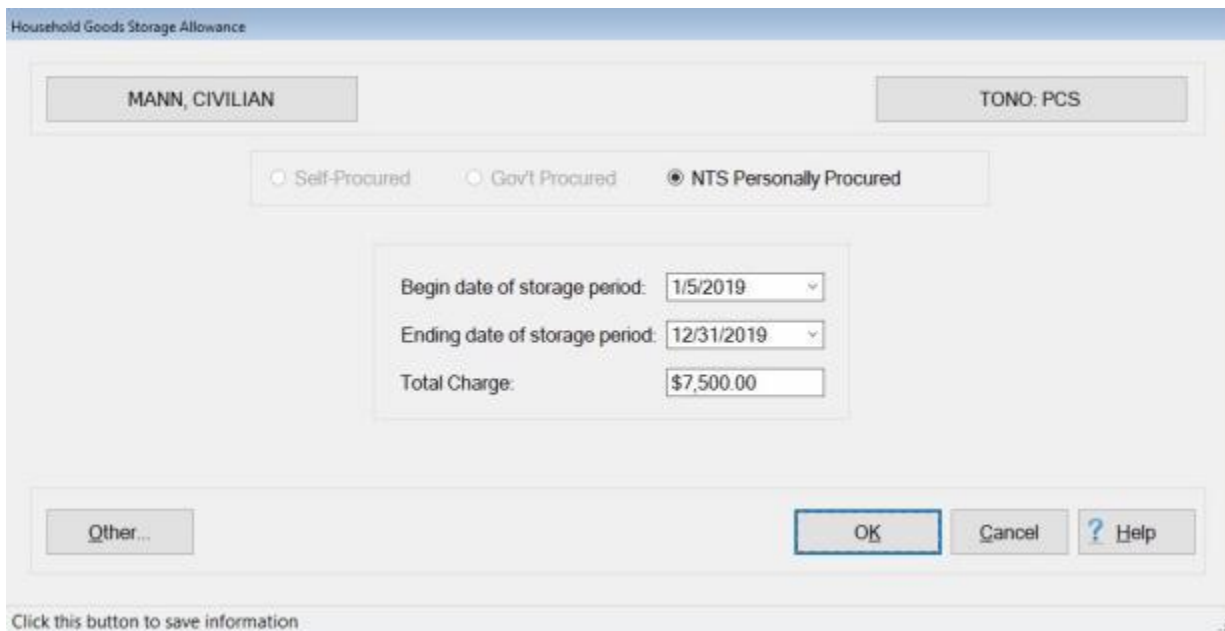

The screenshot shows the IATS Travel Order interface. At the top, it displays 'Travel Order', 'User ID: SYSTEM', and 'Tuesday, April 21, 2020'. Below this is a header section with fields for 'Traveler's Name' (MANN, CIVILIAN O: C), 'Grade/Rank' (C), 'Order Number/TONO' (SCR1510), and 'Order Type' (PCS). The main content area is divided into several sections: 'Mileages' (with input fields for 20, 600, and 595 miles), 'What's Authorized' (containing checkboxes for Miscellaneous, House Purchase, Ship POV, Trailer, Renewal Travel, Num. POV (0), Student Travel, Property Mgmt., House Hunting (Employee, Spouse, Lump Sum, Max. Days 10), House Sale (Sell Home), Household Goods (Type: Personally Procured, HHG Storage, Not Temp Storage (highlighted), Total # Taxable Storage Days Authorized: 60), and TQSE (Type of TQSE: Lump Sum, Maximum days on Lump Sum TQSE: 30, TQSE Lump Sum Accepted Date: 3/2/2020). At the bottom, there is a 'Third Party Payments' section with checkboxes for Third Party DPS Payment, HHG Non-temporary Storage, Ship POV CONUS, and Ship Mobile Home. Navigation buttons (Back, Next, OK, Cancel, Help) are located at the bottom right. A footer note reads: 'Enter the number of miles from Old Residence to Old Duty Station'.

Select Expense Type

At the Settlement Request screen, click on the Add Expense button and then click on the Non-Temporary Storage - Personally Procured option.

This action will result in IATS will displaying the **Household Goods Storage Allowance** screen.

Begin date of storage period: - At this field, **type** the **date** that the non- temporary storage of the HHGs **began** in **MMDDYY** format and then **press Tab**. You can also **click** on the **down arrow** button and use the **calendar** to select the date.

Ending date of storage period: - At this field, **type** the **date** that the non-temporary storage of the HHGs **ended** in **MMDDYY** format and then **press Tab**. You can also **click** on the **down arrow** button and use the **calendar** to select the date.

Total Charge: - At this field, **type** the **amount** the employee is claiming for reimbursement of the non-temporary storage of the HHGs or the allowable amount, if the storage **exceeded** the authorized number of days.

After you have entered the beginning date, ending date, and the total charge, **click** on the **OK** button to **save** the entries. IATS will **return** to the **Request for a Settlement against an Order** screen.

When you return to the **Request for a Settlement against an Order** screen **Finish** processing the request for settlement as usual.

RITA

RITA Overview

In order to **relieve** the employee of the additional **tax burden** incurred because of the **PCS** move, **two allowances** were enacted to **offset** the additional **taxes withheld** from the **entitlement payments**:

1. **Withholding Tax Allowance (WTA)**: This allowance is calculated using a special formula that yields an amount **equal** to the amount of the **FITW**. WTA is treated similarly to an **advance** and **must be collected** back in the **following tax year**.
2. **Relocation Income Tax Allowance (RITA)**: This allowance was enacted to **reimburse** the employee for the **additional income taxes** imposed as a result of the **relocation**. The RITA claim is **processed** in the **tax year following** the year the **reimbursements** for the moving expenses were **received**.

A **RITA** claim **calculates** an employee's **actual tax liability** for the civilian PCS allowances at the marginal tax rate, as **determined by** the employees **total income** and **tax status**.

Once the RITA claim is computed, the **WTA**, previously paid to the employee, is **collected** from the **RITA** entitlement. If the employee's marginal tax rate for the RITA calculation is **less** than the percentage used for the WTA calculation, an amount **Due US** often results.

It is the **responsibility** of the **travel office** paying a WTA to **advise** the **employee** of the **obligation** to **file** a RITA in the **following tax year**. When an employee **fails** to **file** a RITA claim, the **amount** of the **WTA** paid to the employee **must be collected** in full.

Note: In order to **process** a RITA claim in **year 2**, the IATS user must **ensure** the **reimbursements** received in year 1 **are posted** to **CIVPCS Summary Records**. In addition, the user must **ensure** the **dates of payment** and the **voucher numbers are posted** as well. IATS **will not accumulate** the **tax data** for a payment until these items are **posted** to the summary records. This is accomplished by **printing** or **displaying** the **summary records** for tax **year 1** and **reviewing** the **Payment Date** and **Voucher Number** fields.

Click on the **See Also** button **below** and **select** the **topic** that provides detailed **instructions** for processing RITA settlements.

Completing the RITA General - tab

At the RITA **General** tab, the user must **specify** the **tax year**, the employee's **filing status**, and the employee/spouse **gross income**.

 Use the following steps to "complete" the RITA General - tab:

General	State Tax	Municipal Tax
Year 1: <input type="text" value="2020"/>		
Filing Status: <input type="text" value="Married Filing Joint Return"/>		
Gross Income		
	W-2	Schedule SE
Employee:	<input type="text" value="62,800.00"/>	<input type="text" value="0.00"/>
Spouse:	<input type="text" value="39,500.00"/>	<input type="text" value="0.00"/>
Reimbursements not deductible for State income tax purposes:		<input type="text" value="0.00"/>

- Year 1:** - At this field, the user must enter the **tax year** in which the reimbursement for the civilian PCS moving expenses was **received**. The **default** value at this field, is the **year prior** to the **current year**. If this is correct, **press Tab** to continue. If not, **type** the correct year in **YYYY** format.
- Filing Status:** - At this field, a *drop down listing* appears, when you **click** in the field or **click** on the *down arrow*. This list **displays** the possible **choices** for the Federal Income Tax filing **status**. **Press** the *Up/Dn* arrow **keys** to highlight the desired **choice** and **press Tab** or **click** on the desired **choice** to make a selection. **Press Tab** to continue.
- Employee W-2:** - At this field, **type** the dollar **amount** for the gross income for the employee. This amount should **reflect all income** from **wages** for the year entered at the **Year 1** field.
- Employee SE:** - At this field, **type** the dollar **amount** for the gross income for the employee. This amount should **reflect all income** from **Self Employment** for the year entered at the **Year 1** field.
- Spouse W-2:** - At this field, **type** the dollar **amount** for the gross income for the spouse. This amount should **reflect all income** from **wages** for the year entered at the **Year 1** field.
- Spouse SE:** - At this field, **type** the dollar **amount** for the gross income for the spouse. This amount should **reflect all income** from **Self Employment** for the year entered at the **Year 1** field.
- Reimbursements not deductible for State income tax purposes:** - At this field, **type** the dollar **amount**, if any, for the total of the reimbursed expenses that were **exempt** from **Federal Income Tax Withholding**, but are **subject** to **State Income Taxes**.
- When **finished** entering the required information at the **RITA General** tab, **click** on the **Next** button or the **State Tax** tab to continue.

Refer to the **Help** topic, "[Completing the RITA State Tax - tab](#)", for additional **instructions**.

Completing the RITA State Tax - tab

At the RITA **State Tax** tab, the user **must specify** the **State(s)** the employee has a **tax liability** to and **specify** whether the **tax** is **based** on a **percentage** of **Income** or **Federal Tax**.

 Use the following steps to "complete" the RITA State Tax - tab:

1. **State # 1:** - At this field, the user **must specify** the **first state** the employee has a **tax liability** to. **Click** in this field or **click** on the **down arrow**. A **drop down listing** appears displaying a list of state names. **Type** the **first** letter of the state **name**. IATS will highlight the first state name beginning with that letter. If necessary, **click** the **Up/Dn arrows** until the **desired** name is displayed. **Click** on the **highlighted** name or **press Tab** to make the selection and then **press Tab** to continue.

Tip: When **selecting** the **State**, you may **select** the option "**None**" if the desired state **does not** have a state income tax.

Note: For some states, the following pop-up **warning** will be displayed when the state is selected. This warning is to **remind** you to **enter** the **amount** of the **state gross up** from **block 12** of the traveler's **W-2** form. This amount should be entered at the **Reimbursements not deductible for State income tax purposes** field on the **RITA General** tab.

2. **Percent:** - Click in this field, IATS will automatically populate this field with the applicable percentage from the tax table in the **Maintenance** module.
3. **Percent of Income:** - A black dot must appear in this field if the tax **liability** is based on a **percentage** of the employee's **income**. Click in this **field** to **display** the black dot, if necessary.
4. **Percent of Federal Tax:** - A black dot must appear in this field if the tax **liability** is based on a **percentage** of the employee's **Federal Tax liability**. Click in this **field** to **display** the black dot, if necessary.
5. **Repeat steps 1 - 4** for the **State # 2** and **State # 3** sections, if the employee has a tax liability to a second or third state.
6. **More than one State taxes same portion of Reimbursement:** - Click in this **check box** to **activate** this option if applicable.
7. **One State allows Adjustment/Credit for taxes paid to other State:** - Click in this **check box** to **activate** this option if applicable.
8. When **finished** entering the required information at the **RITA State Tax** tab, **click** on the **Next** button or the **Municipal Tax** tab to continue.

Refer to the **Help** topic, "[Completing the RITA Municipal Tax - tab](#)", for additional **instructions**.

Completing the RITA Municipal Tax - tab

At the RITA **Municipal Tax** tab, the user **must specify** the city or county the employee has a **tax liability** to and **specify** whether the **tax** is **based** on a **percentage** of **Income**, **Federal Tax** or **State Tax**.

 Use the following steps to "complete" the RITA Municipal Tax - tab:

1. **Municipality # 1:** - At this field, the user **must specify** the **first** city/county the employee has a **tax liability** to. **Type** the city/county **name** and **press Tab**.
2. **Percent:** - At this field, **type** the applicable percentage **rate** and **press Tab**.
3. **Located in:** - If there is only **one state** involved, **no action** is necessary. If there are **two states** involved, however, **click** in the **circle** next to the correct state.
4. **Percent of Income:** - A **black dot must appear** in this field **if** the tax **liability** is **based** on a **percentage** of the employee's **income**. **Click** in this **field** to **display** the **black dot**, if necessary.
5. **Percent of Federal Tax:** - A **black dot must appear** in this field **if** the tax **liability** is **based** on a **percentage** of the employee's **Federal Tax liability**. **Click** in this **field** to **display** the **black dot**, if necessary.
6. **Percent of State Tax:** - A **black dot must appear** in this field **if** the tax **liability** is **based** on a **percentage** of the employee's **State Tax liability**. **Click** in this **field** to **display** the **black dot**, if necessary.
7. **Repeat steps 1 - 6** for the **Municipality # 2** section, **if** the employee has a **tax liability** to a **second** city/county.
8. When **finished** entering the required information at the **RITA Municipal Tax** tab, **click** on the **OK** button. IATS returns to the **Settlement Request** screen.
9. **If no additional expenses** are being added, **click** on the [Financial tab](#) and **add** the appropriate **accounting** lines.
10. After completing the **Accounting** lines, **click** the **OK** button to save the entries. IATS returns to the **Financial** tab. **If desired**, **click** on the **Next** button or the **Remarks** tab and **add** any necessary **remarks**.

Refer to the **Help** topic, "[Remarks - tab](#)", for additional instructions. If no remarks are needed, **click** the **OK** button to **return** to the **Request Selection** screen.

POV Shipment

CIVPCS POV Shipment - Overview

POVs, of an **employee** transferred in the Government's interest, a **new appointee**, or a **student trainee** assigned the **first PDS**, may be transported at Government expense:

- When it is **determined** in advance of authorization that it is in the Government's interest for the employee to **have POV use** at the OCONUS PDS, or
- In the case of an employee whose **PDS** is **Johnston Island** (Atoll), and **Hawaii** is the place **designated** for the immediate family to **reside**, or
- When it is **determined** that transporting POV(s) wholly within CONUS is **advantageous** and **economical** to the Government.

When an **employee**, or the employee's designated representative, makes a separate trip to a **vehicle processing center** to **deliver** or **pick-up** a **POV**, per diem is not allowable. **Reimbursement** is **authorized** for one-way travel for the official distance traveled between the authorized points, at the applicable TDY mileage rate prescribed in the JTR, par. C2500, and the actual cost incurred for one-way return transportation. The **total** of the one-way TDY mileage and one-way transportation costs paid by the Government may not exceed the **cost** of **transporting** the **POV** between the authorized points.

If an employee **pays another individual** to **drive** the POV, or **arranges to have** the POV **transported** commercially, **reimbursement is authorized**. Reimbursement is **limited** to the actual cost of having the POV **driven** or **transported** not to exceed an **amount** determined by **multiplying** the appropriate TDY mileage rate (JTR, par. C2500) by the round trip official distance between the official points.

If an employee **delivers** or **picks-up** the POV at a **vehicle processing center** incident to performing permanent duty travel, by POV, other than during renewal agreement travel, the applicable PCS mileage rate prescribed in the JTR, par. C2505 is **authorized** between the official points,. In connection with this permanent duty travel by POV, other than renewal agreement travel, **payment also is allowable** for:

- The transportation cost for the **employee**, or the **employee** and **dependents**, to/from the **vehicle processing center** to which the employee **delivers** or **picks-up** the POV, to the port of **embarkation/debarkation**; or
- PCS mileage to/from the port of **embarkation/debarkation**, at which the employee **drops off** **dependents**, to the **vehicle processing center** to which the employee **delivers** or **picks-up** the POV, and the **employee's** return transportation to the port of **embarkation/debarkation**.

Click on the **See Also** button below and **select** the particular **topic** for additional information on processing **CIVPCS POV Shipments**.

POV Delivery or Pick-up Separately from CIVPCS Travel

When an **employee**, or the employee's designated representative, makes a separate trip to a **vehicle processing center** to **deliver** or **pick-up** a **POV**, per diem is not allowable.

Reimbursement is **authorized** for one-way travel for the official distance traveled between the authorized points, at the applicable TDY mileage rate prescribed in the JTR, par. C2500, and the actual cost incurred for one-way return transportation.

The **total** of the one-way TDY mileage and one-way transportation costs paid by the Government may not exceed the **cost of transporting** the **POV** between the authorized points.

To **process** this **type** of payment, there are a **number** of input requirements that are **unique** and must be understood by the **examiner** in order to **process** the **entitlement** correctly.

Travel Order

Ensure that the entitlement, "**Ship POV**", is **activated** at the "**What's Authorized (Civilian PCS)**" tab on the IATS **Travel Order** screen. Users will only have **access** to the **Ship POV** field if either the **Origin** or **Destination** is an **OCONUS** locality.

Select Expense Type

At the **Entitlements** tab, on the **Settlement Request** screen, **click** on the **Add Entitlement** button and then **click** on either the **Drop Off Vehicle** or **Pick Up Vehicle** option.

Itinerary

Note: IATS only allows three legs in the itinerary for this type of settlement. Therefore, when completing the itinerary, do not show **legs** where the traveler made additional stops. Construct the itinerary, if necessary, to show the direct route between the official points.

The following **screen** demonstrates the correct input for a typical CIVPCS involving a separate trip to **drop-off** a **POV** at the vehicle port and **return** to the old PDS:

What's Authorized
Actual Itinerary
Constructed Itinerary
Reimbursables

Actual Trip Duration: Less than or equal to 12 hours

Date		Location	Trans	Duty	IDL	Local	Group	Embark	Who Else

When completing the **itinerary**, ensure that **DV - Drop Off Vehicle at Vehicle Port** or **PV - Pick Up Vehicle at Vehicle Port** is **selected** as the **reason for stop** at the place the vehicle port is located.

Constructed Itinerary

The **reimbursement** to the traveler for the **mileage, transportation,** and other associated **expenses** is **limited** to the cost to the government for **shipping** the **POV to/from** the vehicle port. Therefore, users **must enter** the cost to the government, determined by the local transportation office, at the **Constructed Itinerary** screen. See the example below:

From Date	To Date	To Location	Miles	Ship POV Costs
7/10/2021	7/10/2021	HEIDELBERG, GM	349	\$850.00

Auth Miles: - If the default mileage is incorrect, **click** in this field and **type** the **number** of authorized miles between the official points.

Ship POV Costs: - At this field, **type** the **amount** for the **cost to the government**, as determined by the local transportation office, to ship the POV between the official points.

IATS will **limit** the total reimbursement to the **amount** entered at the **Ship POV Costs** field.

After completing the **Constructed Itinerary** tab, **finish** processing the request for settlement to **add** the reimbursable expenses, accounting lines, remarks, etc., as usual.

POV Delivery or Pick-up In-conjunction with CIVPCS Travel

If an employee **delivers** or **picks-up** the POV at a **vehicle processing center** incident to performing **permanent duty travel**, by POV, other than during renewal agreement travel, the applicable **PCS mileage rate** prescribed in the JTR, par. C2505 is **authorized** between the official points.

In connection with this permanent duty travel by POV, other than renewal agreement travel, **payment** also is **allowable** for:

- The **transportation cost** for the **employee**, or the **employee and dependents**, to/from the **vehicle processing center** to which the employee **delivers** or **picks-up** the POV, to the port of **embarkation/debarkation**; or
- **PCS mileage** to/from the port of **embarkation/debarkation**, at which the employee **drops off dependents**, to the **vehicle processing center** to which the employee **delivers** or **picks-up** the POV, and the **employee's return transportation** to the port of **embarkation/debarkation**.

The **input** for this **type** of payment is **nearly identical** to a **normal enroute** travel settlement. There are a **number** of **input requirements**, however, that are **unique** and **must** be **understood** by the **examiner** in order to **process** the **entitlement** correctly.

Travel Order

Ensure that the **entitlement**, "**Ship POV**", is **activated** at the "**What's Authorized (Civilian PCS)**" **tab** on the **IATS Travel Order** screen. Users will **only** have **access** to the **Ship POV** field **if** either the **Origin** or **Destination** is an **OCONUS** locality.

Select Expense Type

At the **Entitlements** tab, on the **Settlement Request** screen, **click** on the **Add Entitlement** button and then **click** on the **Enroute PCS Travel** option.

Itinerary

The **following** **screen** demonstrates the **correct input** for a **typical CIVPCS** involving a **pick-up** of a **POV** at the **vehicle port in-conjunction** with the **enroute** travel:

When completing the **itinerary**, **ensure** that **DV - Drop Off Vehicle at Vehicle Port** or **PV - Pick Up Vehicle at Vehicle Port** is **selected** as the **reason for stop** at the **place** the **vehicle port** is **located**.

Finish processing the request for settlement as usual.

Click on the **See Also** button below and **select** the particular **topic** for additional information on processing POV Shipments.

POV Shipment - Personally Procured

CONUS to CONUS POV Shipments:

- The **distance** that the POV is to be shipped must be 600 miles or more.
- When POV shipment is authorized at Government expense and the employee **personally arranges** the POV transportation, **reimbursement** is **limited** to the employee's **actual expenses**, limited to the POV transportation cost from the authorized origin to the authorized destination.

OCONUS POV Shipments:

- If an employee is authorized POV transportation at Government expense and then **personally arranges** the transportation, **reimbursement** is for the employee's **actual expenses**, limited to the POV transportation cost from the port or Vehicle Processing Center (VPC) serving the authorized origin point to the port or VPC serving the authorized destination.

To **process** this **type** of payment, there are a **number** of input requirements that are **unique** and must be **understood** by the **examiner** in order to **process** the **entitlement** correctly.

Travel Order

Ensure that the entitlement, "**Ship POV**", is **activated** at the "**What's Authorized (Civilian PCS)**" tab on the IATS **Travel Order** screen.

In addition, **enter** the **number** of authorized POVs at the **Num. POV** field.

Select Expense Type

At the **Settlement Request** screen, **click** on the **Add Entitlement** button and then **click** on the **POV Shipment - Personally Procured** option.

This action will result in IATS will displaying the **Shipping POV** screen.

 Complete the following steps to "complete" the Shipping POV screen:

1. **Origin:** - The **location** at the **Origin** field will **default** from the information entered at the **Travel Order** screen. If the POV shipment is **to** or **from** an **OCONUS** location, however, you should double click in this field and use the **Location Selection** screen to **change** the location to the **port** or **VPC** as applicable.
2. **Destination:** - The **location** at the **Destination** field will **default** from the information entered at the **Travel Order** screen. If the POV shipment is **to** or **from** an **OCONUS** location, however, you should double click in this field and use the **Location Selection** screen to **change** the location to the **port** or **VPC** as applicable.

3. **Distance:** - The mileage from the **DTOD** table will automatically default to this field based on the **Origin** and **Destination** locations entered when the travel order was created. If this mileage is **correct**, no action is necessary. If not, **click** in this field, **type** the correct mileage, and then **press Tab**.

Note: If the POV shipment is **to** or **from** an **OCONUS** location the **number** at the **Distance** field will default to zero and you must enter the correct mileage between the **PDS** and the **VPC**.

4. **Cost to Ship POV:** - **Click** in this field and **enter** the **amount** the employee is claiming for the shipment of the POV.
5. **Govt. Cost to Ship POV:** - **Click** in this field and **enter** the cost the government to have the POV shipped.
6. After you have entered the required information, **click** on the **OK** button to **save** the entries. IATS will **return** to the **Settlement Request** screen.
7. When you return to the **Settlement Request** screen **Finish** processing the request for settlement as usual.

FICA Refund

Processing a FICA Refund

Periodically users over collect **FICA** on **CIVPCS** claims. The over collection is caused because the traveler is **CSRS** Retirement Code and should not have FICA collected, or their wages have hit the **ceiling** for collecting FICA and the users did not know it. DFAS will refund the FICA to the traveler.

When DFAS issues the refund, the taxes are incorrect or the original summary has to be adjusted and there is no audit trail in IATS.

For this reason, a feature was added to IATS so users can use an automated system to refund FICA and generate an audit trail.

Note: In order to process a FICA refund, the IATS user must have the privilege "**Enter the Utility Module**" assigned to his/her user account.

Complete the following steps to "process" a FICA Refund:

1. Select or [create a block](#) for processing.
2. At the **Request Selection** screen, **select** the desired settlement request if it was already **logged** to the block. If the request was not previously **logged** to the block, **click** the **New** button and the **Travel Order Selection** screen appears.
3. **Type** the traveler's **SSN** at the **Find ID** field to **access** the traveler's **profile**.
4. After accessing the traveler's account, a **travel order** must be **selected**. Any orders, **existing** in the IATS database for the selected traveler, **appear** in the **Order** section. **Ensure** that the order **number** associated with the original settlement is **selected**.
5. After selecting the order, the **Select Supplemental To:** screen appears.

Compute Refund

10. **Expected Payment:** - The default value at the Expected Payment field is the current year. If this date is incorrect, **click** in this field and **type** the correct year.
11. **YTD IATS Wages:** If the amount shown in the Old Values column is incorrect, **click** in the **Corrected Values** field and **type** the correct amount.
12. **YTD Payroll Wages:** - If the user that originally processed this entitlement **forgot** to enter the employee's year to date payroll wages or if the original amount entered was incorrect, **click** in the **Corrected Values** field and **type** the correct amount.
13. **FICA:** - If amount of FICA originally calculated was incorrect, **click** in the **FICA/Corrected Values** field and **type** the correct amount.
14. To **calculate** the employee's FICA refund, **click** on the **Compute Refund** button.
15. IATS recalculates the FICA withholding and **displays** the amount of the refund in the **Due Employee** field.
16. **Click** on **OK** to **save** your entries and **finish** processing the claim by adding the **accounting** line(s), **remarks**, and entering the required dates on the **Workflow** tab if applicable.

Quarantine Stops

CIVPCS Travel Involving a Stop for Quarantine

The **DoD stop movement** in response to the coronavirus disease (**COVID-19**) outbreak now creates the need for a **new reason for stop** within the IATS itinerary. The stop movement has caused permanent change of station move interruptions for military members, civilian employees, and their dependents for quarantine, isolation, or awaiting transportation. Some travelers were caught in the stop movement after signing out of their last PDS but before actually proceeding with travel, some had to quarantine themselves upon arriving at but before signing into the new PDS, and others were detained in alternate locations.

Note: To address this situation, a **new Reason for Stop** code has been added to IATS for **CIVPCS** travel. **QP - PCS Accounting**. The **QP** code treats the stop as an authorized stop to pay per diem while there.

What's Authorized Actual Itinerary Reimbursables

Actual Trip Duration:

Date		Location	Trans Reason	Duty Day	IDL OMN	Local Method	Group Lodge	Embark Meals	Who Else			Miles
								AE %	Lodging	Taxes		
03/16/2020	DEP	Washington, DC, Dist of Columbia	PA	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

			TD									

When completing the itinerary, **ensure** that you **select** either **QP - Quarantine (PCS Accounting)** for the **Reason for Stop** if the traveler is in a **Stop Movement** situation due to the **COVID-19** outbreak.

TPP Tax Collection

Offsetting TPP Tax Collection Debts

An **enhancement** was added to IATS to **import** payment data from **3rd party** transportation systems.

This enhancement was added to **create** settlement requests in IATS through a batch file import that will be processed to **collect taxes** that are owed due to **tax law changes** that went into effect on January 1st, 2018.

These tax collection payments result in an amount **Due US** and will **remain** in **suspense** in the IATS database until the debt has been paid in full.

On occasion, however, it may be determined that taxes were **over-collected** resulting in an amount **Due the Employee** for the same CIVPCS Travel Order.

For this reason, a **feature** was added to IATS to **apply** an amount Due Employee to **offset** all or a portion of an amount Due US for tax collection debts.

 **Complete the following steps to "offset" a tax collection debt with an amount Due the Employee:**

1. Begin processing the subsequent Tax Collection claim for the same CIVPCS Travel Order as usual.

Note: The **Civilian PCS Summary Record** screen displays the detailed information about the processed transaction. At this screen, users may generate a print-out of the displayed summary record by clicking on the **Print** button. Users may also display the **Yearly Summary** screen by clicking on the **Summary** button.

Taxes Assessed:

A new field "**Taxes Assessed**" will only be seen if the amount shown at the **Amount of Entitlement** field is **negative**. The date at this field is populated by the IATS user at the **Calculations** tab on the **Settlement Request** screen when the tax collection transaction is being processed. A date is only entered at this field if the date the taxes were actually assessed is different than the **TPP invoice date**.

7. When finished viewing the **Civilian PCS Summary Record** screen, click on the **Cancel** button to return to the **Select CIVPCS Summary Record** screen.
8. If finished viewing CIVPCS Summary Records for the selected traveler, click on the **Cancel** button to return to the **Travel Order Selection** screen. At this screen, enter a new **SSN** to view the records for a different traveler or click on the **Cancel** button to return to the **Examiner View** screen.

CIVPCS Summary Records

CIVPCS Summary Records - Overview

The **Civilian PCS Summary Record** is a very important element associated with processing CIVPCS settlements. The **purpose** of this record is to provide a detailed account of every CIVPCS **transaction** processed by IATS or manually computed and **entered** by the IATS user. In addition to accounting for the **entitlement** and **collection** data, the CIVPCS Summary Record **contains all** of the **tax liability information** associated with the PCS transactions.

This information is used to generate the following documents:

- **IRS Form W-2**
- **IRS Form 941**
- **IRS Form 6559**

All CIVPCS settlement **transactions** processed in IATS are automatically posted to the summary records. These records are **maintained** in the IATS data base indefinitely, unless **deleted** by the IATS user. Since employees have up to two years to complete the transactions associated with a relocation, IATS was designed to **store several years** of CIVPCS **history** using the summary records.

Periodically, an IATS user may want to **view** the summary records for a particular employee. Users may need to **answer** employee's **questions** regarding the computation of an entitlement or the user may want to **verify** the **posting** of payment information.

Click on the **See Also** button below and **select** the particular **topic** for additional information on working with CIVPCS Summary Records.

Viewing CIVPCS Summary Records

Periodically, an IATS user may want to **view** the summary records for a particular employee. Users may need to **answer** employee's **questions** regarding the computation of an entitlement or the user may want to **verify** the **posting** of payment information.

Tip: Civilian PCS Summary Records can be **accessed** from the **Examiner View** screen, or by clicking on the **Other** button when viewing or processing a **Request for Advance**, or **Settlement**. Please **refer** to the **instructions below** to access Civilian PCS Summary Records by either method.

Note: The privilege "**View Civilian PCS Summary Records**" must be **granted** for the user's account in order for an IATS user **access** to CIVPCS Summary Records.

 **Complete the following steps to "view" a CIVPCS Summary Record:**

1. Login to IATS in the **Examiner View** mode or **change** the View to Examiner, if necessary.
2. At the **Examiner View** screen, **click** on the **File** menu and then **click** on the **Access PCS Summary Records** option. The **Select Traveler** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. At the Traveler Order Selection screen, any travel orders existing in the database for the selected traveler appear in the **Order** section.
5. **Click** on the **order number** associated with the CIVPCS record you wish to access and then **click** on the **OK** button. The **Select CIVPCS Summary Record** screen appears.

Note: The **Select CIVPCS Summary Record** screen **lists every CIVPCS transaction** posted to the IATS database by entitlement type. In addition, this screen provides information pertaining to the **date processed**, **amount paid**, **date paid**, and **how** the record was **created**. A **System Generated** record indicates that the record was automatically created by IATS when a CIVPCS **settlement** was

processed. A **Manually Created** record indicates that the record was manually created by an IATS user or was converted from an older IATS version database.

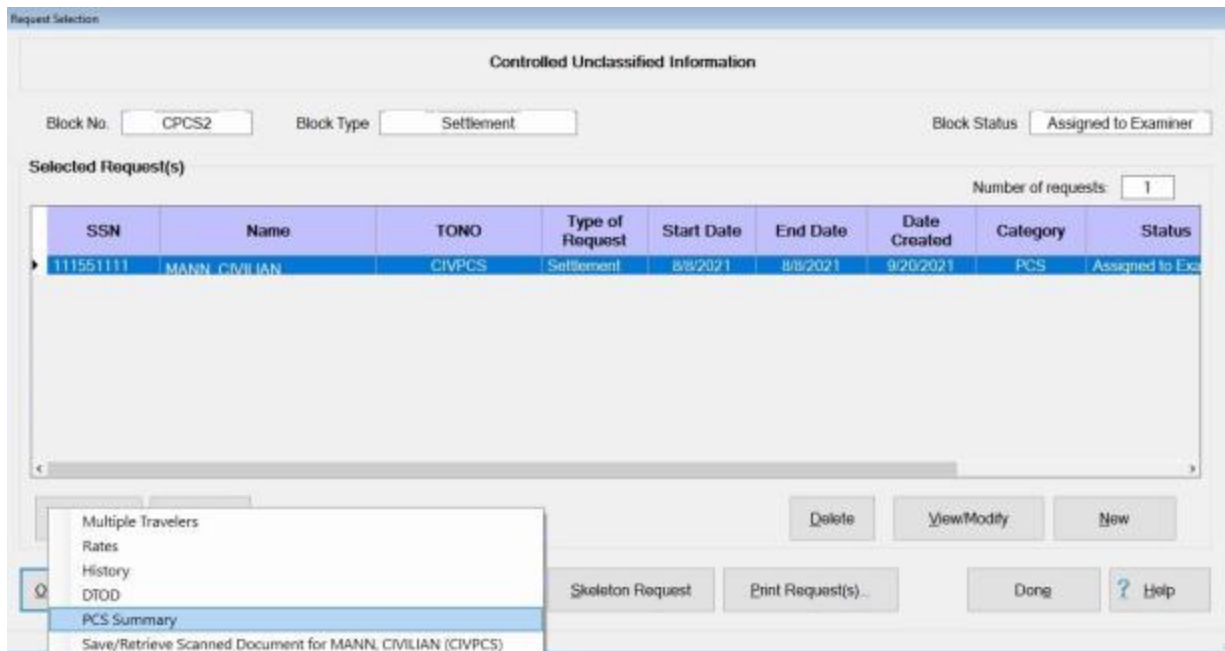

6. **Click** on the CIVPCS **transaction** you wish to display and then **click** on the **View/Modify** button. The **CIVPCS Summary Records** screen appears.

Note: The **Civilian PCS Summary Record** screen **displays** the detailed information about the processed **transaction**. At this screen, users may **generate** a **print-out** of the displayed summary record by **clicking** on the **Print** button. Users may also **display** the **Yearly Summary** screen by **clicking** on the **Summary** button.

7. When finished viewing the **Civilian PCS Summary Record** screen, **click** on the **Cancel** button to **return** to the **Select CIVPCS Summary Record** screen.
8. If **finished** viewing CIVPCS Summary Records for the selected traveler, **click** on the **Cancel** button to **return** to the **Travel Order Selection** screen. At this screen, **enter** a new SSN to view the records for a different traveler or **click** on the **Cancel** button to **return** to the **Examiner View** screen.

 **Complete the following steps to "view" a Civilian PCS Summary Record from the Request Selection, Advance Request, or Settlement Request screen:**

1. At the **Request Selection, Advance Request** or **Settlement Request** screen, **click** on the **Other** button. A *sub-menu* appears listing various options.

2. **Click** on the **PCS Summary** option. The **Select Traveler** or **Select CIVPCS Summary Record** will appear depending on which screen you were using.
3. From this point, **follow** the **instructions** above to view a Civilian PCS Summary Record.

Modifying CIVPCS Summary Records

Occasionally, an IATS user may need to **modify** the CIVPCS Summary Record for a particular employee.

Modifications to the CIVPCS Summary Record can only be made to **manually** entered summary records. If the words "**System Generated**" appear in the "**How Created**" column of the **Select CIVPCS Summary Record** screen, for the desired transaction, the IATS user cannot modify the record.

 Complete the following steps to "modify" a CIVPCS Summary Record:

1. Login to IATS in the **Examiner** View mode or **change** the View to Examiner, if necessary.
2. At the **Examiner View** screen, **click** on the **File** menu and then **click** on the **Access PCS Summary Records** option. The **Select Traveler** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press** Tab. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. At the **Traveler Order Selection** screen, any travel orders existing in the database for the selected traveler appear in the **Order** section.
5. **Click** on the **order number** associated with the CIVPCS record you wish to access and then **click** on the **OK** button. The **Select CIVPCS Summary Record** screen appears.

Select the Expense associated with this Summary Record

Click on the link and refer to the Help topic, "[Completing the CIVPCS Summary Records Screen](#)", for additional instructions.

Completing the CIVPCS Summary Records Screen

When manually creating CIVPCS Summary Records, the user must select the CIVPCS Expense type, and enter the required information to complete the **Civilian PCS Summary Records** screen.

 Complete the following steps to "populate" the Civilian PCS Summary Records screen:

1. **Expense:** - At the **Expense** field, **click** on the *down arrow* button to display a list of the various CIVPCS entitlements that were authorized when the travel order was created. When the list is displayed, **click** on the desired expense type.

Tip: The expense **type** can also be selected by **pressing** the *Up/Dn* arrow keys on the **keyboard** until the desired expense type is **displayed** at the **Expense** field. When the desired expense is selected, **press Tab** to continue.

2. **Dates:** - In the **date fields**, next to the **Expense** field, **type** the beginning and ending dates for the expense, (if applicable) in **MMDDYY** format, and **press Tab**. You can also **click** on the *down arrow* button and use the **calendar** to select the dates.
3. **Expected Payment Year:** - If the default year is incorrect, **type** the **year**, in which the traveler **received**, or is expected to **receive**, the payment, in **YYYY** format and **press Tab**.
4. **Amount of Entitlement:** - At this field, **type** the computed **amount** of the selected entitlement and **press Tab**.

House Hunting Trip

If the selected Expense **type** is **House Hunting Trip**, the following input field is **displayed** and must be completed:

- **TR Cost:** - If the transportation for the House Hunting Trip was procured by the **government**, this is considered to be a taxable entitlement and must be included. At this field, **type** the **amount** paid for the government procured transportation.
- **Non-taxable Fringe Benefits:** - If the traveler incurred an **expense** for an **ATM advance fee** for the use of a Government credit card, **enter** the **amount** of the expense at the **Non-taxable Fringe Benefits** field.

Enroute Travel

If the selected Expense type is **Enroute Travel**, the following input **fields** are **displayed** and must be completed:

- **Number of Persons on Enroute Travel:** - At this field, a **window** appears **listing** the **employee** and any **dependents** authorized on the travel order. **Click** on the desired **name** or **press** the *down* arrow **key** to make a selection. **Hold** the **Shift** key and **click** on the desired **names** or **press** the *down* arrow **key** to select more than one traveler listed consecutively.
- **TR Cost:** - If the transportation for the Enroute Travel was procured by the **government**, this is considered to be a non-taxable fringe benefit and must be included. If applicable, **type** the **amount** for the government procured transportation.
- **Meals:** - **Meals** are typically the only portion of the enroute travel reimbursement that is subject to withholding **taxes**. At this field, **type** the **amount** computed for **meals only**.
- **Non-taxable Fringe Benefit:** - When an amount is entered at the **Meals** field, IATS **deducts** that amount from the **total** entitlement and **populates** this field with the **difference**.

TQSE

If the selected Expense type is **TQSE**, the following input **fields** are **displayed** and must be completed:

- **TQSE Clock Running Without Persons:** - When the reimbursement for TQSE is authorized, it runs consecutively for the authorized period. **Click** in the **box** or **press** the **space bar** to **place a check mark** in this field, if the TQSE clock was running, but, no travelers were being reimbursed.
- **Number of Persons on TQSE:** - At this field, a **window** appears **listing** the **employee** and any **dependents** authorized on the travel order. **Click** on the desired **name** or **press** the *down* arrow **key** to make a section. **Hold** the **Shift** key and **click** on the desired **names** or **press** the *down* arrow **key** to select more than one traveler listed consecutively.
- **TQSE at New Station:** - **Click** in the **box** or **press** the **space bar** to **place a check mark** in this field, if the employee was paid for TQSE at the new PDS.
- **Non-taxable Fringe Benefits:** - If the traveler incurred an **expense** for an **ATM advance fee** for the use of a Government credit card, **enter** the **amount** of the expense at the **Non-taxable Fringe Benefits** field.

Household Goods

If the selected Expense type is **Household Goods**, the following input **fields** are **displayed** and must be completed:

- **Entitlement deducted in previous tax year:** - **Click** in the **box** or **press** the **space bar** to **place a check mark** in this field, if the reimbursement was deducted in a previous tax year.
- **Storage:** - At this field, **type** the **amount** of the **House Hold Goods** reimbursement that was for storage.
- **Non-taxable Fringe Benefit:** - When an amount is entered at the **Storage** field, IATS **deducts** that amount from the **total** entitlement and **populates** this field with the **difference**.

Note: After entering the amounts at the **Entitlement** and **Excluded** fields, if applicable, IATS **performs a calculation** and automatically populates the **Taxable**, **FITW Percent**, **WTA**, **Total Payment**, **FITW**, **FICA**, **Medicare**, and **NetPaid** fields. Users may **over-ride** these amounts, however, by **clicking** in the field and **typing** the desired number.

The remaining fields require input from the IATS user:

5. **Year to Date Payroll Wages:** - An **entry** at this field is **optional**, but, the IATS user should enter the **amount** of the employee's current year to date payroll wages. The **amount** entered here is used to impose a **limitation** on the amount calculated for the **FICA** and **Medicare** taxes.
6. **State:** - At this field, a **window** appears **listing** state **names** in alphabetical order. **Click** on the **down arrow** button to display a list of state names and use the slider bar to scroll up or down the list. Either **click** on the state **name** or **press Tab** when the desired state **name** is highlighted to make a selection.
7. **State Wages:** - The **amount** shown at this field is automatically calculated by IATS. The user may over-ride this amount if a different amount was manually computed and previously **reported**. **Press Tab** to **continue** if the correct amount is shown.
8. **State Tax Rate:** - **Enter** the **percentage** for the **state tax rate** for the **state** entered or shown at the **State** field. IATS will use this percentage to **calculate** the **State Tax Withheld** amount.
9. When **finished** entering all of the required information, **click** on the **OK** button. IATS **returns** to the **Select CIVPCS Summary Record** screen.
10. **Voucher Number:** - At this field, **type** the Disbursing Office Voucher Number (**DOV#**) **assigned** to the reimbursement for this expense.
11. **Payment Date:** - The current date defaults to this field. If correct, **press Tab** to continue. If not, **type** the **date**, in **MMDDYY** format, the **reimbursement** for this expenses was disbursed.

Printing CIVPCS Summary Records

On occasion, it may be necessary to **print** a CIVPCS Summary Record.

 **Complete the following steps to "print" a CIVPCS Summary Record:**

1. Login to IATS in the **Examiner** View mode or **change** the View to Examiner, if necessary.
2. At the **Examiner View** screen, **click** on the **File** menu and then **click** on the **Access PCS Summary Records** option. The **Select Traveler** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. When the account information appears, **click** on **OK**. The Traveler Order Selection screen will appear.
4. At the Traveler Order Selection screen, any travel orders existing in the database for the selected traveler appear in the **Order** section.
5. **Click** on the **order number** associated with the CIVPCS record you wish to access and then **click** on the **OK** button. The **Select CIVPCS Summary Record** screen appears.

10. If **finished** deleting CIVPCS Summary Records for this **traveler**, **click** the **Close** button. IATS **returns** to the **Examiner View** screen.

CIVPCS Records - Yearly Summary

All CIVPCS settlement **transactions** processed in IATS are automatically posted to the summary records. These records are **maintained** in the IATS data base indefinitely, unless **deleted** by the IATS user. Since employees have up to two years to complete the transactions associated with a relocation, IATS was designed to **store several years** of CIVPCS **history** using the summary records.

 Complete the following steps to "display" a CIVPCS Yearly Summary Record:

1. Login to IATS in the **Examiner** View mode or **change** the View to Examiner, if necessary.
2. At the **Examiner View** screen, **click** on the **File** menu and then **click** on the **Access PCS Summary Records** option. The **Select Traveler** screen appears.

Supplemental Settlement Requests

Processing Supplemental Requests

Travel settlement claims are sometimes **underpaid**, or **overpaid**. This may occur for a number of different reasons. For instance, the IATS user's initial **input** was **incorrect**; or maybe the **traveler** failed to **claim** an **expense** on the original **settlement**.

Regardless of the reason, a supplemental claim is normally **required** to **recalculate** the correct entitlement. The total **entitlement** from the previous **settlement** is **deducted** from the total **entitlement** calculated on the **supplemental** settlement. The **difference** is either **paid** to, or **collected** from the traveler.

Note: The following restriction applies to processing **supplemental** settlements for **CIVPCS** travel:

- **CIVPCS:** - For **all** customers, no new **entitlements** can be **added** for **CIVPCS** travel. For example: the original **settlement** consisted of a **TQSE** payment. Users cannot process a **supplemental** payment against this original settlement and **add** entitlements such as **Miscellaneous Expense Allowance, Enroute, Real Estate Expenses, etc.** Users may only process a **supplemental** payment **against** the original **entitlement**. In this example it was **TQSE**.

Click on the **See Also** button below and **select** the particular **topic** for additional **information** on processing **supplemental** settlements.

TDY Supplemental Settlements

Travel settlement claims are sometimes **underpaid**, or **overpaid**. This may occur for a number of different reasons. For instance, the IATS user's initial **input** was **incorrect**; or maybe the **traveler failed** to **claim** an **expense** on the original **settlement**.

Regardless of the reason, a supplemental claim is normally **required** to **recalculate** the correct entitlement. The total **entitlement** from the previous **settlement** is **deducted** from the total **entitlement** calculated on the **supplemental** settlement. The **difference** is either **paid** to, or **collected** from the traveler.

 **Complete the following steps to "process" a TDY Supplemental Request for Settlement:**

1. Select or [create a block](#) for processing.
2. At the **Request Selection** screen, **select** the desired request if it was already **logged** to the block. If the request was not previously **logged** to the block, **click** the **New** button. The **Select Travel** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. At the Traveler Order Selection screen, any travel orders existing in the database for the selected traveler appear in the **Order** section.
5. **Ensure** that the order **number** associated with the original settlement is **selected**.

Note: After selecting the order, the **Settlement Request** screen appears. At this screen, the **type** of **settlement** defaults to **"Supplemental - Subsequent Submission"**.

Settlement Request - Block No: SUPPTDY - Request No: NEW

SMITH, MARKY M. E9 TONO: SCR1509

Bottom Buttons: <Back, Next>, Daily Summary, Elapsed Time, Cons. Comp., Show Calcs, Receipts..., Other..., SAVE, Cancel, ? Help

Select reason Suppl was entered

Note: At the **Suppl Reason** field, you must **select** the appropriate **reason** why the supplemental claim is being processed. **Click** on the *down arrow* and then **click** on the correct reason. This information is used to generate the **Reason for Supplemental** report required by DFAS.

6. At this screen, **click** on the **Entitlements** tab.
7. At the **Entitlements** tab, any previous entitlements processed against the selected travel order are **displayed** in the **Types of Entitlements Claimed** section. **Click** on the desired **entitlement** and then **click** the **View/Modify** button.
8. At the **Trip** screen, **determine** whether the **Actual Itinerary** or the **Reimbursables** tab requires **modification** and **click** on the **appropriate** tab.
9. After clicking on the Actual Itinerary or the Reimbursables tab, **make** the necessary changes to the original entries.

Tip: If any **changes** are made to the **Itinerary**, be sure to **click** on the Exceptions button and **click** the Yes button to have IATS **recalculate** the daily meals or lodging and then **click** the **OK** button to proceed.

10. After making the required changes to the **Itinerary** and/or the **Reimbursables** tab, **click** on the Financial tab and **modify** the **accounting** lines to reflect the **changes** to the entitlement.

Note: The accounting lines should **reflect** the **amount** due the traveler or due the US based upon the **changes** made with the **supplemental** settlement. It's a good idea to **review** the **Calculations** tab before proceeding to the **Financial** tab to **determine** the **amount** due the member or due the US.

11. After **adjusting** the accounting lines, **add** any desired remarks and **finish** processing the **request**.

Blanket TDY Order Supplemental Settlements

Travel settlement claims are sometimes **underpaid**, or **overpaid**. This may occur for a number of different reasons. For instance, the IATS user's initial **input** was **incorrect**; or maybe the **traveler failed** to **claim** an **expense** on the original **settlement**.

Regardless of the reason, a supplemental claim is normally **required** to **recalculate** the correct entitlement. The total **entitlement** from the previous **settlement** is **deducted** from the total **entitlement** calculated on the **supplemental** settlement. The **difference** is either **paid** to, or **collected** from the traveler.

 **Complete the following steps to "process" a Blanket/Repetitive TDY Order Supplemental Request for Settlement:**

1. Select or [create a block](#) for processing.
2. At the **Request Selection** screen, **select** the desired request if it was already **logged** to the block. If the request was not previously **logged** to the block, **click** the **New** button. The **Select Travel** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. At the Traveler Order Selection screen, any travel orders existing in the database for the selected traveler appear in the **Order** section.
5. **Ensure** that the order **number** associated with the original settlement is **selected**.
6. After selecting the order, the **Select Supplemental To:** screen appears.

Select reason Suppl was entered

Note: At the **Suppl Reason** field, you must **select** the appropriate **reason** why the supplemental claim is being processed. **Click** on the *down arrow* and then **click** on the correct reason. This information is used to generate the **Reason for Supplemental** report required by DFAS.

8. At this screen, **click** on the **Entitlements** tab.
9. At the **Entitlements** tab, any previous entitlements processed against the selected travel order are **displayed** in the **Types of Entitlements Claimed** section. **Click** on the desired **entitlement** and then **click** the **View/Modify** button.
10. At the **Trip** screen, **determine** whether the **Actual Itinerary** or the **Reimbursables** tab requires **modification** and **click** on the **appropriate** tab.
11. After clicking on the [Actual Itinerary](#) or the [Reimbursables](#) tab, **make** the necessary changes to the original entries.

Tip: If any **changes** are made to the **Itinerary**, be sure to **click** on the [Exceptions](#) button and click the Yes button to have IATS **recalculate** the daily meals or **lodging** and then **click** the **OK** button to proceed.

12. After making the required changes to the **Itinerary** and/or the **Reimbursables** tab, **click** on the [Financial tab](#) and **modify** the **accounting** lines to reflect the **changes** to the entitlement.

Note: The accounting lines should **reflect** the **amount** due the traveler or due the US based upon the **changes** made with the **supplemental** settlement. It's a good idea to **review** the **Calculations** tab before proceeding to the **Financial** tab to **determine** the **amount** due the member or due the US.

13. After **adjusting** the accounting lines, **add** any desired remarks and **finish** processing the **request**.

MILPCS Supplemental Settlements

Travel settlement claims are sometimes **underpaid**, or **overpaid**. This may occur for a number of different reasons. For instance, the IATS user's initial **input** was **incorrect**; or maybe the **traveler failed** to **claim** an **expense** on the original **settlement**.

Regardless of the reason, a supplemental claim is normally **required** to **recalculate** the correct entitlement. The total **entitlement** from the previous **settlement** is **deducted** from the total **entitlement** calculated on the **supplemental** settlement. The **difference** is either **paid** to, or **collected** from the traveler.

 **Complete the following steps to "process" a MILPCS Supplemental Request for Settlement:**

1. Select or [create a block](#) for processing.
2. At the **Request Selection** screen, **select** the desired settlement request if it was already **logged** to the block. If the request was not previously **logged** to the block, **click** the **New** button. The **Select Travel** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press** *Tab*. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. At the Traveler Order Selection screen, any travel orders existing in the database for the selected traveler appear in the **Order** section.
5. **Ensure** that the order **number** associated with the original settlement is **selected**.
6. After selecting the order, the **Select Supplemental To:** screen appears.

Note: At the **Suppl Reason** field, you must select the appropriate **reason** why the supplemental claim is being processed. **Click** on the *down arrow* and then **click** on the correct reason. This information is used to generate the **Reason for Supplemental** report required by DFAS.

8. At this screen, **click** on the **Entitlements** tab.
9. At the **Entitlements** tab, any previous entitlements processed against the selected travel order are **displayed** in the **Types of Entitlements Claimed** section. **Click** on the desired **entitlement** and then **click** the **View/Modify** button.
10. IATS will now **display** the input screens for the previously entered entitlement.
11. **Make** the required input **changes** to the previously entered entitlement.
12. You may also **click** on the **Add Entitlement** button and **select** a new entitlement to be **added** to the previously processed claim.

Tip: If any **changes** are made to the **Itinerary**, be sure to **click** on the **Exceptions** button and click the **Yes** button to have IATS **recalculate** the daily meals or lodging and then **click** the **OK** button to proceed.

13. After making the required changes to the previously entered entitlement, **click** on the [Financial tab](#) and **modify** the **accounting** lines to reflect the **changes** to the entitlement.

Note: The accounting lines should **reflect** the **amount due the traveler** or **due the US** based upon the **changes** made with the **supplemental** settlement. It's a good idea to **review** the **Calculations** tab before proceeding to the **Financial** tab to **determine** the **amount due the member** or **due the US**.

14. After **adjusting** the accounting lines, **add** any desired [remarks](#) and **finish** processing the **request**.

CIVPCS Supplemental Settlements

Travel settlement claims are sometimes **underpaid**, or **overpaid**. This may occur for a number of different reasons. For instance, the IATS user's initial **input** was **incorrect**; or maybe the **traveler failed** to **claim** an **expense** on the original **settlement**.

Regardless of the reason, a supplemental claim is normally **required** to **recalculate** the correct entitlement. The total **entitlement** from the previous **settlement** is **deducted** from the total **entitlement** calculated on the **supplemental** settlement. The **difference** is either **paid** to, or **collected** from the traveler.

Note: When processing a **supplemental** settlement for **CIVPCS** travel, no new entitlements can be **added**. For example; the original **settlement** consisted of a **TQSE** payment. Users cannot process a **supplemental** payment against this original settlement and **add** entitlements such as **Miscellaneous Expense Allowance, Enroute, Real Estate Expenses, etc.** Users may only process a **supplemental** payment **against** the original **entitlement**. In this example it was **TQSE**.

 Complete the following steps to "process" a CIVPCS Supplemental Request for Settlement:

1. Select or [create a block](#) for processing.
2. At the **Request Selection** screen, **select** the desired settlement request if it was already **logged** to the block. If the request was not previously **logged** to the block, **click** the **New** button. The **Select Travel** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. At the Traveler Order Selection screen, any travel orders existing in the database for the selected traveler appear in the **Order** section.
5. **Ensure** that the order **number** associated with the original settlement is **selected**.
6. After selecting the order, the **Select Supplemental To:** screen appears.

Copy Insert Delete

Note: **Manual Accounting** is the **only** type **allowed** for this type of settlement.

19. **Complete** the **accounting lines** as **usual** for the type of customer. **Note** that the **example above** represents **Army** lines of accounting.
20. If desired, **click** on the **Remarks** tab and **add** any desired remarks.
21. When you are **satisfied** with your entries, **click** on the **Save** button to save the settlement request.

Supplemental Advance Requests

Processing Supplemental Advance Requests

Travel advance claims are sometimes **underpaid**. This may occur for a number of different reasons. For instance, the IATS user's initial **input** was **incorrect**; or maybe the **traveler failed** to **request** an **expense** or **entitlement** on the original request for advance.

Regardless of the reason, a supplemental advance claim is normally **required** to **recalculate** the correct entitlement. The **Previous Advance** amount is **deducted** from the **Computed Advance** calculated on the **supplemental** advance and the difference may be **paid** to the traveler.

The following **restrictions** apply to IATS when **processing** a subsequent advance for the same travel order:

- If an advance for a particular **entitlement** has already been **processed** by a precomputed advance or an advance generated offline you can only **process** a subsequent advance for that same **entitlement** by either a precomputed advance or an advance generated offline
- You cannot **process** a **supplemental** advance **against** a precomputed advance or an advance generated offline

Supplemental, precomputed, and offline advances are treated as their own **entity**. When these **types** of **transactions** are **displayed** on the **History** record they will **appear** as an **individual transaction** as shown below:

Enter the Order with which you wish to work.

Note: In the image above, an initial **advance (Claim No. 122)** was processed for **member en-route travel** and **DLA without dependents**. A supplemental advance (**Claim No. 125**) was processed to

change DLA from without to with dependents. **Notice** that this **supplemental** advance **appears** as it's own **entity** for just the additional **amount** being advanced.

Click on the **See Also** button below and **select** the particular **topic** for additional **information** on processing **supplemental** Advances.

TDY Supplemental Advances

Travel advance claims are sometimes **underpaid**. This may occur for a number of different reasons. For instance, the IATS user's initial **input** was **incorrect**; or maybe the **traveler failed** to **request** an **expense** or **entitlement** on the original request for advance.

Regardless of the reason, a supplemental advance claim is normally **required** to **recalculate** the correct entitlement. The **Previous Advance** amount is **deducted** from the **Computed Advance** calculated on the **supplemental** advance and the difference may be **paid** to the traveler.

 Complete the following steps to "process" a TDY Supplemental Request for Advance:

1. Select or [create a block](#) for processing.
2. At the **Request Selection** screen, **select** the desired request if it was already **logged** to the block. If the request was not previously **logged** to the block, **click** the **New** button. The **Select Travel** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. At the Traveler Order Selection screen, any travel orders existing in the database for the selected traveler appear in the **Order** section.
5. **Ensure** that the order **number** associated with the original settlement is **selected**.

Note: After selecting the order, the **Advance Request** screen appears. At this screen, the **type of advance** defaults to "**Supplemental Advance**".

Note: At this tab, a **summary** of the **calculations** is displayed by expense category. In the **%Adv** column, a **percentage** is shown that **corresponds** to the percentage **established** at the **TDY, MILPCS, or CIVPCS Parameters** tabs on the **Maintain Advance Percents** screen in the **IATS Maintenance** module. This **establishes** a **limit** that may be advanced to the traveler for a particular **expense category**. The **Total** column reflects the **amount** that may be advanced after the **limitation** is **applied**.

11. **Computed Advance:** - This field shows the **total amount computed** based on what was computed for the **previous advance** and any new entries made in the **Itinerary** and at the **Reimbursables** tab.
12. **Previous Advances:** - The **amount shown** at the Previous Advance field **represents** the **amount paid** on the **previously paid advance**.
13. **Max Advance:** - The **amount shown** at the Max Advance field **represents** the maximum amount that may be paid on the **supplemental advance** being processed.
14. **Date Advance Due:** - The **date** at this field **defaults** to the **current** date. **Click** on the **down arrow** button and use the **Calendar** to select a different date if desired.
15. **Authorized Advance:** - **Click** in this field, and **type** the **amount** to be paid to the traveler. The amount entered cannot exceed the amount shown at the **Max Advance** field.
16. After completing the **Calculations** tab, **click** on **Next** button or the **Financial** tab to proceed with the accounting lines.
17. After **adjusting** the accounting lines, **add** any desired remarks and **finish** processing the **request**.

MILPCS Supplemental Advances

Travel advance claims are sometimes **underpaid**. This may occur for a number of different reasons. For instance, the IATS user's initial **input** was **incorrect**; or maybe the **traveler failed** to **request** an **expense** or **entitlement** on the original request for advance.

Regardless of the reason, a supplemental advance claim is normally **required** to **recalculate** the correct entitlement. The **Previous Advance** amount is **deducted** from the **Computed Advance** calculated on the **supplemental** advance and the difference may be **paid** to the traveler.

 Complete the following steps to "process" a MILPCS Supplemental Request for Advance:

1. Select or [create a block](#) for processing.
2. At the **Request Selection** screen, **select** the desired settlement request if it was already **logged** to the block. If the request was not previously **logged** to the block, **click** the **New** button. The **Select Travel** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. When the account information appears, **click** on **OK**. The **Traveler Order Selection** screen will appear.
4. At the Traveler Order Selection screen, any travel orders existing in the database for the selected traveler appear in the **Order** section.
5. **Ensure** that the order **number** associated with the original settlement is **selected**.
6. After selecting the order, the **Select Supplemental Advance To:** screen appears.

Enter amount to be applied

19. At this screen, the **amount** calculated by IATS for the particular entitlement **appears** in the **Computed** field. Users must click in the **Given** field, for each entitlement being advanced, and **type** the **amount to be paid**.

Tip: Users can **apply** all of the calculated **amounts** simply by **clicking** on the **Default** button.

20. After applying all of the desired amounts, **click** on the **OK** button. IATS will **return** to the **Calculations** tab.
21. After completing the **Calculations** tab, **click** on **Next** button or the **Financial** tab to proceed with the accounting lines.
22. After **adjusting** the accounting lines, **add** any desired [remarks](#) and **finish** processing the **request**.

Processing Collections

About Collections

In order to **clear** a **suspense** item from the IATS suspense file, a **collection** of the **debt** is **required**. Collections can be processed through IATS using any of the following methods:

- [Deduct Collection from Request for Settlement](#)
- [Cash Collection Voucher](#)
- [Assign CV Number for a Payroll Deduction](#)
- [Process a Travel Not Performed \(TNP\) Transaction](#)

List Items Ready for Collection

After the **1st collection letter** is printed, IATS **establishes** a **new due date** based on the **second** suspense **parameter**. The second suspense parameter is (**# Days of Suspense until Collection Takes Place**). The **number** at this parameter is **added** to the **date** the **collection letter** was **printed** to determine the **next** due date. **If** the **debt** is **not settled** by this **next due date**, IATS generates a **Pay Adjustment Authorization** document that is used to have the debt **collected** from the traveler's **payroll**.

The suspense status, "**Ready for Collection Action**" is generated when a **second** collection **letter** was generated and the **due date** established by the second collection letter has **passed**. The account will **remain** in that status until the voucher examiner **manually generates** a collection voucher (**CV**) or a payroll deduction (**PD**) document.

The IATS feature "**List Items Ready for Collection**" allows you to **determine** the items that are **ready** for a payroll deduction collection and **generate** a **DD Form 1131** collection voucher document.

Note: If you wish to **generate** a **Pay Adjustment Authorization** document to have the debt collected from the traveler's **payroll**, this must be accomplished by the **System Administrator**. The System Administrator would select the **Debt Management** option and then select the **Update Suspense/Collections Letters** option. From the Update Suspense/Print Letters screen select the options [Reprint Collection Letter and Specific SSN and TO](#).

 **Complete the following steps to "list" the accounts in the status "Ready for Collection Action" and "generate" a DD Form 1131 Collection Voucher:**

1. At the **Examiner View** screen, **click** on the **Collections** button. A drop down menu appears offering several options.
2. **Click** on the **Ready for Collection** option. The **Items Ready for Collection Action** screen appears.

SSN	DoD ID	Name	Order Number	Amount	Date Due	Trip Number

Click this button to save information

5. **Click** in the **CV DOV#** field and **enter** the collection voucher DOV# if desired..
6. **Click** in the **Advance Amount Collected** field and **type** the **amount** that should be collected.
7. **Click** in the **Remarks** text box and **enter** any desired remarks.
8. After entering the amount to be collected, **click** on the **Print / Save** button. The **Adobe Acrobat Reader** screen appears.
9. **Click** on the **Printer** Icon. The **Print** screen appears.
10. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
11. **Select** the number of **copies** you wish to print and **click** the **Print** button.
12. IATS **prints** the **DD Form 1131** (Collection Voucher).
13. If you are finished using the **Adobe Acrobat Reader** screen, **click** on the **red (X)** button at the top right corner of the screen to **return** to the **Examiner View** screen.

Deduct Collection from Settlement

Most suspense items are **liquidated** when a **Request for Settlement** is processed to **off-set** an **advance** payment. When the **settlement** is processed, the total entitlement for the travel is calculated and any **funds paid in advance** are **collected** back from the total entitlement. Anything remaining after collecting the advanced funds is paid to the traveler.

When collecting an advance through settlement processing, users **must ensure** the **advance** is **entered** into the IATS **database**. There are **three** ways advances are entered into IATS:

1. **Advances** processed using IATS result in the suspense item automatically updating the IATS database.
2. **Advances** are directly entered into a **disbursing system** and the **transaction** is **downloaded** to IATS.
3. **Advances** are manually entered through the **Accruals, Advances, & Transportation Requests** screen. This normally occurs when the office paying an advance **mails** a copy to the office responsible for the settlement.

 **Complete the following steps to "deduct" a collection from a settlement:**

1. When processing a Request for Settlement, **look** at **Block # 9** of the **DD1351-2** (Travel Voucher). **Travelers** are **responsible** for indicating advances received in Block # 9.
2. At the **Settlement Request** screen, **click** on the **Adv/Accrl** tab. If Block # 9 of the DD1351-2 indicates that an advance was received, **ensure** that this information **appears** at the **Adv/Accrl** tab.
3. **If Block # 9** of the **DD1351-2** indicates that an advance was received, but the information does not appear at the **Adv/Accrl** tab, **type** the **details** for the advance payment in the appropriate fields.

Review or enter advances against this claim

4. After ensuring that the advance information is posted to the Adv/Accrl tab, **continue** processing the **Request for Settlement**. IATS will deduct the advance from the total entitlement of the settlement.

Create Cash Collection Voucher

Suspense items are often liquidated by **check, money order, or cash**. This commonly occurs when a settlement is processed and the total entitlement is less than the amount advanced. After the traveler **receives** the collection **letter** generated by IATS, the **amount** due the government is normally mailed to the finance office by the **traveler**. The traveler may also visit the finance office to pay the debt in cash.

 **Complete the following steps to "manually post a CV#" and generate DD Form 1131:**

1. At the **Examiner View** screen, **click** on the **Collections** button. A drop down **menu** appears offering several options.
2. **Click** on the **Collecting IATS Debt** option. The **Select Traveler** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**.
4. After accessing the traveler's account, **click** the **OK** button, the **Suspense Record Selection** screen appears.

After the traveler **receives** the collection **letter** generated by IATS, the **amount** due the government is normally mailed to the finance office by the **traveler**. The traveler may also visit the finance office to pay the debt in cash.

Cash, checks and money orders must be processed by the **disbursing** office. The disbursing office prepares a **DD Form 1131**, and assigns a Collection Voucher (**CV**) number to the document. IATS **produces** a computer facsimile of **DD Form 1131** that can be **printed** at the time the collection is posted to IATS or at a later time.

 Complete the following steps to "print" a collection voucher:

1. At the **Examiner View** screen, **click** on the **Collections** button. A drop down **menu** appears offering several options.
2. **Click** on the **Print CV** option. The following *pop-up message* appears advising you that once a Collection Voucher (**CV**) is created you cannot delete it.

3. **Click** on *Yes* or *No* as desired. The **Select Traveler** screen appears.
4. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**.
5. After accessing the traveler's account, **click** the **OK** button, the **Travel Order Selection** screen appears.
6. At the **Travel Order Selection** screen, double click on the **travel order number** associated with the **collection voucher** or **click** on the order once and then **click** on the **OK** button. The **Print Collection Voucher Selection** screen appears.

Create Non-IATS Collection Voucher

This feature is for collecting debts that are not maintained in the IATS **database**. This would include **advances** processed at other stations, or for **excess transportation costs**. Typically this feature is used by Air Force customers, but may be used by any customer.

 Complete the following steps to "create" a Non-IATS collection voucher:

1. At the **Examiner View** screen, **click** on the **Collections** button. A drop down **menu** appears offering several options.
2. **Click** on the **Collecting Non-IATS Debt** option. The following *pop-up message* appears advising you that once a Collection Voucher (**CV**) is created you cannot delete it.

3. **Click** on *Yes* or *No* as desired.
4. If you **click** on *Yes*, the **Select Traveler** screen appears.
5. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. After the traveler's account information appears, **click** on **OK**. The **Travel Order Selection** screen appears.
6. At the **Travel Order Selection** screen, any existing travel orders in the IATS database appear below in the **Order** section.
7. **Click** on the **order number** associated with the collection item and then **click** the **OK** button. The **Collecting Non-IATS Debt** screen appears.

Using the Travel Not Performed Feature

On occasion **advances** of travel funds are **issued** to a traveler but the **trip** was **not performed**. When this situation occurs there is an **outstanding advance** in the IATS suspense file that **must be collected**.

A **feature** was added to IATS to **generate a recoupment transaction** to **liquidate** the outstanding advance. This feature **collects** the **outstanding advance** and **generates a due US** transaction.

This feature is referred to as the Travel Not Performed (TNP) feature.

A TNP can be **utilized** under the **following conditions** for **TDY** type orders, **Evacuation**, **MILPCS** and **CIVPCS**:

- No prior settlement has been received;
- And only outstanding advance(s) have been paid

 Complete the following steps to "use" the Travel Not Performed (TNP) feature:

1. **Login** to IATS in the **Examiner** View mode or change the View to Examiner, if necessary.
2. Select or [create a block](#) for processing.
3. At the **Request Selection** screen, **click** the **New** button and the **Select Traveler** screen appears.
4. **Click** in the appropriate **radio button** to **select** your search **by** either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab** to **access** the traveler's **profile**.
5. When the traveler's information is displayed, **click** on **OK**. The **Travel Order Selection** screen appears.
6. At the **Travel Order Selection** screen, **click** on the desired **travel order number** and then **click** on **OK**.
7. IATS will display the **Settlement Request** screen.

19. After selecting the desired collection letter number, **click** on the **Modify Accounting** button.
20. **Finish** processing the settlement claim as usual by adding the **accounting** lines and entering any desired **remarks**.

Army MILPCS Debt Collection - Overview

IATS allows **Army Travel Offices** the ability to **process a debt claim** for MILPCS travel orders that **applies all outstanding unapplied advance amounts** and to **generate a demand letter** that is **sent to the member**.

For the DFAS Rome Travel office, when the Debt Management's non-digital **collection request** is **received** the examiner will use the **GO DOCS** system to **generate a block number**. Then they will **create a new block** using the **type** titled **Debt Collection**.

This **block type** will only allow detail/request **type of debt collection** to **process a debt claim** with the ability to **withhold all outstanding unapplied advance amounts** by **entitlement amount** against the claim.

The examiner will **complete the claim** by entering **accounting and remarks**.

Army Accounting:

Special attention will now be paid to accounting. IATS would **ensure** that the **accounting** of the advance would be **changed** from a **4120** advance account to the **4610** collections account.

This would be **similar** to a settlement that is **Due US** which changes the remainder of the advance from the 4120 account to the 4610 account.

Advance Status:

IATS will **flag** the **advance amount** from the **CV** as "**Collection Pending**" until a **CV** is **posted**.

If **collection** is made via payroll deduction, then the user must post a **CV** (posting CV number not required). If a **CV** is not posted, the **amount** will **appear** as **available** for **deduction** when a subsequent claim is received and processed.

Audit and Certification:

All debt claims will be subject to the same **audit and certification requirements** as normal claims.

Debt Claim Exclusions:

Debt claims will not be **allowed** to (1) **process entitlements** against it, and (2), be **returned** to the traveler.

Settlement Received Before CV Posted:

If **no CV** has been **posted** to the debt claim, then when a claim is subsequently received, the user will **click** the **Not a Supplemental To** button and **select which entitlement(s)** to process. IATS will **display** the debt claim **amount** on the **Calculations** Tab in the **Uncollected Amount** field and **allow** the user to **apply** it **against** the **entitlement(s)** being processed.

In addition, any outstanding unapplied advance amount(s) (4120), as well as any **previous due US (4610) uncollected amount(s)**, will also be **available** to be **applied** against the claim. (**NOTE:** This also applies to any claim that is received).

Settlement Received After CV Posted:

If a **CV** has been **posted** (does not require CV number to be posted), then the **user** will again select the **Not a Supplemental To** button, and the **debt claim amount** that was CV'd will not be **available** to be withheld against the entitlement.

Only outstanding unapplied advance amount(s) (4120) or any previous due US (4610) uncollected amount(s) will be **available** to be **applied** against the claim. (**NOTE:** This also applies to any claim that is received).

Travel Not Performed (TNP):

The **TNP** option will remain resident within IATS, but it will strictly be **used only** under the following conditions:

- No prior settlement has been received
 - And only outstanding advance(s) have been paid

Timing Issues:

- Rome will not be **allowed** to **process any entitlements** against an order that has **had a debt claim processed against it** until the debt claim is **completed** and a **DOV number** posted to the detail. The only way around this condition is for the debt claim to be **deleted (not returned to the traveler but deleted)** and for the **settlement claim** that was **submitted** by the traveler to be **processed** as normal and **apply** the **advances** accordingly.
 - After the debt claim is **completed**, and a **settlement claim** is **received afterwards** and either **deleted** or **returned** to the traveler, IATS will **reinstate** any uncollected amount that was **applied** on the deleted/returned settlement claim. The amount is **reinstated** as an uncollected amount until either a **CV is posted** or another settlement claim is **processed** that **applies** the uncollected amount to any remaining entitlements due.

Refer to the **Help** topic "[Processing Army MILPCS Debt Collections](#)" for detailed **instructions** on using this IATS feature..

Processing Army MILPCS Debt Collections

IATS allows **Army Travel Offices** the ability to **process a debt claim** for MILPCS travel orders that **applies all outstanding unapplied advance amounts** and to **generate a demand letter** that is **sent to the member**.

 Complete the following steps to "process" an Army MILPCS Debt Collection claim:

You will see the amount previously applied and **collected** on the **Debt Collection (Unapplied Advance)** screen and the **Calculations** tab.

AMC Accounting

AMC-Automatic Accounting

When the **AMC Accounting** screen appears, there are **two** possible **methods** for entering the accounting information; **Automatic** or **Manual**.

The screenshot shows the 'Automatic Accounting' tab selected. The form includes the following fields and controls:

- JO**: Text input field.
- MDC Code**: Text input field.
- Travel Indicator**: Dropdown menu.
- Multi-Year**: Checkbox.
- Document Reference Number**: Text input field with a dropdown menu showing 'SM1111TD0TEST'.
- Federal Accounting Code**: Text input field.
- State Accounting Code**: Text input field.
- Buttons**: 'Back', 'Next', and 'Generate' buttons at the bottom.

Use the following steps to "complete" the Automatic Accounting tab:

1. If the **Automatic Accounting** tab is not already in **focus**, **click** on this tab to **display** the input fields.
2. **JO**: - If processing a **TDY** Request for Settlement, **type** the **Job Order** code associated with the travel order and then **press Tab**.
3. **MDC Code**: - If processing a **MILPCS** Request for Settlement, **type** the **MDC Code** associated with the travel order and then **press Tab**.
4. **Travel Indicator**: - Not used.
5. **Multi-Year**: - **Click** in the **box** at this field if using an accounting line that involves **fiscal year** indicator (**X**). Funds appropriated to fiscal year X. Otherwise, **press Tab** to continue.
6. **Document Reference Number**: - IATS automatically generates the Document Reference Number (**DRN**), which the accounting branch uses to track transactions related to this travel order. Ensure that the number generated by IATS matches the number on the travel order. Make any required changes or **press Tab** if correct.
7. **Federal Accounting Code**: - If processing an **entitlement** that **requires** a **collection** of **Federal Withholding** taxes, **type** the **APC** code for the Federal Accounting **appropriation** and **press Tab** to continue.
8. **State Accounting Code**: - If processing an **entitlement** that **requires** a **collection** of **State Withholding** taxes, **type** the **APC** code for the State Accounting **appropriation** and **press Tab** to continue.
9. After completing the required input fields, **click** on the **Generate** button. IATS automatically populates the accounting classification lines, if an **appropriation** matching the **APC Code** and **Fiscal Year**, was loaded into the **Accounting Table** in the **Maintenance** module.
10. After clicking on the **Generate** button as explained in step (9) above, the **Manual Accounting** tab appears **displaying** the **accounting** lines automatically generated by IATS.

Other... Auditor Remarks OK Cancel ? Help

Enter APC, MDC, or Job Order Code

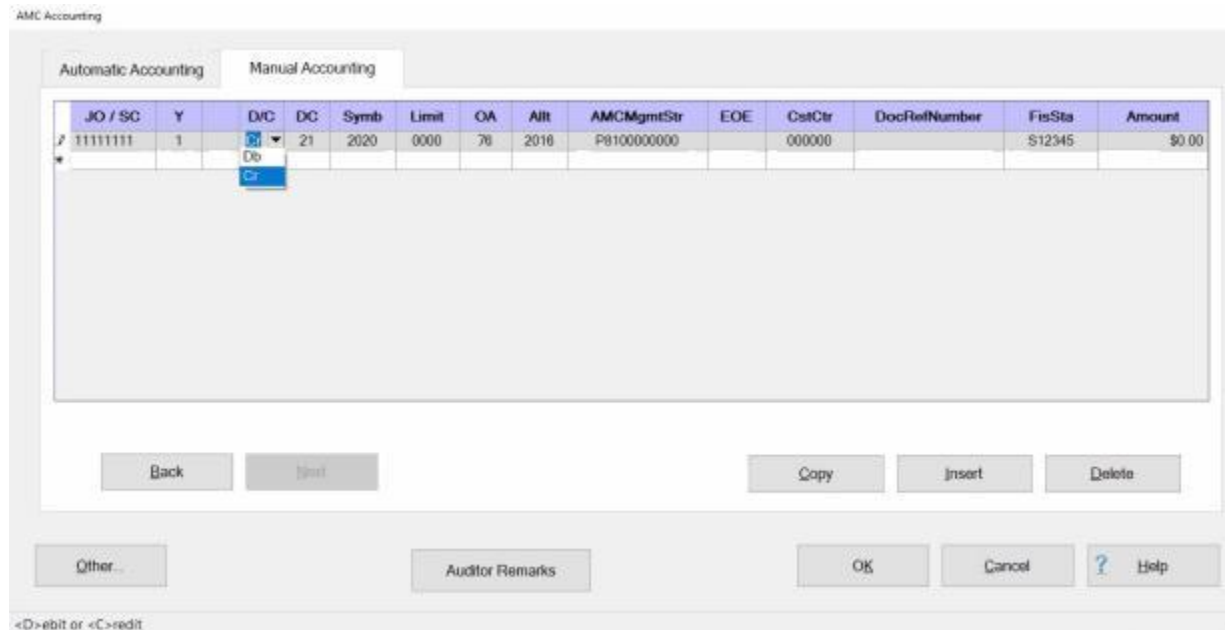

11. **Review** the accounting lines for **accuracy**. If **changes** are necessary, **click** in the appropriate field and **type** the required change.

Tip: For a **short-cut** when additional accounting lines are needed, **click** the **Copy** button. IATS will **automatically copy** the previous accounting line information to the fields in the following accounting line. The user can then make any minor **changes**; such as making the line a **debit** or **credit**. **Press Tab** through the **Amount** field until the correct amount is **populated** at the new line.

12. When **satisfied** that the accounting lines are correct, **click** the **OK** button.

AMC-Manual Accounting

When the **AMC Accounting** screen appears, there are **two** possible **methods** for entering the accounting information; **Automatic** or **Manual**.

Use the following steps to "complete" the Manual Accounting tab:

1. If the **Manual Accounting** tab is not already in **focus**, **click** on this tab to **display** the input fields.
2. **JO / SC:** At this field, **type** the - **Job Order** code associated with the travel order and then **press Tab**.
3. **Y:** - At the **Fiscal Year** field, a drop down listing of various fiscal years appears. If the **default** value that appears at this field is correct, **press Tab** to continue. If not, **click** on the *Up/Dn* **arrows** or **press** the *Up/Dn* **arrows** on the keyboard to display more choices. When the correct year is shown, **click** on the desired **year** to make a selection and then **press Tab** to continue.

Note: After pressing *Tab* at the **Year** field, IATS will automatically populate most of the remaining fields if the **APC Code** and **FY indicator** match an accounting appropriation loaded into the **Accounting** table in the **Maintenance** module.

4. **D/C:** - At this field, a drop down listing appears displaying the choices debit (**Db**) or credit (**Cr**). If the **correct** choice is already displayed in this field, **press Tab** to continue. If not, **click** on the **correct** choice and **press Tab**.
5. **DC:** - If not already automatically populated, **type** the correct two digit **code** for the **Department Number** as shown on the travel order and **press Tab**.
6. **Symb:** - If not already automatically populated, **type** the correct four digit **code** for the **Basic Symbol Number** as shown on the travel order and **press Tab**.
7. **Limit:** - If not already automatically populated, **type** the correct **code** for the **Limit** as shown on the travel order and **press Tab**.
8. **OA:** - If not already automatically populated, **type** the correct two digit **code** for the **Operating Agency** as shown on the travel order and **press Tab**.
9. **Allt:** - If not already automatically populated, **type** the correct four digit **code** for the **Allotment Serial Code** as shown on the travel order and **press Tab**.

10. **AMCMgmtStr:** - If not already automatically populated, **type** the correct **code** for the **AMC Management Structure Program Code** as shown on the travel order and **press Tab**.
11. **EOE:** - At this field, a drop down listing appears displaying various choices for **Element of Expenses Codes** loaded into the **EOE** table in the **Maintenance** module. If the **default** value appearing at this field is **correct**, **press Tab** to continue. **If not**, **click** on the **Up/Dn arrows** or **press the Up/Dn arrows** on the keyboard to display more choices. When the correct code is shown, **click** on the desired code to make a selection and then **press Tab** to continue.
12. **CstCtr:** - If not already automatically populated, **type** the correct **six digit code** for the **Cost Center Code** as shown on the travel order and **press Tab**.
13. **DocRefNumber:** IATS **automatically generates** the Document Reference Number (**DRN**), which the accounting branch uses to track transactions related to this travel order. Ensure that the number generated by IATS matches the number on the travel order. Make any required changes or **press Tab** if correct.
14. **FisSta:** - If not already automatically populated, **type** the correct **six digit code** for the **Fiscal Station ID Code** as shown on the travel order and **press Tab**.
15. **Amount:** - IATS **automatically populates** this field with the **total dollar amount** for the **debits** or **credits** depending on the code entered at the **D/C** field. If the correct amount is displayed, press **Tab**.
16. **Repeat** steps **2-15** above to **additional** accounting lines if necessary.

Tip: For a **short-cut** when additional accounting lines are needed, **click** the **Copy** button. IATS will **automatically copy** the previous accounting line information to the fields in the following accounting line. The user can then make any minor **changes**; such as making the line a **debit** or **credit**. **Press Tab** through the **Amount** field until the correct amount is **populated** at the new line.

16. When **finished** adding the required accounting lines, **click** the **OK** button.

Army Accounting

Army-Automatic Accounting

Beginning in **FY12** Army changed the way that member and dependent MALT and commercial transportation are to be handled regarding accounting. MALT and commercial transportation for both are now to be itemized separately from per diem, with each now on its own individual line of accounting (LOA).

On the Accounting screen for any Army MILPCS enroute settlement claim involving FY12 funds or later add **TI** (Travel Indicator) for **Member MALT (13)** or **Member Commercial Transportation (12)**, and change the **ArmyMgmtSTR** last 2 characters to either **12 Member MALT** or **30 for Member Commercial Transportation**.

For the Dependent add **TI** for **Dependent MALT (15)** or **Dependent Commercial Transportation (14)**, and change the **ArmyMgmtSTR** last 3 characters to either **B12 Dependent MALT** or **B30 for Dependent Commercial Transportation**.

When the **Army Accounting** screen appears, there are **two** possible **methods** for entering the accounting information; **Automatic** or **Manual**.

The screenshot shows the 'Automatic Accounting' tab selected. The form includes the following fields and controls:

- APC Code:** Text input field containing '111111'.
- MDC Code:** Text input field.
- Travel Indicator:** Dropdown menu.
- Multi-Year:** Checkbox.
- Document Reference Number:** Text input field containing 'MAN1111BTETAC'.
- Federal Accounting Code:** Text input field.
- State Accounting Code:** Text input field.
- Navigation:** 'Back', 'Next', and 'Generate' buttons.

 Use the following steps to "complete" the Automatic Accounting tab:

1. If the **Automatic Accounting** tab is not already in **focus**, **click** on this tab to **display** the input fields.
2. **APC Code:** - If processing a **TDY** Request for Settlement, **type** the **APC Code** associated with the travel order and then **press Tab**.
3. **MDC Code:** - If processing a **MILPCS** Request for Settlement, **type** the **MDC Code** associated with the travel order and then **press Tab**.
4. **Travel Indicator:** - Not used.
5. **Multi-Year:** - **Click** in the **box** at this field if using an accounting line that involves **fiscal year** indicator (**X**). Funds appropriated to fiscal year X. Otherwise, **press Tab** to continue.
6. **Document Reference Number:** - IATS automatically generates the Document Reference Number (**DRN**), which the accounting branch uses to track transactions related to this travel order. Ensure that the number generated by IATS matches the number on the travel order. Make any required changes or **press Tab** if correct.
7. **Federal Accounting Code:** - If processing an **entitlement** that **requires** a **collection** of **Federal Withholding** taxes, **type** the **APC** code for the Federal Accounting **appropriation** and **press Tab** to continue.

8. **State Accounting Code:** - **If processing** an entitlement that requires a collection of **State Withholding** taxes, **type** the **APC** code for the State Accounting **appropriation** and **press Tab** to continue.
9. After completing the required input fields, **click** on the **Generate** button. IATS automatically populates the accounting classification lines, **if** an **appropriation** matching the **APC Code** and **Fiscal Year**, was loaded into the **Accounting Table** in the **Maintenance** module.
10. After clicking on the **Generate** button as explained in step (9) above, the **Manual Accounting** tab appears **displaying** the **accounting** lines automatically generated by IATS.

The screenshot shows the 'Army Accounting' window with the 'Manual Accounting' tab selected. A table displays one accounting line with the following data:

Code	Y	D/C	DC	Symb	Limit	OA	Alt	ArmyMgmtStr	EOE	CstCtr	DocRefNumber	FisSta	Amount
111111	4	Db	21	2020	0000	76	2016	P8100000000	21T2	000000	MAN1111TB1ETAC	S12345	\$705.50

Below the table are several buttons: 'Back', 'Tab', 'Copy', 'Insert', 'Delete', 'Other...', 'OK', 'Cancel', and 'Help'. At the bottom left, there is a prompt: 'Enter APC, MDC, or Job Order code'.

11. **Review** the accounting lines for **accuracy**. If **changes** are necessary, **click** in the appropriate field and **type** the required change.

Tip: For a **short-cut** when additional accounting lines are needed, **click** the **Copy** button. IATS will automatically copy the previous accounting line information to the fields in the following accounting line. The user can then make any minor **changes**; such as making the line a **debit** or **credit**. **Press Tab** through the **Amount** field until the correct amount is **populated** at the new line.

12. When **satisfied** that the accounting lines are correct, **click** the **OK** button.

Army-Manual Accounting

Beginning in **FY12** Army changed the way that member and dependent MALT and commercial transportation are to be handled regarding accounting. MALT and commercial transportation for both are now to be itemized separately from per diem, with each now on its own individual line of accounting (LOA).

On the Accounting screen for any Army MILPCS enroute settlement claim involving FY12 funds or later add **TI** (Travel Indicator) for **Member MALT (13)** or **Member Commercial Transportation (12)**, and change the **ArmyMgmtSTR** last 2 characters to either **12 Member MALT** or **30 for Member Commercial Transportation**.

For the Dependent add **TI** for **Dependent MALT (15)** or **Dependent Commercial Transportation (14)**, and change the **ArmyMgmtSTR** last 3 characters to either **B12 Dependent MALT** or **B30 for Dependent Commercial Transportation**.

When the **Army Accounting** screen appears, there are **two possible methods** for entering the accounting information; **Automatic** or **Manual**.

Code	Y	D/C	DC	Symb	Limit	OA	Alt	ArmyMgmtStr	EOE	CstCtr	DocRefNumber	FisSta	Amount
111111	4	Db	21	2020	0000	76	2016	P810000000	21T2	000000	MAN1111TB1ETAC	S12345	\$705.50

 Use the following steps to "complete" the Manual Accounting tab:

1. If the **Manual Accounting** tab is not already in **focus**, **click** on this tab to **display** the input fields.
2. **Code:** - At this field, **type** the **APC or MDC Code** associated with the travel order and then **press Tab**.
3. **Y:** - At the **Fiscal Year** field, a drop down listing of various fiscal years appears. If the **default** value that appears at this field is correct, **press Tab** to continue. If not, **click** on the **Up/Dn arrows** or **press** the **Up/Dn arrows** on the keyboard to display more choices. When the correct year is shown, **click** on the desired **year** to make a selection and then **press Tab** to continue.

Note: After pressing *Enter* at the **Year** field, IATS will automatically populate most of the remaining fields if the **APC or MDC Code** and **FY indicator** match an accounting appropriation loaded into the **Accounting** table in the **Maintenance** module.

4. **TI:** - At this field, **type** the travel indicator code representing the entitlement the accounting line is reporting. For example; **01** = Member Travel or POV Pick-up or Drop-off, **02** = Dependent Travel, **04** = DLA, **08** = DITY, **09** = TLE, **12** = Member Commercial Transportation, **13** = Member MALT, **14** = Dependent Commercial Transportation, **15** = Dependent MALT,.
5. **D/C:** - At this field, a drop down listing appears displaying the choices debit (**Db**) or credit (**Cr**). If the **correct** choice is already displayed in this field, **press Tab** to continue. If not, **click** on the **correct** choice and **press Tab**.
6. **DC:** - If not already automatically populated, **type** the correct two digit code for the **Department Number** as shown on the travel order and **press Tab**.
7. **Symb:** - If not already automatically populated, **type** the correct four digit code for the **Basic Symbol Number** as shown on the travel order and **press Tab**.
8. **Limit:** - If not already automatically populated, **type** the correct four digit code for the **Limitations** as shown on the travel order and **press Tab**.
9. **OA:** - If not already automatically populated, **type** the correct two digit code for the **Operating Agency** as shown on the travel order and **press Tab**.
10. **Allt:** If not already automatically populated, **type** the correct four digit code for the Allotment Serial Code as shown on the travel order and **press Tab**. For **MILPCS** accounting enter **1100**.
11. **ArmyMgmtStr:** - If not already automatically populated, **type** the correct code for the **Army Management Structure Program Code** as shown on the travel order and **press Tab**. If necessary, **change** the last 2 characters to either **12** for **Member MALT** or **30** for **Member Commercial Transportation**. For **Dependent** travel **change** the last 3 characters to either **B12** for **Dependent MALT** or **B30** for **Dependent Commercial Transportation**.
12. **EOE:** - At this field, a drop down listing appears displaying various choices for **Element of Expenses Codes** loaded into the **EOE** table in the **Maintenance** module. If the **default** value appearing at this field is correct, **press Tab** to continue. If not, **click** on the **Up/Dn arrows** or **press** the **Up/Dn arrows** on the keyboard to display more choices. When the correct code is shown, **click** on the desired code to make a selection and then **press Tab** to continue.
13. **CstCtr:** - If not already automatically populated, **type** the correct six digit code for the **Cost Center Code** as shown on the travel order and **press Tab**.
14. **DocRefNumber:** - IATS automatically generates the Document Reference Number (**DRN**), which the accounting branch uses to track transactions related to this travel order. Ensure that the number generated by IATS matches the number on the travel order. Make any required changes or **press Tab** if correct.
15. **FisSta:** - If not already automatically populated, **type** the correct six digit code for the **Fiscal Station ID Code** as shown on the travel order and **press Tab**.
16. **Repeat** steps 2-16 above to add **additional** accounting lines if necessary.
17. **Amount:** IATS automatically populates this field with the **total dollar amount** for the **debits** or **credits** depending on the code entered at the **D/C** field. If the correct amount is displayed, **press Tab**.

Tip: For a **short-cut** when additional accounting lines are needed, **click** the **Copy** button. IATS will automatically copy the previous accounting line information to the fields in the following accounting line. The user can then make any minor **changes**; such as making the line a **debit** or **credit**. **Press Tab** through the **Amount** field until the correct amount is **populated** at the new line.

18. When **finished** adding the required accounting lines, **click** the **OK** button.

Army MILPCS Advance Accounting

When the **Army Accounting** screen appears, the **Automatic Accounting** tab is in focus when you are processing MILPCS travel advances.

The screenshot shows the 'Army Accounting' window with the 'Automatic Accounting' tab selected. The interface includes the following elements:

- Automatic Accounting** and **Manual Accounting** tabs.
- APC Code**: An empty text input field.
- MDC Code**: A text input field containing '4AE'.
- Travel Indicator**: A dropdown menu.
- Multi-Year**: A checkbox.
- Document Reference Number**: A dropdown menu containing 'J0H2222PMCSADV'.
- Federal Accounting Code**: An empty text input field.
- State Accounting Code**: An empty text input field.
- Buttons**: 'Back', 'Next', 'Generate', 'Other...', 'OK', 'Cancel', and 'Help'.
- Footer**: A status bar with the text 'Enter the Document Reference Number to be used for this request.'

Use the following steps to "complete" the Automatic Accounting tab:

1. **APC Code**: - If processing a **MILPCS** travel **Advance** that also involves **TDY** enroute, **type** the **APC Code** associated with the travel order and then **press Tab**.
2. **MDC Code**: - If processing a **MILPCS** Request for Advance, **type** the **MDC Code** associated with the travel order and then **press Tab**.
3. **Travel Indicator**: - No entry necessary. IATS will automatically populate this field when the accounting line is generated.
4. **Multi-Year**: - **Click** in the **box** at this field if using an accounting line that involves **fiscal year** indicator (**X**). Funds appropriated to fiscal year X. Otherwise, **press Tab** to continue.
5. **Document Reference Number**: - IATS automatically generates the Document Reference Number (**DRN**), which the accounting branch uses to track transactions related to this travel order. Ensure that the number generated by IATS matches the number on the travel order. Make any required changes or **press Tab** if correct.
6. **Federal Accounting Code**: - If processing an **entitlement** that **requires** a **collection** of **Federal Withholding** taxes, **type** the **APC** code for the Federal Accounting **appropriation** and **press Tab** to continue.
7. **State Accounting Code**: - If processing an **entitlement** that **requires** a **collection** of **State Withholding** taxes, **type** the **APC** code for the State Accounting **appropriation** and **press Tab** to continue.
8. After completing the required input fields, **click** on the **Generate** button. IATS automatically populates the accounting classification lines, if an **appropriation** matching the **APC Code** and **Fiscal Year**, was loaded into the **Accounting Table** in the **Maintenance** module. IATS will then display the **Manual Accounting** tab with the auto generated line(s) of accounting.

Army Accounting

Other... OK Cancel ? Help

Enter APC, MDC, or Job Order code

9. If any **changes** to the displayed accounting line(s) need to be made, **click** in the desired field and **type** the appropriate change.
10. When **satisfied** that the accounting line(s) are correct, **click** the **OK** button.

DLA Accounting

APC Code Validation

When the **Pre-validate Accounting** option is **activated** in the Maintenance module, the "**Financial**" tab will be in focus when the "**Settlement or Advance Request**" screen is displayed. The purpose for this is to **validate** that the **accounting appropriation** associated with the claim being processed is **loaded** into the **accounting table**.

 Use the following steps to "validate" the APC code using the Automatic Accounting screen:

Remit To	Adv/Accr'l	Entitlements	Calculations	Financial	Remarks
Method of Payment	EFT	Computed Split	\$0.00	<input type="checkbox"/> Release Obligation	
Due Traveler:	\$0.00	Split Payment:	\$0.00		
Db/Cr	Classification			Amount	
<Back		Next>		Modify Accounting	

1. To validate that the accounting appropriation associated with the claim being processed is loaded into the accounting table, first you would **click** on the **Modify Accounting** button. The **Automatic Accounting** screen appears next (depending on the customer type). For some customers, the **Manual Accounting** screen will appear.

Back Next Generate

Other... Auditor Remarks OK Cancel ? Help

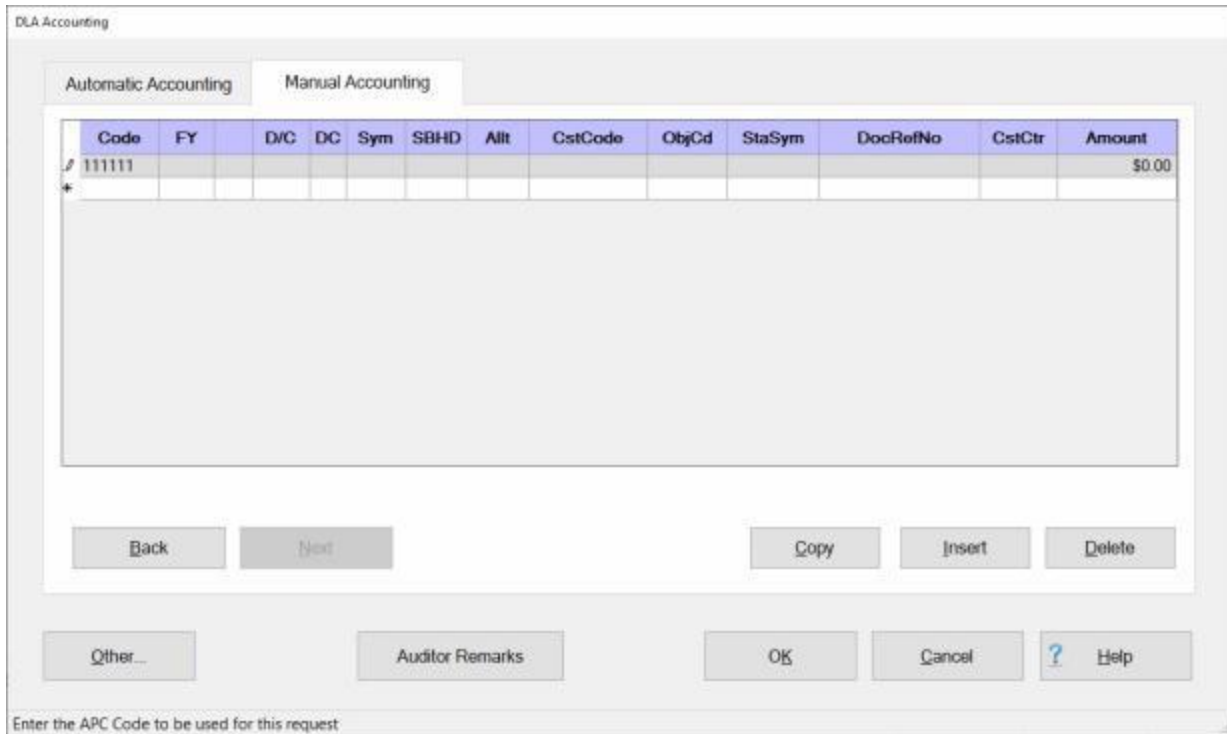

Enter the APC Code to be used for this request

2. On the **Automatic Accounting** screen, **enter** the **APC Code** for the accounting appropriation you wish to validate at the **APC Code** field.
3. **Click** on the **Generate** button. The following message will **appear** if the accounting appropriation for the APC Code you entered does not exist in the database.

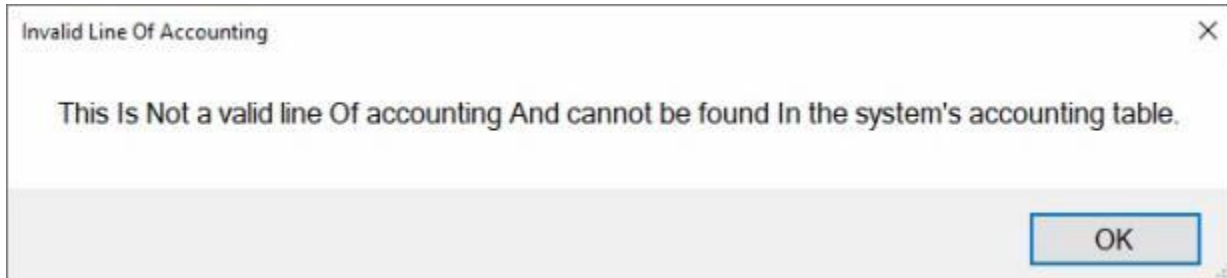

4. If this message appears, the accounting **appropriation** should be added to the **Accounting Classifications** table in **Maintenance** before you begin processing the claim.

 Use the following steps to "validate" the APC code using the Manual Accounting screen:

2. At the **APC Code** field, you would **type** the **APC Code** as shown in the accounting citation at on the travel orders attached to the claim and **press Tab**.
3. Continue entering all of the appropriate information into each of the remaining accounting fields.
4. After you have finished entering the CstCtr data, click on the OK button.
5. The following message will **appear** if the accounting appropriation for the APC Code you entered **does not exist** in the database.

6. If this message appears, the accounting **appropriation** should be added to the **Accounting Classifications** table in **Maintenance** before you begin processing the claim.
7. If the APC Code you entered is **loaded** into the accounting table, IATS will display the complete accounting appropriation on the **Manual Accounting** tab. The **Amount** field will display **zero**, however, since the **computation** has not been performed yet.

Enter APC, MDC, or Job Order Code

8. When you are **satisfied** that the accounting line is correct, **click** on the **OK** button and IATS will return to the **Financial** tab with the accounting line displayed.
9. **Click** on the **Entitlements** tab to continue processing the claim.

Tip: If the accounting appropriation must be added to the accounting table, you must **cancel** out of the claim, **exit** IATS, and then **re-start** the claim after the accounting appropriation has been **added** to the accounting table.

DLA-Automatic Accounting

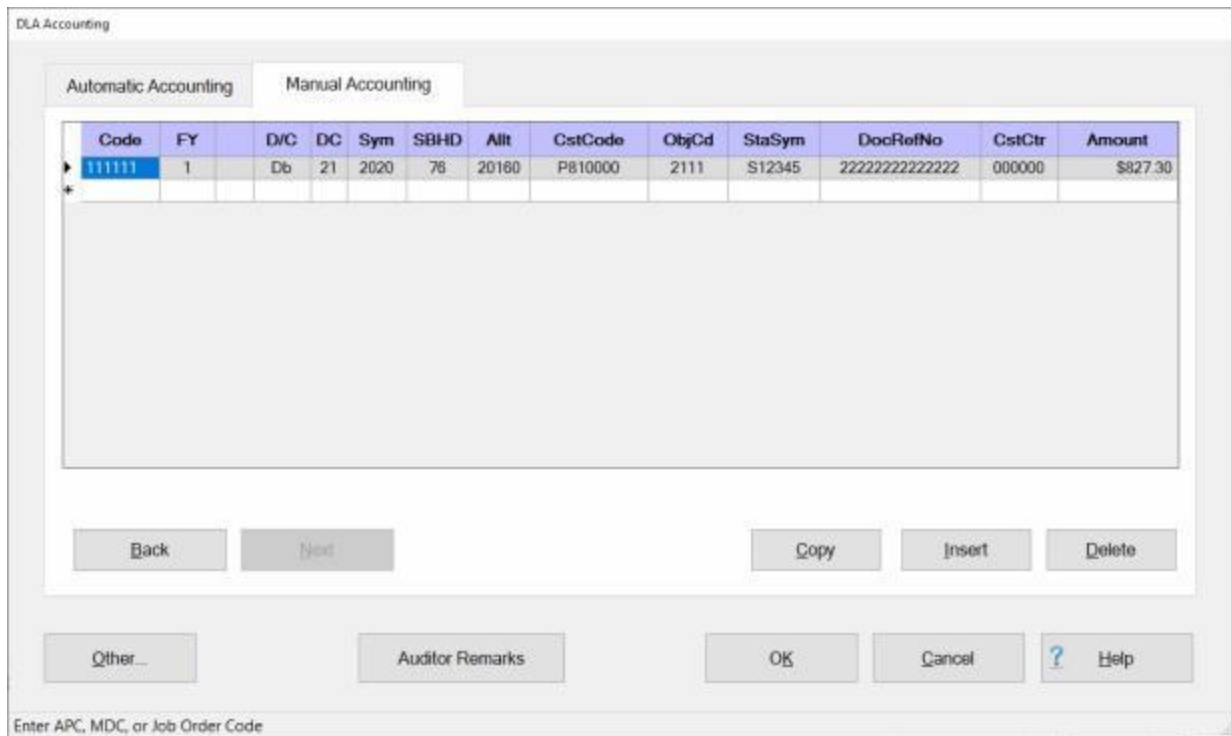

When the **DLA Accounting** screen appears, there are **two** possible **methods** for entering the accounting information; **Automatic** or **Manual**.

The screenshot shows the 'Automatic Accounting' tab selected. The form includes the following fields and controls:

- APC Code:** Text input field containing '111111'.
- MDC Code:** Text input field.
- Travel Indicator:** Dropdown menu.
- Multi-Year:** Checkable box.
- Document Reference Number:** Text input field.
- Federal Accounting Code:** Text input field.
- State Accounting Code:** Text input field.
- Navigation:** 'Back', 'Next', and 'Generate' buttons.

Use the following steps to "complete" the Automatic Accounting tab:

1. If the **Automatic Accounting** tab is not already in **focus**, **click** on this tab to **display** the input fields.
2. **APC Code:** - If processing a **TDY** Request for Settlement, **type** the **APC Code** associated with the travel order and then **press Tab**.
3. **MDC Code:** - If processing a **MILPCS** Request for Settlement, **type** the **MDC Code** associated with the travel order and then **press Tab**.
4. **Travel Indicator:** - Not used.
5. **Multi-Year:** - **Click** in the **box** at this field **if** using an accounting line that involves **fiscal year** indicator (**X**). Funds appropriated to fiscal year X. Otherwise, **press Tab** to continue.
6. **Document Reference Number:**- IATS Users **must manually** enter the Document Reference Number for **TDY** travel. **Click** in the **Document Reference Number** field and **enter** the desired number. **Press Tab** to continue.
7. **Federal Accounting Code:** - **If processing** an **entitlement** that **requires** a **collection** of **Federal Withholding** taxes, **type** the **APC** code for the Federal Accounting **appropriation** and **press Tab** to continue.
8. **State Accounting Code:** - **If processing** an **entitlement** that **requires** a **collection** of **State Withholding** taxes, **type** the **APC** code for the State Accounting **appropriation** and **press Tab** to continue.
9. After completing the required input fields, **click** on the **Generate** button. IATS automatically populates the accounting classification lines, **if** an **appropriation** matching the **APC Code** and **Fiscal Year**, was loaded into the **Accounting Table** in the **Maintenance** module.
10. After clicking on the **Generate** button as explained in step (9) above, the **Manual Accounting** tab appears **displaying** the **accounting** lines automatically generated by IATS.

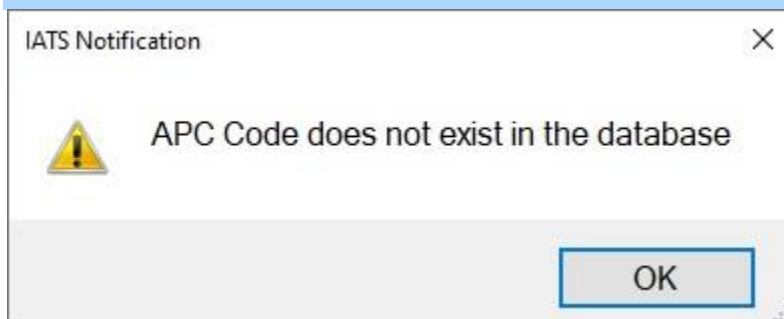

11. **Review** the accounting lines for **accuracy**. If **changes** are necessary, **click** in the appropriate field and **type** the required change.

Tip: For a **short-cut** when additional accounting lines are needed, **click** the **Copy** button. IATS will **automatically copy** the previous accounting line information to the fields in the following accounting line. The user can then make any minor **changes**; such as making the line a **debit** or **credit**. **Press Tab** through the **Amount** field until the correct amount is **populated** at the new line.

12. When **satisfied** that the accounting lines are correct, **click** the **OK** button.

Note: If the APC Code entered at the DLA Accounting Automatic screen is **invalid**, a pop-up message will appear after you click on **Generate**. You would **click** on **OK** to continue and ask your supervisor to have the accounting citation added to the accounting table.

Tip: If the accounting citation must be added to the accounting table, you must **cancel** out of the claim, **exit** IATS, and then **re-start** the claim after the accounting citation has been added to the accounting table.

DLA-Manual Accounting

When the **DLA Accounting** screen appears, there are **two** possible **methods** for entering the accounting information; **Automatic** or **Manual**.

Use the following steps to "complete" the Manual Accounting tab:

1. If the **Manual Accounting** tab is not already in **focus**, **click** on this tab to **display** the input fields.
2. **Code:** - At this field, **type** the **APC Code** associated with the travel order and then **press Tab**.
3. **Y:** - At the **Fiscal Year** field, a drop down listing of various fiscal years appears. If the **default** value that appears at this field is correct, **press Tab** to continue. **If not**, **click** on the **Up/Dn arrows** or **press** the **Up/Dn arrows** on the keyboard to display more choices. When the correct year is shown, **click** on the desired **year** to make a selection and then **press Tab** to continue.

Note: After pressing **Tab** at the **Year** field, IATS will automatically populate most of the remaining fields if the **APC Code** and **FY indicator** match an accounting appropriation loaded into the **Accounting** table in the **Maintenance** module.

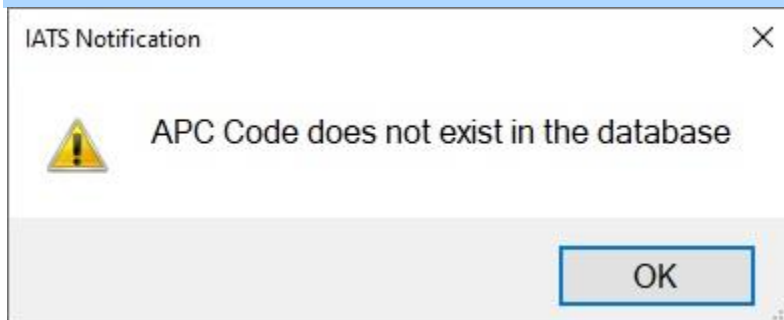

4. **D/C:** - At this field, a drop down listing appears displaying the choices debit (**Db**) or credit (**Cr**). **If** the **correct** choice is already displayed in this field, **press Tab** to continue. **If not**, **click** on the **correct** choice and **press Tab**.
5. **DC:** - If not already automatically populated, **type** the correct two digit **code** for the **Department Number** as shown on the travel order and **press Tab**.
6. **Symb:** - If not already automatically populated, **type** the correct four digit **code** for the **Basic Symbol Number** as shown on the travel order and **press Tab**.
7. **OA:** - If not already automatically populated, **type** the correct two digit **code** for the **Operating Agency** as shown on the travel order and **press Tab**.
8. **Allt:** - If not already automatically populated, **type** the correct four digit **code** for the **Allotment Serial Code** as shown on the travel order and **press Tab**.

9. **ArmyMgmtStr:** - If not already automatically populated, **type** the correct **code** for the **Army Management Structure Program Code** as shown on the travel order and **press Tab**.
10. **EOE:** At this field, a drop down listing appears displaying various choices for **Element of Expenses Codes** loaded into the **EOE** table in the **Maintenance** module. If the **default** value appearing at this field is correct, **press Tab** to continue. If not, **click** on the **Up/Dn arrows** or **press** the **Up/Dn arrows** on the keyboard to display more choices. When the correct code is shown, **click** on the desired code to make a selection and then **press Tab** to continue.
11. **StaSym:** - If not already automatically populated, **type** the correct six digit **code** for the **Fiscal Station ID Code** as shown on the travel order and **press Tab**.
12. **DocRefNumber:** - IATS Users must **manually** enter the Document Reference Number for **TDY** travel. **Click** in the **Document Reference Number** field and **enter** the desired number. **Press Tab** to continue.
13. **CstCtr:** - If not already automatically populated, **type** the correct six digit **code** for the **Cost Center Code** as shown on the travel order and **press Tab**.
14. **Amount:** - IATS automatically **populates** this field with the **total dollar amount** for the **debits** or **credits** depending on the code entered at the **D/C** field. If the correct amount is displayed, press **Tab**.
15. **Repeat** steps **2-14** above to **additional** accounting lines if necessary.

Tip: For a **short-cut** when additional accounting lines are needed, **click** the **Copy** button. IATS will automatically **copy** the previous accounting line information to the fields in the following accounting line. The user can then make any minor **changes**; such as making the line a **debit** or **credit**. **Press Tab** through the **Amount** field until the correct amount is **populated** at the new line.

16. When **finished** adding the required accounting lines, **click** the **OK** button.

Note: If the APC Code entered at the Manual DLA Accounting screen is invalid, a pop-up message will appear after you click on **OK**. You would **click** on **OK** to continue and ask your supervisor to have the accounting citation added to the accounting table.

Tip: If the accounting citation must be added to the accounting table, you must **cancel** out of the claim, **exit** IATS, and then **re-start** the claim after the accounting citation has been added to the accounting table.

Marines Accounting

Completing the Marines Accounting Screen

When the **Marines Accounting** screen appears, **Manual Accounting** is only one **method** for entering the accounting information.

Code	Yr	ACRN	DP	TC	APPR	SBHD	OC	BCN	SA	AAA	TTC	D/C	PAA	CTRY	CostCode	Amount	SDN
111111	1	AA	17		1105	2789	0000	67845	0	556666	2D	D	222222	US	000111881111	\$1,014.24	1111111111111111

 Use the following steps to "complete" the Manual Accounting tab:

1. If the **Manual Accounting** tab is not already in **focus**, **click** on this tab to **display** the input fields.
2. **Code:** - At this field, **type** the **Accounting Code** associated with the travel order and then **press Tab**.

Note: After entering the **APC** and **pressing Tab**, the following accounting **fields** are automatically populated if the **APC** entered **matches** an **appropriation** loaded into the **Marine Accounting Classifications** table: (**DP**, **APPR**, **SBHD**, **BCN**, **SA**, and **AAA**).

3. **FY:** - At the **Fiscal Year** field, a drop down listing of various fiscal years appears. If the **default** value that appears at this field is correct, **press Tab** to continue. If not, **click** on the *Up/Dn arrows* or **press** the *Up/Dn arrows* on the keyboard to display more choices. When the correct year is shown, **click** on the desired **year** to make a selection and then **press Tab** to continue.
4. **ACRN:** - At this field, **type** the **Accounting Classification Reference Number** associated with the travel order and then **press Tab**.
5. **DP:** - If not already automatically populated, **type** the correct two digit **code** for the **Department** code as shown on the travel order and **press Tab**.
6. **TC:** - If applicable, **type** the **Transfer Department** code as shown on the travel order and **press Tab**.

Note: After pressing **Tab** at the **TC** field, IATS will automatically populate most of the remaining fields if the **APC Code** and **FY indicator** match an accounting appropriation loaded into the **Accounting** table in the **Maintenance** module.

7. **OC:** - At this field, **type** the **Object Class** code as shown on the travel order and **press Tab**. Following is a list of commonly used Object Class codes and their purpose:
 - **0021:** - Travel

- **0012:** - DLA
 - **0022:** - DITY
 - **0011:** - Checkages and Taxes
8. **TTC:** - At this field, a drop down listing appears displaying the **Transaction Type** codes **2D, 1K, 2E,** and **2F**. If the correct choice is already displayed in this field, press Tab to continue. If not, click on the correct choice and press Tab.
 9. **Debit/Credit:** - At this field always select (**D**) when entering the accounting line for a positive amount, such as, the calculated amount of the entitlement(s). Always select (**C**) when the accounting line represents a collection of an advance, off-setting of a previously paid entitlement, or when reporting withholding taxes. **Leave this field blank** if the **TTC** is (**2I**).
 10. **PAA:** - At this field, **type the Property Accounting Activity** code as shown on the travel order and **press Tab**.
 11. **CTRY:** - The **Country** code, **US**, defaults to this field when the travel was **performed within CONUS**. In addition, a **drop down listing of Country** codes appears. If the correct code is not displayed at this field, **type the correct two letter code** or **click on the Up/Dn arrow buttons to scroll** through the list until the desired country name is highlighted. When the correct country name is highlighted, **click on the item** or **press Tab** to make a selection.
 12. **Cost Code:** - At this field, **type the Cost Code** as shown on the travel order and **press Tab**.
 13. **Amount:** - IATS automatically populates this field with the **total dollar amount** for the **debits** or **credits** depending on the code entered at the **D/C** field. If the correct amount is displayed, press **Tab**.
 14. **SDN:** - At this field, **type the SDN** as shown on the travel order and **press Tab**.

Note: For **PCS** travel, only the amount for the first accounting line is automatically populated. Users must **manually enter the amount for each additional PCS accounting line** added.

14. **Repeat** steps **2-12** above to **additional** accounting lines if necessary.

Tip: For a **short-cut** when additional accounting lines are needed, **click the Copy** button. IATS will automatically copy the previous accounting line information to the fields in the following accounting line. The user can then make any minor **changes**; such as making the line a **debit** or **credit**. **Press Tab** through the **Amount** field until the correct amount is **populated** at the new line.

15. When **finished** adding the required accounting lines, **click the OK** button.

Click on the **See Also** button below for additional **Help** topics pertaining to Marine Corps **accounting**.

Marines Advance Accounting

When processing an advance, the TTC code **1K** indicates a travel **advance**. When **issuing** the advance payment, the **1K** is a **debit**.

When **collecting** an **advance** on a settlement computation, however, the **1K** line is a **credit**.

The following **example** represents the correct **accounting** input for **issuing** a travel **advance**:

APC	FY	ACRN	DP	TC	APPR	SBHD	OC	BCN	SA	AAA	TTC	D/C	PAA	CTRY	Cost Code	Amount	SDN
111111	2	22	17		1105	2789	3333	67845	0	556666	1K	D	000000	US	000111881111	\$1,000.00	2222222222222222

Note: For **DITY** and **Separation** advances, use a **(2D)** Type Code. For **Retirement** advances, use a **(1K)** Type Code.

Click on the **See Also** button below for additional **Help** topics pertaining to Marine Corps **accounting**.

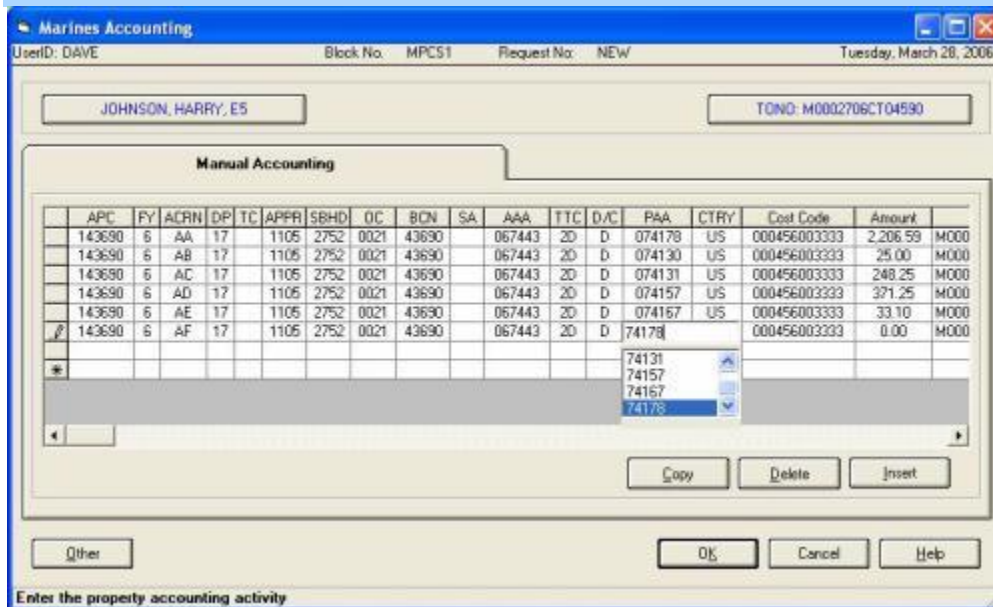

Marines MILPCS Accounting

When processing **MILPCS** travel settlements, the Line of Accounting (LOA) should appear automatically if the travel order was **obligated** in and **downloaded** from the accounting system. If the LOA is not present, then the first required input at the Marine's Accounting screen is the APC. **Click** in the **Code** field, **type** the applicable **Accounting Code** and **press Tab** to continue.

An example of **APC's** for active duty **MILPCS** travel settlements are listed below:

- **141690**: - Accession Travel
- **142690**: - Training Travel
- **143690**: - Operational Travel (Within CONUS)
- **144690**: - Rotational Travel (OCONUS)
- **145690**: - Separation Travel

Note: Beginning with (FY 09) and beyond, there is only one **APC/LOA** associated with active duty **MILPCS - APC 141690** (17*1105.2750 41690 067443).

When entering the **PAA** and **Cost Code** for **MILPCS** travel settlements, the following applies:

- For appropriation **1105** type (or select from the drop down list) the applicable **FAN** in the first five (5) **positions** of the **PAA** field. The system will **generate** one (1) **zero** preceding the **FAN** for appropriation **1105**. The **Cost Code** will display with the appropriate default system-generated value.
- If using appropriation **1108**, enter all zeros in the **PAA** field. then, select the appropriate **FAN** from the drop down list in the **Cost Code** field. IATS displays the **Reserve Pay Group** code in the first three (3) **positions** of the **cost code** field. IATS will then **populate** positions **four through seven** of the **cost code** field with four (4) **zeros**, followed by the **FAN**.

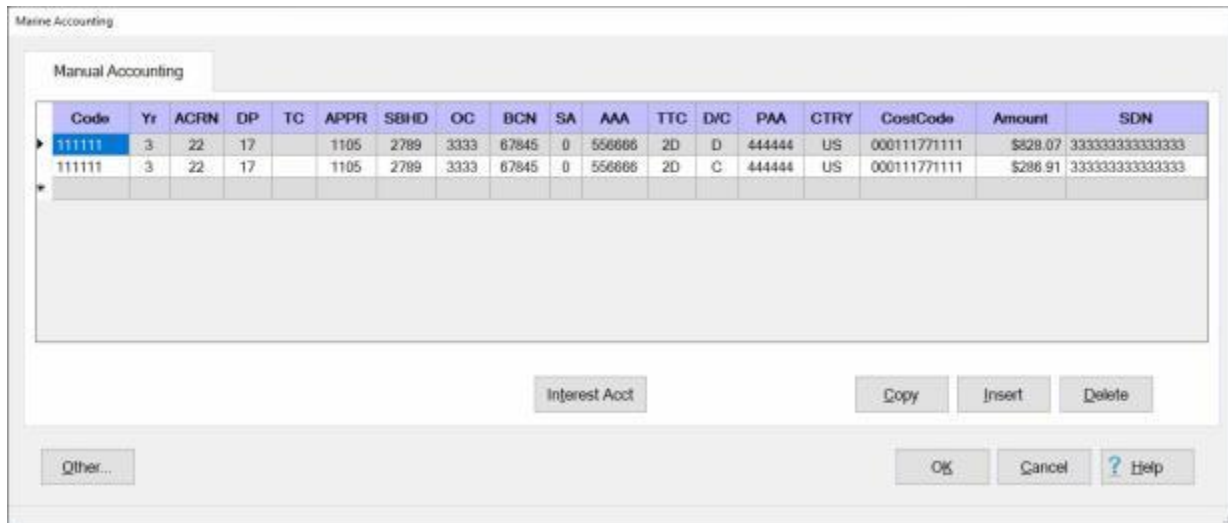

Click on the **See Also** button below for additional **Help** topics pertaining to Marine Corps **accounting**.

Marines CIVPCS Accounting

When processing **CIVPCS** travel settlements, the first required **input** at the **Marines Accounting** screen is the Accounting Code. **Click** in the **Code** field, **type** the applicable Accounting Code and **press Tab** to continue.

If the accounting **appropriation** for the accounting code entered exists in the IATS database, most of the fields of the accounting will be automatically populated as you **Tab** through each field.

You may need to refer to the travel order and manually populate some of the accounting fields.

When entering the accounting lines, the following rules apply for **CIVPCS** travel:

- One or more (2D) **debit** lines are required for the **entitlements**.
- A (1K) **credit** line is required for the collection of the **advance**.
- One or more (2D) **credit** lines are required for the collection of the **withholding taxes**.

Click on the **See Also** button below for additional **Help** topics pertaining to Marine Corps **accounting**.

Marines SFIS - SLOA Accounting

Since the Marine Corps will be **transitioning** to a Standard Financial Information Structure (**SFIS**) / Standard Line of Accounting (**SLOA**) system, IATS has been **modified** to **implement** this event.

When the **Inbound/Outbound Interface** options for Marine Corps customers in the IATS **Maintenance Module** are **set** to **with SLOA**, IATS will **display both** a **Legacy Accounting** line and a **SFIS/SLOA Accounting Line** on the **Marine Accounting** screen.

Inbound and Outbound Interfaces

Disbursing Interface: ADS [v] with SLOA [v]

1000 Char Remarks

Payroll Interface Active

with SLOA [v]
w/o SLOA
with SLOA [v]

Note: In the example image below, **both Legacy** and **SFIS/SLOA** accounting fields are **displayed** since the **with SLOA** option was **selected** in **Maintenance**. Users have the option to use **either or both** the Legacy or SFIS/SLOA lines depending on the funding scenario. **Note that neither** accounting line is **dependent** upon another **except** that they **must balance** with the **voucher total**. IATS will **automatically adjust one line or the other** when **both types** are **used** so that the **combination of both lines balance** with the voucher total.

38. **Click** on the desired **code** to make your selection.
39. **Db/Cr:** - At this field, a *drop down menu* appears displaying the **codes** for **debit** or **credit** as shown below.

CTRY	Db/Cr	Amount
US	Db ▼	\$650.50
	Db	
	Cr	

40. Always select (**Db**) when entering the accounting line for a positive amount, such as, the calculated amount of the entitlement(s). Always select (**Cr**) when the accounting line represents a **collection** of an advance, off-setting of a previously paid entitlement, or when withholding taxes.

41. **Amount:** - IATS automatically populates this field with the **total dollar amount** for the **debits** or **credits** depending on the code entered at the **Db/Cr** field. In addition, a *pop-up window* is **displayed** that **breaks out** the **expense elements** as shown below.

SFIS/SLOA Accounting

Element of Expense	2022
▶ Memb/Emp TDY Per Diem	\$610.50
Memb/Emp Reimbursables	\$40.00
Total By FY	\$650.50

42. If applicable, use the information shown in the Element of Expense pop-up window to **create additional accounting lines** to **allocate** the **amounts** in accordance with the funding scenario.
43. When you are **satisfied** with your accounting line entries, **click** on the **OK** button.

Marines Miscellaneous Accounting

The following examples represent some unique accounting situations that require special emphasis:

Line of Accounting (LOA) Downloaded from Accounting System

IATS will not allow you to **change** or **edit** any element of an LOA that has been **downloaded** from the accounting system. This includes all of the Treasury-level elements (FY, DP, APPR, SBHD, BCN, SA, and AAA). IATS will only let you **navigate** through the fields that you are allowed to enter/edit. This **prevents** users from **manipulating** a good LOA that has been **obligated** in the accounting system, which would cause a problem disbursement if allowed.

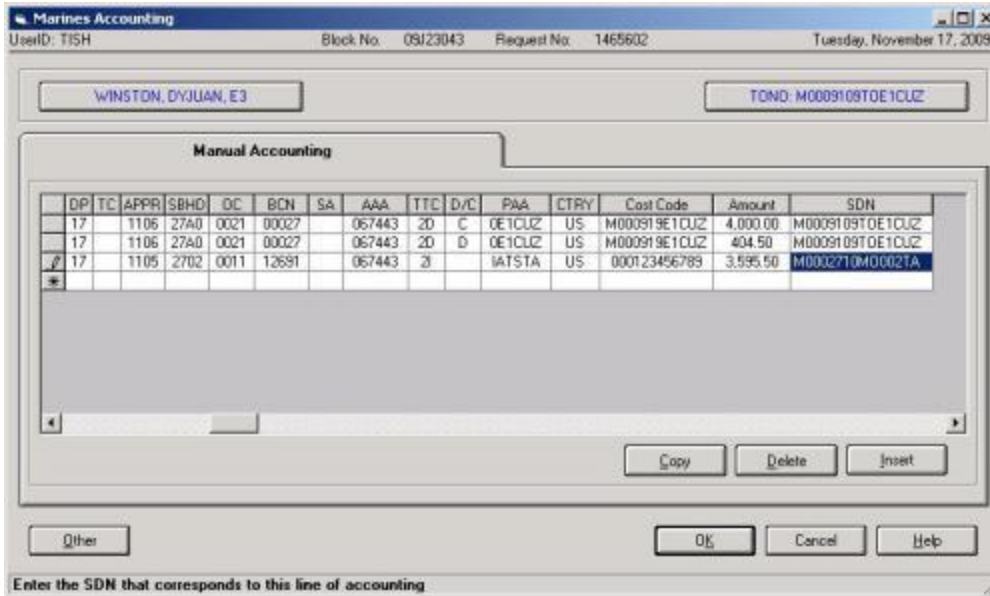

APC	FY	ACRN	DP	TC	APPR	SBHD	OC	BCN	SA	AAA	TTC	D/C	PAA	CTRY	Cost Code	Amount
110309	9	AA	17		1106	27A0	20133			067443	20		0T:HFHL		M201799T:HFHL	

Checkage Accounting

The code **2I** is used to **offset** the **overpayment** when the settlement computation results in an amount **Due US**. This applies to **Marine Corps member travel only**.

The **2I** line creates a **checkage** to the member's pay account. To **ensure** a checkage is generated, **verify** that the valid Marine Corps active duty (1105.2701, or 1105.2702), and/or reserve (1108) military pay **appropriation** is entered.

IATS will automatically populate the **SDN** field for the **2I** checkage LOA for active duty members, based on the APC entered.

If you attempt to edit this system-generated **SDN** in any manner, you will get the error message below. IATS has been programmed to auto-populate the correct **SDN**. As a result, do **NOT** change the **SDN** unless there has been a policy change, which has not yet been programmed in IATS.

DITY Advance Accounting

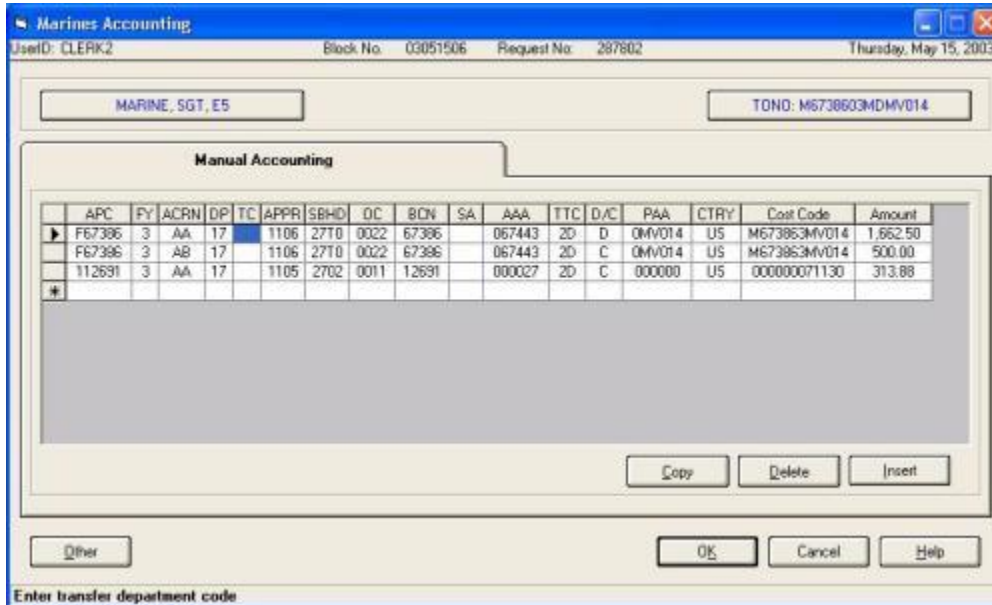

When entering the accounting line for a **DITY advance**, (both **Local** and **PCS**), use 0022 for the **Object Class** and 2D for **Transaction Type Code**.

Local DITY Settlement Accounting

When entering the accounting lines for a **Local DITY Settlement**, the following rules apply:

- Use 0022 for the **Object Class** for the entitlement and advance lines
- Use 2D for **Transaction Type Code** for all of the accounting lines
- Use 0011 for the **Object Class** for the tax line

Note: Do not process PCS DITY Settlements at the **local travel office**. Send them to **TVCB Albany, GA**.

Travel Settlement with a 2D Credit and 1K Credit

Due to a system limitation with IATS, specifically with Marine Corps accounting, you are not able to process both a 2D Credit and a 1K Credit on the same travel settlement. In those cases where both a 2D and 1K Credit LOA are required, the settlement will have to be split up into two different claims. For example, you could deduct the travel advance (1K Credit) on one travel settlement and then run the 2D Credit on the second settlement. This may result in a DUE US on each travel settlement, which is not a problem. Both pay checkages will process properly in MCTFS.

Click on the **See Also** button below for additional **Help** topics pertaining to Marine Corps **accounting**.

Navy Accounting

CMET Validation - TDY

When IATS is configured for **Navy** customers, the "**Financial**" tab will be in focus when the "**Settlement Request**" screen is displayed. The purpose for this is to **validate** that the **accounting appropriation** associated with the claim being processed is **loaded** into the **accounting table** (CMET).

This table is located in the IATS Maintenance module.

 Use the following steps to "complete" CMET Validation process for a TDY claim:

Db/Cr	Classification	Amount

1. To validate that the accounting appropriation associated with the claim being processed is loaded into the CMET table, first you would **click** on the **Modify Accounting** button. The **Navy Accounting** screen appears next.

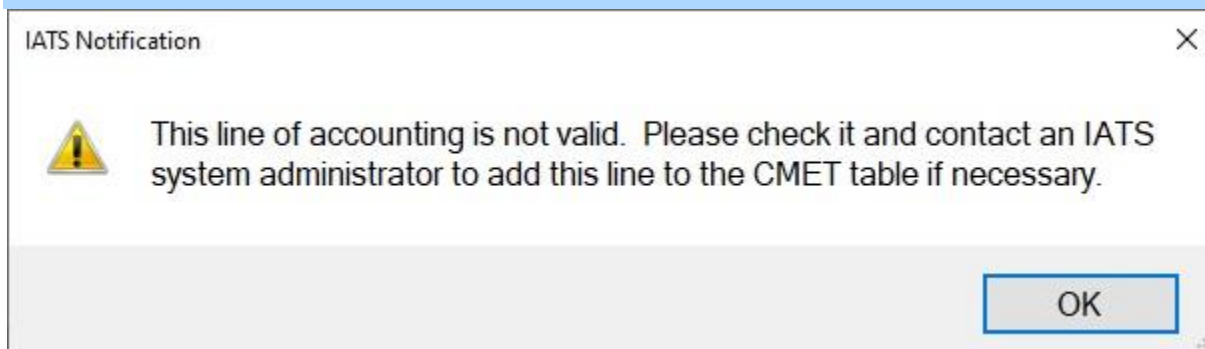

BCN	SbHd	AAA	ACRN	GA	Y	Appr	O/C	SA	TT	PAA/Tn	Cost Code	Am
11111	2222	333333	AA	17	1	4444	000	5	2D	666666	7777777777	

2. At the **BCN** field, you would type the Bureau Control Number (**BCN**) as shown in the accounting citation at **block 22** on the **DD Form 1614** attached to the claim and **press Tab**.

3. After entering the BCN and pressing "Tab" the "SbHd", "AAA", "GA", "Appr", and "SA" fields will be populated if a matching BCN is found in the CMET table. **Press** the *Tab* key until you arrive at the **ACRN** field.
4. **ACRN:** - At this field, **type** the correct **Accounting Classification Reference Number** associated with the travel order and then **press Tab**.
5. **GA:** - If not already automatically populated, **type** the correct two digit code for the **Gaining Agency** as shown on the travel order and **press Tab**.
6. **Y:** - At the **Fiscal Year** field, a drop down listing of various fiscal years appears. If the **default** value that appears at this field is correct, **press Tab** to continue. If not, **click** on the on the desired **year** to make a selection and then **press Tab** to continue.
7. **Appr:** - If the **BCN** entered **matches** an **appropriation** loaded into the **CMET** table in the **Maintenance** module, IATS automatically populates this field. If not, **type** the **APPR** code associated with the travel order and then **press Tab**.
8. **O/C:** - Three zeros default to this field. If this is correct **press Tab**. If not, **type** the correct **Object Class** code as shown on the travel order and **press Tab**.
9. **SA:** - If the default number is correct **press Tab**. If not, **type** the correct **Sub Allotment** code as shown on the travel order and **press Tab**.
10. **TT:** - The **Transaction Type** code **2D** defaults to this field. **Press Tab** to continue.
11. **PAA/Tn:** - At this field, **type** the **Property Accounting Activity** code as shown on the travel order and **press Tab**.
12. **Cost Code:** - At this field, **type** the **Cost Code** as shown on the travel order and **press Tab**.
13. **Amount:** - At the Amount field, the default value is 0.00 **press Tab** to continue.
14. After pressing *Tab* at the Amount field, IATS returns to the **BCN** field on the next accounting line. **Click** on **OK** to validate that the accounting citation exists in the CMET table.

Note: If the accounting citation entered at the Navy Accounting screen is invalid, a pop-up message will appear after you click on OK. The message will advise you to contact your **system administrator** to have the accounting citation added to the CMET table if necessary. You would click **OK** to continue.

Tip: If the accounting citation must be added to the CMET table, you must **cancel** out of the claim, **exit** IATS, and then **re-start** the claim after the accounting citation has been added to the CMET table.

15. If the accounting citation entered at the Navy Accounting screen is valid, IATS will return to the **Financial** tab after you click on OK.

IATS 8.7.1 User Guide

Remit To	Adv/Acrl	Entitlements	Calculations	Financial	Remarks
Method of Payment	EFT	Computed Split	\$0.00		<input type="checkbox"/> Release Obligation
Due Traveler:	\$0.00	Split Payment:	\$0.00		
Db/Cr		Classification			Amount
Db		AA 17 1 4444 2222 000 11111 5 333333 2D 666666 777777777777			\$0.00
<Back		Next>		Modify Accounting	

16. **Click on the Remit To** tab to continue processing the claim.

Navy TDY Accounting

When the **Navy Accounting** screen appears, **Manual Accounting** is the only **method** for entering the accounting information for **TDY** and **CIVPCS** travel.

BCN	SbHd	AAA	ACRN	GA	Y	Appr	O/C	SA	TT	PAA/Tn	Cost Code	Am
11111	2222	3	AA	17	1	4444	000	5	2D	666666	7777777777	
11111	2222	3	AA	17	1	4444	000	5	1K	666666	7777777777	

Use the following steps to "complete" the Manual Accounting tab for TDY travel:

1. If the **Manual Accounting** tab is not already in **focus**, **click** on this tab to **display** the input fields.
2. **BCN:** - At this field, **type** the **Bureau Control Number** code associated with the travel order and then **press Tab**.

Note: After pressing **Tab** at the **BCN** field, IATS will automatically populate most of the remaining fields if the **BCN Code** matches an accounting appropriation loaded into the **CMET** table in the **Maintenance** module.

3. **SbHd:** - If the **BCN** entered **matches** an **appropriation** loaded into the **CMET** table in the **Maintenance** module, IATS automatically **populates** this field. If not, **type** the **SubHead** code associated with the travel order and then **press Tab**.
4. **AAA:** - If the **BCN** entered **matches** an **appropriation** loaded into the **CMET** table in the **Maintenance** module, IATS automatically **populates** this field. If not, **type** the **AAA** code associated with the travel order and then **press Tab**.
5. **ACRN:** - The letters **AA** default to this field. If this is correct **press Tab**. If not, **type** the correct **Accounting Classification Reference Number** associated with the travel order and then **press Tab**.
6. **GA:** - If not already automatically populated, **type** the correct two digit **code** for the **Gaining Agency** as shown on the travel order and **press Tab**.
7. **Y:** - At the **Fiscal Year** field, a drop down listing of various fiscal years appears. If the **default** value that appears at this field is correct, **press Tab** to continue. If not, **click** on the **Up/Dn arrows** or **press** the **Up/Dn arrows** on the keyboard to display more choices. When the correct year is shown, **click** on the desired **year** to make a selection and then **press Tab** to continue.
8. **Appr:** - If the **BCN** entered **matches** an **appropriation** loaded into the **CMET** table in the **Maintenance** module, IATS automatically **populates** this field. If not, **type** the **APPR** code associated with the travel order and then **press Tab**.

9. **O/C:** - Three zeros default to this field. If this is correct press Enter. If not, type the correct **Object Class** code as shown on the travel order and **press Tab**.
10. **SA:** - The number zero defaults to this field. If this is correct press Tab. If not, type the correct **Sub Allotment** code as shown on the travel order and **press Tab**.
11. **TT:** - The **Transaction Type** code 2D defaults to this field. If this is correct press Tab to continue. If not, type the correct TT code, as shown on the travel order, and **press Tab**.
12. **PAA/Tn:** - At this field, **type** the **Property Accounting Activity** code, as shown on the travel order, and **press Tab**.
13. **Cost Code:** - At this field, **type** the **Cost Code** as shown on the travel order and **press Tab**.
14. **Amount:** - IATS automatically populates this field with the **total dollar amount** for the **debits** or **credits** depending on the code entered at the **D/C** field. If the correct amount is displayed, press Tab.
15. **Repeat** steps **2-14** above to **additional** accounting lines if necessary.

Tip: For a **short-cut** when additional accounting lines are needed, **click** the **Copy** button. IATS will automatically copy the previous accounting line information to the fields in the following accounting line. The user can then make any minor **changes**; such as making the line a **debit** or **credit**. **Press Tab** through the **Amount** field until the correct amount is **populated** at the new line.

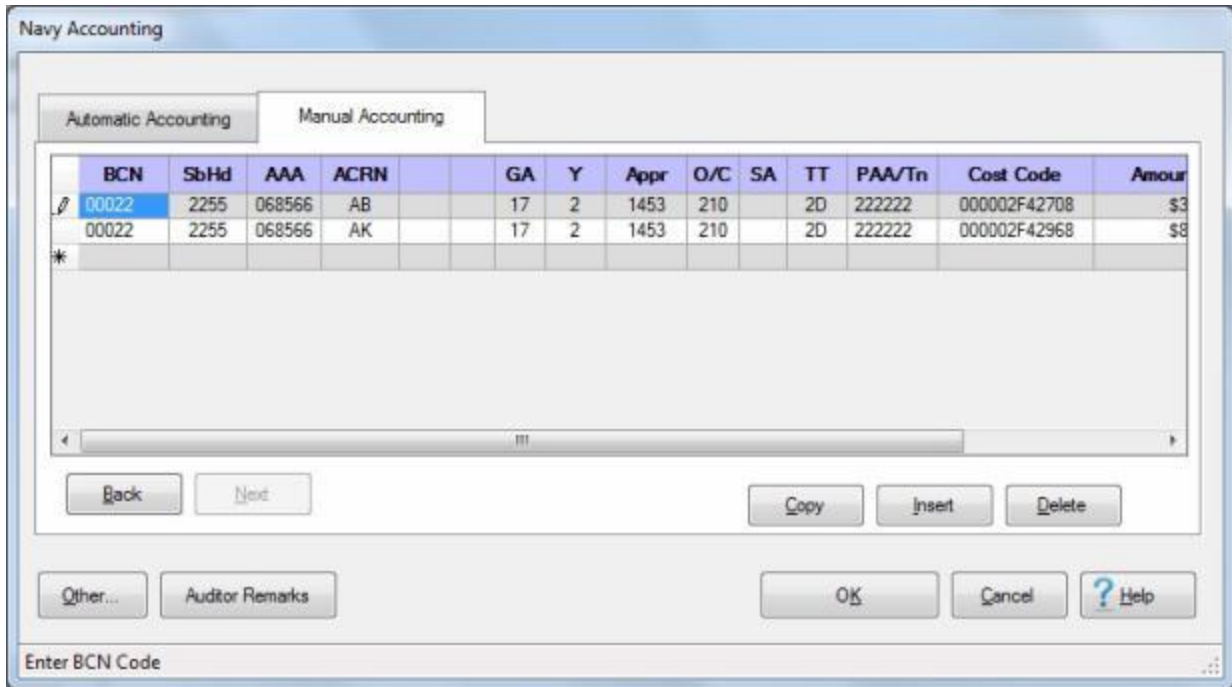

16. When **finished** adding the required accounting lines, **click** the **OK** button.

Navy MILPCS Accounting

When the **Navy Accounting** screen appears, **Automatic Accounting** is an optional **method** for entering the accounting information for **MILPCS** travel.

 Use the following steps to "complete" the Automatic Accounting tab for MILPCS travel:

1. If the **Automatic Accounting** tab is not already in **focus**, **click** on this tab to **display** the input fields.
2. **Appropriation:** - **Click** on the *down arrow* button to **display** the appropriation **options** and then **click** on **1453** or **1405**.
3. **UIC:** - **Click** in the **UIC** field and **enter** the appropriate UIC number.
4. After populating the required fields, **click** on the **Generate** button. IATS **displays** the completed accounting **line(s)** at the **Manual Accounting** tab.

- At the **Manual Accounting** tab, **make** any necessary **changes** and then **click** on the **OK** button to **save** the accounting **line(s)**.

Navy CIVPCS Accounting

When the **Navy Accounting** screen appears, **Manual Accounting** is the only method for entering the accounting information for **TDY** and **CIVPCS** travel.

BCN	SbHd	AAA	ACRN	Db	Tx	GA	Y	Appr	O/C	SA	TT	PAW/Tn	Cost Code	Am
11111	2222	333333	44	Db		17	1	5555	000	6	2D	777777	888888888888	
11111	2222	333333	44	Cr		17	1	5555	000	6	2D	777777	888888888888	

Use the following steps to "complete" the Manual Accounting tab for CIVPCS travel:

1. If the **Manual Accounting** tab is not already in **focus**, **click** on this tab to **display** the input fields.
2. **BCN:** - At this field, **type** the **Bureau Control Number** code associated with the travel order and then **press Tab**.

Note: - After pressing *Enter* at the **BCN** field, IATS will automatically populate most of the remaining fields if the **BCN Code** matches an accounting appropriation loaded into the **CMET** table in the **Maintenance** module.

3. **SbHd:** - If the **BCN** entered **matches** an **appropriation** loaded into the **CMET** table in the **Maintenance** module, IATS automatically **populates** this field. If not, **type** the **SubHead** code associated with the travel order and then **press Tab**.
4. **AAA:** - If the **BCN** entered **matches** an **appropriation** loaded into the **CMET** table in the **Maintenance** module, IATS automatically **populates** this field. If not, **type** the **AAA** code associated with the travel order and then **press Tab**.
5. **ACRN:** - At this field, **type** the correct **Accounting Classification Reference Number** associated with the travel order and then **press Tab**.
6. **Db:** - At this field, a *drop down listing* appears displaying **Db** (debit) and **Cr** (credit). **Determine** what **type** of accounting line is needed and then **click** on the desired choice. A selection can also be made by simply typing **D** or **C** and then **pressing Tab**.
7. **Tx:** - At this field, **type one** of the following **codes** if the accounting line is to **report** the **withholding of taxes**. If not leave this line **blank** and **press Tab** to continue:
 - (S) if the accounting line is for reporting the withholding for **FICA** taxes
 - (M) if the accounting line is for reporting the withholding for **Medicare** taxes
 - (F) if the accounting line is for reporting the withholding for **Federal** taxes
 - (A) if the accounting line is for reporting the withholding for the **Agency's** portion

8. **GA:** - If not already automatically populated, **type** the correct two digit code for the **Gaining Agency** as shown on the travel order and **press Tab**.
9. **Y:** - At the **Fiscal Year** field, a drop down listing of various fiscal years appears. If the **default** value that appears at this field is correct, **press Tab** to continue. If not, **click** on the *Up/Dn arrows* or **press** the *Up/Dn arrows* on the keyboard to display more choices. When the correct year is shown, **click** on the desired **year** to make a selection and then **press Tab** to continue.
10. **Appr:** - If the **BCN** entered **matches** an **appropriation** loaded into the **CMET** table in the **Maintenance** module, IATS automatically populates this field. If not, **type** the **APPR** code associated with the travel order and then **press Tab**.
11. **O/C:** - Three zeros default to this field. If this is correct **press Tab**. If not, **type** the correct **Object Class** code as shown on the travel order and **press Tab**.
12. **SA:** - The number zero defaults to this field. If this is correct **press Tab**. If not, **type** the correct **Sub Allotment** code as shown on the travel order and **press Tab**.
13. **TT:** - The **Transaction Type** code **2D** defaults to this field. If this is correct **press Tab** to continue. If not, **type** the correct TT code and **press Tab**.
14. **PAA/Tn:** - At this field, **type** the **Property Accounting Activity** code as shown on the travel order and **press Tab**.
15. **Cost Code:** - At this field, **type** the **Cost Code** as shown on the travel order and **press Tab**.
16. **Amount:** - At this field, a **window** appears **displaying** a breakdown of the **entitlements** and **deductions**. Determine what is being **reported** on this line and then **type** the **amount associated** to the accounting **line**.

Note: When the first credit line is entered, IATS will automatically populate the **Amount** field with the **total** of all of the **credits**. As additional credit **lines** are **added** and the **amounts** for those lines are **entered**, IATS will automatically reduce the **amount** that **defaulted** to the first credit line entered. In addition, if the traveler **received** an **advance**, it is highly recommended that the advance (**1K**) line of accounting be the first credit line following the last debit line. This will **assist** in proper tax reporting.

17. **Repeat** steps **2-16** above for **additional** accounting lines if necessary.

Tip: For a **short-cut** when additional accounting lines are needed, **click** the **Copy** button. IATS will automatically copy the previous accounting line information to the fields in the following accounting line. The user can then make any minor **changes**; such as making the line a **debit** or **credit**. **Press Tab** through the **Amount** field until the correct amount is **populated** at the new line.

18. When **finished** adding the required accounting lines, **click** the **OK** button.

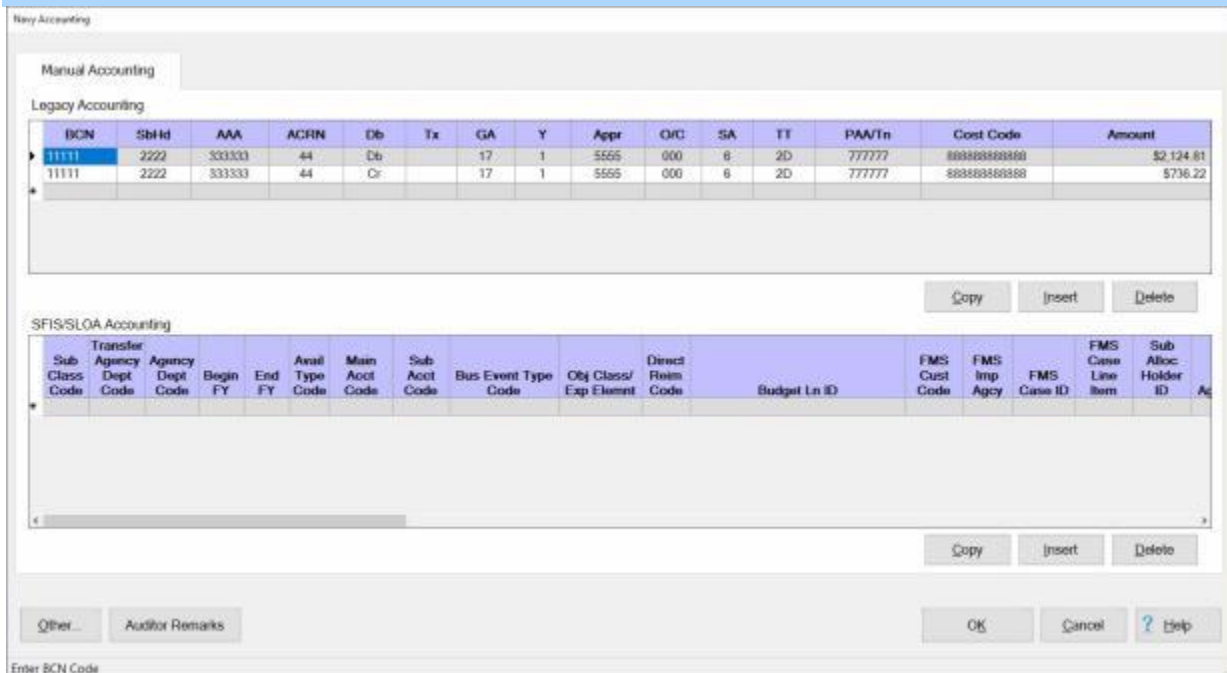

Navy SFIS - SLOA Accounting

Since the Navy will be **transitioning** to a Standard Financial Information Structure (**SFIS**) / Standard Line of Accounting (**SLOA**) system, IATS has been **modified** to **implement** this event.

When the **Inbound/Outbound Interface** options for Navy customers in the IATS **Maintenance Module** are **set to with SLOA**, IATS will **display both** a **Legacy** Accounting line and a **SFIS/SLOA** Accounting Line on the **Navy Accounting** screen.

Note: In the example image below, **both Legacy** and **SFIS/SLOA** accounting fields are **displayed** since the **with SLOA** option was **selected** in **Maintenance**. Users have the option to use **either or both** the Legacy or SFIS/SLOA lines depending on the funding scenario. **Note that neither** accounting line is **dependent** upon another **except** that they **must balance** with the **voucher total**. IATS will **automatically adjust one line or the other** when **both types** are **used** so that the **combination of both lines balance** with the voucher total.

Use the following steps to "complete" the SFIS/SLOA Accounting line:

SFIS/SLOA Accounting

Sub Class Code	Agency Dept Code	Agency Dept Code	Begin FY	End FY	Avail Type Code	Main Acct Code	Sub Acct Code	Bus Event Type Code	Obj Class/Exp Elemnt	Direct Reim Code	Budget Ln ID	FMS Cust Code	FMS Imp Agcy	FMS Case ID	FMS Case Line Item	Sub Alloc Holder ID
BC	017	ABC	2022	2023	T	ABCD	EFG	HUKLMNO	67845	D	1234567812345678	FCC	I	FOID	FCL	5150

1. **Sub Class Code:** - At this field, **type** the **Sub Class Code** as specified on the travel order and then **press Tab**.
2. **Transfer Agency Dept Code:** - At this field, **type** the **Transfer Agency Dept Code** as specified on the travel order and then **press Tab**.
3. **Agency Dept Code:** - At this field, **type** the **Agency Dept Code** as specified on the travel order and then **press Tab**.
4. **Begin FY:** - At this field, **type** the **Begin Fiscal Year** designator as specified on the travel order and then **press Tab**.
5. **End FY:** - At this field, **type** the **End Fiscal Year** designator as specified on the travel order and then **press Tab**.
6. **Avail Type Code:** - At this field, **type** the **Avail Type Code** as specified on the travel order and then **press Tab**.
7. **Main Acct Code:** - At this field, **type** the **Main Acct Code** as specified on the travel order and then **press Tab**.
8. **Sub Acct Code:** - At this field, **type** the **Sub Acct Code** as specified on the travel order and then **press Tab**.
9. **Bus Event Type Code:** - At this field, **type** the **Bus Event Type Code** as specified on the travel order and then **press Tab**.
10. **Obj Class/Exp Elemnt:** - At this field, **type** the **Object Class / Expense Element** designator as specified on the travel order and then **press Tab**.
11. **Direct Reim Code:** - At this field, **type** the **Direct Reimbursement Code** as specified on the travel order and then **press Tab**.
12. **Budget Ln ID:** - At this field, **type** the **Budget Line Identification** designator as specified on the travel order and then **press Tab**.
13. **FMS Cust Code:** - At this field, **type** the **FMS Customer Code** as specified on the travel order and then **press Tab**.
14. **FMS Imp Agcy:** - At this field, **type** the **FMS Imp Agcy** designator as specified on the travel order and then **press Tab**.
15. **FMS Case ID:** - At this field, **type** the **FMS Case ID** designator as specified on the travel order and then **press Tab**.
16. **FMS Case Line Item:** - At this field, **type** the **FMS Case Line Item** designator as specified on the travel order and then **press Tab**.
17. **Sub Alloc Holder ID:** - At this field, **type** the **Sub Alloc Holder ID** designator as specified on the travel order and then **press Tab**.
18. Use the **slider bar** at the bottom of the **grid** to **move** the **screen** to the right in order to see the remaining input fields.

	AQ	AMERICAN SAMOA	
	AN	ANDORRA	

38. **Click** on the desired **code** to make your selection.
39. **Db/Cr:** - At this field, a *drop down menu* appears displaying the **codes** for **debit** or **credit** as shown below.

CTRY	Db/Cr	Amount
US	Db ▼	\$650.50
	Db	
	Cr	

40. Always select (**Db**) when entering the accounting line for a positive amount, such as, the calculated amount of the entitlement(s). Always select (**Cr**) when the accounting line represents a **collection** of an advance, off-setting of a previously paid entitlement, or when withholding taxes.

41. **Amount:** - IATS automatically populates this field with the **total dollar amount** for the **debits** or **credits** depending on the code entered at the **Db/Cr** field. In addition, a *pop-up window* is **displayed** that **breaks out** the **expense elements** as shown below.

SFIS/SLOA Accounting

Element of Expense	2022
▶ Memb/Emp TDY Per Diem	\$610.50
Memb/Emp Reimbursables	\$40.00
Total By FY	\$650.50

42. If applicable, use the information shown in the Element of Expense pop-up window to **create additional accounting lines** to **allocate** the **amounts** in accordance with the funding scenario.
43. When you are **satisfied** with your accounting line entries, **click** on the **OK** button.

DD1131 Accounting

A **(DD1131 Accounting)** tab appears on the **Navy Accounting** screen. IATS automatically generates an **accounting line** for the DD Form 1131 when a claim is processed that results in an amount **Due US**. This accounting line appears automatically on the **DD1131 Accounting** tab.

BCN	SbHd	AAA	ACRN	Db	AG	YR	Appr	O/C	SA	TT	PAA/Tn	Cost Code	At
11111	2222	333333	AA		17	1	4444	000	5	1K	600000	7777777777	

If you need to **modify** this accounting line, **click** on the **DD1131 Accounting** tab to bring it into focus, and then **enter** your desired **changes**.

Click on **OK** after making your changes to **save** the accounting lines.

Transactional Accounting

Beginning 1 October 2010 (FY 11), Members' PCS Orders will contain a Standard Document Number (**SDN**) that will allow Navy to capture Funding information in the official accounting system by individual member using unique line of accounting (**LOA**). The construction of the new SDN and new LOA will be further explained in the revised **BUPERS** Instruction 7040.6/7.

The following information explains how to use IATS to use the Transactional Accounting process: If you are processing a claim for a **DITY/PPM Advance**, click on this link, "[DITY-PPM Advances](#)", for the instructions.

Note: These instructions assume that you already know how to create travel orders and process claims.

MANN, SAILOR

Enter the Appropriation Code (1405 or 1453)

- You will be prompted to **select** the Appropriation, **1453** for **MPN** or **1405** for **RPN**. Once the selection is made **click** on the **Generate** button.

- Your Navy Transactional Accounting is generated! You will notice that each **LOA** now has an **ACRN**. The ACRN is associated with position **8-11** of the **Cost Code** which is the abbreviated Functional Account Number (**FAN**) and the **sub allot** field is now **blank**.
- Finish processing the claim as usual.

DITY-PPM Advances

Commencing with (FY11), funded Navy **MILPCS Orders** will submit the **advance operating allowance** (DITY/PPM) as a **1K** transaction (**advance**) instead of a **2D** transaction (**settlement**) as was the business practice in previous fiscal years.

Requests for advance DITY/PPM with accounting line with fiscal year prior to **2011** will continue to be paid as a **2D** transaction.

When the MILPCS order is created in IATS it will now have a unique Standard Document Number (**SDN**) assigned by the Order Writer.

In most cases this will be the order writing systems at PERS.

Locally prepared Standard Transfer Orders (**STOs**), **Separation/Fleet Reserve** and **Retirement** Orders will also be assigned a unique **SDN**. Copies of locally prepared STOs must be **forwarded** to **NAVYPCSORDEERS@navy.mil** to **prevent** possible unfunded **obligations**.

The following instructions will provide guidance on how to enter these transactions to process DITY/PPM payments that will be using **Transactional Accounting**:

Note: These instructions assume that you already know how to create travel orders and process claims.

Coast Guard Accounting

Completing the Coast Guard Accounting Screen

When creating a **Request for Travel Authorization, Advance, or Settlement**, an accounting appropriation must be entered. This is necessary to **determine** whether **funds** are **available** and to **charge** the **expenditures** to the appropriate organization.

Typically, members and employees of the Coast Guard will be **provided** with the accounting **appropriation** that must be used for the transaction being processed.

TONO	Ag	R/D	Appr	Limit	Allt	Alc	ProgEle	CstAcct	Obj	Amount	RAN
112222222222000										\$0.00	

 Use the following steps to "complete" the Coast Guard Accounting screen:

1. **TONO:** - At the **TONO** field, the order **number** previously entered at the **Travel Order** screen is displayed. **Press Tab** to continue.
2. **Ag:** - IATS automatically populates the **Ag** field and advances to the **R/D** field.
3. **R/D:** - At the **R/D** field, **type** the Region/District code from the accounting appropriation you were provided and **press Tab**.
4. **Appr:** - At the **Appr** field, **type** the Appropriation code from the accounting appropriation you were provided and **press Tab**.
5. **Limit:** - At the **Limit** field, **type** the Appropriation Limit code from the accounting appropriation you were provided and **press Tab**.
6. **Allt:** - At the **Allt** field, **type** the Allotment Fund Control code from the accounting appropriation you were provided and **press Tab**.
7. **Alc:** - IATS automatically populates the **Alc** field and advances to the **ProgEle** field.
8. **ProgEle:** - At the **ProgEle** field, **type** the Program Element code from the accounting appropriation you were provided and **press Tab**.
9. **CstAcct:** - At the **CstAct** field, **type** the Coast Account code from the accounting appropriation you were provided and **press Tab**.
10. **Obj:** - At the **Obj** field, a **drop down list** appears displaying various Object Class codes. **Scroll** down the list, if there are several codes listed, and then **click** on the correct code specified in the accounting appropriation you were provided.
11. **Amount:** - IATS automatically populates the **Amount** field with the amount calculated for the transaction.

