APC Changes

Starting November 9th STANFINS will no longer be used for Army Military PCS entitlements. PPM/DITYs that have taxes withheld will need an update to the APC being used from T935MP to T935GW. ODS will no longer accept the T935MP APC. The new APC will need to be loaded into IATS and should be used for all PPM/DITY tax lines. For instructions on how to add the APC, navigate to Maintaining Army Accounting Classifications within the IATS Help section.
