SUBJECT: Rates Update CD For May 2024

NOTE: YOU MAY HAVE TO CLEAR THE CACHE ON YOUR COMPUTER WHEN TRYING TO DOWNLOAD RATES.

The following is a list of items enclosed:

- A. Information cover sheet and instruction sheet for loading rates for IATS
- B. IATS flyer for May 2024
- C. 1 CD labeled: MAY 2024 RATES UPDATE (now with the IATS 8.5 manual)

IATS RATES UPDATE INSTRUCTION

This month's update includes OCONUS Rates effective 05-01-2024.

NOTE: Sybase versions of the rates update must be obtained from the Help Desk for those DFAS offices.

Step 1 Copy the file, UPDATE352_May0124(Sybase).ZIP for updating Sybase databases or UPDATE352_May0124(MSOL).ZIP for updating MSOL databases, to the location you will use for this and later updates. (You can leave the updates on the (CD) and have the system look for the update on the CD each month) **IATS programs using Sybase databases will only recognize the Sybase file and IATS programs using MSOL databases will only recognize the MSOL file.** Once IATS learns this location it will remember it from the previous update

Step 2 Login to Maintenance with a user who has rights to update rates. A Superuser works well.

Step 3 Expand the "Configuration/Base Parameters"

Step 4 Click the entry "Update All Rates/Locations"

Step 5 Browse the "Show update-files in directory" on the UPDATE RATES AND LOCATIONS screen and find where you copied the attached file. Note: If the files were copied in the same locations as last month's update, the file should display.

Step 6 If step 5 was correct you will see the current update in the "Available update-files:" block. Click the "Update the rates/Locations using the Selected Files" button to begin.

Step 7 Answer the prompts.

NOTE: Check these locations to insure the rates updated. If WinIATS rates are different you will need to contact DFAS or your WinIATS support organization. Do not do this lookup in Maintenance since you may accidentally override one of the dates. Use the rate lookup option.

COUNTRY OR STATE	CITY	DATE	LODGING	M&IE	MAXIMUM
BRAZIL	NATAL	05/01/2024	194	83	277
URUGUAY	COLONIA	05/01/2024	190	133	323

These are only some of the locations that have changed. They are listed so you have a location toward the front of the alphabet and the end of the alphabet to check. If these updated correctly then the theory is that all the locations between have updated. You can use other locations from the PDTATAC web site to check the rates also.