12. **RAN:** - At the **RAN** field, **type** the RAN code from the accounting appropriation you were provided and **press Tab**
13. When the amount is displayed, **press Tab**.
14. **Repeat** steps **1-12** above to **additional** accounting lines if necessary.

Tip: For a **short-cut** when additional accounting lines are needed, **click** the **Copy** button. IATS will automatically **copy** the previous accounting line information to the fields in the following accounting line. You can then make any minor **changes**.

14. When **finished** adding the required accounting lines, **click** the **OK** button.

Air Force Accounting

Completing the (TV04) Appropriation - tab

When **Self (TV04)** is selected from the **Air Force Accounting** screen, the **Self (TV04)** screen appears with the **Appropriation** tab in focus.

Automatically Completing the Self (TV04) Accounting Appropriation - tab

1. If an **ATRAS** download was processed with the applicable accounting data for the travel order, the required elements are automatically populated.
2. **Review** the screen to **ensure** that the **data** shown **matches** the travel **order**. After making any necessary changes, or if no changes are required, **click** on the **Next** button or the **MAFR** tab to continue.

Manually Completing the Self (TV04) Accounting Appropriation - tab

If an **ATRAS** download was not processed, **manual** input must be made to complete the accounting **(TV04)** screens.

Use the following steps to "manually" complete the **Self (TV04) Appropriation** tab:

1. **Appropriation:** - Click in this field and **type** the **Appropriation Symbol** as shown on the travel orders.
2. **FC:** - At this field, **type** the **Fund Code** as shown on the travel orders. The fund codes commonly encountered in a travel office are **30, 32, 56, and 58**.
3. **FY:** - At this field, **type** the **Fiscal Year Code** applicable for the **dates** on the travel claim. If the **appropriation** is **(X)** year, this field must be blank.
4. **OAC:** - At this field, **type** the **Operating Agency Code** as shown on the travel orders.

5. **OBAN:** - At this field, **type** the **Operating Budget Account Number** as shown on the travel orders.
6. **RC/CC:** - At this field, **type** the **Responsibility Center/Cost Center** as shown on the travel orders.
7. **BPAC:** - At this field, **type** the **code** that **applies** to the **claim** being processed as shown on the travel orders.
8. **EEIC:** - At this field, **type** the **Element of Expense/Investment Code** as shown on the travel orders. For **TDY**, the most common EEIC is **(409)**. For **CIVPCS** the most common EEICs are **(395)**, **(421)**, and **(421SS)**.
9. **FMS:** - At this field, **type** the **Foreign Military Sales Contract Line Number** as shown on the travel orders, if applicable.
10. **ADSN:** - The **ADSN** entered at the **Base Description** screen in the IATS **Maintenance** Module defaults to this field. **Enter** a different number, or **press** *Enter* to continue, if the correct **ADSN** is shown.
11. **ESP:** - **Input** at this field is **required** when processing travel **claims** involving **exercises**, or **emergencies**. Enter the **Emergency Special Program Code** as shown on the travel orders.
12. **Amount:** - At this field, a *pop-up* **appears** displaying the **amount** computed as the **Net Entitlement** for the claim being processed. **Enter** the desired **amount** that is to be **applied** to the **1st For Self appropriation**, or **press** *Enter* to continue if only one appropriation is **applicable**.
13. **IBOP:** - When the travel **involves** OCONUS **localities**, enter the **International Balance of Payments Code** for the country in which the majority of the **funds** were **expended**. If all travel was within **CONUS**, no input is **required**.
14. **Vnd:** - No input is **required** at this field. **Press** *Enter* to continue.
15. **OBY:** - At this field, **type** the **Operating Budget Year**, if applicable. If in doubt, contact your **ALO**. This is only used for **(X)** year **appropriations** associated with a program year.
16. **SC:** - At this field, **type** the **Sales Code for Reimbursables** as shown on the travel order, if applicable.
17. After completing the **Appropriation** tab, **click** on the **Next** button or the **MAFR** tab to **continue**.

Completing the (TV04) MAFR - tab

After completing the **Self (TV04) Appropriation - tab** and **clicking** on the **Next** button or the **MAFR** tab, the **MAFR tab** comes into **focus**.

Automatically Completing the Self (TV04) Appropriation - tab

1. If an **ATRAS** download was processed with the applicable accounting data for the travel order, the required elements are automatically populated.
2. **Review** the screen to **ensure** that the **data** shown **matches** the travel **order**. After making any necessary changes, or if no changes are required, **click** on the **Next** button or the **FSRA/PSRA** tab to continue.

Manually Completing the Self (TV04) MAFR - tab

If an **ATRAS** download was not processed, **manual** input must be made to complete the accounting (TV04) screens.

Use the following steps to "manually" complete the Self (TV04) MAFR tab:

1. **MAFR:** - At this field, **type** the applicable **Merged Accountability Fund Reporting Code**.
2. **Order Data:** - At this field, **type** the **BCE Workorder/JOCAS Number** as shown on the travel order.
3. **Document Number:** - At this field, **type** the Funds Control Number, (**MORD#**), as shown on the travel order.
4. **TR/MTA/GBL:** - First, **check** with the **accounting branch** to **determine** how **transportation** is **paid**. Then, **type** the **ticket #**, **TR #**, or **invoice #**.
5. **PSRA:** - At this field, **type** the **Program Summary Record Account** as shown on the travel order, or in the **Address Directory**.

6. **Doc Type:** - A *pop-up* appears listing various **transportation document** types. **Select** the correct type and **press Enter**.
7. **CC:** A **Country Code** must be entered at this field when the **Doc Type** is **(W)** for **Travel Warrant**.
8. **Amount:** - At this field, **type** the **amount** to be **allocated** to the cost of transportation.

Note: Input at the **Advance DOV** field is **required** when an **advance** was **taken** at a **location**, other than the home station. In addition, the **input** to **report** the **advance** is being manually entered when processing the settlement.

9. **Advance DOV:** - If an **advance** was **paid** and **charged** to the **travel order**, associated with the claim being settled, **type** the **DOV #** at this field. If a **DOV #** is entered, the **FSRA**, **PSRA**, **DSSN**, and **Amount** fields, must also be populated with the **information** pertaining to the **advance** payment.
10. After completing the **Appropriation** tab, **click** on the **Next** button or the **FSRA/PSRA** tab to **continue**.

Completing the (TV04) FSRA-PSRA - tab

After completing the **Self (TV04) MAFR - tab** and **clicking** on the **Next** button or the **FSRA/PSRA** tab, the **FSRA/PSRA tab** comes into **focus**.

The screenshot shows a software window titled "Air Force Accounting - Self (TV04)". It has three tabs: "Appropriation", "MAFR", and "FSRA/PSRA". The "FSRA/PSRA" tab is selected and active. Inside this tab, there is a table with the following columns: "FSRA", "PSRA", "EC", "Amount", and "Due US". The first row of the table is highlighted in blue and contains a "+" sign in the "FSRA" column. Below the table is a "Delete" button. At the bottom of the window, there are several buttons: "<Back", "Next>", "Other", "OK", "Cancel", and "? Help". A status bar at the bottom left of the window displays the text "Enter the FSRA".

Automatically Completing the Self (TV04) FSRA/PSRA - tab

1. If an **ATRAS** download was processed with the applicable accounting data for the travel order, the required elements are automatically populated.
2. **Review** the screen to **ensure** that the **data** shown **matches** the travel **order**. After making any necessary changes, or if no changes are required, **click** on the **OK** button to **save** the accounting **entries**.

Manually Completing the Self (TV04) FSRA/PSRA - tab

If an **ATRAS** download was not processed, **manual** input must be made to complete the accounting **(TV04)** screens.

Use the following steps to "manually" complete the Self (TV04) FSRA/PSRA tab:

1. **FSRA:** - At this field, **type** the **Fund Summary Record Account** as shown on the travel order, or in the **Address Directory**.
2. **PSRA:** - At this field, **type** the **Program Summary Record Account** as shown on the travel order, or in the **Address Directory**.
3. **EC:** - At this field, **type** the applicable **Entitlement Code** for **CIVPCS** settlements.
4. **Amount:** - At this field, **type** the total entitlement **amount** applicable to the **FSRA/PSRA** codes entered on this line.
5. **Enter** the additional **FSRA/PSRA codes** associated with the claim, or **click** on the **OK** button if no additional input is **required**.

[Auditor Functions](#)

Auditing Overview

After an **advance** or **settlement** is entered into IATS, an **audit** may be required before the transaction can be released for further processing. Travel claims are often complex and voucher examiners are not always experienced. For these reasons, it is a good idea to have a **supervisor**, or experienced voucher **examiner** audit certain claims prior to payment.

IATS is programmed to flag certain claims for audit based on a random percentage, or other criteria. This is accomplished by accessing the **Maintenance** module, selecting the **Constants/Descriptions** option and then selecting **Audit Parameters**. At the Maintain Audit Criteria screen, the System Administrator can establish the audit criteria in accordance with regulator or policy requirements.

In addition to setting up the criteria for flagging a claim for audit, IATS can be configured to require the performance of an on-screen **audit**. This is accomplished by activating the **Forced Audit** field at the **System Configuration** screen in the **Maintenance** module.

After a block is released by the voucher examiner, if any of the claims were randomly selected for audit, or matched the audit criteria, the status of the block changes to "**Awaiting Audit**".

Auditors must **determine** if there are any blocks in the **Awaiting Audit** status and perform an audit on the flagged claims. Before a block can be audited, however, it must be **grabbed** by the auditor or **assigned** to the auditor by the **System Administrator**.

Then, if any **errors** are **found**, the auditor must **reassign** the **block** back to the voucher **examiner** for **corrections**. After the corrections are made, the voucher **examiner** must again **release** the **block** for further processing.

Once all of the flagged claims on a block are audited and any required corrections are made, the **block** must be released by the **auditor** for further processing. Releasing blocks in the status Awaiting Audit, and the audit function, can only be performed by individuals with **auditor privileges**. This **privilege** is established when the **usernames** and **passwords** are assigned.

Click on the **See Also** button below and **select** the **topic** that provides detailed **instructions** for performing Auditor functions.

Grab Blocks

Before a block of requests can be processed, the block must be **assigned** to an IATS user. The most common method of assigning a block, is for the user to "**grab**" the desired block from those available. After in-coming claims are **logged** to a block or when a block is **released** for further processing, the block resides in a **pool** awaiting assignment.

 **Complete the following steps to "grab" a block:**

1. At the **Examiner, Auditor, or Disbursing View** screen, **click** on the **Grab Blocks** button and the **Block Selection** screen appears.

Block Selection - Grabbing Blocks to be Audited from the Audit Pool (ORIGINAL MASTER DATABASE)

Block No.	Office	Type	Block Status	Status Date	Who Has It
MILITARY04	OFFICEONE	Settlement	Awaiting Audit	1/7/2021	

Select All Unselect All

Print... End Block: OK Cancel ? Help

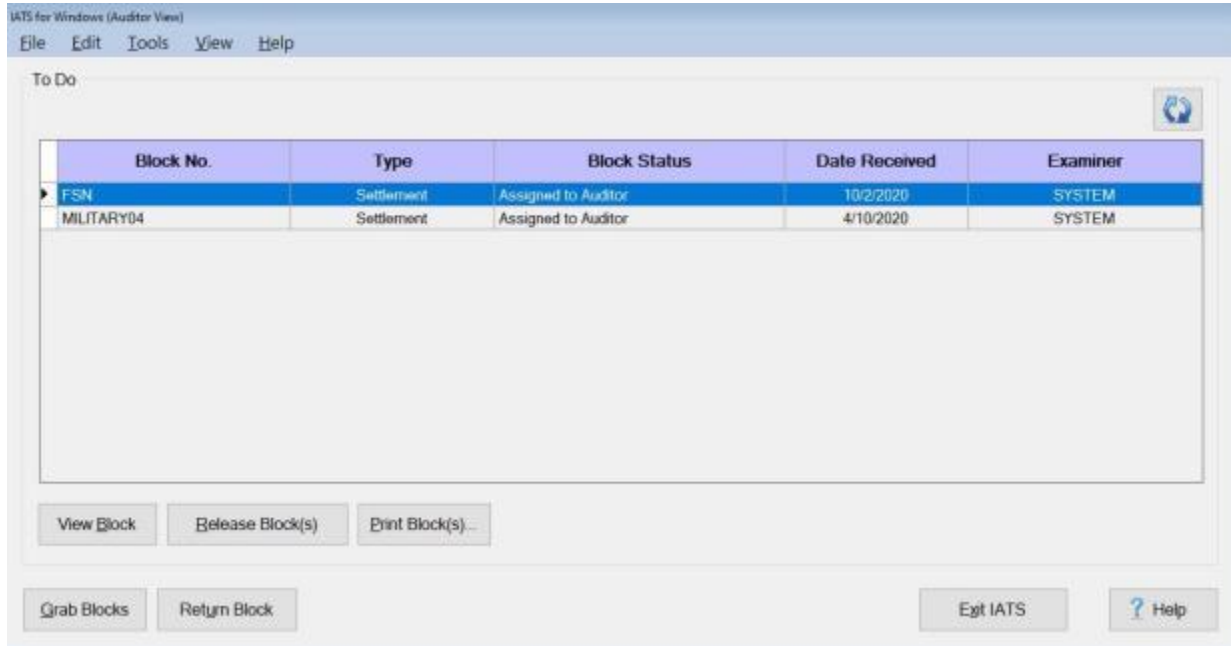

2. Select a block by **double clicking** on the desired block or by **clicking** on the block **once** and then **clicking** the **OK** button.

Tip: Users may select all of the blocks listed by **clicking** on the **Select All** button. To **void** a selection, **click** the **Unselect All** button.

3. After selecting a block, the **Confirmation Password** screen appears. **Complete** the **process** by **typing** your assigned **Confirmation Password** at the **Enter Password** field and then **click** on the **OK** button.

Selecting Blocks for Audit

After an Auditor has **Grabbed Blocks** in the status "**Awaiting Audit**", the block(s) will be **displayed** in the **grid** on the Auditor View screen under the heading **To Do** as shown below.

Select a Block for audit using one of the following methods:

- **Double click** on the desired block listed under the **To Do** section.
- **Click** on the desired block **once** and then **click** on the **View Block** button.

IATS will then **display** the **Request Selection** screen for the block selected.

Selecting Requests for Audit

At the **Request Selection** screen, **select** a **request** through one of the following **methods**:

Request Selection

For Official Use Only

Block No. Block Type Block Status

Select All Unselect All View/Audit

Other... Print Block Ticket Return Request Print Request(s)... Done Help

- **Method 1:** - **Double click** on the desired request.
- **Method 2:** - **Click** on the request **once** and then **click** the **View/Audit** button.

Note: Unless office **policy** requires a **100%** audit, auditors are only required to **select** and **review** requests that are **annotated** with an **asterisk** indicating that the **request** is **flagged** for audit.

Print Requests

After an advance or settlement request is processed, IATS will **produce** an approved computer facsimile of the **DD Form 1351** and **1351-2**. In addition, IATS also produces a facsimile of **Optional Form 1164** for local vicinity travel.

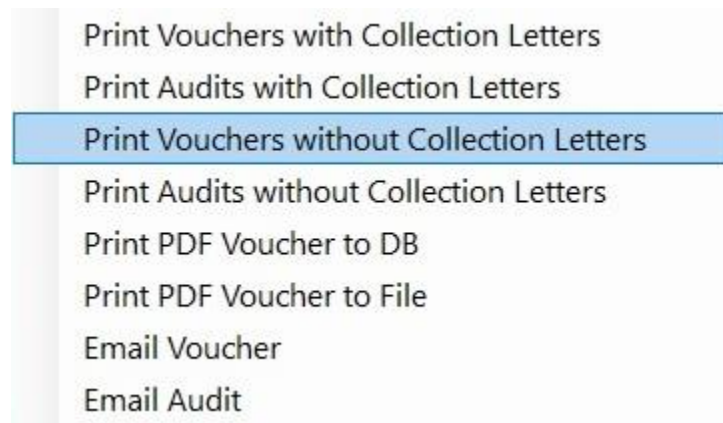

The IATS generated forms are referred to as the **Advance Voucher Summary** and the **Travel Voucher Summary**.

IATS also produces the **Advance Audit Voucher**, the **Travel Voucher Audit**, and the **Prepayment Audit Checklist** documents. **Audit vouchers** provide a printed **display** of the **input** made by the voucher examiner.

Note: Requests may be printed by an IATS user in **any** of the **View** modes.

 **Complete the following steps to "print" a request:**

1. At the **Examiner, Auditor, or Disbursing** View screen, [select](#) a block.
2. At the **Request Selection** screen, **click** on the **request** you wish to print and then **click** the **Print Requests** button. A *pop-up* appears listing several printing **options**.

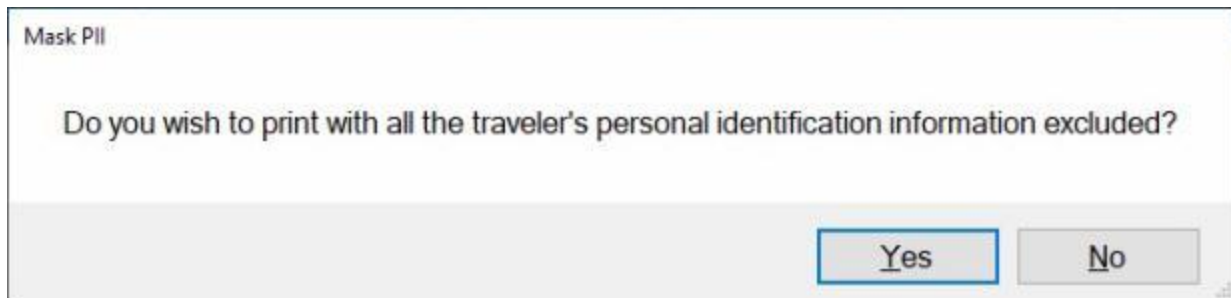

Note: If you click on the option, **Print PDF Voucher to DB**, this process will happen **transparently**. You will find the saved request(s) when you run the [Retrieve Scanned Documents from Database](#) process.

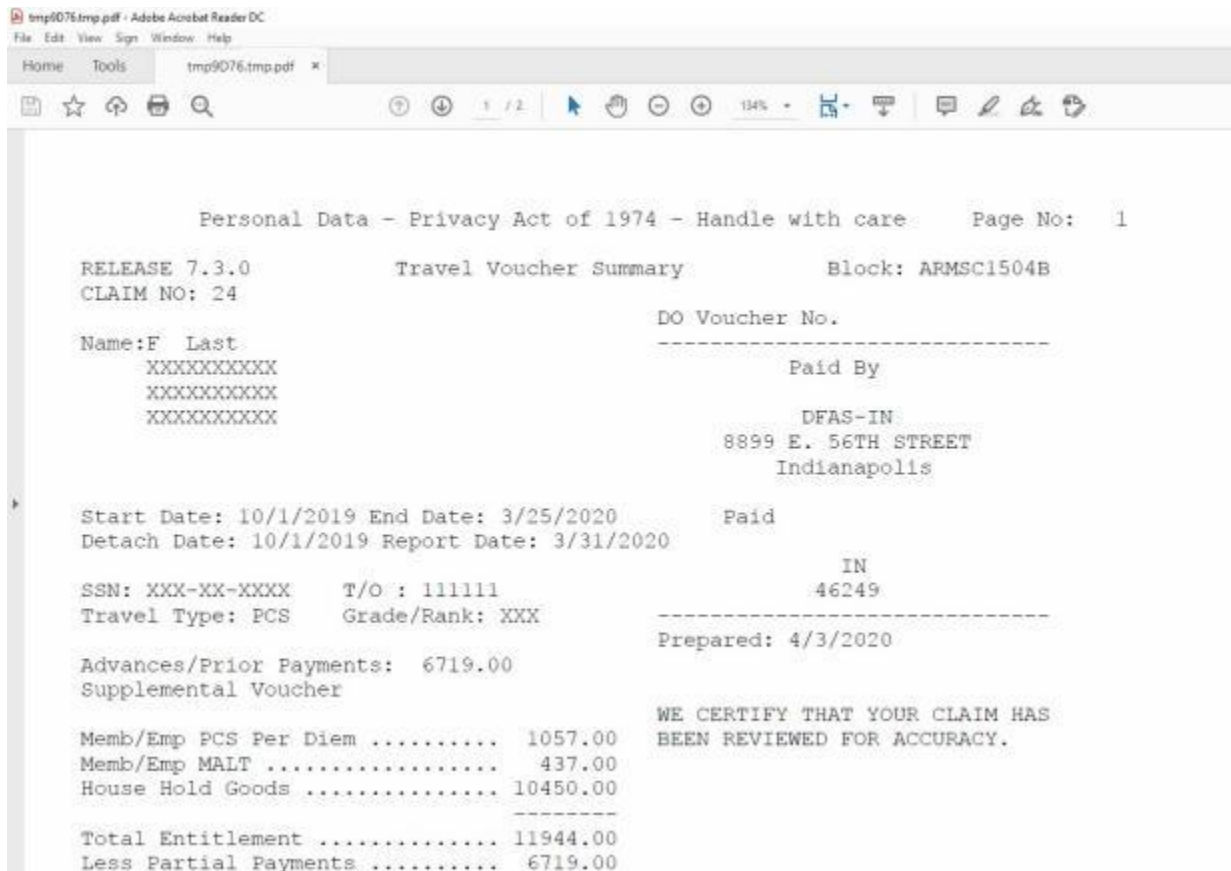

3. At the *pop-up*, **click** on the desired **option**. The following *pop-up* **message** will appear asking if you would like to print the **cover sheet** only.

4. **Click** on *Yes* or *No* as desired. The following *pop-up* **message** will appear asking if you would like to print with the traveler's personal identification **excluded**.

5. **Click** on Yes or No as desired. The **Adobe Acrobat Reader** screen will appear next displaying the selected print option.

6. **Click** on the **Printer Icon** button if you wish to **print** the selected print option.
7. The **Print** screen will appear.

8. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
9. **Select** the number of **copies** you wish to print and **click** the **Print** button.
10. IATS prints the letter and returns to the **Adobe Acrobat Reader** screen.
11. If you are **finished** using the **Adobe Acrobat Reader** screen, **click** on the **X** button in the top right corner to **close** the screen.

Tip: The **selected print option** may also be **printed to** a **PDF file** by clicking on the **File** menu option at the **Adobe Acrobat Reader** screen and then **clicking** on the **Save As** option. After activating this option, you will have to **specify** what **directory** to **save** the file in and the **file name**.

Performing a Non-Forced Audit

Using the **Non-Forced** method, the auditor has the **option of viewing** the input screens for the advance/settlement or **reviewing** the **audit report** generated by IATS. If the auditor **chooses** to simply **review** the printed **audit report**, a **comparison** is made between the request for **advance/settlement** submitted by the traveler and the **audit report** to ensure that the voucher **examiner** entered the correct details for the trip. If the auditor **discovers** an error requiring correction, the **block** must be returned to the examiner and the **examiner** must modify the previously entered request for **advance/settlement**.

Tip: If the **audit report** was not printed by the **examiner** prior to releasing the block, the **auditor** must print this report if **performing** the **audit** by **reviewing** the audit report.

 Complete the following steps to "audit" a previously entered advance/settlement by viewing the input screens:

1. Once the **block** requiring audit is **assigned** to the **auditor**, the process **begins** at the **Auditor View** screen. At this screen, select the **block** requiring audit.

Note: After selecting a block the **Request Selection** screen appears. At this screen, all requests assigned to the block are **listed** under the **Select Request(s)** section. Unless office **policy requires a 100%** audit, auditors are only required to **select** and **review** requests that are **annotated** with an **asterisk** indicating that the **request** is **flagged** for audit.

222562222	BUNDY, JIM	*LTTDY	Settlement	12/12/2016	6/14/2017	6/29/2017	Normal	

Select All Unselect All View/Audit

Other... Print Block Ticket Return Request Print Request(s)... Done Help

2. Select a **request** that is **flagged** for audit. The **Request for Advance or Settlement Against an Order** screen will appear.

3. At this screen, **notice** that the **Reason for Audit** section **explains why** the request was **flagged** for audit.
4. **After** determining the **reason** for audit, **click** on the appropriate **tab** to **view** the necessary input screen.

Tip: If needing to **view** the **Itinerary** or **Reimbursables** tab, **click** on the **Entitlements** tab, **click** on the **listed entitlement** or **expense**, and then **click** on the **View/Modify** button. The **Itinerary** and **Reimbursables** tab will then be visible.

5. When **finished** viewing the desired input screens, **click** on the **OK** button at the **Advance Request** or **Settlement Request** screen. The following *pop-up message* will appear asking if you wish to **mark** the request as being audited.

6. **Click** on **Yes** or **No** as desired.
7. IATS **returns** to the **Request Selection** screen.

8. **Repeat** steps **1 - 6** to **review** another **request** or **click** the **Done** button to **return** to the **Auditor View** screen if **finished** with the block.
9. At the **Auditor View** screen, either return the **block** to the **examiner** if **corrections** are needed or release the **block** for further **processing**.

Performing a Forced Audit

Using the **Forced** method, the auditor must **view** all of the input screens for the advance/settlement request flagged for audit. If the auditor **discovers** an **error requiring correction**, the **block must be returned** to the examiner and the **examiner must modify** the previously entered request for **advance/settlement**.

 Complete the following steps to "audit" a previously entered advance/settlement using the Forced Audit method:

1. Once the **block** requiring audit is **assigned** to the **auditor**, the process **begins** at the **Auditor View** screen. At this screen, select the **block** requiring audit.

Note: After selecting a block the **Request Selection** screen appears. At this screen, all requests assigned to the block are **listed** under the **Selected Request(s)** section. Unless office **policy** requires a **100%** audit, auditors are only required to **select** and **review** requests that are **annotated** with an **asterisk** indicating that the **request** is **flagged** for audit.

2. Select a request that is **flagged** for audit. The **Advance Request** or **Settlement Request** screen will appear.

3. At this screen, **notice** that the **Reason for Audit** section **explains why** the request was **flagged** for audit.
4. **After** determining the **reason** for audit, **click** on the appropriate **tab** to **view** the necessary input screen.

Note: When performing a **Forced Audit**, you **must** **click** on the **Entitlements** tab, **click** on the **listed entitlement** or **expense**, and then **click** on the **View/Modify** button. The **Itinerary** and **Reimbursables** tab **will then be visible**. You **must** **review** the **entries** on these tabs in order to be able to **mark** the request as being **audited**.

5. When **finished** viewing the desired input screens, **click** on the **OK** button **at** the **Advance Request** or **Settlement Request** screen. The following **pop-up message** will appear asking if you wish to **mark** the request as being audited.

6. **Click** on **Yes** or **No** as desired.
7. IATS **returns** to the **Request Selection** screen.

8. **Repeat** steps **1 - 6** to **review** another **request** or **click** the **Done** button to **return** to the **Auditor View** screen if **finished** with the block.
9. At the **Auditor View** screen, either return the **block** to the **examiner** if **corrections** are needed or release the **block** for further **processing**.

Prepayment Audit

IATS allows the **Auditor** to perform an audit using a **Prepayment Audit Checklist**.

In order to use this feature, your **System Administrator** must access the **Maintenance** module and **activate** the **Prepayment Audit** feature.

When this feature is **activated**, the Auditor will see a **button**, at the bottom of the **Request for Advance** or **Settlement Against an Order** screen, named **Prepay Audit**.

 **Complete the following steps to "use" the Prepayment Audit Checklist:**

1. At the **Request for Advance** or **Settlement Against an Order** screen, **click** on the **Prepay Audit** or the **OK** button.

The screenshot displays the 'Settlement Request' interface. At the top, it shows 'Block No: ML130Y04 - Request No: 6' and a 'View Only' button. The main header contains 'FOUR, MILITARY A: E7' and 'TONO: 111111'. Below this, the 'Request Type - Settlement' section is visible, with 'Type of Settlement' set to 'Partial'. A tabbed interface is shown with 'Remit To' selected. The 'Address' section includes fields for 'Line 1' (1ST ST), 'Line 2', 'City' (IN), 'Country/State' (IN INDIANA), and 'Zip Code' (11111). An 'Update Traveler' button is located to the right of the address fields. Below the address fields is a 'Reason for Audit' section with the text: 'Constructed travel involved. Request entitlement is above the audit threshold.' Navigation buttons '<Back' and 'Next>' are present. At the bottom, there are buttons for 'Receipts...', 'Other...', 'Print Request', 'Prepay Audit' (highlighted in blue), 'Auditor Remarks', 'OK', 'Cancel', and 'Help'. A 'Flag As Audited' checkbox is also visible.

2. After clicking on either the **Prepay Audit** or **OK** button, the following **Improper Claim Check List** screen appears.

Improper Claim Checklist - Block No: MILITARY04 - Request No: 6

FOUR, MILITARY A TONO: 111111

Specify if Following are Missing or Incomplete Miscellaneous Discrepancy Checklist

Other... Back Next OK Cancel ? Help

3. At this screen, there are two tabs listing **items** that may be selected as audit discrepancies that will appear on the **Prepayment Audit** report generated by IATS:

- **Specify if Following are Missing or Incomplete**

- **Miscellaneous Discrepancy Checklist**

4. **Click** in the **selection box** next to the desired item to place a **check mark** in the box. A check mark indicates that the item has been selected.
5. Ensure that you **display each tab** and **select any item** that must be **reported** as a discrepancy.
6. When **finished** selecting the necessary discrepancies, **click** on the **OK** button to **save** the selections.

Viewing Travel Accounts

On occasion, it may be necessary to **view** the traveler's **account** information.

 **Complete the following steps to "view" a travel account:**

1. At the **Examiner, Auditor** or **System Administrator View** screen, **click** on the **Tools** menu. A **drop down list** of options appears.

2. **Click** on the **Traveler Profile** option and the **Traveler Selection** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**.
4. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. The **Traveler Profile** screen appears.

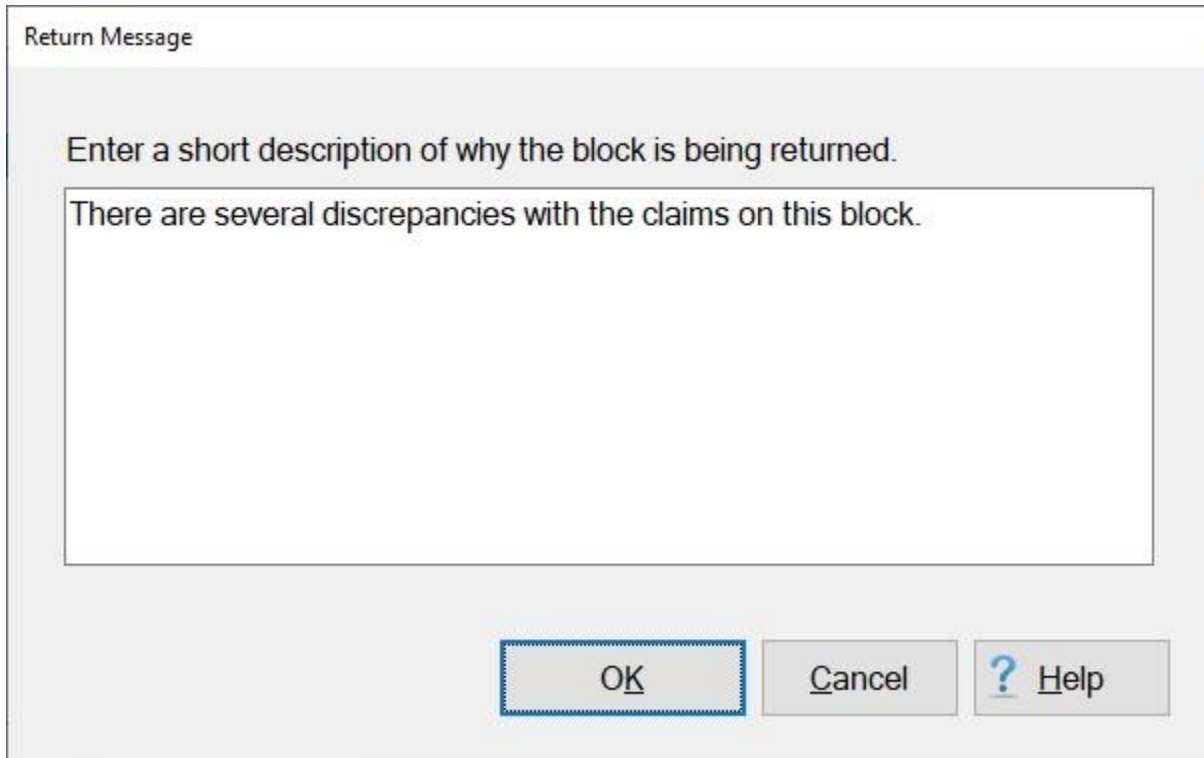

4. When **finished** viewing the travel account, **click** on the **OK** or **Cancel** button.

Returning Blocks

After **auditing** the flagged claims, it may be **necessary** to **return** the **block** to the **examiner** for **correction**.

 Complete the following steps to "return" a block to the examiner for correction:

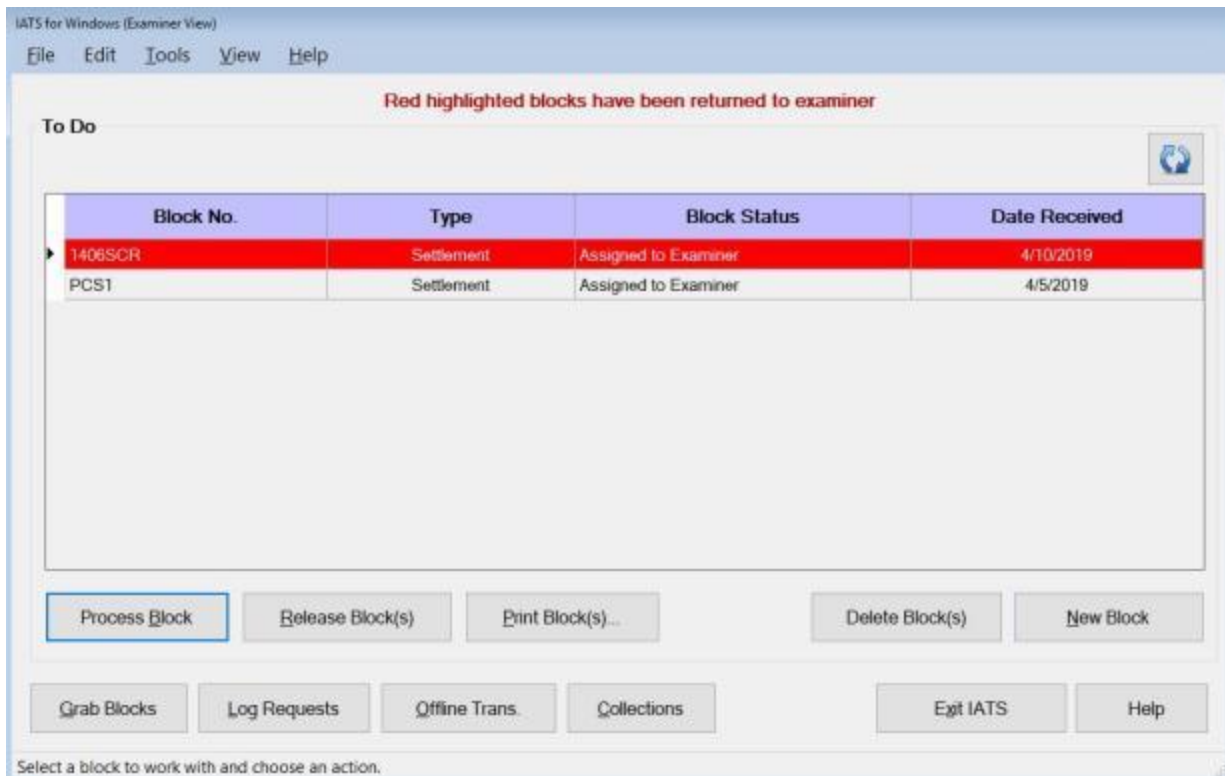

1. At the **Auditor View** screen, **click** on the **Return Block** button or **click** on the **File** menu and **select** the **Return Block(s)** option. The **Confirmation Password** screen appears.
2. At the **Confirmation Password** screen, **type** the confirmation **password** at the **Enter Password** field and **click** the **OK** button. The **Return Message** screen appears.

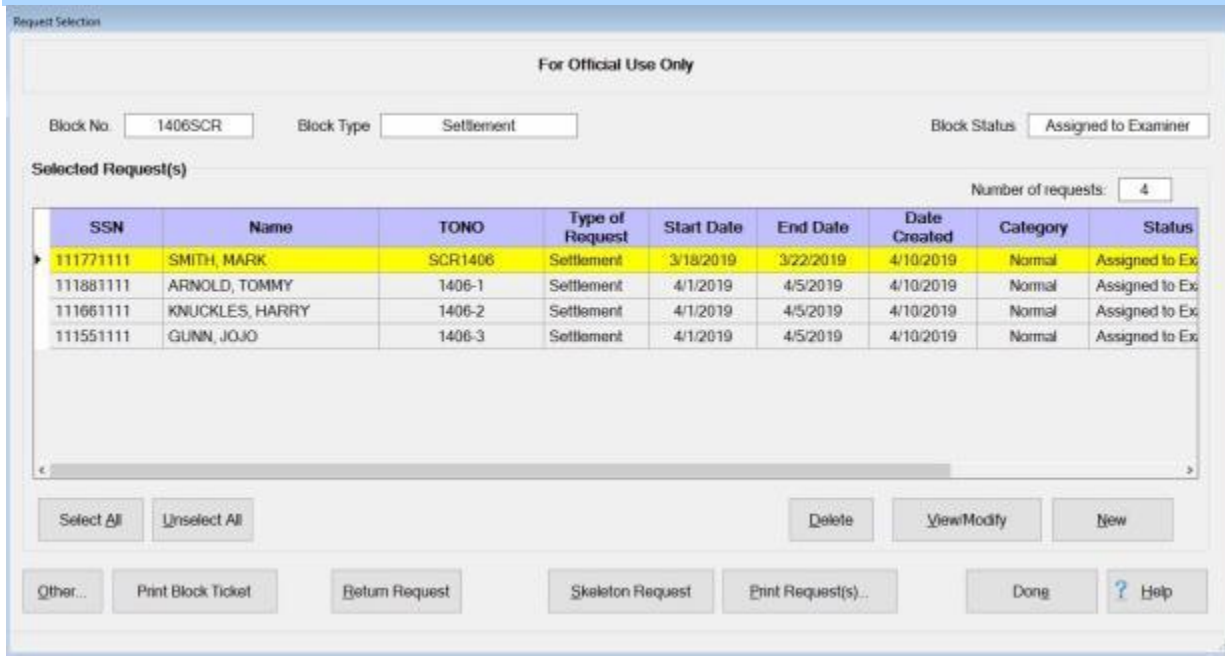

The image shows a dialog box titled "Return Message". Inside the dialog, there is a text area with the prompt "Enter a short description of why the block is being returned." Below the text area, there is a text input field containing the text "There are several discrepancies with the claims on this block." At the bottom of the dialog, there are three buttons: "OK", "Cancel", and "? Help". The "OK" button is highlighted with a blue dashed border.

3. At this screen, **type** a brief message explaining why the block is being returned and then **click** the **OK** button. IATS **returns** the **block back** to the **examiner** who originally had it.

Note: When the Auditor **returns** a block back to the Examiner for corrections, the **block** will be highlighted in red on the Examiner view screen as shown below.

Note: When the Examiner **clicks** on the **Process Block** button for a block highlighted in **red** that has been **returned** by the **Auditor**, any claim that the auditor has **attached** a **remark** to will be highlighted in **yellow** on the **Request Selection** screen as shown below.

Return a Request to a Traveler

While performing an audit, the Auditor may determine that it is **necessary** to **return** the claim back to the traveler.

A feature was added to IATS that allows the Auditor to perform this task instead of **sending** the block **back** to the **Examiner** and having the Examiner **return** the claim.

 Complete the following steps to "return" a request to the Traveler:

The screenshot shows the 'IATS for Windows (Auditor View)' window. At the top is a menu bar with 'File', 'Edit', 'Tools', 'View', and 'Help'. Below the menu is a 'To Do' section containing a table with the following data:

Block No.	Type	Block Status	Date Received	Examiner
FSN	Settlement	Assigned to Auditor	10/2/2020	SYSTEM
MILITARY04	Settlement	Assigned to Auditor	4/10/2020	SYSTEM

Below the table are buttons for 'View Block', 'Release Block(s)', and 'Print Block(s)'. At the bottom of the window are buttons for 'Grab Blocks', 'Return Block', 'Exit IATS', and '? Help'.

1. Once the **block** requiring audit is **assigned** to the **auditor**, the process **begins** at the **Auditor View** screen. At this screen, select the **block** requiring audit and then **click** on **View Block**.

The screenshot shows the 'Request Selection' window. At the top is a section labeled 'For Official Use Only' with input fields for 'Block No.' (FSN), 'Block Type' (Settlement), and 'Block Status' (Assigned to Auditor). Below this is a 'Selected Request(s)' section with a table containing one row of data:

SSN	Name	TONO	Type of Request	Start Date	End Date	Date Created	Category	Status
111881111	SMITH, MARKY	* FSNS	Settlement	9/15/2020	9/19/2020	10/2/2020	Normal	Requires Au

Below the table are buttons for 'Select All', 'Unselect All', and 'View/Audit'. At the bottom is a dropdown menu for 'Return' with two options: 'Return Voucher to Traveler' and 'Return Voucher to Examiner/Auditor'. Other buttons at the bottom include 'Other...', 'Print Block Ticket', 'Print Request(s)', 'Done', and '? Help'.

2. **Perform the audit** as usual. After performing the audit, IATS returns to the **Request Selection** screen.
3. If it is determined that the request must be returned to the Traveler, **click** on the **Return Request** button. A **sub-menu** appears.
4. **Click** on the **Return Voucher to Traveler** option. The **Return Voucher** screen appears.

Send email to traveler

Select the first reason for return

5. **Send To:** - When this screen appears, the traveler's address is **displayed**. If this information is **correct**, no action is **necessary**. If not, **click** in the appropriate fields and **type** the desired changes.
6. **Parent Organization:** - If wishing to **route** the return **through** the traveler's parent organization, **click** in the appropriate fields and **type** the parent organization's **address**.
7. **Reason(s) for Return:** - At the first Reason for Return field, **click** on the down arrow button to **display** a **list** of the **reasons** for return from the **Reasons for Return Codes** table in the **Maintenance** module. When the **list** is displayed, **click** on the desired **reason** to make a selection.

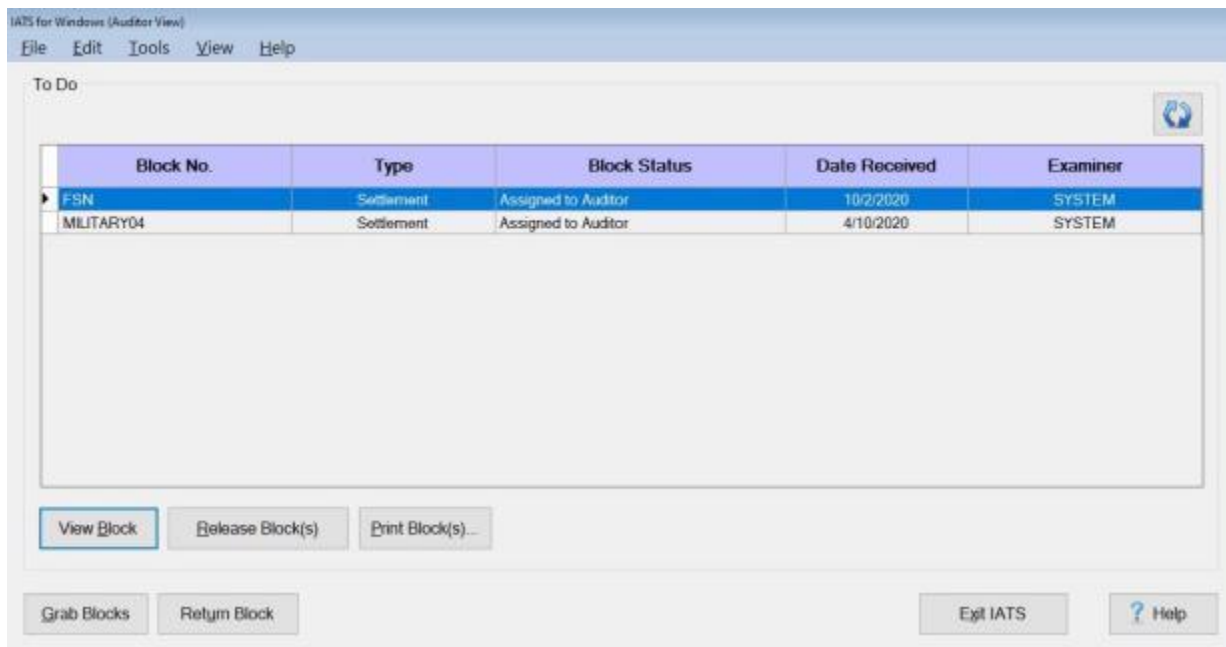

8. Users may **add up to (5)** reasons for returning a request. If additional reasons are needed **click** in the next available Reason for Return **field** and **repeat** the **instructions** from step (7) above to **add additional reasons**.
9. **Remarks:** - **Click** in this field and **type** a **remark** if desired.
10. **Send email to traveler:** **Click** in the **check box** if you wish to send an email message to the traveler regarding the returned voucher.
11. **Click** on **OK** to **save** the return letter or click the **Print Letter** button if you wish to **print** the return letter. The **Adobe Reader** screen will appear if you **click** on the Print Letter button.
12. **Click** on the Printer **icon**. The **Print** screen appears.
13. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
14. **Select** the **number** of **copies** you wish to print and then **click** on the **Print** button.
15. IATS prints the report and returns to the **Adobe Reader** screen.
16. If you are finished using the **Adobe Reader**, **click** on the **red** button in the top right corner to **close** the screen.

Return a Request to Auditor or Examiner

While performing an audit, the Auditor may determine that it is **necessary** to **return** the claim back to a **different Auditor** or to the **Examiner**. A feature was added to IATS that allows the Auditor to perform this task instead of sending the entire **block** back to the Examiner and holding up the other claims on the block.

Click on this [link](#) to display a **table** describing the **criteria** for re-assigning requests from one block to another.

 Complete the following steps to "return" a request to an Auditor or an Examiner:

1. Once the **block** requiring audit is **assigned** to the **auditor**, the process **begins** at the **Auditor View** screen. At this screen, [select](#) the **block** requiring audit and then **click** on **View Block**.

2. **Perform the audit** as usual. After performing the audit, IATS returns to the **Request Selection** screen.
3. If it is determined that the request must be returned to an Auditor or an Examiner, **click** on the **Return Request** button. A **sub-menu** appears.
4. **Click** on the **Return Voucher to Examiner/Auditor** option. The **Return Request** screen appears.

5. **Assign to:** - **Click** in the **circle** next to **Examiner** or **Auditor** to **specify** who the claim will be returned to.
6. At the **Find** field, you can **type** the **number** of the block you wish to transfer a claim from and then press **Tab**.

7. **Move to Block:** - **Click** on the *down arrow* button. A *drop down listing* appears **displaying** all of the **blocks** that match the criteria for the block selected. **Click** on the desired **block number** to make a selection or **type** the **number** to **create** a new block. If automatic block numbering is activated, **type** the word **New** to **create** a new **block**, if applicable.
8. **Enter confirmation password:** - After making your required selections. **Click** in the **Enter confirmation password** field and **type** your confirmation password.
9. **Click** on the **Return** button.
10. IATS returns the request and the **Request Selection** screen appears allowing you to return another request or continue auditing the block.
11. If you do not want to return another request or continue auditing the block, **click** on the **Done** button to return to the **Auditor View** screen.

Auditor Remarks

If a claim requires audit, sometimes it is necessary to make detailed **comments** that the examiner will need to see so that all of the required changes are made.

The **Reasons For Auditor Return** screen is used for this purpose.

 Complete the following steps to "enter" Auditor Remarks:

1. When performing an audit, you will see an **Auditor Remarks** button on the **Settlement** or **Advance Request** screen.

Settlement Request - Block No: GROUP - Request No: 60

Release Blocks

Voucher examiners have **completed** a block when all logged requests are in one of the following **conditions**:

- Computed
- Audited
- Transferred to another block
- Returned to the traveler
- Deleted

Once the IATS user is **certain** that there are no outstanding **logged** requests on the block, the next step is to **release** it for further processing.

 **Complete the following steps to "release" a block:**

1. At the **Examiner, Auditor, or Disbursing View** screen, **click** on the listed block that you wish to release.
2. IATS will **highlight** the selected block in **blue** as shown below.

Block No.	Type	Block Status	Date Received
CMPCS01	Settlement	Assigned to Examiner	1/7/2021
EVAC	Settlement	Assigned to Examiner	11/4/2020
FSN	Settlement	Assigned to Examiner	10/2/2020
MILITARY04	Settlement	Assigned to Examiner	4/19/2020
PCSGD	Settlement	Assigned to Examiner	8/3/2020
PCSRTN	Settlement	Assigned to Examiner	8/3/2020
RETURNED	Settlement	Assigned to Examiner	1/14/2021
SCR1514	Settlement	Assigned to Examiner	4/20/2020

Note: Before attempting to release a block, it's good idea to **determine** that **all requests** on the block have been processed. This is accomplished by **double clicking** on the desired block. The **Request Selection** screen appears. **Look** at the **Status** field to **ensure** the status of each request is **Entered**. If there are any requests in the status "**Logged**", the request must be **processed** or **deleted** from the block before the block may be released.

3. When the desired block(s) selection is complete, **click** on the **Release Block(s)** button. The **Confirmation Password** screen will appear.

Enter Confirmation Password

Enter Password:

OK Cancel ? Help

4. At the **Confirmation Password** screen, **type** your confirmation password at the **Enter Password** field and then **click** the **OK** button or **press Tab**.
5. After entering the confirmation password, a **message** appears asking if you wish to **print** the **block tickets** for the blocks being released. **Click** on **Yes** or **No** as desired.

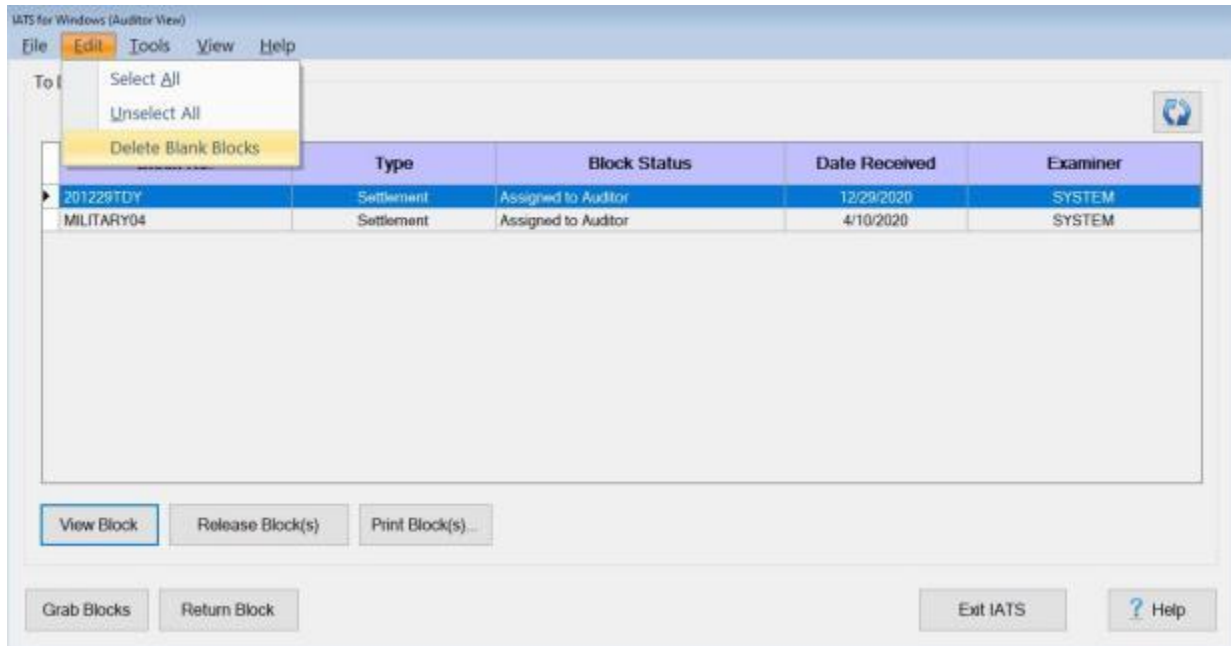

Note: It's a good idea to always **print** the **block ticket** to use as a **cover sheet**. Settlement requests are sometimes **added** to the block or **deleted** during the **processing phase** and may not **reflect** the cover sheet originally printed, if the block was initially logged into IATS through the **logging process**. Disbursing clerks can also **use** the latest block ticket **cover sheet** to **verify** that a valid request exists for the **transactions** that **appear** in the **upload file**.

Delete Empty Blocks

If an Auditor has a block in his/her possession, that (for whatever reason) contains no claims, the Auditor can delete the block.

 Complete the following steps to "delete" an empty block:

1. At the **Auditor View** screen, **click** on the **empty block** you wish to delete.

2. After you have highlighted the correct block, **click** on the **Edit** menu and then **click** on the **Delete Blank Block(s)** option. The following *pop-up message* appears asking if you are **sure** you wish to delete the selected block.

3. **Click** on *Yes* or *No* as desired.
4. If you click on *Yes*, the **Confirmation Password** screen appears.
5. At the **Confirmation Password** screen, **type** the confirmation **password** at the **Enter Password** field and **click** the **OK** button.

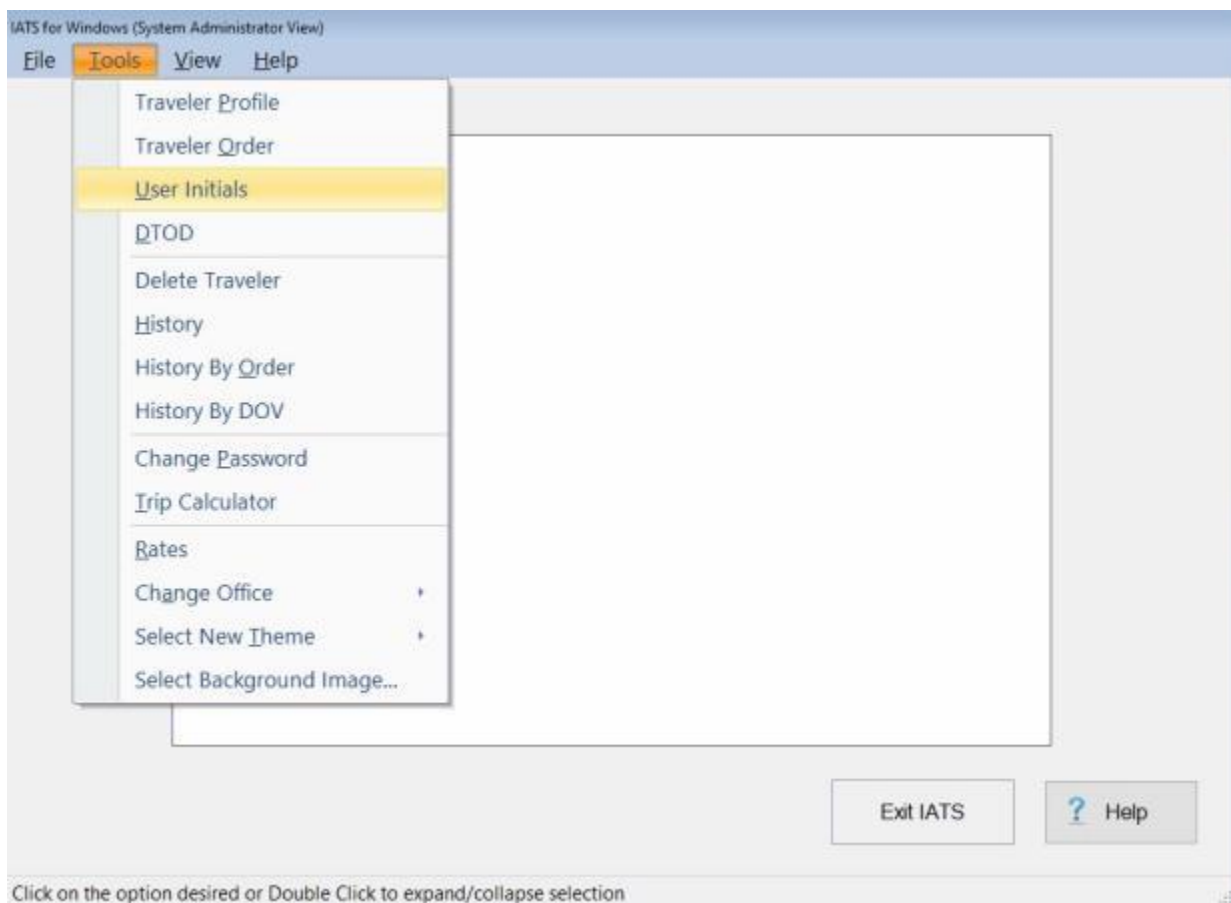

Display User Initials

Often times, key travel office personnel have a **question** when viewing a claim as to **who** the **initials** belong to that **processed** or **audited** a particular claim. Without going into **Maintenance** and viewing the **Users Passwords and Privileges** table, there is no easy way to determine this information.

For this reason, an **option** has been added to the **Tools** menu on the **Auditor**, **Disbursing**, and **System Administrator** view screens that allow you to easily **display** this information.

 Complete the following steps to "display" user initials:

1. On either the **Auditor**, **Disbursing**, or **System Administrator** view screen, **click** on the **Tools** menu.

2. A *sub-menu* appears listing several options.
3. **Click** on **User Initials**. The **Existing User ID's** screen appears.

4. **Notice** that the Existing User ID's screen displays **initials** in the left hand column and the user's **name** in the far right hand column.
5. When **finished** using the Existing User ID's screen, **click** on **OK** to return to the previous screen.

Using the IATS Note Pad

An IATS customer requested a new feature referred to as the “**IATS Note Pad**”. The customer wants the ability to enter **notes** on a **Block** or **Settlement Request** which would be similar to a **Post-It Note** that one might **stick** on a printed document before pushing it aside or placing it into a **communal folder** for another day.

Note: Any Comments/Remarks that are **added** will not be written to the **History Record** or **printed** out on the voucher. These Comments/Remarks are for internal office use only.

This feature will allow the user to create:

- Comments/Remarks
- Custom Background Colors

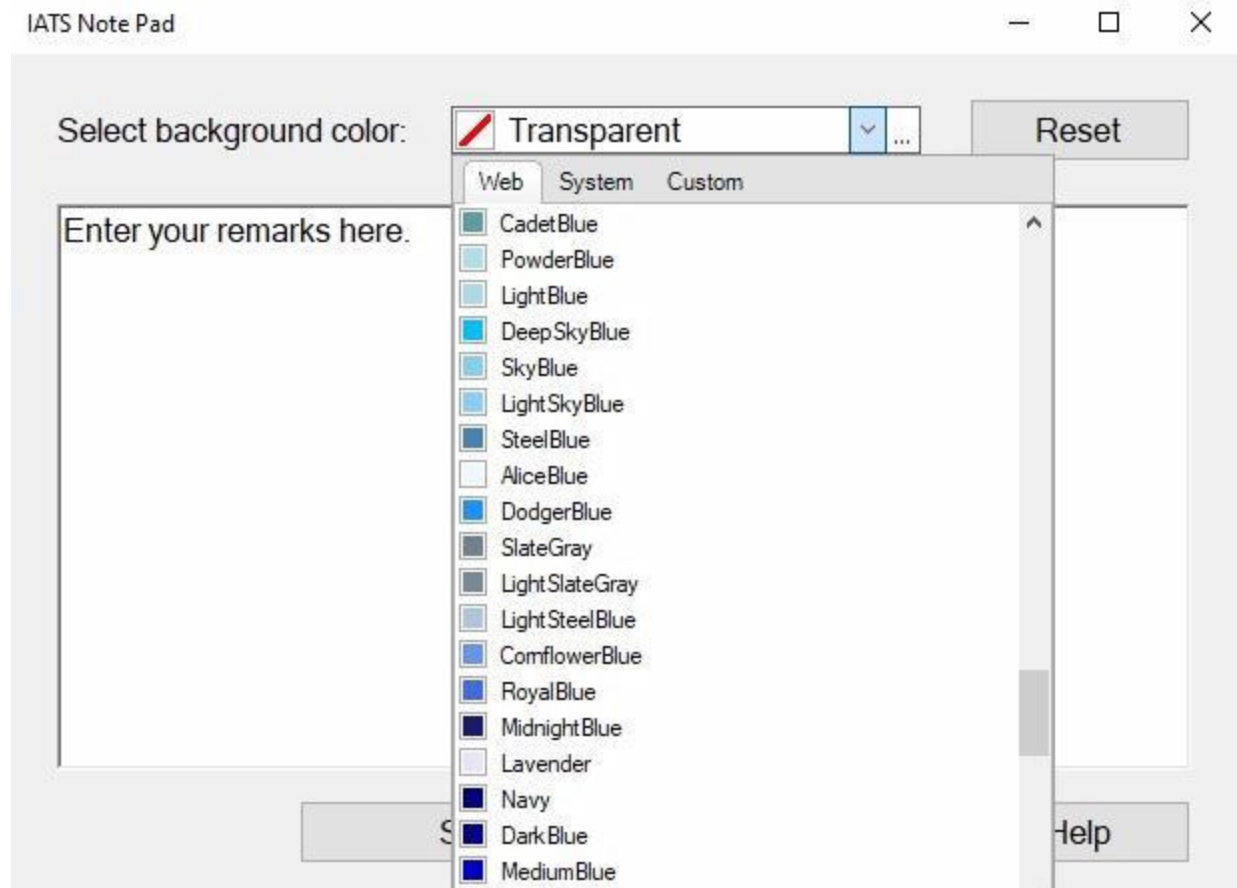

This feature allows the customer to use **custom colors** along with the **text**. If a Travel Office **agrees** on certain colors to **mean** certain things it gives them a way to **specify** what **action** or **in-action** needs to be taken.

Note: The **IATS Note Pad** screen is only available from the **Examiner View** screen, the **Auditor View** screen, and the **Request Selection** screen.

 Complete the following steps to "use" the IATS Note Pad:

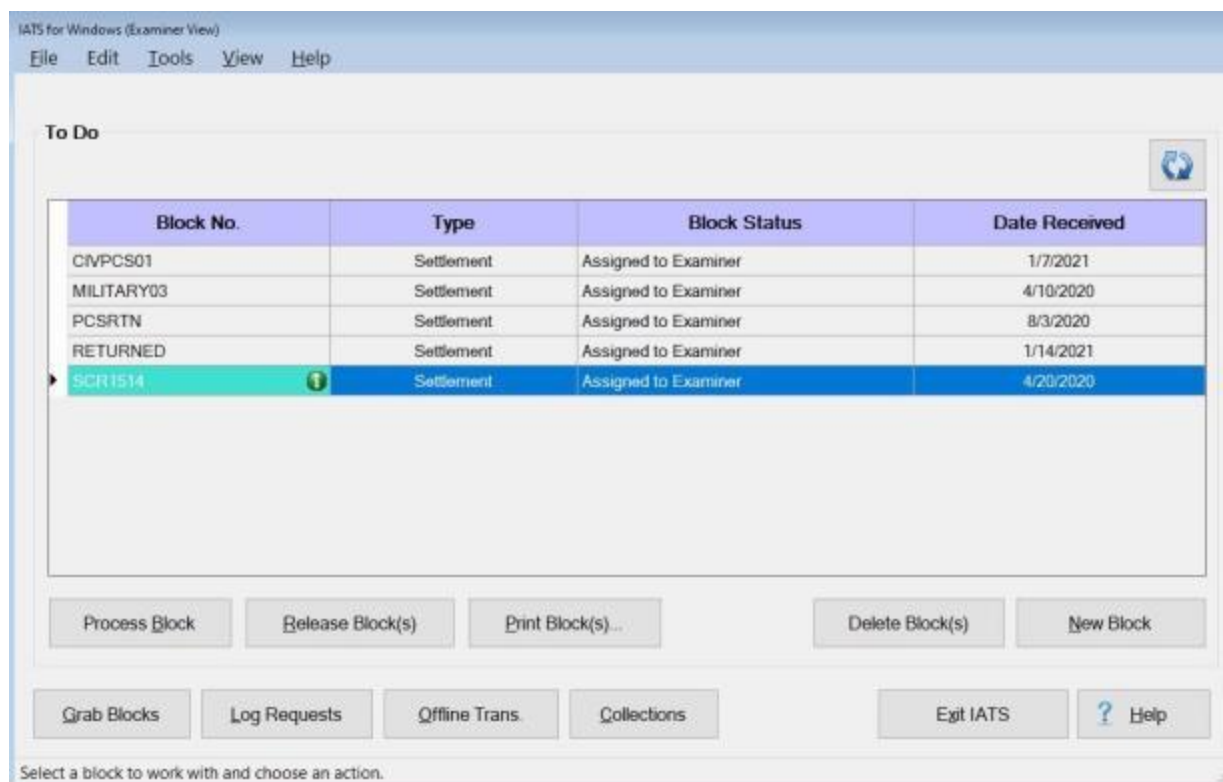

1. At either the **Examiner View** screen, the **Auditor View** screen or the **Request Selection** screen, **right click** on the **Block** or **Settlement Request** you wish to use.
2. The **IATS Note Pad** screen is displayed.

3. **Select background color:** - You will **notice** that **Transparent** is the default color when the **IATS Note Pad** screen is displayed.
4. If you wish to **add a background color** to a Block or Settlement Request, **click** on the **down arrow** button at the **Select background color** field where **Transparent** is shown above.
5. IATS will display a *drop down list* of colors at the **Web** tab. **Note** that you can **click** on the **System** tab for another list of colors or **click** on the **Custom** tab if you wish to create a custom color.
6. **Click** on the *Up/Dn arrow* buttons or **drag** the **slider bar** on the right side of the list to **scroll up** or down the list of colors.
7. **Click** on the desired **color** to make a **selection**.

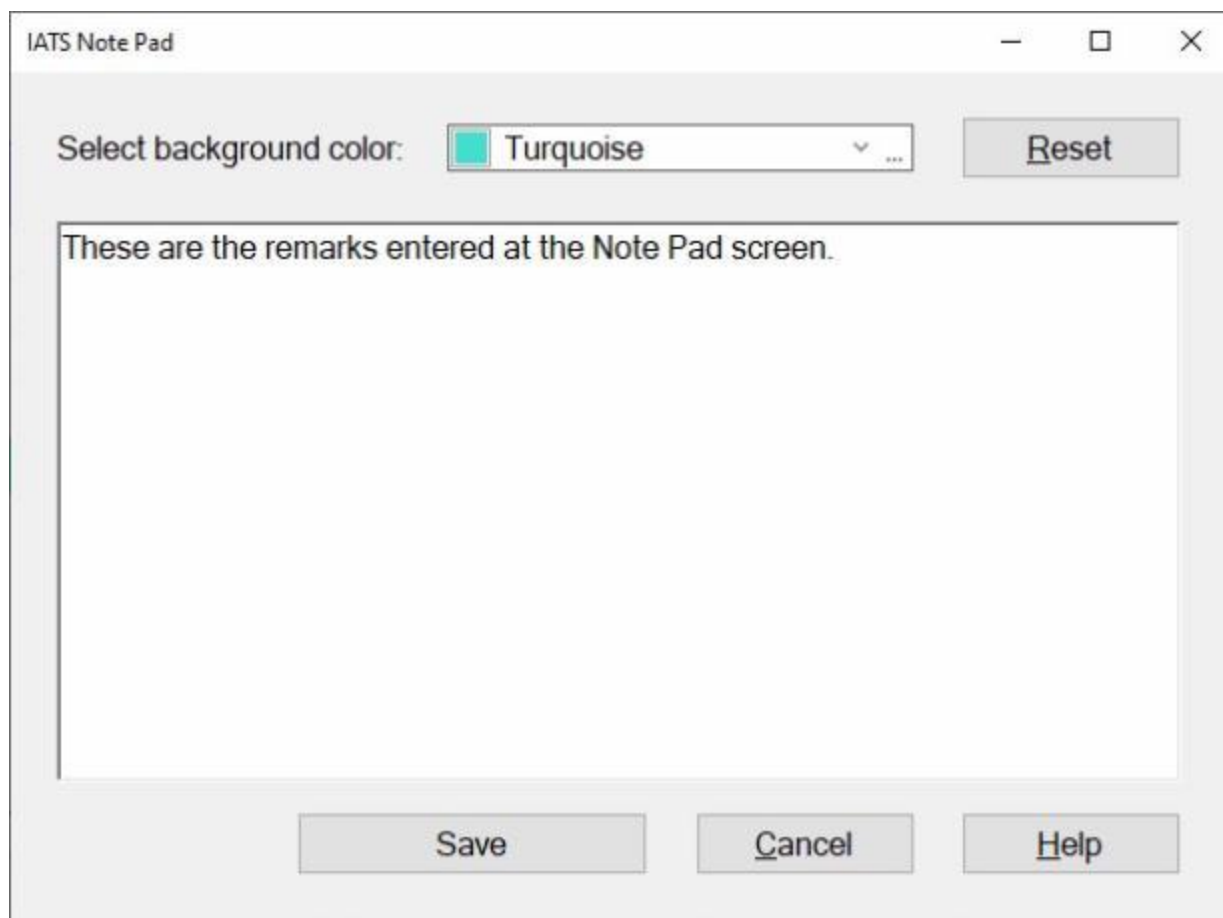

Note: It is highly recommended that you do not use the colors **Red** or **Yellow** since IATS already uses these colors to emphasize **Returned** items and **Auditor Remarks**.

8. **Click** in the **Text Box** and **enter** any desired **Comments/Remarks**.
9. When you have **finished** adding a color and/or text, **click** on the **Save** button.

Note: After you have finished adding a color and/or text, IATS will return to the **Examiner View** screen, the **Auditor View** screen, or the **Request Selection** screen. You will now see the **color** that was selected as a background for the **Block number** or the **Traveler's Name**. In addition, you will see a green information icon in the **Block No.** or **Name** field if **Comments/Remarks** were added at the IATS Note Pad screen.

- If you see a green information icon in the **Block No.** or **Name** field you can **right click** on the **Block Number** or **Settlement Request** to display the IATS Note Pad screen so you can **read** the **Comments/Remarks** as shown below.

11. If you wish to **remove** the **background color** and/or **text** from the Block or Settlement Request. **Click** on the **Reset** button at the IATS Note Pad screen.
12. If you **click** on the **Reset** button and then **click** on the **Save** button, IATS **removes** the **color** and **text** and **returns** to **Examiner View** screen, the **Auditor View** screen, or the **Request Selection** screen as shown below.

Grab Blocks Log Requests Offline Trans. Collections Exit IATS ? Help

Select a block to work with and choose an action.

Disbursing Functions

Grab Blocks

Before a **block** of requests can be processed, the block must be **assigned** to an IATS user. The most common method of assigning a block, is for the user to "**grab**" the desired block from those available. After in-coming claims are **logged** to a block or when a block is **released** for further processing, the block resides in a **pool** awaiting assignment.

 **Complete the following steps to "grab" a block:**

1. At the **Examiner, Auditor, or Disbursing View** screen, **click** on the **Grab Blocks** button and the **Block Selection** screen appears.

Block No.	Office	Type	Block Status	Status Date	Who Has It
MILITARY04	OFFICEONE	Settlement	Awaiting Audit	1/7/2021	

Select All Unselect All

Print... End Block: OK Cancel ? Help

2. Select a block by **double clicking** on the desired block or by **clicking** on the block **once** and then **clicking** the **OK** button.

Tip: Users may select all of the blocks listed by **clicking** on the **Select All** button. To **void** a selection, **click** the **Unselect All** button.

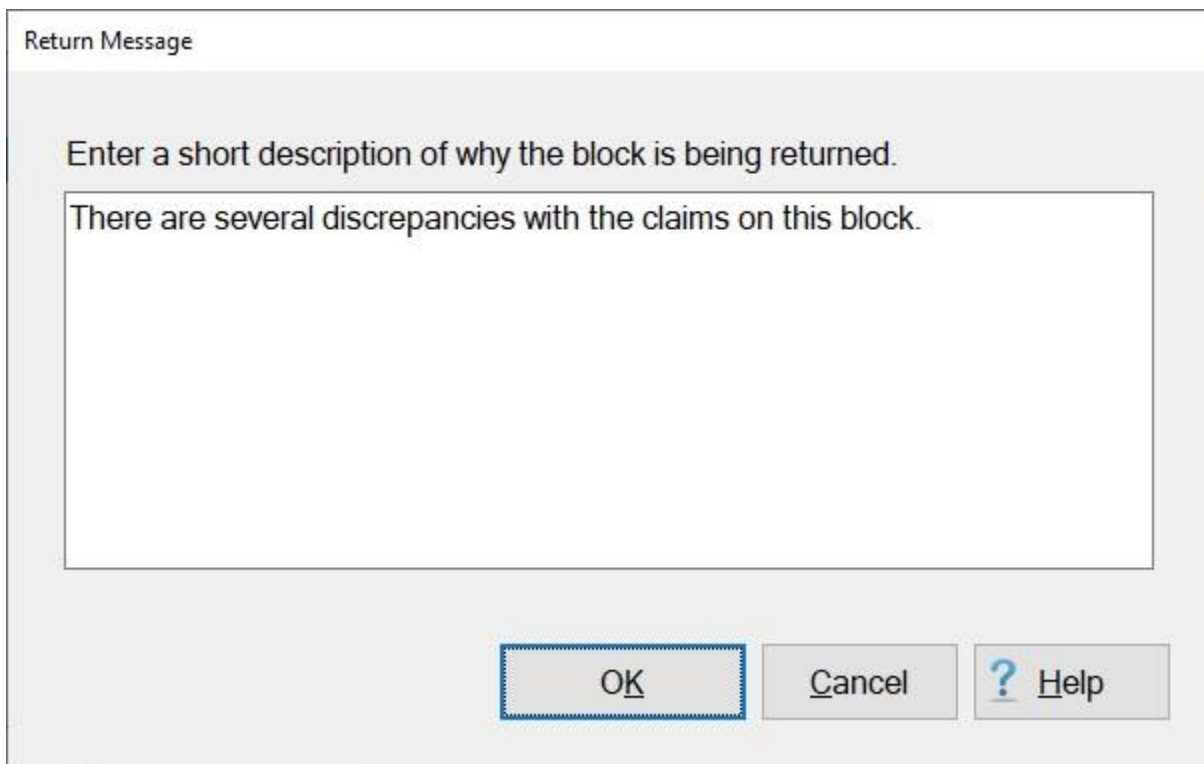

3. After selecting a block, the **Confirmation Password** screen appears. **Complete** the **process** by **typing** your assigned **Confirmation Password** at the **Enter Password** field and then **click** on the **OK** button.

Return Blocks

Once the **Disbursing** clerk has **received** and **grabbed** a block for Disbursement Processing, a **review** should be performed to be sure that the block is **ready** for disbursement. If a **problem** is discovered, the block may have to be **returned** to the voucher **examiner** or **auditor** for **corrections** or **review**.

 Complete the following steps to "return" a block:

1. At the **Disbursing View** screen, **click** on the **Send to Disbursing** tab and then **click** desired **block** listed under the heading "**Blocks Available for Processing**".
2. After **selecting** a block, **click** on the **Return Block(s)**. The **Confirmation Password** screen appears.
3. **Type** the confirmation **password** at the **Enter Password** field and then **click** the **OK** button. The **Return Message** screen appears.

Return Message

Enter a short description of why the block is being returned.

There are several discrepancies with the claims on this block.

OK Cancel ? Help

4. At this screen, **type** a brief **message** explaining **why** the block is being returned and **what** action to take, then **click** the **OK** button.

Tip: When the voucher examiner **sees** the **returned block** listed at the **Examiner View** screen, the **message** that was entered by the disbursing clerk is **displayed** at the **bottom** of the screen.

Viewing Blocks in the Disbursing View

Before processing a block, the Disbursing clerk may want to **view** the block to determine what **types of payments** the block contains.

 Complete the following steps to "view" a block:

1. At the **Disbursing View** screen, click on the listed **block** that you wish to view and then click the **View Block** button. The **Request Selection** screen appears.

Request Selection

For Official Use Only

Other... Print Block Ticket Print Request(s)... Done ? Help

2. At the **Request Selection** screen, all requests assigned to the block are **listed**.
3. If **finished** reviewing the block, click the **Done** button.

Tip: The user may also **view** the input **screens** for the **requests** if desired.

 Complete the following steps to "view" a request:

1. At the **Request Selection** screen, **select** a **request** through one of the following **methods**:
 - **Method 1:** - **Double click** on the desired request.
 - **Method 2:** - **Click** on the request **once** and then **click** the **View** button.
2. After selecting a request using one of the methods listed above, the **Settlement Request** or **Advance Request** screen appears.
3. At this screen, **click** on the appropriate **tab** to **view** the necessary input **screen**.

Tip: If needing to **view** the **Itinerary** or **Reimbursables** tab, **click** on the **Entitlements** tab, **click** on the listed **entitlement** or **expense**, and then **click** on the **View/Modify** button. The **Itinerary** and **Reimbursables** tab will then be visible.

4. When **finished** viewing the desired input screens, **click** on the **OK** button at the **Settlement Request** or **Advance Request** screen. IATS **returns** to the **Request Selection** screen.

5. Click the **Done** button to **return** to the **Disbursing View** screen if finished viewing the block.

Print Blocks

After an advance or settlement request is processed, IATS will produce an approved computer facsimile of the **DD Form 1351** and **1351-2**. In addition, IATS also produces a facsimile of **Optional Form 1164** for local vicinity travel.

The IATS generated forms are referred to as the **Advance Voucher Summary** and the **Travel Voucher Summary**.

IATS also produces the **Advance Audit Voucher** and the **Travel Voucher Audit** documents. Audit vouchers provide a printed display of the input made by the voucher examiner.

Note: Blocks may be printed by a user in the **Examiner, Auditor, Disbursing** or **System Administrator** view mode.

Complete the following steps to "print" a block:

1. At either the **Examiner, Auditor, or Disbursing View** screen, **select** the **block(s)** to be printed by **clicking** on the desired block(s) listed in the grid.

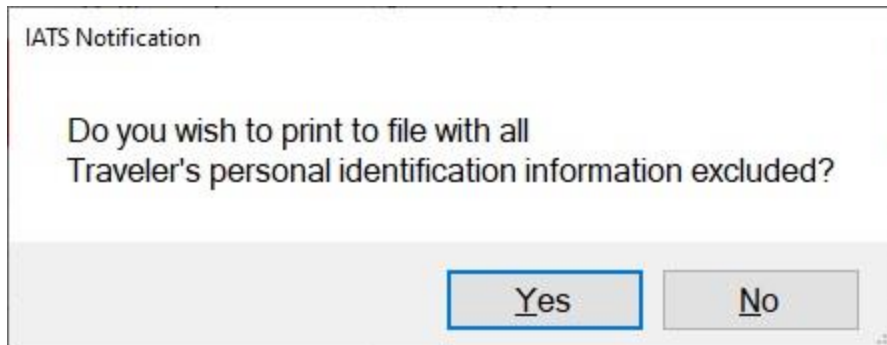

Tip: More than one block may be selected. To select consecutively listed blocks, **click** on the first block you wish to print. **Press** and **hold** down the **Shift** key and then **click** on the last block you wish to print. IATS will **highlight** all of the blocks between the first and last selections. To select **multiple** blocks that are not listed consecutively, **press** and **hold** down the **Ctrl** key and then **click** on the **blocks** you wish to print. IATS will **highlight** all of the selected blocks.

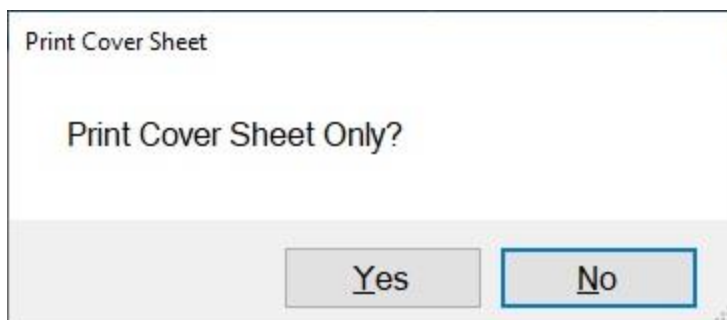

2. After selecting the block(s) to be printed, **click** the **Print Block(s)** button or **click** on the **File** menu and select the **Print Block(s)** option. The following *drop down Print* menu appears:

Print Vouchers with Collection Letters
Print Audits with Collection Letters
Print Vouchers without Collection Letters
Print Audits without Collection Letters
Print PDF Voucher to DB
Print PDF Voucher to File
Email Voucher
Email Audit

3. At the *drop down* Print menu, **click** on the desired option. The following *pop-up message* will appear asking if you would like to print with the traveler's personal identification **excluded**.

4. **Click** on *Yes* or *No* as desired. The following *pop-up message* will appear asking if you would like to print the **cover sheet** only.

5. **Click** on *Yes* or *No* as desired.
6. If you answer *Yes*, will generate a **PDF** file as usual and the **Adobe Acrobat Reader** screen will appear next displaying the selected print option.

WE CERTIFY THAT YOUR CLAIM HAS
BEEN REVIEWED FOR ACCURACY.

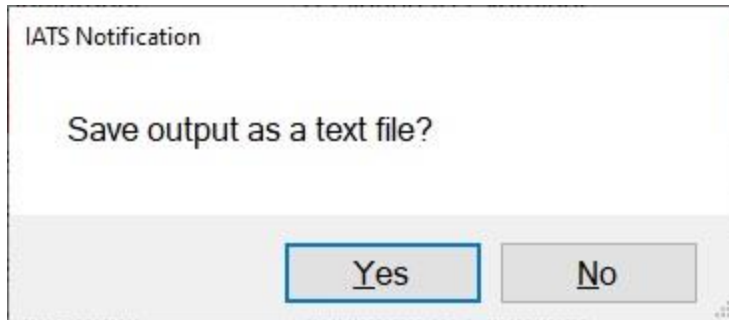

6. **Click** on the **Printer icon**. The **Print** screen appears.

7. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
8. **Select** the **number of copies** you wish to print and then **click** on the **Print** button.
9. IATS prints the block(s) and returns to the **Adobe Reader** screen.
10. If you are finished using the **Adobe Reader**, **click** on the **red X** button in the top right corner to close the screen.

11. If you answer *No*, The following *pop-up message* will appear asking if you wish to **save** the output to a **text file**.

12. Click on Yes or No as desired.
13. If you click on No, IATS will generate a PDF file as usual and the Adobe Acrobat Reader screen will appear next displaying the selected print option.
14. If you click on Yes, the following Saved Output screen will appear.

15. At the Saved Output screen select the directory/folder to store the saved text file.
16. Enter a name for the text file you are saving at the File name field.
17. Click on the Save button.

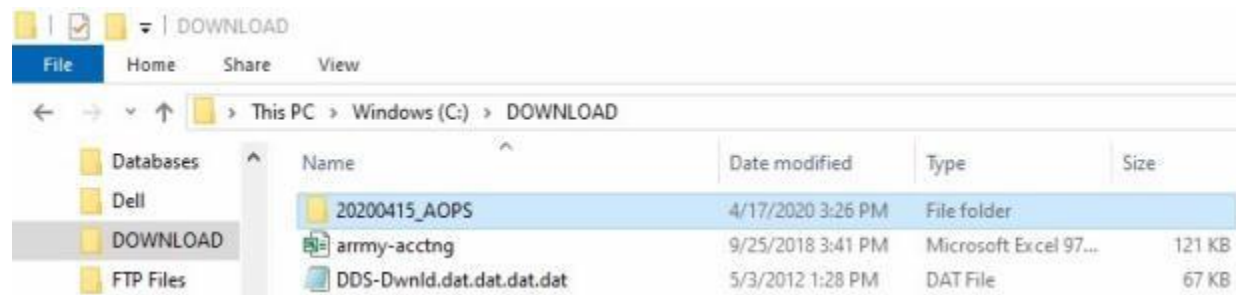

Note: If you click on Cancel, IATS will generate a PDF file as usual and the Adobe Acrobat Reader screen will appear next displaying the selected print option.

Exporting Advice of Payments

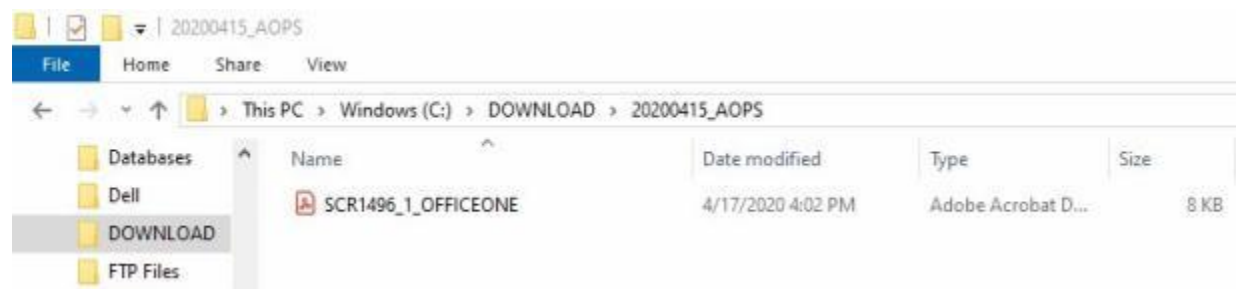

There is a feature in IATS that will **generate** an Advice of Payment (**AOP**) file for **every claim** that has been **downloaded** from the Disbursing System or when a **DOV#** has been **manually posted**. In addition, IATS can **export** these AOP files to a **directory** for **retention**.

Note: IATS will create a **folder** based on the specified **download date** and place it in the **drive/directory** specified in **maintenance** for your **download** files. The folder created by IATS will contain an **AOP file** for **each claim** that was downloaded on the specified download date.

If you navigate to the **drive/directory** specified in **maintenance** for your **download** files, you will find the **folder** created by IATS containing the AOPs as shown below.

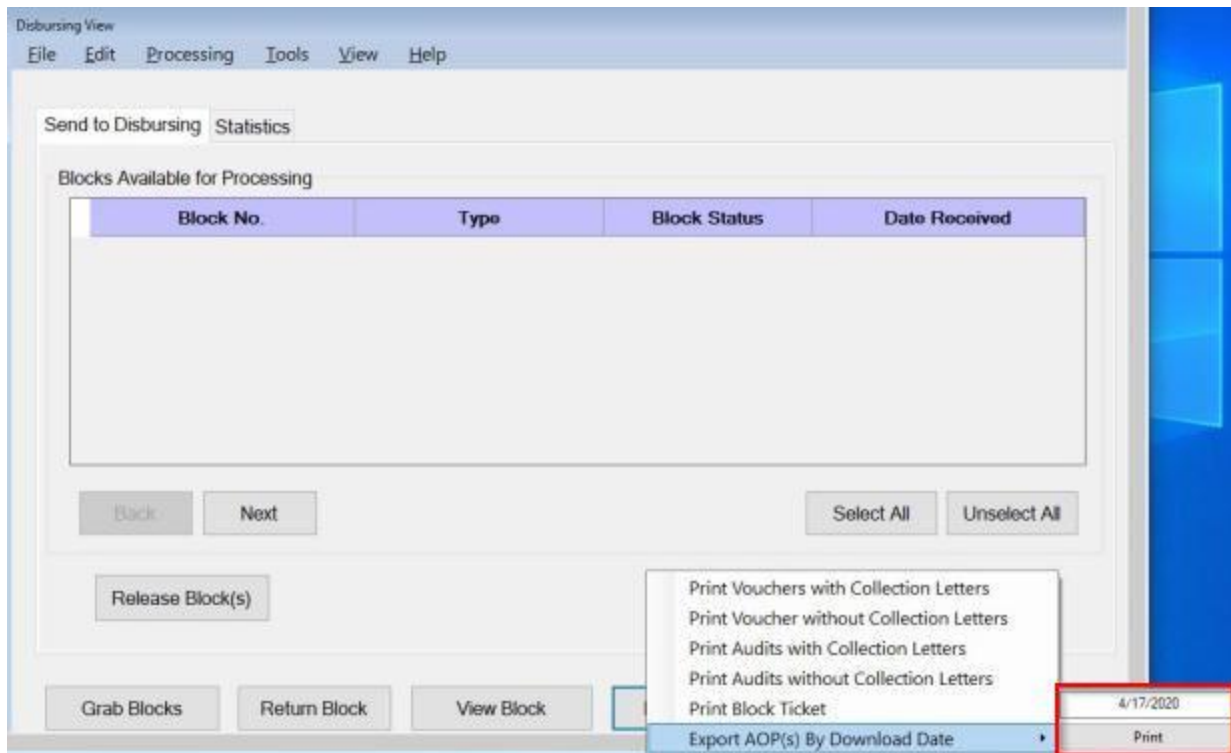

If you double click on the **AOPs folder** to open it, you will see the individual **AOP files** for each claim as shown below.

Notice that the AOP file naming convention will be the **Block Number**, the **Detail ID** for the claim, and the **Office Name**.

 **Complete the following steps to "export" AOP files:**

1. At the **Disbursing View** screen, **click** on the **Print Block(s)** button. The following *drop down Print* menu appears:

2. **Click** on the **Export AOP(s) By Download Date** option. You will see a new sub-menu appear displaying the current date and a **Print** option.
3. The **date** will **default** to the **current date**. If you wish to **change** the date, however, **click** in the **date** field and **enter** the desired date in **MMDDYY** format.
4. After you are **satisfied** with the download date, **click** on the **Print** button. IATS will **display** the following **Advice of Payment Log** screen showing you the **results**.

Advice of Payment Log

Advice of Payments Printed

Block	Order Number	SSN	Name	Claim No.	Error
12AA11	12AA11	010-01-5252	JACKSON, LARRY D	14	

Advice of Payments Not Printed

Block	Order Number	SSN	Name	Claim No.	Error
-------	--------------	-----	------	-----------	-------

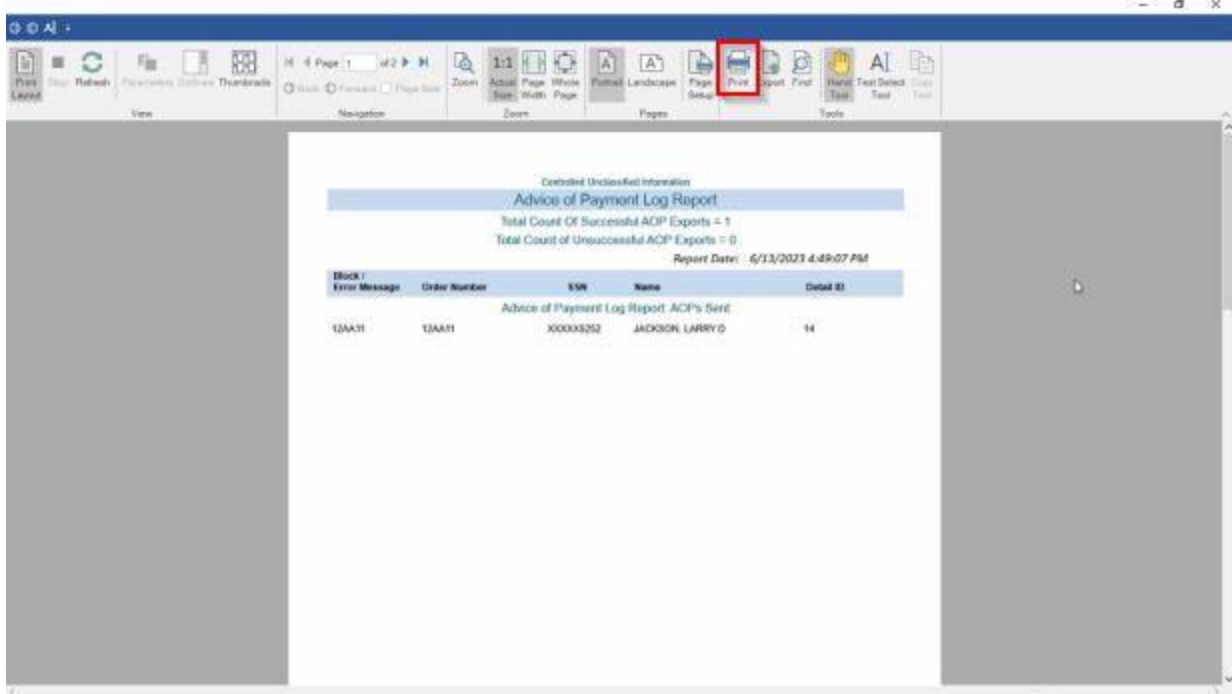

Print / Export OK

5. If you wish to have a **print-out** of the **Advice of Payment Log Report** or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up* menu will appear allowing you to select **PDF** or **Excel**.

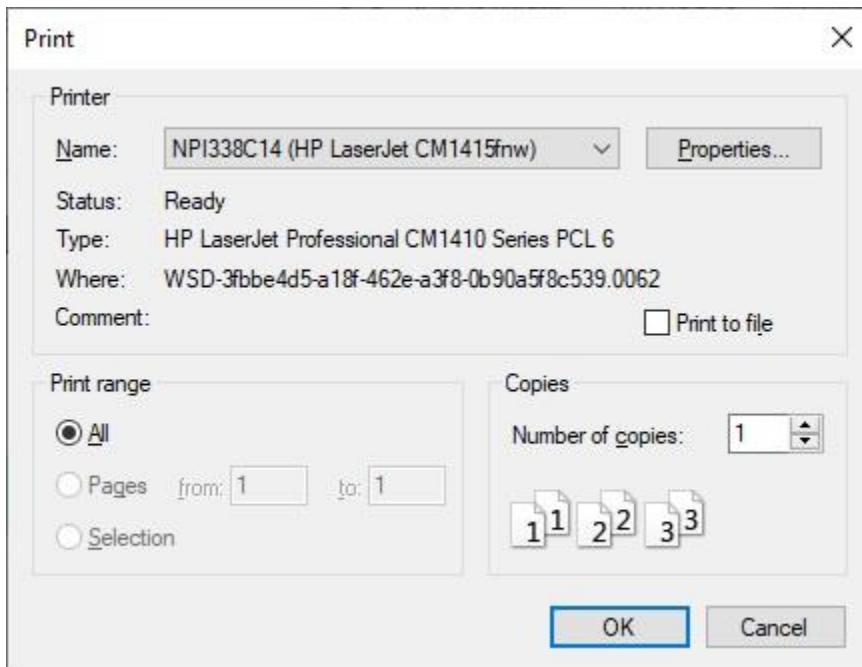

Print:

1. **Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear displaying the **Advice of Payment Log Report**.

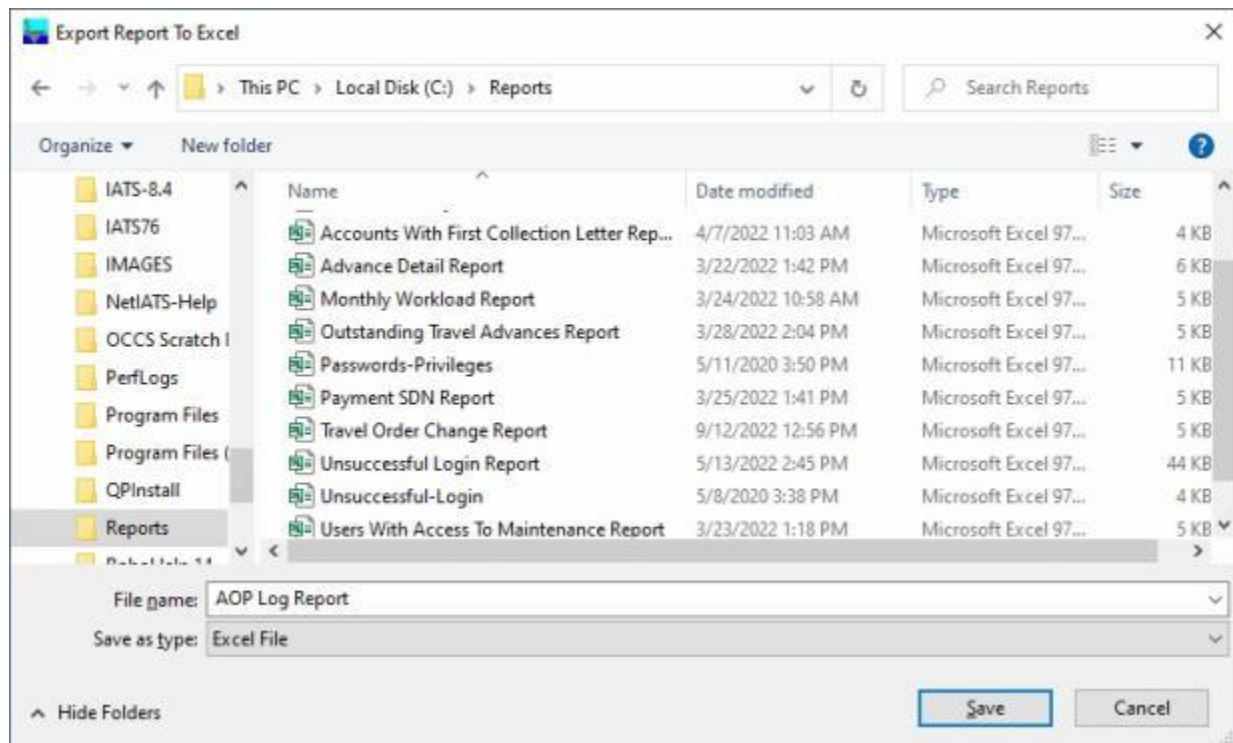

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. Click on the **Excel** option, IATS will display the **Export Report to Excel** screen.

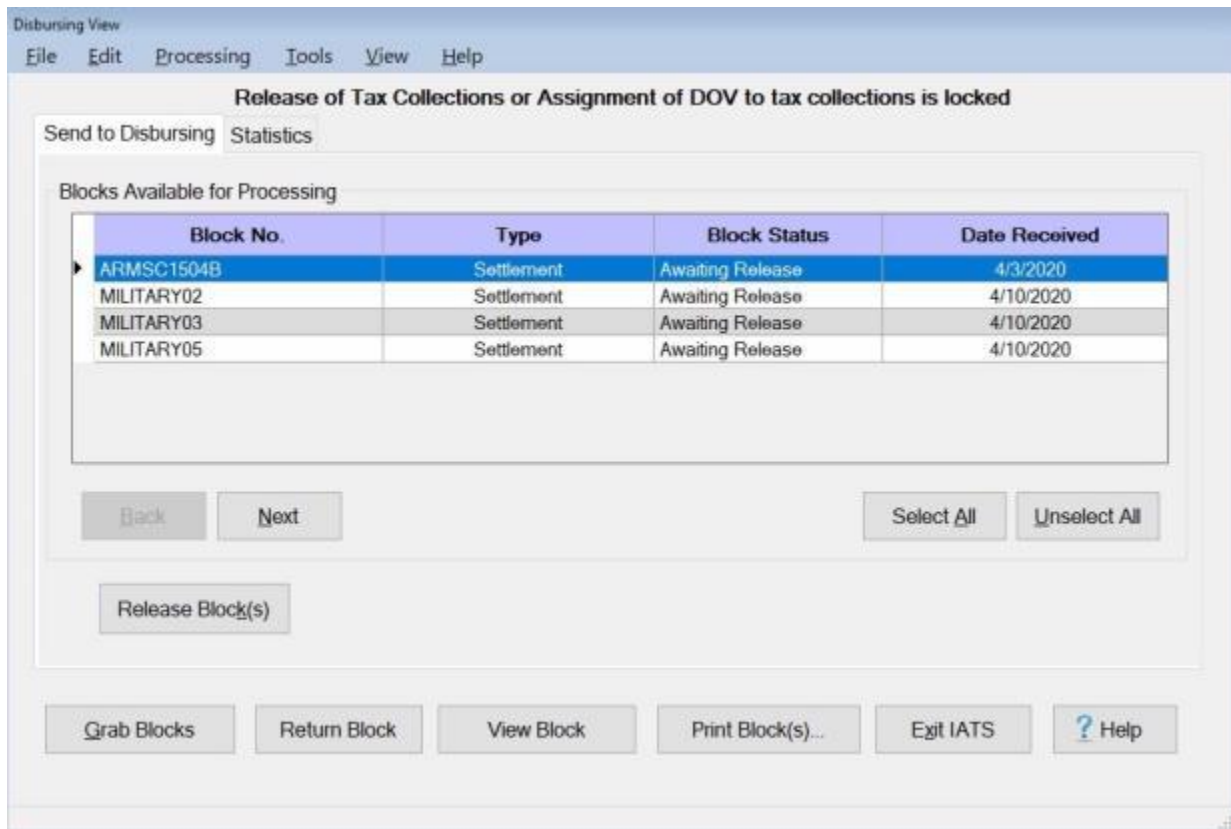

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are **finished** using the **Advice of Payment Log** screen, **click** on the **Close** button to **return** to the **System Administrator View** screen.

Release Blocks to Disbursing

All **block(s)** that have been **grabbed** by or **assigned** to the **Disbursing** clerk are **listed** at the **Disbursing View** screen. **Initially**, the block **status** is shown as "**Awaiting Release**". The Disbursing clerk must **release** the block(s) and **change** the **status** to "**Released For Disbursement**" **before** attempting to **perform** the various disbursing **processes**.

 **Complete the following steps to "release" a block:**

1. At the **Disbursing View** screen, if **not** already in focus, **click** on the **Send to Disbursing** tab. **All** blocks in the status "**Awaiting Release**" will be **listed**.
2. **Click** on the listed **block** that you wish to release.

Tip: If there is more than one block you wish to release, multiple blocks can be selected by pressing and holding down the **Shift** key and **clicking** on the additional blocks.

3. When the desired block(s) selection is complete, **click** on the **Release Block(s)** button. The **Confirmation Password** screen will appear.

Enter Confirmation Password

Enter Password:

OK Cancel ? Help

4. At the **Confirmation Password** screen, **type** your confirmation password at the **Enter Password** field and then **click** the **OK** button.

Assign DOV#s

Travel offices often use IATS to **assign DOV #'s** to travel **payments** without printing checks or creating an EFT transmission file. This is easily accomplished through the **Assign DOV Numbers** module.

Note: This feature is for use by **Air Force** customers only. For **Air Force** travel offices, this is the standard practice.

 **Complete the following steps to "automatically assign" DOV#s:**

1. At the **Disbursing View** screen, **click** on the **Grab Blocks** button and the **Block Selection** screen appears.

Block Selection - Grabbing Blocks to be Disbursed from the Disbursing Pool (ORIGINAL MASTER DATABASE)

Block No.	Type	Block Status	Status Date
TDY2	Settlement	Awaiting Release	10/26/2018

Select All Unselect All

Print... OK Cancel ? Help

2. Select a block by **double clicking** on the desired block or by **clicking** on the block **once** and then **clicking** the **OK** button.
3. After selecting a block, the **Confirmation Password** screen appears. Complete the process by **typing** your assigned **Confirmation Password** at the **Enter Password** field and then **click** on the **OK** button.
4. At the **Disbursing View** screen, **click** in the **Disb. Date** field and **enter** the **disbursement date** for the DOV numbers you are assigning. You can also **click** on the **down arrow** button and use the **calendar** to select the date.
5. **Click** on the **Assign DOV(s)** button. The following **message** appears asking if all other users are **logged off**.

DOV Assignment

Are Users Logged off (Required Before DOV's can be assigned)

6. After **ensuring** that all other users are logged off, **click** on the **Yes** button. IATS automatically assigns the next available DOV#, based on the information entered at the **Maintain DOV Number Assignment** screen in the **Maintenance** module.
7. The following message will appear indicating the DOV processing process is **complete**.

8. **Click** on **OK** to continue.
9. The **status** of the block will now be **Completed** and the block is **available** for **uploading** to **CDS**.

Manually Assign DOV#s

The **Cash Disbursement Module** of IATS is used to assign DOV #s to **cash** and **zero dollar** amount payment **vouchers**. In addition, this module is also used to manually post DOV #s and **check numbers** that **rejected** on the disbursing system **download** interface.

 Complete the following steps to "manually assign" DOV#s:

1. At the **Disbursing View** screen, **click** on the **Processing** menu and then **click** on the **Cash Disbursements/Manual DOV's** option. The **Select Traveler** screen appears.
2. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**.
3. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. The **Travel Order Selection** screen appears.
4. At the **Travel Order Selection** screen, any **orders** for the selected traveler are **listed** under the **Order** section. **Select** an order through one of the following methods:
 - **Method 1:** - **Double click** on the desired order **number**.
 - **Method 2:** - **Click** on the order number **once** and then **click** the **OK** button.
5. After selecting the travel order, the **Cash Disbursements and/or Manual DOV Assignment** screen **appears**.

Payment Date: DOV #: Check/Sched #:

Remarks:

Click this button to save information

6. **Payment Date:** The current date **defaults** to this field. If this date is incorrect, **type** the correct date in **MMDDYY** format. You can also **click** on the *down arrow* button and use the **calendar** to select the date.

7. **DOV#:** Click in this field and **type** the DOV **number** assigned to the payment.
8. **Check/Sched#:** If applicable, **click** in this field and **type** the US Treasury **check number** or **EFT trace number** assigned to the payment.
9. **Remarks:** Click in this field and **type** any desired **remarks**.
10. When **finished** entering the required information at this screen, **click** the **OK** button. IATS **returns** to the **Disbursing View** screen.

DOV Log

When IATS is used to assign **DOV#s** to travel payments, the assigned numbers are **written** to the **DOV Log Report**.

Note: This feature is for use by **Air Force** customers only.

 **Complete the following steps to "generate" the DOV Log report:**

1. At the **Disbursing View** screen, **click** on the **DOV Processing** tab.
2. At the DOV Processing tab, **click** on the **DOV Log** button. The **DOV Log** screen appears.

DOV #	Employee ID	Name	Order No.	Amount	Date Assigned	Date Voided

Note: When the **DOV Log** screen appears, users can **manipulate** the report by **adjusting** the **Beginning** and **Ending** dates for the report period. In addition, users may generate the report for **collection vouchers** only. Users may also **clear** the log report.

3. **Beginning Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** to display the IATS **calendar**. Once the IATS calendar is displayed, users can adjust the **month** and **year** by **clicking** on the **left/right arrows** at the **top** of the calendar **screen**. The **day** can be selected by **clicking** on the desired **date** once the correct **month** and **year** have been selected.
4. **Ending Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** to display the IATS **calendar**. Follow the **instructions** explained in step (3) above if wishing to use the IATS **calendar** to adjust the Ending date.
5. **CV's Only:** - **Click** in the **box** next to this field if wishing to generate a DOV Log for **collection vouchers** only.

6. **Show Log:** - Once the **Beginning** and **Ending** dates have been selected, **click** on the **Show Log** button to **generate** the DOV Log report.

DOV Log

Clear DOV Log Rcds

Clear on or before

7. **Print Log:** - Once the DOV Log report is displayed, **click** on the **Print Log** button to **generate** a **printed** DOV Log report.
8. **Clear DOV Log Rcds:** - If wishing to **clear** the entire DOV Log report, **click** on the **Clear** button.
9. **Clear on or before:** - If wishing to **clear** only the records on or before a particular date, **type** the desired **date** in **MMDDYY** format or **click** on the *down arrow* to display the IATS **calendar**. Follow the **instructions** explained in step (3) above if wishing to use the IATS **calendar** to adjust the **Clear on or before date**.
10. When **finished** using the DOV Log screen, **click** on the **Exit** button to **return** to the **DOV Processing tab**.

Display User Initials

Often times, key travel office personnel have a **question** when viewing a claim as to **who** the **initials** belong to that **processed** or **audited** a particular claim. Without going into **Maintenance** and viewing the **Users Passwords and Privileges** table, there is no easy way to determine this information.

For this reason, an **option** has been added to the **Tools** menu on the **Auditor**, **Disbursing**, and **System Administrator** view screens that allow you to easily **display** this information.

 Complete the following steps to "display" user initials:

1. On either the **Auditor**, **Disbursing**, or **System Administrator** view screen, **click** on the **Tools** menu.

2. A *sub-menu* appears listing several options.
3. **Click** on **User Initials**. The **Existing User ID's** screen appears.

4. **Notice** that the Existing User ID's screen displays **initials** in the left hand column and the user's **name** in the far right hand column.
5. When **finished** using the Existing User ID's screen, **click** on **OK** to return to the previous screen.

Disbursing Reports

Disbursing Reports Overview

Included in the IATS **Disbursing** Module are various statistical **reports** designed to assist Travel **supervisors** with management operations. By using these reports, travel supervisors can easily prepare production **reports**, answer inquiries and manage DOV # assignments.

The following reports are available in the disbursing module depending on how IATS is **configured** for disbursing **interfaces**:

- [Block Summary](#)
- [Block Details](#)

Block Statistics - Summary

The **Block Statistics Summary** report provides travel supervisors with a great deal of **information** regarding the **payments** on a given block ticket. This report **lists each block**, plus **displays the status and information** about the **transactions** contained in the block.

 Complete the following steps to "generate" the **Block Statistics - Summary** report:

1. At the **Disbursing View** screen, **click** on the **Statistics** tab.
2. At the Statistics tab, every block in the database in the status "**Awaiting Release**" or "**Release for Disbursement**" is listed.
3. **Click** on the **block** you wish to generate the details report for. IATS **highlights** the selected block.
4. When the desired **block** is highlighted, **click** on the **Summary** button. The **Disbursing Block Statistics** screen appears.

Disbursing Block Statistics

Block			Statistics				
Block Number	User Who Disbursed	Status	Total	Checks	EFTs	Cash	Other
TDY1		Completed 2/2/2021	1	1	0	0	0
[Totals]		\$749.92					

Print Done ? Help

Tip: Generate a **print-out** of the **Block Summary Report** by **clicking** on the **Print** button.

5. When **finished** printing or reviewing this report, **click** on the **Done** button to **return** to the **Statistics** tab.

Block Statistics - Details

The **Block Statistics Details** report provides travel supervisors with a great deal of **information** regarding the **payments** on a given block ticket. This report **lists each claim** by **SSN** and **travel order number** for the selected block, plus displays payment details. In addition, the block ticket is **summarized** by the **number** and **type** of payments.

 Complete the following steps to "generate" the **Block Statistics - Details** report:

1. At the **Disbursing View** screen, **click** on the **Statistics** tab.
2. At the Statistics tab, every block in the database in the status "**Awaiting Release**" or "**Release for Disbursement**" is listed.
3. **Click** on the **block** you wish to generate the details report for. IATS **highlights** the selected block.
4. When the desired **block** is highlighted, **click** on the **Details** button. The **Disbursing Block Statistics** screen appears.

Disbursing Block Statistics

Summary								
Block			Statistics					
Block Number	User Who Disbursed	Status	Total	Checks	EFTs	Cash	Other	
TDY1		Completed 2/2/2021	1	1	0	0	0	
[Totals]		\$749.92						

Details						
SSN	TONO	Type	DOV #	Check /Sched. #	Amount	Status
111881111	020221	Normal	00000001		\$749.92	Completed
				Total Amt	\$749.92	

Print Done ? Help

Tip: Generate a **print-out** of the **Block Details Report** by **clicking** on the **Print** button.

5. When **finished** printing or reviewing this report, **click** on the **Done** button to **return** to the **Statistics** tab.

System Administrator Functions

Unlocking Locked Records

Unlocking Logins

When operating IATS in a networked environment, all **logins** will be **blocked** when the System Administrator is performing functions such as processing downloads, backing up the database, and updating rates.

A feature has been added to IATS that allows the System Administrator to **allow** logins to **resume** if the process that was being performed **terminated prior to completion**.

 **Complete the following steps to "un-lock" blocked logins:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, "**Unlocking Locked Records**". An expandable menu appears listing several options.
2. **Click** on the **Unlock Logins** option. A *pop-up* appears indicating that Logins are now allowed.

3. **Click** on the **OK** button and IATS **returns** to the **System Administrator** menu.

Unlocking Users

When operating IATS in a networked environment, a system failure may cause **user accounts, traveler records, blocks, DOV's, or CEFMS download files** to be **locked**. When this situation occurs, the **System Administrator** must log into IATS and **un-lock** the locked **item** in order to continue the operation.

When operating IATS in a standalone environment, a users account will be **suspended** after **3 unsuccessful** attempts to login and must be un-locked.

 Complete the following steps to "un-lock" user accounts:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, "**Unlocking Locked Records**". An expandable menu appears listing several options.
2. **Click** on the **Unlock User** option. The **Select Locked IATS Users** screen appears.

Select Locked IATS Users

Locked Users	Who Locked
▶ JOHN - JONES, JONNIE J	Logged In?

Find Locked Item:

Unlock Exit ? Help

At this screen, any **user** account currently locked by IATS is **displayed**.

3. **Click** on the **user** you wish to **unlock**. IATS **highlights** the selected user.
4. When the user you wish to unlock is highlighted, **click** on the **Unlock** button. IATS **unlocks** the selected user.
5. **Click** on the **Exit** button to **return** to the **System Administrator** menu when you are finished unlocking users.

Unlocking Oracle Users

This option is used to **unlock** users that have been **locked** or **expired** by the **Oracle** server for any reason and do not appear as **locked** in the IATS **Locked Users** screen.

 Complete the following steps to "un-lock" Oracle user accounts:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, "**Unlocking Locked Records**". An expandable menu appears listing several options.
2. **Click** on the **Unlock Oracle Users** option. The **Select Locked/Expired Oracle Users** screen appears.

Select Locked/Expired Oracle Users

Unlock Exit ? Help

At this screen, any Oracle user account currently locked by IATS is **displayed**.

3. **Click** on the **item** you wish to **unlock**. IATS **highlights** the selected item.

IATS 8.7.1 User Guide

4. When the item you wish to unlock is highlighted, **click** on the **Unlock** button. IATS **unlocks** the selected item.
5. **Click** on the **Exit** button to **return** to the **System Administrator** menu when you are finished unlocking users.

Unlocking Suspended Users

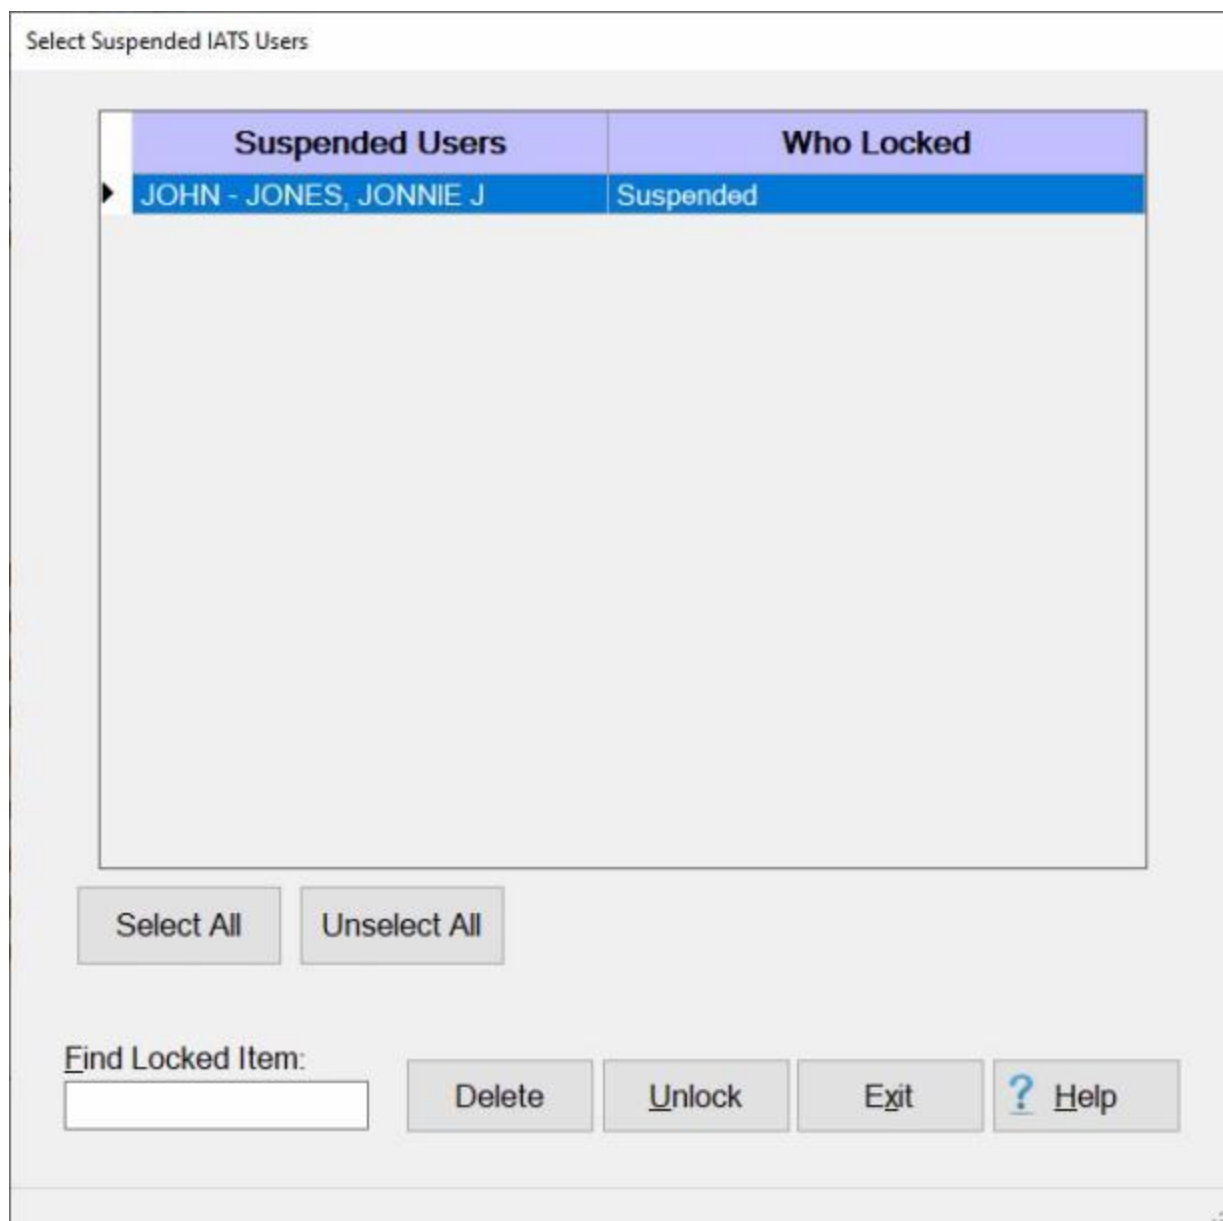

IATS user accounts are **suspended** (locked) if there is no activity for **30** days or if they have **exceeded** the allowed number of **login** attempts.

Note: User accounts that are suspended will not appear on the **Maintain User Passwords and Privileges** screen in the Maintenance module unless you are logged in with the **System** user ID.

 **Complete the following steps to "un-lock" suspended user accounts:**

Note: You can only perform this feature by logging into IATS with **System** user ID.

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, "**Unlocking Locked Records**". An expandable menu appears listing several options.
2. **Click** on the **Unlock Suspended User** option. The **Select Locked Items** screen appears.

At this screen, any user account currently Suspended/locked by IATS is **displayed**.

3. **Click** on the **item(s)** you wish to **unlock**. IATS **highlights** the selected item.
4. When the item(s) you wish to unlock are highlighted, **click** on the **Unlock** button. IATS **unlocks** the selected item(s).
5. **Click** on the **Exit** button to **return** to the **System Administrator** menu.

Unlocking Travelers

When operating IATS in a networked environment, a system failure may cause **user accounts, traveler records, blocks, DOV's, or CEFMS download files** to be **locked**. When this situation occurs, the **System Administrator** must log into IATS and **un-lock** the locked **item** in order to continue the operation.

 Complete the following steps to "un-lock" traveler accounts:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, "**Unlocking Locked Records**". An expandable menu appears listing several options.
2. **Click** on the **Unlock Traveler** option. The **Select Locked Items** screen appears.

Select Locked Travelers

Find Locked Item:

At this screen, any traveler account currently locked by IATS is **displayed**.

3. **Click** on the **item** you wish to **unlock**. IATS **highlights** the selected item.
4. When the item you wish to unlock is highlighted, **click** on the **Unlock** button. IATS **unlocks** the selected item.
5. **Click** on the **Exit** button to **return** to the **System Administrator** menu when you are finished unlocking travelers.

Unlocking Blocks

When operating IATS in a networked environment, a system failure may cause **user accounts, traveler records, blocks, DOV's, or CEFMS download files** to be locked. When this situation occurs, the **System Administrator** must log into IATS and **un-lock** the locked **item** in order to continue the operation.

 Complete the following steps to "un-lock" blocks:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, "**Unlocking Locked Records**". An expandable menu appears listing several options.
2. **Click** on the **Unlock Block** option. The **Select Locked Items** screen appears.

Select Locked Blocks

3. **Click** on the **item** you wish to **unlock**. IATS **highlights** the selected item.
4. When the item you wish to unlock is highlighted, **click** on the **Unlock** button. IATS **unlocks** the selected item.
5. **Click** on **Exit** to **return** to the **System Administrator** menu when you are finished unlocking blocks.

Unlocking CEFMS

When operating IATS in a networked environment, a system failure may cause **user accounts, traveler records, blocks, or CEFMS download files** to be **locked**. When this situation occurs, the **System Administrator** must log into IATS and **un-lock** the locked **item** in order to continue the operation.

The **Unlock CEFMS Download** option is a **feature** for use by **Army Corps of Engineers** customers only.

 Complete the following steps to "un-lock" the CEFMS download:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, "**Unlocking Locked Records**". An expandable menu appears listing several options.
2. **Click** on the **Unlock CEFMS Download** option. A *pop-up* appears indicating that the CEFMS download **file** is **unlocked**.

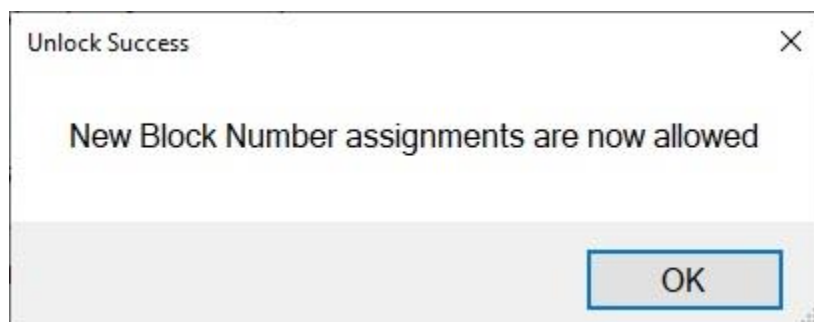

3. **Click** on the **OK** button and IATS **returns** to the **System Administrator** menu.

Unlocking Block Number Assignments

A new feature was added to IATS to give users the ability to **unlock** New Block Number Assignments when the Automatic Block Numbering feature is used.

 **Complete the following steps to "un-lock" New Block Number Assignments:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the words, **"Unlocking Locked Records"**. An **expandable menu** appears listing several options.
2. **Click** on the **Unlock Block Number Assignment** option. A **pop-up appears** indicating that New Block Number Assignments are now allowed.

3. **Click** on the **OK** button and IATS **returns** to the **System Administrator** menu.

Unlocking Batch Data

When operating IATS in a networked environment, a system failure may cause **user accounts, traveler records, blocks, or Batch Data files** to be **locked**. When this situation occurs, the **System Administrator** must log into IATS and **un-lock** the locked **item** in order to continue the operation. The **Unlock Batch Data** option is a **feature** for use by **Coast Guard** customers only.

 Complete the following steps to "un-lock" the Batch Data:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, "**Unlocking Locked Records**". An expandable menu appears listing several options.
2. **Click** on the **Unlock Batch Data** option. A *pop-up* appears indicating that the **Batch Data** records have been **unlocked**.

3. **Click** on the **OK** button and IATS **returns** to the **System Administrator** menu.

Block Processing

Assigning Blocks to an Examiner

On occasion, it may be **necessary** for a **System Administrator** to **assign** or **re-assign** a block to an **Examiner**. This normally occurs when all of the **requests** on a block are not processed and the **examiner** the block is assigned to is **absent**.

The unprocessed requests must be **reassigned** to another block if **immediate** processing is required.

Sometimes, rather than just **reassigning certain claims** to another block, it may be **necessary** to **reassign** an entire block.

 Complete the following steps to "assign" a block to an Examiner:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, "**Block Processing**". An expandable menu appears listing several options.
2. **Click** on the **Assign Blocks to an Examiner** option. The **Block Selection** screen appears.
3. At the **Block Selection** screen, all blocks available for assignment are listed. **Click** on the **block** to be assigned or **click** on the **Select All** button to select all of the listed blocks if desired. After selecting the block(s), **click** the **OK** button. The following screen appears:

Examiner to Whom Selected Blocks Will Be Assigned

Find:

Available Users	
Examiner's Sign in Name	Examiner's Full Name
BILL	BOY, BILLY B.
JOHN	JONES, JONNIE J.
SYSTEM	SYSTEM, THE

4. At this screen, a **list of Examiners** eligible to receive the block is displayed.

5. If the desired examiner's name is not **displayed** in the grid, you can **enter** the examiner's **name** in the **Find** field.
6. **Click** on the desired **name** that is displayed in the grid and then **click** the **OK** button.
7. The **Confirmation Password** screen appears.
8. At the **Confirmation Password** screen, **type** the confirmation **password** at the **Enter Password** field and then **click** on the **OK** button.
9. IATS **re-assigns** the block and **returns** to the **System Administrator View** screen.

Assigning Blocks to an Auditor

On occasion, it may be **necessary** for a **System Administrator** to **assign** or **re-assign** a block to an **Auditor**.

 Complete the following steps to "assign" a block to an Auditor:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, "**Block Processing**". An expandable menu appears listing several options.
2. **Click** on the **Assign Blocks to an Auditor** option. The **Block Selection** screen appears.
3. At the **Block Selection** screen, all blocks available for assignment are listed. **Click** on the **block** to be assigned or **click** on the **Select All** button to select all of the listed blocks if desired. After selecting the block(s), **click** the **OK** button. The following screen appears:

Auditor to Whom Selected Blocks Will Be Assigned

Find:

Available Users	
Auditor's Sign in Name	Auditor's Full Name
BILL	BOY, BILLY B.
JOHN	JONES, JONNIE J.
SYSTEM	SYSTEM, THE

OK Cancel ? Help

4. At this screen, a **list** of **Auditors** eligible to receive the block is displayed.
5. If the desired Auditor's name is not displayed in the grid, you can **enter** the Auditor's **name** in the **Find** field.
6. **Click** on the desired **name** that is displayed in the grid and then **click** the **OK** button.
7. The **Confirmation Password** screen appears.
8. At the **Confirmation Password** screen, **type** the confirmation **password** at the **Enter Password** field and then **click** on the **OK** button.
9. IATS **re-assigns** the block and **returns** to the **System Administrator View** screen.

Changing the Block Status

On occasion it may be **necessary** for a **System Administrator** to **change** the **status** of a **block** and **return** it to an **Examiner**, **Auditor**, or **Disbursing** clerk.

Note: System Administrators may use this **feature** if the privilege, "**Assign/Reassign Blocks to Examiners/Auditors**" was **granted** when the System Administrator's user **account** was **created**.

 **Complete the following steps to "change" the block status:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, "**Block Processing**". An expandable menu appears listing several options.
2. **Click** on the **Change Block Status** option. The **Change Block Screen** appears.

3. **Block Number:** - At this field, **type** the **number** for the **block** you wish to **access** and **press Tab**.
4. **Block Status:** - After entering the block number in step (3) above, the current status of the block **appears** at this field.

Note: If the current status of a block is, "**Completed**", the **status cannot be changed**.

5. **New Block Status:** - At this field, **click** on the *down arrow* to **display** a **list** of the **status options** the block may be changed to and then **click** on the desired option.
6. After selecting the new status, **click** on the **Update Status** button. IATS **changes** the **status** of the block and **returns** to the **System Administrator** menu.

Deleting Blocks in the Sys Adm View

After assigning **DOV #s** or creating a Disbursing System **Upload File**, the blocks in the previous status, "Released To Disbursing" are now in the status, "**Completed**". Once a block is completed, it is no longer needed in the IATS data base, unless the Disbursing System **Upload File** must be **recreated**. This is normally known within a few days of the creation, however. When satisfied that a completed block is no longer needed, supervisors should **delete** the **completed** blocks. Deleting these blocks makes more hard disk **space** available and **improves** the program **performance**. In addition, there are less blocks to be reviewed when analyzing the workflow process.

 **Complete the following steps to "delete" completed blocks:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, "**Block Processing**". An expandable menu appears listing several options.
2. **Click** on the **Delete Blocks** option. The **Block Selection** screen appears.
3. At the **Block Selection** screen, all blocks available for deletion are listed.
4. There are several options for **selecting** blocks as explained below:
 - **Option 1:** - **Click** on the **block** you wish to delete.
 - **Option 2:** - **Click** on the **Select All** button to **select** all of the listed blocks.
 - **Option 3:** - **Click** on the **Select Completed Blocks** button. This action will generate the following **sub menu** with various choices:

Delete All Completed Blocks
Delete All Compl Blocks w/Disb. Dates
Delete Blocks 8 days or Older
Delete Blocks 4 - 7 Days Old
Delete Blocks 1 - 3 Days Old

Selecting any of these options will **produce** a *pop-up* message asking if you are **sure**. If you **click** on **Yes**, the blocks **matching** the selection criteria will be **highlighted**.

Tip: If you made the **wrong** selection choice, **click** on the **Unselect All** button to **clear** your selection.

5. After selecting the block(s), **click** the **Delete** button. The **Confirmation Password** screen appears.
6. At the **Confirmation Password** screen, **type** the confirmation **password** at the **Enter Password** field and **click** the **OK** button. IATS deletes the block(s).

Viewing Blocks in the Sys Adm View

Advance and settlement **requests** are **controlled** throughout the workflow process by **block tickets**. For this reason, travel supervisors should **periodically monitor** the **progress** of blocks in the system. Once the blocks in the system are displayed, the supervisor can **analyze** the workflow to **determine** which phase of the process, if any, requires immediate **attention**.

 Complete the following steps to "view" blocks:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the words, "**Block Processing**". An **expandable menu** appears listing several options.
2. **Click** on the **View Blocks** option. An **expandable menu** appears listing various block categories.

Tip: Due to the **volume** of blocks in a large travel office, it is often **better** to view blocks in a particular **phase** of processing.

3. **Click** on the desired block **category**. The **View Blocks** screen appears listing any blocks in the category selected.

Print... Find Block: Display Done ? Help

Note: At this screen, the System Administrator may **Print** or **Display** the listed blocks by **selecting** a block and **clicking** on the **Print** or **Display** button as desired. If there are more blocks in the database than can be displayed all at once on the View Blocks screen, users can **type** the block number at the **Find Block** field for a **quick search**.

- When **finished** viewing the blocks, **click** the **Done** button to **return** to the previous screen.

Print Blocks

After an advance or settlement request is processed, IATS will produce an approved computer facsimile of the **DD Form 1351** and **1351-2**. In addition, IATS also produces a facsimile of **Optional Form 1164** for local vicinity travel.

The IATS generated forms are referred to as the **Advance Voucher Summary** and the **Travel Voucher Summary**.

IATS also produces the **Advance Audit Voucher** and the **Travel Voucher Audit** documents. Audit vouchers provide a printed display of the input made by the voucher examiner.

Note: Blocks may be printed by a user in the **Examiner, Auditor, Disbursing** or **System Administrator** view mode.

 **Complete the following steps to "print" a block:**

1. At either the **Examiner, Auditor, or Disbursing View** screen, **select the block(s)** to be printed by **clicking** on the desired block(s) listed in the grid.

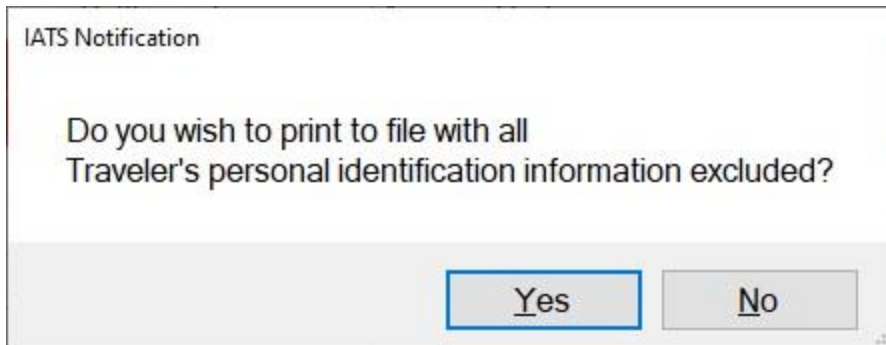

Block No.	Type	Block Status	Date Received
CMPCS01	Settlement	Assigned to Examiner	1/7/2021
EVAC	Settlement	Assigned to Examiner	11/4/2020
E-SH	Settlement	Assigned to Examiner	10/2/2020
MILITARY04	Settlement	Assigned to Examiner	4/10/2020
PCSGO	Settlement	Assigned to Examiner	8/3/2020
PCSRTN	Settlement	Assigned to Examiner	8/3/2020
RETURNED	Settlement	Assigned to Examiner	1/14/2021
SCR1514	Settlement	Assigned to Examiner	4/20/2020

Tip: More than one block may be selected. To select consecutively listed blocks, **click** on the **first** block you wish to print. **Press** and **hold** down the **Shift** key and then **click** on the **last** block you wish to print. IATS will **highlight** all of the blocks between the first and last selections. To select **multiple** blocks that are not listed consecutively, **press** and **hold** down the **Ctrl** key and then **click** on the **blocks** you wish to print. IATS will **highlight** all of the selected blocks.

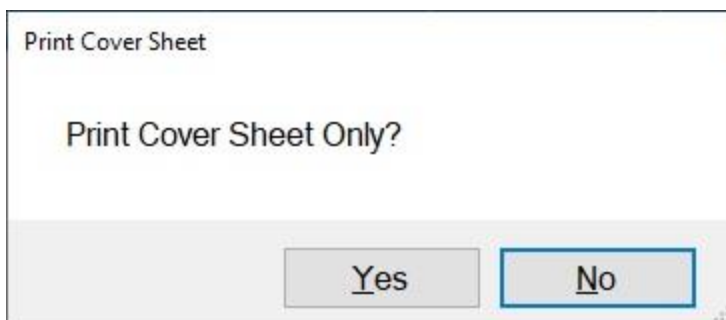

2. After selecting the block(s) to be printed, **click** the **Print Block(s)** button or **click** on the **File** menu and select the **Print Block(s)** option. The following *drop down* **Print** menu appears:

- Print Vouchers with Collection Letters
- Print Audits with Collection Letters
- Print Vouchers without Collection Letters**
- Print Audits without Collection Letters
- Print PDF Voucher to DB
- Print PDF Voucher to File
- Email Voucher
- Email Audit

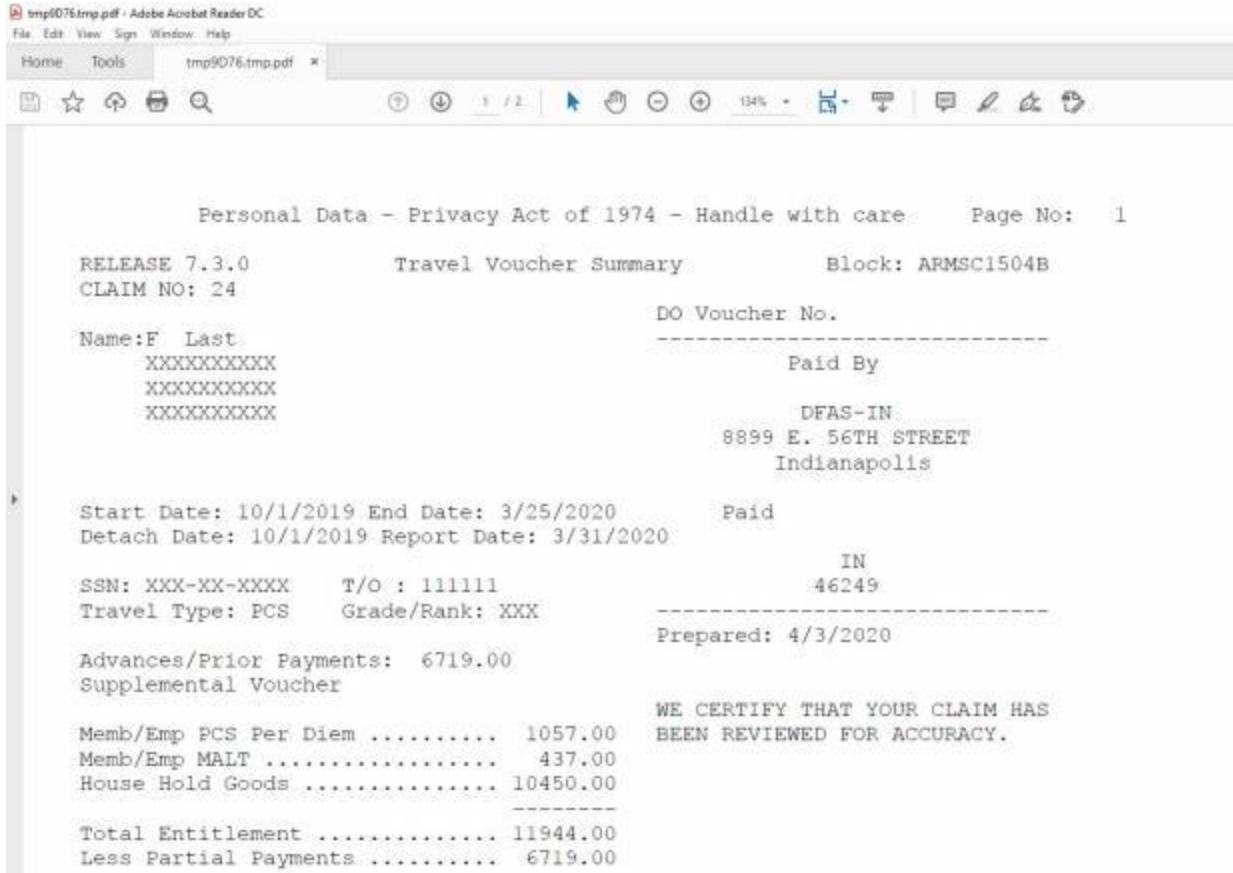

3. At the *drop down* Print menu, **click** on the desired option. The following *pop-up message* will appear asking if you would like to print with the traveler's personal identification **excluded**.

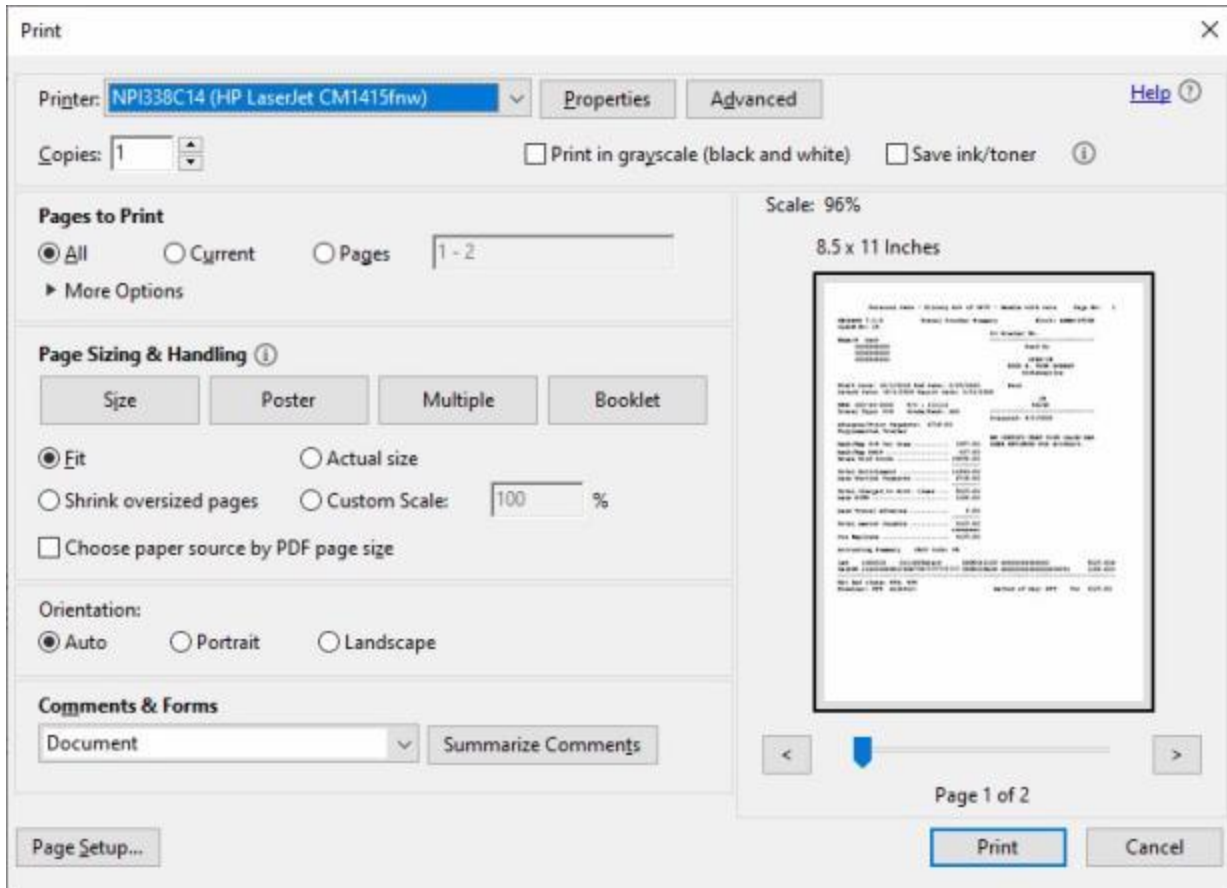

4. **Click** on *Yes* or *No* as desired. The following *pop-up message* will appear asking if you would like to print the **cover sheet** only.

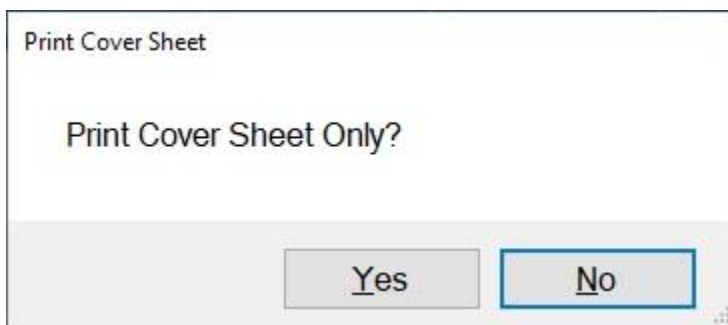

5. **Click** on *Yes* or *No* as desired.
6. If you answer *Yes*, will generate a **PDF** file as usual and the **Adobe Acrobat Reader** screen will appear next displaying the selected print option.

6. **Click** on the **Printer icon**. The **Print** screen appears.

7. **Verify** that the **PC** is **configured** for the **correct printer** or **make** any **necessary changes**.
8. **Select** the **number of copies** you wish to print and then **click** on the **Print** button.
9. IATS prints the block(s) and returns to the **Adobe Reader** screen.
10. If you are finished using the **Adobe Reader**, **click** on the **red X** button in the top right corner to close the screen.

11. If you answer *No*, The following *pop-up message* will appear asking if you wish to **save** the output to a **text** file.

12. Click on Yes or No as desired.
13. If you click on No, IATS will generate a PDF file as usual and the Adobe Acrobat Reader screen will appear next displaying the selected print option.
14. If you click on Yes, the following Saved Output screen will appear.

15. At the Saved Output screen select the directory/folder to store the saved text file.
16. Enter a name for the text file you are saving at the File name field.
17. Click on the Save button.

Note: If you click on Cancel, IATS will generate a PDF file as usual and the Adobe Acrobat Reader screen will appear next displaying the selected print option.

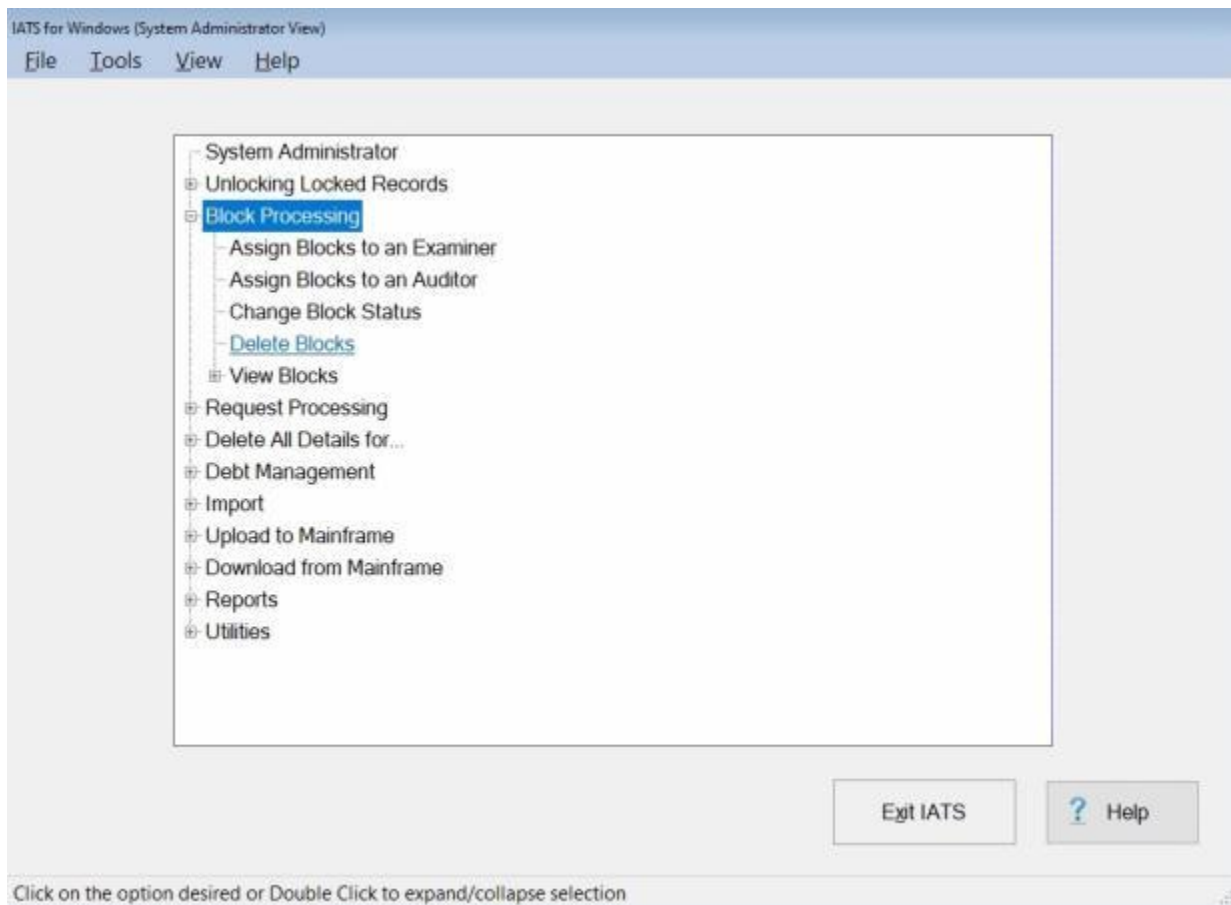

Archive Blocks

IATS allows a **System Administrator** to **archive** completed blocks. The best practice is to actually **delete** completed blocks, but many travel offices prefer to keep them available for **inquiry** purposes.

Archiving the blocks creates a text file of every claim on the block that can be **accessed** when needed for answering **inquiries** or **re-printing** vouchers.

 **Complete the following steps to "archive" completed blocks:**

1. Login to IATS in the **System Administrator** View mode or **change** the View to System Administrator, if necessary.

2. At the System Administrator View screen, **click** on the **Block Processing** option and then **click** on the **Delete Blocks** option. The **Block Selection** screen appears next.

Archive Block(s)

- At the drop down menu, **click** on the **Archive Block(s)** option.
- After clicking on the Archive Block(s) option, a **pop-up** appears asking if you wish to print to file with all traveler's SSN's **masked** (XXX-XXX-1234)? This is a **security** feature for **protecting** the traveler's SSN. **Click** on Yes or No as desired.

7. After clicking on *Yes* or *No*, IATS **creates** a **sub-folder** for the selected block and places it in the **folder** established in the **Maintenance** module for **Download** files. The sub-folder is created with the **block number** as its **name** and will contain every **claim** on the block in the form of a **text** file.
8. When **finished** archiving blocks, **click** the **Cancel** button to **return** to the previous screen.

View Archived Blocks

Once a completed block has been **archived**, you may **view** the archived blocks.

 Complete the following steps to "view" archived blocks:

1. Using Windows Explorer, **navigate** to the **folder** established in the Maintenance module for **Download** files.

2. **Open** the **folder** for the Download files and then double click on the **folder** for the desired archived block.
3. Once the folder for the archived block is opened, you will notice a **file** in this folder named "**Index**".
4. Double click on the **Index** file. The following screen is displayed:

Requests In Block 1099

SSN / Name	TONO	Date	Detail ID	Documents	Images
111881111 / SMITH, MARKY	SCR1509	01/13/2020 - 01/17/2020	14	Voucher	

Note: All claims contained in the archived block will be listed.

5. **Click** on the Voucher **link** in the **Documents** column. This will cause the following screen to appear showing the selected claim.

Tip: Click on the **Back** button to return to the previous screen if you wish to display another claim.

6. When finished viewing archived blocks, **click** on the **(X)** in the top right corner of the **Explorer** screens until all windows are closed.

Printing the Prepayment Audit Checklist

IATS allows the **Auditor** to perform an audit using a **Prepayment Audit Checklist**.

IATS allows the **System Administrator** to generate a **print out** of the **Prepayment Audit Checklist** using **two methods**:

Method 1: - When generating the **Prepayment Audit Report**.

Prepayment Audit Report

Start Date: 1/1/2019

End Date: 7/8/2022

Generate Background Report

Print/Export Close ? Help

Check this box if the background report is to be generated

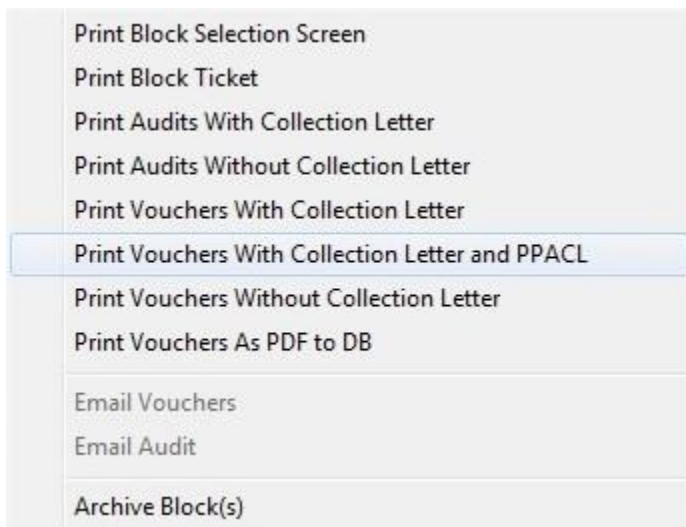

When generating the [Prepayment Audit Report](#) click in the selection box at the **Generate Background Report** field if you wish to generate a **print-out** of the **Prepayment Audit Checklist** that was completed during the audit process.

Method 2: - When viewing **completed** blocks. **Note** that this method is for **Navy** configurations only.

1. At the **System Administrator View** screen, click on the **plus sign** to the left of the words, "**Block Processing**". An expandable menu appears listing several options.
2. Click on the **View Blocks** option. An expandable menu appears listing various block categories.
3. Click on **Completed**. The **View All Completed Blocks** screen will appear.

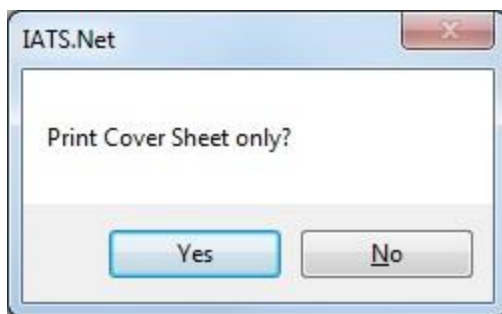

4. **Click** on the **block** containing the **voucher(s)** you wish to print the Prepayment Audit Checklist for.
5. **Click** on the **Print** button. A drop down **menu** appears listing various print **options**.

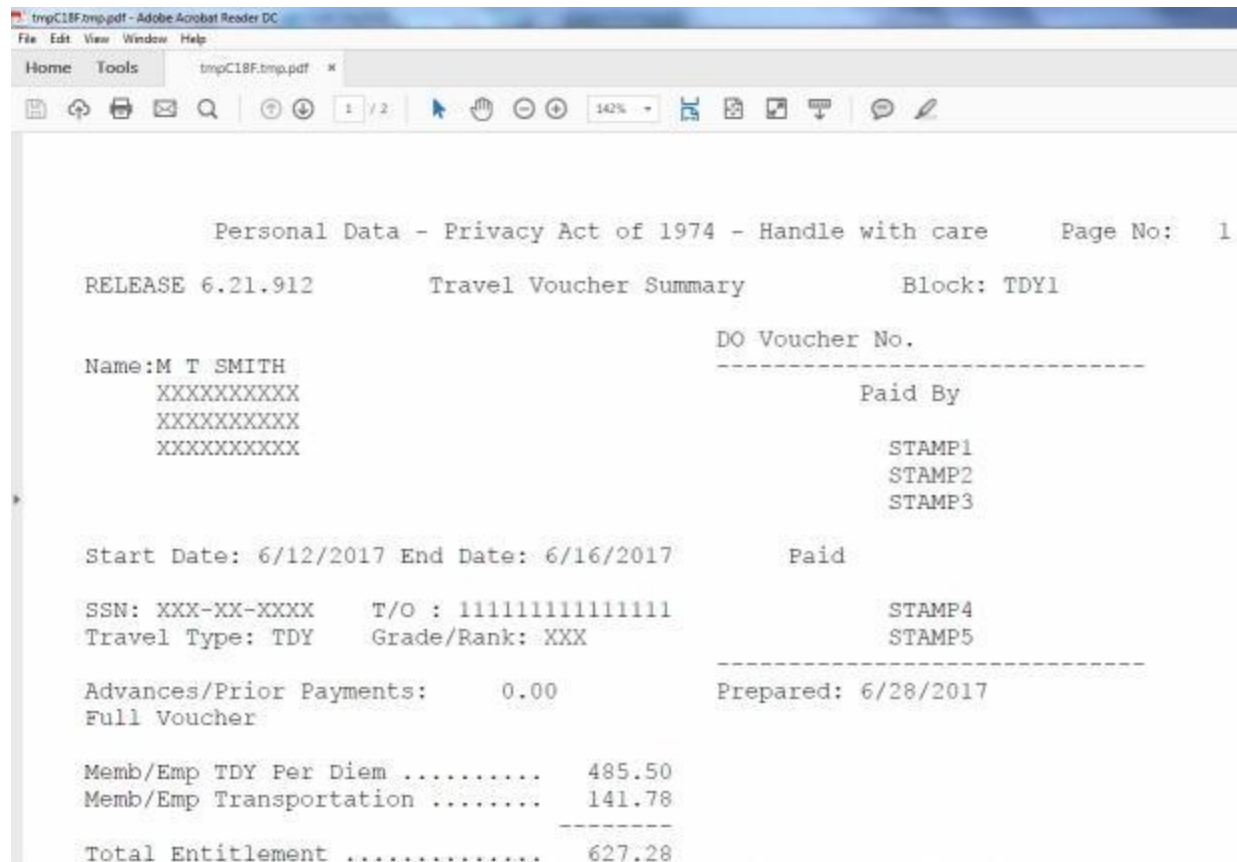

6. **Click** on the **Print Vouchers with Collection Letter and PPACL** option. A *pop-up* message will appear asking if you wish to **exclude** the traveler's personal information.

7. **Click** on *Yes* or *No* as desired. Another *pop-up message* will appear asking if you wish to print the **Cover Sheet** only.

8. **Click** on *Yes* or *No* as desired. The **Adobe Acrobat Reader** screen will appear displaying the **voucher** and the **Pre-payment Audit Checklist** forms.

9. **Click** on the **Printer icon**. The **Print** screen appears.
10. **Verify** that the **PC is configured** for the **correct printer** or make any necessary changes.
11. **Select** the **number of copies** you wish to print and **click** the **Print** button. IATS **prints** all of the **vouchers** on the selected block and the associated **Prepayment Audit Checklist(s)**.
12. If you are finished using the **Adobe Reader**, **click** on the **red (X)** button in the **top right corner** to **close** the screen.
13. IATS returns to the **View All Completed Blocks** screen.

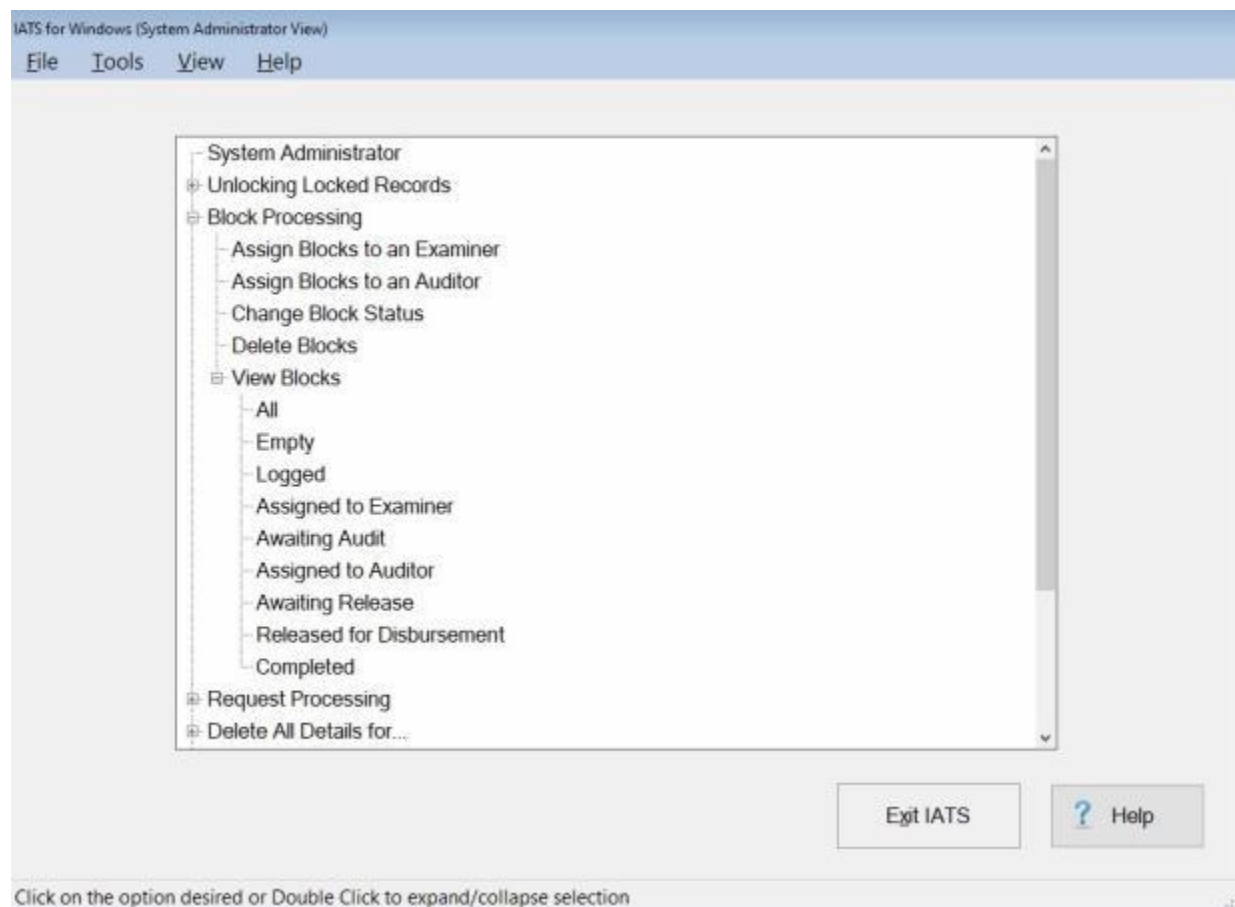

Sending Email

Sending **Email** as the **System Administrator**, emailing of a block(s) or a single claim can be done via the **Print** button in the lower left hand section of the screen once the selection of **Block Processing** followed by **View Blocks** and the **category** the block is in has been chosen. Selecting **All** will allow the access for all **blocks** currently in the system at that time while performing this function.

You must first **select** the **block(s)** or **claim(s)** to Email.

 **Complete the following steps to "send" Email:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, "**Block Processing**". An expandable menu appears listing several options.
2. **Click** on the **View Blocks** option. An expandable menu appears listing various block categories.

Tip: Due to the **volume** of blocks in a large travel office, it is often better to view blocks in a particular **phase** of processing.

3. **Click** on the desired block **category**. The **View Blocks** screen appears listing any blocks in the category selected.

4. **Click** on the **block** or **blocks** you wish to select.
5. When you have selected the desired block or blocks, **click** on the **Print** button.

6. When the Print Menu appears **click** on either **Email Vouchers** or **Email Audit** as desired. The **Email Log** screen appears.

