- C. 1 CD labeled: JANUARY 2022 RATES UPDATE (now with the IATS 7.4/8.0 manual)

IATS RATES UPDATE INSTRUCTIONS

A. This month's update includes OCONUS, ILP, Dislocation Allowance (DLA), Government Meal, and Mileage rates, eff 1-01-2022. Holiday schedule for 2022. Army EOR reverting back to 21T2.

Step 1 Copy the file, UPDATE324_Jan0122(Sybase).ZIP for 7.X.X IATS programs or UPDATE324_Jan0122(MSOL).ZIP for 8.X.X IATS programs, to the location you will use for this and later updates. (You can leave the updates on the (CD) and have the system look for the update on the CD each month) **(IATS 7.4.0 and later programs will only recognize the Sybase file and IATS 8.0.0 and later programs will only recognize the MSOL file).** Once IATS learns this location it will remember it from the previous update

Step 2 Login to Maintenance with a user who has rights to update rates. A Superuser works well.

Step 3 Expand the "Configuration/Base Parameters"

Step 4 Click the entry "Update All Rates/Locations"

Step 5 Browse the "Show update-files in directory" on the UPDATE RATES AND LOCATIONS screen and find where you copied the attached file. Note: If the files were copied in the same locations as last month's update, the file should be displayed.

Step 6 If step 5 was correct you will see the current update in the "Available update-files:" block. Click the "Update the rates/Locations using the Selected Files" button to begin.

Step 7 Answer the prompts

NOTE: Check these locations to insure the rates updated. If WinIATS rates are different you will need to contact DFAS or your WinIATS support organization. Do not do this lookup in Maintenance since you may accidentally override one of the dates. Use the rate lookup option.

COUNTRY OR STATE / CITY	DATE	LODGING	M&IE	MAXIMUM
ALBANIA TIRANA	01/01/2022	128	85	213
TURKEY ANKARA	01/01/2022	162	49	211

These are only some of the locations that have changed. They are listed so you have a location toward the front of the alphabet and the end of the alphabet to check. If these updated correctly then the theory is that all the locations between have updated. You can use other locations from the PDTATAC web site to check the rates also.
