

PLEASE DISTRIBUTE TO TRAVEL BRANCH SUPERVISORS AND EXAMINERS

Volume XXIV

Number 7

July 2022

CURRENT/FUTURE RELEASES

The current version is 7.5.0 if sites are staying on Sybase 17 and 8.1.0 if sites are moving to MS SQL.

Migrate to MSSQL NOW

This is a reminder to all the offices that have not migrated to MSSQL version of IATS, the Sybase licenses are **NOT** being renewed by DFAS for the next fiscal year. You must migrate to MSSQL or purchase your own Sybase license before September 30th, 2022.

IATS Help Desk

Contact the following to obtain assistance

IATS HELP DESK:

Email: dfas.indianapolis-in.ztd.other.iats-help-desk@mail.mil **Commercial:** (317) 212-7718
DSN: 699-7718

The 7.5.1 & 8.1.1 IATS release was created to correct a RITA related issue found in 7.5 & 8.1. The May rate CD contains this update. Any office that processes Civ PCS claims, must use the one of these installers to upgrade their IATS version from 8.1.0 or 7.5.0 to 8.1.1 or 7.5.1 prior to processing RITA claims. If a site has started processing RITA claims, prior to installing 7.5.1 or 8.1.1, contact the IATS Help Desk for an SQL query to identify claims that may require a supplemental claim processed.

Refresher for Student Travel

In order to properly pay a traveler who fly's direct from OCONUS to CONUS or CONUS to OCONUS, Student Travel is programmed to expect a POINT of Disembarkation (POD) on the traveler's itinerary to compute correctly. There is no way there is a direct flight from Kaiserslautern, Germany to Stephenville, TX. So have the examiners enter a terminal in the US where they disembarked (i.e., Dallas, TX).

IATS 7.5 & 8.1

Expand the USERID field to 12 Digits

Prevent Importing Duplicate HHG Invoices

Create a RITA Eligible Report

Offset TPP Debts

Add Checkbox for Untaxed Foreign Nationals

Modify Military Dependent Travel Profiles and orders created before 1/11/2022

Fix an Error deleting Unlocked SmartVoucher Advance on Settlement

Emergency Release 7.5.1 & 8.1.1

RITA claim processing