Request Processing

Re-assigning Requests Criteria

The table below was designed to assist the IATS user in understanding the relationship between the block a request is being transferred from and the block the selected claim can be transferred to. In addition, if the "**To Block**" will be assigned to a particular individual, the "**Users Privilege**" column describes the privilege this individual must have assigned to their user account.

From Block Status	To Block Status	Users Privilege
Logged	Logged or "New"	Examiner
Assigned to Examiner	Assigned to Examiner or "New"	Examiner
Awaiting Audit	Awaiting Audit or "New"	Auditor
Awaiting Release	Awaiting Release or "New"	Disbursing
Release for Disbursing	Release for Disbursing or "New"	Sys Admin. or Super User
* Completed	Assigned to Examiner or "New"	Examiner
** Completed	"New" (Completed status)	Disbursing

* Only claims without **DOV data** will appear in the field "**From Block**". These blocks can be transferred to "**To Blocks**" within the system that are in the status "**Assigned to Examiner**". If the "**To Block**" is a "**New**" block to the system, then you can also **choose** the **Examiner** to whom you wish to assign the block. The block will have an "**Assigned to Examiner**" status.

Transfer Requests From One Block to Another

On occasion, it may be necessary for the System Administrator to **transfer** the **requests** from one block to another block. This normally occurs when most of the requests on a block are **processed**, but there are some claims that cannot be completed for some reason. The **un-processed** requests must be **re-assigned** to another block to allow the processed claims to be disbursed.

Click on this [link](#) to display a **table** describing the **criteria** for re-assigning requests from one block to another.

Note: There are two options for **transferring requests** from one block to another. One method will **display** a **list** of all available blocks residing in the database. The other method will not display a **list**. These options are either activated or de-activated at the Maintain System Configuration screen in the Maintenance Module. **Click** in the **check box** for the option **ReAssign Claims w/o Block List** in the **System Description** section of the **Maintain System Configuration** screen to **activate** or **de-active** these options.

15. **Click** on Yes if you wish to move the request to a new block.

Debt Management

Debt Management Overview

Travel **supervisors** are **responsible** for ensuring the expedient processing of traveler's debt vouchers. These vouchers require careful management to protect government funds. IATS provides supervisors with **tools** to expedite the collection of travel funds owed the government by travelers. Before using these tools, supervisors must have a thorough understanding of how IATS **processes** traveler's debt-related items.

The automated **suspense tracking module** assists supervisors in maintaining control over funds advanced to travelers. By periodically running suspense updates in IATS, these funds (known as **suspense items**) are matched to the established due dates. When the **due date** is **exceeded**, IATS will **generate** either a **collection letter** or a **payroll deduction form**.

Suspense Items: - When funds are **advanced** or **accrued** to a traveler, IATS **creates** a **suspense item** in the database. The amount of funds advanced or accrued to travelers is held in suspense a predetermined number of **days** based on the first suspense **parameter** (# Days of Suspense until 1st Collection Letter). When the suspense **period** is **over**, IATS automatically generates a **collection** or **payroll deduction** document.

Suspense Parameters: - IATS uses two key **elements** to automatically track suspense items throughout the processing cycle. These items are:

- The expected **date of return** from the travel order
- The **suspense parameters** established in maintenance.

The expected **date of return** is vital in determining whether a suspense item is **overdue** or not. Current DFAS policy requires a traveler to file a settlement claim within **(5)** days after returning from a TDY trip. These **parameters** determine when an item is **overdue** based on the expected **return date**, the **date an item was returned** to the traveler, or the **date a notification was generated**.

Suspense Date: - Initially, the **suspense date** is the estimated **return date**. After the estimated return date is **passed**, the suspense date becomes the **date the suspense file was last updated**.

Due Date: - The **number of days** established in the **suspense parameter** is **added** to the **suspense date** to determine the **Due Date**. The due date is when either the advanced **amount** is **due** for **repayment** or a **settlement** voucher must be received in the travel office. (**Suspense Date + Suspense Parameter = Due Date**).

Collection Letters: - If, by the **first due date**, the traveler does not pay off the debt by cash collection or file a settlement voucher, IATS **prints** a **collection letter**. This letter **notifies** the **traveler** of the debt due the U.S. government and **warns** of impending **payroll deduction** if the debt is not paid back.

Payroll Deduction: - After the **1st collection letter** is printed, IATS **establishes** a new due date based on the second suspense **parameter**. The second suspense parameter is (**# Days of Suspense until Collection Takes Place**). The **number** at this parameter is **added** to the **date the collection letter was printed** to determine the next due date.

Returned Settlement Vouchers: - If a **settlement** voucher contains an **advance** or **accrual**, and was **returned** to the traveler for correction or signature, IATS places the debt into **suspense** based on a third **parameter** established in the maintenance module (**# Days after Voucher Return until Payroll Deduction**). The **number** at this parameter is **added** to the **date the return letter was printed** to determine the next due date.

Due U.S. Vouchers: - Often a **settlement** is processed when the **amount** advanced or accrued is **higher** than the authorized settlement amount. These debts are held in suspense based on the fourth **parameter** in the maintenance module (**# Days after Due U.S. Voucher until Payroll Deduction**). The **number** at this parameter is **added** to the **date the Due US letter was printed** to determine the **next** due date

Printing Collection & Payroll Letters: - IATS allows supervisors to **print** letters either when the **update** is processed, or as separate process. Collection documents may also be **reprinted** if needed.

Update Suspense Status: - Supervisors should perform the suspense **update** on a daily basis. This allows for timely submission of **payroll deduction** transactions to servicing payroll offices, as well as **ensuring** travelers are **notified** immediately concerning outstanding and delinquent travel advances.

Accounts Ready for Collection Action: - The suspense status, "**Accounts Ready for Collection Action**" is generated when a second collection **letter** was generated and the **due date** established by the second collection letter has **passed**. The account will **remain** in that status until the voucher examiner manually generates a collection voucher (**CV**) or a payroll deduction (**PD**) document.

Accounts Awaiting Collection Action: - Once an examiner **generates** a **CV** or **PD** document against a suspense item, the suspense status becomes "**Accounts Awaiting Collection Action**". This status will **remain** in that state until a **CV number** has been **assigned**.

Once an account is in the status "**Accounts Awaiting Collection Action**" the suspense **item cannot be collected** from the **settlement** if a claim is received. The only **exception** is if a **CV number** has not been **posted** to the CV and the CV is manually deleted. In this case the status will **revert** back to "**Accounts Ready for Collection Action**".

Posting Collection Voucher (CV) Numbers: - To **remove** suspense items from the IATS database after a **payroll deduction** document has been generated, a **CV number** must be **posted**.

Suspense Reports: - Many suspense **reports** are available to the travel supervisor. These reports allows a statistical measure of **timeliness**, as well as suspense processing **workflow**. Daily printing and review of suspense reports helps to **prevent** a **backlog** of processing suspense workflow.

View or Modify a Suspense Item

Sometimes suspense items do not accurately **reflect** the correct suspense **status** or **due date**. For example, a TDY trip may be **extended** beyond the original ending date. Another example is when the traveler has an emergency or extenuating circumstance **preventing** the **filing** of a **settlement** voucher or paying back the advanced amount.

For both of these situations, travel supervisors must **modify** suspense items within IATS to **change** the ending date of the TDY period or to **adjust** the number of **days** the item is held in suspense.

 **Complete the following steps to "view or modify" a suspense item:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, **Debt Management**. An expandable menu appears listing several options.
2. **Click** on the **Process Suspense Item** option. The **Select Traveler** screen appears.
3. At the Select Traveler screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. The **Suspense Record Selection** screen appears.

4. At the **Suspense Record Selection** screen, any outstanding suspense items for the selected traveler are **listed**. **Click** on the desired **item** and IATS highlights the selected item.
5. When the desired suspense **item** is highlighted, **click** on the **View/Modify** button. The **Suspense Detail** screen appears.

Suspense Detail

JONES, DEVIN G TONO: ADV2

Other OK Cancel ? Help

Note: At the **Suspense Detail** screen, users may **view** the **details** of the suspense item or make **modifications** to adjust the **Suspense Date** or the **Number of Days to Suspend**. Users may also **modify** the **Status** of the suspense item.

6. **Suspense Date:** - The **date** at this field is initially the **date** the traveler is due to **return** from the trip. Once this date has **passed**, this date becomes the date the **suspense file** was last updated. IATS uses this date and the date at the **Days to Suspend** field to establish the **Due Date** for the suspense item to **generate** the **collection letter** and adjust the suspense **Status**. If necessary, **type** a new date at this field in **MMDDYY** format to adjust the **Due Date** of the suspense item. You can also **click** on the *down arrow* button and use the **calendar** to select the new date.
7. **Days to Suspend:** - The number at this field defaults from the suspense parameters established in the Maintenance module. If necessary, **type** a new number at this field to adjust the **Due Date** of the suspense item.
8. **Status:** - The **status** of the suspense item is used to **identify** the **condition** of the suspense item. The status may be changed if circumstances require the **issuance** of a new collection **letter** or to **prevent** a collection **letter** from being **generated**. If necessary, **click** on the *down arrow* button to **display** the **listing** for various suspense status levels and then **click** on the

desired **status** level to make a selection. A selection can also be made by **pressing** the *Up/Dn* arrow **keys** on the keyboard until the desired status is **displayed**.

9. **Remarks:** - If the suspense item has been **modified**, it's a **good idea** to **click** in the remarks field and then **type** a **remark** explaining why the changes were made.
10. When **finished** viewing or modifying the suspense item, **click** on the **OK** button to save the changes and **return** to the **System Administrator** menu.

Update Suspense and Print Collection Letters

The automated **suspense tracking module** assists supervisors in maintaining control over funds advanced to travelers. By periodically **running suspense updates** in IATS, these funds (known as **suspense items**) are matched to the established due dates. When the **due date is exceeded**, IATS will **generate** either a **collection letter** or a **payroll deduction form**.

Supervisors should perform the suspense **update** on a **daily basis**. This allows for **timely submission** of **payroll deduction** transactions to servicing payroll offices, as well as **ensuring** travelers are **notified** immediately concerning outstanding and delinquent travel advances.

 Complete the following steps to "update" the suspense file and "print" collection letters:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the words, **Debt Management**. An **expandable menu** appears listing several options.
2. **Click** on the **Update Suspense/Collection Letters** option. The **Update Suspense/Print Letters** screen appears.

Update Menu Options

Update Status: - Click in the **circle next** to this **option** to **update** the suspense **file** **based on** the **date** entered at the **Date of New Letter** field.

Update Status & Print Letters: - Click in the **circle next** to this **option** to **update** the suspense **file** and **generate** collection **letters** based on the **date** entered at the **Date of New Letter** field.

Reprint Collection Letters: - Refer to the **Help** topic, "[Re-print Collection Letters](#)", for detailed instructions on using this option.

Reprint last Update/Print Report: - Click in the **circle next** to this **option** to print the suspense **update** report based on the **date** entered at the **Date of New Letter** field.

Report Menu Options

No Report: - Click in the **circle next** to this **option** if you wish to simply **update** the suspense **file**, but do not want to **generate** the suspense update **report**.

Print Report: - Click in the **circle next** to this **option** to print the suspense update report based on the **date** entered at the **Date of New Letter** field, in-conjunction with **updating** the suspense file.

Date of New Letter

The current date defaults to the **Date of New Letter** field. The suspense file **update** process is based upon the **date** entered at this field and **determines** the **Due Date** for items in suspense. In addition, collection **letters** are **generated** for the suspense **items** that are **due** on this date or are **passed** their due date. If this date is not correct, **type** the desired **date** in **MMDDYY** format.

3. After **selecting** the desired **options** and **specifying** the date, **click** on the **OK** button. IATS **updates** the suspense file.
4. After the suspense file has been **updated**, IATS **displays** the Suspense Summary by Period screen. After reviewing this screen, **click** on the **OK** button to **display** the Suspense File Summary screen, or **click** on the **Cancel** button to return to the **Update Suspense/Print Letters** screen.
5. After **reviewing** the **Suspense Summary by Period** and **Suspense File Summary** screen, **clicking** the **Cancel** button **takes** the user **back** to the **Update Suspense/Print Letters** screen. If **finished** updating the suspense file and generating the collection letters, or update report, **click** on the **Cancel** button. IATS **returns** to the **System Administrator** menu.

Re-print Collection Letters

The automated **suspense tracking module** assists supervisors in maintaining control over funds advanced to travelers. By periodically **running suspense updates** in IATS, these funds (known as **suspense items**) are matched to the established due dates. When the **due date is exceeded**, IATS will **generate** either a **collection letter** or a **payroll deduction form**.

Travel supervisors can **print** collection letters when **running** the suspense **update** or can choose not to print the letters when **running** the **update** and **print** the letters at a later time.

 **Complete the following steps to "re-print" collection letters:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, **Debt Management**. An expandable menu appears listing several options.
2. **Click** on the **Update Suspense/Collection Letters** option. The **Update Suspense/Print Letters** screen appears.
3. At the **Update Suspense/Print Letters** screen, **click** in the **circle** next to the option "**Reprint Collection Letters**". The **appearance** of this screen and **options** change as shown below.

Suspense Reports

Suspense Summary by Period

This report **summarizes** and **displays** the number of accounts and amounts in **suspense** by the following periods: **0-15** days, **16-30** days, **31-60** days, and **over 60** days. This report is used to **determine** if debt **amounts** are being **collected** expeditiously.

 Complete the following steps to "display" the **Suspense Summary by Period** report

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, **Debt Management**. An expandable menu appears listing several options.
2. **Click** on the **plus sign** to the left of the words, **Suspense/Aging Reports**. An expandable menu appears listing several additional options.
3. **Click** on the **Summary by Period** option. The **Suspense Summary by Period** screen appears.

Suspense Summary by Period

	0 to 15 Days	16 to 30 Days	31 to 60 Days	Over 60 Days
▶ Number of Accounts	0	0	0	2
Advance Outstanding	\$0.00	\$0.00	\$0.00	\$2,000.00
Obligation Outstanding		\$0.00	\$0.00	\$0.00

Number of Accounts:

Total Obligations Outstanding:

Total Advances Outstanding:

Total Payroll Deductions Outstanding:

4. When **finished** reviewing this report, **click** on the **OK** button to **return** to the **System Administrator** menu.

Suspense Detail by Period

The **Suspense Detail by Period Report** provides the supervisor with a printed report detailing the suspense items by age. This report will list the traveler's **SSN, travel order number, dates of the trip,** and the **amount** outstanding.

This report may either be **printed** or **saved** to a **CSV** file that may be **viewed** using another program.

 Complete the following steps to "print" the **Suspense Detail by Period** report

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, **Debt Management**. An expandable menu appears listing several options.
2. **Click** on the **plus sign** to the left of the words, **Suspense/Aging Reports**. An expandable menu appears listing several additional options.
3. **Click** on the **Detail by Period** option. The **Suspense Detail by Period** screen appears.

Suspense Detail By Period

Create as CSV file

Print Cancel ? Help

4. **Create as CSV file:** - **Click** in the **check box** to **activate** this option if you wish to save the output as a CSV file.
5. **Click** on the **Print/Save** button. A *pop-up message* appears asking if you want to **save** the output to a file. **Click** on *Yes* or *No* as desired.
6. If you clicked on *Yes*, the **Save As** screen appears and you must enter a **filename** and select a **file type** for the report.
7. A pop-up message will now appear asking if you want the SSN's to be masked on the report. **Click** on *Yes* or *No* as desired.

8. After selecting the report option, **Click** on the **Print** button. The **IATS Report Viewer** screen appears.
9. **Click** on the printer **icon**. The **Print** screen appears.
10. Ensure you are **connected** to the correct printer, **select** the **number of copies** and then **click** on the **Print** button.
11. When **finished** using the **Suspense Detail By Period** screen, **click** on the **Cancel** button to **return** to the **System Administrator** menu.

First Collection Letter

If, by the first due date, the traveler does not pay off the debt by cash collection or file a settlement voucher, IATS **prints** a **First Collection Letter**. This letter **notifies** the **traveler** of the debt due the U.S. government and **warns** of impending **payroll deduction** if the debt is not paid back.

IATS maintains a **report** that supervisors may use as a debt management **tool** to track the suspense items that have had a **First Collection Letter** generated.

This report may either be **printed** or **saved** to an **ASCII** file that may be **viewed** using another program.

 **Complete the following steps to "print" the Accounts with First Collection Letter report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the words, **Debt Management**. An expandable menu appears listing several options.
2. **Click** on the **plus sign** to the left of the words, **Suspense/Aging Reports**. An expandable menu appears listing several additional options.
3. **Click** on the **Accounts with First Collection Letter** option. The **Accounts with First Collection Letter** screen appears.

Create as CSV file:

1. **Click** on the **CSV** option. A *pop-up message* will now appear asking if you want the SSN's to be **masked** on the report.
2. **Click** on **Yes** or **No** as desired. IATS will display the **Export Report To CSV** screen.

3. At the **Export Report to CSV** screen, **navigate** to the **directory/folder** where you wish to the **save** the CSV file to.
4. **Enter** the desired **name** for the file at the **File name** field.
5. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
6. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
7. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
8. When **finished** using the **Accounts with First Collection Letter** screen, **click** on the **Cancel** button to **return** to the **System Administrator** menu.

Accounts Ready for Collection Action

After the **1st collection letter** is printed, IATS **establishes** a **new due date** based on the **second** suspense **parameter**. The second suspense parameter is (**# Days of Suspense until Collection Takes Place**). The **number** at this parameter is **added** to the **date** the **collection letter** was **printed** to determine the **next** due date. If the **debt** is **not settled** by this **next due date**, IATS generates a **Pay Adjustment Authorization** document that is used to have the debt **collected** from the traveler's **payroll**.

The suspense status, "**Accounts Ready for Collection Action**" is generated when a **second** collection **letter** was generated and the **due date** established by the second collection letter has **passed**. The account will **remain** in that status until the voucher examiner **manually generates** a collection voucher (**CV**) or a payroll deduction (**PD**) document.

IATS maintains a **report** that supervisors may use as a debt management **tool** to track the suspense items that have had a **Pay Adjustment Authorization** document generated.

This report may either be **printed** or **saved** to a file that may be **viewed** using **another program**.

 **Complete the following steps to "print" the Accounts Ready for Collection Action report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the words, **Debt Management**. An **expandable menu** appears listing several options.
2. **Click** on the **plus sign** to the **left** of the words, **Suspense/Aging Reports**. An **expandable menu** appears listing several **additional** options.
3. **Click** on the **Accounts Ready for Collection Action** option. The **Accounts Ready for Collection Action** screen appears.

3. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
4. If you click on the **Print** icon, IATS will display the **Print** screen.

5. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
6. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

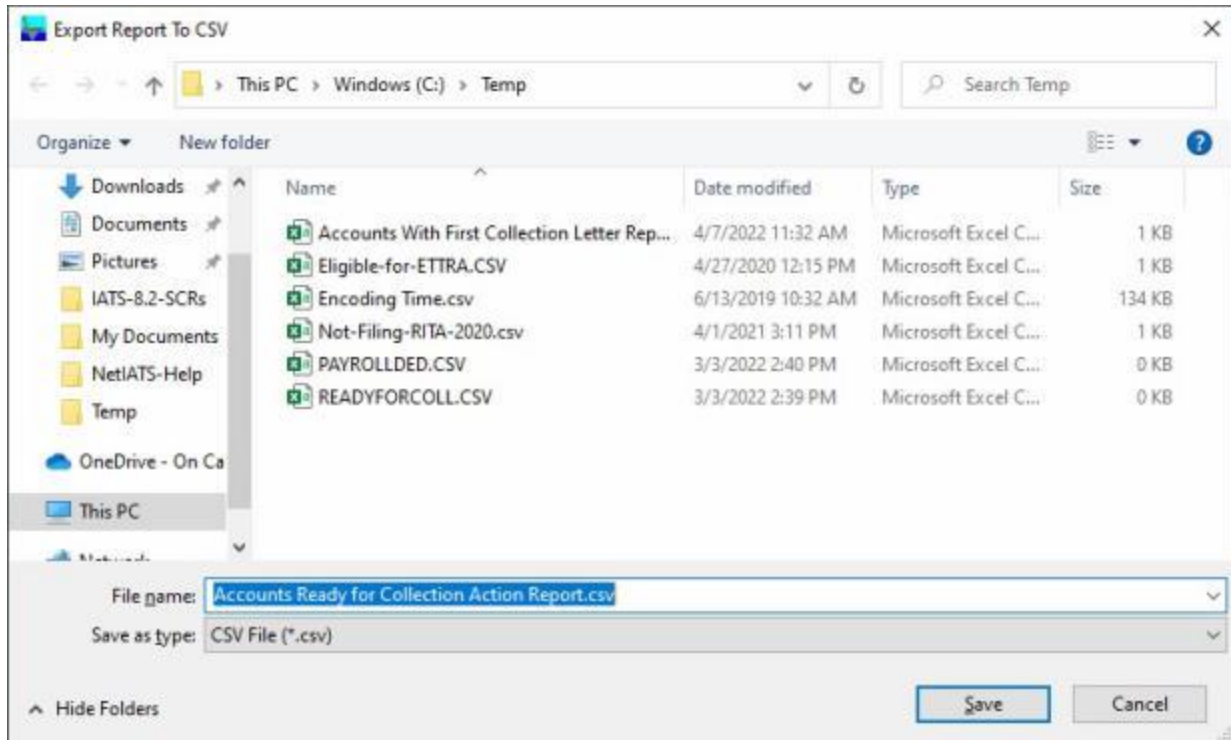

1. **Click** on the **Excel** option. A *pop-up message* will now appear asking if you want the SSN's to be **masked** on the report.
2. **Click** on *Yes* or *No* as desired. IATS will display the **Export Report to Excel** screen.

3. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
4. **Enter** the desired **name** for the file at the **File name** field.
5. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
6. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
7. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.

Create as CSV file:

1. **Click** on the **CSV** option. A *pop-up message* will now appear asking if you want the SSN's to be **masked** on the report.
2. **Click** on *Yes* or *No* as desired. IATS will display the **Export Report To CSV** screen.

3. At the **Export Report to CSV** screen, **navigate** to the **directory/folder** where you wish to the **save** the CSV file to.
4. **Enter** the desired **name** for the file at the **File name** field.
5. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
6. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
7. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
8. When **finished** using the **Accounts Ready for Collection Action** screen, **click** on the **Cancel** button to **return** to the **System Administrator** menu.

Accounts Awaiting Collection Action

After the **1st collection letter** is printed, IATS **establishes** a **new due date** based on the **second** suspense **parameter**. The second suspense parameter is (**# Days of Suspense until Collection Takes Place**). The **number** at this parameter is **added** to the **date** the **collection letter** was **printed** to determine the **next** due date. **If the debt is not settled** by this **next due date**, IATS generates a **Pay Adjustment Authorization** document that is used to have the debt **collected** from the traveler's **payroll**.

Once an examiner **generates** a **CV** or **PD** document against a suspense item, the suspense status becomes "**Accounts Awaiting Collection Action**". This status will **remain** in that state until a **CV number** has been **assigned**.

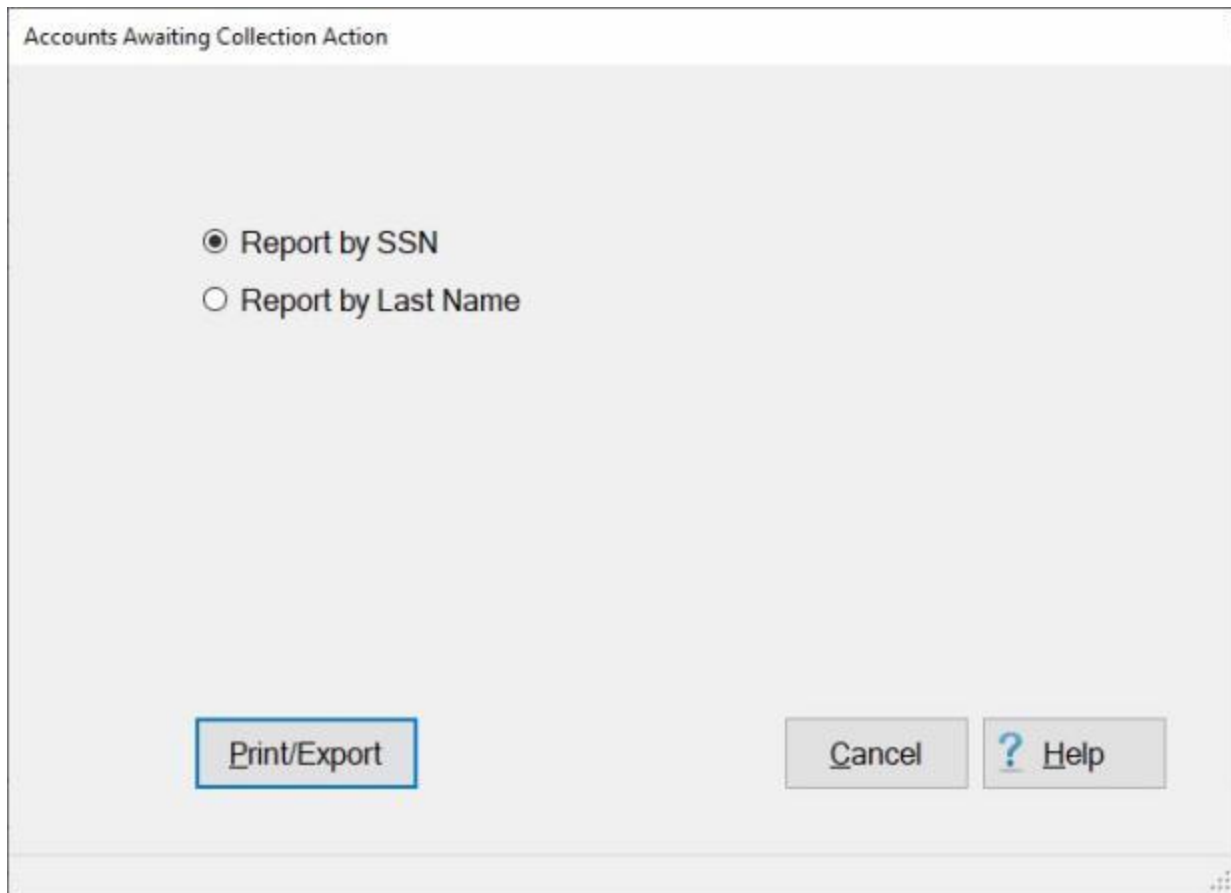

Once an account is in the status "**Accounts Awaiting Collection Action**" the suspense **item cannot be collected** from the **settlement** if a claim is received. The only **exception** is if a **CV number** has **not** been **posted** to the CV and the CV is **manually deleted**. In this case the status will **revert** back to "**Accounts Ready for Collection Action**".

IATS maintains a **report** that supervisors may use as a debt management **tool** to track the suspense items that have had a **CV** or **PD** document generated.

This report may either be **printed** or **saved** to a file that may be **viewed** using **another program**.

 **Complete the following steps to "print" the Accounts Awaiting Collection Action report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the words, **Debt Management**. An **expandable menu** appears listing several options.
2. **Click** on the **plus sign** to the **left** of the words, **Suspense/Aging Reports**. An **expandable menu** appears listing several **additional** options.
3. **Click** on the **Accounts Awaiting Collection Action** option. The **Accounts Awaiting Collection Action** screen appears.

4. **Report by SSN:** - Click in the circle next to this **option** if you wish to generate the report based on social security number (**SSN**) order.
5. **Report by Last Name:** - Click in the circle next to this **option** if you wish to generate the report based on last name order.
6. If you wish to have a **print-out** of the **Accounts Awaiting Collection Action** report or **save** it to an **Excel** or **CSV** file, **click** on the **Print/Export** button. The following *pop-up menu* will appear allowing you to select **PDF**, **Excel** or **CSV**.

Print:

1. **Click** on the **PDF** option. A *pop-up message* will now appear asking if you want the SSN's to be **masked** on the report.
2. **Click** on *Yes* or *No* as desired. The following **IATS Report Viewer** screen will appear.

3. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
4. If you click on the **Print** icon, IATS will display the **Print** screen.

5. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
6. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

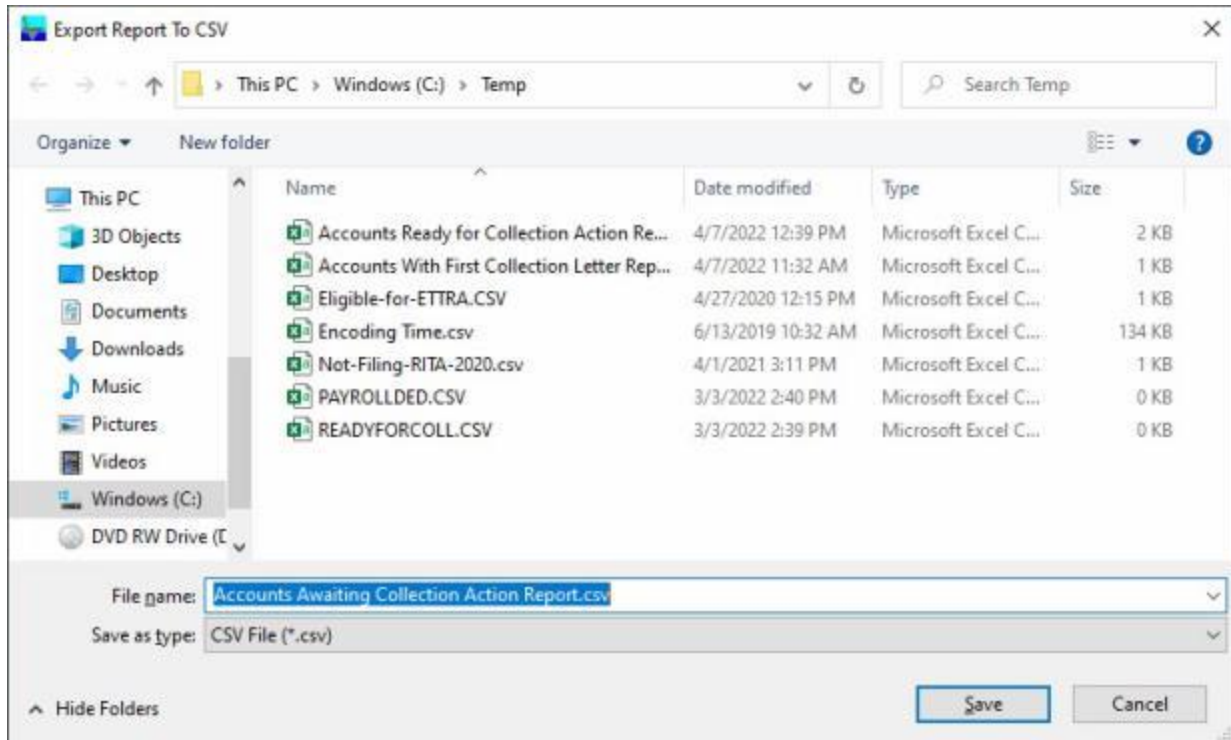

1. **Click** on the **Excel** option. A *pop-up message* will now appear asking if you want the SSN's to be **masked** on the report.
2. **Click** on *Yes* or *No* as desired. IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When **finished** using the **Suspense Summary by Date** screen, **click** on the **Done** button to **return** to the **System Administrator** menu.

Import Files

Import Requests

Travel **requests** that were **initiated** on a financial system other than IATS can be **imported** into IATS for **computation** and **disbursement** processing.

Note: Before attempting this process, users must **access** the IATS **Maintenance** module and **configure** IATS for [Automatic Block Numbering](#).

 **Complete the following steps to "import" requests from a non-IATS system:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Import**". An expandable menu appears listing the option.
2. **Click** on the **Import Requests from a Non-IATS System** option. The **Import Requests and Transactions from the CEFMS System** screen appears.

Import Requests and Transactions from the CEFMS System

Files To Import:

Files being Imported:

Number of Requests Imported	<input type="text"/>
Authorizations	<input type="text"/>
Advances	<input type="text"/>
Settlements	<input type="text"/>
PCS Orders	<input type="text"/>

Note: At this screen, the IATS user must **select** the **location** where the import file **resides**.

3. **Click** on the **Browse** button and **navigate** to the location where the file you wish to import resides.
4. **Select** the desired **file** after finding the location. When the file is **displayed** in the **window** at the **top** of the screen **click** on the **file** to select it.
5. IATS highlights the **filename**.
6. When the correct file has been selected, **click** on the **Import** button.
7. IATS **creates** a new block and **imports** the **requests** into the newly created block.
8. In addition, IATS displays a **summary** of the **number** and **types** of claims being imported.
9. When **finished** importing requests, **click** the **Exit** button to **return** to the **System Administrator View** screen.

Import HHG Storage Requests

HHG Temporary Storage Requests that were **paid** by a **third party vendor** can be **imported** into IATS to generate a **debt** for the traveler's **tax liability**.

 **Complete the following steps to "import" the HHG Temporary Storage Requests file.**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "Import". An expandable menu appears listing the option.
2. **Click** on the **Import HHG Temp Storage Request Paid by Government** option. The **Import Government Procured Temporary Storage** screen appears.

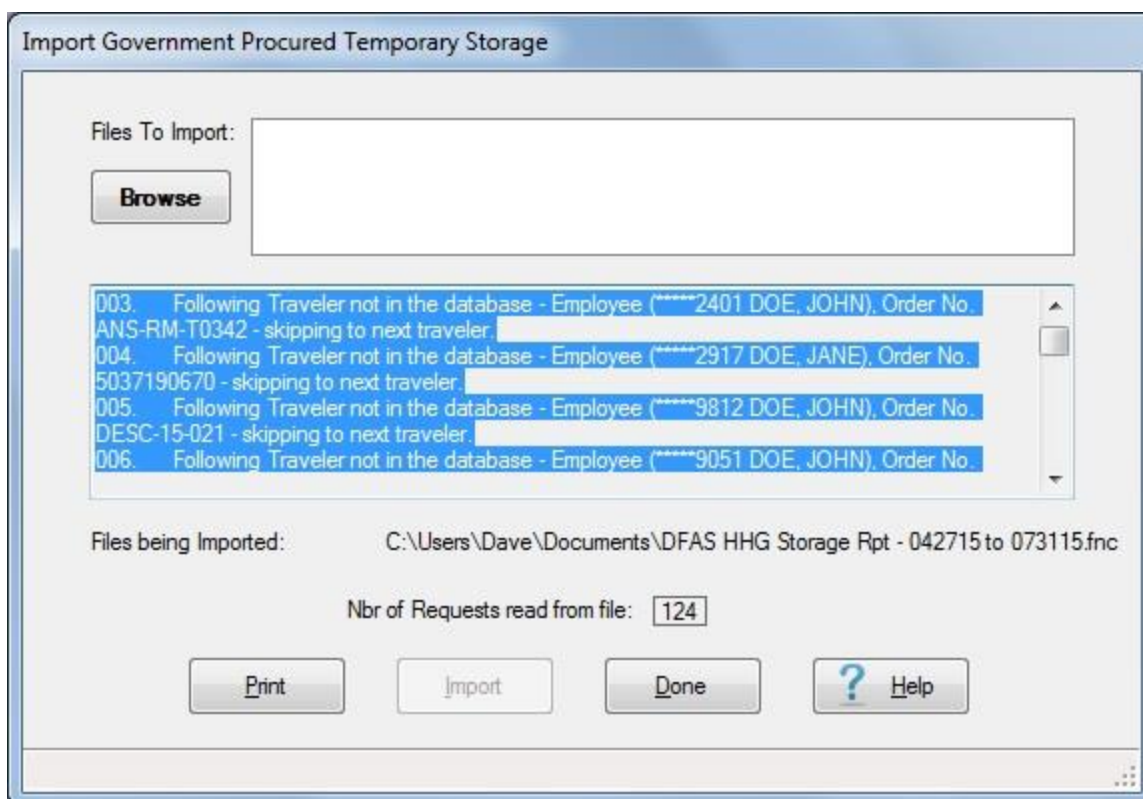

Note: At this screen, the IATS user must **select** the **location** where the import file **resides**.

3. If the **default** directory is not **correct** when the **Import Government Procured Temporary Storage** screen appears, **click** on the **Browse** button and **browse** to the desired **directory**.
4. After specifying the desired directory, the desired import **file(s)** will **appear** in the Files to Import section.
5. **Click** on the desired import **file**. IATS highlights the **filename**.
6. After the desired import **file** is selected, **click** the **Import** button. IATS **creates** a new **block** and **imports** the **requests** into the newly created **block(s)**. The newly created blocks will automatically be placed into the **Awaiting Release** status and have a naming convention that begin with the letters **HHG** followed by the first three **letters** of the **office name** and then (MM/YY).
7. IATS displays the following *pop-up message* when the import process has finished and **asks** you if you wish to **view** the log file.

8. **Click** on **Yes** or **No** as desired. If you click on **Yes**, IATS displays the **Import Government Procured Temporary Storage** screen again and **displays** the log file.

9. **Click** on the **Print** button if you wish to generate a print-out of the log.
 10. When you are **finished** importing HHG Temporary Storage requests or viewing the log, **click** the **Done** button to **return** to the **System Administrator View** screen

Import Third Party Government Payments

An **enhancement** was added to IATS to **import** payment data from **3rd party** transportation systems. This enhancement was added to **create** settlement requests in IATS through a batch file import that will be processed to **collect taxes** that are owed due to **tax law changes** that went into effect on January 1st, 2018.

 **Complete the following steps to "import" the Third Party Payment Transactions file.**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "Import". An **expandable menu** appears listing the option.
2. **Click** on the **Import Third Party Government Payments** option. The **Import Third Party Payment Transactions** screen appears.

Notice that the screen display shows that **2 records** were **imported** and **2 records** are **ready** for processing. The screen display also indicates that there are **errors** associated with **16 records** that must be **corrected** before they may be processed.

Click on the **See Also** button below for additional **Help topics** related to this process.

Import from T-PAX

The Travel Preparation and Examination System, (**TPAX**) is a Windows based application developed by Professional Software Consortium to serve as a **TDY** (Temporary Duty) and **MILPCS** (Military Permanent Change of Station) and **CIVPCS** (Civilian Permanent Change of Station) voucher preparation system for anyone using IATS. In addition to preparing settlement vouchers, TPAX can be used to create **Travel Authorizations**, **Travel Orders**, and pay **Advances** of travel expenses.

With TPAX, Travel Authorizations, Advance Requests, or Settlement Requests are created on-line by either the individual **Traveler** or a designated **Proxy**. Once an authorization or request is created, the transaction is **transferred**, electronically, to an **Authorizing Official** for approval. Approved Settlement Requests are then **imported** into the Integrated Automated Travel System (IATS, the calculation software) for computation.

Note: Before attempting this process, users must access the IATS **Maintenance** module and **configure** IATS for [Automatic Block Numbering](#).

 **Complete the following steps to "import" requests from the T-PAX system:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "Import". An expandable menu appears listing the option.
2. **Click** on the **Import Requests from T-PAX** option. The **Import Claims From T-PAX** screen appears.

Order Number	Type	Traveler	Unit	Is VIP	Date Begin	Date End	Type
							

3. **Click** on the **Import Claims** button. IATS **creates** a new **block** and **imports** the **requests** into the newly created **block**.
4. In addition, IATS displays a **summary** of the **total number** of claims imported and breaks them out by **advances** and **settlements**.
5. When **finished** importing requests, **click** the **Done** button to **return** to the **System Administrator View** screen.

Import Tax Statement Delivery Preference

A **feature** was added to IATS that allows travelers to **turn off** the option for receiving **hardcopy tax statements** and receive them **electronically** instead. This option **requires** the traveler to **select** their **preference** via their **myPay** account. IATS will then **import** a file from the myPay system that will **set** that preference

The **Import Tax Statement Delivery Preference** screen is used to **import** the myPay files.

 **Complete the following steps to "import" a myPay file.**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "Import". An **expandable menu** appears listing the option.
2. **Click** on the **Import Tax Statement Delivery Preference** option. The **Import Tax Statement Delivery Preference** screen appears.

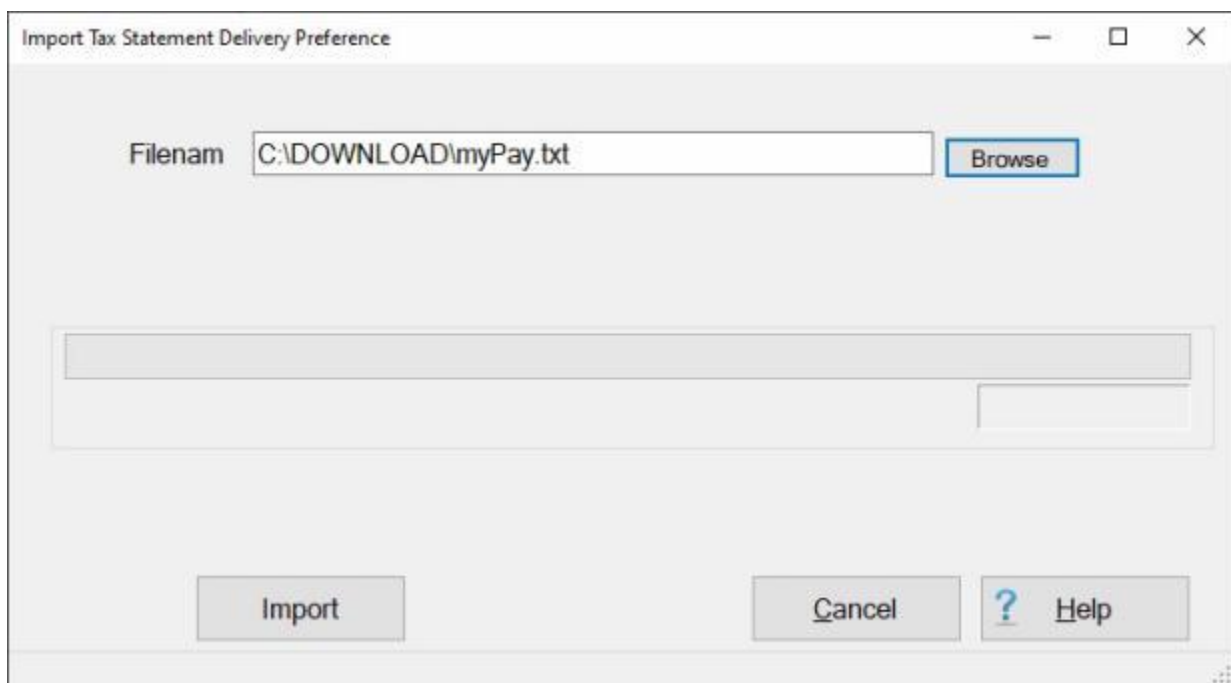

Note: At this screen, the IATS user must **select** the **location** where the import file **resides**.

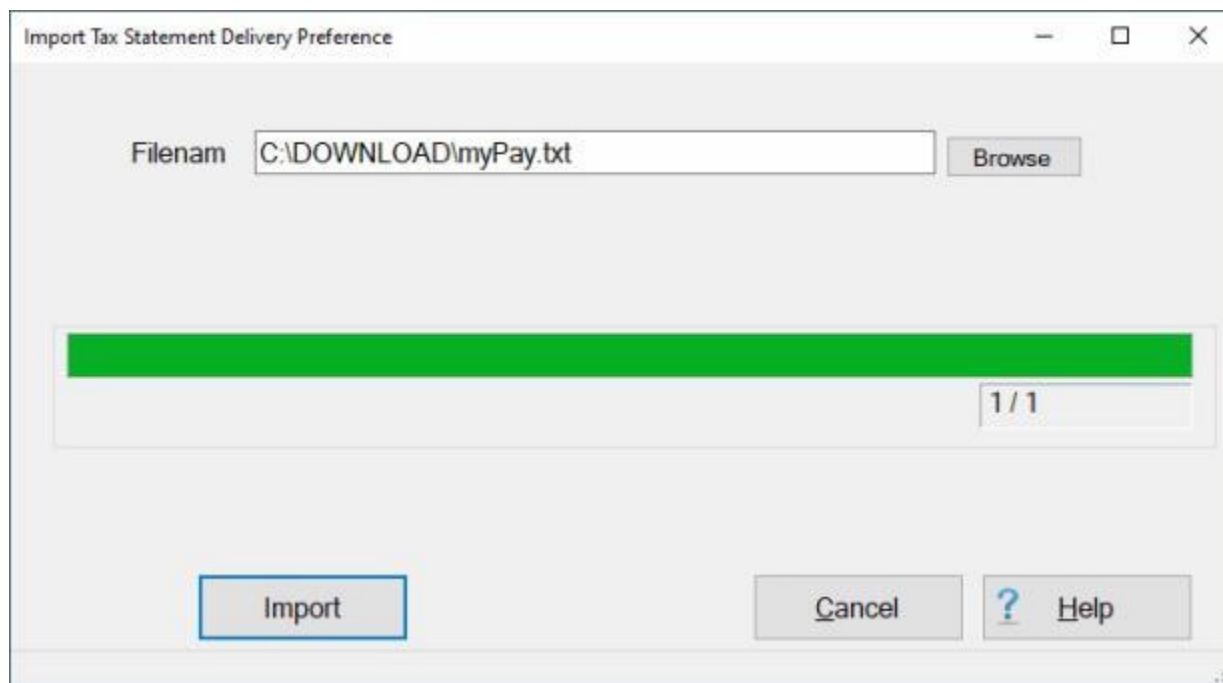

3. **Click** on the **Browse** button. The **Delivery Preference File** screen appears.

4. At the **Delivery Preference File** screen, you must **select the file type**, and **browse to the directory/folder where the import file resides**.
5. **Click** on the desired import **file**. IATS highlights the **filename**.
6. After the desired import **file** is selected, **click** on the **Open** button.
7. IATS will **return** to the **Import Tax Statement Delivery Preference** screen will the selected file displayed at the **Filename** field.

8. If the correct filename is displayed, **click** on the **Import** button to import the information from this file.
9. IATS will **import** the information from the file and **display** the **results** as shown below.

Note: In the **example** shown above, IATS successfully **imported** **one of one records**.

10. When you are **finished** using the **Import Tax Statement Delivery Preference** screen, **click** on the **Cancel** button.

Import from DMDC

The Army regulation is changing to use a **Department of Defense Identification** number (DoDID) instead of an **Social Security Number** (SSN) on travel orders. A feature was added to allow IATS to **send** a batch (bulk) **upload file** of existing **SSN's** in the databases(s) to the **Defense Manpower Data Center** (DMDC). The DMDC will **populate** the file with DoDID's for each **Traveler Record** and then IATS will **import** the file to **add** these DoDID's to the corresponding **Traveler Profiles**.

 Complete the following steps to "import" a DMDC file:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, **"Import"**. An expandable **menu** appears listing the options.
2. **Click** on the **"Import Traveler's DoD ID From DMDC"** option. The **Import From DMDC** screen appears.

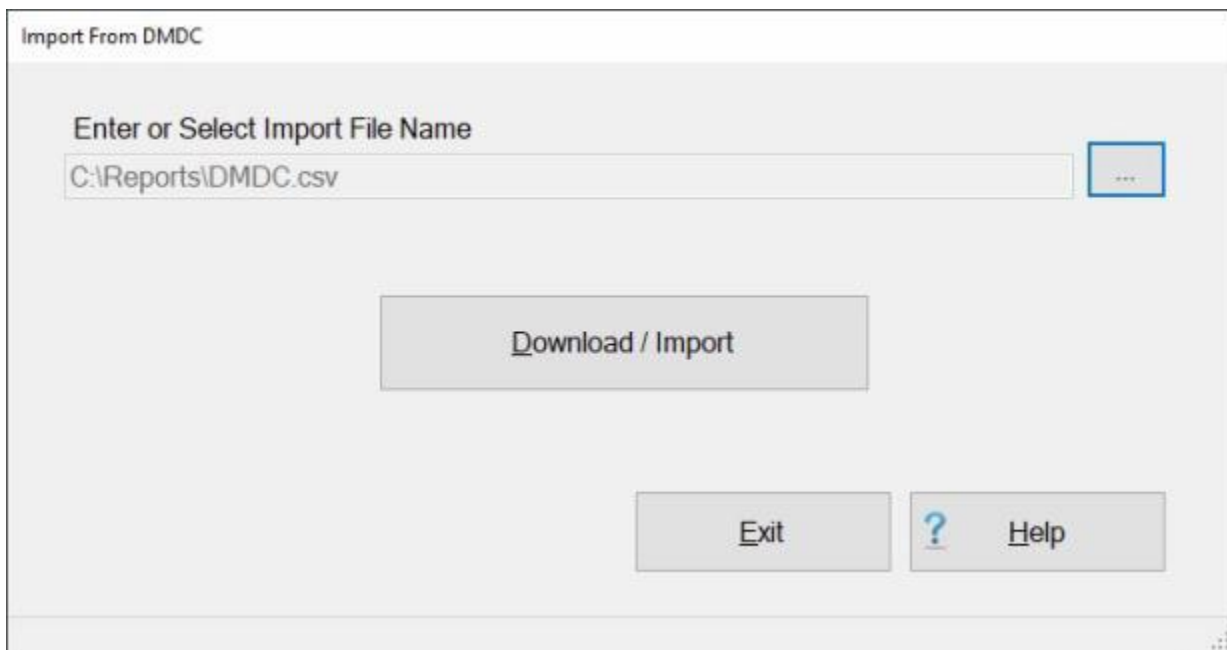

The screenshot shows a web-based interface for importing a DMDC file. The main heading is "Import From DMDC". Below this, there is a text input field with the placeholder text "Enter or Select Import File Name". To the right of the input field is a small button with three dots, indicating a file selection menu. In the center of the screen is a large, light gray button labeled "Download / Import". At the bottom right, there are two buttons: "Exit" and "Help" (with a question mark icon).

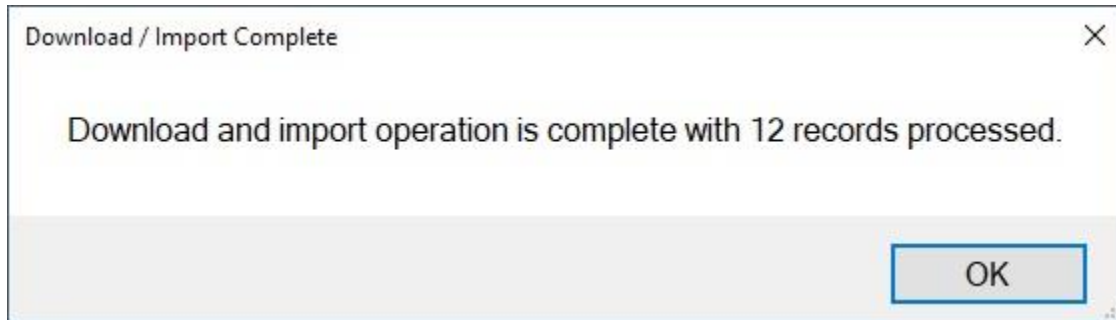

3. At the Import From DMDC screen, **enter** a **file name** or **click** on the **button** to the right of the **File Name** field to **browse** for the file **location**.
4. If you **click** on the **browse** button, IATS will **display** the **Select Import File** screen.

5. At the **Select Import File** screen, **navigate** to the **directory/folder** where the DMDC import file resides.
6. **Click** on the desired file or **enter** the **name** of the file you wish to import at the **File name** field.
7. **Ensure** the **CSV files** is the **file type** shown.
8. **Click** on the **Open** button to continue.
9. IATS **returns** to the Import From DMDC screen **showing** the **path** and **filename** you **selected** at the **Select Import File** screen in the **File Name** field.

10. If the path and filename are correct, **click** on the **Download / Import** button to continue. IATS **imports** the DoDID's from the file and **displays** the following message.

11. **Click** on **OK** to continue.
12. When you are **finished** using the Import From DMDC screen, **click** on the **Exit** button to **return** to the **System Administrator** screen.

Correcting Imported Third Party Payment Records

Correcting Third Party Government Payment Records

An **enhancement** was added to IATS to **import** payment data from **3rd party** transportation systems.

This enhancement was added to **create** settlement requests in IATS through a batch file import that will be processed to **collect taxes** that are owed due to **tax law changes** that went into effect on January 1st, 2018.

When the import file is processed, **errors** may occur that **prevent** the transactions from being processed. The **View and Correct Third Party Payment Records** screen is used to **identify** the errors and **make** the necessary **corrections**.

 Complete the following steps to "display and use" the View and Correct Third Party Payment Records screen.

Print Export to Excel Delete Save Validate Exit Help

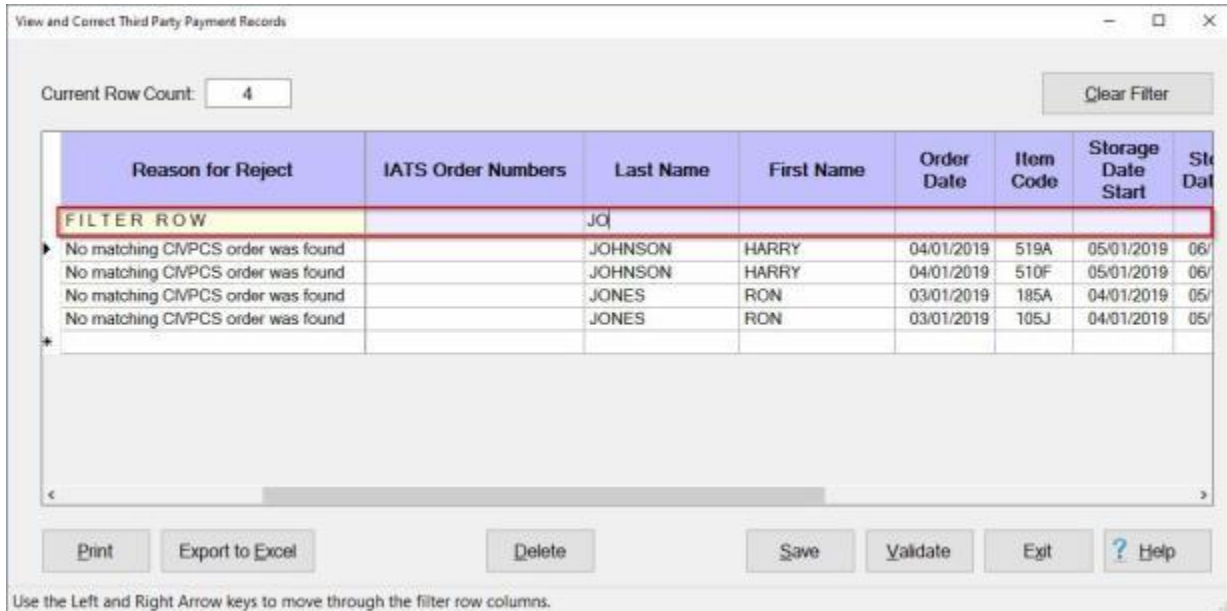

Double click on the column's data to add that condition to the filter.

Sorting the columns display:

1. **Notice** in the screen image above that a **Sort Indicator** is shown.
2. The various columns in the grid may be **sorted** in **ascending** or **descending** order which would be either **numerically** or **alphabetically** depending on the column.
3. To **sort** a column, **click** in the column **title** field. You will notice that the **entire column** will then be **highlighted** in **blue**. You will also notice a **Sort Indicator** button appearing next to the **column title**.
4. **Click** on the **Sort Indicator** button to sort the column in **ascending** or **descending** order.

Using the Filter Feature

The **View and Correct Third Party Payment Records** screen is used to **identify** the errors and **make** the necessary **corrections**.

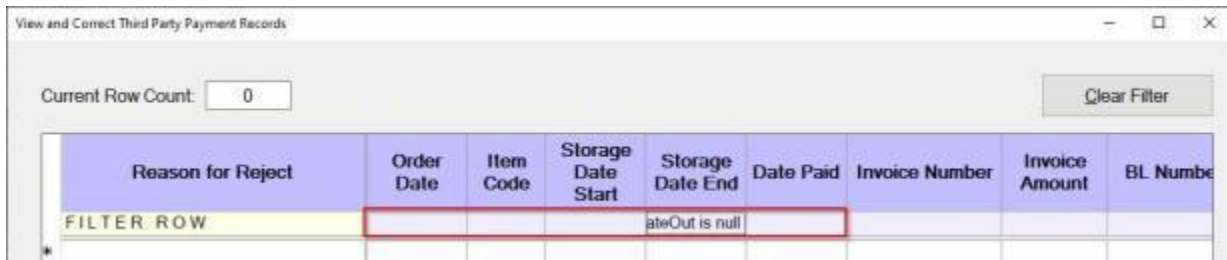

Using the Filter Row:

1. You will **notice** a **blank line** just under the **column headings** on the grid. This is a **Filter Row** as shown above.
2. In the example below, **(JO)** was entered into the Filter Row in the **Last Name** column. **Notice** that every name displayed in the **Last Name** column begins with the letters **(JO)**.
3. You may **filter** the **SSN, Order Number, Invoice Number** and **BL Number** columns using this same **technic** except for entering of **numbers** instead of **alpha** characters.
4. When you are **finished** filtering the display, **click** on the **Clear Filter** button to **return** to the **original/default** display.

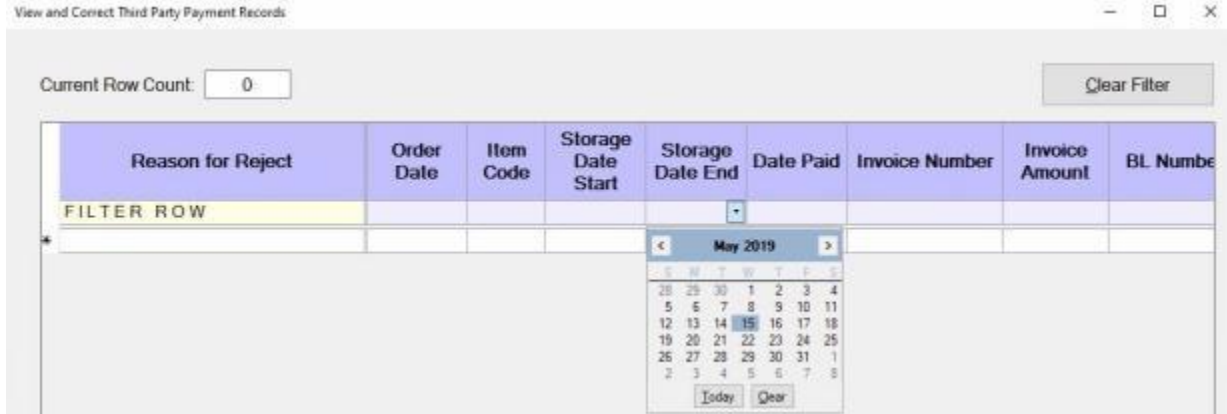

Filtering the Date Columns:

Note: There are three (3) different **methods** you can use to filter the **Date** columns. Each method is explained below:

Using the Calendar:

1. Double click in any of the **Date** cells on the **Filter Row**. You will see **text** indicating the date cell is **null**, which means that there is **no value** in the cell.
2. Click again in the **cell** and you will see a **down arrow** button.
3. Click on the **down arrow** button and IATS will display a **calendar** as shown below.

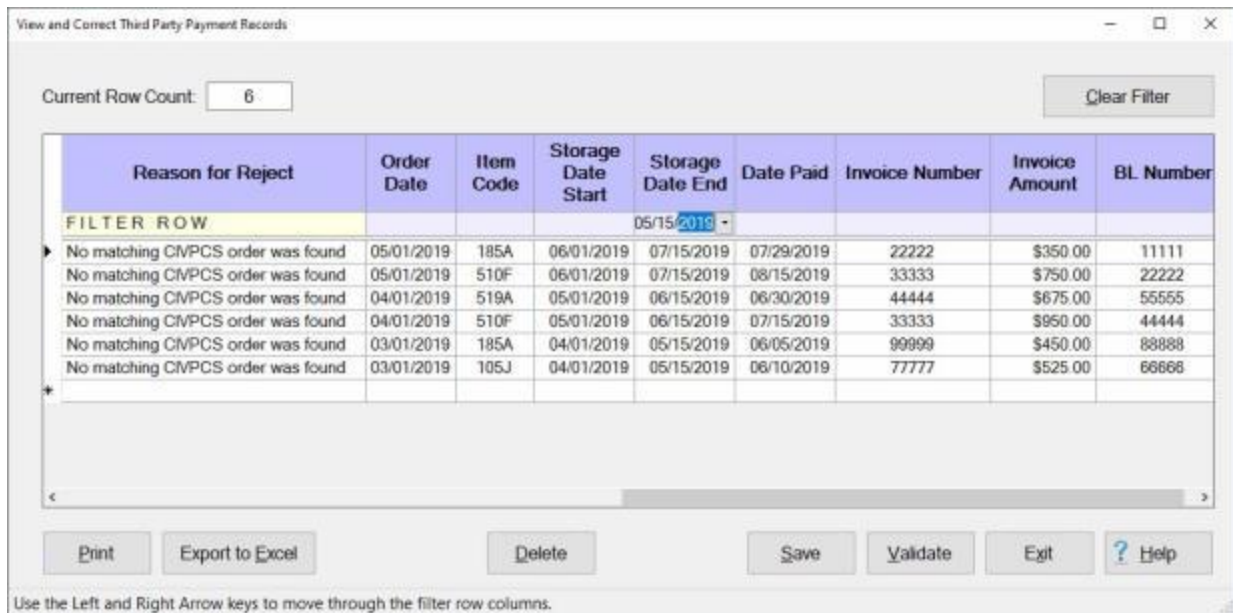

4. You can now **use** the **calendar** to **select a date** that you would like to use as the **filter** to display the records **matching** the selected criteria.
5. When you are **finished** filtering the display, **click** on the **Clear Filter** button to **return** to the **original/default** display.

Manually Entering the Date:

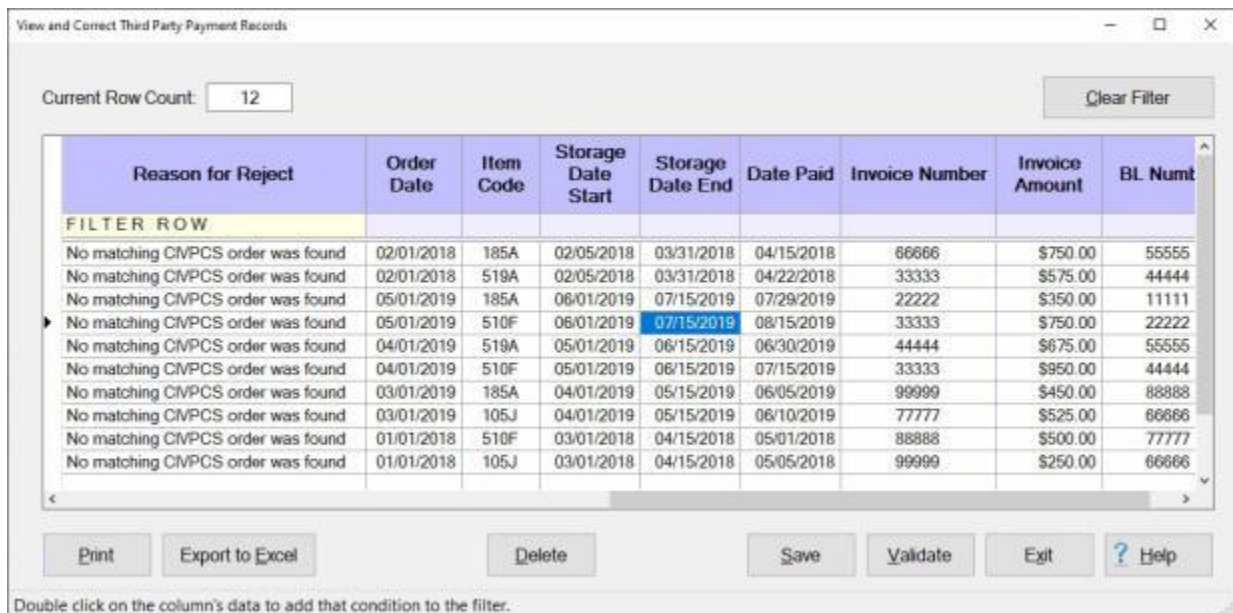

1. Click in any of the **Date** cells on the **Filter Row**. You will see that the cell is in **focus**.
2. Manually type in the **date** you wish to use as the filter criteria in **MMDDYY** format as shown below.

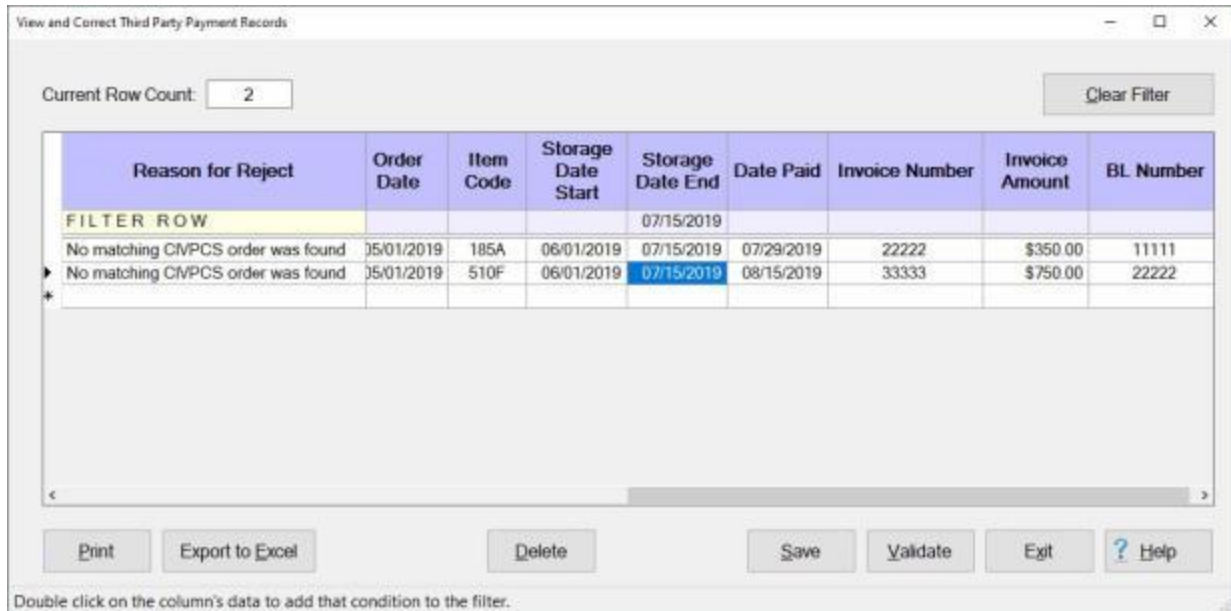

3. Notice in the image above that IATS filtered and displayed all records with the date entered (05/15/19), plus any other record that had 15 as the day and 2019 as the year.
4. When you are finished filtering the display, click on the Clear Filter button to return to the original/default display.

Double Clicking in a Date Cell:

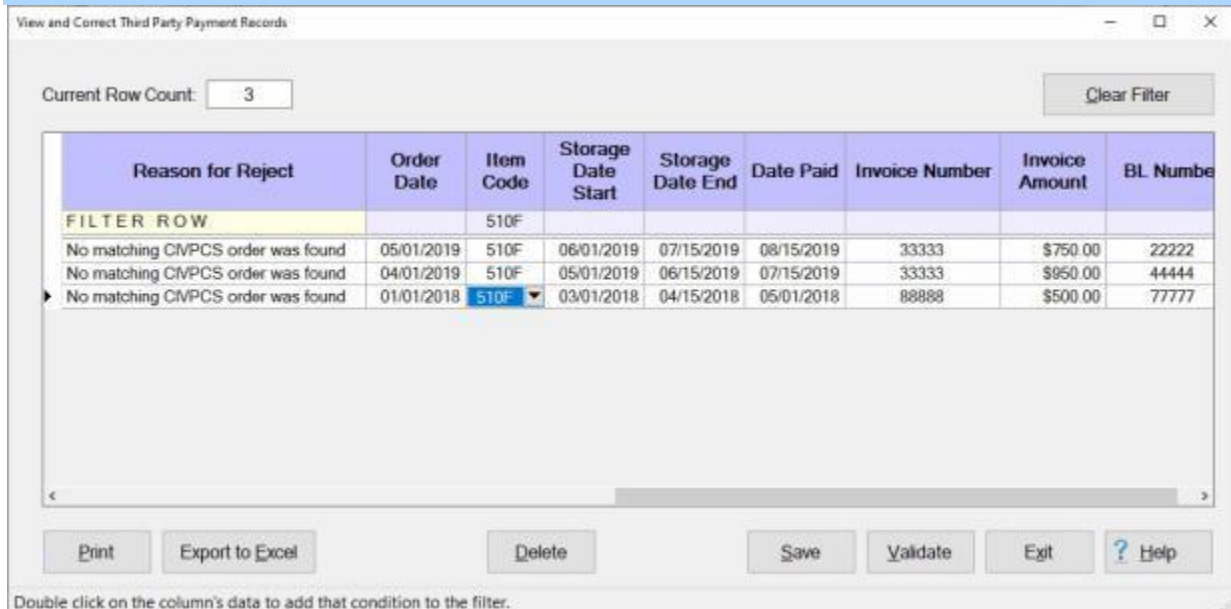

1. Double click in a date cell that you wish to filter records for.

2. Notice that IATS displays the records that match the date in the cell that you double clicked on.
3. When you are finished filtering the display, click on the Clear Filter button to return to the original/default display.

Filtering Cells:

Note: The same procedure demonstrated above by double clicking in a cell to filter records by date can also be used for any other cell in any other column.

1. In the above screen image the user double clicked in a cell displaying the item code (510F). Notice that IATS filtered the column to display only records with the item code (510F).
2. When you are finished filtering the display, click on the Clear Filter button to return to the original/default display.

Because the **View and Correct Third Party Payment Records** screen has multiple functionality, a variety of additional **Help topics** have been created to **describe** the various functions. **Click** on the **See Also** button below for a **list** of the additional Help topics and then **click** on the desired topic.

Correcting Third Party Payments Travel Order Numbers

The **View and Correct Third Party Payment Records** screen is used to **identify** the errors and **make** the necessary **corrections**.

Occasionally the **Travel Order number imported** from the Third Party Payments file **does not match** the CIVPCS Travel Order number **existing** in the IATS database. This situation causes the records to be **rejected** and **must** be **corrected** before a tax adjustment claim can be processed.

 **Complete the following steps to "correct" mismatched travel order numbers:**

View and Correct Third Party Payment Records

Current Row Count: Clear Filter

Reason for Reject	SSN	Order Number	IATS Order Numbers	Last Name	First Name	Order Date	Item Code	Storage Date Start	Storage Date End
FILTER ROW

Print Export to Excel Delete Save Validate All Exit ? Help

Note: In the example above, The **Reason for Reject** column indicates that several records were **rejected** because a **matching CIVPCS travel order number was not found**. Also notice that the rejected orders numbers are **highlighted in red** in the **Order Number** column.

1. **Click** in the **cell** in the **IATS Order Number** column next to the rejected order number shown in the **Order Number** column.
2. You will see a **down arrow** button appearing in the cell.
3. **Click** on the **down arrow** button. IATS will **display** a **list** of CIVPCS travel order numbers existing in the IATS database for the selected SSN.
4. If the correct order number is displayed in the **drop down** list of Orders in IATS, **click** on the correct order number to **select** that order.

- You will now see the order number selected from the *drop down* list of Orders in IATS shown in the **IATS Order Numbers** column.
- Click** in the **space left of the reason for reject** to **select** the record. IATS will **highlight** the record in blue.
- Click** on the **Ctrl** button to **change** the **Validate All** button to just **Validate**. This will allow you to just validate the corrected and selected record.
- Click** on the **Validate** button. The following *pop-up message* will appear.

Tip: At the bottom of the **View and Correct Third Party Payment Records** screen, you will see a **Save** and also a **Validate All** button. You would **use** the **Save** or **Validate** buttons when you just want to save or validate only the **record(s)** you have **selected** and **highlighted**. If you **press** the **Ctrl** key on your keyboard, these buttons will **change** to **Save All** and **Validate** as shown below. When you **use** the **Save All** or **Validate All** buttons, IATS will save or validate all of the **records** that are **displayed** in the grid. **Pressing** the **Ctrl** key **again** will **change** the buttons back to **Save** and **Validate All**.

- Click** on **OK** to **continue** making corrections.

Note: You will notice that the records **corrected** and **validated** will no longer appear in the **Reason for Reject** column as shown below.

Click here (or use the keyboard Delete button) to Delete the Selected Records. If no Records are Selected, Delete all Current records.

10. Repeat the steps above to **continue** correcting travel order numbers as needed.

Correcting DPS Item Codes

An **enhancement** was added to IATS to **import** payment data from **3rd party** transportation systems.

This enhancement was added to **create** settlement requests in IATS through a batch file import that will be processed to **collect taxes** that are owed due to **tax law changes** that went into effect on January 1st, 2018.

When the import file is processed, **errors** may occur that **prevent** the transactions from being processed. The **View and Correct Third Party Payment Records** screen is used to **identify** the errors and **make** the necessary **corrections**.

Defense Personal Property System (**DPS**) **Item Codes** and **Descriptions** for the codes are stored in a **table** in the IATS database.

When the Third Party Payment Records file is **imported**, records will be rejected if there is **no Item Code** in the **DPS Item Codes table** in the IATS database that **matches** the Item Code in the imported payment record.

 **Complete the following steps to "correct" DPS Item Codes.**

This enhancement was added to **create** settlement requests in IATS through a batch file import that will be processed to **collect taxes** that are owed due to **tax law changes** that went into effect on January 1st, 2018.

When the import file is processed, **errors** may occur that **prevent** the transactions from being processed. The **View and Correct Third Party Payment Records** screen is used to **identify** the errors and **make** the necessary **corrections**.

A feature was added to the **View and Correct Third Party Payment Records** screen that allows you to **print** records to a document for a distinct traveler or **travel order number**.

 Complete the following steps to "print" records to a document.

View and Correct Third Party Payment Records

Current Row Count: Clear Filter

Double click on the column's data to add that condition to the filter.

Printing records for a distinct traveler:

1. In order to print records for a **distinct** traveler, you **must first** apply a **filter** to **select** the records for a **particular** traveler.
2. To **apply** a filter, you can either **double click** on a **cell** for the **SSN** you wish to select or, you can **enter** that **SSN** in the empty **SSN** cell on the **Filter Row**.

View and Correct Third Party Payment Records

Current Row Count: Clear Filter

Reason for Reject	SSN	Order Number	IATS Order Numbers	Last Name	First Name	Order Date	Item Code	Storage Date Start	Storage Date End
FILTER ROW	111331111								
▶ No matching CIVPCS order was found	111-33-1111	HQ21214567890		RHOADES	DUSTY	03/01/2018	LHS		

3. After you have **applied** the **filter** to select a distinct traveler, **click** on the **Print** button. IATS will display a **menu** for print options.
4. **Click** on the **Distinct Traveler List** option. The following screen will appear **displaying a document** for the **SSN** that was selected.

5. **Click** on the **Print** icon if you wish to **print** the document.
6. After the document has printed, **click** on the **(X)** in the top right corner to **close** the Print screen. IATS will return you to the **View and Correct Third Party Payment Records** screen.
7. **Click** on the **Clear Filter** button if you wish to print a document for a different traveler or for a distinct travel order number.
8. If you are **finished** using the **View and Correct Third Party Payment Records** screen, **click** on the **Exit** button.

Printing records for a distinct travel order:

1. **Click** on the **Clear Filter** button if necessary to **change** the **view** on the **View and Correct Third Party Payment Records** screen back to the **original** display showing **all** of the records.
2. In order to print records for a **distinct** travel order number, you **must first apply** a **filter** to **select** the records for a **particular** order number.
3. To **apply** a filter, you can either **double click** on a **cell** for the **order number** you wish to select or, you can **enter** that **order number** in the empty Order Number cell on the **Filter Row**.
4. After you have **applied** the **filter** to select a distinct traveler, **click** on the **Print** button. IATS will display a **menu** for print options.
5. **Click** on the **Distinct Order Number List** option. The **Print** screen will appear **displaying** a **document** for the **Order Number** that was selected.
6. **Click** on the **Print** icon if you wish to **print** the document.

IATS 8.7.1 User Guide

7. After the document has printed, **click** on the **(X)** in the top right corner to **close** the Print screen. IATS will return you to the **View and Correct Third Party Payment Records** screen.
8. **Click** on the **Clear Filter** button if you wish to print a document for a different travel order number or for a distinct traveler.
9. If you are **finished** using the **View and Correct Third Party Payment Records** screen, **click** on the **Exit** button.

Validating Corrected Third Party Payment Records

An **enhancement** was added to IATS to **import** payment data from **3rd party** transportation systems.

This enhancement was added to **create** settlement requests in IATS through a batch file import that will be processed to **collect taxes** that are owed due to **tax law changes** that went into effect on January 1st, 2018.

When the import file is processed, **errors** may occur that **prevent** the transactions from being processed. The **View and Correct Third Party Payment Records** screen is used to **identify** the errors and **make** the necessary **corrections**.

After you have made the necessary **corrections** you must **validate** the corrected records to **move** them to the **Ready for Processing pool**.

 **Complete the following steps to "validate" corrected Third Party Payment records.**

View and Correct Third Party Payment Records

Current Row Count: Clear Filter

Reason for Reject	SSN	Order Number	IATS Order Numbers	Last Name	First Name	Order Date	Item Code	Storage Date Start	Storage Date End

8. The next step in the process is to **create** a **file** to be **uploaded** to the **goDocs** program which will **create individual blocks** for **each** transaction.

Click on the **See Also** button below for a **list** of the additional Help topics and then **click** on the desired topic.

Creating the goDocs Notification File

An **enhancement** was added to IATS to **import** payment data from **3rd party** transportation systems.

This enhancement was added to **create** settlement requests in IATS through a batch file import that will be processed to **collect taxes** that are owed due to **tax law changes** that went into effect on January 1st, 2018.

When the import file is processed, **errors** may occur that **prevent** the transactions from being processed. The **View and Correct Third Party Payment Records** screen is used to **identify** the errors and **make** the necessary **corrections**.

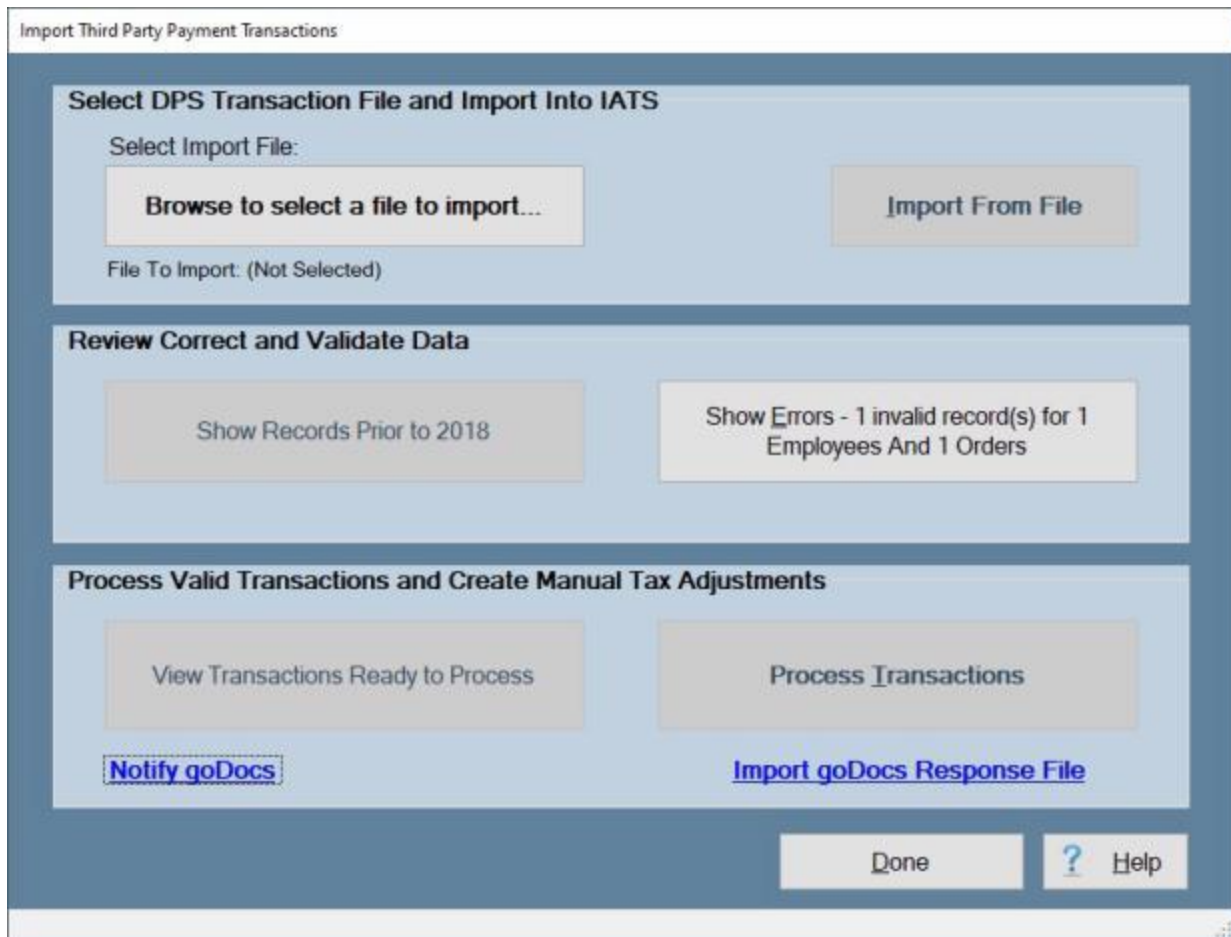

After you have made the necessary **corrections** you must **validate** the corrected records to **move** them to the **Ready for Processing pool**.

Note: After you have Processed the Transactions, IATS **creates** a **block** beginning with the letters **TPP** containing all of the **records** that were **processed** as shown below.

The next step in the process is to **create** a **file** to be **uploaded** to the **goDocs** program which will **create** individual **blocks** for **each** transaction.

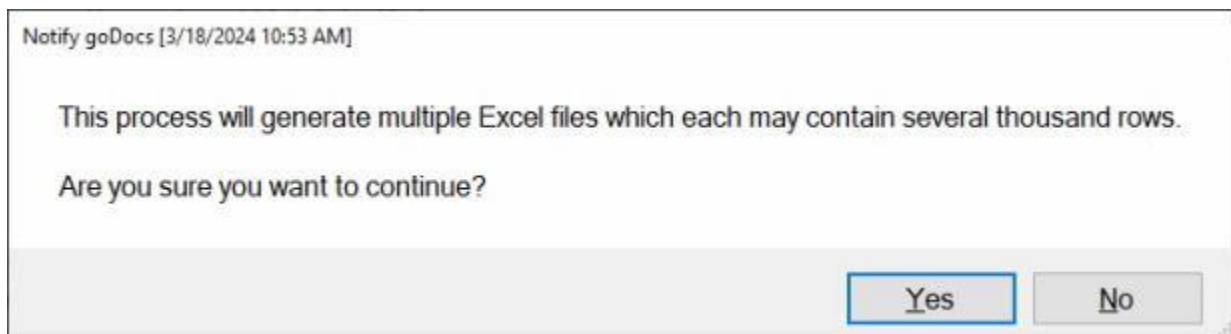

goDocs is an external system developed in-house by DFAS-Rome. An IATS user has to **copy/move/transmit** the **Excel** spreadsheet created to the computer/user responsible for working on goDocs. That user has to **load** that file into goDocs to be processed. The result is an Excel file that can be **given back** to IATS and **imported** to tell IATS where to **move** each claim.

 **Complete the following steps to "create" the goDocs Notification File.**

Note: After you have Processed the Transactions, and verified that IATS **created** a **block** beginning with the letters **TPP** containing all of the **records** that were **processed**, you must **click** on the **Notify goDocs** link to **create** an **Excel** file to be **uploaded** to the goDocs system.

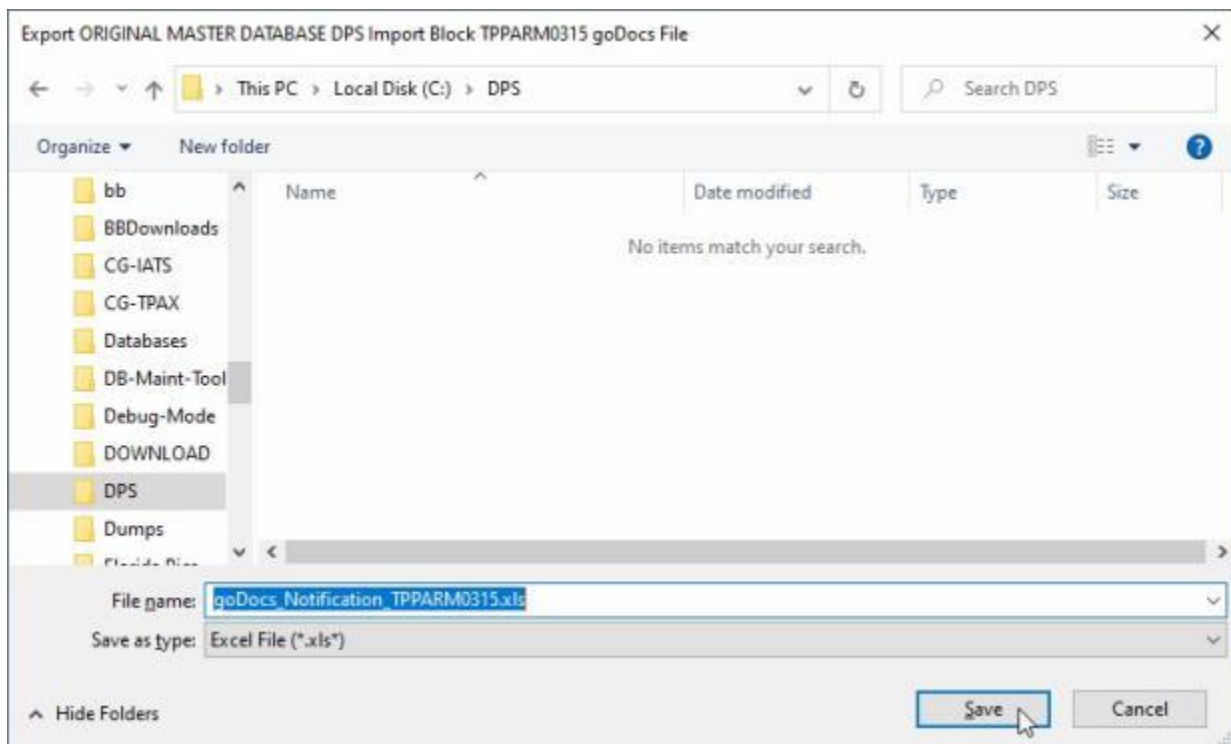

1. **Click** on the **Notify goDocs** link. IATS will **display** the following **warning message**.

2. **Click** on **Yes** if you wish to **continue**. If you **click** on **Yes**, IATS will **display** the following **message**.

3. **Click** on **OK** to continue. IATS will **display** the following **Export** screen.

4. At the **Export** screen, you will **notice** that the default name for the file will be **goDocs_Notification** plus the **name of the block** that the records were pulled from. **Click** in the **Filename** field and **enter** a different name for the file if desired.
5. At the **Export** screen you may also **change** the **location** where the file will be **saved** to.
6. **After** you have made any desired changes, **click** on the **Save** button. IATS will **display** the following **message** indicating that the process is **complete**.

7. **Click** on **OK** to continue.
8. **Click** on the **Done** button if you are **finished** using the **Import Third Party Payment Transactions** screen.

Note: An IATS user *now* has to **copy/move/transmit** the **Excel** spreadsheet created to “notify goDocs” to the computer/user responsible for working on goDocs. That user must **load** that file into goDocs to be processed.

Importing the goDocs Response File

An **enhancement** was added to IATS to **import** payment data from **3rd party** transportation systems.

This enhancement was added to **create** settlement requests in IATS through a batch file import that will be processed to **collect taxes** that are owed due to **tax law changes** that went into effect on January 1st, 2018.

When the import file is processed, **errors** may occur that **prevent** the transactions from being processed. The **View and Correct Third Party Payment Records** screen is used to **identify** the errors and **make** the necessary **corrections**.

After you have made the necessary **corrections** you must **validate** the corrected records to **move** them to the **Ready for Processing pool**.

Note: After you have Processed the Transactions, IATS **creates** a **block** beginning with the letters **TPP** containing all of the **records** that were **processed** as shown below.

The next step in the process is to **create** a **file** to be **uploaded** to the **goDocs** program which will **create** individual **blocks** for **each** transaction.

goDocs is an external system developed in-house by DFAS-Rome. An IATS user has to **copy/move/transmit** the **Excel** spreadsheet created to **"notify goDocs"** to the computer/user responsible for working with goDocs. That user has to **load** that file into goDocs to be processed. The result is an Excel file that can be **given back** to IATS and **imported** to tell IATS where to **move** each claim.

Note: The highlighted blocks are the new blocks created by importing the goDocs Response file and contain the claims that were on the original block (TPPARM0813). The original block (TPPARM0813) is now empty since all of the claims have been reassigned.

Tax Reporting Safeguards

Tax Reporting Safeguards - Overview

With increased requirements to process and report **3rd party tax collection transactions** there comes a need to report them at various stages, which can possibly lead to **incomplete** and/or **inaccurate** reports if the **books** are not closed properly. Users are having problems understanding and executing the precise order of actions to produce IRS forms with the correct data.

Tax Collection and Tax Refund records are **created** when the user **releases** tax collection or refund claims to **Disbursing** and **Disbursing** subsequently **returns** the **DOV Number** and **Date of Payment**. The **dollar amounts** in the Tax Collection or Tax Refund records are used to **compute** the **values** in **Forms W-2c** or **941-X**.

To ensure that no additional Tax Records are **added** to the mix until the user has **printed** all the **associated forms** a **switch** was designed to either **allow** (i.e. unblock) or **prevent** (i.e. block) tax collection claims from being disbursed.

Note that the **switch** applies to the entire system while the **reports** are **office dependent**. This means the user will have to **print forms** and **Close the Books** for each office separately. The switch will not be able to be **reset** to allow tax collection claims to be disbursed until all open items in all offices are **handled**.

There are **two methods** for using the Tax Reporting Safeguards. There is a **strict** method and a **flexible** method.

Note: The **strict** Tax Reporting Safeguards feature is **activated** by **checking** the **Enable Safeguards** switch on the **IATS Configuration** screen in Maintenance.

Click on the **See Also** button below for a **list** of the additional **Help topics** related to Tax Reporting Safeguards and then **click** on the desired topic.

Block or Unblock Release of Tax Collections to Disbursing

A feature was added to IATS to allow a System Administrator to **prevent a Tax Collection block or block containing Tax Refund records** from being **released** to the **disbursing** module.

The **purpose** is to give the user **time to reconcile the data** for producing **Form 941-X** or **W-2c** without having any **additional data** added in. Once the appropriate report has been sent to the IRS, the **switch** can be **changed to allow** Tax Collections or Tax Refunds to be dispersed.

Note: In order to use this feature, **ensure** that the **“HHG DPS Interface Active”** check box in **Configuration in Maintenance** is checked as shown below:

System Description	
Standalone	<input type="checkbox"/>
Use Employee ID	<input type="checkbox"/>
Liaison Reports	<input type="checkbox"/>
Reservist Travel	<input type="checkbox"/>
Reason for Delete	<input checked="" type="checkbox"/>
RITA Office Aware	<input checked="" type="checkbox"/>
Prevalidate Accounting	<input checked="" type="checkbox"/>
Forced Audit	<input type="checkbox"/>
Prepayment Audit	<input type="checkbox"/>
EFT Rejects	<input type="checkbox"/>
Auto Delete Blocks	<input checked="" type="checkbox"/>
Email Completed Claims	<input checked="" type="checkbox"/>
HHG DPS Interface Active	<input checked="" type="checkbox"/>
# Days User Suspended till Deleted:	<input type="text" value="15"/>

 Complete the following steps to "block or unblock" a Tax Collection or Tax Refund block:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, **"Utilities"**. An **expandable menu** appears listing the various utility programs.
2. **Click** on the **Block/Unblock Release of Tax Collections/Tax Refunds option**. The following **screen** appears.

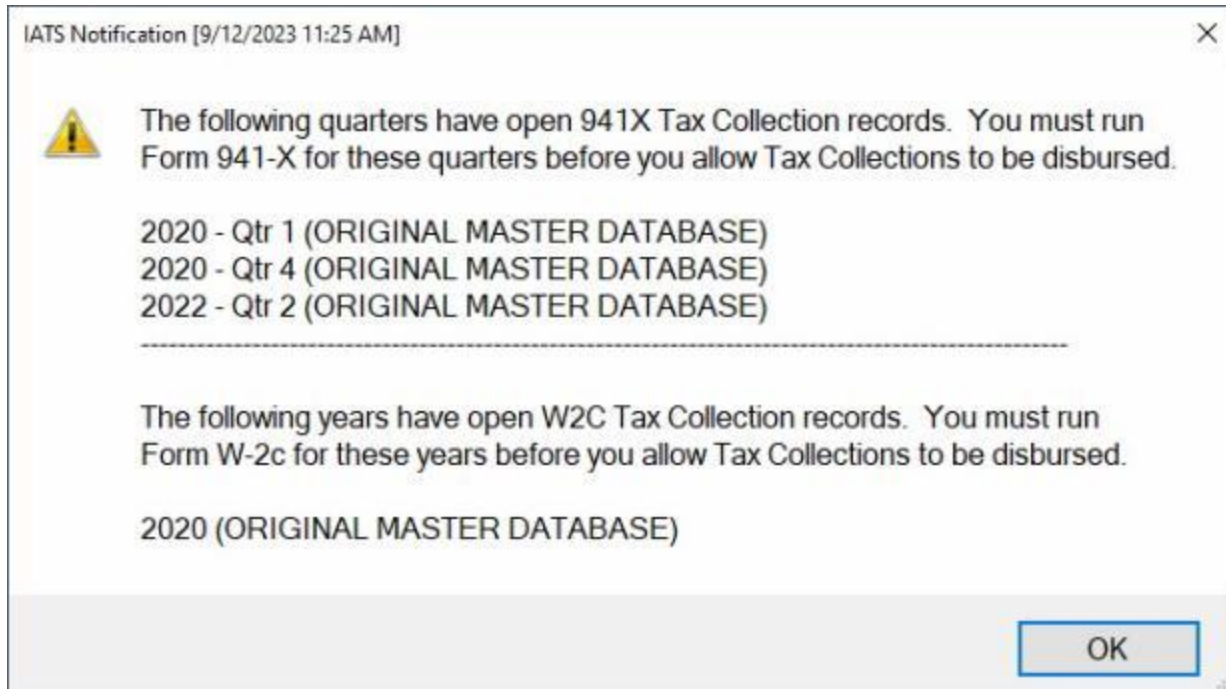

3. **Click** on the **Change the status to: "Blocked"** or the **Cancel** button as applicable.
4. If you **click** on the **Change the status to: "Blocked"** button, IATS will **display** the following *pop-up message*.

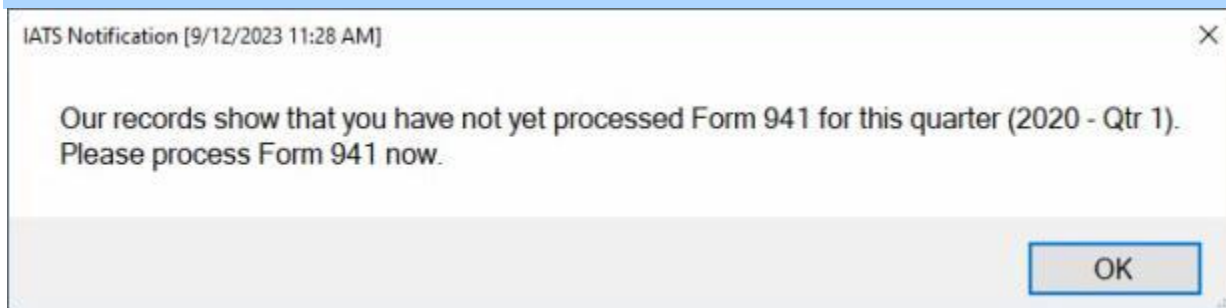

5. **Click** on **OK** to continue.
6. You may now **proceed** to **generate** the desired **tax forms**.

Note: After the **status** has been **changed** to **Blocked**, you cannot **change** the status back to **Unblocked** until all of the required **tax forms** have been **generated** and the **books** have been **closed** for any year having **open** tax collection or tax refund records. If you **attempt** to use the **Utility** program and **change** the status to **Unblocked**, the following **display** will appear if **open tax collection or tax refund records** are still existing:

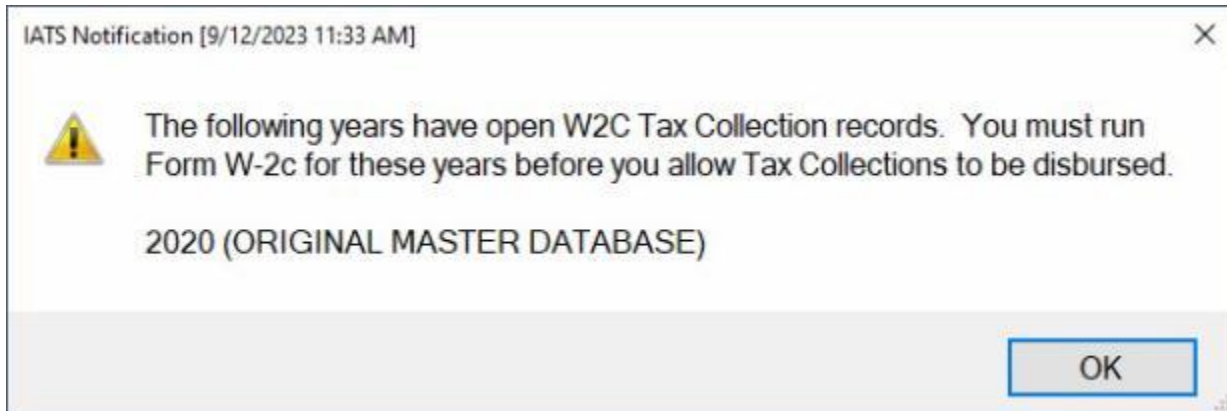

You must now generate the **941 forms** for any **quarters** with open records and **W2 forms** for any **years** with open records.

Note: If at this point, the you attempt to run **Form 941-X** for any of these quarters and if the corresponding **Form 941** has not been run yet, you will receive the following message:

Note: After Forms 941 and 941-X have been run and you try to **Unblock Release of Tax Collections/Refunds**, you will receive the following message:

Note: If you try to run **Form W-2c** and the corresponding **W-2** has not yet been run, you will receive the following message:

Note: IATS records **Forms W-2c** and **W-2**, only they were run for all travelers in the office (i.e. beginning and ending SSN are left blank). After both forms are run and you try to **Unblock Release of Tax Collections/Refunds**, you will be prompted to “**Close the Books**”:

Note: If your organization has **multiple offices** within you database, you must **repeat** these **steps** to **generate** the **Forms 941, 941X, W2, and W2C**, to **close** the open Tax Collection or Tax Refund Records for every office before you can **Close the Books** and **Unblock the Release of Tax Collections or Tax Refunds**.

Click on the **See Also** button below for a **list** of the additional Help **topics** related to **Tax Reporting Safeguards** and then **click** on the topic "**Closing the Books for Tax Collection Records**".

Closing the Books for Tax Collection Records

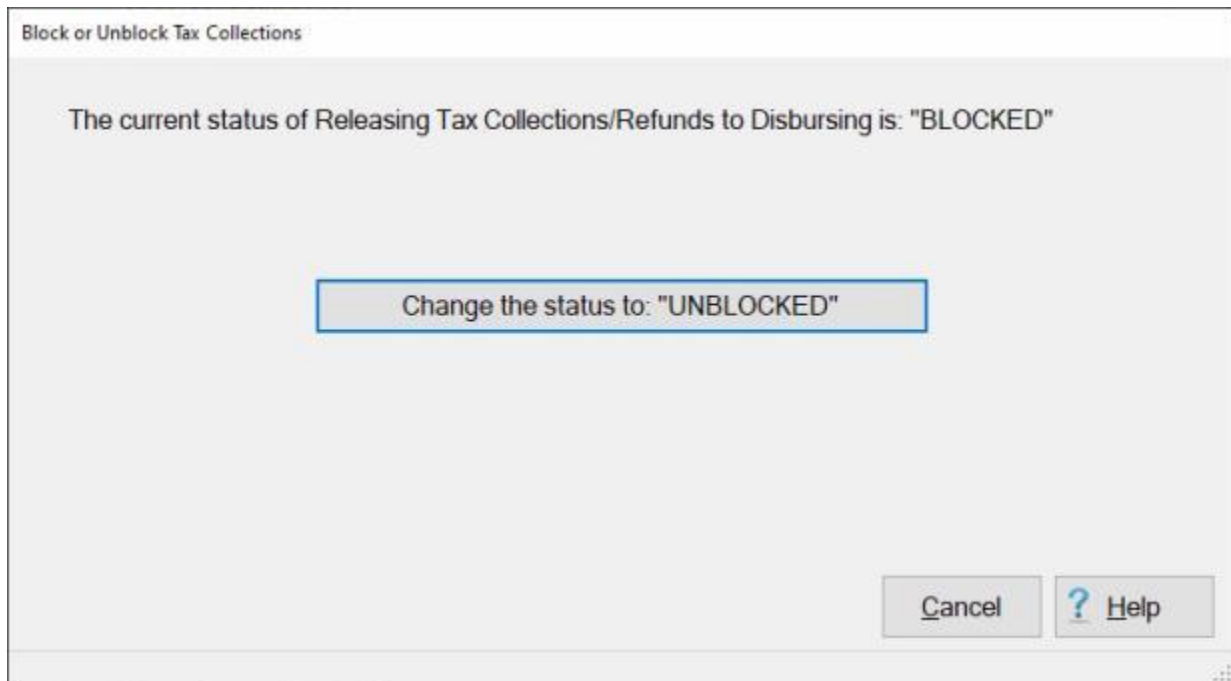

A **switch** was added to IATS to either **allow** (i.e. unblock) or **prevent** (i.e. block) **tax collection or tax refund claims** from being **disbursed**.

Note that the **switch** applies to the entire **system** while the **reports** are **office dependent**. This means the user will have to **print forms** and **Close the Books** for each **office separately**. The switch will not be able to be **reset** to allow tax collection or tax refund claims to be **disbursed** until all open items in all offices are **handled**.

 Complete the following steps to "Close the Books" for Tax Collection or Tax Refund Records:

After you have **generated** the **941 forms** for any **quarters** with open records and **W2 forms** for any **years** with **open records** you can now **Unblock the Release of Tax Collections or Tax Refunds**.

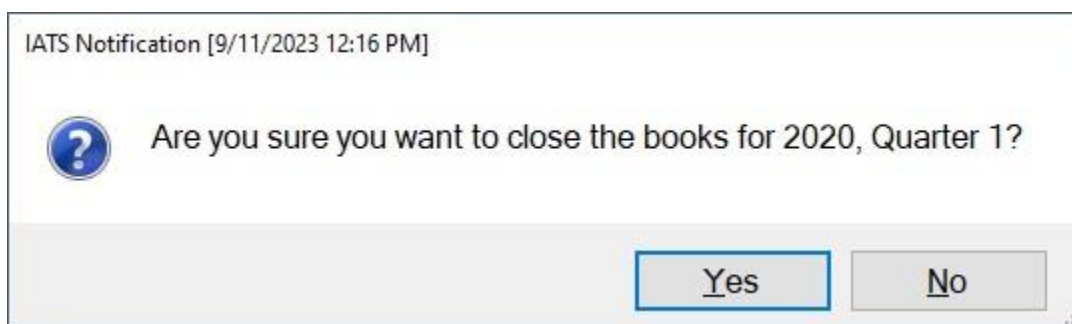

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, **"Utilities"**. An expandable **menu** appears listing the various utility programs.
2. **Click** on the **Block/Unblock Release of Tax Collections/Tax Refunds option**. The following **screen** appears.

3. **Click** on the **Change the status to: "UNBLOCKED"** or the **Cancel** button as applicable.
4. If you **click** on the **Change the status to: "UNBLOCKED"** button, you will see the following screen advising you to **close the books**.

5. To **close** a quarter, **click** on the **down arrow** button at the **Quarter to be Closed** section in the middle of the screen to see a *drop-down list* of available quarters.
6. **Click** on the **quarter** you wish to **close** the books for.
7. When you have selected the desired quarter, **click** on the **OK** button. IATS will **display** the following *pop-up message*.

7. **Click** on Yes if you wish to **Close the Books**.

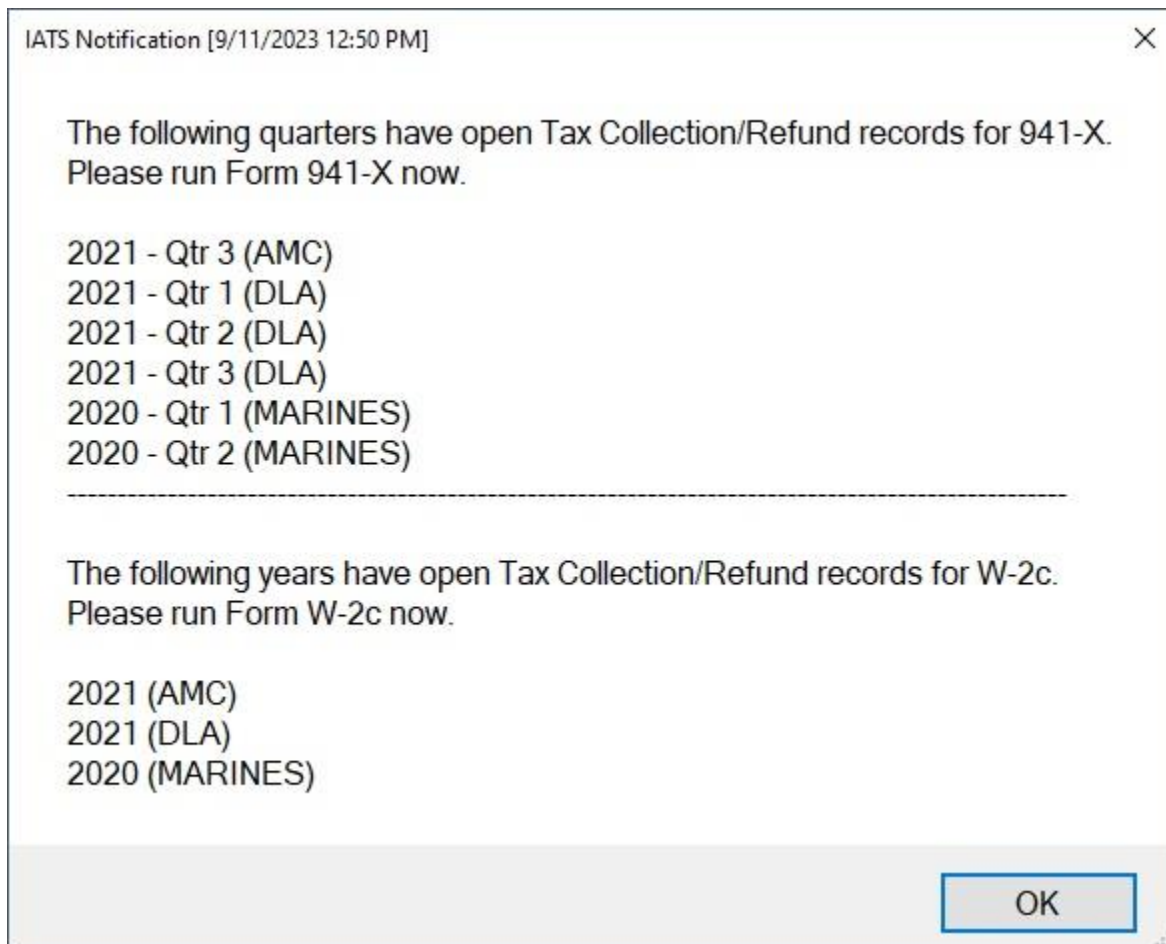

Note: In our **example**, there is another **quarter** you must **close the books** for. You must **close the books** for all **open quarters** before you will be allowed to **Unblock the Release of Tax Collections or Tax Refunds**.

8. **Repeat** the steps above to **Close the Books** for any additional **quarters**.

Note: If IATS **detects** that there are still open **Tax Collection or Tax Refund Records** for another **office** in your organization's **database**, you will see the following message:

9. **Click** on Yes to **see** the **details**. IATS will **display** the following **message**:

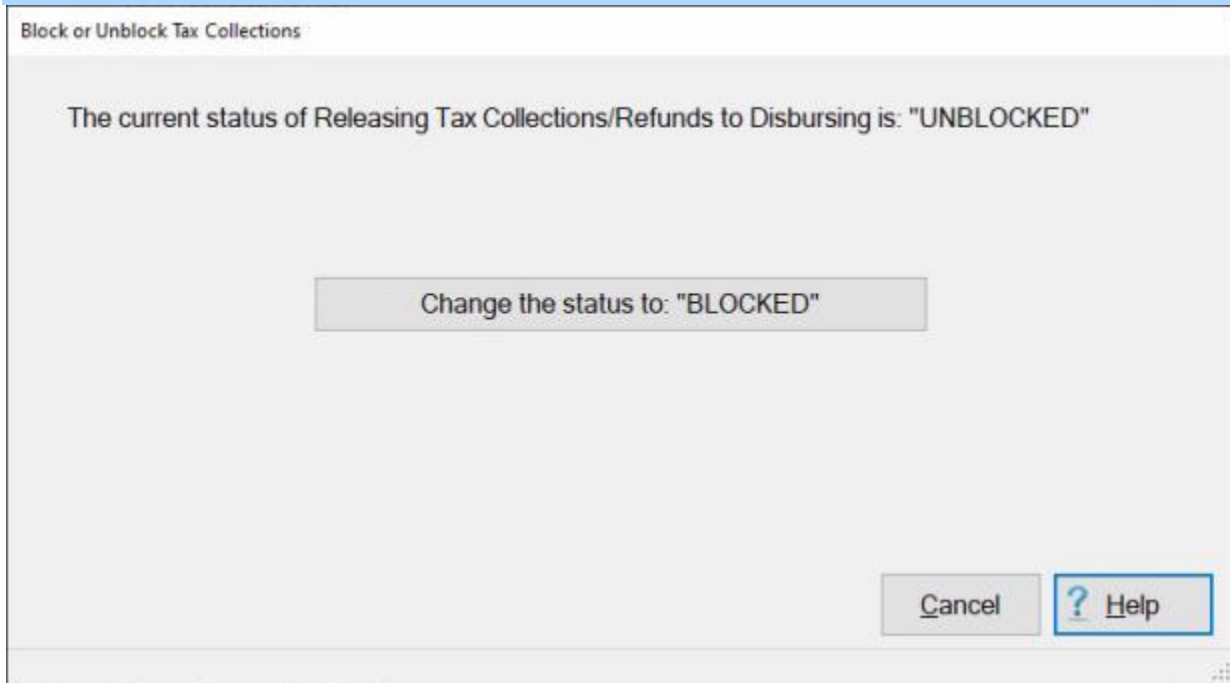

10. **Click** on **OK** to continue.

Note: If you **still** have **open records** for **another office**, **as shown above**, you must **switch** to that office and go through the steps to **generate** the **Forms 941, 941X, W2, and W2C** to **close** the open records.

11. After **ensuring** that you have generated **all** of the required **tax forms** for the office that still had open tax collection or tax refund records, you **must now Close the Books** for that office by **repeating the steps above**.

Note: When all of the **required tax forms** have been **generated** and the **books have been closed** for all offices, IATS automatically changes the **status** of the tax collection or tax refund records to **Unblocked** as shown below.

12. The Tax Collections/Refunds Records may now be **disbursed**.

Click on the **See Also** button below for a **list** of the additional **Help topics** related to **Tax Reporting Safeguards** and **generating** the tax forms **941, 941X, W2, and W2C**.

Using the Flexible Method to Block or Unblock Release of Tax Collection Records

A feature was added to IATS to allow a System Administrator to **prevent a Tax Collection block or a block containing Tax Refund records** from being **released** to the **disbursing** module.

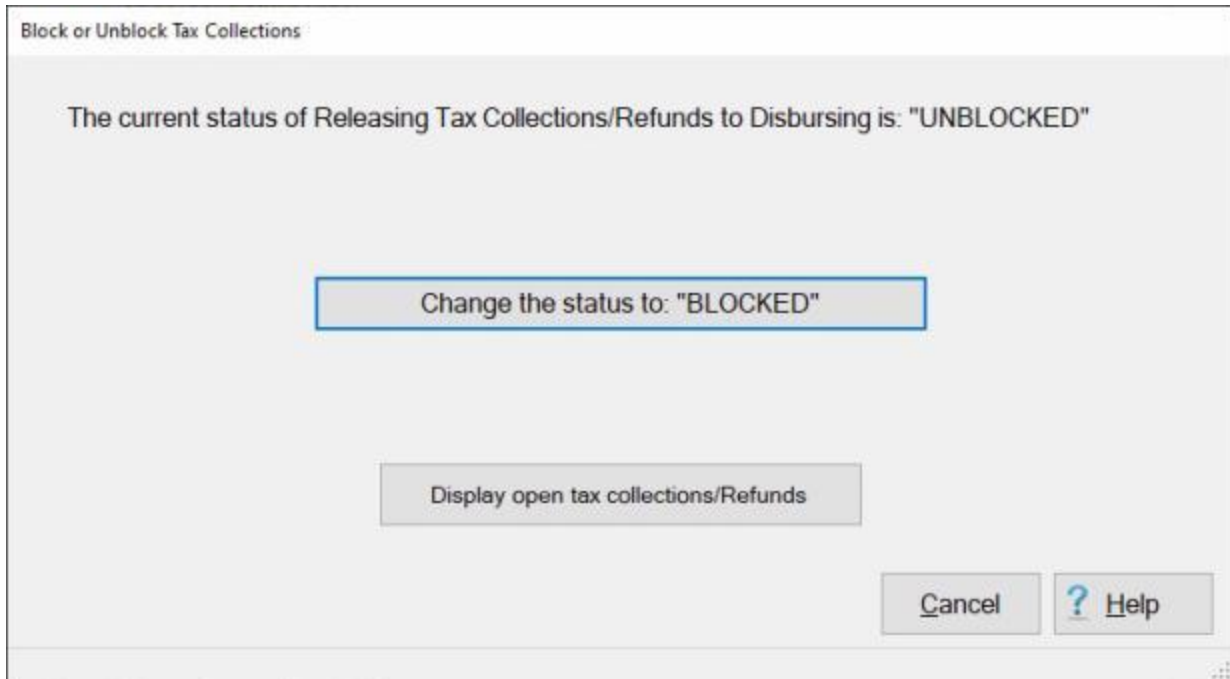

The **purpose** is to give the user **time to reconcile the data** for producing **Form 941-X** or **W-2c** without having any **additional data** added in. Once the appropriate report has been sent to the IRS, the **switch** can be **changed to allow** Tax Collections to be dispersed.

Note: In order to use this feature, **ensure** that the “**HHG DPS Interface Active**” check box in **Configuration in Maintenance** is checked as shown below:

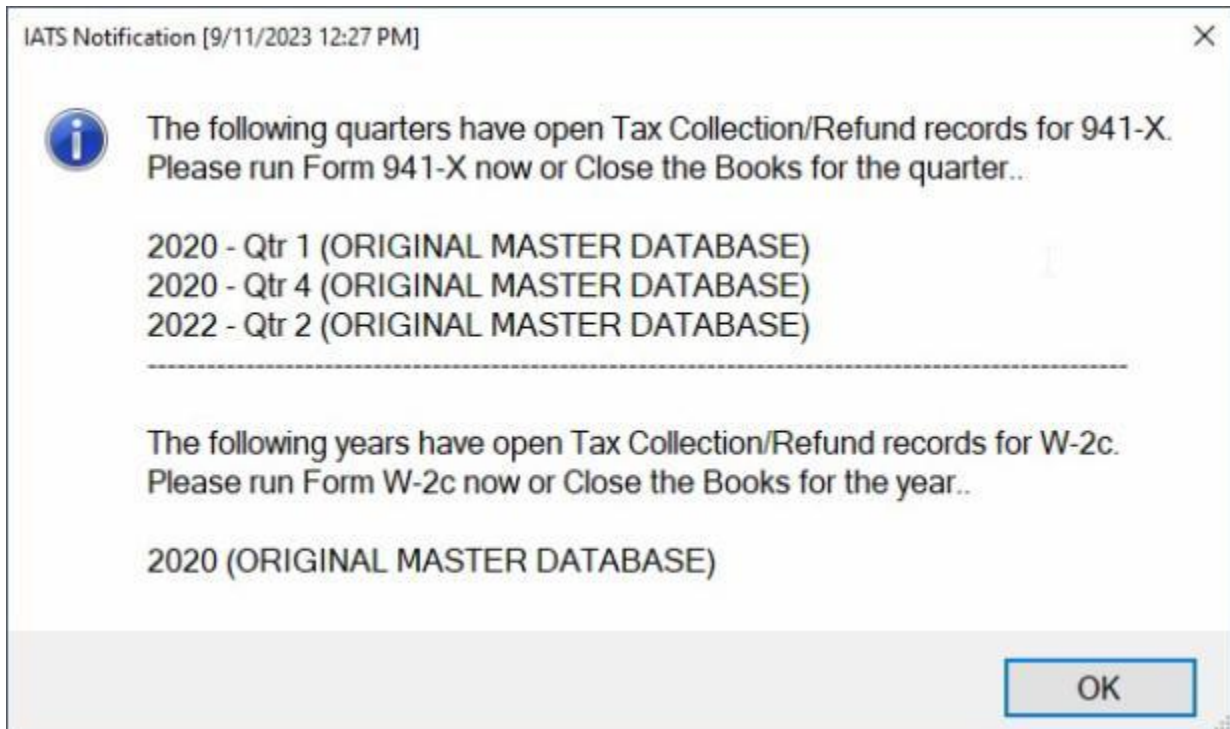

System Description	
Standalone	<input type="checkbox"/>
Use Employee ID	<input type="checkbox"/>
Liaison Reports	<input type="checkbox"/>
Reservist Travel	<input type="checkbox"/>
Reason for Delete	<input checked="" type="checkbox"/>
RITA Office Aware	<input checked="" type="checkbox"/>
Prevalidate Accounting	<input checked="" type="checkbox"/>
Forced Audit	<input type="checkbox"/>
Prepayment Audit	<input type="checkbox"/>
EFT Rejects	<input type="checkbox"/>
Auto Delete Blocks	<input checked="" type="checkbox"/>
Email Completed Claims	<input checked="" type="checkbox"/>
HHG DPS Interface Active	<input checked="" type="checkbox"/>
# Days User Suspended till Deleted:	<input type="text" value="15"/>

 Complete the following steps to "block" Tax Collection or Tax Refund Records from being released to Disbursing:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Utilities**". An **expandable menu** appears listing the various utility programs.
2. **Click** on the **Block/Unblock Release of Tax Collections/Tax Refunds option**. The following **screen** appears.

2. To find out the **status** of the **open** Tax Collection or Tax Refund records for the active office, click on the **Display Open Tax Collections/Refunds** button. IATS will display a *pop-up information only window* showing which reports IATS thinks should be run next. In the **Flexible Mode**, you can elect to just "**Close the Books**" for the **period** specified in the display message.

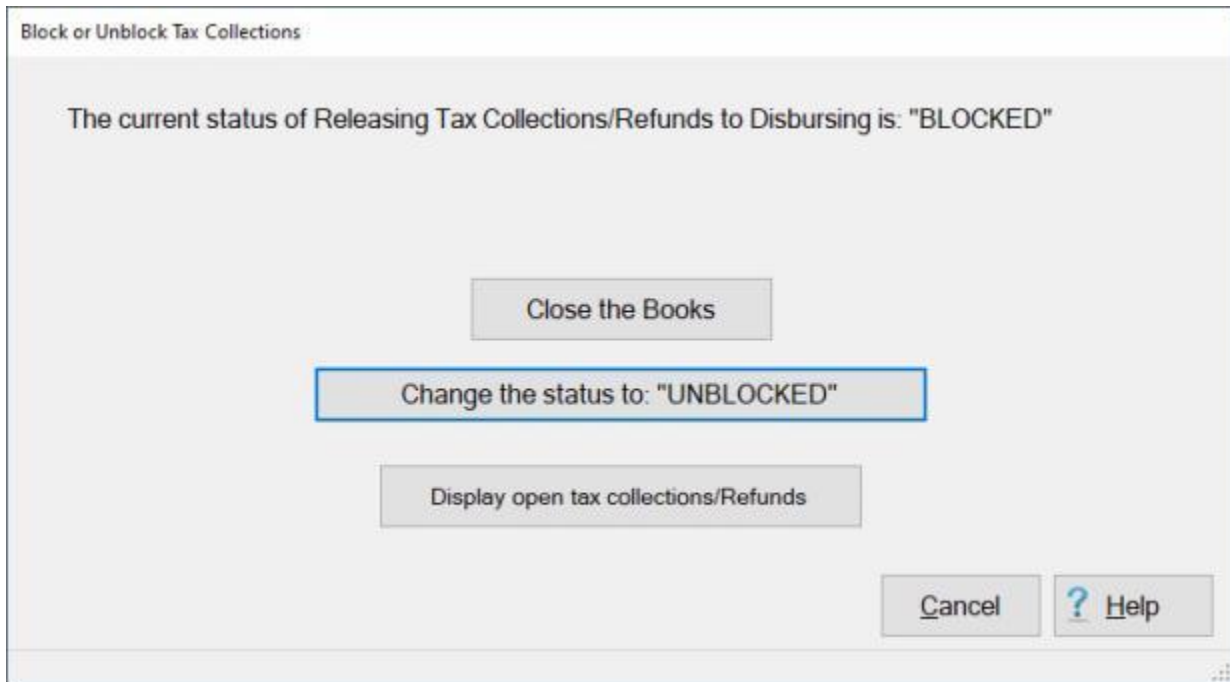

3. **Click** on **OK** to close the information window.
4. **Click** on the **Change the status to: "Blocked"** or the **Cancel** button as applicable.

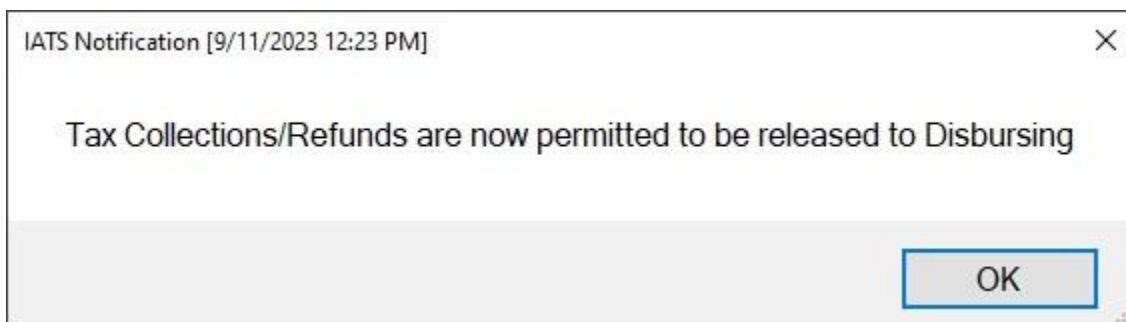

5. If you **click** on the **Change the status to: "Blocked"** button, an internal switch will be **set** that will **prevent** Tax Collections or Tax Refunds from being **sent** to **Disbursing**.
6. At this point you are free to do all processing except for **releasing** Tax Collections or Tax Refunds to **Disbursing**.

 **Complete the following steps to "unlock" Tax Collection or Tax Refund Records:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, **"Utilities"**. An expandable menu appears listing the various utility programs.
2. **Click** on the **Block/Unblock Release of Tax Collections/Tax Refunds option**. The following **screen** appears.

3. To **see** if there any remaining open Tax Collection or Tax Refund records for the active office, **click** on the **Display Open Tax Collections/Refunds** button.
4. **Click** on the **Change the status to UNBLOCKED** button. IATS will **display** the following *pop-up message*.

5. **Click** on **OK** to continue.

Click on the **See Also** button below for a **list** of the additional Help **topics** related to **Tax Reporting Safeguards** and then **click** on the topic "**Using the Flexible Method to Close the Books for Tax Collection Records**".

Using the Flexible Method to Close the Books for Tax Collection Records

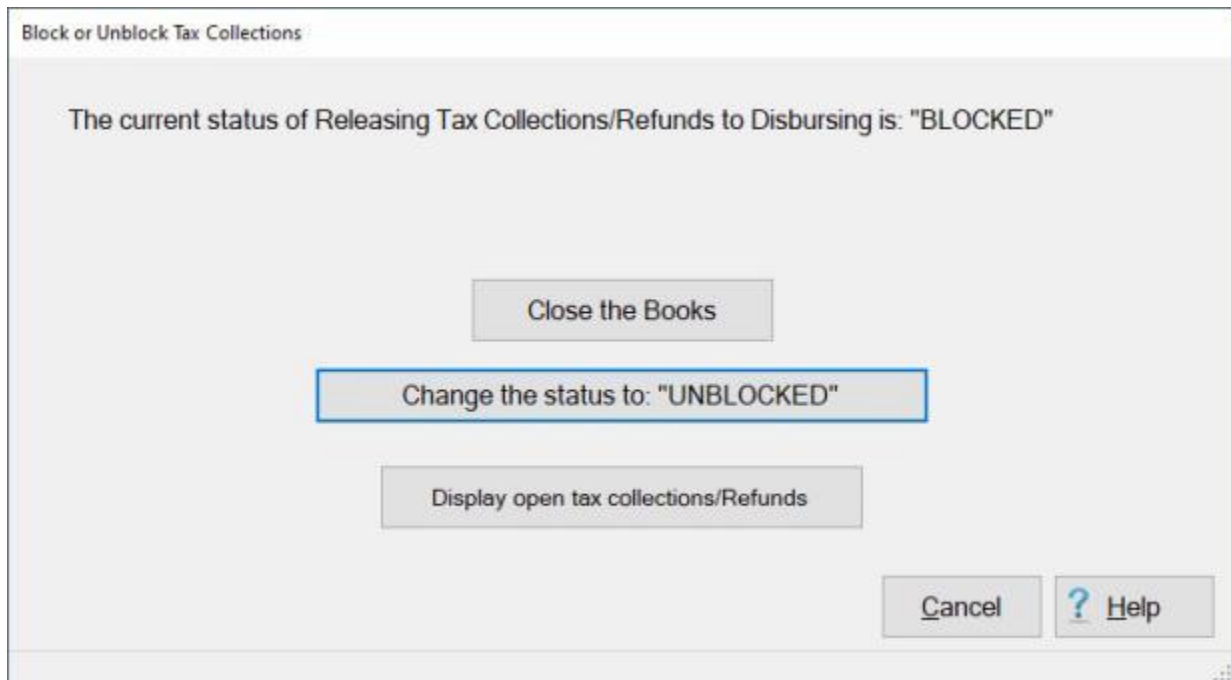

A **switch** was added to IATS to either **allow** (i.e. unblock) or **prevent** (i.e. block) **tax collection or tax refund claims** from being **disbursed**.

Note that using the **flexible method**, the **switch** does not apply to the entire system and the **reports** are **office dependent**. Books may be closed for one office only while work **continues** on **others**.

 Complete the following steps to "Close the Books" for Tax Collection or Tax Refund Records:

After you have **generated** the **941 forms** for any **quarters** with open records and **W2 forms** for any **years** with **open records** you can now **Unblock the Release of Tax Collections or Tax Refunds**.

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various utility programs.
2. **Click** on the **Block/Unblock Release of Tax Collections/Tax Refunds option**. The following **screen** appears.

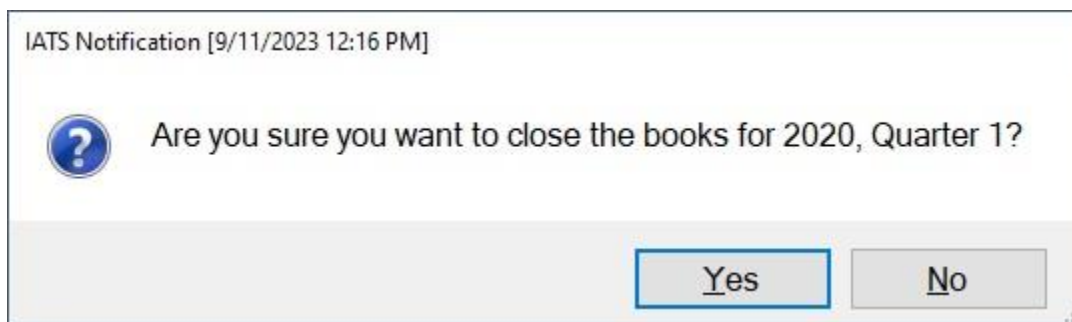

3. If you **click** on the **Close the Books** button, the following screen is displayed if Tax Collection or Tax Refund records **exist** for the current office.

Note: Closing the Books **changes** the Tax Collection or Tax Refund records into **regular** Tax records. So, it is **important** to **ensure** that **Form 941-X** has been run **before** the selected quarter has been **closed** and that **Form W-2c** has been run before the selected year has been **closed**. Using the **Flexible Method**, IATS will **allow** the user to **close** the selected **quarter** or **year** **without checking** if the correct Tax form has been run. It is **strongly recommended** that the user **first** **click** on the **Display Open Tax Collections/Refunds** button to **analyze which** Tax forms IATS thinks **should be run**

4. To **close** a quarter, **click** on the **down arrow** button at the **Quarter to be Closed** section in the **middle** of the screen to see a **drop-down list** of available quarters.
5. **Click** on the **quarter** you wish to **close** the books for.
6. When you have selected the desired quarter, **click** on the **OK** button. IATS will **display** the following **pop-up message**.

7. **Click** on **Yes** to continue.

Note: When there are **no more** quarters, the **drop-down list** and **OK** button are **greyed out**. The **same steps** are followed for closing a **year**, but in the **section** of the screen allocated for **years**.

Click on the **See Also** button below for a **list** of the additional Help **topics** related to **Tax Reporting Safeguards** and then **click** on the topic "**Using the Flexible Method to Close the Books for Tax Collection Records**".

Upload Files

Secure Upload to ODS and ADS

This process **transforms** the payment information for the **advance** and **settlement** requests computed by IATS, into a **format** acceptable by **ODS and ADS**. This data is then **processed** by ADS to *assign DOV#s*, print checks and transmit EFT payment transactions.

In addition, a new feature was added to IATS to generate a **secure** upload file to ODS.

 **Complete the following steps to "generate" a secure upload file for ODS and ADS.**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Upload to Mainframe**". An expandable menu appears listing the options.
2. **Click** on the **Upload Transactions to Disbursing System** option. The **Upload Data to Disbursing System - ODS & ADS using the ODS Interface** screen appears.

Upload Data to Disbursing System - ODS & ADS using the ODS Interface

Disbursing Region: (dropdown menu showing ADSC1, ADSC1, DDSC1)

File Size:

Work Cntr Designator: (dropdown menu)

Upload File with Blocks Released for Disbursing

Create Upload File with Blocks Previously Disbursed

Print Upload File

Delete Upload File from Disk

OK Cancel ? Help

Click the option desired and then the OK button (click the Help button for instructions)

Note: If there is only one Disbursing Region and one Work Center Designator established in Maintenance, you will not see the Disbursing Region and Work Cntr Designator sections at the top of the above screen since no decision must be made.

3. **Disbursing Region:** - Click on the *down arrow* button to **display** a **listing** of **Regions** and then **click** on the **code** for the **Disbursing Region** the file will be generated for.
4. **Work Cntr Designator:** - Click on the *down arrow* button to **display** a **listing** of **Work Centers** and then **click** on the **code** for the **Work Center Designator** the file will be generated for.
5. If not already selected, **click** in the **circle next** to the **Upload File with Blocks Released for Disbursing** option.
6. After you have made the desired **Disbursing Region**, **Work Center Designator**, and **Option** selections, **click** on the **OK** button.
7. The **Block Selection - Uploading to Disbursing** screen appears.

Block Selection - Uploading to Disbursing (ORIGINAL MASTER DATABASE)

Block No.	Office	Type	Block Status	Status Date	Who Has It
MILITARY05	OFFICEONE	Settlement	Released For Disbursement	2/22/2021	

Select All Unselect All

Print... End Block: OK Cancel ? Help

8. At the **Block Selection - Uploading to Disbursing** screen, **click** on the **Block(s)** you wish to upload or **click** on the **Select All** button if you wish to upload all of the Blocks.
9. After you have selected the desired Block(s), **click** on the **OK** button.
10. The **Confirmation Password** screen appears.

Enter Confirmation Password

Enter Password:

OK Cancel ? Help

11. **Enter** your confirmation password and then **click** on the **OK** button.

12. The **Disbursing Upload File Totals** screen appears and **displays a summary** of what was uploaded.

The screenshot shows a window titled "Disbursing Upload File Totals". It contains several input fields with the following data:

Field	Value
Upload File Name	c:\UPLOAD\upload.asc.DNTV2.6416.20210222020704.b
Date	2/22/2021
Work Cntr Designator	DNTV2
Nbr of Payments	12
DSSN	8522
Tot Amt of Payments	84,166.87
DSSN-ITR	6416

At the bottom of the window, there are two buttons: "Print" and "Cancel".

13. **Click** on the **Print** button to generate a print-out of the **Disbursing Upload File Totals** or click on the **Cancel** button if you are **finished**.
14. IATS returns to the **Upload Data to Disbursing System - ODS & ADS using the ODS Interface** screen.
15. **Click** on the **Cancel** button to **close** the screen is you are **finished** with this process.

Upload to CDS

For **Air Force** travel offices, the Central Disbursing System (**CDS**) is used to **disburse** travel payments. This process transforms the payment information for the **advance** and **settlement** requests, computed by IATS, into a **format** acceptable by the CDS system. This data is then processed by CDS to disburse the payments.

 Complete the following steps to "create" the upload file for CDS:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Upload to Mainframe**". An expandable menu appears listing the options.
2. **Click** on the **Upload Transactions to Disbursing System** option. The **Upload Data to Disbursing System - CDS** screen appears.

Upload Data to Disbursing System - CDS

File Size

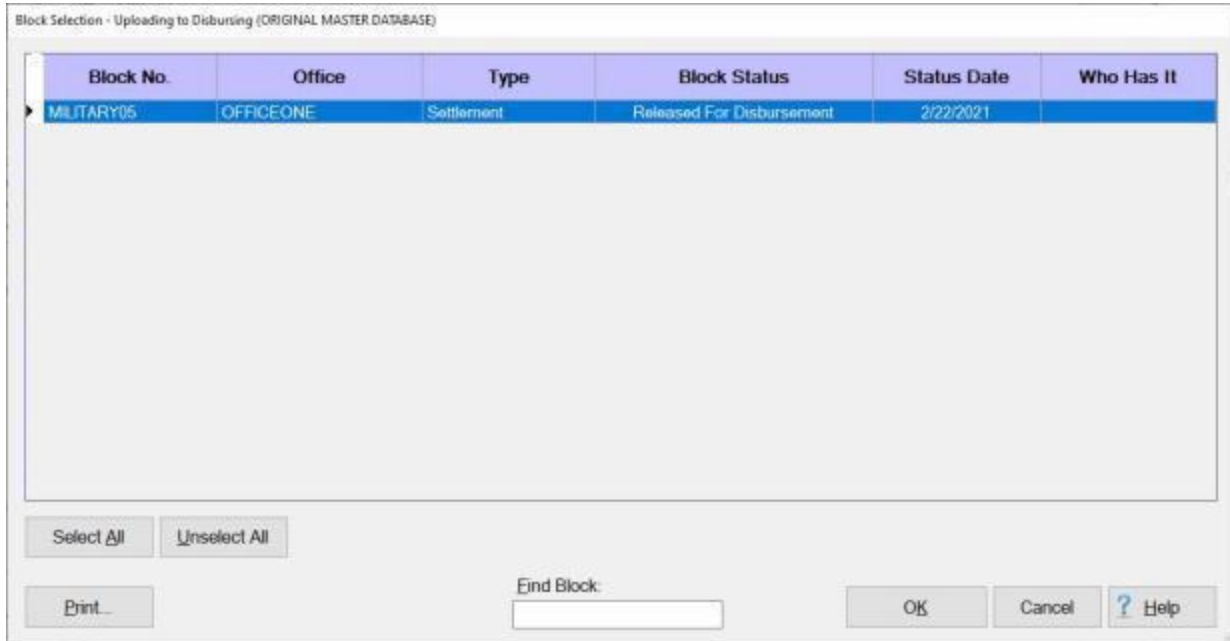

Upload Directory

Create/Append Upload file with Blocks released for Disbursing Copy/Rename ASCII
 Create/Append Upload file with Blocks Previously Disbursed
 Copy & Rename data to ASCII File
 Print Upload File
 Delete Upload File from Disk

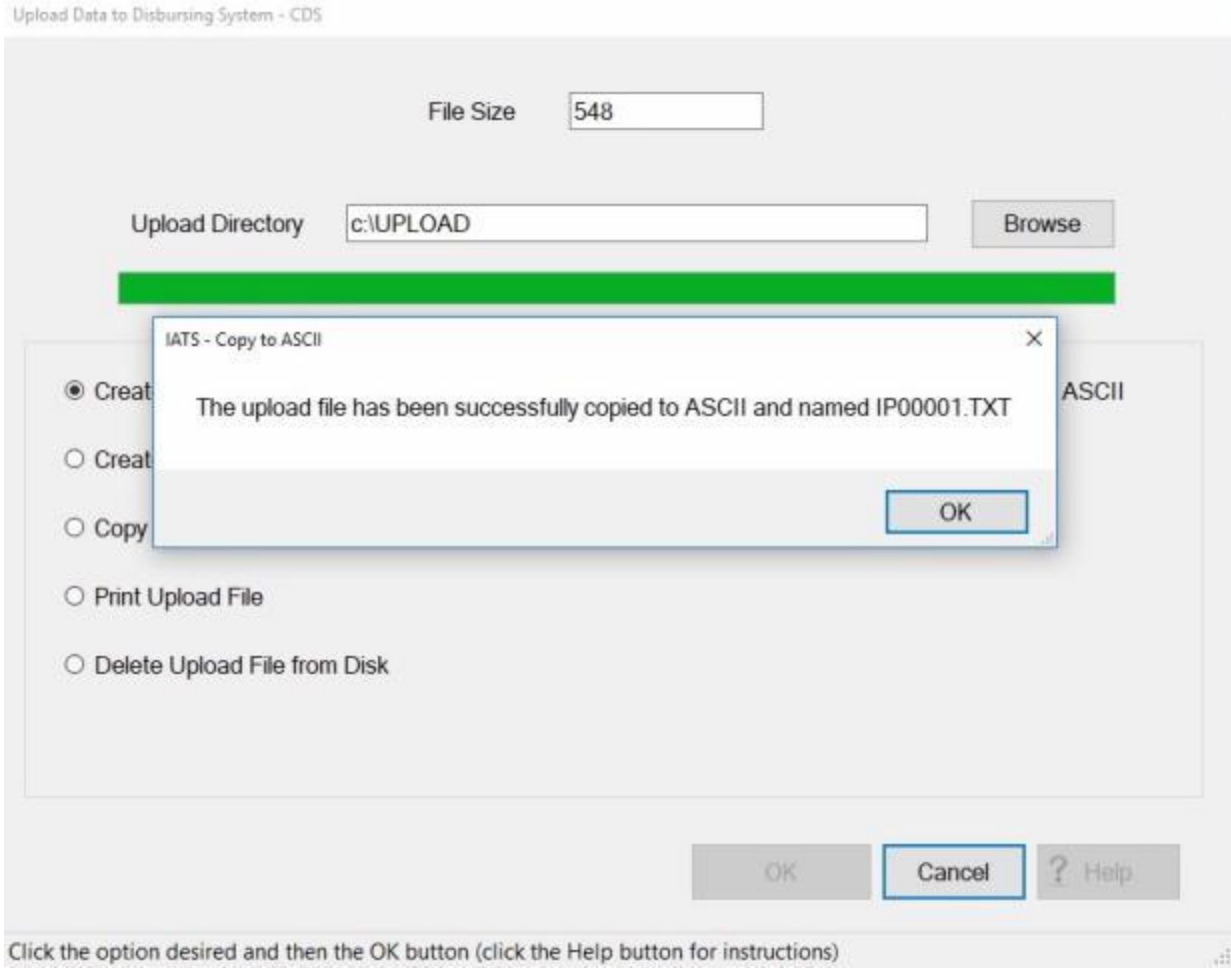

Click the option desired and then the OK button (click the Help button for instructions)

Note: IATS will **append** new data to the existing data residing in the file **UPLOAD.DAT**. Therefore, prior to **creating** a new CDS upload file, ensure that the **display** at the top of the **screen** reflects a **file size** equal to zero. If the size is shown as anything other than zero, **click** in the circle next to the **Delete Upload File from Disk** option and then **click** the **OK** button. IATS will delete the previously existing **UPLOAD.DAT** file.

3. **Copy/Rename ASCII File:** - A **check mark** defaults to this check box indicating that the upload file will automatically be **renamed** and **copied** to an **ASCII** format. If you do not want to complete this process automatically, **click** in the check box to **remove** the check mark.
4. After ensuring that the Upload File **size** is equal to zero, **click** in the **circle** next to the **Create/Append Upload File with Blocks released for Disbursing** option and then **click** the **OK** button.
5. The **Block Selection** screen appears listing every **block** in the database in the status "**Release For Disbursement**".

6. At the **Block Selection - Uploading to Disbursing** screen, **click** on the **Block(s)** you wish to upload or **click** on the **Select All** button if you wish to upload all of the Blocks.
7. After you have selected the desired Block(s), **click** on the **OK** button.
8. The **Confirmation Password** screen appears.
9. **Enter** your conformation **password** and then **click** on **OK**. A message appears indicating that the file has been created and copied to the ASCII format.

10. **Click** on the **Cancel** button if you have no more upload files to create.

Upload to ATRAS

To **report** the accounting transactions for the advance and settlement requests processed by IATS, an upload **file must be created** for the **ATRAS** system.

 **Complete the following steps to "upload" blocks to ATRAS:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Upload to Mainframe**". An expandable menu appears listing the options.
2. **Click** on the **Upload Transactions to Accounting System** option. The **Upload Data to ATRAS Accounting System** screen appears.

Upload Data to Accounting System - ATRAS

File Size

Upload Directory

Create/Append Upload File with Blocks Released for Accounting Copy/Rename ASCII

Create/Append Upload File with Blocks Previously Sent to Acctng

Copy & Rename data to ASCII File

Print Upload File

Delete Upload File from Disk

Delete Collection Voucher Block

Click the option desired and then the OK button (click the Help button for instructions)

Note: IATS will **append** new data to the existing data residing in the file **ATRAS.DAT**. Therefore, prior to **creating** a new ATRAS upload file, ensure that the **display** at the top of the **screen** reflects a **file size** equal to zero. If the **size** is shown as anything other than zero, **click** in the **circle next** to the **Delete Upload File from Disk** option and then **click** the **OK** button. IATS will delete the previously existing **ATRAS.DAT** file.

3. After ensuring that the Upload File **size** is equal to zero, **click** in the **circle next** to the **Create/Append Upload File with Blocks Released for Accounting** option and then **click** the **OK** button. The **Block Selection** screen appears listing every block in the database in the status "**Completed**".

4. At the **Block Selection** screen, select a block by **double clicking** on the desired block or by **clicking** on the block **once** and then **clicking** the **OK** button.

Tip: Users may select all of the blocks listed by **clicking** on the **Select All** button. To **void** a selection, **click** the **Unselect All** button.

5. After **selecting** a block and **clicking** the **OK** button, IATS **creates** the new Upload File and **displays** the file **size** at the top of the **Upload Data to Accounting System -ATRAS** screen.
6. Before **transmitting** the Upload File to ATRAS, the file must be [copied to an ASCII format](#).
7. **Click** on the **See Also** button below for additional **instructions** on processing disbursing system upload files.

Upload to CEFMS

This process **transforms** the payment information for the **advance** and **settlement** requests computed by IATS, into a **format** acceptable by **CEFMS**. This data is then **processed** by CEFMS to assign DOV#s, print checks and transmit EFT payment transactions.

 Complete the following steps to "create" the upload file for CEFMS:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Upload to Mainframe**". An expandable menu appears listing the options.
2. **Click** on the **Upload Transactions to Disbursing System** option. The **Upload Data to Disbursing System - CEFMS** screen appears.

3. **Organization:** - At this field, **type** the (2) character **EROC** for the **district** the payments were processed for.
4. **Non-PCS or PCS:** **Click** in the circle next to either **Non-PCS** or **PCS** to **select** the **type** of claims to be uploaded.
5. **Click** in the circle next to the **Create/Append Upload File with Blocks Released for Disbursing** option and then **click** the **OK** button. The **Block Selection** screen appears listing every block in the database in the status "**Release For Disbursement**".
6. At the **Block Selection** screen, **select** a **block** by **double clicking** on the desired block or by **clicking** on the block **once** and then **clicking** the **OK** button.

Tip: Users may select all of the blocks listed by **clicking** on the **Select All** button. To **void** a selection, **click** the **Unselect All** button.

7. After **selecting** a block and **clicking** the **OK** button, IATS **creates** the new Upload File and returns to the **Upload Data to CEFMS Disbursing System** screen.

Upload to ADS

The disbursing system, **ADS** is used to **process** travel **payments**. ADS processes a data **file** created by IATS that contains the payment information. This data is then processed to assign **DOV#s**, print **checks**, transmit **EFT transactions**, and report the U.S. Treasury **checks issued**.

 Complete the following steps to "upload" blocks to ADS:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Upload to Mainframe**". An expandable **menu** appears listing the options.
2. **Click** on the **Upload Transactions to Disbursing System** option. The **Upload Data to Disbursing System - ADS** screen appears.

Upload Data to Disbursing System - ADS

Upload to DDS

The disbursing system, **DDS** is used to **process** travel **payments**. DDS processes a data **file** created by IATS that contains the payment information. This data is then processed to assign **DOV#s**, print **checks**, transmit **EFT transactions**, and report the U.S. Treasury **checks issued**. The **Upload Data Disbursing System - DDS** screen is used for that purpose.

 Complete the following steps to "upload" blocks to DDS:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Upload to Mainframe**". An expandable **menu** appears listing the options.
2. **Click** on the **Upload Transactions to Disbursing System** option. The **Upload Data to Disbursing System - DDS** screen appears.

9. **Enter** your conformation **password** and then **click** on **OK**. A message appears indicating that the file has been created and copied to the ASCII format.

10. **Click** on **OK**. The **Disbursing Upload File Totals** screen appears next.

The screenshot shows a window titled "Disbursing Upload File Totals". It contains three input fields with the following values:

Field	Value
Date	2/25/2021
Nbr of Payments	1
Tot Amt of Payments	8,193.45

At the bottom of the window, there are two buttons: "Print" and "Cancel". The "Print" button is highlighted with a blue border.

11. **Click** on the **Print** button to generate a print-out of the **Disbursing Upload File Totals** or **click** on the **Cancel** button if you are **finished**.
12. IATS returns to the **Upload Data to Disbursing System - DDS** screen.
13. **Click** on the **Cancel** button to **close** the screen if you are **finished** with this process.

Upload to DMDC

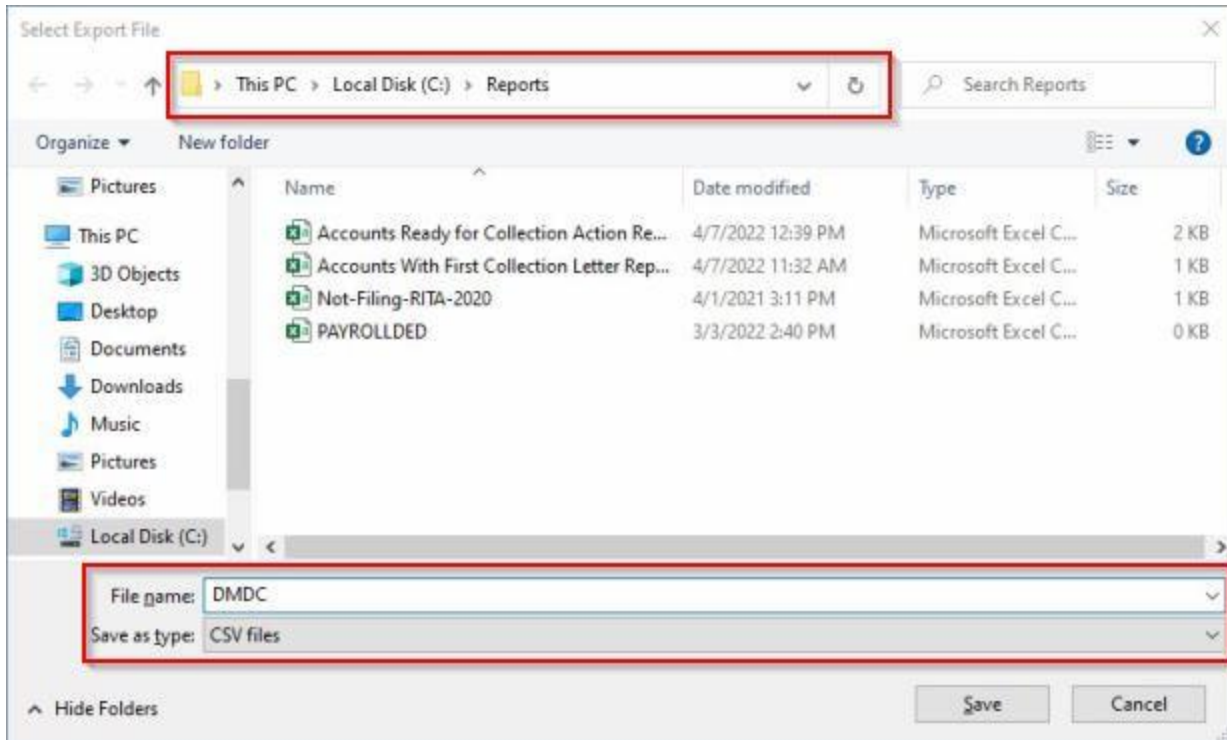

The Army regulation is changing to use a **Department of Defense Identification** number (DoDID) instead of an **Social Security Number** (SSN) on travel orders. A feature was added to allow IATS to **send** a batch (bulk) **upload file** of existing **SSN's** in the databases(s) to the **Defense Manpower Data Center** (DMDC). The DMDC will **populate** the file with DoDID's for each **Traveler Record** and then IATS will **import** the file to **add** these DoDID's to the corresponding **Traveler Profiles**.

 Complete the following steps to "create" an export file for DMDC

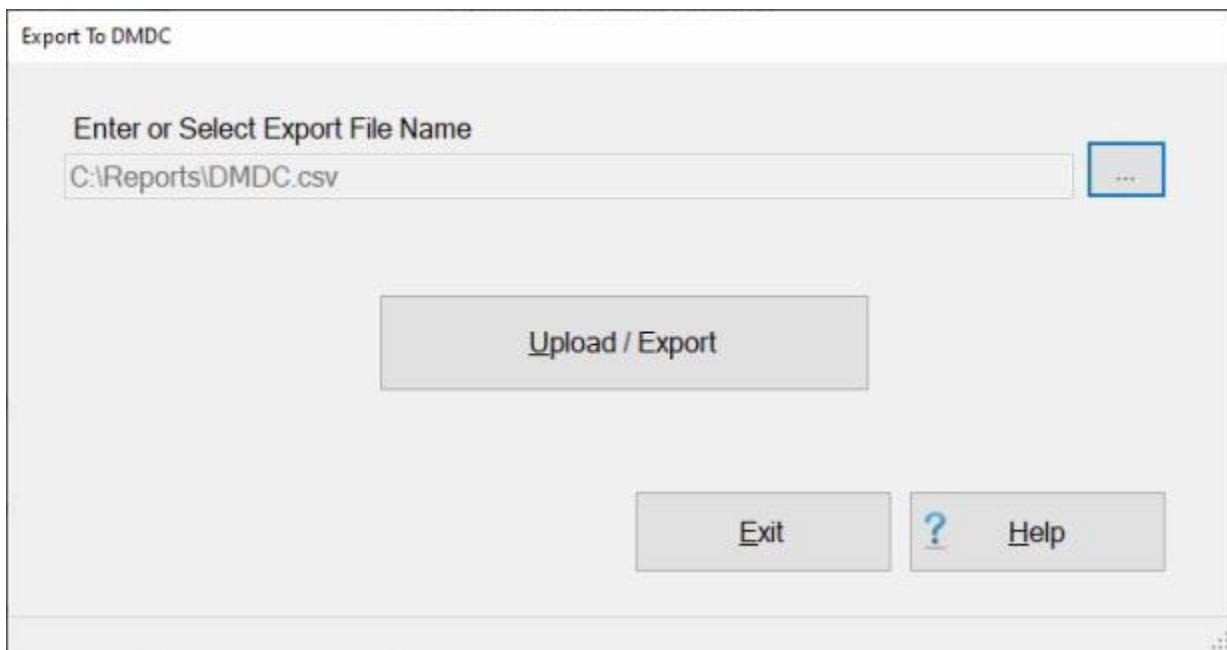

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Upload to Mainframe**". An expandable menu appears listing the options.
2. **Click** on the **Upload/Export Traveler's SSN to DMDC** option. The **Export To DMDC** screen appears.

3. At the Export To DMDC screen, **click** on the **button** to the right of the **File Name** field.
4. IATS will display the **Select Export File** screen.

5. At the **Select Export File** screen, **navigate** to the **directory/folder** where you wish to **place** the DMDC export file.
6. **Enter a name** for the file being created at the **File name** field.
7. **Ensure the CSV files** is the **file type** shown at the **Save as type** field.
8. **Click** on the **Save** button to continue.
9. IATS **returns** to the Export To DMDC screen **showing** the **path** and **filename** you **created** at the **Select Export File** screen in the **File Name** field.

10. If the path and filename are correct, **click** on the **Upload / Export** button to continue. IATS create the export file and displays the following message.

11. **Click** on **OK** to continue.
12. When you are **finished** using the Export To DMDC screen, **click** on the **Exit** button to **return** to the **System Administrator** screen.

Upload Blocks Previously Disbursed

After the **Upload File** for a block has been initially **created**, the **status** of the **block** is changed to **"Completed"**. As long as the block has not been **deleted**, however, it is still **possible** to **re-create** the **Upload File** if necessary.

 Complete the following steps to "upload" blocks previously disbursed:

1. At the **Upload Data to Disbursing** screen, **click** in the **circle next** to the option **Create/Append Upload File with Blocks Previously Disbursed**.

Upload Data to Disbursing System - DDS

File Size

Upload Directory

Create/Append Upload file with Blocks released for Disbursing
 Copy/Rename ASCII

Create/Append Upload file with Blocks Previously Disbursed

Copy & Rename data to ASCII File

Print Upload File

Delete Upload File from Disk

Click the option desired and then the OK button (click the Help button for instructions)

Note: IATS will **append new data** to the **existing data** residing in the **previously created upload** file. Therefore, **prior to creating a new upload file**, **ensure** that the **display** at the **top** of the **screen** reflects a **file size equal to zero**. If the **size** is shown as **anything other than zero**, **click** in the **circle next** to the **Delete Upload File from Disk** option and then **click** the **OK** button. IATS will delete the previously existing **upload** file.

2. **Copy/Rename ASCII File:** - A **check mark defaults** to this check box indicating that the upload file will **automatically** be **renamed** and **copied** to an **ASCII** format. If you **do not** want to complete this process automatically, **click** in the check box to **remove** the check mark.

3. **Select** the **location** where the upload file will be copied to. **Click** on the **Browse** button to select a *different drive* if necessary. When the correct drive is displayed, **click** on the desired **folder** to select the location for the upload file.
4. When you have **selected** the desired **location** for the upload file, **click** the **OK** button. the **Block Selection** screen appears listing every block in the database in the status "Completed".
5. At the Block Selection screen, select a block by **double clicking** on the desired block or by **clicking** on the block **once** and then **clicking** the **OK** button.

Tip: Users may select all of the blocks listed by **clicking** on the **Select All** button. To **void** a selection, **click** the **Unselect All** button.

6. After **selecting** a block and **clicking** the **OK** button, the **Upload Claim Selection/Status** screen appears.

Note: At this screen, IATS **displays** the **block number** and **lists** the **SSN** and **TONO** for the first request on the block. IATS users must chose one of the following **options**:

- Upload Claim on Exception Basis
- Upload All Claims in Block

IATS 8.7.1 User Guide

- Disregard this Claim
 - Disregard All Claims in Block
7. After making a selection, **click** the **OK** button. IATS **creates** the **Upload File** based on the selection made and **returns** to the **Upload Data** screen.
 8. If not already done, (before **transmitting**), the re-created Upload File, the file must be [copied to an ASCII format](#).

Print Upload File

Before transmitting an Upload File, it is a good idea to **print** the **contents** of the file and **verify** that a valid request exists for each payment **record**.

 Complete the following steps to "print" the contents of the Upload File:

1. At the **Upload Data to Disbursing** screen, **click** in the **circle next** to the **Print Upload File** option and then **click** the **OK** button.

Upload Data to Disbursing System - DDS

File Size

Upload Directory

Create/Append Upload file with Blocks released for Disbursing
 Copy/Rename ASCII

Create/Append Upload file with Blocks Previously Disbursed

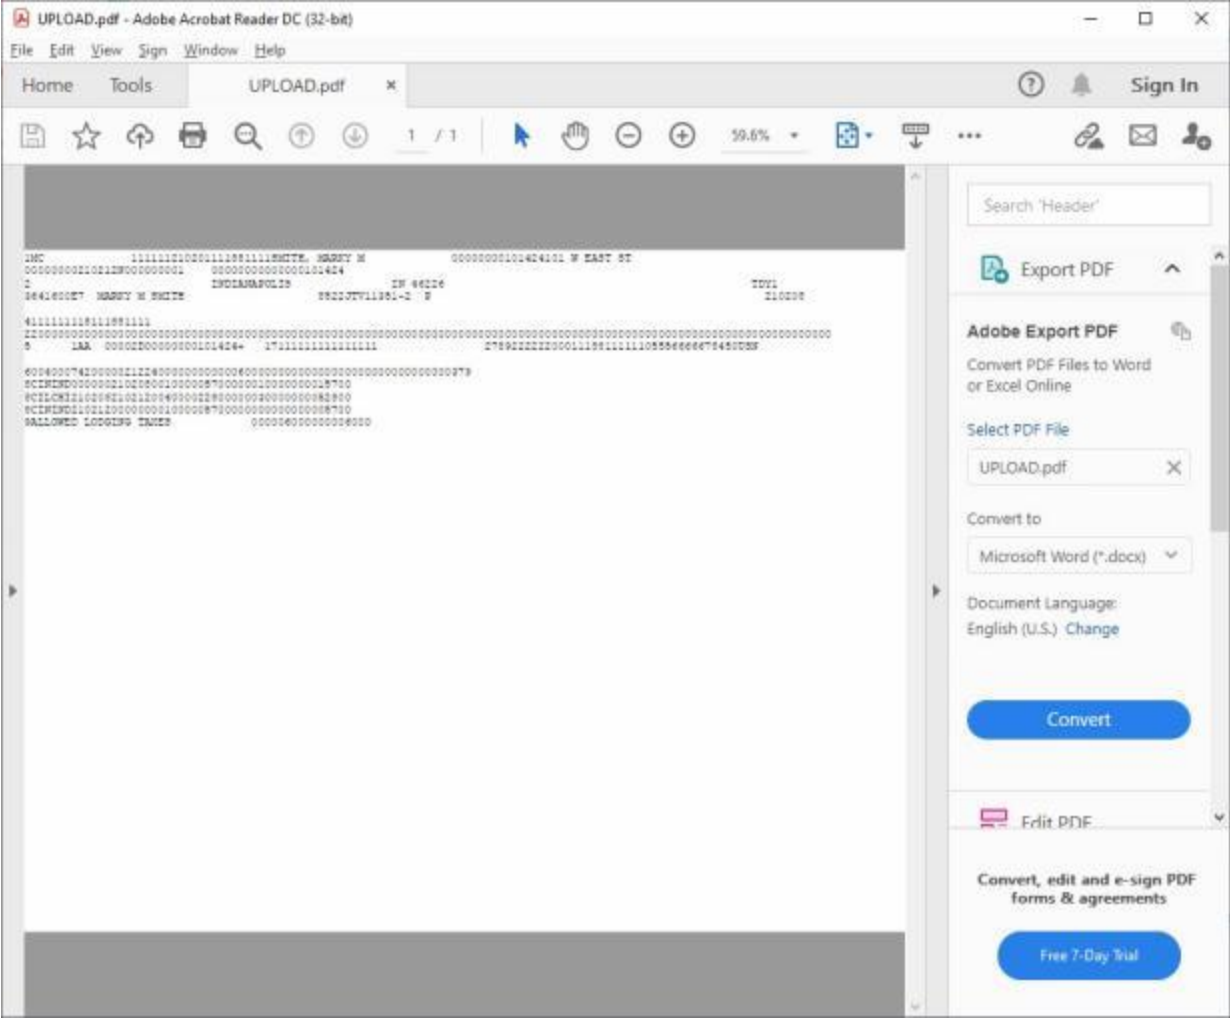

Copy & Rename data to ASCII File

Print Upload File

Delete Upload File from Disk

Click the option desired and then the OK button (click the Help button for instructions)

2. After clicking the **OK** button, the **Adobe Reader** screen appears.

3. Click on the **Printer** icon on the **toolbar** at the top of the screen. The **Print** screen will appear.

4. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
5. **Select** the **number of copies** you wish to print and **click** the **Print** button. IATS **prints** the **contents** of the Upload File and returns to the Adobe Acrobat Reader screen.
6. **Click** the **X** button at the top right corner of the Adobe Acrobat Reader screen when you are ready.
7. IATS returns to the **Upload Data to Disbursing** screen.
8. **Click** on the **Cancel** button if you are **finished** printing the upload file.

Delete Upload File

After copying the Upload File to an **ASCII** format, the **UPLOAD.DAT** file is no longer needed and should be deleted.

 Complete the following steps to "delete" the **UPLOAD.DAT** file:

1. At the **Upload Data to Disbursing** screen, **click** in the **circle next** to the **Delete Upload File from Disk** option and then **click** the **OK** button.

Upload Data to Disbursing System - DDS

File Size

Upload Directory

Create/Append Upload file with Blocks released for Disbursing Copy/Rename ASCII

Create/Append Upload file with Blocks Previously Disbursed

Copy & Rename data to ASCII File

Print Upload File

Delete Upload File from Disk

Click the option desired and then the OK button (click the Help button for instructions)

2. After clicking the **OK** button, a *pop-up* appears asking if you are **sure** you wish to **delete** the **UPLOAD.DAT** file.

3. **Click** on the *Yes* button. A second *pop-up* **appears** indicating that the file was **deleted**.

4. **Click** on the **OK** button to **finish** the process. After clicking on **OK**, IATS **displays** a **zero** at the **Upload File of Size** field at the **Upload Data to Disbursing** screen.

Copy Upload file to ASCII

After creating the disbursing system upload file, the **file must be copied** to an **ASCII** format prior to being **transmitted** to the applicable system.

If this was **not** already done when you initially created the file, **use the following steps** to complete the process.

 **Complete the following steps to "copy" the Upload File to an ASCII format:**

1. At the **Upload Data to Disbursing System** screen, **click** in the **circle next** to the **Copy & Rename data to ASCII File** option and then **click** the **OK** button.

Upload Data to Disbursing System - DDS

File Size

Upload Directory

Create/Append Upload file with Blocks released for Disbursing
 Copy/Rename ASCII

Create/Append Upload file with Blocks Previously Disbursed

Copy & Rename data to ASCII File

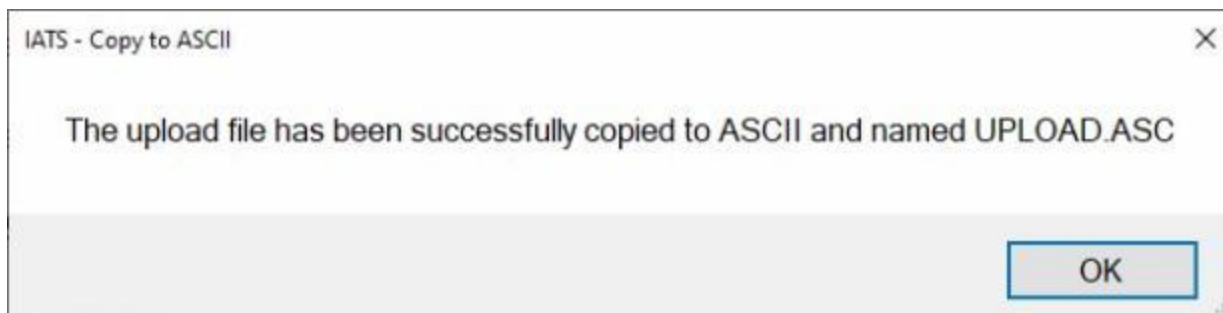

Print Upload File

Delete Upload File from Disk

Click the option desired and then the OK button (click the Help button for instructions)

Note: After selecting this option as shown above, the IATS user must **select the location** where the ASCII file will **reside**.

2. If the **default** directory is not correct after selecting this option, **click** on the **Browse** button at the right portion of the screen and **browse** to the desired directory.
3. After specifying the desired directory, **click** the **OK** button. The following *pop-up* **appears** after the file has been copied.

4. **Click** on the **OK** button to continue.

Note: For **US Navy** and **Marines** travel offices creating an upload file to ADS, the **ADS File & Header Information** screen will appear after completing step (3) above. Refer to the **Help** topic, "[Completing the ADS File and Header Screen](#)", for additional instructions.

Create Voucher Print File

The **Create Voucher Print File** feature **creates** a print job file for **voucher(s)** rather than sending the print job to a **printer**. When this option is active, all of the **transactions** on a **block** must be **printed** before the block may be **deleted**.

This option must be **activated** by placing a **check mark** in the check box for "**Create Voucher Print File**" when configuring the system interfaces in the IATS **Maintenance** module.

 **Complete the following steps to "create" a voucher print file:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Upload to Mainframe**". An expandable menu appears listing the options.
2. **Click** on the **Upload/Create Voucher Print File** option. The **Create Voucher Print File** screen appears.

Create Voucher Print File

Print Voucher Directory

Create Voucher File with Completed Blocks

Create Voucher File with Blocks Previously Used

Print Voucher Print file

Delete Voucher Print file from disk

Click the option desired and then the OK button (click the Help button for instructions)

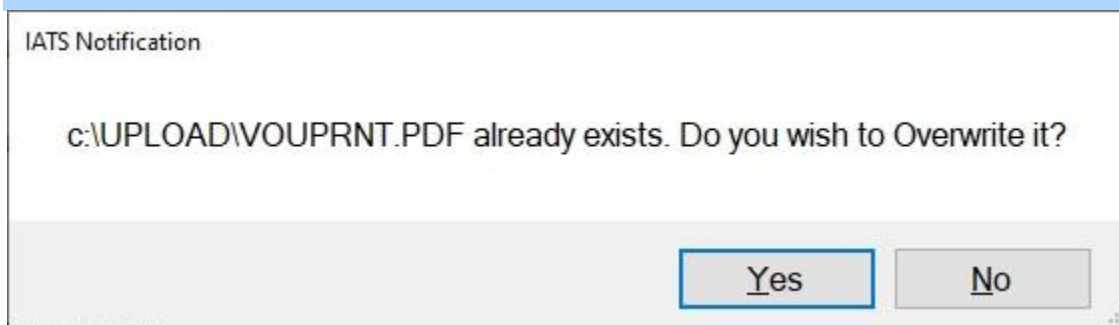

3. **Directory:** - IATS is programmed to automatically place the created file into the **directory** you have **specified** in the **Maintenance** module for Upload files. If you wish to place the file into a **different** directory, **click** on the **Browse** button. The **Browse For Folder** screen appears and you may select the desired directory/folder for the file.
4. **Click** in the circle next to the **Create/Append Voucher File with Completed Blocks** option.

5. **Click** on the **OK** button. The **Block Selection** screen appears listing every **block** in the database in the status "**Completed**"
6. At the **Block Selection** screen, select a block by **double clicking** on the desired block or by **clicking** on the block **once** and then **clicking** the **OK** button.

Tip: Users may select all of the blocks listed by **clicking** on the **Select All** button. To **void** a selection, **click** the **Unselect All** button.

7. The **Enter Confirmation Password** screen will appear.
8. **Enter** your Confirmation Password and then **click** on **OK**.
9. After you click on OK, IATS creates a **PDF** file named **VOUPRNT** and places it in the specified directory/folder.

Note: If the **VOUPRNT** file already **exists**, you will see the following warning message.

Note: If you wish to **keep** the existing VOUPRNT file, you must **re-name** it before creating a new VOUPRNT file.

10. **Click** on *Yes* or *No* as desired.

Create Voucher Print File with Blocks Already Printed

After the **Voucher Print File** for a block has been initially **created**, it is still possible to create a new Voucher Print File for the block or several blocks if applicable.

 **Complete the following steps to "create" a voucher print file with blocks already printed:**

1. At the Create Voucher Print File screen, **click** in the **circle next** to the option **Create/Append Voucher File with Blocks Previously Used**.
2. **Copy/Rename ASCII File:** - A **check mark defaults** to this check box indicating that the upload file will automatically be **renamed** and **copied** to an **ASCII** format. If you do not want to complete this process automatically, **click** in the check box to **remove** the check mark.

Create Voucher Print File

Print Voucher Directory

Create Voucher File with Completed Blocks

Create Voucher File with Blocks Previously Used

Print Voucher Print file

Delete Voucher Print file from disk

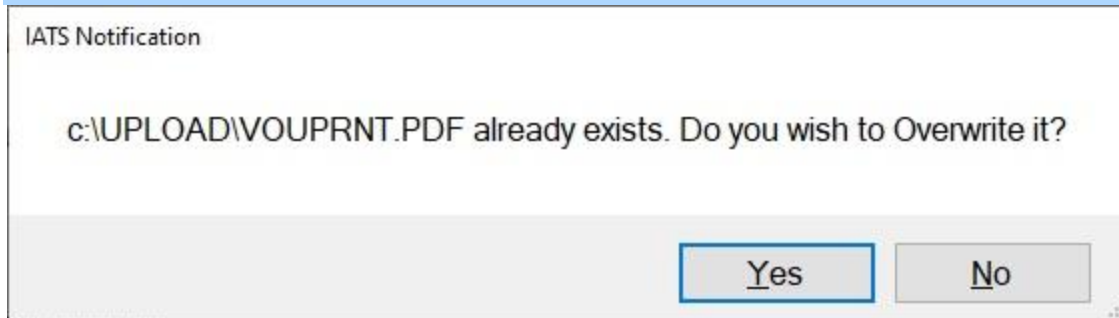

Click the option desired and then the OK button (click the Help button for instructions)

3. **Click** the **OK** button. The **Block Selection** screen appears listing every **block** in the database that a previous Voucher Printed File was created for.
4. At the **Block Selection** screen, select a block by **double clicking** on the desired block or by **clicking** on the block **once** and then **clicking** the **OK** button.

Tip: Users may select all of the blocks listed by **clicking** on the **Select All** button. To **void** a selection, **click** the **Unselect All** button.

5. The **Enter Confirmation Password** screen will appear.
6. **Enter** your Confirmation Password and then **click** on **OK**.
7. After you click on OK, IATS creates a **PDF** file named **VOUPRNT** and places it in the specified directory/folder.

Note: If the **VOUPRNT** file already exists, you will see the following warning message.

Note: If you wish to **keep** the existing VOUPRNT file, you must **re-name** it before creating a new VOUPRNT file.

10. **Click** on *Yes* or *No* as desired.

Print Voucher Print File

Once a Voucher Print File is created, you can **print** the file from the **Create Voucher Print File** screen if desired.

 **Complete the following steps to "print" a voucher print file:**

1. At the **Create Voucher Print File** screen, **click** in the **circle next** to the **Print Voucher Print File** option and then **click** the **OK** button.

Create Voucher Print File

Print Voucher Directory

Create Voucher File with Completed Blocks

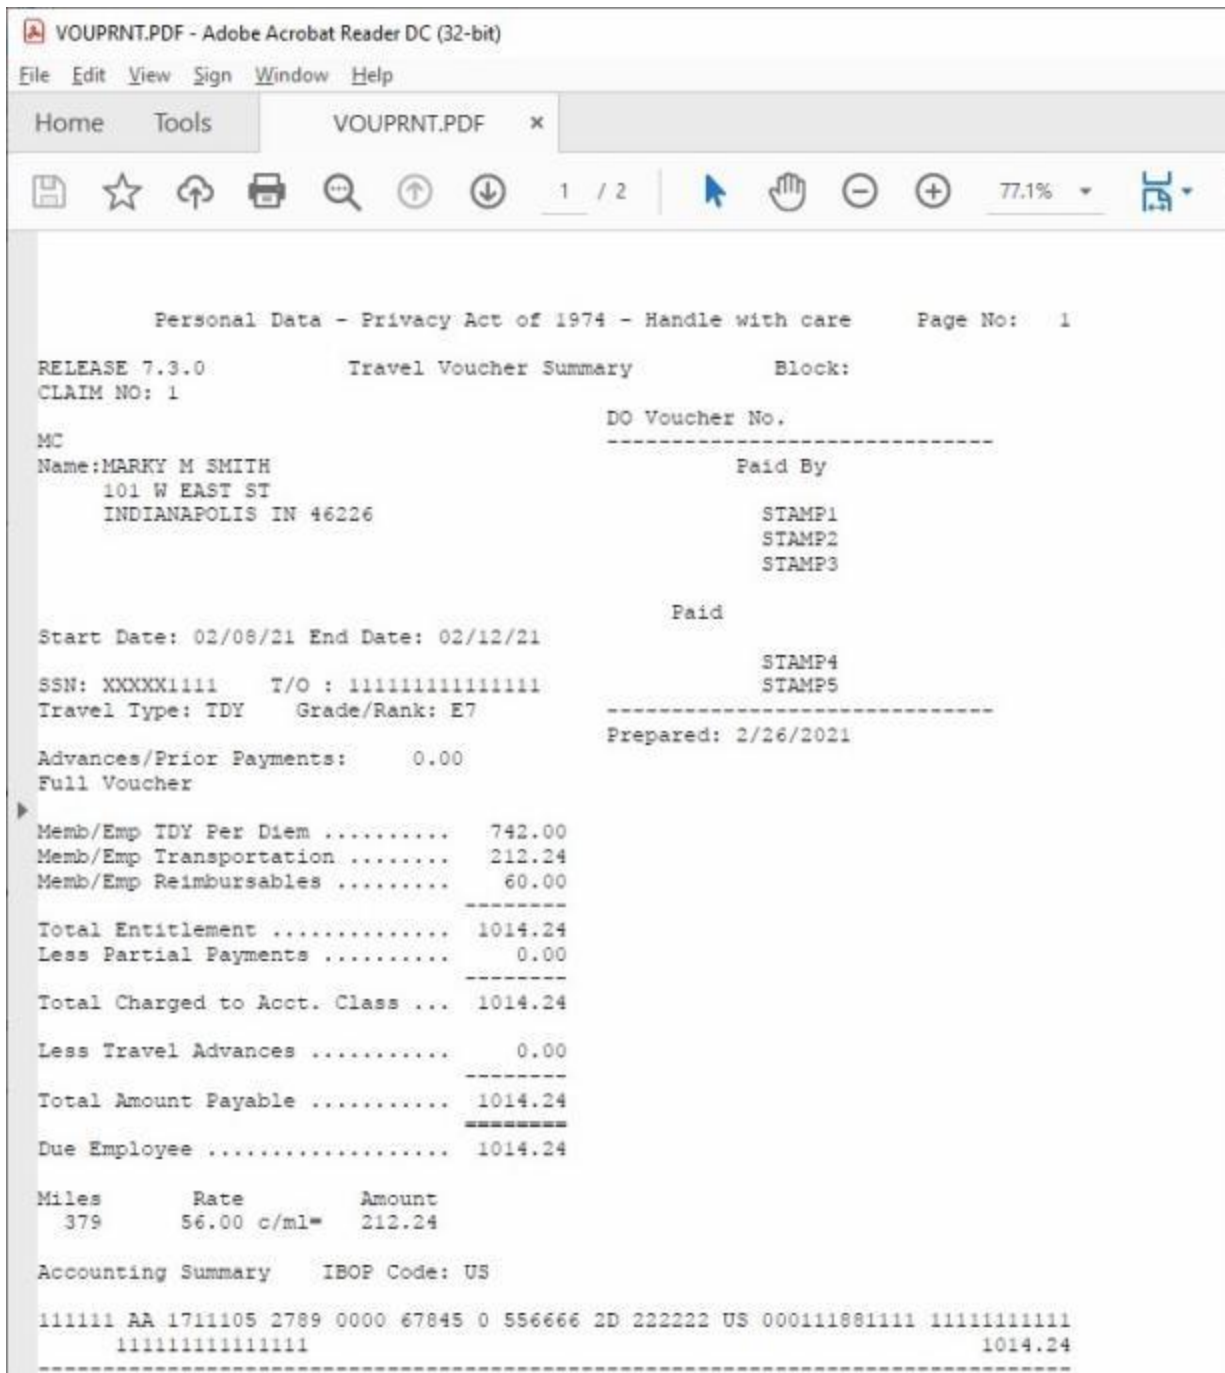

Create Voucher File with Blocks Previously Used

Print Voucher Print file

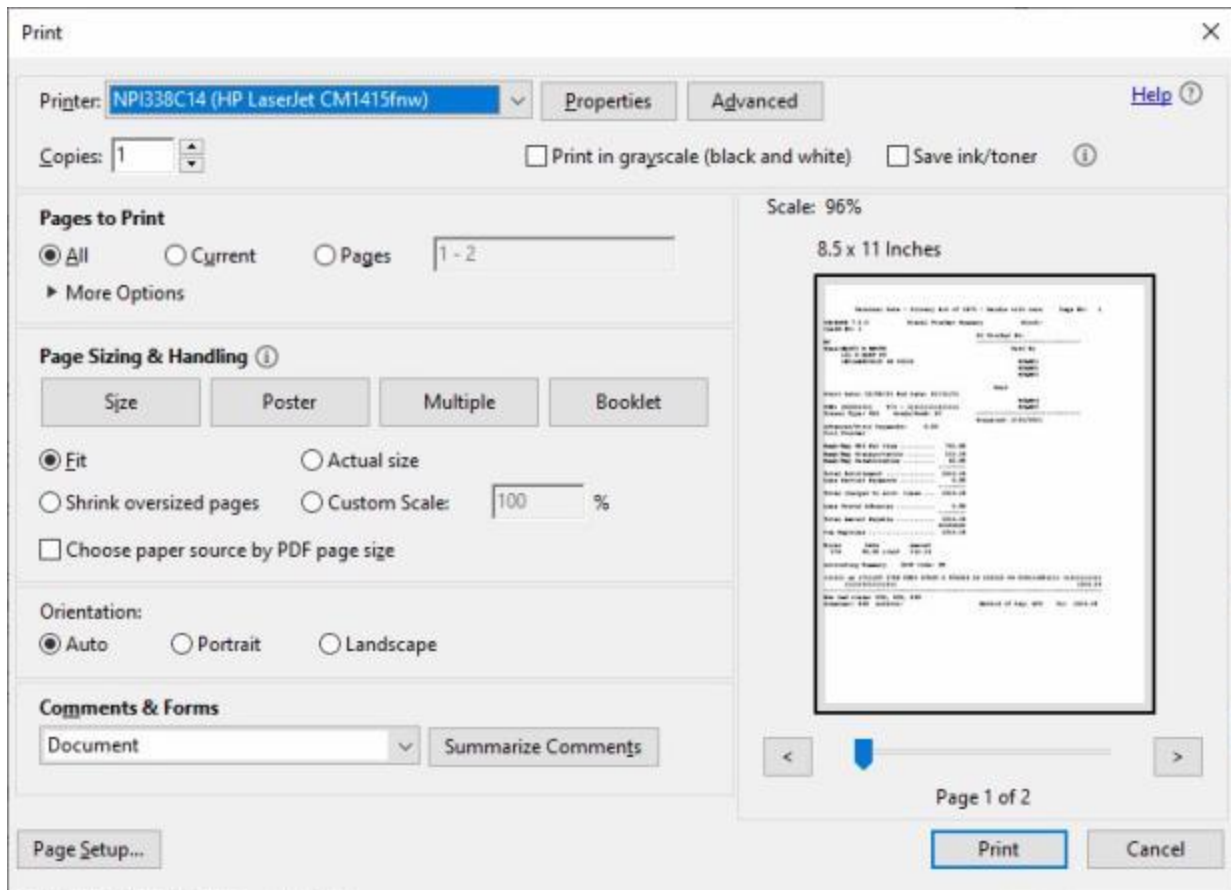

Delete Voucher Print file from disk

Click the option desired and then the OK button (click the Help button for instructions)

2. The **Adobe Acrobat Reader** screen appears displaying the vouchers.

- At the **Adobe Acrobat Reader** screen, **click** on the **printer** icon on the **tool bar**. The **Print** screen will appear

4. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
5. **Select** the **number of copies** you wish to print, the number of pages, and make any other desired adjustments.
6. When you are **ready** to print the file, **click** the **Print** button. IATS **prints** the **contents** of the Voucher Print File.
7. If you are **finished** using the **Adobe Acrobat Reader** screen, **click** on the **X** button at the top right corner to **close** the screen.
8. If you are **finished** using the **Create Voucher Print File** screen, **click** on the **Cancel** button to return to the System Administrator screen.

Delete Voucher Print File

Prior to creating a new Voucher Print File, you may **delete** the existing **VOUPRNT.PDF** file.

 Complete the following steps to "delete" a voucher print file:

1. At the **Create Voucher Print File** screen, **click** in the **circle** next to the **Delete Voucher Print File From Disk** option and then **click** the **OK** button.

Create Voucher Print File

Print Voucher Directory

Create Voucher File with Completed Blocks

Create Voucher File with Blocks Previously Used

Print Voucher Print file

Delete Voucher Print file from disk

Click the option desired and then the OK button (click the Help button for instructions)

2. After clicking the **OK** button, a *pop-up* appears asking if you are **sure** you wish to **delete** the **VOUPRNT.PDF** file.
3. **Click** on **Yes**.
4. After clicking on **Yes**, another *pop-up* appears stating that the file was deleted.
5. **Click** on **OK** to continue.

Coast Guard Upload to Mainframe

This process **transforms** the payment information for the **advance** and **settlement** requests computed by IATS, into a **format** acceptable by **Coast Guard Systems**. This data is then **processed** assign DOV#s, print checks and transmit EFT payment transactions.

Note: Coast Guard **uploads** to the mainframe are based upon **specific funds** and the information entered at the **Batch Specific Data** screen in the **Maintenance** module. **See** the example **below**:

Maintain Yard Batch Specific Data

User ID: SYSTEM

TLC Specific Data

OPFAC

Transmit Directory

Verification/Transmission List Directory

Travel Office Mail Name

CG HQ Mail Name

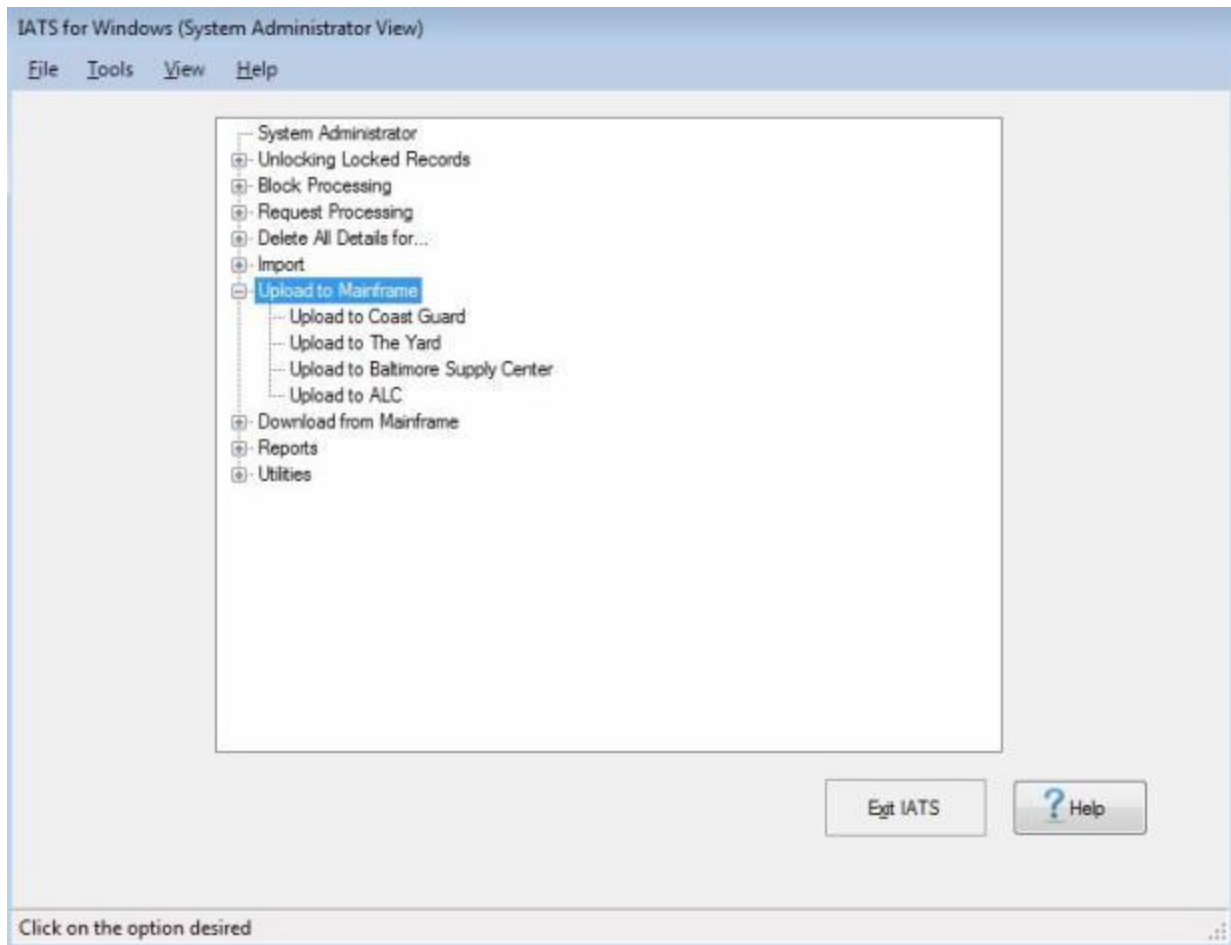

FINCEN Mail Name

FUT Claim Directory

Automatically send to DAFIS after claims

Complete the following steps to "create" the upload file for Coast Guard funds:

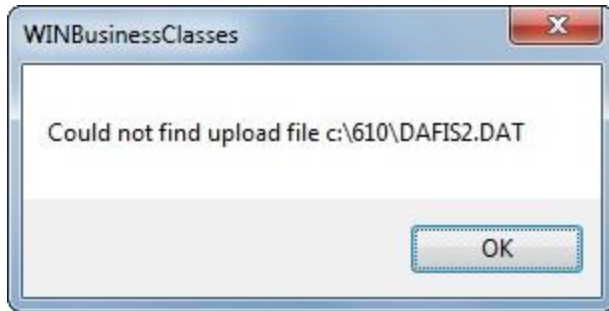

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, **"Upload to Mainframe"**. An expandable menu appears listing the options.

2. **Click** on the **Upload** option for the desired funding organization.
3. IATS will **complete** the upload process (and display the following message) **if** claim transaction file(s) **exist** in the specified **directory/folder** that was established at the **Batch Specific Data** screen in the **Maintenance** module.

If claim transaction file(s) does not exist in the specified **directory/folder** that was established at the **Batch Specific Data** screen in the **Maintenance** module, IATS will display the following message..

4. **Click** on the **OK** button to continue.

Download Files

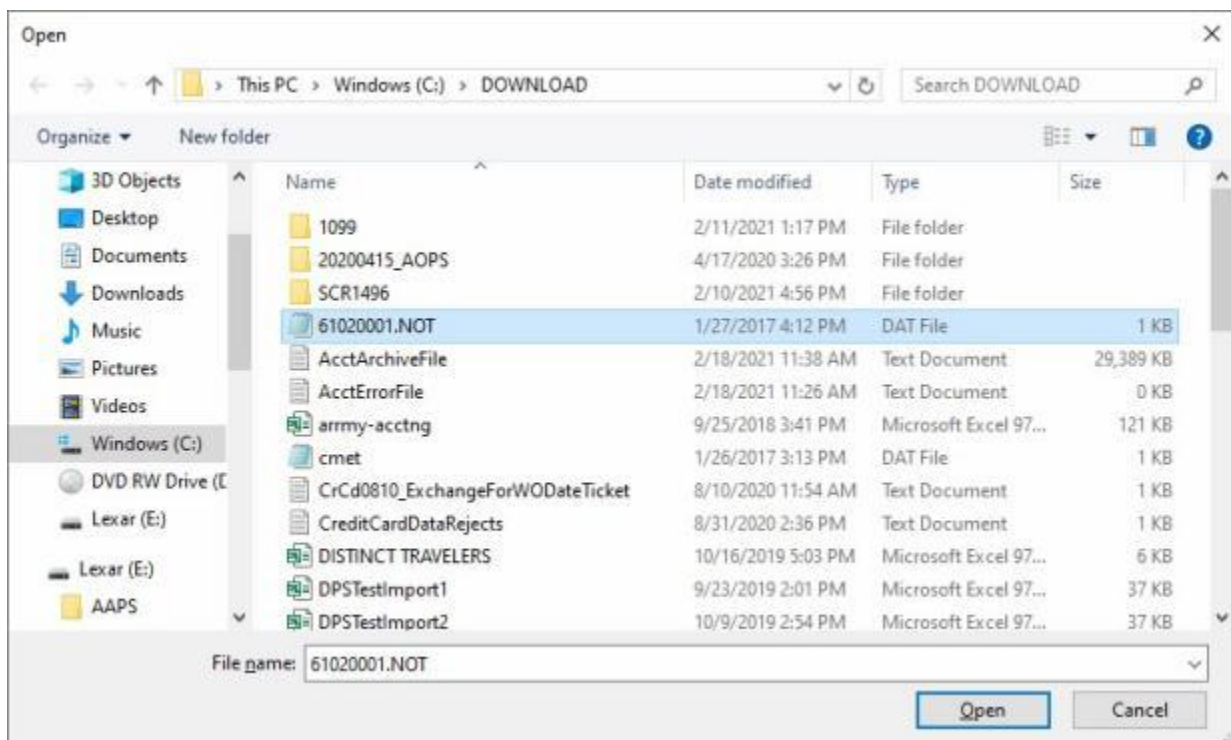

Process ADS Download File

After **ADS** has **processed** the uploaded IATS **payments**, a **file** must be **downloaded** from ADS to pass the disbursing **information** back to IATS.

 **Complete the following steps to "process" the ADS Download File:**

Note: Prior to processing the download file ensure that all other users are **logged out** of IATS if **configured** for a **networked** operation.

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Download from Mainframe**". An expandable menu appears listing the options.
2. **Click** on the **Download Transactions from Disbursing System** option. The **Open** screen appears.

Note: At this screen, the IATS user must **select** the **location** where the download file **resides**.

3. If the **default** directory is not correct when the **Open** screen appears, **browse** to the desired directory/folder.
4. After specifying the desired directory/folder, the download **file(s)** will appear.
5. **Click** on the desired download **file**. IATS highlights the **filename**.
6. **Click** on the **Open** button. The **Download from ADS** screen appears.

15. Click on the **Printer** icon to generate a print-out of the log.
16. When you are finished printing, **close** the PDF file viewer application.
17. IATS will **return** to the **Download from DDS** screen.
18. Click on the **Exit** button to **close** the **Download from DDS** screen after you have finished reviewing or printing the log.

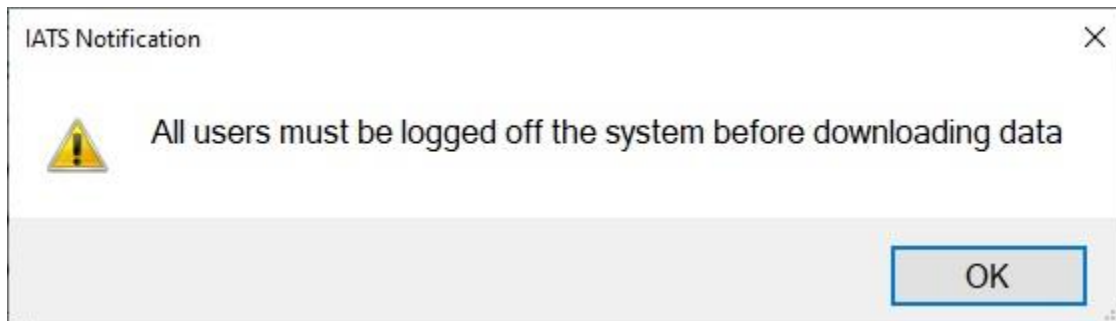

Process Payroll Download File

IATS has the ability to extract **EFT account data** from a download **file** generated by the military and civilian **payroll systems**. Since this information is already stored in the payroll system, **activating EFT accounts** by using the interface process is greatly **simplified** and **ensures correct input** of information.

IATS will even **create non-existing** travel **accounts** through this process. When the payroll interface file is read, IATS checks the database for a matching SSN. If no match is found, IATS **creates** a travel **account** using the personnel information provided on the interface file.

 **Complete the following steps to "process" the Payroll Download File:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Download from Mainframe**". An expandable menu appears listing the options.
2. **Click** on the **Download from Payroll System** option. A *pop-up message* appears stating that all other users must be **logged off** before downloading this data.

3. **Ensure** that all other users are logged off and then **click** on **OK**. The **Open** file screen appears next.

4. At the **Open** file screen, **select** the **file** you wish to process. You may need to **browse** to a different directory to locate the correct file.
5. When you have selected the correct file, **click** on the **Open** button. The **Download from Payroll** screen will appear.

Select file to be processed

6. **Before** processing the file, **ensure** you have the **correct** file.
7. If you need to select a different file, **click** on the **Change File** button. The **Open** file screen will **re-appear** and you can **select** the desired file.
8. When you are ready to process the file, **click** on the **Download** button. A *pop-up* appears **asking** if you **wish** to create **Historical Records**. **Click** on the *Yes* or *No* button as desired.
9. After **clicking** on *Yes* or *No* at the *pop-up* regarding the **Historical Records**, IATS processes the download file and **displays** the **results**.

Tip: If rejects occur, the errors are written to the **error** file. A *pop-up* **appears** asking if you **wish** to **view** the **log file**. It is a good idea to **view** the download error **report**. This report should be **analyzed** to determine the **cause** of the reject. When the **problem** is **determined**, the information can be manually entered, if necessary. **Click** on the *Yes* or *No* button to **view** the **log file** as desired.

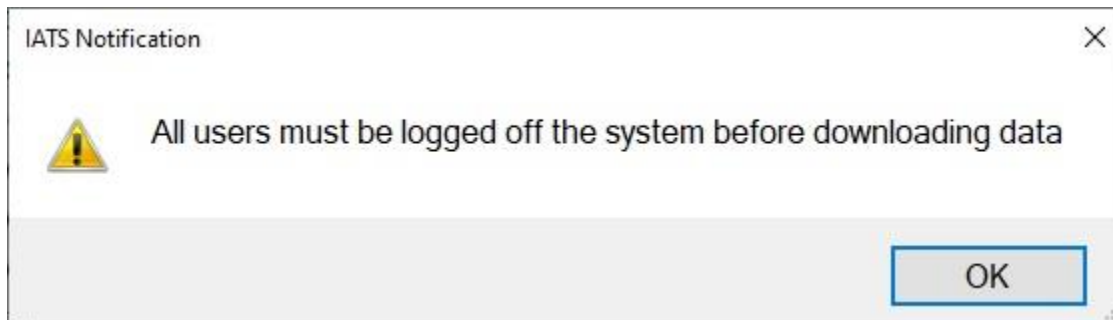

10. When **finished** processing the Payroll download file, **click** the **Exit** button to **return** to the **System Administrator View** screen.

Process GTCC Download File

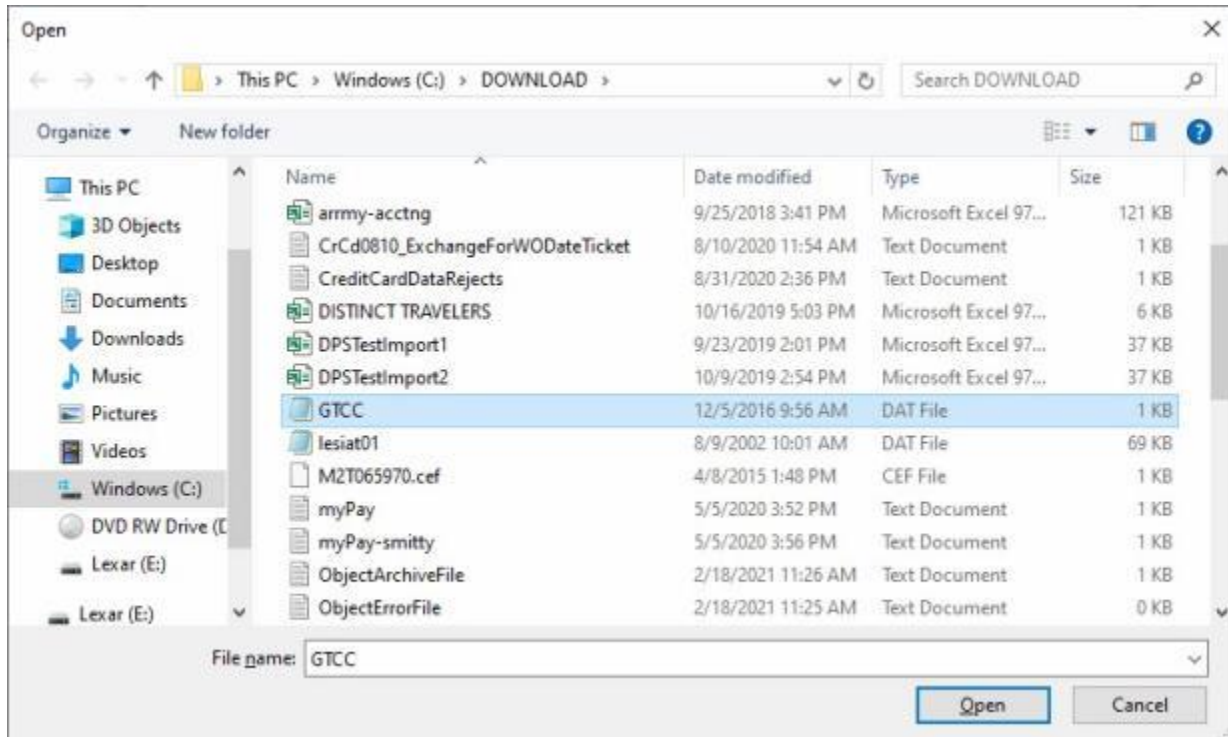

The **Download from GTCC** screen is for use by **Marine Corps** customers only. The **GTCC** file is in a **new format** that will automatically populate the IATS **Traveler's Profile** screen with additional personal information.

 Complete the following steps to "process" the GTCC Download File:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Download from Mainframe**". An **expandable menu** appears listing the options.
2. **Click** on the **Download the GTCC file** option. A **pop up message** appears (if you are operating in a networked configuration) stating that all users must be logged off.

3. **Ensure** that all other users have **logged off** and then **click** on the **OK** button.
4. The **Open** screen appears next.

5. At the Open screen, **browse** to the **directory/folder** where the GTCC file resides.
6. **Click** on the **GTCC** file you wish to process and then **click** on the **Open** button.

7. The **Download from GTCC** screen appears next.

8. If the correct file not displayed, when the **Download from GTCC** screen appears, **click** on the **Change File** button and **browse** to the correct directory/folder.
9. If the correct file is displayed, **click** the **Download** button. IATS processes the download file and **displays** the **results**.
10. When **finished** processing the GTCC download file, **click** the **Exit** button to **return** to the **System Administrator View** screen.

Process Accounting Download File

For **various** customers, IATS is programmed to process a **download** file from the **Accounting System** to automatically populate the **Accounting Classifications** table maintained within IATS.

 Complete the following steps to "process" the Accounting Download File:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Download from Mainframe**". An expandable menu appears listing the options.
2. **Click** on the **Download Accounting Classifications** option. The following *pop-up message* is displayed **indicating** that all other users must log-off before processing the accounting download **file**.

3. **Ensure** that all other users have **logged off** and then **click** on the **OK** button.
4. Another *pop-up* message appears asking if you want to have the **option** to **purge** the accounting table first.

5. **Click** on *Yes* or *No* as desired. The **Download Accounting** screen will appear.

Print File Print Errors Exit ? Help

Note: The **Purge** button will only appear on the Download Accounting screen if you **answer** Yes to the *pop-up message* asking if you want to have the **option to purge** the accounting table first.

6. If the **default** directory is not correct when the **Download Accounting** screen appears, **click** on the **Browse** button and **browse** to the desired directory.
7. After specifying the desired directory, the download **file(s)** will appear in the **area** at the top left portion of the screen.
8. **Click** on the desired download **file**. IATS highlights the **filename**.
9. After the desired download **file** is selected, **click** the **Download** button. IATS processes the download file and **displays** the **results**.

Tip: If rejects occur, the errors are written to the **error** file. It is a good idea to **view** the download error report. This report should be **analyzed** to determine the **cause** of the reject. When the **problem** is **determined**, the information can be manually entered, if necessary. **Click** on the **Print Errors** button to generate a **printed** error report. **Click** on the **Print File** button if you wish to generate a **print-out** of the Accounting Download **file**.

10. When **finished** processing the Accounting download file, **click** the **Exit** button to **return** to the **System Administrator View** screen.

Process CMET Download File

At the **Maintain CMET Codes** screen in the IATS **Maintenance** module, the user must enter all of the accounting **appropriations** applicable to the organizations serviced. The accounting **appropriations** are **stored** in the table using Bureau Control Number Codes (**BCN**). When processing an **advance**, or **settlement** request, the user can automatically pull the full **appropriation** from the table just by entering the **BCN**. This **saves** many **keystroke** entries, and increases accuracy. Input to this table is normally accomplished by **processing** a CMET download file. Ordinarily, travel offices will **process** a **download** file containing the **CMET Database** to populate the **CMET Table**.

Note: When this file is provided to the travel office, it is in a **compressed** format. Before proceeding with this process, ensure that you **unzip** the CMET data file.

 **Complete the following steps to "process" the CMET Download File:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Download from Mainframe**". An expandable menu appears listing the options.
2. **Click** on the **Download Accounting Classifications** option. The **Download Accounting** screen appears.

Note: When this screen appears, a *pop-up* is displayed **indicating** that all other users must log-off before processing the accounting download file. **Ensure** that all others **users** have **logged off** and then **click** on the **OK** button to continue.

Process CG Download Units - Offices File

Units and **Offices** information in the IATS database for the **Coast Guard** is automatically added and **updated** by processing a **download file** containing this information.

The **Download Coast Guard Units/Offices** screen is used for processing this download file.

 **Complete the following steps to "process" the CG Download Units/Offices File:**

Note: Prior to processing the download file ensure that all other users are **logged out** of IATS if **configured** for a **networked** operation.

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Download from Mainframe**". An expandable menu appears listing the options.
2. **Click** on the **Download Office (Unit) Codes and Names** option. The **Download Coast Guard Units/Offices** screen appears.

Note: At this screen, the IATS user must **select** the **location** where the download file **resides**.

3. **Click** on the **Browse** button and **navigate** to the desired **directory/folder**.
4. After specifying the desired directory/folder, the download **file(s)** will appear.
5. **Click** on the desired download **file**. IATS highlights the **filename**.

6. **Click** on the **Open** button when the desired file is displayed at the **File name** field.
7. IATS will **return** to the **Download Coast Guard Units/Offices** screen **displaying** the selected file at the **Download File** field.

Download Coast Guard Units/Offices

Download File:

Number of Records Read:

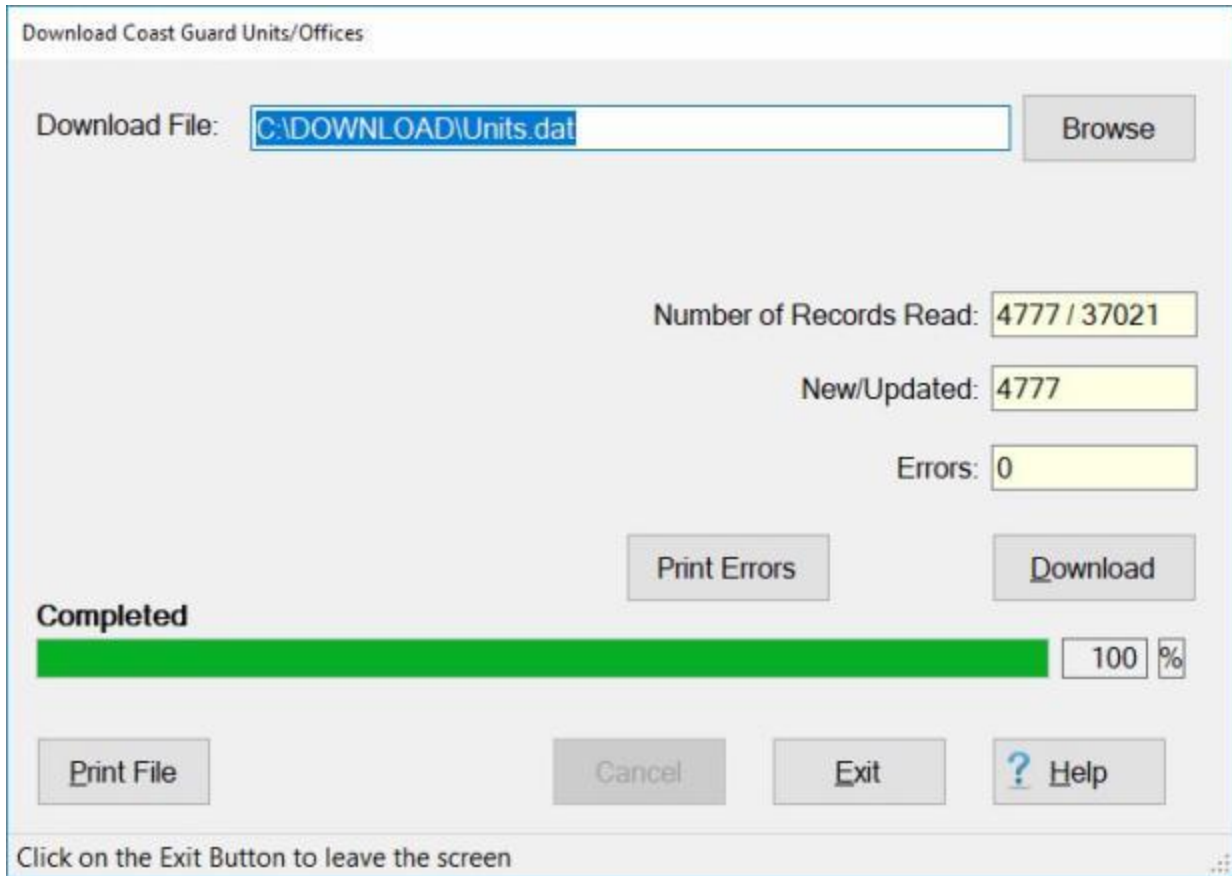

New/Updated:

Errors:

Time left: %

Select the file to be processed

8. If the correct download **file** is displayed, **click** the **Download** button. IATS processes the download file and **displays** the **results**.

9. **Click** on the **Exit** button if you are **finished** using the **Download Coast Guard Units/Offices** screen.

Delete Details

Delete Travel Account Details

As a travel office supervisor, it may be necessary to **delete** travel **accounts** on occasion. This is a common practice when travelers **relocate** to a **new** duty **station** and will be **serviced** by a **different** travel **office**. It is also required when an account was created initially with the **wrong** social security number. This requires that the account be **deleted** and **recreated** with the correct SSN. Using this method, the user can delete any **account** regardless of the condition.

 **Complete the following steps to "delete" Traveler Accounts:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word **"Delete"**. Next, **click** on the **plus sign** to the **left** of the words **"Delete All Details for..."**. An **expandable menu** appears listing several options.
2. **Click** on the **"a Traveler"** option. The **Select Traveler to Delete** screen appears.

DSSN: 5150

State/Country: INDIANA

Zip Code: 46226

Delete Cancel ? Help

Enter a partial last name to search (list appears after 2 characters)

3. **Click** in the appropriate **radio button** to **select** your search **by** either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**.
4. You can also **type** a **few letters** of the traveler's **last name** at the **Name** field and then **click** on the **down arrow** button to **display** a **list** of names beginning with the letters entered. When the desired traveler's name is displayed, **click** on the **name** to select the traveler.
5. After the travel account **information** is displayed, **click** the **Delete** button. The **Confirmation Password** screen appears.

6. At the **Confirmation Password** screen, **type** the confirmation **password** at the **Enter Password** field and **click** the **OK** button.
7. The **Reason for Deletion of Claim and Traveler** screen appears next.

8. **Reason(s) for Deletion:** - Notice that there are four **Reason** fields. You must **select** at least one reason by **clicking** on the **down arrow** button in one of the Reason fields and then **click** on a reason from *drop down list* of reasons.
9. **Reasons for Deletion of Traveler:** - In the **text box** at this field, you must enter a **remark**. **Click** in the text box and **type** a remark.
10. When you have **finished** selecting reasons and entering remarks, **click** on **OK**.
11. If the travel account has any open transactions, **suspense** items, or **Tax Records**, a **message** appears indicating the situation and asking if you are **sure** you wish to delete the account. If **sure**, **click** the **Yes** button.

12. IATS **deletes** the account and displays a *pop-up message* appears stating that the account was successfully deleted.
13. **Click** on **OK** to **return** to the **System Administrator View** screen.

Delete Travel Order Details

As a travel office supervisor, it may be necessary to **delete** travel orders on occasion. This is a common practice when an order was created initially with the **wrong** number. This requires that the order be **deleted** and **recreated** with the correct number. Using this method, the user can delete any order regardless of the condition.

 Complete the following steps to "delete" Travel Order Details:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word "**Delete**". Next, **click** on the **plus sign** to the left of the words "**Delete All Details for...**". An expandable menu appears listing several options.
2. **Click** on the **a Specific Travel Order** option. The **Select Traveler** screen appears.
3. At the Select Traveler screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**. The **Travel Order Selection** screen appears.

10. **Remarks:** - In the **text box** at this field, you may enter optional **remarks**. **Click** in the text box and **type** a remark if desired.
11. When you have **finished** selecting reasons and entering optional remarks, **click** on **OK**. IATS **deletes** the travel order and **display** the following *pop-up message* indicating that the order was deleted.

12. **Click** on **OK** to continue.

Delete a Completed or Returned Settlement

On occasion, it may be necessary to **delete** a **Settlement Request** that was **returned** or is in a **completed** status.

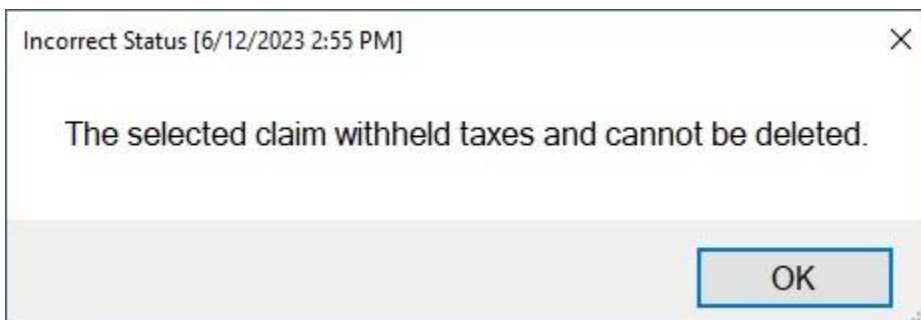

Note: This feature is only available to **Army Corps of Engineers** and **DFAS** customers having the **Tax Accountant** role or the **Delete Completed Claim** privilege. In addition, **DFAS customers** will not be **allowed** to **delete** the claim if **taxes** have been **withheld**.

 Complete the following steps to "delete" a completed or returned Settlement Request:

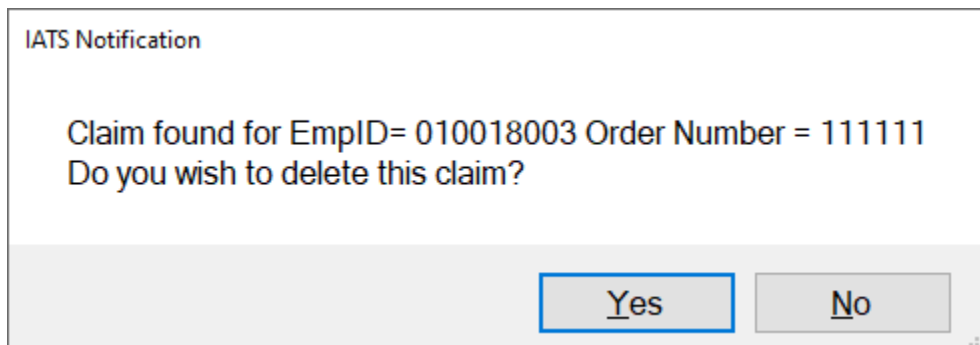

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word "**Delete**". Next, **click** on the plus sign to the **left** of the words "**Delete All Details for...**". An **expandable menu** appears listing several options.
2. **Click** on the "**a Specific Claim**" option. The **Delete Completed Settlement or Advance** screen appears.

3. **Enter** the **claim number** at the **Claim No. to Delete** field.
4. **Click** on the **OK** button. The following *pop-up message* will appear for **DFAS** customers **if taxes** were **withheld** on the claim.

5. **Click** on **OK** to continue and **cancel** the process.
6. If taxes were not withheld or the customer type is **Army Corps of Engineers** the following *pop-up message* will appear asking if you wish to delete the specified claim.

7. **Click** on the Yes button if you wish to **delete** the claim.

Delete a Completed Advance

On occasion, it may be necessary to **delete** an **Advance Request** that **has been uploaded to disbursing and** is in a **completed** status.

Note: This feature is only available to **Army Corps of Engineers** and **DFAS** customers having the **Tax Accountant** role or the **Delete Completed Claim** privilege.

 Complete the following steps to "delete" a completed Advance Request:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word "**Delete**". Next, **click** on the **plus sign** to the **left** of the words "**Delete All Details for...**". An **expandable menu** appears listing several options.
2. **Click** on the "**a Specific Claim**" option. The **Delete Completed Settlement or Advance** screen appears.

3. **Enter** the **claim number** at the **Claim No. to Delete** field.
4. **Click** on the **OK** button. The following *pop-up message* will appear to **remind** you to **re-enter** the **claim** and to **verify** that you are **sure** you wish to proceed.

5. **Click** on *Yes* or *No* as desired.

6. If the **option** in the IATS Maintenance module has been activated to generate the "**Deleted Details Report**", the **Reason For Deletion of Claim** screen appears if you **clicked** on Yes.

Reason For Deletion Of Claim

Reason 1
Invalid Claim

Reason 2

Reason 3

Reason 4

Remarks
Advance was processed for the wrong travel order.

OK Cancel ? Help

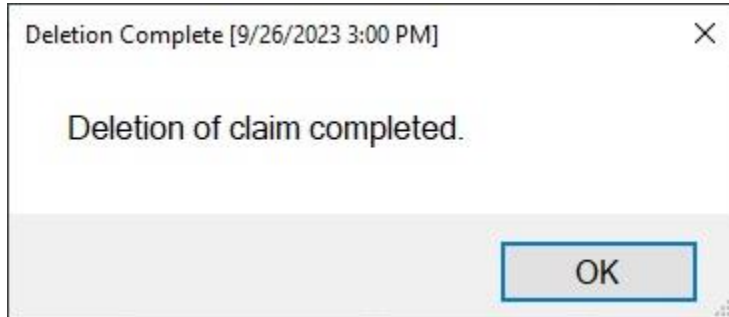

Enter a reason for deletion.

7. At the **Reason for Deletion of Claim** screen, you have the option of placing up to **four** reasons for deleting the request by **clicking** on the *down arrow* button at the **Reason** fields.

Tip: At the **Reason for Deletion of Claim** screen, you have the option of either selecting a **reason**, or simply entering a **remark** into the **Remarks** text box. One or the other is **required**. You may also do **both** - select a reason from the drop-down list and add a remark if desired.

8. If you **click** on the *down arrow* button, a **list** of all of the **reasons** that were previously entered into the "**Reasons for Claim Deletion**" table in the **Maintenance** module, will be displayed.

9. **Click** on the desired **reason** from the *drop-down* list of reasons that will appear after you click on the *down* arrow button. Or, **click** in the **Remarks** text box and **type** the **reason** the request is being deleted.
10. After selecting a reason, entering a remark, or both, **click** on **OK**.
11. IATS **deletes** the **Advance** and displays the following *pop-up message*.

12. **Click** on **OK** to continue.

Delete DOV

On occasion, it may be necessary to **delete** a **DOV** and **Payment Date** from an **Advance** or **Settlement Request** that was **processed** and **disbursed**.

Note: This feature is only available to **DFAS** customers having the **Tax Accountant** role or the **System Administrator**.

 Complete the following steps to "delete" a DOV and Payment Date:

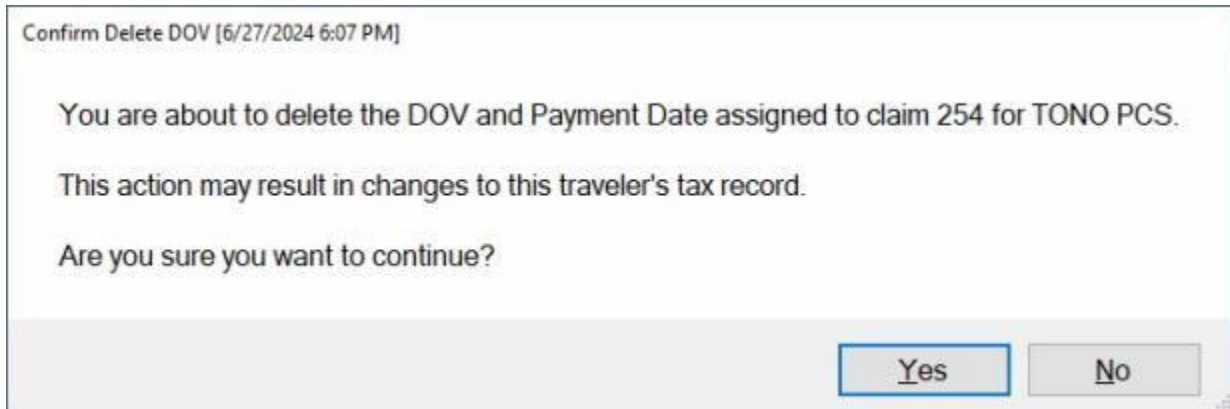

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word "**Delete**". An expandable menu appears listing several options.
2. **Click** on the "**Delete DOV**" option. The **Delete the DOV and Payment Date From Completed Claim** screen appears.

Delete the DOV and Payment Date From Completed Claim

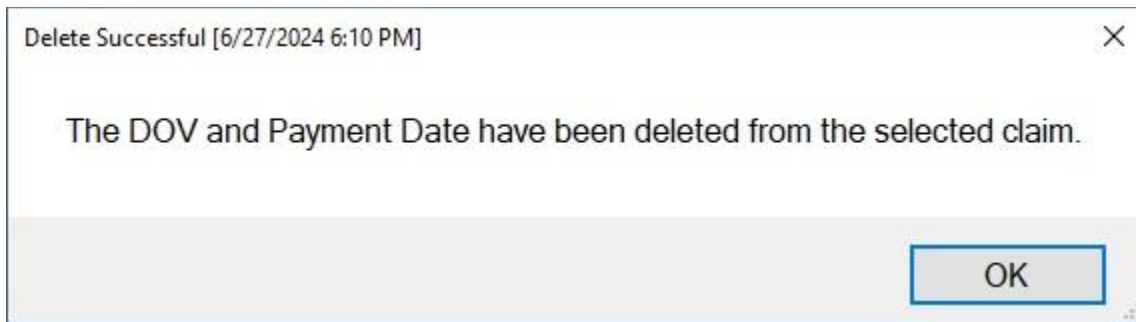

Claim No. to Delete DOV and Payment Date

3. **Enter** the **claim number** at the **Claim No. to Delete and Payment Date** field.
4. **Click** on the **OK** button. The following *pop-up message* will appear for if **taxes** were **withheld** on the claim.

5. **Click** on the Yes button if you wish to **delete** the DOV and Payment Date.
6. If you **click** on Yes, the following *pop-up message* is **displayed**.

7. **Click** on **OK** to continue.
8. **Click** on the **Cancel** button to **close** the **Delete the DOV and Payment Date From Completed Claim** screen if you are **finished**.

Check for Old Users

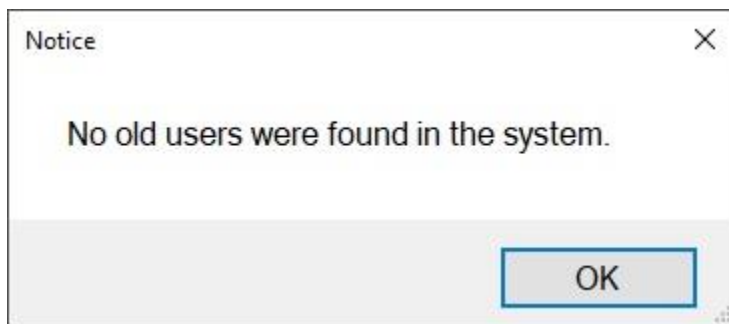

User ID's and associated **passwords** remain in the database until the **System Administrator** accesses the **Maintenance** module and **deletes** them.

A **utility** program was added to IATS that will provide a **listing** of users that have not logged into the database in the past **90** days. When the list is generated, the System Administrator then has the **option** to **delete** those users if desired. In addition, any **deletions** made by using this utility will be **added** to the **Privilege Change Report**.

Note: One **exception** is that the User ID "**System**" cannot be deleted by using this utility program.

 **Complete the following steps to "generate" the list of Old Users:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Delete**". An expandable menu appears listing various options.
2. **Click** on the **Delete Old Users** option. If there are no users that have not logged in with in the past 90 days, the following *pop-up message* appears.

3. You would then **click** on **OK**.

Delete Old Users

Note: When using this screen you can **sort** the data by **clicking** on the column **headers**.

4. If there are no old users listed on the Delete Old Users screen, **click** on **OK** to return to the System Administrator View screen.
5. If users are **listed**, however, that you would like to delete, you would **select** the desired users by **clicking** on the user's **name** listed in the **Name** field. If you wish to select **all** of the listed users, **click** on the **Select All** button.
6. When the users you wish to delete are highlighted, **click** on the **Delete** button. The highlighted users will **disappear** from the list.
7. When you are finished, **click** on the **OK** button to return to the System Administrator View screen.

Reports

Ad Hoc Reports

IATS provides a **query tool** that can be used to **extract** various **data** from the database to **generate** a variety of **reports**.

The **IATS Query and Reporting Tool** screen used to extract the data and generate the reports.

 Complete the following steps to "display" the IATS Query and Reporting Tool screen:

Coast Guard Customer Steps:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**".
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Ad Hoc Reports** option. The **IATS Query and Reporting Tool** screen will appear.

DFAS Customer Steps:

1. **Change** the View to **Maintenance**.
2. At the **Maintenance Main Menu**, **click** on the **plus sign** to the left of the item **Configuration/Base Parameters**.
3. **Click** on the **System Reporting -Ad Hoc Reports** option.

The screenshot shows the IATS Query and Reporting Tool interface. At the top, the window title is "IATS Query and Reporting Tool". Below the title bar is a menu bar with "File". The main area contains a "Select a query:" dropdown menu with "travelers" selected. To the right of the dropdown are "Select" and "Delete" buttons. Below this is a "Title:" text box. A large empty text area is present. Below the text area are "Perform Query", "Reset", and "Save Query" buttons. At the bottom, there is another "Or Enter an SQL Query:" text area, and buttons for "Export to Excel", "Close", and "Help".

 Complete the following steps to "use" the IATS Query and Reporting Tool screen:

Performing a "saved" Query:

1. **Select a query:** - If you already have some queries **saved** to you database and you would like to run one, **click** on the *down arrow* button at the **Select a query** field. IATS will **display** a *drop down list* of saved queries.
2. **Click** on the desired **query** and then **click** on the **Select** button. The selected query will now be **displayed** in the **text box** as shown below.

The screenshot shows the 'IATS Query and Reporting Tool' window. At the top, there is a menu bar with 'File'. Below it, the 'Select a query:' section features a dropdown menu with 'travelers' selected, and 'Select' and 'Delete' buttons. The 'Or Enter an SQL Query:' section has a 'Title:' field containing 'travelers' and a text area with the query 'Select * from traveler;'. Below this is a 'Perform Query' button (highlighted with a blue border), 'Reset', and 'Save Query' buttons. The bottom section is another 'Or Enter an SQL Query:' text area. At the very bottom, there are 'Export to Excel', 'Close', and 'Help' buttons.

3. When the desired query is **displayed** in the text box, **click** on the **Perform Query** button to run it. The results will be **displayed** in the **display field** at the bottom of the screen as shown below.

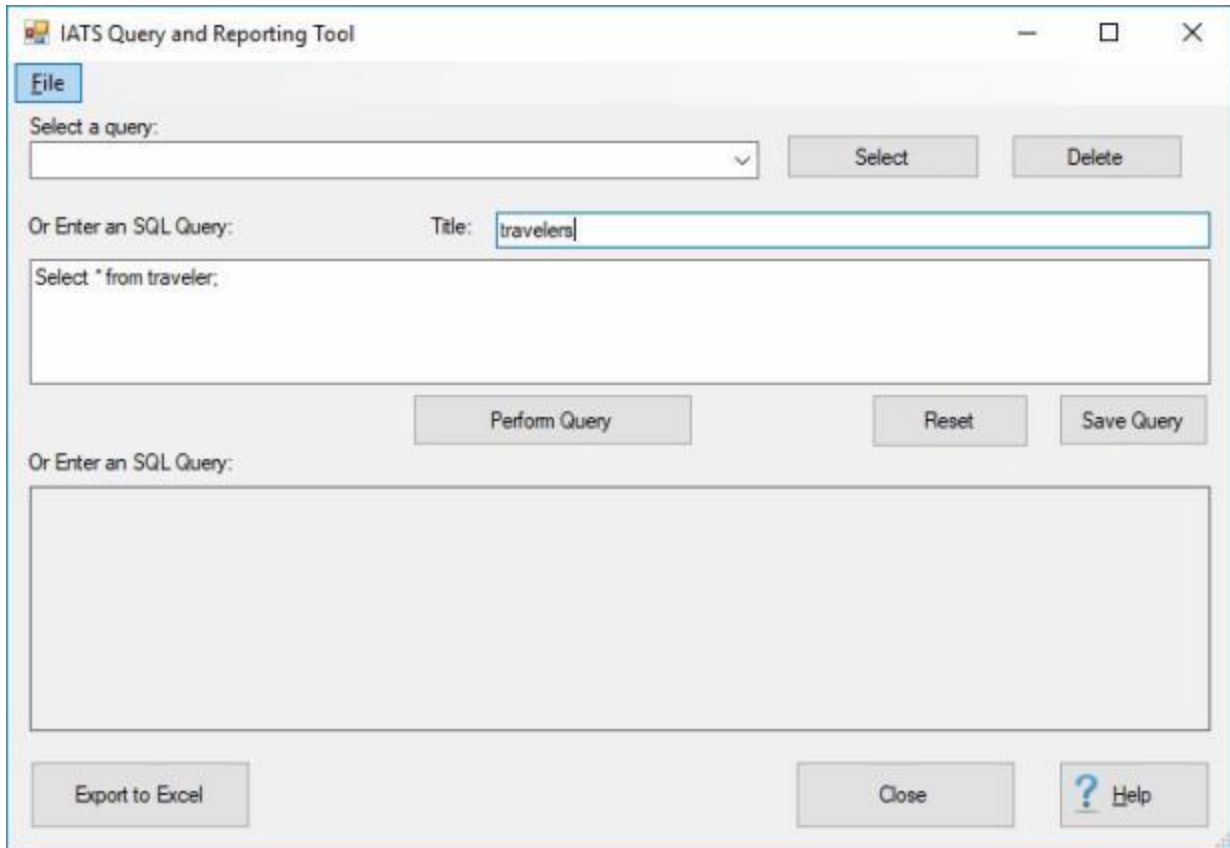

4. When the results as displayed, you can then **click** on the **Export to Excel** button to have the data **transferred** to an **Excel file** to **generate** your **report**.
5. If you wish to run another query, **click** on the **Reset** button to clear the current query from the screen and **select** or **enter** the next query.

Entering and Saving a new Query:

The screenshot shows a window titled "IATS Query and Reporting Tool". At the top left is a menu labeled "File". Below it, there is a section "Select a query:" with a dropdown menu and two buttons: "Select" and "Delete". Below that is a section "Or Enter an SQL Query:" with a "Title:" label and a text input field. The text input field contains the query "Select * from traveler;". Below the text input field are three buttons: "Perform Query", "Reset", and "Save Query". Below these buttons is another section "Or Enter an SQL Query:" with a large empty text area. At the bottom of the window are three buttons: "Export to Excel", "Close", and "? Help".

1. If you wish to **perform** and **save** a **new** query that **doesn't** already **exist** in you database, **enter** the query in the **Enter an SQL Query** text box as shown above.
2. After you have entered the query command, you may **click** on the **Perform Query** button to run it.
3. If you wish to **save** the new query to your database, **click** in the **Title** field and **enter** a **name** for the query.

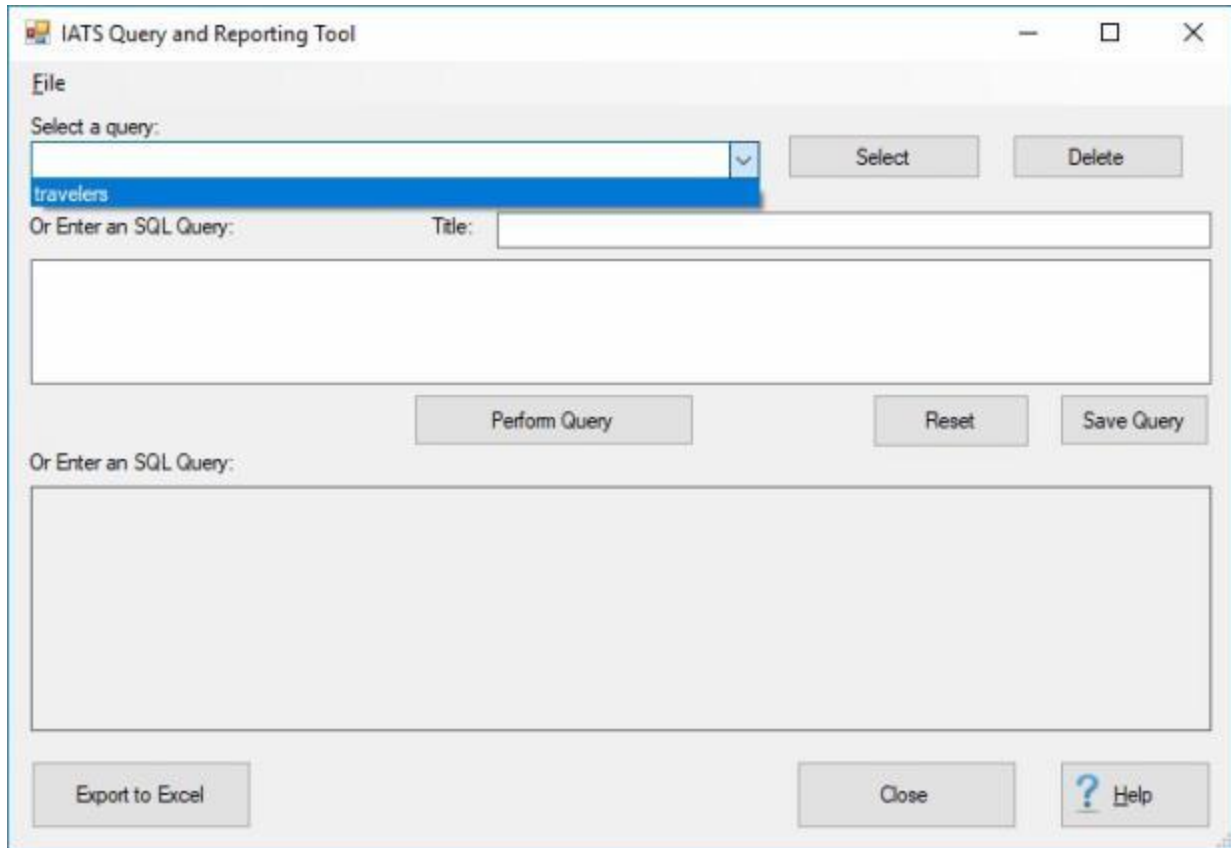

4. After entering a **name** for the query at the **Title** field, **click** on the **Save Query** button. The following *pop-up message* will appear telling you that the query has been **saved**.

5. **Click** on **OK** to continue.

Deleting a Saved Query:

1. **Select a query:** - If you already have some queries **saved** to you database and you would like to **delete** one, **click** on the *down arrow* button at the **Select a query** field. IATS will **display** a *drop down list* of saved queries.
2. **Click** on the desired **query** and then **click** on the **Delete** button. The following *pop-up message* will appear.

3. **Click** on the Yes button if you are **sure** you wish to **delete** the selected query.

Advance Detail - Report

Periodically some customers are required to provide **advance claim information** for a specific period of time. The **Advance Detail Report** screen is used to generate this information.

 Complete the following steps to "generate" the Advance Detail report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**".
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Advance Detail** option. The **Advance Detail** screen will appear.

4. **Start Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** the **down arrow** button and use the **calendar** to select the desired date.
5. **End Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** the **down arrow** button and use the **calendar** to select the desired date.
6. If you wish to have a **print-out** of the Advance Detail report or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up menu* will appear allowing you to select **PDF** or **Excel**.

Print:

1. **Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

The screenshot displays the IATS Report Viewer application window. The top toolbar contains several icons, with the 'Print' icon (a printer) highlighted with a red rectangle. Other icons include 'Open', 'Export', 'Page Setup', 'Reflow', 'Page', 'Navigation', 'Zoom', 'Fit Width', 'Fit Window', 'Pages', 'Outline', 'Search', 'Hand Tool', 'Text Select Tool', and 'Copy Text'. The main content area shows a report titled 'Advance Detail Report' with the subtitle 'Disbursement Period: 1/1/2020 to 3/22/2022'. The report is labeled 'Controlled Unclassified Information'. Below the title is a table with the following data:

SSN	Last Name	First Name	M TONO	Travel Dates		Date Paid	Amt Pd	Examiner	Auditor	Allot Serial Num	Elen of Exp
				Begin	End

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are **finished** using the **Advance Detail** screen, **click** on the **Close** button to **return** to the **System Administrator View** screen.

Auditor Production - Report

To assist managers in assessing the **performance** of travel office **personnel**, IATS generates the **Auditor Production Report**. This report provides detailed information regarding the **number of advance** or **settlement** requests audited by a given auditor.

The **information** shown on the report **represents** the **auditor's total production** for the period specified.

 **Complete the following steps to "generate" the Auditor Production report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Auditor Production** option. The **Auditor Production Report** screen appears.

4. **Start Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format.
5. **End Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format.
6. **Auditors:** - The default setting at the Auditor field is "**All auditors**". If you wish to run the report for a specific auditor, however, **click** on the *down arrow* button to **display** a **list** of auditors and then **click** on the desired **name** to make a selection.
7. After the **Starting** date, **Ending** date, and **Auditor** is specified, **click** the **Run Report** button. **IATS generates** the Auditor Production **report** for the specified period.

- If you wish to have a **print-out** of the **Auditor Production Report** or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up* menu will appear allowing you to select **PDF** or **Excel**.

Print:

- Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

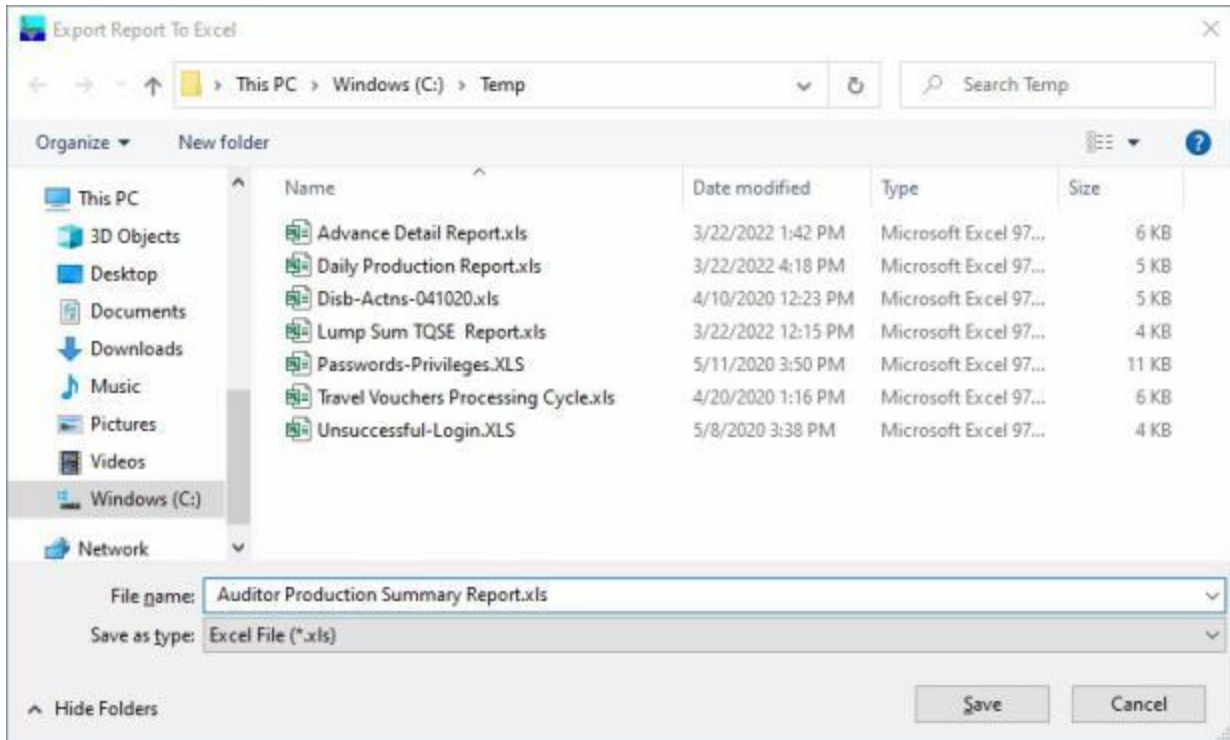

- At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
- If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are finished using the **Auditor Production Report** screen, **click** on the **Exit** button to **return** to the **System Administrator View** screen.

Counts and Entitlements - Report

Periodically, some IATS customers are required to provide **counts** and total entitlement **amounts** for specific periods of time.

The **Counts and Entitlements Report** was created to satisfy this requirement.

Note: The **Counts and Entitlements Report** was created to report the gross entitlement amount for each original settlement. For example, if a traveler received a \$500 **advance** and the gross **entitlement** amount is \$600 the report will display \$600. But for **supplemental** claims, the report displays the **difference** between the new gross entitlement amount and the original gross entitlement amount. So if a supplemental claim is submitted (for the above \$600 gross entitlement example) and the new gross entitlement amount is now \$700 (due member \$100) the report will display \$100.

 Complete the following steps to "generate" the **Counts and Entitlements report**:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**".
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Counts and Entitlements** option. The **Counts and Entitlement Management Report** screen will appear.

Press Run Report to create the report

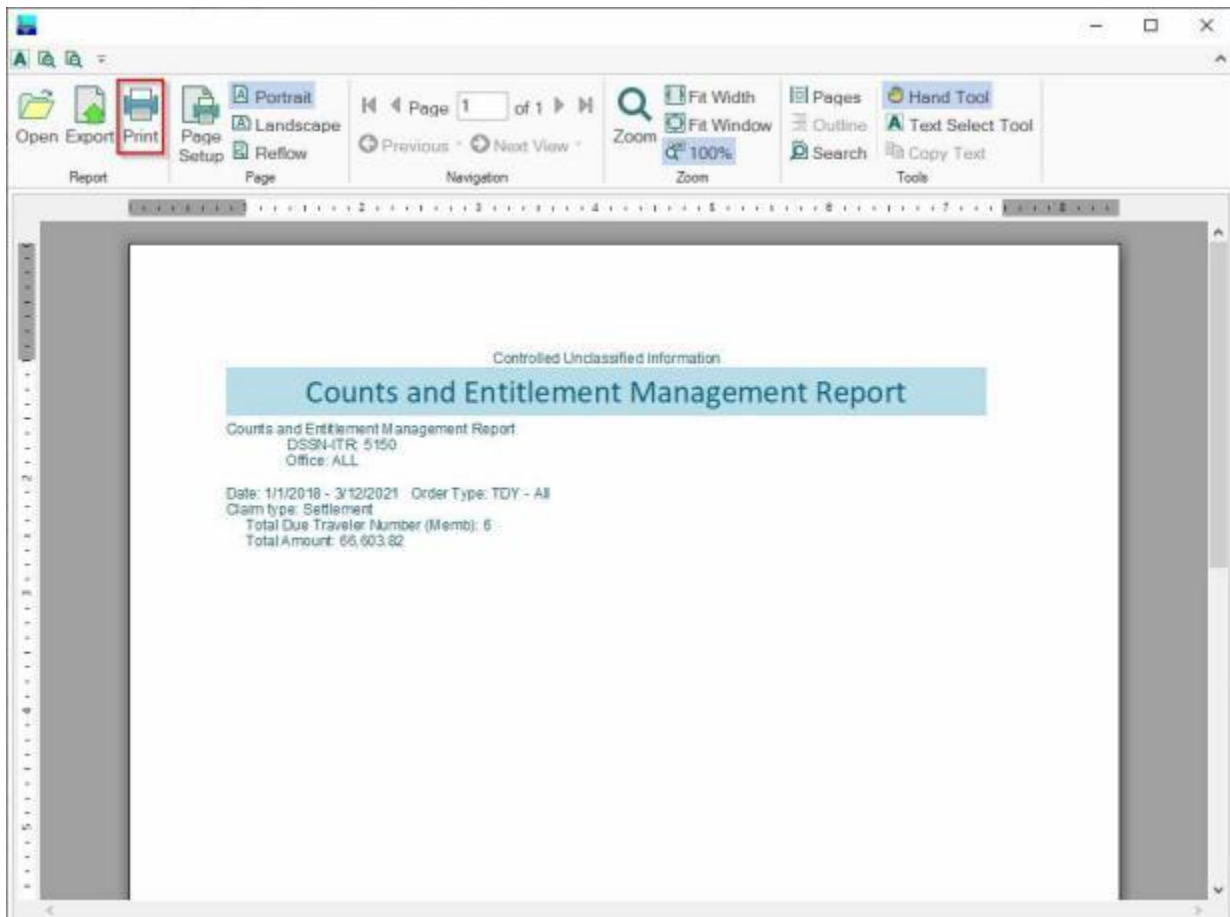

4. **Start Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** to display the IATS **calendar**. Once the IATS calendar is displayed, you can adjust the **month** and **year** by **clicking** on the **left/right arrows** at the **top** of the calendar **screen**. The **day** can be selected by **clicking** on the desired **date** once the correct **month** and **year** have been selected.
5. **End Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** to display the IATS **calendar**. Follow the **instructions** explained in step (4) above if wishing to use the IATS **calendar** to adjust the **Ending Date**.
6. **Claim Type:** - At the **Claim Type** field, **click** on the **down arrow** to display a list of order types and then **click** on the desired type.
7. **Order Type:** - At the **Order Type** field, **click** on the **down arrow** to display a list of order types and then **click** on the desired type.
8. **Run Report:** - When you are satisfied with the dates and the order type, **click** on the **Run Report** button.
9. **Report Data:** - After you click the Run Report button, IATS **generates** the report and **displays** the details in the Report Data field.

10. If you wish to have a **print-out** of the Counts and Entitlements Report or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up* menu will appear allowing you to select **PDF** or **Excel**.

Print:

1. **Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

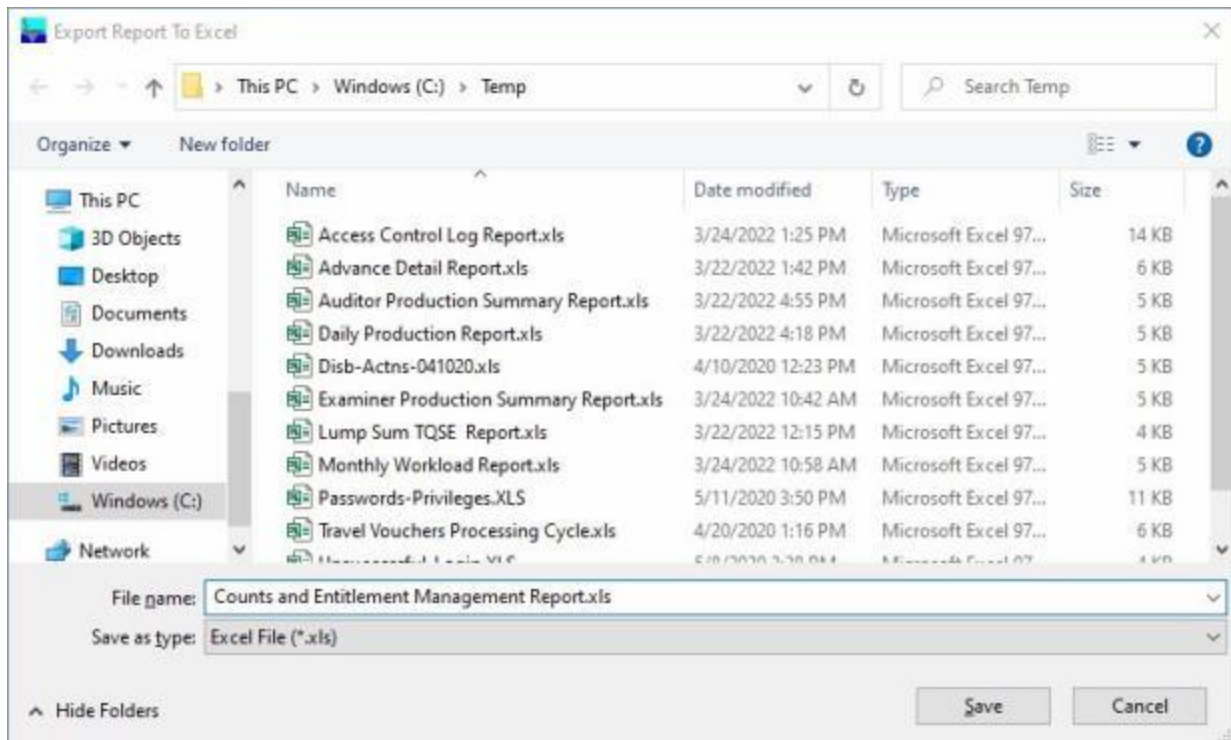

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are **finished** using the **Counts and Entitlements Report** screen, **click** on the **Close** button to **return** to the **System Administrator View** screen.

Emergency Evacuations - Report

IATS includes the **option** for generating a **report** detailing the **advances**, **settlements**, and **collection** information pertaining to Emergency Evacuation travel transactions that have been processed.

 **Complete the following steps to "generate" the Evacuation report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Reports**". An **expandable menu** appears listing the various report options.
2. **Click** on the **Emergency Evacuations** option. The **Evacuation Report** screen appears.

Evacuation Report

Start Date: 1/1/2020 End Date: 4/25/2022 Disaster: All

Description	Number	Amount
Sponsors	1	\$7,351.80
Dependents	3	\$4,648.20
Dependents >= 12 Years of Age	1	
Dependents < 12 Years of Age	2	
Advances	0	\$0.00
Collections	0	\$0.00

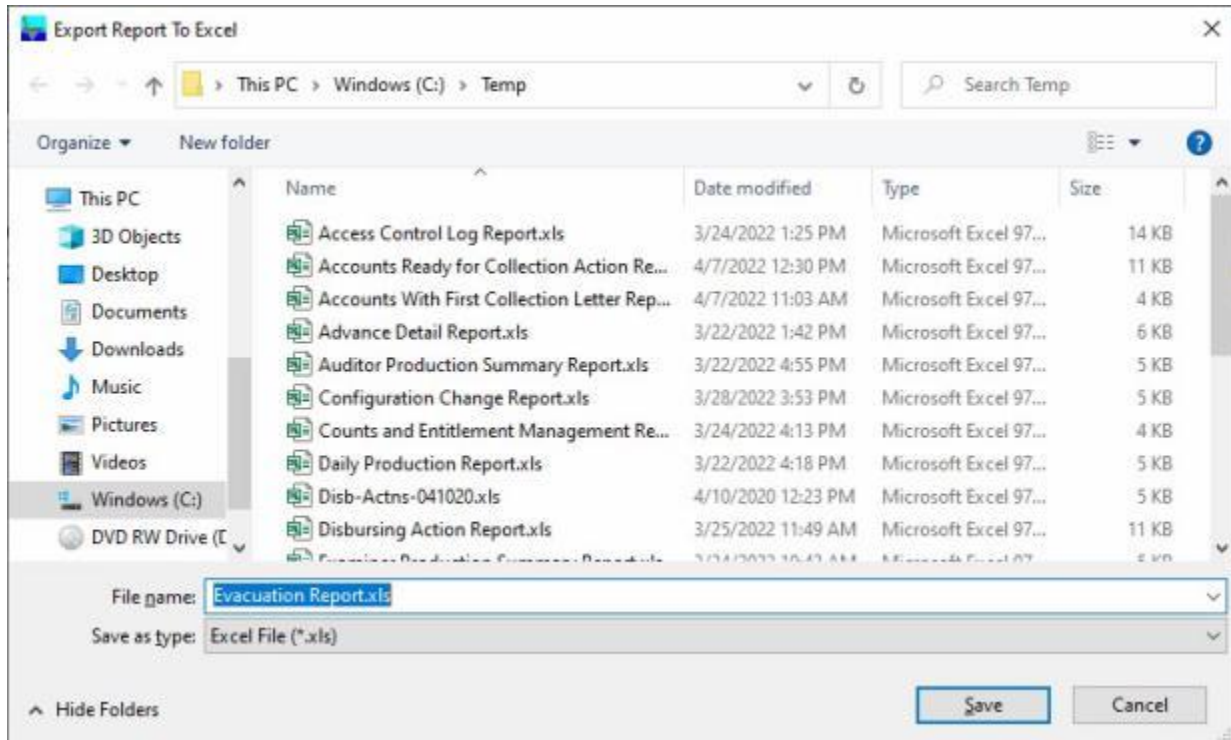

Enter the Start Date for the report

3. **Start Date:** - If the **default date** displayed at this field is **incorrect**, **type** the desired **date** in **MMDDYY** format. You can also **click** on the **down arrow** button and use the **calendar** to select the date.
4. **End Date:** - If the **default date** displayed at this field is **incorrect**, **type** the desired **date** in **MMDDYY** format. You can also **click** on the **down arrow** button and use the **calendar** to select the date.
5. **Disaster:** - The **default value** at the Disaster field is **All**. **If** you wish to generate the report for a **specific** disaster, however, **click** the **Down arrow** button to display a **list** of named disasters from the Disaster Rates table in the Maintenance module. When the list of disasters is displayed, **click** on the disaster **name** you wish to generate the report for.
6. After the **Starting** date, **Ending** date, and the Disaster is specified, **click** the **Generate Data** button. IATS **generates** the **report** for the specified period and disaster.
7. **Print / Export:** - **After** you have **selected** the desired **option** at the **Save as** section, **click** on the **Print / Export** button. The IATS will display the following pop-up menu:

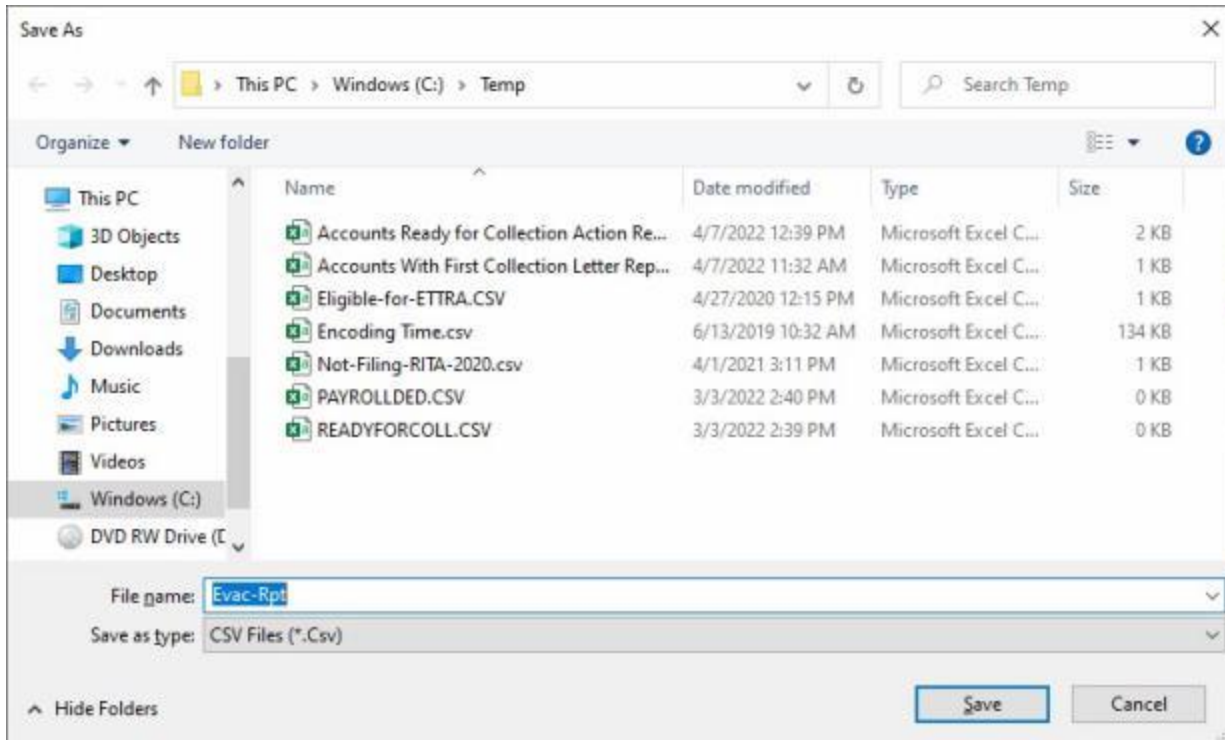

Excel

CSV

- **Export to Excel:** - If this option is selected, the **Export Report to Excel** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and **also name** the file.

- **Save as a CSV File:** - If this option is selected, the **Select CSV file** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and **also name** the file.

8. When **finished** generating and saving the Evacuation Report, **click** on the **Exit** button to **return** to the **System Administrator View** screen.

Examiner Accuracy - Report

To assist managers in assessing the **performance** of travel office **personnel**, IATS generates the **Examiner Accuracy Report**. This report provides detailed information regarding the total number of **claims processed**, the total number of claims **returned** back to the examiner for correction, the **accuracy** percentage, and the **reasons** why a claim was returned back to the examiner.

The **information** shown on the report **represents** the examiner's **accuracy** for the period specified.

 Complete the following steps to "generate" the Examiner Accuracy report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. Click on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Examiner Accuracy** option. The **Examiner Accuracy Report** screen appears.

Frozen Travelers - Report

A feature was added to IATS for situations where the traveler account was created incorrectly and claims have been processed. By using this feature you may keep the historical data for the claim, (unless the account was deleted), but **prevent** users from **accessing** the incorrectly created account again.

Another new feature was added to generate a report to identify all of the frozen accounts existing in the database.

 Complete the following steps to "generate" the Frozen Travelers report:

1. At the **System Administrator View** screen, click on the **plus sign** to the left of the word, "**Reports**".
2. Click on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Frozen Travelers** option. The **List Frozen Traveler Profiles** screen appears.

List Frozen Traveler Profiles

Report by SSN

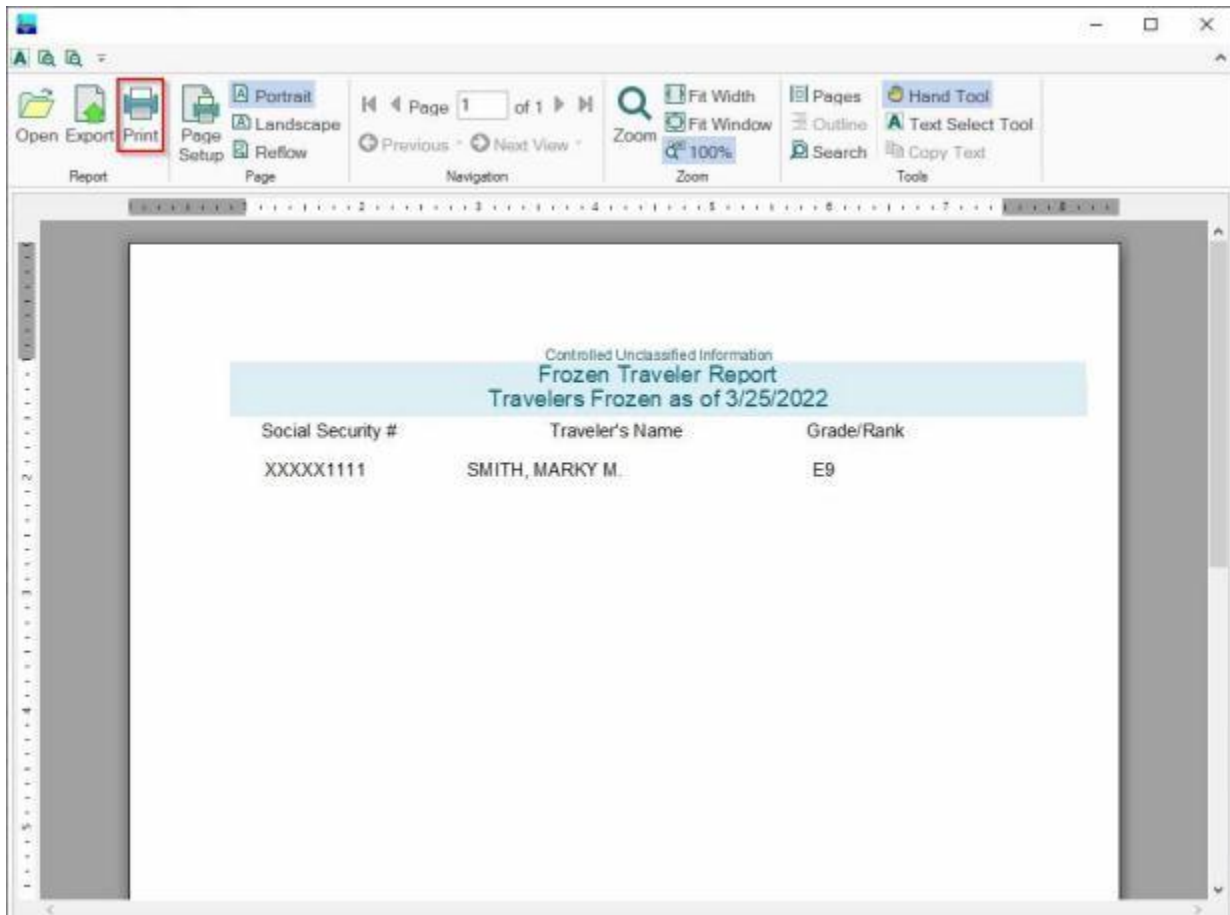

Report by Last Name

Print/Export Cancel ? Help

4. When running this report, you have the **option** to generate the report by either **SSNs** or **Last Names**.
5. **Click** in the **circle** next to the options **Report by SSN** or **Report by Last Name** to make your selection.
6. If you wish to have a **print-out** of the Frozen Travelers Report or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up* menu will appear allowing you to select **PDF** or **Excel**.

**Print:**

1. **Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

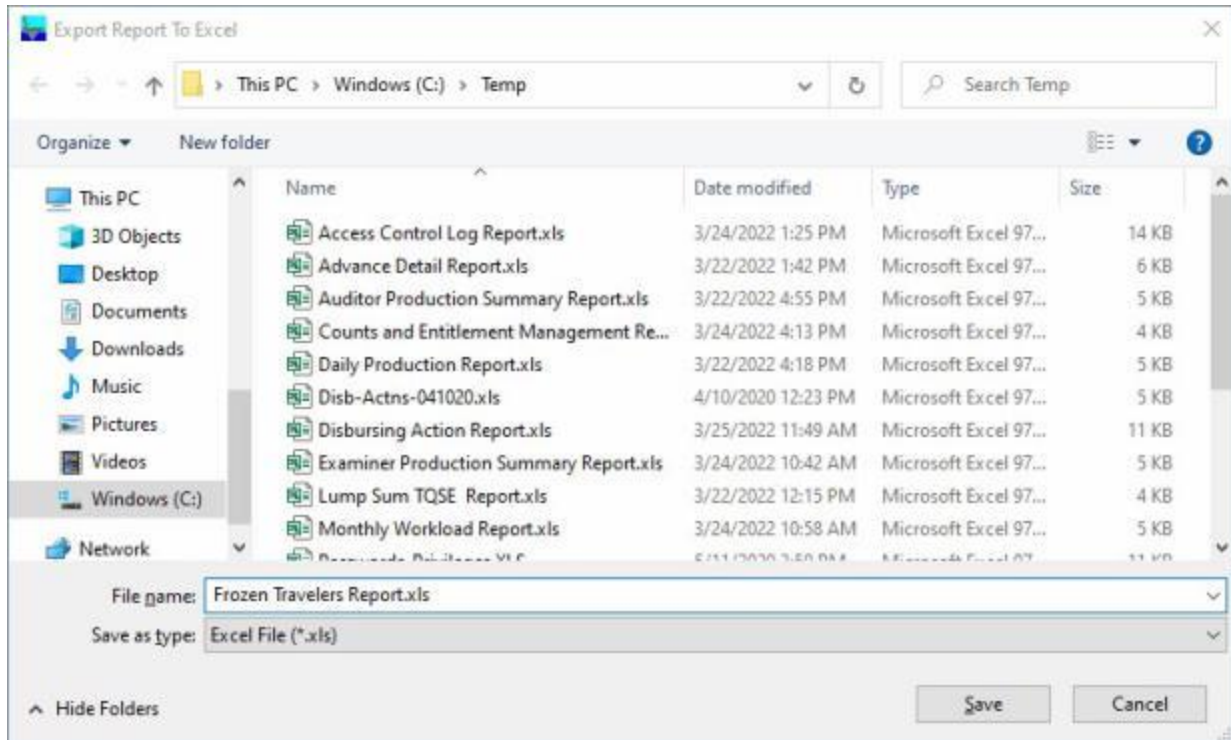

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are finished using the **Frozen Travelers Report** screen, **click** on the **Cancel** button to **return** to the **System Administrator View** screen.

Interface Activity Report

Based on the need to adequately respond to an **audit requirement**, (FISCAM IN-1.2.3), IATS was **modified** to **log** the use of **input** and **output** file-based **interfaces**.

 **Complete the following steps to "generate" the Interface Activity report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**".
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Interface Activity** option. The **Interface Activity Report** screen will appear.

4. **Type of Activity Report:** - The default value is **All**. If you wish to **change** the value, however, **click** in the circle next to the option for the **type** of report you wish to generate.
5. **Begin Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** to display the IATS **calendar**. Once the IATS calendar is displayed, users can adjust the **month** and **year** by **clicking** on the **left/right arrows** at the top of the calendar **screen**. The **day** can be selected by **clicking** on the desired **date** once the correct **month** and **year** have been selected.
6. **End Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** to display the IATS **calendar**. Follow the **instructions** explained in step (5) above if wishing to use the IATS **calendar** to adjust the **End** date.
7. **Include All Offices:** - The default value is **Checked**. **Click** in the **check box** to **un-check** this option if your organization's database contains **multiple offices** and you do not wish to generate the report for all of the offices.
8. After you have selected the Type of Report and the report Period, **click** on the **Print/Export** button if you wish to have a **print-out** of the Interface Activity Report or **save** it to an **Excel** file.

9. The following *pop-up menu* will appear allowing you to select **PDF** or **Excel**.

Print:

1. **Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. **Click** on the **Exit** button when you are **finished** using the **Interface Activity Report** screen.

Daily Production - Report

The Daily Production Report allows you to **report** the **number** of vouchers **logged, completed, returned, duplicated** or **deleted** from the system during the specified business day (starting/ending at 3:00PM).

 **Complete the following steps to "generate" the Settlement Detail report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**".
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Daily Production Report** option. The **Daily Production Report** screen will appear.

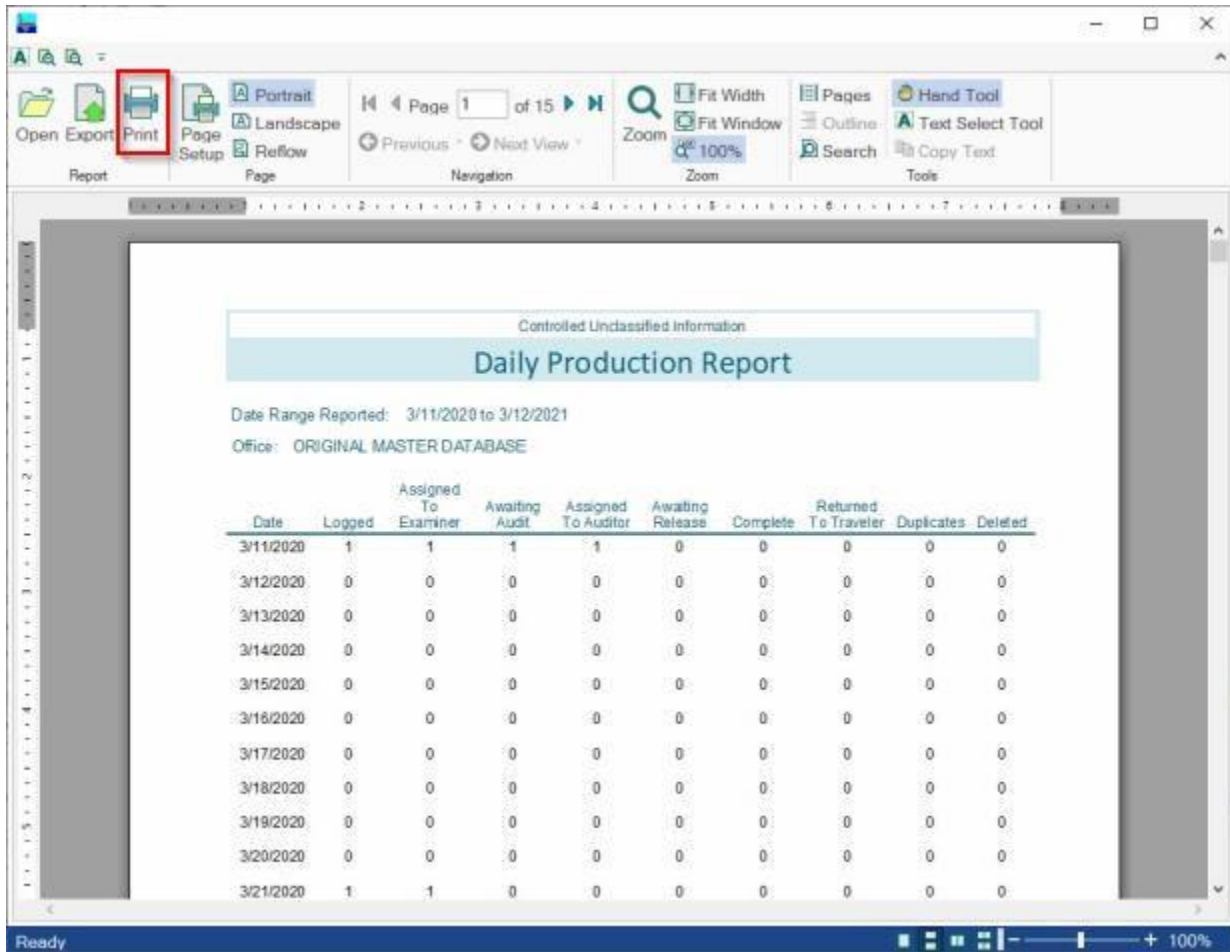

4. **Start Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format. You may also **click** on the **button** to display the calendar and then **click** on the desired **date**.
5. **End Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format. You may also **click** on the **button** to display the calendar and then **click** on the desired **date**.
6. **Offices:** - If you have access to multiple offices, **click** on the **office name** to make your selection.
7. If you wish to have a **print-out** of the **Daily Production Report** or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up* menu will appear allowing you to select **PDF** or **Excel**.

Print:

1. Click on the **PDF** option. The following **IATS Report Viewer** screen will appear displaying the results for selected **Start** and **End** dates.

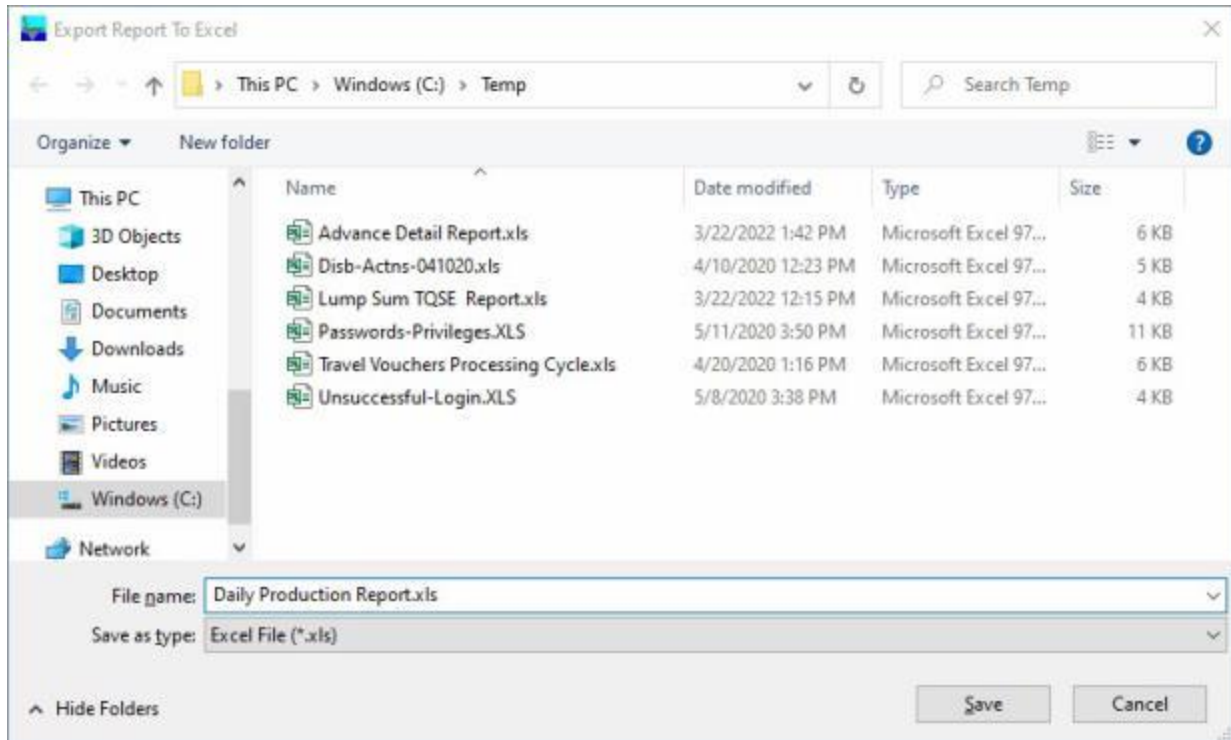

2. At the IATS Report Viewer screen, click on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are finished using the **Daily Production Report** screen, **click** on the **Exit** button to **return** to the **System Administrator View** screen.

DOV Deletion - Report

On occasion, it may be necessary to **delete** a **DOV** and **Payment Date** from an **Advance** or **Settlement Request** that was **processed** and **disbursed**.

A report was added to IATS that will list the DOV's and Dates of Payment from the IATS database.

 **Complete the following steps to "generate" the DOV Deletions Report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, **"Delete"**.
2. An expandable menu appears listing the various options.
3. **Click** on the **Deleted DOV Report** option. The **Deleted DOVs Report** screen will appear.

Deleted DOVs Report

The screenshot shows the 'Deleted DOVs Report' interface. It features a 'Search Criteria' section with two radio buttons: 'Detail ID' and 'Date Range'. The 'Date Range' option is selected. Below the radio buttons is an input field for 'Detail ID'. To the right is a 'Date Range' section with two dropdown menus: 'Start Date' (set to 7/1/2024) and 'End Date' (set to 7/15/2024). At the bottom, there are three buttons: 'Print / Export...' (highlighted with a mouse cursor), 'Close', and '? Help'.

Search Criteria:

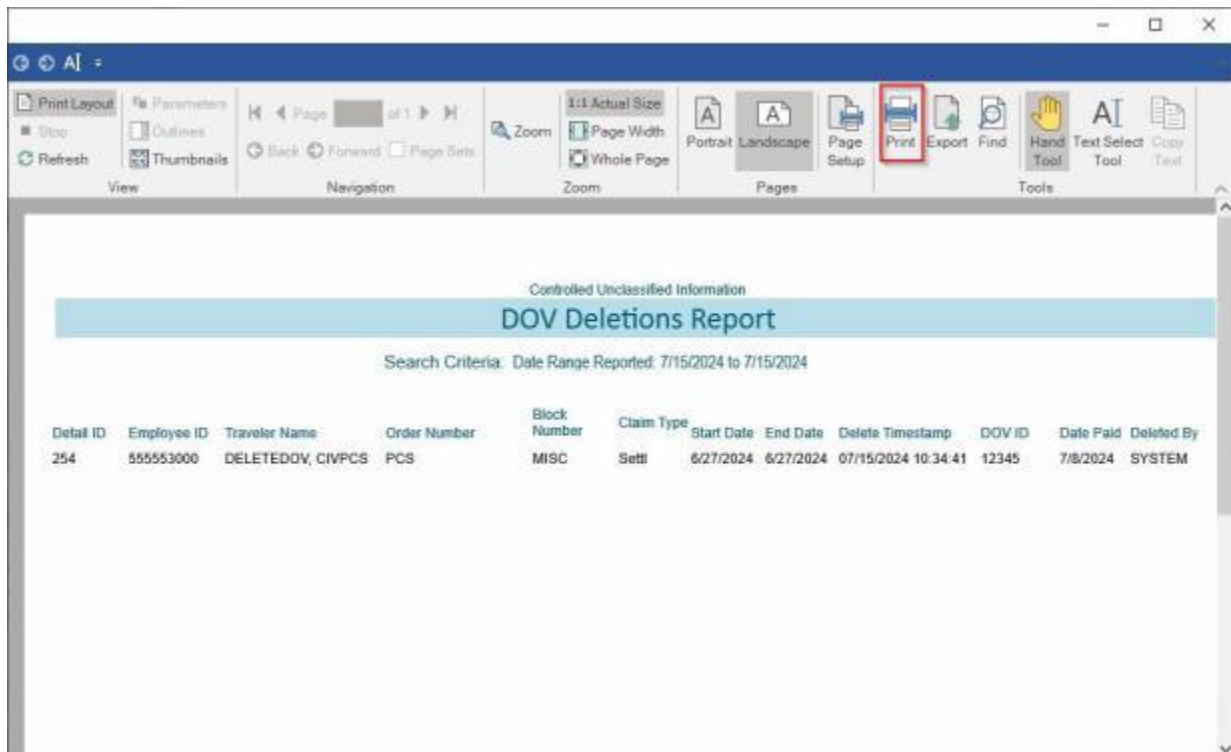

1. **Detail ID:** - At the **Search Criteria** section, **click** in the **radio button** to select **Detail ID** if you wish to generate the DOV Deletions Report for an **individual**. IATS will display an input field to enter the traveler's SSN or DoD ID.
2. **Date Range:** - At the **Search Criteria** section, **click** in the **radio button** to select **Date Range** if you wish to generate the DOV Deletions Report for a Date Range. IATS will display **Start Date** and **End Date** input fields. You would **enter** the **Start** and **End** dates in **MMDDYY** format or you can **click** on the *down arrow* button and use the **Date Picker** to select the date.

Print / Export:

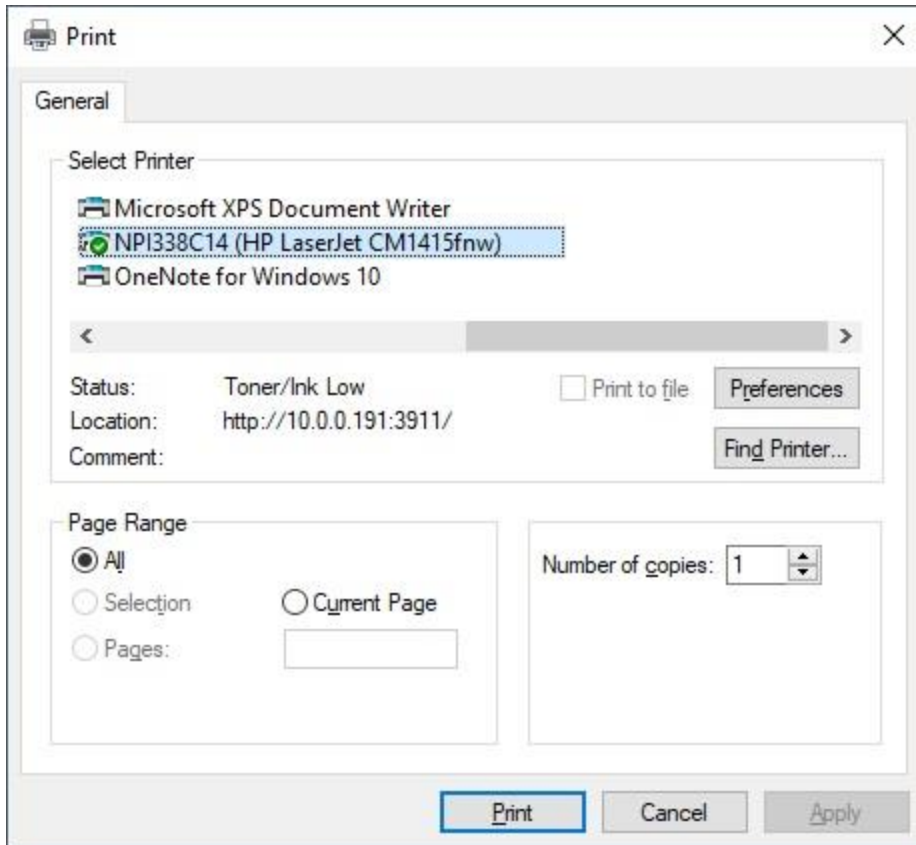

1. If you wish to have a **print-out** of the **DOV Deletions Report** or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up menu* will appear allowing you to select **PDF** or **Excel**.

**Print:**

1. **Click** on the **PDF** option. The following **PDF Report Viewer** screen will appear **displaying** the **DOV Deletions Report** for selected Search Criteria.

2. At the PDF Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the correct printer, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the top right corner of the PDF Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are finished using the **Deleted DOVs Report** screen, **click** on the **Close** button to **return** to the **System Administrator View** screen.

Disbursing Actions Report

IATS generates a **Disbursing Actions Report** that **displays** a variety of **information** pertaining to claims that were **uploaded** to disbursing, the information **imported** into IATS from the disbursing **download** files, and for **DOV numbers** that were manually posted.

 **Complete the following steps to "generate" the Disbursing Actions Report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**".
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Disbursing Actions Report** option. The **Disbursing Actions Report** screen will appear.

Note: The Disbursing Actions Report may be generated for one individual claim or for all of the claims within a **Date Range**. Either enter a claim number or a range for the **Start** and **End** dates.

4. **Claim Number:** - If you wish to generate the report for only one claim, **enter** the desired claim number.
5. **Location:** - At the Location field, **click** on the *down arrow* button to **select** a specific travel office if desired.
6. **Start Date:** - **Enter** the desired **Start Date** in **MMDDYY** format. You may also **click** on the *down arrow* button to display the **calendar** and then **click** on the desired **date**.
7. **End Date:** - **Enter** the desired **End Date** in **MMDDYY** format. You may also **click** on the *down arrow* button to display the **calendar** and then **click** on the desired **date**.
8. If you wish to have a **print-out** of the Disbursing Actions Report or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up menu* will appear allowing you to select **PDF** or **Excel**.

**Print:**

1. Click on the **PDF** option. The following **IATS Report Viewer** screen will appear.

The screenshot shows a software window titled 'IATS Report Viewer'. The window has a menu bar with 'File', 'Edit', and 'View'. Below the menu bar is a toolbar with various icons. The 'Print' icon is highlighted with a red box. The main area of the window displays a table of data. The table has a title 'Disbursing Actions Report from 1/1/2020 to 3/25/2022 for All Offices' and a subtitle 'Controlled Unclassified Information'. The table has columns for Claim #, Location ID, Block No., Upload Date, Upload User, Download Date, Download User, Net Amt, DOV, Check Date, Payment Type, and ReAppen. The table contains several rows of data, including rows for claim numbers 7, 48, 49, 50, and 65.

Claim #	Location ID	Block No.	Upload Date	Upload User	Download Date	Download User	Net Amt	DOV	Check Date	Payment Type	ReAppen
7	1	MILITARY05	2/20/2021	SYSTEM			\$8,193.45				N
7	1	MILITARY05	2/25/2021	SYSTEM			\$8,193.45				Y
48	1	NAVY	3/25/2021	SYSTEM			\$500.00				N
49	1	EVAC	2/26/2021	SYSTEM			\$1,014.24				N
49	1	EVAC	2/26/2021	SYSTEM			\$1,014.24				Y
50	1	CIVIC001	3/23/2021	SYSTEM	3/23/2021		\$5,886.33	2222222222	3/23/2021		N
65	1	PART1	8/12/2021	SYSTEM	8/12/2021		\$1,736.89	111222333	8/12/2021		N

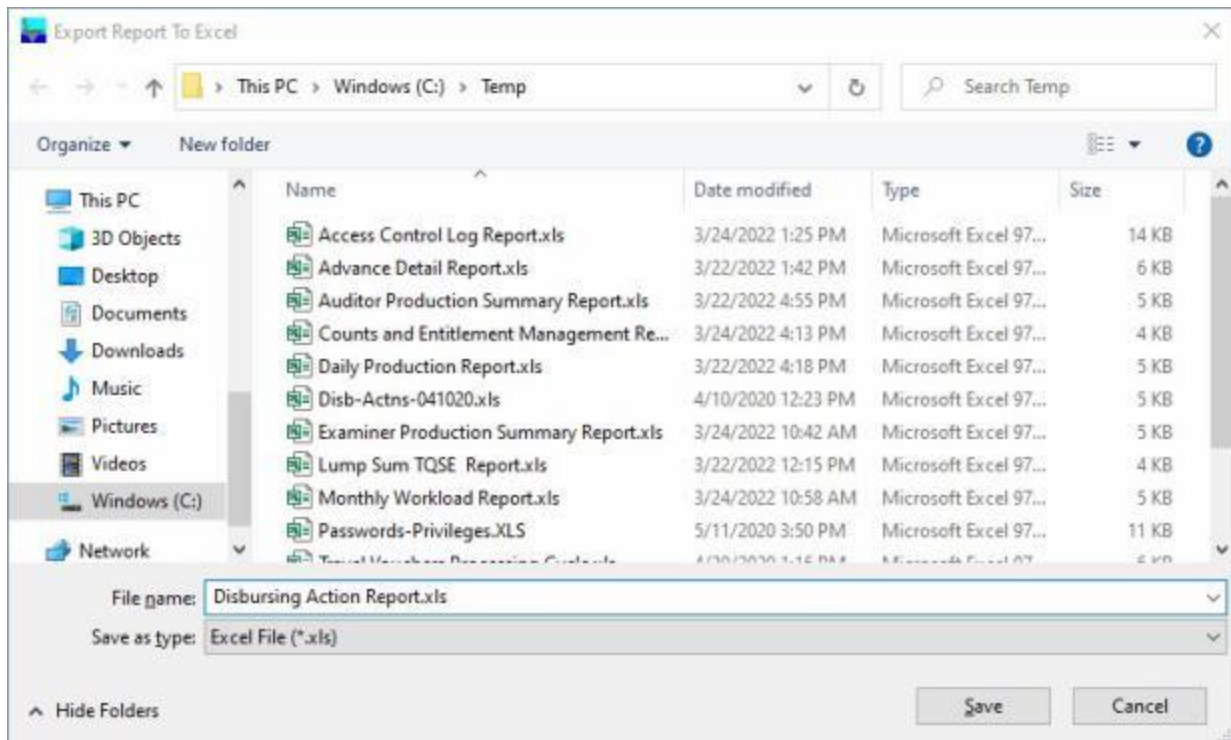

2. At the IATS Report Viewer screen, click on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are finished using the **Disbursing Actions Report** screen, **click** on the **Cancel** button to **return** to the **System Administrator View** screen.

EFT Rejects Report

A **feature** was added to IATS that allows the travel office to **generate a report** that contains details pertaining to **EFT transactions** that were **rejected** when the **download file** from the **disbursing** system was **processed**.

 Complete the following steps to "generate" the EFT Rejects Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word "**Reports**".
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **EFT Rejects Report** option. The **EFT Rejects Report** screen will appear.

4. **Order Type:** - At the Order Type section, **click** on the *down arrow* button to **display** a **list** of **order types** and then **click** on the desired type.
5. **Optional Inputs:** - At the **Optional Inputs** section, you may further **define** the results of the report.
6. **SSN:** - If desired, enter the traveler's **SSN**.
7. **# Days Outstanding:** - If desired, enter the number of days outstanding that you would like the report to reflect.
8. **Discharge Date Range:** - A date range was included because under certain circumstances traveler's are given a period of time after the discharge date to settle the advance. If desired, **enter** the traveler's discharge date range. You may either manually type in the dates in **MMDDYY** format or **click** on the *down arrow* button and use the **calendar** to select the dates.
9. If you wish to have a **print-out** of the **Outstanding Travel Advance Report** or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up* menu will appear allowing you to select **PDF** or **Excel**.

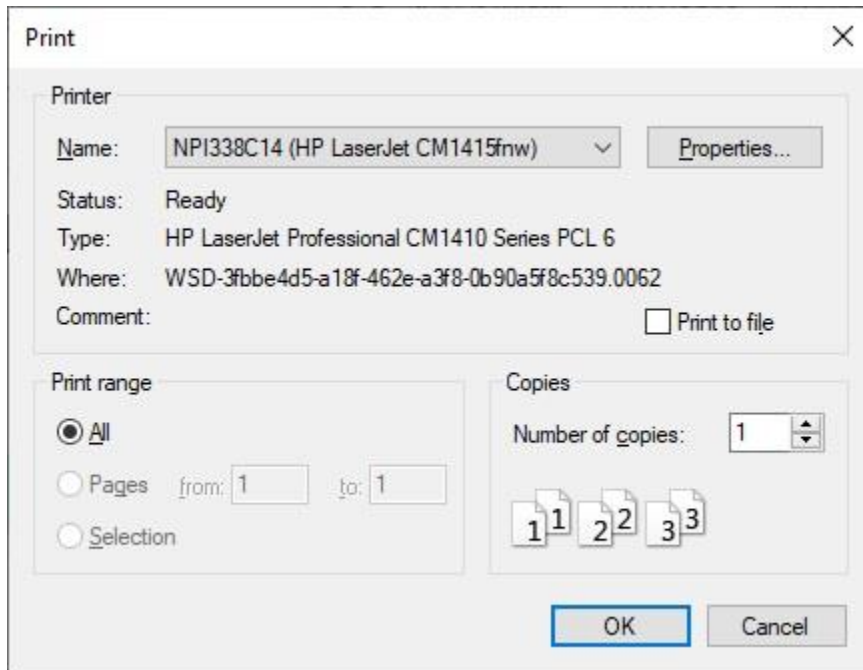

Print:

1. **Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

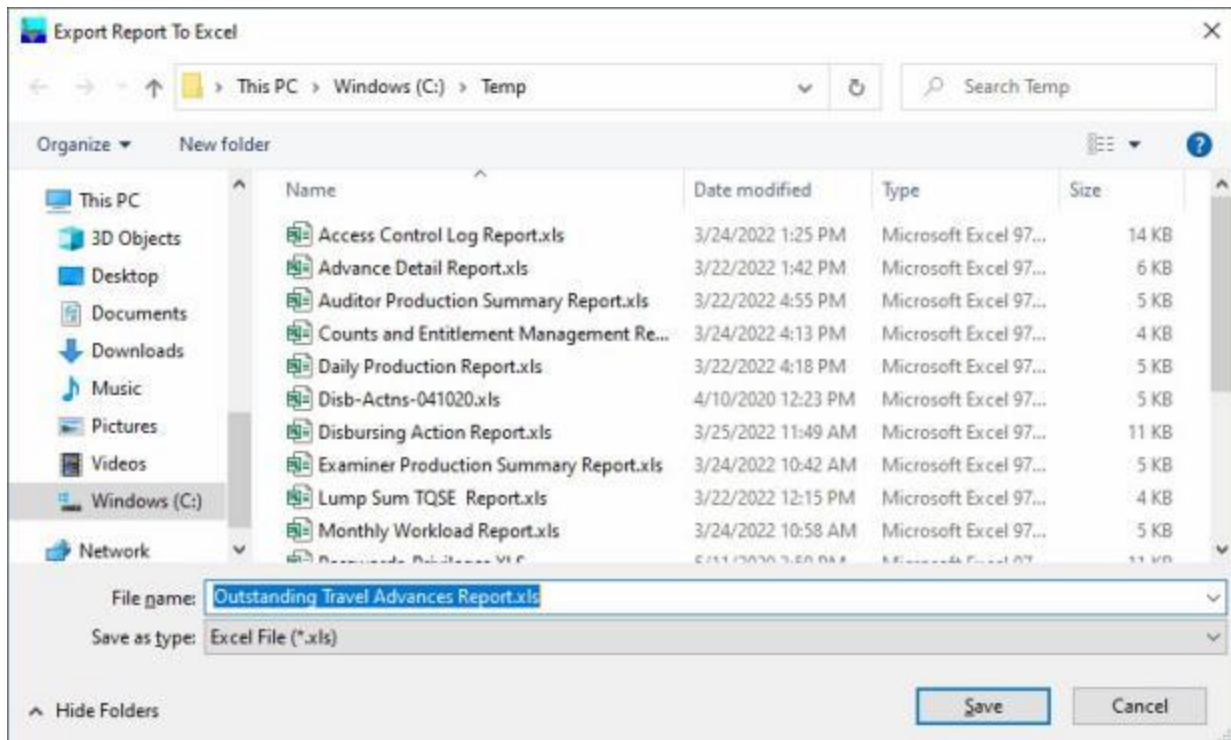

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the correct printer, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the top right corner of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are finished using the **Outstanding Travel Advance Report** screen, **click** on the **Close** button to **return** to the **System Administrator View** screen.

Liaison - Report

To assist managers in determining where **delays** in travel settlement requests processing occur, IATS generates the Reporting Unit Code (**RUC**) Report for **Marine Corps** travel offices. For **Army/DLA** travel offices, this report is named the **Liaison Office Report**.

The purpose of this report is to **track** the number of days required to **move** a settlement request **through** the **processing cycle**. Because settlement requests processed by these organizations are often **routed** through **liaison offices**, IATS tracks their movement from the **date signed** until the **date disbursed**.

Note: In order to use this report, the **parameter** for **Liaison Reports** at the [System Configuration](#) screen in **Maintenance** must be activated. In addition, users must also [establish](#) their **RUC/Liaison offices**.

 **Complete the following steps to "generate" the RUC/Liaison Office Report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Liaison** option. The **Liaison/RUC Report** screen appears.

Print / Export Exit ? Help

4. **Start Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** to display the IATS **calendar**. Once the IATS calendar is displayed, users can adjust the **month** and **year** by **clicking** on the **left/right arrows**

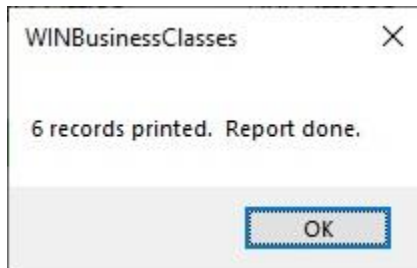

at the top of the calendar **screen**. The **day** can be selected by **clicking** on the desired **date** once the correct **month** and **year** have been selected.

5. **Last Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the *down arrow* to display the IATS **calendar**. Follow the **instructions** explained in step (3) above if wishing to use the IATS **calendar** to adjust the Ending date.
6. **Day Types:** - The default value at the Day Types field is **Calendar**. If you wish, however, to generate the Liaison Report based on work days, **click** the *down arrow* button and then **click** on the **Work** option.
7. **RUC/Liaison Unit/Office:** - The **default** value for this field is **All Offices**, users may generate this report for a **specific** office, however. To select a different office, **click** the *down arrow* to display a **list** of offices and then **click** on the desired **office** to make a selection.
8. Once the **Start/Ending** dates, plus the **office** have been specified, **click** on the **Print / Export** button if you wish to have a **print-out** of the Liaison /RUC Report or **save** it to an **Excel** file.
9. The following *pop-up menu* will appear allowing you to select **PDF** or **Excel**.

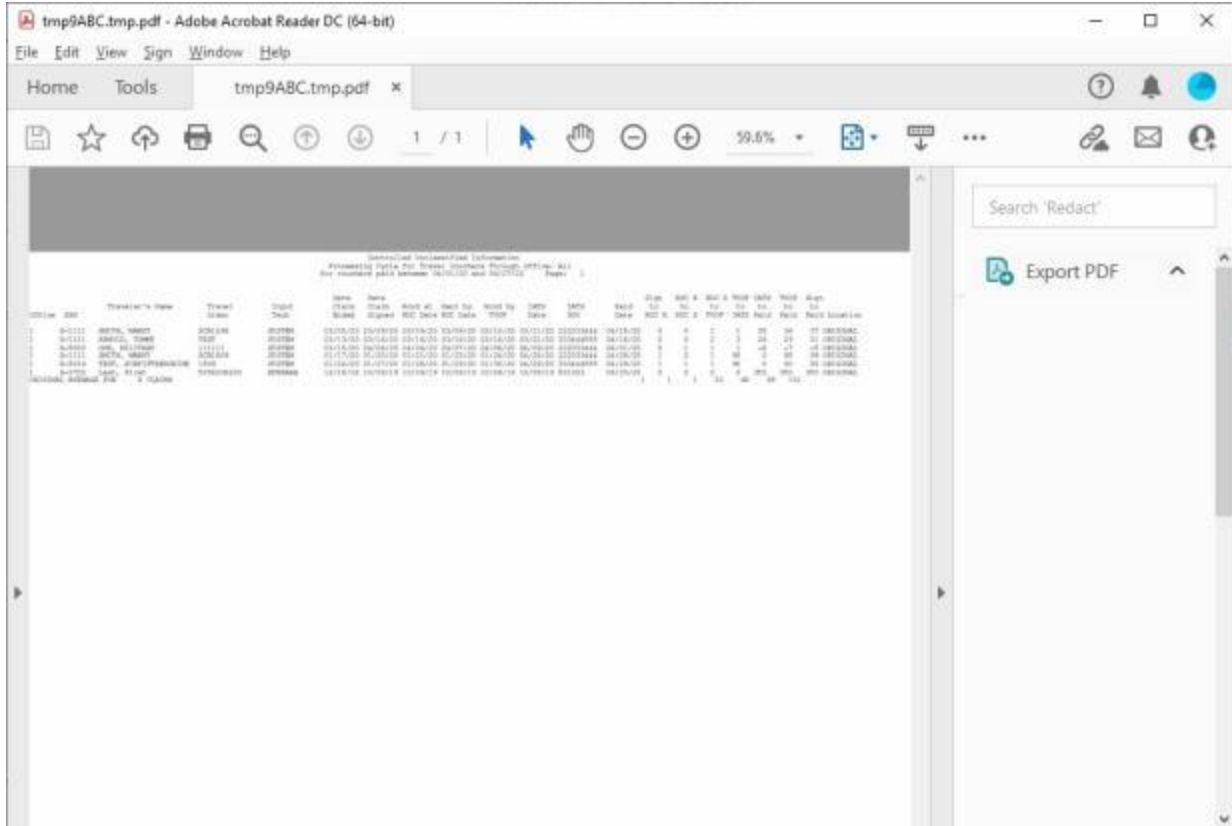

Print:

1. **Click** on the **PDF** option.
2. The following message will appear indicating that the report is done.

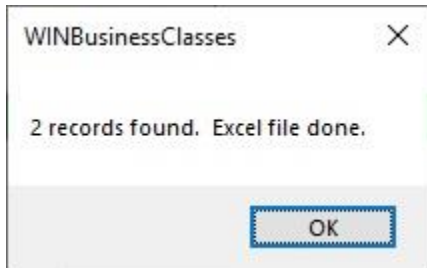

3. **Click** on **OK** to continue.
4. The **Adobe Reader** screen appears.

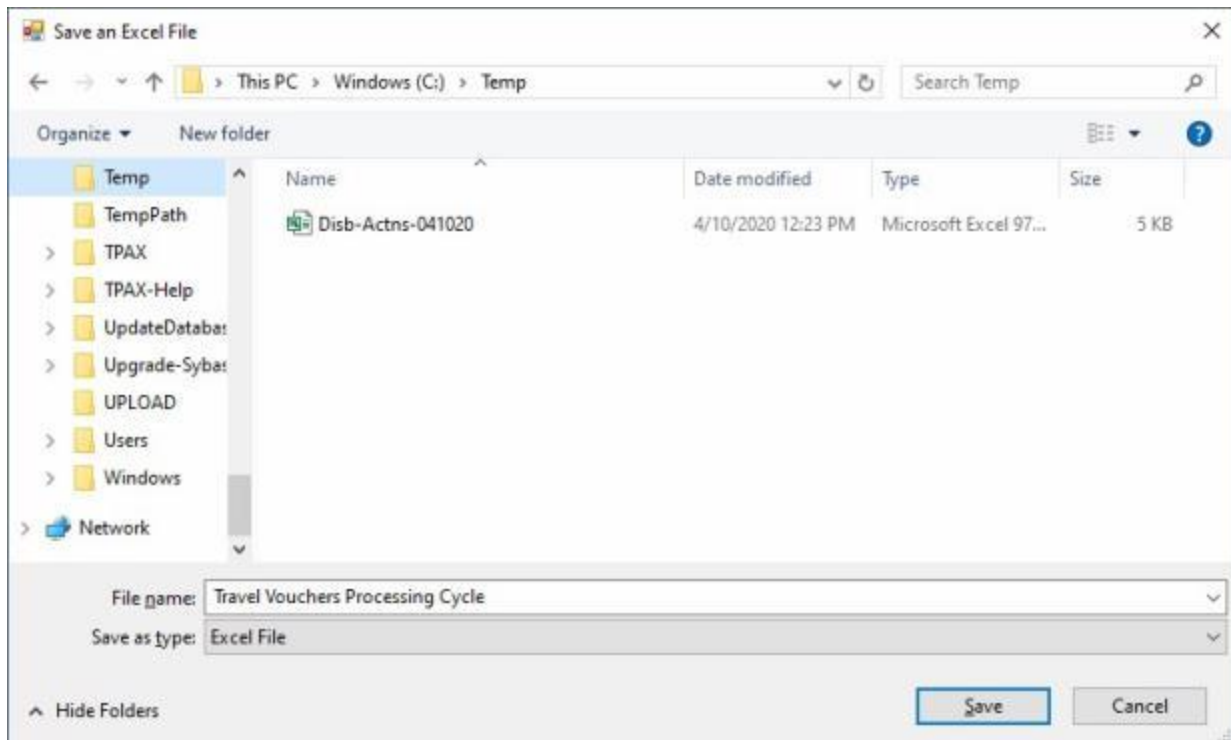

5. **Click** on the **Printer icon**. The **Print** screen appears.
6. **Verify** that the **PC is configured** for the **correct printer** or **make any necessary changes**.
7. **Select** the **number of copies** you wish to print and then **click** on the **Print** button.
8. IATS prints the report and returns to the **Adobe Reader** screen.
9. If you are finished using the **Adobe Reader**, **click** on the **red (X)** button in the top right corner to close the screen.

Export:

1. **Click** on the **Excel** option, the following message will appear indicating that the report is done.

2. **Click** on **OK** to continue. IATS will display the **Save an Excel File** screen.

3. At the **Save an Excel File** screen, **navigate** to the **drive/folder** where you to **save** the Excel file to.
4. The name "**Travel Vouchers Processing Cycle**" **defaults** to the **File name** field.
5. **Click** in the **File name** field and **enter** a **different name** for the file **if desired**.
6. Once you are **satisfied** with the **location** and **name** for the file, **click** on the **Save** button.
7. After clicking on the Save button, IATS **launches Excel** and **displays** the saved **report**.

The screenshot shows an Excel spreadsheet with the following data:

Office	SSN	Traveler's Name	Traveler Order	Input Tech	Date Claim	Date Claim Signed	Revid at RUC	Sent by RUC	Revid by TVDF	IATS Date	IATS DOV	Paid Date	Sign to RUC R

1	XXXX-1111	ARNOLD TOMMY	TEST	SYSTEM	03/13/2020	03/16/2020	03/16/2020	03/16/2020	03/18/2020	03/21/2020	33444555	04/16/2020	0
												AVERAGE R	0.0

8. When you are **finished** with the **Excel** spreadsheet, **click** on the **(X)** button in the **top right hand corner** to **close** the program.
9. IATS will return to the Liaison /RUC Report screen.
10. If you are **finished** using the Liaison /RUC Report screen, **click** on the **Exit** button.

Missing Payment Date or DOV - Report

To **identify** any **records** that must be corrected IATS provides the following report:

Missing Payment Date or DOV:

Note: Prior to creating the **magnetic file and IRS Form 6559**, it is strongly recommended that this **report** is generated first.

 Complete the following steps to "generate" the Missing Payment Date or DOV Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Missing Payment Date or DOV** option. The **Missing Payment Date or DOV** screen appears.

Missing Payment Date or DOV

Expected Payment Year 2022 All Years

All Order Types
 CIVPCS Orders
 All non-CIVPCS Orders

Paid Date Only

Print/Export Cancel ? Help

4. **Expected Payment Year:** - If the default year displayed at this field is incorrect, **click** the *down arrow* and then **click** on the desired **year** to make a **selection**.
5. **All Years:** - **Click** in the **check box** at the All Years field if you wish to generate the report for all tax years stored in the IATS database.
6. **All Order Types:** - **Click** in the **check box** next to this option if you wish to generate this report for all Order Types.
7. **CIVPCS Orders:** - **Click** in the **check box** next to this option if you wish to generate this report for **CIVPCS Orders** only.

8. **All non-CIVPCS Orders:** - Click in the **check box** next to this option if you wish to generate this report for all non-CIVPCS Orders.
9. **Paid Date Only:** Click in the **check box** if you wish to **activate** this option. A **check mark** appears in the **check box** when this option is activated. If you **activate** this option, IATS **generates** the report with an additional filter that **limits** the **data** to records that have no DOV, but a **Paid Date**.
10. After you have specified the year(s) and the order type, **click** on the **Print / Export** button if you wish to have a **print-out** of the **Missing Payment Date or DOV Report** or **save** it to an **Excel** or **CSV** file.
11. If you **click** on the **Print / Export** button, The following *pop-up* menu will appear allowing you to select **PDF**, **Excel** or **CSV**.

Print:

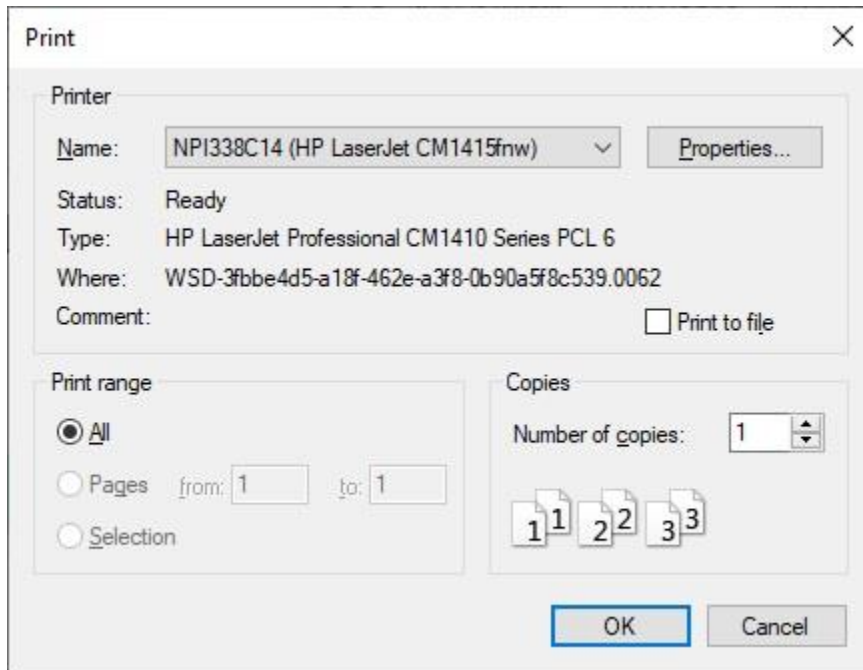

1. **Click** on the **PDF** option. A *pop-up message* will now appear asking if you want the SSN's to be **masked** on the report.
2. **Click** on *Yes* or *No* as desired. The following **IATS Report Viewer** screen will appear.

3. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
4. If you click on the **Print** icon, IATS will display the **Print** screen.

5. At the **Print** screen, **ensure** you are **connected** to the correct printer, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
6. **Click** on the **(X)** button at the top right corner of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option. A *pop-up message* will now appear asking if you want the SSN's to be **masked** on the report.
2. **Click** on *Yes* or *No* as desired. IATS will display the **Export Report to Excel** screen.

3. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
4. **Enter** the desired **name** for the file at the **File name** field.
5. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
6. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
7. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.

Create as CSV file:

1. **Click** on the **CSV** option. A *pop-up message* will now appear asking if you want the SSN's to be **masked** on the report.
2. **Click** on *Yes* or *No* as desired. IATS will display the **Export Report To CSV** screen.

3. At the **Export Report to CSV** screen, **navigate** to the **directory/folder** where you wish to the **save** the CSV file to.
4. **Enter** the desired **name** for the file at the **File name** field.
5. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
6. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
7. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
8. At the **Missing Payment Date or DOV** screen **click** on the **Cancel** button to return to the System Administrator (View) screen.

Monthly Workload - Report

In order to assist managers in assessing the performance of the entire travel office, IATS generates the **Monthly Workload Report**. This report provides detailed information regarding the **number of advance** or **settlement** requests processed within the entire office.

The information shown on this report **represents** the total production for the specified period.

 **Complete the following steps to "generate" the Monthly Workload report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Monthly Workload** option. The **Monthly Workload Report** screen appears.

Print Cancel ? Help

Enter the ending date for this report

Note: You will notice that the **default** dates at the **Date Start** and **Date End** fields will be the **current** date.

4. **Date Start:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** the **down arrow** button and use the **calendar** to select the desired date.
5. **Date End:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** the **down arrow** button and use the **calendar** to select the desired date.
6. Click on the **Print** button.

Other Funds Report

IATS will generate an **Funds Used Report** for **Coast Guard** customers to show what funds were used for a specific period.

The **Coast Guard Funds Used Report** screen is used to **generate** this report.

 Complete the following steps to "generate" the Funds Used Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**".
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Other Funds Report** option. The **Coast Guard Funds Used Report** screen will appear.

Note: You will notice that the **default** dates at the **Date Start** and **Date End** fields will be the **current** date.

4. **Date Start:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** the **down arrow** button and use the **calendar** to select the desired date.
5. **Date End:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** the **down arrow** button and use the **calendar** to select the desired date.
6. **Click** on the **Print** button.

Post Audit Summary - Report

IATS **generates** a **report** identifying claims that were randomly selected for a post disbursement audit based on the dollar amount parameters established in the Maintenance module.

Note: In order to generate this report, you must activate the Post Audit option in the Maintenance module.

 **Complete the following steps to "generate" the Post Audit Summary report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Post Audit Summary** option. The **Post Payment Audit Report** screen appears.

4. **Month:** **Click** on the *down arrow* and then **click** on the desired **month**.
5. **Year:** **Click** on the *down arrow* and then **click** on the desired **year**.
6. **Click** the **Print** button. A *pop-up message* appears stating the report is done and then the **Adobe Reader** screen appears.
7. **Click** on the **Printer icon**. The **Print** screen appears.
8. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
9. **Select** the **number of copies** you wish to print and then **click** on the **Print** button.
10. IATS prints the report and returns to the **Adobe Reader** screen.
11. If you are finished using the **Adobe Reader**, **click** on the **red** button in the top right corner to close the screen.
12. At the **Post Payment Audit Report** screen **click** on the **Close** button to return to the System Administrator (View) screen.

RAN Report

IATS will generate a **RAN Report** for **Coast Guard** customers to show what RAN codes were used for a specific period.

The **Coast Guard RAN Report** screen is used to **generate** this report.

 Complete the following steps to "generate" the RAN Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Reports**".
2. **Click** on the **plus sign** to the **left** of the word, "**Management Reports**". An **expandable menu** appears listing the various management report options.
3. **Click** on the **RAN Report** option. The **Coast Guard RAN Report** screen will appear.

Note: You will notice that the **default** dates at the **Date Start** and **Date End** fields will be the **current** date.

4. **Date Start:** - If the **default date** displayed at this field is **incorrect**, **type** the desired **date** in **MMDDYY** format or **click** the **down arrow** button and use the **calendar** to select the desired date.
5. **Date End:** - If the **default date** displayed at this field is **incorrect**, **type** the desired **date** in **MMDDYY** format or **click** the **down arrow** button and use the **calendar** to select the desired date.
6. **Click** on the **Print** button.

Returned Claim - Report

The **Returned Claim Report** screen is used to generate a **report** for travel claims that have been **returned** to the traveler.

 Complete the following steps to "generate" the Returned Claim report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**".
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Returned Claims** option. The **Returned Claim Report** screen will appear.

4. **Start Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format.
5. **End Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format.

Note: If you **click** on the *down arrow* button at either the **Start** or **End Date** field, a **calendar** appears that allows you to select a different **month**, **date**, or **year**.

6. **Order Types:** - At the **Order Types** field, **click** on the *down arrow* to display a list of various order types and then **click** on the desired type.
7. After selecting the correct Start/End dates and the order type, **click** on the **Run Report** button.
8. If you wish to have a **print-out** of the Returned Claim Report or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up menu* will appear allowing you to select **PDF** or **Excel**.

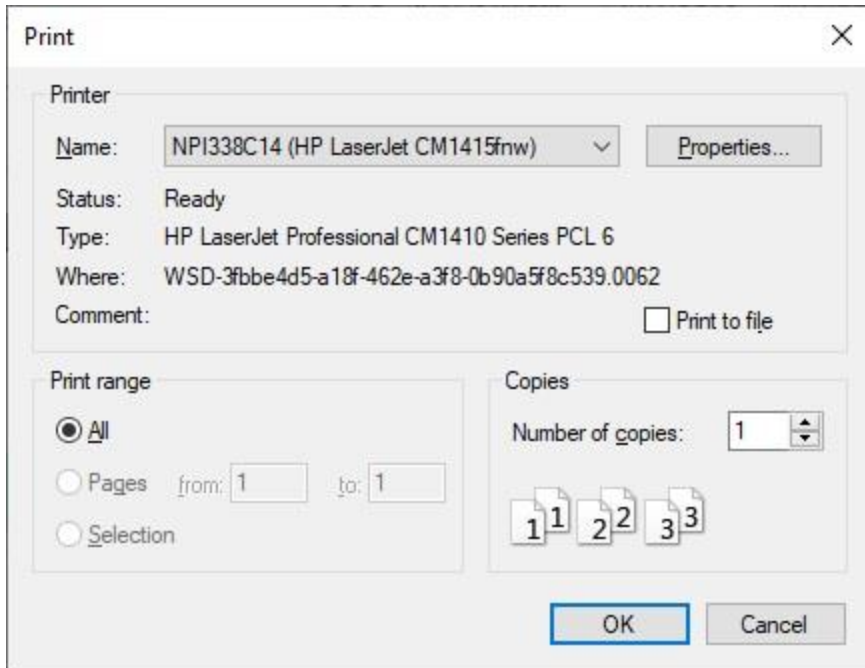

Print:

1. Click on the **PDF** option. The following **IATS Report Viewer** screen will appear.

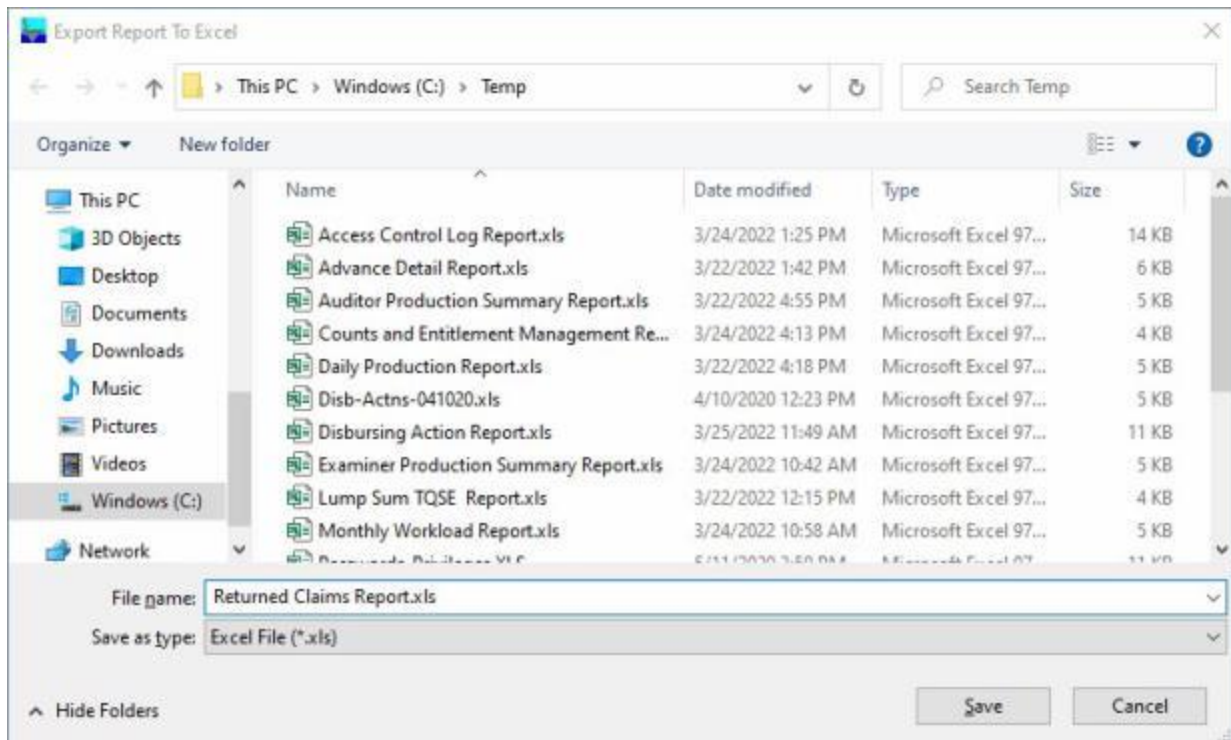

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are finished using the **Returned Claim Report** screen, **click** on the **Cancel** button to **return** to the **System Administrator View** screen.

Settlement Detail - Report

Periodically some customers are required to provide **settlement claim information** for a specific period of time. The **Settlement Detail Report** screen is used to generate this information.

 Complete the following steps to "generate" the Settlement Detail report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**".
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Settlement Detail** option. The **Settlement Detail Report** screen will appear.

4. **Start Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** button and use the **calendar** to select the desired date.
5. **End Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** button and use the **calendar** to select the desired date.
6. If you wish to have a **print-out** of the Settlement Detail Report or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up menu* will appear allowing you to select **PDF** or **Excel**.

Print:

1. Click on the **PDF** option. The following **IATS Report Viewer** screen will appear.

Prompt Payment Interest - Report

IATS provides a **report** that will **calculate** and then **print** the **interest expense** for all claims that were **paid over 30 days** after the Authorizing Official **signed** the claim. The **Prompt Payment Interest Report** screen is used to generate this report.

There are **two Maintenance** requirements that **must** be performed in order to **generate** this report:

- The **parameter** for **Liaison Reports** at the [System Configuration](#) screen **must** be **activated**.
- A **check mark** **must** appear in the check box at the **Activate Prompt Payment Interest Payments** field on the [Prompt Payment Act Configuration](#) screen.

 **Complete the following steps to "generate" the Prompt Payment Interest report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Reports**". An **expandable menu** appears listing the various report options.
2. **Click** on the **plus sign** to the **left** of the word, "**Management Reports**". An **expandable menu** appears listing the various management report options.
3. **Click** on the **Prompt Payment Interest** option. The **Prompt Payment Interest Report** screen appears.

Prompt Payment Interest Report

Start Date: 1/1/2019

Amount Types: All

Last Date: 4/27/2022

Liaison Unit/RUC Office: All Offices

Print / Export Exit ? Help

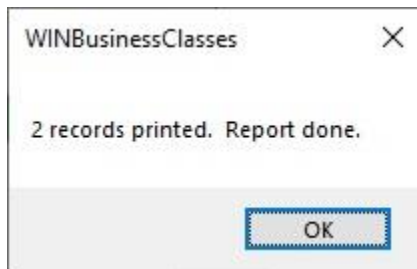

4. **Start Date:** - If the **default date** displayed at this field is **incorrect**, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** to display the IATS **calendar**. Once the IATS calendar is displayed, you can adjust the **month** and **year** by **clicking** on the **left/right arrows** at the **top** of the calendar **screen**. The **day** can be selected by **clicking** on the desired **date** once the correct **month** and **year** have been selected.

5. **Last Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the *down arrow* to display the IATS **calendar**. Follow the **instructions** explained in step (4) above if wishing to use the IATS **calendar** to adjust the **Last date**.
6. **Amount Types:** - The default type is **All**. If you wish to **change** the type, **click** on the *down arrow* button to display a **list** of types and then **click** on the desired type.
7. **RUC/Liaison Unit/Office:** - The **default** value for this field is **All Offices**, users may generate this report for a **specific** office, however. To select a different office, **click** the *down arrow* to display a **list** of offices and then **click** on the desired **office** to make a selection.
8. Once the **Start/Last** dates, plus the **amount type** and **office** have been specified, **click** on the **Print / Export** button if you wish to have a **print-out** of the Prompt Payment Interest Report or **save** it to an **Excel** file.
9. The following *pop-up menu* will appear allowing you to select **PDF** or **Excel**.

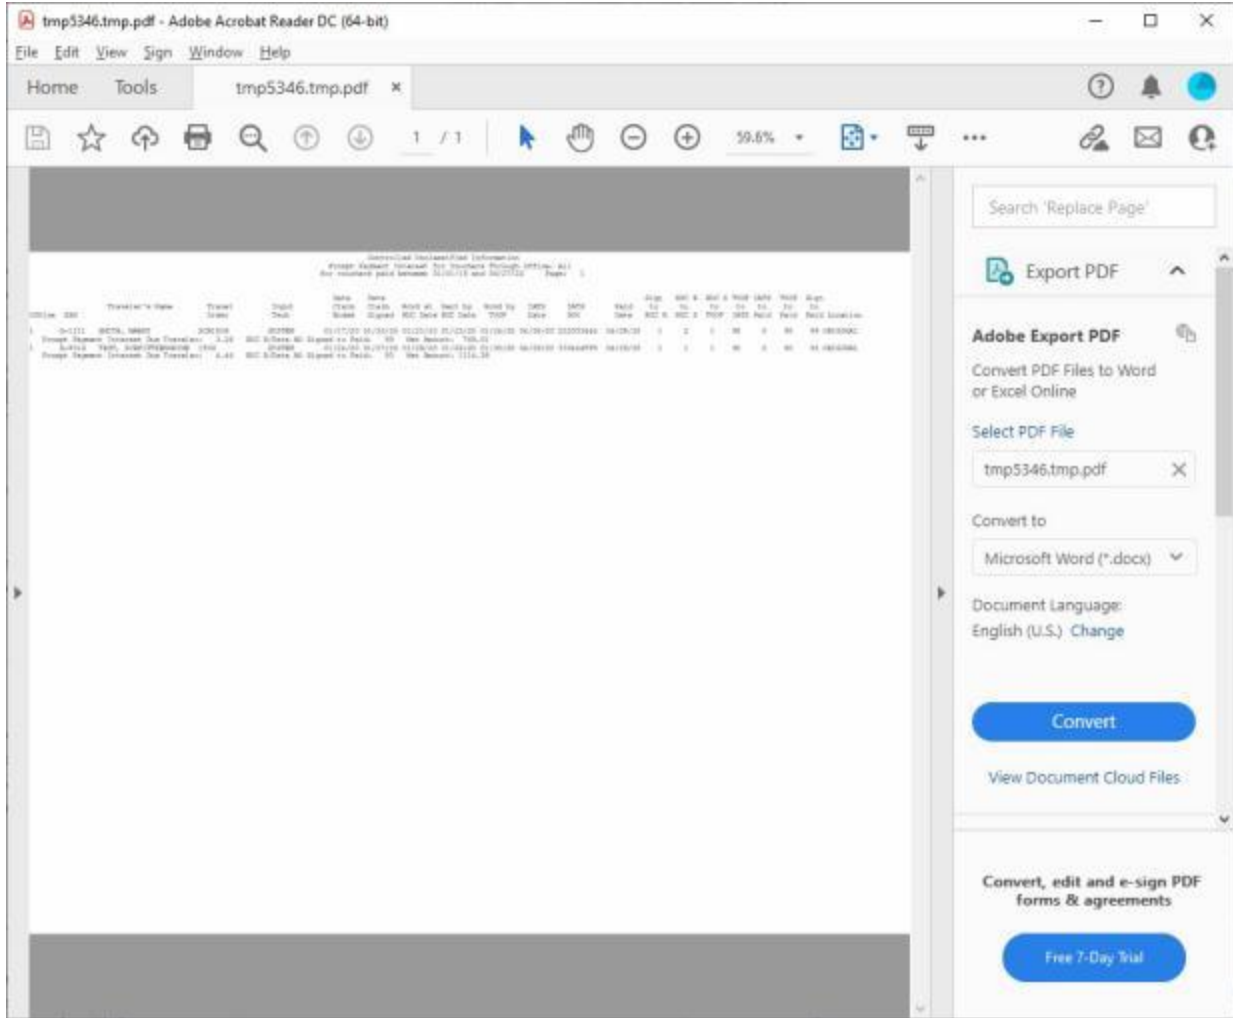

Print:

1. **Click** on the **PDF** option.
2. The following message will appear indicating that the report is done.

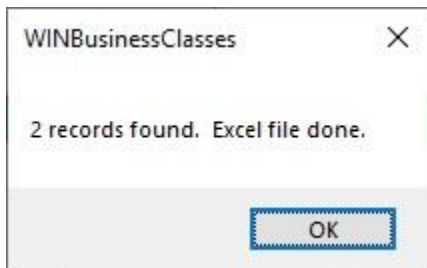

3. **Click** on **OK** to continue.
4. The **Adobe Acrobat Reader** screen will appear **displaying** the report screen appears.

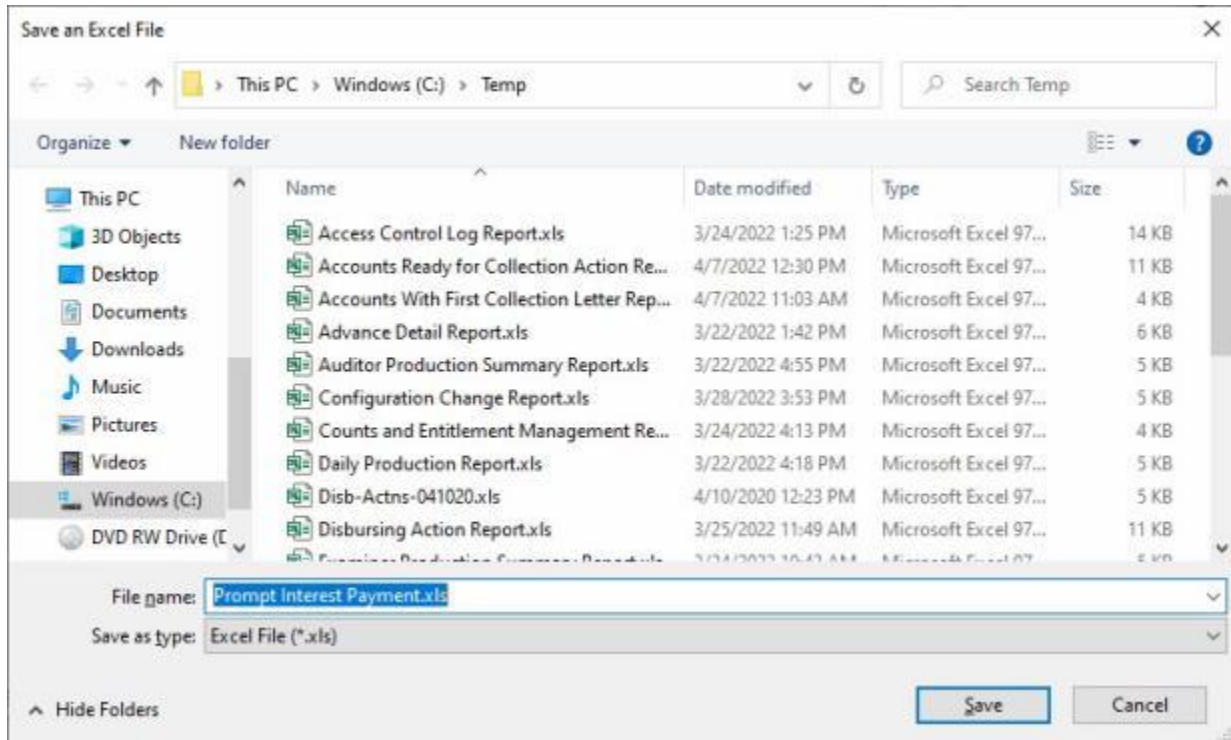

5. At the **Adobe Acrobat Reader** screen, you may **print** the report by **clicking** on the **printer icon**.
6. You may also **save** the report by **clicking** on the **File** menu and then **clicking** on the **Save As** option.
7. When you are **finished** using the **Adobe Acrobat Reader** screen, **click** on the **(X)** button in the **top right corner** or **click** on the **File** menu and then **click** on the **Close** option.
8. IATS will **return** to the **Prompt Payment Interest Report** screen.

Export:

1. **Click** on the **Excel** option, the following message will appear indicating that the report is done.

2. Click on **OK** to continue. IATS will display the **Export Report to Excel** screen.

3. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
4. **Enter** the desired **name** for the file at the **File name** field.
5. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
6. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
7. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
8. If you are **finished** using the **Prompt Payment Interest Report** screen, **click** on the **Exit** button to **return** to the **System Administrator View** screen.

SORT Report

"For Navy Configuration Only".

NAVY travel processing locations provide it's headquarters (NPPCS) with a Status of Resources and Training System Report for Travel claims (**SORTS Travel**) processed. This report is provided on a **monthly** basis, providing data from a normal work week, considering weekends and national holidays as non work days. This report is formatted as an **Excel** spread sheet columnar by work day providing the number of claims on hand from the previous workday, the number of claims received for each work day, the number of claims returned for each workday, the number of claims processed for each workday, total claims on hand at the end of each workday, and the average working days to release a claim for payment for each workday.

This report has always been prepared **manually** requiring countless numbers of man-hours.

For this reason, we have added the capability of generating this report into IATS.

 **Complete the following steps to "generate" SORT" report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**".
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **SORT Report** option. The **IATS SORT Report** screen will appear.

4. **Month:** - If the default month displayed at this field is incorrect, **click** the **down arrow** and then **click** on the desired **month** to make a **selection**.
5. **Year:** - If the default year displayed at this field is incorrect, **click** the **down arrow** and then **click** on the desired **year** to make a **selection**.
6. **Click** on the **Print/Export** button if you wish to have a **print-out** of the **IATS Sort Report** or **save** it to an **Excel** file.
7. The following **pop-up menu** will appear allowing you to select **PDF** or **Excel**.

Print:

1. Click on the **PDF** option. The following **IATS Report Viewer** screen will appear.

Daily Backlog	Claims Forwarded	Claims Received	Claims Returned	Claims Deleted	Claims Processed	Claims on Hand	Working Date	Calendar Days
Prev Month								
Sun 05/01	4	0	0	0	0	4	23-Apr	0
Mon 05/02	4	0	0	0	0	4	23-Apr	0
Tue 05/03	4	0	0	0	4	0	23-Apr	376
Wed 05/04	0	0	0	0	0	0		0
Thu 05/05	0	0	0	0	0	0		0
Fri 05/06	0	0	0	0	0	0		0
Sat 05/07	0	0	0	0	0	0		0
Sun 05/08	0	0	0	0	0	0		0

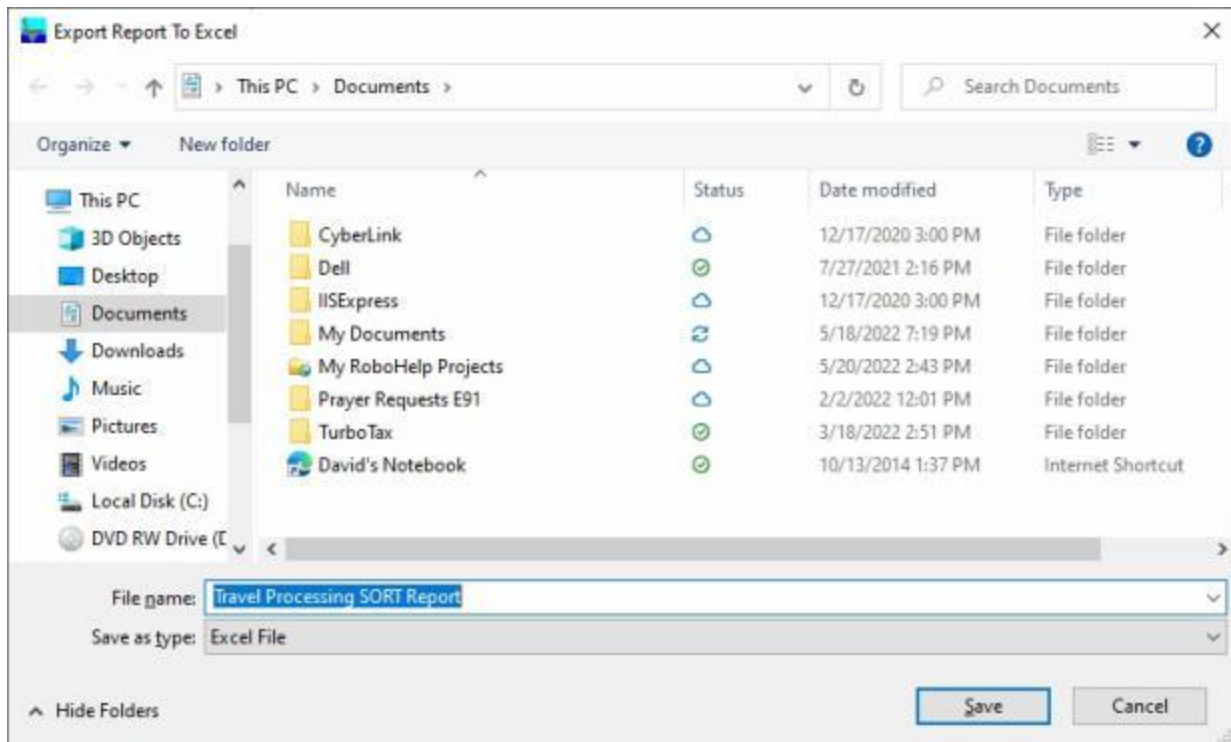

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When **finished** using the SORT Report screen, **click** on the **Close** button to **return** to the **System Administrator View** screen.

Reason for Supplemental - Report

DFAS is trying to properly **identify** the **purpose** of **supplemental claims** being processed. They would like to identify the purpose as being either a correction by the Travel Office or additional information provided by the traveler.

The **Reasons for Supplemental** screen is used to generate a **report** that specifies whether the supplemental claim was generated by the **Travel Office**, by the **Traveler**, or for some **other** reason.

 **Complete the following steps to "generate" the Reasons for Supplemental report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Reasons for Supplemental** option. The **Reasons for Supplemental** screen appears.

Reasons for Supplemental

Travelers with Invalid Bank RTN's - Report

A new report was added to IATS that generates a print-out of traveler's that have an invalid bank routing number entered into their profile.

 Complete the following steps to "generate" the Travelers with Invalid Bank RTN's Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Reports**". An **expandable menu** appears listing the various report options.
2. **Click** on the **plus sign** to the **left** of the word, "**Management Reports**". An **expandable menu** appears listing the various management report options.
3. **Click** on the **Travelers with Invalid Bank RTN's** option. The **Travelers with Invalid Bank Routing Numbers** screen appears.

4. If you wish to have a **print-out** of the **Travelers with Invalid Bank Routing Numbers Report** or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up* menu will appear allowing you to select **PDF** or **Excel**.

Print:

1. **Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

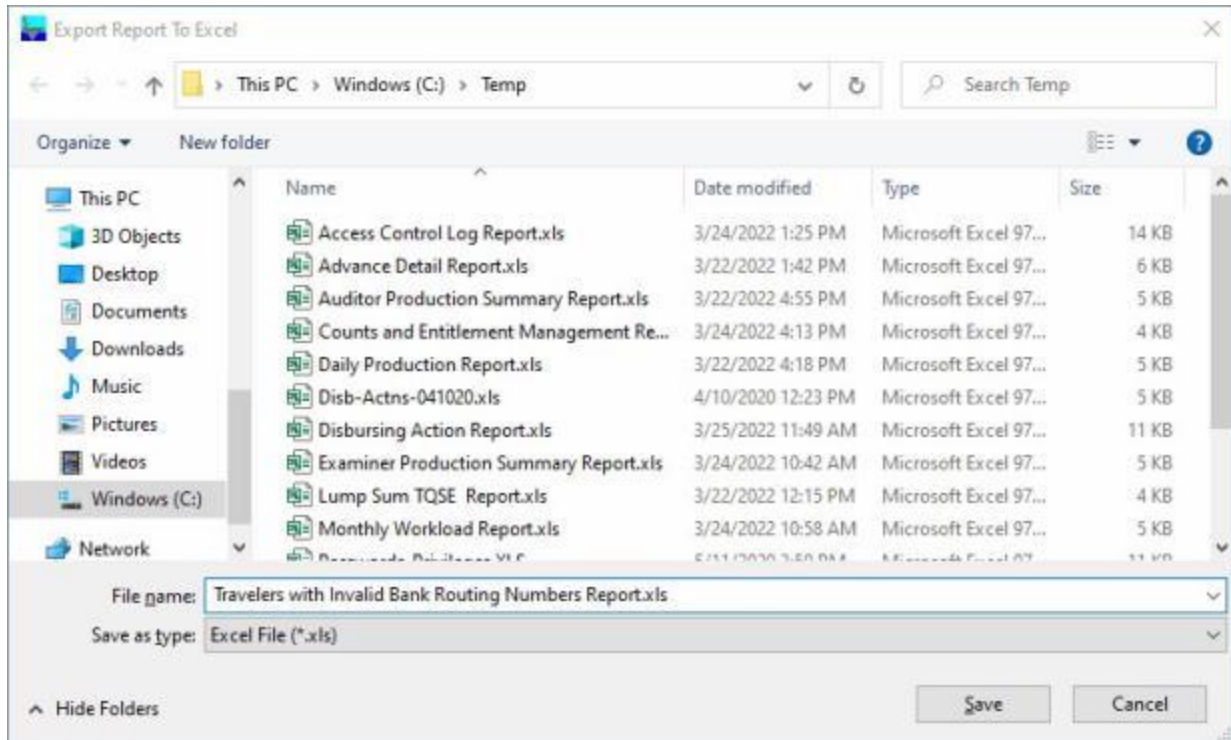

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are finished using the **Travelers with Invalid Bank Routing Numbers Report** screen, **click** on the **Exit** button to **return** to the **System Administrator View** screen.

Changed Order Number Report

A **feature** was added to IATS that will allow a **voucher examiner** the ability to **change** the **number** of a **travel order** that has already been created and **exists** in the IATS database.

A **new report** was added to IATS that **provides** the specific details about travel order numbers that were changed.

 Complete the following steps to "generate" the Changed Order Number report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Travel Order Number Change Report** option. The **Changed Order Number Report** screen appears.

SSN	Last Name	First Name	Original	New	Date Changed	User ID
XXX-XX-1111	MANN	CIVILIAN O	TDY2	TDY1	2022/09/12	SYSTEM

4. **Start Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** button and use the **calendar** to select the desired date.
5. **End Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** button and use the **calendar** to select the desired date.
6. After the **Starting** and **Ending** dates are specified, **click** the Retrieve Records button. IATS will **display all** of the records for any order numbers that were **changed** for the specified date range.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are finished using the **Changed Order Number Report** screen, **click** on the **Done** button to **return** to the **System Administrator View** screen.

VIP Tracking - Report

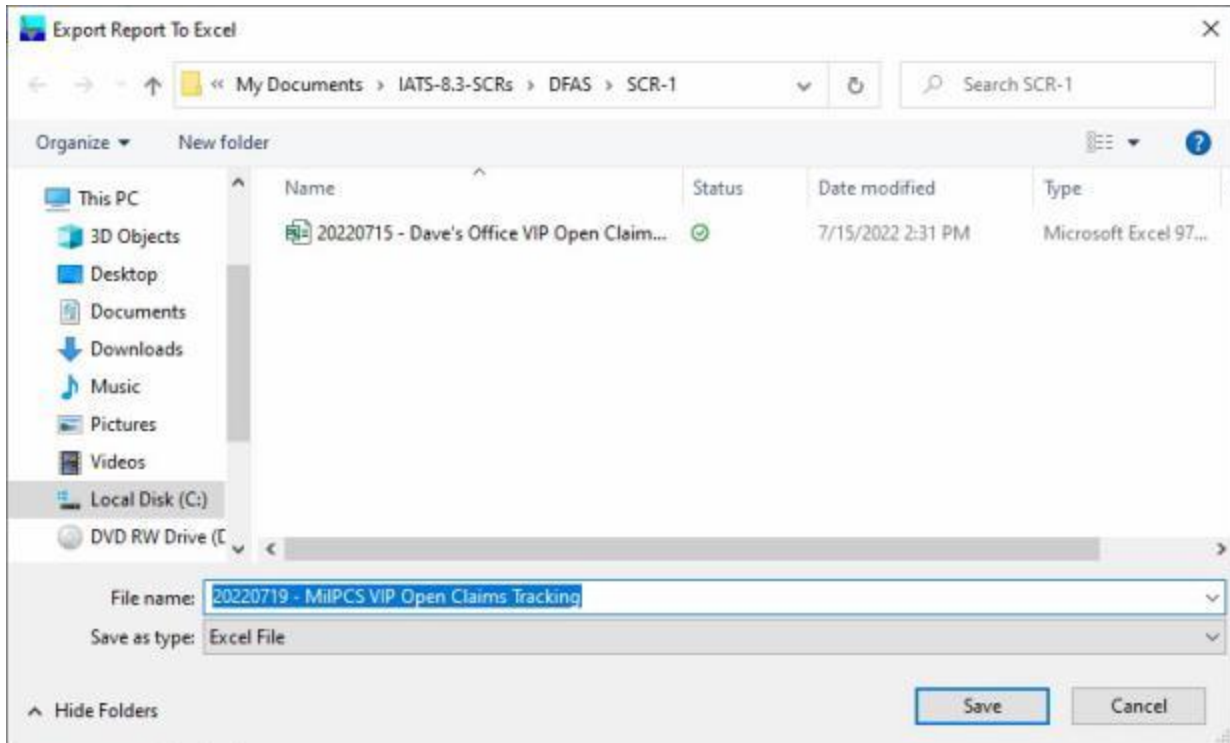

A new **VIP Tracking Report** was added to IATS that is able to **generate a daily output of open claims** with a **VIP status**.

 Complete the following steps to "generate" the **VIP Tracking Report**:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Reports**". An **expandable menu** appears listing the various report options.
2. **Click** on the **plus sign** to the **left** of the word, "**Management Reports**". An **expandable menu** appears listing the various management report options.
3. **Click** on the **VIP Tracking Report** option. The **Office Name** screen appears.

4. At the **Office Name** screen, **click** on the **down arrow** button to **display** a **drop down list** of office names.
5. **Click** on the desired **office name** to make your selection.
6. After selecting the desired office name, **click** on the **OK** button. IATS will display the **Export Report to Excel** screen.

7. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
8. **Enter** the desired **name** for the file at the **File name** field.
9. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
10. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
11. **Click** on the **(X)** button at the top right corner of the **Excel** screen displaying the report to **close** the screen when you are finished.

Voucher Production - Report

In order to assist managers in assessing the current **status** of the settlement **workload** within the travel office, IATS generates a **Voucher Production Report**. This report provides detailed information regarding the **status** of settlement **requests** in the varying processing phases.

 Complete the following steps to "generate" the Voucher Production report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Reports**". An **expandable menu** appears listing the various report options.
2. **Click** on the **plus sign** to the **left** of the word, "**Management Reports**". An **expandable menu** appears listing the various management report options.
3. **Click** on the **Voucher Production** option. The **Voucher Production Report** screen appears.

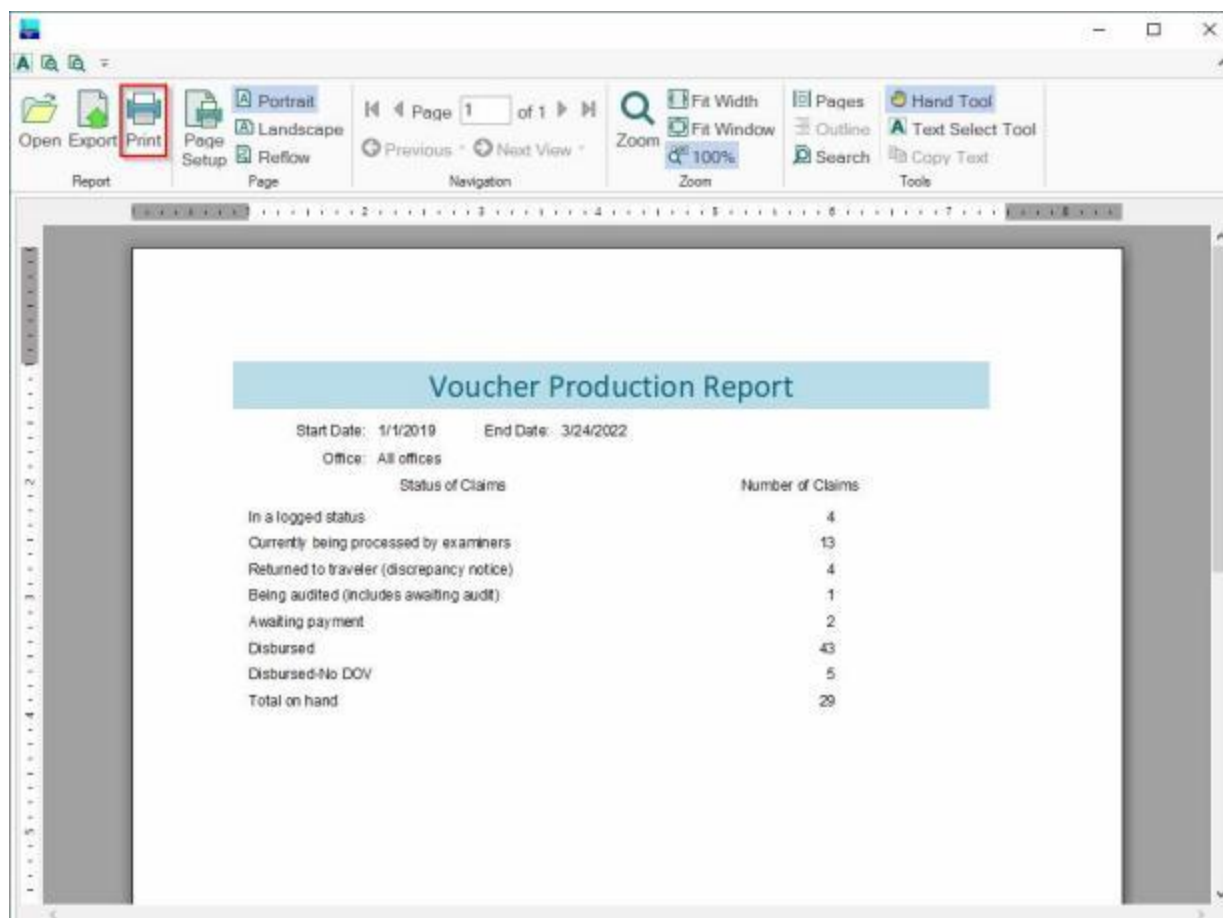

4. **Start Date:** - If the **default date** displayed at this field is **incorrect**, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** button and use the **calendar** to select the desired date.
5. **End Date:** - If the **default date** displayed at this field is **incorrect**, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** button and use the **calendar** to select the desired date.
6. After the **Starting** and **Ending** dates are specified, **click** the **Run Report** button. IATS **generates** the Voucher Production **report** for the specified period and displays the **IATS Report Viewer**.
7. If you wish to have a **print-out** of the Voucher Production Report or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following **pop-up menu** will appear allowing you to select **PDF** or **Excel**.

Print:

1. **Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

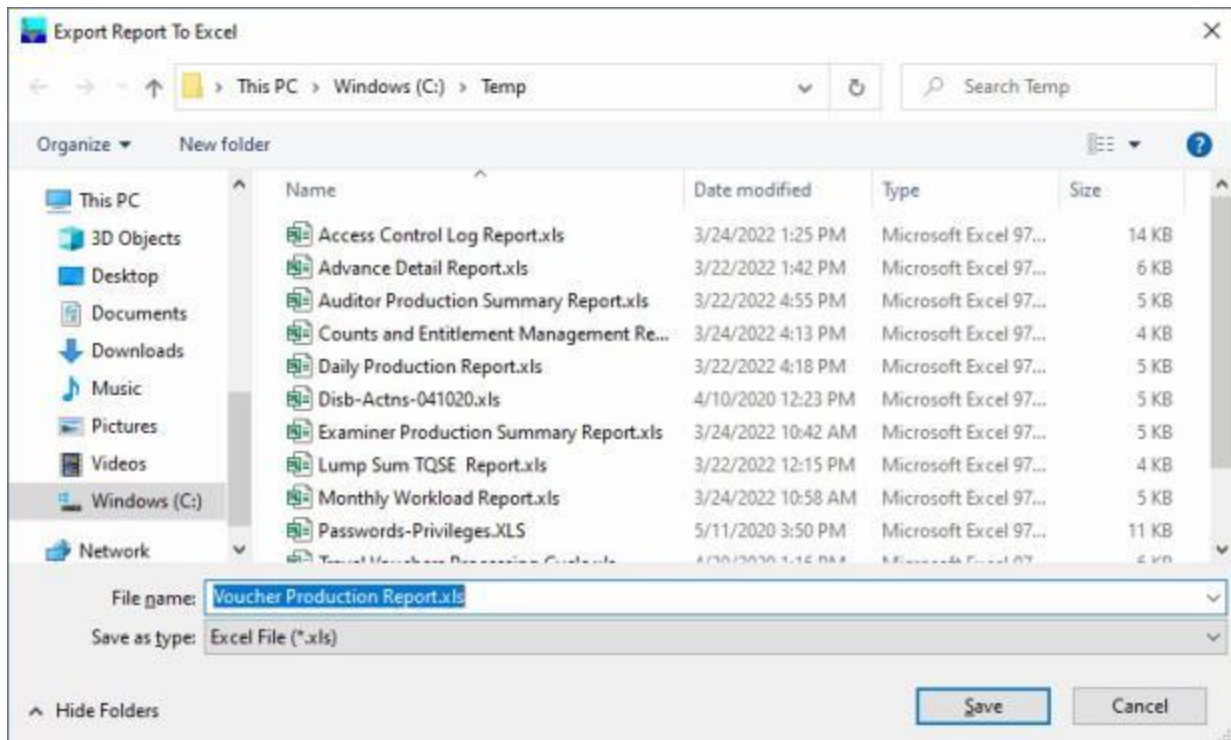

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are finished using the **Voucher Production Report** screen, **click** on the **Cancel** button to **return** to the **System Administrator View** screen.

Voucher Turnaround - Report

In order to assist managers in assessing the **timeliness** in which settlement requests are processed within the travel office, IATS generates the **Voucher Turnaround Report**. This report provides detailed information regarding the number of days it takes to **process** settlement requests from the **date** they are **received** until they are **released** to **disbursing**.

 Complete the following steps to "generate" the Voucher Turnaround Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word, "**Management Reports**". An expandable menu appears listing the various management report options.
3. **Click** on the **Voucher Turnaround** option. The **Voucher Turnaround Report** screen appears.

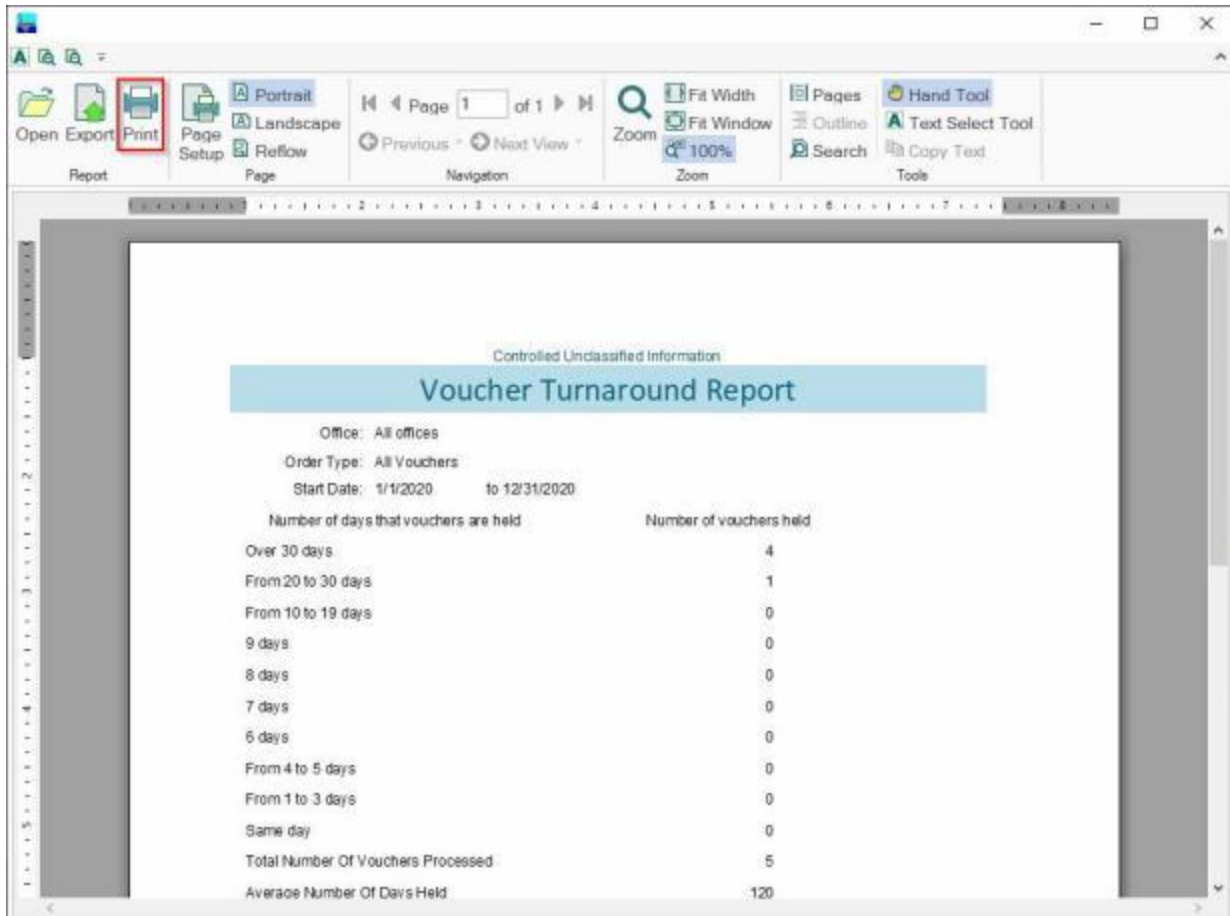

4. The **Start** and **End** dates will **default** to the current date. If you wish to run this report for a different period, **click** in the desired date field and **type** the correct date in **MMDDYY** format. You can also **click** on the down arrow button and use the **calendar** to select the desired dates.
5. The **default** value at the **Order Types** field is **All Vouchers**. **Click** on the down arrow button if you wish to select another order type. The **options** are **TDY Only**, **Civilian PCS Only**, **Military PCS Only**, and **Other**.
6. If you wish to have a **print-out** of the Voucher Turnaround Report or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up menu* will appear allowing you to select **PDF** or **Excel**.

Print:

1. **Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are finished using the **Voucher Turnaround Report** screen, **click** on the **Cancel** button to **return** to the **System Administrator View** screen.

EFW2 - Electronic Filing of W2

At the conclusion of the **tax year**, the **IRS** requires all **agencies** that **issue more** than **250 W2 Forms** to **transmit** a **magnetic file** containing this data. The **EFW2 - Electronic Filing of W2** screen is used to **generate** this file which is a **summary** of the **payments** and **with-holdings**.

 Complete the following steps to "generate" the EFW2 - Electronic Filing of W2 file(s):

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word **Tax Reports**. An expandable menu appears listing the various tax report options.
3. **Click** on the **EFW2 - Electronic Filing of W2** option. The **EFW2 - Electronic Filing of W2** screen appears.

Click the Run Report to run the report.

4. **Tax Year:** - At this field, **type** the desired tax **year** in **YYYY** format.
5. **PIN:** - At this field, **type** the **Personal Identification Number** assigned by the Social Security Administration (**SSA**). A PIN can be **obtained** by **contacting** the **SSA** at the World Wide Web address; ssa.gov/employer. After accessing this site, select the **Registration** option. Requester's may also **call** the **SSA** at **1-800-772-6270**, Mon.-Fri., 7AM to 7PM, Eastern Standard Time.
6. **DITY Only?:** - If the Form 6559 and magnetic media report is being prepared for **Do It Yourself (DITY) Household Goods** movement claims, **click** in this **box** to **activate** the option.
7. **Employees are residents of:** - In this section, **click** in the **Check Box** for the type of file you wish generate.
 -  **United States**
 -  **U.S. Territories and Possessions**

- **Foreign Location**
- **Select All**

Note: If you **click** on the **Selected All** button, all three file types will be selected and IATS will generate three files.

8. **Resubmitting this File:** - If the file being created is for a re-submission, **click** in this **box** to **activate** the option.
9. **Resubmit TLCN:** - If **resubmitting** the **EFW2** file, **type** the **control number** at this field. This **number** can be found on the **notice** for re-submission sent by the **SSA**.

Employer Contact Information:

- **Name:** **Click** in this field and **enter** the **name** of the employer's organization.
- **Phone Number:** **Click** in this field and **enter** the employer's organization phone number.
- **Ext:** **Click** in this field and **enter** the employer's organization phone number **extension** if applicable.
- **Fax Number:** **Click** in this field and **enter** the employer's organization **fax** number if applicable.
- **Email:** **Click** in this field and **enter** the employer's organization **e-mail** address.

Report Files to be submitted to the SSA:

- This section displays the default filenames for the files to be submitted for the United States, U.S. territories and Possessions, and Foreign Locations.
 - **Click** in the **Name of file field** and **change** the file name if desired.
10. After you have enter all of the required information, **click** on the **Run Report** button. The **Browse For Folder** screen will appear.

11. At the **Browse For Folder** screen, **browse** to the **folder/directory** where you wish to have the file **saved** at.
12. After selecting the desired folder/directory, **click** on the **OK** button. IATS creates the report and places the file in the specified directory/folder.
13. The **Report Viewer** screen will appear displaying the report.

14. If you wish to **print** the report, **click** on the Printer icon. The **Print** screen appears.
15. **Verify** that the **PC** is **configured** for the correct printer or **make any necessary changes**.
16. **Select** the **number of copies** you wish to print and then **click** on the **Print** button.
17. IATS prints the report and returns to the **Report Viewer** screen.
18. If you are finished using the Report Viewer, **click** on the **X** button in the top right corner to close the screen.
19. IATS will now display the following *pop-up message*.

20. **Click** on **OK** to continue.

21. If you are finished using the **EFW2 - Electronic Filing of W2** screen, **click** on the **Exit** button to return to the System Administrator screen.

EFW2C - Electronic Filing of W2c

At the conclusion of the **tax year**, the **IRS** requires all **agencies** that **issue more** than **250 W2 Forms** to **transmit** a **magnetic file** containing this data. The **EFW2 - Electronic Filing of W2** screen is used to **generate** this file which is a **summary** of the **payments** and **with-holdings**.

If an **error** in tax reporting was discovered, however, a **corrected** form must be **created** and **submitted** to report the **corrections** as soon as possible.

The **EFW2C - Electronic Filing of W2-c** screen is used to **generate** this file which is a corrected **summary** of the **payments** and **with-holdings**.

 Complete the following steps to "generate" the EFW2C - Electronic Filing of W2c file(s):

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word **Tax Reports**. An expandable menu appears listing the various tax report options.
3. **Click** on the **EFW2C - Electronic Filing of W-2c** option. The **EFW2C - Electronic Filing of W-2c** screen appears.

21. If you are finished using the **EFW2 - Electronic Filing of W2** screen, **click** on the **Exit** button to return to the System Administrator screen.

Form 941- Quarterly Federal Tax

In accordance with IRS regulations, **agencies** withholding employment taxes are required to file IRS Form 941 on a quarterly basis. This is required to report the dollar **amount** of the **taxes** withheld year to date.

IATS will produce the IRS Form 941 for payments **computed** using **IATS** or for payments manually entered into the database through the **CIVPCS Summary Records Module**. As with all tax reports, however, IATS **requires** that the **DOV #** and the **payment date** be **posted** to the **CIVPCS Summary Record**.

Also, as mentioned in the previous section, it is a good idea to generate the **Periodic Tax Log** report and **reconcile** with **accounting** prior to creating the 941.

Note: A laser printer is **required** for printing this form.

 **Complete the following steps to "generate" the Form 941 Quarterly Tax Report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word, "**Tax Reports**". An expandable menu appears listing the various tax report options.
3. **Click** on the **Form 941** option. The **Form 941 - Tax Return** screen appears.

Form 941 - Tax Return

Tax Year:

Quarter

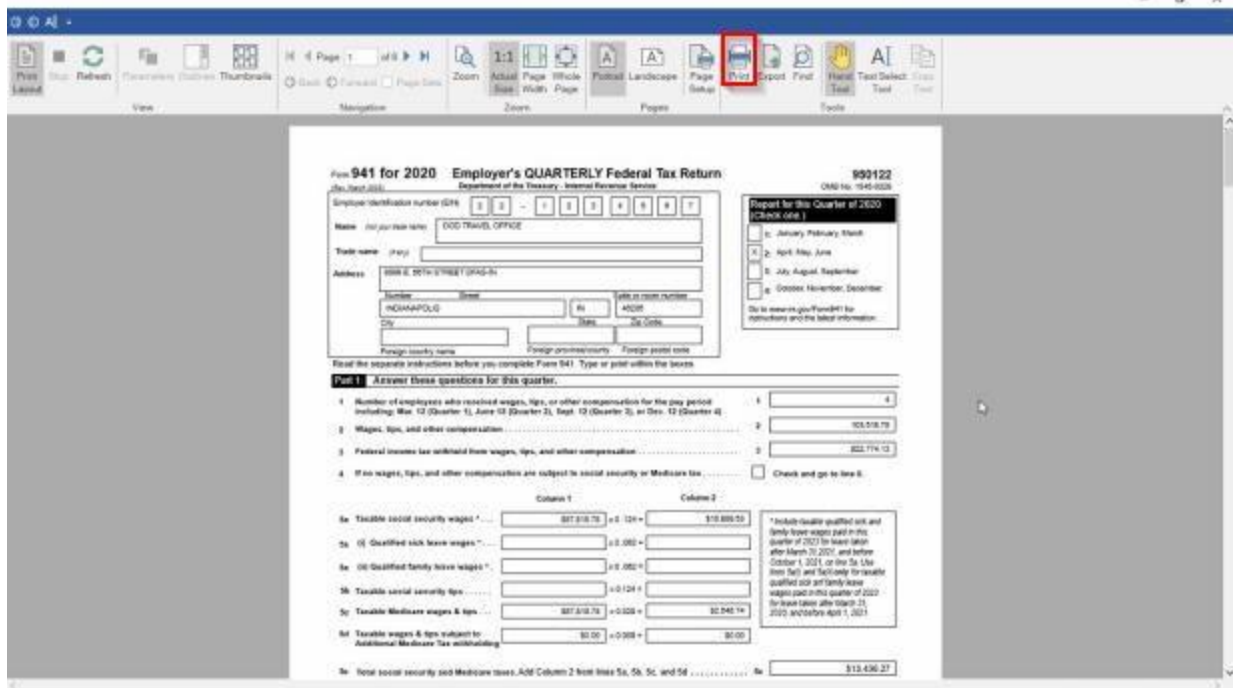

1st 3rd

2nd 4th

State Where Deposits Were Made:
(use "MU" for deposits in multiple states)

Click on the Print Button to print the report

4. **Tax Year:** - At this field, **type** the desired tax **year** in **YYYY** format.
5. **Quarter:** - **Click** in the **circle** next to the **quarter** you wish to generate the Form 941 for.
6. Once the tax **year**, plus the **quarter** has been specified, **click** on the **Print** button. The **following** screen appears.

7. Click on the **printer icon** if you wish to print the report. The **Print** screen will appear.
8. **Verify** that the **PC is configured** for the **correct printer** or **make any necessary changes**.
9. **Select** the **number of copies** you wish to print and **click** the **Print** button. IATS **prints** the **Form 941** for the **specified** quarter.
10. When **finished** using the Form 941 - Tax Return screen, **click** on the **Exit** button to **return** to the **System Administrator View** screen.

Form 941-X - Adjusted Employers Quarterly Tax Return

In accordance with IRS regulations, **agencies** withholding employment taxes are required to file IRS Form 941 on a quarterly basis. This is required to report the dollar **amount** of the **taxes** withheld year to date.

The **Form 941 - X** screen is used to report **corrections** to taxes previously reported as **withheld**.

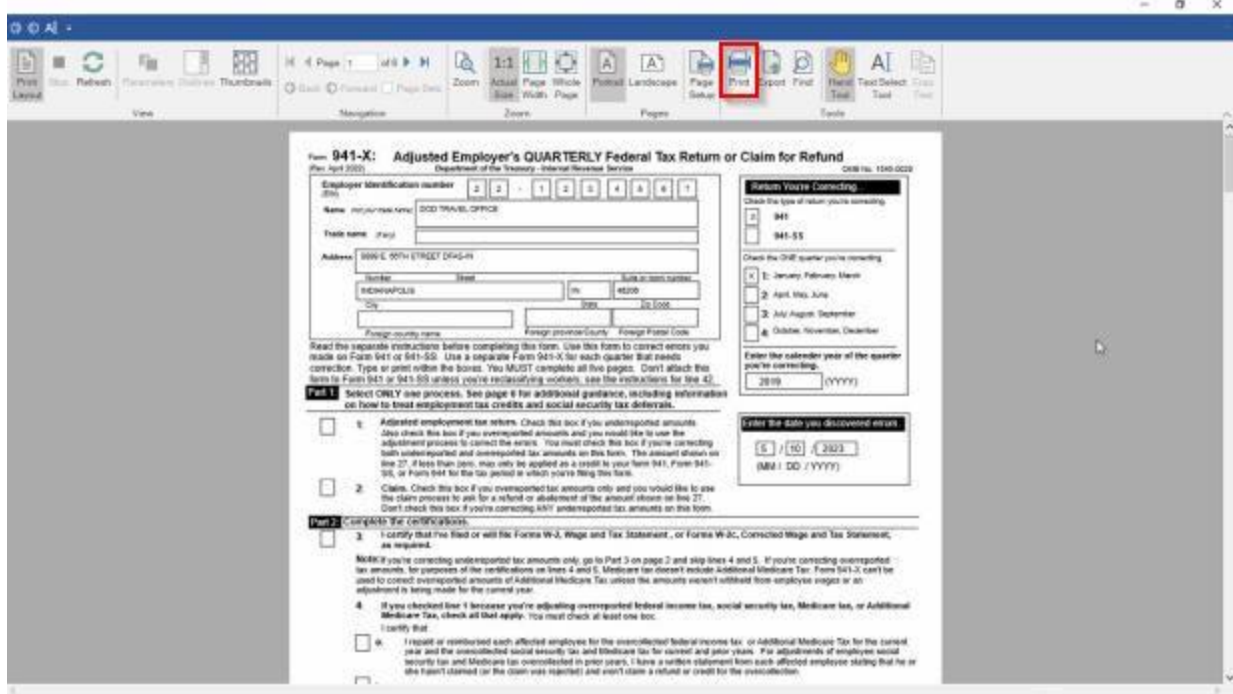

Note: The **option** for this form will not appear on the **Reports menu** as an option unless there are **corrections** that need to be reported.

 **Complete the following steps to "generate" the Form 941 Quarterly Tax Report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word, "**Tax Reports**". An expandable menu appears listing the various tax report options.
3. **Click** on the **Form 941 -X (Adjusted Employer's Quarterly Federal Tax)** option. The **Form 941 - X - Adjusted Employer's Quarterly Tax Return** screen appears.

4. **Tax Year:** - At this field, **type** the desired tax **year** in **YYYY** format.
5. **Quarter:** - **Click** in the **circle next** to the **quarter** you wish to generate the Form 941 - X for.
6. **Date Error Discovered:** - The date in this field **defaults** to the **current date**. If necessary, enter a different date in **MMDDYY** format.
7. **Best Daytime Phone:** - Enter the employer's best daytime 10 digit phone number.
8. **Details:** - **Click** in this **text box** and **enter** any desired **details**.
9. When you have entered all of the required information, **click** on the **Print** button to **generate** the **Form 941 - X**. The **IATS Report Viewer** screen will appear displaying the **Form 941 - X**.

10. Click on the **Print Icon** if you wish to **print the Form 941 - X**.

11. When you are **finished** viewing or printing the Form 941 - X, click on the **(X)** in the top right corner to **close** the screen.

Form 1099 Interest Income - Report

IATS provides a **report** that will **calculate** and then **print** the **interest expense** for all claims that were **paid over 30 days after** the Authorizing Official **signed** the claim.

In addition, IATS will generate an **IRS Form 1099** to be provided to the traveler for **income tax** reporting.

 **Complete the following steps to "generate" the Form 1099 For Prompt Payment Interest:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Reports**". An **expandable menu** appears listing the various report options.
2. **Click** on the **plus sign** to the **left** of the word, "**Tax Reports**". An **expandable menu** appears listing the various tax report options.
3. **Click** on the **Form 1099-INT For Prompt Payment Interest** option. The **Form 1099 Interest Income** screen appears.

Form 1099 Interest Income

Year of Interest Payment: 2020

Save as CSV file

Generate both Domestic and Foreign Files

Generate:

Report Print File Electronic File

Generate Report Exit Help

Select the year for which you wish to generate the report.

4. **Traveler SSN:** - At the Traveler SSN field, **type** the **SSN** of the traveler you wish to generate the Form 1099 for and then **press Tab**.
5. **Year of Interest Payment:** - The **default** value at the Year of Interest Payment field is the **current** year. If this is incorrect, **click** the **down arrow** button and then **click** on the **correct** year.
6. **Save as CSV file:** - **Click** in the **check box** if you wish to **activate** this option. A **check mark** appears in the **check box** when this option is activated. If you **activate** this option, IATS **generates** a comma delimiter **file** containing the report information. This file may then be **imported** into **Microsoft Excel** to create a **spreadsheet**.
7. **Generate both Domestic and Foreign Files:** This option **only** appears **if** you have **selected** the option **Save as CSV file**. If you **click** in the **check box** to **activate** this option, IATS will generate **two** separate **files** one for **domestic** and one for **foreign** addresses.

Generate Report as a CSV file:

1. **Click** in the **check box** to **select** the **Save as CSV** option.
2. **Click** in the **check box** to **select** the **Generate both Domestic and Foreign Files** if desired.

Generate: - In the **Generate options box**, **click** on either **Report**, **Print File**, or **Electronic** as desired.

- **Report:** - Selecting this option will generate a CSV file containing all of the **1099 tax records** in the database.
- **Print File:** - Selecting this option will generate a CSV file containing only those **1099 tax records** where the “**Turn Off Hardcopy Tax Statement**” box is unchecked on the traveler's **profile** screen.
- **Electronic File:** - Selecting this option will generate a CSV file containing only those **1099 tax records** where the “**Turn Off Hardcopy Tax Statement**” box is checked on the traveler's **profile** screen.

3. **After** you have made all of your desired selections, **click** on the **Generate Report** button. The **Select the CSV file** screen will appear.

- At the **Select the CSV file** screen, **select** the **drive/directory/folder** where you wish to **save** the file.

File names: - The **default** filenames that are generated by IATS will be **determined** by the **options** you selected and the **data** contained in your database as shown below:

- Report:** - Selecting this option will generate a CSV file named **1099-Int-Combined**, **1099-Int-Domestic**, or **1099-Int-Foreign**.
- Print File:** - Selecting this option will generate a CSV file named **1099-Int-Combined (Hardcopy)**, **1099-Int-Domestic (Hardcopy)**, or **1099-Int-Foreign (Hardcopy)**.
- Electronic File:** - Selecting this option will generate a CSV file named **1099-Int-Combined (Electronic)**, **1099-Int-Domestic (Electronic)**, or **1099-Int-Foreign (Electronic)**.

- If desired **click** in the **File name** field and **change** the default filename in accordance with your office policy.
- After you made your selections, **click** on the **Save** button. The IRS Form 1099 Interest Income file will be **saved** in the specified location.

Generate Report as a non-CSV file:

- At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
- If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. At the **Mismatched FITW/Medicare Wages Report** screen **click** on the **Exit** button to return to the System Administrator (View) screen.

Periodic Tax Log - Report

To assist travel supervisors in **reconciling** with the **accounting** branch, IATS generates a **Periodic Tax Log Report**. This report **lists every payment** calculated by IATS that **includes employment taxes** and is compared to a similar accounting system report.

Analyzing this report **ensures** that the **with-holdings** reported to the accounting system **match** the with-holdings the travel office will **report** to the **IRS**.

IATS allows the travel offices to **specify** the **period** in which the report will cover. This is helpful for large volume offices that wish to reconcile on a weekly basis.

Tip: It is a good idea to **generate** and **analyze** this report **prior** to **preparing** the IRS Form 941 (**Quarterly Tax Report**).

 **Complete the following steps to "generate" the Periodic Tax Report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the **left** of the word, "**Tax Reports**". An expandable menu appears listing the various tax report options.
3. **Click** on the **Periodic Tax Log** option. The **Periodic Tax Log** screen appears.

Egt ? Help

4. **Type of Report:** - Click in the **circle next** to the option for the **type** of report you wish to generate.
5. **Purpose:** - Click in the **circle next** to the option for the **purpose** for the report you wish to generate.
 - **Accounting Use:** - The Accounting Use option will show records with wages greater than zero.
 - **IRS Reporting:** - The IRS Reporting option will show records with wages equal to or greater than zero.
6. **Include Negative Amounts:** - If you **click** in the **check box to activate** this option, **all negative** amounts will be included in the report.. If left unchecked the report will perform as it did before. It is **recommended** that you run the report using **both** options and **compare** the results. This may help you to determine how you would prefer to run the report in the future.
7. **Which Records:** - Click in the **circle next** to the option to **select which tax records** you wish to have the report generated for.
8. **Which Date:** - Click in the **circle next** to the option to **sort** the report by **Date Disbursed, Invoice Date, Date Taxes Assessed, or Date Payment**.
 - **Date Disbursed:** - The actual date disbursed by DFAS. For non-tax collection records the **Date Disbursed** and **Date Payment** are the **same**.
 - **Date Taxes Assessed:** - Date Invoice issued by Third Party Vendor.
 - **Invoice Date:** - Date Invoice issued by Third Party Vendor.
 - **Date Payment:** - For Tax Collection Records this is the **Invoice Date**.
9. **Begin Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** to display the IATS **calendar**. Once the IATS calendar is displayed, users can adjust the **month** and **year** by **clicking** on the **left/right arrows** at the top of the calendar **screen**. The **day** can be selected by **clicking** on the desired **date** once the correct **month** and **year** have been selected.
10. **End Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** to display the IATS **calendar**. Follow the **instructions** explained in step (6) above if wishing to use the IATS **calendar** to adjust the **End** date.
11. Once all of desired **options** have been selected, **click** the **Display Summary** button. IATS **displays** a **summary** of the report in the **Summary Results** section.
12. **Save as a PDF File:** - Click in the **check box** if you wish to **activate** this option. A **check mark** appears in the **check box** when this option is activated. If you **activate** this option, IATS **generates** a PDF file containing the report information.
13. **Save as a CSV File:** - Click in the **check box** if you wish to **activate** this option. A **check mark** appears in the **check box** when this option is activated. If you **activate** this option, IATS **generates** a comma delimiter **file** containing the report information. This file may then be **imported** into **Microsoft Excel** to create a **spreadsheet**.
14. **Save as a Text File:** - Click in the **check box** if you wish to **activate** this option. A **check mark** appears in the **check box** when this option is activated. If you **activate** this option, IATS **generates** a text file containing the report information.
15. **Print / Export:** - After you have **selected** the desired **option** at the **Save as** section, **click** on the **Print / Export** button. The IATS will display the following pop-up menu:

PDF
Excel
CSV
Text

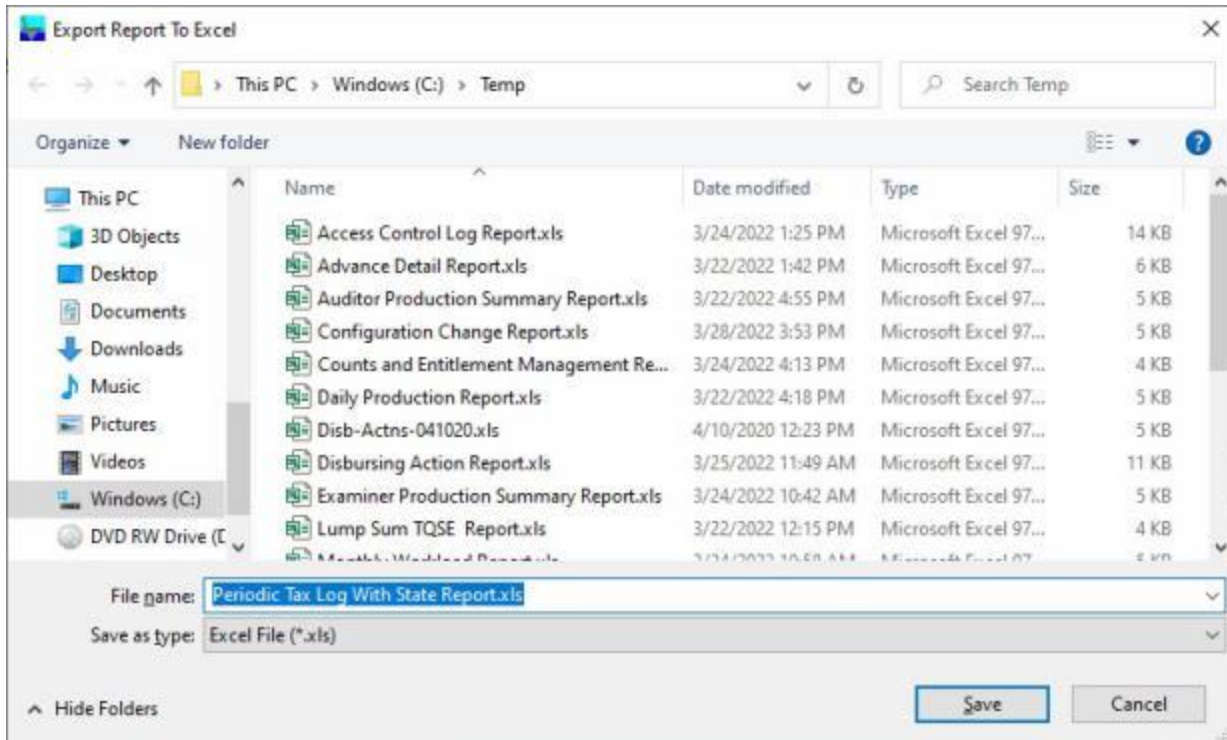

- **Save as a PDF File:** - If this option is selected, the following screen will appear displaying the report. At this screen you can make a variety of **adjustments** and **print** the report.

- **Export to Excel:** - If this option is selected, the **Export Report to Excel** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and also **name** the file.

- **Save as a CSV File:** - If this option is selected, the **Select CSV file** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and **also name** the file.

- **Save as a Text File:** - If this option is selected, the **Select Txt file** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and **also name** the file.

16. When you are **finished** using the **Periodic Tax Log** screen, **click** on the **Exit** button.

Reprint IRS Tax Forms

A feature was added to IATS to allow users to be able to **re-print tax forms** after the **books** have been **closed** for a particular quarter or tax year.

The **Reprint Tax Forms** screen is used to perform this task.

 **Complete the following steps to "reprint" IRS Tax Forms:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, **"Reports"**. An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word **Tax Reports**. An expandable menu appears listing the various tax report options.
3. **Click** on the **Reprint IRS Forms** option. The **Reprint Tax Forms** screen appears.

Specify the Book Closing Date Range:

1. **Earliest Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the **down arrow** to display the IATS **calendar**. Once the IATS calendar is displayed, users can adjust the **month** and **year** by **clicking** on the **left/right arrows**

at the top of the calendar **screen**. The **day** can be selected by **clicking** on the desired **date** once the correct **month** and **year** have been selected.

2. **Latest Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format or **click** on the *down arrow* to display the IATS **calendar**. Follow the **instructions** explained in step (1) above if wishing to use the IATS **calendar** to adjust the **Latest Date**.

Select the Book Closing for the Specified Period:

1. **Click** on the **Get a List of Book Closings for This Period** button.
2. **All Book Closings** for the Specified Period will be **displayed** in the **grid**.
3. **Click** on the desired Book Closing if there is more than one closing listed.
4. The **Reprint Form** button at the bottom of the screen should **display** the **name** of the selected Book Closing.

Reprint the IRS Forms:

1. After you have selected the desired Book Closing, **click** on the **Reprint Form** button at the bottom of the screen.
2. IATS now **displays** the Tax Form **screen** for the **form** specified in the selected **Book Closing** as shown below.

Enter the Tax Year

3. **Click** on the **Print** button. The following **Report Viewer** screen appears.

4. Click on the **printer icon** if you wish to print the report. The **Print** screen will appear.
5. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
6. **Select** the **number of copies** you wish to print and **click** the **Print** button.
7. IATS **re-prints** the Tax Form for the form specified in the selected Book Closing.
8. **Click** on the **(X)** in the top right corner of the **Report Viewer** screen to **exit**.

SITW Deposit Form

DFAS is required to **generate** and **send** a **deposit form** for State Taxes withheld to the State's Tax Office.

The **Report State Deposit** screen is used to generate this deposit form.

 **Complete the following steps to "generate" the SITW Deposit Form:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word, "**Tax Reports**". An expandable menu appears listing the various tax report options.
3. **Click** on the **SITW Deposit Form** option. The **Report State Deposit** screen appears.

The screenshot shows a window titled "Report State Deposit". Inside the window, there are three input fields: "Tax Year" with the value "2018", "Start Month" with a dropdown menu showing "June", and "End Month" with a dropdown menu showing "June". Below these fields are three buttons: "Print", "Done", and "Help" (with a question mark icon).

4. **Tax Year:** - When the Report State Deposit screen appears, the current tax year will be displayed at the **Tax Year** field. If you wish to generate the deposit form for a different tax year, **enter** the desired year in YYYY format.
5. **Start Month:** - The current month will be displayed at the **Start Month** field. If you wish to **change** the month, **click** on the down arrow button and then **click** on the desired month from the drop down list of months.
6. **End Month:** - The current month will be displayed at the **End Month** field. If you wish to **change** the month, **click** on the down arrow button and then **click** on the desired month from the drop down list of months.
7. When you have **specified** the correct **Tax Year**, **Start Month**, and **End Month**, click on the **Print** button. The following screen will appear displaying the **deposit forms** for each state taxes were withheld for.

5. **End Month:** - The **current month** will be displayed at the **End Month** field. **If** you wish to **change** the month, **click** on the **down arrow** button and then **click** on the **desired month** from the **drop down list** of months.
6. **Start Year:** - The **current year** will be displayed at the **Start Year** field. **If** you wish to **change** the year, **enter** the desired year in **YYYY** format.
7. **End Year:** - The **current year** will be displayed at the **End Year** field. **If** you wish to **change** the year, **enter** the desired year in **YYYY** format.

8. **Get Data:** - When you have **specified** the correct **Start Month**, **End Month**, **Start Year**, and **End Year**, click on the **Get Data** button.
9. The **summary data** for the state taxes withheld will be **displayed** in the grid below the **Get Data** button.

SITW Summary Report

Start Month: End Month:

Start Year: End Year:

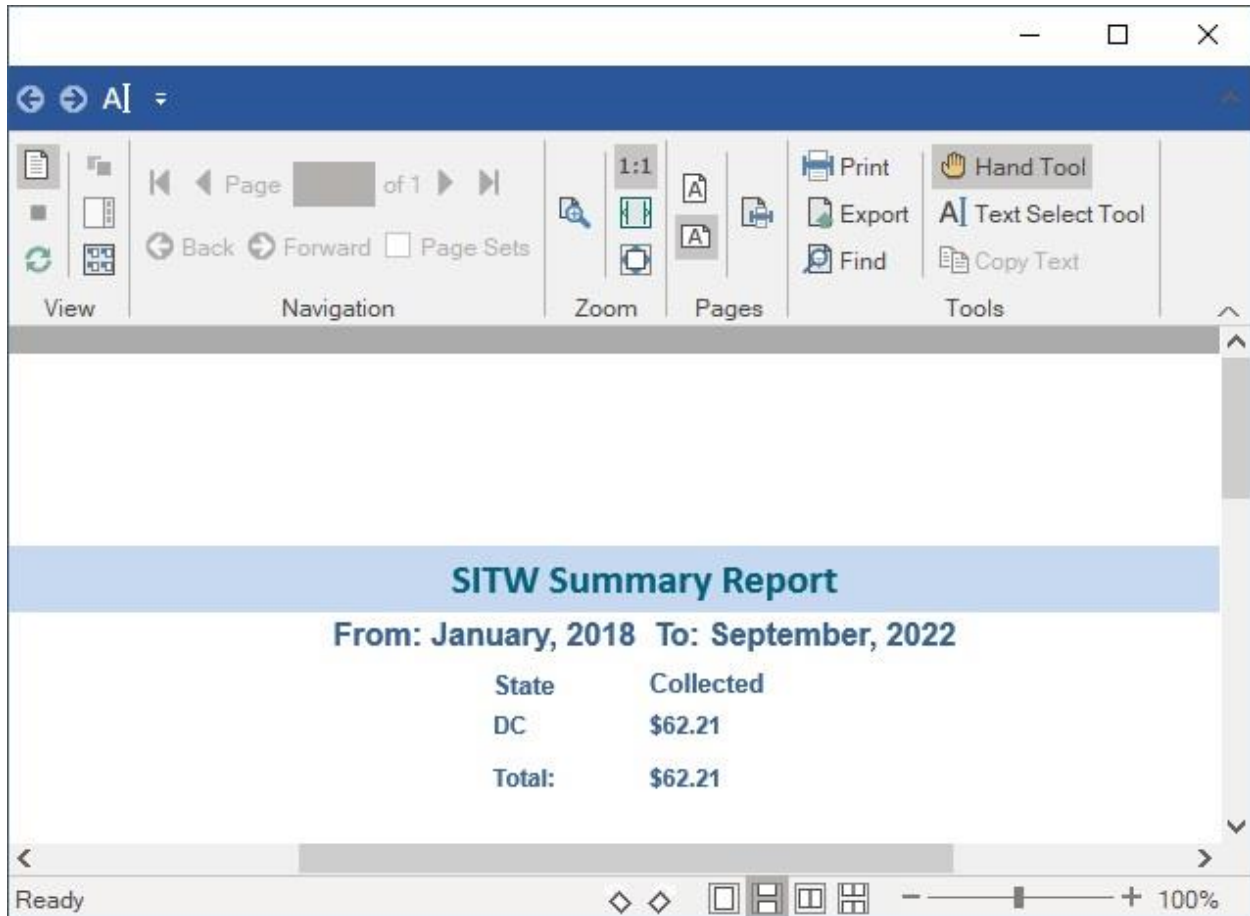

State	Collected
DC	\$62.21

10. If you wish to have a **print-out** of the **SITW Summary Report** or **save** it to an **Excel** or **Text** file, **click** on the **Print/Export** button. The following *pop-up* menu will appear allowing you to select **PDF**, **Excel** or **Text**.

Print:

1. **Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

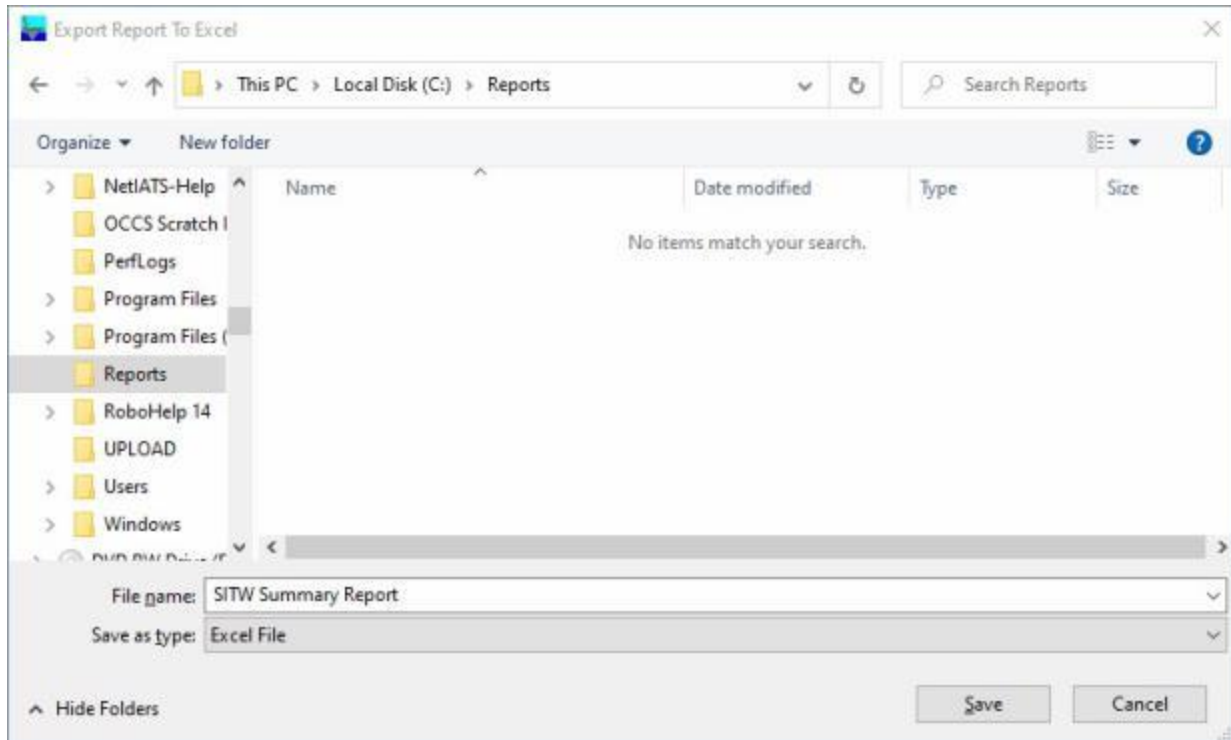

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option. IATS will display the **Export Report to Excel** screen.

3. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
4. **Enter** the desired **name** for the file at the **File name** field.
5. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
6. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
7. **Click** on the **(X)** button at the top right corner of the **Excel** screen displaying the report to **close** the screen when you are finished.

Create as Text file:

1. **Click** on the **Text** option. IATS will display the **Export Report To TXT** screen.

2. At the **Export Report to TXT** screen, **navigate** to the **directory/folder** where you wish to the **save** the TXT file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When **finished** using the **SITW Summary Report** screen, **click** on the **Done** button to **return** to the **System Administrator** menu.

State Quarterly - Report

IATS generates a **quarterly** report **summarizing** the **amounts** of **state taxes** withheld for a specific period in time.

The **Taxpayer Quarterly Summary Report** screen is used to generate this report.

 **Complete the following steps to "generate" the Taxpayer Quarterly Summary Report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, **"Reports"**. An **expandable menu** appears listing the various report options.
2. **Click** on the **plus sign** to the **left** of the word, **"Tax Reports"**. An **expandable menu** appears listing the various tax report options.
3. **Click** on the **State Quarterly Report** option. The **Taxpayer Quarterly Summary Report** screen appears.

The screenshot shows a window titled "Taxpayer Quarterly Summary Report". Inside the window, there is a "Tax Year:" label followed by a text input field containing "2018". Below this is a "Quarter:" label followed by a group box containing four radio buttons: "1st" (which is selected), "2nd", "3rd", and "4th". At the bottom of the window, there are three buttons: "Print", "Done", and "Help".

4. **Tax Year:** - The **current year** will be displayed at the **Tax Year** field. If you wish to generate the report for a **different** tax year, **enter** the desired year in **YYYY** format.
5. **Quarter:** - **Click** in the **radio button** to **select** the **quarter** you wish to generate the report for.
6. When the desired year and quarter have been specified, **click** on the **Print** button. The following screen will appear displaying the quarterly tax report for **each traveler** that state taxes were withheld from.

7. **Click** on the **printer icon** if you wish to generate a print-out of the forms.
8. When you are **finished** using the report viewer screen, **click** on the **(X)** in the top right corner to **close** the screen.
9. **Click** on the **Done** button when you are **finished** using the **Taxpayer Quarterly Summary Report** screen.

Tax Records not Included in W2 - Report

To **identify** any **records** that **must be corrected** IATS provides the following report:

Tax Records not Included in W2 Reporting

Note: Prior to creating the **magnetic file and IRS Form 6559**, it is **strongly recommended** that this **report** is generated **first**.

 Complete the following steps to "generate" the Tax Records not Included in W2 - Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Reports**". An **expandable menu** appears listing the various report options.
2. **Click** on the **plus sign** to the **left** of the word, "**Tax Reports**". An **expandable menu** appears listing the various tax report options.
3. **Click** on the **Tax Records not Included in W2 Reporting** option. The **Tax Records not Included in W2 Reporting** screen appears.

14. **Click** on the (X) button in the top right corner of the Excel screen to **close** the program when you are **finished** viewing or printing the report.
15. IATS will return to the **Third Party Payment Invoice Output** screen after Excel is closed. If you are **finished** using this screen, **click** on the **Close** button.

Third Party Payment Debt File - Report

An **enhancement** was added to IATS to **import** payment data from **3rd party** transportation systems.

This enhancement was added to **create** settlement requests in IATS through a batch file import that will be processed to **collect taxes** that are owed due to **tax law changes** that went into effect on January 1st, 2018.

A report was added to IATS to show **debt details** generated by the third party payments for a specific period.

 Complete the following steps to "generate" the Third Party Payment Debt File - Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word, "**Tax Reports**". An expandable menu appears listing the various tax report options.
3. **Click** on the **Third Party Payment Debt File** option. The **Third Party Payment Debt File** screen appears.

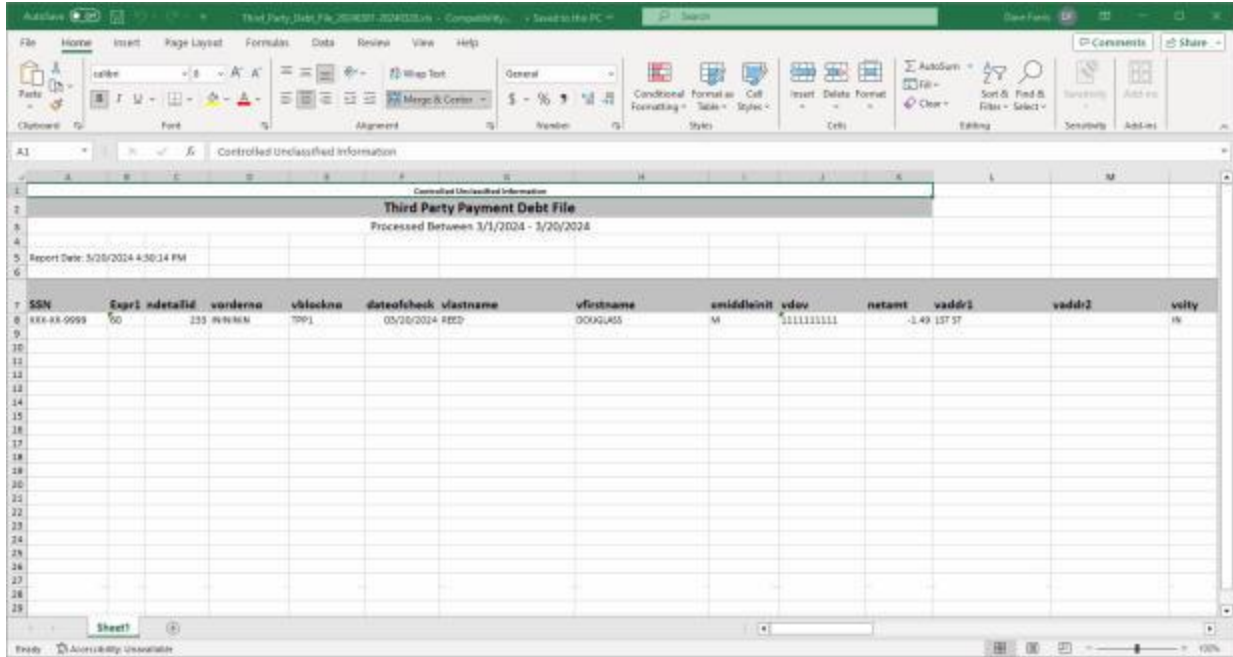

4. **Start Date:** - If the **Date Claim Created** filter **option** was selected, **enter** the desired **Start Date** for the **date range** in **MMDDYY** format. You may also **click** on the **down arrow** button and use the **Date Picker** to select the date.

5. **End Date:** - If the **Date Claim Created** filter option was selected, **enter** the desired **End Date** for the **date range** in **MMDDYY** format. You may also **click** on the *down arrow* button and use the **Date Picker** to select the date.
6. **Include All Offices:** - **Click** in the **check box** to **select** this option if you wish to generate the report for all offices.
7. **Mask SSN:** - **Click** in the **check box** to **select** this option if you wish to **mask** the social security numbers (**SSNs**) on the report.
8. After you have made your desired selections, **click** on the **Run Report and Export to Excel** button. IATS will generate the report based on your selected criteria and display the **Export Report to Excel** screen.

9. At the **Export Report to Excel** screen, **navigate** to the **folder** where you wish the file to **reside**.
10. You may also **change** the **filename** if desired.
11. When you are **satisfied** with the location for the file and the filename, **click** on the **Save** button. IATS will **save** the file and **Excel** will open **displaying** the **report**.

12. **Click** on the (X) button in the top right corner of the Excel screen to **close** the program when you are **finished** viewing or printing the report.
13. IATS will return to the **Third Party Payment Invoice Output** screen after Excel is closed. If you are **finished** using this screen, **click** on the **Close** button.

Travelers Eligible For ETTRA - Report

A feature was added to IATS to generate a **report** for the travelers that performed **extended taxable TDY** and are **eligible** for the Extended TDY Tax Reimbursement Allowance (**ETTRA**) entitlement.

 **Complete the following steps to "generate" the Travelers Eligible for ETTRA Report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Reports**". An **expandable menu** appears listing the various report options.
2. **Click** on the **plus sign** to the **left** of the word, "**Tax Reports**". An **expandable menu** appears listing the various tax report options.
3. **Click** on the **Travelers Eligible for ITRA** option. The **List of Travelers Eligible for ETTRA** screen appears.

6. If you click on any option, except SSN Only, a *pop-up message* appears asking if you wish to print with the traveler's **SSN** masked.

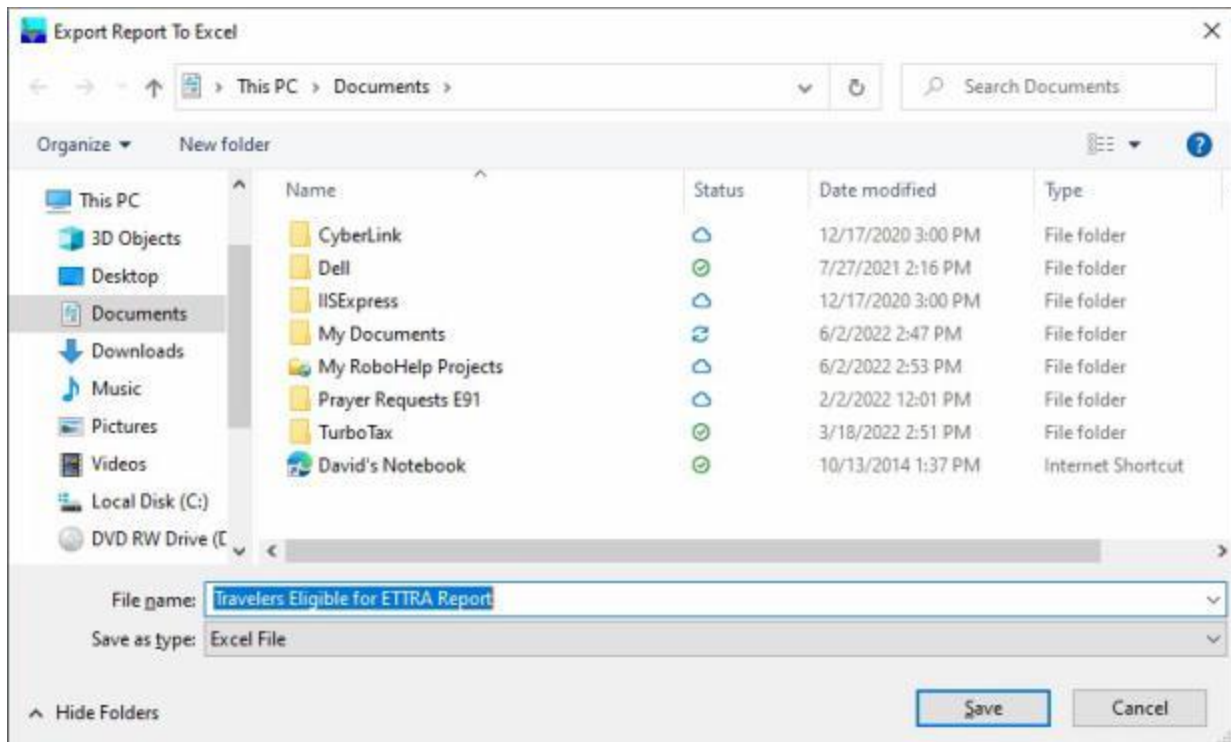

7. **Click** on Yes or No as desired. The following screen appears **displaying the results** of your search.

- **PDF:** - If this option is selected, IATS **creates** the report and **displays** the **Report Viewer** screen **listing** the travelers that need to have an ETTRA generated.

- **Export to Excel:** - If this option is selected, the **Export Report to Excel** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and **also name** the file.

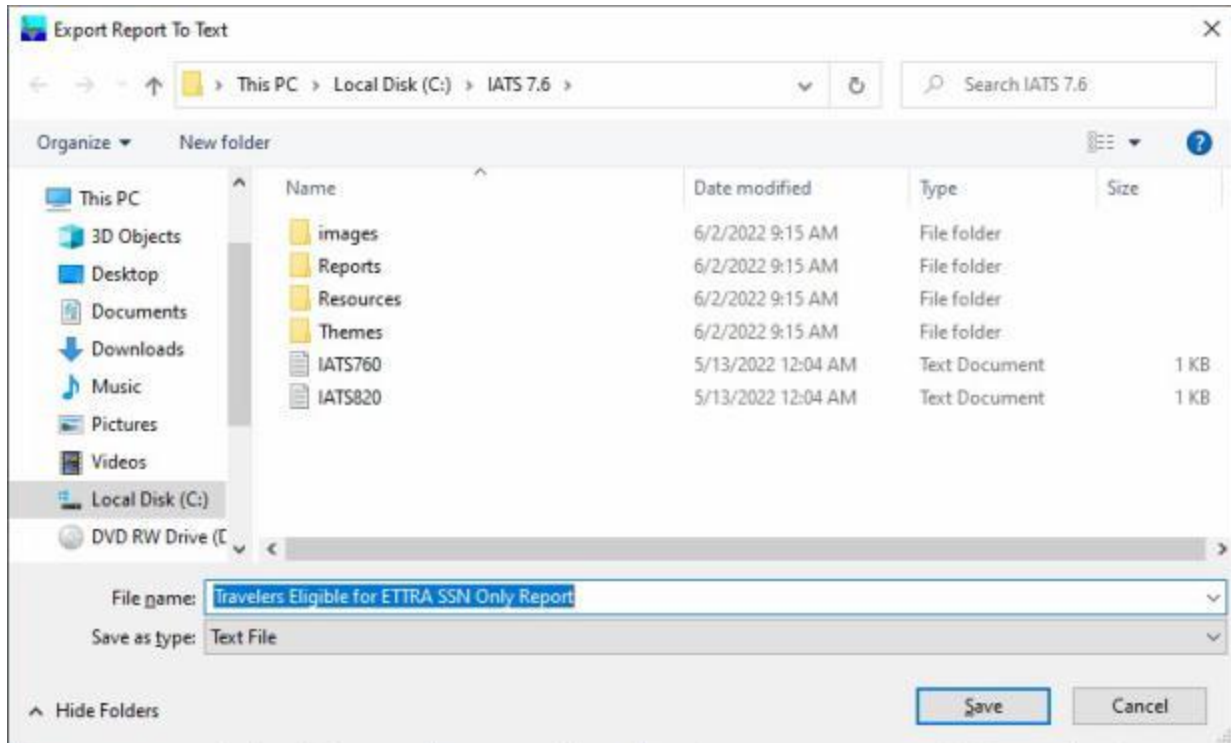

- **Export as a CSV File:** - If this option is selected, the **Export Report To CSV** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and also name the file.

- **Save as a Text File:** - If this option is selected, the **Export Report To Text** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and also name the file.

- **Save as a SSN Only File:** - If this option is selected, the **Export Report To Text** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and also name the file.

When you are **finished** using the **List of Travelers Eligible for ETTRA** screen, **click** on the **Exit** button to **return** to the **System Administrator View** screen.

Travelers Eligible For RITA - Report

A feature was added to IATS to generate a **report** for the travelers that performed **PSC** travel, received a payment for **WTA**, and are **eligible** for the Relocation Income Tax Allowance (**RITA**) entitlement.

 **Complete the following steps to "generate" the Travelers Eligible for RITA Report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Reports**". An **expandable menu** appears listing the various report options.
2. **Click** on the **plus sign** to the **left** of the word, "**Tax Reports**". An **expandable menu** appears listing the various tax report options.
3. **Click** on the **Travelers Eligible for RITA** option. The **List of Travelers Eligible for RITA** screen appears.

4. **Select Tax Year:** - **Click** on the **down arrow** button to **display** a **list** of **tax years** and then **click** on the **desired year** to make a selection.
5. **Click** on the **Print / Export** button. IATS will display the following pop-up menu:

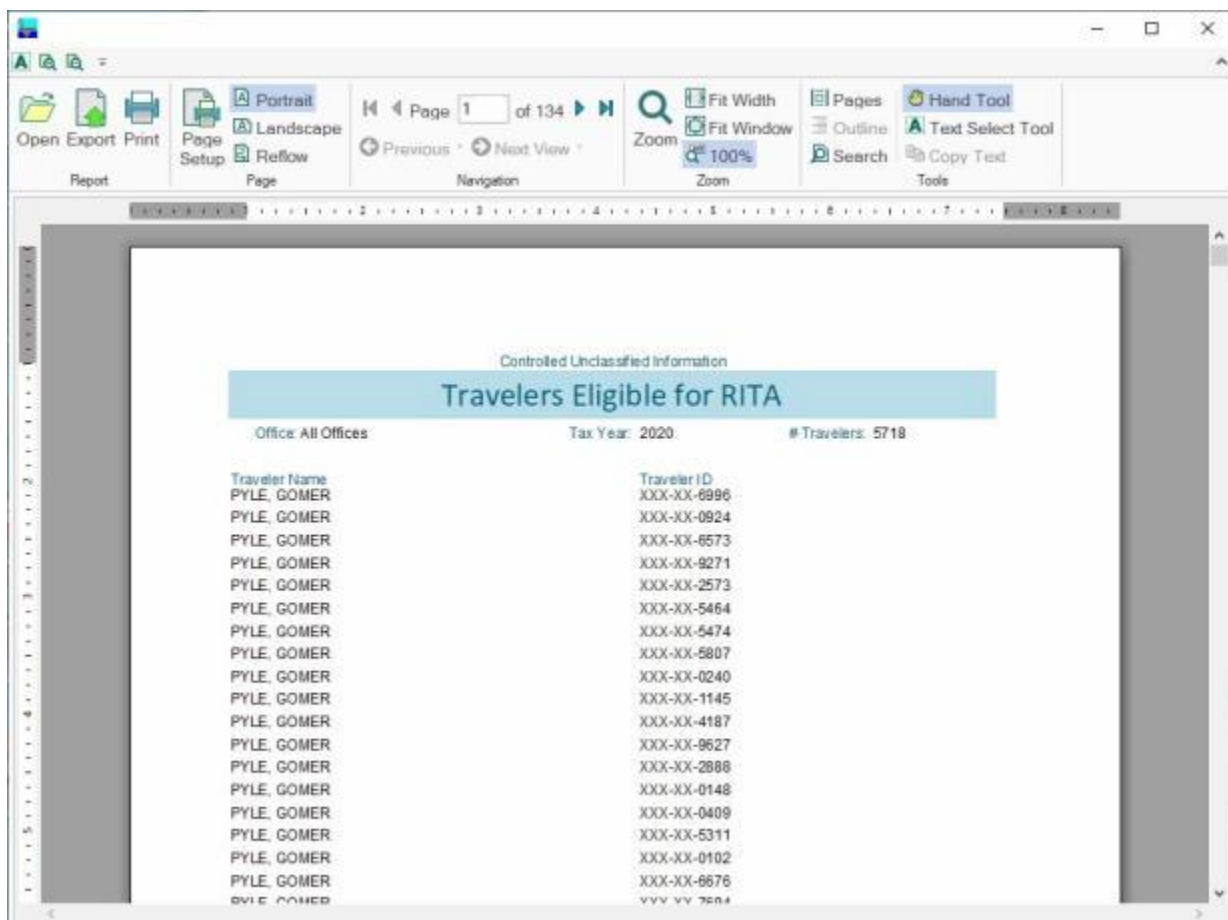

6. If you click on any option, except SSN Only, a *pop-up message* appears asking if you wish to print with the traveler's **SSN** masked.

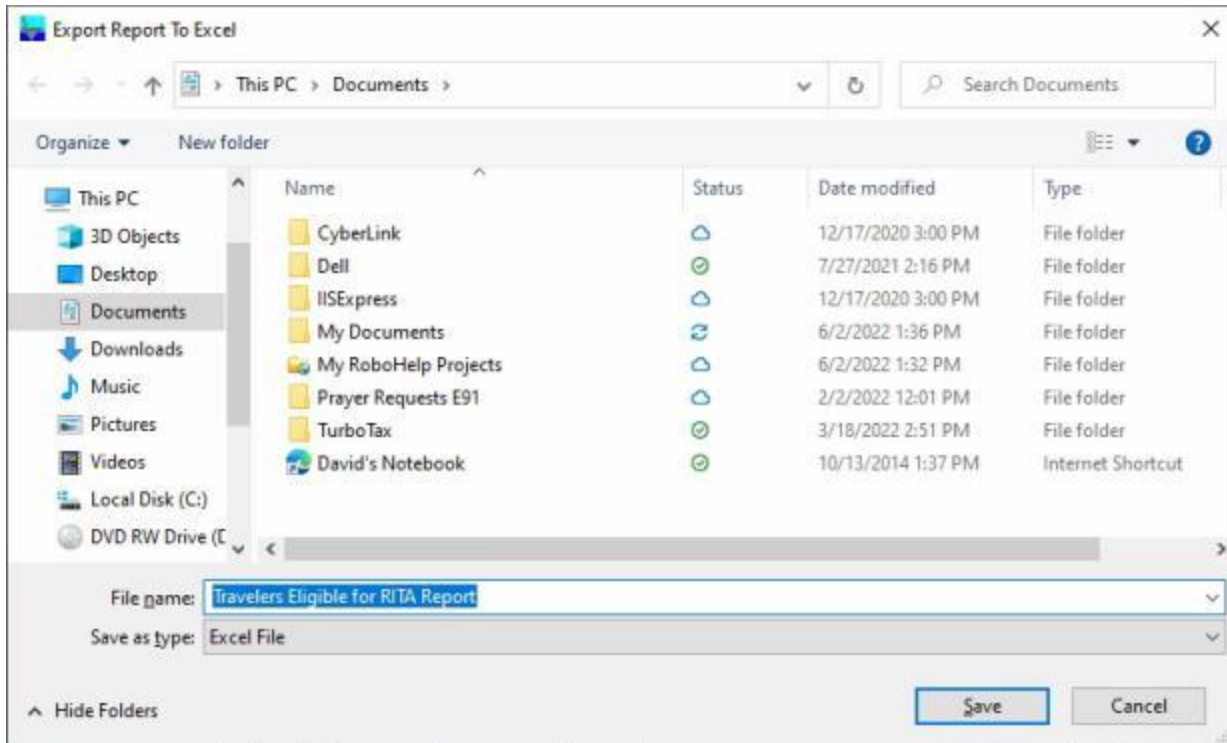

7. **Click** on Yes or No as desired. The following screen appears **displaying the results** of your search.

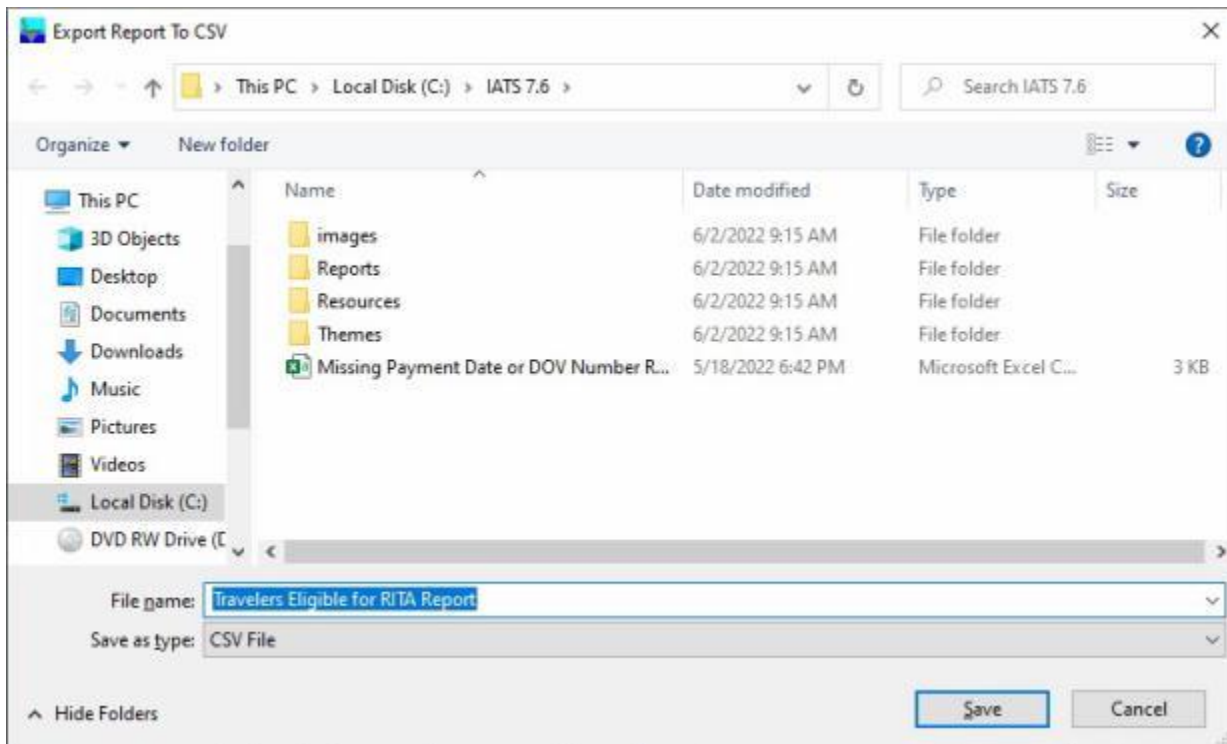

- **PDF:** - If this option is selected, IATS **creates** the report and **displays** the **Report Viewer** screen **listing** the travelers that need to have a RITA generated.

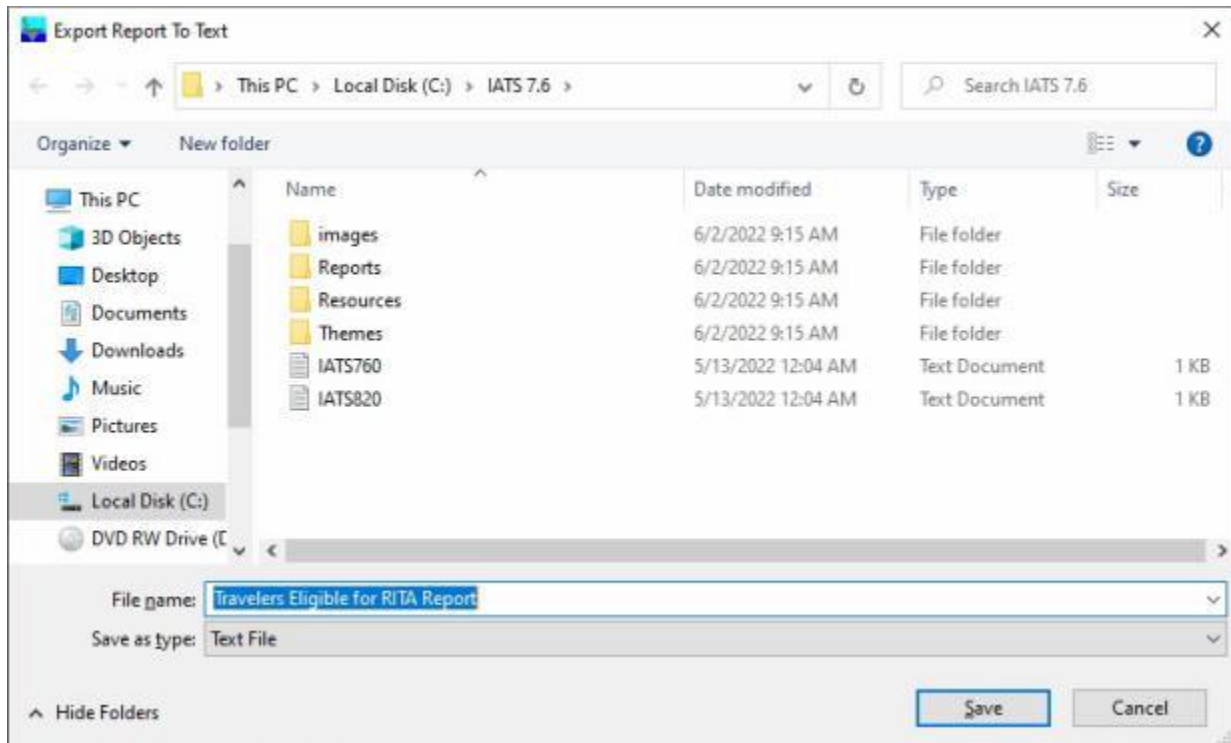

- **Export to Excel:** - If this option is selected, the **Export Report to Excel** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and also name the file.

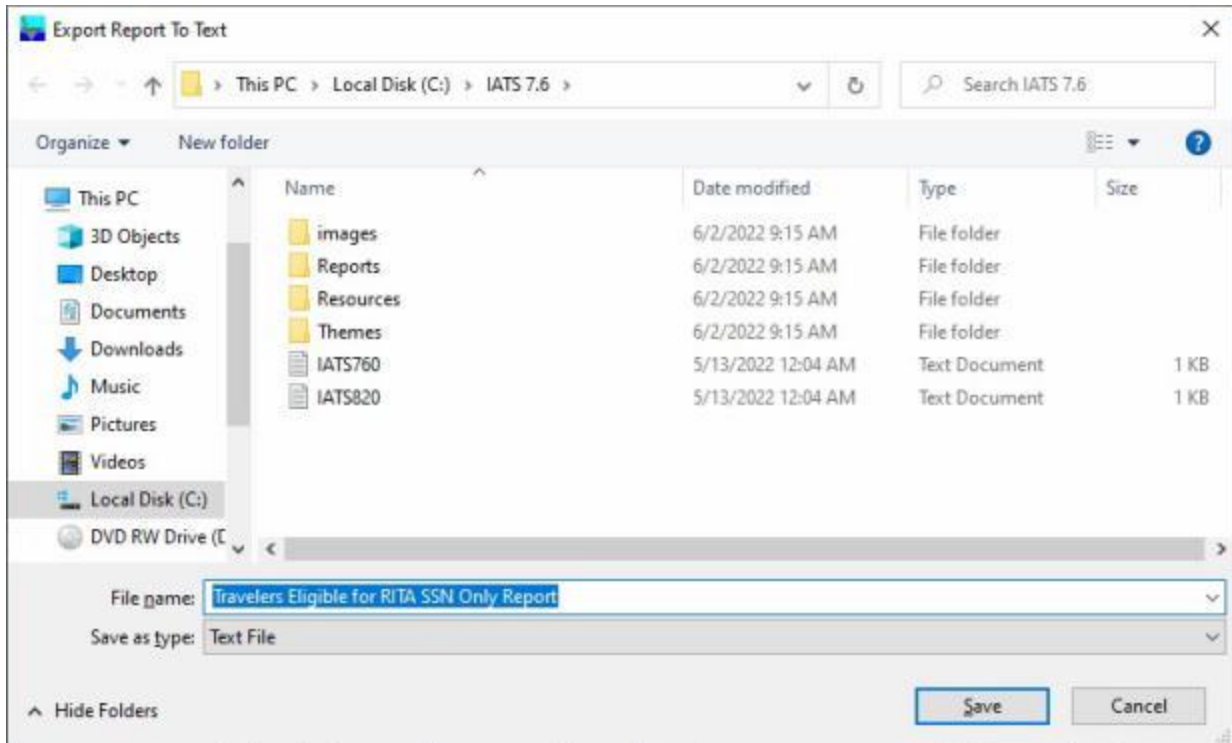

- **Export as a CSV File:** - If this option is selected, the **Export Report To CSV** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and also name the file.

- **Save as a Text File:** - If this option is selected, the **Export Report To Text** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and also name the file.

- **Save as a SSN Only File:** - If this option is selected, the **Export Report To Text** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and also name the file.

When you are **finished** using the **List of Travelers Eligible for a RITA** screen, **click** on the **Exit** button to **return** to the **System Administrator View** screen.

Travelers Eligible for W2 - Report

A function was created for IATS that allows the user to generate a report for travelers that were not paid **WTA** and do not have a **RITA** entitlement.

 Complete the following steps to "generate" the Travelers Eligible for W2 Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Reports**". An **expandable menu** appears listing the various report options.
2. **Click** on the **plus sign** to the **left** of the word, "**Tax Reports**". An **expandable menu** appears listing the various tax report options.
3. **Click** on the **Travelers Eligible for W2** option. The **List of Travelers Eligible for a W2** screen appears.

4. **Select Tax Year:** - **Click** on the **down arrow** button to **display** a **list** of tax **years** and then **click** on the desired **year** to make a selection.
5. **Click** on the **Print / Export** button. IATS will display the following pop-up menu:

- If you click on any option, **except** SSN Only, a *pop-up message* appears asking if you wish to print with the traveler's **SSN** masked.

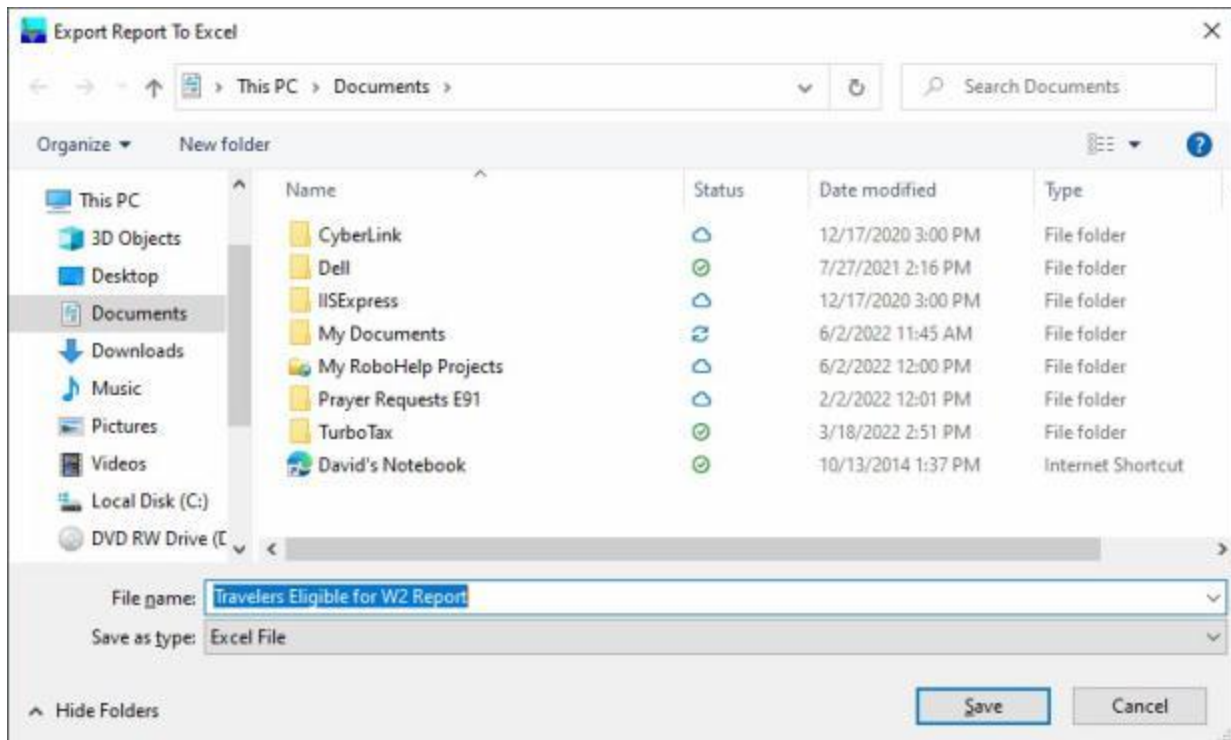

- Click on Yes or No as desired to continue.

- PDF:** - If this option is selected, IATS **creates** the report and **displays** the **Report Viewer** screen **listing** the travelers that need to have a W2 generated.

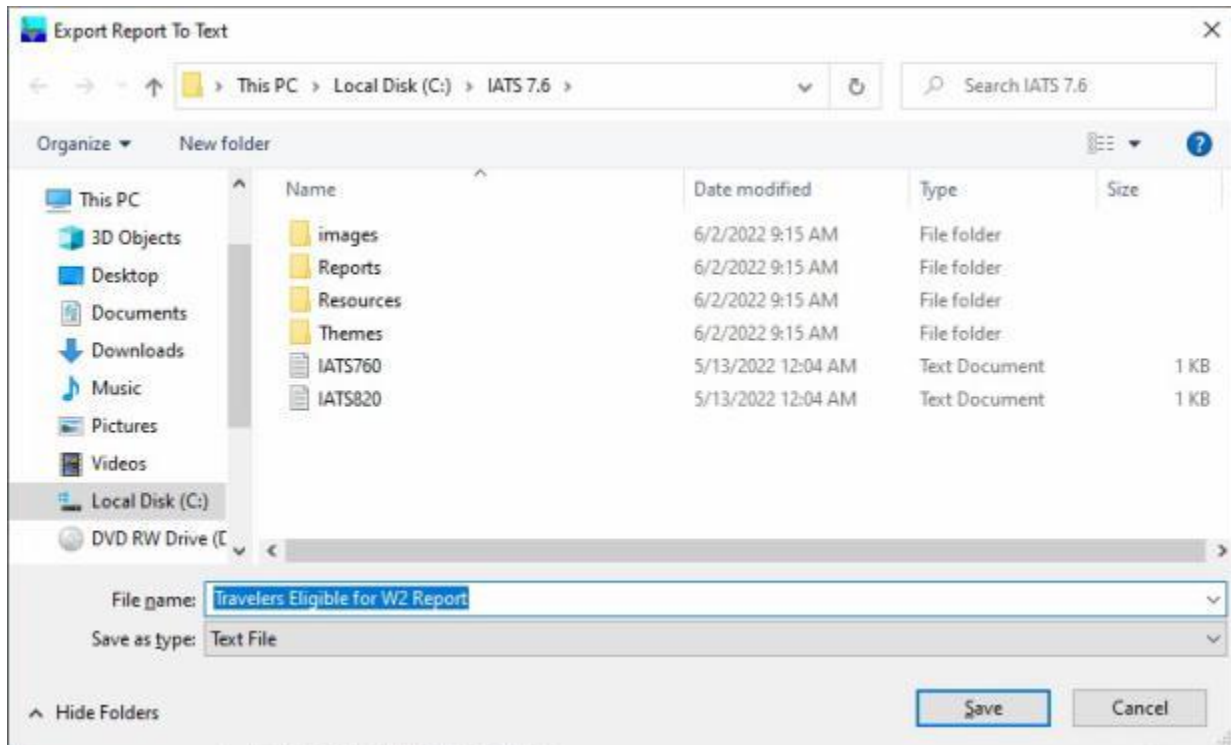

- Export to Excel:** - If this option is selected, the **Export Report to Excel** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and also name the file.

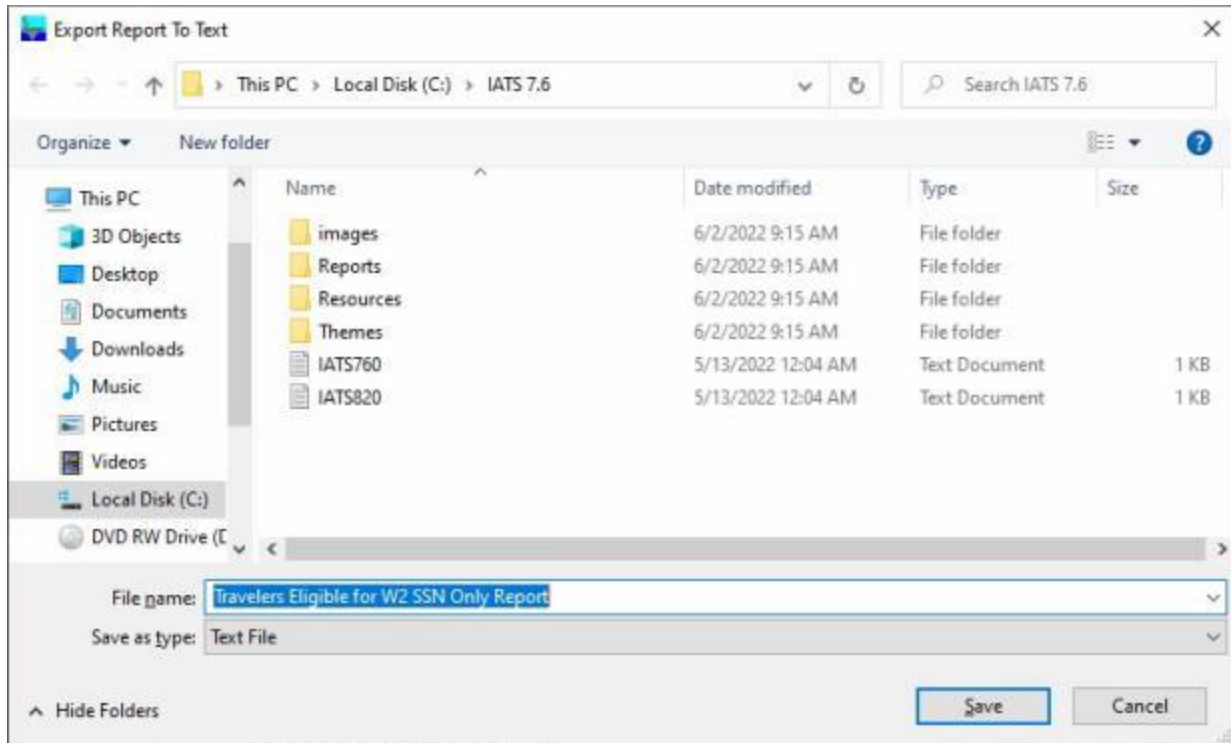

- **Export as a CSV File:** - If this option is selected, the **Export Report To CSV** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and **also name** the file.

- **Save as a Text File:** - If this option is selected, the **Export Report To Text** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and also name the file.

- **Save as a SSN Only File:** - If this option is selected, the **Export Report To Text** screen will appear. At this screen, you must **select** the desired **directory/folder** where you want the file to reside and also name the file.

When you are **finished** using the **List of Travelers Eligible for a W2** screen, **click** on the **Exit** button to **return** to the **System Administrator View** screen.

Travelers Eligible for W2c - Report

If **corrections** need to be reported for an **IRS Form W2** that was previously issued, the **IRS Form W2c** is used to report the corrections.

The **List of Travelers Eligible for a W2c** screen is used to generate a **report** of the **travelers** that are **eligible** for a **W2c**.

 Complete the following steps to "generate" the Travelers Eligible for W2c Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word, "**Tax Reports**". An expandable menu appears listing the various tax report options.
3. **Click** on the **Travelers Eligible for W-2c** option. The **List of Travelers Eligible for a W-2c** screen appears.

W2 Wage and Tax Statement

Travel offices are required to **furnish** an **IRS Form W2** to the payee whenever a payment is made that includes reportable income. This can be done at the time the payment is made or at the conclusion of the tax year.

IATS will produce the **IRS Form W2** for payments **computed** by **IATS** or for payments manually entered into the database through the **CIVPCS Summary Records Module**.

Note: In order to generate this form, IATS requires that the **DOV #** and the **payment date** be **posted** to the **CIVPCS Summary Record**.

 **Complete the following steps to "generate" the W2 Wage and Tax Statement:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word, "**Tax Reports**". An expandable menu appears listing the various tax report options.
3. **Click** on the **W2 Wage and Tax Statement** option. The **W2 Wage and Tax Statement** screen appears.

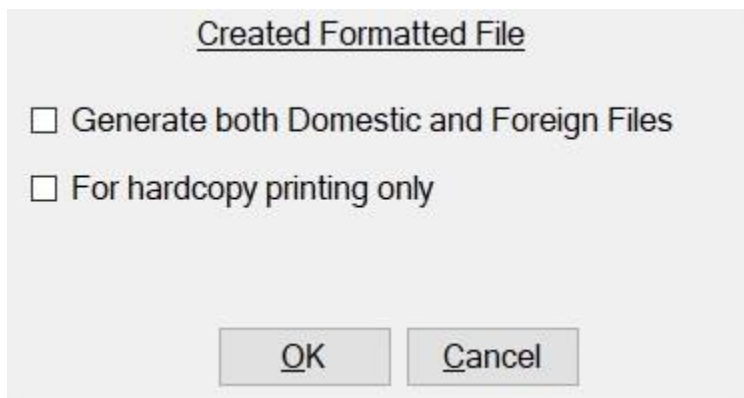

4. **Tax Year:** - At this field, **type** the desired tax **year** in **YYYY** format.
5. **Beginning SSN:** - IATS allows you to generate more than one IRS Form W2 at one time by entering an **SSN range**. At this field, **type** the first **SSN** in the desired range.
6. **Ending SSN:** - IATS allows you to generate more than one IRS Form W2 at once by entering an **SSN range**. At this field, **type** the last **SSN** in the desired range. If wishing to print a W2 for one traveler, **type** the same **SSN** entered at the **Beginning SSN** field.
7. **Pages To Print:** **Click** in the radio button to **select** the desired **pages** you wish to print.
8. Once the **tax year**, beginning and ending **SSNs**, and **pages** are specified, **click** the **Print** button. The following *pop-up message* appears asking if you wish to **truncate** the **SSN**.

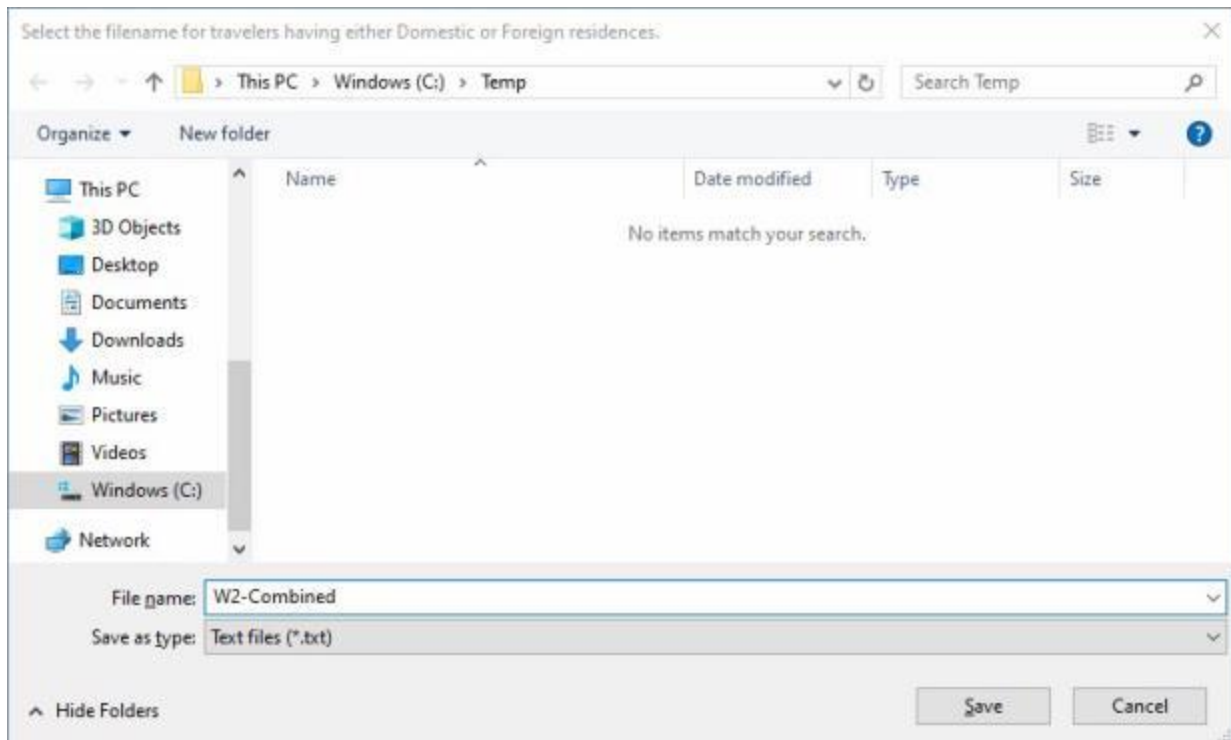

9. **Click** on Yes or No as desired.
10. The **Adobe Reader** screen appears.
11. **Click** on the Printer icon.
12. The **Print** screen appears.
13. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
14. **Select** the number of copies you wish to print and then **click** on the **Print** button.
15. IATS prints the report and returns to the **Adobe Reader** screen.
16. If you are finished using the **Adobe Reader**, **click** on the **red** button in the top right corner to close the screen.
17. At the **W2 Wage and Tax Statement** screen **click** on the **Exit** button to return to the System Administrator (View) screen.

Create Formatted File:

1. **Click** on the **Create Formatted File** button if you wish to **generate** a formatted file copy of the IRS Form W2. IATS will display the following **Format Options**.

2. **Generate both Domestic and Foreign Files:** If you **click** in the **check box** to **activate** this option, IATS will generate two separate **files** one for **domestic** and one for **foreign** addresses. If this option is left **un-checked**, IATS will generate one **combined file** of both **domestic** and **foreign** addresses.
3. **For Hardcopy Printing Only:** - If you **click** in the **check box** to **activate** this option, IATS will generate a file to be used to print **hard copies** of the W2 Forms to be mailed to the traveler.
4. After you have made your desired format selections, **click** on the **OK** button. IATS will display the following **Select Filename** screen.

File names: - The **default** filenames that are generated by IATS will be **determined** by the **options** you selected and the **data** contained in your database as shown below:

- **Generate both Domestic and Foreign Files:** If this option is **checked**, IATS will generate two separate files with the default filenames **W2-Domestic** and **W2-Foreign** if you have W2 tax records in your database for both domestic and foreign address. If this option is **un-checked**, IATS will create one file with the default filename **W2-Combined**.
 - **For Hardcopy Printing Only:** If this option is **checked**, IATS will generate two separate files **W2-Domestic (Hardcopy)** and **W2-Foreign (Hardcopy)** if you have W2 tax records in your database for both domestic and foreign address and the option **Generate both Domestic and Foreign Files** is checked also. If the **Generate both Domestic and Foreign Files** option is **un-checked**, IATS will create one file with the default filename **W2-Combined (Hardcopy)**.
5. At the **Select Filename** screen, **select** the **drive/directory/folder** where you wish to **save** the file.
 6. If desired **click** in the **File name** field and **change** the default **filename** in accordance with your office policy.
 7. After you made your selections, **click** on the **Save** button. The IRS Form W2 file will be **saved** in the specified location.

W2c Corrected Wage and Tax Statement

Travel offices are required to **furnish** an **IRS Form W2** to the payee whenever a payment is made that includes reportable income. This can be done at the time the payment is made or at the conclusion of the tax year.

IATS will produce the **IRS Form W2** for payments **computed** by **IATS** or for payments manually entered into the database through the **CIVPCS Summary Records Module**.

If **corrections** need to be reported for an **IRS Form W2** that was previously issued, the **IRS Form W-2c** is used to report the corrections.

Note: In order to generate this form, IATS requires that the **DOV #** and the **payment date** be **posted** to the **CIVPCS Summary Record**.

 **Complete the following steps to "generate" the W-2c Corrected Wage and Tax Statement:**

Note: The **option** for this form will not appear on the **Reports menu** as an option unless there are **corrections** that need to be reported.

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Reports**". An expandable menu appears listing the various report options.
2. **Click** on the **plus sign** to the left of the word, "**Tax Reports**". An expandable menu appears listing the various tax report options.
3. **Click** on the **W-2c Corrected Wage and Tax Statements** option. The **Form W-2c - Corrected Wage and Tax Statements** screen appears.

4. **Tax Year:** - At this field, **type** the desired tax **year** in **YYYY** format.
5. **Beginning SSN:** - IATS allows you to generate more than one IRS Form W-2c at one time by entering an **SSN range**. At this field, **type** the **first SSN** in the desired range.
6. **Ending SSN:** - IATS allows you to generate more than one IRS Form W-2c at once by entering an **SSN range**. At this field, **type** the last SSN in the desired range. If wishing to print a W-2c for one traveler, **type** the same SSN entered at the **Beginning SSN** field.
7. **Pages To Print:** **Click** in the radio button to **select** the desired **pages** you wish to print.

8. **Control #:** - This option only applies when you are **selecting** the option to **Create a Formatted File**.
9. **Use Zero Soc Sec Wages:** - **Click** in the **check box** to **activate** this option if you wish to **include** traveler records that reflect a **zero dollar amount** computed for the taxable **Social Security Wages**.
10. Once the **tax year**, beginning and ending SSNs, and **pages** are specified, **click** the **Print** button. The following *pop-up message* appears asking if you wish to **truncate** the **SSN**.

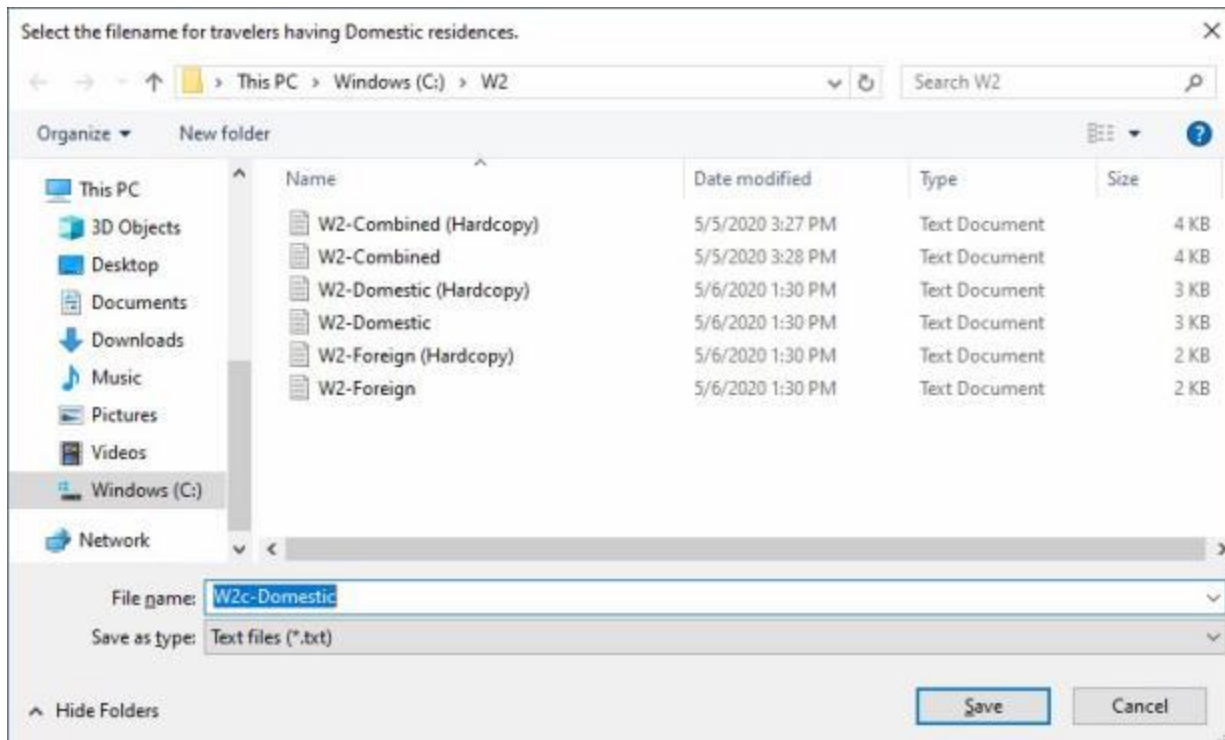

11. **Click** on *Yes* or *No* as desired.
12. The **Adobe Reader** screen appears.
13. **Click** on the **Printer icon**. The **Print** screen appears.
14. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
15. **Select** the **number of copies** you wish to print and then **click** on the **Print** button.
16. IATS prints the report and returns to the **Adobe Reader** screen.
17. If you are finished using the **Adobe Reader**, **click** on the **(X)** button in the top right corner to **close** the screen.
18. At the **W-2c Wage and Tax Statement** screen **click** on the **Exit** button to return to the System Administrator (View) screen.

Create Formatted File:

1. **Click** on the **Create Formatted File** button if you wish to **generate** a formatted file copy of the IRS Form W2c. IATS will display the following **Format Options**.

The screenshot shows a software window titled "Form W-2c - Corrected Wage and Tax Statements". Inside, there's a "Created Formatted File" dialog box. This dialog has three checkboxes: "Generate both Domestic and Foreign Files" (unchecked), "For hardcopy printing only" (unchecked), and "Use Zero Soc Sec Wages" (checked). There is also a "Control #" text box and "OK" and "Cancel" buttons. In the background, the main window has a "Tax Year" field with "2020", "Beginning SSN (optional)", and "Ending SSN (optional)" fields. At the bottom right of the main window are "Print", "Exit", and "Help" buttons. A footer note at the bottom of the window reads "Click on the Exit Report Button to close the screen".

2. **Generate both Domestic and Foreign Files:** If you **click** in the **check box to activate** this option, IATS will generate two separate **files** one for **domestic** and one for **foreign** addresses.
3. **For Hardcopy Printing Only:** - If you **click** in the **check box to activate** this option, IATS will generate a file to be used to print **hard copies** of the W2c Forms to be mailed to the traveler.
4. **Control #:** - **Click** in this field and **enter a Control Number** in accordance with your office policy.
5. **Use Zero Soc Sec Wages:** - **Click** in the **check box to activate** this option if you wish to **include** traveler **records** that reflect a **zero dollar amount** computed for the taxable **Social Security Wages**.
6. After you have made your desired format selections, **click** on the **OK** button. IATS will display the following **Select Filename** screen.

File names: - The **default** filenames that are generated by IATS will be **determined** by the **options** you selected and the **data** contained in your database as shown below:

- **Generate both Domestic and Foreign Files:** If this option is **checked**, IATS will generate two separate files with the default filenames **W2c-Domestic** and **W2c-Foreign** if you have W2 tax records in your database for both domestic and foreign address. If this option is **un-checked**, IATS will create one file with the default filename **W2c-Combined**.
 - **For Hardcopy Printing Only:** If this option is **checked**, IATS will generate two separate files **W2c-Domestic (Hardcopy)** and **W2c-Foreign (Hardcopy)** if you have W2 tax records in your database for both domestic and foreign address and the option **Generate both Domestic and Foreign Files** is checked also. If the **Generate both Domestic and Foreign Files** option is **un-checked**, IATS will create one file with the default filename **W2c-Combined (Hardcopy)**.
7. At the **Select Filename** screen, **select** the **drive/directory/folder** where you wish to **save** the file.
 8. If desired **click** in the **File name** field and **change** the default filename in accordance with your office policy.
 9. After you made your selections, **click** on the **Save** button. The IRS Form W2c file will be **saved** in the specified location.

Utilities

Access Control Log Report

IATS generates a report that shows various activities an IATS user has performed for a specific date and time range.

The **Access Control Log Report** screen is used to generate this report.

 Complete the following steps to "generate" the **Access Control Log** report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various utility programs.
2. **Click** on the **Access Control Log** option. The **Access Control Log Report** screen will appear.

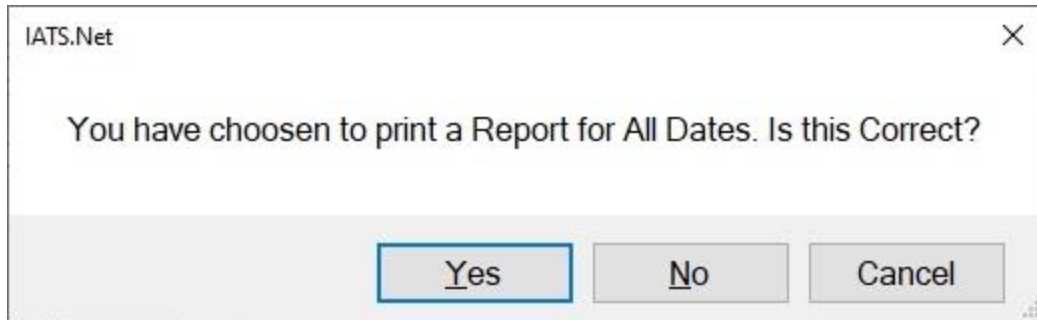

3. **User ID:** - **Click** in the **check box** at the **User ID** field if you wish generate the report for a specific **IATS User ID**. Otherwise, **do not** check the box and **enter** the **Employee ID** instead.

Note: If, **no entry** is made at the **User ID** field, IATS will generate the report for **all users**.

Time Range: Using the **Time Range** is **optional**.

4. **From:** - **Click** in the **check box** at the **From** field if you wish to generate the report **beginning** on a specific date. After checking the check box, enter the desired **begin** date in **MMDDYY** format. You can also **click** on the **calendar icon** and use the **calendar** to select the date. If you wish to generate the report **beginning** at a specific time, click on the *up/dn arrow* buttons to **adjust** the **begin** time.
5. **To:** - **Click** in the **check box** at the **To** field if you wish to generate the report for a specific ending date. After checking the check box, enter the desired **ending** date in **MMDDYY** format. You can also **click** on the **calendar icon** and use the **calendar** to select the date. If you wish to generate the report to **end** at a specific time, click on the *up/dn arrow* buttons to **adjust** the **ending** time.

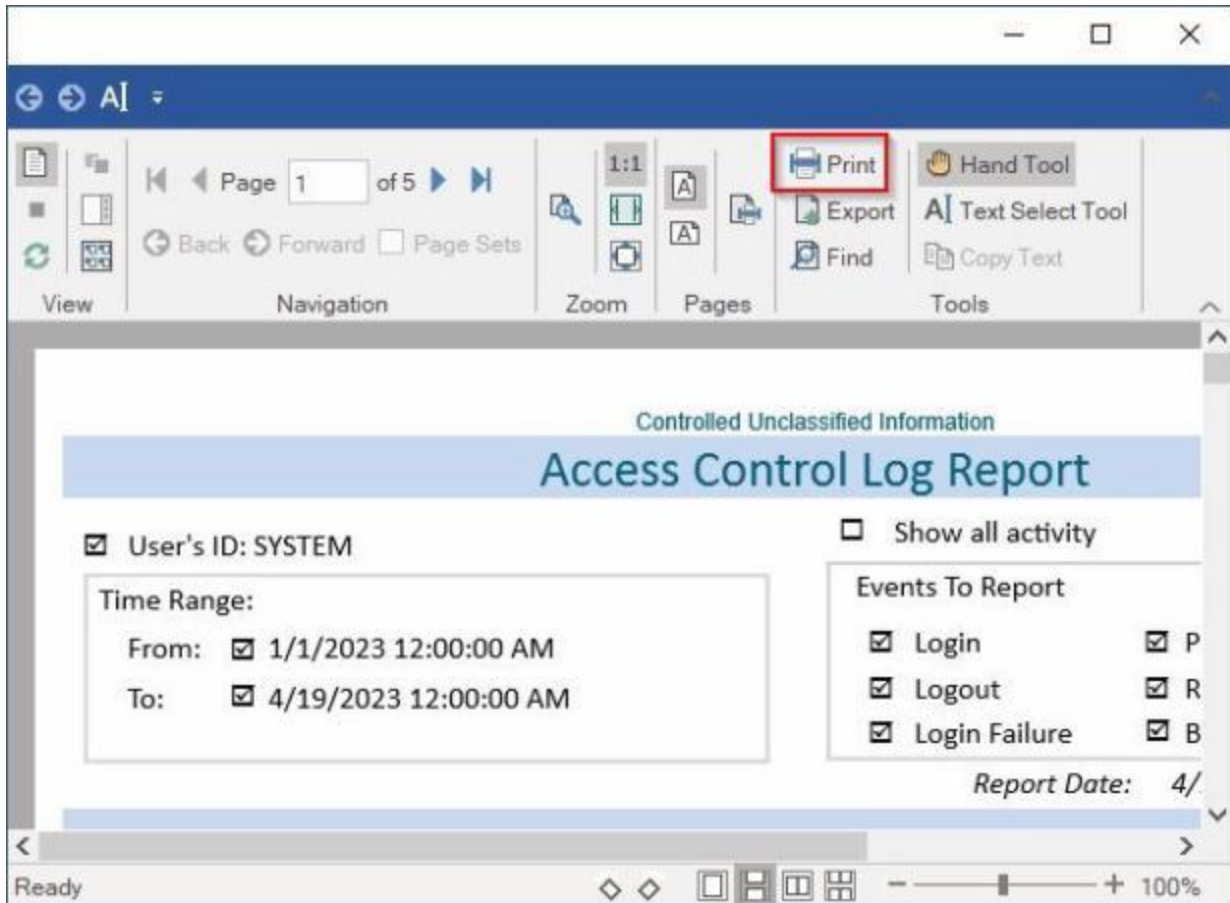

Note: If **no entries** are made at the **Time Range** fields, IATS will generate the report for **all dates** and display the following message.

**Events:**

6. **Show All Activity:** - Click in the **check box** next to the words **Show All Activity** if you wish to generate a report that shows **all** of the **activity** tracked by IATS.
7. **Events to Report:** - If you **did not** place a **check mark** in the box at the **Show All Activity** field, **click** in the **check boxes** to select the **events** you wish to show on the report.
8. **Claim ID:** - If the **By Claim ID** option was **checked**, you **must enter** the **Claim ID Number** in the Claim ID field.
9. If you wish to have a **print-out** of the **Access Control Log Report** or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up* menu will appear allowing you to select **PDF** or **Excel**.

**Print:**

1. **Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

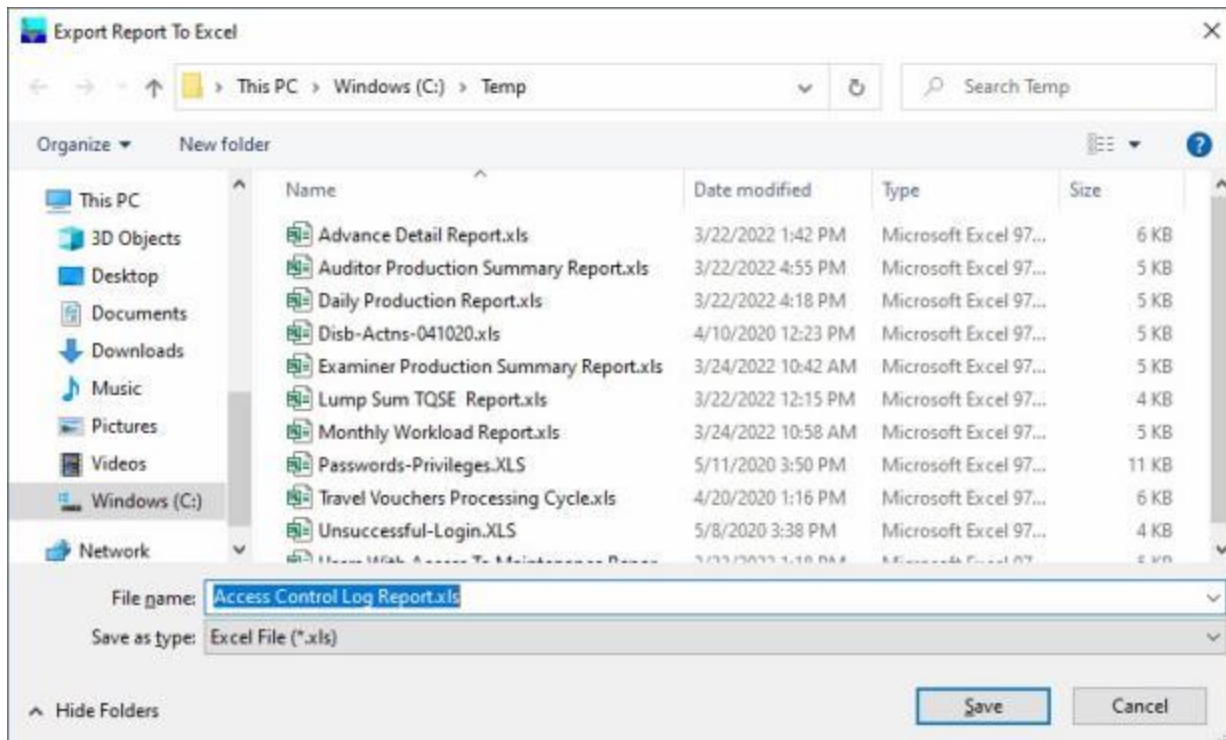

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are finished using the **Access Control Log Report** screen, **click** on the **Close** button to **return** to the **System Administrator View** screen.

Purge:

1. **Click** on the **Purge** button if you wish to **delete** previously generated Access Control Log records. The following **message** will appear asking if you wish to **generate** a **report** of records matching the specified criteria before removal.

2. **Click** on Yes or No as desired.

3. After **generating** the report or answering *No*, another **message** will appear asking if you delete the records matching the specified criteria.

4. **Click** on *Yes* or *No* as desired.
5. If you **click** on *Yes*, IATS will **delete** any records matching the specified criteria and **display** a **message** showing the results.

6. **Click** on **OK** to continue.
7. **Click** on the **Close** button when you are **finished** using the **Access Control Log Report** screen.

Block or Unblock Release of Tax Collections to Disbursing

A feature was added to IATS to allow a System Administrator to **prevent a Tax Collection block or block containing Tax Refund records** from being **released** to the **disbursing** module.

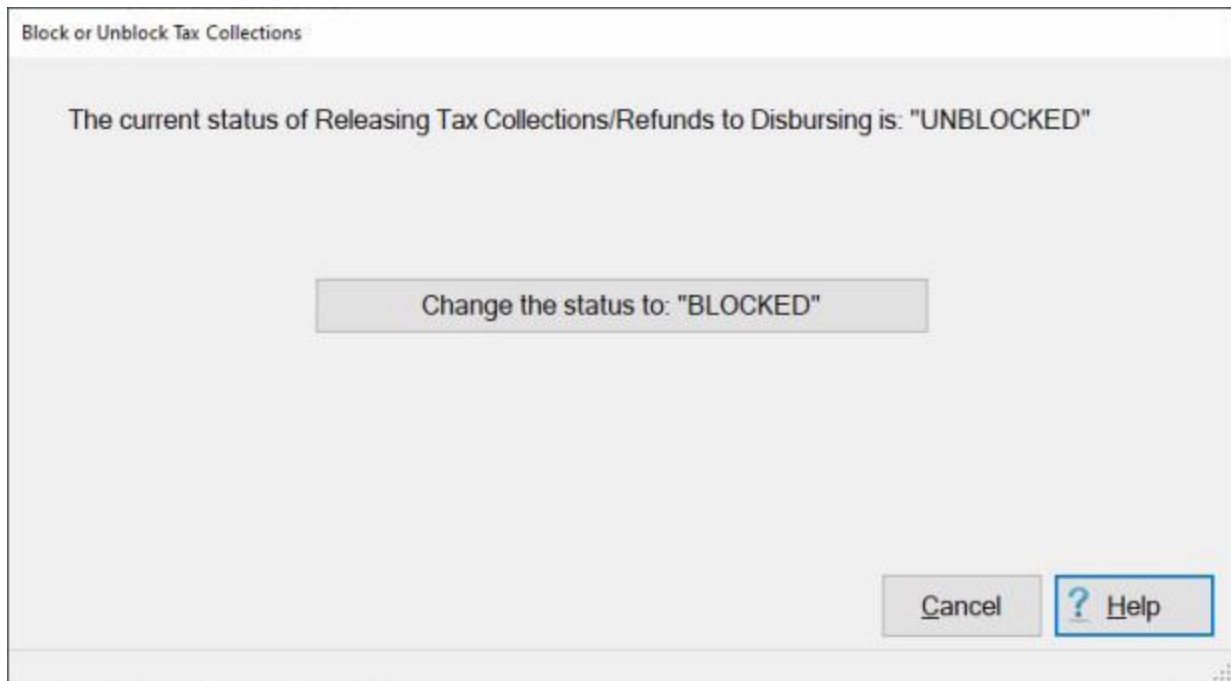

The **purpose** is to give the user **time to reconcile the data** for producing **Form 941-X** or **W-2c** without having any **additional data** added in. Once the appropriate report has been sent to the IRS, the **switch** can be **changed to allow** Tax Collections or Tax Refunds to be dispersed.

Note: In order to use this feature, **ensure** that the **“HHG DPS Interface Active”** check box in **Configuration in Maintenance** is checked as shown below:

System Description	
Standalone	<input type="checkbox"/>
Use Employee ID	<input type="checkbox"/>
Liaison Reports	<input type="checkbox"/>
Reservist Travel	<input type="checkbox"/>
Reason for Delete	<input checked="" type="checkbox"/>
RITA Office Aware	<input checked="" type="checkbox"/>
Prevalidate Accounting	<input checked="" type="checkbox"/>
Forced Audit	<input type="checkbox"/>
Prepayment Audit	<input type="checkbox"/>
EFT Rejects	<input type="checkbox"/>
Auto Delete Blocks	<input checked="" type="checkbox"/>
Email Completed Claims	<input checked="" type="checkbox"/>
HHG DPS Interface Active	<input checked="" type="checkbox"/>
# Days User Suspended till Deleted:	15

Complete the following steps to "block or unblock" a Tax Collection or Tax Refund block:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, **"Utilities"**. An **expandable menu** appears listing the various utility programs.
2. **Click** on the **Block/Unblock Release of Tax Collections/Tax Refunds option**. The following **screen** appears.

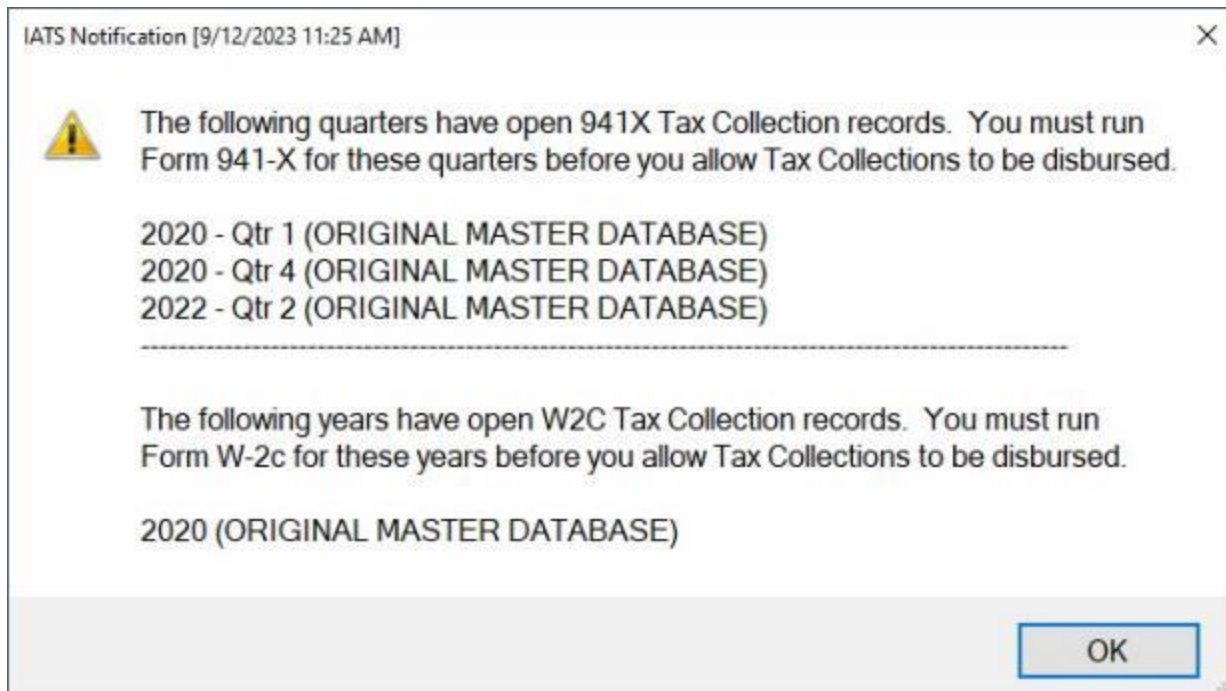

3. **Click** on the **Change the status to: "Blocked"** or the **Cancel** button as applicable.
4. If you **click** on the **Change the status to: "Blocked"** button, IATS will **display** the following *pop-up message*.

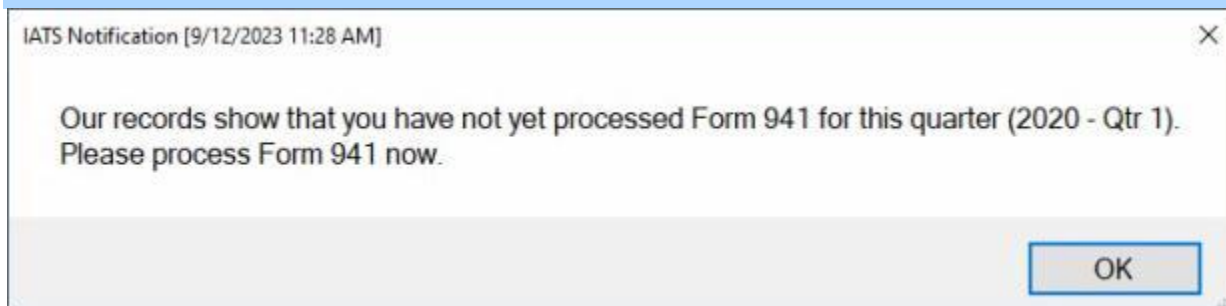

5. **Click** on **OK** to continue.
6. You may now **proceed** to **generate** the desired **tax forms**.

Note: After the **status** has been **changed** to **Blocked**, you cannot **change** the status back to **Unblocked** until all of the required **tax forms** have been **generated** and the **books** have been **closed** for any year having **open** tax collection or tax refund records. If you **attempt** to use the **Utility** program and **change** the status to **Unblocked**, the following **display** will appear if **open tax collection or tax refund records** are still existing:

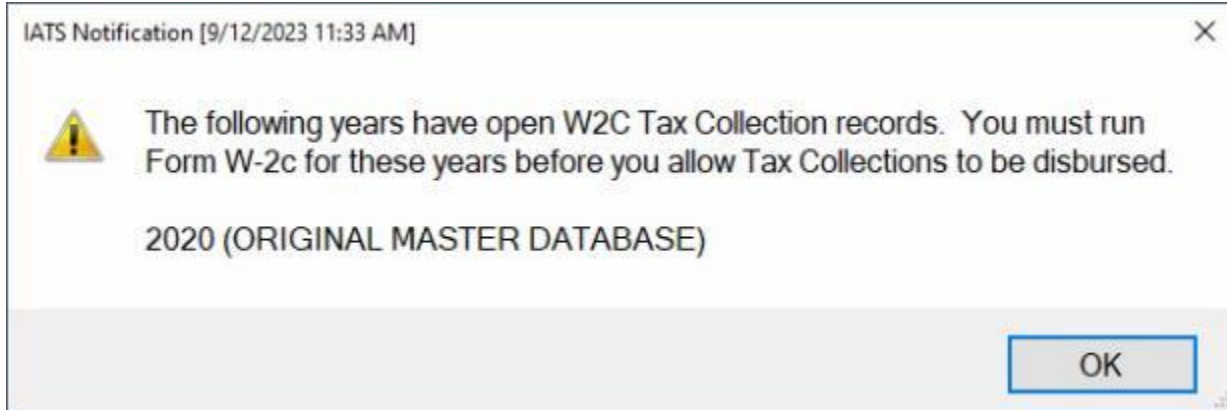

You must now generate the **941 forms** for any **quarters** with open records and **W2 forms** for any **years** with open records.

Note: If at this point, the you attempt to run **Form 941-X** for any of these quarters and if the corresponding **Form 941** has not been run yet, you will receive the following message:

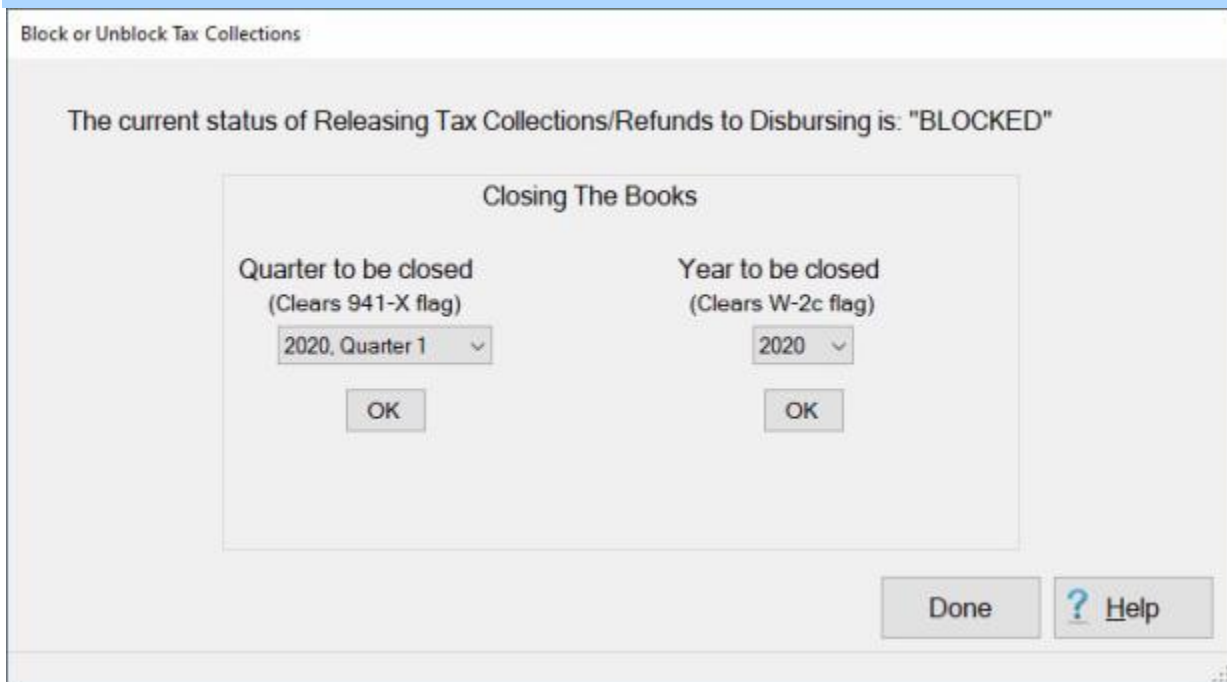

Note: After Forms 941 and 941-X have been run and you try to **Unblock Release of Tax Collections/Refunds**, you will receive the following message:

Note: If you try to run **Form W-2c** and the corresponding **W-2** has not yet been run, you will receive the following message:

Note: IATS records Forms W-2c and **W-2**, only they were run for all travelers in the office (i.e. beginning and ending SSN are left blank). After both forms are run and you try to **Unblock Release of Tax Collections/Refunds**, you will be prompted to “**Close the Books**”:

Note: If your organization has **multiple offices** within you database, you must **repeat** these **steps** to **generate** the **Forms 941, 941X, W2, and W2C**, to **close** the open Tax Collection or Tax Refund Records for every office before you can **Close the Books** and **Unblock the Release of Tax Collections or Tax Refunds**.

Click on the **See Also** button below for a **list** of the additional Help **topics** related to **Tax Reporting Safeguards** and then **click** on the topic "**Closing the Books for Tax Collection Records**".

Change Bank Routing Number

Bank Routing Numbers are stored in the IATS database for each travel account that is set-up for **EFT** payments.

If the bank or financial institution **changes** it's routing number, this requires a **change** to **each** travel **account** with that institution's code.

This commonly occurs when financial institutions are **sold** or **acquired** by another company.

The change of a bank routing code could affect thousands of travel accounts. For this reason, a **utility program** was developed to make a global change to every account storing the old routing number. This **prevents** the travel office from manually updating these records, which **saves** valuable **man hours** and **eliminates** input **errors**.

 Complete the following steps to "change" the Bank Routing Number:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various utility programs.
2. **Click** on the **Change Bank Routing Number** option. The **Change Bank Routing Number for All Travelers** screen appears.

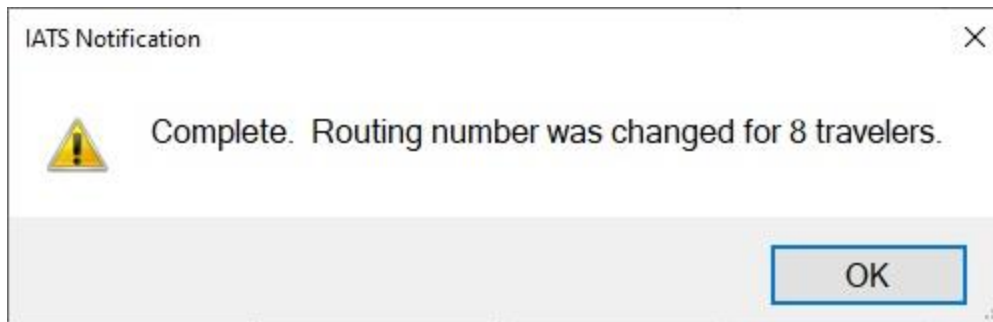

Utility - Change Bank Routing Number For All Travelers

Old Bank Routing Number	111111118
New Bank Routing Number	222222228
Confirm New Bank Routing Number	222222228

OK Cancel ? Help

Reenter the new routing number.

3. **Old Bank Routing Number:** - At this field, **type** the old **Bank Routing Number** and **press Tab**.
4. **New Bank Routing Number:** - At this field, **type** the new **Bank Routing Number** and **press Tab**.
5. **Confirm New Bank Routing Number:** - At this field, **re-type** the new **Bank Routing Number** and **press Tab**.
6. After re-entering the new **Bank Routing Number** at the **Confirm New Bank Routing Number** field, **click** on the **OK** button.
7. IATS **changes** the routing numbers and **displays** a *pop-up* indicating that the change was made.

8. **Click** on the **OK** button at the *pop-up* displayed above. IATS **returns** to the **System Administrator View** screen.

Change DSSN ITR

The **DSSN-ITR** is a **number** used to **identify** the **source** of the **payment** when a payment is **disbursed** at a **DSSN** other than where the voucher was **computed**. Because of the opening of the many new DFAS Operating Locations (**OPLOCS**), some travel offices have **closed** and **transferred** their **accounts** to the **OPLOCS**.

When this occurs, the **DSSN-ITR numbers** stored in the travel accounts being transferred must be changed to the new station's **DSSN-ITR**.

 Complete the following steps to "change" the DSSN-ITR:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various utility programs.
2. **Click** on the **Change DSSN-ITR** option. The **Change DSSN-ITR for All Travelers** screen appears.

Utility - Change DSSN-ITR For All Orders

Old DSSN-ITR	6416
New DSSN-ITR	5150
Confirm New DSSN-ITR	5150

OK Cancel ? Help

Reenter the new DSSN-ITR.

3. **Old DSSN-ITR:** - At this field, **type** the old **DSSN** and **press** *Tab*.
4. **New DSSN-ITR:** - At this field, **type** the new **DSSN** and **press** *Tab*.
5. **Confirm New DSSN-ITR:** - At this field, **re-type** the new **DSSN** and **press** *Tab*.
6. After re-entering the new **DSSN-ITR** at the **Confirm New DSSN-ITR** field, **click** on the **OK** button.
7. IATS **changes** the DSSNs and **displays** a *pop-up* indicating that the change was made.

IATS Notification

 Complete. DSSN was changed for 28 orders.

OK

8. **Click** on the **OK** button at the *pop-up* displayed above.
9. IATS **returns** to the **System Administrator View** screen.

Change Paying DSSN

Because of the opening of the many new DFAS Operating Locations (**OPLOCS**), some travel offices have **closed** and **transferred** their **accounts** to the **OPLOCS**.

When this occurs, the **DSSN numbers** stored in the travel accounts being transferred must be changed to the new accountable **DSSN**.

 Complete the following steps to "change" the Paying DSSN:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various utility programs.
2. **Click** on the **Change Paying DSSN** option. The **Change DSSN for All Travelers** screen appears.

Utility - Change DSSN For All Travelers

Old DSSN	8522
New DSSN	3084
Confirm New DSSN	3084

OK Cancel ? Help

Reenter the new DSSN.

3. **Old DSSN:** - At this field, **type** the old DSSN and **press Tab**.
4. **New DSSN:** - At this field, **type** the new DSSN and **press Tab**.
5. **Confirm New DSSN:** - At this field, **re-type** the new DSSN and **press Tab**.
6. After re-entering the new DSSN at the **Confirm New DSSN** field, **click** on the **OK** button.
7. IATS **changes** the DSSNs and **displays** a *pop-up* indicating that the change was made.

IATS Notification

 Complete. DSSN was changed for 6 travelers.

OK

8. **Click** on the **OK** button at the *pop-up* displayed above.
9. IATS **returns** to the **System Administrator View** screen.

Using the IATS Dashboard

IATS includes basic **dashboard** to **display** the most common **totals** that represent the current workload and to **provide a central place** where additional actions can be performed.

The IATS Dashboard screen is used to **display** this information and **perform** these actions.

The screenshot shows the IATS Dashboard interface. At the top, there's a title bar 'IATS Dashboard' and a refresh icon. Below it is the 'Claims per Status' section with a table:

Pending Examiner	Assigned To Examiners	Pending Audit	Assigned To Auditors	Awaiting Release	Pending Disbursement	Total Claims On Hand
0	31	0	4	2	13	50

Below this table is a red-bordered box with the text: "Double Click to View Blocks in the Corresponding Status".

The next section is 'Imported Today' with a value of 0. To its right is a table with columns 'User', 'Examiner', and 'Auditor':

User	Examiner	Auditor
APHILLEY	1	0
DAVE	2	0
EFERRAR	1	0
SYSTEM	27	4

Below this table are two red-bordered boxes: "Assign Blocks to Examiner" and "Assign Blocks to Auditor".

To the right of the 'Imported Today' table is the 'Oldest Claim On Hand' section with details:

TONO: 5058208223
 Block: 229481
 Created: 10/9/2019
 Status: Assigned to Auditor
 User: EFERRAR

Below this is a red-bordered box: "Double Click to View Voucher".

At the bottom right are 'Close' and '? Help' buttons.

The dashboard **displays** at a glance the **totals** for the number of claims:

- In Logged status
- Currently assigned to an Examiner
- Pending Audit
- Currently assigned to an auditor
- Awaiting Release
- Currently awaiting disbursing
- Total number of claims on hand in the workflow

In addition to these totals, the Dashboard attempts to **list** the number of claims imported into the travel system as indicated by each claim's "**Foreign System**" code which is set during the import process.

Of the claims on hand the Dashboard attempts to **identify** the oldest claim currently in the database.

Finally, all IATS users are **listed** in a grid along with the number of claims currently assigned to each either for examination or audit. If you **click** in the **heading** for **User**, **Examiner**, or **Auditor**, IATS will **sort** the **column**. **Users** will be sorted in **alphabetical order** and the other columns will be sorted from **lowest to highest** or **highest to lowest**.

The various **total-boxes** are "**clickable**" as indicated below each. This allows the Administrator to directly view all the blocks of a particular status instead of the familiar "**View Blocks**" System Administrator menu options.

In addition, **quick-links** are provided in the bottom-middle of the screen to provide access to the familiar **“Assign Blocks”** modules for both Examiners and Auditors.

Deleted Details Report

Some requests received in the travel office **cannot be processed**. There are various reasons for this - no signature on the voucher, no attached travel orders, etc.

IATS allows users with the appropriate privileges to **delete** these requests. The **Delete Details Report** screen allows users to generate a report detailing the following items:

- Logged advances or settlements deleted by a user
- Computed advances or settlements deleted by a user
- Travel Orders that have been deleted by a user
- Travel Accounts/Profiles that have been deleted by a user

Complete the following steps to "run" the Deleted Details Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various utility programs.
2. **Click** on the **Deleted Details Report** option. The **Deleted Details Report** screen appears.

Query By Traveler

1. **Click** in the **circle** next to the word **Traveler** if you wish to generate the report details for a particular traveler.
2. **Find ID:** - At the **Find ID** field, **type** the SSN of the travel account you wish to generate the report for and then **press Tab**.
3. **Traveler Name:** - If the **correct** SSN was entered, the traveler's **name** will automatically appear in the **Name** field.
4. **Begin Date for Print:** - This is an **optional** field. If you wish, however, to generate the report from a specific beginning date, **type** the desired **date** at this field in **MMDDYY** format and then **press Tab**. You can also **click** on the **down arrow** button and use the **calendar** to select the date.

5. **End Date for Print:** - This is an **optional** field. If you wish, however, to generate the report for a specific ending date, **type** the desired **date** at this field in **MMDDYY** format and then **press Tab**. You can also **click** on the **down arrow** button and use the **calendar** to select the date.

Query by IATS User

1. **Click** in the **circle** next to the words **IATS User** you wish to generate the report details for a particular user. When this option is selected, you will see a **drop down list** of IATS users at the **IATS User Name** field.

2. **Click** on the desired **user name** to make your selection.
3. **Begin Date for Print:** - This an **optional** field. If you wish, however, to generate the report from a specific beginning date, **type** the desired **date** at this field in **MMDDYY** format and then **press Tab**. You can also **click** on the **down arrow** button and use the **calendar** to select the date.
4. **End Date for Print:** - This an **optional** field. If you wish, however, to generate the report for a specific ending date, **type** the desired **date** at this field in **MMDDYY** format and then **press Tab**. You can also **click** on the **down arrow** button and use the **calendar** to select the date.

Print / Export:

1. **Click** on the **Print/Export** button if you wish to have a **print-out** of the **Deleted Details Report** or **save** it to an **Excel** file.
2. The following **pop-up menu** will appear allowing you to select **PDF** or **Excel**.

Print:

1. **Click** on the **PDF** option. A **pop-up message** appears asking if you wish to print with the traveler's **SSN** masked.

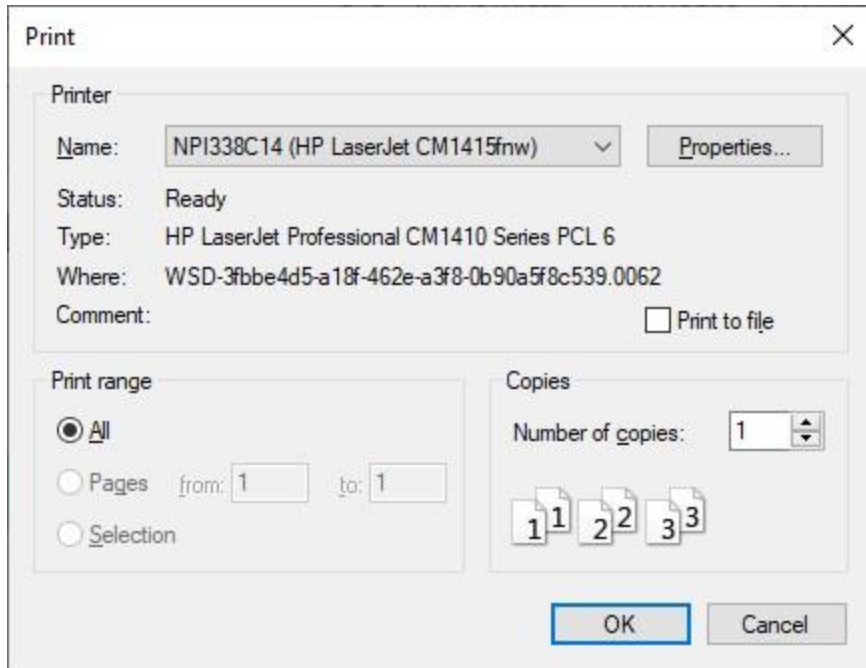

2. Click on **Yes** or **No** as desired. A **pop-up message** appears indicating that the report will **print all records** for the **selected traveler** or **IATS user** and asking if you wish to continue.
3. Click on **Yes** or **No** as desired.
4. If you click on **Yes**, the following **IATS Report Viewer** screen will appear.

5. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
6. If you click on the **Print** icon, IATS will display the **Print** screen.

7. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
8. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option. A **pop-up message** appears asking if you wish to print with the traveler's **SSN** masked.
2. **Click** on **Yes** or **No** as desired. A **pop-up message** appears indicating that the report will **print all records** for the **selected traveler** or **IATS user** and asking if you wish to continue.
3. **Click** on **Yes** or **No** as desired. IATS will display the **Export Report to Excel** screen.

4. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to **save** the Excel file to.
5. **Enter** the desired **name** for the file at the **File name** field.
6. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
7. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
8. **Click** on the **(X)** button at the top right corner of the **Excel** screen displaying the report to **close** the screen when you are finished.

Purge

1. After the report is printed, the **Purge** button will be accessible. If you wish to purge the report from your database, **click** on the **Purge** button.
2. A **pop-up message** will appear indicating that all records will be purged **60 days prior to today's date** or **60 days prior** to the **date** entered at the **Begin Date for Print** field. The pop-up message will also ask whether you want to change the date. You would **click** on **Yes** or **No** as desired.
3. If you click on **Yes**, the **Date of Purge** field will be highlighted and you **must enter** the desired purge date in **MMDDYY** format. You can also **click** on the **down arrow** button and use the **calendar** to select the date.
4. If you click on **No**, a pop-up message appears asking if you want to begin the purge. **Click** on **Yes** or **No** as desired.
5. When you click on **Yes**, to begin the purge, another **pop-up** message appears asking if you wish to print all records being purged. **Click** on **Yes** or **No** as desired.
6. IATS purges the table and also **prints** the records for the purged items **if** that option was selected.
7. When finished running the Deleted Details Report, **click** on **Exit** to return to the **System Administrator View** screen.

Deleted Traveler Report

As a travel voucher **examiner**, it may be necessary to **delete** traveler **profiles** on occasion. This commonly occurs when the traveler has **relocated** to a **new** duty **station** and the **account** is **no longer serviced** by your office.

On occasion, a travel voucher examiner **may delete** details that they **should not**. For this reason, a report was added to IATS that will show the **reason** the profile was deleted, the **date** deleted, and the **examiner** that performed the deletion.

The **Delete Traveler Report** screen allows users to generate a report detailing the following items:

- Travel Accounts/Profiles that have been deleted by a user
- The date of deletion
- The name of the person who deleted the account
- The reason the account was deleted

Complete the following steps to "run" the Deleted Traveler Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Utilities**". An **expandable menu** appears listing the various utility programs.
2. **Click** on the **Deleted Travelers Report** option. The **Deleted Traveler Report** screen appears.

Query By Traveler

1. **Click** in the **circle** next to the word **Traveler** if you wish to generate the report details for a particular traveler.
2. **Find ID:** - At the **Find ID** field, **type** the SSN of the travel account you wish to generate the report for and then **press Tab**.
3. **Traveler Name:** - If the **correct** SSN was entered, the traveler's **name** will **automatically** appear in the **Name** field.

4. **Begin Date for Print:** - This an **optional** field. If you wish, however, to generate the report from a specific beginning date, **type** the desired **date** at this field in **MMDDYY** format and then **press Tab**.
5. **End Date for Print:** - This an **optional** field. If you wish, however, to generate the report for a specific ending date, **type** the desired **date** at this field in **MMDDYY** format and then **press Tab**.

Query by IATS User

1. **Click** in the **circle** next to the words **IATS User** you wish to generate the report details for a particular user.
2. **IATS User Name:** - **Click** on the *down arrow* button to **display** a *drop down list* of IATS user.

3. **Click** on the desired **user name** to make your selection.
4. **Begin Date for Print:** - This an **optional** field. If you wish, however, to generate the report from a specific beginning date, **type** the desired **date** at this field in **MMDDYY** format and then **press Tab**.
5. **End Date for Print:** - This an **optional** field. If you wish, however, to generate the report for a specific ending date, **type** the desired **date** at this field in **MMDDYY** format and then **press Tab**.

Print / Export:

1. **Click** on the **Print/Export** button if you wish to have a **print-out** of the **Deleted Traveler Report** or **save** it to an **Excel** file.
2. The following *pop-up menu* will appear allowing you to select **PDF** or **Excel**.

Print:

1. **Click** on the **PDF** option. A **pop-up message** appears asking if you wish to print with the traveler's **SSN** masked.

2. **Click** on *Yes* or *No* as desired. A **pop-up message** appears indicating that the report will **print all records** for the **selected traveler** or **IATS user** and asking if you wish to continue.
3. **Click** on *Yes* or *No* as desired.
4. If you click on *Yes*, the following **IATS Report Viewer** screen will appear.

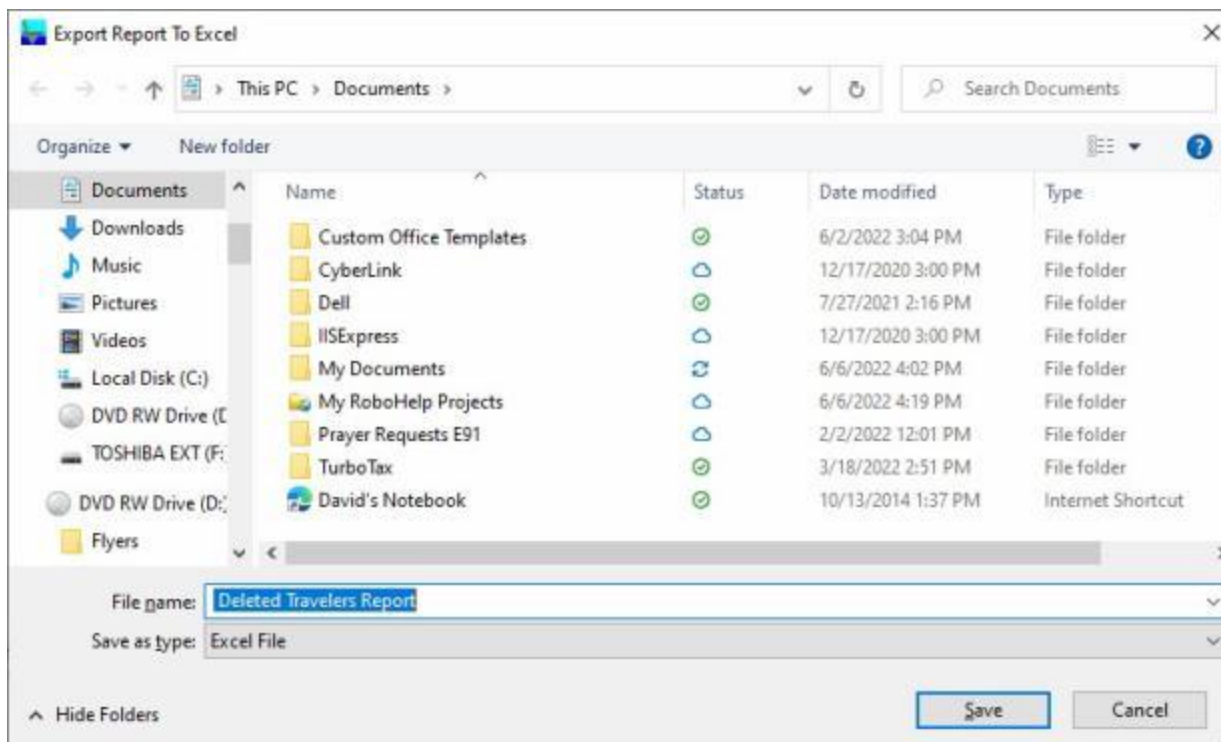

5. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
6. If you click on the **Print** icon, IATS will display the **Print** screen.

7. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
8. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option. A *pop-up message* appears asking if you wish to print with the traveler's **SSN** masked.
2. **Click** on *Yes* or *No* as desired. A *pop-up message* appears indicating that the report will **print all records** for the selected traveler or **IATS user** and asking if you wish to continue.
3. **Click** on *Yes* or *No* as desired. IATS will display the **Export Report to Excel** screen.

4. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to **save** the Excel file to.
5. **Enter** the desired **name** for the file at the **File name** field.
6. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
7. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
8. **Click** on the **(X)** button at the top right corner of the **Excel** screen displaying the report to **close** the screen when you are finished.

Purge

1. If you wish to purge the report from your database, **click** on the **Purge** button.
2. The following **pop-up message** will appear indicating that all records will be purged **60 days prior** to the **current date**. The pop-up message will also ask whether you want to change the date. You would **click** on Yes or No as desired.

3. If you click on Yes, the **Date of Purge** field will be highlighted and you must **enter** the desired purge date in **MMDDYY** format.
4. If you click on No, a pop-up message appears asking if you want to **begin** the purge. **Click** on Yes or No as desired.

5. When you click on *Yes*, to begin the purge, another *pop-up* message appears asking if you wish to print all records being purged. **Click** on *Yes* or *No* as desired.
6. IATS purges the table and also **prints** the records for the purged items if that option was selected.
7. When finished running the Deleted Traveler Report, **click** on **Exit** to return to the **System Administrator View** screen.

Dump CMET Table

Navy accounting **appropriations** are stored in the IATS database in a **CMET table**. IATS users can **automatically pull** the full appropriation from the table just by entering the Bureau Control Number Codes (**BCN**). This saves many keystroke entries, and increases accuracy.

Ordinarily, travel offices will **process a download** file containing the CMET Database to **populate** the CMET Table.

IATS contains a **Utility** program that allows you to **export the CMET table** from one IATS database that can be **imported** into another IATS database. This feature provides an efficient means of managing multiple IATS databases.

 **Complete the following steps to "export" the CMET table:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Utilities**". An **expandable menu** appears listing the various utility programs.
2. **Click** on the **Dump CMET Table** option.
3. After clicking on the **Dump CMET Table** option, IATS **automatically creates** an export file of the data contained in the CMET table.
4. The **exported CMET file** will be **found** in the **directory** that was established in the **Maintenance** module for **Uploads** as demonstrated in the following screen.

IATS Configuration (ORIGINAL MASTER DATABASE)

Customer: Navy

Interface File Directories

Download Directory	c:\DOWNLOAD	Browse
Upload Directory	c:\UPLOAD	Browse
Image Directory	C:\DOWNLOAD	Browse

Tip: The exported CMET file will be a **dat** file named **CMET**. This file can then be **imported** into another IATS database by the system administrator.

Refer to the **Help** topic, "[Process CMET Download File](#)", for **instructions** on how to **import** the CMET file.

EFT Change Report - Traveler

IATS generates a **report** that lists all travel **accounts** having a **change** made to the **EFT account data** residing in the IATS database. This will be a useful tool for supervisors needing to research a traveler's account history when problems arise with EFT payments.

Note: This report can be generated for either **travel accounts** that have been changed or for **users** that made changes to EFT account data.

 **Complete the following steps to "generate" the EFT Change Report for a Traveler:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various report options.
2. **Click** on the **EFT Change Report - Traveler** option. The **EFT Change Report - Traveler** screen appears.

EFT Change Report - Traveler

SSN DoD ID

SSN (optional):

Begin Date (optional)

End Date (optional)

Enter the starting date for the report or the last date for a purge

Note: Entering an **SSN** a **Beginning Date** and **Ending Date** is **optional**. If not entered, IATS **displays** a **pop-up** asking the user if they are **sure** they wish to **print all** EFT changes.

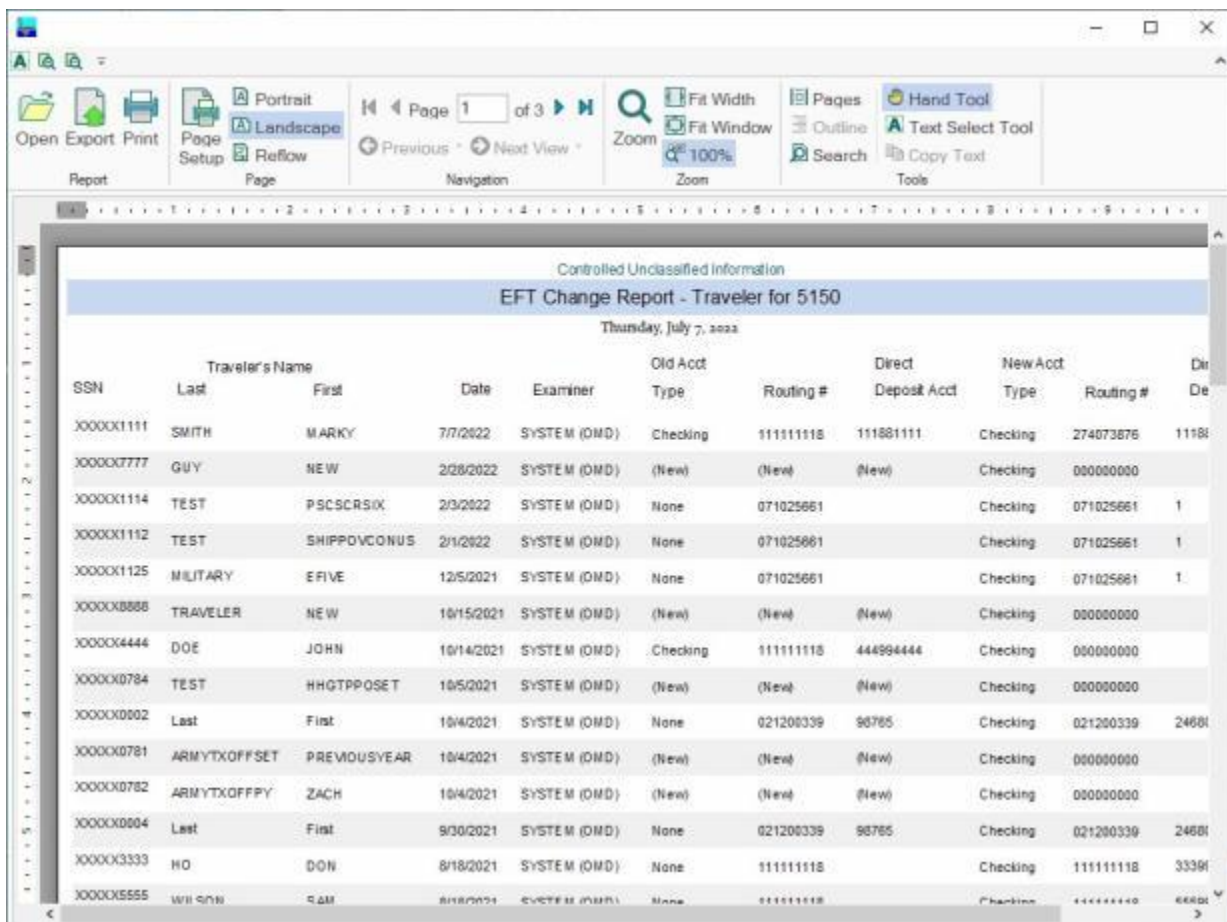

3. **SSN (optional):** - IATS allows you to generate the EFT Change Report for a specific traveler. At this field, **click** in the appropriate **radio button** to **select** your search **by** either **SSN** or **DoD ID**. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field. If no SSN or DoD ID is entered, IATS generates this report for all traveler **accounts** that have had a **change** made to their EFT account **information**.

4. **Begin Date:** - IATS allows you to generate the EFT Change Report for a period beginning with a specific date if a **date** is **entered** at this field. If no date is entered, IATS generates this report for all traveler **accounts** that have had a **change** made to their EFT account **information**.
5. **End Date:** - IATS allows you to generate the EFT Change Report for a period ending with a specific date if a **date** is **entered** at this field. If no date is entered, IATS generates this report for all traveler **accounts** that have had a **change** made to their EFT account **information**.
6. If you wish to have a **print-out** of the **EFT Change Report for a Traveler** or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up* menu will appear allowing you to select **PDF** or **Excel**.

Print:

1. **Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

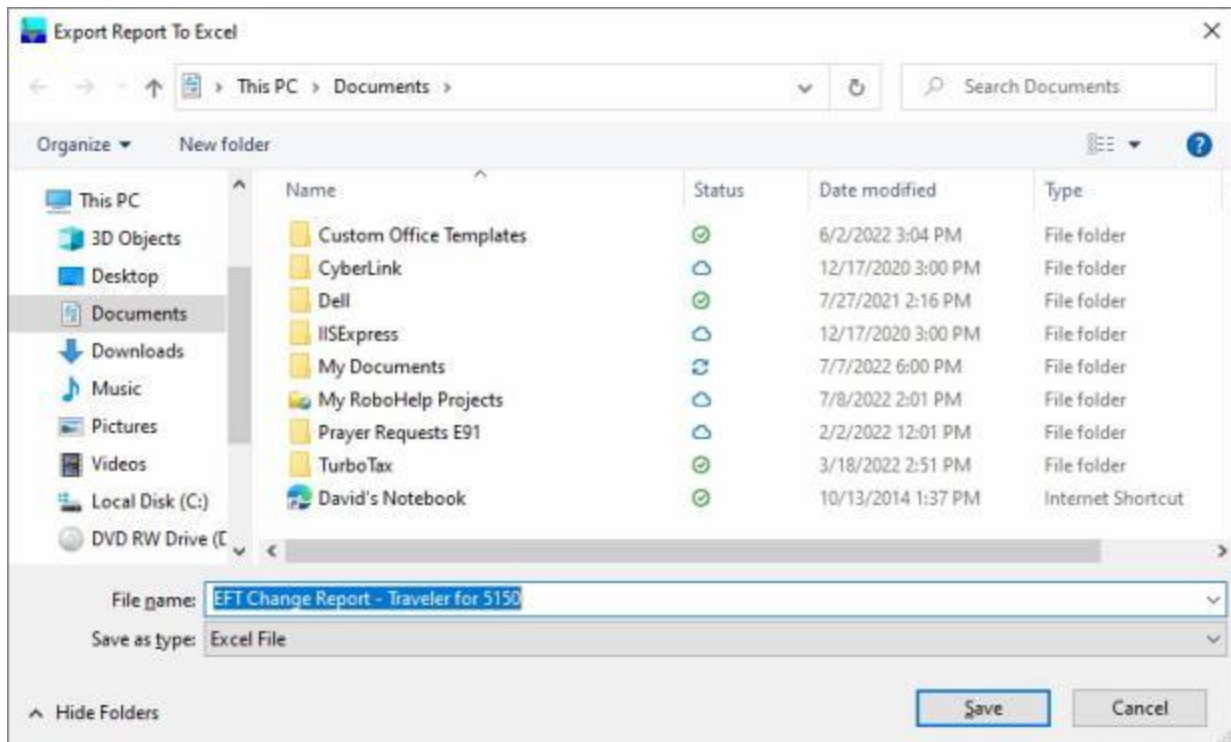

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the top right corner of the **Excel** screen displaying the report to **close** the screen when you are finished.

Purge:

After you have printed the EFT Change Report for travelers, you may want to **purge** the file so that the next time you run the report, you will only generate data for **new changes** that have been since the purge was last run.

1. To purge the file, **click** on the **Purge** button. A *pop-up message* will appear asking you to **enter** a Purge through date. **Click** on **OK** to continue.
2. Next you would **click** in the **Begin Date** field and then **type** the desired Purge through **date**.

Note: The Purge through date must be at least **60 days** prior to the current date. If you have entered at date that is less than 60 days prior to the current date you will see a *pop-up message* stating so. You would **click** on **OK** and re-enter the appropriate date at the **Beginning Date** field.

3. Once you have a correct Purge through **date** entered, **click** on the **Purge** button again. Another *pop-up message* appears asking if you wish to purge all EFT records prior to the date entered. **Click** on **Yes** or **No** as desired.
4. IATS purges the file and displays a **message** that all EFT change records prior to the date entered were purged. **Click** on **OK** to continue.

When you are **finished** using the **EFT Change Report - Traveler** screen, **click** on the **Exit** button to **return** to the **System Administrator View** screen.

EFT Change Report - User

IATS generates a **report** that lists all travel **accounts** having a **change** made to the **EFT account data** residing in the IATS database. This will be a useful tool for supervisors needing to research a traveler's account history when problems arise with EFT payments.

 Complete the following steps to "generate" the EFT Change Report for users:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various report options.
2. **Click** on the **EFT Change Report - User** option. The **EFT Change Report - User** screen appears.

The screenshot shows a web-based form titled "EFT Change Report - User". At the top, there is a dropdown menu labeled "User's Name (required)". Below this are two more dropdown menus: "Begin/Purge Through Date" and "End Date (optional)". At the bottom of the form area, there are four buttons: "Print / Export", "Purge", "Exit", and "? Help". The status bar at the very bottom of the window displays "Select User for Report".

3. **User's Name:** - At the User's Name field, **click** on the *down arrow* button. A **list** will appear displaying the **names** of all **users** assigned to the particular office. You would then **click** on the desired user's **name**.
4. **Begin/Purge Through Date:** - IATS allows you to generate the EFT Change Report for a period beginning with a specific date if a **date** is **entered** at this field. If no date is entered, IATS generates this report for all traveler **accounts** that have had a **change** made to their EFT account **information**. Either **type** a date in **MM/DD/YY** format or **click** on the *down arrow* button and use the **calendar** to select a date.
5. **End Date:** - IATS allows you to generate the EFT Change Report for a period ending with a specific date if a **date** is **entered** at this field. If no date is entered, IATS generates this report for all traveler **accounts** that have had a **change** made to their EFT account **information**. Either

type a date in **MM/DD/YY** format or **click** on the **down arrow** button and use the **calendar** to select a date.

- If you wish to have a **print-out** of the **EFT Change Report for a Traveler** or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up* menu will appear allowing you to select **PDF** or **Excel**.

Print:

- Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

- At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
- If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the top right corner of the **Excel** screen displaying the report to **close** the screen when you are finished.

Purge:

1. After you have printed the EFT Change Report for users, you may want to **purge** the file so that the next time you run the report, you will only generate data for **new changes** that have been since the purge was last run.
2. To purge the file, **click** on the **Purge** button. A *pop-up message* will appear asking you to **enter** a Purge through date, if no date was previously entered at the **Begin/Purge Through Date** field. **Click** on **OK** to continue.
3. If no date was previously entered, you would **click** in the **Begin/Purge Through Date** field and then **type** the desired Purge through **date**.

Note: The Purge through date must be at least **60 days** prior to the current date. If you have entered at date that is less than 60 days prior to the current date you will see a *pop-up message* stating so. You would **click** on **OK** and re-enter the appropriate date at the **Begin/Purge Through Date** field.

4. Once you have a correct Purge through **date** entered, **click** on the **Purge** button again. Another *pop-up message* appears asking if you wish to purge all EFT records prior to the date entered. **Click** on **Yes** or **No** as desired.
5. If you click on **Yes**, another *pop-up message* appears asking if you would like to **print** the records being purged first. **Click** on **Yes** or **No** as desired.

6. IATS purges the file and displays a **message** that all EFT change records prior to the date entered were purged. **Click** on **OK** to continue.

When you are **finished** using the **EFT Change Report - User** screen, **click** on the **Exit** button to **return** to the **System Administrator View** screen.

Import DumpData

IATS contains a utility program that will allow data that has been dumped to a file from one travel office to be imported into the IATS database at another travel office. This feature is useful when a traveler switches duty stations.

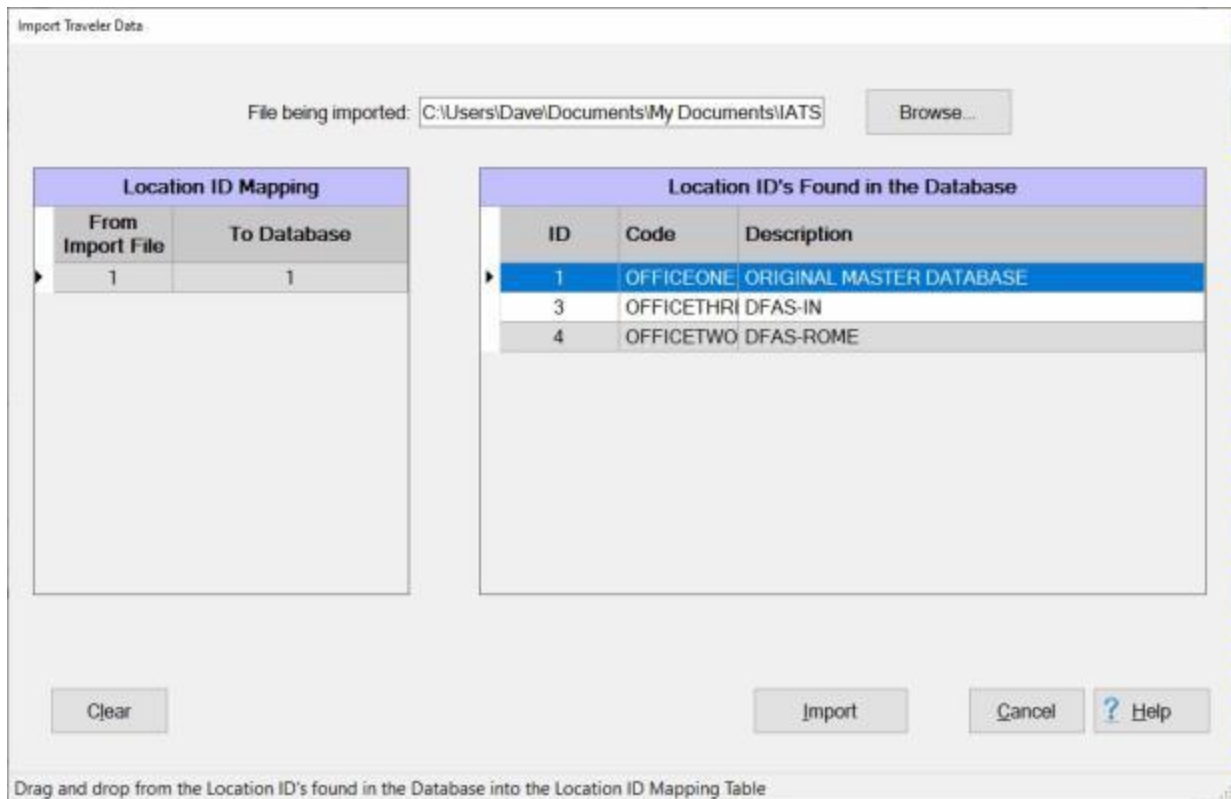

The servicing travel office at the old duty station can dump the departing traveler's data to a file and then forward that data to the servicing travel office at the new duty station. The travel office at the new duty station can then import the DumpData file to create the traveler's history record.

 **Complete the following steps to "import" a DumpData file:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various utility programs.
2. **Click** on the **Import Dump Traveler** option. The **Select Dumpdata.Zip File** screen will appear.

3. Once you have **located** and **selected** the file to be imported, **click** the **Open** button.
4. IATS displays the **Import Traveler Data** screen and the selected file will be displayed at the **File being imported** field.

- If you have more than one office listed under the heading "**Location ID's Found in the Database**", you would first **click** on the desired office you wish to import the file into to highlight the office.
- Next, **place** your mouse **pointer** on the desired office and **hold** down the **right** button.
- Now you will **drag** the **Location ID** **left** to the **Location ID Mapping** section until you see that the listed file is **highlighted** and the **Office ID number** is **displayed** in the **To Database** column.
- When you have selected the correct office and file to import, **Click** on **Import**.
- IATS **imports** the selected file and **displays** the following *pop-up* message:

- Click** on **OK** to return to the **Import Traveler Data** screen.
- If you are **finished** using the **Import Traveler Data** screen, **click** on **Done** to return to the **System Administrator View** screen.

List Travelers EFT Status

On occasion, a supervisor may wish to have a printed listing of every travel **account** in the database that is either **active** or **inactive** for **EFT payments**. This can be accomplished through the IATS **Utility Module**.

 Complete the following steps to "generate" the EFT Status List:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various utility programs.
2. **Click** on the **List Travelers According to EFT Status** option. The **List EFT Account Status** screen appears.

Category	Count	Action
Number of Travelers With Active EFT Accounts:	8	Print Travelers With Active EFT
Number of Travelers With Inactive EFT Accounts:	0	Print Travelers With Inactive EFT
Number of Travelers With No EFT Accounts:	11	Print Travelers With No EFT
Nbr of Travelers with IATSInput EFT Accounts:	8	Print Travelers With IATS Input Active Accts

Click on Done Button to close this window and return to the System Administrator View.

Note: An **inactive EFT account** is one in which EFT account **data** has been **entered** into the traveler's **profile**, but the EFT **status** is set to **Inactive**. **Direct deposits** and **split disbursement** payments cannot be processed for **accounts** that are **inactive** for EFT.

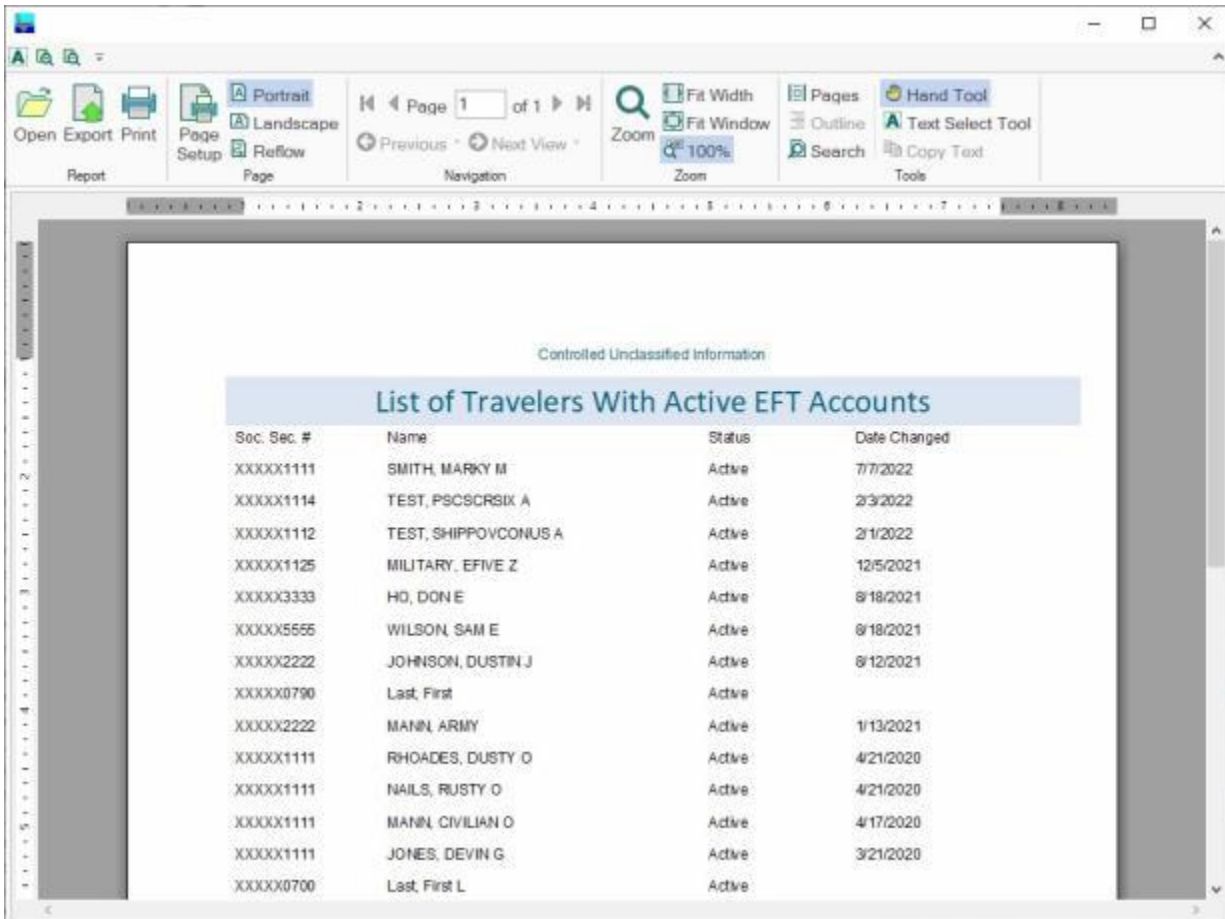

3. **Print Travelers With Active EFT:** **Click** on this **button** to generate a printed listing of every travel **account** in the databases that is **active** for EFT payments.
4. **Print Travelers With Inactive EFT:** **Click** on this **button** to generate a printed listing of every travel **account** in the database that is **in-active** for EFT payments.
5. **Print Travelers With No EFT:** **Click** on this **button** to generate a printed listing of every travel **account** in the database that does not have an EFT account.
6. **Print Travelers With IATS Input Active Accts:** **Click** on this **button** to generate a printed listing of every travel **account** in the databases that is **active** for EFT payments and the accounts were created by manual input through IATS.

- If you wish to have a **print-out** of the **EFT Status Report** or **save** it to an **Excel** file, **click** on any of the **Print buttons**. The following *pop-up* menu will appear allowing you to select **PDF** or **Excel**.

Print:

- Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

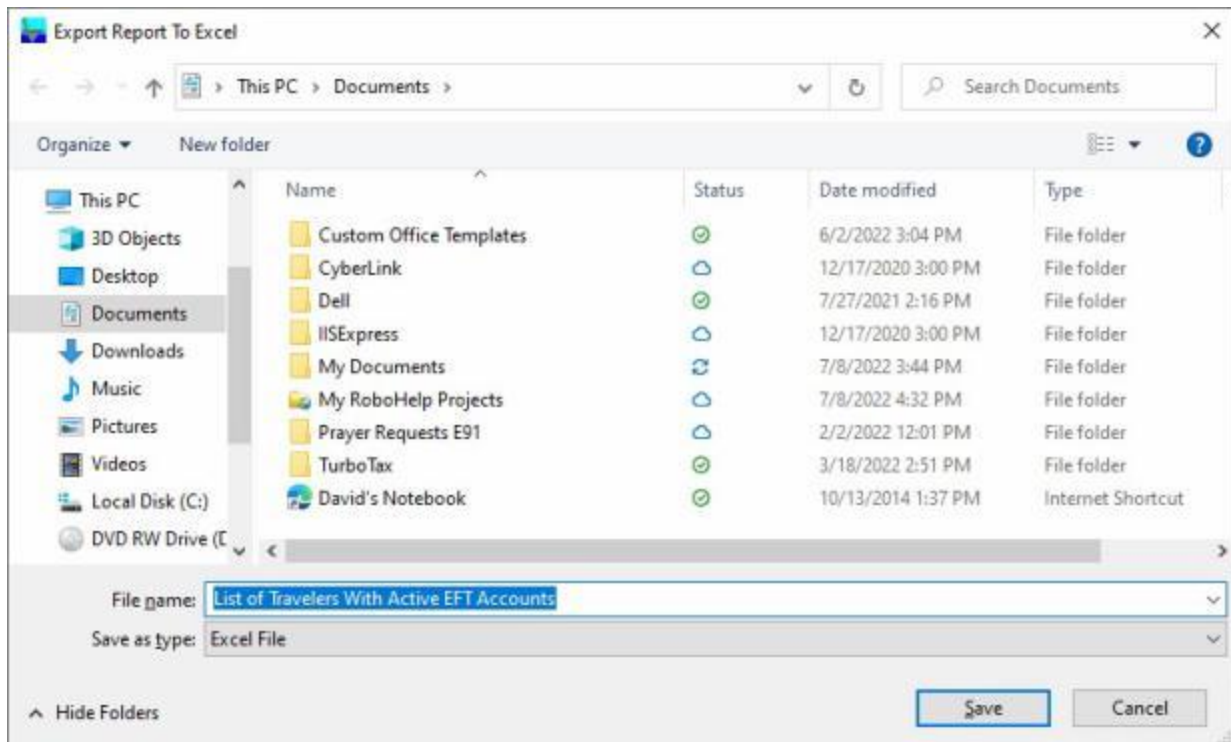

- At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
- If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the top right corner of the **Excel** screen displaying the report to **close** the screen when you are finished.

When **finished** using the **List EFT Account Status** screen, **click** on the **Done** button to **return** to the **System Administrator View** screen.

List Users With Access to Maintenance

On occasion it may be necessary to **determine** which **users** in a travel office have **access** to the IATS **Maintenance** module.

 Complete the following steps to "generate" a list of users with access to the Maintenance module:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Utilities**". An **expandable menu** appears listing the various utility programs.
2. **Click** on the **List Users with Access to Maintenance** option. The **Users With Access to Maintenance** screen appears.

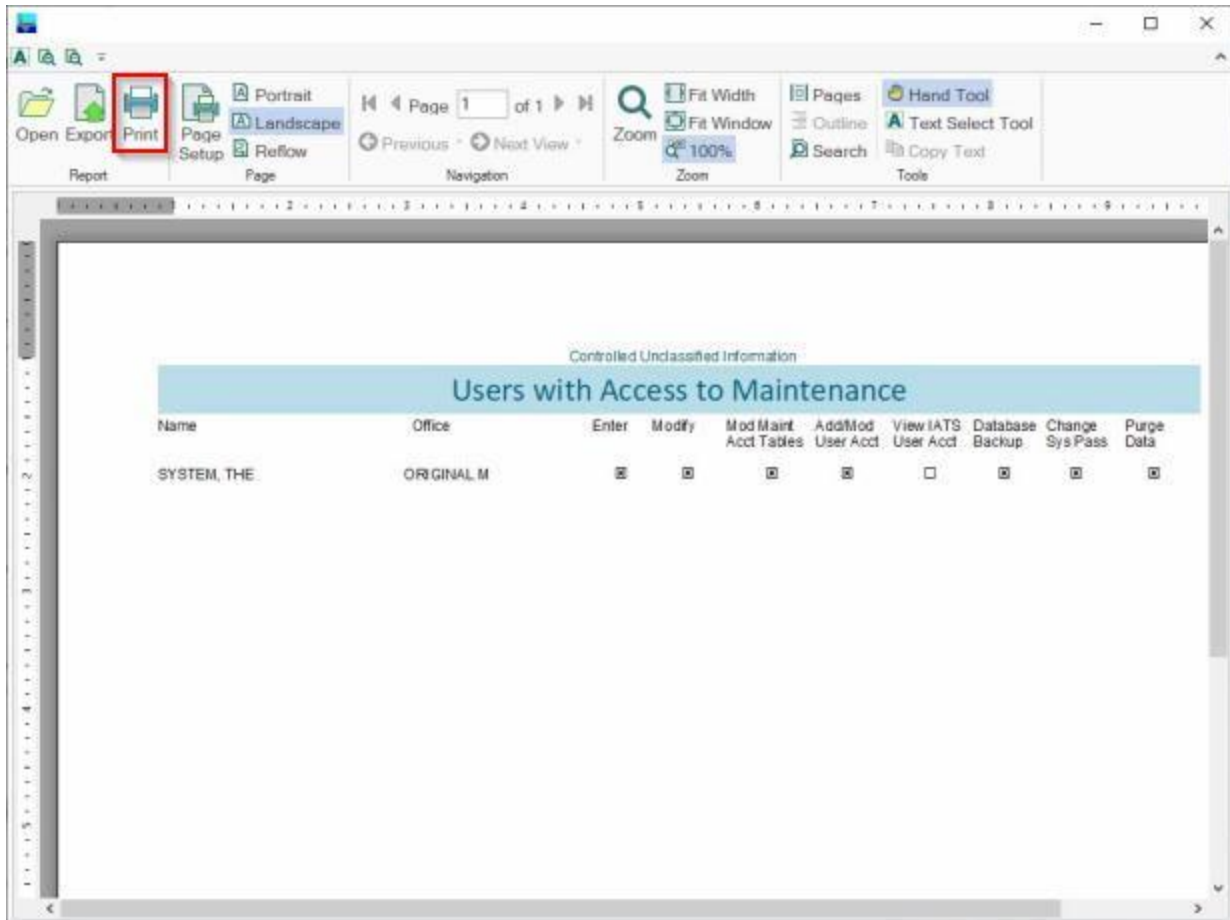

3. The **Users With Access to Maintenance** screen will display a **list** of users that have access to **enter** the Maintenance module and if they have the privilege to **modify** anything within the Maintenance module.
4. If you wish to have a **print-out** of the **Users With Access to Maintenance** report or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up menu* will appear allowing you to select **PDF** or **Excel**.

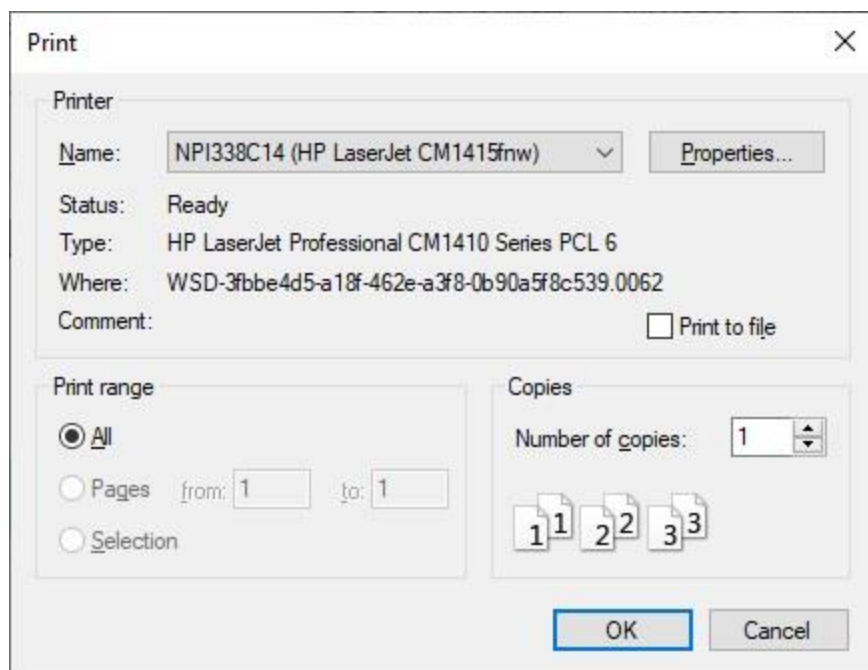

Print:

1. **Click** on the **PDF** option. The [IATS Report Viewer](#) screen will appear.

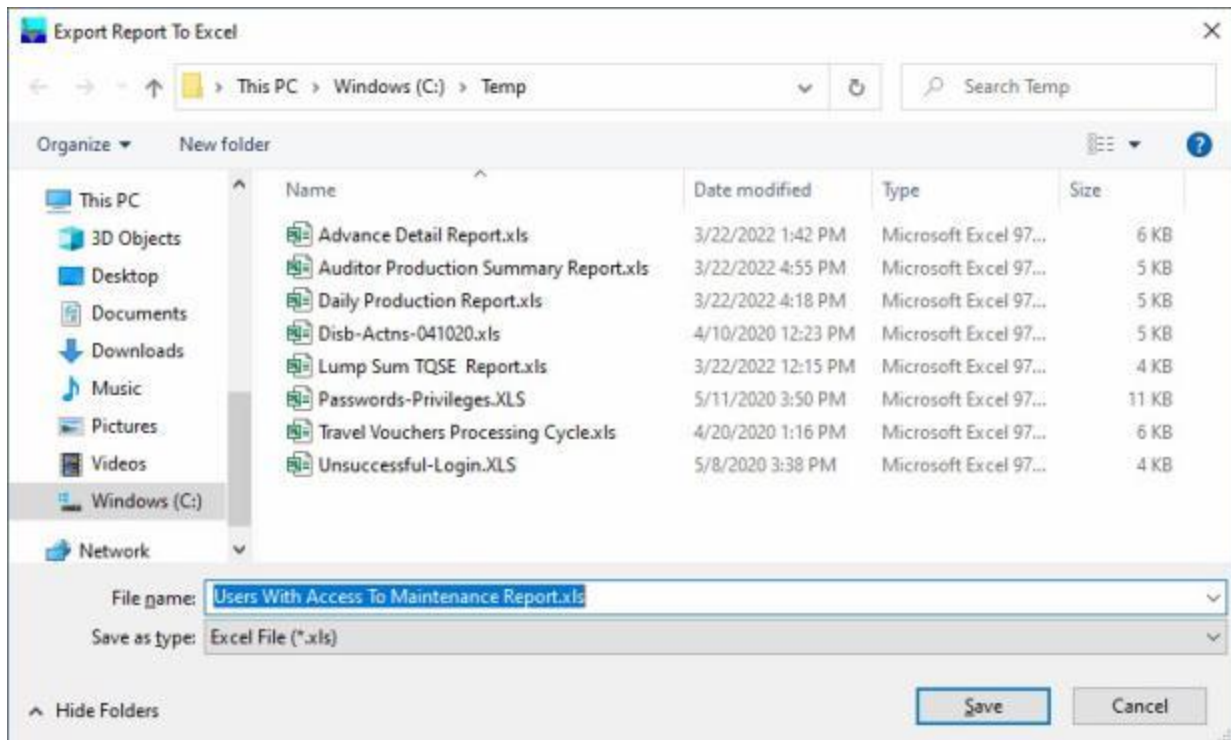

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are finished using the **Users With Access to Maintenance** screen, **click** on the **Exit** button to **return** to the **System Administrator View** screen.

Locked Users Report

In order to comply with the Risk Management Framework (RMF) and Federal Information Systems Controls Audit Manual (FISCAM) security controls, the **Locked Users Report** was added to IATS to **track** individuals making unsuccessful attempts to **access** security files.

 Complete the following steps to "generate" the Locked Users Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various report options.
2. **Click** on the **Locked Users Report** option. The **Locked Users Report** screen appears.

3. **Start Date of Report:** - The current date **defaults** to this field. If desired, enter a different start date in **MMDDYY** format. You may also **click** on the *down arrow* button and use the **calendar** to select the date.
4. **Click** on the **Print/Export** button if you wish to have a **print-out** of the Locked Users Report or **save** it to an **Excel** file.
5. The following *pop-up menu* will appear allowing you to select **PDF** or **Excel**.

Print:

1. **Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

The screenshot shows a web-based report viewer interface. At the top, there is a toolbar with various icons for file operations (Open, Export, Print, Page Setup), page layout (Portrait, Landscape, Reflow), navigation (Page 1 of 1, Previous, Next View), zoom (Zoom 100%, Fit Width, Fit Window), and search (Search, Copy Text). Below the toolbar, the report content is displayed. It starts with a header 'Controlled Unclassified Information' and a main title 'Locked Users Report' in a blue box. Below the title, it specifies the date range 'From: 1/1/2019 To: 5/9/2022'. The main body of the report is a table with the following data:

User ID	Location	Reason	Date Locked	Time Locked
RSTINEB	1	Suspended	1/11/2019	09:32:25.000000
ATURNER	1	Suspended	4/28/2019	08:14:52.000000

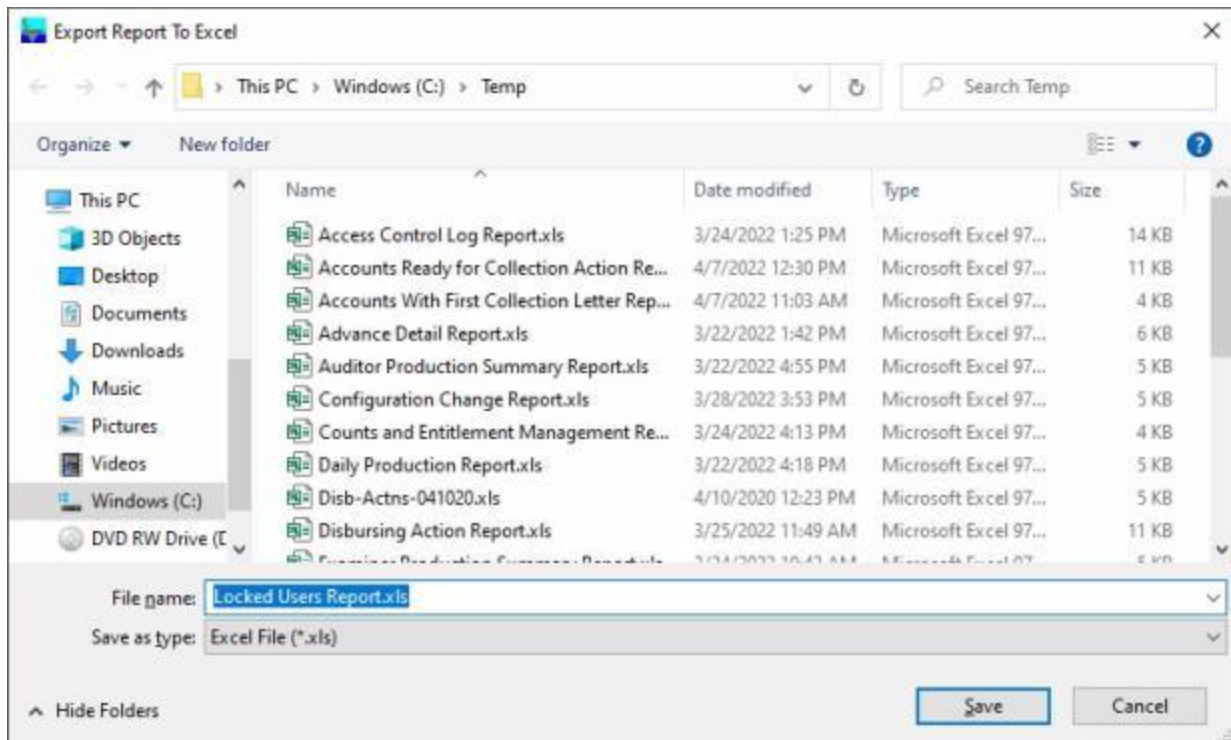

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **select** the **directory/folder** where you wish to save the file at.
3. **Enter** a **name** for the file at the **File name** field.
4. When you have selected the directory/folder and entered a filename, **click** on the **Save** button to save the file.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.

Delete:

1. After you have generated the report you may **delete** the records that have been generated if desired.
2. If you wish to **delete** these records, **click** on the **Delete** button. The following *pop-up message* will appear asking if you are **sure** you wish to delete these records.

3. **Click** on *Yes* or *No* as desired.
4. If you are **finished** using the Locked Users Report screen, **click** on the **Exit** button.

Payment-SDN Report

The **Payment/SDN Report** was added to IATS as a **tool** supervisors can use to **analyze** the number of claims that were processed and paid against a particular travel order number or SDN.

 Complete the following steps to "generate" the Payment/SDN Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Utilities**". An **expandable menu** appears listing the various utility programs.
2. **Click** on the **Payment/SDN Report** option. The Payment/SDN Report screen appears.

Payment/SDN Report

Display Print / Export Cancel ? Help

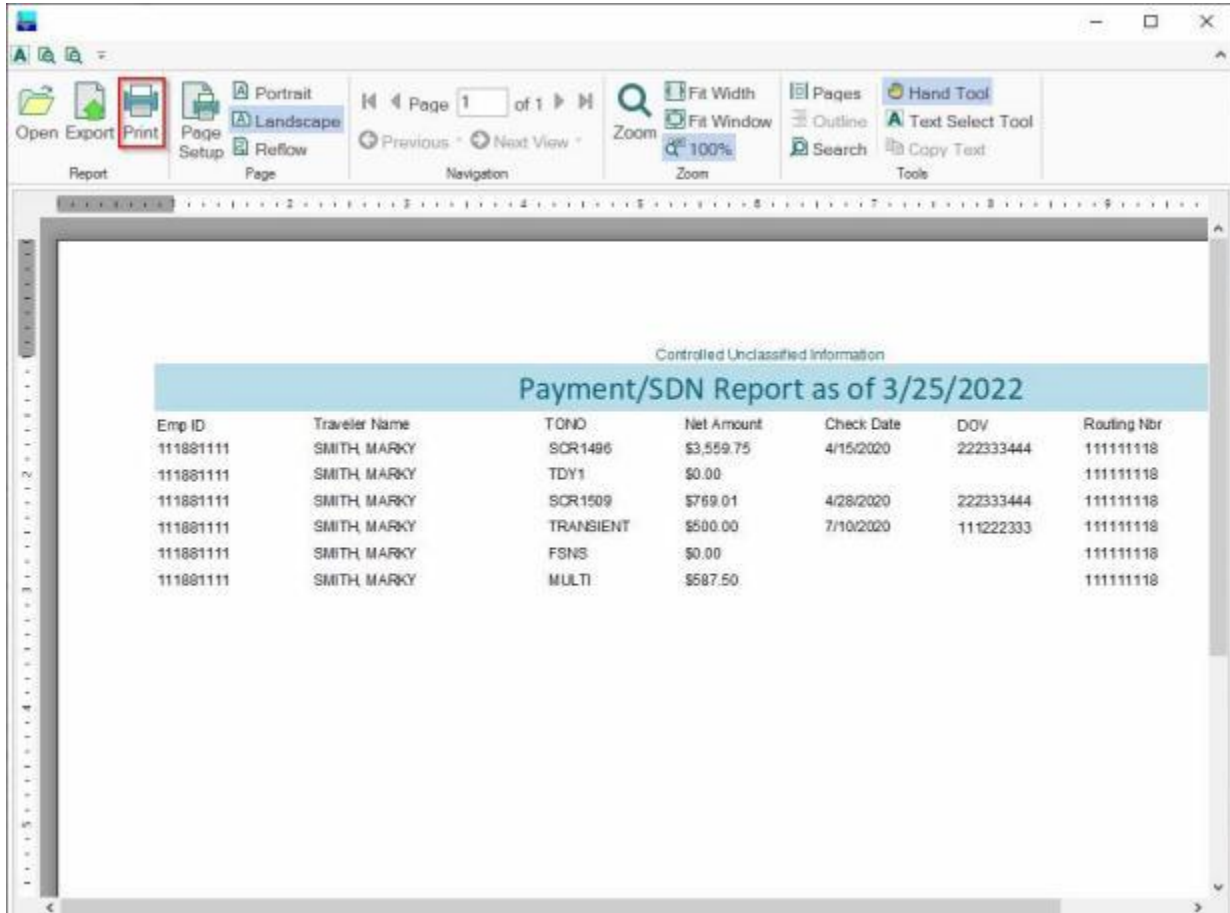

Enter the Bank Routing Number of the employee/member that you wish to find (optional)

3. When the Payment/SDN Report screen is displayed, users may generate payment data in a variety of ways. **Any** of the following **methods** may be used:
 - **Emp ID:** - At the Emp ID field, **type** the traveler's **SSN** and then **click** on the **Display** button.
 - **Name:** - At the Name field, **type** the traveler's **last name**. When entering the last name, a **drop down list** of names may appear. You may then **scroll** up or down the list of names to find the correct name. When the correct name is displayed, **click** on the **name** to select it. After selecting the correct name, **click** on the **Display** button.
 - **TONO:** - At the TONO field, **type** the desired **travel order number** or **SDN** and then **click** the **Display** button.
 - **Routing Nbr:** - At the Routing Nbr field, **type** the traveler's bank **routing number** and then **click** on the **Display** button.
 - **Account Nbr:** - At the Routing Nbr field, **type** the traveler's bank **account number** and then **click** on the **Display** button.
4. After using one of the methods described above, IATS generates a **screen display** of the selected payment data.
5. If you wish to have a **print-out** of the Payment/SDN Report or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following **pop-up menu** will appear allowing you to select **PDF** or **Excel**.

Print:

1. Click on the **PDF** option. The following **IATS Report Viewer** screen will appear.

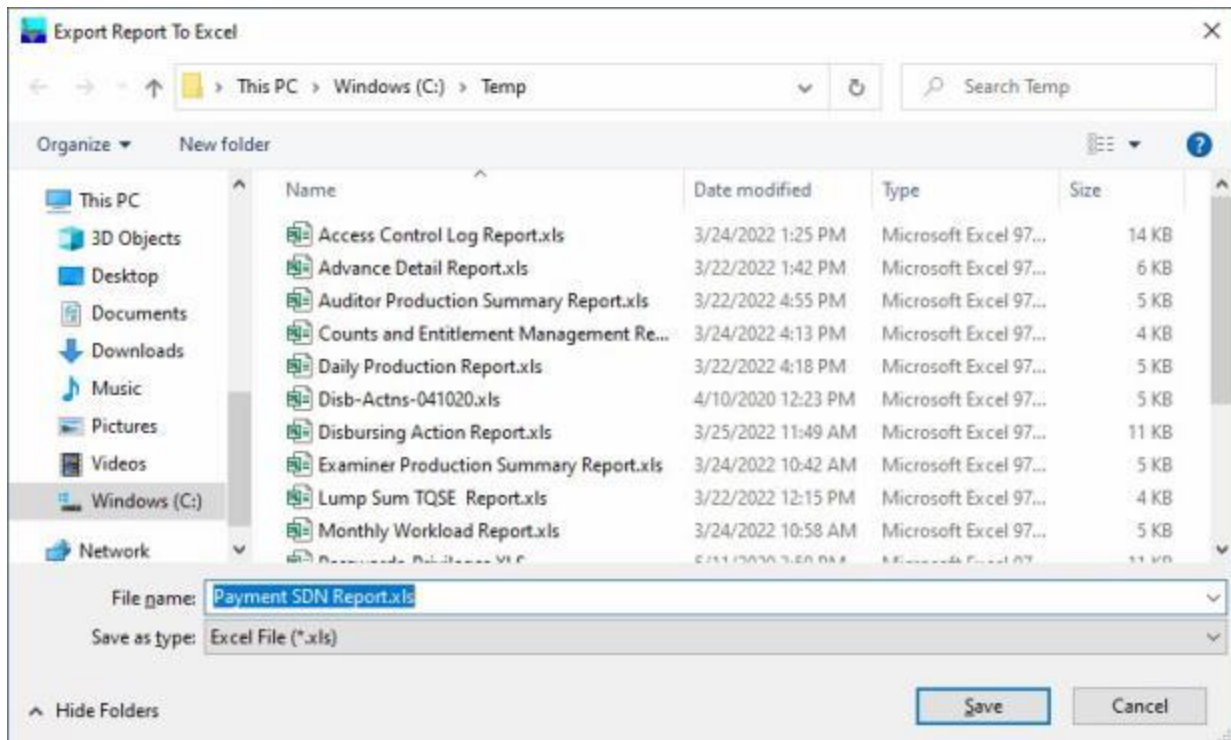

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When you are finished using the **Payment/SDN Report** screen, **click** on the **Cancel** button to **return** to the **System Administrator View** screen.

Payroll Report

The **Payroll Report** is used to provide **social security wages** and **social security tax** information to payroll offices.

Note: You may generate this report for an entire payroll office or for a specific individual.

 **Complete the following steps to "generate" the Payroll Report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An **expandable menu** appears listing the various utility programs.
2. **Click** on the **Payroll Report** option. The Payroll Report screen appears.

Payroll Report

Print / Export Exit ? Help

Enter the SSN for the Report

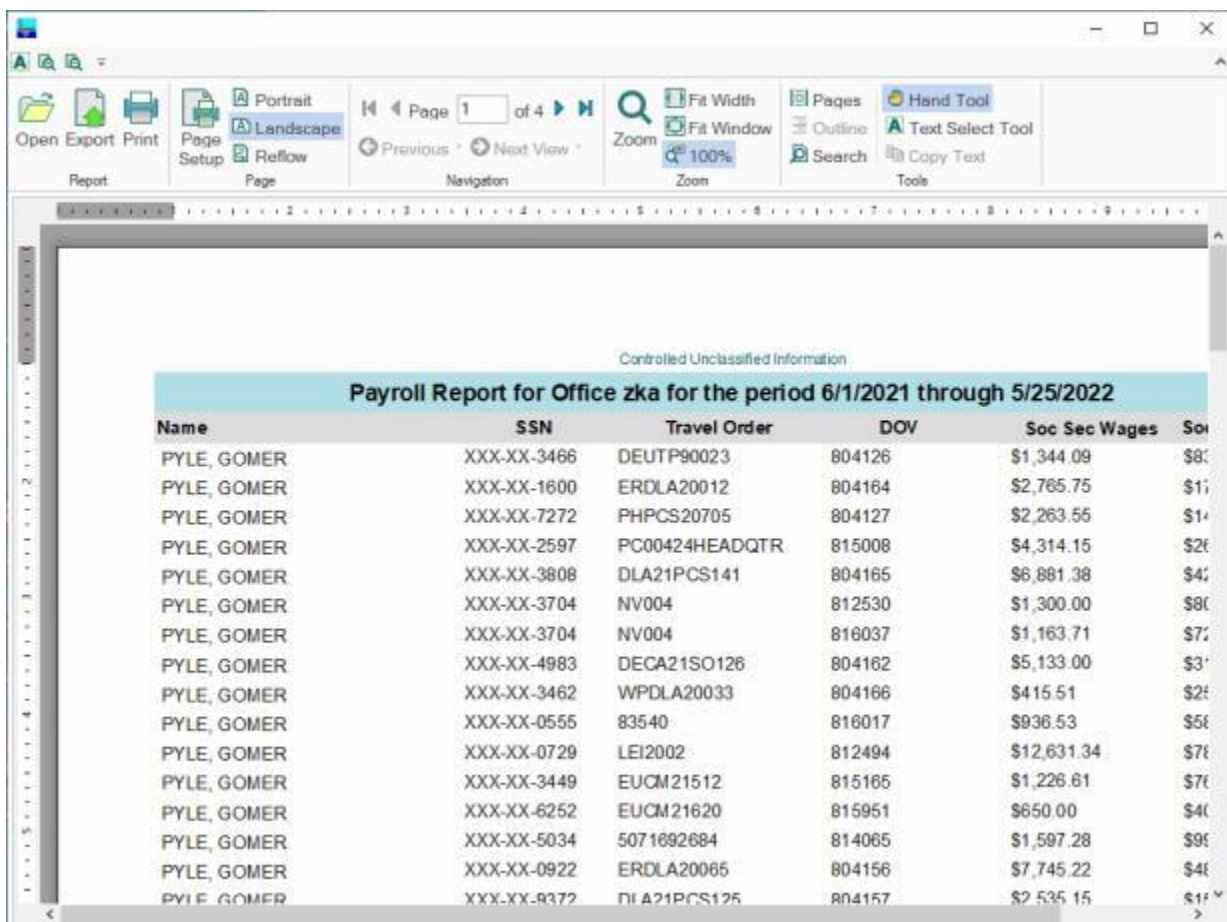

3. **Payroll Office:** - **Click** in the **Payroll Office** field and **type** the Payroll Office number if you wish to generate this report by **Payroll Office Code**. This number is **alphanumeric** and consists of **3** characters.
4. **Begin Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format.
5. **End Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format.
6. **SSN:** - **Click** in the **SSN** field and **type** the traveler's SSN if you wish to generate this report for a specific individual.

7. **Print / Export:** - When you have entered the Payroll Office number or an SSN and the Begin and End dates, **click** on the **Print / Export** button If you wish to have a **print-out** of the **Payroll Report** or **save** it to an **Excel** or **CSV** file.
8. The following *pop-up* menu will appear allowing you to select **PDF**, **Excel** or **CSV**.

Print:

1. **Click** on the **PDF** option.
2. The following **IATS Report Viewer** screen will appear.

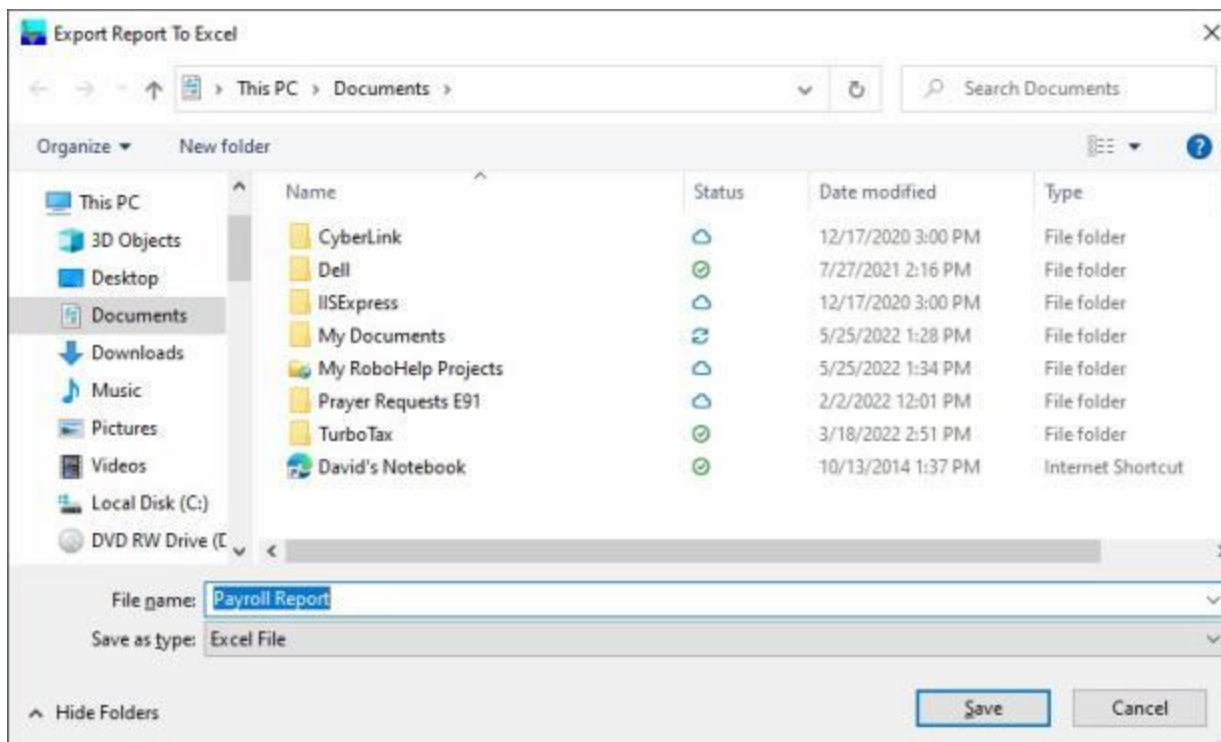

3. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
4. If you click on the **Print** icon, IATS will display the **Print** screen.

5. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
6. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option.
2. IATS will display the **Export Report to Excel** screen.

3. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
4. **Enter** the desired **name** for the file at the **File name** field.
5. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
6. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
7. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.

Create as CSV file:

1. **Click** on the **CSV** option.
2. IATS will display the **Export Report To CSV** screen.

3. At the **Export Report to CSV** screen, **navigate** to the **directory/folder** where you wish to the **save** the CSV file to.
4. **Enter** the desired **name** for the file at the **File name** field.
5. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
6. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
7. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
8. When you are finished using the Payroll Report screen, **click** on the **Exit** button to **return** to the **System Administrator View** screen.

Purge Accounting Data

The **Purge Accounting Data** utility program is used to **delete expired accounting classifications** from the IATS database.

Note: Only **numeric** fiscal years will be **deleted**. All **alphabetic** fiscal years (eg. A, M, R, X, etc.) will **remain**.

 Complete the following steps to "delete" expired accounting classifications from the IATS database:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Utilities**". An **expandable menu** appears listing the various utility programs.
2. **Click** on the **Purge Accounting Data** option. The **Purge Accounting Data** screen appears.

3. **Click** on the **down arrow** button at the **Purge Numeric Fiscal Year** field to display the list of fiscal years.
4. **Click** on the **number** that represents the fiscal year you wish to delete.
5. After you have selected the number for the fiscal year you wish to delete, **click** on **OK**. The following **pop-up message** will appear:

6. **Click** on Yes to continue. The following pop-up message will appear when the data has been purged.

7. **Click** on OK.

Prompt Pay Interest Adjustment

IATS provides a **report** that will **calculate** and then **print** the **interest expense** for all claims that were **paid over 30 days after** the Authorizing Official **signed** the claim.

If a **discrepancy** is discovered **after** the **Prompt Payment Interest Report** is generated, IATS provides a **utility program (Prompt Pay Interest Adjustment)** that allows you to make **changes** to the interest **record** prior to generating the **1099 Interest Income Report**.

 Complete the following steps to "run" the Prompt Pay Adjustment program:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Utilities**". An **expandable menu** appears listing the various utility programs.
2. **Click** on the **Prompt Pay Interest Adjust** option. The **Late Payment Interest Adjustment** screen appears.

Late Payment Interest Adjustment

ID: 111881111 Name: SMITH, MARKY M

Delete Selected Payment

Save Changes Cancel Changes

Exit ? Help

3. **ID:** - At the ID field, **type** the **SSN** for the traveler you wish to adjust the interest record for and **press Tab**. If a record exists for the SSN entered, the traveler's **name** will appear at the **Last Name** field and **payment info** is displayed in the grid.
4. **Name:** - You may also **retrieve** an interest record for a traveler by typing a portion of the traveler's last name. At this field, **enter a few characters** of the traveler's last name. IATS will generate a **drop down list** of names beginning with the characters you entered. When the list is displayed, **click** on the desired **name** to make your selection. When the traveler is selected, the associated **payment info** is displayed in the **grid**.

5. **Interest Payments:** - The only change that can be made to the Interest Payments section is the **amount**. If there is more than one claim listed, ensure that you **click** in the **amount** field for the correct claim and **type** the amount for the adjustment. If only one claim is listed, simply **type** the new **amount**.
6. **Save Changes:** - After adjusting the amount, **click** on the **Save Changes** button. **Click** on **OK** to continue. The cursor **returns** to the **ID** field. Follow the previous steps to adjust the interest record for another traveler or **click** on **Exit** to return to the System Administrator screen.
7. **Cancel Changes:** - After adjusting the amount, **click** on the **Cancel Changes** button if the adjustment is not desired. **Click** on **OK** to continue. The cursor **returns** to the **ID** field. Follow the previous steps to adjust the interest record for another traveler or **click** on **Exit** to return to the System Administrator screen.
8. **Delete Selected Payment:** - If you wish to **delete** an interest record, **click** in the **amount** field to **highlight** the desired claim if there is more than one claim listed. When the correct claim is selected, **click** the **Delete Selected Payment** button. A *pop-up* message appears asking if you are sure and warning you that this action cannot be undone.

9. **Click** on *Yes* or *No* as desired.
10. Follow the previous steps to adjust the interest record for another traveler or **click** on **Exit** to return to the System Administrator screen.

Purge Data

On occasion, it may be necessary to purge (**delete**) old **travel orders** and their associated detail records from the IATS database. This can be accomplished by using the IATS **Utilities** module and **running the Purge Data** program.

When testing the purge on a 2.0 GHZ PC the following results were uncovered:

- If doing a purge on a 200 MB or smaller DB, the purge took less than one hour in testing using any of the purge options
- If doing a purge on approximately 500 MB DB, the purge took about 6 hours in testing using any of the purge options
- If doing a purge on a DB over 1 GB and doing a TDY only purge, it took about 24 Hours for every 1.1GB of space in the DB. If doing a MILPCS, CIVPCS or ALL Claims, it took about 18 hours for every 1.1 GB of space in the DB

The purge will wipe out old data, but it will NOT reduce the size of the DB. To reduce the size of the DB, the IATS Tech Support Team will have to rebuild the DB for the site.

Note: When the purge is **completed**, IATS generates a file (**winiatspurge.txt**) that contains all of the purged **records**. This file will be written to the **directory** specified in the Maintenance module for your organization's upload files.

 **Complete the following steps to "run" the Purge Data program:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various utility programs.
2. **Click** on the **Purge Data** option. The **IATS Data Purge** screen appears.

3. **TDY Only:** - Click in the radio button to select this option if you only want to purge **TDY** records.
4. **Civ PCS Only:** - Click in the radio button to select this option if you only want to purge **CIVPCS** records.
5. **Mil PCS Only:** - Click in the radio button to select this option if you only want to purge **MILPCS** records.
6. **All Claims:** - Click in the radio button to select this option if you only want to purge **all** claims.
7. **Purge Date:** - The default value at the Purge Date field is the current date. If this date is not correct, **click** the "*Down*" **arrow**. This action results in IATS displaying a **calendar**.

September 2022

S	M	T	W	T	F	S
28	29	30	31	1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	1
2	3	4	5	6	7	8

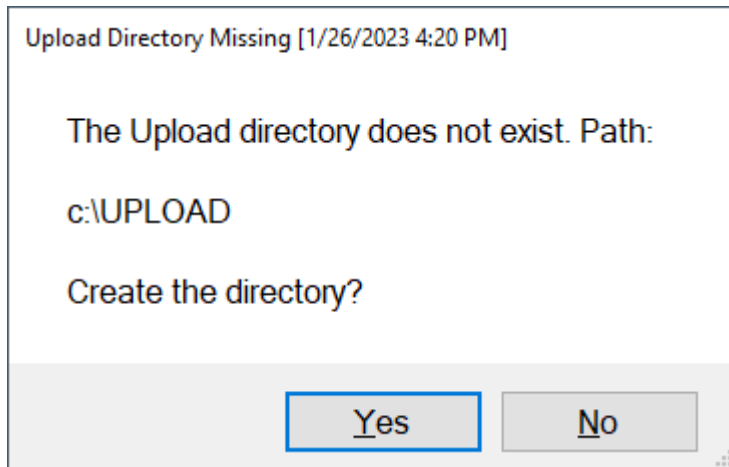

8. Clicking on the "left" **arrow** button on the calendar will **advance** the calendar **back** one month. Clicking the "right" **arrow** button on the calendar will **advance** the calendar **forward** one month. **Click** the left or right arrow **buttons** until the desired **month** is displayed. When the correct month is displayed, **click** on the desired **date**.
9. **Delete Tax Records:** - A **check mark** appears in the **check box** at this field by default. Leaving the check mark in this field will cause IATS to **delete** the system generated tax records associated with the travel order being deleted. If you do not wish to delete the tax records, **click** in this **check box** to **remove** the **check mark**.
10. **Delete Travelers w/o Orders:** - A **check mark** appears in the **check box** at this field by default. Leaving the check mark in this field will cause IATS to **delete** any travel accounts that have no associated travel orders.
11. **Select SSN Range:** - **Click** on the **Select SSN Range** button if you wish to purge the data by using an SSN Range.
12. **Beginning SSN:** - **Click** in this field and **enter** the beginning **SSN** if you have selected the option to purge by SSN range.
13. **Ending SSN:** - **Click** in this field and **enter** the ending **SSN** if you have selected the option to purge by SSN range.
14. Once you have specified the desired purge options, **click** on **OK**. A *pop-up message* will appear asking if you have **backed-up** your database.

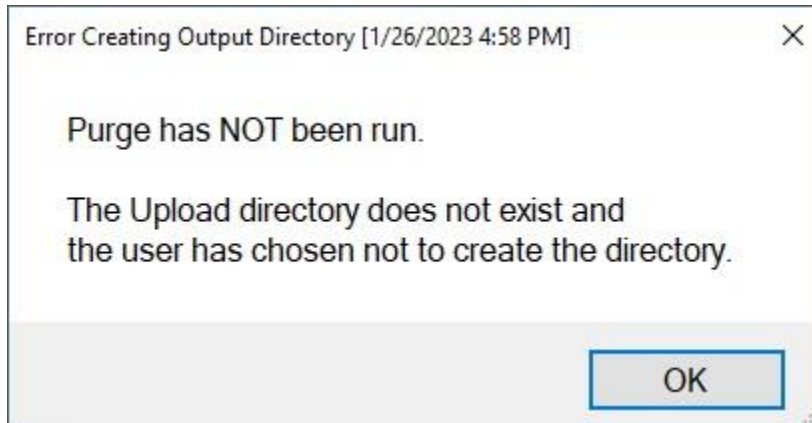

15. Ensure that a back-up of your database has been performed. If you are satisfied that a back-up has been performed, **click** on **Yes**. Another *pop-up message* will now appear advising you to either **click** on **OK** to continue or **Cancel** to quit.

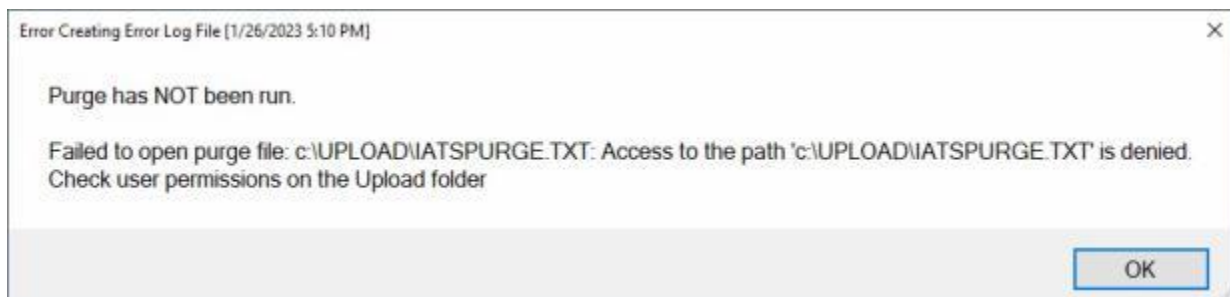

16. **Click** on **OK** or **Cancel** as desired.
17. If you **click** on **OK** IATS will **start** the Purge.
18. If the **UPLOAD**, directory ([as specified in Maintenance](#)) does not exist, you will see the following **warning message** and the Purge will not **run**.

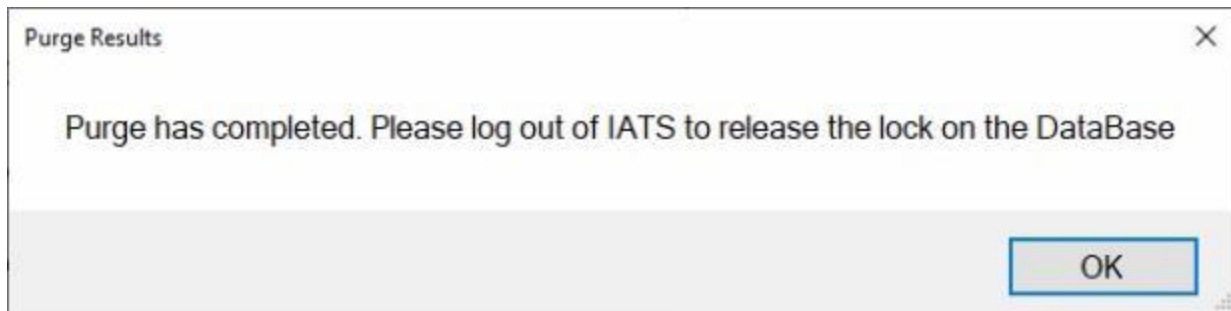

19. **Click** on Yes if you wish to allow IATS to **create** the **directory** and **continue** running the Purge.
20. If you **click** on No, IATS will **display** the following *pop-up message* and the Purge will not run.

21. **Click** on **OK**.
22. At this point you must **either manually create** the UPLOAD directory or allow **IATS to create** it if you wish to run the Purge.
23. If you answered Yes to allow IATS to create the UPLOAD directory, but your user account does not have the **permissions** to **create, read, write, and modify** directories, IATS will **display** the following *pop-up message*.

24. **Click** on **OK** and **correct** your **permissions** to continue.
25. When the Purge has **finished** running, IATS will **display** the following pop-up message:

26. **Click** on **OK**.
27. **Click** on the **Cancel** button to **return** to the **System Administrator View** screen and then **click** the **Exit** button to **log out** of IATS.

Purge Images for Completed Orders

After a claim has been **completed** and **paid**, you may want to **delete** any imported images associated with the travel order to free up space.

When purging images you may set up specific parameters. You may specify the **type** of **order**, the **detail type**, or a specific date range.

 Complete the following steps to "run" the Purge Data program:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various utility programs.
2. **Click** on the **Purge Images for Completed Orders** option. The **Purge Images** screen appears.

3. **Order Type:** -At the Order Type field, the **default** value is **All**. If you wish to select a specific type of order, **click** on the **down arrow** button. A **drop down list** of order types appears. **Click** on the desired order **type** to make your selection.
4. **Detail Type:** - At the Detail Type field, the **default** value is **All**. If you wish to select a specific type of detail, **click** on the **down arrow** button. A **drop down list** of detail types appears. **Click** on the desired detail **type** to make your selection.
5. **Start Date:** - If you wish to purge images for a specific date range, enter the desired **beginning date** in the Start Date field and **press Tab**.
6. **End Date:** - Enter the desired **ending date** in the End Date field and **press Tab**.
7. **All Images more than 120 days old:** - If you wish to purge the images that are more than **120** days old, **click** in the **check box** to activate this option.
8. After you have selected the desired parameters, **click** on the **Purge** button. IATS will **delete** imported images for travel orders that are considered to be in a **completed** status.

Repair Tax Form Indicators

When a claim is **downloaded** from **DPS**, a **Summary Record** is created (and is **indicated** as a **Tax Collection** record). As the claim is disbursed, the **actual date of payment** is **compared** to the **disbursing date** to **determine** if this expense is to be **reported** on certain **IRS forms**. This information is **stored** in respective **bit indicators** in the **Tax Collection Record**. If the expense is to be reported on IRS Form W-2c, then the W2c indicator is set to 1, otherwise, it is set to 0. If it is to be reported on IRS Form **941-X**, then the **941X indicator** is set to 1. Otherwise, it is set to 0.

When the user has **finished** producing the above IRS Forms, he/she “**closes the books**” for a specified quarter (for IRS Form 941-X) or for a specified year (for IRS Form W-2c). At that point, the respective **indicators** on the Summary Records are **reset to 0**.

We have discovered and fixed some **flaws** in IATS that resulted in **incorrect values** being **assigned** to the above indicators. It usually caused the Tax Collection records to be **orphaned**. An “orphan” Tax Collection record is one that has **no corresponding Tax Record** (i.e. a Tax Record having a matching Empld, Year and Month of Payment, Office Number, State Code, W-2c Indicator, and 941-X Indicator).

In case there are still any outstanding flaws in IATS, the “**Repair Tax Form Indicators**” option was added to the **Utilities** option in **System Administrator** view as a means for the user to manually adjust the **values** of the **indicators**.

Note: It is highly recommended that you **refer** to the latest Tax Summary report for **assistance** in **determining** what the correct Tax Form Indicators should be **before** making any changes.

 **Complete the following steps to "repair" Tax Form Indicators:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, “**Utilities**”. An expandable menu appears listing the various utility programs.
2. **Click** on the **Repair Tax Form Indicators** option. The following **Tax Indicators** screen appears.

3. At the Tax Indicators screen, **click** on the appropriate **button** for the **type** of **tax records** you wish to retrieve.

Get All Tax Collection Records By Empld and TONO:

1. If you click on the **Get All Tax Collection Records By Empld and TONO** button, IATS will display the **Select Traveler** screen.

- At the Select Traveler screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**.
- After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**.
- When the traveler's account information is displayed, **click** on **OK**. The **Travel Order Selection** screen appears.
- At the Traveler Order Selection screen, select the desired Travel Order Number and then **click** on **OK**.
- IATS will display the following **Repair Tax Form Indicators** screen if Tax Collection Records **exists** for the specified **Empld** and **TONO**.

Expense Description	1st Date of Expense	2nd Date of Expense	Payment Date	Disbursing Date	Office	State	W-2c	941x	Entitlement

Assign To User:

10. If you wish to **change** the user the block is assigned to, **click** on the **down arrow** button at the **Assign To User** field. IATS will **display** a **list** of users.

The image shows a dialog box titled "Assign Block". It contains two dropdown menus: "New Block Status" set to "Assigned to Examiner" and "Assign To User" with a list of users including "FARRIS, DAVID (DAVE)" and "SYSTEM, THE (SYSTEM)". Below the dropdowns are buttons for "Select All", "Select None", "OK", "Cancel", and "? Help". At the bottom, there is a text prompt: "Select Details you wish to restore and then press OK".

11. **Click** on the desired name to **assign** the block to a different user.
12. When you have selected the claims you wish to restore, and selected the desired status and user, **click** on **OK**.
13. A *pop-up message* will now appear indicating that the selected claims have been restored.

14. **Click** on the **Cancel** button at the **Restore Details for a Deleted Block** screen to return to the **System Administrator View** screen.

Tax Adjust

IATS maintains a **Tax Record** for each **SSN** and **travel order** combination that has an associated **withholding tax** transaction. The Tax Record that IATS maintains is used to **generate** the associated tax **reports** required for the **IRS**. These records will also **include** the **taxes** withheld for both **Military DITY** and **Civilian PCS** travel.

Differences will sometimes **occur** between the **IRS Tax Reports** that IATS generates and the **Periodic Tax Report**. These differences may **require adjustments** to the Tax Records. For this reason, a standalone **Tax Adjustment** program was developed that allows IATS users to select a particular Tax Record and make any required adjustments.

 **Complete the following steps to "run" the Tax Adjustment program:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various utility programs.
2. **Click** on the **Tax Adjust** option. The **Select Traveler** screen appears.

Tax Adjust History

IATS maintains a **Tax Record** for each **SSN** and **travel order** combination that has an associated withholding tax transaction. The Tax Record that IATS maintains is used to **generate** the associated tax **reports** required for the **IRS**. These records will also include the **taxes** withheld for both **Military DITY** and **Civilian PCS** travel.

Differences will sometimes **occur** between the **IRS Tax Reports** that IATS generates and the **Periodic Tax Report**. These differences may require adjustments to the Tax Records. For this reason, a standalone **Tax Adjustment** program was developed that allows IATS users to select a particular Tax Record and make any required adjustments.

Whenever **changes** are made to the tax records using the Tax Adjust option, they are **saved** in a new table in the database. In order to **view** the changes the **Tax Adjust History** option has been added to IATS.

 Complete the following steps to "view" the Tax Adjustment History:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various utility programs.
2. **Click** on the **Tax Adjust History** option. The **Tax Adjustment History** screen appears.

Last Name	First Name	Record Type	Payment Year	Payment Month	Expense Type	Begin Date	End Date	Payment Date	Field Name	Old Value
-----------	------------	-------------	--------------	---------------	--------------	------------	----------	--------------	------------	-----------

3. **Start Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format. You may also **click** on the **button** to display the calendar and then **click** on the desired **date**.
4. **End Date:** - If the default date displayed at this field is incorrect, **type** the desired **date** in **MMDDYY** format. You may also **click** on the **button** to display the calendar and then **click** on the desired **date**.
5. After entering the desired date range, **click** on the **Get Data** button. IATS will display the all changes to the tax records or just the **changes** for the specified period if a date range was entered.
6. If you wish to have a **print-out** of the **Tax Adjustment History**, for the selected period, or **save** it to an **Excel** file, **click** on the **Print/Export** button. The following *pop-up menu* will appear allowing you to select **PDF** or **Excel**.

Print:

1. Click on the **PDF** option. The following **IATS Report Viewer** screen will appear.

The screenshot shows a software window titled "IATS Report Viewer". The window has a toolbar with various icons for navigation and printing. The main content area displays a report titled "Tax Adjustment History" with a subtitle "Controlled Unclassified Information". The report includes a header with "Start Date: 1/1/2019" and "End Date: 7/6/2022", and "Office: All Offices". The data is presented in a table with the following columns: Last Name, First Name, Rec Type, Year, Payment Month, Field Name, Old Value, New Value, Who Made Change, and Date. The table contains 15 rows of data for employee GOMER, PYLE, covering various tax adjustments in July 2019.

Last Name	First Name	Rec Type	Year	Payment Month	Field Name	Old Value	New Value	Who Made Change	Date

2. At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
3. If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the top right corner of the **Excel** screen displaying the report to **close** the screen when you are finished.

When **finished** using the **Tax Adjustment History** screen, **click** on the **Done** button to return to the System Administrator view screen.

Tax Summary

By law, employment taxes must be calculated and withheld whenever **Civilian PCS** settlements are processed through a DoD Travel Office. IATS maintains a **Tax Record** and a **Civilian PCS Summary Record** for each **SSN** and **travel order** combination that has an associated withholding **tax** transaction.

The Tax Record that IATS maintains is used to generate the associated tax **reports** required for the IRS. These records, however, will also include the taxes withheld for both **Military DITY** and **Civilian PCS** travel.

The **Civilian PCS Summary Records** are used to track the employment taxes calculated and withheld for Civilian PCS travel only. This data is also used to produce the **Periodic Tax Report**.

Since **differences** will sometimes occur between the **IRS tax reports** that IATS generates and the **Periodic Tax Report**, the **Tax Summary** program was developed to generate a **report** listing the following:

- **Differences** between the **IRS reports** and the **Periodic Tax Report**.
- Whether the tax **record** was **generated** by a **Military** or **Civilian** travel order.
- If the **travel order** was originally **created** as an **Local Travel** order and then changed to a **Local Move** order.
- Whether there are any **Civilian PCS Summary Records** that do not have an associated **Tax Record**.

 **Complete the following steps to "generate" the Tax Summary Report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various utility programs.
2. **Click** on the **Tax Summary** option. The **Generate Tax Summary Report** screen appears.

Enter the tax year for the report. ⋮

3. **Tax Year:** - At this field, **type** the desired tax **year** in **YYYY** format.
4. **Beginning Tax Month:** - If the default month displayed at this field is incorrect, **click** the **down arrow** and then **click** on the desired **month** to make a **selection**.
5. **Ending Tax Month:** - If the default month displayed at this field is incorrect, **click** the **down arrow** and then **click** on the desired **month** to make a **selection**.

6. Once the **tax year**, beginning and ending tax months are specified, **click** the **Print** button. The **Adobe Reader** screen appears.
7. **Click** on the Printer **icon**. The **Print** screen appears.
8. **Verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
9. **Select** the **number of copies** you wish to print and then **click** on the **Print** button.
10. IATS prints the report and returns to the **Adobe Reader** screen.
11. If you are finished using the **Adobe Reader**, **click** on the **red** button in the top right corner to close the screen.
12. When finished, **click** on the **Cancel** button to **return** to the **System Administrator View** screen.

Unsuccessful Logins Report

In order to comply with the Risk Management Framework (RMF) and Federal Information Systems Controls Audit Manual (FISCAM) security controls, the **Unsuccessful Logins Report** was added to IATS to **track** individuals making unsuccessful **attempts** to **access** IATS.

This report will track **3** unsuccessful login **attempts** by a **valid** IATS user and every **attempt** by an **invalid** IATS user.

 Complete the following steps to "generate" the Unsuccessful Logins Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various report options.
2. **Click** on the **Unsuccessful Logins Report** option. The **Unsuccessful Logins Report** screen appears.

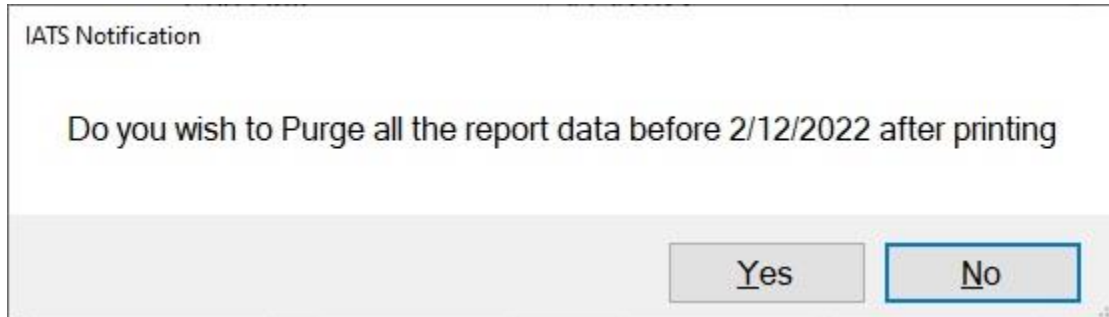

3. **Start Date:** - At this field, **enter** the beginning date for the report in **MMDDYY** format and **press** *Tab*. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.
4. **End Date:** - At this field, **enter** the ending date for the report in **MMDDYY** format and **press** *Tab*. You can also **click** on the **down arrow** button and use the **Calendar** to select the date.
5. **All Users and Dates:** **Click** in the **check box** to **activate** this option to generate a report for **all** of the **records** in the database.
6. **Click** on the **Print/Export** button if you wish to have a **print-out** of the Unsuccessful Logins Report or **save** it to an **Excel** file.
7. The following *pop-up menu* will appear allowing you to select **PDF** or **Excel**.

Print:

1. **Click** on the **PDF** option. A *pop-up message* will appear asking if you wish to **purge** the records after printing.

2. **Click** on Yes or No as desired. The following screen will appear **displaying a report** of the users performing unsuccessful login attempts.

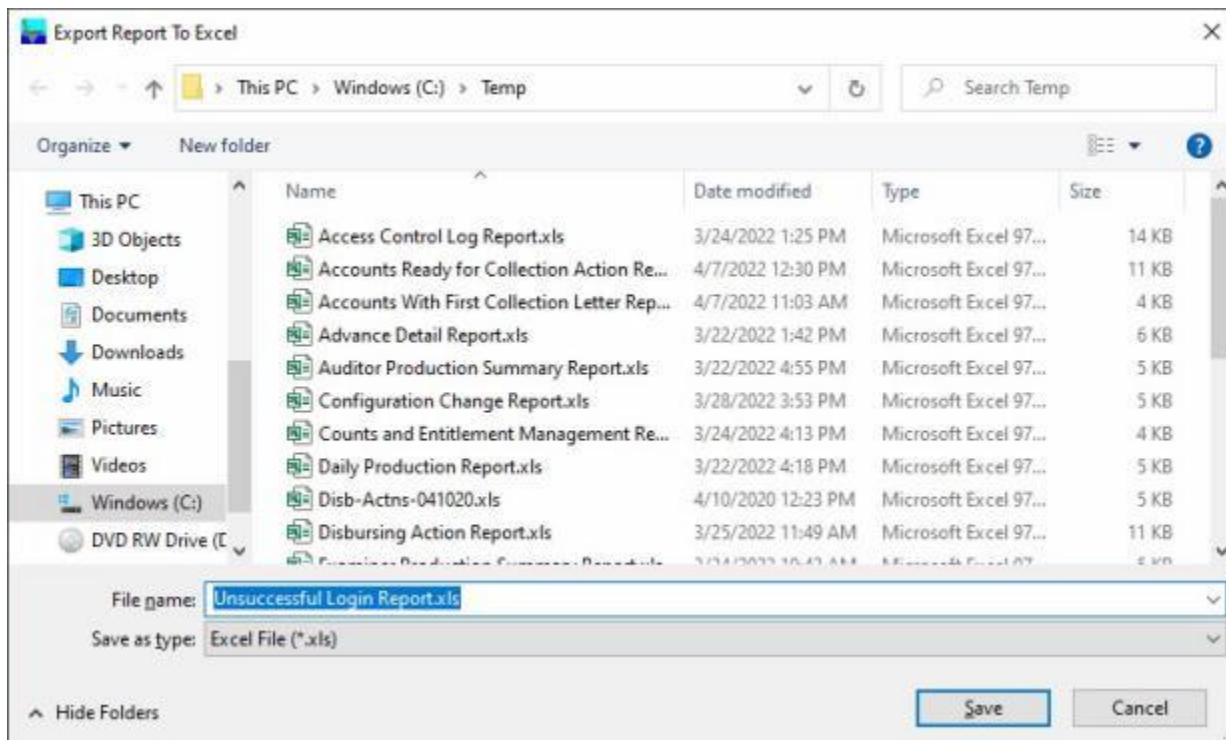

3. After you have **finished** reviewing or printing the report, **click** on the **(X)** button at the top right hand corner of the screen to **close**.
4. When the **Unsuccessful Logins Report** screen re-appears, **click** on the **Exit** button if you are **finished** running this report.

Export:

1. Click on the **Excel** option, A *pop-up message* will appear asking if you wish to **purge** the records after printing.

2. Click on Yes or No as desired.
3. IATS will display the **Export Report to Excel** screen.

4. At the **Export Report to Excel** screen, **select** the **directory/folder** where you wish to save the file at.
5. **Enter** a **name** for the file at the **File name** field.
6. When you have selected the directory/folder and entered a filename, **click** on the **Save** button to save the file.
7. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
8. **Click** on the **(X)** button at the **top right corner** of the **Excel** screen displaying the report to **close** the screen when you are finished.
9. When the **Unsuccessful Logins Report** screen re-appears, **click** on the **Exit** button if you are **finished** running this report.

User Privileges Change Report

A feature has been added to IATS that allows security officials to periodically **generate** a report that shows which travel voucher examiner's **privileges** have **changed** and to **determine** whether a **conflict of internal controls** exists.

The report may be generated for an **individual** User ID (optional) if desired. The report may also be sent to a **file** if desired.

When the report is generated the following items will be included:

- The current calendar date of the report
- The last date that the complete report was run against the database
- The users that had privilege changes since the last report
- The date the privilege was changed
- The User ID of the person that changed the privilege(s)
- The privileges that changed are denoted by a plus sign (added) or minus sign (removed)

 **Complete the following steps to "generate" the User Privileges Change Report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Utilities**". An **expandable menu** appears listing the various options.
2. **Click** on the **User Privileges Change Report** option. The **User Privileges Change Report** screen appears.

User Privileges Change Report

User's Name (optional)
BOY, BILLY B. (BILL) ▾

Begin Report Date 1/1/2018 ▾

End Report Date 3/7/2023 ▾

Print / Export Purge Exit ? Help

Click this button to generate the report

3. **User's Name:** - At the **User's Name** field, **click** on the **down arrow** button and then **click** on the **user name** of the individual you wish to generate this report for (if you wish to generate the report

for a particular user). This field is **optional**. If **no entry** is made, the report will be generated and display the results for **every user** having privilege **changes**.

4. **Begin Report Date:** - The current **date** defaults to this field. If you wish to **change** the date, **enter** a **new** date in **MMDDYY** format or **click** on the **down arrow** button and use the **calendar** to select the date.
5. **End Report Date:** - The current **date** defaults to this field. If you wish to **change** the date, **enter** a **new** date in **MMDDYY** format or **click** on the **down arrow** button and use the **calendar** to select the date.
6. **Purge:** - Before generating the report, you may want to **purge** the **existing data** from a **previous** report. **Click** on the **Purge** button if you wish to **delete** any pre-existing data.

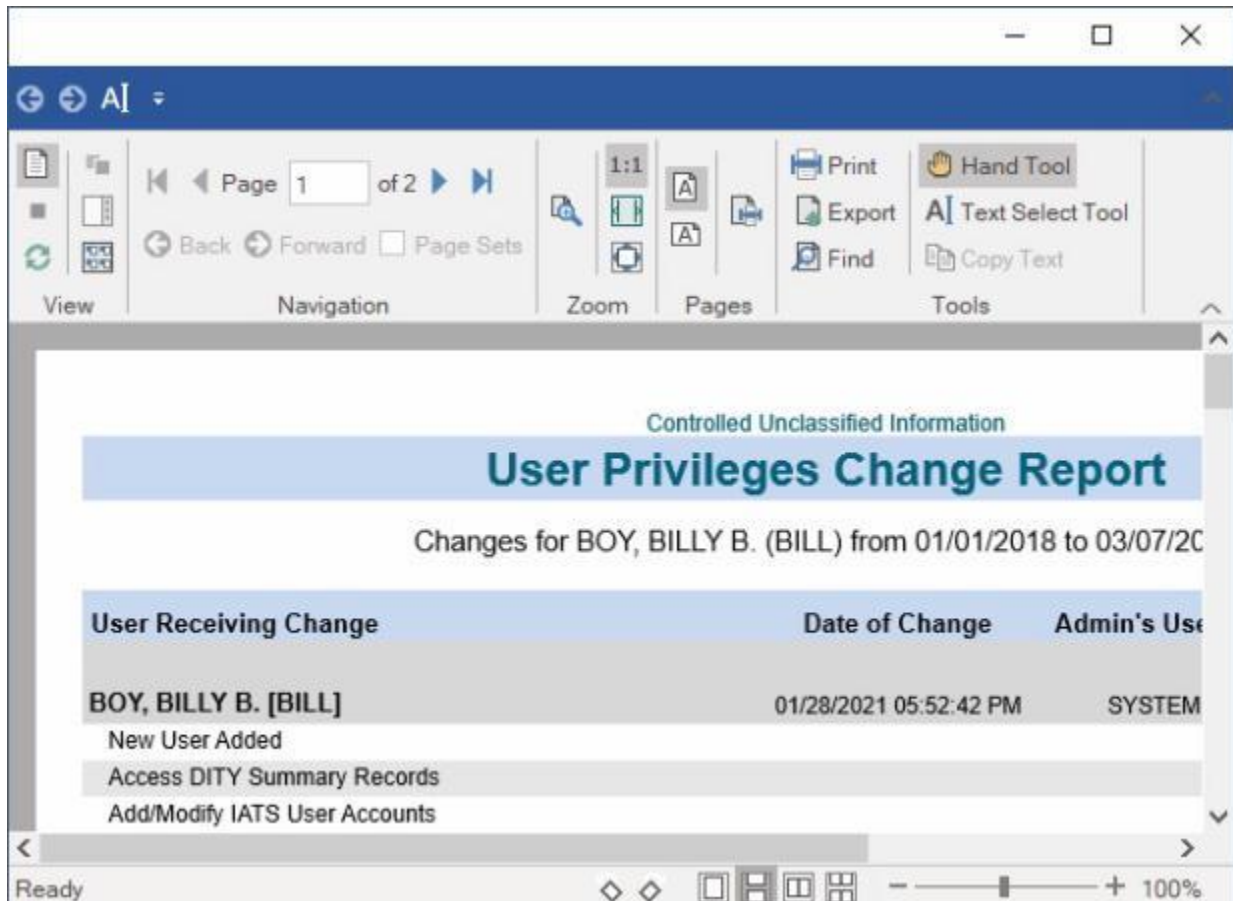

Note: You **cannot delete** the records that are **less than 90 days** old.

7. **Click** on the **Print/Export** button if you wish to have a **print-out** of the User Privileges Change Report or **save** it to an **Excel** file.
8. The following **pop-up menu** will appear allowing you to select **PDF** or **Excel**.

Print:

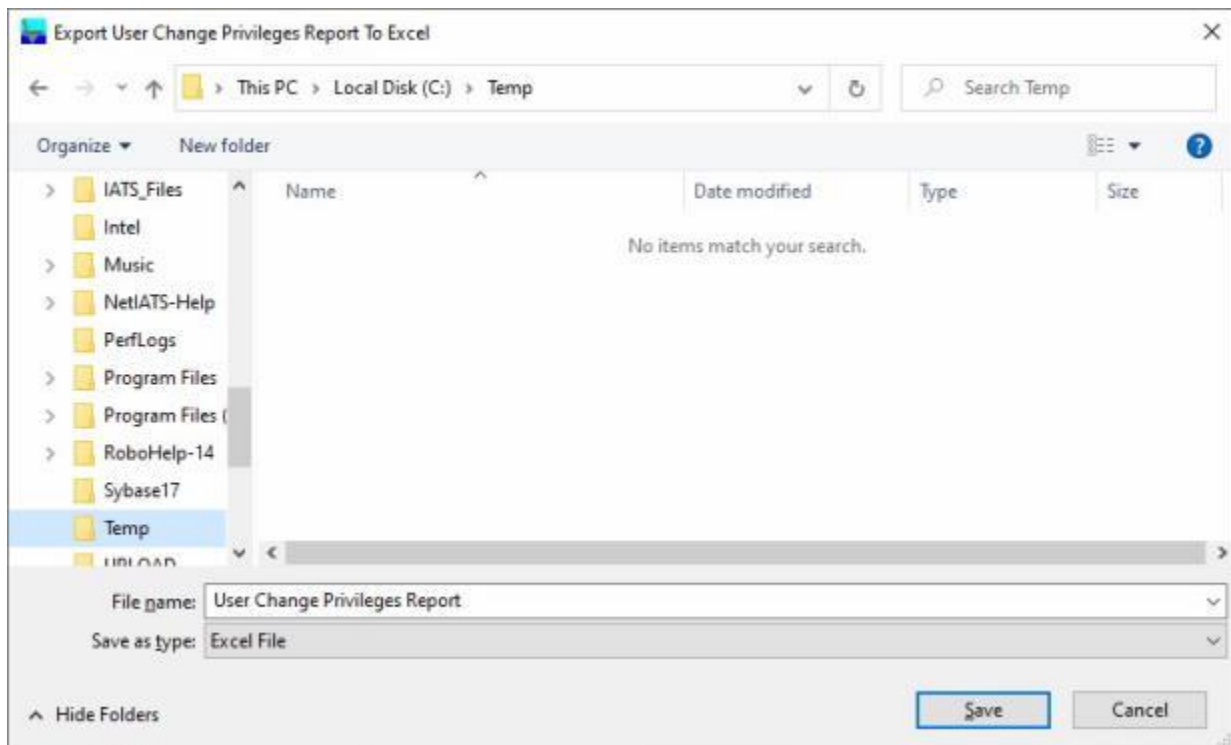

1. **Click** on the **PDF** option. The following **IATS Report Viewer** screen will appear.

2. After you have **finished** reviewing or printing the report, **click** on the **(X)** button at the top right hand corner of the screen to **close**.
3. When the **User Privileges Change Report** screen re-appears, **click** on the **Exit** button if you are **finished** running this report.

Export:

1. **Click** on the **Excel** option, IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **select** the **directory/folder** where you wish to save the file at.
3. **Enter** a **name** for the file at the **File name** field.
4. When you have selected the directory/folder and entered a filename, **click** on the **Save** button to save the file.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the top right corner of the **Excel** screen displaying the report to **close** the screen when you are finished.
7. When the **User Privileges Change Report** screen re-appears, **click** on the **Exit** button if you are **finished** running this report.

User Status Report

The **User Status Report** screen is used to generate a **report** pertaining to the **status** of **all users** that have been created in your IATS database.

This report will display the status of **Active**, **Active-Suspended**, and **Inactive** users.

 **Complete the following steps to "generate" the User Status Report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various report options.
2. **Click** on the **User Status Report** option. The **User Status Report** screen appears.

- At the IATS Report Viewer screen, **click** on the **Print** icon if you wish to generate a print-out of the report.
- If you click on the **Print** icon, IATS will display the **Print** screen.

4. At the **Print** screen, **ensure** you are **connected** to the **correct printer**, select the **number of pages**, the **number of copies**, and then **click** on the **OK** button.
5. **Click** on the **(X)** button at the **top right corner** of the IATS Report Viewer screen displaying the report to **close** the screen when you are finished.

Export:

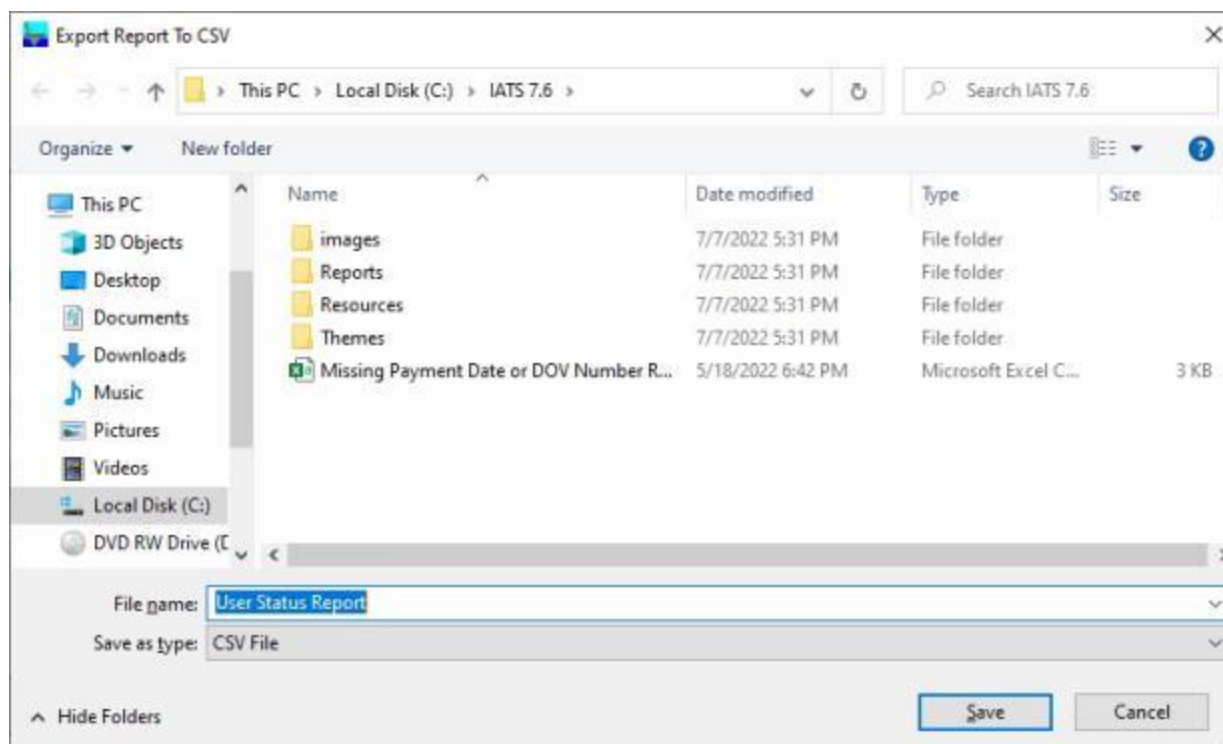

1. **Click** on the **Excel** option. IATS will display the **Export Report to Excel** screen.

2. At the **Export Report to Excel** screen, **navigate** to the **directory/folder** where you wish to the **save** the Excel file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the top right corner of the **Excel** screen displaying the report to **close** the screen when you are finished.

Create as CSV file:

1. **Click** on the **CSV** option. IATS will display the **Export Report To CSV** screen.

2. At the **Export Report to CSV** screen, **navigate** to the **directory/folder** where you wish to the **save** the CSV file to.
3. **Enter** the desired **name** for the file at the **File name** field.
4. When you have selected the correct directory/folder and entered the desired filename, **click** on the **Save** button.
5. IATS **saves** the file and then **launches** the **Excel** program **displaying** the report.
6. **Click** on the **(X)** button at the top right corner of the **Excel** screen displaying the report to **close** the screen when you are finished.

When finished using the **User Status Report** screen, **click** on the **Exit** button to **return** to the **System Administrator View** screen.

Users or Travelers Requiring Audit

At times, travel offices want to know which users **require** their work to be **audited**. In addition, they may want to know which traveler **profiles** are set up as automatically requiring **audit** for all submitted claims.

Note: For travel offices using a **consolidated** database, the generated report will include **all** travelers requiring audit regardless of which office they are associated with.

 **Complete the following steps to "run" the Users or Travelers Requiring Audit Report:**

1. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**". An expandable menu appears listing the various utility programs.
2. **Click** on the **Users or Travelers Requiring Audit** option. The **Requires Audit Report** screen appears.

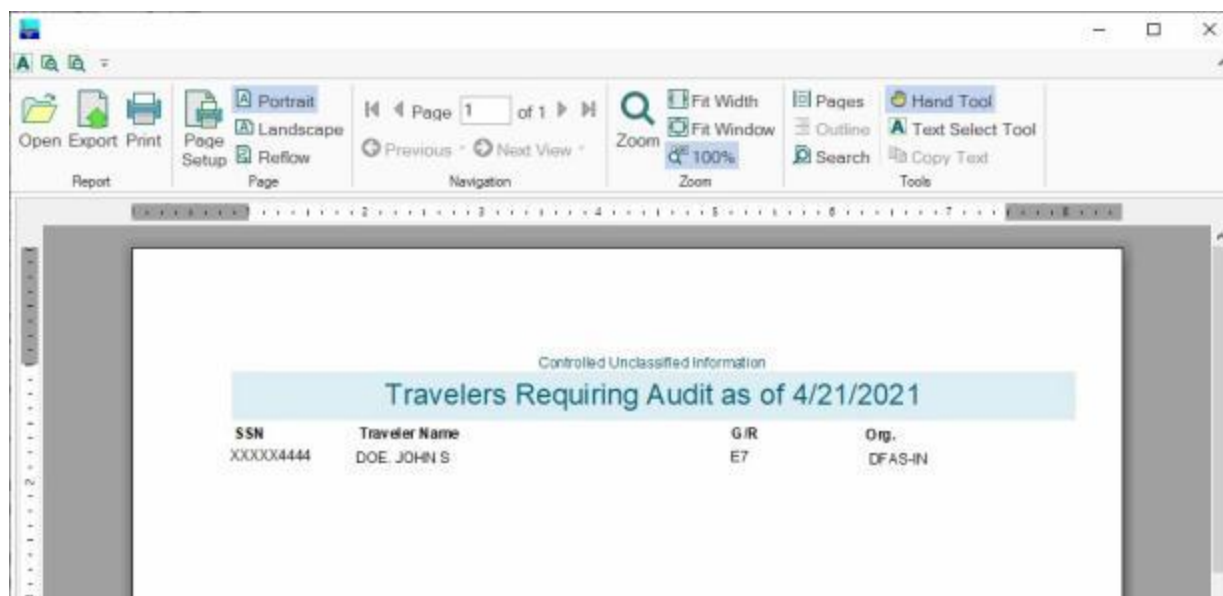

Requires Audit Report

Report IATS User
 Report by Traveler

Select this option to generate a report of IATS Travelers.

3. When running this report, you have the **option** to generate the report for **either** an **IATS User** or for **Travelers**.
4. **Click** in the **circle** next to the options **Report IATS User** or **Report by Traveler** to make your selection.
5. **Print:** - **Click** on the **Print** button to generate the report to your printer. The **following** screen appears **displaying** the report.

6. **Click** on the **printer icon** if you wish to generate a print-out of the report. The **Print** screen will appear.
7. At the Print screen, **verify** that the **PC** is **configured** for the correct printer or **make** any necessary changes.
8. **Select** the **number of copies** you wish to print and **click** the **Print** button.
9. When you are **finished** using the screen that displays the report, **click** on the **red (x)** button in the top right corner to **close** the screen.
10. When you are **finished** using the Requires Audit Report screen, **click** on the **Close** button to return to the System Administrator screen.

Who Changed Maintenance Configuration - Report

The **Who Change Maintenance Configuration** screen is used to generate a **report** showing **who** made the change and **what** was **changed** in the Maintenance configuration.

 Complete the following steps to "generate" the Who Changed Maintenance Configuration Report:

1. At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Utilities**". An **expandable menu** appears listing the various report options.
2. **Click** on the **Who Changed Maintenance Configuration** option. The **Who Changed Maintenance Configuration** screen appears.

2. When you click on the Purge button, a **screen** will appear requiring you to **specify** a **date** for beginning the purge.

3. **Purge on or Prior to:** - The current date **defaults** to this field. **type** a different date in **MMDDYY** format if you wish to begin the purge on a different date. You can also **click** on the *down arrow* button and use the **calendar** to select the date.
4. When you are satisfied with the date, **click** on the **Start** button. The **Confirmation Password** screen will appear.
5. At the Confirmation Password screen, **enter** your **password** at the **Enter Password** field and **click** on **OK**.
6. **Click** on the **Exit** button when you are **finished** using the Who Changed Maintenance Configuration screen.

Freeze Traveler Account

This feature was added for situations where the traveler account was created incorrectly and claims have been processed. By using this feature you may keep the historical data for the claim, (unless the account was deleted), but **prevent** users from **accessing** the incorrectly created account again.

 **Complete the following steps to "freeze" a travel account:**

1. Login to IATS as a **System Administrator**, and **click** on the **Tools** menu at the top of the **IATS for Windows** screen. A *drop down list* of options appears.

2. **Click** on the **Traveler Profile** option and the **Select Traveler** screen appears.
3. At the **Select Traveler** screen, **click** in the appropriate **radio button** to **select** your search by either **SSN** or **DoD ID**.
4. After making your selection, **enter** either the traveler's **SSN** or **DoD ID** at the corresponding input field and then **press Tab**.
5. When the traveler's account information appears, **click** on the **OK** button.
6. The **Traveler Profile** screen appears.

Check to prevent users from accessing this account or entering claims for this traveler

7. Click in the **check box** at the **This traveler has been frozen** field.
8. Click on the **OK** button to **save** your entry.

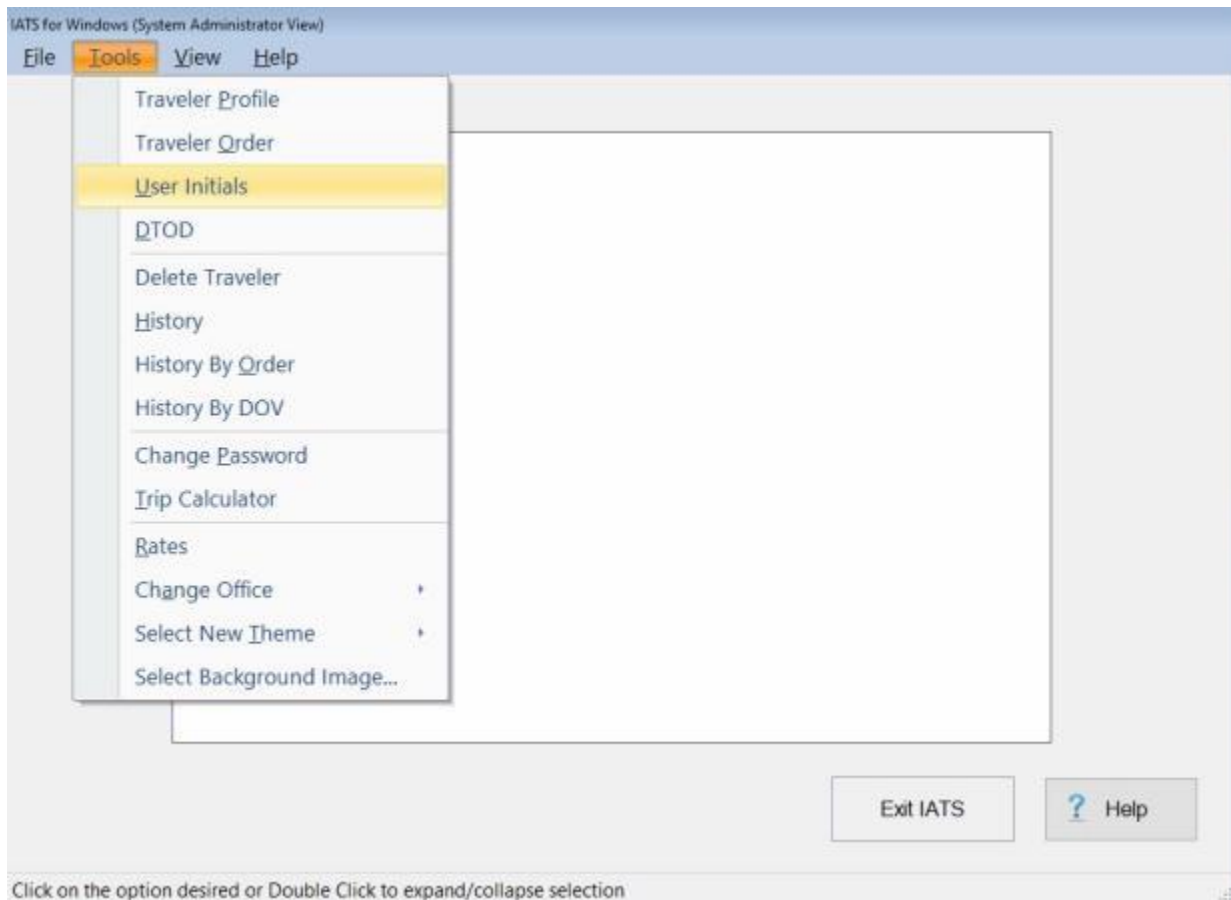

Display User Initials

Often times, key travel office personnel have a **question** when viewing a claim as to **who** the **initials** belong to that **processed** or **audited** a particular claim. Without going into **Maintenance** and viewing the **Users Passwords and Privileges** table, there is no easy way to determine this information.

For this reason, an **option** has been added to the **Tools** menu on the **Auditor**, **Disbursing**, and **System Administrator** view screens that allow you to easily **display** this information.

 Complete the following steps to "display" user initials:

1. On either the **Auditor**, **Disbursing**, or **System Administrator** view screen, **click** on the **Tools** menu.

2. A *sub-menu* appears listing several options.
3. **Click** on **User Initials**. The **Existing User ID's** screen appears.

Existing User ID's

Init	User ID	View	Name
JJJ	JOHN	Super User	JONES, JONNIE J
SYS	SYSTEM	Super User	SYSTEM, THE
BBB	BILL	Super User	BOY, BILLY B

OK ? Help

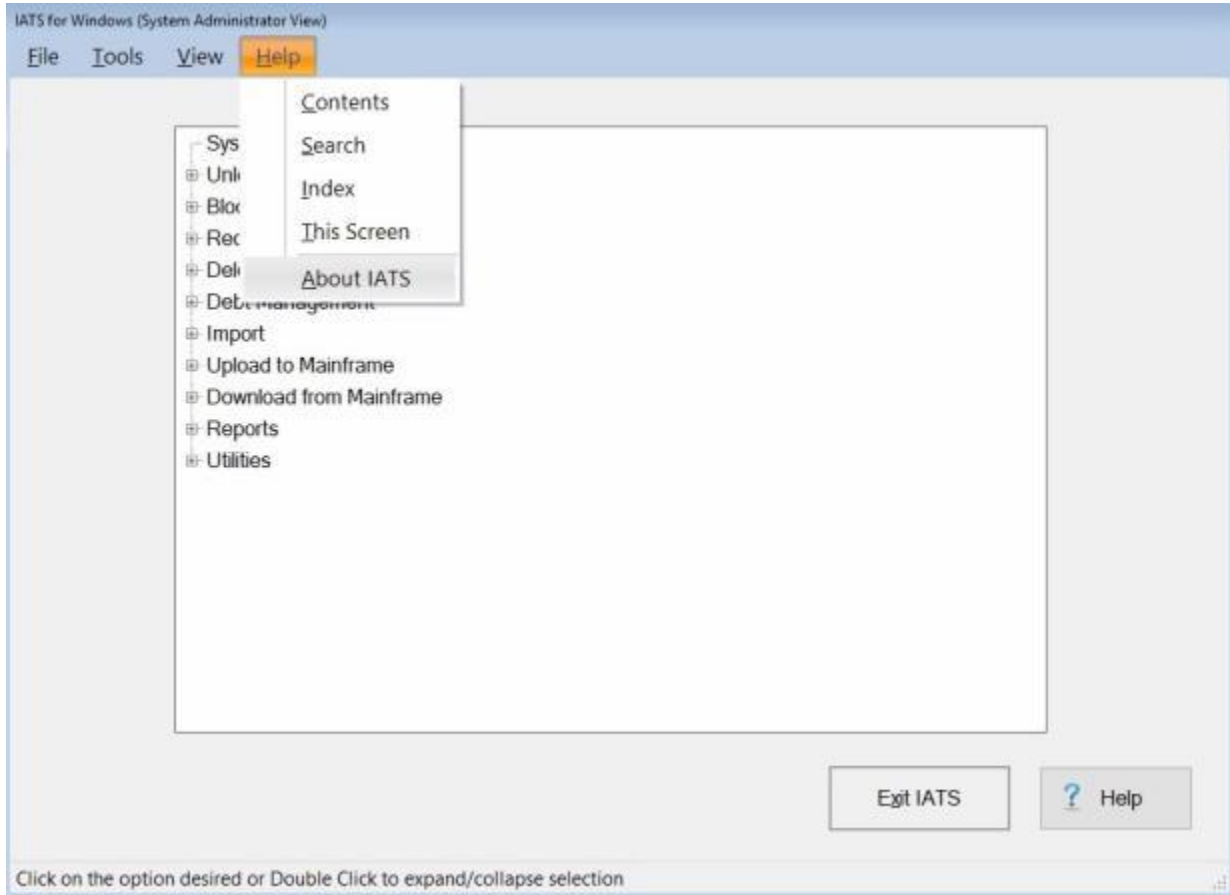

4. **Notice** that the Existing User ID's screen displays **initials** in the left hand column and the user's **name** in the far right hand column.
5. When **finished** using the Existing User ID's screen, **click** on **OK** to return to the previous screen.

Checking the Status of your IATS License

A valid and current **license** is required in order to use the IATS program. This license is **included** with the IATS software but will **expire** after **60 days** if the monthly **per diem rates update** provided by Professional Software Consortium (**PSC**) is not installed.

A new **feature** was added to IATS that enables you to **check** the **status** of your IATS **license** to determine if the **expiration** date is near.

 **Complete the following steps to "check" the status of your IATS license:**

1. At the **Menu bar** at the top of the IATS **System Administrator, Examiner, Auditor, or Disbursing** View screen, **click** on the **Help** option. A *drop down list* of additional options will appear.
2. **Click** on the **About IATS** option. The **About IATS** screen appears.

Checking Inactivity for an IATS User

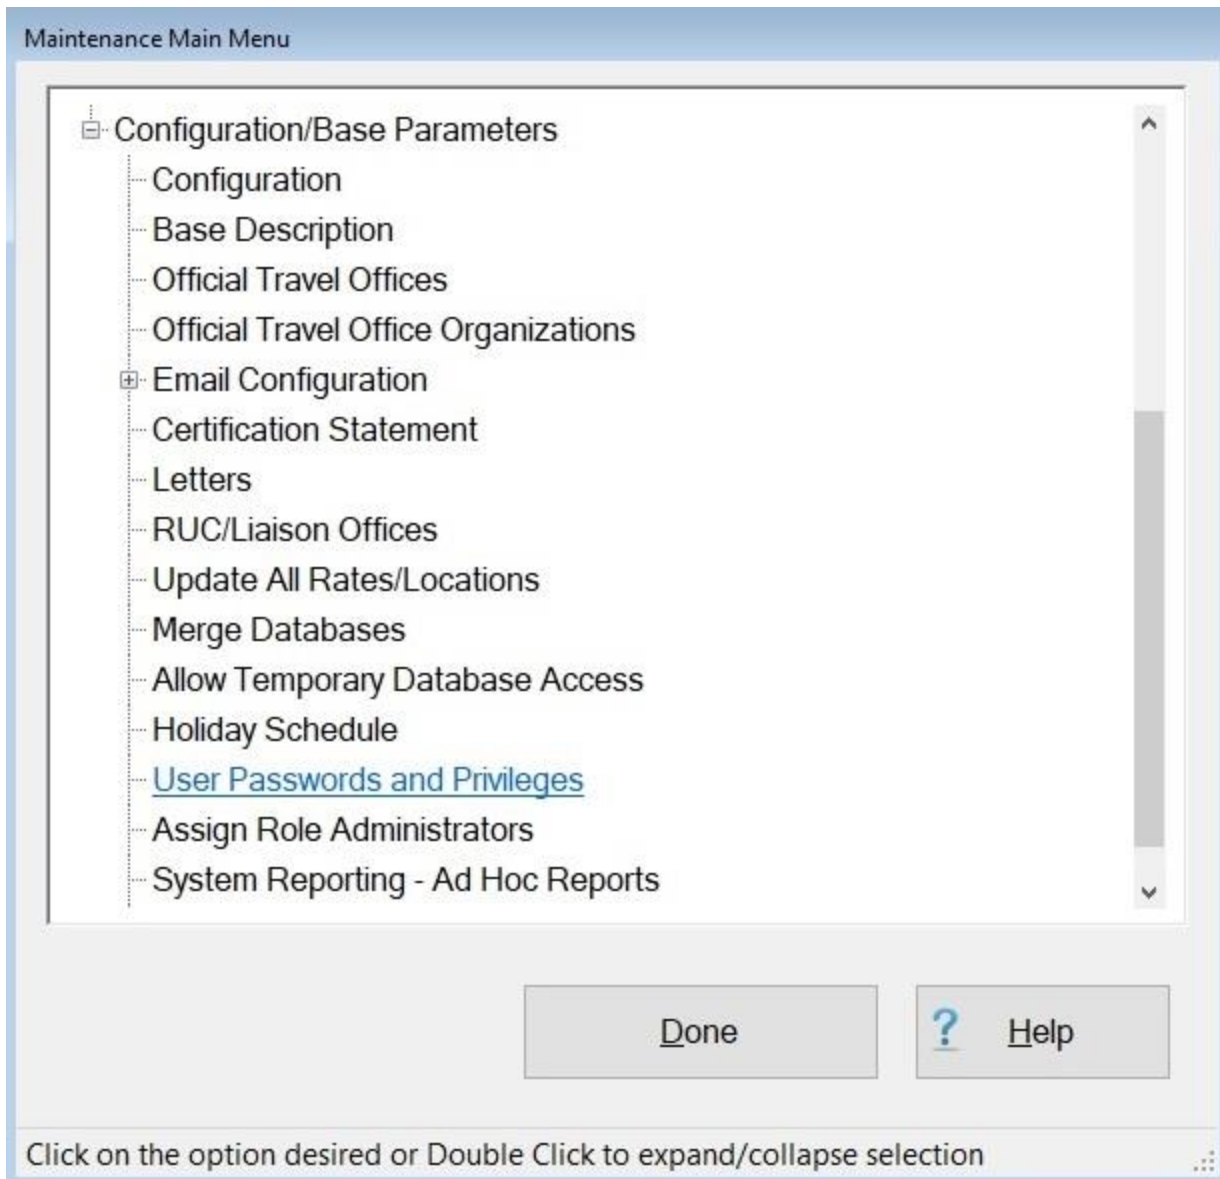

An IATS **user account** will automatically be **suspended** after a particular number of days of **inactivity**, which is determined by the organization.

A feature was added to IATS to allow the System Administrator to **check** the **inactivity status** of an IATS user.

 Complete the following steps to "check" the inactivity status of an IATS user:

1. At the **System Administrator View** screen, **click** on the **View** option. A *drop down menu* appears listing the various views the user has the **privilege** for.
2. **Click** on the **Maintenance** option. The **Maintenance Main Menu** screen will appear.

3. **At the Maintenance Main Menu, click on the plus sign to the left of the item Configuration/Base Parameters.** An expandable menu appears listing the various options.
4. **Click on the User Passwords and Privileges option.** The **Maintain User Passwords and Privileges** screen appears.

Enter the user's last name

5. **Click** on the desired **user name** from the list of IATS user accounts in the **grid** on the left side of the screen.

6. If you position your **mouse pointer** over the words **User ID** at the top of the screen, a *pop-up* message will appear showing **how many days** the selected user has been **inactive**.
7. **Notice** at the bottom of the screen there is a **statement** indicating the **number of days** of **inactivity** that will cause the user account to become **suspended**.

TPAX Administrator Functions

Locking TPAX Travel Orders

This option was requested by the **Coast Guard** to be able to **keep** an erroneously created Travel Order for historical purposes, but **prevent** a settlement or advance request to be processed against it.

Note: To use this feature you must login to IATS as a **TPAX Administrator**.

 Complete the following steps to "lock" a TPAX travel order:

1. At the **System Administrator View** screen, **click** on the **Lock/Unlock TPAX Orders** option. An expandable menu appears listing several options.
2. **Click** on the **Lock a TPAX Order** option. The **Select Traveler** screen appears.

Select Traveler

Controlled Unclassified Information (CUI)

ID: 222-22-2222

Name: TRAVELER, MISTER T

Address-1: 100 WAY

Select Order Number to be Locked in T-PAX

[Lock](#) [Cancel](#) [? Help](#)

- At the **Travel Order Selection** screen, any existing travel orders in the database for the selected traveler are listed in the table in the **Order** grid.
- Click on the **Order** you wish lock and then click the **Lock** button.

Unlocking TPAX Travel Orders

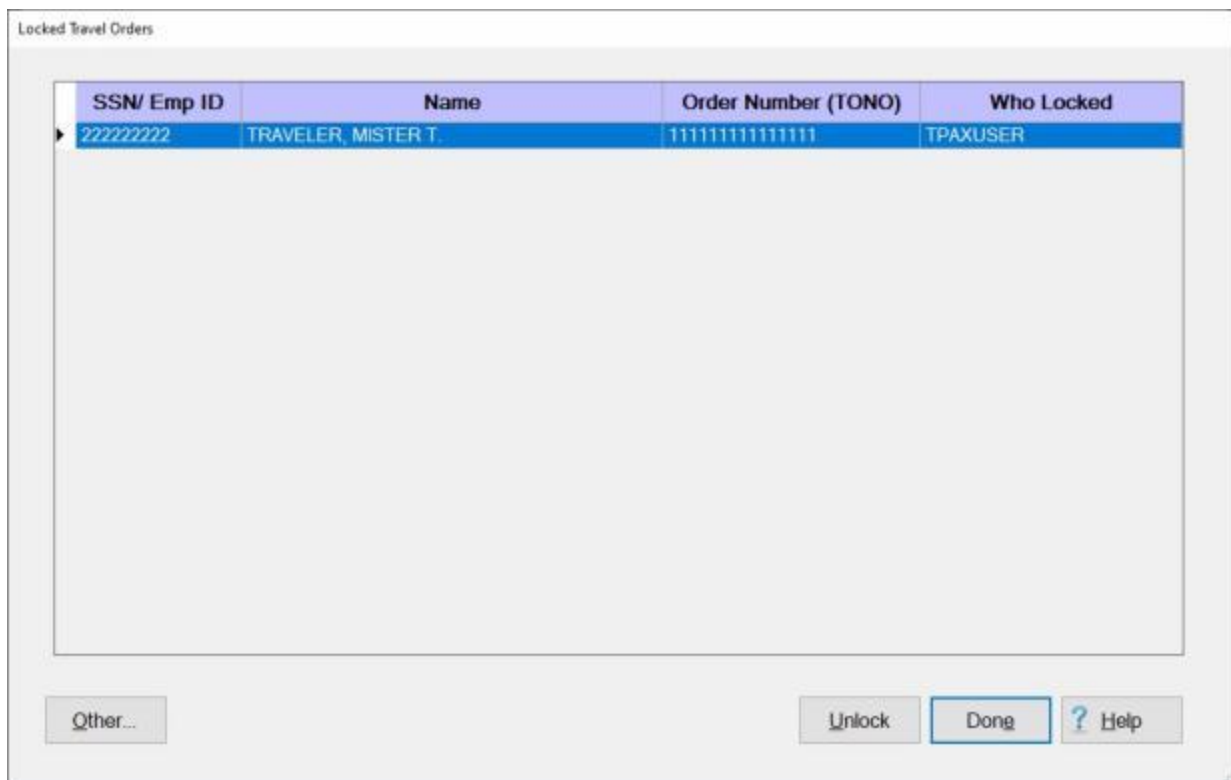

The option to lock TPAX travel orders was requested by **TPAX** users to be able to **keep** an erroneously created order for historical purposes, but **prevent** a settlement or advance request to be processed against it.

After an order has been locked, it may be determined that the order should be **unlocked**.

Note: To use this feature you must login to IATS as a **TPAX Administrator**.

 **Complete the following steps to "unlock" a locked TPAX travel order:**

1. At the **System Administrator View** screen, **click** on the **Lock/Unlock TPAX Orders** option. An expandable menu appears listing several options.
2. **Click** on the **View/Unlock Locked TPAX Orders** option. The **Locked Travel Orders** screen appears.

3. At the **Locked Travel Orders** screen, **click** in the **column** to the left of the **SSN/Emp ID** column to **select** the order you wish to unlock.
4. When the order you wish to unlock is **highlighted** in blue, **click** on the **Unlock** button.
5. IATS **unlocks** the order and **removes** it from the **Locked Travel Orders** screen.
6. If you are **finished** using the **Locked Travel Orders** screen, **click** on the **Done** button.

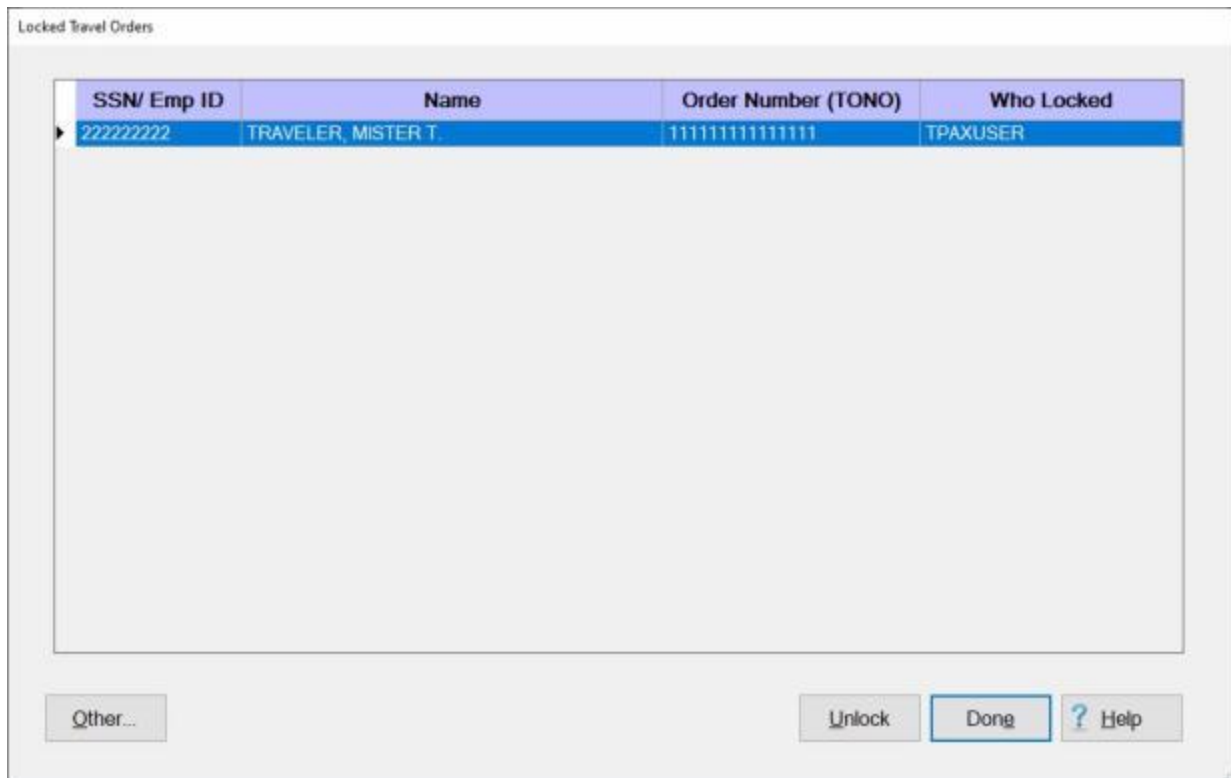

Viewing Locked TPAX Travel Orders

The option to lock TPAX travel orders was requested by **TPAX** users to be able to **keep** an erroneously created order for historical purposes, but **prevent** a settlement or advance request to be processed against it.

Note: To use this feature you must login to IATS as a **TPAX Administrator**.

 **Complete the following steps to "view" a locked TPAX travel orders:**

1. At the **System Administrator View** screen, **click** on the **Lock/Unlock TPAX Orders** option. An expandable menu appears listing several options.
2. **Click** on the **View/Unlock Locked TPAX Orders** option. The **Locked Travel Orders** screen appears.

3. When you are **finished** viewing locked TPAX orders, **click** on the **Done** button.

Import Credit Card and Ticket Data

The **Import Credit Card/Ticket Data** screen is used to process the download files for **credit card** and **ticket data** that is later used to perform the **CBA reconciliation**.

 Complete the following steps to "process" the credit card and ticket data files:

1. **Login** to IATS as a **TPAX Administrator**.
2. At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, **"Import"** and then **click** on the **Import Credit Card/Ticket Data** option.
3. The **Import Credit Card/Ticket Data** screen appears.

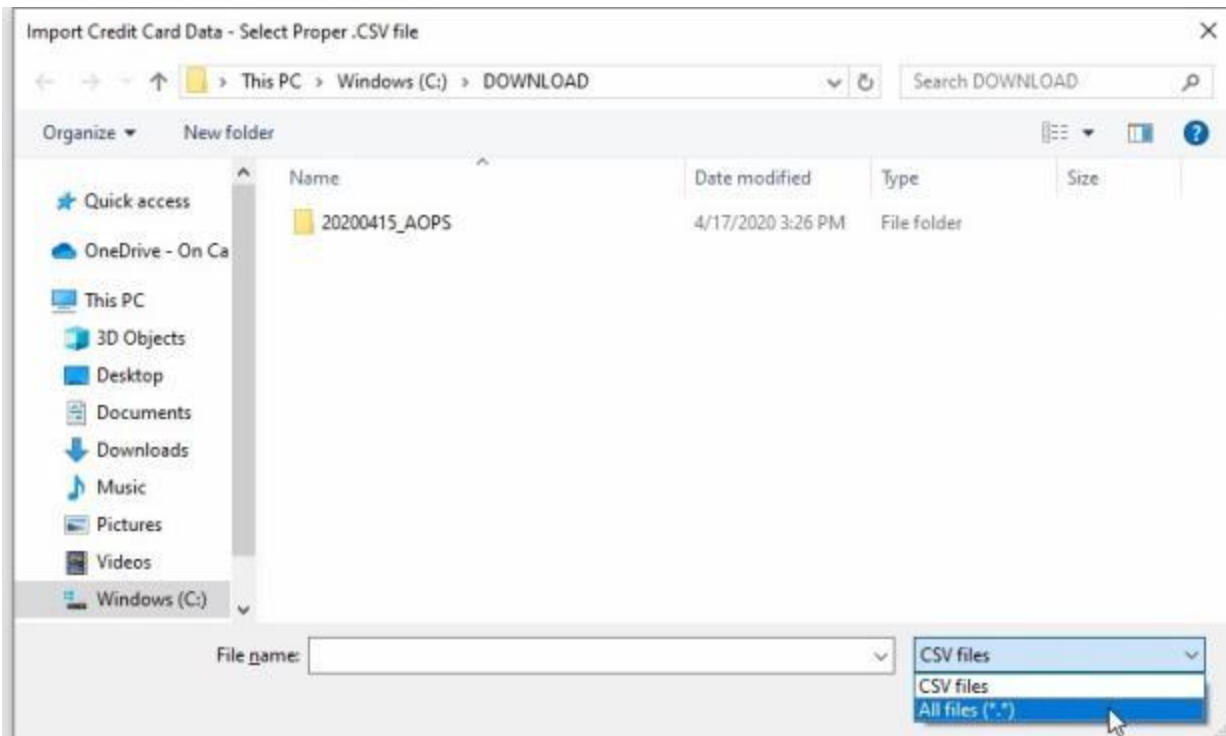

Transaction Date	Posting Date	Airline	Ticket Number	Transaction Type	Amount

Note: The **Import Credit Card/Ticket Data** screen has two tabs. **Import Credit Card Data** and **Import Ticket Data**. You must **click** on the correct **tab** to bring it into **focus** for the type of data you are **importing**. When the screen **appears**, the **Import Credit Card Data** tab will be in **focus**.

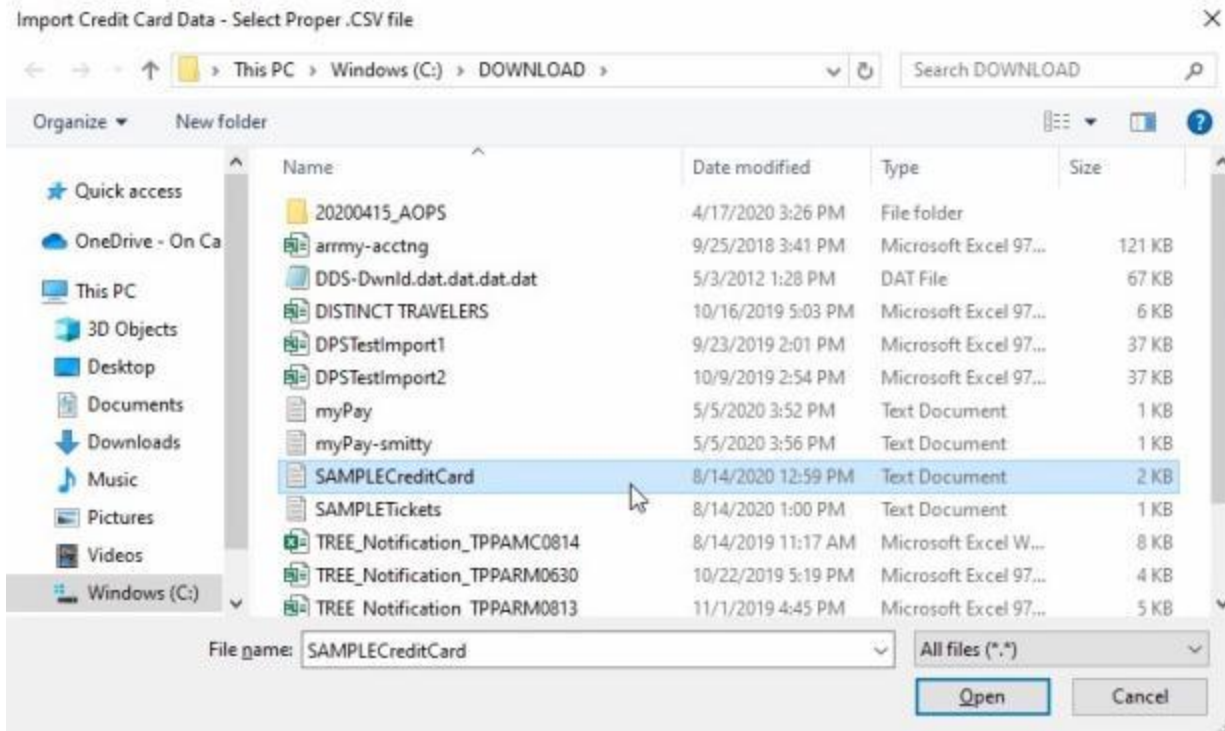

Importing Credit Card or Ticket Data:

1. **Click** on the **Import Credit Card Data** or **Import Ticket Data** button as applicable. The **Select Proper CSV File** screen will appear.

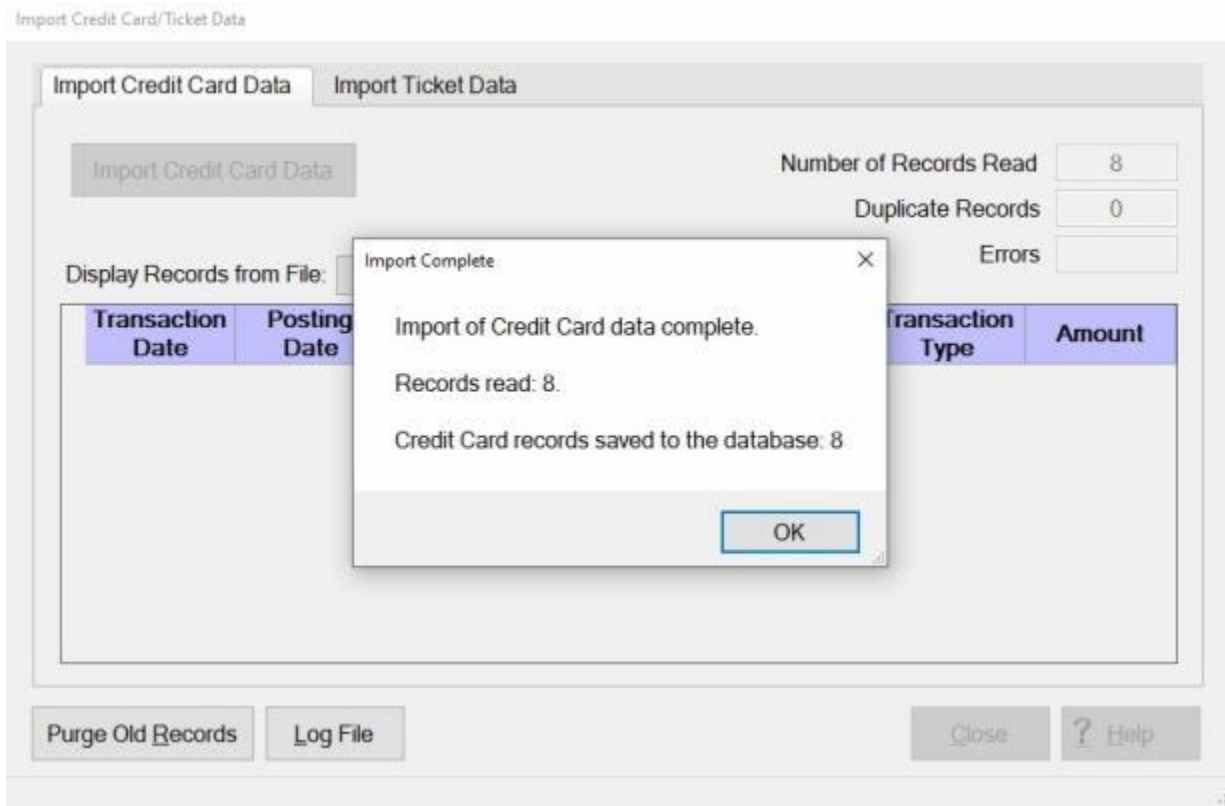

Note: At this screen, the IATS user must select the **drive/directory/folder** where the import files **reside**. In addition, the **Select Proper CSV File** screen is **expecting** a file in the **CSV** format. If the file you are wishing to import is something other than a **CSV** file, you must **click** on the *down arrow* button at the **File Type** field and then **select** the **All files (*.*)** option to **display** all of the **files** residing in the specified **drive/directory/folder**.

2. After **clicking** on the **All files (*.*)** option, all of the **files** residing in the specified **drive/directory/folder** will appear.

3. **Click** on the desired import file. IATS highlights the **filename**.
4. After you have clicked on the desired import file, **click** on the **Open** button.

5. IATS will **import** the selected file and **generate** an on screen **display** of the results.

- When IATS is **finished** processing the selected file, a *pop-up* message will appear indicating that the import is **complete** as shown above.
- Click** on **OK** to continue. IATS will **display** the imported **records** in the **grid** in the middle of the screen as shown below.

Purge Old Records Log File Close ? Help

Display Records from File:

Note: If you wish to **display** the **records** from previously imported credit card or ticket data files, you can do this at the **Display Records from File** field located just above the **grid** in the middle of the screen.

- At the **Display Records from File** field, **click** on the *down arrow* button. IATS will display a **list** of previously imported files for either **credit card** or **ticket** data, depending on which tab is in **focus** as shown below.

2. **Click** on the desired file from the *drop down list* of previously imported files. IATS will **display** the **records** for the selected file as shown below.

Purge Old Records:

Note: IATS will **store** the **records** for **imported** credit card and ticket data in your database **indefinitely** unless you decide to **purge** the old records. The **Purge Old Records** feature will **remove** the records that are **older than three years**.

1. **Ensure** that the **correct tab** for either **credit card** or **ticket data** is in **focus**.
2. When you are **sure** that the **correct tab** is in **focus** for the type of records you wish to purge, **click** on the **Purge Old Records** button. IATS will **display** the following **popup message** for the type of files you have **elected** to purge.

3. If you are **sure** that you wish to **purge** the records, **click** on the **Yes** button to **continue**.

Display Log File:

Note: Sometimes **errors** can occur when you are importing **credit card** or **ticket** data files. The **Log File** button will open a **File Explorer** window of the **directory** where the IATS Log file is **located**. This allows you to **quickly find** the **Log File** if there are any **irregularities** to **send** to Professional Software Consortium (**PSC**).

1. If there any **irregularities** that you need to report to PSC, **click** on the **Log File** button. A **File Explorer** window will open **highlighting** the NetIATS log file as shown below.

2. You would then make a **copy** of this file and **transfer** it to **PSC** for their evaluation.

When you are **finished** using the **Import Credit Card/Ticket Data** screen, **click** on the **Close** button.

Uploading Obligations

Once a **TEMADD** has been created by a traveler, processed by a travel agent, and approved by an AO, an **Obligation** file is generated by TPAX that must be **uploaded** to the **Navy** accounting system (**SABRS**) through IATS.

 **Complete the following steps to "upload" Obligations to SABRS:**

Login to IATS as a **TPAX Administrator**.

At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Upload to Mainframe**". An **expandable menu** appears listing the options.

Click on the **Upload Obligations to SABRS** option. The **Upload Obligations to Accounting System** screen appears.

Upload Obligations to Accounting System

Upload Directory

Upload Option Selection

Create Upload File with Obligations ready to be Uploaded Fiscal Year

Create Upload File with Obligations Previously Uploaded Subhead

Print Transmittal Letter B1 Seq #

Print Upload File

Ignore JON(s):

Enter the Subhead Code for the Lines of Accountings you want to resend or reprint

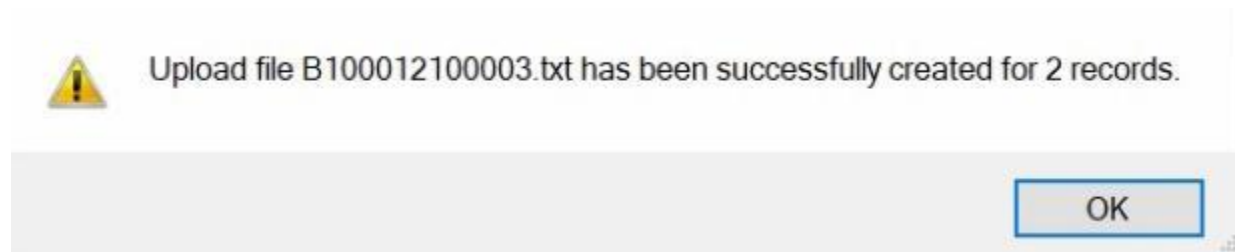

If not already selected, **click** in the radio button next to the option, **Create Upload file with Obligations ready to be Uploaded**.

Fiscal Year: - The default value at this field is the current fiscal year. **Enter** a different **fiscal year code** in **YYYY** format **if** you want to create the B1 file for a **specific** fiscal year. For example, if

some of the obligations ready to be uploaded are for **FY 2018** and money has not been **allocated** for FY 2018 yet, enter 2017 at the Fiscal Year field. This will **prevent** the FY 2018 obligations from being **included** in the B1 upload file.

Subhead: - Enter the **Subhead number** to be used for the transmission.

After you have made your required entries **click** the **OK** button. IATS will create the **B1** upload file and **display** a **message** indicating the **number** of **records** included in the file.

Note: You will find the **B1** upload file in the **directory** you have specified in the IATS **Maintenance** module for your upload and download files.

If you have previously **created** a B1 file and **uploaded** the obligations, but need to **recreate** the B1 file (for some reason), **click** in the radio button next to the option, **Create Upload file with Obligations Previously Uploaded**.

Click in the **B1 Seq #** field, **type** the **sequence number** for the B1 file you wish to recreate and then **click** on **OK**.

Tip: The sequence number is the last 5 digits of the **filename** IATS generates when the B1 file is created.

If you wish to **print** a **Transmittal Letter** for the B1 upload file, **click** in the radio button next to the option, **Print Transmittal Letter**.

Click in the **B1 Seq #** field, **type** the **sequence number** for the B1 file you wish to print the Transmittal Letter for and then **click** on **OK**.

If you wish to generate a **print-out** of the B1 upload file, **click** in the radio button next to the option, **Print Upload File** and then **click** on **OK**.

Process B2 Download File

For **NAVY** customers, IATS is programmed to process a **download** the **B2** file from the **Accounting System** to automatically **populate** the **Accounting Classifications** table maintained within IATS.

 **Complete the following steps to "process" the B2 Download File:**

At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Download from Mainframe**". An expandable menu appears listing the options.

Click on the **Download B2 file for CMET JON Update** option. The **Download B1 Data** screen appears.

Note: When this screen appears, a *pop-up* is displayed **indicating** that all other users must log-off before processing the accounting download **file**. **Ensure** that all others **users** have **logged off** and then **click** on the **OK** button to continue.

Print File Print Errors Exit ? Help

Note: At this screen, the IATS user must **select** the **location** where the B2 download file **resides**.

If the **default** directory is not correct when the **Download B1 Data** screen appears, **click** on the **Browse** button at the top left portion of the screen and **browse** to the desired directory. After specifying the desired directory, the download **file(s)** will appear in the **area** at the top left portion of the screen.

Click on the desired download **file**. IATS highlights the **filename**.

After the desired download **file** is selected, **click** the **Download** button. IATS processes the download file and **displays** the **results**.

Tip: If rejects occur, the errors are written to the **error** file. It is a good idea to **view** the download error report. This report should be **analyzed** to determine the **cause** of the reject. When the **problem** is **determined**, the information can be manually entered, if necessary. **Click** on the **Print Errors** button to generate a **printed** error report. **Click** on the **Print File** button if you wish to generate a **print-out** of the B2 Download **file**.

When **finished** processing the B2 download file, **click** the **Exit** button to **return** to the **System Administrator View** screen.

Process CMET JON Department File

The CMET JON Department Proxies table is used to designate **units** or **departments** that require a **Proxy signature** in order to approve a TEMADD/Authorization for Travel before it may be approved by the AO.

The **Download CMET JON Department Data** screen is used to process the downloaded file and populate the table.

 Complete the following steps to "process" the CMET JON Department file:

At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Download from Mainframe**". An expandable menu appears listing the options.

Click on the **Download CMET JON Department File Update** option. The **Download CMET JON Department Data** screen appears.

Note: When this screen appears, a *pop-up* is displayed **indicating** that all other users must log-off before processing the accounting download **file**. **Ensure** that all others **users** have **logged off** and then **click** on the **OK** button to continue.

Select a Filename to see Unmerged Credit Card records.

Viewing Merged Records:

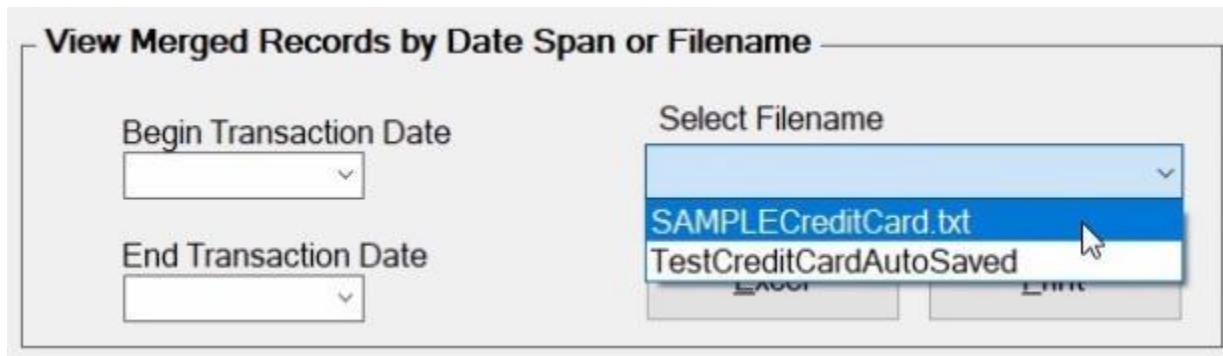

After you have performed the **merge**, you may **view** the **merged records** at the **View Merged Records by Date Span or Filename** section in the **top right corner** of the screen. You have the **option** of viewing the records for a **specific date range** or by displaying the contents of a **specific file**. You **also** have the **option** of generating the display as an **Excel spreadsheet** or as a **report**.

Begin Transaction Date: - If you wish to view the merged records for a **specific date range**, enter a beginning date in **MMDDYY** format. You may also **click** on the *down arrow* button and use the **Calendar** to select the date.

End Transaction Date: - If you wish to view the merged records for a **specific date range**, enter an ending date in **MMDDYY** format. You may also **click** on the *down arrow* button and use the **Calendar** to select the date.

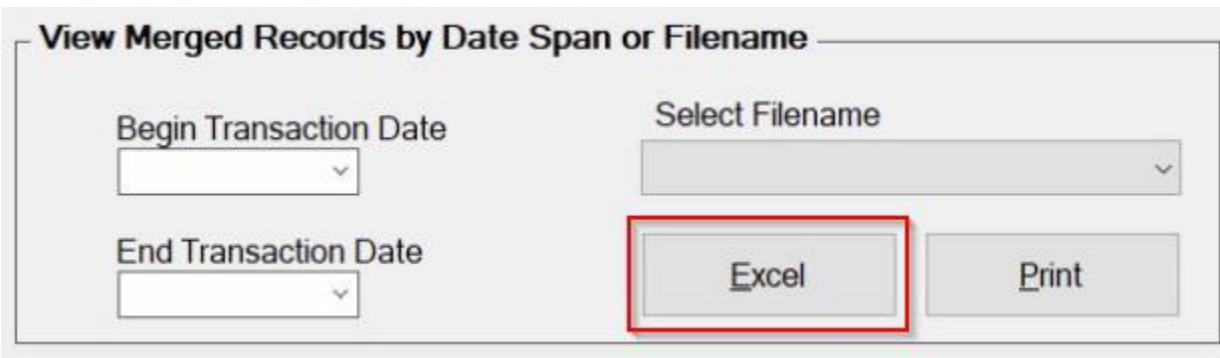

Select Filename: - If you wish to view the merged records for a **specific file**, click on the *down arrow* button at the **Select Filename** field. IATS will **display a list of files** that have been merged as shown below.

Click on the **file** you wish to **display** the merged records for.

Note: After either entering a **specific data range** or selecting a **specific file**, you must now **decide** whether you wish to view the merged records as an **Excel spreadsheet** or as a **report**.

Viewing Merged Records as an Excel Spreadsheet:

After entering a **date range** or **selecting** a file, click on the **Excel** button. IATS will **display** the **Save an Excel File** screen as shown below.

At the **Save an Excel File** screen, **navigate** to the **drive/directory/folder** where you wish to **save** the Excel file.

IATS enters a default filename at the File name field. Enter a different name for the file if desired.

When you are **satisfied** with the **location** for the file and the **filename**, click on the **Save** button. IATS **saves** the file and **launches** the **Excel** program displaying the merged records as shown below.

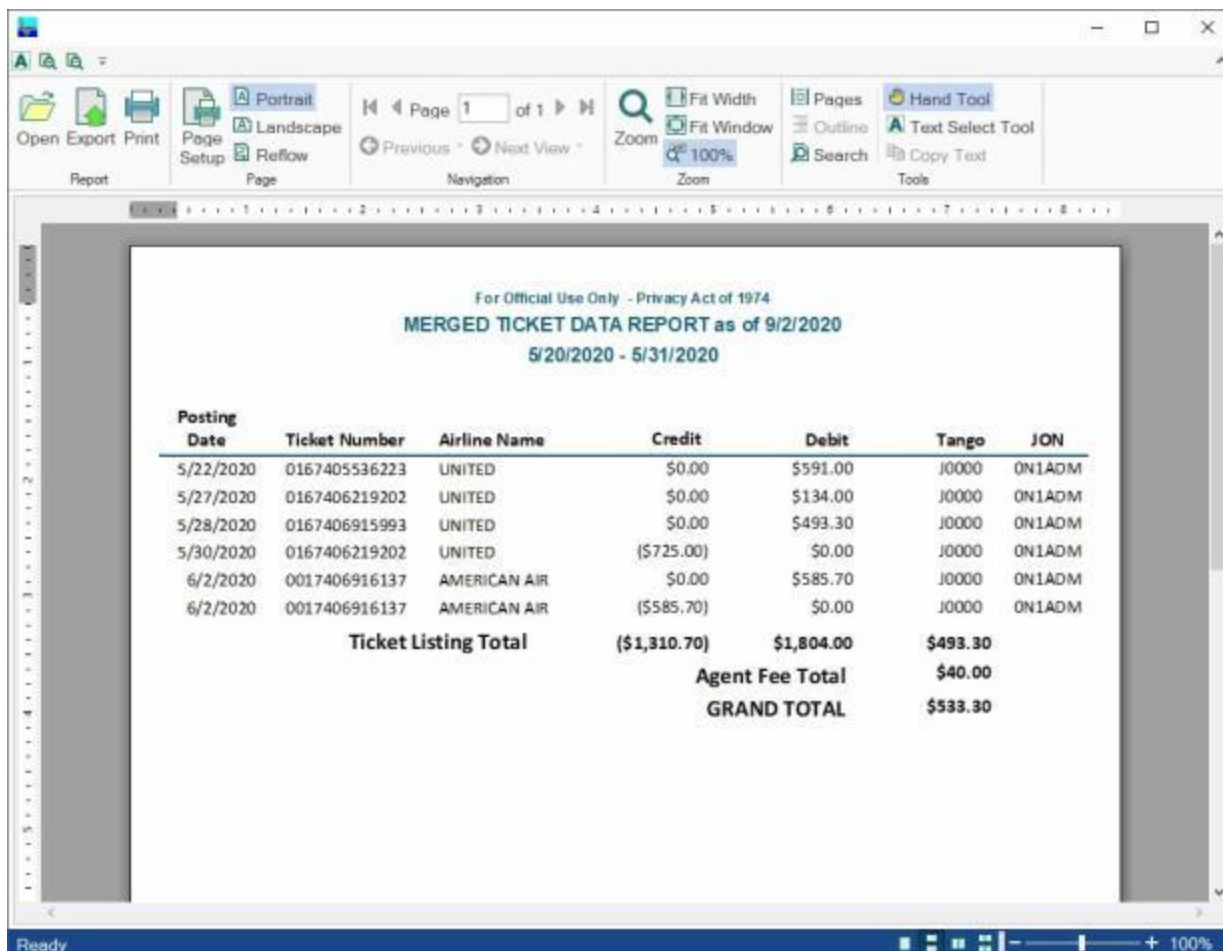

Transaction	Date	Posting Date	Traveler	Ticket Number	Airline	Credit	Debit	Tango	ION	Itinerary	Amount

						Total (\$ 3,310.70)	\$ 3,804.00				\$ 493.30

Click on the **File** menu option and then click on the **Print** option if you wish to generate a print-out of this report.

When you have finished reviewing or printing the report, click on the **X** button in the top right corner to close the Excel program.

Viewing Merged Records as a Report:

After entering a date range or selecting a file, click on the **Print** button. IATS will display the IATS Report Viewer screen as shown below.

Click on the **Print** icon if you wish to generate a print-out of this report.

When you have finished reviewing or printing the report, click on the **X** button in the top right corner to close the **IATS Report Viewer** screen.

When you are finished using the **Merge Credit Card and Ticket Data** screen, click on the **Close** button.

Modify Ticket Data

After you have imported credit card and ticket data files and merged the files, a **CBA reconciliation** must be performed to identify **discrepancies** between what was **obligated** for travel expenditures and what was actually **billed**.

Before running the CBA reconciliation, however, it may be necessary to **modify** any **ticket data records** that may have an incorrect JON or Tango number.

The **Modify Ticket Data** screen is used to perform this function.

 **Complete the following steps to "modify" ticket data records:**

Login to IATS as a **TPAX Administrator**.

At the **System Administrator View** screen, **click** on the **plus sign** to the **left** of the word, "**Utilities**" and then **click** on the **Modify Ticket Data** option.

The **Modify Ticket Data** screen appears.

Buttons: Save, Cancel, Delete, Close, Help

Enter the Ticket Number

At the Modify Ticket Data screen, **double click** on the **ticket number** you wish to modify. **Click** on the **up/dn arrow** buttons on the right side of the screen to scroll through the list if necessary. After you have selected a ticket to modify, the data for the ticket record appears in the **fields** below the grid at the bottom of the screen. section.

When the ticket data is displayed, **click** in the **field** you wish to modify the data for and **enter** the correct information.

Tip: You may also **delete** the record if necessary by clicking on the **Delete** button. If you click on the Delete button, a *pop-up message* will appear asking if you are **sure** you want to delete the record. **Click** on **Yes** if you are sure.

When you are finished modifying the ticket record, **click** on the **Save** button to save your changes.

Note: If you entered a **Tango** number or **JON** that does not exist in the Maintenance tables, the following *pop-up message* appears:

Click on **OK** and **enter** the **correct data** or have your **System Administrator** add the **Tango** number or **JON** to the appropriate table in the **Maintenance** module.

Performing a CBA Reconciliation

After you have **imported** credit card and ticket data files and **merged** the files, a **reconciliation** must be performed to identify **discrepancies** between what was **obligated** for travel expenditures and what was actually **billed**. IATS will then generate an **adjustment** file for any found **discrepancies** that is **transmitted** to the **accounting** system.

 **Complete the following steps to "perform" the CBA reconciliation:**

Login to IATS as a **TPAX Administrator**.

At the **System Administrator View** screen, **click** on the **plus sign** to the left of the word, "**Utilities**" and then **click** on the **CBA Reconciliation** option.

The **CBA Reconciliation** screen appears.

Click on the **Reconcile Now** button.

IATS **reconciles** the imported files and **displays** the results in the **Records Reconciled** and **Records Not Reconciled** fields.

The following *pop-up* message will appear indicating that the reconciliation is complete:

Click on **OK** to continue.

After you click on **OK**, IATS will **display** any **Exceptions** in the **grid** in the **middle of the screen** under the heading "**Exceptions - LOAs Automatically created by the Reconciliation Process**" as shown below.

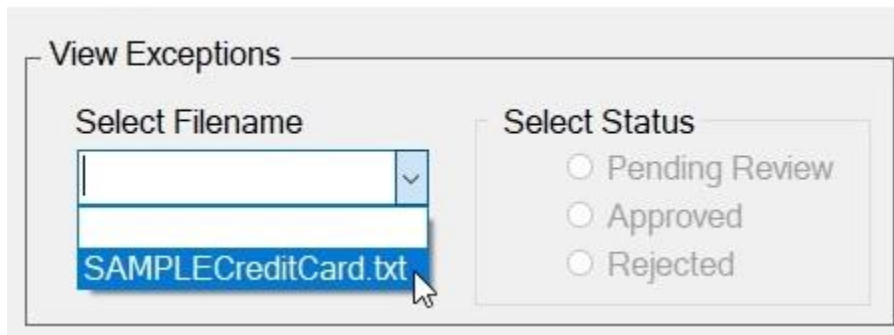

The screenshot shows the 'CBA Reconciliation' window. On the left, there's a 'Reconciliation' section with a 'Reconcile Now' button and statistics: 'Records Reconciled: 6' and 'Records Not Reconciled: 0'. On the right, there's a 'View Exceptions' section with a 'Select Filename' dropdown, a 'Select Status' radio button group (Pending Review, Approved, Rejected), and a 'View Orphan AB LOAs' button. Below these is a table titled 'Exceptions - LOAs Automatically created by the Reconciliation Process'. The table has columns for Transact'n Date, Posting Date, Order Number, SSN, Name, Ticket Total, Additional Obligated, JON, Tango, Airline, and Ticket #. The first row is selected with a checkmark in the far right column. Below the table are buttons for 'Select All', 'Unselect All', 'Mark Approved', and 'Mark Rejected'. At the bottom are buttons for 'Print', 'Excel', 'Log File', 'Close', and 'Help'.

Transact'n Date	Posting Date	Order Number	SSN	Name	Ticket Total	Additional Obligated	JON	Tango	Airline	Ticket #	
5/20/2020	5/22/2020	V4789820TOJ0000	222-22-2222	TRAVELER, MISTEF	\$591.00	\$140.00	0N1ADM	J0000	UNITED	0167405536223	<input checked="" type="checkbox"/>
5/25/2020	5/27/2020	V4789820TOJ0000	222-22-2222	TRAVELER, MISTEF	\$134.00	\$134.00	0N1ADM	J0000	UNITED	0167406219202	<input type="checkbox"/>
5/26/2020	5/28/2020	V4789820TOJ0000	222-22-2222	TRAVELER, MISTEF	\$493.30	\$493.30	0N1ADM	J0000	UNITED	0167406915993	<input type="checkbox"/>
5/31/2020	6/2/2020	V4789820TOJ0000	222-22-2222	TRAVELER, MISTEF	\$585.70	\$585.70	0N1ADM	J0000	AMERICAN AIR	0017406916137	<input type="checkbox"/>

Note: In cases where **charges** are found to **exceed** the **amount obligated** for travel (AB LOAs). Those amounts (**Exceptions**) will be **automatically obligated** and the credit card **records** that caused the additional obligations will be **displayed** indicating the **additional amount** that was **obligated**. All these records get **flagged** with a Status of **Pending Review**. **Note** that the **first row** shows a **Ticket Total** of **\$591.00** but the **Additional Obligated** is only **\$140.00** -- that's because **\$451.00** had **already been obligated**. The **purpose** of displaying this information is for the user to **Review** these additional obligations and **decide** whether they will be **Approved** or **Rejected**. The user will put a **check mark** on the **far right column** of a row and then **click** on the **Mark Approved** or **Mark Rejected** button as applicable. **One, several, or all rows** can be processed **at once** by **clicking** on the **Mark Approved** or **Mark Rejected** button.

If you have **Exceptions** displayed in the grid, you can **process** them now, **or close** the **CBA Reconciliation** screen and **work** on them at **another time** using the **View Exceptions** feature.

View Exceptions:

Note: If you had **Exceptions** displayed in the **grid** after performing a **Reconciliation** and **decided to process** them at **another time** you would **use the View Exceptions** feature on the **CBA Reconciliation** screen.

At the **View Exceptions** section on the CBA Reconciliation screen, **click** on the *down arrow* button at the **Select Filename** field as shown above.

IATS will **display** a **list** of **files** containing **records** that have **Exceptions**.

Click on the **file** you wish to **View**.

After, selecting a file, **click** in the **radio button** under the heading **Select Status** to **filter** the records to be displayed by their **status**.

After selecting the desired **status**, IATS **displays** the **records** for that particular **status** if any exist, as shown below.

Transact'n Date	Posting Date	Order Number	SSN	Name	Ticket Total	Additional Obligated	JON	Tango	Airline	Ticket #	
5/20/2020	5/22/2020	V4789820TOJ0000	222-22-2222	TRAVELER, MISTEF	\$591.00	\$140.00	0N1ADM	J0000	UNITED	0167405536223	<input checked="" type="checkbox"/>
5/25/2020	5/27/2020	V4789820TOJ0000	222-22-2222	TRAVELER, MISTEF	\$134.00	\$134.00	0N1ADM	J0000	UNITED	0167406219202	<input type="checkbox"/>
5/26/2020	5/28/2020	V4789820TOJ0000	222-22-2222	TRAVELER, MISTEF	\$493.30	\$493.30	0N1ADM	J0000	UNITED	0167406915993	<input checked="" type="checkbox"/>
5/31/2020	6/2/2020	V4789820TOJ0000	222-22-2222	TRAVELER, MISTEF	\$585.70	\$585.70	0N1ADM	J0000	AMERICAN AIR	0017406916137	<input type="checkbox"/>

Note: You would now **Review** these records with additional obligations and **decide** whether they will be **Approved** or **Rejected**. You would then put a **check mark** in the **check box** in the **far right column** of a row and then **click** on the **Mark Approved** or **Mark Rejected** button as applicable. **Note that One,**

several, or **all rows** can be processed **at once** by **clicking** on the **Mark Approved** or **Mark Rejected** button **after** placing a **check mark** in the **check box**.

View Orphan AB LOAs:

Claim #	Date Issued	Date Cancelled	Order Number	SSN	Name	Amount	JON	Tango	Days Since Cancel	
7	8/6/2020	8/6/2020	V4789820TOJ0001	222-22-2222	TRAVELER, MISTER T.	\$345.89	0N1ADM	J0001	28	<input checked="" type="checkbox"/>
9	8/6/2020	8/6/2020	V4789820TOJ0002	222-22-2222	TRAVELER, MISTER T.	\$267.13	0N1ADM	J0002	28	<input type="checkbox"/>

Note: When a **travel order** is **cancelled**, the **LOAs** get cancelled **as well** but **sometimes** they **still** get a credit card **charge**. This can occur if the **order** was **cancelled after** the **ticket** was **purchased**. When the CBA reconciliation happens and the **file** is **uploaded**, (if there isn't an obligated amount), **system problems** can occur. To **avoid system problems** from happening, it was requested that when an **order** is **cancelled**, IATS **will not de-obligate** the **AB LOAs** **in case a charge comes in**. An **additional request** was create a way to **see** if there are AB LOAs that **haven't been reconciled** and **can be de-obligated**. Clicking on the "View Orphan AB LOAs" button will **display** those **AB LOAs** that are associated with **cancelled orders** and a **button** that **allows** for **marked records** to be **de-obligated**.

Click on the **View Orphan AB LOAs** button if you wish to **see** if there are any **AB LOAs** that **haven't been reconciled** and **can be de-obligated**. If there **are** any, they will be **displayed** in the **grid** in the **middle of the screen** (as shown above).

Review the displayed **records**.

If you wish to **de-obligate** a record, **click** in the **check box** in the **far right column** of the row.

After you have placed a **check mark** in the **check box** for the **row** you wish to de-obligate, **click** on the **De-Obligate** button.

When you have **finished** performing the reconciliation, **click** on the **Close** button.

Maintaining Navy ATOS Parameters

ATOS - STARS parameters are accounting **data elements** that are added to **B1 file** generated by IATS that is transmitted to the Navy disbursing system.

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **ATOS - STARS Parameters** option.

 **Complete the following steps to "enter" the ATOS - STARS parameters:**

Treasury Index: - Click in this field and **type** the Treasury Index **code** used by your organization.

Object Class: - Click in this field and **type** the Object Classification **code** used by your organization.

Expense Element: - Click in this field and **type** the Expense Element **code** used by your organization.

Use Electronic Signature: - The Electronic Signature is a mechanism used to **control** the **flow** of the B1 file generation. If left unchecked, the authorization is automatically approved by IATS when the Travel Agent **releases** it to the AO. If checked, however, the AO must digitally sign the authorization in order for the obligation to be included in the next B1 file generation. **Click** in the **check box** to check or uncheck this option as required by your organization.

When you have **finished** entering the required data elements, **click** on **OK** to save your entries.

Maintaining Authorization Remarks

The DD Form 1610 (Request and Authorization for TDY Travel of DOD Personnel) contains a **Remarks** section (Block 16) that is used to address special requirements and **authorizations**.

IATS contains a **table** in the **Maintenance** module that allows you to enter a variety of standard remarks and associate them to a particular fund type, (cost, no-cost, command, etc.).

These remarks may then be pulled from the table and **printed** in block 16 of the DD Form 1610 generated by TPAX after an authorization has been approved.

Enter Remark

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **Authorization Remarks** option.

 Complete the following steps to "enter" the obligation remarks:

Click in the **Code** field and **type** a code for the remark for wish to enter.

Click in the **check box** at the **All** column if the remark will apply to all authorization types. If not, press **Tab** until you are at the desired authorization type and then **click** in the **check box** to apply the remark.

Note: More than one authorization type can be selected.

Continue pressing **Tab** until the blank **text field** just below the check boxes is **highlighted**.

Type a short description for the remark you are entering in the highlighted text box.

Click in the **Remarks** text box and **type** the desired remark.

Click on the **Copy** button, to **append** the short description to the **Remark** text box.

After you have entered a remark, applied it to the proper fund type, and appended the short description, **click** on **OK** to save your entry.

Maintaining the CMET JON Table

IATS contains a variety of tables that are used by the TPAX program for generating the accounting lines for Travel Authorizations and Settlements.

The **Maintain CMET JON Table** is used to store and maintain the various JON Codes.

Maintain CMET JON Table

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **CMET JON Table** option.

Complete the following steps to "modify" an existing code in the CMET JON Table:

Notice that various **JON Codes** are listed in the grid by Fiscal Year.

Determine the JON Code you wish to make changes to.

Filter by FY: - If you wish to **display** the JON Codes for a different fiscal year, **click** on the **down arrow** button at the **Filter by FY** field. IATS will **display** a **drop down list** of fiscal year codes. **Click** on the desired **fiscal year code** to make your selection.

JON Search: - If you already **know** the JON Code you wish to modify, **enter** that JON Code at the **JON Search** field. IATS will **display** that JON Code information at the top of the grid.

Click in the **field(s)** you wish to make changes to and **type** your desired **changes**.

When you have **finished** making the desired changes, **click** the **OK** button to **save** the changes.

Complete the following steps to "add" a new JON Code into the CMET JON Table:

Click on the **Insert** button. IATS will generate a **blank line** at the top of the grid (as shown below).

Print Save Done ? Help

Enter a value for the Description

Note: To access this table, change the View to Maintenance. At the Maintenance Main Menu, click on the CMET Stamped Table option.

Complete the following steps to "modify" an existing LOA in the CMET Stamped Table:

Notice that various lines of accounting are listed in the grid by Fiscal Year.

Determine the line of accounting you wish to make changes to.

Click in the field(s) you wish to make changes to and **type** your desired changes.

When you have **finished** making the desired changes, **click** the **Save** button to **save** the changes.

Complete the following steps to "add" a LOA to the CMET Stamped Table:

Click in the # field at the blank line at the bottom of the grid, **enter** a **number** for the LOA, and then **press** the **Tab** key.

At the **FY** field, **enter** the **Fiscal Year Code** for the LOA you are adding and then **press** the **Tab** key.

At the **Description** field, **type** a **description** for the LOA you are entering and **press** **Tab**.

At each accounting element field **type** the desired **information** and **press** **Tab** to continue.

Click in the **check box** at the **Active** field to indicate that the CMET ACRN is currently **active**.

Click in the **check box** to **remove** the check mark if the ACRN is not active.

When you have **finished** entering the information for the LOA, **click** on the **Save** button.

Complete the following steps to "delete" a LOA to the CMET Stamped Table:

Click in the **column** to the left of the # field to **select** the LOA you wish to delete.

Click on the **Delete** button. IATS **removes** the LOA from the table.

Click on the **Save** button to **save** your changes.

Maintaining the CMET Tango Codes Table

A **Tango** is a serialized **number** that corresponds to a particular allocation of **funds**. **TPAX** will automatically assign the next Tango number to be used based the values entered into the CMET Tango Table.

The **CMET Tango Codes** screen is used to **display** or **modify** existing codes and to **enter new** codes.

Maintain CMET Tango Codes

Enter the category code

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **CMET Tango Table** option.

 Complete the following steps to "modify" an existing code in the CMET Tango Table:

Notice that various **Tango Codes** are listed in the grid by Fiscal Year.

Determine the Tango Code you wish to make changes to.

Click in the **field(s)** you wish to make changes to and **type** your desired **changes**.

When you have **finished** making the desired changes, **click** the **Save** button to **save** the changes.

 Complete the following steps to "add" a new code to the CMET Tango Table:

Drag the **slider bar** on the right side of the screen to **bottom** of the grid until you see a **blank** line.

At the blank line, **click** in the **Cat Code** field, enter the desired category code and then **press Tab**.

At the **FY** field, enter the desired fiscal year designator code and then **press Tab**.

At the **Description** field, enter a **description** for the CMET Tango code you are adding to this table and then **press Tab**.

At the **Designator** field, enter the desired designator code and then **press Tab**.

At the **Tango Start** field, enter the starting number for the CMET Tango code you are adding to the table and then **press Tab**.

At the **Tango Stop** field, enter the ending number for the CMET Tango code you are adding to the table and then **press Tab**.

At the **Next Tango** field, enter the next number TPAX will use (for this code) when generating the accounting lines and then **press Tab**.

If you are finished using the CMET Tango Codes screen, **click** on the **Save** button to **save** the changes.

 **Complete the following steps to "delete" a code from the CMET Tango Table:**

Click in the **Description** field to **select** the Tango Code you wish to delete.

Click on the **Delete** button. IATS **removes** the Tango Code from the table.

Click on the **Save** button to **save** your changes.

Maintaining the CMET JON Units Table

IATS contains a variety of tables that are used by the TPAX program for the **Approval** of Travel Authorizations and Settlements.

Unit: - Enter the **Unit Code** for the new CMET Unit being added to the table and **press Tab**.

Directorate: - Enter the desired **information** to **identify** the Directorate, if applicable.

Active: - **Click** in the **check box** if the new Unit being added to the table will be in an **active** status.

Intra Super: - **Click** in the **check box** if the new Unit being added will be **allowing alternative supervisors** within the unit to **approve** travel authorizations and settlements.

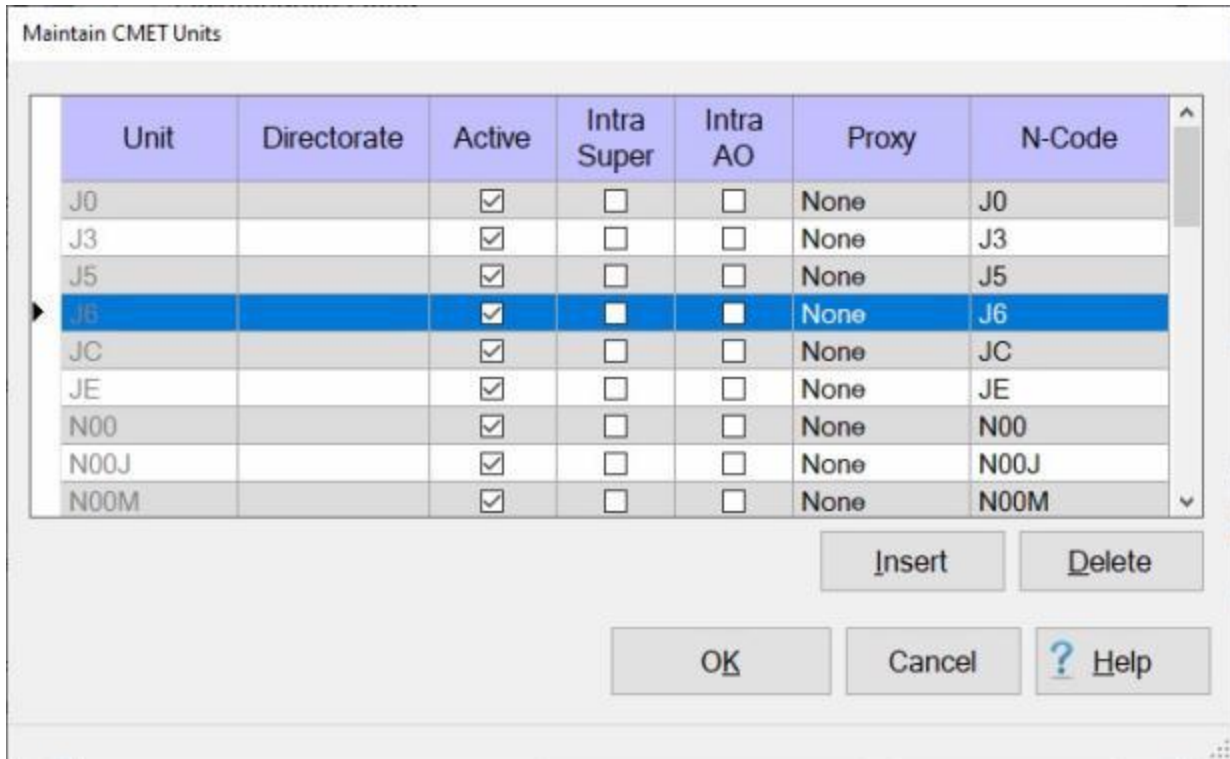

Intra AO: - **Click** in the **check box** if the new Unit being added will be **allowing alternative Authorizing Officials** within the unit to **approve** travel authorizations and settlements.

Proxy: - At the **Proxy** field, **click** on the *down arrow* button and then **click** on the desired value from the *drop-down list* of options.

N-Code: - Enter the **N-Code** for the new CMET Unit being added to the table.

When you have **finished** making the required entries, **click** the **OK** button to **save** the new Unit information.

 Complete the following steps to "delete" CMET Unit information from the CMET Units Table:

Determine the Unit Code you wish to delete.

Click in the **column** to the **left** of the **Unit** column to select the Unit you wish to delete. IATS will **highlight** your selection in **blue**.

When you are **sure** that you have selected the Unit Code you wish to delete, **click** on the **Delete** button. The following *pop-up message* will appear asking if you are **sure** you wish to delete the selected Unit Record.

If you are sure, **click** on the Yes button. IATS **removes** the Unit Record from the table

If you are **finished** deleting Units, **click** on the **OK** button.

Maintaining the CMET JON Department Proxies

The CMET JON Department Proxies table is used to designate units or departments that require a **Proxy signature** in order to approve a TEMADD/Authorization for Travel before it may be approved by the AO.

- 615TV

Roll Forward Done ? Help

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **CMET JON Roll FY Forward** option.

Complete the following steps to "roll forward" an existing CMET JON Table:

Table To Update: - Click on the *down arrow* button to **display** a *drop-down list* of the available JON tables and then **click** on the desired table.

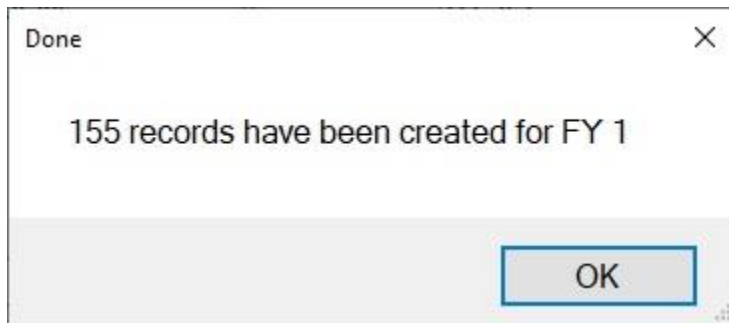

JON to Roll Fwd (optional): - This section is **optional** if you do not want to **roll** the entire table **forward**. Use the *Up/Dn arrow* buttons or **drag** the **slider bar** to **scroll** through the list. **Click** on the **JON Code** you wish to roll forward to make your selection. IATS will **highlight** your selection in blue.

Tip: When you are selecting JON Codes from the list shown at the **JON to Roll Fwd (optional)** section, **multiple JON Codes** may be selected by holding down the **Ctrl** key and then **clicking** on the desired

JON Codes. You can also hold down the **Shift** key, **clicking** on the first JON Code and then **clicking** on the last JON Code in the series.

New Fiscal Year: - Enter the **Fiscal Year code** for the Fiscal Year you wish to roll the JON Codes forward to.

After making the selections to set-up your criteria, **click** on the **Roll Forward** button. A *pop-up message* will appear displaying the **results**.

Click on **OK** to continue.

When you are **finished** using the **CMET Roll Forward Fiscal Year** screen, **click** on the **Done** button.

Using the CMET JON Delete FY - Screen

IATS contains a variety of tables that are used by the TPAX program for generating the accounting lines for Travel Authorizations and Settlements.

The **Delete CMET JON Fiscal Year** screen is used to **delete** JON Codes (from the various tables) by fiscal year.

Note: Using this option will allow you to **delete** all of the JON Codes in the particular table **at once** rather than deleting them **individually**.

The screenshot shows a window titled "Delete CMET JON Fiscal Year". Inside the window, there is a label "Table To Update" above a dropdown menu that currently displays "CMET JON". Below this is a label "FY to Delete" above an empty text input field. At the bottom of the window, there are three buttons: "Delete", "Done", and "? Help".

Note: To **access** this table, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **CMET JON Roll FY Forward** option.

 **Complete the following steps to "delete" the JON Codes for a specific Fiscal Year:**

Table To Update: - **Click** on the *down arrow* button to **display** a *drop-down list* of the available JON tables and then **click** on the desired table.

FY to Delete: - **Enter** the **Fiscal Year code** for the Fiscal Year you wish to delete the JON Codes from.

After selecting the desired **table** and **entering** the desired **Fiscal Year** code, **click** on the **Delete** button. A *pop-up message* will appear asking if you are **sure** you wish to **delete** the records for the specified Fiscal Year.

If you are sure, **click** on the Yes button. IATS **deletes** the records from the specified table.

When you are **finished** using the **Delete CMET JON Fiscal Year** screen, **click** on the **Done** button.

Back-up the IATS Database

A **feature** has been added to the IATS **Maintenance** module that allows a user with **System Administrator** or **Super User** capabilities to **copy a back-up** of the IATS **database** to a specified location.

Note: To **access** the database back-up option, **change** the View to **Maintenance**. At the **Maintenance Main Menu** screen, **click** on the **Manual DataBase Backup** option.

 **Complete the following steps to "back-up" the IATS database:**

After selecting the option **Manual DataBase Backup** the following *pop-up* message will appear.

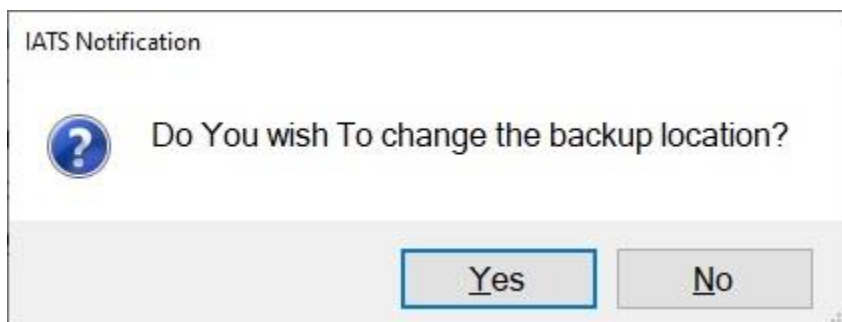

Note: When the above *pop-up* message appears, a default path and location of the IATS **database** and **back-up directory** is displayed. IATS users have the option, however to **change** the **path** and **location**, for the back-up file. In addition, IATS will create a **zip** file for the **winiats.log** file. The **name** of the zip file will be based upon the **date** and **time** the back-up was created. For example (**032420200413**). The log file must be **saved** for at least one year.

If you wish to continue, **click** on **OK**. The following *pop-up* message will appear

If you wish to **continue** and perform a back-up of the IATS database, **click** on **Yes**.

If you wish to **change** the **path** and **location** for the backup files, **click** on **No**. IATS will **display** the following *pop-up* message asking if you wish to **change** the backup **location**.

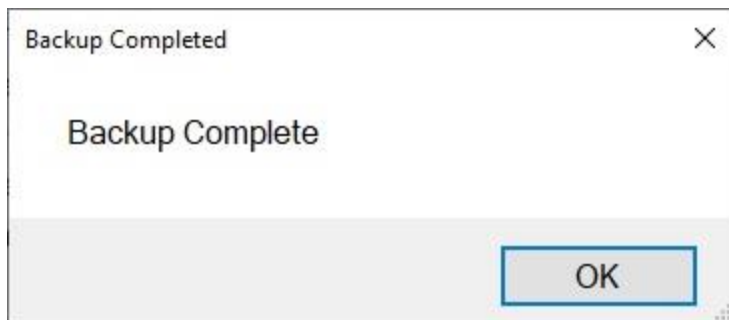

Click on Yes if you **do** wish to **change** the location.

If you **click** on Yes, IATS will display the **Browse For Folder** screen.

At the **Browse For Folder** screen, **select** the desired **path, location** and **folder** for the backup files and then **click** on **OK**.

When the back-up is **complete**, the following *pop-up* **message** will **appear**:

Click on **OK**. IATS will **display** the following *pop-up* **message** indicating that the backup file is being **zipped**.

Click on OK. IATS will **display** the following *pop-up message* indicating that the **zip file** of the backup is complete.

Click on OK and IATS will **return** to the **Maintenance Main Menu** screen.

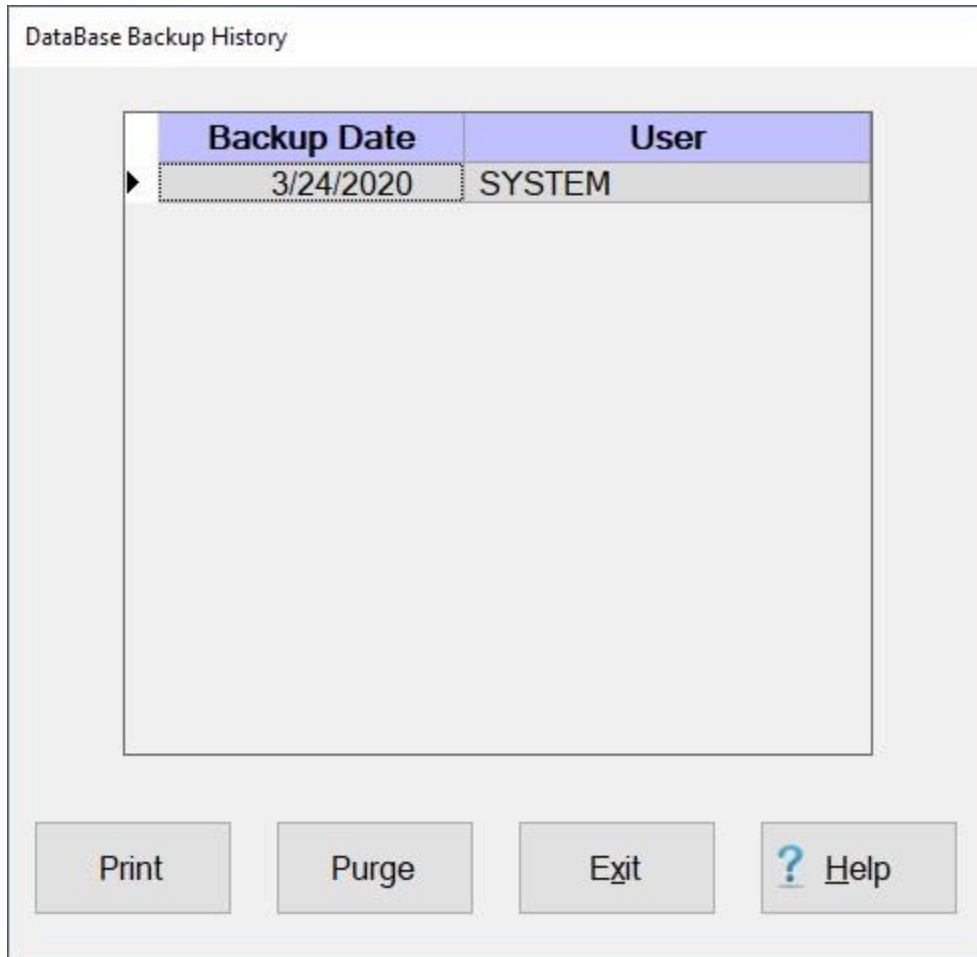

Viewing the Database Back-up History

To determine **who** ran the **back-up** of an IATS database in a travel office that connects to multiple databases, a new feature was added to IATS to display the **history** of all of the back-ups that have been performed (for the last **25** users). This history displays the back-up **dates** and the **user-name** of the person who performed a back-up .

 **Complete the following steps to "view" the IATS database back-up history:**

Change the View to **Maintenance**.

At the **Maintenance Main Menu**, **click** on the **Database Backup History** option.

Click on the **Purge** button if you wish to **delete** this history.

Click on the **Print** button to generate a print-out of the history.

If you are finished, **click** on the **Exit** button.

Configuring the TPAX Parameters

Some IATS customers **import** travel **claims** from **TPAX** to be processed through IATS for payment. As part of the IATS configuration feature, there is a **special option** to **configure** IATS for **TPAX unique** procedures.

 Complete the following steps to "configure" the TPAX Parameters:

Note: To access the IATS Configuration screen, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the **left** of the item **Configuration/Base Parameters** and then click on the **Configuration** option.

Note: At the **IATS Configuration** screen, you will see a **section** in the **lower right corner** titled **T-PAX Parameters**. A **check mark** in the **check boxes** indicate that the TPAX unique feature is **activated**.

DB is Shared: - Click in the **check box** to **activate** or **de-activate** this feature as appropriate for your organization.

Pass Claims to Disbursing: - Activating the feature will cause IATS to **automatically** move the claims imported from TPAX to the **Disbursing** module. Click in the **check box** to **activate** or **de-activate** this feature as appropriate for your organization.

Print Voucher Facsimile: - **Click** in the **check box** to **activate** or **de-activate** this feature as appropriate for your organization.

Enable Image Uploads: - **Click** in the **check box** to **activate** or **de-activate** this feature as appropriate for your organization.

Pass Claims to Auditors: - Activating the feature will cause IATS to automatically move the claims imported from TPAX to the **Auditing** module. **Click** in the **check box** to **activate** or **de-activate** this feature as appropriate for your organization.

Max Claims per Block: - The **number** at this field places a **limited** on how many **claims** imported from TPAX can be placed on a block. **Click** in this field an **enter** the **number** as appropriate for your organization.

Click on the **OK** button to **save** your entries when you have **finished** configuring the TPAX Parameters.

Maintenance

Maintaining Military TDY Parameters

The **Military TDY Parameters** table stores many of the **effective dates** and **rates** IATS uses to calculate TDY per diem entitlements. Some of the information maintained in this table includes:

- Meal Rates
- Standard CONUS Per Diem Rate
- Surcharge Rates
- Incidental Expense Ceilings
- Mileage Rates

Enter the effective date

This table is already populated when IATS is installed and is automatically updated by the monthly per diem rates **file** provided by Professional Software Consortium. On occasion, however, the Travel Supervisor may find it necessary to make changes to an existing rate or to add a new rate.

Note: To **access** this table, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Military Parameters**. **Click** on the **plus sign** to the **left** of the item **PCS Parameters** and then **click** on the **General PCS Data** option.

 **Complete the following steps to "display" a rate:**

Click on an **item** listed in the **Rate Description** section. IATS displays the effective dates and the rates effective on those dates.

Tip: Once the effective dates and rates for the selected item are **displayed**, the user can generate a **print-out** by **clicking** on the **Print** button.

 **Complete the following steps to "insert" a new rate:**

Click on an **item** listed in the **Rate Description** section. IATS displays the effective dates and the rates effective on those dates.

Click on the **Insert Rate** button. A blank line appears at the top of the grid with the current date in the **Effective Date** field. If this date is correct for new effective date, **press Tab**. If not, **type** the correct date in **MMDDYY** format and **press Tab**.

At the **Value** field, **type** the new value for the selected item and **press Tab**.

Click on the **OK** button to **save** the changes.

 **Complete the following steps to "delete" an existing rate:**

Click on an **item** listed in the **Rate Description** section. IATS displays the effective dates and the rates effective on those dates.

Determine which value you wish to delete and then **click** in the **box** to the left of the desired effective date. IATS **highlights** the effective **date** and the **value** for the item selected.

When the desired item is highlighted, **click** the **Delete Rate** button.

Click on the **OK** button to **save** the changes.

Maintaining DLA Rates

The IATS Maintenance Module includes a **table** which stores the Dislocation Allowance (**DLA**) rates payable.

When IATS is initially installed, the table includes the DLA rates for the current year and the previous years back to 1996. New DLA rates are **effective** on **January 1st** each year.

Because of the yearly changes, procedures were developed to **update** the DLA rates table **automatically** via the monthly per diem rates file.

The monthly per diem rates file distributed by Professional Software Consortium is normally received in CONUS travel offices during the first week of a new month. Since the DLA rates are effective on January 1st, however, Travel Supervisor's may find it necessary to manually update the DLA Rates table.

Maintain DLA Rates

Data Exists for the Following Dates:

1/1/2020
1/1/2019
1/1/2018
1/1/2017
1/1/2016
1/1/2015
1/1/2014
1/1/2013

Buttons:

DLA Rates for Selected Data Set

Effective Date:

Rank	WITH Dependents	WITHOUT Dependents
E1	\$2,337.40	\$1,008.84
E2	\$2,337.40	\$1,131.36
E3	\$2,337.40	\$1,392.88
E4	\$2,337.40	\$1,419.78
E5	\$2,337.40	\$1,632.00
E6	\$2,598.94	\$1,769.48
E7	\$2,812.68	\$1,954.84
E8	\$3,029.39	\$2,288.10
E9	\$3,286.45	\$2,492.88
W1	\$2,495.87	\$1,896.51
W2	\$2,885.89	\$2,265.70
W3	\$3,136.98	\$2,551.13

Buttons:

Note: To access this table, change the View to Maintenance. At the Maintenance Main Menu, click on the plus sign to the left of the item Military Parameters. Click on the plus sign to the left of the item PCS Parameters and then click on the DLA Rates option.

 Use one of the following methods to "display" a rate:

- **Method 1:** - If the desired date for the DLA rates table you wish to display is shown, double click on the **date**.
- **Method 2:** - Click on the *Up/Dn arrow* buttons next to the listed dates to **scroll** through the list and then **click** on the desired date. IATS displays the **effective date** and the **rates** effective by **pay grade**.

Tip: Once the effective date and rates are **displayed**, the user can generate a **print-out** by **clicking** on the **Print** button.

 **Complete the following steps to "add" a new DLA Data Set:**

Click on the **Add Data Set** button.

Effective Date: At this field, **type** the **date** in **MMDDYY** format for the new Data Set being added and **press Tab**. IATS creates a new table with all of the appropriate pay grades listed in the **Rank** field.

WITH Dependents: At this field, **type** the dollar **amount** for the With Dependents DLA **rate** for the **pay grade** shown in the **Rank** field and **press Tab**.

WITHOUT Dependents: At this field, **type** the dollar **amount** for the Without Dependents DLA **rate** for the **pay grade** shown in the **Rank** field and **press Tab**.

Continue steps **3** and **4** until the new DLA rates are entered for every listed **pay grade**.

When **finished**, entering the new rates, **click** on the **Apply** button.

Click on the **OK** button to **save** the entries and **return** to the **Maintenance Main Menu**.

 **Complete the following steps to "copy" a DLA Data Set:**

If the desired date for the DLA rates table you wish to copy is shown, double click on the **date**.

Or, **click** on the *Up/Dn arrow* buttons next to the listed dates to **scroll** through the list and then **click** on the desired date.

When you have selected the desired Data Set you wish to copy, **click** on the **Copy Data Set** button.

Effective Date: At this field, **type** the **date** in **MMDDYY** format for the Data Set being copied and **press Tab**.

After entering the effective date, **click** on the **Apply** button. IATS creates an exact copy of the selected Data Set with the effective date you entered.

You may then **modify** the Data Set as needed.

 **Complete the following steps to "modify" a DLA Data Set:**

If the desired date for the DLA rates table you wish to modify is shown, double click on the **date**.

Or, **click** on the *Up/Dn arrow* buttons next to the listed dates to **scroll** through the list and then **click** on the desired date.

IATS displays the **effective date** and the **rates** effective by **pay grade**.

Click in the **field** you wish to modify and **type** the new **amount**. If necessary, **click** on the *Up/Dn arrow* buttons next to the listed rates to scroll through the table until the desired field is located.

When **finished**, modifying Data Sets, **click** the **Apply** button.

Click on the **OK** button to **save** the entries and **return** to the **Maintenance Main Menu**.

 **Complete the following steps to "delete" a DLA Data Set:**

If the desired date for the DLA rates table you wish to modify is shown, double click on the **date**.

Or, **click** on the *Up/Dn arrow* buttons next to the listed dates to **scroll** through the list and then **click** on the desired date.

When the desired date is highlighted, **click** the **Delete Data Set** button. A *pop-up message* appears asking if you are **sure** you wish to delete the data set. **Click** on **Yes**.

IATS removes the date and the Data Set from the database.

When **finished**, deleting Data Sets, **click** on the **Apply** button.

Click on the **OK** button to **save** the entries and **return** to the **Maintenance Main Menu**.

Maintaining DITY Rates

Included in the IATS **Maintenance** Module, are Do It Yourself, (**DITY**) tables IATS uses to calculate **DITY** settlement requests. These tables are **populated** when IATS is installed, and are automatically updated by the monthly per diem rates **file** distributed by the IATS contractor. On occasion, however, the Travel Supervisor may find it necessary to manually update these tables.

Maintain Dity Parameters

DITY Allowance Percent of actual GBL

Operational Allowance Percent of actual GBL

Modify Data for Selected Rate

Effective Date	Rate
01/01/2021	95
05/26/2020	100
02/01/1998	95
01/01/1994	80

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the left of the item **Military Parameters**. Click on the **plus sign** to the left of the item **PCS Parameters** and then click on the **DITY Parameters** option.

 Complete the following steps to "display" a rate:

If not already in focus, click on the **DITY Constants** tab.

There are **two** rate **tables** listed under the heading **Select Rate You Wish to Modify**. Click on the desired **item**. IATS lists the **effective dates** and the **rates** in the grid as shown above.

When **finished** displaying the rates, click on the **OK** button to **return** to the **Maintenance Main Menu**.

 Complete the following steps to "insert " a new rate:

Click on the **table** you wish to add a new rate into. When the **effective dates** and the **rates** are displayed, click the **Insert Rate** button. A blank line with the current date appears at the top of the grid.

Effective Date: If the **date** displayed at this field is correct, **press Tab** to continue. If not, **type** the desired date in **MMDDYY** format and **press Tab**.

Rate: Type the new percentage rate and **press Tab**.

When **finished** inserting the new rates, **click** on the **OK** button to **save** the entries and **return** to the **Maintenance Main Menu**.

 **Complete the following steps to "delete " a rate:**

Click on the **table** you wish to delete a rate from. IATS lists the **effective dates** and the **rates** in the grid as shown above.

Determine which rate you wish to delete and then **click** in the **box** to the left of the effective date. IATS **highlights** the effective **date** and **rate**.

When the desired item is highlighted, **click** the **Delete Rate** button. A *pop-up message* appears asking if you are **sure** you want to delete the selected rate. **Click** on **Yes**.

When **finished** deleting rates, **click** on the **OK** button to **save** the entries and **return** to the **Maintenance Main Menu**.

Maintaining DITY State Tax Rates

Included in the IATS **Maintenance** Module, are Do It Yourself, (**DITY**) tables IATS uses to calculate **DITY** settlement requests. These tables are populated when IATS is installed, and are automatically updated by the monthly per diem rates file distributed by the IATS contractor. On occasion, however, the Travel Supervisor may find it necessary to manually update these tables.

Select an item for which to view rates.

This table is already populated when IATS is installed and is automatically updated by the monthly per diem rates **file** provided by Professional Software Consortium. On occasion, however, the Travel Supervisor may find it necessary to **make changes** to an existing rate or to **add** a new rate.

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the left of the item **Civilian Parameters** and then **click** on the **TDY Parameters** option.

 **Complete the following steps to "display" a rate:**

Click on an **item** listed in the **Rate Description** section. IATS displays the effective dates and the rates effective on those dates.

Tip: Once the effective dates and rates for the selected item are **displayed**, the user can generate a **print-out** by **clicking** on the **Print** button.

 **Complete the following steps to "insert" a new rate:**

Click on an **item** listed in the **Rate Description** section. IATS displays the effective dates and the rates effective on those dates.

Click on the **Insert Rate** button. A blank line appears at the top of the grid with the current date in the **Effective Date** field. If this **date** is **correct** for new effective date, **press Tab**. If not, **type** the correct date in **MMDDYY** format and **press Tab**.

At the **Value** field, **type** the new value for the selected item and **press Tab**.

Click on the **OK** button to **save** the changes.

 **Complete the following steps to "delete" an existing rate:**

Click on an **item** listed in the **Rate Description** section. IATS displays the effective dates and the rates effective on those dates.

Determine which value you wish to delete and then **click** in the **box** to the left of the desired effective date. IATS **highlights** the effective **date** and the **value** for the item selected.

When the desired item is highlighted, **click** the **Delete Rate** button.

Click on the **OK** button to **save** the changes.

Maintaining CIVPCS Parameters

The **Civilian PCS Parameters** table stores many of the **effective dates** and **rates** IATS uses to calculate PCS entitlements. Some of the information maintained in this table includes:

- Standard PCS Flat Per Diem Rate
- Mileage Rates
- Dependent Per Diem Rates
- Withholding Tax rates

Maintain Rates by Effective Date

OK ? Help

This table is already populated when IATS is installed and is automatically updated by the monthly per diem rates **file** provided by Professional Software Consortium.

Note: To **access** this table, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the left of the item **Civilian Parameters**. **Click** on the **plus sign** to the left of the item **PCS Parameters**, and **click** on the **plus sign** to the left of the item **HouseHold Goods Commuted Rates** option. **Click** on the **plus sign** to the left of the item, **Before May 1, 2013** and then **click** on the **Florida Termination Allowances** option.

Complete the following steps to "display" rates for a different effective date:

At the **Florida Termination Surcharge** screen, **click** on the *down arrow* button at the **Effective Date** field. A **list** of **effective dates** is **displayed**.

Click on the desired date. IATS **displays** the **table** for the selected date.

When **finished** viewing this table **click** on the **OK** button to **return** to the **Maintenance Main Menu**.

Displaying the Pickup and Delivery Table

The **Pickup and Delivery** table stores the **schedules** and allowable rates for the **pickup** and **delivery** of **Household Goods** by effective dates. These rates are used by IATS when processing a **CIVPCS** settlement request for the movement of **Household Goods** using the **Commuted Rates** method.

These tables are located in the IATS **Maintenance** Module and are **updated automatically** by the monthly per diem rates **file** distributed by the IATS contractor. The IATS **user does not** have the **ability** to manually adjust the **rates** in this table. The **purpose** of this screen is to allow the user to **view** the rates.

Maintaining Commuted Rates

Civilian employees **relocating** to a **new PDS** are **generally authorized** to **ship** their **house hold goods** to the **new PDS** at **government expense**. **Two methods** exist for processing the expenses involved with moving the employee's belongings.

When the **Commuted Rate Method** is used, the **employee makes all arrangements** and **pays the expenses out-of-pocket**. The employee **then files a claim for reimbursement** of these expenses **upon completion** of the **delivery**.

The **Maintain Commuted Rates** screen is a Maintenance **table** that is used to **store the rates** used by IATS for the **calculation** of the Commuted Rates entitlement.

? Help

This table is already populated when IATS is installed and is automatically updated by the monthly per diem rates **file** provided by Professional Software Consortium.

Note: To **access** this table, **login** to the IATS **Maintenance** module, **click** on the **plus sign** to the left of the item **Civilian Parameters**. **Click** on the **plus sign** to the left of the item **PCS Parameters**, Next, **click** on the **plus sign** to the left of the item **HouseHold Goods Commuted Rates** option, and then **click** on the **On or after May 1, 2013** option.

 **Complete the following steps to "add" a new Data Set:**

Under the heading **Commuted Rates for the Following Dates**, click on the data set you wish to copy.

Click on the **Add/Copy DataSet** button.

At the **Effective Date** field **enter** a new effective date in **MMDDYY** format. You can also **click** on the **down arrow** button and use the **calendar** to select the date.

Click on the **Apply** button. The effective date for the new data set appears under the heading **Commuted Rates for the Following Dates**.

 **Complete the following steps to "modify" a Data Set:**

Under the heading **Commuted Rates for the Following Dates**, click on the data set you wish to modify.

When the data set is displayed, **click** in the **field** you wish to change and make the desired changes.

Add a Row: - **Click** on the **Add a Row** button if you wish to **add** a **new row** to the table at the bottom of the **grid** to add additional **data**.

If you have added a new row, **enter** the desired **data** for each **column**.

Click on the **Apply** button to **save** the changes.

 **Complete the following steps to "delete" a Data Set:**

Under the heading **Commuted Rates for the Following Dates**, click on the data set you wish to delete.

Click on the **Delete Data Set** button.

A **prompt** appears asking if you are **sure** you wish to delete the data set.

Click on the **Yes** button.

When you are **finished** using this screen, **click** on the **OK** button.

Maintaining TQSE Rates

Included in the IATS **Maintenance** Module, is a **TQSE** table that IATS uses to calculate Temporary Quarters Subsistence Expense (**TQSE**) settlement requests. This table is **populated** when IATS is installed, and is **automatically updated** by the monthly per diem rates **file** distributed by the IATS contractor. On occasion, however, the Travel Supervisor may find it necessary to **manually update** this table.

TQSE Rates

User ID: SYSTEM

Effective Date:

Type	Days 1 - 30	Days 31 - 60	Days 61+	TQSE Lump Sum
▶ Employee or Unaccompanied Spouse	100.00%	75.00%	55.00%	75.00%
Spouse and Dependents (12 or Older)	50.00%	45.00%	40.00%	25.00%
Dependents (Younger than 12)	40.00%	35.00%	30.00%	25.00%

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the **left** of the item **Civilian Parameters**. Click on the **plus sign** to the **left** of the item **PCS Parameters** and then click on the **Temporary Quarters & Subsistence Expense** option.

 Use one of the following methods to "display" the rates for a different Effective Date:

- **Method 1:** - At the **Effective Date** field, click on the *down* arrow button to display a list of effective **dates** and then click on the desired **date**. IATS displays the **rates** for the selected effective **date**.
- **Method 2:** - Press the *Up/Dn* arrow keys on the keyboard. IATS displays the **rates** for each effective **date** shown.

Tip: Once the **rates** for the selected effective date is **displayed**, the user can generate a **print-out** by clicking on the **Print** button.

 Complete the following steps to "add" a new Effective Date and TQSE Rates:

Click on the **Add New Effective Date** button. The **Create TQSE Table** screen appears.

Note: This screen allows the user to **create** a **new** table with a **new** effective date **based on** the values of a **previous** table.

Previous Table: - At this field, **click** on the *down* arrow **button** to **display** a **list** of effective **dates** and then **click** on the desired **date**.

New Effective Date: - **Click** in this field and **type** the **new** effective date in **MMDDYY** format for the table being created.

Copy Previous Data Values: - **Click** in the **circle** at this **option** if you **wish** to **copy** the **previous** values, from the table selected at the **Previous Table** field, **into** the **new** table being created.

Don't Copy Values - Fill in with Zeros: - **Click** in the **circle** at this **option** if you **do not** wish to **copy** the **previous** values, from the table selected at the **Previous Table** field, **into** the **new** table being created. IATS will **zero fill** the **values** instead.

After making all of the required selections, **click** on the **Create Table** button. IATS **creates** the **new** table and **returns** to the **previous** screen.

Complete the following steps to "delete" an Effective Date and TQSE Rate table:

Select the **effective date** to be deleted by using one of the following **methods**:

- **Method 1:** - At the **Effective Date** field, **click** on the *down* arrow **button** to **display** a **list** of effective **dates** and then **click** on the desired **date**. IATS **displays** the **rates** for the **selected** effective **date**.
- **Method 2:** - **Press** the *Up/Dn* arrow **keys** on the keyboard. IATS **displays** the **rates** for each effective **date** shown.

After selecting the desired effective date to be deleted, **click** on the **Delete Effective Date** button. A *pop-up* appears asking the user to **verify** deleting the changes for the specified effective date.

Click on the **Yes** button. IATS **deletes** the **table** for the specified effective date.

Note: When **finished** using this screen, **click** on the **OK** button to **save** the changes and **return** to the **Maintenance** menu.

Maintaining Federal Income Tax Rates

Included in the IATS **Maintenance** Module, is a **Federal Income Tax Rates** table that IATS uses to **calculate withholding taxes** when processing **CIVPCS** settlement requests. This table is **populated** when IATS is installed, and is **automatically updated** by the monthly per diem rates **file** distributed by the IATS contractor. On occasion, however, the Travel Supervisor may find it necessary to **manually update** this table.

Federal Income Tax Rates

[Click here to add a new Income Tax Rates Year](#)

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the **left** of the item **Civilian Parameters**. Click on the **plus sign** to the **left** of the item **PCS Parameters** and then click on the **Federal Marginal Tax Rates** option.

 Use one of the following methods to "display" the rates for a different Effective Year:

- **Method 1:** - At the **Effective Year** field, click on the *down* arrow button to display a list of effective years and then click on the desired date. IATS displays the rates for the selected effective year.
- **Method 2:** - Press the *Up/Dn* arrow keys on the keyboard. IATS displays the rates for each effective year shown.

Tip: Once the rates for the selected effective date is displayed, the user can generate a print-out by clicking on the **Print** button.

 Complete the following steps to "delete" a Tax Rate:

Click on the **percentage** in the **Marginal Tax Rate** column for the rate you wish to delete. IATS highlights the percentage.

When the desired rate is selected, click on the **Delete Tax Rate** button. A pop-up message appears asking if you are **sure** you want to **delete** the selected Tax Rate.

Click on Yes. IATS **deletes** the selected rate.

 Complete the following steps to "add" a new Effective Year and Tax Rates:

Click on the **Add New Effective Year** button. The **Create Federal Income Tax Table** screen appears.

Note: This screen allows the user to **create** a new table with a new effective year based on the values of a previous table.

Previous Table: - At this field, **click** on the *down* arrow button to **display** a list of effective years and then **click** on the desired year.

New Effective Year: - **Click** in this field and **type** the new effective year in YYYY format for the table being created.

Copy Previous Data Values: - **Click** in the circle at this option if you wish to **copy** the previous values, from the table selected at the **Previous Table** field, **into** the new table being created.

Don't Copy Values - Fill in with Minimum Values: - **Click** in the circle at this option if you **do not** wish to **copy** the previous values, from the table selected at the **Previous Table** field, **into** the new table being created. IATS will **fill** the values of the filing status fields with the tax percentages from the **Marginal Tax Rate** column.

After making all of the required selections, **click** on the **Create Table** button. IATS **creates** the new table and **returns** to the previous screen.

 Complete the following steps to "delete" an Effective Year and Federal Income Tax Rate table:

Select the effective year to be deleted by using one of the following methods:

- **Method 1:** - At the **Effective Year** field, **click** on the *down* arrow button to **display** a list of effective years and then **click** on the desired year. IATS **displays** the rates for the selected effective year.

- **Method 2:** - **Press** the *Up/Dn* arrow keys on the keyboard. IATS **displays** the rates for each effective year shown.

After selecting the desired effective year to be deleted, **click** on the **Delete Effective Year** button. A *pop-up* appears asking the user to **verify** deleting the table for the specified effective year.

Click on the **Yes** button. IATS **deletes** the table for the specified effective year.

Note: When **finished** using this screen, **click** on the **OK** button to **save** the changes and **return** to the **Maintenance** menu.

Maintaining the Federal Estimated Taxes - Screen

Included in the IATS **Maintenance** Module, is a **Federal Estimated Tax Rates** table that IATS uses to **calculate withholding taxes** when processing **CIVPCS** settlement requests. This table is **populated** when IATS is installed, and is **automatically updated** by the monthly per diem rates **file** distributed by the IATS contractor. On occasion, however, the Travel Supervisor may find it necessary to **manually update** this table.

After selecting the desired effective **year** to be deleted, **click** on the **Delete Effective Year** button. A *pop-up* appears asking the user to **verify** deleting the table for the specified effective **year**.

Click on the **Yes** button. IATS **deletes** the **table** for the specified effective **year**.

Note: When **finished** using this screen, **click** on the **OK** button to **save** the changes and **return** to the **Maintenance** menu.

Maintaining State Marginal Tax Rates - as of 2019

For **State Tax Rates**, beginning with the year 2019, **GSA** will **no longer issue** annual FTR bulletins for **RITA tax tables**. For this reason, Professional Software Consortium will **no longer** be able to **update** these **rates automatically** via the **monthly rates update** file. Travel offices have the responsibility for **populating** and **maintaining** the **State Tax Marginal Rates (as of 2019)** table located in the IATS Maintenance module.

The **State Tax Marginal Rates (as of 2019)** screen is used for creating these tax rate tables.

State Tax Marginal Rates (as of 2019)

Effective Year:

State: Pct of Federal Tax

Filing Status:

Copy From State

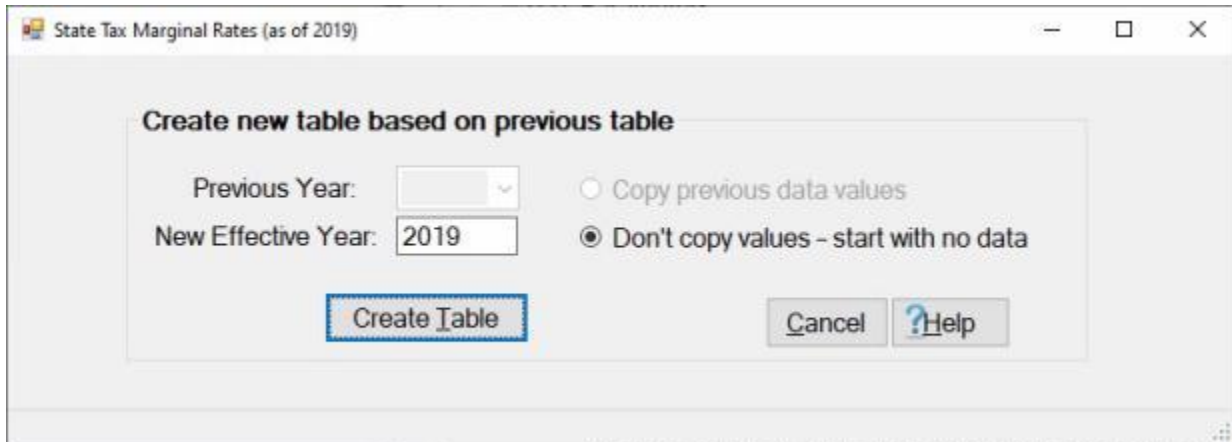

Income Tax Bracket (start)	Rate
*	

Copy From Filing Status

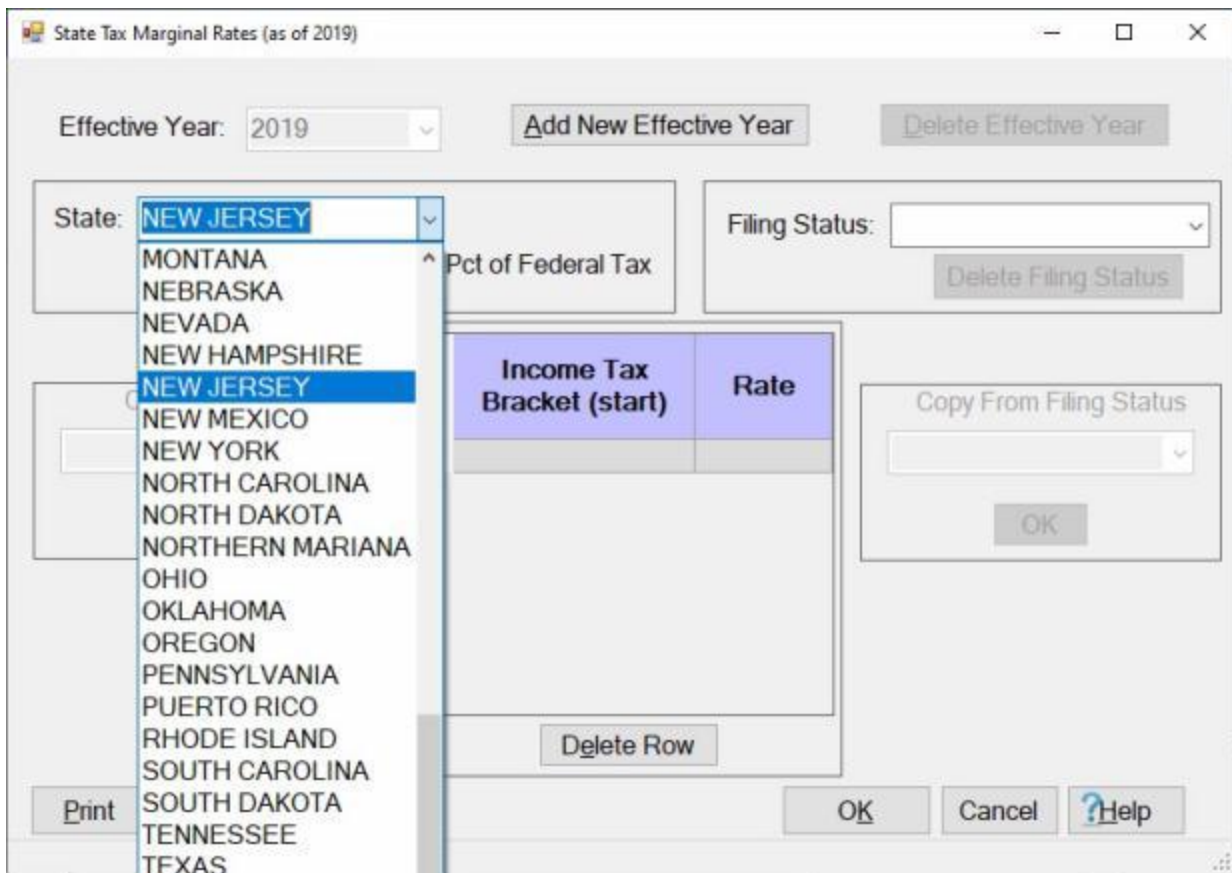

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the **left** of the item **Civilian Parameters**. Click on the **plus sign** to the **left** of the item **PCS Parameters** and then click on the **plus sign** to the **left** of the item **State Marginal Tax Rates** option. Now, click on the **All States (starting in 2019)** option.

Complete the following steps to "add" a new Effective Year and Tax Rates:

Click on the **Add New Effective Year** button. The **Create New Table** screen appears.

Enter the desired year in YYYY format at the **New Effective Year** field and then **click** on the **Create Table** button.

At the **State** field, **click** on the **down arrow** button and **click** on the desired **state** you wish to add rates for from the **drop down list** of state names.

Pct of Federal Tax: - Most of the states base their Income Tax as a percentage of **income**. In the rare occurrence of a state basing its taxes on percentage of the Federal Tax, **click** in the **check box** to select that method.

State Tax Marginal Rates (as of 2019)

Effective Year: 2019 Add New Effective Year Delete Effective Year

State: NEW JERSEY Delete State Pct of Federal Tax

Filing Status: All Single Head of Household Married, Filing Joint Married, Filing Separate

Copy From State OK

Delete Row

Print OK Cancel Help

Filing Status: - At the **Filing Status** field, **click** on the *down arrow* button and **click** on the desired **status** you wish to add rates for from the *drop down list* of status options.

State Tax Marginal Rates (as of 2019)

Effective Year: 2019

State: NEW JERSEY Pct of Federal Tax

Filing Status: Single

Copy From State

Income Tax Bracket (start)	Rate
\$0	1.400
\$20,000	1.750
35000	

Copy From Filing Status

Note: You must now **enter the tax brackets and rates** for the selected state and filing status into the **grid** in the middle of the screen.

Income Tax Bracket (start): - Click in the **cell** for the blank row in the **Income Tax Bracket (start)** column and **enter the value** for the **stating amount** for the bracket. **Press Tab** or **Enter** to continue. IATS will **accept** the entered value and **advance** to the **Rate** field.

Rate: - Enter the **State Income Tax Rate** for the dollar amount **range** of the bracket and then **press Tab** or **Enter** to continue. IATS will create a new blank row below the row you just completed.

Continue entering the bracket values and rates for the selected state and filing status into the **grid** until you have finished.

You may now **save** your entries by **clicking** on the **OK** button, or continue working if you wish by **selecting a different filing status** for the selected state or by **selecting a new state**.

If you click on the **OK** button to **save** your entries, IATS will display the following *pop-up message*.

IATS Notification

Save changes you have made to this table?
Press 'Yes' to save, 'No' to abandon changes.

Click on Yes or No as desired. If you click on Yes, IATS will **return** to the **Maintenance Main Menu**.

Deleting a Row:

State Tax Marginal Rates (as of 2019)

Effective Year: 2019

State: NEW JERSEY Pct of Federal Tax

Filing Status: Single

Copy From State

Income Tax Bracket (start)	Rate
\$0	1.400
\$20,000	1.750
\$35,000	3.500
\$40,000	5.625
\$75,000	6.370
\$100,000	7.250
\$150,000	8.500
\$250,000	9.750

Copy From Filing Status

If you wish to **delete** a **row** from the grid, **click** in the area **left** of the **Income Tax Bracket (start)** column for the row you wish to delete. IATS will **highlight** the row in **blue**.

When the desired row has been selected, **click** on the **Delete Row** button. IATS will delete the row.

Using the Copy From State feature:

State Tax Marginal Rates (as of 2019)

Effective Year: 2019

State: INDIANA Pct of Federal Tax

Filing Status: Single

Copy From State

NEW JERSEY

Income Tax Bracket (start)	Rate
*	

Note: This feature will be very **helpful** for states having **similar Income Brackets and Tax Rates**. When **creating** a tax table for **another state**, you may want to use the **Copy From State** feature. This feature can **save** a lot of **manual input** by **copying** the **data** that was **already entered** for **another state** rather than manually inputting all of the bracket and rate details for each filing status. If you **copy** the **data** from another state, all you will then need to do is **edit** the **Bracket** and **Rate** columns if there is a **difference** between the Brackets and Tax Rates. In this **example**, we will **copy** the **data** from the state **New Jersey**, which already has some data in the table, and **copy** it to the state **Indiana**.

At the State field, **click** on the **down arrow** button and **click** on the desired **state** you wish to add rates for from the **drop down list** of state names.

At the **Copy From State** section, **click** on the **down arrow** button as shown above. IATS will **display** a **list** of states that **already** contain data.

Click on the **desired state name**.

After you have selected the state to copy from, **click** on the **OK** button. You will now **see** the **data** you **copied** from **another state** displayed in the **grid** for the state you are creating the table for **as shown below**.

State Tax Marginal Rates (as of 2019)

Effective Year: 2019

State: INDIANA Pct of Federal Tax

Filing Status: Single

Copy From State

Income Tax Bracket (start)	Rate
\$0	1.400
\$20,000	1.750
\$35,000	3.500
\$40,000	5.625
\$75,000	6.370
\$100,000	7.250
\$150,000	8.500
\$1,000,000	10.000

Copy From Filing Status

Now you would **edit** the **Bracket** and **Rate** columns as needed by **clicking** in the desired **cell** and **entering** the correct **value**.

Using the Copy From Filing Status feature:

Note: This feature will be very **helpful** when one filing status and another filing status have **similar Income Brackets and Tax Rates**. When **creating** a tax table for another status, you may want to use the **Copy From Filing Status** feature. This feature can **save** a lot of **manual input** by **copying** the **data** that was **already entered** for another status rather than manually inputting all of the bracket and rate details for each filing status. If you **copy** the **data** from another status, all you will then need to do is **edit** the **Bracket** and **Rate** columns if there is a **difference** between the Brackets and Tax Rates. In this **example**, we will **copy** the **data** from the status **Single**, which already has some data in the table, and **copy** it to the status **Head of Household**.

At the **Filing Status** field, **click** on the **down arrow** button and **click** on the desired **status** you wish to add rates for from the **drop down list** of status options.

At the **Copy From Filing Status** field, **click** on the **down arrow** button as shown above. IATS will **display** a **list** of filing status that already contain data.

Click on the desired **status**.

After you have selected the status to copy from, **click** on the **OK** button. You will now **see** the **data** you **copied** from another status displayed in the **grid** for the status you are creating the table for as shown below.

State Tax Marginal Rates (as of 2019)

Effective Year: 2019

State: NEW JERSEY Pct of Federal Tax

Filing Status: Head of Household

Copy From State

Income Tax Bracket (start)	Rate
\$0	1.400
\$20,000	1.750
\$35,000	3.500
\$40,000	5.625
\$75,000	6.370
\$100,000	7.250
\$150,000	8.500
\$1,000,000	10.000

Copy From Filing Status

Now you would **edit** the **Bracket** and **Rate** columns as needed by **clicking** in the desired **cell** and **entering** the correct **value**.

Creating a Table based on a previous Table:

State Tax Marginal Rates (as of 2019)

Effective Year:

State: Pct of Federal Tax

Filing Status:

Copy From State

Income Tax Bracket (start)	Rate
*	

Copy From Filing Status

Note: This feature will be very **helpful** when **creating** the tax tables for a **new year**. When **creating** a tax table for a **new year**, you may want to use the **Creating a Table based on a previous Table** feature. This feature can **save** a lot of **manual input** by **copying** the **data** that was **already entered** for another **year** rather than **manually inputting** all of the **bracket** and **rate** details for each **state** and **filing status**. If you **copy** the **data** from another year, all you will then need to do is **edit** the **Bracket** and **Rate** columns if there is a **difference** between the Brackets and Tax Rates. In this **example**, we will **copy** the **data** from **year 2019**, which already has some data in the table, and **create** a **new table** for the year **2020** based on the **data** for the year **2019**.

Click on the **Add New Effective Year** button. The **Create new table** screen appears with the option to **Copy previous data values** **already selected** since there is another existing table for another year.

State Tax Marginal Rates (as of 2019)

Create new table based on previous table

Maintaining FICA-Medicare Rates and Retirement Plans

Included in the IATS **Maintenance** Module, is a **FICA/Medicare Rates and Retirement Plans** table that IATS uses to **calculate withholding taxes** when processing **CIVPCS** settlement requests. This table is **populated** when IATS is installed, and is **automatically updated** by the monthly per diem rates **file** distributed by the IATS contractor. On occasion, however, the Travel Supervisor may find it necessary to **manually update** this table.

FICA/Medicare Rates and Retirement Plans

User ID: SYSTEM

Effective Date: 1/1/1993

Rates

Retirement Plans		
Plan	FICA %	Medicare %
CSRS	0.00%	100.00%
FERS	100.00%	100.00%

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the left of the item **Civilian Parameters**. Click on the **plus sign** to the left of the item **PCS Parameters** and then click on the **FICA/Medicare Rates and Retirement Plans** option.

 Use one of the following methods to "display" the rates for a different Effective Date:

- **Method 1:** - At the **Effective Date** field, click on the *down* arrow button to display a list of effective **dates** and then click on the desired **date**. IATS displays the **rates** for the selected effective **date**.
- **Method 2:** - Press the *Up/Dn* arrow **keys** on the keyboard. IATS displays the **rates** for each effective **date** shown.

Tip: Once the **rates** for the selected effective date is **displayed**, the user can generate a **print-out** by clicking on the **Print** button.

 Complete the following steps to "delete" a Retirement Plan from this table

Click on the **plan code** in the **Retirement Plan** column for the **plan** you wish to delete. IATS highlights the **code**.

When the desired **plan** is selected, **click** on the **Delete Plan** button. IATS **deletes** the selected **plan**.

 **Complete the following steps to "add" a new Effective Date and Retirement Plan table:**

Click on the **Add New Effective Date** button. The **Create FICA/Medicare Rates Table** screen appears.

Note: This screen allows the user to **create** a new **table** with a new **effective date** based on the **values** of a **previous** table.

Previous Table: - At this field, **click** on the *down* arrow **button** to **display** a **list** of **effective dates** and then **click** on the desired **date**.

New Effective Date: - **Click** in this field and **type** the new **effective date** in **MMDDYY** format for the table being created. You can also **click** on the *down* arrow **button** and use the **calendar** to select the date.

Copy Previous Data Values: - **Click** in the **circle** at this **option** if you **wish** to **copy** the previous **values**, from the table selected at the **Previous Table** field, **into** the new **table** being created.

Don't Copy Values - Fill in with Zeros: - **Click** in the **circle** at this **option** if you **do not wish** to **copy** the previous **values**, from the table selected at the **Previous Table** field, **into** the new **table** being created. IATS will **zero fill** the **values** instead.

After making all of the required selections, **click** on the **Create Table** button. IATS **creates** the new **table** and **returns** to the previous screen.

 **Complete the following steps to "delete" an Effective Date and Retirement Plans table:**

Select the **effective date** to be deleted by using one of the following **methods**:

- **Method 1:** - At the **Effective Date** field, **click** on the *down* arrow **button** to **display** a **list** of **effective dates** and then **click** on the desired **date**. IATS **displays** the **rates** for the selected **effective date**.

- **Method 2:** - **Press** the *Up/Dn* arrow **keys** on the keyboard. IATS **displays** the **rates** for each **effective date** shown.

After selecting the desired **effective date** to be deleted, **click** on the **Delete Effective Date** button. A *pop-up* appears asking the user to **verify** deleting the **rates** for the specified **effective date**.

Click on the **Yes** button. IATS **deletes** the **table** for the specified **effective date**.

Note: When **finished** using this screen, **click** on the **OK** button to **save** the changes and **return** to the **Maintenance** menu.

Maintaining the States Displaying Gross Up Warning Table

The **States Displaying Gross Up Warning for a RITA Claim** screen is used to **add new states** to the table when necessary.

Note: To **access** this table, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Civilian Parameters**. **Click** on the **plus sign** to the **left** of the item **PCS Parameters** and then **click** on the **States Displaying Gross Up Warning for a RITA Claim** option.

To **add** a **new state**, simply **scroll** down the list of states and **click** in the **check box**.

Print OK Cancel ? Help

When a **check mark** is displayed in the check box for a particular state, IATS will **display** the following pop-up **warning** when you are completing the **State Tax** tab of the **RITA** screen.

This warning is to **remind** you to **enter** the **amount** of the **state gross up** from **block 12** of the traveler's **W-2** form. This amount should be entered at the **Reimbursements not deductible for State income tax purposes** field on the **RITA General** tab.

Maintaining the State Withholding Tax - Table

In accordance with 5 U.S.C. § 5517 and the Treasury Financial Manual (TFM), Volume I, Part 3, Chapter 5000, DoD agency heads are required to **withhold state taxes** from **taxable travel reimbursements**. This rule applies to taxable travel reimbursements for both military members and civilian employees.

The **State Withholding Tax** table is used to **store** the tax withholding **rates** for each state by effective date.

Note: To access this table, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Civilian Parameters**. **Click** on the **plus sign** to the **left** of the item **PCS Parameters** and then **click** on the **State Withholding Tax** option.

State Withholding Tax

Effective Year:

State Name	State ID	State Tax Office	Addr 1	Addr 2	City	Zip Code	Civilian Rate	Military Rate
ALABAMA							6.00	6.00
ALASKA							0.00	0.00
AMERICAN SAMOA							0.00	0.00

Select the year for which rates will be modified.

Note: The **Civilian** and **Military** withholding rates are **pre-populated**. IATS users are **required** to **populate** the **State ID**, **State Tax Office** and **associated address fields** in the State Withholding Tax table **if** you want the **information** to appear on the IATS generated **W2 Form**. This is **optional**.

 **Complete the following steps to "populate" the State Withholding Tax table:**

State ID: - Click in the **State ID** field for the desired state, **enter** the **State ID number** and then **press Tab** to continue.

State Tax Office: - **Enter** the **name** of the **State's Tax Office** and then **press Tab** to continue.

Addr 1: - **Enter** the **address** for the **State's Tax Office** and then **press Tab** to continue.

Addr 2: - **Enter** the additional **address** information (if applicable) for the **State's Tax Office** and then **press Tab** to continue.

City: - **Enter** the **City name** for the **State's Tax Office** and then **press Tab** to continue.

Zip Code: - **Enter** the **Zip Code** for the **State's Tax Office** and then **press Tab** to continue.

Civilian Rate: - **Enter** a different withholding **rate** if applicable and then **press Tab** to continue.

Military Rate: - **Enter** a different withholding **rate** if applicable and then **press Tab** to continue.

Click on **OK** to **save** your entries when you are finished.

 **Use one of the following methods to "display" the rates for a different Effective Date:**

- **Method 1:** - At the **Effective Date** field, **click** on the *down* arrow **button** to **display** a **list** of effective **dates** and then **click** on the desired **date**. IATS **displays** the **rates** for the selected effective **date**.
- **Method 2:** - **Press** the *Up/Dn* arrow **keys** on the keyboard. IATS **displays** the **rates** for each effective **date** shown.

Tip: Once the **rates** for the selected effective date is **displayed**, the user can generate a **print-out** by **clicking** on the **Print** button.

 **Complete the following steps to "delete" a Tax Rate from this table**

Click to the left of the **State Name** for **State Tax Rate** you wish to delete. IATS highlights the **row**. When the desired **State** is selected, **click** on the **Delete Tax Rate** button. IATS **deletes** the selected **plan**.

 **Complete the following steps to "add" a new Effective Year and State Withholding Tax table:**

Click on the **Add New Effective Year** button. The **State Withholding Tax** screen appears again giving **options** on how to create the new table.

State Withholding Tax

Create new table based on previous table

Previous Table: 2018 -

New Effective Year:

Copy previous data values

Don't copy values - fill in with minimum values

Create Table Cancel ? Help

Enter the new effective year.

Note: This screen allows the user to **create** a new **table** with a new **effective date** based on the **values** of a **previous** table.

Previous Table: - At this field, **click** on the *down* arrow **button** to **display** a **list** of effective **years** and then **click** on the desired **year**.

New Effective Year: - **Click** in this field and **type** the new **effective year** in YYYY format for the table being created.

Copy Previous Data Values: - **Click** in the **circle** at this **option** if you wish to **copy** the previous **values**, from the table selected at the **Previous Table** field, **into** the new **table** being created.

Don't copy values - fill in with minimum values: - **Click** in the **circle** at this **option** if you do not wish to **copy** the previous **values**, from the table selected at the **Previous Table** field, **into** the new **table** being created. IATS will **zero** fill the **values** instead.

After making all of the required selections, **click** on the **Create Table** button. IATS **creates** the new **table** and **returns** to the previous **screen**.

 **Complete the following steps to "delete" an Effective Year and State Withholding Tax table:**

Select the **effective year** to be deleted by using one of the following **methods**:

- **Method 1:** - At the **Effective Date** field, **click** on the *down* arrow **button** to **display** a **list** of effective **dates** and then **click** on the desired **date**. IATS **displays** the **rates** for the selected effective **date**.
- **Method 2:** - **Press** the *Up/Dn* arrow **keys** on the keyboard. IATS **displays** the **rates** for each effective **date** shown.

IATS 8.7.1 User Guide

After selecting the desired effective **date** to be deleted, **click** on the **Delete Effective Year** button. A *pop-up* appears asking the user to **verify** deleting the **rates** for the specified effective date. **Click** on the **Yes** button. IATS **deletes** the **table** for the specified effective year.

Note: When **finished** using this screen, **click** on the **OK** button to **save** the changes and **return** to the **Maintenance** menu.

Maintaining MIE Rates

Per Diem rates consists of three components; **Lodging, Meals, and Incidental Expense allowances.**

The Maintenance Module of IATS, includes a table that stores all of the **Meals and Incidental Expenses (M&IE)** rates approved for use by the DoD. The M&IE rates listed in this table are broken down by the amount allowed for each meal, and the amount allowed for incidental expenses. This table is used by IATS when calculating travel entitlements, but is also a useful tool for Travel Supervisors. When answering an inquiry regarding a calculation, or if manually computing a settlement, users can refer to this table for assistance.

This **table** is already populated when **IATS is installed** and is automatically updated by the monthly per diem rates provided by Professional Software Consortium. On occasion, however, the Travel Supervisor may find it **necessary** to make changes to an existing rate or to add a new rate.

Maintain MIE Rates

User ID: SYSTEM

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **M&IE Rate Breakdowns** option.

 **Complete the following steps to "display" a rate:**

Click on the *Up/Dn* arrows on the right side of the screen to **scroll** through the listing until the desired rate is displayed. **Notice** that the rates are listed by **CONUS/OCONUS** categories.

Tip: Generate a **print-out** of the **M&IE Rates Table** by **clicking** on the **Print** button.

 **Complete the following steps to "insert" a new rate:**

Click in the **box** to the **left** of the **Daily Rate** where the **new** rate should be inserted. IATS **highlights** this line.

Click on the **Insert** button. A **blank line** appears at the top of the grid.

Daily Rate: **Click** in this field, and **type** the **new** dollar **amount** for the rate being inserted and **press** *Enter*.

Breakfast: **Type** the **new** dollar **amount** for the rate being inserted and **press** *Enter*.

Lunch: **Type** the **new** dollar **amount** for the rate being inserted and **press** *Enter*.

Dinner: **Type** the **new** dollar **amount** for the rate being inserted and **press** *Enter*.

Incidentals: **Type** the **new** dollar **amount** for the rate being inserted and **press** *Enter*.

Conus/Oconus: At this field, **click** on the **down arrow** button and then **click** on **CONUS** or **OCONUS** as applicable.

Click on the **OK** button to **save** the changes.

 **Complete the following steps to "delete" an existing rate:**

Click in the **box** to the **left** of the **Daily Rate** for the rate should be deleted. IATS **highlights** this line. When the desired item is highlighted, **click** the **Delete** button. A **pop-up message** appears asking if you are **sure** you wish to **delete** the selected rate. **Click** on **Yes**.

Click on the **OK** button to **save** the changes.

Maintaining Country and State Codes

Locality Codes for **states, countries, counties** and **cities** are developed and published by a branch of the **State Department**.

IATS requires the input of these Locality Codes at several points throughout the processing cycle. In addition, the **per diem rates** maintained in the database are **stored** by Locality Codes.

To facilitate the use of Locality Codes within IATS, the Maintenance Module includes a **table** that stores the codes.

These **tables** are updated periodically by the monthly per diem rates file distributed by the IATS contractor. On occasion, however, the Travel Supervisors may find it necessary to manually update the Locality Codes Tables.

Enter The Country State Code.

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** next to the word **Locality Data** and then click on the **Country/State Descriptions** option.

 Complete the following steps to "display" a location:

Click on the **Up/Dn arrows** on the right side of the screen to **scroll** through the listing until the desired location is displayed.

 Complete the following steps to "insert" a new location:

Click on the **Insert** button. A blank line appears at the top of the grid.

Conus: - **Type** either **C** or **O** to indicate whether the location is a **CONUS** or **OCONUS** location.

State Code: - **Click** in this field, and **type** the two letter locality **code** for the location being inserted and **press Tab**.

Description: - **Type** the **name** of the **State** or **Country**. Notice that for **CONUS** locations the state's **name** must be **preceded** by the two letter **state code**.

IBOP: - **Type** the two letter International Balance of Payments (IBOP) **code** and **press Tab**.

Lower 48: - **Double click** in the **check box** if the location being entered is considered to be within the **48 contiguous United States of America**.

All States: - **Double click** in the **check box** if this option **applies** to this location.

With Territories: - **Double click** in the **check box** if this option **applies** to this location.

Lodging Tax Free: - **Double click** in the **check box** if this option **applies** to this location.

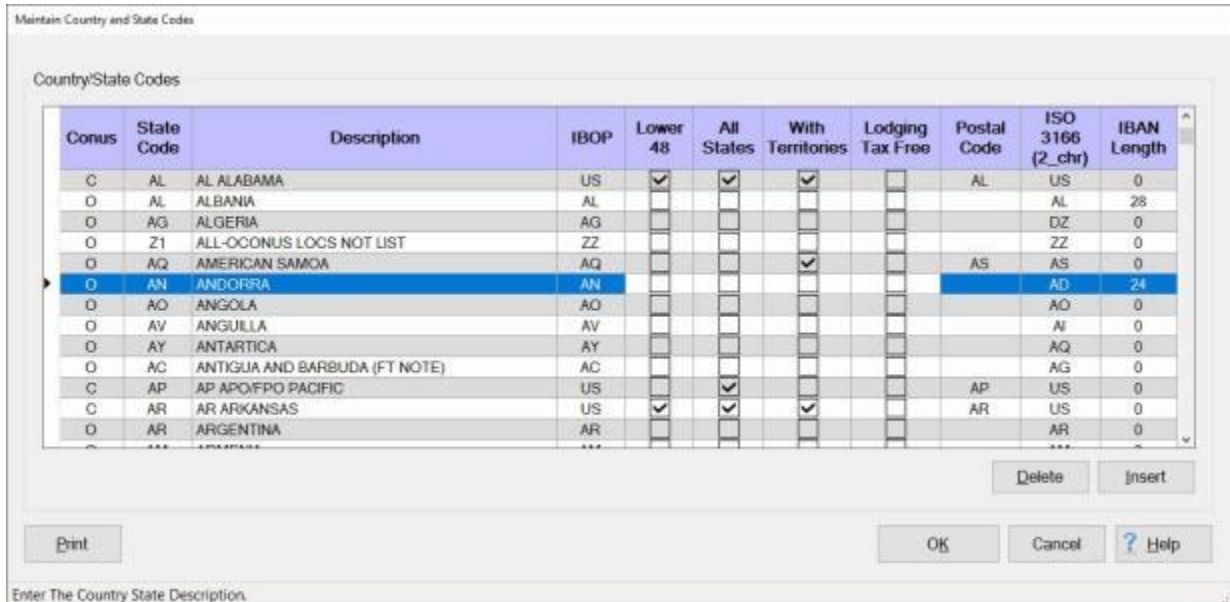

Postal Code: - **Enter** the **Postal Code** for this location.

ISO 3166: - Enter the **ISO 3166 Code** for this location.

IBAN Length: - Enter the **number** that represents the required **length** of the **IBAN** for this location. **Note** that **Non-IBAN participating** countries will have an **IBAN length** of **99**.

When you are **satisfied** with your entries, **click** on the **OK** button.

 **Complete the following steps to "delete" a location:**

Click on the **Up/Dn arrows** on the **right** side of the screen to **scroll** through the listing until the desired location is displayed.

Click in the column to the left of the Conus column to highlight the location you wish to delete.

When you have highlighted the desired location, **click** on the **Delete** button. The following **pop-up message** appears asking if you are **sure** you wish to **delete** the selected country or state.

Click on **Yes** or **No** as desired.

If you click on **Yes**, IATS deletes the selected location.

Click on **OK** to complete the process and **save** your changes.

Select a country/state.

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus** sign next to the word **Locality Data** and then click on the **Locality Descriptions** option.

 Complete the following steps to "display" locality codes and descriptions:

At the **Enter State/Country Selection** field, type the first two letters of the **state** or **country** name. IATS displays the first **locality** beginning with these two letters. If the desired state or country is not highlighted, **click** on the *Up/Dn* arrow **buttons** or **press** the *Up/Dn* arrow **keys** on the keyboard until the desired location is highlighted.

Once the desired location is highlighted, **press** *Tab*. IATS **displays** the associated locality **codes** and **descriptions** in the **List of Localities** table.

You can also **click** on the *down arrow* button to **display** the **listing** of countries and states. When the list is displayed **click** on the *up* or *down arrow* button to **scroll** through the list. When the desired location is displayed, **click** on the **location** to make your selection.

 **Complete the following steps to "insert" a new locality code and description:**

Click on the **Insert** button. A blank line appears at the top of the grid.

Code: - **Click** in this field, and **type** the three letter locality **code** for the location being inserted and **press Tab**.

Locality Description: - At this field, **type** the **name** of the **city** followed by a **forward slash** and then the **county** if the locality is within **CONUS**. If the locality is **OCONUS**, then **type** the **city** or **locality name** as applicable.

ILP Code: - **Click** in this field, and **type** the three letter **ILP code** for the location being inserted and **press Tab**.

Time Zone: - At this field, **type** the **letter** representing the **time zone** for the locality being inserted and **press Tab**.

Military Base: - If the locality being inserted is a **military** facility, **click** in this **box** or **press** the **space bar**. IATS places a **check mark** in the box indicating that the option is selected.

When **finished** inserting the new locality code and description, **click** the **OK** button to **save** the entry.

 **Complete the following steps to "delete" a locality code and description:**

Click in the **box** to the left of the **Code column** for the locality you wish to delete. IATS highlights the entire line.

Once the desired locality is highlighted, **click** the **Delete** button. A **message** appears indicating that the locality description will be deleted and **asking if** you are **sure**.

Click on the **Yes** button. IATS **deletes** the selected locality code and description.

When finished, **click** on the **OK** button to **return** to the **Maintenance Main Menu**.

Maintaining Cities

Locality Codes for **states, countries, counties** and **cities** are developed and published by a branch of the **State Department**.

IATS requires the input of these Locality Codes at several points throughout the processing cycle. In addition, the **per diem** rates maintained in the database are **stored** by Locality Codes.

To facilitate the use of Locality Codes within IATS, the Maintenance Module includes **tables** that stores these codes.

These tables are updated periodically by the **monthly per diem rates file** distributed by the IATS contractor. On occasion, however, the Travel Supervisors may find it necessary to manually update the **Cities** Table.

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus** sign next to the word **Locality Data** and then click on the **City Names** option.

 **Complete the following steps to "display" the City Names Table:**

At the **Enter Country/State Selection** field, **type** the first letter of the **country** or **state** name. IATS displays the first locality beginning with this letter. If the desired state or country is not highlighted, **press** the *Up/Dn* arrow **keys** on the keyboard until the desired location is highlighted. Once the desired location is highlighted, **press** *Tab*. IATS **displays** the associated **locality codes, city, and county** names in the **List of Cities** table.

You may also **click** on the *down* arrow button to display a **list** of country/state names. When the list is displayed, **click** on the desired country/state **name**.

 **Complete the following steps to "insert" a new city to the City Names Table:**

Click on the **Insert** button. A **blank line** appears at the **top** of the grid.

Locality: **Click** in this field, and **type** the **three letter city code** for the city being inserted and **press Tab**.

City Name: At this field, **type** the **name** of the **city** and **press Tab**.

County Name: At this field, **type** the **name** of the **county** and **press Tab**.

Time Zone: **No entry** is **required** at this field.

Military Base: If the city name being inserted is a **military** facility, **click** in this **box** or **press** the **space bar**. IATS places a **check mark** in the box indicating that the option is selected.

When **finished** inserting the **new city** name, **click** the **Apply** button to **save** the entry.

 **Complete the following steps to "delete" a city from the City Names Table:**

At the **Enter Country/State Selection** field, **type** the **first letter** of the **country** or **state** name. IATS displays the **first locality** beginning with this letter. If the desired state or country is **not** highlighted, **press** the **Up/Dn** arrow **keys** on the keyboard until the desired location is **highlighted**. You may also **click** on the **down arrow** button to display a **list** of country/state names. When the list is displayed, **click** on the desired country/state **name**.

When the desired city name is displayed, **click** on the **city name**. IATS **highlights** the **city name**.

Once the desired **city name** is **highlighted**, **click** the **Delete** button. A **message** appears indicating that the city will be deleted and **asking if** you are **sure**.

Click on the **Yes** button. IATS **deletes** the selected city.

When finished, **click** on the **OK** button to **return** to the **Maintenance** menu.

Maintaining Country IBAN Length

When setting up a traveler's account to generate EFT payments to a foreign bank account, the International Bank Account Number (**IBAN**) must be entered.

IBANs are **unique** to each country and have a specific length requirement.

Note: The following information is applicable to IBAN Account Numbers:

- IBANs have a unique length depending on the country and they must begin with the **country code**.
- There are **tables** in the IATS **Maintenance module**, (maintained by the System Administrator), that **specify** what the **length** of the **IBAN codes** are by country.
- The characters must be **alphanumeric**, (letters and numbers) only.
- Must start with a valid 2-character ISO country code.
- There are some countries that do not use IBAN codes, but there is a customer **requirement** to **store** EFT information for these countries. These are referred to as **non-IBAN participating** countries.
- **Non-IBAN participating** countries will have an **IBAN length** of **99**.
- For IBAN length of 99, the IBAN can be anywhere from 2 to 35 letters/digits long.
- The **EFT information** for countries that have an IBAN length of **99** cannot be **used** for **disbursing** and the **EFT profile** will be saved as **Inactive**.

The **Country IBAN Length** screen is used to **store** the **length requirement** by country.

Country IBAN Length

Country IBAN Length

Country	ISO 3166 (2_chr)	IBAN Length
AFGHANISTAN	AF	0

LUXEMBOURG	LU	20
MONGOLIA	MN	20

Print OK Cancel ? Help

Enter the number of characters required for EFT to bank accounts in this country.

Click on the **Cancel** button to **close** the screen when you are **finished** using the Country IBAN Length screen.

 Complete the following steps to "change" an IBAN length:

Click in the **number field** in the **IBAN Length** column for the country you wish to change as shown above.

When the desire country/number is highlighted, **enter** the new number.

Click on **OK** to **save** your entry.

View All Rates

The **View Locality Rates** screen provides the user with an alternative way to **look up** various **rates** that **assists** in **processing** the various travel **transactions** or answering inquiries.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus** sign next to the word **Locality Data** and then **click** on the **View All Rates** option.

 **Complete the following steps to "display and use" the View Locality Rates screen:**

Select Country/State: - At the View Locality Rates screen you must first **select** a **country** or **state** you wish to display the rates for.

Click on the *down arrow* button at the **Select Country/State** field. IATS will display an alphabetical listing of countries and states.

Press the *Up/Dn arrow* keys on your keyboard or **click** on the *Up/Dn arrow* buttons on the **slider bar** on the right side of the listing to **scroll** through the list.

Click on the desired country or state **name** and then **press** *Tab* to display the associated rates. IATS will display a **list** of **cities** for the selected country or state.

Using the Filter Row:

You will notice a blank line just under the column headings on the grid. This is a Filter Row as shown above.

In the example below, (mo) was entered into the Filter Row in the City column. Notice that every name displayed in the City column begins the letters (mo).

You may filter every column using this same technic except for the Zipcode column where you must enter numbers instead of alpha characters.

When you are finished filtering the display, click on the Clear Filter button to return to the original/default display.

Display the location on a Google map:

Maintaining Locality Rates

The IATS **Maintenance** Module includes a table of **per diem rates** used to calculate the travel entitlements. These per diem rates are stored by the Locality Code for the location where the rate is applicable.

The per diem rates for **CONUS** cities are normally changed annually. The **OCONUS** rates, however, are subject to **monthly** changes. Because of the continual changes, procedures were developed to **update** the Locality Rates table automatically via the monthly per diem rates **file**.

The monthly per diem rates **file** distributed by the IATS contractor is normally received in CONUS travel offices during the first week of a new month. OCONUS offices may not receive the file until the second week. Since the per diem rates are usually effective at the beginning of the **month**, Travel Supervisor's may find it necessary to manually update the Locality Rates table.

1/1/2019	\$125.00	\$56.00
10/1/2018	\$125.00	\$56.00
1/1/2018	\$119.00	\$54.00
10/1/2017	\$119.00	\$54.00
5/1/2017	\$107.00	\$54.00

Modify rate start-date and value.

Note: To access this table, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus** sign next to the word **Locality Data** and then click on the **Locality Rates** option.

 **Complete the following steps to "display" the Locality Rates Table:**

At the **Enter Country/State Selection** field, **type** the first two letters of the **country** or **state** name. IATS displays the first locality beginning with these two letters. If the desired state or country is not highlighted, **click press** the *Up/Dn* arrow **keys** on the keyboard until the desired location is highlighted. Once the desired locality is highlighted, **press Tab**.

You can also **click** on the *down arrow* button to **display** the **listing** of countries and states. When the list is displayed **click** on the *up* or *down arrow* button to **scroll** through the list. When the desired location is displayed, **click** on the **location** to make your selection.

Select Country/State and Locality by zip code (CONUS only): If the selected locality is within **CONUS**, **enter** the **zip code** for the desired locality and **press Tab**.

Enter Locality Selection: If the selected locality is within **OCONUS**, **type** the first two letters of the **country** name. IATS displays the first locality beginning with these two letters. If the desired country is not highlighted, **click** on the *Up/Dn* arrow **buttons** or **press** the *Up/Dn* arrow **keys** on the keyboard until the desired location is highlighted. Once the desired locality is highlighted, **press Tab**.

You can also **click** on the *down arrow* button to **display** the **listing** of **localities** within the selected country. When the list is displayed **click** on the *up* or *down arrow* button to **scroll** through the list. When the desired location is displayed, **click** on the **location** to make your selection.

IATS **displays** the associated per diem **rates**, by effective date, in the **Maintain Rates** section.

Tip: Generate a **print-out** of the selected locality **rates**, if desired, by **clicking** on the **Print** button.

 **Complete the following steps to "insert" a new Effective Date and Locality Rates:**

Click in the **box** to the left of the **effective date** where the new effective date and rate should be inserted. A **pointer** appears in the **box** indicating the **location** where the **insertion** will take place.

When the **pointer** is **positioned** in the desired location, **click** on the **Insert** button. The **current date** defaults to the **Effective Date** field and the **Maximum Lodging**, and **M&IE** fields are **blank**.

If the **default** effective date is correct **press Tab**. If not, **type** the desired **date** in **MMDDYY** format and **press Tab**.

At the **Maximum Lodging** field, **type** the new dollar **amount** for the maximum allowable lodging reimbursement for this locality beginning on this effective date and **press Tab**.

At the **M&IE** field, **type** the new dollar **amount** for the maximum allowable meals and incidental expense reimbursement for this locality beginning on this effective date.

When **finished** inserting the new effective date and rates, **click** the **OK** button. A *pop-up* appears asking if you wish to **save** the change.

Click on the **Yes** button to **complete** the process and **return** to the **Maintenance Main Menu**.

 **Complete the following steps to "delete" an Effective Date and Locality Rates:**

Click in the **box** to the left of the **effective date** for the rate you wish to delete. A **pointer** appears in the **box** indicating the **location** where the deletion will take place.

When the desired **effective date** is highlighted, **click** on the **Delete** button. IATS **deletes** the selected **rate**.

When finished, **click** on the **OK** button. A *pop-up* appears asking if you wish to **save** the change.

Click on the **Yes** button to **complete** the process and **return** to the **Maintenance Main Menu**.

Maintaining ILP Locality Codes and Descriptions

Locality Codes and Descriptions for ILP locations are stored in a table in the IATS database.

The **Maintain ILP Locality Codes with Descriptions** screen is used to **maintain** the locality **codes** and a **description** of the locality.

Note: Maintaining this table is **step one** of a **three step** process that ultimately establishes limitation rates for ILP locations. You must first define ILP locations. This is done by selecting a **country/state** and then entering ILP **codes** and **descriptions**.

Maintain ILP Locality Codes with Descriptions

Select State/Country

Enter State/Country Selection:

Maintaining TDY Advance Percentages

The **TDY Parameters** tab is used to **establish** the **percentages** IATS uses to calculate TDY advances.

TDY Parameters	Military PCS Parameters	Civilian PCS Parameters
M&IE Percents for Paying First and Last Day First Day % <input type="text" value="75"/> Last Day % <input type="text" value="75"/>		Limits Min. Adv. Days <input type="text" value="0"/> Max. Adv. Days <input type="text" value="999"/> Min. Adv. Amt. <input type="text" value="\$50.00"/> Max. Adv. Amt. <input type="text" value="\$50,000.00"/>
Local Miles Max <input type="text" value="200"/>		
TDY Advance Percents		
	Frequent Travel	Infrequent Travel
Registration Fees	<input type="text" value="100"/>	<input type="text" value="100"/>
Miscellaneous Expenses	<input type="text" value="0"/>	<input type="text" value="80"/>
Per Diem - M&IE Portion	<input type="text" value="80"/>	<input type="text" value="80"/>
Per Diem - Lodging Portion	<input type="text" value="0"/>	<input type="text" value="80"/>
Car Rental	<input type="text" value="0"/>	<input type="text" value="80"/>
MALT &/or Commercial Transp.	<input type="text" value="100"/>	<input type="text" value="100"/>
Civilian POC MALT Amt. <input type="text" value="\$9,999.99"/> Com'l Transp. <input type="text" value="\$9,999.99"/>		
Military POC Miles <input type="text" value="99999"/> Com'l Transp. <input type="text" value="99999"/>		
<input type="button" value=" < Back"/> <input type="button" value=" Next >"/>		<input type="button" value=" Apply"/>

At various input fields, the user may enter a different percentage depending on the organization's policy for calculating TDY advance entitlements. **Different percentages** are established depending upon the traveler's **credit card status**. When the **traveler account** is created, the user **must** specify the **credit card status** of the traveler. **If** the status **Holder of Govt. Credit Card** is selected, IATS uses the percentages in the **Frequent Traveler** column when calculating the advance. **If not**, IATS uses the percentages in the **Infrequent Traveler** column when calculating the advance.

Note: To **access** this tab, **change** the View to **Maintenance**. At the **Maintenance Main Menu**,, **click** on the **plus sign** to the **left** of the item **Constants/Descriptions** and then **click** on the **Advance Percents** option.

 **Complete the following steps to make "changes" to this screen :**

Click on the **TDY Parameters** tab to bring it into **focus** **if applicable**.

Click in the desired **field** and **type** the new desired **percentage** or **amount** if applicable.

When **finished** making changes, **click** on the **OK** button.

Maintaining MILPCS Advance Percentages

The **Military PCS Parameters** tab is used to **establish the percentages** IATS uses to calculate MILPCS advances.

TDY Parameters	Military PCS Parameters			Civilian PCS Parameters		
Description	Station to Station	Honorable > 90%	<90% or not Honorable	Retirement Fleet	Change of Home Port	Boot Camp to A School

Enter Effective Date for this Zero Voucher Data

Current DFAS policy provides for the creation of a **zero voucher** when the **costs** to process a payment, or collection greatly **exceed** the amount due. IATS automatically **adds**, or **deducts** an amount from the computed entitlement to create a **zero voucher** when the values input, at this screen are met.

At each input field, a different value may be entered depending on the organizational policy guidance for calculating a zero voucher.

Note: To access this tab, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the **left** of the item **Constants/Descriptions** and then click on the **Zero Voucher/Suspense Parameters** option.

 Complete the following steps to "add" a new parameter:

Click on the **Zero Voucher Parameters** tab to bring it into **focus**, if applicable.

Click the **Insert** button. A blank line with the current date appears at the top of the **grid**.

Effective Date: If the **date** displayed at this field is correct, **press Tab** to continue. If not, **type** the desired date in **MMDDYY** format and **press Tab**.

At the **field**, "the US Government owes the traveler less than" **type** the dollar **amount** that represents the **new value** for the new parameter and **press Tab**.

At the **field**, "or the Traveler owes the Government less than" **type** the dollar **amount** that represents the **new value** for the new parameter and **press Tab**.

When **finished** adding the new parameter, **click** on the **OK** button.

 Complete the following steps to "delete" a parameter:

Click in the **box** to the left of the **Effective Date** for the parameter should be deleted. IATS **highlights** this line.

When the desired parameter is highlighted, **click** the **Delete** button.

Click on the **OK** button to **save** the changes.

Maintaining Suspense Parameters

Suspense Items. When funds are advanced or accrued to a traveler, IATS creates a suspense item in the database. The amount of funds advanced or accrued to travelers is held in suspense for a predetermined number of days based on the first suspense parameter (**# Days of Suspense until 1st Collection Letter**). When the suspense period is over, IATS automatically generates a collection or payroll deduction **document**.

Suspense Parameters. IATS uses two key **elements** to automatically track suspense items throughout the processing cycle. These items are:

- The expected date of return from the travel order
- The suspense parameters established in maintenance

The expected date of return is vital in determining whether a suspense item is overdue or not. Current **DFAS policy** requires a traveler to **file** a settlement request within (5) days after returning from a TDY trip.

The **Suspense Parameters** tab on **Maintenance System %'s & Constants** screen is where IATS maintains many of the suspense parameters.

Maintain System %'s and Constants

Zero Voucher Parameters
Suspense Parameters

Number of Days of Suspense until First Collection Letter	<input style="width: 50px;" type="text" value="15"/>
Number of Days of Suspense until Collection takes place	<input style="width: 50px;" type="text" value="30"/>
Number of Days after Voucher Return until Payroll Deduction	<input style="width: 50px;" type="text" value="20"/>
Number of Days after Due US Voucher until Payroll Deduction	<input style="width: 50px;" type="text" value="15"/>
Administration Fee to be Charged	<input style="width: 50px;" type="text" value="\$15.00"/>

These parameters determine when an item is **overdue** based on the expected **return date**, the **date an item was returned** to the traveler, or the **date a notification was generated**.

Note: To **access** this tab, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Constants/Descriptions** and then **click** on the **Zero Voucher/Suspense Parameters** option.

Complete the following steps to make "changes" to the suspense parameters:

Click on the **Suspense Parameters** tab to bring it into **focus**, if applicable.
Click in the desired **field** and **type** the new desired parameter.
When **finished** making changes, **click** on the **OK** button.

Maintaining Audit Criteria

The **Maintain Audit Criteria** screen is used to establish the **criteria** for auditing settlement requests processed through IATS. Not all of the items listed are **functional** as of the date of this publication. The non-functioning items are intended to be used with the planned IATS order writer program.

Maintain Audit Criteria

Criteria for Auditing Requests

- Random Claims Audit What %
- Foreign Claims
- Over Threshold Amount Threshold Amount
- Funds not Available for Travel
- Variations from Authorized Itinerary
- Improper or No Accounting FSN's
- Leave Taken Yr1
- Original Authorization not in System Yr2
- Directed Meals or Quarters Not Used Yr3
- Directed Mode of Transportation Not Used
- Overlapping Another Request
- Claim Requires Constructive Travel
- Travel Outside Authorization Limits Daily Lodging Tax %
- Not a Lodging Plus Claim Receipt Required for Expenses Over
- PCS Travel Evacuation Travel
- Suspicious Amount
- Audit Advances Active Duty Spouse CBA Authorized
- Paid Interest All Tax Collections Audit Duplicate Entitlements
- Dependents 21 or older ILP Negotiated Sites Audit DTOD Override

Print OK Cancel ? Help

Select to audit claims that overlap other claims

Users can activate the audit parameters by placing a **check mark** in the **boxes** next to the desired option. To place or remove a check mark, **click** in the box or **press** the space bar.

Following is a list of the items that are **functional** and are used to establish the **criteria** for selecting the settlement requests that require auditing:

- **Random Audit:** - When activated, the user must also enter a **percentage** at the **Audit What %** field. IATS will randomly select certain settlement requests for auditing based on the percentage entered.
- **Foreign Claims:** - When activated, IATS will **flag** all settlement requests, involving an **OCONUS** locality, for audit.

- **Amount Over Audit Threshold:** - When activated, the user must also enter a dollar **amount** at the **Threshold Amount** field. IATS will then **flag** all settlement requests, (that exceed this threshold amount), for audit.
- **Improper or No Accounting:** - When activated, **Army** customers will see three (3) **FSN** input fields that may be populated and three (3) **FY** fields that may be populated for each of the three FSNs. When this option is activated and if the **FSN** and **FY** fields are populated, users will see a *pop-up message* asking if the line of accounting is **proper** when attempting to **save** the accounting line. In addition, a claim being processed with an FSN in the accounting line matching the audit criteria will be **flagged** for audit.
- **Overlapping Claims:** - When activated, IATS **flags** any settlement request, where the dates of the trip **overlap** the dates on a request previously processed for the **same** traveler.
- **Claim Requires Constructive Travel:** - When activated, IATS **flags** any settlement request that requires the input of a **constructed itinerary**.
- **Not a Lodging Plus Claim:** - When activated, IATS **flags** any settlement request for audit, when a per diem **reimbursement method** other than **LDP** is entered in the itinerary.
- **PCS Travel:** - When activated, IATS **flags** all **PCS** settlement requests for audit.
- **Suspicious Amount:** - When activated, IATS **flags** all settlement requests for audit that have a reimbursable expense item, that exceeds the **limitation** amount entered for that item in the reimbursable expenses table.
- **Audit Advances:** - When activated, IATS **flags** all advance requests for **audit**. If you do not want advances to be flagged for audit, ensure that a **check mark does not** appear in the **box** next to this option.
- **Paid Interest:** - When activated, IATS **flags** all settlement requests for **audit if interest** was included in the calculation. If you do not want settlements (with paid interest) to be flagged for audit, ensure that a **check mark does not** appear in the **box** next to this option.
- **Dependents 21 or older:** - When activated, IATS **flags** all settlement requests for **audit if** the claim involved a dependent **21** years of age or older.
- **Daily Lodging Tax %:** - At this field, enter a number between 1 and 100 that represents the maximum daily lodging amount as a **percentage** of the daily lodging rate that will be allowed before an **audit** is required. If the number **zero** (0) is entered at this field, lodging taxes will not be subject to an audit.
- **Receipt Required for Expenses Over:** - At This field, **type** the desired dollar **amount**. IATS will list any reimbursable expense that exceeds the **amount** entered at this field at the **Required Receipts** screen and in the **Required Receipts** section of the printed voucher.
- **Financial Info Modified:** - When activated, IATS **flags** any settlement request for audit if the traveler's **EFT** information has been **changed** by the voucher examiner.
- **Active Duty Spouse:** - When activated, IATS **flags** any settlement request for audit if the traveler's **spouse** is an **active duty** member.
- **All Tax Collections:** - When activated, IATS **flags** any settlement request for audit if the **purpose** for the request was to generate a **tax collection**.
- **ILP Negotiated Sites:** - When activated, IATS **flags** all settlement requests that have an **ILP site** as the **TDY** location.
- **CBA Authorized:** - When activated, IATS **flags** any settlement request for audit when Centralized Billed Accounts (**CBA**) are used.
- **Audit Duplicate Entitlements:** - When activated, IATS **flags** all settlement requests for **HHG Shipment** and **Storage** when duplicate **payments** have been processed against the same travel order.
- **Audit DTOD Override:** - When activated, IATS **flags** all settlement request in which the examiner has **overridden** the **DTOD mileage** that is automatically **populated** by IATS in the **itinerary**.

 Complete the following steps to "activate" audit criteria:

Click in the **box** next to the desired item. IATS places a **check mark** in the box to indicate that the item is **activated**.

When **finished** activating audit criteria, **click** on the **OK** button.

Tip: To **de-activate** an item, **click** in the **box** next to the desired item. IATS removes the **check mark** in the box to indicate that the item is **de-activated**.

Maintaining Foreign Currency Codes

When setting up a traveler's account to generate EFT payments to a foreign bank account, the **currency type** with a **currency code** must be entered. IATS provided a *drop-down list* of these currency types and codes.

The Foreign EFT Payments Currency screen is used to **display** these codes and allows the user to also **add** or **remove** codes as needed.

Foreign EFT Payments Currencies

Currency

Code	Name
XUA	ADB Unit of Account
AFN	Afghani
DZD	Algerian Dinar
ARS	Argentine Peso
AMD	Armenian Dram
AWG	Aruban Florin
AUD	Australian Dollar
AZN	Azerbaijani Manat
BSD	Bahamian Dollar
BHD	Bahraini Dinar
THB	Baht
PAB	Balboa

Delete Insert

Print OK Cancel ? Help

Enter Currency Code.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the **left** of the item **Constants/Descriptions** and then **click** on the **Currency Codes** option.

 **Complete the following steps to "insert" a new currency code:**

Click on the **Insert** button. A **blank line** appears at the top of the grid.

At the **Code** field, **enter** the **new** 3 character **currency code** and **press Tab**.

At the **Name** field, **enter** the name of the currency and then **press Tab**.

Click on the **OK** button to **save** the entries.

 **Complete the following steps to "delete" a currency code:**

Click on the currency **code** you wish to delete.

When the desired code is highlighted, **click** the **Delete** button. A *pop-up* message will appear asking if you are **sure** you wish to delete the currency code.

Click on **Yes**. IATS deletes the selected currency code.

Click on the **OK** button to **save** the changes.

Maintaining the Prompt Payment Act Configuration

IATS provides a **report** that will **calculate** and then **print** the **interest expense** for all claims that were **paid over 30 days** after the Authorizing Official **signed** the claim.

The **Prompt Payment Act Configuration** screen is used to **establish** the **parameters** for determining when a payment is late, the interest rate, minimum amounts to pay and report, and the estimated number of days to pay a claim.

Prompt Payment Act Configuration

Prompt Payment Settings Prompt Payment Interest Rates

Prompt Payment Data

Activate Prompt Payment Interest

Number of days allowed for payment:

Minimum amount of interest to pay:

Minimum amount of interest on form 1099:

Estimated number of days to pay claim:

Print OK Cancel ? Help

Check this box to active Prompt Payment Interest payments.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Constants/Descriptions** and then **click** on the **Prompt Payment Interest** option.

These **parameters** will be **updated automatically** by the **monthly per diem rates file** distributed by the IATS contractor. On occasion, however, the Travel Supervisors **may** find it necessary to **manually update** these parameters.

Complete the following steps to make "changes" to this screen :

Activate Prompt Payment Interest Payments: - A **check mark** must appear in the check box for this field in order to generate the Prompt Payment Interest Report. **Click** in the **check box** to **activate** or **de-activate** this option as desired.

Number of days allowed for payment: - **Click** in this field and **type** the necessary change.

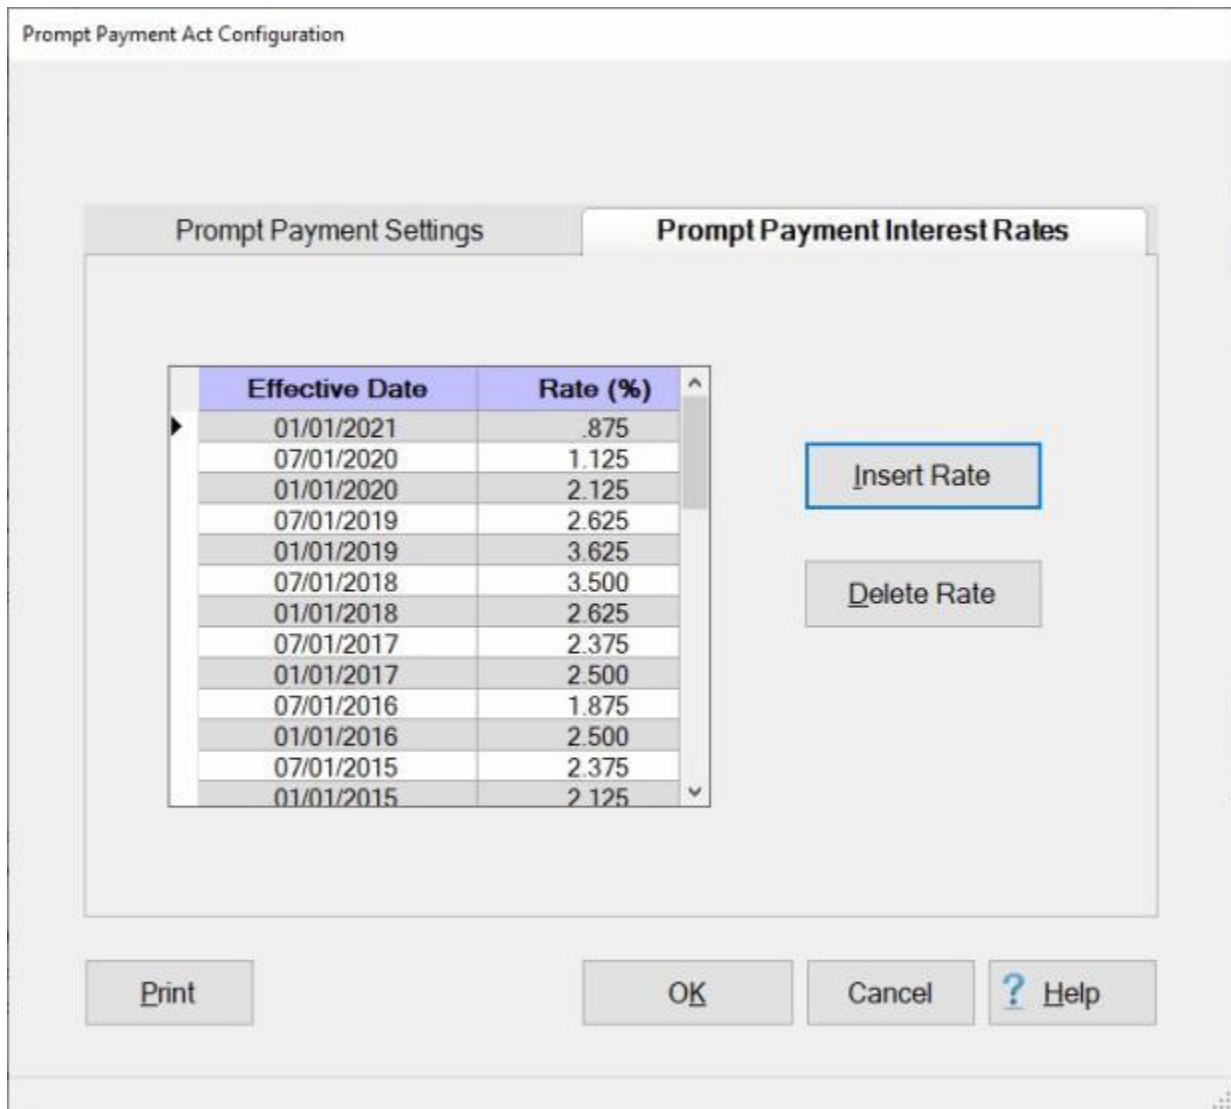

Minimum amount of interest to pay: - **Click** in this field and **type** the necessary change.

Minimum amount of interest on form 1099: - **Click** in this field and **type** the necessary change.

Estimated number of days to pay claim: - **Click** in this field and **type** the necessary change.

If needed, you may also **click** on the **Prompt Payment Interest Rates** tab to **add a new rate**, **delete** a rate, or to **review** the rates.

Clicking on the **Prompt Payment Interest Rates** tab **displays** the following screen:

If you wish to **add** a new rate, **click** on the **Insert Rate** button. A **new line** will appear at the top of the grid with the **current date** appearing in the **Effective Date** field. **Enter** the **correct** date in **MMDDYY** format if necessary and **press Tab**.

At the **Rate (%)** field, **type** the new interest **rate** you wish to add and **press Tab**.

If you wish to **delete** a rate, **click** on the desired **date** and then **click** the **Delete Rate** button. A **pop-up message** will appear asking if you are **sure** you want to delete the selected rate. **Click** on **Yes**.

When **finished** making changes to the **Prompt Payment Act Configuration** screen, **click** on **OK** to **save** the changes.

Maintaining the Post Disbursement Audit Parameters

The **Post Disbursement Audit** screen is used to **establish** the **criteria** to **select** claims for a random post disbursement audit and to generate the **Post Audit Summary** report.

Post Disbursement Audit

OK Cancel ? Help

Enter the percentage of claims to take from this stratum.

Click in the column to the left of the Stratum number you wish to delete.

When the desired Stratum number is highlighted, as shown above, click on the Delete button.

The following pop-up message appears asking if you are sure you wish to delete the selected rate.

IATS Notification

Are you sure you wish to delete the selected rate?

Yes No

Click on Yes.

When you are finished using the Post Disbursement Audit screen, click on OK to save your changes and return to the Maintenance Main Menu screen.

Maintaining Reasons for Return

Some claims received in the travel office cannot be **processed**. There are various **reasons** for this - **no signature** on the voucher, **no attached travel orders**, etc.

IATS **generates** a **return letter** that is attached to the voucher. This letter provides an **explanation** as to **why** the travel officer **returned** the **voucher** to the traveler.

When **IATS** is initially installed, the travel supervisor, or person designated, must **populate** the **Reasons for Return** table in maintenance that stores the reason for return explanations.

Reasons for Returning Settlement Requests

Reason for Returns

Code	Description
▶ 1	the 1351-2 is not signed
2	no travel orders
*	

When IATS is initially installed, the Reason for Return Table is populated with the two **codes** shown above. Users may add **additional** reasons to this table, however.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the left of the item **Constants/Descriptions** and then **click** on the **Reasons for Voucher Return** option.

 **Complete the following steps to "insert" a new reason for return code:**

Click on the **Add** button. A blank line appears at the bottom of the grid with the next consecutive **number** appearing in the **Code** field.

Reasons for Returning Settlement Requests

Delete

Print OK Cancel ? Help

Click in the **column** to the left of the **Grade/Rank** column for the grade/rank you wish to delete.

When the desired grade/rank is highlighted, **click** on the **Delete** button. IATS will remove the selected grade/rank from the table.

Click on the **OK** button when you are **finished** maintaining grades/ranks to **save** your changes.

Maintaining the Reasons for Claim Deletion Table

Some requests received in the travel office **cannot be processed**. There are **various reasons** for this - no signature on the voucher, no attached travel orders, etc. IATS allows users with the appropriate privileges to **delete** these requests.

The **Reasons for Claim Deletion** screen allows users to maintain a **table** of reasons and to also **select** a **reason** from the table when deleting a request. This information is used to generate the **Deleted Details Report**.

When **IATS** is **initially installed**, the travel supervisor, or person designated, **must populate** the **Reasons for Claim Deletion** table in maintenance that stores the reason(s) for deleting a claim.

Code	Description
1	Invalid Claim
2	Traveler Deceased
3	Trip Cancelled
*	

When IATS is **initially** installed, the **Reasons for Claim Deletion** table may be **pre-populated** with **codes** as shown above. Users may add **additional** codes/reasons to this table, however.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the **left** of the item **Constants/Descriptions** and then **click** on the **Reasons for Detail Deletion** option.

Complete the following steps to "enter" reasons for detail deletion:

Click on the **Add** button. A **blank line** appears at the bottom of the grid with the **next** consecutive number appearing in the **Code** field.

Click on the Yes button. IATS deletes the selected item.

When finished, **click** on the **OK** button to **save** the changes.

Maintaining the Standard Voucher Remarks - Screen

The **Standard Voucher Remarks** screen allows you to **create** a **list** of **standard remarks** that can be selected from a listing when you are processing a request and wish to add remarks. This will **save** keystrokes for remarks that are fairly **common** and **standard**.

When **IATS** is **initially installed**, the travel supervisor, or person designated, **must populate** the **Standard Voucher Remarks** table in Maintenance that stores the remarks.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the **left** of the item **Constants/Descriptions** and then **click** on the **Standard Voucher Remarks** option.

Complete the following steps to "modify" standard voucher remarks:

At the **Select an Existing Remark** field, **click** on the **down arrow** button to display the **list** of remarks and then **click** on the **desired remark**. The selected remark will appear in the Standard Voucher Remark **text box**.

Make your **desired changes** to the remark.

Click on the **OK** button to **save** your changes.

Complete the following steps to "delete" standard voucher remarks:

At the **Select an Existing Remark** field, **click** on the *down arrow* button to display the **list** of remarks and then **click** on the desired remark. The selected remark will appear in the Standard Voucher Remark **text box**.

Click on the **Delete** button.

Click on the **OK** button to **save** your changes.

Complete the following steps to "add" standard voucher remarks:

Click on the **Add A New Remark** button. The **cursor** will now appear in the Standard Voucher Remark **text box**.

Type your desired **remark**.

When you are **finished** entering the remark, **click** on **OK**.

Maintaining Reimbursable Descriptions and Suspicious Amounts

When entering expenses at the **Reimbursable** tab, a **drop down listing** appears displaying common travel **expenses**. Rather than typing in a lengthy description of the expense, the user can simply select the item from the listing. In addition to providing a description of the expense, the user can use this table to assign **expense type codes**, track **suspicious claims**, and flag items that require **receipts**. This screen is used for that purpose.

Maintain Reimbursable Descriptions and Suspicious Amounts

Description	Is 1164	Type	Suspicious Amount	Receipt Required
▶ BREAKFAST (COMMERCIAL)	<input checked="" type="checkbox"/>	CB	\$0.00	<input type="checkbox"/>

Print OK Cancel ? Help

When IATS is initially installed, this table is already populated with most of the common expenses normally encountered. Additional items can be **added** to this table by using the instructions outlined in the **steps below**.

Note: To **access** this table, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Constants/Descriptions** and then **click** on the **Reimbursables/Suspicious Amounts** option.

 **Complete the following steps to "insert" a new reimbursable expense item:**

Click on the **Insert** button. A **blank line** appears at the top of the grid.

At the **Description** field, **type** the **description** of the expense item and **press Tab**.

At the **Is 1164** column, **click** in the **check box** if the expense item is associated with **Local 1164 travel** and **press Tab**.

At the **Type** field, click on the down arrow to display a list of expense type codes. If necessary, **click** on the **Up/Dn arrow buttons** at the **right** hand side of the drop down to scroll through the list.

Click on the desired **option** or **press Tab** if the desired option is **highlighted**.

At the **Suspicious Amount** field, **type** the desired dollar **amount** considered to be a **suspicious** amount for this type of expense and **press Tab**.

At the **Receipt Required** field, **click** in the **box** to place a **check mark** if this item must be accompanied by a **receipt**.

Click on the **OK** button to **save** the changes.

 **Complete the following steps to "delete" a reimbursable expense item:**

Determine which reimbursable expense item you wish to delete and then **click** in the **box** to the left of this item. IATS **highlights** the item.

When the desired item is highlighted, **click** the **Delete** button. A *pop-up message* appears asking if you are **sure** you wish to **delete** the selected expense. **Click** on *Yes*.

When finished, **click** on the **OK** button to **save** the changes.

Maintaining the Disaster Rates Table

In order to better handle the various **rates** and **entitlement extensions** that often occur in connection with **evacuation** travel, a **Disaster Rates table** has been added to the IATS Maintenance module.

This table can be manually or automatically **updated** via a rates update file as approved changes are announced to the number of days allowable at each rate.

Note: To **access** this table, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the left of the item **Constants/Descriptions** and then **click** on the **Disaster Rates** option.

 **Complete the following steps to "edit" an existing disaster rate:**

Click on the *down arrow* button appearing in the upper section of the screen under the heading **"Select Disaster or Type New Name"**. A **list** of Disaster names will appear.

Disaster Maintenance

Add New Disaster or Add / Edit Rates For Existing Disaster

LAURA	M	10/16/2020	150	360	12	100	50	60	30	100	100

Select an existing disaster to add a new rate or edit an existing rate. Type the name of a disaster to add.

Click in the field(s) you wish to edit and **type** the desired **change**. After typing the desired change, **press** the *Tab* key to the next field.

When you have made all of the required changes, **click** on the **OK - Save Rates and Close** button. IATS will **save** the changes and **return** to the **Maintenance Main Menu** screen.

 **Complete the following steps to "add" a new disaster name and the applicable rates:**

Select Disaster or Type New Name: - Click in the **Select Disaster or Type New Name** field in the upper section of the screen.

Disaster Maintenance

Add New Disaster or Add / Edit Rates For Existing Disaster

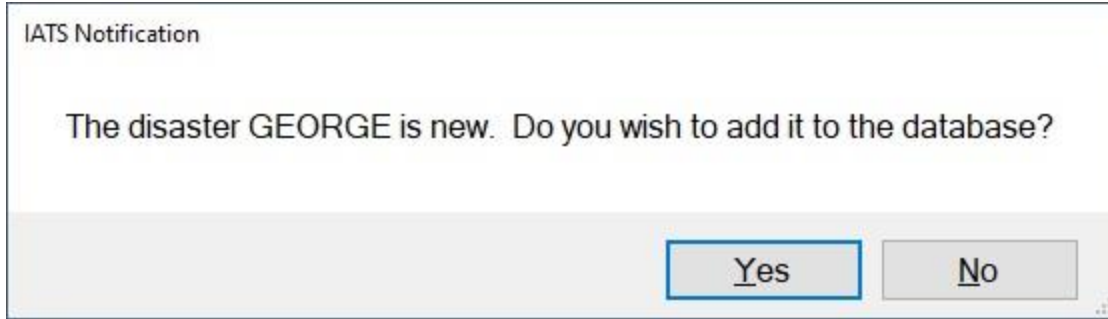

Select Disaster or Type New Name:

All Disaster Rates

Description	R	Cut Off	Days High	Max. Days	Adult Age	Adult High %	Child High %	Adult Low %	Child Low %	Lodge High %	Lodge Low %
KATRINA	M	08/01/2006	216	360	12	100	50	60	30	100	100
LAURA	C	10/16/2020	150	360	12	100	50	60	30	100	100
LAURA	M	10/16/2020	150	360	12	100	50	60	30	100	100

Select an existing disaster to add a new rate or edit an existing rate. Type the name of a disaster to add.

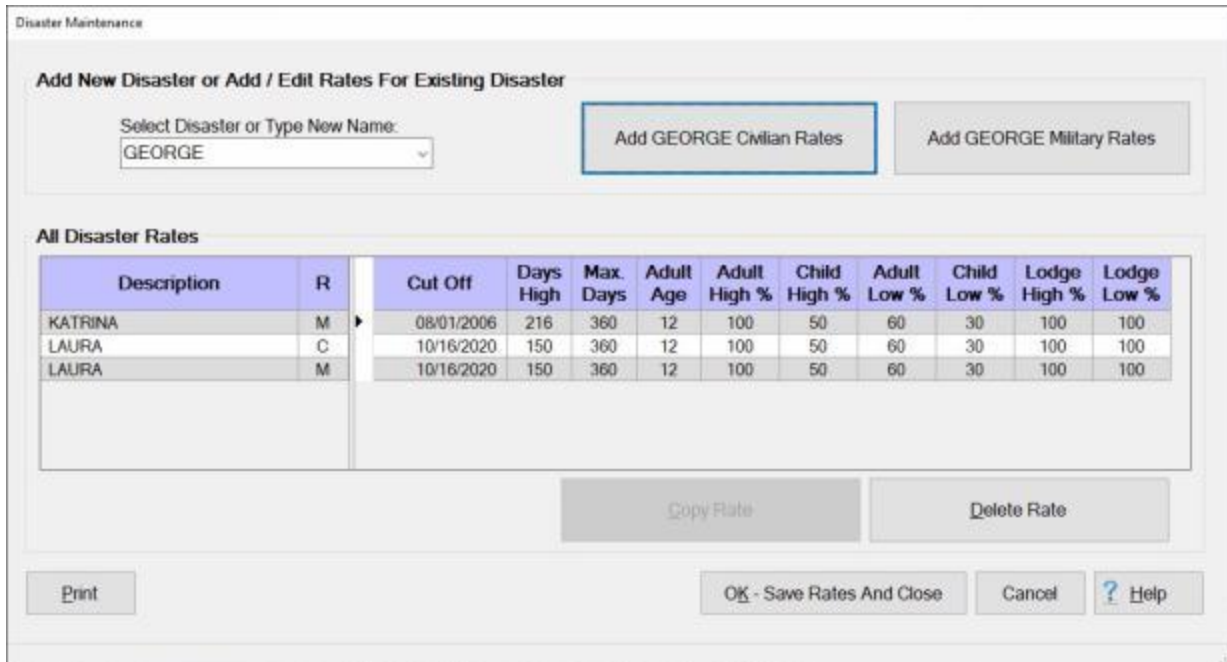

Type the new disaster **name**, and then **press** *Tab*. A **pop-up message** will appear indicating that the disaster is **new** and asks if you wish to **add** it to the database.

Click on Yes if you wish to **add** the new disaster name. A *pop-up message* will appear indicating that the disaster has been **added** and instructing you to **click** on the **Civilian** and **Military** buttons to **add** the rates.

Click on OK.

Click on either the **Add Civilian Rates** or **Add Military Rates** button. The new disaster will now appear in the **Description** column in the rates grid and the current date will appear in the **Cut Off** column.

Disaster Maintenance

Add New Disaster or Add / Edit Rates For Existing Disaster

Select Disaster or Type New Name:

All Disaster Rates

Description	R	Cut Off	Days High	Max. Days	Adult Age	Adult High %	Child High %	Adult Low %	Child Low %	Lodge High %	Lodge Low %
KATRINA	M	08/01/2006	216	360	12	100	50	60	30	100	100
LAURA	C	10/16/2020	150	360	12	100	50	60	30	100	100
LAURA	M	10/16/2020	150	360	12	100	50	60	30	100	100
GEORGE	C	10/16/2020	0	0	12	100	50	60	30	100	100

Cutoff Date: - Type the **ending date** for the evacuation entitlement **period** in **MMDDYY** format and **press Tab**.

Days High: - Refer to the regulation authorizing the disaster rate, **type** the **number** of days allowed at the highest rate, and then **press Tab**.

Max Days: - Refer to the regulation authorizing the disaster rate, **type** the **number** of days allowed for the entitlement, and then **press Tab**.

Adult Age: - Refer to the regulation authorizing the disaster rate, **type** the **age** qualifying for the adult rate, and then **press Tab**.

Adult High %: - Refer to the regulation authorizing the disaster rate, **type** the percentage allowed for an **adult** at the highest rate, and then **press Tab**.

Child High %: - Refer to the regulation authorizing the disaster rate, **type** the percentage allowed for a **child** at the highest rate, and then **press Tab**.

Adult Low %: - Refer to the regulation authorizing the disaster rate, **type** the percentage allowed for an **adult** at the lowest rate, and then **press Tab**.

Child Low %: - Refer to the regulation authorizing the disaster rate, **type** the percentage allowed for a child at the lowest rate, and then **press Tab**.

Lodging High %: - Refer to the regulation authorizing the disaster rate, **type** the percentage allowed for **lodging** at the highest rate, and then **press Tab**.

Lodging Low %: - Refer to the regulation authorizing the disaster rate, **type** the percentage allowed for **lodging** at the lowest rate, and then **press Tab**.

Note: After you have entered either the **Civilian** or **Military** rates for the new disaster you can use the **Copy** button to **duplicate** the rates you entered to either the **Civilian** or **Military** table depending on which one you entered **first**. After copying the rates you may **edit** them as needed.

When you have made all of the required entries, **click** on the **OK - Save Rates and Close** button.

IATS will **save** the new disaster rates and **return** to the **Maintenance Main Menu** screen.

 **Complete the following steps to "delete" an existing disaster rate:**

The screenshot shows the 'Disaster Maintenance' window. At the top, there's a section 'Add New Disaster or Add / Edit Rates For Existing Disaster' with a dropdown menu set to 'GEORGE' and two buttons: 'Edit GEORGE Civilian Rates' and 'Edit GEORGE Military Rates'. Below this is a table titled 'All Disaster Rates' with columns: Description, R, Cut Off, Days High, Max. Days, Adult Age, Adult High %, Child High %, Adult Low %, Child Low %, Lodge High %, and Lodge Low %. The table contains five rows: KATRINA (M), LAURA (C), LAURA (M), GEORGE (C), and GEORGE (M). An arrow points to the 'Cut Off' date '10/16/2020' in the GEORGE (M) row. Below the table are buttons for 'Copy Rate' and 'Delete GEORGE Military Rate'. At the bottom are 'Print', 'OK - Save Rates And Close', 'Cancel', and 'Help' buttons. A footer note says 'Enter the cut off date for this disaster.'

Description	R	Cut Off	Days High	Max. Days	Adult Age	Adult High %	Child High %	Adult Low %	Child Low %	Lodge High %	Lodge Low %
KATRINA	M	08/01/2006	216	360	12	100	50	60	30	100	100
LAURA	C	10/16/2020	150	360	12	100	50	60	30	100	100
LAURA	M	10/16/2020	150	360	12	100	50	60	30	100	100
GEORGE	C	10/16/2020	180	360	12	100	50	60	30	100	100
GEORGE	M	10/16/2020	180	360	12	100	50	60	30	100	100

At the Disaster Maintenance screen, **click** on the **rate** listed in the grid in the **Description** column under the **All Disaster Rates** heading.

You will see an **arrow** pointing at the **Cut Off** date as shown above.

When you are **sure** you have selected the rate you wish to delete, **click** on the **Delete** button. A *pop-up* message will appear asking if you wish to delete the selected rate.

The screenshot shows a 'DELETE RATE' dialog box with a yellow warning icon. The text reads 'Delete Military rates for disaster GEORGE?'. At the bottom, there are two buttons: 'Yes' and 'No'. The 'Yes' button is highlighted with a blue border.

If you are sure, **click** on Yes. IATS will delete the selected rate.

Click on the **OK - Save Rates and Close** button.

IATS will **save** the changes and **return** to the **Maintenance Main Menu** screen.

Maintaining the EFT Rejection Codes Table

The **Maintain EFT Rejection Codes** screen provides a listing of the various codes used to describe the reasons why a particular EFT transaction was either **rejected** or **corrected** by the disbursing system.

This table can be **manually updated** if you should need to **add** new codes or **delete** codes. You may also generate a **print-out** of the list of rejection codes.

Maintain EFT Rejection Codes

User: SYSTEM

EFT Rejection Codes

Rej Code	Description
C01	Incorrect Account Number (AN)
C02	Incorrect Routing Number (RTN)
C03	Incorrect RTN and AN
C05	Incorrect Transaction Code (TC)
C06	Incorrect AN and TC
C07	Incorrect RTN, AN and TC
R01	Insufficient Funds
R02	Account Closed
R03	No Account/Unable to locate Account
R04	Invalid Account Number

Delete Insert

Print OK Cancel ? Help

Enter EFT Rejection Code.

When IATS is initially **installed**, this table is already **populated** with **most** of the **common rejection codes** normally encountered. **Additional codes** can be **added** to or **deleted** from this table by using the instructions outlined in the **steps below**.

Note: To **access** this table, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Constants/Descriptions** and then **click** on the **EFT Rejection Codes** option.

Complete the following steps to "insert" a new rejection code:

Click on the **Insert** button. A **blank line** appears at the top of the grid.

At the **Rej Code** field, **type** the new 3 character reject **code** and **press Tab**.
At the Description field, **type** the description of the code and then **press Tab**.
Click on the **OK** button to **save** the changes.

 **Complete the following steps to "delete" a rejection code:**

Click on the rejection **code** you wish to delete.

When the desired code is highlighted, **click** the **Delete** button. A *pop-up* message will appear asking if you are **sure** you wish to delete the rejection code.

Click on Yes. IATS deletes the selected rejection code.

Click on the **OK** button to **save** the changes.

Maintaining DPS Item Codes

Defense Personal Property System (DPS) Accounting **Codes** and **Descriptions** for the codes are stored in a table in the IATS database.

The **Maintain DPS Item Codes** screen is used to allow users to **view** the codes and descriptions and to also **add** or **delete** items from the table.

Code	Description	Entitlement Type
105A	Full Pack	Ship HHG 3rd Party
105B	Pack Reg Crate	Ship HHG 3rd Party
105D	Debris Removal within 30 days	Ship HHG 3rd Party
105E	UnPack Reg Crate	Ship HHG 3rd Party
105J	Storage Inspection	HHG Temporary Storage
120A	Extra Labor Reg	Ship HHG 3rd Party
120B	Special Services	Ship HHG 3rd Party
120C	Wait Tm: Lab Reg	Ship HHG 3rd Party
120D	Extra Labor Reg-OT	Ship HHG 3rd Party
120E	Special Services-OT	Ship HHG 3rd Party
120F	Wait Tm: Lab OT	Ship HHG 3rd Party

Add Delete

Print OK Cancel ? Help

Select the IATS entitlement type with which you want to add/modify/delete Item Codes

Click on the **Entitlement Type** you wish to display. The **information** shown in the grid will then be the selected Entitlement Type.

Using the Filter Row:

You will **notice** a **blank line** just under the **column headings** on the grid. This is a **Filter Row** as shown below.

In the example below, **(521)** was entered into the Filter Row in the **Code** column. **Notice** that every code displayed in the **Code** column begins with the numbers **(521)**.

You may **filter** the **Description** and **Entitlement Type** columns using this same technic except for entering **alpha characters** instead of numbers.

When you are **finished** filtering the display, **click** on the **Clear Filter** button to **return** to the **original/default** display.

Maintain DPS Item Codes

Entitlement Type Clear Filter

Code	Description	Entitlement Type
521	Filter Row	
521L	Administrative fee	HHG Temporary Storage
521C	Alaska - 30 miles or less	HHG Temporary Storage
521D	Alaska - over 30 miles - min charge	HHG Temporary Storage
521I	All other overseas areas - 30 miles or less	HHG Temporary Storage
521J	All overseas areas except (Germany, Alaska, or Hawaii) - over 30 miles - min charge	HHG Temporary Storage
521B	CONUS and the Island of Oahu, Hawaii - over 30 miles - min charge	HHG Temporary Storage
521F	Germany - over 30 miles - min charge	HHG Temporary Storage
521E	Germany 0 30 miles or less	HHG Temporary Storage
521G	Hawaii - 30 miles or less	HHG Temporary Storage
521H	Islands of Hawaii (other than Islands of Oahu) - over 30 miles - min charge	HHG Temporary Storage

521A	SIT - any point within CONUS - 30 miles or less	HHG Temporary Storage

Add Delete

Sorting the grid display:

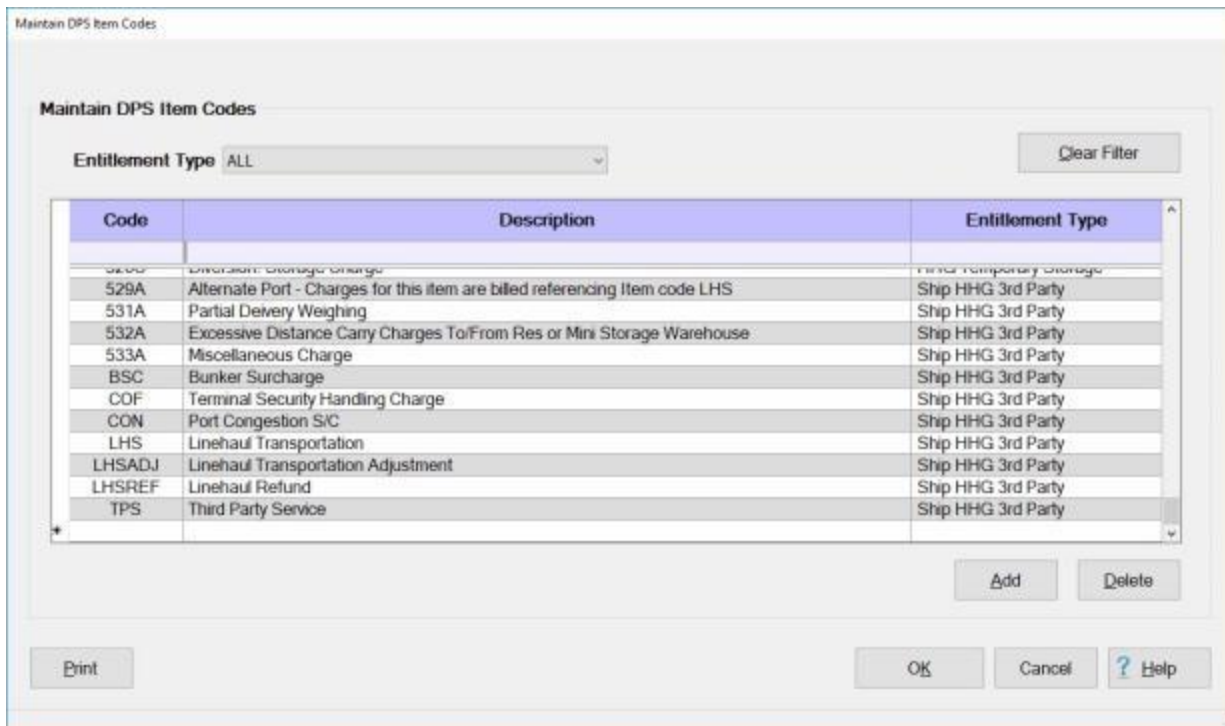

Notice in the screen image above that a **Sort Indicator** is shown.

The various columns in the grid may be **sorted** in **ascending** or **descending** order which would be either **numerically** or **alphabetically** depending on the column.

To **sort** a column, **click** in the column **title** field. You will notice that the entire column will then be **highlighted** in **blue**. You will also notice a **Sort Indicator** button appearing next to the **column title**.

Click on the **Sort Indicator** button to sort the column in **ascending** or **descending** order.

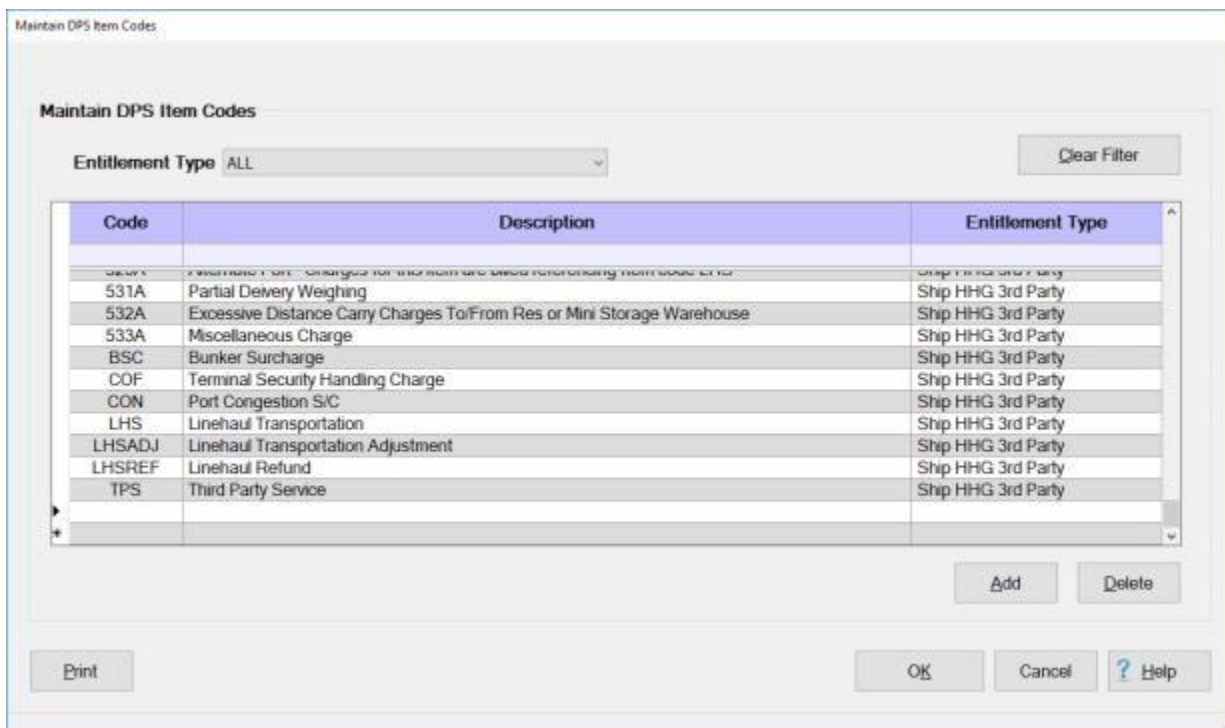

Adding a new code to the DPS Item Codes Table:

Ensure that the **display** in the grid is set to **All** for the **Entitlement Type**.

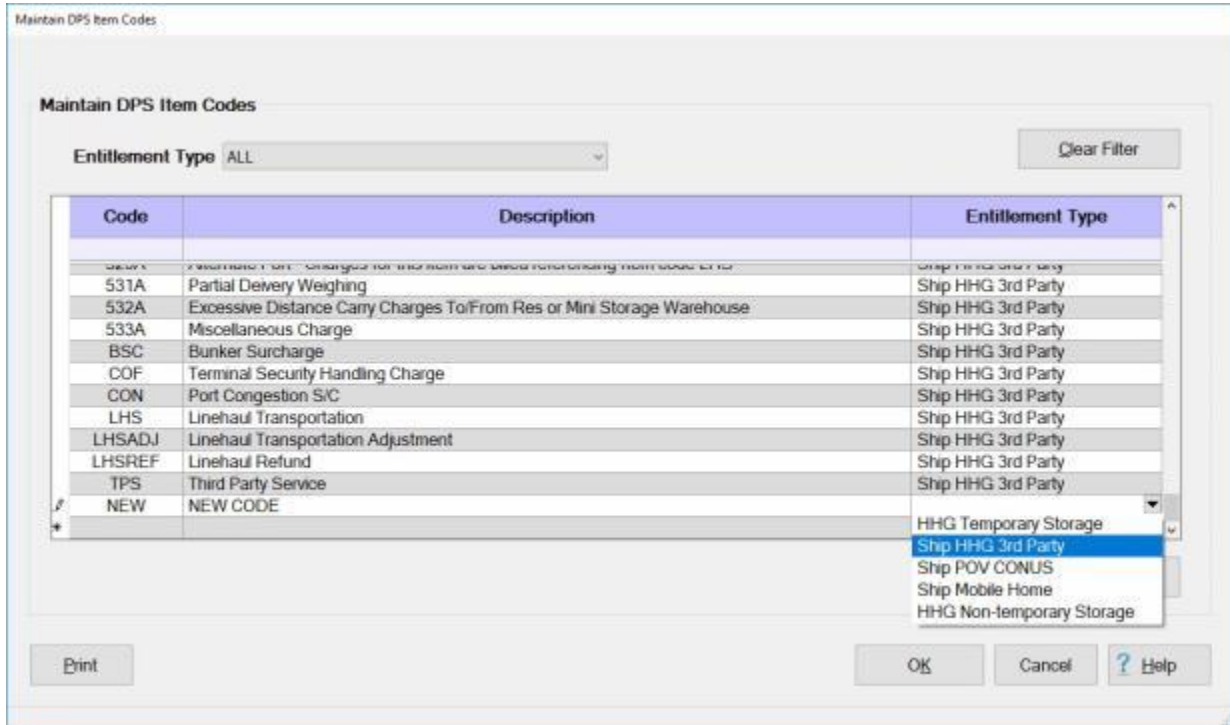

Scroll down to the **bottom** of the grid.

Click on the **Add** button. A new blank line will appear under the **last item** listed as shown below.

Click in the **Code** field, **enter** the desired **code number** and then **press Tab** to advance to the **Description** field.

Enter the desired **description** for the new code at the **Description** field and then **press Tab** to advance to the **Entitlement Type** field.

At the **Entitlement Type** field, **click** on the **down arrow** button to display a listing of Entitlement Types.

Click on the desired **Entitlement Type** for the new code being added.

Click on the **OK** button to save your entries.

Deleting a code from the DPS Item Codes Table:

Using one of the filtering methods described above, **display** the **code** you wish to delete.

Maintain DPS Item Codes

Maintain DPS Item Codes

Entitlement Type

Code	Description	Entitlement Type
531A	Partial Dewery Weighing	Ship HHG 3rd Party

Click on the **code** that you wish to delete.

When the desired code is **highlighted** in blue, **click** on the **Delete** button. The following **message** will appear asking if you are **sure** you wish to **delete** the selected code.

IATS Notification

 Are you sure you wish to delete DPS Code NEW? Deletions cannot be undone.

Click on Yes or No as desired.

Maintaining Legal Fiscal Years

A **fiscal year** is the **accounting** year in which the **funds** allocated by the various government agencies are managed.

The **Maintain Legal Fiscal Years** screen is used to store and display the characters that represent the fiscal years used in processing travel entitlements. This table is already populated when **IATS** is **installed** and is automatically updated by the monthly per diem **rates** provided by Professional Software Consortium. On occasion, however, the Travel Supervisor may find it **necessary** to make changes or add a new character.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the left of the item **Accounting** and then **click** on the **Legal Fiscal Years Designatio** option.

Complete the following steps to "add" a new fiscal year character:
Click at the location within the **string** of characters where the new character belongs.
Type the new character and then **click** the **OK** button.

Complete the following steps to "delete" a fiscal year character:
Click within the **string** of characters to the left of the character you wish to delete.
Press the **Delete** key and then **click** the **OK** button.

Tip: Click the **Print** button for a **print-out** of the Legal Fiscal Years table.

Back-up the IATS Database

A **feature** has been added to the IATS **Maintenance** module that allows a user with **System Administrator** or **Super User** capabilities to **copy a back-up** of the IATS **database** to a specified location.

Note: To **access** the database back-up option, **change** the View to **Maintenance**. At the **Maintenance Main Menu** screen, **click** on the **Manual DataBase Backup** option.

 **Complete the following steps to "back-up" the IATS database:**

After selecting the option **Manual DataBase Backup** the following *pop-up* message will appear.

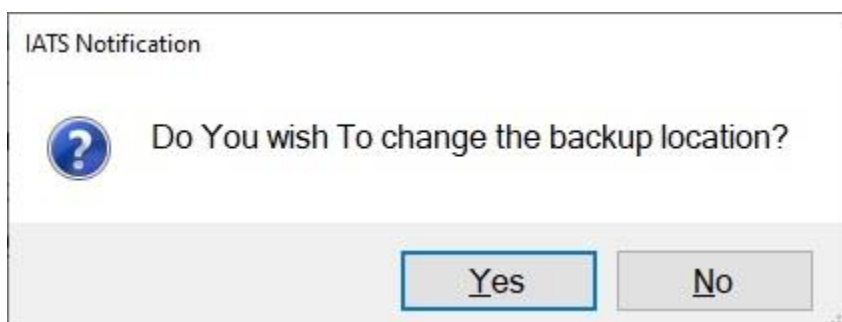

Note: When the above *pop-up* message appears, a default path and location of the IATS **database** and **back-up directory** is displayed. IATS users have the option, however to **change** the **path** and **location**, for the back-up file. In addition, IATS will create a **zip** file for the **winiats.log** file. The **name** of the zip file will be based upon the **date** and **time** the back-up was created. For example (**032420200413**). The log file must be **saved** for at least one year.

If you wish to continue, **click** on **OK**. The following *pop-up* message will appear

If you wish to **continue** and perform a back-up of the IATS database, **click** on Yes.

If you wish to **change** the **path** and **location** for the backup files, **click** on *No*. IATS will **display** the following *pop-up* message asking if you wish to **change** the backup **location**.

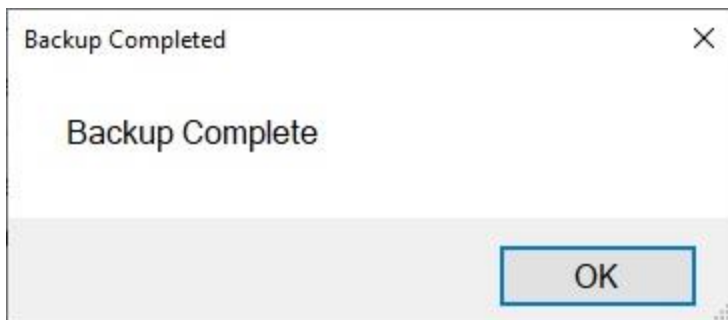

Click on Yes if you **do** wish to **change** the location.

If you **click** on Yes, IATS will display the **Browse For Folder** screen.

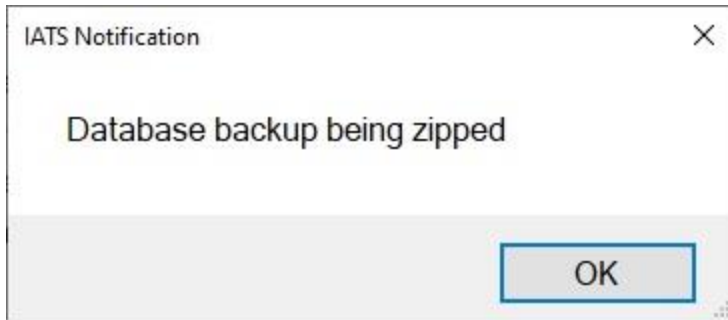

At the **Browse For Folder** screen, **select** the desired **path, location** and **folder** for the backup files and then **click** on **OK**.

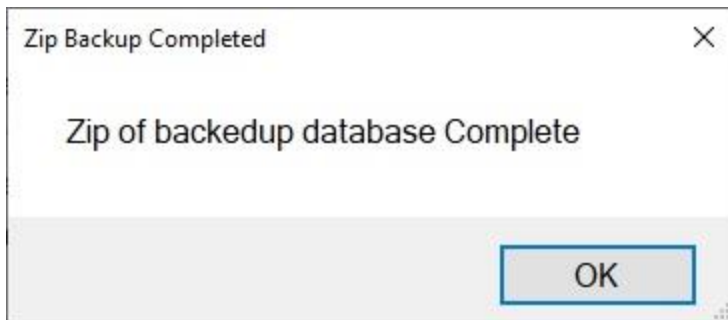

When the back-up is **complete**, the following *pop-up* **message** will **appear**:

Click on **OK**. IATS will **display** the following *pop-up* **message** indicating that the backup file is being **zipped**.

Click on OK. IATS will **display** the following *pop-up message* indicating that the **zip file** of the backup is complete.

Click on OK and IATS will **return** to the **Maintenance Main Menu** screen.

Maintaining the Automated DB Backup Info

A feature was added to IATS that allows travel offices to perform an automated **back-up** of their database. The **Automated Data Base Backup Info** screen is used to set-up the criteria.

Note: To **access** the automated database back-up option, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **Automated DataBase Backup** option.

Automated Data Base Backup Info

Backup Frequency: Weekly

Backup Day: Tuesday

Backup Start Time (24 hour clock): 2300

Complete the following steps to "set-up" the automatic database back-up criteria:

- Backup Frequency:** - Click on the *down arrow* button and then **click** on **Daily**, **Weekly**, or **Monthly**.
- Backup Day:** - Click on the *down arrow* button and then **click** on the desired **day**.
- Backup Start Time:** - **Enter** the backup **start time** using a **24 hour clock format**.
- Backup Location:** - If you wish to use the **default** backup location, **click** on **OK**. If not, **click** in the **Backup Location** field and **enter** the desired location.

Note: For **networked** environments where your IATS **database** is running on a **database server**, you must check with the **database administrator** for what **path to key in** when you **set up** the auto backup. The IATS **client** running on your **computer** will then **send** an **instruction** to the **database server** running (on that other computer) to tell it to **schedule** the backup task (to run on the database server).

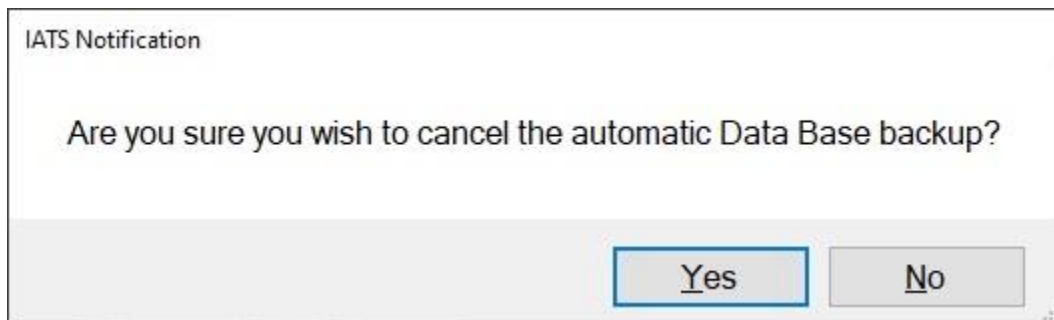

If you are **satisfied** with the **criteria** for the automated backup, **click** on the **OK** button. The following message appears.

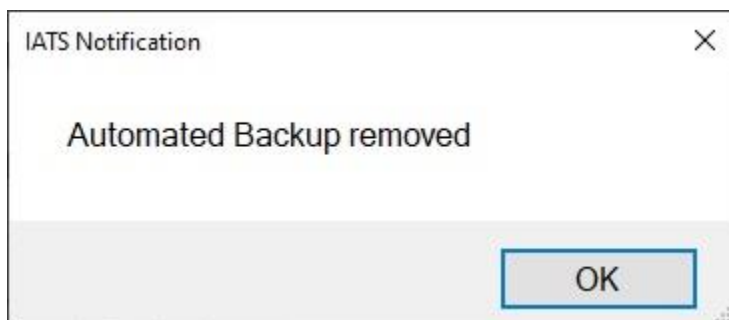

Click on **OK** to complete the set-up.

 **Complete the following steps to "remove" the automatic database back-up criteria:**

Click on the **Remove Auto Backup** button. IATS will **display** the following *pop-up* message:

Click on **Yes** to continue. IATS will **display** the following *pop-up* message:

Click on **OK** to continue.

Automated Data Base Backup Info

Backup Frequency: Weekly

Backup Day: Monday

Backup Start Time (24 hour clock):

Backup Location:

Remove Auto Backup

OK Cancel ? Help

You will **see** that the **Backup Start Time** and **Backup Location** information was **removed**.

Click on the **Cancel** button to **close** the **Automated Data Base Backup Info** screen and **return** to the **Maintenance Main Menu**.

Viewing the Database Back-up History

To determine **who** ran the **back-up** of an IATS database in a travel office that connects to multiple databases, a new feature was added to IATS to display the **history** of all of the back-ups that have been performed (for the last **25** users). This history displays the back-up **dates** and the **user-name** of the person who performed a back-up .

 **Complete the following steps to "view" the IATS database back-up history:**

Change the View to **Maintenance**.

At the **Maintenance Main Menu**, **click** on the **Database Backup History** option.

DataBase Backup History

Backup Date	User
3/24/2020	SYSTEM

Print

Purge

Exit

? Help

Click on the **Purge** button if you wish to **delete** this history.

Click on the **Print** button to generate a print-out of the history.

If you are finished, **click** on the **Exit** button.

Maintaining System Configuration

Immediately following the **installation** of IATS, the system **must be configured** before proceeding with any of the **initial** system **maintenance**. This process allows the customer to **personalize** the system by activating their required **accounting** structure and any **service unique features**. In addition, this process is also used to indicate whether the system should run in a **network**, or **stand-alone** mode.

The following **interfaces** to other systems and special **features** are **activated** from this screen:

- Interface to Disbursing systems
- Voucher Print File option
- Interface to the Payroll systems
- Stand-alone/Network switch
- Customer Identification
- RUC/Liaison Office Report feature
- Forced Audit Mode
- Automatic/Manual Block Ticket numbering switch
- Activating the DTOD Web Service switch

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the left of the item **Configuration/Base Parameters** and then **click** on the **Configuration** option.

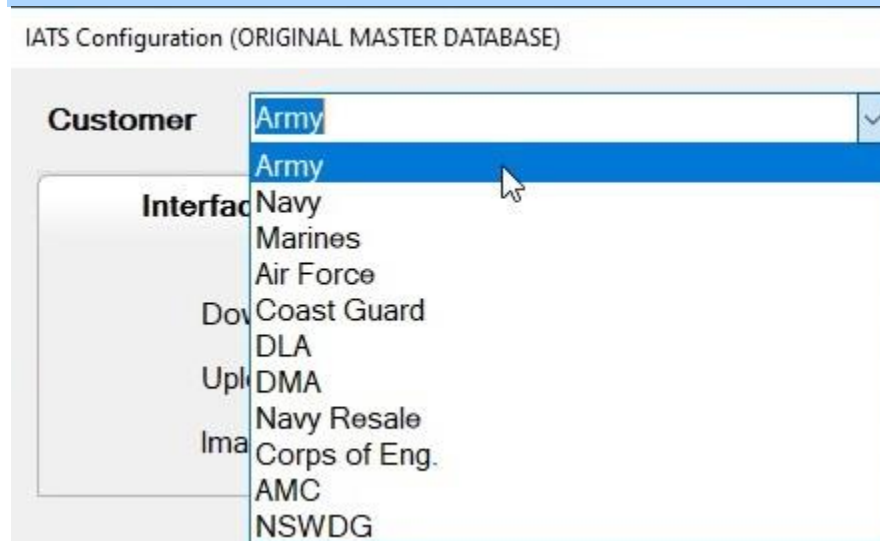

Because of the amount of **details** involved in **setting-up** the system **configuration** and the variety of IATS **customers**, the **instructions** for completing this screen will be covered in several related **topics**.

Click on the **See Also** button below and **select** the **topic** that provides detailed **instructions** for completing this screen.

Configuring the Customer

Immediately following the **installation** of IATS, the system **must be configured** before proceeding with any of the **initial** system **maintenance**. This process allows the customer to **personalize** the system by activating their required **accounting** structure and any **service unique features**.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters** and then **click** on the **Configuration** option.

 Complete the following steps to "configure" the customer field:

The **Customer** field is at the **very top** of the **IATS Configuration** screen. At this field, **click** the **down arrow** button. A **list** of the **possible** **IATS customers** is displayed.

Click on the desired customer **name** to make a **selection**.

Click on the **OK** button at the **bottom** of the screen to **save** your customer selection.

You must now **log out** of IATS and then **log back in** order for the customer **unique features** to be available.

Tip: **Click** on the **See Also** button **below** for additional **instructions** on configuring IATS.

Configuring the Interface File Directories

Immediately following the **installation** of IATS, the system **must be configured** before proceeding with any of the **initial** system **maintenance**. One of the items that **may** need to be configured, depending on organizational preference, is the location where files **downloaded** into IATS or **created** by IATS will reside. When IATS is **initially installed**, the **configuration** for these items are **subdirectories** named **DOWNLOAD** and **UPLOAD**.

Another subdirectory that must be configured is the **Image** directory.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters** and then **click** on the **Configuration** option.

Interface File Directories	T-PAXURLs	Misc. Settings
Download Directory	c:\DOWNLOAD	Browse
Upload Directory	c:\UPLOAD	Browse
Image Directory	C:\IMAGES	Browse

 Complete the following steps to "re-configure" the upload/download/image paths:

At the **Download**, **Upload**, or **Image Directory** field, **click** on the **Browse** button. The **Browse for Folder** screen appears.

Note: In the example above, the **default** value is the **(C:) drive**. **If** this is the **correct** path, **no action** is necessary. **If** this is **not** the correct path, **continue** with the following **steps**:

If the **correct drive** is displayed, **but a different folder** is desired, **click** on the displayed **drive letter** icon. A **list** of all of the associated **folders** on that drive appears.

If the **correct folder** is now **displayed**, **click** on that **folder** and then **click** on **OK** to make the selection.

You can also **click** on the **Make New Folder** button and **create** a new folder if desired.

If wishing to **change** drives, **click** on the *up* or *down* **arrow** buttons on the right side of the screen to **scroll** up or down the list of available drives. If the desired **drive** is now displayed, **click** on that **drive** to make a selection.

If a different drive was selected, but the correct **folder** needs to be selected, **repeat** steps **2** and **3** above until the correct **drive** and **folder** are selected.

When **satisfied** that the desired **paths** are selected, **click** the **OK** button to **save** the entries and **return** to the **System Configuration** screen.

Tip: **Click** on the **See Also** button below for additional **instructions** on configuring IATS.

Configuring the System Description

In the **System Description** section of the **Maintain System Configuration** screen, there are several options that may be **activated** in order to **customize** IATS for the particular agency.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters** and then **click** on the **Configuration** option.

Tip: To **activate** any of these features, **click** in the **box** next to the item or **press** the **space bar**. When a **check mark** appears in the box, the item is **activated**. If the item is already activated and you wish to **de-activate** the feature, **click** in the **box** or **press** the **space bar** to remove the **check mark**.

Following, is a description of each of these features:

Standalone: - Activate this feature if the PC IATS is being operated on is not connected to a network.

- DoD ID Required:** - If activated the IATS user will enter a **DoD ID number** into IATS to create the **travel account**. This ID number is used instead of a **social security number**. This is used by organizations that must protect **identities** for **security** reasons.
- Liaison Reports:** - This feature is primarily for **DLA**, and **Marine Corps** customers. If activated, IATS provides an input **screen** for the **Liaison**, or **RUC** offices. Input into this screen captures dates that IATS uses to generate a **tracking report**.
- Reservist Travel:** - **Click** in the **check box** to activate this option if you wish to process settlement claims for **reserve** travel. When this option is **activated** you will be able to **specify** a particular **status** for the reserve travel claim being processed.
- Reason for Delete:** - **Click** in the **check box** to **activate** this option if you wish to **generate** the **Deleted Traveler** and/or **Deleted Details Report**.
- RITA Office Aware:** - **Click** in the **check box** to **activate** this option if you have multiple **offices** and want the details for the **RITA** payment to be associated with a specific office.
- Prevalidate Accounting:** - **Click** in the **check box** to **activate** this option if you are an **Army** customer and wish **ensure** that the **APC** and **MDC codes** are **loaded** into the **accounting table** before a claim may be completed.
- Forced Audit:** - **Click** in the **check box** to **activate** this option if you wish to require the **Auditor** to **review** each **settlement request** in order to complete an **audit** and **release** the **block** for further processing.
- Prepayment Audit:** - Activate this feature if you wish to **generate** the **Prepayment Audit Report**.
- Post Audit:** - **Click** in the **check box** to activate this option if you wish to be able to generate the [Post Audit Summary Report](#).
- Validate CMET:** - This option is a feature for the **Navy** only. **Click** in the **check box** to activate this option if you wish to have the voucher examiners **validate** that the accounting citation for the claim being processed has been **loaded** into the **CMET table**.
- EFT Rejects:** - This field is only available for **Army** and **AMC** customers. If activated, EFT rejects will be **included** when the download file from the disbursing system is processed. **Click** in the **check box** to **remove** the **check mark** if you wish to have EFT rejects **eliminated** when the download file from the disbursing system is processed.
- Auto Delete Blocks:** - When IATS is installed this feature is automatically set to **active**. **Click** in the **check box** if you wish to **turn off** this option. When this feature is active, IATS will automatically **delete** all **blocks** that are **empty** or in a **completed** status.

Note: When using the **Auto Delete Blocks** feature (and your customer type is Navy), if the **current date** is **greater** than the date the last auto block delete was performed then IATS will display a message stating "All blocks completed more than 21 days ago will be automatically deleted. Do you wish To Archive the blocks before they are deleted?" If you answer Yes, IATS will display "Do you wish To print the file With all traveler SSN's masked (xxx-xx-1234)?" Answer Yes or No as desired. IATS will then **delete** the old blocks and **print** the **Travel Voucher Summary**.

- Email Completed Claims:** - **Click** in the **check box** to **activate** this option if you wish to have **IATS** automatically **e-mail** a copy of the completed **voucher** to the **traveler**. If this box is checked, (after the download has been processed and successfully posts **DOV** data to the traveler's detail record) IATS will automatically **e-mail** a copy of the voucher to the primary e-mail **address** in the traveler's **profile**.
- HHG DPS Interface Active:** - **Click** in the **check box** to **activate** this option if you wish use IATS to **import** the **DPS HHG Temporary Storage claims** (paid by the government) **file**.
- # Days User Suspended till Deleted:** - IATS user **accounts** will become **suspended** if the user's account has no activity for **30** days. IATS will automatically **delete** the user's account after the number of days shown at this field has passed. The **default** number of days is **15**. If you wish to change this number, **click** in the field and **type** the new value. **Note** that this value may not exceed **60** days.

- ReAssign Claims w/o Block List:** - Click in the **check box** to **activate** this option if you wish to **transfer requests** from one block to another **without** having IATS **display** a **list** of available **blocks** residing in the database.
- Return Reason is Mandatory:** - Click in the **check box** to **activate** this option if you wish to make it **mandatory** to enter a **reason** for **returning** a request.
- Prevent Old Version Login:** Click in the **check box** to **activate** this option if you wish to **prevent** IATS users from **logging into** IATS if the program is **not up to date**.
- Force Selection of Liaison Office:** - Click in the **check box** to **activate** this option if you wish to make it **mandatory** for users to **select** a **Liaison Office** from the **drop down list** on the **Workflow tab** when **logging** or **processing** claims.
- Audit All Claims in Profile Restriction:** - If activated and when using **Roles** rather than **Views** when **establishing** user **accounts**, and this option is checked, the only Roles that are allowed to check the option to **Audit All Claims** for a traveler on the **Traveler Profile** screen are the **Supervisor** and **Tax Accountant**.
- Allow Claims by Self:** - Activate this feature if your office **allows** users to **process** claims for themselves. If this option is **not** activated, you **must** enter the user's **SSN** at the **Passwords and Privileges** screen. IATS will then **prevent** a user from processing their own claim.
- Audit/Enter Same Claim:** - Click in the **check box** to **activate** this option if you wish to allow an IATS user to **enter** and also **audit** the **same claim**.
- Use OCR Font:** - Click in the **check box** to activate this option if you wish to have IATS use an **OCR font** when printing **vouchers** and collection **letters**.
- Payroll Office:** - Click in the **check box** to **activate** this option if you wish to **require** the user to **enter** a **payroll office code** when creating the travel order.
- Enable CAC:** - Click in the **check box** to activate this option if you wish to have WinIATS **require** the user to enter a Personal Identification Number (**PIN**) for their Common Access Card (**CAC**) upon login.
- Allow Dup. Login:** - Click in the **check box** to **disable** this option if you wish to have WinIATS generate a **pop-up** message advising a user to see a **System Administrator** for assistance. This option is designed for **networked environments** when **multiple** users are attempting to **login** to IATS with the **same user ID** and **Password**.
- Mass Mult. Travel:** - Click in the **check box** to activate this option if you wish to activate the **Mass Multiple Travelers** feature.
- HHG Calculator:** - Click in the **check box** to activate this option if you wish to use the **optional HHG Calculator** to compute the entitlement when processing claims for the **storage** of Household Goods. **Note** that when this option is **activated** you will see a **new** input **screen** for processing this type of claim. Once the **order** has been **created** you will **not** be able to use the **previous method** to process this type of claim **unless** you **de-activate** this option and **recreate** the travel order.
- Use ISO 3166 Codes:** - Click in the **check box** to **activate** this option if you wish for IATS to use **ISO 3166 Codes** for **country names** and their **subdivisions**.
- ID Reason for Suppl:** - If activated, IATS **prompts** the user to specify whether **purpose** for a **supplemental** claim was **DFAS** generated or **Traveler** generated. This prompt **appears** when a **supplemental** claim is being processed. This captured information is then used to generate the data for the **Reason for Supplemental** report.
- Change DBs:** - Click in the **check box** to activate this option if you wish to allow an IATS user to **switch** to **different databases** **without** having to **log out** of one database and **log back in** to a different one. This option will **only** work if the **username** and **password** are the **same** in **each database**.
- Cash Payment Allowed:** -Click in the **check box** to **activate** this option if your travel office wishes to select **cash** as a **payment option** for travel advance and settlement claims.
- Create Voucher Print File:** - This feature **creates** a **print job file** for **voucher(s)** **rather than** **sending** the **print job** to a **printer**. When this option **is active**, **all** of the **transactions** on a **block** must be **printed** **before** the block may be **deleted**. To activate this feature, **click** in the **box** next to this item. When a **check mark** **appears** in the box, the feature is **activated**.

Use Roles: - Click in the **check box** to **activate** this option if you wish for IATS to use **Roles** rather than **Views** when **establishing** user **accounts**. Roles are established with a set of pre-determined **privileges** which ensures a more precise **segregation of duties**

ODS Secure Upload Active: - Click in the **check box** to **activate** this option if you wish to use IATS to **generate** secure upload **files** for the Operational Data Store (**ODS**).

Allow DTOD Override: - Click in the **check box** to **activate** this option if you wish to **override** the DTOD **mileage** that is automatically populated by IATS when you are entering a travel itinerary.

Note: For travel offices that do not have the **DTOD** program **installed** and also do not use the **DTOD Web Service**, the **Allow DTOD Override** option must be checked in order for IATS to correctly compute POV mileage.

Activate DTOD Web Service: - Click in the **check box** to **activate** this option if you wish to use the **DTOD Web Site** to **obtain** official distances rather than using the DTOD mileage **tables** that are **embedded** into IATS.

Enable Safeguards: Click in the **check box** to **activate** this option if you wish to **turn on** the **Tax Reporting Safeguards** feature.

Scrub Disbursing Uploads: - Click in the **check box** to **activate** this option if you wish to have IATS **scrub** the disbursing **upload file** to **blank out** sensitive information for certain IATS customers.

Allow Auditor Remarks: - Click in the **check box** to **activate** this option if you wish to allow **Auditors** to be able to add or update **remarks** to the **voucher** or the **history record** without having to first **return** the claim to the examiner or **release** the claim.

Use DMDC Web API: - Click in the **check box** to **activate** this option if you wish to be able to **connect** to the **DMDC website** to **download** and **import** a return **file** containing **DoDIDs**. Activating this option **enables** the **Import From DMDC** option to **appear** on the **System Administrator View** screen.

Tip: Click on the **See Also** button below for additional **instructions** on configuring IATS.

Configuring the System Interfaces

Because of the various customers that use IATS and the differences in associated **disbursing** and **accounting** systems, an **Interface** section was developed to allow user to **configure** IATS for their specific operations.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the left of the item **Configuration/Base Parameters** and then **click** on the **Configuration** option.

Inbound and Outbound Interfaces

Disbursing Interface

1000 Char Remarks

Expanded MCTFS

Payroll Interface Active

SV File Code

Note: Ensure that the **Customer** field at the top of the **Maintain System Configuration** screen displays your organization **before** proceeding with the following steps:

 Complete the following steps to "configure" the Interface options:

Disbursing Interface: - Click the *down arrow* to display a **list** of the various disbursing system interface **options** for your organization and then **click** on the desired **option** to make a selection. IATS will then **create** a **file** in the correct **format** that can be **uploaded** to the selected **disbursing system** to disburse the payments.

SLOA: - A new change to the layout of the interface file has been developed to accommodate **SLOA**. This new layout must be **coordinated** with other systems, however. When all systems are coordinated, you must **click** on the *down arrow* and **change** the option from **w/o SLOA** to **with SLOA**.

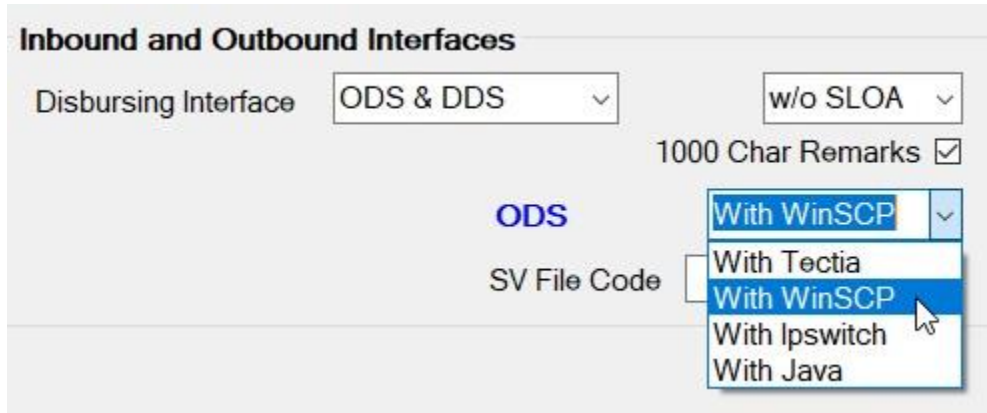

Payroll Interface Active: - This field is used by all customers that will process a download **file** from the **Military Pay System**. This file is used to automatically **populate** the travel **accounts** with the Electronic Funds Transfer (**EFT**) data residing in the pay system. If this feature is not activated, IATS will not allow **access** to this **option** on the **System Administrator Menu**. To **activate** this feature, **click** in the **box** next to the item. When a **check mark** appears in the box, the feature is **activated**.

1000 Char Remarks: - **Click** in the **box** next to this item if you wish to **activate** this feature. When a **check mark** appears in the box, the feature is **activated**. Activating this option will allow up to **1000** characters for **remarks** in **record 7** of the disbursing **upload file** for the disbursing systems **ODS, ADS, DDS**.

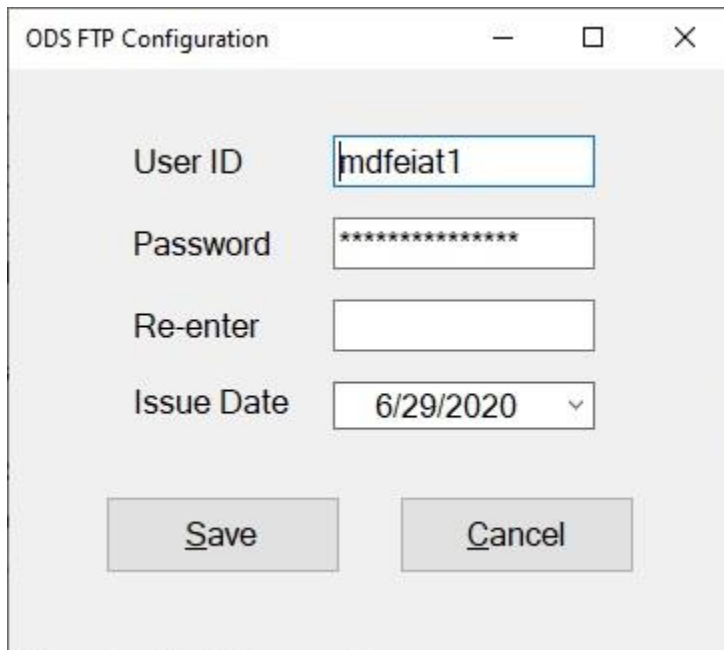

Expanded MCTFS: - For **Marine Corps** travel offices only, a new change to the layout of the MCTIR interface file has been developed. This new layout must be **coordinated** with other systems, however. When all systems are coordinated, you must **click** in the **check box** to **activate** this feature and **change** the option from **w/o 520** to **with 520**.

ODS Interface: - If the **ODS Secure Upload Active** option was selected when the **System Description** was configured, you will see the word **ODS** (highlighted in blue) in the **Inbound and Outbound Interfaces** section as shown above. In the field next to these words, **click** on the *down arrow* to display a **list** of **FTP** options and then **click** on the desired option.

SV File Code: If the **license** has been **installed** to your database to enable the **importing** of **Smart Vouchers**, you will see the SV File Code field. Users **must enter** the **code** into this field for the **type of file allowed** to be imported. For example, if you are importing files into a **Civilian Relocation** database you should enter the letter **(C)** in the SV Code field to **only allow filenames beginning with** the letter **(C)** to be imported. If you were importing files into a MILPCS database you would enter the letter **(M)** and for a **TDY** database you would enter the letter **(T)**. This will **prevent** the **wrong type** of files **from being imported** and **having to be deleted**.

After selecting the desired FTP option, **click** on the word **ODS**. The **ODS FTP Configuration** screen will appear.

The **user ID** and **password** for the selected FTP option will be **already populated**.

Re-enter: - At the Re-enter field, **type** your **password** to **confirm** it.

Issue Date: - Verify your issue date and change the date if necessary. If needed, enter the new date in **MMDDYY** format or **click** on the **down arrow** button and use the **calendar** to select the new date.

After you have re-entered your password and changed the date (if applicable), **click** on the **Save** button.

TPS Interface: - If the IATS web service **license** is **installed** and the web service has been **activated**, you will see the option **Is TPS Interface Active** with a **check mark** in the check box indicating that the web service option is **active**.

Tip: Click on the **See Also** button below for additional **instructions** on configuring IATS.

Configuring Block Numbering

IATS allows users to either manually create block numbers or the system will create them automatically if the feature is activated.

Note: To access this screen, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the left of the item **Configuration/Base Parameters** and then click on the **Configuration** option.

Blocking

Blocking

Blocking Number Assigned Manual

Skeleton

Next Available

Days Before Block Deletion

Note: When IATS is initially installed, the default configuration for block numbering is **Manually**. Users may change this option to **Automatically**, however, by completing the following steps.

Complete the following steps to "activate" automatic block numbering:

Blocking Number Assigned: - Click the *down* arrow button at this field and then click on **Automatic**.

Skeleton: - If **Automatic** was selected at the **Blocking Number Assigned** field, click on the *down* arrow button to **select** a **skeleton** for the first several **characters** of the block number. A *drop down* listing appears displaying the following choices:

- **YYMMDD####:** - Clicking on this option will **generate** a block **number** using two characters for the current **year**, two characters for the current **month**, two characters for the current **day**, and the **next available number**.
- **YYMDD#####:** - Clicking on this option will **generate** a block **number** using two characters for the current **year**, one character for the current **month**, two characters for the current **day**, and the **next available number**.

Note: When using the **YYMDD#####**, skeleton, the **character** for the **month** must be an **alpha** character as follows: Jan = **A**, Feb = **B**, Mar = **C**, etc.

- **#####:** - Clicking on this option will **generate** a block **number** using ten numeric characters beginning with the number entered at the **Next Available** field. To begin block numbers with the number (1), zero fill the remaining spaces. For example; (**000000001**).

Next Available: - The IATS user must enter the beginning block **sequence number** in this field, to include the **skeleton** selected in step (2) above. The entire field must be **populated** when the input is made. If wishing to start block numbering with the number (1) the skeleton, "YYMMDD####" was selected, and the current date is **23 June, 2016**, the entry at the **Next Available** field would be as follows: (**1606230001**).

Days Before Block Deletion: - IATS will automatically delete all **blocks** that are **empty** or in a **completed** status. The IATS user must specify, however, the **number of days** after the block(s)

have been placed in this **status** that the automatic deletion will occur. **Click** in this field and **enter** the desired **number** of days before automatic deletion of blocks will occur.

Tip: Click on the **See Also** button below for additional **instructions** on configuring IATS.

Configuring the Automatic Deletion of Blocks

If this option is activated, IATS will automatically delete all **blocks** that are **empty** or in a **completed** status. The IATS user must specify, however, the **number of days after** the block(s) have been placed in this **status** that the automatic deletion will occur.

Refer to the **Help** topic "[Configuring the System Description](#)" for additional information on **activating** or **deactivating** the **Auto Delete Blocks** option.

 **Complete the following steps to "specify" the number of days before automatic block deletion will occur:**

Note: To access this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the left of the item **Configuration/Base Parameters** and then **click** on the **Configuration** option.

Blocking	
Blocking	<input checked="" type="checkbox"/>
Blocking Number Assigned	Manual
Skeleton	
Next Available	
# Days Before Block Deletion	10

On the right hand side of the **Maintain System Configuration** screen, you will notice a section titled **Blocking**.

Click in the **# Days Before Block Deletion** field and **enter** the desired **number** of days before automatic deletion of blocks will occur.

Note: For **organizations** that have multiple **offices**, the **number** entered for **Office One** will apply to all of the **other** offices.

When you are **satisfied** with the number you have entered, **click** on the **OK** button to **save** your entry.

Maintaining the Base Description

After the IATS program is installed, some **initial system maintenance** must be performed **prior** to **processing** any advance or settlement requests on the system. This process is an **extension** of the **initial system configuration**, but **cannot** be performed until the **initial system configuration** is **completed**, and IATS has been re-started. The initial system maintenance process allows the user to **personalize** the system even further by setting various parameters, and populating a variety of tables.

At the **Maintain Base Description** screen, the user **must** enter the **information** pertaining to the **Finance Office** processing, or disbursing the travel payments.

Note: For **Air Force** customers, **click** on the **link** ([Maintaining the Air Force Base Description](#)) for **instructions** pertaining to Air Force requirements.

Enter the System ID.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters** and then **click** on the **Base Description** option.

 **Complete the following steps to "configure" the Base Description:**

Office:

System ID: - The input at this field is used to **identify** the IATS **system** used to compute the travel payment. This is used when **importing** and **exporting** payments **between** IATS **systems**.

System ID numbers must be established by the Finance Office. If using this feature **enter** the designated **System ID** number, or simply **press Tab** to continue.

Government Book Number: - At this field, **type** the **Government Book Number** issued by the organization providing the **Government Charge Card**. This number identifies the **installation responsible** for the program and is included in the transaction whenever a **split payment** is processed.

Name of Finance Officer: - At this field, **type** the **name** of the **Finance Officer** responsible for **disbursing** the travel payment.

DSSN of Finance Office: - At this field, **type** the Disbursing Station Symbol Number (**DSSN**) for the **Finance Office** **disbursing** the travel payment.

DSSN ITR: - At this field, **type** the **DSSN** for the **Finance Office** **computing** the travel payment if different than the office disbursing the payment.

ODS Parameters:

Disb Region 1: - Enter the **code** for **Disbursing Region 1** and **press Tab** to continue.

WCD # 1: - Enter the **code** for **Work Center Designator #1** and **press Tab** to continue.

WCD # 2: - Enter the **code** for **Work Center Designator #2** and **press Tab** to continue.

WCD # 3: - Enter the **code** for **Work Center Designator #3** and **press Tab** to continue.

Disb Region 2: - Enter the **code** for **Disbursing Region 2**, if applicable, and **press Tab** to continue.

Repeat steps 2 - 4 to enter the Work Center Designator codes for Disbursing Region 2 if applicable.

Brief Block/Paid Stamp:

Lines 1-5: - At this section, **type** the **address** and **other** desired **information** pertaining to the Finance Office disbursing the travel payments. This information will appear in the top right corner of the **printed IATS Travel Voucher**.

When **finished** making the required entries at this screen, **click** on the **OK** button to **save** the entries and **return** to the **Maintenance Main Menu** screen.

Tip: Generate a **print-out** of the **Base Description** by **clicking** on the **Print** button.

Maintaining Office Locations

IATS contains a feature that will allow organizations to operate with one centralized database having multiple travel **offices**.

Each travel office must have a unique **Office Code** and **Office Description**.

When IATS is initially installed, the Maintain Office Locations table will contain one office "**Office One**" as shown below. The Maintain Office Locations screen is used to **add** additional offices as needed.

Each office will have their own **unique** configurations and will be **responsible** for creating/processing their own **uploads** and **downloads**. In addition, each office will create their own **blocks, print vouchers, generate reports**, and **maintain** their **suspense** file. **Collection Letters** and all other functions that are unique to a particular **DSSN ITR** will also be **maintained** by the individual travel office.

Note: New travel offices may only be added to the Maintain Office Locations table by individuals using the **System** user name. In addition, the **System** user account must have the privilege "**Multi-Office User**" assigned.

If you are **finished** using the Maintain Office Locations screen, **click** on **OK** to **save** your changes.

 **Complete the following steps to "delete" an office from the Maintain Office Locations table:**

Note: When **deleting** an office IATS will **check** to see if there are any **claims, details, or users** assigned to the office. **If there are none**, IATS will proceed to **delete** the **office** and all **associated Maintenance tables**. **If claims exist**, IATS will **display** a **message** stating that the claims **must be moved** to another office. IATS will also **display** a **list** of other **offices** with the **same type** of customer type **configuration** and allow the user to **select** the office the claims will be moved to. IATS will then **check** to see if there are **completed blocks** existing in the office being deleted. **If so**, IATS will **display** a **message** asking the user if they wish to **delete** the blocks or **move** them to the new office. IATS will **also**

compare the **users** that have **access** the office **being deleted** to the **users** that have **access** to the new office. If the user has access to both, IATS will **delete privileges** to the office being deleted. If the user only has **access** to the office being deleted, IATS will **move** the user's table entry from the locationid **from** the office being deleted **to** the new office and **mark** the account **deleted**

Click on the **travel office** you wish to **delete** listed in the **grid** under the heading **Official Travel Offices**.

When the desired office is highlighted, **click** on the **Delete** button. IATS will **display** the following *pop-up* **message**.

Click on **Yes** to **continue**.

The selected office will be removed from the grid.

If you are **finished** using the Maintain Office Locations screen, **click** on **OK** to **save** your changes.

Maintaining Travel Office Organizations

IATS contains a feature that will **allow** organizations to **operate** with one centralized database having multiple travel offices.

Each travel office must have a unique Organization Code and **Organization Description**.

When IATS is initially installed, the Maintain Travel Office Organizations table will contain one office "**ORG**" as shown below. The Maintain Travel Office Organizations screen is used to **add** additional offices as needed.

Each office will have their own **unique** configurations and will be **responsible** for creating/processing their own **uploads** and **downloads**. In addition, each office will create their own **blocks**, **print vouchers**, **generate reports**, and **maintain** their **suspense** file. **Collection Letters** and all other functions that are unique to a particular **DSSN ITR** will also be **maintained** by the individual travel office.

Note: New organizations may only be added to the Maintain Travel Office Organizations table by individuals using the **System** user name or having **Super User** capabilities. In addition, the user must have the privilege "**Modify Maintenance Tables**" assigned to their individual user account.

Maintain Travel Office Organizations

User ID: SYSTEM

Add New Organization

Organization Code: Organization Description:

Official Travel Office Organizations

Organization Code	Organization Description
ORG	Default Organization
DFAS-ROME	ROME-NY
DFAS-NAVY	NEW LONDON

Note: To access this screen, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the **left** of the item **Configuration/Base Parameters** and then click on the **Official Travel Office Organizations** option.

 Complete the following steps to "add" a new organization to the Maintain Travel Office Organizations table:

Organization Code: - At this field **type** the unique **organization code** for the new organization you are adding and **press Tab**. The code **may** be up to **16 characters**.

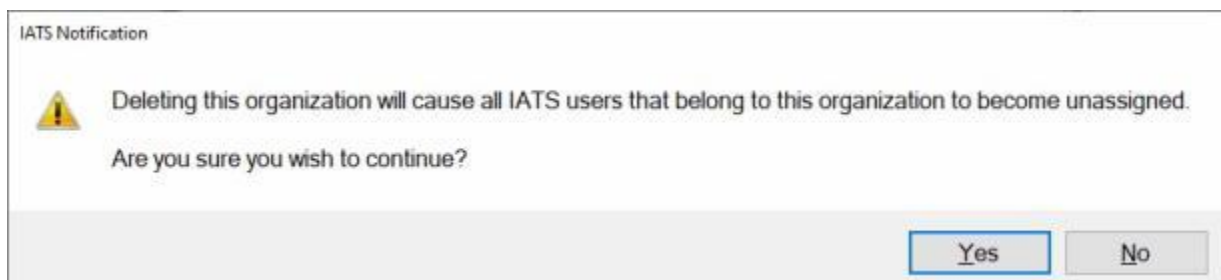

Organization Description: - At this field **type** the unique **organization description** for the new organization you are adding and **press Tab**. The description **may** be up to **32 characters**.

Click on the **Add** button.

 **Complete the following steps to "delete" an organization from the Maintain Travel Office Organizations table:**

Click on the organization **code** you wish to delete.

When the desired code is highlighted, **click** the **Delete** button. The following *pop-up message* will appear **warning** that deleting this organization will cause all IATS users affiliated with this organization to become **unassigned**.

Click on *Yes* or *No* to continue.

Click on **OK** to save your entries.

Maintaining the Email for IATS Configuration

The **Email for IATS** feature is used to send **correspondence** or **contact** the traveler via an **Email message**. It is also used to **attach** the traveler's processed **voucher** to the traveler's Email address and be **sent** to the traveler.

The **configuration** must be **set-up** first, however, to determine what **server** and port number is used by the organization for **sending** and **receiving** Email.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters** and then **click** on the **plus sign** to the **left** of the item **Email Configuration**. **Click** on the **Email Configuration** option.

Complete the following steps to "enter" the Email configuration:

Note: The **information** shown on the example input screens are for **illustration only**. The **actual entries** **must comply** with your organization's format **requirements**.

Enable Email Service: - **Click** in the **check box** at this option to **activate** the Email service.

SMTP Server: - At this field, **enter** the **SMTP server information** for **sending** Email and **press Tab**.

SMTP Server / Port: - At this field, **enter** the **SMTP server port number** for **sending** Email and **press Tab**.

Return Email Address: - At this field, **enter** the sender's **information** for **receiving** Email and **press Tab**.

Authentication User Name: - At this field, **enter** the sender's **Authentication User Name** and **press Tab**.

Authentication Password: - At this field, **enter** the sender's **Authentication Password** and **press Tab**.

Enable SSL: - For **DFAS** users, leave this box **un-checked**.

Use Default Credentials: - For **DFAS** users, leave this box **un-checked**.

Click on OK to **save** your entries.

Note: IATS has been **modified** to now allow a user to use the **IATS Email** feature through **Google Mail** (gmail).

 **Complete the following steps to "enter" the Email configuration for gmail:**

Email Configuration

Enable Email Service

SMTP Server / Port smtp.googlemail.com 587

Return Email Address john.doe@gmail.com

Authentication User Name john.doe

Authentication Password mypassword

Advance Options

Enable SSL Use Default Credentials

Test OK Cancel ? Help

Select to enable or disable email notification for IATS.

Enable Email Service: - **Click** in the **check box** at this option to **activate** the Email service.

SMTP Server: - At this field, **enter** the **SMTP server information** for **sending** gmail and **press Tab**.

SMTP Server / Port: - At this field, **enter** the **SMTP server port number (587)** for **sending** gmail and **press Tab**.

Return Email Address: - At this field, **enter** the sender's **information** for **receiving** gmail and **press Tab**.

Authentication User Name: - At this field, **enter** the sender's **Authentication User Name** and **press Tab**.

Authentication Password: - At this field, **enter** the sender's **Authentication Password** and **press Tab**.

Enable SSL: - **Click** in the **check box** to **activate** this option if you are establishing a **gmail** configuration.

Use Default Credentials: - **Click** in the **check box** to **activate** this option if you are establishing a **gmail** configuration.

Click on **OK** to **save** your entries.

 **Complete the following steps to "test" the Email configuration:**

Click on the **Test** button. The **Email Configuration** screen will re-appear allowing you to **enter** the **information** needed to send a **test** message.

The screenshot shows the 'Email Configuration' dialog box. The 'Test Email Configuration' section is highlighted with a light blue border. It contains three input fields: 'To:' with the value 'john.doe@dfas.mil', 'Subject:' with the value 'Test', and 'Message:' with the value 'This is a test John. Let me know if you receive it.'. Below these fields are two buttons: 'Send' and 'Cancel Test'. The 'Advance Options' section is also visible, containing two unchecked checkboxes: 'Enable SSL' and 'Use Default Credentials'. At the bottom of the dialog are four buttons: 'Test', 'OK', 'Cancel', and '? Help'.

To: - At the **To** field, **enter** the test recipient's email **address**.

Subject: At the **Subject** field, **enter** a **subject** for the message.

Message: At the **Message** field, **enter** your desired **text** for the test message.

Enable SSL: - **Click** in the **check box** to **activate** this option if you are establishing a **gmail** configuration. If not, leave it **unchecked**.

Use Default Credentials: - **Click** in the **check box** to **activate** this option if you are establishing a **gmail** configuration. If not, leave it **unchecked**

After entering the required information, **click** on the **Send** button.

Maintaining the Email Notification List

A **new feature** was added to require IATS to **utilize** the first login of the day to **trigger** an auto-generated daily **email message** notifying chosen recipients of the following account events:

- Account(s) that have been **inactive** for **23 days** or more
- Account(s) that have been **suspended** after **30 days** of **inactivity**
- Account(s) that have been **deleted** after **45 days** of **inactivity**
- Priviled Account(s) **changes**

The **IATS Email Notification List** screen is used to **establish** the **chosen recipients** for the daily email message.

IATS Email Notification List

Email Notification List

Name	Email
NUMBER ONE	NUMBERONE@DFAS.MIL
NUMBER TWO	NUMBERTWO@DFAS.MIL
NUMBER THREE	NUMBERTHREE@DFAS.MIL
NUMBER FOUR	NUMBERFOUR@DFAS.MIL
*	

Print OK Cancel ? Help

Click the OK button to save changes made.

Note: To access this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the **left** of the item **Configuration/Base Parameters** and then click on the **plus sign** to the **left** of the item **Email Configuration**. Click on the **System Admin Notifications** option.

 Complete the following steps to "populate" the Email Notification List screen:

Name: - **Click** in the **Name** field and **enter** the **name** for the recipient.

Press *Tab* to advance to the **Email** field.

Email: At the **Email** field, **enter** the **email address** for the recipient.

When you have **finished** entering recipients, **click** on the **OK** button to **save** your entries.

Edit Email Message

IATS creates an Email **message** that **accompanies** each **claim** that was sent by email. This default message generated by IATS may be **edited**.

Note: To **access** this screen, **login** to the IATS **Maintenance** module, **click** on the **plus sign** to the left of the item **Configuration/Base Parameters**. **Click** on the **plus sign** to the left of the item **Email Configuration** and then **click** on the option **Edit Email Message**.

 **Complete the following steps to "edit" the IATS generated Email message:**

At the **Message Number** field, **click** on the *down arrow* button to display a **list** of message numbers (that represents the **situation** of the voucher) and then **click** on your desired choice.

When the correct message is displayed, **click** in the **text box** and **type** your desired changes.

Click on **OK** to save your changes.

If you wish to create return messages that are more **cosmetically robust** refer to the **Help** topic, "[Creating HTML Enhanced Email Messages](#)", for additional **instructions**.

Creating HTML Enhanced Email Messages

IATS creates an Email **message** that **accompanies** each **claim** that was sent by email. This default message generated by IATS may be **edited**.

A **feature** was added to IATS that will allow you to **create** a message using an Hyper Text Markup Language (**HTML**) editor program and then **copy** and **paste** it into the **Email Message Editor** screen.

The **purpose** for this feature is to give travel offices the ability to generate email letters, that are sent out to the traveler, that are more **cosmetically robust**.

Using an **HTML editor program** to **create** the messages gives you **control** over **font sizes, colors, etc.**

 **Complete the following steps to "create" HTML enhanced Email messages:**

Create your desired **email message** using an **HTML editor** program as shown below.

```
Travel Order Number: |TONO|<br />
Travel Dates: |BEGINDATE| - |ENDDATE| <br />
<p>We are unable to pay your Travel Claim at this time due to the reason(s) listed at the bottom of this communication. In order to have your Claim prioritized upon resubmittal with all corrections, please follow these instructions:</p>
<ul>
<li>Make ALL corrections to your Claim as indicated.</li>
<li>Resubmit the entire Claim with corrections to include DD Form 1351-2, Orders (include all pages and Amendments) and any/all additional documentation by attaching it as a single electronic file to an email and emailing to: <a href="Caution-mailto:dfas.rome.jft.mbx.civrel-priority@mail.mil">dfas.rome.jft.mbx.civrel-priority@mail.mil</a></li>
<li>Put your name and the word "CORRECTION" in the Subject Line of the email.</li>
</ul>
<p>For a detailed checklists and online support for completing your Travel Claim, visit our website at: <a href="Caution-http://www.dfas.mil">Caution-http://www.dfas.mil</a></p>

<p>Reason(s) for Return of Claim:</p>
```

After you have created the HTML message, **copy** the **text** as shown above.

Access the **Email Message Editor** screen.

Email Message Editor

Message Number: Returned Requests

Your claim, order number [TONO], submitted for reimbursement of travel expenses incurred between [BEGINDATE] and [ENDDATE] was returned for the following reason(s):

OK Cancel ? Help

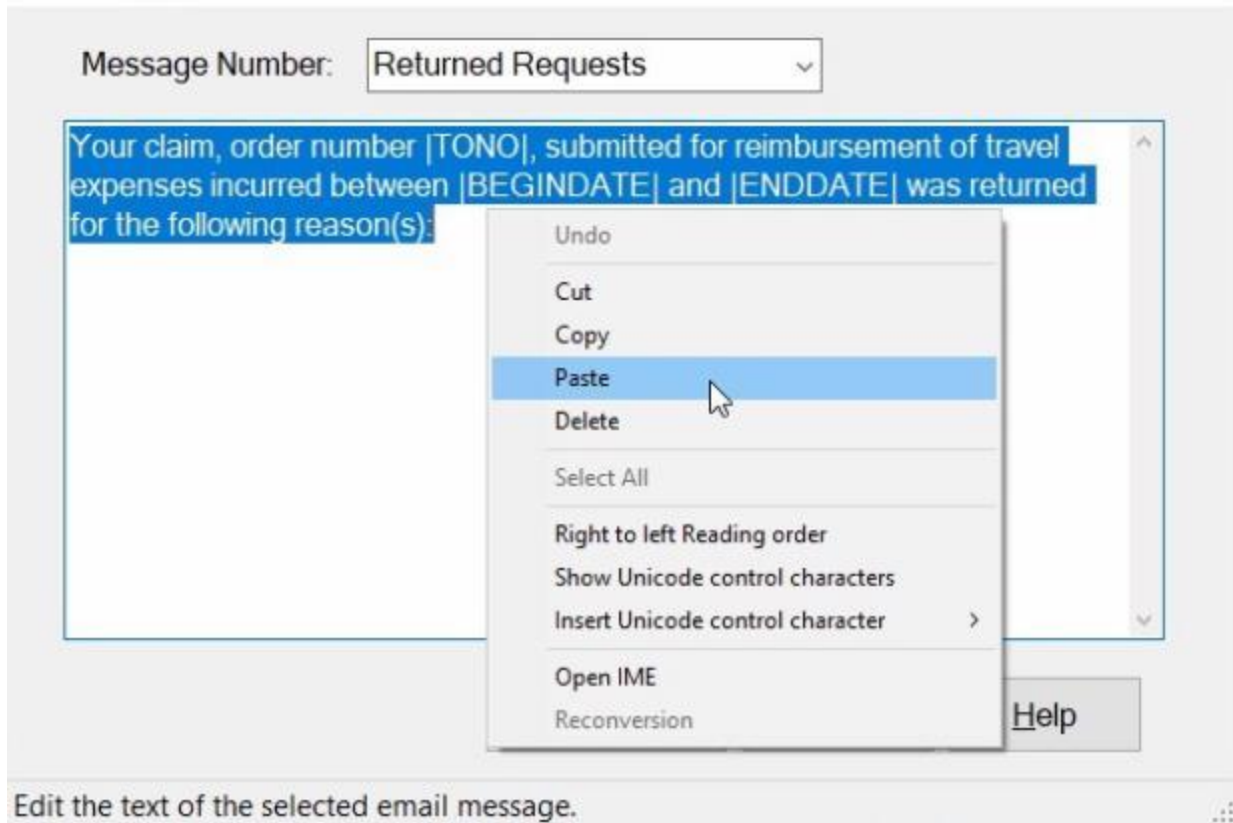

Edit the text of the selected email message.

Note: To access this screen, login to the IATS Maintenance module, click on the plus sign to the left of the item **Configuration/Base Parameters**. Click on the plus sign to the left of the item **Email Configuration** and then click on the option **Edit Email Message**.

At the **Message Number** field, click on the *down arrow* button to display a **list** of message numbers (that represents the **situation** of the voucher) and then **click** on your desired choice.

After you have selected the email message that you wish to enhance with the HTML text, **place** your **mouse pointer** inside of the **text box** and then **right click**.

Email Message Editor

Click on the **Paste** option from the *pop-up menu*. IATS will **replace** the existing email message with the **HTML text** that you **copied** and **pasted**.

Email Message Editor

Message Number: Returned Requests

|NAME|,
Your claim, order number |TONO|, submitted for reimbursement of travel expenses incurred between |BEGINDATE| and |ENDDATE| was returned for the following reason(s):

 Reason(s) from Return of Claim:

|RETURNVOUCHERITEMS|

|RETURNVOUCHERREMARKS|

|VOUCHERREMARKS|

OK Cancel ? Help

Edit the text of the selected email message.

Note: IATS will **look** at the message template to see if there is anything in it that looks like **HTML**. In particular it's looking for a **paragraph tag, <p>**. If it sees that tag in the message template then it tells the windows **email library** to **mark** the email messages as **HTML** as it is sent.

As shown in the screen image above, some new codes were **added** that can be **imbedded** into the **Returned Requests letter** that will **display** some additional remarks in the letter. **Following** is a **list** of these new codes with an **explanation** for each:

|RETURNVOUCHERITEMS| - This code pulls in the Reason for Return **messages** that are **loaded** into the **Reasons for Return table** in Maintenance and **selected** at the **Return Voucher screen** when you are returning a request..

|RETURNVOUCHERREMARKS| - This code pulls in the **freehand** remarks **entered** on the **Return Voucher screen** when you are returning a request.

|VOUCHERREMARKS| - This code pulls in the **freehand** remarks **entered** at the **Remarks** tab on the **Settlement Request screen**.

Click on the **OK** button to **save** your changes when you are **finished** using the **Email Message Editor** screen.

Activating the IATS Web Service

The **IATS Web Service** option is used to interface **Data Flow** from Travel Pay System (**TPS**) into IATS. The **IATS Web Service Configuration** screen is used to **activate** this option.

The screenshot shows a dialog box titled "IATS Web Service Configuration". It contains a checked checkbox labeled "Activate IATS Web Service". Below this are two text input fields: "Web Service Password:" and "Verify Password:". At the bottom of the dialog are three buttons: "OK", "Cancel", and "? Help". A status bar at the bottom of the dialog contains the text "Enter the password to be used by the web service to connect to the database" followed by a small icon.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters** and then **click** on the option **Web Service Activation and Configuration**.

-  **Complete the following steps to "configure" the IATS Web Service Configuration screen:**
- Activate IATS Web Service:** **Click** in this **check box** to **activate** the service. A **check mark** indicates that the service is **active**.
 - Web Service Password:** - At the **Web Service Password** field, **enter** your Web Service **password**.
 - Verify Password:** - At the **Verify Password** field, **re-enter** your Web Service **password**.
After **entering** and **verifying** your password, **click** on the **OK** button.

Maintaining the Certification Statement

The **Maintain Certification Statement** screen is used to add **remarks** that print-out on the IATS Travel Voucher. The use of this feature is **optional**, but is a good way to provide **information** to **customers**. IATS users may enter **eight, 32 character, lines** of **remarks** at this screen.

▶ WE CERTIFY THAT YOUR CLAIM HAS BEEN REVIEWED FOR ACCURACY.

Print OK Cancel ? Help

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters** and then **click** on the **Certification Statement** option.

Complete the following steps to "complete" the Certification Statement:

Type the desired **remark** at the **first line** and **press Tab**.

Continue typing the desired **remarks** on **each line** as needed and **press Tab** to continue.

When **finished** typing the remarks, **click** on the **OK** button to **save** the entries and **return** to the **Maintenance Main Menu**.

Tip: Generate a **print-out** of the **Certification Statement** by **clicking** on the **Print** button.

Maintaining RUC-Liaison Offices

To assist managers in determining where **delays** in travel claims processing occur, IATS generates the Reporting Unit Code (RUC) Report for **Marine Corps** travel offices. For **Army/DLA** travel offices, this report is named the **Liaison Office** Report.

The purpose of this report is to **track** the number of **days** required to move a claim through the processing cycle. Because claims processed by these organizations are often routed through liaison offices, IATS tracks their movement from the date signed until the date disbursed. In order to use this report, the **parameter** for **Liaison Reports** at the **System Configuration** screen in **Maintenance** must be **activated**.

After activating the Liaison Reports option, the user must **access** the **Maintain Liaison Offices** screen and **establish** a RUC/Liaison **office**.

Maintain RUC/Liaison Offices

User: SYSTEM

RUC/Liaison Offices

Delete Insert

Print **OK** Cancel ? Help

Enter RUC/Liaison Office ID number. ⋮

Note: To access this screen, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the left of the item **Configuration/Base Parameters** and then click on the **RUC/Liaison Offices** option.

 **Complete the following steps to "establish" a RUC/Liaison office:**

Click on the **Insert** button. A blank line appears at the top of the grid.

At the **No.** field, **type the number** for the new RUC/Liaison **office** being created and **press Tab**.

At the **Name** field, **type the name** for the new RUC/Liaison **office** being created and **press Tab**.

When **finished** adding the new RUC/Liaison office **click** on the **OK** button to **save** the entry.

 **Complete the following steps to "delete" a RUC/Liaison office:**

Determine which office you wish to delete and then **click** in the **box** to the left of the desired number. IATS **highlights** the line.

When the desired item is highlighted, **click** the **Delete** button. A pop-up message appears asking if you are **sure** you wish to delete the selected office. **Click** on **Yes**. IATS deletes the selected item.

When finished, **click** on the **OK** button to **save** the changes and **return** to the **Maintenance Main Menu**.

Tip: Generate a **print-out** of the **RUC/Liaison offices** by **clicking** on the **Print** button.

Updating Rates and Locations

Each month the **Per Diem Travel and Transportation Allowances Committee** releases a **listing** of the **CONUS** and **OCONUS per diem rates, locality codes**, and various other **rates**, which are used to compute travel entitlements for DoD travelers.

The IATS **contractor** reformats the per diem rates listing to IATS specifications and **distributes** these **new rates** and **codes** to every travel **office** that is a IATS customer. This **disk** is then **installed** into IATS and automatically **updates** the per diem **rates** and any other **tables** used to calculate travel entitlements.

Note: Occasionally, some IATS customers encounter an **error** when using IATS due to **permissions**. There are internal **grants** within the IATS program that allow **access** to various **tables** that store rates, localities, accounting codes, etc. If your office encounters a permissions error, **click** on the **Set Table Permissions** button located in the bottom left hand corner of the Update Rates and Locations screen. This will **install** the **grants** needed to **access** the various tables.

 **Complete the following steps to "update" the rates and locations tables:**

Change the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the left of the item **Configuration/Base Parameters** and then **click** on the **Update All Rates/Locations** option.

The **Update Rates and Locations** screen appears.

Update Rates and Locations

Show update-files in directory:

Updates completed within the last days Delete history of updates completed before:

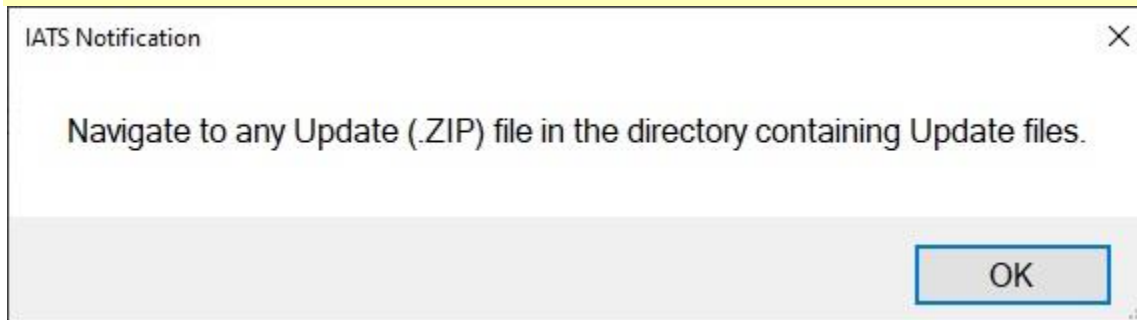

Update Date	ID	Official Date	Requires	Comment	Num Operations
10/30/2020 09:58:26	309	10/30/2020	309	Update printform etc	24376
10/30/2020 09:57:40	309	10/01/2020	309	Update MDC	110
10/27/2020 13:31:35	309	09/30/2020	308	Rates Update 309 - October 2020	4211
10/27/2020 13:28:10	308	08/30/2020	307	Update 308 rates update for Oracle	6

Available update-files:

File	ID	Official Date	Requires	Comment	Num Operations
update310_Nov0120(MSQL).zip	310	11/01/2020	309	Rates Update 310 - November 2020	3182

Show update-files in directory: - At this field, IATS displays the **path** and **directory** for the last update **file** that was processed. If the **correct** path and directory is displayed, **no action** is **necessary**.

Tip: If you need to **change** to a different directory, **click** on the **Browse** button. The following *pop-up* appears.

Click on the **OK** button and use the **Browse For Folder** screen to **navigate** to the desired directory.

Updates completed within the last XX days: - The **default** value at this field is **60** days. All updates that have been processed within the last 60 days are listed. If you would like to see what updates have been **processed** for a different period, **click** in the **number** field and **type** a new number. You would then **click** on the **Change Num Days** button.

Delete history of updates completed before: - The **default** date at this field is the **current date**. If you would like to delete the history of updates before a different date, **click** in the **date** field and **type** a new date in MMDDYY format. You can also **click** on the **down arrow** button and use the **calendar** to select the date.

You would then **click** on the **Delete history of updates completed before:** button.

Available update-files: - At this field, IATS **displays** the **name** of any new update **files**, in the **directory** specified in step (3) above. **Click** on the **file** you wish to process to highlight the **filename**. When the desired **file** is highlighted, **click** on the following **button**:

Update the rates/locations using the Selected File

A *pop-up* appears **explaining** the **purpose** of the update **file** and **asks** if you wish to proceed. **Click** on the **Yes** button. IATS **processes** the **file** and **displays** a *pop-up* indicating that the process is **finished**.

Click on the **OK** button.

Set Table Permissions: See the note above regarding the **use** of the **Set Table Permissions** button.

When **finished** processing the update files, **click** on the **Done** button to **return** to the **Maintenance Main Menu** screen.

Merge Databases

The **Database Merge** screen is used to **merge** various IATS **databases** into one **database**. This is a common **occurrence** when a travel **office** is **closed** and the **data** is **transferred** to a different **office**.

IATS Database Merge

The Master database will be updated to include the data coming from the Secondary database.
You must have ODBC entries for both databases. Use the ODBC Manager to create them.
You must also select a Primary Location to Merge Into.

Secondary Database: IATS-7.2.1

Primary Database: IATS-Army-8.0

Select Base

Merge Cancel Merge Exit ? Help

Select which DataBases to Merge _then select which Base in the Primary Database to Merge the data into

Refer to the **instructions** in the IATS **Installation Manual** for **help** on using this procedure.

Note: This procedure can be **complicated** and it is **highly advised** that you **contact** the IATS **help desk** office at **DFAS-IN** for assistance. The **contact** information for the IATS help desk can be found in the monthly newsletter "**The IATS Flyer**" that is enclosed in the package with the **monthly per diem updates**.

Temporarily Access the IATS Database

On occasion it may be necessary for a **System Administrator** to **access** the IATS **database** and **run** a **process** to make a correction. **Access** to the IATS database is **highly restricted**, but **can be granted** on a **temporary** bases. **Access** is **granted** through the use of a **key code** that can **only** be **obtained** from the **IATS Technical Support Office** at DFAS-IN.

Note: A **back-up** of the IATS database **should be performed** **before accessing** the IATS **database** and **performing** any **modifications**.

 **Complete the following steps to "access" the IATS database:**
Contact the **IATS Technical Support Office** at DFAS-IN and **obtain** an **Activation Key Code**.
Login to the IATS **Maintenance** module, **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters**. An **expandable menu** appears listing the various options.
Click on the **Allow Temporary Database Access** option. The **Allow Temporary DB Access** screen appears.

At this screen, type the **Activation Key Code**, obtained from the **IATS Technical Support Office**, at the **Activation Key** field.

After entering the Activation Key Code, **click** on the **OK** button. A *pop-up* appears **indicating** that temporary **access** has been **created** and also **displays** the user's **ID** and **password**.

Click on the **OK** button to continue. IATS **returns** to the **Maintenance Main Menu** screen.

At the Maintenance Main Menu screen, **click** on the **Done** button to **exit** the Maintenance module.

After exiting Maintenance, **click** on the **Exit** button to **close** IATS.

After closing IATS, **launch** the Sybase **ISQL** program.

The **Connect to SQL Anywhere** screen appears.

User ID: - At this field, **type** the temporary **User ID** displayed on the *pop-up* that appeared after entering the Activation Key Code as demonstrated in step (5) above.

Password: - At this field, **type** the temporary **Password** displayed on the *pop-up* that appeared after entering the Activation Key Code as demonstrated in step (5) above.

Action: - At this field, **click** on the *down arrow* button and then **select** the **method** you need to connect to the database.

Server Name: Depending on the option you chose for connecting to the database, you may need to enter the file server name.

Database Name: Depending on the option you chose for connecting to the database, you may need to enter the database name.

After **completing** all of the required entries, **click** on the **OK** button. The **Interactive SQL** screen appears.

When this screen appears, the **cursor** is positioned in the **Command** section. In this section, **type** the **SQL command** for the process you wish to execute.

After you have entered the SQL command, **click** on the **Execute** button.

Note: Contact the **IATS Technical Support Office** at DFAS-IN if additional **assistance** is needed.

Maintaining Holidays

The IATS Maintenance Module includes a table of **US Federal Holidays**. Holidays are considered to be non-duty days. Civilian **employees** may be **entitled** to **per diem** when **leave** is **taken** on a non-duty day. For this reason, IATS uses the **Holiday Schedule** table to determine whether a **leave day** was also a **non-duty day**.

 Complete the following steps to "maintain" the Holiday Schedule:

Change the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the left of the item **Configuration/Base Parameters**. An expandable menu appears listing the various options.

Click on the **Holiday Schedule** option. The **Holiday Maintenance** screen appears.

Holiday Maintenance

Delete Holiday

Print OK Cancel ? Help

 Complete the following steps to "add a holiday" the Holiday Schedule:

Enter the **date** of the holiday in **MMDDYY** format at the **date field** to the left of the **Add Holiday** button. You can also **click** on the *down arrow* button and use the **calendar** to select the date.

After you have entered the date, **click** on the **Add Holiday** button. IATS will add the new date in the grid listing the holidays.

If you are **finished** using the Holiday Maintenance screen, **click** on the **OK** button to **return** to the **Maintenance Main Menu**.

 **Complete the following steps to "delete a holiday" the Holiday Schedule:**

Click in the **column** to the left of the **date** you wish to delete. IATS will **highlight** the date in **blue** as shown in the image above.

When you have selected the desired date, **click** on the **Delete Holiday** button.

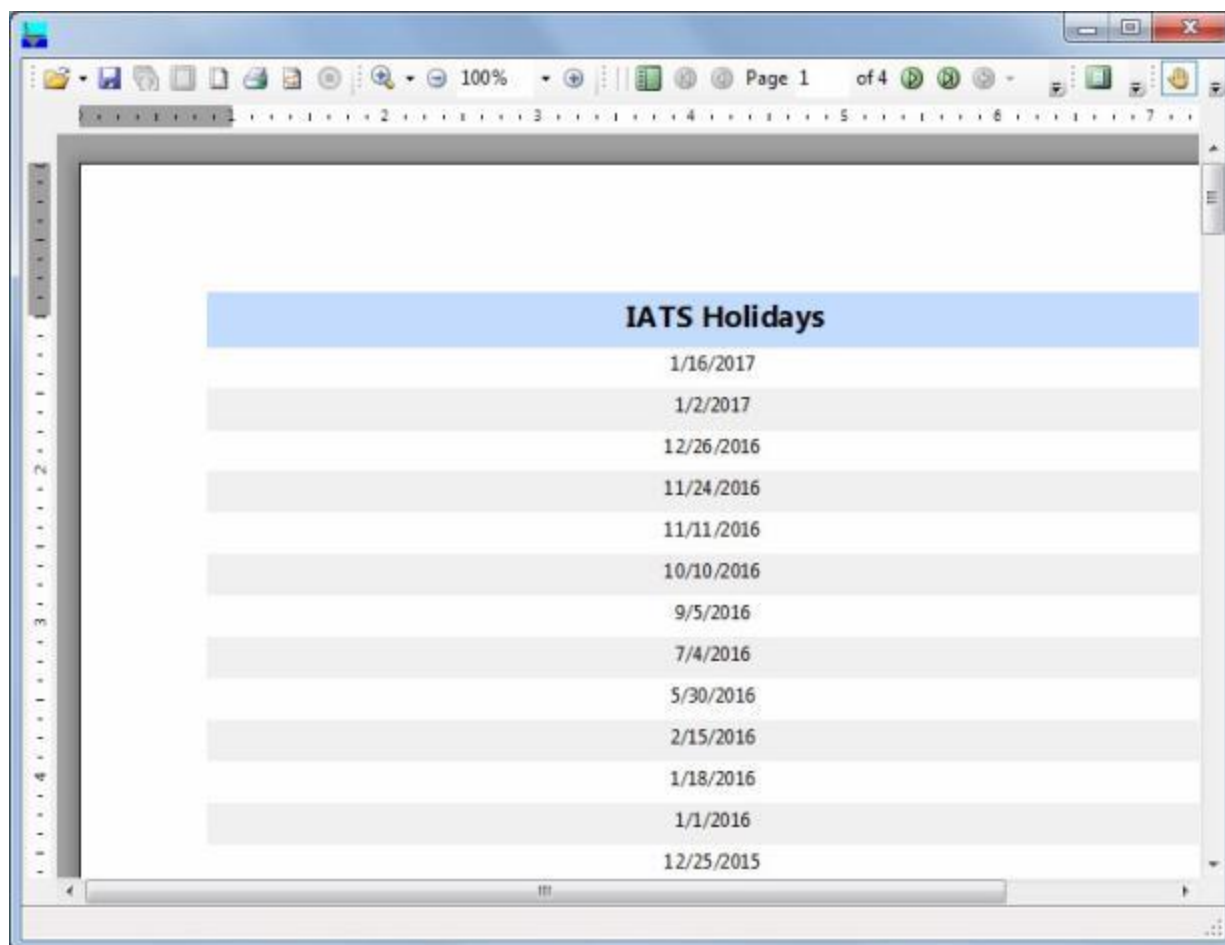

A *pop-up message* appears asking if you are **sure** you wish to delete the selected date. **Click** on **Yes**.

IATS **deletes** the selected **date** from the Holiday Schedule.

If you are **finished** using the Holiday Maintenance screen, **click** on the **OK** button to **return** to the **Maintenance Main Menu**.

 **Complete the following steps to "print" the Holiday Schedule:**

Click on the **Print** button to generate a printed listing of the Holiday Schedule. The following screen will appear.

Click on the **printer icon** on the **toolbar** at the top of the screen. The **Print** screen will appear.

At the Print screen **select** the desired **printer**, the **number of copies** and then **click** on the **Print** button.

Click on the **red X** button at the top right corner of the screen displaying the holidays schedule to **close** the screen.

If you are **finished** using the Holiday Maintenance screen, **click** on the **OK** button to **return** to the **Maintenance Main Menu**.

Create User Passwords and Privileges

In order to use IATS, the user must **login** with a unique **User ID** and **Password** created by the **System Administrator**. This ensures that only individuals with the proper **authority** may use IATS to generate travel payments.

Password Requirements:

- Passwords must be **case sensitive**
- At least **8** characters must be **changed** to be valid
- You cannot change your password to a password that was previously used during the last **12** months or the last **10** passwords used
- Passwords must be a minimum of a **15-character** mix of **upper case letters**, **lower case letters**, **numbers**, and **special characters** (i. e. @, #,\$,%,&,!).
- A **15-character** password consists of the following:
 - At least two lower case letters.
 - At least two upper case letters.
 - At least two numbers.
 - At least two special characters.

In addition, the System Administrator must **determine** the user's **role** within the travel office and **assign** a **view** and the associated **privileges** that are necessary for the required duties.

Maintain HHGStateCounty Rates - ScreenNote: A user account may only be **created** by a user logging in with the username **System** or a user with **Super User** capabilities.

-  **Complete the following steps to "create" a user account and "assign" privileges:**
- Change the View to Maintenance.** At the **Maintenance Main Menu**, click on the **plus sign** to the left of the item **Configuration/Base Parameters**. An expandable menu appears listing the various options.
- Click** on the **User Passwords and Privileges** option. The **Maintain User Passwords and Privileges** screen appears.

At this screen, **click** on the **New** button. The following *pop-up message* will appear:

DDForm 2875 Notice

Is the DDForm 2875 signed?

If the **DDForm 2875** has been **signed** by the user, **click** on Yes to continue. If not, **click** on No. The following *pop-up message* will appear:

DDForm 2875 Notice

The new user must sign the DD Form 2875 which should be available locally to your office.

After you have a **signed** copy of the **DDForm 2875** you may now go back to step (3) to continue creating the new user's account.

- User ID:** - At this field, **type** the desired **User ID** and **press Tab**. A **User ID** may consist of either alpha or numeric characters and can be from **(1 to 12)** characters in length.
- SSN:** - At this field, you must type the user's **SSN** if the option, **(Allow Claims By Self)**, at the System Configuration screen in the Maintenance module is **un-checked**. Otherwise, the SSN field is **optional** if your office allows the users to process claims for themselves.
- CAC/Employee ID:** - This field is only available when **CAC is disabled** on the **Maintain System Configuration** screen. When CAC is disabled, the **System Administrator** has the opportunity, using this field, to enter **(0-30)** characters which are stored **encrypted** in the database. This data may be used by certain specialized **interfaces** in place of the **IATS User Name** and **SSN** to identify IATS users.
- Name:** - The **Name** field consists of three input **fields**. In the first field, **type** the user's **last name** and **press Tab**. In the second field, **type** the user's **first name** and **press Tab**. In the last field, **type** the user's **middle initial**, if applicable, and **press Tab**.
- eMail:** - An **email** field was added to the **Maintain User Passwords and Privileges** screen in order to have IATS automatically notify users when their user **accounts** have gone **inactive/suspended** after **30** and **45** days respectively. This field is **optional**. If you wish to use this feature, however, **enter** the user's email address and **press Tab** to continue.
- View:** - At this field, **click** the **down arrow** button to display a **list** of the possible **View** options or **press** the **Up/Dn arrow** keys on the keyboard to **scroll** through the list. **Click** on the desired **View** or **press Tab** on a highlighted **View option** to make a selection.
- Initials:** - At this field, **type** the user's **initials** and **press Tab**.
- Audit:** - **Click** in the box next to the word **Audit**, if you wish for IATS to **flag every settlement** processed by this user for **audit**. IATS places a **check mark** in this box to **indicate** the **option is activated**. This is a good idea for **new** users.
- % (Percentage):** - If you have **activated** the **Audit** option for the user, **click** on the **down arrow** to display a **list** of percentages. **Click** on the desired percentage of claims you wish to have flagged for audit.
- Office Location:** - The default value at the Office Location field is **"Original Master Database"**. If you are using the **Centralized Database** feature with multiple travel offices, **click** on the **Down arrow** button and then **click** on the travel **office** that the new user is assigned to.
- Organization:** - When **creating** a new user account or **modifying** an existing user account, you may select a specific organization for the user. **Click** on the **Down arrow** button. A **drop down listing** of travel office **organizations** that have been entered into the [Maintain Travel Office Organizations table](#) will appear. **Click** on the travel **office** organization the user is assigned to.
- Is Active:** - **Click** in the **check box** next to this label if the selected office is an **active** office in your database that the user is allowed to switch to.
- Is Default:** - **Click** in the **check box** next to this label if the selected office is the **default** office that user will be connected to after logging into IATS.
- Login:** - At this field, **type** the user's login **password** and **press Tab**.
- Re-enter:** - Re-enter the password you just entered at the **Login** field to ensure **accuracy**.
- Confirmation:** - **Repeat** steps **21** and **22** to enter the **Confirmation Password**.
- Privilege:** - In the **Privilege** section, a **listing** of available privileges appears depending on the selection made at the View field. The **System Administrator** must determine the user's **role** within the travel office and **assign** the associated **privileges** that are necessary for the user's required duties. Privileges can be assigned using the following two methods:
- **Method 1:** - **Click** in the **box** to the right of the privilege **description**. IATS places a **check mark** in this box to **indicate** the **option is activated**.
 - **Method 2:** - **Click** on the **All Privileges** button if the user will perform all of the **functions** associated with the assigned **View**.

Tip: Selected **privileges** can be un-selected by **clicking** in the **box** under the heading **Apply** to the right of the privilege **description** or by **clicking** on the **No Privileges** button. IATS will remove the check mark.

After assigning the desired privileges, **click** on the **Save** button.

When **finished** using this screen, **click** the **Exit** button to **return** to the **Maintenance Main Menu**.

Click on the **See All** button below for additional instructions pertaining to maintaining user accounts.

Modify User Passwords and Privileges

In order to use IATS, the user must **login** with a unique **User ID** and **Password** created by the **System Administrator**. This ensures that only individuals with the proper **authority** may use IATS to generate travel payments.

In addition, the **System Administrator** must **determine** the user's **role** within the travel office and **assign** a **View** and the associated **privileges** that are necessary for the required duties.

 Complete the following steps to "modify" a user account or privileges:

Change the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the left of the item **Configuration/Base Parameters**. An expandable menu appears listing the various options.

Click on the **User Passwords and Privileges** option. The **Maintain User Passwords and Privileges** screen appears.

Select User: On the left side of the screen is a **listing** of all of the user **accounts** existing in the database.

Tip: If your office has numerous user **accounts**, you can quickly find the user account you wish to select by typing the user's **last name** in the **Quick Find** field.

Click on the **username** you wish to **modify** and then **click** on the **Select** button. The user's **information** will **appear** in the input fields on the right side of the screen.

Once the user's information appears, **click** in the **field** you wish to modify and **enter** the desired **change**.

IATS 8.7.1 User Guide

When **finished** making the required changes, **click** on the **Save** button to save the changes.

When **finished** using this screen, **click** the **Exit** button to **return** to the **Maintenance Main Menu**.

Click on the **See All** button below for additional instructions pertaining to maintaining user accounts.

Assigning Role Administrators

A new feature was added to IATS that allows travel offices to **establish** user **accounts** using **Roles** rather than **Views**. Roles are established with a set of pre-determined **privileges** which ensures a more precise **segregation of duties**.

The **Assign Role Administrators** screen is used to **grant** the **privilege** to certain IATS users to **assign** and **define** the roles for the IATS users in the office.

 Complete the following steps to "assign" Role Administrators:

Login to the IATS **Maintenance** module and **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters**. An expandable menu appears listing the various options.

Click on the **Assign Role Administrators** option. The **Roles Maintenance** screen appears.

When you are **finished** assigning roles, **click** on the *Exit* button to close the screen.

Click on the **See All** button below for additional instructions pertaining to maintaining user accounts.

Defining Roles

A feature was added to IATS that allows travel offices to **establish** user **accounts** using **Roles** rather than **Views**. Roles are established with a set of pre-determined **privileges** which ensures a more precise **segregation** of **duties**.

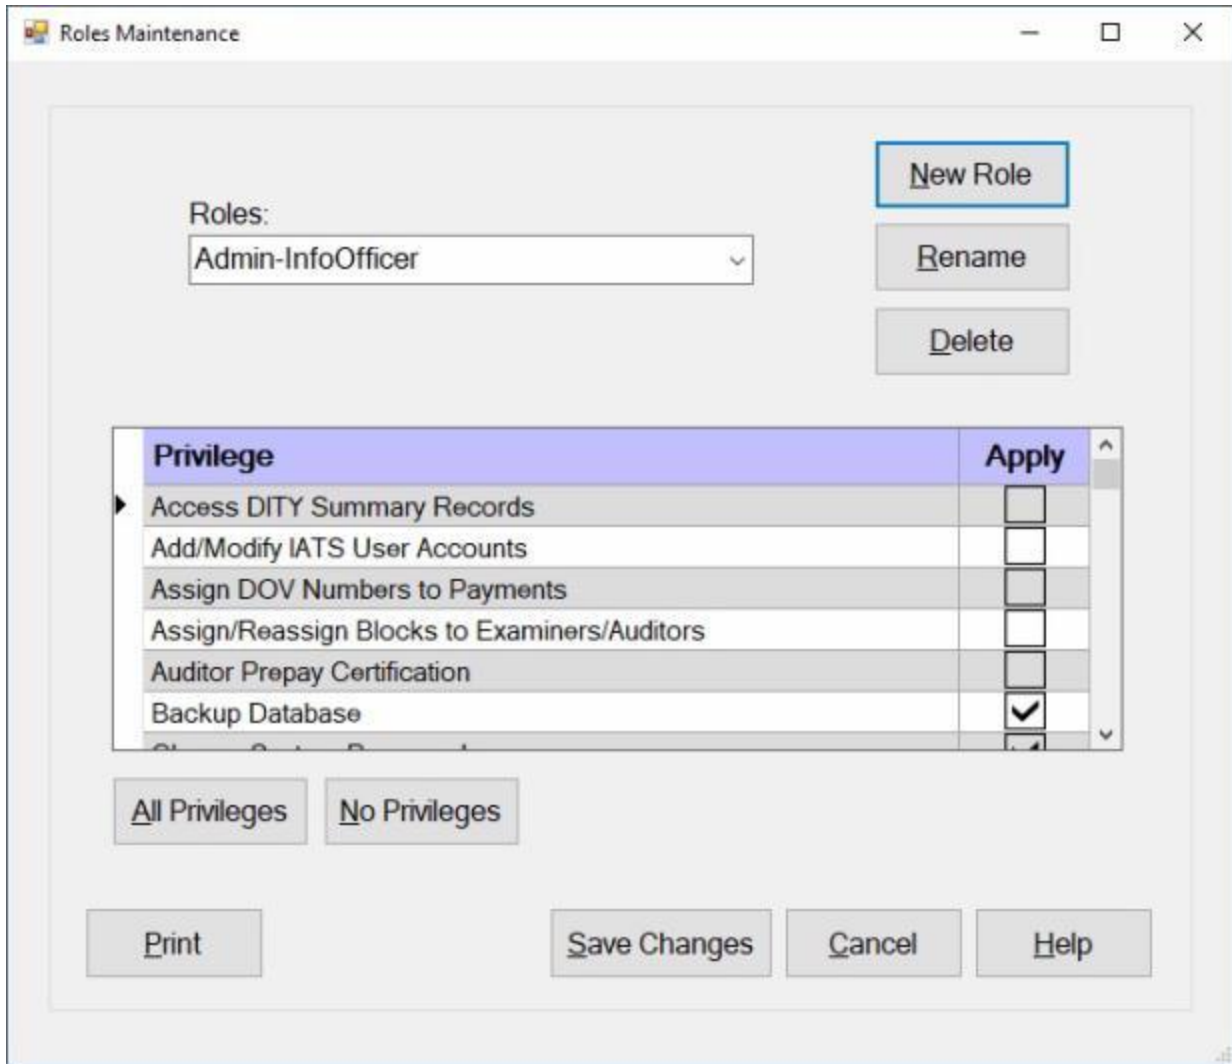

The **Roles Maintenance** screen is used to **establish** the **privileges** to perform various IATS **functions** for each particular Role.

Note: In order to use the **Define Roles** feature, you must first **obtain** a **temporary access key code** and then use the [Allow Temporary Database Access](#) feature in IATS to access the database to **activate** the **Define Roles** feature.

 **Complete the following steps to "define" Roles:**

Login to the IATS **Maintenance** module and **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters**. An expandable **menu** appears listing the various options.

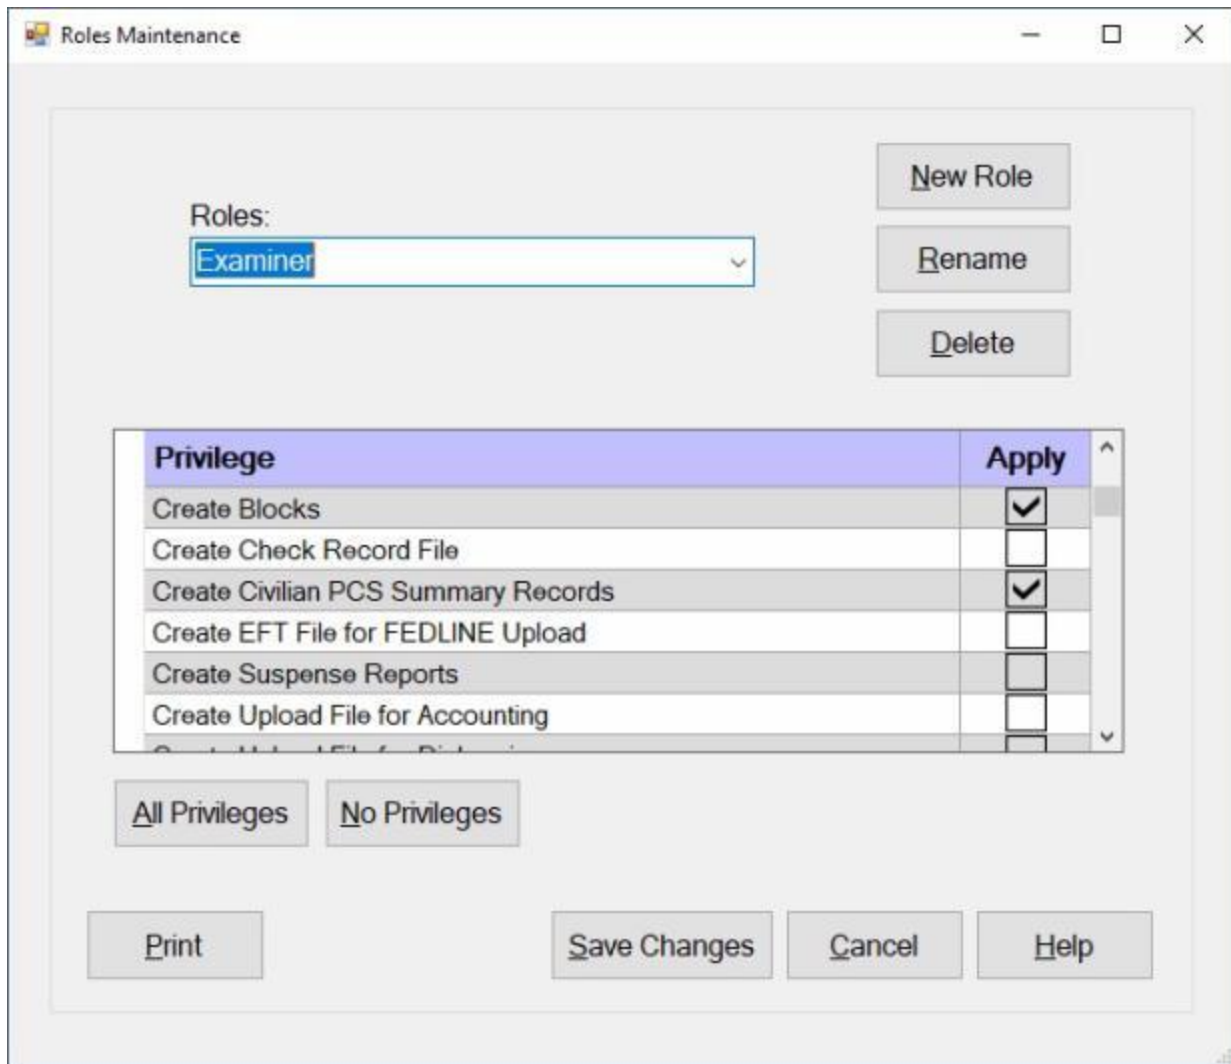

After gaining **Temporary Access** to the database, **click** on the **Define Roles** option. The **Roles Maintenance** screen appears.

Roles: - At the **Roles** section, **click** on the *down arrow* button. IATS will display a **listing** of various roles.

Click on the **Role** you wish to select.

Privileges: - At the **Privileges** section, you will see a **listing** of **privileges** for performing various IATS functions. You can **scroll** through the list by **pressing** the *Up/Dn arrow* keys on your keyboard or **click** on the *Up/Dn arrow* buttons on the right side of the grid.

If you wish to **add** a privilege, **click** in the **check box** in the **Apply** column for the desired privilege.

If you wish to **delete** a pre-existing privilege, **double-click** in the **check box** in the **Apply** column for the desired privilege.

All Privileges: - **Click** on the **All Privileges** button if you wish to grant **all** of the listed privileges to the selected Role.

No Privileges: - **Click** on the **No Privileges** button if you wish to **remove** all of the previously granted privileges to the selected Role.

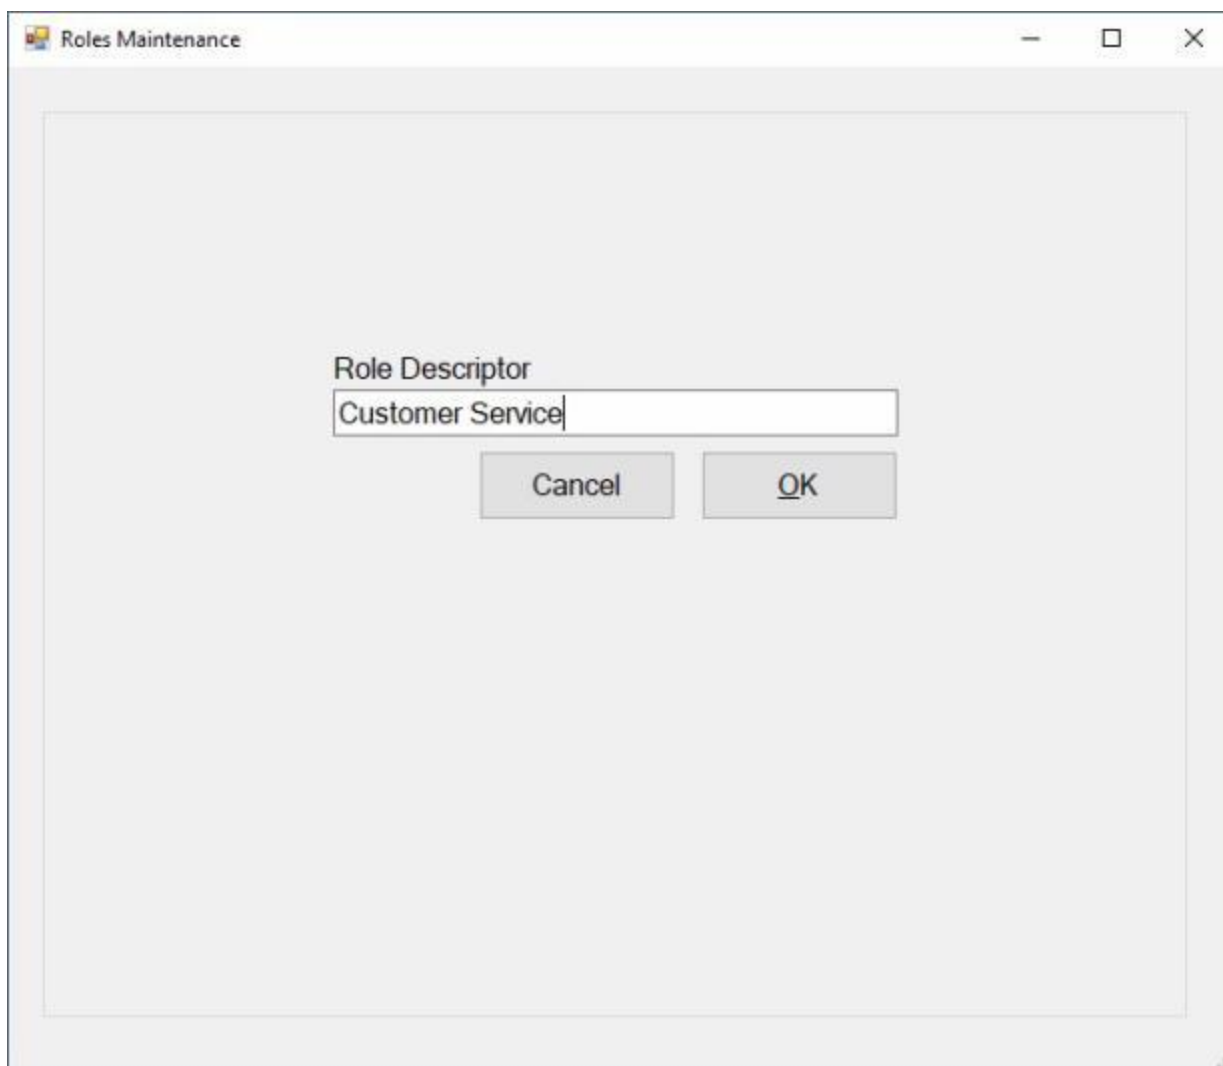

Click on the **Save Changes** button when you have **finished** making your changes.

Adding a New Role:

The screenshot shows the 'Roles Maintenance' window. At the top, there are window control buttons (minimize, maximize, close). Below them, a 'Roles:' dropdown menu is set to 'Admin-InfoOfficer'. To the right of this dropdown are three buttons: 'New Role' (highlighted with a blue border), 'Rename', and 'Delete'. Below these is a table of privileges. The table has two columns: 'Privilege' and 'Apply'. The 'Apply' column contains checkboxes. The 'Backup Database' privilege is checked. Below the table are two buttons: 'All Privileges' and 'No Privileges'. At the bottom of the window are four buttons: 'Print', 'Save Changes', 'Cancel', and 'Help'.

Privilege	Apply
Access DITY Summary Records	<input type="checkbox"/>
Add/Modify IATS User Accounts	<input type="checkbox"/>
Assign DOV Numbers to Payments	<input type="checkbox"/>
Assign/Reassign Blocks to Examiners/Auditors	<input type="checkbox"/>
Auditor Prepay Certification	<input type="checkbox"/>
Backup Database	<input checked="" type="checkbox"/>

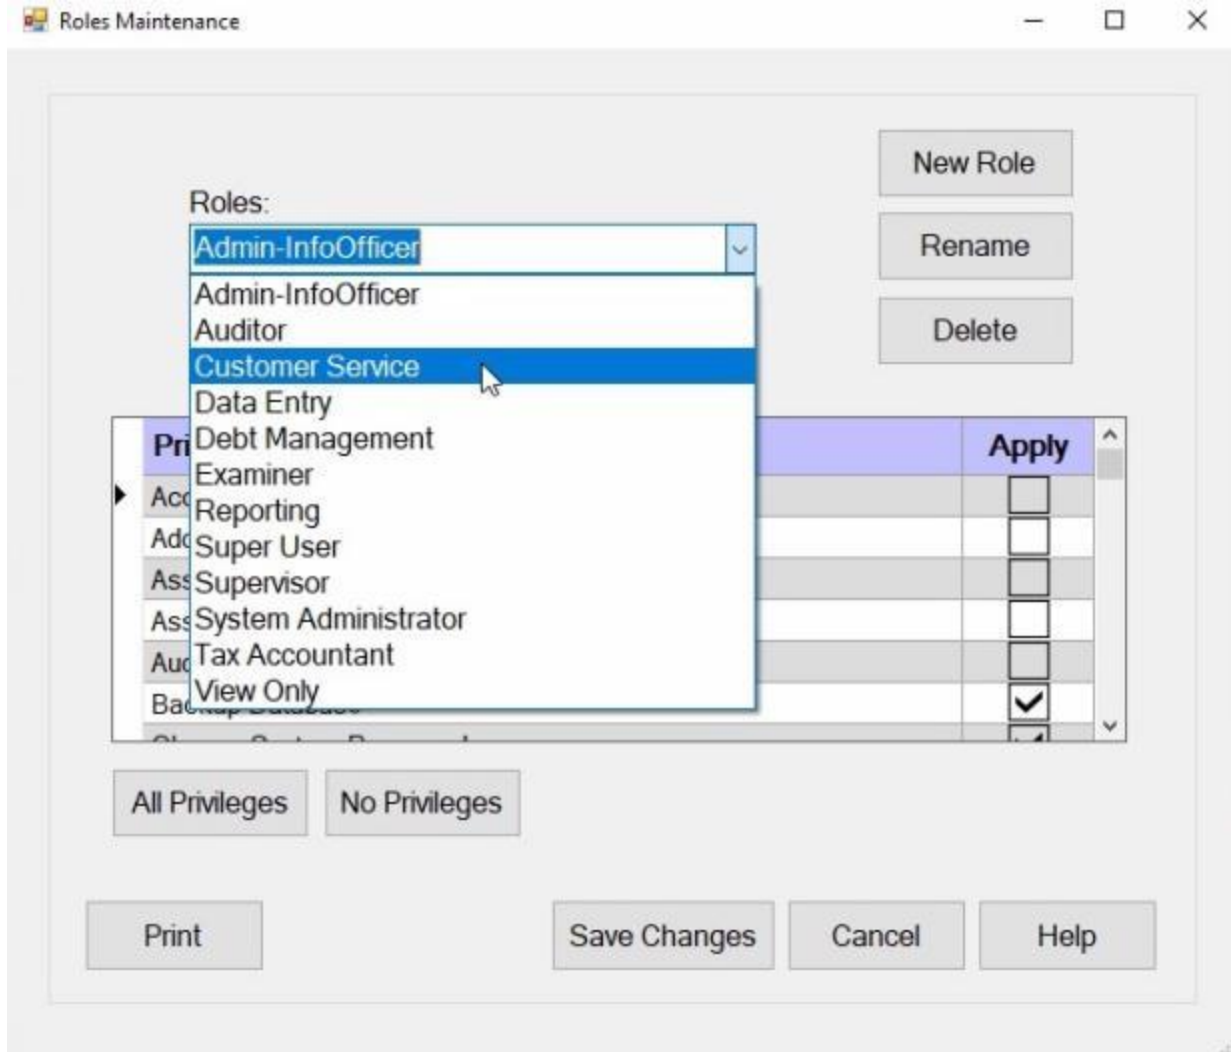

Click on the **New Role** button. IATS will display the **Role Descriptor** field.

At the **Role Descriptor** field, **enter a name** for the new role and then **click** on the **OK** button.

After adding the new role, **use the steps previously described above** to **grant** the desired **privileges** for the new role.

Deleting a Role:

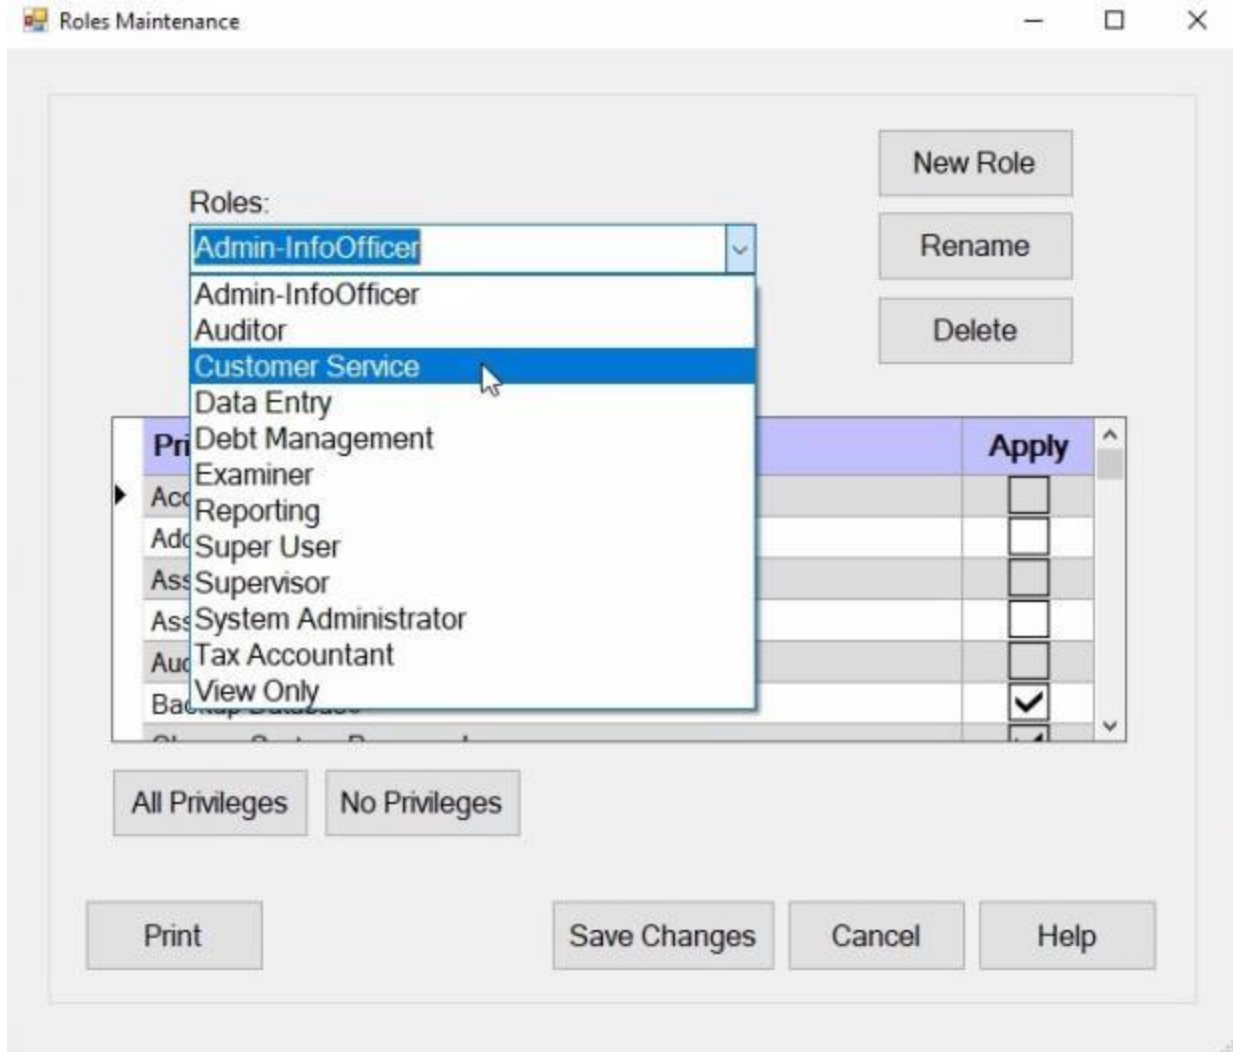

Roles: - At the **Roles** section, **click** on the *down arrow* button. IATS will display a **listing** of various roles.

Click on the **Role** you wish to delete.

Click on the **Delete** button.

Renaming a Role:

Roles: - At the **Roles** section, **click** on the *down arrow* button. IATS will display a **listing** of various roles.

Click on the **Role** you wish to rename.

Click on the **Rename** button. IATS will display the **Role Descriptor** field.

At the **Role Descriptor** field, **enter** the new name for the role as shown above.

After you have entered the new name for the role, **click** on the **OK** button.

Click on the **Save Changes** button when you have **finished** making your changes.

Resetting the CAC Login Access

On occasion it may be necessary for the System Administrator to **reset** an IATS user's CAC login access. This situation will occur under the following scenario:

Scenario: - An IATS user received a new CAC card, but their DoD User ID was changed.

 **Complete the following steps to "reset" a user's CAC login access:**

Change your View to **Maintenance**. At the **Maintenance Main Menu** screen **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters**. An **expandable** menu appears listing the various options.

Click on the **User Passwords and Privileges** option. The **Maintain User Passwords and Privileges** screen appears.

View: Super User Audit: % 0%

At the **Maintain User Passwords and Privileges** screen, **click** on the user name that requires a CAC reset.

Once the correct user name is highlighted, **click** on the **Reset CAC** button.

When finished, **click** the **Save** button.

When **finished** using this screen, **click** the **Exit** button to **return** to the **Maintenance Main Menu** screen.

Forcing Password Changes

IATS users are **required** to change their passwords every 60 days. A feature is included with IATS that automatically forces a user to change their passwords if the monthly **rates update** file is **processed** and 60 days has passed since the last password change. Unless travel offices process the rates update file in a timely manner, the requirement to change passwords does not occur.

To **eliminate** this problem, a feature has been added to IATS that allows a user with the **Add/Modify IATS User Accounts** privilege to **force** the required password changes.

 Complete the following steps to "create" a user account and "assign" privileges:

Change your View to **Maintenance**. At the **Maintenance Main Menu** screen, **click** on the **plus sign** to the left of the item **Configuration/Base Parameters**. An expandable menu appears listing the various options.

Click on the **User Passwords and Privileges** option. The **Maintain User Passwords and Privileges** screen appears.

Enter the user's last name

At the **Maintain User Passwords and Privileges** screen, **click** on the **Change Password** button. A **menu** appears with the option for **All Users** or the **Users in the Default Office**.

Click on the desired choice.

A *pop-up* message appears asking if you are **sure** you want to change the passwords.

Click on *Yes* or *No* as desired.

Note: Clicking the *Yes* button will **force** all users for the selected office to **change** their passwords in order to login to IATS.

After clicking on *Yes* or *No*, **click** the **Exit** button to close the **Maintain User Passwords and Privileges** screen.

Printing User Privileges

System Administrators or individuals with access to the IATS Maintenance module may generate a **print-out** of an individual IATS user's **privileges**.

A print-out may be generated for **one** individual user or **multiple** users.

 Complete the following steps to "print" user account privileges:

Change your View to **Maintenance**. At the **Maintenance Main Menu** screen **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters**. An **expandable** menu appears listing the various options.

Click on the **User Passwords and Privileges** option. The **Maintain User Passwords and Privileges** screen appears.

Print to Excel

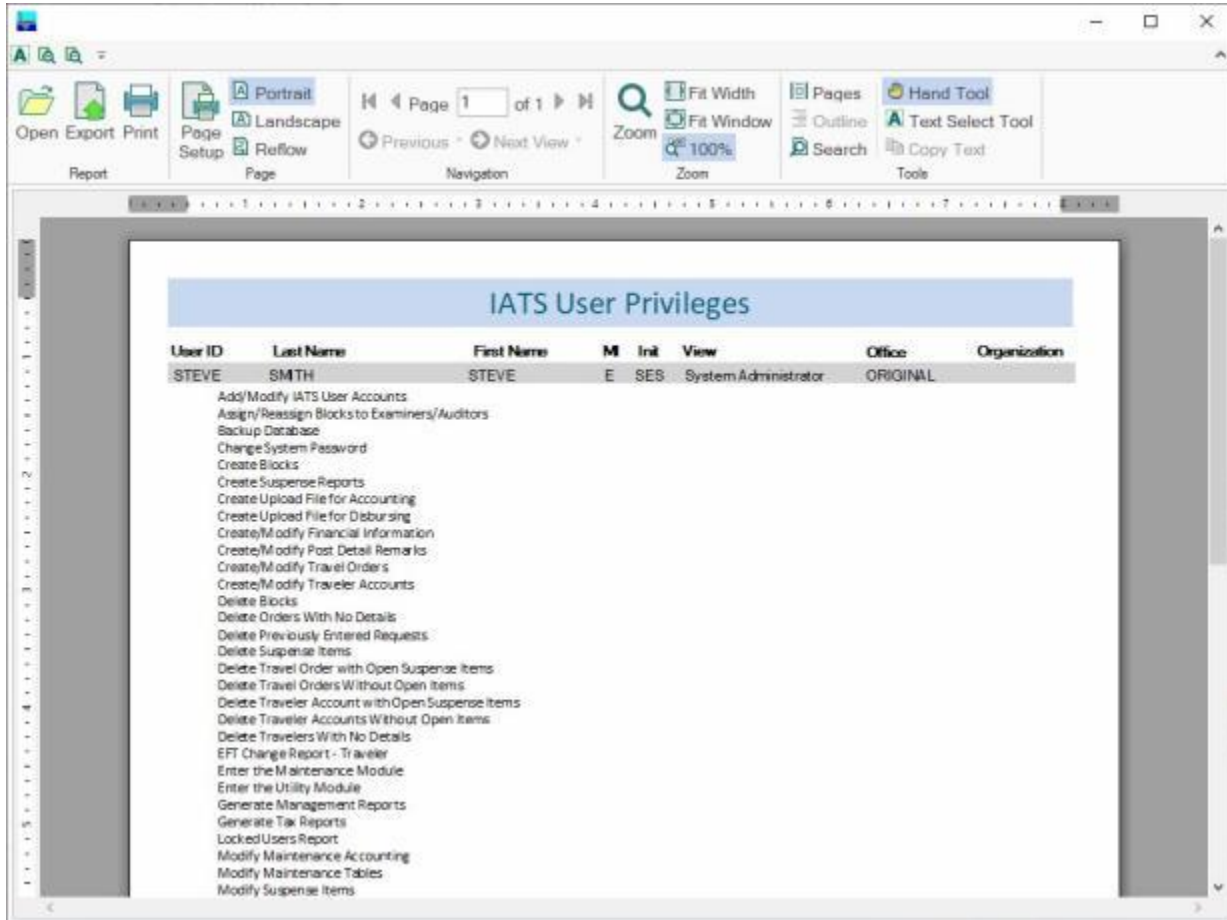

Enter the user's initials:

Click on the **User ID** for the user whose privileges you wish to print.

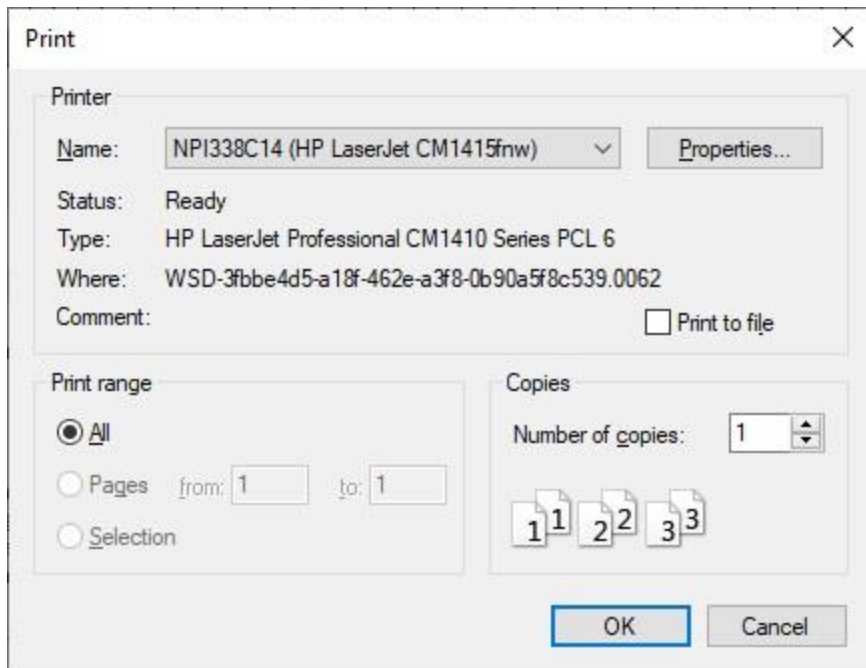

Tip: If your office has numerous user **accounts**, you can quickly find the user account you wish to select by typing the user's **last name** in the **Quick Find** field.

Tip: More than one User ID may be selected. To select consecutively listed User ID's, **click** on the **first User ID**. **Press** and **hold** down the **Shift** key and then **click** on the **last** User ID you wish to print. IATS will **highlight** all of the User ID's between the first and last selections. To select **multiple** users that are not listed consecutively, **press** and **hold** down the **Ctrl** key and then **click** on the **User ID's** you wish to print. IATS will **highlight** all of the selected User ID's.

When the desired User ID's have been selected, **click** on the **Print** button. The **following** screen will appear.

The screen displayed above will show a **list** of all of the **privileges** assigned to the selected user. **Click** on the **Printer** icon at the top of the screen to continue. The **Print** screen will appear.

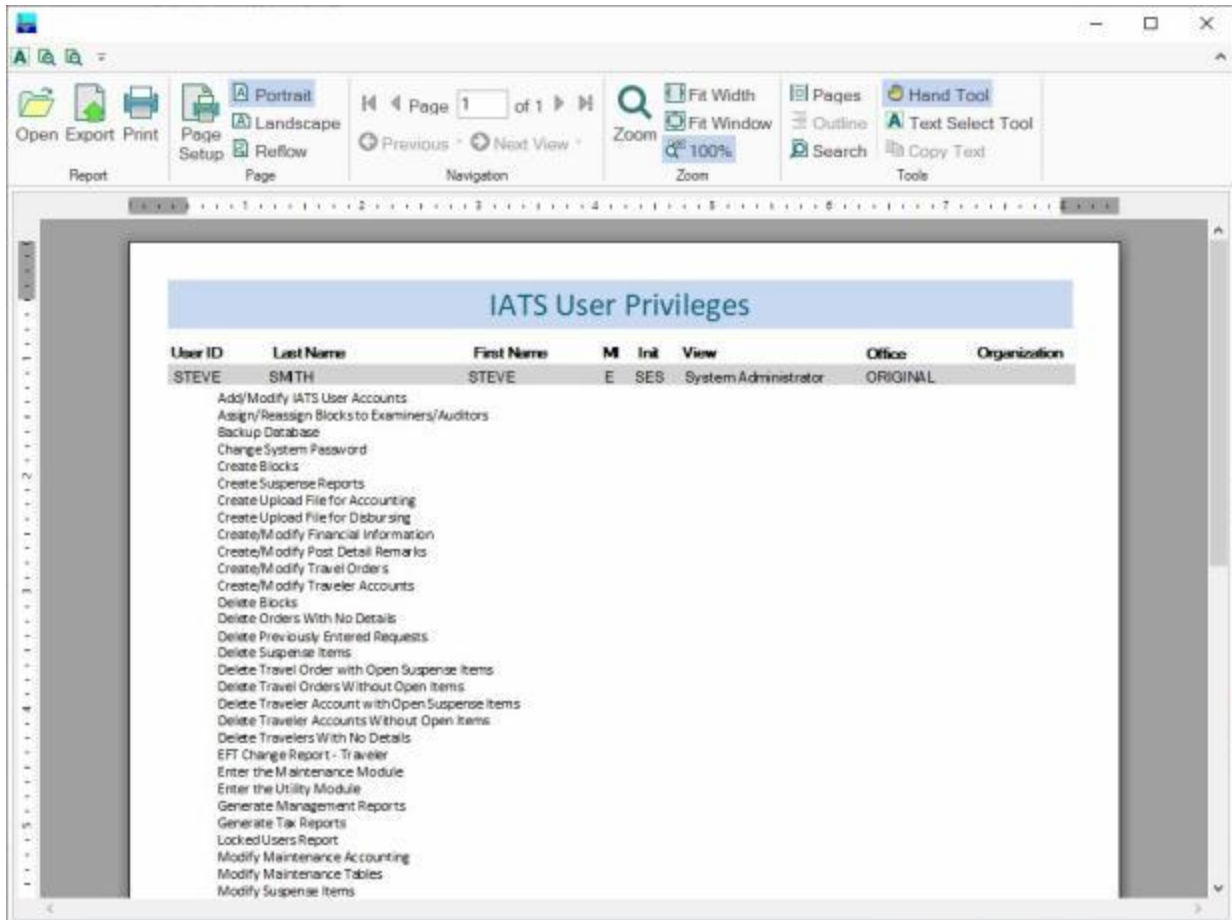

Verify that the **PC** is **configured** for the correct printer or **make** any necessary changes.

Select the number of **copies** you wish to print and **click** the **OK** button. IATS will print the user privileges list.

Tip: The **privileges** may also be **printed to a file** by activating the **Print to File** option on the **Print** screen. After activating this option, you will have to **specify** what **directory** to **save** the file in, the file **name**, and the file **type**. The file should be saved as a **Text** file.

After the user privileges **list** has been **printed**, the following screen will be **displayed** again.

Click on the (X) in the top right corner to **close** this screen and **return** to the **Maintain User Passwords and Privileges** screen.

Enter the user's initials

Print to Excel: - Click in the **check box** to **select** this option.

Click on the **Print** button. IATS will now display the **Save As** screen.

At the Save As screen, **navigate** to the **drive/directory/folder** where you wish to **save** the file to. At the **File name** field, enter a **name** for the file.

After you have selected the location for the file and entered a filename, **click** on the **Save** button. IATS **saves** the file in the **specified location** in an **Excel** format and returns to the **Maintain User Passwords and Privileges** screen.

When you are **finished** using the **Maintain User Passwords and Privileges** screen, **click** on the **Exit** button.

Viewing User Accounts

System Administrators must **determine** the user's **role** within the travel office and **assign** a **view** and the associated **privileges** that are necessary for the required duties.

Tip: In order to **identify** the **status** of IATS users, the following **color codes** are being used:

- **Active Users:** - **Black** letters on a **white** background.
- **Suspended Users:** - **Black** letters on a **yellow** background.
- **Inactive Users:** - **White** letters on a **dark grey** background.

Occasionally, **Supervisors** and **Team Leaders** must **review** the user **accounts** to determine what **privileges** a particular user has been granted and possibly request additional privileges. The **View User Accounts** feature will allow certain users to be able to just view user accounts. No changes may be made, however.

Note: The privilege "**View IATS User Accounts**" may only be granted to individuals with **Super User** or **System Administrator** views. In addition, an individual who has been granted this privilege, **cannot** be granted the privilege "**Add/Modify IATS User Accounts**".

 **Complete the following steps to "view" a user account:**

Change your View to **Maintenance**. At the **Maintenance Main Menu** screen **click** on the **plus sign** to the left of the item **Configuration/Base Parameters**. An expandable menu appears listing the various options.

Click on the **User Passwords and Privileges** option. The **Maintain User Passwords and Privileges** screen appears.

Enter the user's last name

A **listing** of all of the user **accounts** existing in the database is displayed on the left side of the screen.

Tip: If your office has numerous user **accounts**, you can quickly find the user account you wish to select by typing the user's **last name** in the **Quick Find** field.

Click on the **username** you wish to **delete** and then **click** on the **Delete** button. A *pop-up* appears asking if you are **sure** you wish to **delete** the highlighted user.

Click on the Yes button. IATS deletes the selected user account.

When **finished** using this screen, **click** the **Exit** button to **return** to the **Maintenance Main Menu** screen.

Click on the **See All** button below for additional instructions pertaining to maintaining user accounts.

Maintaining Travel Office Information

The information at the **Maintain Travel Office Information** screen is used to **populate** the various **documents, forms** and **letters** generated by IATS.

 **Complete the following steps to "populate" the Maintain Travel Office Information screen:**

Change the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters**. An **expandable menu** appears listing the various options.

Click on the **Travel Office Information** option. The **Maintain Travel Office Information** screen appears.

Maintaining DTOD Web Service Versions

Note: to **use** this feature, you **must** have the option "**Activate DTOD Web Service**" turned on. Refer to the **Help** topic "[Configuring the System Description](#)" for **additional instructions** for **activating** this option.

A feature was added to IATS that allows users to use the **DTOD Web Site** to **obtain** official distances rather than using the DTOD mileage **tables** that are **embedded** into IATS.

The **Maintain DTOD Web Service Version by Date** screen is used to **specify** which **version** of the DTOD to use and which **URL** to be used for accessing the table.

Note: IATS users **must** **populate** the **Maintain DTOD Web Service Version by Date** screen with the various **versions** of the DTOD mileage **tables** in order to specify a **specific** version/effective date for the distance query.

 **Complete the following steps to "maintain" the Maintain DTOD Web Service Version by Date screen:**

Change the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the left of the item **Configuration/Base Parameters**. An expandable menu appears listing the various options.

Click on the **DTOD Web Service Versions** option. The **Maintain DTOD Web Service Version by Date** screen will appear.

Click on the Yes button.

Click on **OK** to **save** your changes and **return** to the **Maintenance Main Menu** screen.

Air Force Maintenance

Maintaining AF DOV Numbers

Air Force travel offices use IATS to assign **DOV #'s**. This must be performed before **creating** an **upload** file to the Central Disbursing System (**CDS**). In order to perform this task, the **DOV # Assignment Table** in the **Maintenance** Module must be populated first.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the left of the item **Accounting** and then **click** on the **Maintain DOV Assignment** option.

 **Complete the following steps to "add" the DOV # parameters to this screen:**

Note: The complete DOV # cannot exceed (8) characters. Anything entered into the **prefix** fields, **reduces** the **positions** available at the **Last/Ending DOV # fields**.

Advance/Settlement DOV #s

Prefix 1: - At this field **type** the **characters** of the **prefix** used with **advance**, or **settlement** payments.

Prefix 2: - At this field **type characters** for the **prefix** used with **advance** or **settlement** payments.

Last Used DOV #: - **Type** the last **advance**, or **settlement DOV #** used by the travel office.

Tip: Ensure that the number at the **Last Used DOV #** field is **reset** to **zero**, before processing the next business day's vouchers, at the **beginning** of each **new fiscal year**.

Ending DOV #: - Type the ending DOV # in the series for advance, or settlement payments. This field should normally be populated with all (9's).

Collection Voucher DOV #s

Repeat steps (1 - 4) above to **populate** the DOV # **parameters** for **collection vouchers**.

When **finished** populating the **Maintain DOV Assignment** screen, **click** on the **OK** button to **save** the entries and **return** to the **Maintenance** menu.

Tip: Generate a **print-out** of the **DOV # Assignment** table by **clicking** on the **Print** button.

Maintaining Tax Accounting Information

The **Tax Accounting Information** table is used to generate **accounting** transactions to **report** any **withholding taxes** that were collected. If performing a **new IATS installation**, this table **should be populated prior** to **processing** travel settlements. The **Maintain Tax Accounting Information** screen represents the **BQ addresses** for **Tax Receipt Accounts**. This information **can be obtained** from the **Travel Accounting Liaison Office** or the **OPLOC**.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Accounting** and then **click** on the **Accounting Classifications** option.

Civilian		Military	
OAC / OBAN	11	OAC / OBAN	1039
Tax DSRA	20	Tax DSRA	18000
Tax PSRA	750	Tax PSRA	11
PCS Tax Appr	1500	PCS Tax Appr	11

Buttons: Print, OK, Cancel, ? Help

Complete the following steps to "populate" the Maintain Tax Accounting Information screen:

OAC/OBAN: - Click in this field and **type** the **Operating Accounting Code/Operating Budget Account Number**. (**Note** that some OPLOC's **do not** use this field.). **Press Tab** to continue.

TAX DSRA: - At this field **type** the **Document Summary Record Account** number. **Press Tab** to continue.

TAX PSRA: - At this field **type** the **Program Summary Record Account** number. **Press Tab** to continue.

PCS Tax Appr: - At this field, **type** the correct **appropriation code** representing **Federal Withholding Tax** in connection with **PCS**. **Press Tab** to continue.

When **finished** populating this screen, **click** on the **OK** button to **save** the entries and **return** to the **Maintenance** menu.

Tip: Generate a **print-out** of the **Tax Accounting Information** table by **clicking** on the **Print** button.

Maintaining AF Fund Codes

Type topic text here.

Maintaining the Air Force Base Description

After the IATS program is installed, some **initial system maintenance** must be performed **prior to processing** any advance or settlement requests on the system. This process is an **extension** of the **initial system configuration**, but **cannot** be performed until the **initial system configuration is completed**, and IATS has been re-started. The initial system maintenance process allows the user to **personalize** the system even further by setting various parameters, and populating a variety of tables.

At the **Maintain Base Description** screen, the user **must** enter the **information** pertaining to the **Finance Office** processing, or disbursing the travel payments.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters** and then **click** on the **Base Description** option.

Complete the following steps to "configure" the Base Description:

Office:

System ID: - The input at this field is used to **identify** the IATS **system** used to compute the travel payment. This is used when **importing** and **exporting** payments **between** IATS **systems**. System ID numbers must be established by the Finance Office. **If** using this feature **enter** the designated **System ID** number, **or** simply **press Tab** to continue.

Government Book Number: - At this field, **type** the **Government Book Number** issued by the organization providing the **Government Charge Card**. This number identifies the **installation responsible** for the program and is included in the transaction whenever a **split payment** is processed.

Returned EFT Email Acct: - At this field, **enter** the **email address** to be used to **identify EFT transactions** that have been **returned**.

Name of Finance Officer: - At this field, **type** the **name** of the **Finance Officer** responsible for **disbursing** the travel payment.

DSSN of Finance Office: - At this field, **type** the Disbursing Station Symbol Number (**DSSN**) for the **Finance Office** **disbursing** the travel payment.

Bank Name: - At this field, **type** the **name** of the **bank** that will be used.

Bank Routing Number: - At this field, **type** the **routing number** for the **bank** that will be used.

Bank Account Number: - At this field, **type** the **account number** for the **bank** that will be used.

Air Force Codes:

Master ASDN: - At this field, **type** the Master ASDN **code** that will be used for your organization.

DJMS ID: - At this field, **type** the DJMS ID **code** that will be used for your organization.

Local AFO Code: - At this field, **type** the Local AFO **code** that will be used for your organization.

Input Location Code: - At this field, **type** the Input Location **code** that will be used for your organization.

CDS Site Code: - At this field, **type** the CDS Site **code** that will be used for your organization.

Brief Block/Paid Stamp:

Lines 1-5: - At this section, **type** the **address** and **other** desired **information** pertaining to the Finance Office disbursing the travel payments. This information will appear in the top right corner of the **printed IATS Travel Voucher**.

When **finished** making the required entries at this screen, **click** on the **OK** button to **save** the entries and **return** to the **Maintenance Main Menu** screen.

Tip: Generate a **print-out** of the **Base Description** by **clicking** on the **Print** button.

AMC Maintenance

Maintaining AMC Accounting Classifications

At the **AMC Accounting Classifications** screen, the user must **enter** all of the accounting **appropriations**, by **fiscal year**, that are **applicable** to the **organizations** serviced. The accounting appropriations are stored in the table using Account Processing Codes (**APC**), Movement Designator Codes (**MDC**), and Job Order Codes (**JO**).

When processing an advance or settlement request, the user can automatically pull the full **appropriation** from the table just by entering the **APC, MDC, or JO** code. This saves many **keystroke** entries, and increases accuracy.

This screen may be **populated automatically** by **processing** an **accounting download file** or by manual input.

Note: To **access** this screen, **change** your View to **Maintenance**. At the **Maintenance Main Menu** screen, **click** on the **plus sign** to the left of the item **Accounting** and then **click** on the **Accounting Classifications** option.

 Complete the following steps to "view" an existing accounting classification:

APC / MDC Code: Click in this field and **type** the **APC, MDC, or JO/SC** code for the appropriation you wish to display.

Click on the **Search** button.

If the accounting classification for the code entered **exists** in the database, the AMC Accounting Classifications screen will re-appear **displaying** the accounting line.

AMC Accounting Classifications

Filter and Search

Click Yes to continue and export all lines of accounting to an Excel spreadsheet.

Click No to cancel.

Yes No

Click on Yes or No as desired.

If you click on **Yes**, the following **Save As** screen will appear.

At the **Save As** screen, you must **name** the file and **specify** the **directory/folder** you wish the file to be saved to.

After you have **named** the file and **specified** the **directory/folder** as shown above, **click** on the **Save** button. The following *pop-up message* will appear.

Click on **OK** to continue.

Army Maintenance

Maintaining Army Accounting Classifications

At the **Army Accounting Classifications** screen, the user must **enter** all of the accounting **appropriations**, by **fiscal years**, which are applicable to the organizations serviced. The accounting appropriations are **stored** in the table using Account Processing Codes (**APC**) and Movement Designator Codes (**MDC**).

When processing an **advance**, or **settlement** request, the user can automatically **pull** the full **appropriation** from the table just by entering the **APC** or **MDC** code. This **saves** many keystroke **entries**, and increases **accuracy**.

The Army Accounting Classifications screen is used to **view**, **edit**, or **delete** existing classifications. You may also use it to manually **add** new classifications.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the left of the item **Accounting** and then **click** on the **Accounting Classifications** option.

Maintaining EOE Codes

At this screen, the user can assign a **code** to each travel **entitlement** and **deductible item** if desired. Then, when the accounting line is generated, IATS uses these codes for each applicable entitlement or deduction.

Current DFAS **policy** mandates the use of four **EOEs** for most **TDY** and **PCS** travel.

- **21T2** - Identifies military and civilian **TDY per diem** and **transportation** allowances.
- **21P4** - Identifies **military PCS advances**, plus, military and civilian **PCS per diem** and **transportation** allowances.
- **4110** - Identifies military and civilian **TDY advances**.
- **4120** - Identify **civilian PCS advances**.

Marine Corps Maintenance

Maintaining the Marine Corps FAN Table

The **Functional Account Number** table contains the valid FAN's associated to the **Marine Corps Active** and **Reserve Military Personnel** appropriations **1105** and **1108**. The FAN's are compatible to the **APC's** entered in the **Marines Accounting Classification** Table.

Maintain Functional Account Numbers

User: SYSTEM

APC-Functional Account Number

APC Code	FAN	Pay Group
AB1	221	122
AB2	223	12
AB3	224	122
*		

Buttons: Delete, Insert, Print, OK, Cancel, ? Help

Enter the APC code.

Note: To access this screen, change your View to **Maintenance**. At the **Maintenance Main Menu** screen, click on the **plus sign** to the left of the item **Accounting** and then click on the **FAN Tables** option.

 **Complete the following steps to "add" a FAN to this table:**

Click on the **Insert** button, a blank line appears at the top of the **grid** under the heading "**APC-Functional Account Number**".

APC Code: - At this field, **type** an **APC Code** associated with an appropriation previously entered at the **Marines Accounting Classification** table and **press Tab**.

FAN: - At this field, **type** the **FAN Code** applicable to the particular travel entitlement and **press Tab**.

Pay Group: - This field is optional and only need to be populated for Marine Corps Reserve appropriations (**1108**). If applicable, **type** the **Pay Group Code** associated with the FAN Code and **press Tab**.

When **finished** adding FAN codes, click on the **OK** button to **save** the entries and **return** to the **Maintenance Main Menu**.

 **Complete the following steps to "delete" a FAN from this table:**

Click on the **APC code** for the **FAN** you wish to delete. IATS highlights the **APC code**.

When the desired **APC** code is highlighted, click the **Delete** button. IATS **deletes** the selected **FAN** from the table.

When **finished** deleting FAN codes, click on the **OK** button to **save** the entries and **return** to the **Maintenance Main Menu**.

Tip: Generate a **print-out** of the **FAN Table** by **clicking** on the **Print** button.

Maintaining Marine Corps Accounting Classifications

The **Marine Accounting Classification** table contains the valid Marine Corps Accounting Classification line data for appropriations **1105**, **1106**, **1107** and **1108**. The accounting appropriations are **stored** in the table using Account Processing Codes (**APC**) and Movement Designator Codes (**MDC**).

When processing an **advance**, or **settlement** request, the user can automatically pull the full appropriation from the table just by entering the **APC** or **MDC** code. This **saves** many keystroke **entries**, and increases accuracy.

The Marines Accounting Classifications screen is used to **view**, **edit**, or **delete** existing classifications. You may also use it to manually add new classifications.

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the left of the item **Accounting** and then **click** on the **Accounting Classifications** option.

 **Complete the following steps to "view" an existing accounting classification:**

APC / MDC Code: - **Click** in this field and **type** the **APC** or **MDC** code for the appropriation you wish to display.

Click on the **Search** button.

If the accounting classification for the code entered **exists** in the database, the Marines Accounting Classifications screen will re-appear **displaying** the accounting line.

Line 2	<input type="text" value="8899 E 56th St."/>	<input type="text"/>	<i>PSA NEW LONDON 78628</i>
Line 3	<input type="text" value="Dept. of the Navy"/>	<input type="text"/>	<i>PSD BRUNSWICK</i>
Line 4	<input type="text" value="Indianapolis, IN."/>	<input type="text"/>	<i>ACCTS: FAADCLANT</i>
Line 5	<input type="text" value="46249"/>	<input type="text"/>	<i>NORVA A5245</i>

Note: To access this screen, change your View to **Maintenance**. At the **Maintenance Main Menu** screen, click on the **plus sign** to the left of the item **Configuration/Base Parameters** and then click on the **Base Description** option.

 Complete the following steps to "configure" the Navy Base Description:

System ID: - The input at this field is used to **identify** the IATS **system** used to compute the travel payment. This is used when **importing** and **exporting** payments between IATS **systems**.

System ID numbers must be established by the Finance Office. **If** using this feature **enter** the designated **System ID** number, or simply **press Tab** to continue.

Government Book Number: - At this field, **type** the **Government Book Number** issued by the organization providing the **Government Charge Card**. This number identifies the **installation responsible** for the program and is included in the transaction whenever a **split payment** is processed.

Name of Finance Officer: - At this field, **type** the **name** of the **Finance Officer** responsible for disbursing the travel payment.

DSSN of Finance Office: - At this field, **type** the Disbursing Station Symbol Number (**DSSN**) for the **Finance Office** disbursing the travel payment.

DSSN ITR: - At this field, **type** the **DSSN** for the **Finance Office** computing the travel payment if different than the office disbursing the payment. You will **notice** that there are **input fields** for whether the claims will be **disbursed** by the **ADS** system or the **DDS** system. **Populate** the field that is **appropriate** for your organization.

ADS Header UIC: - At this field, **type** the **Unit Identification Code** for the office **creating** the **ADS Transmission file**. IATS will then use this value as a **default** when creating the upload file.

Office Type Code: - At this field, **click** on the *down arrow* button to display the following choices:

- **Travel:** - Select this type if the travel office will only compute claims. The claims computed by this office are **disbursed** at another office.
- **Disbursing:** - Select this type if the travel office will only disburse travel claims. The claims disbursed are **computed** at another office.
- **Combined:** - Select this type if the both claims processing and **disbursement processing** are to be **performed** at this office.

Lines 1-5: - At this section, **type** the **address** and **other** desired **information** pertaining to the Finance Office disbursing the travel payments. This information will appear in the top right corner of the **printed IATS Travel Voucher**.

When **finished** making the required entries at this screen, **click** on the **OK** button to **save** the entries and **return** to the **Maintenance Main Menu**.

Tip: Generate a **print-out** of the **Base Description** by **clicking** on the **Print** button.

Coast Guard Maintenance

Performing Vessel Maintenance

The IATS database includes a table that contains **names** of **ships** belonging to the **US Coast Guard**. The information stored in this table is used to identify the traveler's assigned vessel. This table is **populated** and **updated** by **importing** a file that contains the ship information.

The **Vessel Maintenance** screen is used to manually edit or **delete** items from this table.

Note: To **access** this table, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus** sign next to the word **Locality Data** and then **click** on the **Vessel OPFACs and Names** option.

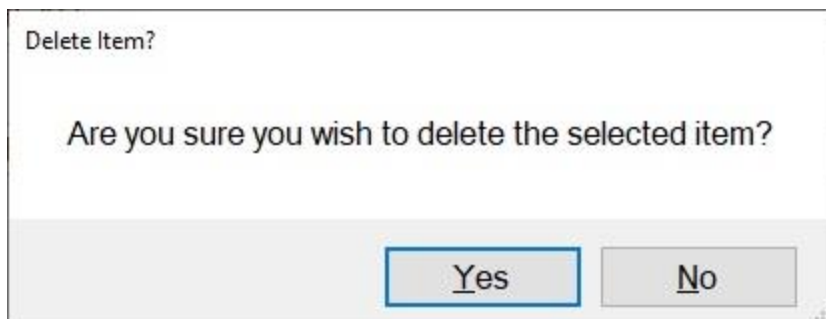

The screenshot shows a window titled "Vessel Maintenance". Inside, there is a section labeled "Vessel Information" containing two input fields. The first field is labeled "ATU OPFAC:" and contains the text "CGC HAMMERHEAD" with a small downward arrow on the right side. The second field is labeled "Vessel Name:" and also contains "CGC HAMMERHEAD". Below these fields are two buttons: "Delete" on the left and "Save" on the right. At the bottom of the window, there are three more buttons: "Print" on the left, "Done" in the center, and "? Help" on the right.

 **Complete the following steps to "delete" existing Vessel information:**

Click on the *down arrow* button at the **ATU OPFAC** field. IATS will display a *drop-down list* of OPFACs:

Click on the desired **OPFAC name** you wish to **delete** a vessel name from.

When you have selected the desired OPFAC/Vessel Name, **click** on the **Delete** button. The following *pop-up message* will appear asking if you are **sure** you wish to delete the selected item.

Click on *Yes* or *No* as desired.

 **Complete the following steps to "edit" existing Vessel information:**

Click on the *down arrow* button at the **ATU OPFAC** field. IATS will display a *drop-down list* of OPFACs:

Click on the desired **OPFAC/Vessel Name** you wish to **edit**.

Click in the **ATU OPFAC** field and **enter** your desired **changes**.

Click in the **Vessel Name** field and **enter** your desired **changes**.

When you are **satisfied** with your entries, **click** on the **Save** button. The following *pop-up message* will appear

Click on **OK** to continue.

Performing Unit Maintenance

The IATS database includes a table that contains **names** of **units** associated to the **US Coast Guard**. The information stored in this table is used to identify the traveler's assigned unit.

The **Unit Maintenance** screen is used to manually **add**, **edit**, or **delete** items from this table.

Note: To **access** this table, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus** sign next to the word **Locality Data** and then **click** on the **Office Codes, Units and Names** option.

The screenshot shows the 'Unit Maintenance' window. It contains the following fields and controls:

- Unit Information** section:
 - ATU OPFAC:** A dropdown menu with the selected value '0113412 (SANIBEL)'.
 - Unit Description:** A text input field containing 'SANIBEL'.
- Configuration fields:
 - Funds Used:** A dropdown menu with 'Coast Guard' selected.
 - Default AO:** A text input field with '111991111'.
 - Default AO's Unit:** A text input field with 'CG-HQ'.
 - Cost Center:** A text input field with '123456'.
- Buttons:** 'Delete', 'Save', 'Print', 'Done', and '? Help'.

Refer to your supervisor or system administrator for instructions on using this screen.

Note: When adding a date parameter to the SQL string, use #date1 and #date2. When adding a Unit command parameter, use #unit1 and #unit2

Name: Description:

SQL Command:

Save This Command Done ? Help

Select an existing query from the list to edit or click Add to create a new one.

 Complete the following steps to "edit" an existing SQL command:

SQL Command Name: - Click on the **down arrow** button at the **SQL Command Name** field. A **drop-down list** of **existing SQL commands** is displayed.

Click on the desired SQL Command **Name** to make your selection.

The information for the selected command will be displayed at the **Name**, **Description** and **SQL Command** fields.

Click in the **Name**, **Description** and **SQL Command** fields and **enter** your **changes** as desired.

When you are **satisfied** with your entries, **click** on the **Save This Command** button.

 **Complete the following steps to "delete" an existing SQL command:**

SQL Command Name: - **Click** on the *down arrow* button at the **SQL Command Name** field. A *drop-down list* of existing **SQL commands** is displayed.

Click on the desired SQL Command **Name** to make your selection.

The information for the selected command will be displayed at the **Name, Description** and **SQL Command** fields.

If the correct SQL Command that you wish to delete is displayed, **click** on the **Delete** button.

 **Complete the following steps to "add" a new SQL command:**

Click on the **Add New** button.

Click in the **Name** field and **enter** a **name** for the new SQL Command.

Click in the **Description** field and **enter** a **description** for the new SQL Command.

Click in the **SQL Command** text box and **enter** the new SQL Command.

When you are **satisfied** with your entries, **click** on the **Save This Command** button.

Configuring the TPAX Parameters

Some IATS customers **import** travel **claims** from **TPAX** to be processed through IATS for payment. As part of the IATS configuration feature, there is a **special option** to **configure** IATS for **TPAX unique** procedures.

 Complete the following steps to "configure" the TPAX Parameters:

Note: To access the IATS Configuration screen, change the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the **left** of the item **Configuration/Base Parameters** and then click on the **Configuration** option.

The screenshot shows the 'IATS Configuration (ORIGINAL MASTER DATABASE)' window. At the top, 'Customer' and 'TPAX Customer' are both set to 'Coast Guard'. Below this are three tabs: 'Interface File Directories', 'T-PAX URLs', and 'Misc. Settings'. The 'Interface File Directories' tab is active, showing fields for 'Download Directory' (c:\DOWNLOAD), 'Upload Directory' (c:\UPLOAD), and 'Image Directory' (C:\PROGRAM FILES\WINDOWS\IATS\IMAGES), each with a 'Browse' button. Below this is the 'System Description' section with a grid of checkboxes for various features. To the right is the 'Blocking' section with dropdowns for 'Blocking Number Assigned' (Automatic), 'Skeleton' (YYMDD####), and 'Next Available' (20C0300002), along with a '# Days Before Block Deletion' field (0) and a 'No Priority' checkbox. Below that is the 'Inbound and Outbound Interfaces' section with a 'Disbursing Interface' dropdown (DAFIS) and a 'Local DITY TONOs Only' checkbox. At the bottom right, the 'T-PAX Parameters' section is highlighted with a red box. It contains the following options:

DB is Shared	<input checked="" type="checkbox"/>	Enable Image Uploads	<input checked="" type="checkbox"/>
Pass Claims to Disbursing	<input checked="" type="checkbox"/>	Pass Claims to Auditors	<input checked="" type="checkbox"/>
Print Voucher Facsimile	<input type="checkbox"/>	Max Claims per Block	20

At the bottom of the window are 'Print', 'OK', 'Cancel', and 'Help' buttons.

Note: At the **IATS Configuration** screen, you will see a **section** in the **lower right corner** titled **T-PAX Parameters**. A **check mark** in the **check boxes** indicate that the TPAX unique feature is **activated**.

DB is Shared: - Click in the **check box** to **activate** or **de-activate** this feature as appropriate for your organization.

Pass Claims to Disbursing: - Activating the feature will cause IATS to automatically move the claims imported from TPAX to the **Disbursing** module. Click in the **check box** to **activate** or **de-activate** this feature as appropriate for your organization.

Print Voucher Facsimile: - **Click** in the **check box** to **activate** or **de-activate** this feature as appropriate for your organization.

Enable Image Uploads: - **Click** in the **check box** to **activate** or **de-activate** this feature as appropriate for your organization.

Pass Claims to Auditors: - Activating the feature will cause IATS to automatically move the claims imported from TPAX to the **Auditing** module. **Click** in the **check box** to **activate** or **de-activate** this feature as appropriate for your organization.

Max Claims per Block: - The **number** at this field places a **limited** on how many **claims** imported from TPAX can be placed on a block. **Click** in this field an **enter** the **number** as appropriate for your organization.

Click on the **OK** button to **save** your entries when you have **finished** configuring the TPAX Parameters.

Routing Imported TPAX Claims

For Claims **imported** from **TPAX**, a Table exists in the IATS Maintenance module that allows you to **specify** whether to **route** the claim directly to the **Auditing** or to the **Disbursing** modules.

The **How To Route Imported TPAX Entitlements** screen is used to **establish** the **criteria**.

Entitlement	ToWhere
Temporary Duty Trip	<input checked="" type="radio"/> To Auditor <input type="radio"/> To Disbursing
Enroute PCS Travel	<input type="radio"/> To Auditor <input checked="" type="radio"/> To Disbursing
Drop Off Vehicle at Port	<input type="radio"/> To Auditor <input checked="" type="radio"/> To Disbursing
Pick Up Vehicle at Port	<input type="radio"/> To Auditor <input checked="" type="radio"/> To Disbursing
House Hunting Trip	<input type="radio"/> To Auditor <input checked="" type="radio"/> To Disbursing
Sell House/HMIP	<input type="radio"/> To Auditor <input checked="" type="radio"/> To Disbursing

Ship POV	<input type="radio"/> To Auditor <input checked="" type="radio"/> To Disbursing

Note: To access this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, click on the **plus sign** to the left of the item **Constants/Descriptions** and then **click** on the **Routing of TPAX claims in IATS** option.

Complete the following steps to "route" imported TPAX claims:

At the **How To Route Imported TPAX Entitlements** screen, you will see a **grid** listing all of the various travel **entitlements**. The grid is **separated** by **two columns**. One for the **Entitlements** and another for **To Where** the claim should be routed.

On the right side of the grid you will see a **slider bar** and **up/dn arrow** buttons. You can either **drag** the **slider bar** up or down or **click** on the **up/dn arrow** buttons to **scroll** through the list of entitlements.

When you have **determined** which entitlement you would like to route, **click** in the **radio button** for either **To Auditor** or **To Disbursing**.

When you have **finished** making your selections, **click** on the **OK** button to **save** your changes.

Maintaining Tax Recoupment Items

IATS includes **Tax Recoupment Items** table that is used to **account** for the **types** of **tax collection entitlements** that have been processed.

The **Tax Recoupment Items** screen is used to **store** these various **entitlements**.

Code	Description	Is Used
1	HHG Temp Storage	NO
*		

Buttons: **Delete**, **OK**, **Cancel**, **? Help**

Note: To **access** this screen, **change** the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Constants/Descriptions** and then **click** on the **Tax Recoupment Items** option.

Complete the following steps to "add" entitlements to the Tax Recoupment Items table:

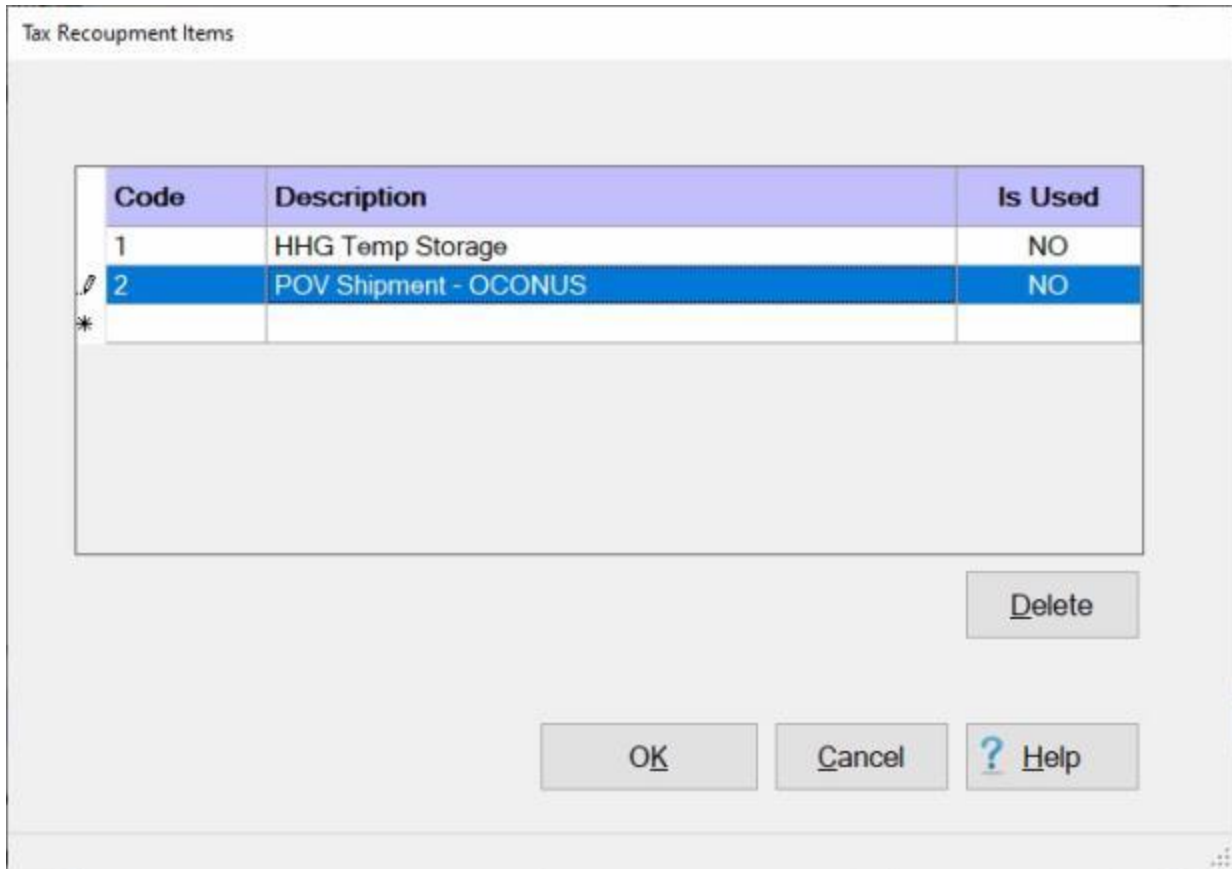

Code: - **Click** in the **Code** field and **enter** the **code** for the **entitlement** you wish to **add** and then **press Tab**.

Description: - **Enter** a **description** for the **entitlement** you wish to **add** and then **press Tab**.

Is Used: - The **default value** at the **Is Used** field will be **No**. Once a tax collection claim is processed for an item listed in this table, IATS will **change** the value in this field to **Yes**. This will then **lock** this item to **prevent** a user from being able to **delete** it.

When you have **finished** entitlements to this table, **click** on **OK** to **save** your entries.

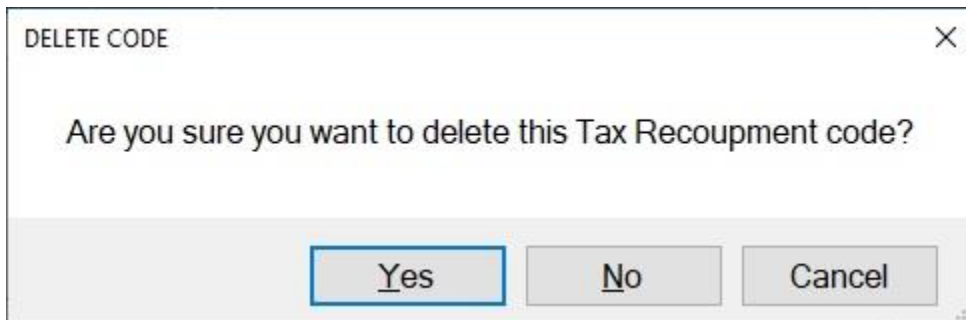

Complete the following steps to "delete" entitlements from the Tax Recoupment Items table:

Note: You cannot delete an entitlement from this table if the value shown at the **Is Used** field is Yes.

Click in the column to the left of the **Code** field for the entitlement you wish to delete.

When the desired entitlement is **highlighted in blue as shown above**, **click** on the **Delete** button. IATS will **display** a *pop-up message* asking if you are **sure** you wish to **delete** the selected Code.

Click on Yes if you wish to **continue** and **delete** the Code.

Collection Letters

Collection Letters Overview

To **assist** the travel office supervisor with **managing outstanding suspense items**, IATS will generate **automatic collection letters**.

The following letters are reserved for a specific purpose:

Letters 1-3: - These are free form letters used by the travel office to **contact** the traveler when the **settlement** yields an amount "**Due U.S.**" IATS prompts the user to **enter** a collection letter **number** when processing a "**Due U.S.**" settlement.

Letter-4: - This letter is generated when a **settlement not received** within the specified number of days after the traveler's expected date of **return**.

Letter-5: - This letter is a computer-generated **DD Form 139**, Pay Adjustment Authorization. It is generated when the **suspense date stated** on **letter-4** is past, and a **settlement** voucher or **payment** was not received. This form is used to **collect** the amount due from the traveler's **payroll**.

Letter-6: - This letter is used to **advise** the traveler that an **EFT transaction** was **processed**, but **changes** were made to the **account information** residing in the IATS data base.

Letter-7: - This letter is used to **advise** the traveler that an **EFT transaction** was **processed**, but **rejected** for the reason stated in the letter.

Click on the **See Also** button below and **select** the **topic** that provides detailed **instructions** for maintaining collection letters.

Creating Collection Letters

To **assist** the travel office supervisor with **managing outstanding suspense items**, IATS will generate **automatic collection letters**. When IATS is installed, **sample** letters, **1**, through **5** are included. The **System Administrator**, however, may want to **create** additional letters.

As stated in the **Help** topic, "[Collection Letters Overview](#)", letters (**1 - 3**) are **free form** letters that can be **produced** when a settlement is processed that yields an amount **Due the US**. Since there are essentially **three** types of **settlements** processed that are **likely** to yield an amount Due the US, a System Administrator **may** want to use these letters in the following manner:

- **Letter 1:** - TDY Due US
- **Letter 2:** - MILPCS Due US
- **Letter 3:** - CIVPCS Due US

In addition, letters **6** and **7** pertain to **EFT transactions**. The System Administrator may **also** want to **create** these letters, as well, to advise customers when **changes** to their account were made or there were **problems** associated with processing their **transactions**.

 **Complete the following steps to "create" collection letters:**

Change the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters**. An **expandable menu** appears listing the various options.

Click on the **Letters** option. The **Maintain Collection Letters** screen appears.

Click on the **down arrow** button at the **Letter Number** field to display a **list** of available letters.

Click on the desired **number** to make your selection.

Maintain Collection Letters

Letter Number: **B** *I* U [List Icons]

TO: [NAME] [DATEOFLETTER]
 [ADDRESS1]
 [ADDRESS2]
 [CITY] [STATE] [ZIPCODE]

FROM: Travel Section

Prior to your trip on order number [TON] for travel performed from [DEPARTDATE] to [RETURNDATE], you received an advance of travel in the amount of [TRAVADV] on DOV number [ADVDOV].

This office has completed processing your settlement claim. The settlement had a total entitlement of [TOTENT]. This amount, reduced by your advance leaves an amount owed the US Government of [AMTDUE]. The DOV number for your settlement is [DOV].

You can pay the [AMTDUE] by sending your payment with the attached cash collection voucher. This office will wait for payment until [SUSPENSEDATE] at which time it will be forwarded for payroll collection.

Note: When you are creating a new letter, you may use an existing letter as the **basis** for the new letter and just **edit** this letter as desired.

Review this letter to see if this letter should be used as the **basis** for the new letter or if a **completely new** letter is needed.

Click on the **Add New Letter** button. The **Add New Letter** screen appears.

Add New Letter

New Letter No:

Create Blank Letter
 Create From Letter No:

New Letter No: - At this field, **type** the **number** of the new letter being created and **press Tab**. You can also **click** on the *Up* or *Dn* **arrow** buttons to **select** the desired number.

Create Blank Letter: - Click in the **circle** next to this option if you would like to **create** a completely **blank** letter to be designed by the System Administrator.

Create From Letter No: - Click in the **circle** next to this option if you would like to **create** a new letter based on a previously **existing** letter. If this option is selected, **click** on the *down arrow* button to display a **list** of the previously **existing** letters and then **click** on the desired **number** to make a selection.

After entering the required information, **click** on the **Create New** button. IATS **creates** the new letter and **returns** to the **Maintain Collection Letters** screen with the new letter **displayed** as shown below.

With the new letter displayed, **click** inside the **body** of the letter and **type** the new text or **make** the required **changes** to the existing text.

When **finished** creating the new letter **click** on the **OK** button to **save** the new letter and **return** to the **Maintenance Main Menu**.

Refer to the **Help** topic, "[Modifying Collection Letters](#)", for additional **instructions** on adding text and **symbols** into a collection letter.

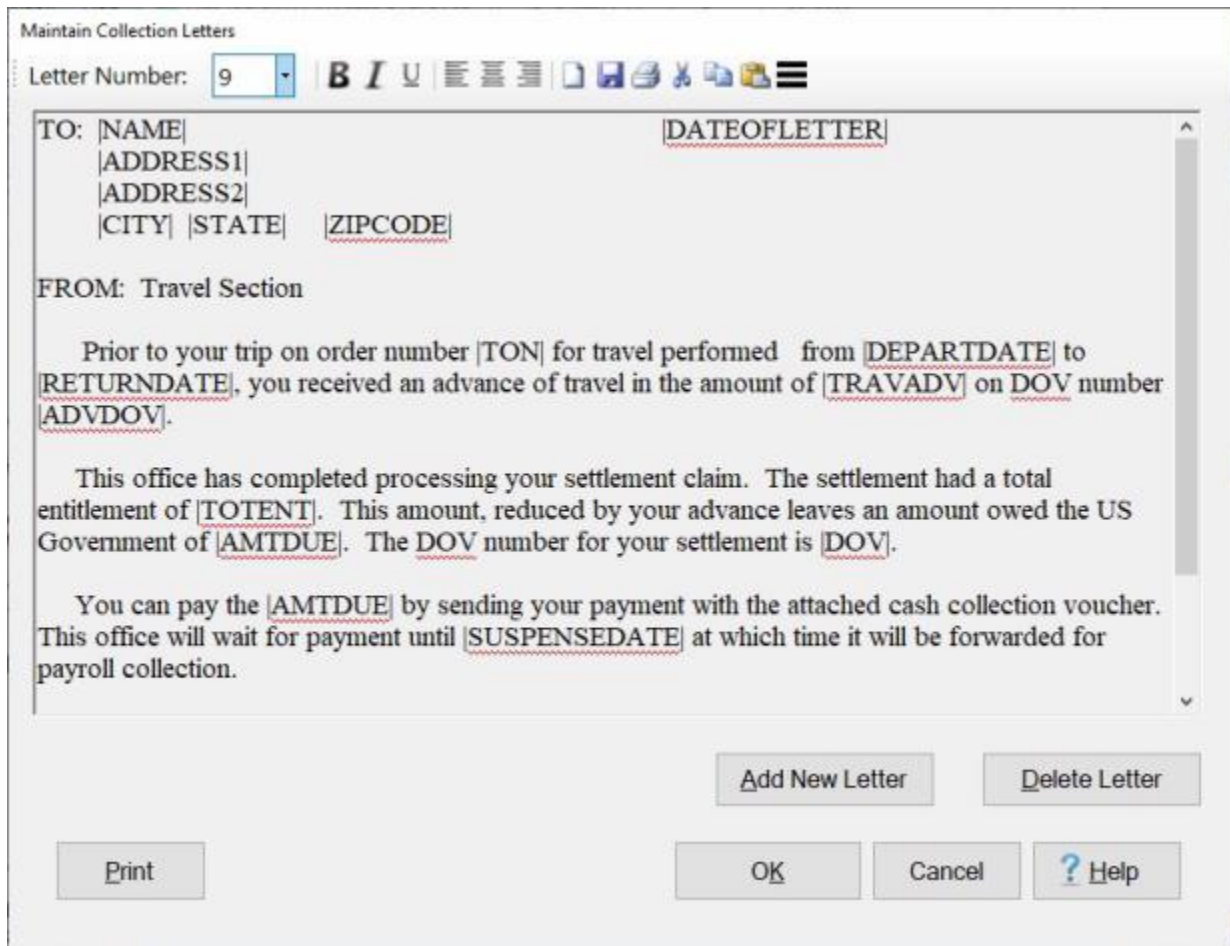

Modifying Collection Letters

To **assist** the travel office supervisor with **managing outstanding suspense items**, IATS will generate **automatic collection letters**. When IATS is installed, **sample** letters, **1**, through **5** are included. As part of the initial maintenance, the **System Administrator must modify** these letters to **personalize** them for the **organization's** use.

 **Complete the following steps to "modify" collection letters:**

Change the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters**. An **expandable menu** appears listing the various options.

Click on the **Letters** option. The **Maintain Collection Letters** screen appears.

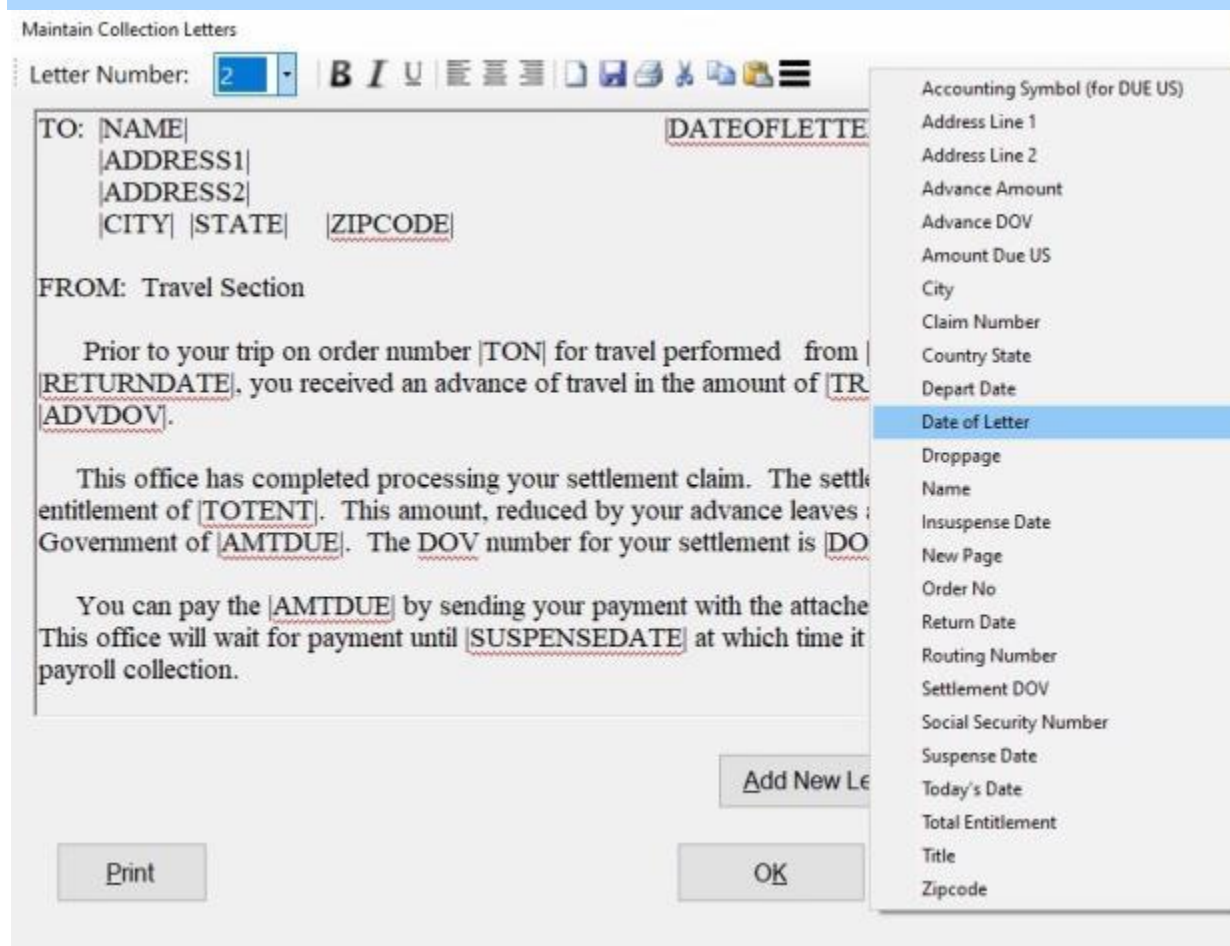

Click on the **down arrow** button at the **Letter Number** field to display a **list** of the **existing** letters and then **click** on the **number** of the letter you wish to modify to make a selection. IATS **displays** the **selected letter**.

With the desired letter displayed, **type** the **new text** or **make** any desired **changes** to the **existing text**.

Note: As shown in the letter displayed **above**, the IATS collection letters **must** contain **symbols** that automatically **populate** the letter with **information**, such as, the traveler's **Name, SSN, Address, Travel**

Order Number, etc. These symbols are hard-coded into IATS and may be selected from a **list** that can be displayed by **clicking** on the **icon** titled **Abbreviations** (furthest to the right) on the **tool bar** at the **top** of this screen. **Refer** to the screen below for an **example**:

Add a symbol to the letter, if desired, by **clicking** in the **body** of the letter, where you wish the symbol to be placed, to **position** the **cursor**. **Click** on the **down arrow** button on the **tool bar** at the **top** of this screen. When the **list** of symbols is displayed, **click** on the desired **symbol** to place it into the body of the letter.

Note: Never type a dollar sign into the body of the letter where a **symbol** is being placed that will **populate** the **position** with a **dollar amount**. IATS is **programmed** to **automatically include** a **dollar sign**. If the user types a dollar sign, the **letter will print** with **two dollar signs**.

Tip: Use the **tool bar** at the top of this screen to **add effects**, **change the alignment**, **cut and paste text**, etc. **Refer** to the screen below for an **example**:

If you **point** to any **button** on the **tool bar**, a **tip** appears **indicating** what the **tool** may be used for. In the tool bar **screen** displayed above, the **pointer** was **positioned** on the letter **B** tool. The displayed **tip** indicates that this tool is used to make the selected text **bold**.

When **finished** modifying the letter **click** on the **OK** button to **save** the letter and **return** to the **Maintenance Main Menu** screen.

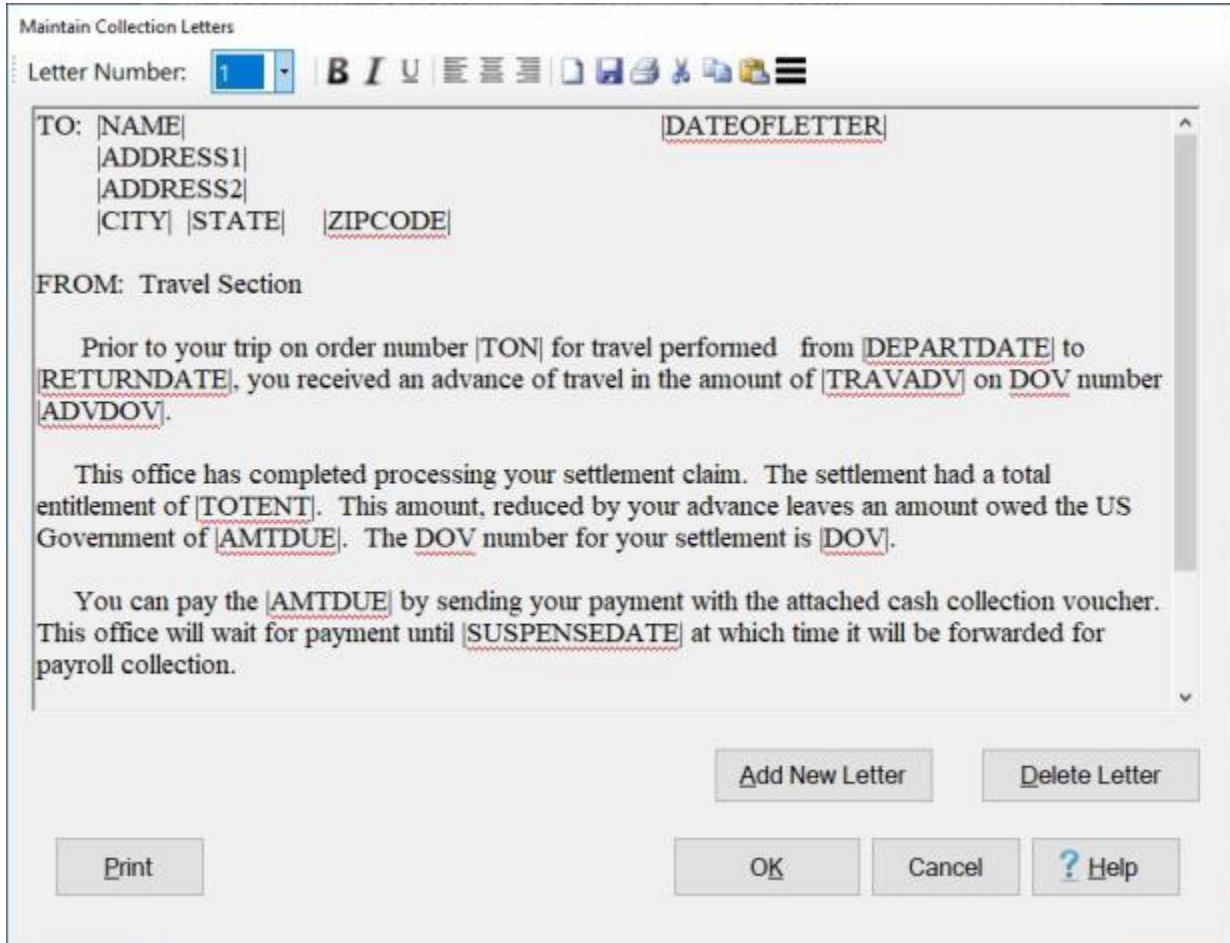

Deleting Collection Letters

On occasion, it may be necessary to **delete** an existing **collection letter**.

 **Complete the following steps to "delete" a collection letter:**

Change the View to **Maintenance**. At the **Maintenance Main Menu**, **click** on the **plus sign** to the **left** of the item **Configuration/Base Parameters**. An **expandable menu** appears listing the various options.

Click on the **Letters** option. The **Maintain Collection Letters** screen appears.

Maintain Collection Letters

Letter Number:  **B** *I* U
